LAST AMENDED
9/7/2017

In Subdistrict A, private streets shall be accessible to the public at all times, except when required to be closed for repairs, and for no more than one day each year in order to preserve the private ownership of such area. Private streets shall have a minimum width of 60 feet. Private streets shall be constructed to Department of Transportation standards for public #streets#. Sidewalks shall have a minimum clear path of seven feet on each side of such private streets along their entire length. Such private streets shall be located as shown on Map 6 (Publicly Accessible Private Streets) in the Appendix to this Chapter. One street tree shall be planted for every 25 feet of curb length of each private street. Fractions equal to or greater than one-half resulting from this calculation shall be considered to be one tree. Such trees shall be planted at approximately equal intervals along the entire length of the curb of the private street.

The private street network shall be established as follows:

(a) a central street shall connect #Open Space A# with Nameoke Avenue, as shown on Map 6. However, if the centerline of the new street is not within five feet of the extended centerline of Brunswick Avenue, then the easterly curb of the new street shall be greater than 50 feet from the extended line of the westerly curb of Brunswick Avenue;

(b) a southerly cross street shall connect Redfern Avenue with the central street, intersecting Redfern Avenue within the area shown on Map 6. However, if the centerline of the new street is not within five feet of the extended centerline of Dix Avenue, then the northerly curb of the new street shall be greater than 50 feet from the extended line of the southerly curb of Dix Avenue;

(c) a northerly cross street shall connect Birdsall Avenue with Bayport Place, intersecting Redfern Avenue so that the centerline of the new street is within five feet of the extended centerline of Birdsall Avenue and within five feet of the centerline of Bayport Place.
