81-682 - Priority Improvement List for qualifying sites

LAST AMENDED
8/9/2017

In accordance with the provisions of Section 81-641 (Additional floor area for transit improvements on qualifying sites), any applicant for a #development# or #enlargement# on a #qualifying site# in the Grand Central Transit Improvement Zone Subarea, or the Other Transit Improvement Zone Subarea, shall select a transit improvement, or combination thereof, to be completed in accordance with the provisions of this Section.

(a) Selecting an Improvement

An applicant shall select a transit improvement from the Priority Improvement List in paragraph (b) of this Section based on the #floor area# such improvement generates relative to the minimum #floor area# required and maximum #floor area# permitted for completion of such improvement pursuant to Section 81-641, and based on the following geographical and technical considerations:

(1) First, the applicant shall select a transit improvement in the same Subarea of the East Midtown Subdistrict as the proposed #development# or #enlargement# on a #qualifying site#;

(2) If none of the transit improvements on the Priority Improvement List meet the criteria of paragraph (a)(1) of this Section, the applicant shall select a transit improvement on a transit route that passes through, and has stations or other facilities in the same Subarea of the East Midtown Subdistrict as the proposed #development# or #enlargement# on a #qualifying site#;

(3) If none of the transit improvements on the Priority Improvement List meet the criteria of paragraphs (a)(1) or (a)(2) of this Section, the applicant shall select from any remaining improvement on the list.

In addition, applicants shall consult with the applicable City or State agencies with jurisdiction over and control of the proposed improvement to ensure that the selected improvement will meet the operational and long-term planning needs of the station or transit route, including any phasing requirements, and compliance with the Americans with Disabilities Act (ADA).

(b) The Priority Improvement List

The Priority Improvement List (the "Improvement List"), set forth in the tables below, details physical improvements to subway stations and other rail mass transit facilities in, or adjacent to, the East Midtown Subdistrict, that an applicant for a #development# or, where permitted, an #enlargement# on a #qualifying site# may complete to obtain additional #floor area#.

Three levels of improvements are available for completion, which, accordingly, generate three different amounts of additional #floor area#:

(1) Type 1 Improvements generate 40,000 square feet of #floor area#, and include new or expanded on-street station entrances, new or expanded off-street station entrances, new or expanded accessible routes for persons with physical disabilities between two levels of a station, and four or fewer new or reconfigured station stairs.

(2) Type 2 Improvements generate 80,000 square feet of #floor area#, and include new or expanded station escalators, new or expanded accessible routes for persons with physical disabilities between three or more station levels, new or expanded paid areas of a station, including widened platforms or mezzanine levels, and more than four

new or reconfigured station stairs.

(3) Type 3 Improvements generate 120,000 square feet of #floor area#, and include large-scale renovations that significantly improve the environment of stations, and new connections between two or more stations.

In consultation with the Metropolitan Transportation Authority, the City Planning Commission may, by rule, modify the Improvement List to reflect new improvements needed in the transit network.

PRIORITY IMPROVEMENT LIST

TYPE 1 IMPROVEMENTS		
Location	Type of Improvement	Transit Line
Lexington Avenue/ 53rd – 51st Street station	Replace escalator and stair connecting downtown Lexington platform to underpass with widened stair	Lexington Avenue Line/53rd Street Line
