In the districts indicated, if a #zoning lot# is bounded by at least three #street lines#, and any two of the #street lines# are opposite to each other and parallel or within 45 degrees of being parallel to each other, and their average distance apart is 150 feet or less, the minimum distance a tower is required to be set back from such opposite #street lines# under the provisions of Section [33-455](#) (Alternate regulations for towers on lots bounded by two or more streets) or Section [33-456](#) (Alternate setback regulations on lots bounded by two or more streets), is reduced in accordance with the following table:

#### **TOWER SETBACKS ON NARROW BLOCKS**

Reduction of Required Tower Setback	Minimum Setback for Tower Built under Provisions of this Section
On #narrow street#	30 percent or 10 feet, whichever is less
On #wide street#	40 percent or 10 feet, whichever is less

## 33-46 - Height and Setback Provisions for C7 Districts

LAST AMENDED

6/6/2024

For C7 Districts, a #building or other structure# shall not exceed the maximum base heights or maximum #building# height set forth in paragraph (a) of this Section. A setback is required for all portions or #buildings or other structures# that exceed the maximum base height specified in paragraph (a) and shall be provided in accordance with paragraph (b). In districts without a maximum height limit, the tower provisions set forth in paragraph (c) shall apply.

(a) Maximum base heights and maximum #building# heights

The table below sets forth the maximum base heights and maximum #building or other structure# heights.

## MAXIMUM BASE HEIGHT AND MAXIMUM BUILDING HEIGHT

District	Maximum Base Height (in feet)	Maximum Height of Buildings or other Structures# (in feet)
C7-1	45	65
C7-2	65	95
C7-3	95	125
C7-4	125	155
C7-5	155	205
C7-6	155	245
C7-7	155	325
C7-8 C7-9	155	N/A

In addition, for #zoning lots# with a #lot area# greater than or equal to 20,000 square feet, a #building# may exceed the maximum building heights established in such table by 25 percent.

- (b) Any portion of a #building# above the maximum base height shall provide a setback with a depth of at least 10 feet from any #street wall# fronting on a #wide street# and a depth of at least 15 feet from any #street wall# fronting on a #narrow street#. However, such setback requirement may be modified as follows:
  - (1) the depth of such required setback may be reduced by one foot for every foot that the #street wall# is located beyond the #street line#, but in no event shall a setback of less

than seven feet in depth be provided, except as otherwise set forth in this Section. To allow #street wall# articulation, where a #street wall# is divided into different segments and located at varying depths from the #street line#, such permitted setback reduction may be applied to each #street wall# portion separately;

- (2) the depth of such required setbacks may include the depth of recesses in the #street wall# of the #building# base, provided that the aggregate width of any such recessed portion of a #street wall# with a setback less than seven feet, does not exceed 30 percent of the #aggregate width of #street wall# at any level;
- (3) these setback provisions are optional for any #building that either is located beyond 50 feet of a #street line# or oriented so that lines drawn perpendicular to it, in plan, would intersect a #street line# at an angle of 65 degrees or less. In the case of an irregular #street line#, the line connecting the most extreme points of intersection shall be deemed to be the #street line#; and
- (4) dormers may penetrate a required setback area, provided that the aggregate width of all dormers at the maximum base height does not exceed 40 percent of the width of the #street wall# of the highest #story# entirely below the maximum base height#. Such dormers need not decrease in width as the height above the maximum base height increases.

(c) Towers

For #buildings# in C7-8 and C7-9 Districts, no maximum height limit shall apply. However, any portion of a #building# above a height of 350 feet shall have a maximum #lot coverage# of 50 percent of the #lot area# of the #zoning lot#.
