(a) Public access in conjunction with a #development# on a #floating structure# shall consist of a 30 foot wide #shore public walkway# along the entire length of the #shoreline#, including the water edge perimeter of a #platform# projecting from any portion of the #shoreline# in accordance with the provisions of Section 62-53. In the event that there is additional #development# on the #zoning lot# requiring a 40 foot width, the greater width shall be provided.

(b) When the primary entrance to a #floating structure# is located on a #pier#, and there is no other #development# on the #pier# that would require #pier# public access, a 15 foot wide public access area shall be provided in addition to the #shore public walkway#, along the full length of one of the longer water edges of the #pier#. Such public access area shall be directly connected to the #shore public walkway#.

62-56 - Requirements for Upland Connections

LAST AMENDED
4/22/2009

All #waterfront public access areas# provided pursuant to Sections 62-53 (Requirements for Shore Public Walkways), 62-54 (Requirements for Public Access on Piers) or 62-55 (Requirements for Public Access on Floating Structures) shall be accessible from an open #street#, #public park# or other public place at intervals along the #shore public walkway# not to exceed 600 feet by means of either a direct connection or, where no direct connection exists, an #upland connection# between the #shore

public walkway# and an adjoining public sidewalk within an open #street#, #public park# or other public place.

Where there is an intervening #zoning lot# that would prevent compliance with the maximum interval, such interval may be increased to the minimum necessary to clear the intervening #zoning lot#. In the event there is no way to provide the #upland connection# without encroaching on an intervening #zoning lot#, the #upland connection# shall not be required.

62-561 - Types of upland connections

LAST AMENDED
4/22/2009

#Upland connections# shall be provided as a single pedestrian walkway pursuant to paragraph (a) of this Section or as two pedestrian walkways pursuant to paragraph (b) of this Section.

(a) Single pedestrian walkway (Type 1)

(1) The minimum width of an #upland connection# provided in the form of a single pedestrian walkway (hereinafter referred to as "Type 1") shall be as set forth in the table in this Section. Such widths shall be increased by 20 feet within 15 feet of a #street#, #public park# or other public place, hereinafter referred to as an "entry area".

Such widths may be reduced on #zoning lots# having a #lot width# less than 150 feet; the minimum width of a single pedestrian walkway may be reduced by an amount equal to one foot for each two feet that the lot is less than 150 feet. However, in no event shall the width be less than the reduced minimum width specified in the table.

MINIMUM WIDTH FOR TYPE 1 UPLAND CONNECTIONS

Districts	Minimum width (in feet)	Reduced minimum width (in feet)
R3 R4 R5 C1 C2 mapped in R1-R5 C3	20	12
R6 R7 R8 R9 R10 C1 C2 C4 C5 C6 C7 C8 M1 M2 M3	30	16

(2) Where an #upland connection# does not coincide with a #visual corridor#, a 20 foot wide open area shall be required seaward of the entry area, and shall extend along the entire remaining length of the #upland connection# but need not be publicly accessible. This open area may be located on either side of the #upland connection# or aggregated in any combination, so that the total width of the open area, at any point along the #upland connection#, is 20 feet. Such increased widths may be modified in accordance with the reduced minimum width provisions in paragraph (a)(1) of this Section.

(3) Where an #upland connection# traverses portions of a #zoning lot# located in districts in which different width requirements apply, the width of the #upland connection#

shall be computed as the weighted average based on the length of the #upland connection# in each district.

(b) Two pedestrian walkways (Type 2)

(1) The minimum width of an #upland connection# provided in the form of two pedestrian walkways, one on each side of the roadbed of a private driveway (hereinafter referred to as "Type 2"), shall be 13 feet for each such walkway. However, where a private driveway terminates in a vehicular turnaround, the minimum width of the #upland connection# abutting such turnaround shall be 10 feet.

(2) In addition, a "transition area" shall be provided which shall have a width equal to the combined width of the Type 2 #upland connection# and the roadbed, and shall extend for a distance of 40 feet measured from the termination of such roadbed in the direction of the #shore public walkway#, as shown in Illustrations 1 and 2 in this Section, for roadbeds that turn and roadbeds that terminate in a turnaround, respectively.

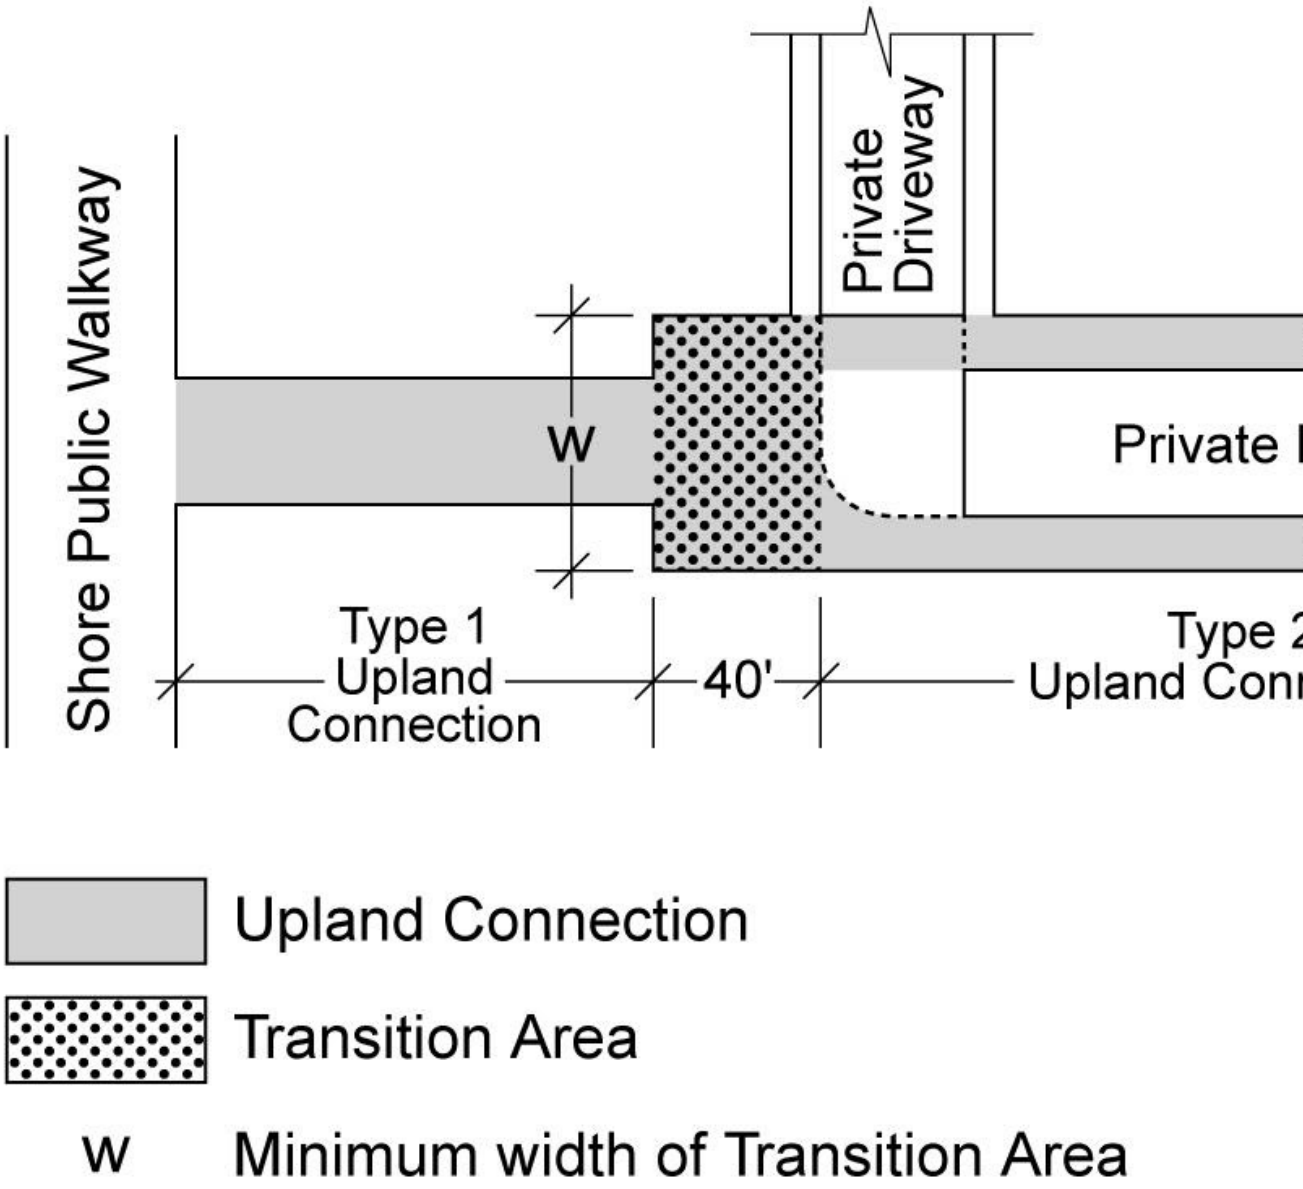

Illustration 1: Upland Connection with Roadbed Turn

(62-561b2.1)

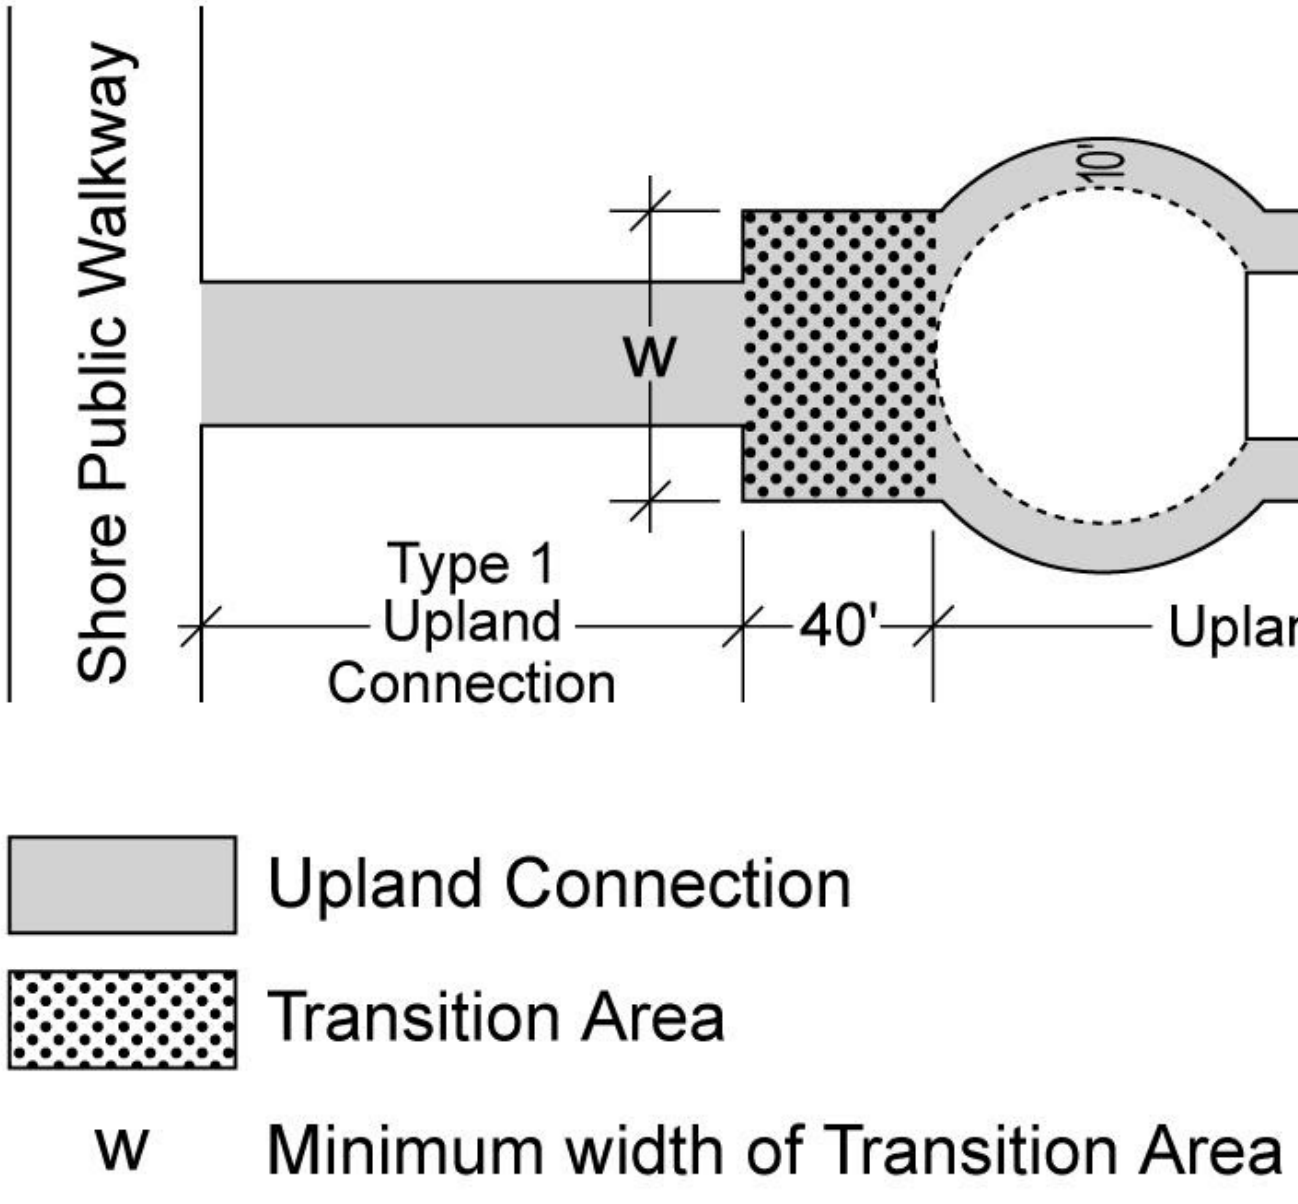

Illustration 2: Upland Connection with Vehicular Turnaround

(62-561b2.2)

(3) Such transition area is not required for roadbeds that turn and are located within 15 feet of a #shore public walkway#, or for #waterfront zoning lots# that are less than 255 feet in depth and 260 feet in width. However, for #waterfront zoning lots# that are less than 255 feet in depth and 260 feet in width, an area of at least 10 feet in width shall be provided between the edge of the roadbed and the upland boundary of the #shore public walkway#, as shown in illustration 3.

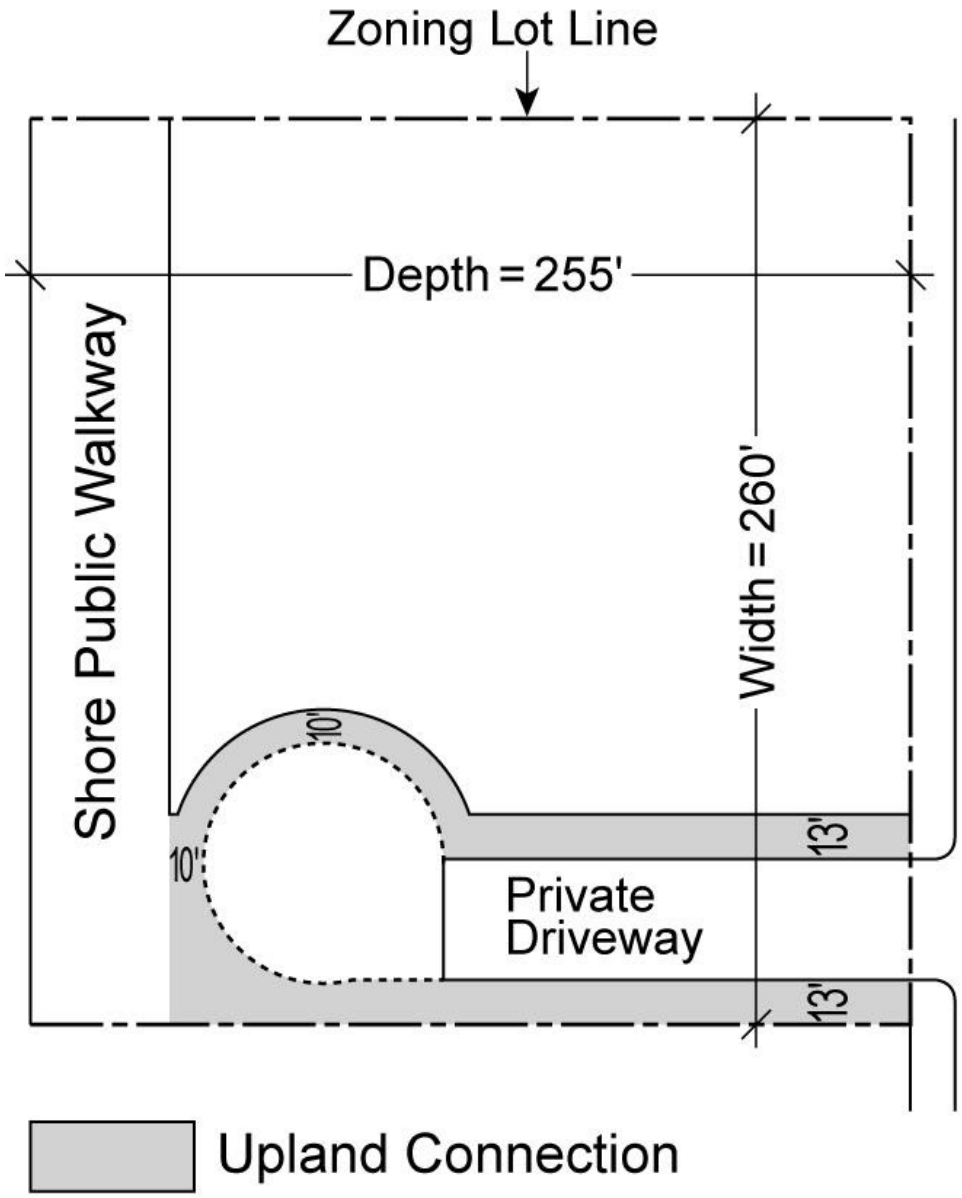

Illustration 3: Maximum Zoning Lot Dimensions to Waive Transition Area

(62-561b3)

62-57 - Requirements for Supplemental Public Access Areas

LAST AMENDED
4/22/2009

(a) If the aggregate area of the required #shore public walkways#, #upland connections#, public access areas on #piers#, and public access areas in conjunction with #floating structures# on the #zoning lot#, is less by 750 square feet or more than the amount of #waterfront public access area# required by the table in this Section, then #supplemental public access areas# shall be provided in order to meet the total amount of #waterfront public access area# required by the table. However, when a #zoning lot# is #developed# #predominantly# as a playground or publicly accessible private park, the requirements of this Section shall be deemed to be satisfied by such #use#.

(b) Where #supplemental public access areas# are required within New York State-designated wetlands or adjacent State-regulated areas, the area requirements and the design standards for such #supplemental public access areas# may be reduced or modified by the New York State Department of Environmental Conservation.

#Supplemental public access areas# shall not be required where the total area of such designated wetlands and adjacent State-regulated areas on the #zoning lot# is equal to or greater than the total #supplemental public access area# requirement and the Department of Environmental Conservation determines that public access to such areas is not permitted.

(c) Whenever a #zoning lot# is divided by a boundary between districts in which different thresholds apply pursuant to the table in this Section, the #waterfront public access area# requirement shall be met for the entire #zoning lot#, provided that:

(1) the #lot area# or length of #shoreline# in either district is less than the minimum threshold for which there is a total #waterfront public access area# requirement; and

(2) the total #lot area# or length of #shoreline# for the entire #zoning lot# is greater than the lowest threshold in either district for which there is a total #waterfront public access area# requirement.

Each portion of the #zoning lot# shall generate a total #waterfront public access area# requirement based on the percentage required in the table for the district in which it is located.

WATERFRONT PUBLIC ACCESS AREA REQUIREMENTS

Districts	#Zoning Lot# Threshold	Total #Waterfront Public Access Area# Requirement as a Percentage of #Lot Area#
R3, R4, R5, C1 or C2 in R1-R5 C3, C4-1	#Lot area#: 65,340 sq. ft. #Shoreline# length: 600 ft.	15

R6, R7-1, R7-2, R7A, R7B, R7D, R8B and #Commercial Districts# governed by the #bulk# regulations of such #Residence Districts# All other #Commercial# or #Manufacturing Districts# with a permitted #commercial# FAR of 4.0 or less	#Lot area#: 20,000 sq. ft. #Shoreline# length: 100 ft.	15
Other R7, R8, R9, R10, R11, R12 Districts and #Commercial Districts# governed by the #bulk# regulations of such #Residence Districts# All other #Commercial# or #Manufacturing Districts# with a permitted #commercial# FAR above 4.0	#Lot area#: 20,000 sq. ft. #Shoreline# length: 100 ft.	20

A #supplemental public access area# shall also be subject to the provisions of Section 62-62 (Design Requirements for Shore Public Walkways and Supplemental Public Access Areas).

62-571 - Location and area requirements for supplemental public access areas

LAST AMENDED
4/22/2009

#Supplemental public access areas# shall adjoin a #shore public walkway# in accordance with the requirements of this Section, except as modified by paragraphs (a) and (b) of Section 62-57, and the provisions of this Section:

(a) The minimum area of the #supplemental public access area#:

(1) when located at the intersection of a #shore public walkway# and an #upland connection# or #street#, shall be 750 square feet, have a minimum width to depth ratio of 1:1 and a maximum width to depth ratio of 3:1. The longest side shall adjoin the #shore public walkway#; or

(2) when located adjoining a #shore public walkway# without adjoining an #upland connection# or #street#, shall be 1,875 square feet and have a minimum width to depth ratio of 3:1. The minimum depth perpendicular to the #shore public walkway#, as a weighted average, shall be 25 feet.

The width to depth requirements of paragraphs (a)(1) and (a)(2) of this Section may be satisfied with weighted average dimensions. The minimum angle between the two boundary lines of a #supplemental public access area# coinciding with the private portion of the #zoning lot# shall be 90 degrees.

(b) A #supplemental public access area# may be provided:

(1) to widen the #shore public walkway#, with a minimum width of 10 feet running continuously along the #shore public walkway# between any two of the following: an #upland connection#, open #street#, #public park# or other public place;

(2) as a pedestrian sidewalk area abutting a roadbed running along the #shoreline#, provided such sidewalk has a minimum width of 13 feet and complies with the provisions for a Type 2 #upland connection# pursuant to Section 62-64. Any additional #supplemental public access area# shall comply with the requirements of this Section; or

(3) as a dedicated bicycle path if such path connects at each end to an open #street#. The minimum width of a bicycle path shall be 10 feet, with an additional two foot clearance on each side along the entire length of the path. There shall be a planted area between a bicycle path and a paved area for pedestrian use, pursuant to the requirements of paragraph (c) of Section 62-62.

62-58 - Requirements for Water-Dependent Uses and Other Developments

LAST AMENDED
2/2/2011

#Waterfront zoning lots# that are #developed# with #uses# listed in paragraph (b) of Section 62-52 (Applicability of Waterfront Public Access Area Requirements) shall provide a minimum amount of #waterfront public access area# in accordance with the table in Section 62-57 (Requirements for Supplemental Public Access Areas).

The total #waterfront public access area# requirement in such table shall be provided in any manner that will enable the public to access a waterfront viewing area on the #zoning lot# from a public

sidewalk within a #street#, #public park# or other public place. Such viewing area shall provide an unobstructed view of the water and comprise at least 50 percent of the total #waterfront public access area# required on the #zoning lot#. One linear foot of seating shall be provided for every 100 square feet of viewing area.

#Waterfront public access areas# improved in accordance with this Section shall comply with the provisions of Sections 62-61 (General Provisions Applying to Waterfront Public Access Areas) and 62-65 (Public Access Design Reference Standards).

For #developments# listed in paragraph (b)(1) of Section 62-52, on #zoning lots# containing a public access area established prior to October 25, 1993, by restrictive declaration, lease agreement, maintenance and operation agreement, or other agreement with a public entity, which public access area is required to be provided for the life of the #development#, subject to such agreement, the requirements for the #waterfront public access area# shall have been met if the established public access area is substantially in compliance with the provisions of this Section.

62-59 - Special Regulations for Zoning Lots That Include Parks

LAST AMENDED
4/22/2009

(a) In M2 and M3 Districts pursuant to Section 62-27 (Special Use Regulations for Playgrounds or Private Parks), where a #zoning lot# or adjoining #zoning lots# are #predominantly# #developed# as a park, the requirements of Sections 62-50, inclusive, and 62-60, inclusive, shall be deemed satisfied for that portion of the #zoning lots# occupied by such park #use#, provided that:

(1) such park is comprised of a minimum of nine acres of land above water and the #water coverage# of #piers# or #platforms#, located on the #zoning lot# or the #zoning lot#

and adjoining #zoning lots#, having at least 600 feet of #shoreline#;

(2) such park provides a continuous paved walkway along the entire portion of the #zoning lots# occupied by such #use# with a minimum clear width of no less than 12 feet, within 40 feet of the #shoreline# for at least 75 percent of those portions of the park that abut the #shoreline#;

(3) such walkway connects with all other #shore public walkways# on the #zoning lot# and adjoining #zoning lots# and any adjoining public sidewalks or other pedestrian areas within #pier# public access areas, a public #street#, #public park#, other public place or park;

(4) such walkway shall be open and accessible from #pier# public access areas, a public #street#, park or other public place at intervals over the length of the park, not exceeding 1,000 feet with an average of 600 feet, by a continuous paved walkway with a minimum clear width of not less than 10 feet;

(5) such park is open and accessible to the public from dawn to dusk, except when hazardous conditions are present that would affect public safety;

(6) a maintenance and operation agreement providing for the maintenance and operation of the park in good condition is entered into with the Department of Parks and Recreation (DPR), except that no such maintenance and operation agreement shall be required for a park developed and maintained by the State or the City of New York, any subdivision or agency of the State or the City, or any public authority or other entity created pursuant to State or local statute for the purpose of operating such a park; and

(7) #visual corridors# shall be provided in accordance with Section 62-51 (Applicability of Visual Corridor Requirements).

Any maintenance and operation agreement required pursuant to paragraph (a)(6) of this Section shall include a requirement that prior to obtaining any building permit or opening any portion of the park to the public, the property owner or operator of the park shall post with DPR security in the form of a maintenance bond, letter of credit or other security acceptable to DPR, in an amount certified by a registered architect or landscape architect to be sufficient to cover 125 percent of the cost of maintaining the park for a 12 month period following its final completion, and that such security shall be replaced every five years with new security in an amount sufficient to cover 125 percent of the then current annual cost of maintaining the park, as certified by a registered architect or landscape architect, for the life of the park. Any maintenance and operation agreement shall be attached to or included within a duly recorded, signed declaration of restrictions, indexed against the #zoning lot#, binding the owners and any lessees, tenants, successors and assigns to maintain and operate the park in conformance with this Section and with the maintenance and operation agreement for the life of the park. The filing of such declaration, where required, shall be a precondition to certification pursuant to paragraph (e) of Section 62-811.

Any portion of a #zoning lot# that is not #developed# for a park #use# shall be subject to all of the requirements of Sections 62-50 and 62-60. For purposes of determining obligations pursuant to this Section, such portions of a #zoning lot# not used for park purposes shall be treated as a separate #zoning lot# or separate #zoning lots#, except that the entire #zoning lot#, including the portion used for park purposes, shall be considered in determining #lot area# for purposes of Section 62-53 (Requirements for Shore Public Walkways).

(b) In order to implement the East River Waterfront Esplanade and Piers Project described in the Final Environmental Impact Statement (FEIS) dated May 18, 2007, of the Lower Manhattan Development Corporation and the record of decision (ROD) adopted by such corporation on November 7, 2007 (the ERW Project), in C2-8, C4-6, C6-4 and M1-4 Districts located in Manhattan Community Districts 1 and 3, for #zoning lots# #predominantly# #developed# as publicly accessible open space under the ERW Project, the Chairperson of the City Planning

Commission shall allow for the phased implementation of such publicly accessible open space, and the requirements of Sections 62-50 (GENERAL REQUIREMENTS FOR VISUAL CORRIDORS AND WATERFRONT PUBLIC ACCESS AREAS), inclusive, and 62-60 (DESIGN REQUIREMENTS FOR WATERFRONT PUBLIC ACCESS AREAS), inclusive, shall be deemed satisfied, provided that:

(1) the application for certification pursuant to Section 62-811 for any such phase(s) includes a report demonstrating that:

(i) a site plan of the design of the publicly accessible open space in such phase(s) has been shown by the applicant to the affected Community Boards and Council Member(s) and such Community Boards and Council Member(s) have had at least 45 days to review such plan;

(ii) any comments and recommendations of the affected Community Boards and Council Member(s) have been considered by the applicant, and such report includes a response to such comments or recommendations. Where design modifications have been made in response to such recommendations, the report shall address how the design has been modified;

(iii) the publicly accessible open space in such phase(s) will be open and accessible to the public at a minimum from dawn to dusk, except when hazardous conditions are present that would affect public safety; and

(iv) a maintenance and operation agreement providing for the maintenance and operation of the publicly accessible open space in such phase(s) in good condition is entered into with the DPR, except that no such maintenance and operation agreement shall be required for a publicly accessible open space

developed and maintained by the State or the City of New York, any subdivision or agency of the State or the City, or any public authority or other entity created pursuant to State or local statute for the purpose of operating such publicly accessible open space; and

(2) the site plan of the design for the publicly accessible open space phase(s) in such application is determined by the Chairperson to be in substantial compliance with the ERW Project as described in the FEIS and ROD.

No excavation or building permit shall be issued for #development# under any phase for publicly accessible open space under the ERW Project certified pursuant to Section 62-811 in accordance with this paragraph, (b), until all applicable Federal, State and local permits and approvals have been received with respect to such phase, including, without limitation, permits and approvals of the New York State Department of Environmental Conservation.

(c) In order to implement a portion of the East Side Coastal Resiliency Project described in the Final Environmental Impact Statement (FEIS) dated September 13, 2019, located in a marginal street, wharf or place used as a park, in an M1-1 District located in Manhattan Community District 6, for #zoning lots# #predominantly# #developed# as a park, the requirements of Section 62-50 (GENERAL REQUIREMENTS FOR VISUAL CORRIDORS AND WATERFRONT PUBLIC ACCESS AREAS), inclusive, and Section 62-60 (DESIGN REQUIREMENTS FOR WATERFRONT PUBLIC ACCESS AREAS), inclusive, shall be deemed satisfied, and the certification pursuant to Section 62-811 (Waterfront public access and visual corridors) shall not be required, provided that:

(1) the park will be open and accessible to the public at a minimum from dawn to dusk, except when hazardous conditions are present that would affect public safety; and

(2) a maintenance and operation agreement providing for the maintenance and operation of the park in good condition is entered into with the City of New York, except that no such maintenance and operation agreement shall be required for a park developed and maintained by the State or the City of New York, any subdivision or agency of the State or the City, or any public authority or other entity created pursuant to State or local statute for the purpose of operating such park.

No excavation or building permit shall be issued within such #zoning lot# #predominantly# #developed# as a park, for the portion of the East Side Coastal Resiliency Project implemented pursuant to this paragraph (c), until all applicable Federal, State and local permits and approvals have been received, including, without limitation, permits and approvals of the New York State Department of Environmental Conservation.

62-60 - DESIGN REQUIREMENTS FOR WATERFRONT PUBLIC ACCESS AREAS

LAST AMENDED
2/2/2011

#Waterfront public access areas# required pursuant to Section 62-52 (Applicability of Waterfront Public Access Area Requirements) shall comply with the provisions of this Section, inclusive.

62-61 - General Provisions Applying to Waterfront Public Access Areas

LAST AMENDED
5/12/2021

(a) All #waterfront public access areas# shall be unobstructed from their lowest level to the sky, except as set forth in Section 62-611 (Permitted obstructions). The lowest level of any portion of a #waterfront public access area# shall be determined by the elevation of the adjoining portion on the same or an adjoining #zoning lot# or the public sidewalk to which it connects. Reference elevations shall be established from the public sidewalks, #waterfront yard# levels and the elevations previously established by adjoining #zoning lots# at #lot line# intersections of a waterfront public access network, as applicable.

(b) The minimum required circulation path shall be connected and continuous through all #waterfront public access areas# on adjacent #zoning lots#.

(c) #Waterfront public access areas# shall be accessible to persons with physical disabilities in accordance with the Americans with Disabilities Act and the American National Standards Institute (ANSI) design guidelines.

(d) All #waterfront public access areas# improved for public access shall meet the following regulations for site grading:

(1) In required circulation paths:

(i) for cross-sectional grading regulations (perpendicular to the general direction of pedestrian movement), the minimum slope of a required circulation path shall be one and one-half percent to allow for positive drainage and the maximum slope shall be three percent. Steps and stairways accommodating a cross-sectional grade change are only permitted outside of the required circulation path(s).

(ii) for longitudinal grading controls (parallel to the general direction of pedestrian movement), grade changes shall be permitted along the length of a required circulation path by means of steps or ramps in compliance with the

requirements for handicapped accessibility.

(2) In required planting areas, including screening buffers:

Within three feet of the edge of any planting area, the grade level of such planting area shall be no more than three feet higher or lower than the adjoining level of the pedestrian circulation path.

(e) Vehicle and emergency access

Vehicular access is prohibited within #waterfront public access areas# except for emergency and maintenance vehicular access. Parking areas, passenger drop-offs, driveways, loading berths and #building# trash storage facilities are not permitted within, or allowed to be accessed or serviced through, a #waterfront public access area#, except for vehicular access to drop-offs and other required services #accessory# to docking facilities or to #development# on a #pier# or #floating structure#.

Such vehicular ways shall be used only to provide access across the #shore public walkway#. No single driveway shall exceed a width of 25 feet. Bollards shall be installed in accordance with Section 62-651. A minimum 12 inch paved border shall be installed along the driveway boundaries and shall have a color distinct from the paving of the adjoining paved surface.

Vehicular roadways are permitted as part of an #upland connection# in accordance with the regulations of Section 62-56.

Any vehicular roadway crossing a required #waterfront public access area# shall comply with the requirements for paving in Section 62-656.

62-611 - Permitted obstructions

LAST AMENDED
5/12/2021

#Waterfront public access areas# shall be unobstructed from their lowest level to the sky except that the obstructions listed in this Section shall be permitted, as applicable. However, no obstructions of any kind shall be permitted within a required circulation path, except as specifically set forth herein.

(a) In all areas

(1) Trees and other plant materials, including grasses, vines, shrubs and flowers, watering equipment, arbors, trellises, observation decks, retaining walls;

(2) Seating, litter receptacles, drinking fountains, other outdoor furniture;

(3) Fountains, reflecting pools, waterfalls, sculptures and other works of art, temporary exhibitions;

(4) Guardrails, bollards, gates and other protective barriers, in accordance with Section 62-651;

(5) Lights and lighting stanchions, flag poles, exercise and other recreational equipment;

(6) Kiosks and open air cafes

Where a kiosk is provided, it shall occupy an area no greater than 150 square feet, including roofed areas. A kiosk may be freestanding or attached on only one side to a

#building# wall. Any area occupied by a kiosk shall be excluded from the definition of #floor area#, and may only be occupied by news or magazine stands, food stands, flower stands, bicycle rental stands, information booths or #uses# #accessory# to permitted WD #uses#, as permitted by the applicable district #use# regulations or as modified by Section 62-29.

Open air cafes shall be permanently unenclosed except that they may have a temporary fabric roof. No kitchen equipment shall be installed within an open air cafe. Kitchen equipment may be contained in a kiosk adjoining the open air cafe.

Notwithstanding the provisions of Section 32-41 (Enclosure Within Buildings), outdoor eating services or #uses# occupying kiosks may serve customers on a #waterfront public access area# through open windows;

(7) Structural landscaped berms and associated flood gates, including emergency egress systems that are assembled prior to a storm and removed thereafter, provided the height of such berm does not exceed the #flood-resistant construction elevation# required on the #zoning lot# or five feet above the lowest adjoining grade of the #waterfront yard# established pursuant to Section 62-332 (Rear yards and waterfront yards), whichever is higher;

(8) Temporary flood control devices and associated permanent fixtures, including emergency egress systems that are assembled prior to a storm and removed thereafter. Permanent fixtures for self-standing flood control devices shall be flush-to-grade, and shall be permitted obstructions within a required circulation path.

(b) In screening buffers

(1) Paved entrances to #buildings# fronting upon a screening buffer, including awnings and canopies over such entrances, seating located within 42 inches of an adjacent paved area, bicycle racks within six feet of the sidewalk of an open accessible #street# or within 10 feet of an #upland connection#;

(2) Service equipment necessary for maintenance of #waterfront public access areas# or the functioning of adjacent structures such as watering equipment, sheds for tool storage, electrical transformers or other mechanical or electrical service devices, provided all such equipment covers no more than 100 square feet in any location and has a maximum height of 10 feet. Such obstructions shall be screened in accordance with Section 62-655 (Planting and trees);

(3) Exhaust vents located on #building# walls fronting on the screening buffer, only if the bottom of such vent is a minimum of 10 feet above the adjacent ground level and projects no more than four inches from the #building# wall.

(c) Beyond 20 feet of the #shoreline#

Tot-lots, playgrounds, dog runs, public telephones, toilets, bicycle racks.

(d) In Community District 1 in the Borough of Brooklyn

Any amenity #accessory# to docking facilities for ferries or water taxis shall be considered a permitted obstruction only where such amenity is certified by the Chairperson of the City Planning Commission in conjunction with the docking facility, pursuant to Section 62-813 (Docking facilities for ferries or water taxis in certain waterfront areas).

62-62 - Design Requirements for Shore Public Walkways and Supplemental Public Access Areas

LAST AMENDED
5/12/2021

The design requirements of this Section shall apply to #shore public walkways# and #supplemental public access areas#, except as modified by Section 62-57 (Requirements for Supplemental Public Access Areas).

(a) Circulation and access

(1) In all districts, a #shore public walkway# shall provide a circulation path with a minimum clear width of 12 feet, except that in R3, R4, R5, C1, C2 and C3 Districts, and in C1 or C2 Districts mapped within R1 through R5 Districts, the minimum clear width shall be 10 feet.

Such path shall be located within 10 feet of the #shoreline# for at least 20 percent of the length of such #shoreline#, and the remainder of the path may be located anywhere within the #shore public walkway# or #supplemental public access area#. Secondary paths, when provided, shall be at least six feet wide. When two circulation paths are parallel to each other, they shall be connected by other paths or accessible lawn at intervals not to exceed 200 feet. In order to facilitate the future connection of pedestrian circulation paths, where a #shore public walkway# is on a #zoning lot# that is adjacent to a #zoning lot# without a #shore public walkway#, the portion of the circulation path that terminates at the common #zoning# #lot line# shall be located within 30 feet of the #shoreline#.

(2) A #supplemental public access area# shall provide at least one circulation path with a minimum clear width of six feet that provides access throughout the #supplemental

public access area#. This requirement may be met by a circulation path of the #shore public walkway# that traverses the #supplemental public access area#;

(b) Seating

One linear foot of seating shall be provided for every 75 square feet of #shore public walkway# and #supplemental public access area#. Such seating may be located anywhere within such public access areas and shall comply with the standards of Section 62-652.

In addition, up to 25 percent of required seating may be located seaward of the #shore public walkway# and shall be subject to the provisions of Section 62-652, paragraph (h).

(c) Planting

(1) Planting areas

An area equal to at least 35 percent of the area of the #shore public walkway# and #supplemental public access area# shall be planted.

In addition, the following conditions shall apply:

(i) Where a #supplemental public access area# is greater than 1,875 square feet, at least 15 percent of the required planting area of the #shore public walkway# and #supplemental public access area#, combined, shall be provided as lawn;

(ii) Up to 30 percent of the required planting area may be provided as #tidal wetland area# and shall be measured in plan view and not along the planted slope; or

(iii) When a dedicated bicycle path is provided within a #supplemental public access area#, a planting area with a width of at least five feet shall be provided between the bicycle path and any paved area for pedestrian use. For the purpose of calculating planting requirements, the area of the bicycle path may be deducted from the combined area of the #shore public walkway# or #supplemental public access area#.

Such planting areas in this paragraph, (c), may be located anywhere within the #shore public walkway# or #supplemental public access area# and shall comply with the standards of Section 62-655.

(2) Screening buffer

(i) A screening buffer shall be provided within the #shore public walkway# or the #supplemental public access area#, running along the entire upland boundary of such area where it abuts non-publicly accessible areas of the #zoning lot#, except as waived pursuant to paragraph (c)(2)(iii) of this Section. Any screening buffer provided pursuant to this Section may be used to meet the planting requirements of paragraph (c)(1) of this Section.

(ii) The minimum width of the screening buffer shall be six feet. On shallow lots where the width of the #shore public walkway# may be reduced pursuant to Section 62-53, the width of the screening buffer may be reduced proportionally but shall not be less than four feet.

(iii) No screening buffer shall be required:

(a) adjacent to a private drive, a #street# or at the entrances to #buildings#; or

(b) for a #commercial# or #community facility# #use# within a distance of 15 feet from the sidewalk or #waterfront public access area#, that is glazed with windows, transoms or glazed portions of doors in accordance with the provisions of Section 37-34 (Minimum Transparency Requirements).

(3) Trees and additional planting

(i) A minimum of one canopy tree shall be provided for every 2,000 square feet of #shore public walkway# and #supplemental public access area#. In no event may a #shore public walkway# have less than two canopy trees for every 100 feet of #shoreline#.

(ii) In addition to the trees required pursuant to paragraph (c)(3)(i) of this Section, for every 1,250 square feet of #shore public walkway# and #supplemental public access area#, one of the following must be provided: a canopy tree, an ornamental tree or a multi-stemmed equivalent, 60 square feet of planting beds or 110 square feet of accessible lawn.

Trees and additional planting areas may be located anywhere within the #shore public walkway# or #supplemental public access area# and shall comply with the standards of Section 62-655.

(4) Reduction in minimum required planting area

The minimum planting area, required by paragraph (c)(1) of this Section, may be

reduced by 10 square feet for every linear foot of:

(i) #shoreline# improved for boat launching or mooring or designed with architectural features to facilitate direct access to the water, such as steps or other forms of "get-downs," except that rip-rap used as stabilized shore shall not qualify for a planting reduction; or

(ii) WE #uses# with frontage adjoining, and having a public entrance on, the #shore public walkway# or #supplemental public access area#, provided that the screening buffer for such #shore public walkway# or #supplemental public access area# is waived pursuant to the conditions of paragraph (c)(2)(iii) of this Section.

However, where a #supplemental public access area# having an area of least 7,500 square feet containing a playground of at least 3,500 square feet in area and improved in accordance with the standards of the Department of Parks and Recreation is provided, the required minimum planting area may be reduced by one square foot for every five square feet of playground area. The playground area may be located anywhere within the #waterfront public access area# that is beyond 20 feet of the #shoreline#.

In no event shall the reduced planting area be less than 25 percent of the combined area of the #shore public walkway# and #supplemental public access area#.

(d) Bicycle parking

Bicycle racks sufficient to provide at least four bicycle parking spaces shall be provided within a #waterfront public access area#.

Furthermore, when the combined area of the #shore public walkway# and #supplemental

public access area# is greater than 8,000 square feet, two additional bicycle parking spaces shall be provided for every additional 2,000 square feet of #shore public walkway# or #supplemental public access area#.

Bicycle racks shall be adjacent to a circulation path and at least 20 feet from the #shoreline#. Such bicycle racks may be located in public sidewalks adjacent to the #zoning lot#. All bicycle racks shall comply with the standards of Section 62-657.

(e) Trash receptacles

One trash receptacle shall be provided for every 4,000 square feet of #shore public walkway# and #supplemental public access area#, and all trash receptacles shall be located in visible and convenient locations. All trash receptacles shall comply with the standards of Section 62-658.

62-63 - Design Requirements for Public Access on Piers and Floating Structures

LAST AMENDED
4/22/2009

62-631 - Design requirements for public access on piers

LAST AMENDED
3/26/2014

The design requirements of this Section shall apply to #waterfront public access areas# on #piers#, pursuant to Section 62-54.

(a) Circulation and access

At least one circulation path having a minimum clear width of 10 feet shall be provided throughout the public access area required on the #pier#.

(b) Permitted obstructions

In addition to permitted obstructions pursuant to Section 62-611, #pier# public access areas may include one freestanding open or enclosed public pavilion, provided such structure does not exceed one #story#, is no taller than 30 feet and has an area no larger than 1,600 square feet. At least 50 percent of the perimeter wall area on all sides, up to a height of 15 feet, shall consist of clear or glazed materials which may include #show windows#, glazed transoms, glazed portions of doors or latticework. Such structures shall be exempt from #building# spacing requirements on #piers# provided they maintain a spacing of at least 12 feet from other #buildings# and from any water edge of the #pier#, except that when a #pier# is 30 feet or less in width, a pavilion may abut one water edge.

In Community District 1 in the Borough of Brooklyn, any amenity #accessory# to docking facilities for ferries or water taxis shall be considered a permitted obstruction only where such amenity is certified by the Chairperson of the City Planning Commission in conjunction with the docking facility, pursuant to Section 62-813 (Docking facilities for ferries or water taxis in certain waterfront areas).

(c) Seating

At least one linear foot of seating is required for every 100 square feet of #pier# public access area, subject to the provisions of paragraphs (a) through (d) of Section 62-652.

62-632 - Design requirements for public access on floating structures

LAST AMENDED
4/22/2009

The design requirements of this Section shall apply to #shore public walkways# provided in conjunction with as-of-right #development# on #floating structures#, pursuant to Section 62-55.

(a) Circulation and access

A circulation path shall be provided with a minimum clear width of 10 feet. On shallow portions of #zoning lots# where the width of the #shore public walkway# may be reduced in accordance with Section 62-53, the minimum clear width of the path may be reduced to a minimum of six feet when the #shore public walkway# is less than 16 feet.

(b) Seating

At least one linear foot of seating is required for every 100 square feet of public access area, subject to the provisions of paragraphs (a) through (d) of Section 62-652.

(c) Screening

Any service areas, such as that used for equipment storage or similar purposes, shall be screened from the circulation path in accordance with the standards for screening in Section 62-655 (Planting and trees).

62-64 - Design Requirements for Upland Connections

LAST AMENDED
4/22/2009

#Upland connections# shall be improved in accordance with the provisions of this Section.

(a) Circulation and access

(1) For Type 1 #upland connections# provided in accordance with the provisions of paragraph (a) of Section 62-561, there shall be at least one circulation path linking an open #street#, #public park# or other public place with a #shore public walkway#. Such path shall have a minimum clear width of 12 feet. Any secondary paths shall have a minimum clear width of six feet.

(2) For Type 2 #upland connections# provided in accordance with the provisions of paragraph (b) of Section 62-561, each pedestrian walkway shall have a circulation path with a minimum clear width of eight feet linking an open #street#, #public park# or other public place with a #shore public walkway#. However, when a turnaround is provided, the entire required area shall be provided as a circulation path.

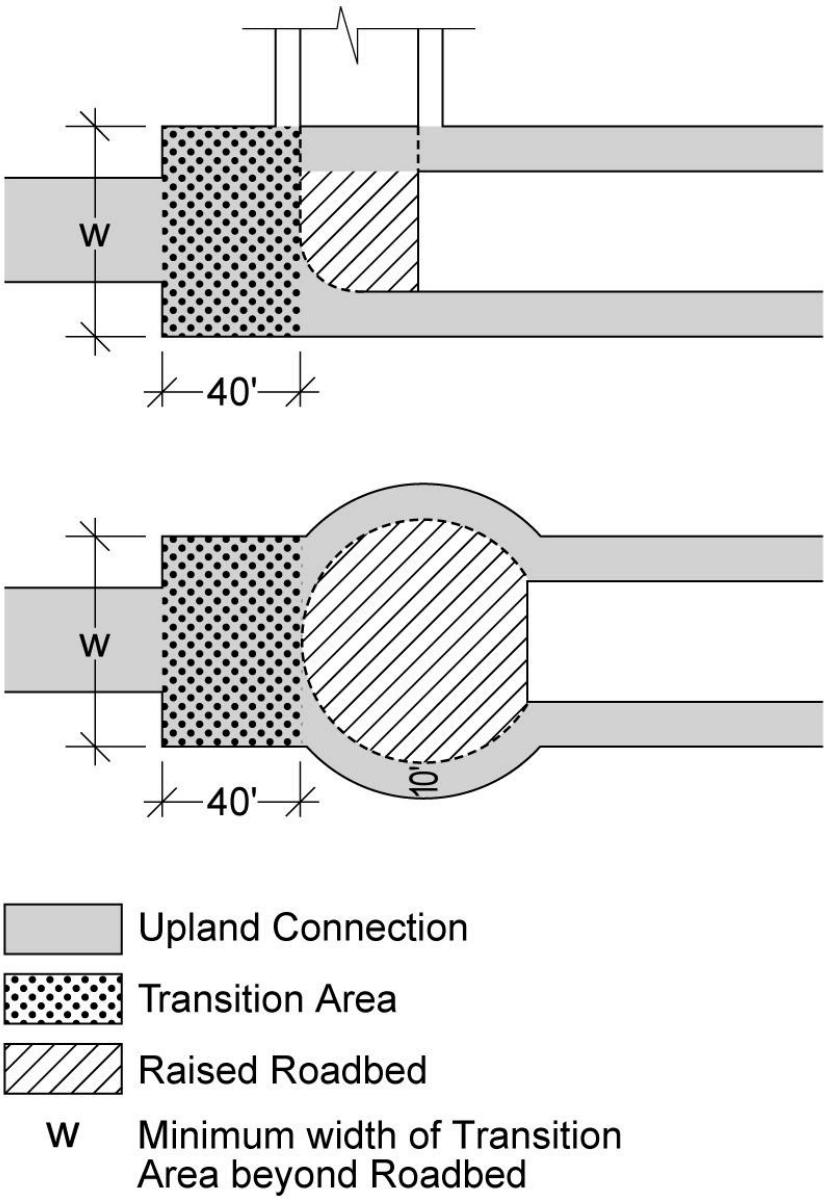
(3) For transition areas, a circulation path with a width of at least 12 feet shall connect each circulation path of the Type 2 #upland connection# with a circulation path of a #shore public walkway#, #supplemental public access area# or Type 1 #upland connection#, whichever is applicable.

(b) Paving

(1) For Type 1 #upland connections#, at least 40 percent but not more than 65 percent of the entry area shall be paved. Such paving shall include a five foot wide area along at least 70 percent of the frontage adjoining a public sidewalk.

(2) Where any #upland connection# is interrupted by a private driveway, the full width of the required #upland connection# shall traverse the roadbed without a drop in level, and be paved with materials distinct from the roadbed. Such portion of the #upland connection# shall not count towards fulfilling a minimum required amount of #waterfront public access area#.

