79-32 - Location of Loading Berths

LAST AMENDED
2/2/2011

When a #large-scale community facility development# includes two or more #zoning lots#, the City Planning Commission may, upon application, authorize permitted required #accessory# loading berths to be located anywhere within the #large-scale community facility development# without regard for #zoning# #lot lines#, provided that in each case the Commission shall make the following special findings:

(a) that such loading berths will be appropriately located in relation to the #use# or #uses# to which such berths are #accessory# so as to permit better site planning and will thus benefit the owners, occupants, employees, residents or visitors to the #large-scale community facility development# and the City as a whole;

(b) that such loading berths will be accessible to all the #uses# in the #large-scale community facility development# without the need to cross any #wide street# at grade;

(c) that the location of such loading berths will not unduly affect the movement of pedestrians or vehicles on the #streets# within or surrounding such #large-scale community facility development#; and

(d) that the loading berths comply with all other applicable district regulations.
