13-442 - Limited increase in parking spaces for existing buildings without parking

LAST AMENDED
12/5/2024

The City Planning Commission may, by authorization, allow an increase in the number of parking spaces in an existing parking facility or the creation of a new parking facility associated with an existing #building# #developed# without parking, provided that the limitations of paragraph (a) and the findings of paragraph (b) of this Section are met.

(a) Limitations

The total number of parking spaces in a parking facility, inclusive of any existing spaces, where applicable, shall not exceed what would be permitted if such facility were #developed# in accordance with the provisions of Section 13-10 (PERMITTED OFF-STREET PARKING IN THE MANHATTAN CORE). However, in no event shall the number of additional spaces authorized pursuant to this Section exceed 15 spaces.

(b) Findings

The Commission shall find that:

(1) the location of the vehicular entrances and exits to the parking facility will not unduly interrupt the flow of pedestrian traffic associated with #uses# or public facilities, including access points to mass transit facilities in close proximity thereto, or result in any undue conflict between pedestrian and vehicular movements, due to the entering and leaving movement of vehicles;

(2) the location of the vehicular entrances and exits to such parking facility will not interfere with the efficient functioning of #streets#, including any lanes designated for specific types of users or vehicles, due to the entering and leaving movement of vehicles;

(3) such #use# will not create or contribute to serious traffic congestion and will not unduly inhibit surface traffic and pedestrian flow; and

(4) such parking facility will not be inconsistent with the character of the existing streetscape.

The Commission may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area.