In addition, for Type 2 #upland connections#, the area of the roadbed between both circulation paths, within which lines perpendicular to the #upland connection# traversing the roadbed can be drawn or the portion of the roadbed within a vehicular turnaround, shall be raised to be flush with the level of such adjoining #upland connections#.



Type 2 Upland Connection

(62—64)

(3) The roadbed paving material of a private driveway leading to a vehicular turnaround may be extended into the turnaround provided the area of the turnaround paved with such material is not wider than the roadbed leading to the turnaround. The remaining portions of the turnaround shall be paved with distinct materials to facilitate pedestrian usage. In addition, the level of the area within the turnaround shall be

raised to be flush with the level of adjoining circulation paths.

(c) Planting

(1) For Type 1 #upland connections#, at least 40 percent of the area of the #upland connection# shall be planted in accordance with the provisions set forth in Section 62-655 (Planting and trees).

In addition, the following rules shall apply:

(i) where such #upland connections# do not abut open parking lots or private driveways, six caliper inches of ornamental trees or their equivalent in multi-stemmed plants shall be required for every 100 linear feet of #upland connection#.

(ii) where such #upland connections# abut an open parking lot, screening shall be provided within the #upland connection# along the curb of such parking lot in accordance with Section 37-921 (Perimeter landscaping).

(iii) where such #upland connections# abut a private driveway, a continuous tree pit shall be provided within the #upland connection# along the curb of the driveway. Such tree pit shall meet the minimum planting requirements set forth in Section 62-655, and in addition, shall be planted with one tree for every 25 feet of private driveway frontage.

(iv) where such #upland connections# do not coincide with a #visual corridor#, at least 30 percent of the required open area along the length of the #upland connection# shall be planted, and the requirements of Section 62-513

(Permitted obstructions in visual corridors) shall apply within such open areas.

(2) For Type 2 #upland connections#, a continuous tree pit shall be provided within the #upland connection# along the curb of the private driveway. Such tree pit shall meet the minimum planting requirements set forth in Section 62-655, and in addition, shall be planted with one tree for every 25 feet of private driveway frontage. Portions of the continuous tree pit may be paved with permeable paving such as Belgian block or similar unit pavers in order to accommodate any required amenities, such as benches or bicycle racks, or other permitted obstructions in accordance with the provisions of Section 62-611. However, no continuous tree pit shall be required where an #upland connection# abuts a portion of a roadbed that is required to be raised pursuant to paragraphs (b)(2) or (b)(3) of this Section.

(3) For transition areas, at least 40 percent of such area shall be planted. In addition, a minimum of two canopy trees or their equivalent in caliper inches of ornamental trees or multi-stemmed plants are required.

(d) Seating

At least 12 linear feet of seating shall be provided for every 100 linear feet of #upland connection#, excluding the length of any entry or transition areas and the first 50 feet of a Type 2 #upland connection#. Such excluded areas shall have at least 24 linear feet of seating.

(e) Trash receptacles

One trash receptacle shall be provided within 15 feet of a #street#, #public park# or other public place and one receptacle shall be provided where the #upland connection# adjoins a #shore public walkway# or #supplemental public access area#, pursuant to Section 62-658.

62-65 - Public Access Design Reference Standards

LAST AMENDED
4/22/2009

The standards of this Section, inclusive, shall be applicable to all #waterfront public access areas# and #visual corridors#.

No hollow plastic material, such as PVC (polyvinyl chloride) or similar material shall be permitted in guardrails, fences, seating, trash receptacles or other similar furniture within a #waterfront public access area#. However, high-density polyethylene shall be permitted.

62-651 - Guardrails, gates and other protective barriers

LAST AMENDED
4/22/2009

(a) Guardrails

For the purposes of this paragraph, (a), the term "guardrail" shall refer only to fencing or similar structures provided along a bulkhead, stabilized shore or the water edges of a #pier# or #platform#.

When a guardrail is provided, it shall have a maximum height of 42 inches measured from the adjoining grade level, and shall be at least 70 percent open. Guardrails may be mounted on a solid curb not higher than six inches.

A guardrail may be substituted for a wall, pursuant to paragraph (c)(3) of this Section.

(b) Bollards

(1) Bollards shall be limited to the following locations:

(i) along the bulkhead, stabilized shore or the water edges of a #pier# or #platform#;

(ii) along a #zoning# #lot line# adjacent to, and limiting access from an upland #street#; and

(iii) along the boundaries of a roadway within an #upland connection#.

(2) Bollards shall not exceed 30 inches in height and shall be between six and 15 inches in width. The top of bollards shall not consist of any sharp edges. The minimum clearance between two bollards shall be five feet.

(c) Fences and walls

(1) Fences and walls, when provided, shall be limited to the following locations:

(i) along the boundary of a #waterfront public access area# and an adjoining private area on the #zoning lot#;

(ii) around the perimeter of a playground, tot-lot or dog-run;

(iii) adjoining WD #uses#;

(iv) within a #visual corridor#; and

(v) along any grade level change of 30 inches or greater.

(2) Fences shall have a maximum height of 36 inches measured from the adjoining grade level, and be at least 70 percent open. Fences may be mounted on a solid curb not higher than six inches.

(3) Walls shall not exceed a height of 21 inches, and may be fully opaque.

(4) Chain link fencing or barbed or razor wire shall not be permitted.

(d) Gates

Gates attached to fences and walls that limit physical access to #waterfront public access areas# from #streets#, #public parks# or other public ways, or from adjacent #waterfront public access areas# on adjoining #zoning lots#, shall comply with the provisions of this paragraph (d). Such gates shall be permitted only at the boundaries of #waterfront public access areas# and such adjacent publicly accessible areas, except that in Type 1 #upland connections# gates may be located at the seaward boundary of the entry area. Gates shall not intrude into any planting area. Gates may be closed only pursuant to Section 62-71 (Operational

Requirements).

The maximum height of a gate shall be four feet above the adjoining grade level. Gates shall be no more than 30 percent opaque.

When opened for access, 70 percent of the total width, in aggregate, of the #waterfront public access area# shall be free of obstructions associated with the gate, and there shall be a minimum clear distance of at least 16 feet between any two obstructions of the gate.

In addition, in its open position, the gate and its support structures shall not obstruct:

(1) any circulation path;

(2) 25 percent of the width of the entry area of an #upland connection# along each side of the centerline of such entry area; and

(3) at least 50 percent of the width of the #shore public walkway# closest to the #shoreline#.

62-652 - Seating

LAST AMENDED
4/22/2009

All required seating shall comply with the following standards:

(a) Seating with backs

At least 50 percent of the required seating shall have backs, and at least 50 percent of such seating shall face in the general direction of the water. Seat backs shall be at least 14 inches high. Walls located adjacent to a seating surface shall not count as seat backs. All seat backs must either be contoured in form for comfort or shall be reclined from the vertical between 10 to 15 degrees.

(b) Depth

Seating with or without backs shall have a depth of not less than 18 inches, and for seating with backs, such depth shall not be greater than 20 inches. Seating with a depth of at least 36 inches, and accessible from both sides, may be credited as double seating. When seating is provided on a planter ledge, such ledge must have a minimum depth of 22 inches.

(c) Height

At least 75 percent of the required seating shall have a height not less than 16 inches nor greater than 20 inches above the level of the adjacent grade. Seating higher than 36 inches or lower than 12 inches shall not qualify toward the seating requirements. Seating may be mounted on a solid curb not higher than six inches.

(d) Clearance

Seating shall be located a minimum of 22 inches from any circulation path or permitted obstruction along the accessible side of such seating, except that seating without backs may be as close to a guardrail as 12 inches.

(e) Types of seating

In #shore public walkways# and #supplemental public access areas#, at least two of the following types of seating are required: moveable seating, fixed individual seats, fixed benches with backs, fixed benches without backs, lounging chairs and design feature seating.

(1) Design feature seating

Planter ledges, seating walls, and seating steps may be provided, and shall be limited to 25 percent of the required seating. Walls and planter ledges shall be flat and smooth with at least one inch radius rounded edges.

(2) Moveable seating

Moveable chairs, excluding those in open air cafes, may be credited as 18 inches of linear seating per chair; however, not more than 50 percent of required linear seating may be in moveable chairs. Moveable chairs may be placed in storage outside of the required hours of operation, pursuant to Section 62-71, paragraph (a). All moveable chairs must have backs. Moveable chairs shall not be chained, fixed, or otherwise secured while the #waterfront public access area# is open to the public.

(3) Seating steps

Seating steps shall not include any steps intended for circulation and must have a height not less than 12 inches nor greater than 30 inches and a depth not less than 18 inches.

(4) Lounge chairs

Lounge chairs shall allow for a reclined position supporting the back as well as the legs. Lounge chairs may be credited as 36 inches of linear seating per chair.

(f) Social seating and tables

At least 25 percent of required seating shall be social seating, consisting of seats that are placed in close proximity and at angles to one another or in facing configurations that facilitate social interaction. A minimum of two square feet of tables shall be required for every three linear feet of social seating. However, any requirement for tables that, in total, is less than 10 square feet shall be waived, and no more than 150 square feet of tables shall be required in any site.

(g) Shaded seating

At least 20 percent of required seating shall be shaded. Seating shall be considered shaded if it is located under a canopy tree or shade structure, or on the eastern side and within 45 feet of the trunk of a canopy tree or of a shade structure.

(h) Seaward seating

Up to 25 percent of required seating may be located seaward of the #shore public walkway# provided it is designed as:

(1) a generally smooth and flat surface within a stabilized natural #shoreline#, in the form of rock, stone, wood or other solid material that measures at least 15 inches in width and depth and is between 12 and 30 inches high measured from the adjoining accessible surface; or

(2) steps, with a depth and height between 12 and 30 inches, that facilitate access to the water.

Seaward seating shall not be subject to the provisions of paragraphs (a) through (g) of this Section.

Seating in open air cafes or stairs shall not qualify towards seating requirements. All seating located within a planting area shall be on permeable pavement and secured for stability.

62-653 - Lighting

LAST AMENDED
2/2/2011

All #waterfront public access areas# shall provide lighting in accordance with the following requirements:

An average maintained level of illumination of not less than one horizontal foot candle (lumens per foot) throughout all walkable areas, and a minimum level of illumination of not less than 0.2 horizontal foot candles (lumens per foot) throughout all other areas, shall be required. Such level of illumination shall be maintained from one-half hour before sunset to one-half hour after sunrise.

The average illumination to minimum foot candle uniformity ratio shall be no greater than 10:1 within a #waterfront public access area#.

Glare shall be controlled to a semi-cutoff standard (not more than five percent of peak foot candle intensity radiating above 90 degrees and 20 percent of peak intensity above 80 degrees). The luminaire shall be equipped with lamps with a color temperature range of 3000 K to 4100 K with a minimum color rendering index of 65.

All lenses and globes shall be polycarbonate or equivalent.

All lighting sources that illuminate a #waterfront public access area# and are mounted on or located within #buildings# adjacent to the #waterfront public access area# shall be shielded from direct view. In addition, all lighting within the #waterfront public access area# shall be shielded to minimize any adverse effect on surrounding #buildings# containing #residences#.

62-654 - Signage

LAST AMENDED
4/22/2009

The provisions of this Section shall apply to signs required in #waterfront public access areas#. All such signs shall be located in directly visible locations, without any obstruction at any time. Such signs shall be fully opaque, non-reflective and constructed of permanent, highly durable materials, such as metal or stone. All lettering shall be in a clear, sans-serif, non-narrow font such as Arial, Helvetica, or Verdana, solid in color with a minimum height of one-quarter inch, unless otherwise specified in this Section, and shall highly contrast with the background color.

Drawings documenting the size, format, and orientation of all required signs shall be included in the application for certification, pursuant to Section 62-80. Such drawings shall include detailed information about dimensions of the sign, lettering size, color and materials.

(a) Entry signage

All #waterfront public access areas# shall contain an entry sign mounted on a permanent structure. Such sign shall be located within five feet of the boundary of the entrance from a #street#, #public park# or other public way. Required signage shall contain:

(1) the New York City waterfront symbol, 12 inches square in dimension, as provided in the Required Signage Symbols file at the Department of City Planning website and the "The New York Waterfront Symbol Standards and Specifications" (published by the Department of City Planning, April 1989, and as modified from time to time);

(62—654)

(2) lettering at least one-and one-half inches in height, stating "OPEN TO PUBLIC" in bold type;

(3) lettering at least one-half inch in height stating the approved hours of operation as required pursuant to Section 62-71 (Operational Requirements), paragraph (a);

(4) lettering at least one-half inch in height stating “Do not enter outside of hours of operation”;

(5) the International Symbol of Access for persons with physical disabilities, at least three inches square, or the statement: “This public access area is accessible to persons with physical disabilities”;

(6) the address of the property where the #waterfront public access area# is located;

(7) the name of the current owner and the name, phone number and email address of the person designated to maintain the #waterfront public access area#;

(8) the statement: "For complaints or questions: call 311”;

(9) the statement: “For more information go to http://nyc.gov/planning”; and

(10) rules of conduct as specified in Section 62-71, paragraph (b).

Information in paragraphs (a)(1) and (a)(2) may be inscribed in pavement or on any permitted appropriate amenity, such as a seating wall or sculpture.

All information required in this paragraph, (a), shall be included on signs with a maximum dimension in one direction of 16 inches. The maximum height of a sign above the adjoining grade shall be three feet for a horizontal sign and five feet for a vertical sign. The bottom of all signs shall be at least eighteen inches above adjoining grade, except for signs angled 45 degrees or less as measured from adjacent grade. However, the waterfront symbol required pursuant to paragraph (a)(1) need not be included in such signage if such symbol is inscribed nearby in pavement or any appropriate amenity.

(b) Signage at #zoning lot# line

A sign shall be required to be located within five feet of any #zoning lot line# adjacent to another #zoning lot# within a #shore public walkway# and at a distance no greater than five feet from the required circulation path. All information required in paragraph (a) of this Section shall be included on signs with a maximum dimension in one direction of 16 inches. The maximum height of a sign above adjoining grade shall be three feet. The bottom of all signs shall be at least 18 inches above adjoining grade, except for signs angled 45 degrees or less, as measured from adjacent grade. However, the waterfront symbol required pursuant to paragraph (a)(1) of this Section need not be included in such signage if such symbol is inscribed nearby in pavement or any appropriate amenity, such as a seating wall or sculpture.

However, the waterfront symbol required pursuant to paragraph (a)(1) shall be no larger than four inches square, or 12 inches square if inscribed in pavement or any appropriate amenity, and the information required in paragraph (a)(2) of this Section shall be one inch high.

The information required in paragraphs (a)(1) and (a)(2) may be inscribed in pavement or on any permitted appropriate amenity.

(c) Other signage

Seating areas within #waterfront public access areas# allowed pursuant to paragraph (b) of Section 62-62 (Design Requirements for Shore Public Walkways and Supplemental Public Access Areas) shall be identified by a sign with the words “SEATING OPEN TO PUBLIC” in lettering at least one inch high. Such sign shall be clearly visible from the #waterfront public access area#. In addition, such sign shall be no greater than 60 square inches, no higher than 18 inches above adjacent grade, and angled for visibility. The required sign may be freestanding or attached to a permitted amenity within the #waterfront public access area#.

No #advertising signs# may be located within a #waterfront public access area#.

62-655 - Planting and trees

LAST AMENDED
5/12/2021

Within #waterfront public access areas# and parking areas where planting or screening is required, the design standards of this Section shall apply.

A detailed landscape plan prepared by a registered landscape architect shall be submitted to the Department of Parks and Recreation prior to seeking certification by the Chairperson of the City Planning Commission, pursuant to the requirements of Section 62-80. Such plans shall include plants suited for waterfront conditions and include a diversity of species with emphasis on native plants, species that are tolerant of salt, sediment, high seasonal water flow, and high winds, as applicable to the location and the facilitation of sustainable wildlife habitats, where appropriate. No species listed on quarantine or as a host species for any disease listed by the Department of Parks and Recreation at the time of application shall be included.

All landscaped areas shall contain a built-in irrigation system or contain hose bibs within 100 feet of all planting areas.

(a) Planting areas

Wherever a minimum percentage of planting area is specified for a #waterfront public access area#, such requirements shall be met only through the provisions of the types of planting areas listed in paragraphs (a)(1) through (a)(8) of this Section. A curb with a maximum height of six inches is permitted along the perimeter of any planting area. Any edging higher than six inches above adjacent grade shall be considered a retaining wall. Retaining walls shall not exceed a maximum height of three feet, as measured from the level of the adjoining grade or planted area below such wall so that no more than three feet of such retaining wall is visible

from the #waterfront public access areas#. Where not specifically indicated, the minimum planting standard for required planting areas shall be turf grass, other natural grasses or groundcover. All planting areas shall be located on undisturbed subsoil or clean fill.

(1) Single tree pits

A single tree pit shall have a minimum dimension of five feet with a minimum area of 30 square feet and a minimum depth of 3 feet, 6 inches. Only tree pits planted with ground cover shall count towards meeting a minimum planting area requirement.

(2) Continuous tree pits

A continuous tree pit is a planting area containing two or more trees. Continuous tree pits shall have a minimum width of five feet and a minimum depth of 3 feet, 6 inches, and a length as required to meet a minimum of five feet from the trunk of the tree to the end of the tree pit.

(3) Planting beds

Planting beds for turf grass or groundcovers shall have minimum dimensions of two feet in any direction and a minimum depth of two feet. Planting beds for shrubs shall have minimum dimensions of three feet by three feet for each shrub and a minimum depth of 2 feet, 6 inches. Planting beds containing trees shall have a minimum dimension of five feet and a minimum area of 30 square feet for each tree, with a minimum depth of 3 feet, 6 inches. Trees, shrubs or groundcovers may be combined in a single planting bed only if such bed meets the minimum depth required for the largest plant.

Retaining walls are permitted along the perimeter of a planting bed in accordance with the regulations for planting areas in paragraph (a) of this Section.

(4) Terraced planting area

A “terraced planting area” is a planting area with two or more planting beds incorporating retaining walls on a slope with a grade change greater than or equal to three feet. A terraced planting area shall comply with the dimensional standards for a planting bed except that the average depth of the individual planting beds between the two retaining walls shall not be less than three feet, as measured perpendicular to the edge of the retaining wall. In addition, for retaining walls between two or more planting beds, their height may exceed three feet, provided that the front of such retaining walls is screened by plant material.

(5) Berms

A "berm" is a planting area with sloped grade stabilized primarily by plant materials rather than retaining walls or other similar built structures. A berm shall comply with the dimensional standards for a planting bed except that the height of the berm shall not exceed the #flood-resistant construction elevation# on the #zoning lot#, or five feet above the lowest adjoining grade of the #waterfront yard# established pursuant to Section 62-332 (Rear yards and waterfront yards), whichever is higher.

(6) Lawns

A "lawn" is an area planted with turf grass having a minimum soil depth of 2 feet, 6 inches. Along at least 60 percent of the perimeter, a lawn shall have a grade level within six inches of the adjacent grade providing unobstructed pedestrian access. Any

required lawn shall have a minimum area of 500 square feet and no dimension less than 18 feet.

(7) Screening

Screening is intended to create a landscaped buffer between the #waterfront public access areas# and adjoining non-public #uses# to protect the privacy or minimize the visual impact of blank walls, equipment, loading and parking areas or similar conditions.

(i) Screening buffers

Screening buffers required pursuant to paragraph (c)(2) of Section 62-62 (Design Requirements for Shore Public Walkways and Supplemental Public Access Areas) shall consist of densely planted shrubs or multi-stemmed screening plants, with at least 50 percent being evergreen species. Shrubs shall have a height of at least four feet at the time of planting. The requirements of this paragraph, (a)(7)(i), may also be satisfied by the requirements of paragraph (a)(7)(ii) of this Section.

(ii) Blank walls and service areas

Blank walls higher than four feet measured from an adjacent grade level and service areas anywhere within a #waterfront public access area# shall be screened with any combination of evergreen trees, vines or espaliered trees or shrubs, and an architectural treatment such as a pergola, stone rustication, grills or sculptural features.

(iii) Parking garage screening

Open parking areas on any #zoning lot# fronting on an #upland connection# or #street# on any #waterfront block#, notwithstanding the #use# on such lot, shall require screening pursuant to Section 37-921 (Perimeter landscaping). Screening required pursuant to Section 62-453 shall consist of a planting strip at least four feet wide. Plants shall be at least four feet high at the time of planting and 50 percent of them shall be evergreen shrubs.

All required screening may be interrupted by vehicular or pedestrian entrances.

(8) Tidal wetland area

A #tidal wetland area# may satisfy up to 30 percent of the required planting area for #waterfront public access areas#.

(b) Trees

(1) Tree caliper

At time of planting, canopy trees shall be a minimum of three inches caliper and ornamental trees shall be a minimum of two inches caliper.

(2) Trees in single tree pits

One of the procedures in this paragraph, (b)(2), shall be employed to protect trees planted at grade:

(i) granite or cast concrete block pavers with a minimum four inch depth shall be installed in accordance with New York City Department of Parks and Recreation (DPR) standards for #street# trees;

(ii) a grate shall be installed over the root zone, supported at its edges and set flush with the adjacent pavement for pedestrian safety, in accordance with DPR standards for #street# trees for grate size; or

(iii) the root zone shall be surrounded with barrier hedge planting.

62-656 - Paving

LAST AMENDED
4/22/2009

Paving in #waterfront public access areas# shall comply with the following:

(a) Locational requirements

(1) Within required circulation paths

All paving material for a required circulation path shall be permanent, durable, accessible to persons with physical disabilities, and shall consist of one or a combination of the following:

(i) Unit pavers constituted of stone, concrete, granite, asphalt or a mix of these materials with other aggregates;

(ii) Concrete, prefabricated, poured or permeable;

(iii) Wood planks for boardwalk or decking, except that tropical hardwood shall not be permitted;

(iv) Solid plastic, such as "plastic lumber," high density polyethylene, wood composite plastic or fiber-reinforced plastic.

(2) Other than within required circulation paths

In addition to the permitted paving materials of paragraph (a)(1) of this Section, the following materials shall be permitted anywhere in a #waterfront public access area#:

(i) Blocks such as Belgian blocks, cobble stones, concrete cobbles or Eurocobble;

(ii) Gravel, loose, installed over a solid surface or glued with resin;

(iii) Wood chips or other similar material;

(iv) Metal grating, limited to locations that require drainage and for #platforms#;

(v) Asphalt, impermeable or porous, which may be imprinted with thermoplastic patterns.

(3) Special regulations for Type 2 #upland connections#

Paving for driveways and pedestrian paths shall be subject to the standards of the New York City Department of Transportation for roadbeds and sidewalks.

(b) Dimensional requirements

(1) All unit pavers shall have a minimum thickness dimension of two inches for pedestrian use and three inches for vehicular use and shall not exceed a maximum of four square

feet in area.

(2) Wood planks or plastic lumber for boardwalk or decking shall be a minimum of three inches thick (nominal dimension). The direction of planks shall not be parallel to the direction of traffic.

(3) Concrete slabs, other than in #upland connections#, shall be a maximum of two feet in any one dimension.

All the above materials may be installed to facilitate storm water management appropriate for specific site conditions.

62-657 - Bicycle racks

LAST AMENDED
4/22/2009

Each bicycle rack shall allow for the bicycle frame and one wheel to be locked to the rack. If bicycles can be locked to each side of the rack, each side may be counted as a required space. Thirty inches of maneuverable space shall be provided between parallel bicycle racks and an eight foot wide aisle shall be provided between bicycle rack areas.

62-658 - Trash receptacles

LAST AMENDED
4/22/2009

Trash receptacles shall be placed within 50 feet of a seating area, have a minimum capacity of 25 gallons and have either top openings that measure at least 12 inches wide or side openings that inscribe a rectangle measuring at least 12 inches wide and six inches high. Trash receptacles shall be able to use standard bags used to collect trash.

62-70 - MAINTENANCE AND OPERATION REQUIREMENTS FOR WATERFRONT PUBLIC ACCESS AREAS

LAST AMENDED
4/22/2009

62-71 - Operational Requirements

LAST AMENDED
2/2/2011

(a) Hours of operation

All #waterfront public access areas# shall be open to the public at the times indicated in the table in this Section, except when required to be closed for repairs, and for no more than one day each year in order to preserve the private ownership of such area, as set forth in the maintenance and operation agreement required pursuant to Section 62-74 (Requirements for Recordation).

HOURS OF OPERATION FOR WATERFRONT PUBLIC ACCESS AREAS

Districts	April 15 to October 31	November 1 to April 14
#Zoning lots# containing #predominantly# #community facility# #uses# in: R3 R4 R5 C1 or C2 in R3 thru R5 C3 C4-1 C8 M1 M2 M3	Dawn to dusk*	Dawn to dusk*
#Zoning lots# containing #predominantly# #commercial# #uses# in all districts	Dawn to dusk or business closing, whichever is later**	Dawn to dusk or business closing, whichever is later**
All other #zoning lots# providing #waterfront public access areas#	6:00 A.M. to 10:00 P.M.	7:00 A.M. to 8:00 P.M.

* Dawn shall be defined as one half hour before sunrise, and dusk shall be defined as one half hour after sunset

** #Waterfront public access areas# on #zoning lots# containing predominantly #commercial# #uses# shall not be required to be open to the public beyond 10 P.M. from April 15th to October 31st and 8 P.M. from November 1st to April 14th

(b) Rules of conduct

Rules of conduct for the #waterfront public access area# shall be established with the Department of Parks and Recreation and set forth in the maintenance and operation agreement as required pursuant to Section 62-74. Such rules of conduct shall not prohibit typical promenade activities consistent with public enjoyment of the waterfront, such as walking, jogging, sitting or reclining, gathering in small groups, or consumption of food or non-alcoholic beverages.

62-72 - Performance and Maintenance Requirements

LAST AMENDED
4/22/2009

(a) Performance and maintenance

(1) The property owner shall be responsible for the completion and maintenance of all required #waterfront public access areas# on the #zoning lot#. No certificate of occupancy shall be issued until all required #waterfront public access area# improvements are completed except as otherwise provided in a phasing plan pursuant to Sections 62-811 (Waterfront public access and visual corridors) or 62-822 (Modification of waterfront public access area and visual corridor requirements).

(2) To ensure the maintenance of the #waterfront public access areas#, prior to obtaining any certificate of occupancy, the property owner shall post security in the form of a maintenance bond, letter of credit or other security acceptable to the Department of Parks and Recreation (DPR), with the DPR in an amount certified by a registered architect or landscape architect to be sufficient to cover 125 percent of the cost of maintaining the #waterfront public access areas# for a 12 month period following final completion of such #waterfront public access areas#. The security shall be replaced every five years with a new security in an amount sufficient to cover 125 percent of the current annual cost of maintaining the #waterfront public access areas#, as certified by a registered architect or landscape architect. The security shall be in effect for the life of the #development#.

(b) Maintenance and liability

Any declaration by the owner, its successor or assigns, or agreement between the owner, its successor or assigns, and the City of New York, provided in accordance with Section 62-74 (Requirements for Recordation) regarding the maintenance and operation of a required #waterfront public access area# as established in Section 62-52 (Applicability of Waterfront Public Access Area Requirements), shall provide that:

(1) the owner, its successor or assigns, will construct and be responsible for ordinary maintenance and repair of all such areas;

(2) the City will indemnify and defend the owner, its successor or assigns, for judgments resulting from litigation of claims of personal injury on such areas in accordance with reasonable provisions and procedures in the declaration and the maintenance and operation agreement, provided that the owner, its successor or assigns, has fully complied with the design and maintenance requirements set forth in this Resolution and the maintenance and operation agreement; and

(3) in the event such areas are destroyed or substantially damaged as a result of flood, storm, fire or other acts of God, reconstruction shall be the responsibility of the City, provided that such destruction or damage is not the result of the negligence of the owner, or of the owner's failure to construct or maintain such areas in accordance with the provisions of this Resolution and the maintenance and operation agreement.

62-73 - Request to Transfer Title to Certain Waterfront Public Access Areas

LAST AMENDED
4/22/2009

(a) The owner of a #zoning lot# on a #waterfront block# may, at the owner's option, and prior to commencement of design and construction of #waterfront public access areas#, make a request directed to the Office of the Mayor (Request) to transfer to the City of New York its fee simple absolute interest, free and clear of any encumbrances that are not deemed acceptable by the City, in the #waterfront public access area# on such #zoning lot#.

(1) The City may accept the Request, provided that transfer will be made in a manner acceptable to the Chairperson of the City Planning Commission and the Commissioner of Parks and Recreation, who may specify conditions for transfer including, without limitation, establishment by the owner of an account for the funding of ordinary maintenance of the #waterfront public access area# and a capital reserve or funding mechanism for future capital repair, and adequate guarantees of access to the #waterfront public access area# and, provided further, that transfer is made pursuant to such instruments, which shall be a condition of certification pursuant to Section 62-811 (Waterfront public access and visual corridors), paragraphs (b) and (c), as are necessary for implementation. Where the Request is for

transfer of a phase of the #waterfront public access area# pursuant to a phased implementation of required public access areas certified by the Chairperson pursuant to Section 62-811 or authorized by the City Planning Commission pursuant to Section 62-822 (Modification of waterfront public access area and visual corridor requirements), the City shall consider, in determining whether to accept such Request, such factors as the size, location and access for purposes of maintenance, repair and reconstruction, of the phase which is the subject of the Request, and may require as a condition of acceptance that the owner make binding commitments to the transfer of subsequent phases.

(2) The Department of Parks and Recreation (DPR) shall review and approve the design and construction specifications for the #waterfront public access areas# proposed for transfer, and transfer of such areas shall be made prior to the issuance of any temporary or permanent certificate of occupancy for any part of the #development# for which such areas are required to be constructed, upon determination by the DPR that construction of such areas is complete, as required pursuant to Sections 62-50 (GENERAL REQUIREMENTS FOR VISUAL CORRIDORS AND WATERFRONT PUBLIC ACCESS AREAS) and 62-60 (DESIGN REQUIREMENTS FOR WATERFRONT PUBLIC ACCESS AREAS), and is in accordance with the previously approved design and construction specifications, except that signage required pursuant to Section 62-654 may be replaced by DPR signage.

(3) The provisions of Section 62-72 (Performance and Maintenance Requirements), paragraphs (a)(2) and (b), shall not apply to any #waterfront public access area# transferred pursuant to this Section.

In the event of a transfer under this paragraph, (a), the #bulk# and parking computations for the #zoning lot# shall include the transferred property. Such transfer shall not be deemed to have created a #non-compliance#.

(b) For parcels identified in Waterfront Access Plan BK-1, the owners of two or more parcels may, either for purposes of certification pursuant to Section 62-811 or at any time thereafter, submit an alternate plan to the Chairperson for the joint maintenance and operation of #waterfront public access areas# on such parcels, through an association or other entity established for this purpose or by other method. Such plan may include, in addition to provisions for maintenance and operation, alternate provisions with respect to security, liability and any other matters set forth in Section 62-72, as well as special provisions for reporting and monitoring of compliance with obligations for maintenance and operation of the #waterfront public access areas#. Such plan and any instruments as are necessary for its implementation may be approved by the Chairperson and the Commissioner of Parks and Recreation upon a determination that:

(1) implementation of the plan would enhance maintenance and operation of the #waterfront public access areas# consistent with the purposes of this Chapter; and

(2) participation in the plan is available to owners of contiguous parcels identified in Waterfront Access Plan BK-1 on an equal basis.

62-74 - Requirements for Recordation

LAST AMENDED
4/22/2009

All required #visual corridors# and #waterfront public access areas# other than those provided in parks #developed# pursuant to Section 62-59 (Special Regulations for Zoning Lots That Include Parks), once certified in accordance with the provisions of Section 62-811 (Waterfront public access and visual corridors), paragraphs (b) or (c), shall be duly recorded in the form of a signed declaration of restrictions, including a maintenance and operation agreement with the Department of Parks and Recreation when a #waterfront public access area# is provided, indexed against the property, binding the owners, successors and assigns to provide #visual corridors# and to construct and maintain the #waterfront public access areas#, except as provided in the provisions of Section 62-70, inclusive, and provide public access thereto in accordance with the plans certified by the Chairperson of the City Planning Commission. Such declaration or maintenance and operation agreement shall require that a bond be posted that would ensure that the #waterfront public access areas# are maintained in accordance with the declaration or maintenance and operation agreement and are closed only at authorized times, and shall set forth rules of conduct consistent with the provisions of paragraph (b) of Section 62-71 (Operational Requirements). The filing of such declaration in the Borough Office of the Register of the City of New York shall be a precondition for the issuance of a building permit.

In addition, the preceding #waterfront public access areas# elements shall be recorded on the certificate of occupancy by the Departments of Buildings or Business Services, as applicable, and shall be a condition of issuance of such certificate of occupancy.

For parcels identified in Waterfront Access Plan BK-1 for which an alternate plan for joint maintenance and operation has been approved, or for parcels for which a transfer to the City is proposed pursuant to paragraph (b) of Section 62-73 (Request to Transfer Title to Certain Waterfront Public Access Areas), the provisions of such instruments as are necessary to effectuate such paragraph shall supersede those of the maintenance and operation agreement described in this Section.

62-80 - SPECIAL REVIEW PROVISIONS

LAST AMENDED
4/22/2009

An application to the Department of Buildings, Department of City Planning or Department of Business Services, involving a #zoning lot# subject to the provisions of this Chapter, shall include a survey of the #zoning lot# showing the following elements, as applicable, and documentation showing compliance with all requirements for #waterfront public access areas#:

(a) pierhead line;

(b) bulkhead line;

(c) #shoreline#, including its length;

(d) #upland lot#, including its area;

(e) #seaward lot#, including its area;

(f) area of the portion of the #zoning lot# seaward of the #shoreline#;

(g) #existing piers#, #platforms# or #floating structures#, including #water coverage# and surface elevation or height, as applicable;

(h) previously established and recorded #visual corridors# and #waterfront public access areas# or any other public access area on the #zoning lot# or on adjoining #zoning lots#;

(i) #visual corridors# or #waterfront public access areas# required on the #zoning lot# by a Waterfront Access Plan set forth in Section 62-90; and

(j) existing bulkheads and stabilized portions of natural shore showing seaward and landward edges, as well as their top elevations.

62-81 - Certifications by the Chairperson of the City Planning Commission

LAST AMENDED
6/6/2024

The provisions of Sections 62-811 and 62-812, relating to certifications for #waterfront public access areas#, #visual corridors# and #zoning lot# subdivisions, shall apply to all #zoning lots# within #waterfront blocks# and any other #blocks# included within a Waterfront Access Plan, except that the following shall not be subject to the provisions of Section 62-811:

airports, heliports and seaplane bases;

in any district, existing #zoning lots# of less than 10,000 square feet #developed# #predominantly# with #single-# or #two-family residences# within #detached#, #semi-detached# or #zero lot line buildings#, provided such #zoning lots# are not included within an area subject to a Waterfront Access Plan pursuant to Section 62-90;

#zoning lots# in R1 and R2 Districts; and

#zoning lots# in C8 and #Manufacturing Districts#, containing #predominantly# #uses# listed under Use Groups IV(B), IX or X, except for docking facilities serving passenger ocean vessels or sightseeing, excursion or sport fishing vessels.

62-811 - Waterfront public access and visual corridors

LAST AMENDED
5/12/2021

No excavation or building permit shall be issued for any #development# on a #waterfront block#, or any other #block# included within a Waterfront Access Plan, until the Chairperson of the City Planning Commission certifies to the Department of Buildings or Department of Business Services, as applicable, that:

(a) there is no #waterfront public access area# or #visual corridor# requirement for the #zoning lot# containing such #development# due to the following:

(1) the #development# is exempt pursuant to Sections 62-52 (Applicability of Waterfront Public Access Area Requirements) or 62-51 (Applicability of Visual Corridor Requirements); or

(2) the #waterfront public access area# or #visual corridor# requirement has been waived pursuant to Section 62-90 (WATERFRONT ACCESS PLANS);

(b) a site plan and all other applicable documents have been submitted showing compliance with the provisions of Sections 62-332 (Rear yards and waterfront yards), 62-50 (GENERAL

REQUIREMENTS FOR VISUAL CORRIDORS AND WATERFRONT PUBLIC ACCESS AREAS), and 62-60 (DESIGN REQUIREMENTS FOR WATERFRONT PUBLIC ACCESS AREAS);

(c) a site plan has been submitted showing compliance with the provisions of Section 62-90;

(d) for #developments# listed in Section 62-52, paragraph (b), on a #zoning lot# containing a public access area established prior to October 25, 1993, meeting the terms of Section 62-58 (Requirements for Water-Dependent Uses and Other Developments), by restrictive declaration, lease agreement, maintenance and operation agreement or other agreement with a public entity, which public access area is required to be provided for the life of the #development# subject to such agreement, a copy of such restrictive declaration or agreement and a site plan indicating the location, area and design of the required public access area and showing substantial compliance with the provisions of Section 62-58 have been submitted; or

(e) for the #development# of a park, a site plan and all other applicable data have been submitted showing compliance with the provisions of Section 62-59 (Special Regulations for Zoning Lots That Include Parks).

For any parcel identified in Waterfront Access Plan BK-1, the Chairperson shall allow for the phased implementation of all required #waterfront public access areas# upon certification to the Commissioner of Buildings that a plan has been submitted that provides for an amount of #waterfront public access area# proportionate to the amount of #floor area# being #developed# in each phase. Additionally, for any #development# located within 240 feet of a #shoreline#, the initial phase and each subsequent phase shall provide a minimum of 200 linear feet of #shore public walkway# and any adjacent #supplemental public access area# located between such #development# and such #shore public walkway#, one #upland connection# through or adjacent to the entire parcel leading to the #shore public walkway#, and at least one other connection from the #shore public walkway# to an adjacent #shore public walkway#, #street# or other #upland connection#. For any #development# located entirely beyond 240 feet of a #shoreline#, the initial phase and each subsequent phase shall also provide a minimum of 100 linear feet of #shore public walkway# and one

#upland connection# through or adjacent to the entire parcel leading to the #shore public walkway#. However, no #waterfront public access area# need be provided for a phase consisting of a #development# in which all #residences# in such phase are #affordable housing units# as set forth in Section 27-111 (General definitions), provided that such exemption shall only apply where 25 percent or less of the total #residential# #floor area#, including any applicable #floor area# bonuses, on the parcel has been #developed#.

A certification pursuant to paragraphs (b) or (c) of this Section shall be granted on condition that an acceptable restrictive declaration is executed and filed pursuant to Section 62-74 (Requirements for Recordation).

Within 45 days of receipt of a complete application, the Chairperson shall either certify that the proposed #development# complies with the requirements of this Section or disapprove such application, citing the nature of any failure to comply. Failure to certify or disapprove such application within the 45 day period will release the Department of Buildings or the Department of Business Services from any obligation to withhold the excavation or building permit and authorize such agency to determine compliance with the provisions of this Section.

62-812 - Zoning lot subdivision

LAST AMENDED
4/22/2009

An existing #zoning lot# within a #waterfront block#, or within any other #block# included in a Waterfront Access Plan, may be subdivided into two or more #zoning lots#, or reconfigured in a manner that would reduce its area or any dimension, only in accordance with the provisions of this Section or as modified pursuant to Section 62-822 (Modification of waterfront public access area and visual corridor requirements).

Such #zoning lot# may be subdivided or reconfigured provided that the Chairperson of the City Planning Commission certifies that:

(a) there are no requirements in this Chapter for a #waterfront public access area# or #visual corridors# on such #zoning lot# for any #use# permitted on such #zoning lot#; or

(b) a restrictive declaration shall be recorded against each subdivided or reconfigured #zoning lot#, binding all such #zoning lots# to provide #waterfront public access areas# or #visual corridors# at the time of a #development#, other than an exempt #development#, as set forth in Section 62-52. Such restrictive declaration shall include a site plan that sets forth the amount and location of the required #waterfront public access areas# and #visual corridors# on all resulting #zoning lots#. Such #waterfront public access area# or #visual corridor# shall be provided as required for the original #zoning lot# at the time of #development# of a non-exempt #use#; or

(c) there are existing publicly accessible waterfront open areas on the #zoning lot# constructed as part of a previously approved site plan providing physical and visual access to and along the waterfront, and such open areas are no smaller in square footage than that required under the provisions of this Chapter for #waterfront public access areas# and #visual corridors#, and restrictions have been recorded against the property requiring such existing open area to remain accessible to the public for the life of the #development#.

62-813 - Docking facilities for ferries or water taxis in certain waterfront areas

LAST AMENDED
12/5/2024

In Community District 1 in the Borough of Brooklyn, docking facilities for ferries or water taxis set forth in paragraph (a) of this Section shall be permitted, provided that the Chairperson of the City Planning Commission certifies to the Commissioner of the Department of Buildings that such docking facilities comply with the standards for required amenities set forth in paragraph (b) of this Section and, where provided, the standards for permitted amenities set forth in paragraph (c) of this Section. In conjunction with such certification, parking and drop-off and pick-up area requirements for docking facilities with a vessel capacity of up to 399 passengers shall be waived, as applicable. Where such docking facilities are proposed within a #waterfront public access area#, such docking facilities shall also comply with the provisions of paragraph (d) of this Section. Where modifications to a docking facility certified pursuant this Section are made, including the amount or configuration of docking facility amenities, establishment of, or modification to, #waterfront public access areas# on the same #waterfront zoning lot#, or the cessation of ferry or water taxi service to such docking facility, the provisions of paragraph (e) of this Section shall apply.

The amount of amenities permitted or required pursuant to paragraphs (b) and (c) of this Section shall be calculated for each docking facility on the #waterfront zoning lot# and not according to the number of vessels a single docking facility can accommodate.

(a) Docking facilities

The following docking facilities, listed under Use Group IV(B), are subject to the certification provisions of this Section:

(1) in R6 through R12 Districts, #Commercial Districts# and #Manufacturing Districts#, docks for water taxis, with a vessel capacity of up to 99 passengers;

(2) in R6 through R12 Districts, #Commercial Districts# and #Manufacturing Districts#, docks for ferries, other than #gambling vessels#, with a vessel capacity of up to 399

passengers; and

(3) in C4, C5, C6, C7 and C8 Districts, and #Manufacturing Districts#, docks for ferries with an unlimited capacity.

(b) Required amenities

Passenger queuing space, bicycle parking and a trash receptacle shall be provided in accordance with the applicable provisions of this paragraph (b), inclusive. All applications shall include a site plan denoting the location of each required amenity, dimensioned plans and elevations of individual amenities, as applicable, as well as any other material required to demonstrate compliance with such provisions.

(1) Passenger queuing space

Passenger queuing space shall be provided in accordance with the provisions of this paragraph (b)(1), inclusive.

(i) Amount

A minimum of four square feet of queuing space per passenger shall be provided on the #waterfront zoning lot# for 40 percent of the U. S. Coast Guard certified passenger capacity of the largest vessel proposed to dock at such facility. Queuing space may be either standing space or seating space, and may be either open to the sky or provided within a sheltered space for passengers in accordance with the provisions of paragraph (c)(1), inclusive, of this Section.

(ii) Standing space

All standing queuing space shall be contiguous and clear of obstructions, except for any interruption by circulation paths required for access to docking facilities through a gangway, or pier access thereto. However, such standing queuing space may be non-contiguous and temporary dividers may be permitted as obstructions within such queuing space where the applicant signs an affidavit, or provides materials demonstrating in a manner that is satisfactory to the Chairperson, that an attendant will manage queues whenever such measures are implemented.

(iii) Seating space

A minimum of 10 percent of required queuing space shall be provided as seating, and up to 50 percent of required queuing space may be provided as seating. However, no seating shall be required within a previously approved #waterfront public access area#. For the purpose of applying seating towards the queuing requirement, one linear foot of seating shall equal one square foot of queuing space.

Any seating space provided pursuant to this Section within an existing or proposed #waterfront public access area# shall not count towards the maximum amount of seating permitted to be located seaward of the #shore public walkway# pursuant to paragraph (b) of Section 62-62 (Design Requirements for Shore Public Walkways and Supplemental Public Access Areas).

All seating provided for queuing space shall comply with the applicable dimensional criteria of Section 62-652 (Seating), but need not comply with the percentage requirements for different types of seating required pursuant to such Section. However, moveable chairs shall not constitute seating for queuing.

(iv) Location

Queuing space shall be provided on the #waterfront zoning lot# within 150 feet of the landward terminus of the gangway leading to the docking facility.

(2) Bicycle parking

Bicycle racks sufficient to provide at least four bicycle parking spaces shall be provided on the #waterfront zoning lot#. Such bicycle racks shall comply with the standards of Section 62-657.

(3) Trash receptacle

One trash receptacle shall be provided on the #waterfront zoning lot# within 25 feet of the landward terminus of the gangway leading to the docking facility. Such trash receptacle shall comply with the standards of Section 62-658.

(c) Permitted amenities

Passenger queuing shelters and ticketing machines may be provided only in accordance with the applicable standards of this paragraph (c), or, where applicable, the authorization provisions set forth in Section 62-824 (Modifications to passenger queuing shelters for ferry or water taxi docking facilities).

All applications shall include a site plan denoting the location of such amenities, dimensioned plans and elevations of individual amenities, as well as any other material required to demonstrate compliance with the following standards:

(1) Passenger queueing shelter

Where provided, passenger queueing shelters shall comply with the provisions of this paragraph (c)(1), inclusive. All heights are measured from adjoining grade.

(i) Maximum dimensions and permitted enclosing walls

The maximum height of a shelter shall be 10 feet. Below a height of seven feet, the maximum width shall be four feet, and above a height of seven feet, the maximum width shall be eight feet. The maximum length of a shelter shall not exceed 16 feet, except that where a ticketing machine provided pursuant to paragraph (c)(2) of this Section is located within such shelter, such maximum length may be increased to 20 feet.

Shelters shall be permitted a total of three enclosing walls, one along the long dimension of the shelter, and one along each narrow end.

(ii) Support structures below the roof

A maximum of two vertical columns may support the enclosing walls and the roof of a shelter, except that where a ticketing machine provided pursuant to paragraph (c)(2) of this Section is located within such shelter, an additional column shall be permitted. The maximum width and depth of such columns

shall not exceed 12 inches. All such columns shall be aligned so that when viewed in elevation view along the narrow end of the shelter, only one column shall be visible.

Below a height of 30 inches, one horizontal structural element shall be permitted along the long dimension of the shelter. The maximum depth and height of such structural element shall not exceed 12 inches. Between a height of 30 inches and seven feet no horizontal structural elements shall be permitted, and above a height of seven feet, horizontal structural elements shall be considered part of the roof structure.

Additional support structures needed to support glazing in the enclosing walls are permitted, provided that such structures are to the minimum amount necessary.

(iii) Roof structure

The roof of the shelter, including all associated structural elements and materials, shall be located above a height of seven feet.

The maximum depth of the roof, including all associated structural elements and materials, shall not exceed 12 inches, as measured perpendicular to the roof surface. In addition, within six inches of the edge of any portion of the roof that cantilevers over passenger queuing space, as viewed in elevation along the narrow end of the shelter, the depth of the roof shall be limited to three inches.

No slopes or curves shall be permitted in the roof along the long dimension of the shelter. Along the narrow end of the shelter, slopes not to exceed 15 degrees and curves with a radius of at least 10 feet shall be permitted. Where two slopes are provided, in no event shall both portions of the roof angle downward from the same point.

(iv) Materials, lighting and permitted signage

On each narrow end of the shelter, the enclosing wall or associated vertical support column may accommodate up to six square feet of way-finding ferry #signs#, with a width not to exceed 12 inches. In addition, the enclosing wall on the long end of the shelter or a face of a ticketing machine provided in accordance with paragraph (c)(2) of this Section may accommodate up to six square feet of materials related to ferry operations, including maps and schedules of ferry service. No #advertising signs# shall be permitted.

All structural elements shall be composed of unpainted, metallic materials. The entire surface area of all enclosing walls shall be composed of untinted, transparent materials, except for transparency distraction markers and any support structures or signage permitted pursuant to this paragraph (c)(1). A minimum of 50 percent of the surface area of the roof shall be composed of translucent materials, except that any portion occupied by solar panels shall be excluded from such calculation. Benches provided within a shelter shall either match or complement such shelter materials.

Where lighting is provided within a shelter, the luminaire shall be shielded so the

light source is not visible.

(v) Location and orientation

Shelters shall be provided on the #waterfront zoning lot# within 100 feet of the landward terminus of the gangway leading to the docking facility.

The long dimension of the shelter shall be oriented so as to be within 15 degrees of being perpendicular to the shoreline or, where located on a pier, within 15 degrees of being parallel to such pier.

Where a shelter is provided within a previously approved #waterfront public access area#, the Chairperson may modify the location and orientation provisions of this Section, to the minimum extent necessary, where site limitations would make compliance with such provisions infeasible.

(2) Ticketing machines

Ticketing machines provided in conjunction with a docking facility shall comply with the provisions of this paragraph (c)(2).

(i) Maximum square footage

The maximum area of all ticket machines, as measured in plan around the furthest extent of such machines, shall not exceed 12 square feet.

(ii) Location

Ticketing machines shall be provided on the #waterfront zoning lot# within 100 feet of the landward terminus of the gangway leading to the docking facility.

Where a passenger queuing shelter is provided in conjunction with the ferry or water taxi docking facility pursuant to paragraph (c)(1) of this Section, ticketing machines shall be located either within, or immediately adjacent to the upland portion of such shelter.

Any ticketing machine not placed within a passenger queuing shelter shall be placed in a location open to the sky.

Ticketing machines shall either front directly upon a required circulation path or shall be connected thereto by a walkway with an unobstructed minimum clear width of at least five feet.

Where a ticketing machine is provided within a previously approved #waterfront public access area#, the Chairperson may modify the location provisions of this Section, to the minimum extent necessary, where site limitations would make compliance with such provisions infeasible.

(d) Provisions for adding amenities for docking facilities to a #waterfront public access area#

Docking facilities proposed within a previously approved #waterfront public access area# or in conjunction with a certification for such approval, pursuant to Section 62-811 (Waterfront public access areas and visual corridors), shall comply with the applicable provisions of this paragraph (d).

(1) Permitted obstructions

In no event shall amenities provided pursuant to paragraphs (b) or (c) of this Section be permitted to encroach upon the minimum circulation paths required pursuant to the applicable provisions of Sections 62-62 (Design Requirements for Shore Public Walkways and Supplemental Public Access Areas), 62-63 (Design Requirements for Public Access on Piers and Floating Structures) and 62-64 (Design Requirements for Upland Connections).

