In all districts, as indicated, the City Planning Commission may authorize a reduction in the number of required bicycle parking spaces set forth in Section 36-711 (Enclosed bicycle parking spaces) or a waiver of all such spaces, upon finding there are subsurface conditions, below-ground infrastructure or other site planning constraints that would make accommodating such bicycle parking spaces on or below the first #story# of the #building# infeasible. The Commission may request reports from licensed engineers or registered architects in considering such reduction.
