- (a) #Signs#, including #advertising signs#, #flashing signs# and #illuminated signs#, unlimited in area, shall be permitted to a height of 40 feet. Below a height of 14 feet, such #signs# shall not occupy more than 50 percent of the glazed #street wall# surface required, pursuant to Section [81-42](#), nor shall such #signs# be located within 10 feet of an entrance to a rail mass transit facility or subway station.
- (b) #Signs#, including #advertising signs#, #flashing signs# and #illuminated signs#, except as otherwise provided in Section [81-52](#), paragraph (c), may be permitted above a height of 40 feet by the City Planning Commission, upon certification that:
  - (1) such #signs# and #sign# structures to which #signs# are attached shall not exceed a height of 60 feet; except that #signs# and #sign# structures onto which #signs# are attached, within 40 feet of the intersection of two #streets# or within 30 feet of the centerline of the westerly prolongation of West 32nd Street along the west #block# front of Seventh Avenue between West 31st and West 33rd Streets, shall not exceed a height of 100 feet;
  - (2) such #signs# above a height of 60 feet are located on #zoning lots# that contain an entrance to, or are adjacent to, an entrance to a rail mass transit facility and/or subway station;
  - (3) such #signs# shall not project across a #street line# more than 18 inches for double or multifaceted #signs# or 12 inches for other signs, except that #signs# within 40 feet of the intersection of two #streets# may project up to three feet across a #street line# above a height of 25 feet;
  - (4) such #signs# that exceed a height of 60 feet, shall be no wider than 40 feet each;

- (5) such #signs# or #sign# structures that exceed a height of 60 feet, may include lighting effects at the top of such #sign# structure and such lighting effects shall not exceed a height of 10 feet above such #sign# or #sign# structure.

- (7) on #zoning lots# that contain an entrance to, or are adjacent to, an entrance to a rail mass transit facility and/or subway station, the requirements for rail mass transit or subway entrance informational #signs# of Section [81-521](#) are met; and

For the period through January 1, 2003, and thereafter, until adjusted by rule of the City Planning Commission pursuant to the City Administrative Procedure Act, such #sign# contribution shall be equal to \$30 per square foot of #sign# permitted above a height of 40 feet. Any net increase in the surface area of a previously approved #sign# shall require a new certification and the deposit of a supplemental #sign# contribution in an amount reflective of such increase.

Alternatively, an applicant may, at the time of the first certification for a #sign# at a location under its control, deposit a #sign# contribution in an amount equal to \$20 per square foot of #sign# above a height of 40 feet for the total amount of square footage of all #signs# eligible for certification at locations under the applicant's control. The deposit of monies under this alternative procedure shall not relieve the applicant of the requirement to seek and obtain a certification for each such #sign#, pursuant to this paragraph (b), prior to installation.

For purposes of this paragraph (b), the square footage of the #sign# shall mean the #surface area# of a #sign#, except that it shall also include the area of any structural frame or similar enclosure in which the #sign# is located or to which it is attached.   - (3) such #signs# shall comply with all other requirements of paragraph (b) of this Section;

foot of #sign# permitted above a height of 40 feet. For purposes of this paragraph (c), the square footage of the #sign# shall mean the #surface area# of a #sign#, except that it shall also include the area of any structural frame or similar enclosure in which the #sign# is located or to which it is attached. No #sign# for which an authorization has been approved shall be installed prior to deposit of the #sign# contribution in accordance with this paragraph (c), or the alternative #sign# contribution provided in paragraph (b)(8) of this Section.