(2) Providing amenities in previously approved #waterfront public access areas#

All seating, bicycle parking and trash receptacles provided for docking facilities in accordance with the provisions of paragraph (b) of this Section, within a previously approved #waterfront public access area#, shall be provided in addition to the amount of seating, bicycle parking, or trash receptacles required for such #waterfront public access area# pursuant to the applicable provisions of Section 62-60 (DESIGN REQUIREMENTS FOR WATERFRONT PUBLIC ACCESS AREAS). Where excess seating, bicycle parking or trash receptacles have been provided within such previously approved #waterfront public access areas#, such additional amenities may be applied towards compliance with the provisions for docking facilities of this Section, provided that such amenities comply with the applicable provisions of paragraph (b) of this Section. Where previously approved #waterfront public access areas# are #non-complying# as to the provision of required amenities, in no event shall the minimum amount of amenity provided for docking facilities pursuant to paragraph (b) reduce the degree of #non-compliance# of such #waterfront public access area#.

All seating, bicycle parking and trash receptacles provided in accordance with the

provisions of paragraph (b) of this Section in an existing #waterfront public access area# shall either match or shall be comparable with such existing amenities, with regard to quality, materials, finishes and form.

Modifications to a previously approved #waterfront public access area# in order to accommodate amenities to be provided for a docking facility in accordance with paragraphs (b) or (c) of this Section shall not constitute a design change to such #waterfront public access area#, and shall not necessitate a new certification pursuant to Section 62-811, provided that the applicant demonstrates to the Chairperson of the City Planning Commission that such modifications are to the minimum extent necessary in order to accommodate the amenities being provided for such docking facility.

(3) Providing amenities in conjunction with a new #waterfront public access area#

All amenities provided for docking facilities in accordance with the provisions of paragraph (b) of this Section shall be provided in addition to all required seating, bicycle parking, or trash receptacles for a #waterfront public access area# being #developed# in conjunction with the provision of a docking facility. All such proposed amenities for the docking facility shall complement the proposed amenities for such #waterfront public access area#.

(e) Modifications of certified docking facilities

Any modification to a docking facility certified pursuant to this Section, shall comply with the applicable provisions of this paragraph (e).

(1) Modification of amenities

Any modification of the required or permitted amenities for a docking facility certified pursuant to this Section, including the configuration of such amenities, shall be subject to a new certification pursuant to this Section.

Any ferry or water taxi service modification resulting in a reduction of passenger capacity of the largest vessel docking at such facility shall not be subject to a new certification provided that the amount of queuing space required at the time of approval, pursuant to paragraph (b) of this Section, is not diminished.

(2) Establishment of or modifications to #waterfront public access areas#

Any establishment of a #waterfront public access area# or modification to a previously approved #waterfront public access area# where a docking facility certified pursuant to this Section is located, shall require a new certification, pursuant to this Section, in conjunction with the certification set forth in Section 62-811.

(3) Cessation of ferry or water taxi service

Where ferry or water taxi service ceases operations to a docking facility certified pursuant to this Section, and ferry docking infrastructure is removed from the #waterfront zoning lot# which would preclude further service, the following shall apply:

(i) Passenger queuing shelters and ticketing machines provided pursuant to paragraph (c) of this Section shall be removed from the #waterfront public access area#;

(ii) Seating, bicycle racks, and litter receptacles provided pursuant to paragraph (b) of this Section need not be removed; and

(iii) any breach in a guardrail along a #pier# or along the #shore public walkway# to accommodate a gangway to a docking facility shall be repaired and shall match the adjacent guardrail.

62-82 - Authorizations by the City Planning Commission

LAST AMENDED
4/22/2009

62-821 - Modification of requirements for ferries and sightseeing, excursion or sport fishing vessels

LAST AMENDED
3/26/2014

(a) In C1, C2, C3 and C7 Districts, the City Planning Commission may authorize modification of the #use# regulations of Section 32-10 (USES PERMITTED AS-OF-RIGHT) in order to allow docks for ferries with an operational passenger load greater than 150 passengers per half hour, or in Community District 1 in the Borough of Brooklyn, a vessel capacity larger than 399 passengers, provided the Commission finds that:

(1) such facility will not create serious pedestrian or vehicular traffic congestion that would adversely affect the surrounding area;

(2) the #streets# providing access to such facility will be adequate to handle the traffic generated thereby; and

(3) such #use# is so located as to draw a minimum of vehicular traffic to and through local #streets# in adjoining residential areas.

(b) In all districts, the Commission may authorize a reduction or waiver of the parking requirements of Section 62-43 for docks serving ferries, or sightseeing, excursion or sport fishing vessels, provided the applicant submits a report that enables the Commission to make one or more of the following findings:

(1) that there is or would be adequate public or private transit in close proximity to the facility and that there is or would be a consistent pattern of usage by a significant percentage of passengers;

(2) that there is or would be a consistent pattern of passenger drop-off and pick-up by private cars, taxis or vans by a significant percentage of passengers;

(3) that there is or would be a consistent pattern of arrivals and departures on foot or by bicycle by a significant percentage of passengers;

(4) that there is a consistent pattern of underutilization of existing #accessory# parking spaces; or

(5) that the dock serves or would serve vessels operating at different times during the day or week and that there is or would be shared usage of common parking spaces at mutually exclusive time periods.

(c) In all districts, the Commission may authorize modification of the passenger drop-off and pick-up area requirements of Section 62-462, including a reduction in the number of required spaces, for docks serving ferries, or sightseeing, excursion or sport fishing vessels, provided the Commission finds that:

(1) due to the configuration of the #zoning lot#, strict adherence to the regulations would not be possible to achieve;

(2) there is no practical possibility of locating such area on another #zoning lot# that would be contiguous, except for its separation by a #street# or #street# intersection, because appropriate sites are occupied by substantial improvements;

(3) there is no practical possibility of providing a lay-by area on an adjoining #street# that would be acceptable to the New York City Department of Transportation; and

(4) such modifications would not create serious vehicular traffic congestion that would adversely affect the surrounding area.

The Commission may impose appropriate conditions and safeguards to assure that such modifications will not adversely affect the surrounding area.

62-822 - Modification of waterfront public access area and visual corridor requirements

LAST AMENDED
12/5/2024

(a) Authorization to modify requirements for location, area and minimum dimensions of #waterfront public access areas# and #visual corridors#

The City Planning Commission may modify the requirements of Section 62-50 (GENERAL REQUIREMENTS FOR VISUAL CORRIDORS AND WATERFRONT PUBLIC ACCESS AREAS) and, in conjunction therewith, Section 62-332 (Rear yards and waterfront yards). The Commission may also authorize a portion or all of the required #waterfront public access area#

to be provided off-site on an adjoining public property.

The Commission shall file any such authorization, pursuant to this paragraph (a), with the City Council. The Council, within 20 days of such filing, may resolve by majority vote to review such authorization. If the Council so resolves, within 50 days of the filing of the Commission's authorization, the Council shall hold a public hearing and may approve such authorization in whole or in part, with additional or modified restrictions or conditions, or disapprove such authorization. If, within the time periods provided for in this Section, the Council fails to act on the Commission's authorization, the Council shall be deemed to have approved such authorization.

(1) In order to modify the location of #waterfront public access areas# and #visual corridors#, the Commission shall find that such areas, provided either on the #zoning lot# or off-site adjacent to the #zoning lot#, shall:

(i) comply with the required minimum dimensions and equal the required total area, in aggregate; and

(ii) due to their alternative location and design, provide equivalent public use and enjoyment of the waterfront and views to the water from upland #streets# and other public areas; or

(2) In the event the Commission determines that there is no feasible way to provide equal alternative #waterfront public access areas# either on the #zoning lot# or off-site on an adjoining public property or to provide equal alternative #visual corridors#, the Commission may authorize a reduction in minimum dimensions or area, or may waive such requirements, provided that:

(i) such #development# would be impracticable, physically or programmatically, due to site planning constraints such as the presence of existing #buildings or other structures# or elements having environmental, historic or aesthetic value to the public; and

(ii) that the reduction or waiver of requirements is the minimum necessary.

(b) Authorization to modify requirements within #waterfront public access areas#

The City Planning Commission may modify the requirements within the #waterfront public access area# provisions of Sections 62-513 (Permitted obstructions in visual corridors), 62-58 (Requirements for Water-Dependent Uses and Other Developments), 62-60 (DESIGN REQUIREMENTS FOR WATERFRONT PUBLIC ACCESS AREAS), inclusive, and 62-90 (WATERFRONT ACCESS PLANS), inclusive.

In order to grant such authorization, the Commission shall find that such modifications:

(1) are necessary to accommodate modifications pursuant to paragraph (a) of this Section; or

(2) would result in a design of #waterfront public access areas# that is functionally equivalent or superior to the design prescribed by strict adherence to the applicable provisions.

(c) Authorization for phased #development# of #waterfront public access areas#

The City Planning Commission may authorize a phasing plan to implement #waterfront public access area# improvements on #zoning lots# undergoing partial development or #zoning

lots# subdivided or reconfigured, pursuant to Section 62-812.

In order to grant such authorization, the Commission shall find that:

(1) the amount of #waterfront public access area# #developed# in any phase is proportionate to the #lot area# being #developed# in such phase; or

(2) physical or programmatic constraints make it infeasible to provide the #waterfront public access area# on a proportional basis as the #zoning lot# is improved, and the maximum feasible amount of #waterfront public access area# is #developed# in each phase.

A phasing plan shall be submitted that sets forth the amount and location of #waterfront public access area# that will be provided at the time each phase is #developed#.

(d) Authorization to modify minimum hours of operation and to install gates

The City Planning Commission may authorize, for a period not to exceed 10 years, modifications of the requirements for hours of operation set forth in Section 62-71, paragraph (a), or the installation of gates in #predominantly# #residential# #developments# in accordance with the provisions of Section 62-651, paragraph (c)(2).

The Commission shall find that any modification of the hours of operation and the installation of gates in #predominantly# #residential# #developments# are warranted due to the remote location of the #waterfront public access areas#, and that such modified hours of operation or gates will not thereby unduly restrict public access to the waterfront.

As a condition of granting such authorization, the Commission shall find that all gates comply

with the design requirements set forth in Section 62-651.

Public access to the #waterfront public access areas# shall be assured by appropriate legal instruments. Signage setting forth hours of operation shall be affixed to the gate which shall indicate the hours of public access authorized pursuant to this paragraph (d).

The Commission may impose appropriate conditions and safeguards to assure that such modifications will achieve comparable physical and visual access to the waterfront or to assure that an approved phasing plan will be properly implemented. Such conditions may include, but are not limited to, deed restrictions, easements or performance bonds.

62-823 - Modification of use regulations in C3 Districts

LAST AMENDED
6/6/2024

In C3 Districts, the City Planning Commission may authorize modification of #use# regulations to allow a WE #use# not otherwise allowed as-of-right or by special permit. In conjunction with such authorization, the Commission may also allow the #sign# regulations of a C1 District to apply to the #zoning lot#.

As a condition to the granting of such authorization the Commission shall find:

(a) that such WE #use# is a #use# listed under Use Groups V, VI, VII or VIII;

(b) that the #zoning lot# also includes a WD #use# that is either permitted in the district as-of-right or has been permitted by special permit;

(c) that such WE #use# will not create serious pedestrian or vehicular traffic congestion that would adversely affect surrounding residential #streets#;

(d) that the entrances and exits for #accessory# parking or loading facilities are so located as to not adversely affect #residential# properties fronting on the same #street#; and

(e) that such WE #use# will not impair the character or future use or development of the surrounding area.

The Commission may prescribe additional appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area. Such conditions and safeguards may include limitations on the size of the establishment, limitations on lighting and signage or screening requirements.

62-824 - Modifications to passenger queuing shelters for ferry or water taxi docking facilities

LAST AMENDED
3/26/2014

In Community District 1 in the Borough of Brooklyn, the City Planning Commission may authorize a ferry passenger queueing shelter exceeding the dimensions set forth in paragraph (c)(1) of Section 62-813 (Docking facilities for ferries or water taxis in certain waterfront areas), provided that the Commission finds that:

(a) the public benefit derived from the proposed shelter merits the larger dimensions authorized;

(b) the proposed shelter utilizes the design standards set forth in paragraph (c)(1) of Section 62-813 regarding permitted support structures, materials, signage and roof construction to the

greatest extent feasible;

(c) any modification to such provisions of Section 62-813 will not unduly limit views from the #waterfront public access area#; and

(d) the design of the proposed shelter will result in a quality structure that complements the #waterfront public access area# or the publicly accessible area of a #waterfront zoning lot# accommodating the ferry or water taxi docking facility.

62-825 - Modifications for wind energy systems

LAST AMENDED
12/6/2023

In any district, the City Planning Commission may authorize modifications to the applicable #bulk# or #waterfront public access area# regulations in order to accommodate wind energy systems, whether #accessory# or as part of #energy infrastructure equipment#, provided the Commission finds that:

(a) there would be a practical difficulty in complying with regulations set forth for wind energy systems as set forth in the underlying district regulations, and as modified by this Chapter, without such modifications;

(b) such modifications are the minimum necessary to allow for an appropriate wind energy system; and

(c) the proposed modifications will not alter the essential character of the neighborhood in which the #building# is located.

The Commission may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area.

62-83 - Special Permits by the City Planning Commission

LAST AMENDED
4/22/2009

62-831 - General provisions

LAST AMENDED
3/22/2016

Where a special permit application would allow a significant increase in #residential# #floor area# and the special #floor area# requirements in #Mandatory Inclusionary Housing areas# of Section 27-131 (Mandatory Inclusionary Housing) are not otherwise applicable, the City Planning Commission, in establishing the appropriate terms and conditions for the granting of such special permit, shall apply such requirements where consistent with the objectives of the Mandatory Inclusionary Housing program as set forth in Section 27-12 (General Provisions). However, where the Commission finds that such special permit application would facilitate significant public infrastructure or public facilities addressing needs that are not created by the proposed #development#, #enlargement# or #conversion#, the Commission may modify the requirements of such paragraph (d).

62-832 - Docks for passenger ocean vessels in C6 Districts

LAST AMENDED
3/22/2016

In C6 Districts, the City Planning Commission may permit docks for passenger ocean vessels, other than #gambling vessels#.

As a condition for granting a special permit, the Commission shall find that:

(a) such facility will not create serious pedestrian or vehicular traffic congestion that would unduly inhibit surface traffic and pedestrian flow in the surrounding area;

(b) the #streets# providing access to such facility will be adequate to handle the traffic generated thereby;

(c) an area will be provided for the drop-off and pick-up of passengers by private car, taxi, van and bus that, at a minimum, meets the requirements of Section 62-462 (Passenger drop-off and pick-up areas for docking facilities), and which is so designed as to avoid traffic or pedestrian conflict on the #streets# providing access to the facility; and

(d) such #use# will not be incompatible with or adversely affect the essential character, use or future growth of the surrounding area.

The Commission may prescribe additional appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area, including the provision of #accessory# off-street parking spaces, #accessory# off-street loading berths or additional area for the temporary parking of vehicles or buses for drop-off and pick-up of passengers.

62-833 - Docks for ferries or water taxis in Residence Districts

LAST AMENDED
6/6/2024

In all #Residence Districts#, except R1 and R2 Districts, and except within Community District 1 in the Borough of Brooklyn, where the certification provisions of Section 62-813 (Docking facilities for ferries or water taxis in certain waterfront areas) shall apply, the City Planning Commission may permit docks for ferries or water taxis as listed in Use Group IV(B), provided that:

(a) such facility will not create serious pedestrian or vehicular traffic congestion that would adversely affect surrounding residential #streets#;

(b) such #use# is so located as to draw a minimum of vehicular traffic to and through local #streets# in the adjoining residential area;

(c) there is appropriate landscaping along #lot lines# to enable such #use# to blend harmoniously with the adjoining residential area;

(d) #accessory# off-street parking spaces are provided in accordance with Section 62-43 (Parking Requirements for Commercial Docking Facilities) and the entrances and exits for such #accessory# parking facilities are so located as to not adversely affect #residential# properties fronting on the same #street#; and

(e) such #use# will not impair the character or the future use or development of the surrounding residential area.

The Commission may prescribe additional appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area and to protect #residential# properties which are adjoining or across the #street# from the facility. Such additional conditions and safeguards may include provisions for temporary parking of vehicles for passenger drop-off and pick-up, additional #accessory# off-street parking spaces and limitations on lighting and signage.

62-834 - Uses on floating structures

LAST AMENDED
12/5/2024

In all districts, the City Planning Commission may permit a #use# not otherwise allowed as-of-right by Section 62-25 to be located on a #floating structure# provided the #use# is permitted by the applicable district regulations and the #floating structure# complies with the height and setback regulations of Section 62-345.

An application for a #use# on a #floating structure# pursuant to this Section shall be made jointly by the property owner and the owner of the #floating structure#, if they are separate entities. In addition, the application shall include copies of all Federal and State permit applications that are required to be filed in conjunction with the proposed #use#.

As a condition for granting a special permit, the Commission shall find that:

(a) the proposed #use# is a WE #use# or is either a power plant or government-owned and operated facility that requires such a location due to the absence of a reasonable way to site the facility without use of a #floating structure#;

(b) a plan for public access on the #floating structure#, elsewhere on the #zoning lot#, or off-site on public property adjacent to the #zoning lot#, is provided that is appropriate to the size and intensity of #use# on the #floating structure#;

(c) except for power plants or government-owned and operated facilities, the location of such #use# on a #floating structure# will enhance public access to and use of the waterfront; and

(d) the location of such #use# on a #floating structure# will not adversely affect the essential character, use or future growth of the waterfront and the surrounding area.

However, the Commission may waive the public access requirement for a power plant or government-owned and operated facility either where such access would conflict with the operation of the facility or be detrimental to the public welfare.

The Commission may also permit modification of the #visual corridor# requirements of Section 62-51, inclusive, provided it makes the additional finding that the location and configuration of the #floating structure# minimizes any adverse effects on significant views to the water from upland public #streets# or other public places.

The Commission may prescribe additional appropriate conditions and safeguards to minimize adverse effects on the character of the waterfront and the surrounding area, including requirements for setbacks from #lot lines#, spacing from other #floating structures# on the same or adjoining #zoning lots# and limitations on lighting or signage.

62-835 - Developments on piers or platforms

LAST AMENDED
12/5/2024

In all districts, the City Planning Commission may permit:

(a) a change of #use# on a #new pier# or #new platform# from a WD #use# or playground or publicly accessible private park, to any other WE #use# permitted by the applicable district regulations and, in conjunction with such change of #use#, modification of the #bulk# regulations of Section 62-30 for an existing #building#, except for Section 62-31, paragraph (a), or the maximum #floor area ratio#, provided the Commission finds that:

(1) existing permitted WD #uses# and open WE #uses# on the #pier# or #platform# have been discontinued for a continuous period of at least two years immediately prior to the date of application;

(2) the proposed WE #use# will significantly enhance public use and enjoyment of the waterfront;

(3) there is no increase in #water coverage#; and

(4) in the case of modification of #bulk# regulations for an existing #building#, findings (b)(3) through (b)(6) of this Section are also met. Finding (b)(4) shall also include #platforms# within the #seaward lot#.

(b) for an #existing pier#, any #use# permitted by the applicable district regulations and modifications of the provisions of Sections 62-332 (Rear yards and waterfront yards) and 62-344 (Developments on piers), provided the Commission finds that:

(1) the facility is so designed as to significantly enhance public use and enjoyment of the waterfront;

(2) #accessory# parking or loading facilities provided in conjunction with such #uses# are arranged and designed so as to not adversely impact public access areas anywhere on the #zoning lot#;

(3) the proposed #development# does not violate the #bulk# provisions of Section 62-34 (Height and Setback Regulations on Waterfront Blocks);

(4) within the #seaward lot#, the ratio of #floor area# on the #pier# to #water coverage# of the #pier# does not exceed the maximum #floor area ratio# for the #use# as set forth in the district regulations;

(5) such #bulk# modifications would not unduly obstruct the light and air or waterfront views of neighboring properties; and

(6) such modifications will not adversely affect the essential character, use or future growth of the waterfront and the surrounding area.

(c) for #piers#, modification of the #waterfront public access area# and #visual corridor# requirements of Sections 62-50 and 62-60, provided the Commission finds that:

(1) the proposed #development# would result in better achievement of the goals set forth in Section 62-00 than would otherwise be possible by strict adherence to the regulations of Sections 62-50 and 62-60, inclusive; and

(2) an alternative #waterfront public access area# and #visual corridors# on the #zoning lot#, or off-site on a public property adjacent to the #zoning lot#, are provided that are substantially equal in area to that required and, by virtue of their location and design, provide equivalent public use and enjoyment of the waterfront and views to the water from upland #streets# and other public areas.

In the event that the Commission determines there is no feasible way to provide substantially equal alternative public access areas, either on the #zoning lot# or off-site on an adjoining public property or to provide substantially equal alternative #visual corridors#, the Commission may authorize a reduction or waiver of the requirements.

The Commission may prescribe additional appropriate conditions and safeguards to minimize adverse effects on the character of the waterfront and the surrounding area, including requirements for setbacks from #lot lines#, spacing from other #buildings# on the same or adjoining #zoning lots#, limitations on lighting and signage and limitations on size of individual establishments.

62-836 - Public parking facilities on waterfront blocks

LAST AMENDED
12/5/2024

In C1, C2, C4, C5, C6 and C7 Districts, the City Planning Commission may permit #public parking garages# or #public parking lots# on #waterfront blocks# in accordance with applicable district regulations, provided the parking facility is an interim #use# limited to a term of not more than five years, or the Commission finds that:

(a) the facility is needed to serve primarily waterfront #developments# containing WD or WE #uses#; and

(b) there is no practical possibility of locating such facility on a non-#waterfront block# because appropriate sites on such #blocks# are occupied by substantial improvements.

The Commission may prescribe additional appropriate conditions and safeguards to minimize adverse effects on the character of the waterfront and surrounding area.

62-837 - Bulk modifications on waterfront blocks

LAST AMENDED
12/5/2024

In all districts, the City Planning Commission may permit modification of any applicable #yard#, #lot coverage#, height and setback, and distance between #buildings# regulations, for a #development# on a #zoning lot# within a #waterfront block#, excluding any portion on a #pier# or #new platform#, provided the Commission finds that such modifications will not adversely affect access to light and air on surrounding #waterfront public access areas#, #streets# and properties; and

(a) will result in a better site plan and a better relationship between the #zoning lot# and the adjacent #streets#, surrounding neighborhood, adjacent open areas and #shoreline# than would be possible through strict adherence to the regulations; or

(b) are necessary to protect unique natural features such as rock outcroppings, significant grade changes or wetlands, or to accommodate existing #buildings or other structures#.

62-838 - Docks for gambling vessels

LAST AMENDED
6/6/2024

In all #Commercial Districts# and in all #Manufacturing Districts#, the City Planning Commission may permit docks for #gambling vessels#, provided that, in #Commercial Districts#, the maximum aggregate dock capacity per #zoning lot# set forth in paragraph (b)(3) of Section 32-142 (Use Group IV – uses subject to size limitations) shall apply.

As a condition for permitting such #use#, the Commission shall find that:

(a) the #streets# providing access to such docking facility will be adequate to ensure that the traffic generated will not unduly impede surface traffic and pedestrian flow in the surrounding area;

(b) any noise and activity related to the docking facility, including vessel operations, will not have a detrimental impact on the waterfront and surrounding area; and

(c) such #use# will not be incompatible with the essential character, #use# or future growth of the waterfront and surrounding area.

Docks for #gambling vessels# shall comply with all provisions of the Resolution, including the provisions of Article VI, Chapter 2 (Special Regulations Applying in the Waterfront Area), applicable to the type of vessel on which the shipboard gambling business is operated.

The Commission may prescribe additional conditions and safeguards to minimize any adverse effects on the waterfront and surrounding area.

62-90 - WATERFRONT ACCESS PLANS

LAST AMENDED

4/22/2009

62-91 - General Provisions

LAST AMENDED
4/22/2009

62-911 - Establishment of Waterfront Access Plans

LAST AMENDED
4/22/2009

The City Planning Commission and City Council may adopt a Waterfront Access Plan as an amendment to this Resolution pursuant to Section 200 or 201 of the City Charter and in accordance with the provisions of Sections 62-912 (Elements of a Waterfront Access Plan), 62-913 (Conditions for adoption of a Waterfront Access Plan) and this Section in order to adjust the #waterfront public access area# and #visual corridor# requirements of Sections 62-50 and 62-60, inclusive, retain the #waterfront block bulk# regulations of Section 62-30 on newly-created non-#waterfront blocks# within a specifically defined portion of the #waterfront area#, or establish #waterfront yard# requirements for #developments# otherwise exempt from the requirements of Section 62-33 (Special Yard and Lot Coverage Regulations on Waterfront Blocks).

To be considered for a Waterfront Access Plan, an area shall:

(a) be entirely in the #waterfront area#;

(b) not include any portions within R1 or R2 Districts;

(c) comprise either entire #blocks# or a minimum of four acres, all portions of which are contiguous tracts of land except for intervening #streets#; and

(d) have at least 600 feet of #shoreline#.

62-912 - Elements of a Waterfront Access Plan

LAST AMENDED
6/6/2024

A Waterfront Access Plan may:

(a) on #zoning lots# where a #waterfront public access area# or #visual corridors# are required pursuant to the provisions of Sections 62-50 (GENERAL REQUIREMENTS FOR VISUAL CORRIDORS AND WATERFRONT PUBLIC ACCESS AREAS) and 62-60 (DESIGN REQUIREMENTS FOR WATERFRONT PUBLIC ACCESS AREAS), inclusive, modify the size, configuration, location or design of required #waterfront public access areas# or #visual corridors# within certain designated areas in order to address local conditions, provided such plan does not impose a #waterfront public access area# or #visual corridor# requirement on any #zoning lot# greater than would otherwise be required pursuant to the provisions of Sections 62-50 or 62-60. For the purpose of determining the amount of public access, the highest standard applicable to a #zoning lot# may be applied regardless of any specific #use# permitted or proposed for such #zoning lot#. Within Waterfront Access Plan BK-1, the #waterfront public access area# and #visual corridor# requirements for any parcel located within the Waterfront Access Plan may be determined by aggregating the #waterfront public access area# and #visual corridor# requirements of each #zoning lot# within the parcel and such aggregated requirements may be modified within such parcel without regard to #zoning lot# lines;

(b) on #zoning lots# where #waterfront public access area# or #visual corridors# are not required pursuant to the provisions of Sections 62-50 and 62-60, inclusive, establish requirements for a #waterfront public access area# or #visual corridors#, except for those #zoning lots# #predominantly# #developed# for airports, heliports, seaplane bases or, in C8 or #Manufacturing Districts#, #uses# listed under Use Groups IV(B), IX or X, provided that such #zoning lots#, when improved would result in a community need for such physical or visual access to the waterfront or a waterfront linkage of #public parks# or other public areas. The plan may incorporate one or more of the #waterfront public access areas# or #visual corridors# listed in Section 62-50, inclusive, consistent with the standards of Sections 62-50 and 62-60, inclusive. Such standards may be modified as necessary to address local conditions provided such plan does not impose a requirement for any component greater than would otherwise be required pursuant to the provisions of Sections 62-50 or 62-60;

(c) modify or waive specific requirements for a #waterfront public access area# or #visual corridors# in certain designated areas where such requirements would not be compatible with local conditions and therefore not serve to further public enjoyment of the waterfront;

(d) identify shore terminations of mapped #streets# or #existing piers# or #platforms# within seaward prolongations of such #streets# and establish public access treatments for such areas after referral to the Department of Transportation or other City agency having jurisdiction over such property for its review and concurrence;

(e) apply the #bulk# regulations of Section 62-30, inclusive, to a non-#waterfront block# when such #block# results from a subdivision of a #waterfront block# as the result of a #street# mapping; and

(f) for #developments# where a #waterfront yard# is not otherwise required by Section 62-33 (Special Yard Regulations on Waterfront Blocks), establish requirements for a #waterfront yard# provided such plan does not impose a requirement greater than would be required by the provisions of Sections 62-331 (Front yards and side yards) or 62-332 (Rear yards and waterfront yards), as modified by the further provisions of this paragraph, (f), for such other

#developments#. #Enlargements# of #buildings or other structures# existing on the effective date of the Waterfront Access Plan shall be permitted within such #waterfront yard# provided that the #enlargement# is for WD #uses# or #uses# listed under Use Groups IV(B), IX or X and no portion of the #enlargement#, other than permitted obstructions, is within 20 feet of the seaward edge of the #waterfront yard#. In addition, obstructions shall be permitted within such #waterfront yard# pursuant to applicable district #yard# regulations, except that no #building# or portion of a #building# shall be permitted within 10 feet of the seaward edge of such #waterfront yard#.

A Waterfront Access Plan shall include the following elements:

(1) identification of the plan by Borough and plan number or area name;

(2) a #zoning map#, or portion thereof, showing the boundaries of the geographical area included within the plan, which shall constitute the plan map;

(3) delineation on the plan map of any physical or visual waterfront access features mandated by the plan to be at specific locations; and

(4) a description in the plan text of all features established or modified by the plan, with reference to affected #blocks# and lots.

62-913 - Conditions for adoption of a Waterfront Access Plan

LAST AMENDED
4/22/2009

As a condition precedent to its approval of a Waterfront Access Plan, the City Planning Commission shall find, in its report to the City Council for adoption, that such plan:

(a) would improve public use and enjoyment of the waterfront, thereby serving to implement the goals set forth in Section 62-00; and

(b) meets any of the following:

(1) is necessary to link #public parks# or other public areas along the waterfront or to the waterfront, and such linkage would not necessarily be achieved solely by the provisions of Sections 62-34 (Height and Setback Regulations on Waterfront Blocks), 62-50 (GENERAL REQUIREMENTS FOR VISUAL CORRIDORS AND WATERFRONT PUBLIC ACCESS AREAS) and 62-60 (DESIGN REQUIREMENTS FOR WATERFRONT PUBLIC ACCESS AREAS);

(2) is necessary to accommodate unique shore conditions or the retention of existing #buildings or other structures#, including bridges, viaducts or railways that would not be adequately accommodated by the provisions of Sections 62-50 and 62-60;

(3) is necessary to accommodate unique topography or natural features, such as wetlands conditions, significant grade changes, geologic formations, natural vegetation or wildlife habitats, which natural features or topography would not be adequately accommodated by the provisions of Sections 62-34, 62-50 and 62-60;

(4) is necessary to create a better physical or visual relationship of the waterfront to significant upland #streets# or preserves significant views of the water or historic structures from such #streets#, which would not necessarily be achieved by the provisions of Sections 62-34, 62-50 and 62-60;

(5) is necessary to achieve public access to the waterfront in an area characterized by large undeveloped tracts of land with a limited number of public #streets# leading to the shore;

(6) is necessary to maintain #visual corridors# that would be extinguished by a #street# de-mapping after October 25, 1993, or maintains #visual corridors# from certain upland

#streets# that would be exempted from such requirements as the result of an intervening #street# mapping after October 25, 1993; or

(7) is necessary to retain the #bulk# regulations of Section 62-30 on certain #blocks# that would be exempted from such requirements as the result of an intervening #street# mapping after October 25, 1993.

62-92 - Borough of The Bronx

LAST AMENDED
12/11/2017

The following Waterfront Access Plans are hereby established within the Borough of The Bronx. All applicable provisions of Article VI, Chapter 2, remain in effect within the areas delineated by such plans, except as expressly set forth otherwise in the plans:

BX-1: Harlem River, in the #Special Harlem River Waterfront District#, as set forth in Section 87-70 (HARLEM RIVER WATERFRONT ACCESS PLAN).

62-93 - Borough of Brooklyn

LAST AMENDED
11/23/2021

The following Waterfront Access Plans are hereby established within the Borough of Brooklyn. All applicable provisions of Article VI, Chapter 2, remain in effect within the areas delineated by such plans, except as expressly set forth otherwise in the plans:

BK-1: Greenpoint-Williamsburg, as set forth in Section 62-931

BK-2: Gowanus Canal, in the #Special Gowanus Mixed Use District#, as set forth in Section 139-50 (GOWANUS CANAL WATERFRONT ACCESS PLAN).

62-931 - Waterfront Access Plan BK-1: Greenpoint-Williamsburg

LAST AMENDED
3/26/2014

Maps BK-1a through BK-1c in paragraph (f) of this Section show the boundaries of the area comprising the Greenpoint-Williamsburg Waterfront Access Plan and the location of certain features mandated or permitted by the Plan. The plan area has been divided into parcels consisting of tax blocks and lots and other lands as established on May 11, 2005, as follows:

Parcel 1: Block 2472, Lot 350

Parcel 2: Block 2472, Lot 400

Parcel 3: Block 2472, Lot 410

Parcel 4: Block 2472, Lot 425

Parcel 5a: Block 2472, Lot 100

Parcel 5b: Block 2472, Lot 32, south of the prolongation of the northern #street line# of DuPont Street

Block 2494, Lot 6

Parcel 5c: Block 2472, Lot 2

Block 2502, Lot 1

Block 2510, Lot 1

Block 2520, Lot 57

Parcel 5d: Block 2494, Lot 1

Parcel 5e: Block 2472, Lot 32, north of the prolongation of the northern #street line# of DuPont Street

Parcel 6: Block 2472, Lot 75

Parcel 7: Block 2520, Lot 1

Parcel 8: Block 2530, Lots 55, 56

Parcel 9: Block 2530, Lot 1

Parcel 10: Block 2538, Lot 1

Parcel 11: Block 2543, Lot 1

Parcel 12a: Block 2556, Lot 41

Parcel 12b: Block 2556, Lots 45, 46

Parcel 12c: Block 2556, Lots 55, 57, 58

Parcel 12d: Block 2556, Lot 54

Parcel 12e: Block 2556, Lot 53

Parcel 12f: Block 2556, Lot 52

Parcel 12g: Block 2556, Lot 51

Parcel 12h: Block 2556, Lot 50

Parcel 12i: Block 2556, Lot 49

Parcel 12j: Block 2556, Lot 48

Parcel 13: Block 2556, Lot 1

Block 2564, Lot 1

Block 2567, Lot 1

Block 2570, Lot 36

Parcel 14: Block 2570, Lot 1

Parcel 15: Block 2590, Lot 1

Parcel 16: Block 2590, Lot 210

Parcel 17: Block 2590, Lot 215

Parcel 18: Block 2590, Lot 22

Parcel 19: Block 2590, Lot 25

Parcel 20: Block 2277, Lot 1

Block 2590, Lot 100

Parcel 21: Block 2287, Lots 1, 16, 30

Block 2294, Lots 1, 5

Parcel 22: Block 2301, Lots 1, 50, 60, 70

Parcel 23: Block 2316, Lot 46

Parcel 24: Block 2308, Lot 1

Block 2316, Lot 1

Parcel 25: Block 2324, Lot 1

Block 2332, Lot 1

Parcel 26: Block 2340, Lot 1

Parcel 27: Block 2348, Lot 1

(a) Area-wide modifications

The following provisions shall apply to all #developments# required to provide a #waterfront public access area#, pursuant to Section 62-50 (GENERAL REQUIREMENTS FOR VISUAL CORRIDORS AND WATERFRONT PUBLIC ACCESS AREAS):

(1) Paragraph (a)(3) of Section 62-54 (Requirements for Public Access on Piers) is applicable, except that a minimum of 15 feet is required along each water edge.

(2) In addition to the requirements of Section 62-65 (Public Access Design Reference Standards), all #waterfront public access areas# are subject to the provisions set forth in paragraph (c) of this Section.

(3) #Street# treatment

All #streets# adjacent to a #shore public walkway# or #supplemental public access area# shall be improved as a continuation of such #shore public walkway# or #supplemental public access area#, pursuant to the design requirements of Section 62-62 (Design Requirements for Shore Public Walkways and Supplemental Public Access Areas), inclusive.

(b) Amenities

A reduction in the total amount of required #supplemental public access area# shall be permitted according to the table in this paragraph, (b):

REDUCTIONS IN WATERFRONT PUBLIC ACCESS AREAS

Amenity	Square feet reduction
Picnic table	22 sq. ft. per table (max. 200 sq. ft.)
Chess table	20 sq. ft. per table (max. 200 sq. ft.)
Telescope	10 sq. ft. per telescope (max. 50 sq. ft.)

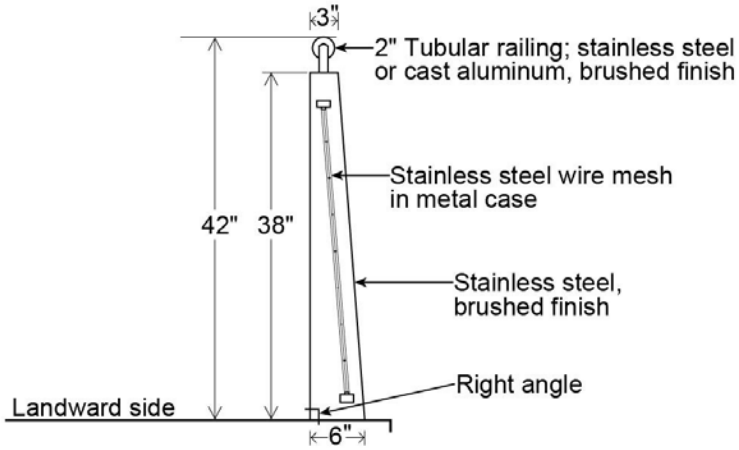
Fountain/water feature	150 sq. ft. per feature (max. 300 sq. ft.)
Shade structure	150 sq. ft. per structure (max. 300 sq. ft.)

(c) Public access design reference standards

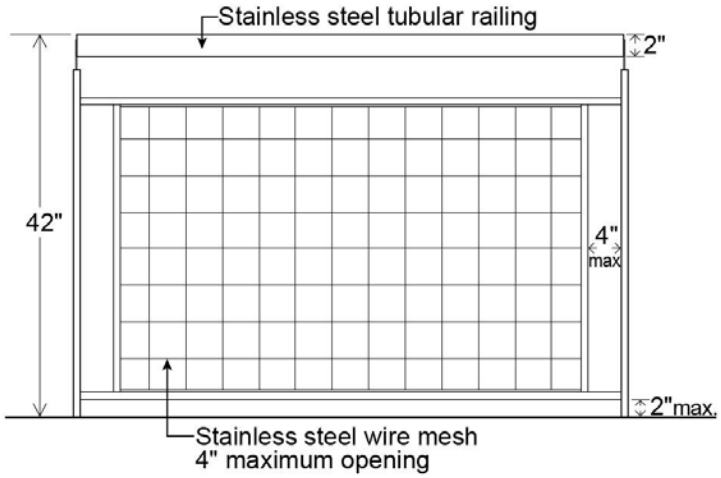
Section 62-65 is hereby modified by the following provisions.

(1) Guardrails

In addition to the provisions of paragraph (a) of Section 62-651 (Guardrails, gates and other protective barriers), guardrails shall comply with the Guardrail illustration in this Section.



GUARDRAIL WITH METAL TOP
Side Elevation

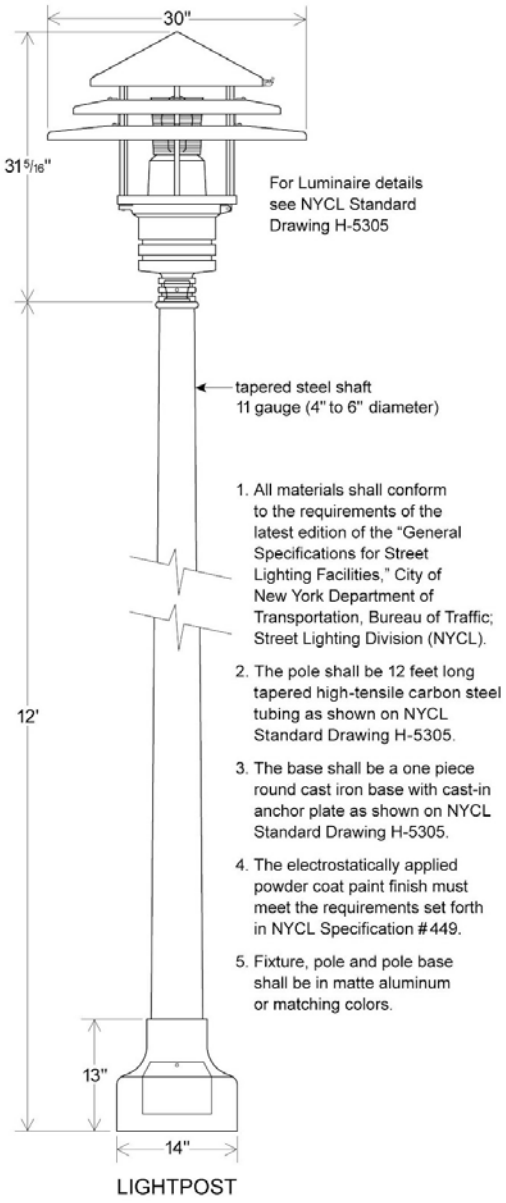


GUARDRAIL WITH METAL TOP
Front Elevation

All guardrail components and hardware shall be in No. 316 Stainless Steel, passivated and bead blasted.

(2) Lighting

In addition to the illumination provisions of Section 62-653, the required lighting along any public access area shall comply with the Lightpost illustration in this Section.



(3) Paving

In addition to the provisions of Section 62-656, the paving for the required clear path within the #shore public walkway# shall be gray. At least 50 percent of all other paved areas within the #shore public walkway# and #supplemental public access areas# shall be paved in the same color range.

(d) Special public access provisions by parcel

The provisions of Sections 62-52 (Applicability of Waterfront Public Access Area

Requirements) and 62-60 (DESIGN REQUIREMENTS FOR WATERFRONT PUBLIC ACCESS AREAS) are modified at the following designated locations which are shown on Map BK-1b in paragraph (f) of this Section:

(1) Parcels 1 and 2

(i) #Shore public walkway#

In the event of any #enlargement#, #extension# or change of #use# within existing #buildings or other structures#, a #shore public walkway# shall occupy the entire area between the seaward edge of the #zoning lot# and the existing #building or other structure# but need not be wider than 40 feet. The #shore public walkway# shall have a minimum clear path of 10 feet. No seating or planting shall be required. If seating and planting are provided, they shall comply with the provisions of Sections 62-652 and 62-655, respectively. In addition to the lighting design requirements of paragraph (c)(3) of this Section, lighting fixtures may be mounted on existing #buildings or other structures#.

(ii) #Supplemental public access area#

The requirements for a #supplemental public access area# shall be waived.

(2) Parcels 3 and 4

An #upland connection# shall be provided between Commercial Street and the #shore public walkway# within a flexible location along the #lot line# between Parcels 3 and 4. Whichever parcel is #developed# first shall provide an #upland connection# along the #lot line# between the two parcels. The remaining parcel may include the width of the #upland connection# in the computation necessary to comply with the requirements of a #visual corridor# along the #lot line# between the two parcels,

according to the provisions of paragraph (e)(1) of this Section. If both parcels are #developed# concurrently, then the requirements may be divided equally along the #lot line# between the parcels.

If, however, Parcel 4 is improved #predominantly# as a public access area prior to or concurrently with the #development# of Parcel 3, the #upland connection# requirement shall be waived. However, a public way shall be provided within an area bounded at its eastern edge by the shared #lot line# of Parcels 2 and 3, at its northern edge by the #shoreline#, at its western edge by a line 115 feet from the shared #lot line# of Parcels 2 and 3, and at its southern edge by the #lot line# along Commercial Street.

In addition, such public way shall have a minimum width of 15 feet, and shall comply with the provisions of Section 62-64 (Design Requirements for Upland Connections), as applicable for Type 2 #upland connections#. There shall be no more than two changes in direction over its entire length and no single turn shall be less than 90 degrees relative to the line of travel. Any change in direction with an angle of less than 135 degrees shall be posted with an entry sign and shall comply with the provisions of paragraph (b) of Section 62-654 (Signage), and shall also be accompanied by an arrow indicating the direction of travel towards the #shore public walkway#. At least 50 percent of the area of any walls bounding such public way shall be glazed. In addition, 24 linear feet of seating shall be provided within such public way and within 50 feet of its boundary with the #shore public walkway# and the #street# it connects to.

(3) Parcel 5a

(i) #Upland connection#

An #upland connection# shall be provided between Commercial Street and the #shore public walkway# within the flexible location zone indicated on

Map BK-1b in paragraph (f) of this Section.

The eastern boundary of such flexible location zone shall be 110 feet from the shared lot line of Parcel 4 and its western boundary shall be 200 feet from the shared lot lines of Parcels 5b and 6.

(ii) #Supplemental public access area#

The #supplemental public access area# shall #abut# the #shore public walkway# continuously along its longest side, and shall also #abut# the required #upland connection# where it meets the #shore public walkway#. The #upland connection# may cut across the #supplemental public access area# provided that any resulting #supplemental public access area# shall be at least 5,000 square feet. In no event shall the #supplemental public access area# be deeper than 100 feet.

Alternatively, a portion of the required #supplemental public access area# that is at least 5,000 square feet may #abut# the #shore public walkway# continuously along the longest side provided that it also #abuts# a publicly accessible private drive connecting the #shore public walkway# to Commercial Street. Such publicly accessible private drive shall be improved to the standards of an #upland connection# as required by Section 62-64, but shall not be counted towards satisfying the required amount of #waterfront public access area# on the site.

(4) Parcel 5b

The portion of Block 2472, Lot 32, located within Parcel 5b shall constitute a #zoning lot# for the purpose of applying all #waterfront public access area# and #visual corridor# provisions of Sections 62-50 through 62-90 (WATERFRONT ACCESS

PLANS), inclusive.

(5) Parcel 5c

(i) #Upland connection#

Two #upland connections# shall be provided between West Street and the #shore public walkway#, each one located within the prolongation of the #street lines# of Eagle Street and Green Street, respectively.

(ii) #Supplemental public access area#

Two #supplemental public access areas# shall be provided on Parcel 5c.

A #supplemental public access area# shall be bounded by the southern boundary of the required Green Street #upland connection#, the #shore public walkway#, the southern boundary of Parcel 5c and the northern prolongation of the eastern boundary of the #shore public walkway# required in Parcel 7.

The remaining required #supplemental public access area# shall be provided either on the #pier# or distributed evenly as a widening of the #shore public walkway# located between the Eagle Street and Green Street #upland connections#. If any #supplemental public access area# is located on the #pier#, one shade tree shall be required for each 1,000 square feet of #supplemental public access area#, but in no event shall more than four shade trees be required. A shading element may be substituted for the required shade trees at a rate of 450 square feet of shade element per tree.

The total #lot area# utilized in the calculation of required #supplemental

public access area# for Parcel 5c, pursuant to Section 62-57, shall include the #lot area# within Parcel 5d.

(iii) #Pier# public access

Public access shall be provided on the Green Street #pier# pursuant to the requirements of Section 62-54 and of paragraph (a)(1) of this Section.

(6) Parcel 5e

The portion of Block 2472, Lot 32, located within Parcel 5e shall constitute a #zoning lot# for the purpose of applying all #waterfront public access area# and #visual corridor# provisions of Sections 62-50 through 62-90, inclusive.

(7) Parcel 7

(i) #Shore public walkway#

For a portion of the required #shore public walkway#, where the distance between the #shoreline# and the #zoning# #lot line# boundaries of Parcel 7 is less than 17 feet, such portion shall be improved entirely as circulation path.

(ii) #Supplemental public access area#

The requirement for a #supplemental public access area# on Parcel 7 is waived.

(8) Parcels 9, 10 and 11

(i) #Supplemental public access area#

For each parcel, the #supplemental public access area# requirements shall be

provided to widen the #shore public walkway#, which will be evenly distributed along the entire length of such #shore public walkway#.

(9) Parcel 13

(i) #Upland connection#

An #upland connection# shall be provided between West Street and the #shore public walkway# located within the prolongation of the #street lines# of Milton Street.

(ii) #Supplemental public access area#

A #supplemental public access area# shall be bounded by the southern #street line# of Greenpoint Avenue, the #shore public walkway# and the northern boundary of the required Milton Street #upland connection#.

(10) Parcel 14

(i) #Upland connection#

An #upland connection# shall be provided between West Street and the #shore public walkway#. The southern boundary of such #upland connection# shall be defined by a line between the intersection of the prolongation of the southern #street line# of Calyer Street and the western #street line# of West Street, and a point on the easterly boundary of the #shore public walkway# 30 feet north of the northern #street line# of Quay Street.

(ii) #Supplemental public access area#

Two #supplemental public access areas# shall be provided. A #supplemental

public access area# with a minimum of 9,000 square feet shall be provided between the prolongation of the northern #street line# of Calyer Street and the prolongation of the northern boundary of the required Calyer Street #upland connection# to widen the #shore public walkway#.

The remaining requirements for #supplemental public access area# shall be located in the area bounded by the southern boundary of the required Calyer Street #upland connection#, the #shore public walkway# and the southern boundary line of the parcel.

(11) Parcel 15

An #upland connection# shall be provided within the prolongation of the #street lines# of West Street, connecting Quay Street to Parcel 20.

(12) Parcels 19, 20, 21 and 22

Parcels 19, 20, 21 and 22 shall be designated as public #parks# as of May 11, 2005.

(13) Parcel 25

(i) #Upland connection#

An #upland connection# shall be provided between West Street and the #shore public walkway# located within the prolongation of the #street lines# of North 6th Street.

(ii) #Supplemental public access area#

Two #supplemental public access areas# shall be provided.

One #supplemental public access area# shall be provided along the prolongation of the southern #street line# of North 7th Street and the #shore public walkway#. Such public access area shall be a minimum of 3,000 square feet in area and shall have a minimum depth of 90 feet measured from the #shore public walkway#. A screening buffer shall be provided along the boundaries of the public access area and any private portion of the #zoning lot#, pursuant to Section 62-655. No other planting shall be required.

A minimum of one linear foot of seating shall be required for every 65 square feet of #supplemental public access area#. Four trees shall be required, at least two of which shall be shade trees.

The remaining required #supplemental public access area# shall be located either on the #pier# or shall #abut# the #shore public walkway# continuously along its longest side, and shall also #abut# the required #upland connection# where it meets the #shore public walkway#. At least 70 percent of the required #supplemental public access area# shall have a width to depth ratio of 2:1. If any #supplemental public access area# is located on the #pier#, one shade tree shall be required for each 1,000 square feet of #supplemental public access area#, but in no event shall more than four shade trees be required. A shading element may be substituted for the required shade trees at a rate of 450 square feet of shade element per tree.

(iii) #Pier# public access

Public access shall be provided on a #pier# located at the western terminus of North 6th Street pursuant to the requirements of Section 62-54 and of paragraph (a)(1) of this Section.

