36-587 - Authorizations for waivers or modifications of cross access connections

LAST AMENDED
12/5/2024

The City Planning Commission may authorize modifications or waivers of the requirements of Section 36-58 (Cross Access Connections in the Borough of Staten Island), inclusive, provided the Commission finds that:

(a) due to the irregular shape of the #zoning lot# or the location of connections along other #lot lines# or boundaries between properties on the same #zoning lot#, it is not possible to design a complying parking lot with a complying cross access connection; or

(b) site planning constraints necessitate the placement of a new or #enlarged building# against a #lot line# or other boundary between properties that precludes a cross access connection along such #lot line# or boundary, and no other site plan is feasible.

The Commission may request reports from licensed engineers or landscape architects in considering such modifications or waivers.
