74-95 - Bulk Modifications for Irregular Sites

LAST AMENDED

12/5/2024

For #developments# or #enlargements# of #buildings# containing #residences# on #zoning lots# with irregular site conditions, the City Planning Commission may permit modifications to the applicable #bulk# regulations, other than #floor area ratio#, provided that the following findings are met:

- (a) there are physical conditions, including, but not limited to, irregular lot size or shape, topographical features, the presence of an existing #building# or proximity to transportation infrastructure, that creates practical difficulties in complying with the applicable #residential# #bulk# regulations and would adversely affect the configuration of #residences# or the #building# site plan;
- (b) the practical difficulties of #developing# on the #zoning lot# have not been created by the owner or by a predecessor in title;
- (c) the proposed modifications will not unduly obstruct access to light and air to adjoining properties or #streets#; the proposed scale and placement of the #development# or #enlargement# relates harmoniously with the surrounding area; and
- (d) the requested modification is necessary to relieve such practical difficulties.

The Commission may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area.
