In the districts indicated, within the #Inner Transit Zone#, no #accessory# off-street parking spaces shall be required for #dwelling units# or #rooming units# for which a temporary or final certificate of occupancy is issued after December 5, 2024.

For #dwelling units# or #rooming units# in #multiple dwelling residences# for which a temporary or final certificate of occupancy was issued between July 20, 1950 and December 5, 2024, off-street parking spaces #accessory# to such #dwelling units# or #rooming units# shall continue to be provided in accordance with the calculation methods set forth in Section [25-212](#) (Existing parking requirements in the Inner Transit Zone). The number of parking spaces required pursuant to Section [25-212](#) may only be reduced or eliminated pursuant to the provisions of Section [73-432](#) (Reduction of existing parking spaces for qualifying affordable housing) or Section [75-31](#) (Authorization to Remove Required Parking).

R1 R2 R3 R4 R5 R6 R7 R8 R9 R10 R11 R12

Where #accessory# off-street parking is required to be maintained for #multiple dwelling residences# pursuant to Section [25-211](#), the number of required #accessory# off-street parking spaces may be calculated pursuant to either paragraph (a) or (b) of this Section.

For the purposes of calculating the number of required parking spaces for any #building# containing #residences#, any fraction of a space 50 percent or greater shall be counted as an additional space, and for the purposes of applying such provisions to #rooming units#, three #rooming units# shall be considered the equivalent of one #dwelling unit#.

Any #accessory# off-street parking spaces serving a #zoning lot# in excess of the number required by this Section shall be considered permitted spaces and shall not be regulated by the provisions of Section [25-20](#), inclusive.

(a) Previously approved applications

The number of required #accessory# off-street parking spaces shall be the number of spaces that were required at the time of the #development#, #enlargement# or #conversion#, as applicable, unless it would no longer be required pursuant to the regulations in effect prior to December 5, 2024. Such calculation may include all applicable parking reductions, waivers, geographically based modifications, or modifications for specific #uses#.

For the purpose of establishing this amount, the Department of Buildings may accept any historical evidence deemed appropriate by the Department of Buildings, such as construction documents, zoning analyses, or other documents submitted as an approved application for a building permit.

Where a #building# was subsequently #enlarged# or #converted# after its #development#, this historical evidence must include materials indicating the most-recent parking requirement in effect for all #dwelling units# on the #zoning lot# prior to December 5, 2024.

(b) Simplified reference table

As an alternative to the method set forth in paragraph (a), the number of required #accessory# off-street parking spaces shall be the number of spaces set forth in this paragraph (b).

The number of required off-street spaces shall be determined by the total number of #dwelling units# on a #zoning lot# existing prior to December 5, 2024 multiplied by the applicable parking requirement in Column A or B, as applicable. However, where the calculation results in a number of parking spaces less than or equal to the number in Column C, no parking spaces shall be required for #residences# on the #zoning lot#.

No spaces shall be required on any #zoning lot# where there is no way to arrange the required spaces with access to the #street# to conform to the provisions of Section [25-63](#) (Location of Access to the Street).