(14) Parcel 26

(i) #Shore public walkway#

The requirements of Section 62-53 (Requirements for Shore Public Walkways) shall apply, except that the minimum required width of the #shore public walkway# shall be reduced to 34 feet between North 5th Street and the northern boundary of the required #upland connection# at the prolongation of North 4th Street. The quantity of public access eliminated from the #shore public walkway# as a result of this width reduction shall be located in the triangle formed between the #shore public walkway#, the southern #street line# of the North 4th Street #upland connection# and the bulkhead line.

(ii) #Upland connections#

An #upland connection# shall be provided between Kent Avenue and the #shore public walkway# located within the prolongation of the #street lines# of North 4th Street. However, if the #upland connection# is provided within a private drive pursuant to Section 62-56, then a portion of the southern public access area beyond 15 feet from Kent Avenue may be located up to 15 feet outside the prolongation of the #street lines# of North 4th Street, provided that this public access area is not located entirely outside the prolongation of the #street lines# of North 4th Street at any point within 80 feet of Kent Avenue.

(15) Parcel 27

(i) #Shore public walkway#

In the event of an #enlargement#, #extension# or change of #use# within existing #buildings or other structures#, a #shore public walkway# shall occupy the entire area between the seaward edge and the existing #building or

other structure#, but need not be wider than 40 feet.

Notwithstanding the requirements of paragraph (a) of Section 62-61 (General Provisions Applying to Waterfront Public Access Areas), the #shore public walkway# may be located within the #building or other structure#, and the obstructions permitted by Section 62-611, paragraphs (a) and (b), shall include any supporting structural elements of the #building or other structure# and its related appurtenances.

In addition, the #shore public walkway# shall have a minimum clear path of 12 feet. No seating, planting or buffer zone shall be required. If seating and planting are provided, they shall comply with the provisions of Sections 62-652 and 62-655, respectively. In addition to the lighting design requirements of paragraph (c)(3) of this Section, lighting fixtures may be mounted on existing #buildings or other structures#.

(ii) #Supplemental public access area#

The requirements for #supplemental public access# shall be waived.

(e) Special #visual corridor# provisions by parcel

The designated locations for #visual corridors# pursuant to this Plan are shown on Map BK-1c in paragraph (f) of this Section and shall be as follows:

(1) Parcels 3 and 4

A #visual corridor# shall be provided through Parcels 3 and 4 to the pierhead line within a flexible area along the common #lot line#.

Whichever parcel is #developed# later shall complete the required clearance to comply with the #visual corridor# requirements along the #upland connection# provided in accordance with the requirements of paragraph (d)(2)(i) of this Section. If the parcels are #developed# concurrently, then the requirements can be divided equally along the #lot line# between the parcels.

If, however, Parcel 4 is improved #predominantly# for a public access area(s) prior to or concurrently with the #development# of Parcel 3, and a #visual corridor# is provided in Parcel 4, then the requirements for a #visual corridor# on Parcel 3 shall be waived.

(2) Parcel 5a

A #visual corridor# shall be provided through Parcel 5a to the pierhead line within the flexible location zone indicated on Map BK-1c in paragraph (f) of this Section. The eastern boundary of such flexible area shall be 110 feet from the shared #lot line# of Parcel 4 and its western boundary shall be 200 feet from the shared #lot line# of Parcels 5b and 6.

(3) Parcel 5b

Two #visual corridors# shall be provided through Parcel 5b to the pierhead line as the prolongation of the #street lines# of West Street and Dupont Street, respectively.

(4) Parcel 5c

(i) Three #visual corridors# shall be provided through Parcel 5c to the pierhead line as the prolongation of the #street lines# of West Street, Eagle Street and Green Street.

(ii) The permitted obstructions on #piers# in Section 62-631, paragraph (b), shall be permitted obstructions along the #visual corridor# along Green Street.

(5) Parcel 13

Two #visual corridors# shall be provided through Parcel 13 to the pierhead line as the prolongation of the #street lines# of Milton Street and Oak Street, respectively.

(6) Parcel 14

A #visual corridor# shall be provided through Parcel 14 as the prolongation of the #street lines# of Oak Street.

(7) Parcel 15

A #visual corridor# shall be provided though Parcel 15 as the prolongation of the #street lines# of West Street.

(8) Parcel 25

A #visual corridor# shall be provided through Parcel 25 as the prolongation of the #street lines# of North 6th Street.

Chapter 3 - Special Regulations Applying to FRESH Food Stores

File generated by https://zr.planning.nyc.gov on 6/23/2026

Chapter 3 - Special Regulations Applying to FRESH Food Stores

63-00 - GENERAL PURPOSES

LAST AMENDED12/9/2009

The provisions of this Chapter establish special regulations that guide the development of FRESH food stores to promote and protect public health, safety and general welfare. These general goals include, among others, the following purposes:

(a) encourage a healthy lifestyle by facilitating the development of FRESH food stores that sell a healthy selection of food products;

(b) provide greater incentives for FRESH food stores to locate in neighborhoods underserved by such establishments;

(c) encourage FRESH food stores to locate in locations that are easily accessible to nearby residents; and

(d) strengthen the economic base of the City, conserve the value of land and buildings, and protect the City's tax revenues.

63-01 - Definitions

LAST AMENDED
6/6/2024

FRESH food store

A “FRESH food store” is a grocery and convenience retailer or specialty food retailer, listed under Use Group VI, where at least 6,000 square feet of #floor area#, or #cellar# space utilized for retailing, is allocated to the sale of a general line of food and non-food grocery products, such as dairy, canned and frozen foods, fresh fruits and vegetables, fresh and prepared meats, fish and poultry, intended for home preparation and consumption. Such retail space shall be distributed as follows:

(a) at least 25 percent of such retail space shall be allocated to the sale of perishable goods that shall include dairy, fresh produce, frozen foods and fresh meats, of which at least 500 square feet of such retail space shall be designated for the sale of fresh produce;

(b) at least 35 percent of such retail space shall be allocated to the sale of non-perishable food; and

(c) at least 6,000 square feet of such retail space shall be located on one #story#.

A food store shall be certified as a #FRESH food store# by the Chairperson of the City Planning Commission, pursuant to Section 63-30 (CERTIFICATION FOR A FRESH FOOD STORE).

63-02 - Applicability

LAST AMENDED
10/9/2013

The regulations of all other chapters of this Resolution are applicable, except as superseded, supplemented or modified by the provisions of this Chapter. In the event of a conflict between the provisions of this Chapter and other regulations of this Resolution, the provisions of this Chapter shall control.

63-021 - Areas permitting FRESH food stores

LAST AMENDED
12/15/2021

The provisions of this Chapter shall apply to all #Commercial# and #Manufacturing Districts# in the following #FRESH food store# designated areas, except as provided in Sections 63-022 (Special Purpose Districts where regulations for FRESH food stores are not applicable) and 63-023 (Limitation on location of FRESH food stores):

all of Manhattan Community District 10;

all of Bronx Community Districts 1, 4, 5, 6, 7 and 9; and

all of Brooklyn Community Districts 3, 4, 5, 9, 16 and 17.

Portions of other Community Districts in which FRESH food stores are permitted are shown on the maps in Appendix A of this Chapter.

63-022 - Special Purpose Districts where regulations for FRESH food stores are not applicable

LAST AMENDED
12/15/2021

The provisions of this Chapter shall not apply to the following Special Purpose Districts:

#Special Madison Avenue Preservation District#;

#Special Manhattanville Mixed Use District#; and

#Special Park Improvement District#.

63-023 - Limitation on location of FRESH food stores

LAST AMENDED
12/15/2021

After December 15, 2021, no certification shall be issued for increased #residential# #floor area# for a #FRESH food store# where the sum of the increased #residential# #floor area# generated pursuant to Section 63-21 (Special Floor Area Regulations) by all #FRESH food stores# within a half-mile radius of the #zoning lot# that is the subject of such certification would exceed 40,000 square feet.

Such calculation shall include increased #residential# #floor area# on all #zoning lots# containing #FRESH food stores# that have been certified by the Chairperson of the City Planning Commission pursuant to Section 63-30 (CERTIFICATION FOR A FRESH FOOD STORE), including those issued prior to December 15, 2021, provided that such certification has not expired, or has not been superseded by a certification pursuant to Section 63-40 (CERTIFICATION FOR CHANGE OF USE OF A FRESH FOOD STORE) or an authorization pursuant to Section 63-50 (AUTHORIZATION FOR BULK AND PARKING MODIFICATIONS).

However, for any area that has a sum of more than 40,000 square feet of increased #residential# #floor area# generated pursuant to Section 63-21, the Chairperson may certify a #FRESH food store# that was previously certified pursuant to Section 63-30, provided such certification has not lapsed and that there shall be no increase in the amount of increased #residential# #floor area# beyond what was previously certified for such #FRESH food store#.

63-10 - SPECIAL USE REGULATIONS

LAST AMENDED
12/9/2009

63-11 - Special Use Regulations for FRESH Food Stores in M1 Districts

LAST AMENDED
6/6/2024

In M1 Districts, the regulations of Section 42-162 (Use Group VI – uses subject to size limitations) are modified to permit #FRESH food stores# with up to 30,000 square feet of #floor area#. The provisions of this Section shall not apply where the regulations of the underlying district permit grocery and convenience retailer or specialty food retailer, listed under Use Group VI, with #floor area# greater than 30,000 square feet.

63-12 - Special Sign Regulations

LAST AMENDED
12/9/2009

All permitted #signs# shall be subject to the provisions of the #sign# regulations of the underlying districts. In addition, a #FRESH food store# shall provide signage pursuant to this Section.

A #sign# comprised of the #FRESH food store# symbol as provided in the Required Signage Symbols file at the Department of City Planning website shall be mounted on an exterior #building# wall adjacent to and no more than five feet from the principal entrance of the #FRESH food store#. The #sign# shall be placed so that it is directly visible, without any obstruction, to customers entering the #FRESH food store#, and at a height no less than three feet and no more than five feet above the adjoining grade. Such #FRESH food store# symbol shall be no less than 12 inches by 12 inches and no more than 16 inches by 16 inches in size and shall be fully opaque, non-reflective and constructed of permanent, highly durable materials.

63-20 - SPECIAL BULK AND PARKING REGULATIONS

LAST AMENDED
12/9/2009

63-21 - Special Floor Area Regulations

LAST AMENDED
12/5/2024

Where a #FRESH food store# is provided on a #zoning lot#, the maximum #residential floor area# permitted on the #zoning lot# shall be increased by one square foot for each square foot of #FRESH food store floor area# provided, up to 20,000 square feet.

However, for #zoning lots# with #sky exposure plane buildings#, where any non-#residential use# has a permitted #floor area ratio# greater than that permitted for a #residential use#, the total #floor area ratio# of the #zoning lot# shall not exceed the maximum permitted #floor area ratio# for such non-#residential use#.

For #height factor# and #open space ratio# calculations, where applicable, the increased #residential# #floor area# generated pursuant to this Section shall be exempt from such calculations.

For #developments# or #enlargements# with #qualifying affordable housing#, the requirements for #MIH developments# or #UAP developments# shall not apply to the increased #residential# #floor area# generated pursuant to this Section.

63-22 - Authorization to Modify Maximum Building Height

LAST AMENDED
12/5/2024

For #zoning lots# containing a #FRESH food store# and #residences# in #Commercial Districts# mapped within, or with a #residential equivalent# of R6 through R12 Districts, the City Planning Commission may authorize modifications to Section 35-632 (Maximum height of buildings and setback regulations), or to the height and setback regulations of any Special Purpose District where maximum height limits apply to allow the applicable maximum #building# height to be increased by up to 15 feet and by up to one #story#, provided that the portion of the first #story# occupied by a #FRESH food store# has a minimum finished floor to finished ceiling height of 14 feet, and provided that such finished ceiling height is at least 14 feet above the #base plane# or #curb level#, as applicable.

In order to grant such authorizations, the Commission shall find that:

(a) such modifications are necessary to accommodate a first #story# utilized as a #FRESH food store#;

(b) the proposed modifications shall not adversely affect the essential scale and character of the adjacent #buildings# and any adjacent historic resources; and

(c) the proposed modifications will not unduly obstruct access to light and air of adjacent properties.

The Commission may prescribe additional appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area.

63-23 - Special Transparency Requirements

LAST AMENDED
12/5/2024

For all #developments# containing #FRESH food stores#, or #ground floor level enlargements# containing #FRESH food stores#, the following provisions shall apply. For the portion of the #building# containing a #FRESH food store#, the ground floor level of the #street wall# fronting upon a #primary frontage# shall be glazed in accordance with the provisions of Section 37-34 (Minimum Transparency Requirements).

Furthermore, for #FRESH food stores# with frontage on two or more #streets#, the Chairperson of the City Planning Commission may certify that the glazing requirements of this Section shall only be applicable to the #street wall# fronting upon the principal #street#, as determined by the Chairperson.

In addition, the Chairperson may, by certification, allow a reduction in the glazing requirements of this Section, provided that the Chairperson finds that such #building# is a recipient of #public funding#. For the purposes of this Section, defined terms shall include those in Sections 12-10, 27-111 and 37-311.

63-24 - Required Accessory Off-street Parking Spaces in Certain Districts

LAST AMENDED
12/9/2009

For #FRESH food stores# provided as part of a #development# or #enlargement#, for any portion of such #FRESH food store# subsequently changed to any other #use# pursuant to Section 63-40 (CERTIFICATION FOR CHANGE OF USE OF A FRESH FOOD STORE) or Section 63-50 (AUTHORIZATION FOR BULK AND PARKING MODIFICATIONS), if such change of #use# occurs less than 25 years after the initial issuance of a certificate of occupancy for such #FRESH food store#, #accessory# off-street parking regulations shall apply to such changed #use# as if the #use# is at that time occurring as part of a #development# or #enlargement#. Application may be made for an authorization pursuant to Section 63-50.

(a) In C1-1, C1-2, C1-3, C2-1, C2-2, C2-3 Districts mapped within R6 through R12 Districts and in C4-2 and C4-3 Districts, a #FRESH food store# shall provide one parking space per 1,000 square feet of #floor area# or #cellar# space utilized for retailing. The provisions of Section 36-23 (Waiver of Requirements for Spaces Below Minimum Number) shall not apply to #FRESH food stores#. In lieu thereof, no #accessory# off-street parking spaces shall be required for the #FRESH food store# if the #floor area# of such #use# is less than 40,000 square feet. In cases where there is more than one #commercial use# or #community facility use# on the #zoning lot#, the total number of #accessory# off-street parking spaces required pursuant to the provisions of Section 36-23 shall not include off-street parking spaces #accessory# to #FRESH food stores#.

(b) In C1-1, C1-2, C1-3, C2-1, C2-2, C2-3 Districts mapped within R3, R4 and R5 Districts and in C4-1 Districts, a #FRESH food store# shall provide one parking space per 400 square feet of #floor area# or #cellar# space utilized for retailing. The provisions of Section 36-23 shall not apply to #FRESH food stores#. In lieu thereof, no #accessory# off-street parking spaces shall be required for the #FRESH food store# if the #floor area# of such #use# is less than 10,000 square feet. In cases where there is more than one #commercial use# or #community facility

use# on the #zoning lot#, the total number of #accessory# off-street parking spaces required pursuant to the provisions of Section 36-23 shall not include off-street parking spaces #accessory# to #FRESH food stores#.

(c) In C8-1, C8-2, M1-1, M1-2 and M1-3 Districts, a #FRESH food store# shall provide one parking space per 1,000 square feet of #floor area# or #cellar# space utilized for retailing, up to a maximum of 15,000 square feet. The underlying off-street parking regulations in Sections 36-20 or 44-20 shall apply to the #floor area# or #cellar# space, in excess of 15,000 square feet, utilized for retailing in such #FRESH food store#.

(d) The provisions of this Section shall not apply:

(1) in the Borough of Brooklyn, to M1 Districts in portions of Community Districts 5, 16 and 17, as shown on Maps 1 and 2 in Appendix B of this Chapter; and

(2) in the Borough of Queens, to the #Special Downtown Jamaica District#.

63-30 - CERTIFICATION FOR A FRESH FOOD STORE

LAST AMENDED
12/15/2021

Upon application, the Chairperson of the City Planning Commission shall certify that a food store #use# is a #FRESH food store#, provided that:

(a) drawings have been submitted to the Chairperson that clearly specify:

(1) all #floor area# or #cellar# space utilized as a #FRESH food store#, showing in the form of an illustrative layout that such designated space is designed and arranged to meet the requirements for perishable and non-perishable food products, pursuant to Section 63-01;

(2) all #floor area# that will result from any permitted increase in #floor area#, pursuant to Section 63-21, including the location of such #floor area#;

(3) the size, format and location of the required #sign#, pursuant to Section 63-12, including detailed information about dimensions of the #sign#, lettering, color and materials; and

(4) the location of the ground floor level #street wall# fronting upon a #primary street frontage#, pursuant to Section 63-23;

(b) a signed lease or written commitment from the prospective operator of the #FRESH food store# has been provided in a form acceptable to the Chairperson for utilization of such #floor area# or #cellar# space and its operation as a #FRESH food store#; and

(c) for #zoning lots# containing increased #residential floor area# generated pursuant to Section 63-21 (Special Floor Area Regulations), a legal commitment, in the form of a declaration of restrictions has been executed, in a form acceptable to the Department of City Planning, binding upon the owner and its successor and assigns, and providing for continued utilization of all #floor area# or #cellar# space as a #FRESH food store#, the operation of which shall commence within a reasonable period following the issuance of a temporary certificate of occupancy for the #floor area# or #cellar# space to be utilized by the #FRESH food store#.

Such declaration of restrictions shall provide that the legal commitment for continued occupancy of the #floor area# or #cellar space# as a #FRESH food store# shall not apply during any:

(1) six (6) month period from the date such #floor area# or #cellar# space is vacated by the operator, provided that the owner timely notifies the Department of City Planning of such vacancy in accordance with the requirements of the restrictive declaration; or

(2) event of force majeure, as determined by the Chairperson.

The filing and recordation of the declaration of restrictions in the Office of the City Register of the City of New York against all tax lots comprising the #FRESH food store#, and receipt of proof of recordation of such declaration in a form acceptable to the Department, shall be a precondition to certification by the Chairperson.

Certification by the Chairperson shall be a precondition to the issuance of any building permit, including any foundation or alteration permit, for any #development#, #enlargement# or change of #use# under this Chapter.

Changes to the store layout of a #FRESH food store# that has been constructed pursuant to a previous certification under this Section, where such changes result in a #FRESH food store# that continues to comply with the requirements of this Chapter, shall not require subsequent certification by the Chairperson under this Section. #FRESH food stores# certified prior to December 15, 2021, that do not comply with paragraph (c) of the definition of #FRESH food store# may change the floor layout provided that there is no increase in the degree of non-compliance with such requirement.

A copy of an application for certification pursuant to this Section shall be sent by the Department of City Planning to the affected Community Board, which may review such proposal and submit comments to the Chairperson. If the Community Board elects to comment on such application, it must be done within 45 days of receipt of such application. The Chairperson will not act on such application until the Community Board's comments have been received, or the 45-day comment period has expired, whichever is earlier.

For #zoning lots# containing increased #residential floor area# generated pursuant to Section 63-21 (Special Floor Area Regulations), if a #development# or horizontal #enlargement# fails to comply with the provisions of Section 11-331 (Right to construct if foundations completed) with respect to

completion of foundations within four years of the date of certification pursuant to this Section, such certification and such building permit shall lapse, and any new building permit will require a new certification pursuant to this Section.

63-31 - Requirements for Certificate of Occupancy

LAST AMENDED
12/9/2009

No certificate of occupancy shall be issued for any portion of the #development# or #enlargement# identified in the drawings submitted pursuant to paragraph (a)(2) of Section 63-30 until a temporary certificate of occupancy has been issued for the #FRESH food store# space. No final certificate of occupancy shall be issued for any such portion of the #development# or #enlargement# identified in such drawings until the #FRESH food store# space has been completed in accordance with the drawings submitted pursuant to paragraph (a)(1) of Section 63-30 and a final certificate of occupancy has been issued for the #FRESH food store# space. The declaration of restrictions, where required pursuant to paragraph (c) of Section 63-30, shall be noted on any temporary or final certificate of occupancy for the #building#.

63-40 - CERTIFICATION FOR CHANGE OF USE OF A FRESH FOOD STORE

LAST AMENDED
12/9/2009

A #FRESH food store# for which a certification has been issued pursuant to Section 63-30 may be changed to any #use# permitted by the underlying district upon certification by the Chairperson of

the City Planning Commission that such change of #use# would not create a new #non-compliance#, increase the degree of #non-compliance# of #buildings# on the #zoning lot#, or result in fewer #accessory# off-street parking spaces than required by the new #use# pursuant to Section 63-24 (Required Accessory Off-street Parking Spaces in Certain Districts).

If a certification pursuant to this Section is granted, a notice of cancellation, in a form acceptable to the Department of City Planning, of the declaration of restrictions recorded pursuant to Section 63-30 shall be executed and recorded in the Office of the City Register of the City of New York against all tax lots comprising the former #FRESH food store#.

63-50 - AUTHORIZATION FOR BULK AND PARKING MODIFICATIONS

LAST AMENDED
12/9/2009

The City Planning Commission may, by authorization, permit modifications to the #bulk# and #accessory# off-street parking requirements of the applicable zoning districts when a change of #use# of a #FRESH food store# for which a certification has been issued, pursuant to Section 63-30, would create a new #non-compliance#, increase the degree of #non-compliance# of #buildings# on the #zoning lot#, or result in fewer #accessory# off-street parking spaces than required by the new #use# pursuant to Section 63-24 (Required Accessory Off-street Parking Spaces in Certain Districts), provided that such #use# is permitted by the underlying districts.

In order to grant such authorization, the Commission shall find that:

(a) due to the market conditions prevalent at the time of the application, there is no reasonable possibility that the operation of a #FRESH food store# will bring a reasonable return;

(b) the applicant, the operator or a prior operator of such #FRESH food store# has not created or contributed to such unfavorable market conditions;

(c) the applicant, the operator or a prior operator of such #FRESH food store# has undertaken commercially reasonable efforts to secure a new operator, and demonstrates to the Commission that such efforts have been unsuccessful;

(d) any proposed #non-compliance# or increase in the degree of #non-compliance# will not be incompatible with or adversely affect adjacent #uses#, including #uses# within the #building#; and

(e) any reduction of required #accessory# off-street parking shall not create or contribute to serious traffic congestion and will not unduly inhibit surface traffic and pedestrian movement.

If such authorization is granted, a notice of cancellation, in a form acceptable to the Department of City Planning, of the declaration of restrictions recorded pursuant to Section 63-30, shall be executed and recorded in the Office of the City Register of the City of New York against all tax lots comprising the former #FRESH food store#.

In issuing an authorization under this Section, the Commission may impose conditions and safeguards to minimize adverse impacts on the character of the surrounding area.

63-60 - COMPLIANCE

LAST AMENDED
12/9/2009

No later than June 30th of the year, beginning in the second calendar year following the calendar year in which certification was made, and at three-year intervals thereafter, the Chairperson of the City Planning Commission shall be provided with an affidavit, in a form acceptable to the Department of City Planning, regarding compliance with the requirements of the declaration of restrictions and the regulations of this Chapter, as of a date of inspection which shall be no earlier than June 1st of the year in which the affidavit is filed. Such affidavit shall be provided by the owner(s) of the tax lot(s) on which the #FRESH food store# is located. Such affidavit shall include, without limitation:

(a) a copy of the original #FRESH food store# certification letter and, if applicable, any approval letter pertaining to any other authorization or certification pursuant to this Chapter;

(b) a statement that the #floor area# or #cellar# space that was certified to be operated as a #FRESH food store# continues to be operated as such in accordance with the declaration of restrictions; and

(c) photographs documenting the condition of the #FRESH food store# at the time of inspection, sufficient to clearly show all #floor area# or #cellar# space operated as a #FRESH food store#.

Failure to comply with a condition or restriction in an authorization or certification granted pursuant to this Chapter or with approved plans related thereto, or failure to submit a required compliance report, shall constitute a violation of this Resolution and may constitute the basis for denial or revocation of a building permit or certificate of occupancy, or for a revocation of such authorization or certification, and for the implementation of all other applicable remedies.

Appendix A - FRESH Food Store Designated Areas

LAST AMENDED12/15/2021

#FRESH food store# designated areas are:

all of Manhattan Community District 10;

all of Bronx Community Districts 1, 4, 5, 6, 7 and 9; and

all of Brooklyn Community Districts 3, 4, 5, 9, 16 and 17.

Portions of other Community Districts are shown on Maps 1 through 16 in this Appendix A.

Zoning Resolution

THE CITY OF NEW YORK
Zohran K. Mamdani, Mayor

CITY PLANNING COMMISSION
Sideya Sherman, Chair

Chapter 4 - Special Regulations Applying in Flood Zones

File generated by https://zr.planning.nyc.gov on 6/23/2026

Chapter 4 - Special Regulations Applying in Flood Zones

64-00 - GENERAL PURPOSES

LAST AMENDED
5/12/2021

The provisions of this Chapter establish special regulations which are designed to encourage flood-resilient building practices for new and existing buildings and in so doing to promote and protect public health, safety and general welfare. These general goals include, among others, the following purposes:

(a) to facilitate the development and alteration of buildings in flood zones consistent with the flood-resistant construction standards of Appendix G of the New York City Building Code;

(b) to enable buildings to be constructed or retrofitted pursuant to flood-resistant construction standards with a comparable amount of usable interior space to what is generally permitted within the applicable zoning district;

(c) to allow sea level rise to be incorporated into the design of buildings in flood zones in order to provide longer-term and greater protection from flood risk than what is currently required by Appendix G of the New York City Building Code;

(d) to mitigate the effects of elevated and flood-proofed buildings on the streetscape and pedestrian activity; and

(e) to promote the most desirable use of land in accordance with a well-considered plan and thus conserve the value of land and buildings, and thereby protect the City's tax revenues.

64-10 - GENERAL PROVISIONS

LAST AMENDED
5/12/2021

64-11 - Definitions

LAST AMENDED
12/5/2024

Definitions specifically applicable to this Chapter are set forth in this Section and may modify definitions set forth in Section 12-10 (DEFINITIONS). Where matter in italics is defined both in Section 12-10 and in this Chapter, the definitions in this Chapter shall govern.

Cottage envelope building

A "cottage envelope building" is a #single-# or #two-family# #detached# #residence# located within R1 through R5 Districts, #developed#, #enlarged#, or altered, pursuant to any of the optional provisions of Section 64-33 (Special Bulk Regulations for Cottage Envelope Buildings), provided that:

(a) such #single-# or #two-family# #detached# #residence# complies with Section 64-332 (Height and setback regulations for cottage envelope buildings); and

(b) is located within a #zoning lot# that has a #lot area# that is less than that required by the applicable district; and

(1) has a #lot width# that is either:

(i) less than that required under the provisions of Section 23-11 (Lot Area and Lot Width Regulations in R1 Through R5 Districts) in R1, R2, R3-1, R3-2, R3X, R4, R4A, R5, and R5A Districts; or

(ii) equal to or less than 30 feet in R3A, R4-1, R4B, R5B, and R5D Districts; or

(2) has a depth of less than 95 feet at any point.

All #cottage envelope buildings# shall also be #flood-resistant buildings#.

First story above the flood elevation

The "first story above the flood elevation" shall be the finished floor level of the first #story# located at or above the level at which a #building# complies with #flood-resistant construction standards# and, for #buildings# utilizing the #reference plane#, shall be no lower than the particular level established as the #reference plane#.

Flood map

"Flood map" shall be the most recent map or map data used as the basis for #flood-resistant construction standards#.

Flood-resistant building

A “flood-resistant building” is a #building or other structure#, which complies with all applicable #flood-resistant construction standards#.

Flood-resistant construction elevation

The “flood-resistant construction elevation” shall be the level of flood elevation required by Appendix G of the New York City Building Code for the “Flood design classification” of a #building or other structure# as set forth therein, or a height of two feet above the lowest grade adjacent to the #building or other structure#, whichever is higher.

Flood-resistant construction standards

“Flood-resistant construction standards” are the construction standards set forth in Appendix G of the New York City Building Code for “Post-FIRM Construction” that aid in protecting #buildings or other structures# in #flood zones# from flood damage, and governs both #building or other structures# that are required to comply with such standards and those that voluntarily comply. For #buildings or other structures# utilizing the provisions of this Chapter, #flood-resistant construction standards# shall be applied up to the #flood-resistant construction elevation# or higher.

High-risk flood zone

The “high-risk flood zone” is the area, as indicated on the #flood maps#, that has a one percent chance of flooding in a given year.

Lowest usable floor

The “lowest usable floor” of a #building# is the lowest floor of such #building# that contains #floor area#, and may include #basements# and #cellars#, as defined in Section 12-10 (DEFINITIONS).

Moderate-risk flood zone

The “moderate-risk flood zone” is the area, as indicated on the #flood maps#, and not within of the #high-risk flood zone#, that has a 0.2 percent chance of flooding in a given year.

Primary frontage

For the purposes of applying the provisions of paragraph (c) of Section 64-322 (Special floor area modifications for flood-resistant buildings), a “primary frontage” shall include:

(a) in #Commercial Districts#, frontages that meet the criteria for a “primary frontage” as defined in Section 37-311;

(b) in M1 Districts paired with #Residence Districts#, frontages along:

(1) #wide streets#;

(2) #narrow streets# within 50 feet of a #wide street#; and

(3) #narrrow streets# where an M1 District paired with a #Residence District# is mapped along an entire #block# frontage; and

(c) frontages where non-#residential uses# are required at the #ground-floor level# pursuant to a Special Purpose District or #waterfront public access area#.

Reference plane

The “reference plane” is a horizontal plane from which the height and setback regulations governing a #building or other structure# may be measured, in accordance with certain provisions of this Chapter. The #reference plane# shall not be located above the #first story above flood elevation#, as applicable.

For #zoning lots# located wholly or partially within the #high-risk flood zone#, the #reference plane# may be established at any level between the #flood-resistant construction elevation# and a height of 10 feet above the #base plane# or #curb level#, as applicable. However, where the #flood-resistant construction elevation# exceeds a height of 10 feet above the #base plane# or #curb level#, as applicable, the #reference plane# may be established at the #flood-resistant construction elevation#.

For #zoning lots# located wholly or partially within the #moderate-risk flood zone#, the #reference plane# may be established at any level between the #flood-resistant construction elevation# and a height of five feet above the #base plane# or #curb level#, as applicable.

64-12 - Applicability

LAST AMENDED
12/5/2024

The optional provisions of this Chapter shall apply to #zoning lots# located wholly or partially within #flood zones#, as follows:

(a) For all #zoning lots# in the #flood zone#

The provisions of Sections 64-31 (Special Bulk Regulations for All Buildings) and 64-41 (Special Parking Regulations for All Buildings), inclusive, may be applied to all #zoning lots#, regardless of whether #buildings or other structures# on such #zoning lots# comply with

#flood-resistant construction standards#.

(b) For #zoning lots# containing #flood-resistant buildings#

The provisions of Sections 64-20 (SPECIAL USE REGULATIONS), 64-32 (Special Bulk Regulations for Flood-resistant Buildings), 64-42 (Special Parking Regulations for Flood-resistant Buildings), and 64-60 (SPECIAL REGULATIONS FOR NON-CONFORMING USES AND NON-COMPLYING BUILDINGS), inclusive, may be applied only to #zoning lots# containing #flood-resistant buildings#, including #cottage envelope buildings#, as applicable, and Section 64-33 (Special Bulk Regulations for Cottage Envelope Buildings) may additionally be applied exclusively to #zoning lots# containing #cottage envelope buildings#. Where such provisions are utilized, the provisions of Section 64-50 (STREETSCAPE REGULATIONS), inclusive, shall apply.

(c) For portions of #buildings#

The following provisions may be applied to portions of #buildings# as follows:

(1) the provisions of Section 64-311 (Special floor area modifications for all buildings) may be applied to portions of #buildings#, regardless of whether such portions comply with #flood-resistant construction standards#;

(2) the provisions of Section 64-32 (Special Bulk Regulations for Flood-resistant Buildings), inclusive, may be applied to portions of #buildings#, provided that such portions comply with #flood-resistant construction standards# for the entirety of its vertically contiguous segments. Where such provisions are utilized within portions of #buildings#, the provisions of Section 64-50, inclusive, shall apply.

64-13 - Applicability of District Regulations

LAST AMENDED
10/10/2013

The regulations of all other chapters of this Resolution are applicable, except as superseded, supplemented or modified by the provisions of this Chapter. In the event of a conflict between the provisions of this Chapter and other regulations of this Resolution, the provisions of this Chapter shall control.

64-20 - SPECIAL USE REGULATIONS

LAST AMENDED
6/6/2024

64-21 - Special Use Regulations for All Buildings

LAST AMENDED
5/12/2021

The provisions of this Section, inclusive, are optional, and are only applicable to #zoning lots# located wholly or partially within #flood zones#. The provisions of this Section, inclusive, may be applied to #zoning lots# regardless of whether #buildings or other structures# on such #zoning lots# comply with #flood-resistant construction standards#. For such #zoning lots#, the underlying #use# regulations shall apply, except where permitted to be modified by this Section, inclusive.

64-211 - Limitation on floors occupied by commercial uses

LAST AMENDED
6/6/2024

C1 C2

In the districts indicated, the provisions of Section 32-421 (Limitation on floors occupied by commercial uses) may be modified for #buildings# containing #residences# such that the limitations set forth in paragraphs (a) or (b) of such Section need not apply.

64-22 - Special Use Regulations for Flood-resistant Buildings

LAST AMENDED
5/12/2021

The provisions of this Section, inclusive, are optional, and are only applicable to #zoning lots# located wholly or partially within #flood zones#. The provisions of this Section, inclusive, may be applied to #zoning lots# containing #flood-resistant buildings#, including #cottage envelope buildings#. For such #zoning lots#, the underlying #use# regulations shall apply, except where permitted to be modified by this Section, inclusive.

64-221 - Measurement of height

LAST AMENDED
5/12/2021

In all districts, as an alternative to measuring heights from #base plane#, #curb level#, or other applicable datum, all height measurements in #flood zones#, including the number of #stories# permitted, as applicable, may be measured from the #reference plane#. However, this provision shall not apply to #signs# not affixed to #buildings or other structures#.

64-222 - Ground floor use

LAST AMENDED
12/5/2024

In all districts, any applicable ground floor level requirements of this Resolution including, but not limited to, the location of such ground floor in relation to the adjoining sidewalk level, restrictions of types of #use#, the minimum depth for certain #uses#, maximum width for certain #uses#, minimum transparency requirement, and parking wrap and screening requirements, may be modified as follows:

(a) In locations of the #flood zone# where #flood-resistant construction standards# prohibit dry-flood-proofing, thereby limiting #uses# other than parking, storage and building access from being located below the #flood-resistant construction elevation#, such ground floor level requirements need not apply.

(b) In all other locations of the #flood zone#, all regulations of this Resolution restricting the location of a ground floor in relation to the adjoining sidewalk level need not apply, provided that all other ground floor level regulations shall be applied to the lowest #story# above grade that is not solely used for parking, storage or building access, and further provided that the finished floor level of such #story# shall be located either at or below the level of the #flood-resistant construction elevation# or five feet above #curb level#, whichever is higher. All associated transparency requirements may be measured from such level of the finished floor instead of the level of the adjoining sidewalk.

64-30 - SPECIAL BULK REGULATIONS

LAST AMENDED
5/12/2021

The provisions of this Section, inclusive, are optional, and are only applicable to #zoning lots# located wholly or partially within #flood zones#.

The provisions of Section 64-31 (Special Bulk Regulations for All Buildings), inclusive, may be applied to #zoning lots# regardless of whether #buildings or other structures# on such #zoning lots# comply with #flood-resistant construction standards#.

The provisions of Section 64-32 (Special Bulk Regulations for Flood-resistant Buildings), inclusive, may be applied to #zoning lots# containing #flood-resistant buildings#, including #cottage envelope buildings#.

The provisions of Section 64-33 (Special Bulk Regulations for Cottage Envelope Buildings), inclusive, may be applied to #zoning lots# with #cottage envelope buildings#.

64-31 - Special Bulk Regulations for All Buildings

LAST AMENDED
5/12/2021

The provisions of this Section, inclusive, are optional, and are only applicable to #zoning lots# located wholly or partially within #flood zones#. The provisions of this Section, inclusive, may be applied to #zoning lots# regardless of whether #buildings or other structures# on such #zoning lots# comply with #flood-resistant construction standards#. For such #zoning lots#, the underlying #bulk# regulations

shall apply, except where permitted to be modified by this Section, inclusive.

64-311 - Special floor area modifications for all buildings

LAST AMENDED
12/6/2023

For all #buildings#, the definition of #floor area# in Section 12-10 (DEFINITIONS) shall be modified in accordance with the provisions of this Section.

(a) Flood control devices

In all districts, for every linear foot of protection by temporary flood control devices and associated fixtures, including emergency egress systems that are assembled prior to a storm and removed thereafter, up to 15 square feet of floor space used for the storage of such devices may be excluded from the definition of #floor area#, provided that in no event shall such exempted floor space exceed 1,000 square feet.

(b) Buildings containing non-#residential uses#

In #Commercial# and #Manufacturing Districts#, where the permitted #commercial# or #manufacturing# #floor area ratio# does not exceed 1.0, up to 500 square feet of floor space may be excluded from the definition of #floor area#, provided that:

(1) the #building# is used exclusively for #non-residential uses#; and

(2) such floor space is located at or above the #flood-resistant construction elevation#.

64-312 - Permitted obstructions in required yards, courts, and open spaces for all zoning lots

LAST AMENDED
12/5/2024

The regulations for permitted obstructions in #yards#, #courts# and #open space# shall be modified in accordance with the provisions of this Section.

(a) Mechanical equipment

In all districts, where such #energy infrastructure equipment# or #accessory# mechanical equipment is elevated above the #flood-resistant construction elevation#, the underlying permitted obstruction regulations for such equipment may be modified as follows:

(1) where any equipment is required to be located at least five feet from any #lot line#, such distance may be reduced to three feet for #zoning lots# that have less than the prescribed minimum #lot area# or #lot width# required by the applicable district regulations;

(2) the maximum height of such permitted obstructions for the applicable district:

(i) may be measured from the #reference plane# instead of the level of the adjoining grade or #curb level#, as applicable; or

(ii) for #zoning lots# containing #residences# and a #lot area# greater than or equal to one and one-half acres, may exceed the applicable height limitations, provided that:

(a) such equipment is contained within a #building or other structure# that is located at least 30 feet from any #legally required window#;

(b) any stack associated with heating, ventilation, and air conditioning (HVAC) systems exhausts at a height at least as tall as the tallest #building# containing #residences# on the #zoning lot#; and

(c) such #building or other structure# complies with one point of the streetscape mitigations set forth in Section 64-52 (Ground Floor Level Mitigation Options); and

(3) the maximum area that such equipment may occupy within a required #side yard#, #rear yard# or #rear yard equivalent#, or any #court# containing #legally required windows# need not apply where the height of such obstructions do not exceed the applicable underlying height allowances, as modified by the provisions of paragraph (a)(2)(ii)(a) of this Section.

(b) Berms

In all districts, structural landscaped berms and associated flood gates, including emergency egress systems that are assembled prior to a storm and removed thereafter, shall be permitted obstructions in any required #open space#, #yard# or #rear yard equivalent# on the #zoning lot#, provided that the height of such berm does not exceed the highest #flood-resistant construction elevation# required on the #zoning lot#, or five feet above the lowest adjoining grade, whichever is higher.

(c) Flood control devices

In all districts, temporary flood control devices and associated permanent fixtures, including emergency egress systems that are assembled prior to a storm and removed thereafter shall be permitted obstructions in #yards# and #rear yard equivalents#, #courts#, #open space#, #public plazas#, #arcades#, pedestrian circulation spaces and all other publicly accessible open spaces. However, permanent fixtures for self-standing flood control devices installed in #publicly accessible open areas#, #arcades#, and pedestrian circulation spaces shall be flush-to-grade.

(d) Steps

In all #Residence Districts#, the provisions of paragraph (h) of Section 23-312 (Additional permitted obstructions generally permitted in all yards) shall be modified to allow steps within a required #yard# or #rear yard equivalent#, provided that such steps access any #story# located at or below the #first story above the flood elevation#.

64-32 - Special Bulk Regulations for Flood-resistant Buildings

LAST AMENDED
5/12/2021

The provisions of this Section, inclusive, are optional, and are only applicable to #zoning lots# located wholly or partially within #flood zones#. The provisions of this Section, inclusive, may apply to #zoning lots# containing #flood-resistant buildings#, including #cottage envelope buildings#. For such #zoning lots#, the underlying #bulk# regulations shall apply, except where permitted to be modified by this Section, inclusive.

64-321 - Measurement of height for flood-resistant buildings

LAST AMENDED
5/12/2021

In all districts, as an alternative to measuring heights from #base plane#, #curb level#, or other applicable datum, all height measurements in #flood zones#, including the number of #stories# permitted, as applicable, may be measured from the #reference plane#, except as follows:

(a) any minimum base height requirements shall continue to be measured from the #base plane#; and

(b) the provisions of this Section shall not apply:

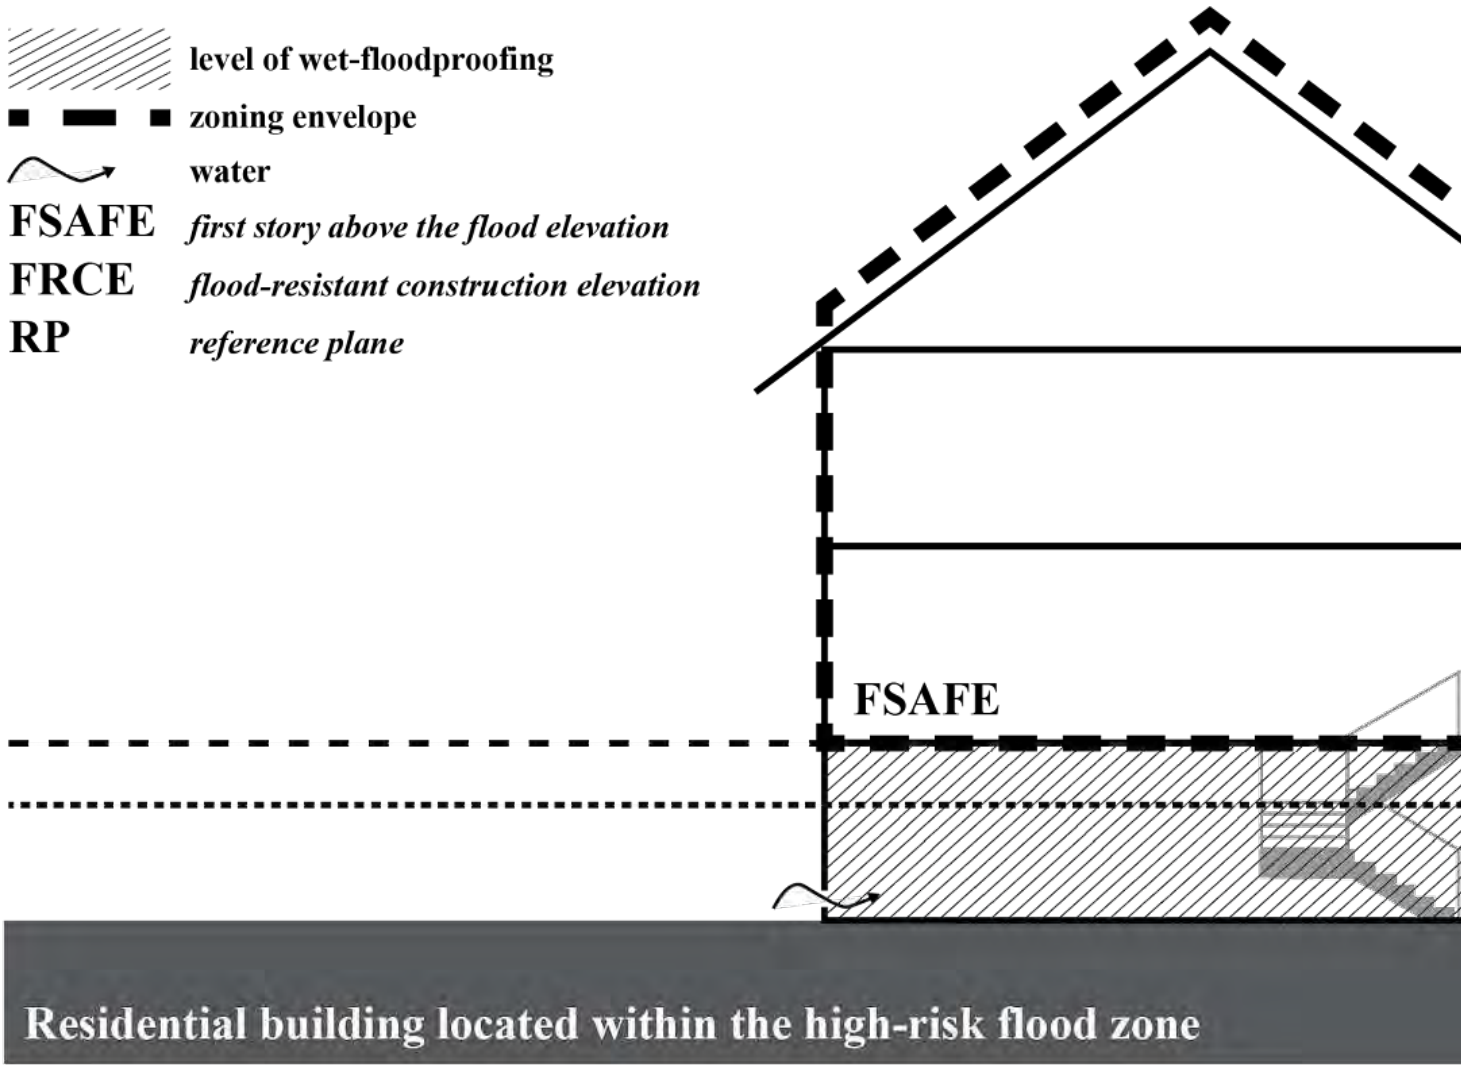
(1) to fences or other structures that are not #buildings#; and

(2) to #buildings# that are #accessory# to #single-# or #two-family residences#, except when mechanical equipment is located within such #building#.

Illustrative Examples

The following examples, although not part of the Zoning Resolution, are included to demonstrate the application of the optional height regulations available to #zoning lots# in #flood zones#. Specially, the examples illustrate how the defined terms #reference plane#, from which height is measured, relates to the #flood-resistant construction elevation# and the #first story above the flood elevation#. All terms are defined in Section 64-11 (Definitions).

EXAMPLE 1



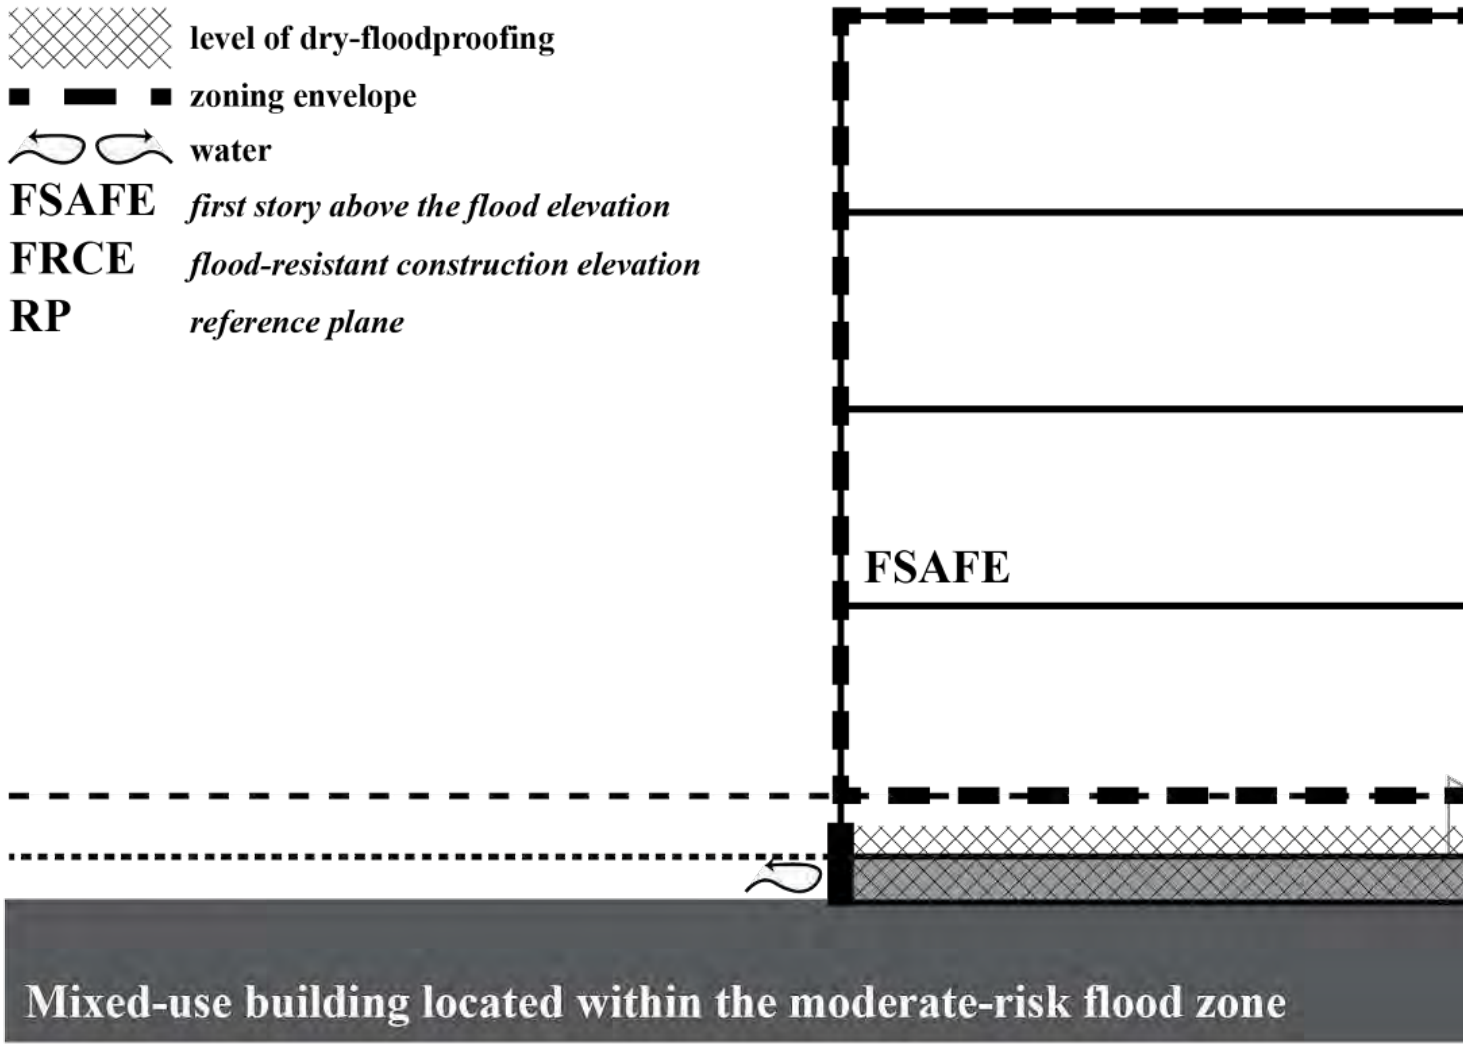
A #zoning lot# located within the #high-risk flood zone# has a #flood-resistant construction elevation# (as defined in Section 64-11) that equates to being located six feet above grade (for illustrative purposes). The owner of a #single-family# #detached# #residence# would like to elevate the first habitable floor three feet above the #flood-resistant construction elevation# and wet-floodproof the ground floor up to that same level (nine feet above grade) to account for sea level rise projections.

