76-141 - When distance from street line shown

LAST AMENDED
2/26/1967

In cases where the boundary line is shown by a dimension as being located a specific distance from a #street line#, this distance shall be considered to be measured from the nearest #street line# of the #street# from which dimensioned.

In cases where a #Limited Height District# boundary line appears to be identical or approximately identical with the boundary line of another district whose location is shown by a dimension, the boundary line of the #Limited Height District# shall be considered to be identical with the boundary line of the other district.
