107-77 - Community Facility Buildings or Treatment Plants Permitted in Designated Open Space

LAST AMENDED
6/6/2024

The City Planning Commission may grant special permits for the construction of sewage disposal plants or pumping stations or #community facility uses# listed in Section 78-352 (Bonus for community facility space) in #designated open space# where such #uses# are permitted by the underlying district regulations provided the Commission finds that:

(a) an amount of open area outside the boundary of the #designated open space#, at least equal to the coverage of any #building or other structure# permitted under this Section, shall be added to the #designated open space#, and action shall be taken to change the boundary of the #designated open space# pursuant to Section 107-76 (Boundary Adjustments in Designated Open Space);

(b) such added open area forms a continuous part of the #open space network#, and does not interrupt or foreclose the continuity of a public pedestrian way;

(c) such added open area shall contain natural (aquatic, botanic, geologic or topographic) features that are equal or better in quality to those displaced by the #development#; and

(d) such sewage disposal plants and sewage pumping stations meet the requirements of Section 74-143, inclusive.

The City Planning Commission may prescribe appropriate conditions and safeguards to enhance the character of the #designated open space#.