Pursuant to Section 64-321, height measurements in #flood zones#, including height and setback regulations, may start from the #reference plane#, allowing the owner the necessary flexibility to address long-term climate change. For #zoning lots# located within the #high-risk flood zone#, the

#reference plane#, may be established at any level between the #flood-resistant construction elevation# and a height of 10 feet above the #base plane# or #curb level#, as applicable. (Where the #flood-resistant construction elevation# exceeds 10 feet, the #reference plane# may still be established at the #flood-resistant construction elevation#, but that is not the case here.) While there is a level of flexibility built into the #reference plane# definition, the #reference plane# itself must also be located at or below the #first story above flood elevation#.

Considering the owner of such #single-family# #detached# #residence# is proposing to wet-floodproof the ground floor up to nine feet above grade, the #first story above flood elevation# becomes the finished floor level of the first #story# located at or above nine feet, which is, in this case, the second #story#. Therefore, the #reference plane# was able to be situated at that same level (nine feet above grade), but not higher.

EXAMPLE 2



A #zoning lot# located within the #moderate-risk flood zone# has a #flood-resistant construction elevation# (as defined in Section 64-11) of two feet above the lowest grade adjacent to the #building or other structure#. The owner of a #mixed building# that was flooded during Hurricane Sandy, would like to proactively comply with #flood-resistant construction standards# to be better prepared in the event of a future storm. To realize that, the owner decided to elevate the ground floor with a #commercial# #use# to the #flood-resistant construction elevation#, and dry-floodproof one foot above that for extra safety.

Pursuant to Section 64-321, height measurements in #flood zones#, including height and setback regulations, may start from the #reference plane#, allowing the owner the necessary flexibility to address long-term climate change. For #zoning lots# located within the #moderate-risk flood zone#, the #reference plane# may be established at any level between the #flood-resistant construction elevation# and a height of five feet above the #base plane# or #curb level#, as applicable. While there is a level of flexibility built within the #reference plane# definition, the #reference plane# must also be located at or below the #first story above flood elevation#.

Considering that the owner of such #mixed building# is proposing to elevate and dry-floodproof the ground floor up to three feet above grade, the #first story above flood elevation# becomes the finished floor level of the first #story# located at or above three feet, which is, in this case, the second #story#. Therefore, the #reference plane# was able to be situated at five feet above the #base plane# or #curb level#, as applicable.

64-322 - Special floor area modifications for flood-resistant buildings

LAST AMENDED
12/5/2024

For all #flood-resistant buildings#, the definition of #floor area# may be modified in accordance with the provisions of this Section.

(a) Entryways

In all districts, for #buildings# other than #residential buildings# with enclosed entryways below the #first story above the flood elevation#, up to 100 square feet of such entryways may be excluded from the definition of #floor area# for each foot of difference between the #first story above the flood elevation# and the level of the adjoining sidewalk, provided such floor

space complies with the #flood-resistant construction standards# for dry-flood-proofing up to the #flood-resistant construction elevation# or higher. However, no more than a maximum of 500 square feet may be excluded from the definition of #floor area# for each entryway.

Such exempted floor space shall be considered #floor area# for the purposes of satisfying other ground floor #use# regulations of this Resolution, including, but not limited to, limitations on #floor area# for certain #uses#, parking wrap and screening requirements, and requirements for #floor area# at the ground floor.

(b) Flood-proofed ground floors

(1) For #buildings# along #primary frontages#, or portions thereof, as defined in Section 64-11, floor space located below the #first story above the flood elevation# and within 30 feet of the #street wall# along such #primary frontage# may be excluded from the calculation of #floor area#, provided that:

(i) such floor space complies with the #flood-resistant construction standards# for dry-flood-proofing up to the #flood-resistant construction elevation# or higher;

(ii) the level of the finished floor of such floor space is located no more than two feet above nor two feet below #curb level#;

(iii) such floor space shall be limited to non-#residential uses# other than #accessory# parking or #public parking garages# and subject to the minimum depth requirements set forth in Section 37-32 (Ground Floor Depth Requirements for Certain Uses);

(iv) #ground floor level# #street walls# shall be glazed in accordance with the provisions set forth in Section 37-34 (Minimum Transparency Requirements); and

(v) for #developments#, the level of the #first story above the flood elevation# is 13 feet or more above the level of the adjoining sidewalk.

However, such floor space shall be considered #floor area# for the purposes of satisfying other ground floor #use# regulations of this Resolution, including, but not limited to, limitations on #floor area# for certain #uses#, parking wrap and screening requirements, and requirements for non-#residential# #floor area# at the ground floor.

(2) In all districts, floor space located below the #first story above the flood elevation# may be excluded from the calculation of #floor area# provided such floor space complies with the #flood-resistant construction standards# for wet-flood-proofing up to the #flood-resistant construction elevation# or higher.

(c) #Floor area# for existing #buildings#

For #zoning lots# containing #buildings# existing prior to May 12, 2021, as an alternative to the #floor area# regulations of this Chapter, the amount of #floor area# allocated to a #basement# or #cellar# in such existing #building# may be determined in accordance with how those terms were defined prior to May 12, 2021.

64-323 - Special regulations for required yards and open spaces for zoning lots with flood-resistant buildings

LAST AMENDED
12/5/2024

For #zoning lots# with #flood-resistant buildings#, the regulations for #yards# and #open space# shall be modified in accordance with the provisions of this Section.

(a) Level of required yards

In all districts, the underlying #yard# regulations shall be modified to allow the level of a #yard# or a #rear yard equivalent# to be located higher than #curb level#, provided that it does not exceed the #flood-resistant construction elevation#, and the level set forth by the following regulations:

(1) in #Residence Districts#, the final grade of #front yards# and #side yards# shall not penetrate a plane that begins three feet above #curb level# at each #lot line# and has a slope extending perpendicular to #lot lines# of one foot vertical for each 2 feet 6 inches of horizontal distance;

(2) in #Commercial# and in #Manufacturing Districts#, for portions of #zoning lots# where Sections 33-29 and 43-30 (SPECIAL PROVISIONS APPLYING ALONG DISTRICT BOUNDARIES) apply, the level of #front yards# and #side yards# may be permitted to exceed #curb level# only pursuant to paragraph (a)(1) of this Section.

Nothing in this Section shall be construed so as to permit the creation of spaces below grade on all sides in a manner inconsistent with #flood-resistant construction standards#.

(b) Permitted obstructions

(1) Covered porches, balconies, and covered access areas

In all districts, a porch or access area covered by a roof or other permanent structure shall be permitted obstructions in any required #open space# or #yard# on the #zoning lot#. Where permanent structures such as balconies are located directly above a porch or access area, such balconies may exceed the width and depth standards of Section 23-62 (Balconies).

(2) Retaining walls

In #Residence Districts#, retaining walls shall be permitted in #front yards# and #side yards# provided any retaining wall parallel to, or within 15 degrees of being parallel to, the #street# shall not exceed a maximum height of three feet, as measured from the level of the adjoining grade or planted area below such wall, so that no more than three feet of such retaining wall is visible from the #street#; and

(3) Fences

In #Residence Districts#, portions of fences located in #front yards# with height greater than four feet above #curb level# shall be required to be no more than 50 percent opaque.

(c) Front yard planting requirement

In R1 through R5 Districts, where the distance between the #street wall# and the #street line# is 10 feet or less, or for #zoning lots# with #front yards# that are shallower than the minimum required pursuant to the applicable district regulations, stairs, ramps or lifts that access the #first story above the flood elevation# shall be exempted from the area of a #front yard# for the purpose of calculating the planting requirements of Section 23-613 (Front Yard Planting

Requirements).

64-324 - Street wall location for flood-resistant buildings

LAST AMENDED
12/5/2024

For all #buildings#, where the #street wall# location regulations of this Resolution require the #street wall# to be located within eight feet of the #street line#, such regulations may be modified to accommodate exterior stairs and ramps for access to the #building#, to comply with the requirements of Section 64-50 (STREETSCAPE REGULATIONS), or to provide temporary flood control devices and associated fixtures, as follows:

(a) no #street wall# need be located closer to the #street line# than eight feet;

(b) for #buildings# on #zoning lots# with a #lot width# greater than or equal to 50 feet, up to 50 percent of the #aggregate width of street walls# may be recessed beyond eight feet of the #street line#, provided that any such recesses deeper than 10 feet along a #wide street# or 15 feet along a #narrow street# are located within an #outer court# and the height of such recess shall not be less than the height of the first #story# located completely above the level of the adjoining grade; and

(c) for #buildings# on #zoning lots# with a #lot width# of less than 50 feet:

(1) for the first #story# above the #flood-resistant construction elevation#, or #reference plane#, as applicable, and any #street wall# below such first #story#, the #aggregate width of street wall# may be located anywhere; and

(2) for the remaining #aggregate width of street walls# above such #stories#, up to 50 percent of the #aggregate width of street walls# may be recessed beyond eight feet of the #street line#, provided that any such recesses deeper than 10 feet along a #wide street# or 15 feet along a #narrow street# are located within an #outer court#.

For all #buildings# where the aggregate width of exterior stairs, ramps, or elevated platforms in front of a #street wall# exceeds 70 percent or more along the ground floor of the #street wall#, such stairs, ramps, or elevated platforms shall be screened by living plant material or by the provisions of paragraph (b)(1) of Section 64-521 (Options available for all buildings).

64-33 - Special Bulk Regulations for Cottage Envelope Buildings

LAST AMENDED
12/5/2024

The provisions of this Section, inclusive, are optional, and are only applicable to #zoning lots# located wholly or partially within #flood zones#. The provisions of this Section, inclusive, may be applied to #zoning lots# with #cottage envelope buildings#. For such #zoning lots#, the underlying #bulk# regulations shall apply, except where permitted to be modified by this Section, inclusive.

64-331 - Special regulations for required yards and courts on zoning lots with cottage envelope buildings

LAST AMENDED
12/5/2024

R1 R2 R3 R4 R5

In the districts indicated, for #zoning lots# containing #cottage envelope buildings#, the following #yard# and #court# regulations may be modified in accordance with the provisions of this Section.

(a) Lot Coverage

In R1-2A, R2A, R3-1, R3-2, R4, R4-1, and R4A Districts, the #lot coverage# regulations need not apply. In lieu thereof, the #yard# requirements of this Section shall apply.

(b) Front Yards

For the purpose of this Section, the area between the #street line# and the #street wall line# of adjacent #buildings# containing #residences# on the same or adjoining #zoning lots# fronting on the same #street# shall be considered adjacent #front yards#.

Where an adjacent #front yard# is shallower than the minimum required pursuant to the applicable district regulations, then the #front yard# of the #zoning lot# containing #cottage envelope buildings# may be as shallow as the shallowest adjacent #front yard#.

(c) Corner Lots

Where a #corner lot# has a #lot area# equal to or less than 3,000 square feet, only one #front yard# need be provided, and the remaining #front lot line# may be treated as a #side lot line#.

64-332 - Height and setback regulations for cottage envelope buildings

LAST AMENDED
12/5/2024

R1 R2 R3 R4 R5

In the districts indicated, all #cottage envelope buildings# shall be subject to the height and setback provisions set forth in Section 23-421 (Basic pitched-roof envelopes for certain districts), except that, for the purposes of this Section, attic space providing structural headroom of less than eight feet shall not be considered a #story#.

64-40 - SPECIAL PARKING REGULATIONS

LAST AMENDED
5/12/2021

The underlying parking regulations of this Resolution may be modified in accordance with the provisions of this Section inclusive. The provisions of this Section, inclusive, are optional, and are only applicable to #zoning lots# located wholly or partially within #flood zones#.

The provisions of Section 64-41 (Special Parking Regulations for All Buildings), inclusive, may be applied to #zoning lots# regardless of whether #buildings or other structures# on such #zoning lots# comply with #flood-resistant construction standards#.

The provisions of Section 64-42 (Special Parking Regulations for Flood-resistant Buildings), inclusive, may be applied to #zoning lots# containing #flood-resistant buildings#, including #cottage envelope buildings#.

64-41 - Special Parking Regulations for All Buildings

LAST AMENDED
5/12/2021

The provisions of this Section, inclusive, are optional, and are only applicable to #zoning lots# located wholly or partially within #flood zones#. The provisions of this Section, inclusive, may apply to #zoning lots# regardless of whether #buildings or other structures# comply with #flood-resistant construction standards#. For such #zoning lots#, the underlying parking regulations shall apply, except where permitted to be modified by this Section, inclusive.

64-411 - For residential buildings with below-grade parking

LAST AMENDED
12/5/2024

R1 R2 R3 R4 R5

In the districts indicated, other than R4B and R5B Districts, where existing below-grade off-street parking facilities within #residential buildings# are eliminated and, in compliance with #flood-resistant construction standards#, are filled in, #accessory# off-street parking spaces may be relocated from such garages to the side or rear of such #buildings#, or to the #front yard# driveway that accessed the former garage, or to a shared driveway along a common #side lot line#, and such relocated parking spaces need not comply with the underlying parking location, curb cut spacing or permitted obstruction regulations that limit parking, provided that:

(a) no more than two parking spaces may be located in tandem (one behind the other);

(b) each relocated parking space shall have a dimension that conforms with the minimums set forth in Section 25-62 (Size and Location of Spaces); and

(c) where eliminated garages were accessed by a driveway less than 18 feet long, such driveway and curb cut shall be eliminated, and the former driveway planted to the extent necessary to

comply, or increase compliance, with the provisions of Section 23-613 (Front yard planting requirements) as if the #building# on the #zoning lot# was constructed after April 30, 2008.

Notwithstanding the modifications above, no modification to the maximum number of curb cuts on a #zoning lot# or the minimum or maximum width of a curb cut, shall be permitted.

In the event that there is no way to arrange relocated required parking spaces on the #zoning lot# in compliance with the provisions of this Section, given that #buildings# existing on May 12, 2021, will remain, the Commissioner of Buildings may waive the requirement for such spaces.

64-412 - Surfacing

LAST AMENDED
12/5/2024

R1 R2 R3 R4 R5

In the districts indicated, Section 25-64 (Surfacing) may be modified to allow dustless gravel on all open off-street parking spaces and on portions of driveways beyond the #front lot line# that access #single-# or #two-family residences# on a #zoning lot#.

64-42 - Special Parking Regulations for Flood-resistant Buildings

LAST AMENDED
5/12/2021

The provisions of this Section, inclusive, are optional, and are only applicable to #zoning lots# located wholly or partially within #flood zones#. The provisions of this Section, inclusive, may apply to

#zoning lots# containing #flood-resistant buildings#.

64-421 - Parking modifications

LAST AMENDED
12/5/2024

R1 R2 R3 R4 R5

In the districts indicated, except R4B and R5B Districts, the provisions of this Section shall apply to #zoning lots# containing #single-# or #two-family residences#. For such #zoning lots#, where off-street parking spaces are provided, the underlying parking regulations may be modified as follows:

(a) the regulations governing parking location, curb cut location, or permitted obstruction that limit parking need not apply, provided that all parking spaces are either located beneath the #first story above the flood elevation# within #buildings# or driveways directly in front of a garage opening. Such spaces shall have a dimension that conforms with the minimums set forth in Section 25-62 (Size and Location of Spaces). However, within #lower density growth management areas# the provisions of paragraph (c) of Section 25-632 (Driveway and curb cut regulations in lower density growth management areas) shall continue to apply; and

(b) the underlying curb cut spacing regulations for #zoning lots# existing on May 12, 2021, with a frontage of less than 35 feet along a #street# need not apply, provided that at least four feet of curb space is provided between a new curb cut and an existing curb cut on the same or an adjacent #zoning lot#.

Notwithstanding the modifications above, no modification to the maximum number of curb cuts on a #zoning lot# or the minimum or maximum width of a curb cut, shall be permitted.

All #zoning lots# utilizing this Section shall comply with the provisions of Section 23-613 (Front yard planting requirements) as if the #building# on the #zoning lot# was constructed after April 30, 2008.

64-50 - STREETSCAPE REGULATIONS

LAST AMENDED
6/6/2024

The provisions of this Section, inclusive, shall apply to #zoning lots# containing #flood-resistant buildings#, as set forth in paragraphs (b) and (c) of Section 64-12 (Applicability), that have a #street wall# within 50 feet of the #street line# in #Residence Districts#, #Commercial Districts# and M1 Districts. However, the provisions shall not apply to such #buildings# containing #uses# predominantly listed under Use Groups IV(B), IX(B) or X.

All #buildings# shall provide streetscape mitigation elements in the categories of access or ground floor level, in order to achieve the total points required in the following table. The total points required varies based upon the level of the #first story above the flood elevation#, as measured from #curb level#. The individual mitigation options are set forth in Sections 64-51 (Building Access Mitigation Options) and 64-52 (Ground Floor Level Mitigation Options). Cells marked with an “x” designate mandatory categories to fulfill at least one point out of the total points requirement.

The points awarded for compliance with each individual mitigation are set forth in parentheses after the title to each paragraph describing a mitigation element.

For #corner lots#, the total points requirement set forth in this Section shall apply separately along each #street frontage# except where the #street wall# width along one of the #street frontages# is 25 feet or less, the requirements need only apply to one frontage.

Where #zoning lots# are required to provide streetscape elements in accordance with other provisions of this Resolution, such elements may also be utilized towards meeting the requirements of this Section, provided that such elements comply with the applicable standard herein.

In addition, all #buildings# shall meet the requirements set forth in Section 64-53 (Screening Requirements for Parking Within or Below Buildings) as applicable.

Level of the #first story above the flood elevation#	Streetscape Mitigation Elements		Total Points Required
	Building Access (Section 64-51)	Ground Floor Level (Section 64-52)	
Below five feet or no #first story above the flood elevation#			1
Five feet or above	x	x	3[1,2]

1 #Single-# and #two-family residences# on a #zoning lot# less than 25 feet wide with a #first story above the flood elevation# at five feet or above need only satisfy a total of two points instead of the three points set forth in the above table.

2 If the requirements of this Section apply to only a portion of the #building# with a #first story above the flood elevation# at five feet or above, and such portion of the #building# does not

have a #primary entrance#, the total points required shall be two, and they need only be satisfied through the ground floor level category.

64-51 - Building Access Mitigation Options

LAST AMENDED
5/12/2021

64-511 - Options available for all #buildings#

LAST AMENDED
5/12/2021

The streetscape mitigations options of this Section may be applied to all #buildings#. Where provided as a required streetscape mitigation element, the following shall apply:

(a) Entrance close to grade
(one point)

The #primary entrance# for the principal #use# for the #building# shall be located within two feet of the level of the adjoining sidewalk. However, for #mixed buildings# in #Commercial Districts# the #primary entrance# for the non-#residential use# on the ground floor shall be located within two feet of the level of the adjoining sidewalk, regardless of whether it is the principal #use#.

(b) Recessed access
(one point)

Recesses in the #street wall# shall accommodate the #primary entrance# to the #building#, including stairs or ramps to such entrance. However, recesses shall not exceed 50 percent of the #aggregate width of street wall# for the #building#.

(c) Wide stairs
(one point)

The #primary entrance# to a #building# along the #street wall# shall include stairs:

(1) with a minimum width of five feet where the #aggregate width of street walls# of the #building# is less than or equal to 25 feet; and

(2) with a minimum width of eight feet where the #aggregate width of street walls# of the #building# is greater than 25 feet.

In both cases, the run of such stairs shall be oriented perpendicular, or within 15 degrees of being perpendicular, to such #primary entrance# for at least 50 percent of the height of such stairs.

(d) Covered access
(one point)

The #primary entrance# to a #building# shall have a porch or access area covered by a roof or other permanent structure, provided that all structural elements shall have a minimum width or depth of at least three inches. Such roof or other permanent structure shall be located at a

minimum height at least eight feet above the finished floor of the #primary entrance#. In addition, such covering shall have a depth of at least three feet measured perpendicular to the #street wall# and shall extend along at least 50 percent of the #aggregate width of the street wall#.

64-512 - Additional options available for single-family, two-family, or three-family residences

LAST AMENDED
5/12/2021

The streetscape mitigations options of this Section may be applied to all #single-#, #two-#, or three-#family residences#. Where provided as a required streetscape mitigation element, the following shall apply:

(a) Porch or landing
(one point)

The #primary entrance# to a building shall have a porch or landing with a depth of at least three feet and a width that is at least 50 percent of the #aggregate width of the street wall#. However, such porch or landing need not exceed a width of 25 feet.

(b) Stair turn or stair landing
(one point)

The #primary entrance# shall be accessed by stairs or ramps that, at a point no higher or lower than two feet from the beginning and end of the stair run, respectively, either change direction in plan or incorporate at least one landing.

64-513 - Additional options available for all buildings except single-, two-family, or three-family residences

LAST AMENDED
5/12/2021

The streetscape mitigations options of this Section may be applied to all #buildings# except #single-#, #two-#, or three-#family residences#. Where provided as a required streetscape mitigation element, the following shall apply:

Multiple entrances
(one point)

Multiple entrances into the #building# shall be provided, with at least one entrance per every 50 linear feet of #street frontage#. Fractions equal to or greater than one-half resulting from this calculation shall be considered one entrance.

64-52 - Ground Floor Level Mitigation Options

LAST AMENDED
5/12/2021

For the purposes of this Section, where there is a reference to a “blank wall,” the following shall apply:

(a) For #manufacturing buildings#, the provisions of Type 2 blank walls set forth in Section 37-361 (Blank wall thresholds) shall apply.

(b) For #commercial buildings#, #community facility buildings# and #mixed buildings#, the provisions of Type 3 blank walls set forth in Section 37-361 shall apply.

(c) For #residential buildings#, the provisions of Type 4 blank walls set forth in Section 37-361 shall apply.

Such blank walls shall be covered by one or more options in Section 37-362 (Mitigation elements) or by options as described in this Section, inclusive. In addition, any surface area of a wall which bounds stairs, ramps, landings, or chair lifts facing a #street# and that exceeds a height and width of four feet shall constitute a blank wall and comply with the standards of Type 3 blank wall. Such blank wall surfaces shall be calculated between the level of the adjoining sidewalk and the level of the #first story above the flood elevation#. In addition, any surface area of a wall which bounds stairs, ramps, landings, or chair lifts facing a #street# and that exceeds a height and width of four feet shall constitute a blank wall and comply with the standards of Type 3 blank wall. Such blank wall surfaces shall be calculated between the level of the adjoining sidewalk and the level of the #first story above the flood elevation#.

64-521 - Options available for all buildings

LAST AMENDED
5/12/2021

The streetscape mitigations options of this Section may be applied to all #buildings#. Where provided as a required streetscape mitigation element, the following shall apply:

(a) Surface treatment
(one point)

Surface treatment shall be provided for blank walls in the form of wall treatment, surface texture, or any combination thereof, pursuant to the provisions set forth in paragraphs (a)(1) or (a)(2) of Section 37-362 (Mitigation elements).

If the level of the #first story above flood elevation# is greater than 10 feet, surface treatment shall only be required to a height of 10 feet above the level of the adjoining sidewalk.

(b) Linear treatment
(one or, where noted, two points)

Linear treatment shall be provided for blank walls in the form of planting, pursuant to the provisions set forth in paragraph (b)(1) of Section 37-362, pursuant to one of the following options below, or any combination thereof. Where the options of this Section are utilized, the percentage requirement associated with the applicable type of blank wall set forth in Section 37-36 (Special Requirements for Blank Walls) shall not apply.

(1) Raised front #yards# and #open space#

For #residential buildings# in #Residence Districts# where the distance between the #street wall# and the #street line# is 10 feet or more, the grade between the #street line# and blank walls, and their prolongations, shall be elevated above the level of the adjoining sidewalk so that the height of such grade that is midway between the #street line# and blank walls and prolongations is at least 18 inches above #curb level# at all points, except for pedestrian ways, vehicular access and off-street parking spaces permitted pursuant to 64-40 (SPECIAL PARKING REGULATIONS). The area with final grade above the level of the adjoining sidewalk shall be greater than 30 percent of the total area between the #street line# and blank walls and their prolongations.

Raised front #yards# and #open spaces# shall be planted in accordance with applicable planting requirements in this Resolution.

This option shall satisfy two points if the area with final grade above #curb level# is greater than 50 percent of the total area between the #street line# and blank walls and their prolongations.

(2) Terraced front #yards# and #open spaces#

For #residential buildings# in #Residence Districts#, terraced planting areas shall be provided. The retaining walls of such areas shall not be less than an average height of three feet and exceed an average height of six feet, as measured from the level of the adjoining sidewalk below such wall, and the retaining wall closest to the #street line# shall not exceed a height of three feet. The area with the retaining walls shall be greater than 30 percent of the total area between the #street line# and blank walls and their prolongations. Planting shall also be provided for at least 50 percent of the linear footage above and below the retaining walls, through a combination of perennials, annual flowers, decorative grasses or shrubs.

This option shall satisfy two points if the area with the retaining walls is greater than 50 percent of the total area between the #street line# and blank walls and their prolongations.

64-522 - Additional options available for single-, two-, or three-family residences

LAST AMENDED
5/12/2021

The streetscape mitigations options of this Section may be applied to all #single-#, #two-#, or three-#family residences#. Where provided as a required streetscape mitigation element, the following shall apply:

(a) Transparency
(one point)

Transparent glazing materials shall occupy at least 20 percent of the surface area of the #street wall# of the ground floor, measured between a height of two feet and 10 feet, or the height of the ground floor ceiling, whichever is higher, as measured from the adjoining sidewalk.

(b) Additional fenestration
(one point)

In addition to the #primary entrance#, one or more doors, including garage doors, shall be provided.

64-523 - Additional options available for all buildings except single-, two-, or three-family residences

LAST AMENDED
12/5/2024

The streetscape mitigations options of this Section may be applied to all #buildings# except #single-family#, #two-family#, or three-family residences. Where provided as a required streetscape mitigation element, the following shall apply:

(a) Transparency with #use#
(one point)

One or more of the following options may apply:

(1) Lobby
(one point)

In all districts, a lobby that complies with the standards set forth in Section 37-33 (Maximum Width of Certain Uses), shall be provided. Transparent glazing materials shall occupy at least 40 percent of the surface area of the #street wall# of the lobby, measured between a height of two feet and 10 feet, or the height of the ground floor ceiling, whichever is higher, as measured from the adjoining sidewalk.

(2) #Community facilities# and #accessory# #residential uses#
(one point)

In all districts, for #buildings# containing #residences# with three or more #dwelling units#, at least 50 percent of the #ground floor level# #street wall# shall be allocated to #accessory# #residential uses# other than #accessory# off-street parking, or #community facilities uses#, including, but not limited to, recreation space or bicycle storage, that extends to a minimum depth of 15 feet from the #street wall#. Transparent glazing materials shall occupy at least 40 percent of the surface area of the #street wall# of such #uses#, measured between a height of two feet and 10 feet, or the height of the ground floor ceiling, whichever is higher, as measured from the adjoining sidewalk. Where the spaces for such #uses# need not be fully enclosed, decorative screening or latticework may be substituted for transparent glazing materials.

(3) Non-#residential uses#
(one point)

In #Commercial Districts#, #uses# on the #ground floor level#, to the minimum depth set forth in Section 37-32 (Ground Floor Depth Requirements for Certain Uses), shall be limited to non-#residential uses#, except for lobbies and entrances and exits to #accessory# parking spaces provided in accordance with Section 37-33. Ground floor level #street walls# shall be glazed in accordance with Section 37-34 (Minimum Transparency Requirements) except that the transparent materials may begin higher than 2 feet, 6 inches, above the level of the adjoining sidewalk.

If #group parking facilities# are provided, they shall be wrapped by #floor area#, in accordance with paragraph (a) of Section 37-35 (Parking Wrap and Screening Requirements).

(b) Transparency close to grade
(one point)

In all districts, transparent materials provided to satisfy #street wall# transparency requirements shall not begin higher than 2 feet, 6 inches above the level of the adjoining sidewalk. The floor level behind such transparent glazing materials shall not exceed the level of the window sill for a depth of at least four feet, as measured perpendicular to the #street wall#.

(c) Linear treatment
(one point)

Linear treatment shall be provided for blank walls in the form of benches, bicycle racks, tables and chairs, or any combination thereof, as set forth in paragraph (b) of Section 37-362 (Mitigation elements).

64-53 - Screening Requirements for Parking Within or Below Buildings

LAST AMENDED
6/6/2024

The provisions of this Section shall apply to all #buildings# other than:

(a) #single# or #two-family residences#; and

(b) #buildings# containing #uses# predominantly listed under Use Group IV(B), IX(B) or X.

Where the #first story above the flood elevation# is five or more feet above #curb level# and the #street wall# of a #building# is within 50 feet of the #street line#, for any level where off-street parking is provided within or below a #building#, such parking shall be either wrapped by #floor area# or screened pursuant to the provisions of Section 37-35 (Parking Wrap and Screening Requirements).

#Buildings# in existence prior to May 12, 2021, shall not be altered in any way that will create a new #non-compliance# or increase the degree of #non-compliance# with the provisions of this Section.

64-60 - SPECIAL REGULATIONS FOR NON-CONFORMING USES AND NON-COMPLYING BUILDINGS

LAST AMENDED
5/12/2021

The provisions of this Section, inclusive, are optional, and may be applied to #buildings# with #non-conforming# #uses#, or to #non-complying# #buildings or other structures#, as applicable, that are also #flood-resistant buildings#.

64-61 - Special Provisions for Non-conforming Uses

LAST AMENDED
5/12/2021

For all #buildings# with #non-conforming# #uses#, the provisions of Sections 52-20 (REPAIRS OR ALTERATIONS), 52-40 (ENLARGEMENTS OR EXTENSIONS), and 52-50 (DAMAGE OR DESTRUCTION), inclusive, shall be modified to allow a #non-conforming# #use# to be continued, and a #building# with #non-conforming# #uses# to be altered, #enlarged#, relocated or reconstructed to comply with #flood-resistant construction standards#, pursuant to the provisions of this Section, inclusive.

Where a #building# with #non-conforming# #uses# is also #non-complying# with the applicable #bulk# regulations, #non-compliances# may be continued, increased or newly created only in accordance with the provisions of Section 64-612 (Special floor area regulations for buildings with non-conforming uses), Section 64-613 (Special height regulations for buildings with non-conforming uses), and Section 64-614 (Process for establishing non-conforming uses), except that Section 64-622 (Special open area regulations for non-complying buildings) and Section 64-624 (Process for establishing non-compliances) may also apply.

In addition, damage and destruction provisions set forth in Section 64-611 (Special regulations for damage or destruction provisions for buildings with non-conforming uses) shall apply to such #buildings#.

64-611 - Special regulations for damage or destruction provisions for buildings with non-conforming uses

LAST AMENDED

5/12/2021

The provisions set forth in Sections 52-53 (Buildings or Other Structures in All Districts) and 52-54 (Buildings Designed for Residential Use in Residence Districts) shall be modified to allow all #buildings# containing #non-conforming# #uses# to be reconstructed, provided that:

(a) for #non-conforming# #single-# and #two-family residences# in #Residence Districts# and #Commercial Districts#, except C8 Districts, such reconstruction may exceed 75 percent of the total #floor area# of the #building#;

(b) for #non-conforming# #single-# and #two-family residences# in C8 Districts or #Manufacturing Districts#, such reconstruction may exceed 75 percent of the total #floor area# of the #building# provided that 25 percent or more of the aggregate length of the #block# frontage on both sides of the #street# facing each other is occupied by #zoning lots# containing #residential# or #community facility uses#;

(c) for all other #buildings# with #non-conforming# #uses#, the extent of reconstructed #floor area# shall not exceed 75 percent of the total #floor area# of the #building#.

64-612 - Special floor area regulations for buildings with non-conforming uses

LAST AMENDED
5/12/2021

The maximum amount of #non-conforming# #floor area# in the altered, #enlarged#, relocated or reconstructed #building# shall not exceed the amount of #non-conforming# #floor area# existing prior to the alteration or reconstruction work.

64-613 - Special height regulations for buildings with non-conforming uses

LAST AMENDED
5/12/2021

The maximum height of such altered, #enlarged#, relocated or reconstructed #building# with #non-conforming# #uses#, shall not exceed the maximum height permitted by the applicable district regulations, except that for #non-conforming# #residences# in C8 Districts or #Manufacturing Districts#, the maximum height of such altered, #enlarged#, relocated or reconstructed #building#, shall comply with one of the following options:

(a) for #single# or #two-family residences#, a horizontal plane equivalent to a height of 35 feet, and for #buildings# other than #single-# or #two-family residences#, the applicable #sky exposure plane# for the district; or

(b) for all #residences# a horizontal plane equivalent to the pre-existing height of such #building#, as measured from the top of the #lowest usable floor#, to the highest point of such pre-existing #building#, as measured from the #reference plane#.

64-614 - Process for establishing non-conforming uses

LAST AMENDED
5/12/2021

For all #buildings# with #non-conforming# #uses# utilizing any of the provisions of this Section, the amount of pre-existing #non-conforming# #floor area# and pre-existing #non-compliances#, as applicable, shall be based either on construction documents for such #building# that were previously approved by the Department of Buildings at the time of construction, #enlargement#, or subsequent alteration, as applicable, of the #building# or, where an approved set of construction documents does

not exist for such #building#, an as-built drawing set completed by a professional engineer or architect. The Department of Buildings may request additional information to substantiate proof of #non-conformances# and #non-compliances#, as applicable. Verification by the Department of Buildings of such documentation shall be a pre-condition prior to any demolition for reconstruction work, or alteration permit issued by the Department of Buildings for a #zoning lot# altering or reconstructing #buildings# with #non-conforming# #uses# and #non-compliances#, as applicable, pursuant to the provisions of this Section.

64-62 - Special Provisions for Non-complying Buildings

LAST AMENDED
5/12/2021

For all #non-complying# #buildings or other structures#, the provisions of Sections 54-20 (REPAIRS OR ALTERATIONS), 54-30 (ENLARGEMENTS OR CONVERSIONS), and 54-40 (DAMAGE OR DESTRUCTION IN NON-COMPLYING BUILDINGS), inclusive, shall be modified to allow a #non-compliance# to be continued, and such #non-complying# #building or other structure# to be altered, #enlarged#, relocated or reconstructed to comply with #flood-resistant construction standards#, subject to the permitted thresholds of Sections 54-41 (Permitted Reconstruction) and 54-42 (Use of Alternate Formula), and the provisions of this Section.

In addition, such altered, #enlarged#, relocated or reconstructed #building or other structure# may create a new #non-compliance# with, or increase the degree of existing #non-compliance# with the applicable #bulk# regulations for the district, subject to the applicable provisions of this Section, inclusive.

64-621 - Special floor area regulations for non-complying buildings

LAST AMENDED
5/12/2021

For #buildings# with #non-complying# #floor area#, the maximum amount of #floor area# in the altered, #enlarged#, relocated or reconstructed #building# shall not exceed the amount of pre-existing #floor area#, nor shall it exceed the maximum #floor area# permitted by the applicable district regulations by more than 20 percent. In addition, subsequent to such alteration, #enlargement#, relocation or reconstruction, no #extension# or change of #use# may create a new #non-compliance# or increase the degree of existing #non-compliance# with #floor area#.

64-622 - Special open area regulations for non-complying buildings

LAST AMENDED
12/5/2024

The following provisions may apply to #non-complying# #buildings or other structures#.

(a) Relocation allowances

#Non-complying# #buildings or other structures# may continue an existing #non-compliance#, increase the degree of an existing #non-compliance#, or create a new #non-compliance# with #yards#, #open space#, #open space ratio#, #lot coverage#, #courts#, minimum distances between two or more #buildings#, or minimum distances between #legally required windows# and walls or #lot lines#, in order to relocate or alter the footprint of the #building#, provided that:

(1) the resulting #lot coverage# shall be less than or equal to that of the pre-existing #building or other structure# as it existed prior to the alteration, #enlargement#, relocation or reconstruction work or the amount permitted by the district, as applicable, whichever is greater, except that, where the provisions of paragraph (b) of this Section are utilized, the #first story above the flood elevation# and any #stories# below, may be exempted from such calculation;

(2) a new or increased #non-compliance# into an open area shall not exceed a horizontal distance of five feet, as measured perpendicular to the outermost edge of the #non-complying# #building or other structure#, as it existed prior to the alteration, #enlargement#, relocation or reconstruction work, except that such limitation shall not apply:

(i) where the pre-existing #building or other structure# is located either partially or entirely seaward of the #shoreline#, and such #building or other structure# will be altered, #enlarged#, relocated or reconstructed to be repositioned landward of the #shoreline# on the same #zoning lot#; or

(ii) where additional distance is necessary to accommodate access, including stairs, ramps or lifts in a required #yard#, provided that any additional encroachment is limited to the depth of such access;

(3) any new or increased #non-compliance# shall not result in an open area of:

(i) less than five feet between the wall of a #building or other structure# and a #rear lot line#;

(ii) less than three feet between the wall of a #building or other structure# and a #front lot line#, in districts with #front yard# requirements; and

(iii) three feet between the wall of a #building or other structure# and a #side lot line# for #detached buildings# in districts that do not allow #zero lot line buildings#; and

(4) the height of #buildings or other structures# within #non-complying# #yards# or #open space#, as measured from the #reference plane#, shall not exceed the height set forth in paragraph (a) of Section 64-623 (Special height regulations for non-complying buildings).

(b) Allowances for horizontal expansions

The #first story above the flood elevation# and #stories# located below such #story#, may create a new #non-compliance# with, or increase the degree of existing #non-compliance# with the applicable #rear yards#, #open space#, #open space ratio#, or #lot coverage# regulations for the district, provided that:

(1) the increased #lot coverage# does not exceed an additional 20 percent of such #lot coverage# permitted by Section 23-361 (Maximum lot coverage in R1 through R5 Districts);

(2) for #single-# or #two-family residences#, the encroachment into a #rear yard# does not result in a #rear yard# with a depth of less than 10 feet; and

(3) in all districts, the encroachment into a required open area does not exceed a height of 15 feet, as measured from the #first story above the flood elevation#.

Nothing in this Section shall affect the permitted obstruction allowances set forth by the district regulations.

64-623 - Special height regulations for non-complying buildings

LAST AMENDED
12/5/2024

For #buildings or other structures# that are #non-complying# with the applicable district height and setback regulations, the maximum height of such altered, #enlarged#, relocated or reconstructed #building or other structure#, shall not exceed the height permitted pursuant to either paragraph (a) or (b) of this Section, as applicable. An alteration, #enlargement#, relocation or reconstruction pursuant to this Section may continue an existing #non-compliance#, increase the degree of an existing #non-compliance#, or create a new #non-compliance# with height and setback regulations, and may continue or increase a #non-compliance# with other #bulk# regulations associated with such #non-complying# height, subject to the limitations of this Section. All permitted obstruction) allowances shall be measured with respect to the modified envelopes of this Section.

(a) For pre-existing #buildings or other structures# that do not exceed the overall permitted height

Where the height of a pre-existing #building or other structure# does not exceed the overall height permitted by the applicable district regulations, as measured from the top of the #lowest usable floor# to the highest point of such pre-existing #building#, the height of such altered, #enlarged#, relocated or reconstructed #building or other structure# shall not exceed:

(1) the applicable #sky exposure plane#, for #buildings# governed by #sky exposure planes# as measured from the #reference plane#; or

(2) a horizontal plane equivalent to the maximum #building# height permitted by the applicable district for all other #buildings# as measured from the #reference plane#.

(b) For pre-existing #buildings or other structures# that exceed the overall permitted height

Where the height of a pre-existing #building or other structure# exceeds the overall height permitted by the applicable district regulations, as measured from the top of the #lowest usable floor# to the highest point of such pre-existing #building#:

(1) the height of such altered, #enlarged#, relocated or reconstructed #building or other structure# as measured from the #reference plane# shall not exceed a horizontal plane equivalent to the pre-existing height of such #building#, as measured from the top of the #lowest usable floor#, to the highest point of such pre-existing #building#, provided also that such height shall not exceed the overall height permitted by the applicable district regulations by 10 percent, or 10 feet, whichever is less; and

(2) for #buildings# or other #structures# subject to the regulations of Section 23-421 (Basic pitched-roof envelopes for certain districts), where the degree of the alteration or reconstruction exceeds 75 percent of the #floor area#, the height of a perimeter wall of such altered, #enlarged#, relocated or reconstructed #building or other structure# as measured from the #reference plane# shall not exceed the higher of the maximum perimeter wall height for the district, or the pre-existing height of such perimeter wall, as measured from the top of the #lowest usable floor# to the highest point in such pre-existing #building# before setback.

However, the height allowances of this Section shall not apply to #single# or #two-family residences# that are not #non-complying# with #floor area# requirements, or where the provisions of paragraph (b) of Section 64-622 (Special open area regulations for non-complying buildings) are utilized.

64-624 - Process for establishing non-compliances

LAST AMENDED
5/12/2021

For all #non-complying# #buildings or other structures# utilizing any of the provisions of this Section, the amount of pre-existing #non-compliances# shall be based either on the construction documents of such #building or other structure# previously approved by the Department of Buildings at the time of construction, #enlargement#, or subsequent alteration of such #building or other structure#, as applicable, or, where an approved set of construction documents does not exist for such #building or other structure#, an as-built drawing set completed by a professional engineer or architect. The Department of Buildings may request additional information to substantiate proof of #non-compliances#. Verification by the Department of Buildings of such documentation shall be a pre-condition prior to any demolition for reconstruction work, or alteration permit issued by the Department of Buildings for a #zoning lot# altering or reconstructing #non-compliances# pursuant to the provisions of this Section.

Chapter 5 - Special Regulations Applying in Designated Recovery Areas

65-00 - GENERAL PROVISIONS

LAST AMENDED
5/12/2021

The provisions of this Resolution shall apply as modified by this Chapter and by the special regulations set forth herein. The provisions of this Chapter establish optional special regulations which are designed to facilitate, on a temporary basis, the recovery of areas impacted by a severe disaster and in so doing promote and protect public health, safety and general welfare. These general goals include, among others, the following purposes:

(a) to expedite the recovery of neighborhoods that have experienced physical or non-physical impacts from a severe disaster;

(b) to enable the reconstruction and alteration of buildings damaged by a severe disaster, by removing disincentives; and

(c) to promote the most desirable use of land in accordance with a well-considered plan and thus conserve the value of land and buildings, and thereby protect the City's tax revenues.

65-01 - Applicability of Article VI, Chapter 5

LAST AMENDED

The provisions of this Chapter shall apply based on the type of impacts caused by each #severe disaster#, and such applicability shall be determined at the time such provisions are added to the Chapter's applicability. #Designated recovery areas# shall be determined based on the extent of the impacts caused by the #severe disaster# and recovery plans, as applicable. For each of the #designated recovery areas#, applicable recovery provisions will be set forth in this Chapter based on the type of impacts caused by the #severe disaster#. The #designated recovery areas# shall be listed in Appendix A of this Chapter, and the applicable time duration shall be set forth in the following table.

#Designated Recovery Area# Number and #severe disaster#	Effective Date	Applicable Sections							
		65-11	65-12	65-13	65-21	65-31	65-41	65-42	64-51
1: COVID-19	May 12, 2021		x	x					

* Such time duration limitation may be modified by the specific provision located in this Chapter

The regulations of all other Chapters of this Resolution are applicable, except as superseded, supplemented or modified by the provisions of this Chapter. In the event of a conflict between the provisions of this Chapter and other regulations of this Resolution, the provisions of this Chapter shall control.

65-10 - SPECIAL TIME-BASED PROVISIONS

LAST AMENDED
5/12/2021

The modifications to time limits associated with this Resolution and set forth in this Section, inclusive, may be applied to #zoning lots# within #designated recovery areas#, as set forth in Section 65-01 (Applicability of Article VI, Chapter 5).

65-11 - Vesting Provisions

LAST AMENDED
5/12/2021

In all districts, the provisions of Section 11-30 (BUILDING PERMITS ISSUED BEFORE EFFECTIVE DATE OF AMENDMENT), inclusive, and any other provision that requires a building permit to be submitted, or a particular amount of construction to be completed within a certain timeframe, shall be suspended. Subsequent to the expiration of the applicable time duration as set forth in Section 65-01 (Applicability of Article VI, Chapter 5), the time period established by the applicable provisions of this Resolution shall be resumed, and the remaining time associated with submitting a building permit, or completing a particular amount of construction shall be the amount existing prior to the #severe disaster#.

65-12 - Authorizations or Special Permits Granted by the City Planning Commission

LAST AMENDED
5/12/2021

In all districts, for special permits or authorizations granted by the City Planning Commission where substantial construction has not taken place and such approval would lapse after a total of 10 years within the applicable time duration set forth in Section 65-01 (Applicability of Article VI, Chapter 5), the provisions of Section 11-42 (Lapse of Authorization or Special Permit Granted by the City Planning Commission Pursuant to the 1961 Zoning Resolution) and 11-43 (Renewal of Authorization or Special Permit) shall be modified to allow the renewal of such authorization or special permit without public hearing, for one additional three-year term, provided that the Commission finds that the facts upon which the authorization or special permit was granted have not substantially changed. An application for a renewal of authorization or special permit shall be filed with the Commission before it lapses.

65-13 - Discontinuance Provisions

LAST AMENDED
5/12/2021

In all districts, where a #non-conforming# #use# has been discontinued, the time limits associated with restoring active operations of such #use# to retain its #non-conforming# status shall be suspended. Subsequent to the expiration of the applicable time duration as set forth in Section 65-01 (Applicability of Article VI, Chapter 5), the time period established by the applicable provisions of this Resolution shall be resumed, and the remaining time associated with restoring active operations

shall be the amount existing prior to the #severe disaster#.

65-20 - SPECIAL DAMAGE AND DESTRUCTION PROVISIONS

LAST AMENDED
5/12/2021

The following modifications to damage and destruction provisions associated with this Resolution may be applied to #zoning lots# within #designated recovery areas#, as set forth in Section 65-01 (Applicability of Article VI, Chapter 5).

65-21 - Reconstruction Provisions

LAST AMENDED
5/12/2021

In all districts, where the provisions of this Section are utilized, the provisions of Article V, Chapters 2 (Non-Conforming Uses) and 4 (Non-Complying Buildings) shall be modified to allow the reconstruction of #buildings or other structures# containing #non-conforming# #uses# and #non-complying# #buildings or other structures#, that were damaged due to the effects of the #severe disaster#, as follows:

(a) Section 52-53 (Buildings or Other Structures in All Districts), inclusive, shall be modified to allow the reconstruction of a #non-conforming# #use# where a #building or other structure# containing such #use# is damaged to the extent of 50 percent or more due to the effects of a #severe disaster#. In addition, for the purpose of this paragraph, the provisions of Section 52-

60 (DISCONTINUANCE) shall not apply to such damaged #building or other structure# with #non-conforming# #uses#; and

(b) Section 54-40 (DAMAGE OR DESTRUCTION IN NON-COMPLYING BUILDINGS) shall be modified to allow the reconstruction of a #non-complying# #building or other structure# where such #building or other structure# is damaged to the extent of 75 percent or more due to the effects of a #severe disaster#.

For the purpose of applying waterfront and parking regulations, #buildings# reconstructed pursuant to this Section shall not be considered #developments# or #enlargements#.

65-30 - SPECIAL USE REGULATIONS

LAST AMENDED
5/12/2021

The following modifications to #use# regulations set forth in this Section, inclusive, may be applied to #zoning lots# within #designated recovery areas#, as set forth in Section 65-01 (Applicability of Article VI, Chapter 5).

65-31 - Temporary Uses

LAST AMENDED
5/12/2021

In all districts, where the provisions of this Section are utilized, the #use# provisions of this Resolution, including any supplemental use regulations and provisions regulating size limitations, change of #non-conforming# #uses#, #enlargement# or #extension# of #non-conforming# #uses#, shall be modified to allow a temporary #non-conforming# #use# to be created, and a #non-conforming use# to be #enlarged# or #extended#, on a temporary basis, to aid in the immediate restoration and recovery of an area adversely impacted by a #severe disaster#.

The creation of a new #non-conforming# #use# shall be subject to the following limitations:

#Severe Disaster#	District	Use Group of permitted new #non-conformance#	Time Duration (if different from Section 65-01)

Subsequent to the expiration of the applicable time duration as set forth in this Section, any #non-conforming# #use# that was created, or any portion of a #non-conforming# #use# that was #enlarged# or #extended# on a #zoning lot#, shall be terminated and, thereafter, such #zoning lot# shall be restored to its pre-existing degree of #non-conformity#, or used only for a conforming #use#.

65-40 - SPECIAL BULK REGULATIONS

LAST AMENDED

5/12/2021

The following modifications to #bulk# regulations set forth in this Section, inclusive, may be applied to #zoning lots# within #designated recovery areas#, as set forth in Section 65-01 (Applicability of Article VI, Chapter 5).

65-41 - Reconstruction and Alteration of Disaster-Damaged Buildings

LAST AMENDED
5/12/2021

In all districts, where the provisions of this Section are utilized, the #bulk# provisions of this Resolution, and the provisions regulating the reconstruction, #enlargement# and alteration of #buildings# with #non-conforming# #uses# and #non-complying# #buildings or other structures# shall be modified to allow the reconstruction, #enlargement#, relocation and alteration of #buildings or other structures# that were damaged due to the effects of the #severe disaster#, including #non-conformances# to be continued, and #non-compliances# to be created, continued, or increased, provided the #building or other structure# is subject to the following provisions, as applicable:

(a) Floor area

The maximum amount of #floor area# shall not exceed the amount of pre-existing #floor area# as it existed prior to the reconstruction, #enlargement#, relocation or alteration work or the amount permitted by the district, whichever is greater. Furthermore, no #extension# or change of #use# may create a new #non-conformance# or a new #non-compliance#, or increase the degree of existing #non-conformance# or #non-compliance# with #floor area#.

