## 79-20 - BULK REGULATIONS

---

LAST AMENDED

8/24/1967

---

## 79-21 - General Provisions

---

LAST AMENDED

2/2/2011

When a #large-scale community facility development# includes two or more #zoning lots# which are contiguous or would be contiguous but for their separation by a #street#, the City Planning Commission may, in appropriate cases, upon application, authorize the permitted #floor area#, #lot coverage#, #dwelling units# or #rooming units#, or the required #open space# for all #zoning lots# within the #large-scale community facility development#, to be distributed without regard for #zoning# #lot lines#, may modify the minimum required distance between #buildings# as set forth in Section [23-371](#) (Standard minimum distance between buildings), provided such reduction does not exceed 15 percent of that required by such provisions, may authorize the location of #buildings# without regard for #front yard# or height and setback regulation which would otherwise apply along portions of #streets# wholly within the #large-scale community facility development# and, further, may authorize the location of #community facility buildings# without regard to #side# or #rear yard# regulations which would otherwise apply along portions of #lot lines# #abutting# other #zoning lots# within the #large-scale community facility development#.

As a condition of granting such authorizations, in each case the Commission shall make the following special findings:

- (a) that such distribution or location will permit better site planning and will thus benefit both the residents, occupants or users of the #large-scale community facility development# and the City as a whole;
- (b) that such distribution or location will not unduly increase the #bulk# of #buildings# in any #block#, to the detriment of the occupants or users of #buildings# in the #block# or nearby #blocks#; and
- (c) that such distribution or location will not affect adversely any other #zoning lots# outside the #large-scale community facility development# by restricting access to light and air or by creating traffic congestion.

In R9 through R12 Districts, and in C1 or C2 Districts mapped within, or with a #residential equivalent# of such districts, #floor area# bonuses for #public plazas# or #arcades# permitted in accordance with the applicable district regulations shall apply only to a #development# or #enlargement# with 25 percent or less of the total #floor area# of the #building# in #residential use#.

In R9 through R12 Districts, and in C1 or C2 Districts mapped within, or with a #residential equivalent# of such districts, no existing #publicly accessible open area#, #arcade# or other public amenity, open or enclosed, for which a #floor area# bonus has been received pursuant to regulations prior to February 9, 1994, shall be eliminated or reduced in size except by special permit, pursuant to Section [74-761](#) (Elimination or reduction in size of bonused public amenities).
