(a) All #waterfront public access areas#

(1) Balconies

Balconies complying with the provisions of Section [23-62](#) (Balconies) shall be permitted obstructions in #waterfront public access areas#, provided the depth of obstruction is limited to four feet, and provided they are located at or above the floor level of the third #story# above grade of the #building#.

(2) Sun control devices

Awnings and other sun control devices shall be permitted obstructions in #waterfront public access areas#. However, when located at a level higher than the first #story#, excluding a #basement#, all such devices:

- (i) shall be limited to a maximum projection from a #building# wall of 2 feet, 6 inches; and
- (ii) shall have solid surfaces that, in aggregate, cover an area no more than 30 percent of the area of the #building# wall (as viewed in elevation) from which they project.

(3) Kiosks

Where a #supplemental public access area# exceeds 15,000 square feet, a kiosk shall be a permitted obstruction in such #supplemental public access area# with an area up to 400 square feet, including roofed areas.

(b) #Shore public walkways#

(1) Width of circulation paths

#Shore public walkways# shall provide a required circulation path with a minimum clear width of 10 feet. Secondary paths, where provided, shall have a minimum clear width of at least 4 feet, 6 inches.

(2) Level of circulation paths

At least 80 percent of a required circulation path shall be located at a level no less than six feet above the #shoreline#. However, up to 40 percent of such required circulation path may be provided below such level when providing access to a “get-down” located no more than two feet above the level of the #shoreline#.

(3) Access to circulation paths

The provisions of paragraph (a)(1) of Section [62-62](#) (Design Requirements for Shore Public Walkways and Supplemental Public Access Areas) shall apply, except that where a #shore public walkway# is on a #zoning lot# that is adjacent to a #zoning lot# which has not been improved with a #shore public walkway#, the portion of the circulation path that terminates at the common #zoning# #lot line# may be located within 40 feet of the shoreline.

In addition, for #zoning lots# adjoining #streets# containing bridge structures, the required connection of circulation paths to such a #street# may be waived by certification by the Department of Transportation, pursuant to Section [139-44](#) (Bridge Connection Requirements).

(4) Grading

The provisions of paragraph (d)(2) of Section [62-61](#) (General Provisions Applying to Waterfront Public Access Areas) shall be modified so that within five feet of the edge of any planting area, the grade level of such planting area shall be no more than 36 inches higher or lower than the adjoining level of the pedestrian circulation path.

(c) #Supplemental public access areas#

(1) Required Area

The provisions of Section [62-57](#) (Requirements for Supplemental Public Access Areas) are modified so that, in #mixed use districts#, a total #waterfront public access area# equivalent to 20 percent of the #lot area# is required.

(2) Lawns

The provisions of paragraph (c)(1) of Section [62-62](#) shall be modified so that a lawn shall only be required where a #supplemental public access area# is greater than 15,000 square feet. Where required, a lawn may be substituted for an athletic field of equivalent size, which may be unplanted, and shall be suitable for active recreational use.

(3) Comfort stations

Where a publicly accessible comfort station is provided as part of a #development#, the amount of #supplemental public access area# may be reduced by an amount equal to the size of the comfort station, provided that:

(f) Bulkheads

Wherever the United States Environmental Protection Agency requires the installation of a bulkhead in a location seaward of the #zoning lot line#, the area located between the #lot line# and bulkhead may be utilized for the purposes of satisfying the #waterfront public access area# requirements of the #zoning lot#. Where the provisions of this paragraph (f) are utilized, the location of the bulkhead shall be considered the #shoreline# for the purposes of providing the required #waterfront public access areas#.

- (b) adjoining the #shore public walkway#.

In addition, for all #developments# on #zoning lots# which are not coterminous with the Parcel boundary, the #waterfront public access area# requirement for the depicted #zoning lot# shall be based on the combined #lot area# of the entire Parcel.

(ii) Type 2

For #developments# on Parcels 4, 5, and 12a, the site plan shall additionally designate any area located landward of the #shore public walkway# as necessary to achieve a 50-foot buffer from the #shoreline#.

For #developments# on Parcels 6a, 6b, 8a, 8b, 8d, 11, 13, 14, 15, and 17, where the #developments# are on #zoning lots# which are not coterminous with the Parcel boundary, the #waterfront public access area# requirement for the depicted #zoning lot# shall be based on the combined #lot area# of the entire Parcel.

An application made pursuant to this paragraph (g) shall include a survey of the #zoning lot# and additional documentation set forth Section [62-80](#) (SPECIAL REVIEW PROVISIONS), inclusive.
