66-234 - Special height and setback modifications

†

LAST AMENDED

6/6/2024

The height and setback modifications of this Section shall apply as follows:

(a) Permitted obstructions

(1) #Easement volumes#

Any portion of an #easement volume# shall be considered a permitted obstruction within a required setback or above any maximum base height, maximum #building# height, or #sky exposure plane# set forth in height and setback regulations of this Resolution. Any #easement volume#, including any #use# or structure therein, shall be located at least 30 feet from any #legally required window# at the same level on the #zoning lot#.

(2) Dormers

For #Quality Housing buildings#, as an alternative to the provisions of paragraph (c) of Section [23-623](#), dormers may be a permitted obstruction within a required front setback distance above a maximum base height, provided that the aggregate width of all dormers at the maximum base height does not exceed 40 percent of the width of the #street wall# of the highest #story# entirely below the maximum base height. Such dormers need not decrease in width as the height above the maximum base height increases. For the purposes of this paragraph, the width of the #street wall# shall be determined pursuant to the provisions of paragraph (a) of Section [66-233](#) (Special street wall modifications).

(b) Special height and setback provisions for R5 Districts

The requirements of Section [23-63](#) (Height and Setback Requirements in R1 Through R5 Districts) shall be modified for the portions of a #building# used for #residential use#, as follows:

(1) In #Commercial Districts# mapped within, or with a #residential# equivalent of an R5 District, the maximum height of a #street wall# before setback shall be 35 feet. Above such height, a setback of 10 feet shall be provided, and the maximum #building# height shall be 45 feet. Such provisions shall also apply to #buildings# utilizing the optional provisions for a #predominantly built-up area#; and

(2) In R5D Districts or #Commercial Districts# mapped within, or with a #residential# equivalent of an R5D District, the maximum #building# height shall be increased by 10 feet or one #story#, whichever is less.

(c) Special height provisions for R6 through R10 Districts and certain #Commercial# and M1 Districts

In R6 through R10 Districts, #Commercial Districts# mapped within or with a #residential# equivalent of such districts, C7 Districts, M1 Districts paired with R6 through R10 Districts, M1-6 Districts, and #Manufacturing Districts# with an A suffix, where maximum #building# height limitations apply, the maximum #building# height shall be increased by 10 feet, or one #story#, whichever is less.

However, for #zoning lots# with an #easement volume# serving an #above-grade mass transit station# in R7 through R10 Districts, #Commercial Districts# mapped within or with a #residential# equivalent of such districts, C7 Districts, M1 Districts paired with R7 through R10 Districts, M1-6 Districts, and #Manufacturing Districts# with an A suffix, the maximum #building# height shall be increased by 20 feet or two #stories#, whichever is less.