(b) Building footprint

The resulting #lot coverage# shall be less than or equal to that of the pre-existing #building or other structure# as it existed prior to the reconstruction, #enlargement#, relocation or alteration work or the amount permitted by the district, as applicable, whichever is greater. Furthermore, a #building or other structure# may continue an existing #non-compliance#, increase the degree of an existing #non-compliance#, or create a new #non-compliance# with respect to open areas required through regulations for #yards#, #open space#, #open space ratio#, #lot coverage#, #courts#, and minimum distance between #buildings#, in order to relocate or alter the footprint of the #building or other structure#, provided that:

(1) a new or increased #non-compliance# into an open area shall not exceed a horizontal distance of five feet, as measured perpendicular to the outermost edge of the #non-complying# #building or other structure#, as it existed prior to the reconstruction, #enlargement#, relocation or alteration work; and

(2) any new or increased #non-compliance# shall not result in an open area of:

(i) less than five feet between the wall of a #building or other structure# and a #rear lot line#;

(ii) less than three feet between the wall of a #building or other structure# and a #front lot line#, in districts with #front yard# requirements; and

(iii) less than three feet between the wall of a #building or other structure# and a #side lot line# for #detached buildings# in districts that do not allow #zero lot line buildings#.

Nothing in this Section shall affect the permitted obstruction allowances set forth by the district regulations.

(c) Building height

The resulting height and setback may continue an existing #non-compliance#, provided that the height of such reconstructed, #enlarged#, relocated or altered #building or other structure# as measured from #curb level#, #base plane# or other applicable underlying datum, does not exceed the pre-existing height of such #building#, as measured from the top of the lowest floor that contains #floor area#, to the highest point of such pre-existing #building#. All permitted obstruction allowances shall be measured with respect to the modified height and setback regulations set forth in this Section.

For the purpose of applying waterfront and parking regulations, #buildings or other structures# reconstructed pursuant to this Section shall not be considered #developments# or #enlargements#.

65-42 - Properties with Disaster-Damaged Buildings

LAST AMENDED
5/12/2021

In all districts, the definition of #zoning lot# set forth in Section 12-10 (DEFINITIONS) may be modified to allow a tax lot containing one or more #buildings# that were damaged by the #severe disaster#, or where a #building# or #buildings# that were damaged by the #severe disaster# occupied more than one tax lot on the date of the #severe disaster#, to be provisionally considered a #zoning lot# for the sole purpose of demonstrating compliance with the #bulk# requirements of this Resolution, including the provisions of Section 65-31 (Reconstruction and Alteration of Disaster-Damaged Buildings), as applicable.

65-50 - SPECIAL DOCUMENTATION PROVISIONS

LAST AMENDED
5/12/2021

The following modifications to documentation procedures may be applied to #zoning lots# within #designated recovery areas#, as set forth in Section 65-01 (Applicability of Article VI, Chapter 5).

65-51 - Documentation Provisions

LAST AMENDED
5/12/2021

For #buildings or other structures# that were damaged due to the effects of the #severe disaster# and do not have a certificate of occupancy, construction documents, or other lawful documentation filed with the Department of Buildings indicating the existence of such #building or other structure# prior to the #severe disaster# and the presence and extent of #non-conforming# #uses# or #non-compliances# as to #bulk#, as applicable, in order to receive a building permit to reconstruct, #enlarge#, relocate or alter #buildings or other structures# pursuant to the provisions of this Resolution, inclusive of this Chapter, the Commissioner of Buildings may determine alternate and appropriate documentation necessary to substantiate proof of such #non-conformances# or #non-compliances#, as applicable.

Appendix A - Designated Recovery Areas

LAST AMENDED5/12/2021

The boundaries of each #designated recovery area# are described in this Appendix, and are subject to the temporary provisions of this Chapter, as specified in Section 65-01 (Applicability of Article VI, Chapter 5).

Designated Recovery Area 1: COVID-19 (5/12/21)

The #designated recovery area 1# shall include all #zoning lots# located within the City of New York.

Zoning Resolution

Chapter 6 - Special Regulations Applying Around Mass Transit Stations

File generated by https://zr.planning.nyc.gov on 6/23/2026

Chapter 6 - Special Regulations Applying Around Mass Transit Stations

66-00 - GENERAL PURPOSES

LAST AMENDED
10/7/2021

The provisions of this Chapter establish special regulations which are designed to support and facilitate transit accessibility and improvements in conjunction with developments and enlargements near transit stations, and in doing so, promote and protect public health, safety, general welfare and amenity. The general goals of this Chapter include, among others, the following purposes:

(a) to support the long-term planning needs of mass transit stations and systemwide accessibility;

(b) to reduce pedestrian congestion on city streets in the vicinity of transportation nodes, by facilitating the provision of easements and moving transit station entrance infrastructure off the sidewalk;

(c) to offset potential burdens of such easement on development feasibility by providing zoning flexibility where easements are provided;

(d) to encourage well-designed development and pedestrian environment, including enhanced pedestrian circulation, around mass transit stations;

(e) to coordinate the present and future relationship of land uses around transit stations; and

(f) to promote the most desirable use of land in the area and thus to conserve the value of land and buildings, and thereby protect the City's tax revenues.

66-10 - GENERAL PROVISIONS

LAST AMENDED
10/7/2021

66-11 - Definitions

LAST AMENDED
8/14/2025

For purposes of this Chapter, matter in italics is defined in Section 12-10 (DEFINITIONS) and in this Section, except where explicitly stated otherwise in individual provisions in this Chapter.

Above-grade mass transit station

For the purposes of this Chapter, an "above-grade mass transit station" shall refer to a #mass transit station# with a platform that is located entirely above five feet from #curb level#.

At or below-grade mass transit station

For the purposes of this Chapter, an "at- or below-grade mass transit station" shall refer to a #mass transit station# that is not an #above-grade mass transit stations#.

Central Business Districts

For the purposes of this Chapter, "Central Business Districts" shall refer to #Special Midtown District#, #Special Hudson Yards District#, #Special Lower Manhattan District#, #Special Downtown Brooklyn District#, #Special Long Island City Mixed Use District# or #Special Midtown South Mixed Use District#.

Clear path

For the purposes of this Chapter, a "clear path" shall refer to an unobstructed area between the #street line# and #street wall# that:

(a) directly #abuts# an adjoining public sidewalk; and

(b) extends along the #street line# for a distance equal to the width of an existing or planned access point to a #mass transit station# facing such #transit-adjacent site#, plus, in the aggregate, a maximum of 30 feet from the outermost extents of such width.

All #clear paths# shall be accessible to the public at all times.

Easement volume

For the purposes of this Chapter, an "easement volume" shall refer to an area of the #zoning lot# used to accommodate either:

(a) station access infrastructure, including but not limited to elevators, stairs, escalators, ramps or fare control areas; or

(b) ancillary facilities that are needed to support transit system functionality.

Eligible zoning districts

For the purposes of this Chapter, “eligible zoning districts” shall refer to the following zoning districts:

(a) R5D through R12 Districts or #Commercial Districts# mapped within, or with a #residential equivalent# of such districts;

(b) C7 or C8 Districts;

(c) M1 Districts paired with a #Residence District#; or

(d) #Manufacturing Districts#.

Mass transit station

For the purposes of this Chapter, “mass transit station” shall refer to any subway or rail #mass transit station# operated by a #transit agency#. Such #mass transit stations# shall include all publicly accessible parts of the station, including but not limited to stairs, escalators, elevators, corridors, platforms, and fare control areas inclusive of paid and unpaid areas of the station. Publicly accessible parts of the station shall also include stairs, escalators, elevators, corridors and fare control areas that are currently closed but could be reopened and that have previously been open to the public.

Primary transit-adjacent sites

For the purposes of this Chapter, “primary transit-adjacent sites” shall refer to #transit-adjacent sites# that have a #lot area# of 5,000 square feet or more.

Qualifying transit improvement sites

For the purposes of this Chapter, "qualifying transit improvement sites" shall refer to #zoning lots# that are:

(a) located in one of the following zoning districts:

(1) R9 through R12 Districts;

(2) #Commercial Districts# mapped within, or with an equivalent of an R9 through R12 District, or C7-6, C7-7, C7-8 or C7-9 Districts;

(3) M1 Districts paired with an R9 through R12 District; or

(4) M1-6, M1-7A, M1-8A or M1-9A Districts; and

(b) located wholly or partially within 500 feet of a #mass transit station# or, where both the #zoning lot# and #mass transit station# are located in #Central Business Districts#, within 1,500 feet of a #mass transit station#.

Such distance shall be measured from the outermost extent of the #mass transit station#. For the purposes of such calculation, the outermost extent may include #buildings# containing #easement volumes# serving such #mass transit station#.

Secondary transit-adjacent sites

For the purposes of this Chapter, "secondary transit-adjacent sites" shall refer to #transit-adjacent sites# that have a #lot area# of less than 5,000 square feet.

Transit agency

For the purposes of this Chapter, a “transit agency” shall refer to any governmental agency with jurisdiction over the affected #mass transit station#.

Transit-adjacent sites

For the purposes of this Chapter, “transit-adjacent sites” shall refer to #zoning lots# that are located within 50 feet of a #mass transit station# and located in:

(a) #eligible zoning districts#;

(b) #qualifying residential sites#; or

(c) #large sites# located in R1 through R5 Districts or in #Commercial Districts# mapped within, or with a #residential equivalent# of, such districts.

#Transit-adjacent sites# include #primary transit-adjacent sites# and #secondary transit-adjacent sites#.

Transit volume

For the purposes of this Chapter, a “transit volume” shall refer to an area of a #transit-adjacent site# where, pursuant to the provisions of this Chapter, a #transit agency# has determined transit or pedestrian circulation improvements are needed for a #mass transit station#. Such #transit volume# may be used to accommodate #easement volumes# or #clear paths#.

66-12 - Applicability

LAST AMENDED
10/7/2021

The regulations of all other Chapters of this Resolution are applicable, except as superseded, supplemented or modified by the provisions of this Chapter. In the event of a conflict between the provisions of this Chapter and other regulations of this Resolution, the provisions of this Chapter shall control.

66-121 - General applicability

LAST AMENDED
10/7/2021

The provisions of this Chapter shall apply to #transit-adjacent sites# or #qualifying transit improvement sites#, as follows:

(a) For #transit-adjacent sites#

(1) The provisions of Section 66-20 (SPECIAL PROVISIONS FOR PRIMARY TRANSIT-ADJACENT SITES), inclusive, shall apply to all #developments# or #enlargements# on the lowest #story# of a #building# on #primary transit-adjacent sites#.

(2) The provisions of Section 66-30 (SPECIAL PROVISIONS FOR SECONDARY TRANSIT-ADJACENT SITES), inclusive, include optional provisions available to #developments# and #enlargements# on #secondary transit-adjacent sites#, #conversions# on #transit-adjacent sites#.

(3) The provisions of Section 66-40 (CONSTRUCTION, MAINTENANCE AND ADDITIONAL PROVISIONS), inclusive, shall apply to all #transit-adjacent sites# providing an #easement volume# pursuant to Section 66-20 or Section 66-30.

(b) For #qualifying transit improvement sites#

The provisions of Section 66-51 (Additional Floor Area for Mass Transit Station Improvements) shall be optional for #qualifying transit improvement sites#.

66-122 - Limitations on applicability in certain areas

LAST AMENDED
10/7/2021

The provisions of this Chapter shall not apply as follows:

(a) The provisions of Section 66-20 (SPECIAL PROVISIONS FOR PRIMARY TRANSIT-ADJACENT SITES) and Section 66-30 (SPECIAL PROVISIONS FOR SECONDARY TRANSIT-ADJACENT SITES), shall not apply to the following areas within Special Purpose District:

(1) all subdistricts except 34th Street Corridor Subdistrict C and South of Port Authority Subdistrict E within #Special Hudson Yards District#;

(2) #qualifying sites# in the East Midtown Subdistrict within #Special Midtown District#, as defined in Section 81-613 (Definitions); or

(3) the #Special Transit Land Use District#.

(b) The provisions of Section 66-51 (Additional Floor Area for Mass Transit Station Improvements) shall not apply:

(1) to the following areas within Special Purpose Districts:

(i) all subdistricts except 34th Street Corridor Subdistrict C and South of Port Authority Subdistrict E within #Special Hudson Yards District#;

(ii) the Court Square Subdistrict within #Special Long Island Mixed Use District#; or

(iii) #qualifying sites# in the East Midtown Subdistrict within the #Special Midtown District#, as defined in Section 81-613 (Definitions); or

(2) to the 34th Street - Hudson Yards Station.

66-123 - Other limitations on applicability

LAST AMENDED
10/7/2021

The provisions of Section 11-30 (BUILDING PERMITS ISSUED BEFORE EFFECTIVE DATE OF AMENDMENT) regarding the right to continue construction shall apply. In addition, the following special vesting provisions shall apply:

(a) Inapplicability of easement provisions for vested sites and previously approved easements

The provisions of Section 66-20 (SPECIAL PROVISIONS FOR PRIMARY TRANSIT-ADJACENT SITES), shall not apply to:

(1) #developments# or #enlargements# on the lowest #story# of a #building# on #zoning lots# with an easement created pursuant to the provisions of this Resolution on or before October 7, 2021, where such easement is providing transit station access infrastructure or ancillary facilities; or

(2) #developments# or #enlargements# on the lowest #story# of a #building# if, on or before October 7, 2021:

(i) an application has been filed with the Department of Buildings, and if, on or before October 7, 2021, the Department of Buildings has approved an application for a foundation, a new #building# or an alteration based on a complete zoning analysis showing zoning compliance for such #development# or #enlargement#. The application may be revised and retain vested status, provided that the #lot coverage# for the #development# or #enlargement# is not increased beyond the amount described in the approved application;

(ii) an application for a special permit or variance has either been approved or is pending before the Board of Standards and Appeals;

(iii) an authorization or special permit from the City Planning Commission has either been approved, certified or referred; or

(iv) an application for a Certificate of Appropriateness or other permits has either been approved or is pending before the Landmarks Preservation Commission.

Subsequent to October 7, 2021, such applications for #developments# or #enlargements# may be continued, and, if approved, construction may be started or continued pursuant to the provisions in effect prior to October 7, 2021.

(b) Applicability of bonus provisions to previously filed special permits applications

If, before October 7, 2021, an application for a special permit for a #floor area# bonus for subway station improvements has been referred for public review by the City Planning Commission pursuant to Section 74-634 (Subway station improvements in Downtown Brooklyn and in Commercial Districts of 10 FAR and above in Manhattan), as such Section existed prior to October 7, 2021, such application may continue pursuant to the regulations in effect at the time such special permit was referred for public review by the Commission. Such special permit, if granted by the Commission, may be started or continued, in accordance with the terms thereof, or as such terms may be subsequently modified, pursuant to the regulations in effect at the time such special permit was referred by the Commission.

66-20 - SPECIAL PROVISIONS FOR PRIMARY TRANSIT-ADJACENT SITES

LAST AMENDED
10/7/2021

For all #developments# or #enlargements# on the lowest #story# of a #building# on #primary transit-adjacent sites#, a determination, or certification, where applicable, for a #transit volume# shall be obtained pursuant to Section 66-21 (Determination and Certification for Transit Volumes). Where a #transit volume# is needed, special #use#, #bulk#, parking, and streetscape regulations are set forth in Sections 66-22 (Special Use Regulations), 66-23 (Special Bulk Regulations), 66-24 (Special Regulations for Accessory Off-street Parking), and 66-25 (Special Streetscape Regulations) respectively. Separate applicability is set forth within such Sections for #primary transit-adjacent sites# with #easement volumes# and for those with #clear paths#.

66-21 - Determination and Certification for Transit Volumes

For all #developments# or #enlargements# on the lowest #story# of a #building# on #primary transit-adjacent sites#, a determination by the #transit agency# as to whether a #transit volume# is needed on the #zoning lot# shall be obtained pursuant to the provisions of this Section prior to any application with the Department of Buildings for an excavation permit, foundation permit, new building permit or alteration permit. An initial determination by the #transit agency# shall be made in accordance with paragraph (a) of this Section. Where a #transit volume# is needed based on the initial determination, the dimensions and location of such #transit volume# shall be established in accordance with paragraph (b) of this Section, and certified by the Chairperson of the City Planning Commission pursuant to paragraph (c).

(a) Initial determination

The owner of the #zoning lot# shall request a determination by the #transit agency# as to whether or not a #transit volume# is needed on the portion of the #zoning lot# not otherwise occupied by existing #buildings# that will remain. Within 30 days of receipt of such request, the #transit agency# shall issue a determination, indicating whether or not a #transit volume# is needed on such portion of the #zoning lot#. Failure by the #transit agency# to issue the determination within the 30-day period will release the owner from any obligation to provide a #transit volume# on such #zoning lot#.

Where the #transit agency# determines a #transit volume# is needed on the #zoning lot#, the provisions of paragraphs (b) and (c) of this Section shall apply. Where the #transit agency# determines a #transit volume# is not needed, a building permit may be issued for such #development# or #enlargement#, and no remaining provisions of this Section shall apply.

(b) Determination of easement dimensions and location

Where a #transit volume# is needed, as determined pursuant to the provisions of paragraph (a) of this Section, the #transit agency# shall, within 30 days, determine the appropriate type, dimensions and general location of the #transit volume# on the #zoning lot# based on a concept plan for the use of such volume. Prior to the 30-day period, the #transit agency# may request relevant materials from the owner of the #zoning lot#, including existing and proposed site conditions, or other necessary information that will support the planning of such #transit volume#.

After the size and general location of the #transit volume# has been determined by the #transit agency#, the owner shall submit for approval by the #transit agency# a site plan showing a proposed specific location of the #transit volume# that would be compatible with the proposed #development# or #enlargement# on the #zoning lot#. The #transit agency# shall, within 30 days of its receipt, either approve the site plan, or request modifications to the #transit volume# within the site plan in a manner that aligns with the concept plan. Upon such request, the owner shall submit a revised site plan, and within 15 days of its receipt, the #transit agency# shall confirm that the requested modifications have been addressed. In the event that such requested modifications have not been sufficiently addressed, subsequent revisions to the site plan may be requested by the #transit agency#, and each submission shall have a 15-day review period from the #transit agency#.

Upon approval of the site plan by the #transit agency#, such site plan shall be certified by the Chairperson of the City Planning Commission pursuant to paragraph (c) of this Section prior to the issuance of a building permit by the Department of Buildings for such #development# or #enlargement#. Notwithstanding the above, a building permit may be issued for a #development# or #enlargement#:

(1) where the size of the proposed #transit volume# exceeds 25 percent of the width of any #street# frontage on the #zoning lot#, as measured along the #street line#; or

(2) where the number of days associated with the determination and review periods by the #transit agency# exceeds any of the limits set forth in this paragraph, or a total review period of 120 days. The total review period shall only be inclusive of the duration of the #transit agency's# determination and review periods set forth in both paragraphs (a) and (b) of this Section.

(c) Chairperson certification

Upon approval of the site plan by the #transit agency#, a legally enforceable instrument, running with the land and setting forth the dimensions and location of a #transit volume#, shall be executed and recorded in a form acceptable to the #transit agency# and Chairperson of the City Planning Commission. The Chairperson shall be provided with a certified copy of the legally enforceable instrument, and upon receipt, shall certify the application and forward copies of such certification to the Commissioner of the Department of Buildings. Such certification shall be a precondition for the utilization of the remaining provisions of Section 66-20, inclusive, in any #development# or #enlargement# on a #zoning lot# where a #transit volume# is needed.

Where an #easement volume# is needed on the #zoning lot# pursuant to paragraph (a) and (b) of this Section, additional requirements setting forth the construction, maintenance and other obligations shall apply pursuant to the provisions of Section 66-41 (Construction, Maintenance and Other Obligations).

No temporary or final certificate of occupancy for the #development# or #enlargement# shall be granted until the Chairperson of the City Planning Commission notifies the Department of Buildings that the execution and recordation of other basic terms of the #easement volume#

setting forth the obligations and requirements of either the #transit agency# or the owner and developer, their successors and assigns, inclusive of the requirements set forth in Section 66-41, have been completed.

66-22 - Special Use Regulations

LAST AMENDED
10/7/2021

Where an #easement volume# is provided, the applicable #use# regulations of this Resolution shall be modified in accordance with the provisions of Sections 62-221 (Temporary uses) and 62-222 (Special use allowances around easement volumes).

66-221 - Temporary uses

LAST AMENDED
6/6/2024

Any space within an #easement volume# may be temporarily allocated to the following #uses# until such time as the space is needed by the #transit agency#:

(a) in all districts, #uses# listed under Use Group III(B), as permitted by the underlying district;

(b) in #Residence Districts#, #uses# listed under Use Group VI; or

(c) in #Commercial# and #Manufacturing Districts#, any #commercial# or #manufacturing use# allowed by the underlying district.

The floor space allocated to such temporary #uses# within the #easement volume# shall continue to be exempt from the definition of #floor area# and shall not be included for the purpose of calculating #accessory# off-street parking, bicycle parking, or loading berths.

Improvements to, or construction of a temporary nature within the #easement volume# for such temporary #uses# shall be removed by the owner of the #building# or portion of the #zoning lot# within which the #easement volume# is located prior to the time at which public #use# of the easement area is needed, except as otherwise specified by the #transit agency#. A minimum notice of 12 months shall be given, in writing, by the #transit agency# to the owner of the #building# or portion of the #zoning lot# to vacate the easement volume.

66-222 - Special use allowances around easement volumes

LAST AMENDED
6/6/2024

In all #Residence Districts#, #uses# listed under Use Group VI shall be permitted within a distance of 30 feet from the outermost edge of the #easement volume#:

(a) at the ground floor level of a #building# on a #zoning lots# with an #easement volume# serving an #at- or below-grade mass transit station#, or

(b) at the two lowest #stories# of a #building# on a #zoning lot# with an #easement volume# serving an #above-grade mass transit station#.

Such #uses# may be permitted so long as that in #buildings# that include #residential uses#, such #uses# are located in a portion of the #building# that has separate access to the outside with no opening of any kind to the #residential# portion of the #building#, and that such #uses# are not located directly over any #story# containing #dwelling units#.

66-23 - Special Bulk Regulations

LAST AMENDED
10/7/2021

Where an #easement volume# is provided, the applicable #bulk# regulations of this Resolution shall be modified in accordance with the provisions of this Section. Where a #clear path# is provided, only the #street wall# provisions of Section 66-233 (Special street wall modifications) shall apply.

66-231 - Special floor area modifications

LAST AMENDED
10/7/2021

The #floor area# modifications of this Section shall apply as follows:

(a) #Floor area# exemption

The floor space contained within any #easement volume# shall be excluded from the definition of #floor area#.

(b) #Commercial# #floor area# in #Residence Districts#

Where special #use# allowances pursuant to paragraph (a) of Section 66-222 (Special use allowances around easement volumes) are permitted in #Residence Districts#, the maximum permitted #commercial floor area# shall be equivalent to the area permitted for #commercial

uses# pursuant to such Section.

66-232 - Special open space, lot coverage and yard modifications

LAST AMENDED
12/5/2024

The #open space#, #lot coverage# and #yard# modifications of this Section shall apply as follows.

(a) Permitted obstructions

(1) #Easement volumes# in all zoning districts

Any portion of an #easement volume# shall be considered a permitted obstruction within a required #open space#, #yards#, #rear yard equivalent#, or #court# pursuant to the regulations of this Resolution. Any #easement volume#, including any #use# or structure therein, shall be located at least 20 feet from any #legally required window# at the same level on the #zoning lot#.

(2) Non-residential uses in #Commercial# or #Manufacturing Districts#

Any #building# or portion of a #building# used for any permitted #commercial# or #community facility uses#, up to two #stories#, excluding #basements#, or 30 feet above #curb level#, whichever is less, shall be considered a permitted obstruction in any #rear yard# or #rear yard equivalent# of a #zoning lot# with an #easement volume# serving an #above-grade mass transit station#. Any portion of a #building# containing residences

or rooms used for living or sleeping purposes (other than a room in a hospital used for the care or treatment of patients, or #joint living-work quarters for artists#) shall not be a permitted obstruction.

(b) Special #lot coverage# modifications in certain districts

The underlying #lot coverage# provisions shall apply except any #easement volume#, or portion thereof, that is open to the sky shall not be included in #lot coverage#.

66-233 - Special street wall modifications

LAST AMENDED
6/6/2024

The #street wall# modifications of this Section shall apply to districts with #street wall# requirements.

(a) #Street wall# location where an #easement volume# is provided

The applicable #street wall# location provisions shall be modified pursuant to this paragraph.

(1) For all #zoning lots#, any portion of the #easement volume# facing the #street#, as well as any portion of a #building# behind or above such #easement volume# shall not be subject to #street wall# location provisions along the #street# frontage the #easement volume# is located.

(2) Where an #easement volume# is located wholly beyond 50 feet of the intersection of two #street lines#, #street walls# within 15 feet of an #easement volume#, as measured along the #street line# may be recessed, provided that any such recesses deeper than 10 feet along a #wide street# or 15 feet along a #narrow street# are located within an #outer court#. However, on #corner lots#, where an #easement volume# is placed partially or wholly within 50 feet of the intersection of two #street lines#, the #street wall# may be located anywhere within an area bounded by the two #street lines# and lines drawn perpendicular to such #street lines# within 15 feet from the edges of such #easement volume#. For #corner lots# with an angle of 75 degrees or less, such distance may be increased to 20 feet.

(b) #Street wall# location where a #clear path# is provided

Where a #clear path# is provided, the interior boundary of such #clear path# shall be considered a #street line# for the purposes of applying the applicable #street wall# location requirements.

66-234 - Special height and setback modifications

LAST AMENDED
12/5/2024

The height and setback modifications of this Section shall apply as follows:

(a) Permitted obstructions

Any portion of an #easement volume# shall be considered a permitted obstruction within a required setback or above any maximum base height, maximum #building# height, or #sky exposure plane# set forth in height and setback regulations of this Resolution. Any #easement volume#, including any #use# or structure therein, shall be located at least 20 feet from any #legally required window# at the same level on the #zoning lot#.

(b) Special height provisions

Where maximum #building# height limitations apply, the maximum #building# height shall be increased by 10 feet, or one #story#, whichever is less.

However, for #zoning lots# with an #easement volume# serving an #above-grade mass transit station# in R7 through R12 Districts, #Commercial Districts# mapped within or with a #residential equivalent# of such districts, M1 Districts paired with such districts, or any other #Commercial# or #Manufacturing District# with a maximum #building# height limitation, the maximum #building# height shall be increased by 20 feet or two #stories#, whichever is less.

66-24 - Special Regulations for Accessory Off-street Parking

LAST AMENDED
12/5/2024

Where an #easement volume# is provided, the underlying parking regulations of this Resolution shall be modified in accordance with the provisions of this Section.

(a) Parking space deduction

For all applicable #zoning lots#, 15 spaces may be deducted from the total number of required #accessory# off-street parking spaces. Where #accessory# off-street parking spaces are required by multiple #uses# on a #zoning lot#, such deduction may apply to any required #accessory# off-street parking spaces provided that in no event shall the aggregate total of such deduction exceed 15 spaces. Any allowances for reductions or waivers of #accessory# off-street parking spaces set forth in underlying district regulations or Special Purpose Districts, shall continue to apply.

(b) Special waiver of requirements for small #zoning lots#

For #zoning lots# with a #lot area# of 10,000 or 15,000 square feet or less, as applicable, requirements for #accessory# off-street parking spaces are waived pursuant to the following table:

District	**Lot Area (in square feet)**
R1 R2 R3 R4 R5 C1-1 C2-1 C3 C4-1 C1-2 C2-2 C4-2 C8-1 C1-3 C2-3 C4-2A C4-3 C8-2 M1-1 M1-2 M1-3 M2-1 M2-2 M3-1	10,000 or less

R6 R7 R8 R9 R10 R11 R12 C1-4 C2-4 C4-4 C4-5D C8-3 C1-5 C1-6 C1-7 C1-8 C1-9 C2-5 C2-6 C2-7 C2-8 C4-4A C4-4L C4-5 C4-5A C4-5X C4-6 C4-7 C5 C6 C7 C8-4 M1-4 M1-5 M1-6 M2-3 M2-4 M3-2 #Manufacturing Districts# with an A suffix	15,000 or less

(c) Waiver of requirements where access would be forbidden

The location and size of the #transit volume#, along with an area within 30 feet thereof, shall be considered for the purposes of applying waiver provisions of Sections 25-34, 36-24, 36-33 or 44-24 (Waiver of Requirements for All Zoning Lots Where Access Would Be Forbidden).

66-25 - Special Streetscape Regulations

LAST AMENDED
12/5/2024

Where an #easement volume# is provided, the underlying ground floor level and planting requirements shall be modified in accordance with Sections 66-251 (Ground floor level requirements) and 66-252 (Planting requirements).

66-251 - Ground floor level requirements

LAST AMENDED
12/5/2024

An #easement volume# shall be excluded from any ground floor level requirements of this Resolution, including, but not limited to, the location of such ground floor in relation to the adjoining sidewalk level, restrictions of types of #use#, the minimum depth for certain #uses#, maximum width for certain #uses#, minimum transparency requirement, and parking wrap and screening requirements.

66-252 - Planting requirements

LAST AMENDED
12/5/2024

Planting requirements shall be modified as follows:

(a) In R1 through R5 Districts, where planting strips are required along the entire length of the curb of the #street# pursuant to Section 23-612 (Planting Strips in Residence Districts), such planting strips may be interrupted by utilities or paved areas providing public access to an #easement volume#; and

(b) In all #Residence Districts#, the #easement volume# shall be discounted from the area of the #zoning lot# between the #street line# and all #street walls# for the purposes of applying the planting requirement of Section 23-613 (Front Yard Planting Requirements).

66-26 - Additional Modifications

LAST AMENDED
10/7/2021

Where a #transit volume# is provided pursuant to Section 66-21 (Determination and Certification for Transit Volumes), the City Planning Commission may authorize or grant, by special permit, the modification of applicable regulations of this Resolution, other than #floor area ratio#, including the provisions set forth in Section 66-20 (SPECIAL PROVISIONS FOR PRIMARY TRANSIT-ADJACENT SITES), inclusive, pursuant to Section 66-52 (Additional Modifications).

66-30 - SPECIAL PROVISIONS FOR SECONDARY TRANSIT-ADJACENT SITES

LAST AMENDED
10/7/2021

For all #secondary transit-adjacent sites#, the provisions of this Section are optional. On such sites, an optional #transit volume# may be provided in accordance with a determination by the #transit agency# and certification by the Chairperson of the City Planning Commission pursuant to Section 66-31 (Determination and Certification for Optional Transit Volumes). Where a #transit volume# is provided, special #use#, #bulk#, parking, and streetscape regulations are set forth in Sections 66-32 (Special Modifications for Secondary Transit-adjacent Sites).

66-31 - Determination and Certification for Optional Transit Volumes

LAST AMENDED
10/7/2021

For all #developments# and #enlargements# on #secondary transit-adjacent sites# and #conversions# on all #transit-adjacent sites# seeking to provide a #transit volume#, an initial determination by the #transit agency# shall be made in accordance with the provisions of paragraph (a) of Section 66-21 (Determination and Certification for Transit Volumes). Where a #transit volume# is needed based on the initial determination, the dimensions and location of such #transit volume# shall be established in accordance with paragraph (b) of Section 66-21, and certified by the Chairperson of the City Planning Commission pursuant to paragraph (c) of such Section.

66-32 - Special Modifications for Secondary Transit-adjacent Sites

LAST AMENDED
12/5/2024

Where a #transit volume# is provided pursuant to Section 66-31 (Determination and Certification for Optional Transit Volumes), special #use#, #bulk#, parking, and streetscape regulations may be applied as follows:

(a) For all #developments# or #enlargements# on #secondary transit-adjacent sites#, the modifications set forth in Sections 66-22 through 66-25 shall apply as if such #development# or #enlargement# was on a #primary transit-adjacent site#.

(b) For #conversions# on all #transit-adjacent sites#, the following modifications shall apply as if such #conversion# was on a #primary transit-adjacent site#:

(1) #Use# modifications pursuant to Section 66-221 (Temporary uses);

(2) #Bulk# modifications pursuant to Section 66-231 (Special floor area modifications), paragraph (a)(1) of Section 66-232 (Special open space, lot coverage and yard modifications), Section 66-233 (Special street wall modifications), and paragraph (a) of Section 66-234 (Special height and setback modifications);

(3) Waiver provisions for required parking pursuant to paragraph (c) of Section 66-24 (Special Regulations for Accessory Off-street Parking); and

(4) Streetscape modifications pursuant to Section 66-25 (Special Streetscape Regulations).

66-33 - Additional Modifications

LAST AMENDED
10/7/2021

Where a #transit volume# is provided pursuant to Section 66-31 (Determination and Certification for Optional Transit Volumes), the City Planning Commission may authorize or grant, by special permit, the modification of applicable regulations of this Resolution, other than #floor area ratio#, including the provisions set forth in this Section, pursuant to Section 66-52 (Additional Modifications).

66-40 - CONSTRUCTION, MAINTENANCE, AND ADDITIONAL PROVISIONS

LAST AMENDED
10/7/2021

Where an #easement volume# is provided pursuant to Section 66-20 (SPECIAL PROVISIONS FOR PRIMARY TRANSIT-ADJACENT SITES) or Section 66-30 (SPECIAL PROVISIONS FORSECONDARY TRANSIT-ADJACENT SITES) the provisions of this Section, inclusive, shall apply. Where a #clear path# is provided pursuant to the aforementioned Sections, the provisions of Section 66-42 (Termination of a Transit Volume) shall also apply.

66-41 - Construction, Maintenance and Other Obligations

LAST AMENDED
10/7/2021

Where an #easement volume# is provided pursuant to this Chapter, transit access improvements within such volume shall be constructed and maintained either by the #transit agency# or the owner of the #zoning lot# with the #development#, #enlargement# or #conversion#.

(a) Where such transit access improvement is constructed and maintained by the #transit agency#:

(1) the owner of #zoning lot# with the #development#, #enlargement# or #conversion# shall provide an #easement volume# that is designed and constructed in such a manner that would not inhibit the #transit agency's# functional requirements and ability to construct such transit access improvement at a future date;

(2) in the event that the construction of the improvement is not contemporaneous with the construction of the #development#, #enlargement# or #conversion#, any underground walls constructed along the #front lot line# adjacent to an #at- or below-grade mass transit station# shall include one or more knockout panels, below #curb level# down to the bottom of the #easement volume#. The actual location and size of such knockout panels shall be determined through consultation with the #transit

agency#;

(3) temporary construction access shall be granted to the #transit agency# on portions of the #zoning lot# outside of the #easement volume#, as needed, to enable construction within and connection to the #easement volume#; and

(4) in the event that the #transit agency# has approved of obstructions associated with the #development#, #enlargement# or #conversion# within the #easement volume#, such as #building# columns or footings, such construction and maintenance shall exclude any such obstructions within the #easement volume#.

(b) Where such transit access improvement is constructed and maintained by the owner of the #development #, #enlargement# or #conversion#:

(1) a transit access improvement shall be provided in accordance with standards set forth by the #transit agency#;

(2) such improvement shall be accessible to the public at all times, except as otherwise approved by the #transit agency#;

(3) such improvement shall include #signs# to announce accessibility to the public. Such #signs# shall be exempt from the maximum #surface area# of non-#illuminated signs# permitted by Section 32-642 (Non-illuminated signs); and

(4) no temporary certificate of occupancy shall be granted by the Department of Buildings until the Chairperson of the City Planning Commission, acting in consultation with the #transit agency#, has certified that the improvement is substantially complete and usable by the public.

66-42 - Termination of a Transit Volume

LAST AMENDED
10/7/2021

In the event that the #transit agency# and the Chairperson of the City Planning Commission jointly notify, in writing, the owner of the #zoning lot# and the Department of Buildings that a #transit volume# is not needed on such #zoning lot# in its final construction plans, the restrictions imposed on such #zoning lot# by the provisions of this Section shall lapse, following receipt of notification thereof by the owner, and the owner shall have the right to record an instrument reciting the consent of the #transit agency# to the extinguishment of the #transit volume#.

Where initially determined that an #easement volume# is needed on any #zoning lot# which has been #developed#, #enlarged# or #converted# in accordance with the provisions of this Chapter, where termination of such #easement volume# has been certified pursuant to this paragraph, the #use# provisions of Section 66-221 (Temporary uses) and Section 66-222 (Special use allowances around easement volumes) shall continue to apply to any floor space in a previously needed #easement volume# and around such #easement volume# where special #uses# allowances are permitted in #Residence Districts# pursuant to this Chapter. Additionally, any floor space in a previously needed #easement volume# shall continue to be exempt from the definition of #floor area# and shall not be included for the purpose of calculating requirements for #accessory# off-street parking, bicycle parking or loading berths. However, where such previously needed volume is located within a #building#, the ground floor space shall be subject to all applicable ground floor level requirements of this Resolution.

66-43 - Annual Reporting

LAST AMENDED
10/7/2021

The #transit agency# shall submit annually to the Chairperson of the City Planning Commission and to the City Council a report containing an inventory of all #easement volumes# established through the provisions of this Chapter and describing the status of improvements within all such #easement volume#.

66-50 - SPECIAL APPROVALS

LAST AMENDED
10/7/2021

For #qualifying transit improvement sites#, a #floor area# bonus may be granted, either by authorization or special permit, where major #mass transit station# improvements are provided pursuant to Section 66-51 (Additional Floor Area for Mass Transit Improvements).

For all applications pursuant to the provisions of Sections 66-20 (SPECIAL PROVISIONS FOR PRIMARY TRANSIT-ADJACENT SITES), 66-30 (SPECIAL PROVISIONS FOR SECONDARY TRANSIT-ADJACENT SITES) or 66-51, additional modifications may be granted by the City Planning Commission, either by authorization or special permit, pursuant to Section 66-52 (Additional Modifications).

66-51 - Additional Floor Area for Mass Transit Station Improvements

LAST AMENDED
10/7/2021

For #developments# or #enlargements# located on #qualifying transit improvement sites#, the City Planning Commission may grant a #floor area# bonus, by authorization, pursuant to Section 66-511

(Additional floor area for mass transit station improvements by authorization), or by special permit, pursuant to Section 66-512 (Additional floor area for mass transit station improvements by special permit). All such #floor area# bonuses shall comply with the conditions, findings and additional requirements set forth in Section 66-513 (Additional rules and limitations, conditions, findings and requirements).

66-511 - Additional floor area for mass transit station improvements by authorization

LAST AMENDED
10/7/2021

For #developments# or #enlargements# located on #qualifying transit improvement sites# the City Planning Commission may grant, by authorization, an increase in the maximum permitted #floor area ratio#, up to a maximum of 20 percent or 200,000 square feet of #floor area#, whichever is less, where a major improvement to a #mass transit station# is provided.

The provisions of Section 66-513 (Additional rules and limitations, conditions, findings and requirements) shall apply to all #developments# or #enlargements# utilizing the provisions of this Section. Additional rules and limitations on bonus #floor area# are set forth in paragraph (a), conditions associated with the improvement to a #mass transit station# are set forth in paragraph (b), application requirements are set forth in paragraph (c), the findings that must be met in order for the Commission to grant the authorization, are set forth in paragraph (d), and additional requirements for all applications are set forth in paragraph (e).

The Commission may prescribe additional appropriate conditions and safeguards to enhance the character of the surrounding area.

66-512 - Additional floor area for mass transit station improvements by special permit

LAST AMENDED
10/7/2021

For #developments# or #enlargements# located on #qualifying transit improvement sites# the City Planning Commission may grant, by special permit, an increase in the maximum permitted #floor area ratio#, up to a maximum of 20 percent, without limitation on overall square footage, where a major improvement to a #mass transit station# is provided.

The provisions of Section 66-513 (Additional rules and limitations, conditions, findings and requirements) shall apply to all #developments# or #enlargements# utilizing the provisions of this Section. Additional rules and limitations on bonus #floor area# are set forth in paragraph (a), conditions associated with the improvement to a #mass transit station# are set forth in paragraph (b), application requirements are set forth in paragraph (c), the findings that must be met in order for the Commission to grant the special permit, are set forth in paragraph (d), and additional requirements for all applications are set forth in paragraph (e).

The Commission may prescribe additional appropriate conditions and safeguards to enhance the character of the surrounding area.

66-513 - Additional rules and limitations, conditions, findings and requirements

LAST AMENDED
8/14/2025

Any authorization or special permit application pursuant to the provisions of Section 66-511 (Additional floor area for mass transit station improvements by authorization) or Section 66-512

(Additional floor area for mass transit station improvements by special permit), respectively, shall be subject to the following provisions.

(a) Additional rules and limitations on bonus #floor area#

The following rules and limitations on bonus #floor area# shall apply in addition to the provisions set forth in Sections 66-511 and 66-512:

(1) Where a #zoning lot# contains multiple #uses# with different #floor area ratios#, the bonus may be applied to any individual #use#, and the total of all #floor area ratios# shall not exceed 20 percent of the greatest #floor area ratio# permitted on the #zoning lot#;

(2) The #floor area# bonus may be used in combination with other #floor area# bonuses, provided that the maximum #floor area ratio# permitted through the combination of bonuses does not exceed 20 percent of the maximum #floor area ratio# otherwise permitted on the #zoning lot#. However, such 20 percent limitation shall not apply:

(i) where explicitly stated otherwise in a Special Purpose District; or

(ii) where explicitly stated otherwise in a special permit of the City Planning Commission; and

(3) For #MIH developments# or #UAP developments#, the requirements of Article II, Chapter 7 (Additional Regulations and Administration in Residence Districts) shall not apply to the bonus #floor area# granted under the provisions of this Section.

For the purposes of applying this paragraph to applications seeking an authorization pursuant to Section 66-511 (Additional floor area for mass transit station improvements by authorization), notwithstanding the above allowances, in no event shall the amount of bonus #floor area# exceed 200,000 square feet.

(b) Conditions

All applications shall include proposed on-site or off-site improvements to a proximate #mass transit station#, that shall be characteristic of current best practice in mass transit network design.

All applications shall include accessibility or capacity-enhancing improvements, including, but not limited to, the provision of elevators and escalators, widening, straightening, expanding or otherwise enhancing the existing pedestrian circulation network, or reconfiguring circulation routes to provide more direct pedestrian connections to subway or rail mass transit facilities. Where improvements are proposed for a #mass transit station# that is not in compliance with the Americans with Disabilities Act, accessibility improvements shall be prioritized.

In addition to accessibility or capacity-enhancing improvements, environmental design or resiliency improvements may also be provided, including but not limited to, daylight access, retail #uses#, enhancements to noise abatement, air quality, lighting, finishes, rider orientation in new or existing passageways, or flood resiliency upgrades.

All proposed improvements shall be subject to the approval of the applicable #transit agency# and the City Planning Commission.

(c) Application requirements

All applications shall include the following:

(1) Prior to submitting an application, the applicant shall submit a schematic or concept plan for the proposed improvement to the #transit agency# and the Chairperson of the City Planning Commission. Such schematic or concept plan shall include such materials and information sufficient to provide the basis for the #transit agencies# to evaluate and determine the constructability of such proposed improvement.

(2) At the time of application referral or certification, the Commission shall be provided with the following application materials:

(i) a letter from the #transit agency# containing a conceptual approval of the improvement, including a statement of any considerations regarding the construction and operation of the improvement;

(ii) all information and justification sufficient to provide the Commission with the basis for evaluating the benefits of such improvements to the general public; and

(iii) initial plans for the maintenance of the proposed improvements.

(3) Where a #transit volume# is needed pursuant to the provisions of Section 66-21 (Determination and Certification for Transit Volumes), the applicant shall provide materials sufficient to demonstrate the relationship between the proposed on-site improvement and such #transit volume#.

(d) Findings

In order to grant such #floor area# bonus, the Commission shall find that:

(1) the public benefit derived from the #mass transit station# improvements merits the amount of additional #floor area# being granted to the proposed #development# pursuant to the authorization or special permit;

(2) for accessibility or capacity-enhancing improvements, newly created or expanded accessible routes for persons with physical disabilities, or measures to improve station ingress and egress routes or platform capacity, such improvements will constitute significant enhancements to connectivity from the pedestrian circulation network to and through the #mass transit station#; and

(3) where environmental design or resiliency improvements are provided in addition to accessibility or capacity-enhancing improvements, such improvements will constitute significant enhancements to the station environment or its function.

(e) Additional requirements

In addition to the application requirements of paragraph (c) of this Section, additional requirements set forth in this paragraph shall apply.

(1) Prior to the granting of such #floor area# bonus, the following requirements shall be met:

(i) To the extent required by the #transit agency#, the applicant shall execute an agreement, setting forth the obligations of the owner, its successors and assigns, to establish a process for design development and a preliminary construction schedule for the proposed improvement; construct the proposed improvement; establish a program for maintenance and capital maintenance; and establish that

such improvements shall be accessible to the public during the hours of operation of the station or as otherwise approved by the #transit agency#. Where the #transit agency# deems necessary, such executed agreement shall set forth obligations of the applicant to provide a performance bond or other security for completion of the improvement in a form acceptable to the #transit agency#; and

(ii) The City Planning Commission shall be provided with a final letter of approval from the #transit agency# stating that the drawings and other documents submitted by the applicant have been determined by such #transit agency# to be of sufficient scope and detail to describe the size and character of the improvement as to architectural, structural, mechanical and electrical systems, materials, relationship to existing site conditions and such other conditions as may be appropriate, and that the construction of the improvement in accordance with such submission is feasible.

(2) Prior to obtaining a foundation permit or building permit from the Department of Buildings, a written declaration of restrictions, in a form acceptable to the Chairperson of the City Planning Commission, containing complete drawings of the improvement and setting forth the obligations of the owner as agreed upon with the #transit agency# pursuant to the requirements of paragraph (e)(1) of this Section, shall be recorded against such property in the Borough Office of the City Register of the City of New York. Proof of recordation of the declaration of restrictions shall be submitted in a form acceptable to the Department of City Planning.

(3) No temporary certificate of occupancy shall be granted by the Department of Buildings for the portion of the #building# utilizing bonus #floor area# granted pursuant to the provisions of this Section until the required improvements have been substantially completed, as determined by the Chairperson, acting in consultation with the #transit agency#, where applicable, and such improvements are usable by the public. Such

portion of the #building# utilizing bonus #floor area# shall be designated by the Commission in drawings included in the declaration of restrictions filed pursuant to this paragraph.

No permanent certificate of occupancy shall be granted by the Department of Buildings for the portion of the #building# utilizing bonus #floor area# until all improvements have been completed in accordance with the approved plans, as determined by the Chairperson, acting in consultation with the #transit agency#, where applicable.

Where an #easement volume# is needed pursuant to the provisions of Section 66-21 (Determination and Certification for Transit Volumes) or Section 66-31 (Determination and Certification for Optional Transit Volumes), the provisions of paragraph (b) of Section 66-41 (Construction, Maintenance and Other Obligations) shall not apply.

66-52 - Additional Modifications

LAST AMENDED
10/7/2021

In conjunction with any application pursuant to Section 66-21 (Determination and Certification for Transit Volumes), 66-31 (Determination and Certification for Optional Transit Volumes) and 66-51 (Additional Floor Area for Mass Transit Station Improvements), modifications may be granted pursuant to Section 66-521 (Authorization for transit-adjacent sites or qualifying transit improvement sites) or Section 66-522 (Special permit for transit-adjacent sites or qualifying transit improvement sites).

66-521 - Authorization for transit-adjacent sites or qualifying transit improvement sites

LAST AMENDED
10/7/2021

For #transit-adjacent sites# or #qualifying transit improvement sites#, the City Planning Commission may authorize the modification of applicable regulations of this Resolution, other than #floor area ratio#, including the other modifications set forth within this Chapter, provided that the Commission determines that the conditions and limitations set forth in paragraph (a), the application requirements of paragraph (b) and the findings set forth in paragraph (c) of this Section are met.

(a) Conditions and limitations

Where maximum #building# height limitations apply, modifications to the maximum permitted #building# height shall not result in an increase that exceeds 25 percent of the maximum #building# height as set forth in applicable district regulations. Any additional height permitted pursuant to Section 66-234 (Special height and setback modifications) shall not be included in such percentage increase but may be applied in addition to the resulting #building# height limits.

(b) Application requirements

Applications for an authorization for modifications pursuant to this Section shall contain materials, of sufficient scope and detail, to enable the Commission to determine the extent of the proposed modifications.

(c) Findings

The Commission shall find that:

(1) such proposed modifications are the minimum extent necessary to:

(i) reasonably accommodate an #easement volume#, including any associated access thereto; or

(ii) where improvements to #mass transit stations# are provided, reasonably accommodate the additional #floor area# granted pursuant to the provisions of Section 66-51 (Additional Floor Area for Mass Transit Station Improvements);

(2) any modifications to #use# regulations will not be incompatible with or adversely affect the essential character, use or future growth of the surrounding area;

(3) any modifications to #bulk# regulations will not unduly obstruct access of light and air to surrounding #streets# and properties; and

(4) any modifications to #accessory# off-street parking or loading regulations will not create or contribute to serious traffic congestion and will not unduly inhibit surface traffic and pedestrian flow.

The City Planning Commission may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area.

66-522 - Special permit for transit-adjacent sites or qualifying transit improvement sites

LAST AMENDED
10/7/2021

For #transit-adjacent sites# or #qualifying transit improvement sites#, the City Planning Commission may grant, by special permit, the modification of applicable regulations of this Resolution, other than #floor area ratio#, including the other modifications set forth within this Chapter, provided that the Commission determines that the application requirements of paragraph (a) and the findings set forth in paragraph (b) of this Section are met.

(a) Application requirements

Applications for a special permit for modifications pursuant to this Section shall contain materials, of sufficient scope and detail, to enable the Commission to determine the extent of the proposed modifications.

(b) Findings

The Commission shall find that:

(1) such proposed modifications are necessary

(i) to facilitate an #easement volume#, including any associated access thereto; or

(ii) where improvements to #mass transit stations# are provided, to accommodate the additional #floor area# granted pursuant to the provisions of Section 66-51 (Additional Floor Area for Mass Transit Station Improvements);

(2) any modifications to #use# regulations will not be incompatible with or adversely affect the essential character, use or future growth of the surrounding area;

(3) any modifications to #bulk# regulations:

(i) will not unduly obstruct the access of light and air to surrounding #streets# and properties nor adversely affect the character of the surrounding area; and

(ii) will result in an improved distribution of #bulk# on the #zoning lot# that is harmonious with the surrounding area; and

(4) any modifications to #accessory# off-street parking or loading regulations will not create or contribute to serious traffic congestion and will not unduly inhibit surface traffic and pedestrian flow.

The Commission may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area.

