13-451 - Additional parking spaces for residential growth

LAST AMENDED

5/8/2013

The City Planning Commission may permit a parking facility listed in paragraph (a) of Section [13-45](#) (Special Permits for Additional Parking Spaces), where such parking facility serves the parking needs of a predominantly #residential# #development# or #enlargement#, provided that, in addition to the conditions and findings set forth in Section [13-45](#), the Commission shall find that either:

- (a) the number of off-street parking spaces in such proposed parking facility is reasonable and not excessive in relation to recent trends in close proximity to the proposed facility with regard to:
 - (1) the increase in the number of #dwelling units# ; and
 - (2) the number of both public and #accessory# off-street parking spaces, taking into account both the construction, if any, of new off-street parking facilities and the reduction, if any, in the number of such spaces in existing parking facilities. In making this determination, the Commission may take into account off-street parking facilities for which building permits have been granted, or which have obtained City Planning Commission special permits pursuant to Section [13-45](#); or
- (b) the proposed ratio of parking spaces to #dwelling units# in the proposed #development# or #enlargement# does not exceed:
 - (1) 20 percent of the total number of #dwelling units#, where such units are located within Community District 1, 2, 3, 4, 5 or 6; or
 - (2) 35 percent of the total number of #dwelling units#, where such units are located within Community District 7 or 8.

The Commission may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area.
