- (d) reasonable measures to minimize parking demand have been identified. For existing or #enlarged uses#, such measures shall have been implemented, where feasible, prior to application, and a commitment by the applicant shall be made, in a form acceptable to the Commission, to continue, and where necessary, improve upon and supplement such measures. For new #uses#, such measures shall be committed to in a form acceptable to the Commission; and
- (e) where phased construction will occur in the #large-scale development#, or #development# or #enlargement# on a tract of land exceeding 1.5 acres, a phased parking plan has been provided that demonstrates that a reasonable and not excessive amount of additional parking spaces is provided in the proposed parking facility in relation to the amount of completed construction within each phase.

The Commission may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area.
