123-65 - Special Height and Setback Regulations in Special Mixed Use Districts With R6 Through R12 District Designations

LAST AMENDED
12/5/2024

In #Special Mixed Use Districts# where the designated #Residence District# is an R6 through R12 District, the #street wall# location of a #building# shall be as set forth in [123-651](#) (Street wall location for all buildings), and the height and setback regulations of a #building or other structure# shall be as set forth in Section [123-652](#) (Special base and building heights). Additional height and setback provisions are set forth in Section [123-653](#) and Section [123-66](#), inclusive.

Permitted obstructions shall be permitted pursuant to Sections [23-41](#), [24-51](#) or [43-42](#). In addition, for all #buildings or other structures#, a dormer may be provided in accordance with the provisions of paragraph (b)(1) of Section [23-413](#) (Permitted obstructions in certain districts).

The height of all #buildings or other structures# shall be measured from the #base plane#. For the purposes of this Section, where #base planes# of different elevations apply to different portions of a #building or other structure#, each such portion of the #building# may be considered to be a separate #building#.

123-651 - Street wall location for all buildings

LAST AMENDED
12/5/2024

Where the designated #Residence District# is an R6 through R12 District, the applicable #street wall# location provisions of this Section shall apply. Such provisions shall apply to the portion of a #street wall# located below the maximum base height and before the required setback as set forth in Section [123-652](#) as applicable.

(a) Percentage-based rules

At least 70 percent of the #aggregate width of street walls# shall be located within eight feet of the #street line# and shall extend to at least the minimum base height specified in Section [123-652](#) or the height of the #building#, whichever is less. Up to 30 percent of the #aggregate width of street walls# may be recessed beyond eight feet of the #street line#, provided that any such recesses deeper than 10 feet along a #wide street# or 15 feet along a #narrow street# are located within an #outer court#.

However, where the #street walls# surrounding the subject #building# are located on a #block# with a #prevailing street wall frontage# that is located further from the #street line# than the applicable provisions of this paragraph, the line-up provisions of paragraph (a) of Section [23-431](#) may be applied.

(b) Modifications for large #zoning lots#

Notwithstanding the provisions of paragraphs (a) of this Section, for #street walls# on #buildings# on a #zoning lot# that has a #lot area# of at least 40,000 square feet or that occupy an entire #block#, at least 70 percent of the #aggregate width of street walls# shall be located within 15 feet of the #street line# and extend to at least the minimum base height specified in Section [123-652](#), or the height of the #building#, whichever is less.

(c) Articulation allowances

In all districts, and along all frontages, #street wall# articulation, including, but not limited to, window recesses and

structural expression on the #building# facade, shall be permitted to project or recess beyond the #street wall# locations established in paragraphs (a) or (b) of this Section, provided that such articulation does not exceed a depth or projection of 12 inches. In addition, to accommodate other forms of #street wall# articulation, such as bay windows, and facade recesses, up to 50 percent of the #aggregate width of street wall#, at any level, may recess or project beyond such #street wall# location provisions of this Section, provided that no such recess or projection exceeds a depth of three feet, as measured perpendicular to the #street wall#, or portion thereof. No projection shall extend beyond the #street line#, except where encroachments into the public right-of-way are permitted by the New York City Administrative Code.

123-652 - All buildings in Special Mixed Use Districts with R6, R7, R8, R9 and R10 District designations

LAST AMENDED
12/5/2024

Where the designated #Residence District# is an R6 through R12 District, the following shall apply.

(a) Districts with a letter suffix

Where the designated #Residence District# is an R6 through R12 District with a letter suffix, the minimum base height, maximum base height and maximum #building# height shall be as set forth in the table in Section [23-432](#) (Height and setback requirements) for the applicable #Residence District#. Separate maximum base heights and maximum #building# heights are set forth for #zoning lots# containing standard #residences# and #zoning lots# containing #qualifying affordable housing# or #qualifying senior housing#. For portions of a #building# #street wall# that exceed the maximum base height, a setback shall be provided at a height not lower than the minimum base height or higher than the maximum base height, in accordance with Section [23-433](#) (Standard setback regulations).

However, for M1 Districts with an A suffix paired with a #Residence District#, the applicable height and setback regulations for the district shall be whichever regulations permit the tallest overall heights between the height and setback regulations applicable to the particular #Manufacturing District# set forth in the table in Section [43-46](#) (Height and Setback Provisions for Districts With an A Suffix), or the height and setback regulations applicable to the particular #Residence District# set forth in Section [23-432](#). In either case, for #zoning lots# with a #lot area# greater than or equal to 20,000 square feet, a #building# may exceed the maximum #building# heights established in such tables by 25 percent.

(b) Districts without a letter suffix

Where the designated #Residence District# is an R6 through R12 District without a letter suffix, the minimum base height, maximum base height and maximum #building# height shall be as set forth in the following table. For portions of a #building# #street wall# that exceed the maximum base height, at a height not lower than the minimum base height or higher than the maximum base height, a setback shall be provided in accordance with Section [23-433](#).

MAXIMUM BASE HEIGHT AND MAXIMUM #BUILDING# HEIGHTS

District	Minimum Base Height (in feet)	Maximum Base Height (in feet)	Maximum Height of #Buildings or other Structures# (in feet)
R6-2	30	55	95

R6	R6-1	40	65	125
R7-1	R7-2	40	85	155
R7-3		60	105	185
R8		60	105	215
R8 ¹		60	125	255
R9		60	135	285
R9-1		60	155	315
R10		60	155	355
R11		60	155	405
R12		60	115	495

¹ for #UAP developments# or #qualifying senior housing# on #zoning lots#, or portions thereof, within 100 feet of a #wide street#

However, for M1 Districts with an A suffix paired with a #Residence District#, the applicable height and setback regulations for the district shall be whichever regulations permit the tallest overall heights between the height and setback regulations applicable to the particular #Manufacturing District# set forth in the table in Section [43-46](#), or the height and setback regulations applicable to the particular #Residence District# set forth in this Section.

In addition, for all #buildings#, the maximum #building# heights set forth in this paragraph may be increased by 25 percent, provided that the gross area of any such #story# located above the maximum #building# height does not exceed 90 percent of the gross area of that #story# located directly below the maximum #building# height.

123-653 - Additional height and setback provisions

LAST AMENDED
12/5/2024

The additional height and setback regulations set forth in Section [23-436](#) shall apply, except as follows:

- (a) for the purposes of applying such provisions, references to the #street wall# location provisions of Section [23-431](#) shall be superseded by those of Section [123-651](#) and base heights by the provisions of Section [123-652](#); and
- (b) for the purposes of applying the #street wall# modifications on #corner lots#, where a #zoning lot# is bounded by only one #street line# along a #street# frontage where a #Commercial District# or #Special Mixed Use District# is mapped along the entire #block# frontage, the #street wall# shall be applied along such frontage.
