In all districts, as indicated, a greater number of off-street parking spaces than permitted under the provisions of Section [25-18](#) (Maximum Spaces for Permitted Community Facility or Commercial Uses) may be provided if the Commissioner of Buildings determines that:

- (a) such additional spaces are needed for the occupants, visitors, customers, or employees of the `#use#` or `#uses#` to which such spaces are `#accessory#`; and
- (b) such spaces are designed in such a way as to minimize traffic on `#streets#` with predominantly `#residential#` frontages.

The Commissioner of Buildings shall establish appropriate additional regulations with respect to the design of the parking area, to minimize adverse effects on the character of surrounding areas.
