74-871 - Floor area bonus for covered pedestrian space

LAST AMENDED

2/2/2011

For the #development# or #enlargement# of a #commercial#, #community facility# or #mixed building#, for each square foot of #covered pedestrian space# provided on a #zoning lot#, the total #floor area# permitted on that #zoning lot# under the provisions of Section [33-12](#) (Maximum Floor Area Ratio) may be increased as set forth in the following table:

PERMITTED ADDITIONAL FLOOR AREA PER SQUARE FOOT OF COVERED PEDESTRIAN SPACE

District	Basic (in square feet)	Maximum (in square feet)
C5-3 C5-5 C6-6 C6-7 C6-9	11	14
C4-7 C5-2 C5-4 C6-4 C6-5 C6-8	8	11

In no event shall the resulting #floor area ratio# exceed the amount set forth in Section [33-12](#) by more than 20 percent. Any #floor area# bonus earned by providing a #covered pedestrian space# may be applied to increase the #residential# #floor area# of a #mixed building#, provided the maximum #floor area ratio# for the #residential# portion does not exceed 12.0.

Any portion of the #covered pedestrian space# that is within 10 feet of a #street line# or #lot line# and that is extended along such #street line# or #lot line# on either side of an entrance to it from an adjoining #street#, #arcade#, #publicly accessible open area#, #court#, #yard# or other #covered pedestrian space#, may receive only that #floor area# bonus accorded to an #arcade#.

The basic #floor area# bonus may be increased by providing one or more of the following additional amenities:

- (a) An escalator, providing pedestrian access from sidewalk level to any floor level containing #uses# specified in paragraph (c) of Section [74-872](#) (Design requirements for covered pedestrian spaces). Such escalator may be either within or directly accessible from the #covered pedestrian space#. The basic #floor area# bonus may be increased by 1.5 square feet per square foot of #covered pedestrian space# for each floor level connected by such escalator. However, the #floor area# bonus earned for the total #covered pedestrian space# by providing such escalator shall not exceed the allowable maximum set forth in the table.
- (b) Where the height over at least one-third of the #covered pedestrian space# in one location is increased by more than one #story# of the #building# above the required height, the basic #floor area# bonus for that portion may be increased by 1.5 square feet per square foot of such raised portion for each such #story#. However, the #floor area# bonus earned for the total #covered pedestrian space# by providing such additional height shall not exceed the allowable maximum set forth in the table.
- (c) Where direct access from the #covered pedestrian space# to a subway station mezzanine or concourse is provided and such connection is major, necessary, and kept open to the general public for the same hours as the #covered pedestrian space# or as specified by the Commission, an additional bonus of two square feet of #floor area# per square foot of #covered pedestrian space# may be permitted over the amount specified in the table.
