42-533 - Exceptions for integrated developments divided by district boundaries

LAST AMENDED
6/6/2024

M1 M2 M3

In all districts, as indicated, primary business entrances, #show windows# or #signs# may be located on any frontage within a #Manufacturing District#, if the Commissioner of Buildings finds that the #zoning lot# on which the business entrance, #show window# or #sign# is to be located:

(a) is divided by a boundary between the #Manufacturing District# and a #Residence District#; or

(b) is presently in the same ownership as adjoining property located in a #Residence District#, and no #building# in the #Residence District# exists, or will in the future be erected, within a distance of 75 feet from the #Manufacturing District#, as evidenced by deed restrictions filed in an office of record binding the owner and his heirs and assigns.
