74-902 - Certain community facility uses in R1 and R2 Districts and certain Commercial Districts

LAST AMENDED
6/6/2024

In R1 and R2 Districts, and in C1 and C2 Districts mapped within such #Residence Districts# for any #development#, #extension# or #enlargement# or change of #use# involving any #community facility uses# listed in Use Group III permitted as-of-right pursuant to the provisions of Sections 22-13, or #long-term care facilities# for which a special permit has been granted pursuant to Section 74-131, the City Planning Commission may permit the allowable #community facility# #floor area ratio# and #lot coverage# of Section 24-11 (Maximum Floor Area Ratio and Percentage of Lot Coverage) to apply to all such #uses#, provided that the following findings are made:

(a) that the distribution of #bulk# on the #zoning lot# will not unduly obstruct the access of light and air in and to adjoining properties or public #streets#, and will result in satisfactory site planning and satisfactory urban design relationships of #buildings# to adjacent #streets# and the surrounding area;

(b) that the architectural and landscaping treatment and the height of the proposed #building# containing such #uses# blends harmoniously with the topography and the surrounding area;

(c) that the proposed facility will not require any significant additions to the supporting services of the neighborhood or that provision for adequate supporting services has been made; and

(d) that the #streets# providing access to such #use# are adequate to handle the traffic generated thereby or provision has been made to handle such traffic.

The Commission may request a report from appropriate governmental agencies with respect to #community facility uses# requesting a special permit under this Section.

To minimize traffic congestion in the area, the Commission may require where necessary off-street parking facilities and #accessory# off-street loading berths beyond the amount required by the district regulations.

The Commission may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area.
