In all districts, as indicated, required #accessory# off-street parking spaces may be provided in facilities designed to serve jointly two or more #buildings# or #zoning lots#, provided that:

(a) the number of spaces in such joint facilities shall be not less than that required in the following Sections for the combined #floor area#, #lot area#, rated capacity, or other such unit of measurement in such #buildings# or #zoning lots#:

Section 44-21 (General Provisions)

Section 44-22 (Special Provisions for a Single Zoning Lot With Uses Subject to Different Parking Requirements).

(b) all such spaces conform to the provisions of Section 44-32 (Off-site Spaces for All Permitted Uses); and

(c) the design and layout of such joint facilities meet standards of adequacy set forth in regulations promulgated by the Commissioner of Buildings.
