101-622 - Special provisions for building facades above the ground floor

LAST AMENDED
6/28/2004

Any alteration, #incidental alteration# or minor work done to the #street wall# of any #building# or portion of any #building# shall be accomplished in such matter that:

(a) such #street wall# is treated with consistent materials, color and texture from the top of any ground floor windows or #sign# board to the top or the parapet, or to the bottom of a cornice if a cornice exists (access doors or panels, grilles or similar features shall be as inconspicuous as possible); and

(b) where such #street wall# treatment covers any window opening, it shall completely cover all window openings in the #street wall#; or

(c) where window openings remain uncovered, all windows shall be treated in a similar manner or, if sealed, all windows shall be covered by a panel set at least two inches behind the plane of the wall. Except where the material used to seal window openings is the same as the wall of the #building#, the window panel shall have a single color over its entire surface. All such window panels shall have the same color.