Chapter 1 - Enforcement, Administration and Amendments

71-00 - ENFORCEMENT AND ADMINISTRATION

LAST AMENDED
12/15/1961

The Commissioner of the Department of Buildings shall administer and enforce this Resolution, except as otherwise specifically provided in the New York City Charter and in this Resolution.

The Department of Environmental Protection shall have exclusive jurisdiction to administer and enforce all provisions of this Resolution relating to air pollution, specifically including the performance standards regulating #smoke#, #dust# and other #particulate matter#, odorous matter, and #toxic or noxious matter# emitted into the atmosphere, in accordance with rules and regulations adopted by the Department of Environmental Protection.

71-10 - PROCEDURE FOR AMENDMENTS

LAST AMENDED
4/30/2012

The City Planning Commission shall adopt resolutions to amend the text of this Resolution or the #zoning maps# incorporated therein, and the City Council shall act upon such amendments, in accordance with the provisions of the New York City Charter.

Chapter 2 - Interpretations and Variances

File generated by https://zr.planning.nyc.gov on 6/23/2026

Chapter 2 - Interpretations and Variances

72-00 - POWERS OF THE BOARD OF STANDARDS AND APPEALS

LAST AMENDED
12/15/1961

72-01 - General Provisions

LAST AMENDED
2/2/2011

The Board of Standards and Appeals (referred to hereinafter as the Board) shall have the power, pursuant to the provisions of the New York City Charter and of this Resolution, after public notice and hearing:

(a) to hear and decide appeals from and to review interpretations of this Resolution;

(b) to hear, decide, and determine, in a specific case of practical difficulties or unnecessary hardship, whether to vary the application of the provisions of this Resolution;

(c) to hear and decide applications for such special permits as are set forth in this Resolution and are more specifically enumerated in Section 73-01 (General Provisions);

(d) to adopt, amend, or repeal such rules or regulations as may be necessary to carry into effect the provisions of this Resolution;

(e) to hear and decide applications for such authorizations as are set forth in this Resolution and enumerated in Section 72-30; and

(f) to make such administrative determinations and findings as may be set forth in this Resolution or pursuant to Section 72-40 (AMORTIZATION OF CERTAIN ADULT ESTABLISHMENTS AND SIGNS FOR ADULT ESTABLISHMENTS) or to Section 72-41 (Continuation of Certain Adult Establishments).

(g) to waive #bulk# regulations affected by unimproved #streets# where a #development#, #enlargement# or alteration consists in part of construction within such #streets# and where such #development#, #enlargement# or alteration would be #non-complying# absent such waiver, provided the Board has granted a permit pursuant to Section 35 of the General City Law and has prescribed conditions which require the portion of the #development# or #enlargement# to be located within the unimproved #streets# to be compliant and conforming to the provisions of this Resolution. Such bulk waivers shall only be as necessary to address #non-compliance# resulting from the location of the #development# or #enlargement# within and outside the unimproved #streets#, and the #zoning lot# shall comply to the maximum extent feasible with all applicable zoning regulations as if such unimproved #streets# were not mapped. Where such #zoning lots# with #private roads# access fewer than 20 #dwelling units#, such #bulk# waivers may be granted by the Board only where the #zoning lots# are fully compliant with the regulations for #private roads# set forth in Article II, Chapter 6. However, for #zoning lots# with #private roads# that access at least 20 #dwelling units#, or for #zoning lots# with #private roads# that access fewer than 20 #dwelling units# for which a modification or waiver of the requirements for #private roads#, pursuant to Section 26-26, is necessary, such #bulk# waivers shall be permitted only by authorization of the City Planning Commission, pursuant to Section 26-27 (Waiver of Bulk Regulations Within Unimproved Streets).

72-10 - APPEALS FOR INTERPRETATION

LAST AMENDED
12/15/1961

72-11 - General Provisions

LAST AMENDED
12/15/1961

The Board of Standards and Appeals shall hear and decide appeals from or may, on its own initiative, review any rule or regulation, order, requirement, decision or determination of the Commissioner of Buildings, of any duly authorized officer of the Department of Buildings, or of the Commissioner of any agency which, under the provisions of the New York City Charter, has jurisdiction over the #use# of land or over the #use# or #bulk# of #buildings or other structures#, subject to the requirements of this Resolution.

On such an appeal or review, the Board may reverse, affirm, in whole or in part, or modify, such rule, regulation, order, requirement, decision or determination and may make such rule, regulation, order, requirement, decision or determination as in its opinion should have been made in the premises in strictly applying and interpreting the provisions of this Resolution, and for such purposes the Board shall have the power of the officer from whose ruling the appeal or review is taken.

However, there shall be no appeal to or review by the Board from an interpretation of this Resolution made by the Board of Environmental Protection of the Department of Environmental Protection, or any other agency for which the New York City Charter establishes a board empowered to adopt rules and regulations for such agency.

72-12 - Street Layout Varying From Maps

LAST AMENDED
12/15/1961

Where the street layout actually on the ground varies from the street layout as shown on the #zoning maps#, the designation as shown on such maps shall be applied by the Board of Standards and Appeals, after public notice and hearing, in such a way as to carry out the intent and purpose of this Resolution.

72-20 - VARIANCES

LAST AMENDED
12/15/1961

72-21 - Findings Required for Variances

LAST AMENDED
2/2/2011

When in the course of enforcement of this Resolution, any officer from whom an appeal may be taken under the provisions of Section 72-11 (General Provisions) has applied or interpreted a provision of this Resolution, and there are practical difficulties or unnecessary hardship in the way of carrying out the strict letter of such provision, the Board of Standards and Appeals may, in accordance with the requirements set forth in this Section, vary or modify the provision so that the spirit of the law shall be observed, public safety secured and substantial justice done.

Where it is alleged that there are practical difficulties or unnecessary hardship, the Board may grant a variance in the application of the provisions of this Resolution in the specific case, provided that as a condition to the grant of any such variance, the Board shall make each and every one of the following findings:

(a) that there are unique physical conditions, including irregularity, narrowness or shallowness of lot size or shape, or exceptional topographical or other physical conditions peculiar to and inherent in the particular #zoning lot#; and that, as a result of such unique physical conditions, practical difficulties or unnecessary hardship arise in complying strictly with the #use# or #bulk# provisions of the Resolution; and that the alleged practical difficulties or unnecessary hardship are not due to circumstances created generally by the strict application of such provisions in the neighborhood or district in which the #zoning lot# is located;

(b) that because of such physical conditions there is no reasonable possibility that a #development#, #enlargement#, extension, alteration or change of #use# on the #zoning lot# in strict conformity with the provisions of this Resolution will bring a reasonable return, and that the grant of a variance is therefore necessary to enable the owner to realize a reasonable return from such #zoning lot#; this finding shall not be required for the granting of a variance to a non-profit organization;

(c) that the variance, if granted, will not alter the essential character of the neighborhood or district in which the #zoning lot# is located; will not substantially impair the appropriate use or development of adjacent property; and will not be detrimental to the public welfare;

(d) that the practical difficulties or unnecessary hardship claimed as a ground for a variance have not been created by the owner or by a predecessor in title; however, where all other required findings are made, the purchase of a #zoning lot# subject to the restrictions sought to be varied shall not itself constitute a self-created hardship; and

(e) that within the intent and purposes of this Resolution, the variance, if granted, is the minimum variance necessary to afford relief; and to this end, the Board may permit a lesser variance than that applied for.

It shall be a further requirement that the decision or determination of the Board shall set forth each required finding in each specific grant of a variance, and in each denial thereof which of the required findings have not been satisfied. In any such case, each finding shall be supported by substantial evidence or other data considered by the Board in reaching its decision, including the personal

knowledge of, or inspection by, the members of the Board. Reports of other City agencies made as a result of inquiry by the Board shall not be considered hearsay, but may be considered by the Board as if the data therein contained were secured by personal inspection.

72-22 - Conditions or Restrictions

LAST AMENDED
12/15/1961

The Board of Standards and Appeals may prescribe such conditions or restrictions applying to the grant of a variance as it may deem necessary in the specific case, in order to minimize the adverse effects of such variance upon other property in the neighborhood. Such conditions or restrictions shall be incorporated in the building permit and certificate of occupancy. Failure to comply with such conditions or restrictions shall constitute a violation of this Resolution, and may constitute the basis for denial or revocation of a building permit or certificate of occupancy and for all other applicable remedies.

72-23 - Lapse of Variances

LAST AMENDED
7/18/1995

A variance granted under the provisions of this Resolution shall automatically lapse if substantial construction, in accordance with the plans for which such variance was granted, has not been completed within four years from the date of granting such variance by the Board of Standards and Appeals or, if judicial proceedings have been instituted to review the Board's decision to grant any variance, the four-year lapse period shall commence upon the date of entry of the final order in such

proceedings, including appeals.

72-30 - AUTHORIZATIONS

LAST AMENDED
4/9/1981

72-31 - General Provisions

LAST AMENDED
4/9/1981

The Board of Standards and Appeals shall have the power to issue authorizations on such matters as are set forth in this Section. The Board shall hear and decide applications for authorizations in an administrative proceeding in the same manner in which it hears appeals for interpretation pursuant to Section 72-10.

72-40 - AMORTIZATION OF CERTAIN ADULT ESTABLISHMENTS AND SIGNS FOR ADULT ESTABLISHMENTS

LAST AMENDED
10/31/2001

The Board of Standards and Appeals may permit any #non-conforming# #adult establishment# or any #non-conforming# #sign#, other than #advertising signs#, for an #adult establishment# to continue

for a limited period of time beyond that provided for in Sections 52-734 (Non-conforming signs for adult establishments) or 52-77 (Termination of Adult Establishments), provided that:

(a) an application is made by the owner of such establishment to the Board of Standards and Appeals at least 120 days prior to the date on which such establishment or #sign# must terminate;

(b) the Board shall find, in connection with such establishment or #sign#, that:

(1) the applicant had made, prior to the #non-conformity#, substantial financial expenditures related to the #non-conformity#; and

(2) the applicant has not recovered substantially all of the financial expenditures related to the #non-conformity#; and

(3) the period for which such establishment or #sign# may be permitted to continue is the minimum period sufficient for the applicant to recover substantially all of the financial expenditures incurred related to the #non-conformity#.

For the purpose of this Section, "financial expenditures" shall mean the capital outlay made by the applicant to establish the #adult establishment# or #sign#, exclusive of the fair market value of the #building# in which such #use# or #sign# is located and exclusive of any improvements unrelated to the #non-conforming# #adult establishment# or #non-conforming# #accessory# business #sign# for #adult establishments#.

This Section shall not apply to #commercial# establishments described in Section 72-41 (Continuation of Certain Adult Establishments).

72-41 - Continuation of Certain Adult Establishments

LAST AMENDED

Any #commercial# establishment in existence as of August 8, 2001 which: (i) subsequent to September 18, 1995, and prior to August 8, 2001, made financial expenditures so as to avoid becoming subject to the provisions of Section 32-01 or 42-01 (Special Provisions for Adult Establishments); and (ii) is defined as an #adult establishment# pursuant to the amendments to the definition of #adult establishment# in Section 12-10 adopted on October 31, 2001, shall terminate as an #adult establishment# within one year from October 31, 2001. Notwithstanding the foregoing, the Board of Standards and Appeals may permit such #adult establishment# to continue for a limited period beyond such one year period, provided that:

(a) an application is made by the owner of such establishment to the Board of Standards and Appeals at least 120 days prior to the date on which such establishment must terminate;

(b) the Board shall find, in connection with such establishment, that:

(1) the applicant had made, subsequent to September 18,1995 and prior to August 8, 2001, substantial financial expenditures so as to avoid becoming subject to the provisions of Section 32-01 or 42-01;

(2) the applicant has not recovered substantially all such financial expenditures; and

(3) the period for which such establishment may be permitted to continue is the minimum period sufficient for the applicant to recover substantially all of such financial expenditures.

For purposes of this Section, "financial expenditures" shall mean the following: (i) any capital outlay for improvements made in connection with the configuration or reconfiguration of the amount of #floor area# and #cellar# space within such establishment accessible to customers either: (a) containing books, magazines, periodicals or other printed matter or photographs, films, motion pictures, video cassettes, slides or other visual matter characterized by an emphasis upon the depiction or description of "specified sexual activities" or "specified anatomical areas"; or (b) allocated to one of the activities

described in paragraphs (1)(b), (1)(c) or (1)(d) of the definition of #adult establishment# in Section 12-10; and (ii) any purchases of books, magazines, periodicals, or other printed matter, or photographs, films, motion pictures, video cassettes, slides or other visual matter, which are not characterized by an emphasis upon the depiction or description of "specified sexual activities" or "specified anatomical areas."

The provisions of Sections 52-77 (Termination of Adult Establishments) and 72-40 (AMORTIZATION OF CERTAIN ESTABLISHMENTS AND SIGNS FOR ADULT ESTABLISHMENTS) shall not apply to #commercial# establishments subject to this Section.

Zoning Resolution

THE CITY OF NEW YORK
Zohran K. Mamdani, Mayor

CITY PLANNING COMMISSION
Sideya Sherman, Chair

Chapter 3 - Special Permits by the Board of Standards and Appeals

File generated by https://zr.planning.nyc.gov on 6/23/2026

Chapter 3 - Special Permits by the Board of Standards and Appeals

73-00 - SPECIAL PERMIT USES AND MODIFICATIONS

LAST AMENDED
12/19/2017

73-01 - General Provisions

LAST AMENDED
4/22/2009

In harmony with the general purpose and intent of this Resolution and in accordance with the provisions set forth in this Chapter, the Board of Standards and Appeals may, in an appropriate case:

(a) grant special permits for specified #uses# in specific districts (referred to hereinafter as special permit #uses#);

(b) permit specified modifications of the #use# or #bulk# regulations of this Resolution;

(c) permit the renewal of revoked building permits as provided in Sections 11-31 to 11-33, inclusive, relating to Building Permits Issued before Effective Date of Amendment; or

(d) permit the renewal of a variance, exception, or permit issued by the Board prior to December 15, 1961, in accordance with the provisions of Section 11-41 relating to Exceptions, Variances, or Permits Previously Authorized;

provided that, in each specific case, the requirement for findings as set forth in this Chapter (or in the Sections referred to in paragraph (c) or (d) of this Section) shall constitute a condition precedent to the

grant of such special permit, modification, or renewal.

In addition to meeting the requirements, conditions, and safeguards prescribed by the Board as set forth in this Chapter, each such special permit #use# shall conform to and comply with all of the applicable district regulations on #use#, #bulk#, supplementary #use# regulations, regulations applying along district boundaries, #accessory# #signs#, #accessory# off-street parking and off-street loading, and all other applicable provisions of this Resolution, except as otherwise specifically provided in this Chapter or as they may be modified in accordance with paragraph (b) of this Section. In the case of required #accessory# off-street parking, such #use# shall satisfy the requirements specified for such #uses# in Sections 25-31, 36-21 or 44-21 (General Provisions) except that, where no parking requirement is specified therein, such #use# shall satisfy the requirements set forth in this Chapter.

In the #waterfront area#, the powers of the Board to grant special permits are made inapplicable or modified in accordance with the provisions of Section 62-131 (Applicability of Article VII, Chapter 3).

73-02 - Further Requirements

LAST AMENDED
12/15/1961

It shall be a further requirement that the decision or determination of the Board of Standards and Appeals shall set forth each required finding in each specific grant of a special permit #use#, modification or renewal and, in each denial thereof, which of the required findings have not been satisfied. In any such case, each finding shall be supported by substantial evidence or other data considered by the Board in reaching its decision, including the personal knowledge of or inspection by the members of the Board.

73-03 - General Findings Required for All Special Permit Uses and Modifications

LAST AMENDED
6/6/2024

The Board of Standards and Appeals shall have the power, as authorized by Section 73-01, paragraph (a) or (b), and subject to such appropriate conditions and safeguards as the Board shall prescribe, to grant special permit #uses# or modifications of #use#, parking, or #bulk# regulations as specifically provided in this Chapter, provided in each case:

(a) The Board shall make all of the findings required in the applicable sections of this Chapter with respect to each such special permit #use# or modification of #use#, parking or #bulk# regulations and shall find that, under the conditions and safeguards imposed, the hazards or disadvantages to the community at large of such special permit #use# or modification of #use#, parking or #bulk# regulations at the particular site are outweighed by the advantages to be derived by the community by the grant of such special permit. In each case the Board shall determine that the adverse effect, if any, on the privacy, quiet, light and air in the neighborhood of such special permit #use# or modification of #use#, parking or #bulk# regulations will be minimized by appropriate conditions governing location of the site, design and method of operation.

(b) In all cases the Board shall deny a special permit whenever such proposed special permit #use# or modification of #use#, parking or #bulk# regulations will interfere with any public improvement project (including housing, highways, public #buildings# or facilities, redevelopment or renewal projects, or right-of-way for sewers, transit or other public facilities) which is approved by or pending before the Board of Estimate, Site Selection Board or the City Planning Commission as determined from the calendars of each such agency issued prior to the date of the public hearings before the Board of Standards and Appeals.

(c) When under the applicable findings the Board is required to determine whether the special permit #use# or modification of #use#, parking or #bulk# regulations is appropriately located in relation to the #street# system, the Board shall in its discretion make such determination on the basis of the Master Plan of Arterial Highways and Major Streets on the official City Map. Whenever the Board is required to make a finding on the location of a proposed special permit #use# or modification of #use#, parking or #bulk# regulations in relation to secondary or local #streets# and such classification of #streets# is not shown on the Master Plan, the Board in its discretion shall request the City Planning Commission to establish a report on the appropriate classification of such #street#.

(d) For applications relating to Sections 73-311 (Drive-through facilities), 73-46 (Exceptions to Maximum Size of Accessory Group Parking Facilities) and 73-47 (Roof Parking), the Board in its discretion shall request from the Department of Transportation a report with respect to the anticipated traffic congestion resulting from such special permit #use# or modification of #use#, parking or #bulk# regulations in the proposed location. If such a report is requested, the Board shall in its decision or determination give due consideration to such report and further shall have the power to substantiate the appropriate finding solely on the basis of the report of the Department of Transportation with respect to the issue referred.

(e) The following shall apply regarding terms of years for special permits:

(1) For special permit #uses# issued by the Board of Standards and Appeals prior to June 6, 2024, such permit may continue pursuant to the terms established at the time such permit was granted, as applicable.

For special permit #uses# granted after June 6, 2024, except for #uses# in Use Groups III or IV, the Board may issue permits not to exceed 10 years. For a #use# where a special permit has previously been granted, the term may exceed 10 years at the discretion of

the Board.

(2) For other special permits, if a term of years is specified in the applicable section, the Board shall establish a term of years not to exceed such maximum. For those special permit #involving a modification of #use#, parking or #bulk# regulations for which a maximum term has not been specified, the Board may fix an appropriate term for any such special permit.

(f) Any violation of the terms of a special permit may be grounds for its revocation.

(g) On application for renewal of any such special permit authorized in this Chapter, the Board shall determine whether the circumstances warranting the original grant still obtain. In addition, the Board shall ascertain whether the applicant has complied with the conditions and safeguards theretofore described by the Board during the prior term. In the event that the Board shall find the applicant has been in substantial violation thereof, it shall deny the application for renewal.

(h) The Board may permit the #enlargement# or #extension# of any existing #use#, which, if new, would be permitted by special permit in the specified districts under the provisions of Section 73-01 and other applicable provisions of this Chapter, provided that before granting any such permit for #enlargement# or #extension# within the permitted districts, the Board shall make all of the required findings applicable to the special permit #use#, except that:

(1) in the case of colleges or universities in R1 or R2 Districts, the Board may waive all such required findings set forth in Section 73-132 (Colleges or universities); and

(2) in the case of public utility #uses#, the Board may waive all such required findings set forth in Sections 73-14 (Public Service Facilities and Infrastructure), inclusive.

No such #enlargement# or #extension# shall create a new #non-compliance# or increase the existing degree of #non-compliance# with the applicable #bulk# regulations, except as may be permitted in

accordance with the provisions of Sections 73-62 to 73-68, inclusive, relating to Modification of Bulk Regulations.

73-04 - Conditions and Safeguards

LAST AMENDED
6/6/2024

The Board of Standards and Appeals may prescribe such conditions and safeguards to the grant of special permit (uses) as it may deem necessary in the specific case, in order to minimize the adverse effects of such special permit upon other property and the community at large. Such conditions and safeguards may include, but shall not be limited to, environmental considerations, traffic and parking mitigations, landscaping and buffering measures, hours of operation limitations, safety measures, or programs for continuing maintenance. Such conditions and safeguards shall be incorporated in the building permit and certificate of occupancy. Failure to comply with such conditions or restrictions shall constitute a violation of this Resolution, and may constitute the basis for denial or revocation of a building permit or certificate of occupancy and for all other applicable remedies.

73-10 - SPECIAL PERMIT USES

LAST AMENDED
6/6/2024

Subject to the general findings required by Section 73-03 and in accordance with the provisions contained in Sections 73-10 to 73-20, inclusive, the Board of Standards and Appeals shall have the power to permit special permit #uses#, and shall have the power to impose appropriate conditions and safeguards thereon.

In the #Special Midtown District#, the powers of the Board to permit special permit #uses# are modified by the provisions of Sections 81-13 (Special Permit Use Modifications) and 81-061 (Applicability of Chapter 3 of Article VII).

Except as permitted pursuant to this Chapter, in R1 through R5 Districts, the following #uses# shall be subject to the height and setback regulations for #community facilities# applicable to an R2 District:

From Use Group V

Overnight camps

From Use Group IV

Public utility or public service facilities

Radio and television towers, non-#accessory#

From Use Group VIII

Outdoor day camps

Riding academies or stables.

73-11 - Agriculture and Open Uses

LAST AMENDED

6/6/2024

73-111 - Outdoor racket courts and skating rinks

LAST AMENDED
6/6/2024

In R1 or R2 Districts, the Board of Standards and Appeals may permit outdoor racket courts or outdoor skating rinks listed under Use Group I, provided that the Board finds that such #use# is so located as not to impair the character of the surrounding area or its future development as a neighborhood of #single-family residences#.

The Board shall prescribe the following conditions:

(a) that such #use# and any #accessory# facilities affixed to the land are not located closer than 20 feet to any #lot line#; and

(b) that all lighting is directed away from nearby #zoning lots# containing #residences#.

The Board may prescribe additional appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area, including requirements for screening or for landscaping.

73-112 - Sand, gravel or clay pits

LAST AMENDED
6/6/2024

In all districts, the Board of Standards and Appeals may permit the extraction of sand, gravel, or clay listed under Use Group I from a #zoning lot# which is limited in size to a maximum of 50 acres and

which is located not less than 1,000 feet from the nearest boundary of any #zoning lot# 10 acres or more in area used for such extraction, provided that the Board finds that such #use# is so located as not to impair the essential character or the future use or development of the surrounding area, and provided that the following conditions are met:

(a) that the applicant submits a site plan showing the proposed extent and depth of the area to be excavated, together with the certification of the Department of Buildings that the proposed method of operations and the final elevation of the pit will not undermine or cause settlement to nearby #streets#, sewers, #buildings or other structures#, or installations;

(b) that the applicant submits a plan for the rehabilitation of the #zoning lot# to be undertaken after the completion of the excavation operations which is satisfactory to the Board, and posts a bond, in an amount to be determined by the Board, for the performance of such rehabilitation;

(c) that the entire perimeter of the #zoning lot#, except for necessary truck roads, is fenced, including locked gates, so as to prevent children from gaining access to the excavated areas;

(d) that one #accessory# off-street parking space is provided for every 2,000 square feet of #lot area# or for every three employees, whichever shall require a lesser number of spaces;

(e) that the performance standards for M1 Districts shall apply to such operations in all districts other than M2 or M3 Districts, where the applicable performance standards shall govern;

(f) that all drilling, blasting, or excavation operations shall be limited to Mondays through Fridays between the hours of 8:00 a.m. and 5:00 p.m.;

(g) that the emission of process dust either from the area of operations or from the excavated materials themselves shall be minimized by frequent watering or by such other means as the Board shall direct;

(h) that the warning notices respecting unlawful entry shall be posted on the fence, and that a watchman shall be stationed on the premises to police the entire area after normal working hours and on weekends and holidays; and

(i) that excavation operations shall be undertaken in such manner as to avoid the creation of undrained pockets and the formation of stagnant pools. When topographical conditions make such compliance impossible, all pools of water resulting from surface drainage shall be sprayed in accordance with the requirements of the Department of Health to eliminate breeding places for mosquitoes or other insects.

The Board may prescribe additional appropriate conditions and safeguards to protect the public health, safety and general welfare during the period between the cessation of operations and the final rehabilitation of the site in accordance with approved plans.

73-12 - Residences

LAST AMENDED
6/6/2024

73-13 - Community Facilities

LAST AMENDED
6/6/2024

73-131 - College or school student dormitories or fraternity or sorority student houses

LAST AMENDED
6/6/2024

The Board of Standards and Appeals may permit college or school student dormitories or fraternity or sorority student houses listed under Use Group III(A) in R1 or R2 Districts, provided that the following findings are made:

(a) that such #use# does not exceed the maximum #floor area ratio# for #residential use# as set forth in Section 23-21 (Floor Area Regulations for R1 Through R5 Districts);

(b) that the amount of #open space# and its distribution on the #zoning lot# conform to standards appropriate to the character of the neighborhood;

(c) that, notwithstanding the provisions of Section 25-33 (Waiver of Requirements for Spaces Below Minimum Number), at least one #accessory# off-street parking space is provided for each six beds; and

(d) that such #use# conforms to all the other applicable Off-street Parking Regulations as set forth in Article II, Chapter 5.

The Board may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area.

73-132 - Colleges or universities

LAST AMENDED
6/6/2024

The Board of Standards and Appeals may permit colleges or universities including professional schools, but excluding business colleges or trade schools, as listed under Use Group III(B), in R1 or R2

Districts, provided that the following findings are made:

(a) that such #use# is so located as not to impair the character of the surrounding area or its future development as a neighborhood of #single-family residences#; and

(b) that such #use# is so located as to draw a minimum of vehicular traffic to and through local #streets#.

The Board may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area.

73-133 - Schools

LAST AMENDED
6/6/2024

In C8 or M1 Districts, the Board of Standards and Appeals may permit #schools# which have no #residential# accommodations except #accessory# accommodations for a caretaker, as listed under Use Group III(B), provided that the following findings are made:

(a) that within the neighborhood to be served by the proposed #school# there is no practical possibility of obtaining a site of adequate size located in a district wherein it is permitted as of right, because appropriate sites in such districts are occupied by substantial improvements;

(b) that such #school# is located not more than 400 feet from the boundary of a district wherein such #school# is permitted as-of-right;

(c) that an adequate separation from noise, traffic and other adverse effects of the surrounding non-#Residential Districts# is achieved through the use of sound-attenuating exterior wall and

window construction or by the provision of adequate open areas along #lot lines# of the #zoning lot#; and

(d) that the movement of traffic through the #street# on which the #school# is located can be controlled so as to protect children going to and from the #school#. The Board shall refer the application to the Department of Traffic for its report with respect to vehicular hazards to the safety of children within the block and in the immediate vicinity of the proposed site.

The Board may prescribe additional appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area.

73-134 - Ambulatory diagnostic or treatment health care facilities

LAST AMENDED
6/6/2024

In R3-1, R3A, R3X, R4-1, R4A or R4B Districts, the Board of Standards and Appeals may permit ambulatory diagnostic or treatment health care facilities listed under Use Group III(B), limited in each case to a maximum of 10,000 square feet of #floor area#, provided that the Board finds that:

(a) outside of #lower density growth management areas#, the amount of open area and its distribution on the #zoning lot# conform to standards appropriate to the character of the neighborhood; or

(b) in #lower density growth management areas#, such facilities are located on #zoning lots# that comply with the minimum #lot area# and #lot width# regulations of paragraph (b)(1) of Section 24-05 (Buildings containing certain community facility uses).

The Board may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area.

73-135 - Non-commercial clubs

LAST AMENDED
6/6/2024

The Board of Standards and Appeals may permit non-commercial clubs, except swimming pool clubs or clubs with swimming pools located less than 500 feet from any #lot line#, as listed under Use Groups III(A) or III(B), in R1 or R2 Districts, provided that the following findings are made:

(a) that such #use# is so located as not to impair the character of the surrounding area or its future development as a neighborhood of #single-family residences#;

(b) that such #use# is so located as to draw a minimum of vehicular traffic to and through local #streets#;

(c) that such #use# complies with the maximum #floor area ratio# for #residential use# as set forth in Section 23-21 (Floor Area Regulations for R1 Through R5 Districts);

(d) that not more than half the #open space# provided is occupied by driveways, private streets, open #accessory# off-street parking spaces or active outdoor recreation facilities; and

(e) that the amount of #open space# provided and its distribution on the #zoning lot# conform to standards appropriate to the character of the neighborhood.

The Board may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area, including requirements for shielding of floodlights, screening or landscaping.

73-136 - Welfare centers

LAST AMENDED
6/6/2024

The Board of Standards and Appeals may permit welfare centers listed under Use Group III(B) in R1 or R2 Districts, provided that the following findings are made:

(a) that such #use# is so located as not to impair the character of the surrounding area or its future development as a neighborhood of #single-family residences#; and

(b) that such #use# is conveniently accessible to the people it serves.

The Board may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area.

73-14 - Public Service Facilities and Infrastructure

LAST AMENDED
6/6/2024

73-141 - Radio or Television Towers

LAST AMENDED
6/6/2024

In all districts, the Board of Standards and Appeals may permit non-#accessory# radio or television towers listed under Use Group IV(B), provided that it finds that the proposed location, design, and method of operation of such tower will not have a detrimental effect on the privacy, quiet, light and air of the neighborhood.

The Board may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area.

73-142 - Telephone exchanges or other communications equipment structures

LAST AMENDED
6/6/2024

In all #Residence Districts#, the Board of Standards and Appeals may permit telephone exchanges or other communications equipment structures listed under Use Group IV(B), provided that the Board finds that:

(a) such #use# will serve the residential area within which it is proposed to be located; and

(b) there are serious difficulties in locating it in a district wherein it is permitted as of right and from which it could serve the residential area, which make it necessary to locate such #use# within a #Residence District#.

The Board may prescribe appropriate conditions or safeguards to minimize adverse effects on the character of the surrounding area, including requirements that such #use# shall be landscaped.

73-143 - Electric or gas utility substations

LAST AMENDED
6/6/2024

The Board of Standards and Appeals may permit electric or gas utility substations listed under Use Group IV(B) pursuant to either paragraph (a) or (b) of this Section, as applicable.

(a) In all #Residence Districts#, the Board may permit electric or gas utility substations, limited in each case to a site of between 4,500 square feet and not more than 10,000 square feet, provided that the Board finds that:

(1) such #use# will serve the residential area within which it is proposed to be located; and

(2) there are serious difficulties in locating it in a district wherein it is permitted as of right and from which it could serve the residential area, which make it necessary to locate such #use# within a #Residence District#.

The Board may prescribe appropriate conditions or safeguards to minimize adverse effects on the character of the surrounding area, including requirements that such substations shall be landscaped and surrounded with fences, barriers, or other safety devices; and that electric utility substations shall meet the performance standards for an M1 District.

(b) In all #Residence# and #Commercial Districts#, and in M1 Districts in the #Special Downtown Jamaica District#, the Board may permit electric utility substations (including transformers, switches, or auxiliary apparatus), limited in each case to a site of between 10,000 square feet and not more than 40,000 square feet, provided that the Board finds that:

(1) such #use# will serve either the residential community within which it is proposed to be located or the residential community immediately adjacent, and that there are serious difficulties in locating such #use# in a nearby district where it is permitted as-of-right;

(2) the site for such #use# is so located in #Residence Districts# as to minimize the adverse effects on the integrity of existing and future development, or is so located in

#Commercial Districts# as to minimize the interruption of the continuity of retail frontage;

(3) the architectural and landscaping treatment of such #use# will blend harmoniously with the rest of the area; and

(4) such #use# will conform to the performance standards applicable to M1 Districts.

The Board may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area, including requirements for soundproofing, for the construction of fences, barriers, or other safety devices, for screening of apparatus, or for landscaping.

73-144 - Public utility stations or terminal facilities

LAST AMENDED
6/6/2024

In all #Residence Districts#, the Board of Standards and Appeals may permit public utility stations for oil or gas metering or regulating, or terminal facilities located at river crossings for access to electric, gas or steam lines, as listed under Use Group IV(B), provided that the Board finds that the proposed location, design and method of operation will not have a detrimental effect on the privacy and quiet of the neighborhood and the safety of its inhabitants.

The Board may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area, including requirements for construction of fences, barriers or other safety devices, or for landscaping.

73-145 - Water pumping stations

LAST AMENDED
6/6/2024

In all #Residence Districts#, the Board of Standards and Appeals may permit potable water pumping stations listed under Use Group IV(B), on sites with a minimum #lot area# of at least 4,500 square feet, provided that the Board finds that:

(a) such #use# will serve the residential area within which it is proposed to be located; and

(b) there are serious difficulties in locating such #use# in a district where it is permitted as of right and from which it could serve the residential area, that make it necessary to locate such #use# within a #Residence District#.

The Board may prescribe appropriate conditions or safeguards to minimize adverse effects on the character of the surrounding area, including requirements that such pumping stations shall be landscaped and surrounded with fences, barriers, or other safety devices.

73-146 - Public transit or railroad electric substations

LAST AMENDED
6/6/2024

In all #Residence# and #Commercial Districts#, and in M1 Districts in the #Special Downtown Jamaica District#, the Board of Standards and Appeals may permit public transit or railroad electric substations listed under Use Group IV(B), limited in each case to a site of between 4,500 and not more than 40,000 square feet, and a minimum frontage of 50 feet, provided that the following findings are made:

(a) that such #use# will serve either the residential community within which it is proposed to be located or the residential community immediately adjacent, and that there are serious difficulties in locating such #use# in a nearby district where it is permitted as-of-right;

(b) that the site for such #use# is so located in #Residence Districts# as to minimize the adverse effects on the integrity of existing and future development, or is so located in #Commercial Districts# as to minimize the interruption of the continuity of retail frontage;

(c) that the architectural and landscaping treatment of such #use# will blend harmoniously with the rest of the area; and

(d) that such #use# will conform to the performance standards applicable to M1 Districts.

The Board may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area, including requirements for soundproofing, for the construction of fences, barriers, or other safety devices, for screening of apparatus, or for landscaping.

73-147 - Energy infrastructure equipment

LAST AMENDED
6/6/2024

In all #Residence Districts#, the Board of Standards and Appeals may permit #energy infrastructure equipment# listed under Use Group IV(C), without size restriction, provided that the Board finds that:

(a) such #use# will serve the residential area within which it is proposed to be located; and

(b) there are serious difficulties in locating it in a district wherein it is permitted as of right and from which it could serve the residential area, which make it necessary to locate such #use#

within a #Residence District#.

The Board may prescribe appropriate conditions or safeguards to minimize adverse effects on the character of the surrounding area, including requirements that such #use# shall be landscaped.

73-15 - Transient Accommodations

LAST AMENDED
6/6/2024

73-151 - Overnight camps

LAST AMENDED
6/6/2024

In all #Residence Districts#, and in C1, C2 or C3 Districts, the Board of Standards and Appeals may permit overnight camps, whether commercial or philanthropic, as listed under Use Group V, provided that the Board finds that such #use# will not cause excessive traffic congestion.

The Board shall prescribe the following conditions:

(a) that a minimum of 150 square feet of #lot area# is provided for each child enrolled in the camp;

(b) that along any #rear# or #side lot lines#, #yards# are provided, each with a minimum depth (or width) of 40 feet, within which no camp equipment is affixed to the land; and

(c) that in #Residence Districts# or C3 Districts the #zoning lot# is screened along the #rear# and #side lot lines#, and in C1 or C2 Districts along any #rear# or #side lot line# adjoining a

#Residence District#, by a strip at least four feet wide, densely planted with shrubs or trees which are at least four feet high at the time of planting and which are of a type which may be expected to form a year-round dense screen at least six feet high within three years.

The Board may prescribe additional appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area.

73-16 - Retail and Services

LAST AMENDED
6/6/2024

73-161 - Retail and service uses

LAST AMENDED
6/6/2024

In all #Commercial Districts# and #Manufacturing Districts#, the Board of Standards and Appeals may permit modifications to #uses# listed under Use Group VI, as set forth in Sections 32-16 and 42-16 (Use Group VI – Retail and Services), pursuant to paragraph (a) of this Section, provided that the findings in paragraph (b) are met.

(a) For #uses# listed under Use Group VI, other than those #uses# for which another permit exists pursuant to Section 73-16, inclusive, the Board may permit:

(1) modifications to a size limitation, denoted in the Use Group table with an “S”, provided that the increase does not exceed 200 percent of the amount set forth in Use Group VI;

(2) modifications to supplementary #use# regulations, including enclosure and location within #buildings# provisions; or

(3) modifications to additional conditions, denoted in the Use Group table with a “P”, including environmental standards, geographic limitations, or other measures.

(b) In order to grant such permit, the Board shall find that:

(1) such #use# will not impair the character or the future use or development of the surrounding area;

(2) such #use# will not create or contribute to serious traffic congestion and will not unduly inhibit surface traffic and pedestrian flow; and

(3) the modifications are necessary to support the operation of such #use#; and

The Board may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area.

73-162 - Eating or drinking establishments

LAST AMENDED
6/6/2024

In C1 Districts that are not #select commercial overlays#, in all other #Commercial Districts# and in #Manufacturing Districts#, the Board of Standards and Appeals may permit modifications to the

underlying regulations for eating or drinking establishments listed under Use Group VI set forth in Sections 32-16 and 42-16 (Use Group VI – Retail and Services), pursuant to paragraph (a) of this Section, provided that the findings in paragraph (b) are met.

(a) For eating or drinking establishments, the Board may permit:

(1) modifications to a size limitation, denoted in the Use Group table with an "S", provided that the increase does not exceed 200 percent of the amount set forth in Use Group VI;

(2) modifications to supplementary #use# regulations, including enclosure and location within #buildings# provisions; or

(3) modifications to additional conditions, denoted in the Use Group table with a "P", including environmental standards, geographic limitations, or other measures.

(b) In order to grant such permit, the Board shall find that:

(1) such #use# will not cause undue vehicular or pedestrian congestion in local #streets# and that due consideration is given to the size and location of entrances and enclosed lobby areas;

(2) such #use# will not impair the character or the future use or development of the surrounding residential or mixed use neighborhoods;

(3) such #use# will not cause the sound level in any affected conforming #residential use#, #joint living-work quarters for artists# or #loft dwelling# to exceed the limits set forth in any applicable provision of the New York City Noise Control Code;

(4) the modifications are necessary to support the operation of such #use#; and

(5) the application is made jointly by the owner of the #building# and the operator of such eating or drinking establishment.

The Board shall prescribe appropriate controls to minimize adverse effects on the character of the surrounding area, including, but not limited to, location of entrances and operable windows, provision of sound-lock vestibules, specification of acoustical insulation, maximum size of establishment, kinds of amplification of musical instruments or voices, shielding of flood lights, adequate screening, curb cuts or parking.

73-163 - Automotive service stations

LAST AMENDED
6/6/2024

In C2 Districts, and C4 though C7 Districts, the Board of Standards and Appeals may permit #automotive service stations# listed under Use Group VI and, in those districts and C8 Districts, may permit modification to the #accessory sign# regulations for such #use#, provided that the following findings are made:

(a) that such #use# will not impair the character or the future use or development of the surrounding area and will cause minimal interruption to the continuity of surrounding retail frontages;

(b) that such #use# will not create or contribute to serious traffic congestion and will not unduly inhibit surface traffic and pedestrian flow;

(c) that the site for such #use# which is not located on an arterial highway or a major #street# has a maximum area of 15,000 square feet;

(d) that any facilities for lubrication, minor repairs or washing are located within a #completely enclosed# #building#;

(e) that the site is so designed as to provide, at maximum expected operation, reservoir space for five waiting automobiles within the #zoning lot# in addition to spaces available within an enclosed lubritorium or at the pumps;

(f) that entrances and exits are so planned that, at maximum expected operation, vehicular movement into or from the #automotive service station# will cause a minimum of obstruction on #streets# or sidewalks;

(g) that, along any #rear lot line# or #side lot line# adjoining a #Residence District#, the #zoning lot# is screened as the Board may prescribe, by either of the following methods:

(1) a strip at least four feet wide, densely planted with shrubs or trees at least four feet high at the time of planting and which are of a type which may be expected to form a year-round dense screen at least six feet high within three years; or

(2) a wall or barrier or uniformly painted fence of fire-resistant material at least six feet high, but not more than eight feet above finished grade. Such wall, barrier, or fence may be opaque or perforated, provided that not more than 50 percent of its face is open; and

(h) that the modifications to #accessory sign# regulations are necessary for adequate advance identification of such #automotive service station# to motorists on heavily traveled #streets# in the interests of traffic safety. In no event shall such #signs# project across a #street line# more than four feet and modification to the surface area of #signs# shall be limited to C1 and C2 Districts and a maximum surface area of 150 square feet.

The Board may prescribe additional appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area, and to protect #residential zoning lots# which are adjoining or across the #street#.

73-164 - Light motor vehicle repair and maintenance shops

LAST AMENDED
6/6/2024

In C2 Districts, and C4 though C7 Districts, the Board of Standards and Appeals may permit #light motor vehicle repair and maintenance shops# listed under Use Group VI, provided that the following findings are made:

(a) such #use# will not impair the character or the future use or development of the surrounding area. In order to make such finding the Board shall consider the presence and concentration of existing #light motor vehicle repair and maintenance shops# within 500 feet of the proposed #use# and whether any increase in concentration would have impacts on the surrounding area;

(b) such #use# will cause minimal interruption to, and will not be incompatible with, the continuity of surrounding retail frontages;

(c) such #use# will not create or contribute to serious traffic congestion and will not unduly inhibit surface traffic and pedestrian flow;

(d) any facilities used for repair or maintenance are located within a #completely enclosed building#; and

(e) entrances and exits are so planned that, at maximum expected operation, vehicular movement into or from the #use# will cause a minimum of obstruction on #streets# or sidewalks.

The Board may prescribe additional appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area.

73-17 - Offices and Laboratories

LAST AMENDED
6/6/2024

73-171 - Ground floor offices in the flood zone

LAST AMENDED
6/6/2024

In all #Residence Districts# in the #flood zone#, for #buildings# containing #residential uses#, the Board of Standards and Appeals may permit offices listed under Use Group VII, provided that the conditions of paragraph (a) of this Section, and the findings of paragraph (b) of this Section are met:

(a) Conditions

All applications shall be subject to the following conditions:

(1) the #building# complies with #flood-resistant construction standards#;

(2) the office #use# is located on the lowest #story# above grade within the #building#;

(3) access to such office #use# is from a separate entrance than that serving the #residential# portion of the #building#;

(4) the #floor area# associated with such office #use# shall be considered as #community facility# #use# for the purposes of determining compliance with the applicable district #floor area ratio# regulations, and amount of #floor area# attributed to such office

#use# shall not exceed 10,000 square feet;

(5) the office #use# complies with the #accessory# off-street parking regulations for ambulatory diagnostic or treatment health care facilities listed under Use Group III(B), in accordance with Article II, Chapter 5 (Accessory Off-Street Parking and Loading Regulations); and

(6) such office #use# complies with #accessory# #signs# regulations for #buildings# containing #residences#, as set forth in Section 22-32 (Permitted Non-Illuminated Accessory Signs).

(b) Findings

In order to grant the special permit, the Board shall find that:

(1) such office #use# will generate a minimum of vehicular traffic to and through local #streets# and will not create traffic congestion;

(2) such office #use# will not produce objectionable effects; and

(3) such office #use# will not alter the essential character of the neighborhood in which the #building# is located.

The Board may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area.

73-18 - Recreation, Entertainment and Assembly Spaces

LAST AMENDED

73-181 - Recreation, entertainment and assembly space uses

LAST AMENDED
6/6/2024

In C1 or C2 Districts that are not #select commercial overlays#, in all other #Commercial Districts# and in #Manufacturing Districts#, the Board of Standards and Appeals may permit modifications to #uses# listed under Use Group VIII, as set forth in Sections 32-18 and 42-18 (Use Group VIII – Recreation, Entertainment and Assembly Spaces), pursuant to paragraph (a) of this Section, provided that the findings in paragraph (b) are met.

(a) For #uses# listed under Use Group VIII, other than those #uses# for which another permit exists pursuant to Section 73-18, inclusive, the Board may permit:

(1) modifications to a size limitation, denoted in the Use Group table with an "S", provided that the increase does not exceed 200 percent of the amount set forth in Use Group VIII;

(2) modifications to supplementary #use# regulations, including enclosure and location within #buildings# provisions; or

(3) modifications to additional conditions, denoted in the Use Group table with a "P", including environmental standards, geographic limitations, or other measures.

(b) In order to grant such permit, the Board shall find that:

(1) such #use# will not impair the character or the future use or development of the surrounding area;

(2) such #use# will not create or contribute to serious traffic congestion and will not unduly inhibit surface traffic and pedestrian flow; and

(3) the modifications are necessary to support the operation of such #use#.

The Board may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area.

73-182 - Outdoor recreation and amusement facilities

LAST AMENDED
6/6/2024

In C3 Districts, the Board of Standards and Appeals may permit water-oriented outdoor #amusement and recreation facilities# listed under Use Group VIII, provided that the following findings are met:

(a) such #use# will not impair the character or the future use or development of the surrounding area and will cause minimal interruption to the continuity of surrounding residential or retail frontages, as applicable;

(b) such #use# and any #accessory# facilities affixed to the land is adequately separated from any #lot line#; and

(c) that, along any #rear lot line# or #side lot line# adjoining a #Residence District#, the #zoning lot# is screened as the Board may prescribe, by either of the following methods:

(1) a strip at least four feet wide, densely planted with shrubs or trees at least four feet high at the time of planting and which are of a type which may be expected to form a year-round dense screen at least six feet high within three years; or

(2) a wall or barrier or uniformly painted fence of fire-resistant material at least six feet high, but not more than eight feet above finished grade. Such wall, barrier, or fence may be opaque or perforated, provided that not more than 50 percent of its face is open.

The Board may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area.

73-183 - Outdoor amusement parks

LAST AMENDED
6/6/2024

In C7, C8 or M1 Districts, the Board of Standards and Appeals may permit #outdoor amusement parks# listed in Use Group VIII that exceed a #lot area# of 10,000 square feet, provided that the following findings are met:

(a) such #use# will not impair the character or the future use or development of the surrounding area;

(b) such #use# will not create or contribute to serious traffic congestion and will not unduly inhibit surface traffic and pedestrian flow; and

(c) such #use# is adequately separated from surrounding residential areas.

The Board may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area.

73-184 - Outdoor day camps

LAST AMENDED
6/6/2024

In all #Residence Districts#, and in C1, C2 or C3 Districts, the Board of Standards and Appeals may permit outdoor day camps, whether commercial or philanthropic, as listed under Use Group VIII, provided that the Board finds that such #use# will not cause excessive traffic congestion.

The Board shall prescribe the following conditions:

(a) that a minimum of 150 square feet of #lot area# is provided for each child enrolled in the camp;

(b) that along any #rear# or #side lot lines#, #yards# are provided, each with a minimum depth (or width) of 40 feet, within which no camp equipment is affixed to the land;

(c) that in #Residence Districts# or C3 Districts the #zoning lot# is screened along the #rear# and #side lot lines#, and in C1 or C2 Districts along any #rear# or #side lot line# adjoining a #Residence District#, by a strip at least four feet wide, densely planted with shrubs or trees which are at least four feet high at the time of planting and which are of a type which may be expected to form a year-round dense screen at least six feet high within three years; and

(d) that for each 6,000 square feet of #lot area#, one #accessory# off-street parking space of 500 square feet is provided to accommodate buses used in the transportation of campers, in addition to the #accessory# off-street parking requirement established for such #uses# under the applicable provisions of Sections 25-31 or 36-21 (General Provisions).

The Board may prescribe additional appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area.

73-185 - Riding academies or stables

LAST AMENDED
6/6/2024

In all #Residence Districts#, and in C1 through C7 Districts, the Board of Standards and Appeals may permit riding academies or stables operated as a recreation service, as listed under Use Group VIII, provided that the following findings are met:

(a) that such #use# is so located as not to impair the essential character of the surrounding area;

(b) that adequate horseback riding facilities are available on the same #zoning lot# or within 600 feet of such #zoning lot#;

(c) that the location and operation of such #use# will not be such as to result in any serious traffic hazards or conflicts on nearby #streets#; and

(d) that in #Residence Districts#, no stables or riding areas are located within 40 feet of any #side# or #rear lot line#.

The Board may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area, including requirements for sanitation, for screening, or for landscaping.

73-19 - Storage

LAST AMENDED
6/6/2024

73-191 - Micro-distribution facilities

LAST AMENDED
6/6/2024

In C1 or C2 Districts located outside of the Borough of Manhattan that are #select commercial overlays#, the Board of Standards and Appeals may permit micro-distribution facilities, as listed under Use Group IX(A), as set forth in Section 32-19 (Use Group IX - Storage), with a size limit of 5,000 square feet of #floor area# per establishment, and in other C1 or C2 Districts, as well as C4 through C7 Districts, the Board may permit modifications to a size limitation for micro-distribution facilities, denoted in the Use Group table with an "S", provided that the increase does not exceed 200 percent of the amount set forth in paragraph (c) of Section 32-193 (Use Group IX – uses subject to size limitations).

In order to grant such permit, the Board shall find that:

(a) such #use# will not impair the character or the future use or development of the surrounding area. In order to make such finding in locations where the #use# is being permitted, the Board shall consider the presence and concentration of existing micro-distribution facilities within 500 feet of the proposed #use# and whether any increase in concentration would have impacts on the surrounding area;

(b) such #use# will cause minimal interruption to, and will not be incompatible with, the continuity of surrounding retail frontages;

(c) such #use# will not create or contribute to serious traffic congestion and will not unduly inhibit surface traffic and pedestrian flow; and

(d) the modifications are necessary to support the operation of such #use#.

The Board may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area.

73-20 - ADDITIONAL SPECIAL PERMIT USES

LAST AMENDED
5/12/2021

73-21 - Production Uses

LAST AMENDED
6/6/2024

73-211 - Production uses

LAST AMENDED
6/6/2024

In all #Commercial Districts# and #Manufacturing Districts#, the Board of Standards and Appeals may permit modifications to #uses# listed under Use Group X, as set forth in Sections 32-20 and 42-20 (Use Group X – Production Uses), pursuant to paragraph (a) of this Section, provided that the findings in paragraph (b) are met.

