The maximum height of buildings or other structures shall be regulated by the special controls set forth in this Chapter established pursuant to the authority conferred under Article 14 of the General Municipal Law, in order to prevent the construction of obstructions to air navigation in the vicinity of major airports, and thus to protect the lives and property of persons residing within such vicinity and of persons in airplanes which are approaching, taking off from, or circling such airports, thereby promoting public health, safety, and general welfare.

The definitions applicable to this Chapter are set forth in Section 61-30.