(a) For #uses# listed under Use Group X, other than those #uses# for which another permit exists pursuant to Section 73-21, inclusive, the Board may permit:

(1) modifications to a size limitation, denoted in the Use Group table with an “S”, provided that the increase does not exceed 200 percent of the amount set forth in Use Group X;

(2) modifications to supplementary #use# regulations, including enclosure and location within #buildings# provisions; or

(3) modifications to additional conditions, denoted in the Use Group table with a “P”, including environmental standards, geographic limitations, or other measures.

(b) In order to grant such permit, the Board shall find that:

(1) such #use# will not impair the character or the future use or development of the surrounding area;

(2) such #use# will not create or contribute to serious traffic congestion and will not unduly inhibit surface traffic and pedestrian flow; and

(3) the modifications are necessary to support the operation of such #use#.

The Board may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area.

73-30 - MODIFICATIONS TO OTHER USE REGULATIONS

LAST AMENDED
6/6/2024

73-31 - Enclosure Regulations

LAST AMENDED
6/6/2024

73-311 - Drive-through facilities

LAST AMENDED
6/6/2024

In C1 through C7 Districts, the Board of Standards and Appeals may permit modification to the applicable enclosure regulations to allow #accessory# drive-through facilities serving a #use# listed under Use Group VI, as set forth in Section 32-16 (Use Group VI – Retail and Services), provided that the following findings are met:

(a) the drive-through facility contains reservoir space within the #zoning lot#,:

(1) for not less than 10 automobiles where serving an eating or drinking establishment; or

(2) at a sufficient capacity for waiting automobiles, at maximum expected operation, where serving all other #uses#;

(b) the drive-through facility will not create or contribute to serious traffic congestion and will not unduly inhibit surface traffic and pedestrian flow;

(c) the character of the #Commercial District# #street# frontage within 500 feet of the subject premises reflects substantial orientation toward the motor vehicle, based upon the level of motor vehicle generation attributable to the existing #uses# contained within such area and to the subject #use#;

(d) the drive-through facility shall not have an undue adverse impact on #residences# within the immediate vicinity of the subject premises. In order to make such finding the Board shall consider both the air quality impact of idling vehicles and the illumination from headlights on adjacent #residential uses#; and

(e) there will be adequate buffering and screening between the drive-through facility and adjacent #residential uses#. Screening shall consist of densely planted vegetation and may additionally include walls, barriers or fences.

The Board may prescribe additional appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area.

73-32 - Modification of Streetscape Regulations

LAST AMENDED
6/6/2024

In #Commercial Districts# and #Manufacturing Districts#, the Board of Standards and Appeals may permit modifications to the underlying streetscape regulations of Section 32-30, inclusive, including as such provisions are modified by a Special Purpose District or other special geography of this Resolution.

In order to grant such permit, the Board shall find that:

(a) such modification is the minimum extent necessary;

(b) such modification will not impair the character or the future use or development of the surrounding area; and

(c) the modifications are necessary to support the operation of such #use#.

The Board may prescribe additional appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area.

73-40 - MODIFICATIONS OF USE OR PARKING REGULATIONS

LAST AMENDED
7/22/1971

73-41 - General Provisions

LAST AMENDED
12/17/1987

Subject to the general findings required by Section 73-03 and in accordance with the provisions contained in Sections 73-42 to 73-53, the Board of Standards and Appeals shall have the power to permit modification of #use# or parking regulations of this Resolution, and shall have the power to impose appropriate conditions and safeguards thereon.

73-42 - Enlargement of Uses Across District Boundaries

LAST AMENDED
1/28/1965

In all districts, the Board of Standards and Appeals may permit the expansion of a conforming #use# located within a #building or other structure# into a district where such #use# is not permitted,

provided that the #enlarged use# is contained within a single #block# and the expansion of either the depth or the width of the conforming #use# is no greater than 50 percent of either the depth or width, respectively, of that portion of the #zoning lot# located in the district where such #use# is a conforming #use#, but in no case shall the area of the expansion exceed 50 percent of the area of the #zoning lot# located in the district where such #use# is a conforming #use#, and provided further that the following findings are made:

(a) there is no reasonable possibility of expanding such #use# within the existing district where it is a conforming #use#;

(b) such conforming #use# was in existence prior to January 6, 1965, or the date of any applicable subsequent amendment to the #zoning maps#; and

(c) such expanded #use# is not so situated or of such character or size as to impair the essential character or the future use or development of the surrounding area.

In the case of a #use# which, at the time of application to the Board under the provisions of this Section, is already partially located in the more restricted district, where it is a #non-conforming use#, or which has extended into such district in accordance with the provisions of Section 77-11 (Conditions for Application of Use Regulations to Entire Zoning Lot), the maximum expansion to be permitted under the provisions of this Section shall be computed as 50 percent of the width or depth of that portion of the #zoning lot# located within the mapped boundary of the district where such #use# is a conforming #use#, and shall be measured from such mapped district boundary.

In every case where the Board permits such expansion, the #building or other structure#, or portion thereof, situated on the expanded portion of the #zoning lot# shall comply on such expanded portion with the applicable #bulk# regulations of the district in which such #use# is a conforming #use# and, subject to such compliance on the expanded portion of the #zoning lot#, the Board may permit such conforming #use#, even when located in an existing #building or other structure# which is #non-complying#, to expand across the district boundary in accordance with the provisions of this Section.

All the applicable regulations of the district in which such #use# is a conforming #use# shall apply on the entire #zoning lot#, or any portion thereof, to be occupied by such #use# and any special regulation applying along district boundaries shall apply along #rear# and #side lot lines# of the expanded #zoning lot#.

Where #yard# regulations are applicable, the Board may permit the expanded area to include, in addition to area permitted under other provisions of this Section, such area as is necessary for the required #yards#. However, such additional area shall not be counted as #lot area# for purposes of #bulk# computations.

The Board may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the district including requirements for adequate screening.

73-43 - Reduction of Parking Spaces

LAST AMENDED
12/5/2024

73-431 - Reduction of parking spaces for places of assembly

LAST AMENDED
12/5/2024

In all #Commercial# and #Manufacturing Districts#, the Board of Standards and Appeals may permit a reduction in the number of #accessory# off-street parking spaces required under the provisions of Sections 25-31, 36-21 or 44-21 (General Provisions) for #uses# in parking requirement category B1 whenever such #uses# are located on the same #zoning lot# as other #uses#, proportionate to the

extent that the Board finds that:

(a) the spaces #accessory# to such other #uses# will remain available for #use# by persons visiting the place of assembly during the entire period that such place of assembly remains in #use#; and

(b) in accordance with submitted schedules of the times of operation for all #uses# on the #zoning lot#, there will be no conflict in the use of such #accessory# off-street parking spaces, and that the provision of the full quota of required off-street parking spaces for places of assembly is therefore not needed. The permit to reduce such spaces shall be automatically revoked whenever there is a change in the nature of the conditions upon which such reduced requirements were based, including changes in #use#, availability of spaces or hours of operation.

73-432 - Reduction of existing parking spaces for income-restricted housing units

LAST AMENDED
12/5/2024

For #zoning lots# within the boundaries shown in Appendix I with #buildings# containing #income-restricted housing units# in receipt of a certificate of occupancy prior to March 22, 2016, the Board of Standards and Appeals may permit a waiver of, or a reduction in, the number of #accessory# off-street parking spaces required for such #income-restricted housing units# prior to March 22, 2016, provided that the Board finds that such waiver or reduction will:

(a) facilitate an improved site plan;

(b) facilitate the creation or preservation of affordable housing, where a #development# includes new #residential floor area# on the #zoning lot#;

(c) not cause traffic congestion; and

(d) not have undue adverse effects on residents, businesses or #community facilities# in the surrounding area, as applicable, including the availability of parking spaces for such #uses#.

Factors to be considered by the Board may include, without limitation, the use of the existing parking spaces by residents of the #zoning lot#, the availability of parking in the surrounding area and the proximity of public transportation. The Board may impose appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area.

73-433 - Reduction of existing parking spaces for qualifying senior housing

LAST AMENDED
12/5/2024

For #zoning lots# outside the boundaries shown in Appendix I with #buildings# containing #qualifying senior housing# in receipt of a certificate of occupancy prior to March 22, 2016, the Board of Standards and Appeals may permit a reduction in the number of #accessory# off-street parking spaces required for such #affordable independent residences for seniors# prior to March 22, 2016, provided that the Board finds that:

(a) such reduction will facilitate an improved site plan;

(b) any new #dwelling units# created on the portion of the #zoning lot# previously occupied by such parking spaces will be #income-restricted housing units#;

(c) such reduction will not cause traffic congestion; and

(d) such reduction will not have undue adverse effects on residents, businesses or #community facilities# in the surrounding area, as applicable, including the availability of parking spaces for

such #uses#.

Any permitted reduction shall be in compliance with the parking requirement for #qualifying senior housing# developed after March 22, 2016, as set forth in Section 25-20 (REQUIRED ACCESSORY OFF-STREET PARKING SPACES FOR RESIDENCES), as applicable.

Factors to be considered by the Board may include, without limitation, the use of the existing parking spaces by residents of the #zoning lot#, the availability of parking in the surrounding area and the proximity to public transportation. The Board may impose appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area.

73-44 - Reduction of Parking Spaces for Uses in Parking Requirement Category A3

LAST AMENDED
6/6/2024

In the districts indicated, the Board of Standards and Appeals may permit a reduction in the number of #accessory# off-street parking spaces required by the provisions of Section 36-21 or 44-21 (General Provisions) for #uses# in parking requirement category A3 to the applicable number of spaces specified in the table set forth at the end of this Section, provided that the Board finds that occupancy by #uses# in parking category A3 is contemplated in good faith on the basis of evidence submitted by the applicant. In such a case the Board shall require that the certificate of occupancy issued for the #building# within which such #use# is located shall state that no certificate shall thereafter be issued if the #use# is changed to a #use# listed in parking category A2 unless additional #accessory# off-street parking spaces sufficient to meet such requirements are provided on the site or within the permitted

off-site radius.

REDUCED ACCESSORY OFF-STREET PARKING SPACES REQUIRED FOR USES IN PARKING REQUIREMENT CATEGORY A3

Parking Spaces Required per Number of Square Feet of #Floor Area# *	Districts
1 per 400	C1-1 C2-1 C3 C4-1
1 per 600	C1-2 C2-2 C4-2 C8-1
	M1-1 M1-2 M1-3
	M2-1 M2-2 M3-1
	M1, M2, M3 Districts with an A suffix outside the #Greater Transit Zone#
1 per 800	C1-3 C2-3 C4-3
	C7 outside the #Greater Transit Zone#
	C8-2

* For ambulatory diagnostic or treatment facilities listed in Use Group III(B), parking spaces required per number of square feet of #floor area# or #cellar# space, except #cellar# space used for storage

73-45 - Modification of Off-site Parking Provisions

LAST AMENDED
5/8/2013

In all districts, the Board of Standards and Appeals may modify the provisions regulating the location of #accessory# off-street parking spaces provided off the site, in accordance with the provisions of this Section which are applicable in the specified district. However, in no event shall #accessory# off-street parking spaces be permitted off-site in a #public parking garage#.

This Section shall not apply to the #Manhattan Core# where the regulations set forth in Article I, Chapter 3, shall apply.

In all cases, the Board may impose appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area.

73-451 - For residences

LAST AMENDED
2/2/2011

The Board of Standards and Appeals may permit off-site spaces #accessory# to #residences# or to #non-profit hospital staff dwellings# to be located in any district except an R1 or R2 District, or at a greater distance from the #zoning lot# than the maximum distance specified in the applicable district regulations, provided that the following special findings are made:

(a) that the required #accessory# on-street parking spaces cannot reasonably be provided on the #zoning lot# because of physical conditions including irregularity, narrowness or shallowness of lot size or shape, or exceptional topographical or other physical conditions;

(b) that within the maximum permitted radius for off-site parking or within a district other than a #Residence District#, there is substantial difficulty in obtaining a site of sufficient size to accommodate the required #accessory# off-street parking spaces because such sites are occupied by substantial improvements;

(c) that where such spaces are located at a greater distance from the #zoning lot# than the maximum distance permitted by the district regulations, such distance is not greater than as shown in the following table for the specified districts; and

Maximum Distance (in feet)	Districts
1,200	R3 R4 R5 R6 R7-1 R7B C1-1 C1-2 C1-3 C2-1 C2-2 C2-3 C3 C4-1 C4-2 C4-3

1,500	R7-2 R7-3 R7A R7X R8 R9 R10 C1-4 C1-5 C1-6 C1-7 C1-8 C1-9 C2-4 C2-5 C2-6 C2-7 C2-8 C4-4 C4-5 C4-6 C4-7 C5 C6

(d) that where such off-site spaces are located in a #Residence District#, they are so located as not to impair the essential character or the future use or development of the nearby residential neighborhood.

73-452 - For community facilities in Residence Districts

LAST AMENDED
6/27/1963

The Board of Standards and Appeals may permit off-street parking spaces #accessory# to a #community facility# #use# other than a #non-profit hospital staff dwelling#, which #use# is located in an R1, R2, R3 or R4 District, to be provided off-site and located in any district, or may permit off-street parking spaces #accessory# to a #community facility# #use# other than a #non-profit hospital staff dwelling#, which #use# is located in any other #Residence District#, to be provided off-site and located in an R1, R2, R3 or R4 District or located in any other #Residence District# at a greater distance from the #zoning lot# than the maximum distance specified in Section 25-53 (Off-site Spaces for Permitted Non-residential Uses), provided that in such instances, all such spaces shall be not further than 600 feet from the nearest boundary of the #zoning lot# containing such #use#, and provided further that the following special findings are made:

(a) that where such spaces are located in an R1 or R2 District, the #community facility# #use# to which they are #accessory# is a #use# permitted as-of-right in such district;

(b) that there is no way to arrange such spaces on the same #zoning lot# as such #use#;

(c) that such spaces are so located as to draw a minimum of vehicular traffic to and through #streets# having predominantly #residential# frontage; and

(d) either that such spaces are located on an adjoining #zoning lot# or a #zoning lot# directly across the #street# from such #use# or, if such spaces are not so located, that there is substantial difficulty in obtaining a site of sufficient size to accommodate the required #accessory# off-street parking spaces on an adjoining #zoning lot# or a #zoning lot# directly across the #street# from such #use# or in a location where such off-site spaces would be permitted as-of-right, because such sites are occupied by substantial improvements.

73-453 - For non-residential uses in Commercial or Manufacturing Districts

LAST AMENDED
6/27/1963

For non-#residential uses#, other than #non-profit hospital staff dwellings#, the Board of Standards and Appeals may extend the maximum permitted radius for off-site parking spaces located in #Commercial# or #Manufacturing Districts#, as specified in Sections 25-53 (Off-site Spaces for Permitted Non-residential Uses), 36-43 (Off-site Spaces for Commercial or Community Facility Uses) or 44-32 (Off-site Spaces for All Permitted Uses), from 600 to 1,200 feet, whenever the Board finds:

(a) that the required #accessory# off-street parking spaces cannot reasonably be provided on the #zoning lot# because of physical conditions including irregularity, narrowness or shallowness of lot size or shape, or exceptional topographical or other physical conditions; and

(b) that, within 600 feet of a boundary of the #zoning lot#, there is substantial difficulty in obtaining a site of sufficient size to accommodate the required #accessory# off-street parking spaces because such sites are occupied by substantial improvements.

73-454 - For houses of worship

LAST AMENDED
9/9/2004

The Board of Standards and Appeals may modify, as applicable, the provisions of Sections 25-53 (Off-site Spaces for Permitted Non-residential Uses), 36-43 (Off-site Spaces for Commercial or Community Facility Uses) or 44-32 (Off-site Spaces for All Permitted Uses), relating to the maximum permitted distance of the location of #accessory# off-street parking spaces for houses of worship, provided that in such instances all such spaces shall be not further than 1,000 feet from the nearest boundary of the #zoning lot# containing such house of worship, upon finding that:

(a) such spaces conform to all applicable regulations of the district in which they are located; and

(b) the location of such spaces will not result in undue traffic congestion in the area.

The Board may impose appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area.

73-46 - Exceptions to Maximum Size of Accessory Group Parking Facilities

LAST AMENDED
12/5/2024

The Board of Standards and Appeals may permit #accessory# #group parking facilities# with more than 150 spaces in #Commercial# or #Manufacturing Districts# or for hospital and related facilities listed under Use Group III(B) in #Residence Districts# in accordance with the provisions of this Section provided that such provisions shall not apply to #accessory# off-street parking spaces provided in #public parking garages# in accordance with the provisions of Section 36-56 or 44-46 (Accessory Off-street Parking Spaces in Public Parking Garages).

This Section shall not apply to the #Manhattan Core# where the regulations set forth in Article I, Chapter 3, shall apply.

73-461 - For hospitals and related facilities in Residence Districts

LAST AMENDED
12/5/2024

The Board of Standards and Appeals may permit #accessory# #group parking facilities# with more than 150 spaces for hospitals and related facilities listed under Use Group III(B) in all #Residence Districts#, provided that the following findings are made:

(a) that such facility is so located as to draw a minimum of vehicular traffic to and through local #streets# in residential areas;

(b) that such facility has adequate reservoir space at the vehicular entrance to accommodate either 10 automobiles or five percent of the total parking spaces provided by the facility, whichever amount is greater, but in no event shall such reservoir space be required for more than 20 automobiles; and

(c) that the #streets# providing access to such #use# will be adequate to handle the traffic generated thereby.

The Board may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area, including requirements for locations of entrances and exits or for shielding of floodlights.

73-462 - In Commercial or Manufacturing Districts

LAST AMENDED
12/5/2024

The Board of Standards and Appeals may permit #accessory# #group parking facilities# with more than 150 spaces in #Commercial# or #Manufacturing Districts#, provided either that such facilities have separate entrances and exits on two or more #streets# or that the following findings are made:

(a) that such facility, if #accessory# to a non-#residential use#, other than a #non-profit hospital staff dwelling#, has adequate reservoir space at the vehicular entrance to accommodate either 10 automobiles or five percent of the total parking spaces provided by the facility, whichever amount is greater, but in no event shall such reservoir space be required for more than 50 automobiles; and

(b) that the #streets# providing access to such #use# will be adequate to handle the traffic generated thereby.

The Board may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area, including limitations on #signs# or requirements for locations of entrances or for shielding of floodlights.

73-47 - Roof Parking

LAST AMENDED
12/5/2024

In C1-1, C1-2, C1-3, C1-4, C2-1, C2-2, C2-3, C2-4, C4-1, C4-2, C4-3, C4-4, C7 outside the #Greater Transit Zone#, C8-1, C8-2, C8-3, M1-1, M1-2, M1-3, M2-1, M2-2 or M3-1 Districts, the Board of Standards and Appeals may permit the parking or storage of motor vehicles on the roof of a #public parking garage# with a total of 150 spaces or less and, in all districts, the Board may permit modifications of the applicable provisions of Sections 25-11, 36-11 or 44-11 (General Provisions) so as to permit #accessory# off-street parking spaces to be located on the roof of a #building#. As a condition of permitting such roof parking, the Board shall find that the roof parking is so located as not to impair the essential character or the future use or development of adjacent areas.

The Board may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area, including requirements for setback of roof parking areas from #lot lines#, or for shielding of floodlights.

73-50 - SPECIAL PROVISIONS APPLYING ALONG DISTRICT BOUNDARIES

LAST AMENDED
6/6/2024

In appropriate cases, for #zoning lots# with single frontage, the Board of Standards and Appeals may permit primary business entrances, #show windows#, or #signs# not otherwise permitted under the provisions of Section 32-43 or 42-53 (Limitations on Business Entrances, Show Windows or Signs), provided that in no case shall any such primary business entrance, #show window# or #sign# be permitted within 10 feet of a #Residence District# boundary.

In addition, in appropriate cases, the Board may waive the requirements for #rear yards# or #side yards# set forth in Sections 33-29 or 43-30 (SPECIAL PROVISIONS APPLYING ALONG DISTRICT BOUNDARIES).

It is further provided that, in appropriate cases, the Board may waive in whole or in part the #front yard# requirement set forth in Section 43-304 (Required front yards along district boundary located in a street) after finding that such waiver will not have an adverse effect on the surrounding area. The Board shall prescribe appropriate conditions and safeguards to preserve and enhance the character of the surrounding area, and to ensure the maintenance of resulting #front yards#.

73-51 - Modification of Supplementary Use Regulations

LAST AMENDED
8/22/1963

In C1, C2, C3, C4, C5, C6 or C7 Districts, the Board of Standards and Appeals may permit public utility radio or television facilities which do not comply with the applicable provisions of Section 32-42 (Location Within Buildings) to be located on the top #story# or the roof of a #building# and may prescribe appropriate conditions and safeguards to minimize adverse effects on #uses# occupying lower #stories# or on the character of the surrounding area.

In addition, the Board may permit public utility antennas, microwave platforms and dishes or other radio or television equipment to penetrate the maximum height limit or the #sky exposure plane# set forth in Section 33-43 (Maximum Height of Walls and Required Setbacks) or 33-44 (Alternate Front Setbacks) provided that such equipment shall not exceed 20 feet in height.

73-52 - Modifications for Zoning Lots Divided by District Boundaries

LAST AMENDED
6/25/1964

Whenever a #zoning lot# existing in single ownership on December 15, 1961, or on the effective date of any applicable subsequent amendment to the #zoning maps# is divided by a boundary between two or more districts in which different #uses# are permitted, the Board of Standards and Appeals may permit a #use# which is a permitted #use# in the district in which more than 50 percent of the #lot area# of the #zoning lot# is located to #extend# not more than 25 feet into the remaining portion of the #zoning lot#, where such #use# is not a permitted #use#, provided that the following findings are made:

(a) that, without any such extension, it would not be economically feasible to use or #develop# the remaining portion of the #zoning lot# for a permitted #use#; and

(b) that such extension will not cause impairment of the essential character or the future use or development of the surrounding area.

Where such an extension of a #use# is permitted, the Board may permit the #bulk#, off-street parking and loading, and all other regulations of the district in which more than 50 percent of the #lot area# of the #zoning lot# is located, to apply for the distance, not exceeding 25 feet, that such #use# is permitted to #extend# into the remaining portion of the #zoning lot#.

Any portion of the #zoning lot# beyond such distance shall be subject to all the regulations of the district in which it is located, and shall not be counted as #lot area# for a #building or other structure#, or portion thereof, used for such #extended use#.

The Board may prescribe appropriate conditions and safeguards to minimize adverse effect on the character of the surrounding area.

73-53 - Enlargements or Extensions of Certain Manufacturing or Related Uses

LAST AMENDED
6/6/2024

(a) In all districts, the Board of Standards and Appeals may modify #use# and #bulk# regulations to permit the #enlargement# or #extension# of #floor area# of a conforming or #non-conforming# #referenced commercial and manufacturing use#, provided that:

(1) such #use# is not subject to termination pursuant to Section 52-70, et seq.;

(2) the #use# for which such special permit is being sought has been lawfully located on the #zoning lot# on which the expansion is to occur, or a portion thereof, for five years or more;

(3) the #building# in which such #use# is located has not previously been #enlarged#, pursuant to Sections 11-412, 43-121 or 72-21;

(4) the #use# is not one listed in Use Group X and is permitted only in #Manufacturing Districts#; and

(5) in a #Residence District#, such #enlargement# or #extension# shall be permitted in existing #floor area# or on a vacant portion of a #zoning lot# only when no lawful #residential use# has occupied such #floor area# or vacant portion of a #zoning lot# at any time during the five years prior to the date of application for such special permit.

(b) Any #enlargement# or #extension# permitted pursuant to this Section shall be subject to the following requirements:

(1) the permitted #enlargement# or #extension# may be the greater of:

(i) 45 percent of the #floor area# occupied by such #use# on December 17, 1987; or

(ii) 2,500 square feet additional to the #floor area# occupied by such #use# on December 17, 1987.

In no event shall the amount of #enlargement# or #extension# under paragraph (b)(i) of this Section exceed 10,000 square feet additional to the #floor area# occupied by such #use# on December 17, 1987;

(2) unless the #zoning lot# is located within an M2 or M3 District, more than 300 feet from a #Residence District# boundary, any #enlarged# or #extended# portion, or activity generated by such #enlargement# or #extension#, including storage and processing, shall be in #completely enclosed# #buildings#;

(3) in the case of a #non-conforming# #use#, such #enlarged# or #extended use# shall conform to all performance standards applicable in an M1 District located at the boundary with a #Residence District#; however, conforming #uses# shall conform to the applicable performance standards of the district in which they are located;

(4) no open #uses# of any kind, including storage or processing, shall be permitted within 30 feet of a #rear lot line# that is located within a #Residence District# or within 30 feet of the #rear lot line# that coincides with a #rear lot line# of a #zoning lot# in a #Residence District#;

(5) no #enlargement# or #extension# that exceeds 16 feet above #curb level# shall be permitted within 30 feet of the #rear lot line# that coincides with a #rear lot line# of a #zoning lot# in a #Residence District#;

(6) no #enlargement# or #extension# that exceeds 16 feet above #curb level# shall be permitted within eight feet of the #side lot line# that coincides with a #rear lot line# of a #zoning lot# in a #Residence District#;

(7) no open #uses# of any kind, including storage or processing, shall be permitted within eight feet of the #side lot line# that coincides with a #rear lot line# of a #zoning lot# in

a #Residence District#;

(8) no #enlargement# or #extension#, or open #uses# of any kind, including storage or processing, shall be permitted within eight feet of the #lot line# which coincides with a #side lot line# of a #zoning lot# in an R1, R2, R3, R4 or R5 District; and

(9) no #side yard# shall be required in an R6 through R12 Districts or in a #Commercial District# or #Manufacturing District#; however, if such #side yard# is provided, it must be at least eight feet in width.

(c) In granting such special permit, the Board shall find:

(1) that such #enlargement# or #extension# will not generate significant increases in vehicular or pedestrian traffic nor cause congestion in the surrounding area;

(2) that there will be adequate parking for any vehicles generated by such #enlargement# or #extension#;

(3) that any required #side yard# shall be suitably landscaped or fenced as the Board shall prescribe;

(4) that any #accessory# parking or loading generated by such #enlargement# or #extension# shall be suitably buffered from adjacent #uses# by methods that the Board shall prescribe; and

(5) that the special permit, if granted, will not alter the essential character of the neighborhood or district in which the #use# is located, nor impair the future use or development of the surrounding area.

The Board may prescribe appropriate conditions and safeguards including, if appropriate, limitations on hours of parking and delivery, requirements for off-street loading, and location of curb cuts to minimize adverse effects of the #enlargement#, #extension# or existing #uses# on the character of the surrounding area, and to protect #residential# or #commercial zoning lots#.

73-60 - MODIFICATIONS OF BULK REGULATIONS

LAST AMENDED
7/22/1971

73-61 - General Provisions

LAST AMENDED
5/13/1982

Subject to the general findings required by Section 73-03 and in accordance with the provisions contained in Sections 73-62 to 73-68 inclusive, the Board of Standards and Appeals shall have the power to permit modification of the #bulk# regulations of this Resolution, and shall have the power to impose appropriate conditions and safeguards thereon.

In the #Special Midtown District#, the powers of the Board to permit modification of the #bulk# regulations are made inapplicable in accordance with the provisions of Section 81-061 (Applicability of Chapter 3 of Article VII).

73-62 - Modification of Bulk Regulations for Buildings Containing Residences

LAST AMENDED
2/2/2011

73-621 - Enlargement, change of use, or extension within buildings containing residential uses

LAST AMENDED
2/2/2011

For a complying or #non-complying# #building# existing on December 15, 1961, or in R2X, R3, R4 or R5 Districts on June 30, 1989, and containing #residential uses#, the Board of Standards and Appeals may permit an #enlargement#, a change of #use# or (in the case of a #mixed building#) an #extension#, provided that such #enlargement#, change of #use# or #extension# shall not create any new #non-compliance# or increase the amount or degree of any existing #non-compliance# except as provided in this Section.

In the districts and for the #buildings# for which an #open space ratio# is required, the #open space ratio# permitted under this Section shall not be less than 90 percent of the #open space ratio# required under the applicable #bulk# regulations set forth in Article II or III of this Resolution. In the districts and for the #buildings# to which a maximum #lot coverage# applies, the maximum #lot coverage# permitted under this Section shall not exceed 110 percent of the maximum #lot coverage# permitted under the applicable #bulk# regulations set forth in Article II or III of this Resolution. In all districts, the #floor area ratio# permitted under this Section shall not exceed the #floor area ratio# permitted under such regulations by more than 10 percent. In R2X, R3 or R4 Districts, the additional #floor area# permitted pursuant to this Section may be computed using a base #floor area ratio# including the #floor area# permitted under a sloping roof with a structural headroom between five and eight feet when such space is provided in the #building#.

73-622 - Bulk modifications for certain residential buildings on irregular sites

LAST AMENDED
12/5/2024

For #developments# or #enlargements# of #buildings#, except #sky exposure plane buildings#, in which at least 50 percent of the #dwelling units# either comply with the definition of "affordable housing unit" set forth in Section 27-111 (General definitions), or have a legally binding restriction limiting rents to households with incomes at or below 80 percent of the #income index#, as prescribed by a City, State or Federal agency, law regulation, or regulatory agreement, for a period of not less than 30 years, or at least 50 percent of its total #floor area# is a #long-term care facility# or philanthropic or non-profit institution with sleeping accommodation, the Board of Standards and Appeals may modify the underlying #bulk# regulations, other than #floor area ratio# or the maximum height of #buildings# or other #structures#, and provided that the Board finds that:

(a) there are physical conditions, including irregularity, narrowness or shallowness of lot size or shape, or topographical features that create practical difficulties in complying with the #bulk# regulations and would adversely affect the #building# configuration or site plan;

(b) the practical difficulties of developing on the #zoning lot# have not been created by the owner or by a predecessor in title;

(c) the proposed modifications will not unduly obstruct access of light and air to adjoining properties or #streets#;

(d) the proposed scale and placement of the #development# or #enlargement# relates harmoniously with the surrounding area; and

(e) the requested modification is the least amount necessary to relieve such practical difficulties.

The Board may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area.

73-623 - Reduction or modification of Mandatory Inclusionary Housing requirements

LAST AMENDED
12/5/2024

For a #development#, #enlargement# or #conversion# subject to the provisions of paragraph (a)(3), inclusive, of Section 27-131 (Mandatory Inclusionary Housing), the Board of Standards and Appeals may, upon determining that a hardship that is specifically created by the requirements of such Section exists, modify the income levels specified for #qualifying households#, reduce the amount of #affordable floor area# required or reduce the amount of a payment into the #affordable housing fund#, provided the Board finds that:

(a) the applicant has applied for any appropriate relief for which such #development#, #enlargement# or #conversion# is eligible for any financial hardship or practical difficulty not specifically created by the requirements of Section 27-131, paragraphs (a)(3)(i) through (a)(3)(v) and (a)(5);

(b) such requirements for #affordable housing# or a contribution to an #affordable housing fund# create an unnecessary hardship, with no reasonable possibility that a #development#, #enlargement# or #conversion# on the #zoning lot# in strict compliance with the provisions of Section 27-131, paragraphs (a)(3)(i) through (a)(3)(v) and (a)(5), and Section 27-10 (ADMINISTRATION OF AFFORDABLE HOUSING), inclusive, will bring a reasonable return, and that a modification or reduction of these requirements is therefore necessary to enable the owner to realize a reasonable return from such #zoning lot#; and

(c) the unnecessary hardship claimed as a basis for such modification or reduction has not been created by the owner or by a predecessor in title.

In determining whether a hardship exists, the Board shall consider whether alternative permitted #uses#, or alternative forms of housing tenure would bring a reasonable return from the #zoning lot#.

The Board may modify #affordable housing# requirements set forth in Section 27-131, paragraphs (a)(3)(i) through (a)(3)(iv) and (a)(5), to permit appropriate relief as follows.

First, the Board shall determine whether compliance with the requirements of Option 1, Option 2 or Option 3, as set forth in Section 27-131, paragraphs (a)(3)(i), (a)(3)(ii) and (a)(3)(iii), respectively, where not otherwise permitted, provides sufficient relief.

If the Board does not so find, the Board shall next determine whether compliance with the requirements of Option 4, as set forth in Section 27-131, paragraph (a)(3)(iv), where not otherwise permitted, provides sufficient relief.

If the Board does not so find, the Board, in consultation with the Department of Housing Preservation and Development, shall determine a modification or reduction of the requirements of Section 27-131, paragraph (a)(3)(i) through (a)(3)(iv) and (a)(5), that represents the minimum necessary modification or reduction to afford relief.

In addition, the Board, in consultation with the Department of Housing Preservation and Development, may permit a modification or reduction of the requirements of Section 27-131, paragraph (a)(3)(v) that represents the minimum necessary modification or reduction to afford relief.

A copy of each application to the Board for a special permit under the provisions of this Section shall be provided by the applicant to the Department of Housing Preservation and Development concurrently with its submission to the Board. Before the Board issues a final determination on any application made pursuant to this Section, #HPD# shall submit comment or appear before the Board regarding such application.

A special permit pursuant to this Section shall lapse after a term of four years, pursuant to Section 73-70 (LAPSE OF PERMIT). When considering an application for renewal of a special permit pursuant to paragraph (f) of Section 73-03 (General Findings Required for All Special Permit Uses and Modifications), the Board shall consult with #HPD# in determining whether the circumstances warranting the original grant of such permit still obtain, and may renew, modify, or deny the application for renewal, as appropriate.

The Board may prescribe such conditions and safeguards as it deems necessary to minimize adverse effects upon the surrounding area and the community at large.

73-624 - Modification of Affordable Housing Fund payment options in the SoHo NoHo Mixed Use District and the Special Midtown South Mixed Use District

LAST AMENDED
8/14/2025

Within the #Special SoHo-NoHo Mixed Use District# and the #Special Midtown South Mixed Use District#, for #conversions# from non-#residential# to #residential use# in #buildings# existing prior to December 15, 2021, that are not otherwise subject to paragraph (a)(3)(v) of Section 27-131 (Mandatory Inclusionary Housing), the Board of Standards and Appeals may permit a contribution to the #affordable housing fund# pursuant to such paragraph to satisfy the requirements of paragraph (a)(3), inclusive, of such Section, provided that the Board finds that:

(a) the configuration of the #building# imposes constraints, including, but not limited to, deep, narrow or otherwise irregular #building# floorplates, limited opportunities to locate #legally required windows#, or pre-existing locations of vertical circulation or structural column systems, that would create practical difficulties in reasonably configuring the required #affordable floor area# into a range of apartment sizes and bedroom mixes serving a number of lower-income residents comparable to what such quantity of #affordable floor area# would serve in a more typical configuration, pursuant to the #guidelines# of the Inclusionary Housing Program. Before the Board issues a final determination on any application made pursuant to this Section, the Department of Housing Preservation and Development shall submit comment or appear before the Board regarding this finding;

(b) the practical difficulties existed on December 15, 2021.

For the purposes of this Section, defined terms include those set forth in Sections 12-10 and 27-11.

A copy of each application to the Board for a special permit under the provisions of this Section shall be provided by the applicant to the Department of Housing Preservation and Development

concurrently with its submission to the Board.

The Board may prescribe such conditions and safeguards as it deems necessary to minimize adverse effects upon the surrounding area and the community at large.

73-63 - Enlargement of Non-residential Buildings

LAST AMENDED
2/2/2011

For a complying or #non-complying# #non-residential building# existing on December 15, 1961, the Board of Standards and Appeals may permit an #enlargement#, provided that such #enlargement# shall not create any new #non-compliance# or increase the amount or degree of any existing #non-compliance# except as provided in this Section.

In all districts, the #floor area ratio# permitted under this Section shall not exceed the #floor area ratio# permitted under the applicable #bulk# regulations set forth in Article II, III or IV of this Resolution by more than 10 percent, or 10,000 square feet, whichever is less.

73-64 - Modifications for Community Facility Uses

LAST AMENDED
6/6/2024

On a #zoning lot# occupied by any of the #community facility# #uses# specified in this Section, and in all districts where such #uses# are permitted as-of-right or by special permit, the Board of Standards and Appeals may permit #developments# or #enlargements# for such #uses#, which do not comply

with certain applicable district #bulk# regulations, in accordance with the provisions of this Section.

Such specified #community facility# #uses# include the following #uses# listed under Use Group III:

College or school student dormitories or fraternity and sorority student houses

Colleges or universities, including professional schools, but excluding business colleges or trade schools

Community centers

Houses of worship, rectories, parish houses or seminaries

Libraries, museums or non-commercial art galleries

Monasteries, convents or novitiates

#Non-profit hospital staff dwellings#

Non-profit or voluntary hospitals and related facilities

Philanthropic or non-profit institutions with or without sleeping accommodations, excluding ambulatory diagnostic or treatment health care facilities listed in Use Group III(B)

#Schools#.

73-641 - Integration of new buildings or enlargements with existing buildings

LAST AMENDED
11/30/2017

For any such new #building# or #enlargement#, subject to the required findings set forth in this Section, the Board of Standards and Appeals may permit modifications of the applicable regulations in Sections 24-38, 33-28 or 43-28 (Special Provisions for Through Lots), or in Sections 24-50 through 24-55, inclusive, paragraphs (b) through (d) of Section 24-56, Sections 33-40 through 33-45, inclusive, or Sections 43-41 through 43-45, inclusive, relating to Height and Setback Regulations, or in Sections 24-61 through 24-65, inclusive, Section 33-51, or Section 43-51, relating to Court Regulations and Minimum Distance between Windows and Walls or Lot Lines, provided that on December 15, 1961, the applicant owned the #zoning lot# or any portion thereof, and continuously occupied and used one or more #buildings# located thereon for a specified #community facility# #use#, from December 15, 1961, until the time of application. However, for #Quality Housing buildings# utilizing the height and setback regulations of Article II, Chapter 3, as required by Sections 24-50 and 33-40, the Board shall not permit modification to the provisions of Sections 23-67 through 23-69, inclusive.

As a condition of granting such modification, the Board shall find:

(a) that such modification is required in order to enable such #use# to provide an essential service to the community;

(b) that without such modification there is no way to design and construct the new #buildings# or #enlargements# in satisfactory physical relationships to the existing #buildings# which are to remain upon the site, so as to produce an integrated development; and

(c) that such modification is the minimum modification necessary to permit the development of such integrated community facility, and thereby creates the least detriment to the character of the neighborhood and the use of nearby #zoning lots#.

73-642 - Temporary failure to comply

LAST AMENDED

2/2/2011

In any district where such a specified #community facility# #use# is permitted, and on any #zoning lot# where one or more #buildings# occupied by such #use# exist on the date of application for the special permit, the Board of Standards and Appeals may permit #development# or #enlargements# which, only because of the continued existence of such #buildings# on a temporary basis, fail to comply with one or more of the applicable district #bulk# regulations, provided that the Board finds that continued use of the existing #buildings# is essential as a service to the community until the new construction makes it possible to replace the facilities contained therein.

The Board shall prescribe as a condition of such permit that such existing #buildings# will be removed within a stated period of time not to exceed two years after completion of the #development# or #enlargement#.

73-643 - Community centers

LAST AMENDED
2/2/2011

In any such #development# or #enlargement# consisting of a community center serving primarily the residents of the #zoning lot#, the Board of Standards and Appeals may permit the density regulations set forth in Sections 24-20 (APPLICABILITY OF DENSITY REGULATIONS TO ZONING LOTS CONTAINING BOTH RESIDENTIAL AND COMMUNITY FACUILITY USES) or 35-40 (APPLICABILITY OF DENSITY REGULATIONS) to be modified, provided that the total number of #dwelling units# permitted by these Sections and all other applicable #bulk# regulations set forth in Articles II and III of this Resolution shall not be increased by more than 10 percent.

73-65 - Public Utilities and Special Infrastructure

LAST AMENDED
12/6/2023

73-651 - Enlargement of public utility facilities

LAST AMENDED
12/6/2023

The Board of Standards and Appeals may permit modifications to the #bulk# regulations for certain #enlargements# of public utility facilities set forth in paragraph (a) of this Section, provided that the findings set forth in paragraph (b) are met.

(a) The Board may permit #enlargements# which do not comply with the applicable district #bulk# regulations for #buildings or other structures# existing on December 15, 1961, within which any one of the following public utilities is located:

Electric or gas utility substations;

Telephone exchanges or other communications equipment structures;

Water or sewage pumping stations; or

#Energy infrastructure equipment#.

(b) In order to grant such permit, the Board shall find:

(1) that the growth of the utility service demand in the area served by the #building or other structure# requires such #enlargement# to house the additional facilities needed to fulfill the demand;

(2) that the network of lines, pipes or other distribution facilities located below the surface of the #streets# is so integrated with the operations carried on within such #building# that the provision of such additional facilities at another location would cause substantial duplication of plant and facilities and inconvenience to the public; and

(3) that #non-compliance#, if any, with the applicable #yard# or height and setback regulations is the minimum made necessary by essential engineering requirements.

The Board may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area and shall require that the certificate of occupancy shall be limited to such #use#.

73-652 - Energy infrastructure equipment and mechanical equipment

LAST AMENDED
12/6/2023

The Board of Standards and Appeals may permit the #bulk# modifications set forth in paragraph (a) of this Section, provided that the findings set forth in paragraph (b) are met.

(a) The Board may permit modifications to all #bulk# regulations, other than #floor area ratio#, in order to accommodate #energy infrastructure equipment# or #accessory# mechanical equipment.

(b) In order to grant such permit, the Board shall find that:

(1) such modifications would facilitate one or more of the following sustainability goals:

(i) reduction of the electrical demand of the #building# on the energy grid;

(ii) increased energy generation or storage at an essential location for the purposes of operating the energy grid;

(iii) support compliance with the standards of the New York City Energy Conservation Code (NYCECC); or

(iv) support compliance with the carbon emission reduction requirements of Local Law 97 of 2019;

(2) such modifications are the minimum necessary to allow for an appropriate installation, with consideration for collocation of other #uses#, whether upon a rooftop, within a #building or other structure#, or in an open area on the #zoning lot#; and

(3) the proposed modifications will not impair the character or the future use or development of the surrounding area.

The Board may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area.

73-66 - Height Regulations Around Airports

LAST AMENDED
7/23/1964

The Board of Standards and Appeals may permit the construction, #enlargement#, or reconstruction of a #building or other structure# in excess of the height limits established under Sections 61-21 (Restriction on Highest Projection of Building or Structure) or 61-22 (Permitted Projection Within any Flight Obstruction Area), provided that the applicant submits a site plan, with elevations, showing the proposed #building or other structure# in relation to such maximum height limits, and that the Board finds that such proposed #building or other structure#, #enlargement#, or reconstruction would not constitute a hazard (either under the existing layout of the airport or under any planned reorientation or lengthening of the airport runways) to the safety of the occupants of such proposed #building#, to other #buildings# in the vicinity or to the safety of air passengers, and would not disrupt established airways.

The Board shall refer the application to the Federal Aviation Administration for a report as to whether such construction will constitute a danger to the safety of air passengers or disrupt established airways.

73-67 - Additional Floor Space of Public Parking Garages

LAST AMENDED
10/29/2007

In C2-1, C2-2, C2-3, C2-4, C4-1, C4-2, C4-3, C4-4, C4-5D, C7, C8-1, C8-2, C8-3, M1-1, M1-2, M1-3, M2-1, M2-2 or M3-1 Districts, for #public parking garages# with a total of 150 spaces or less, the Board of Standards and Appeals may permit floor space on one or more #stories# to be exempted from the definition of #floor area# as set forth in Section 12-10 (DEFINITIONS), provided that all floor space so exempted is located not more than 23 feet above #curb level# and provided that the following findings are made:

(a) that the additional floor space permitted is needed in order to prevent excessive on-street parking demand and relieve traffic congestion; and

(b) that the hazards or disadvantages to the community at large resulting from the additional floor space permitted are outweighed by the advantages to be derived by the community therefrom under the conditions and safeguards imposed.

The Board may impose appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area.

73-68 - Height and Setback and Yard Modifications

LAST AMENDED
2/2/2011

In C5-5, C6-8 and C6-9 Districts, the Board of Standards and Appeals may permit modifications of the applicable regulations in Sections 33-26 to 33-30, inclusive, relating to Rear Yard Regulations, or in Sections 33-41 to 33-45, inclusive, relating to Height and Setback Regulations.

The Board may grant such modifications upon consideration that the applicable height and setback or #rear yard# regulations cannot be complied with by some method feasible for the applicant to pursue because of size or irregular shape of the lot, size or irregular shape of the #block#, and width of #streets#. The Board shall also consider the characteristics of surrounding development.

The Board shall require, where appropriate, sufficient safeguards to ensure the free flow of pedestrian and vehicular traffic in the general area. The Board may prescribe additional appropriate conditions and safeguards to enhance the character of the surrounding area.

73-69 - Rear Yard Modifications

LAST AMENDED
4/30/2008

The Board of Standards and Appeals may permit modifications to the #rear yards# required pursuant to Sections 23-344, 24-393, 33-303 or 43-313 (For zoning lots with multiple rear lot lines) for #zoning lots# existing on April 30, 2008, provided the following findings are made:

(a) that due to the irregular shape of the #zoning lot#, compliance with the #rear yard# regulations would create site planning constraints and adversely affect the layout and development of the site; and

(b) that the requested reduction in #rear yard# depth is the least amount necessary to grant relief.

The Board may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area.

73-70 - ADDITIONAL MODIFICATIONS OF BULK REGULATIONS

LAST AMENDED
6/6/2024

73-71 - Bulk modifications for community facilities in lower density growth management areas

LAST AMENDED
6/6/2024

In addition, for #buildings# in R3, R4 and R5 Districts in #lower density growth management areas# subject to the provisions of Section 24-05 (Buildings containing certain community facility uses) the Board may permit the #development# of a #building# pursuant to the #bulk# regulations of Article II, Chapter 4 (Bulk Regulations for Community Facilities in Residence Districts).

In order to grant such special permit, the Board shall find that:

(a) the amount and type of open area and its distribution on the #zoning lot# is compatible with the character of the neighborhood;

(b) the distribution of #bulk# on the #zoning lot# will not unduly obstruct access of light and air to adjoining properties or #streets#; and

(c) the scale and placement of the #building# on the #zoning lot# relates harmoniously with surrounding #buildings#.

The Board may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area.

73-80 - SPECIAL PERMITS IN THE FLOOD ZONE

LAST AMENDED
6/6/2024

The following Sections shall apply to #zoning lots# located wholly or partially within the #flood zone#.

73-81 - Special Permit for Modification of Certain Zoning Regulations

LAST AMENDED
6/6/2024

In #flood zones#, for all districts, the Board of Standards and Appeals may permit modification of the provisions of Article VI, Chapter 4 (Special Regulations Applying in Flood Zones), and any other applicable ground floor #use#, supplementary #use#, #bulk#, and parking regulations of the Zoning Resolution, provided that the conditions of paragraph (a) of this Section, and the findings of paragraph (b) are met.

For the purposes of this Section, defined terms include those in Section 12-10 and those in Section 64-11.

(a) Conditions

All applications shall be subject to the following conditions:

(1) the #building# complies with #flood-resistant construction standards#;

(2) any modification of height and setback regulations related to increasing the permitted overall height shall not exceed the maximum height permitted by the applicable underlying district regulations by 10 percent, or 10 feet, whichever is greater, as measured from the #reference plane#; and

(3) any increase in the amount of permitted #floor area# shall be limited to no more than 20 percent of the #floor area# permitted on the #zoning lot#, and in no event more than 10,000 square feet of #floor area#. However, such restriction shall not apply to #non-complying# #buildings# with #non-complying# #floor area#, provided that the total #floor area# of the altered, #enlarged#, relocated, or reconstructed #building#, does not exceed the amount of existing #floor area# of such pre-existing #building#.

(b) Findings

In order to grant the special permit, the Board shall find that:

(1) there would be a practical difficulty in complying with #flood-resistant construction standards# without such modifications, and that such modifications are the minimum necessary to allow for an appropriate #building# in compliance with #flood-resistant construction standards#;

(2) any modification related to an increase in the amount of permitted #floor area# is the minimum necessary to address practical difficulties in retaining pre-existing habitable space;

(3) any modification related to parking regulations to permit a reduction in the number of #accessory# off-street parking spaces and the change in location of #accessory# off-street parking spaces, will:

(i) facilitate an improved site plan;

(ii) not cause traffic congestion; and

(iii) not have undue adverse effects on residents, businesses or #community facilities# in the surrounding area, as applicable, including the availability of parking spaces for such #uses#; and

(4) the proposed modifications will not alter the essential character of the neighborhood in which the #building# is located, nor impair the future use or development of the surrounding area in consideration of the neighborhood's potential development in accordance with #flood-resistant construction standards#.

The Board may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area.

73-90 - LAPSE OF PERMIT

LAST AMENDED
6/6/2024

A special permit for a specified #use# or for a modification of the #use# or #bulk# regulations granted under the provisions of this Resolution shall automatically lapse if substantial construction, in accordance with the plans for which such permit was granted, has not been completed within four years from the date of granting such permit by the Board of Standards and Appeals or, if judicial proceedings have been instituted to review the Board's decision, the four-year lapse period shall commence upon the date of entry of the final order in such proceedings, including appeals

Zoning Resolution

THE CITY OF NEW YORK

CITY PLANNING COMMISSION
Sideya Sherman, Chair

Chapter 4 - Special Permits by the City Planning Commission

File generated by https://zr.planning.nyc.gov on 6/23/2026

Chapter 4 - Special Permits by the City Planning Commission

74-00 - POWERS OF THE CITY PLANNING COMMISSION

LAST AMENDED
12/15/1961

74-01 - General Provisions

LAST AMENDED
6/6/2024

In harmony with the general purpose and intent of this Resolution and in accordance with the provisions set forth in this Chapter, the City Planning Commission may, after public notice and hearing, grant special permits in specific districts for the #uses# listed in this Chapter, whose location or control requires special consideration or major planning factors, or for specified modifications of the #use# or #bulk# regulations of this Resolution, provided that in each specific case the requirement for findings as set forth in this Chapter shall constitute a condition precedent to the grant of such special permit.

In addition to meeting the requirements, conditions, and safeguards prescribed by the Commission as set forth in this Chapter, each such special permit #use# or #building or other structure# permitted hereunder shall conform to and comply with all of the applicable regulations on #use#, #bulk#, supplementary #use# regulations, regulations applying along district boundaries, #accessory# #signs#, #accessory# off-street parking and off-street loading, and all other applicable provisions of this Resolution except as otherwise specifically provided in this Chapter.

In addition, the Commission, with the concurrence of the Board of Estimate, shall also have the power to permit the renewal of an exception or permit issued prior to December 15, 1961, in accordance with the provisions of Section 11-41 relating to Exceptions, Variances or Permits Previously Authorized.

In all Special Purpose Districts, the provisions of Section 27-134 (Special permit approval in special purpose districts), with respect to special permits that modify #use# or #bulk#, shall apply. In the #Special Midtown District#, the powers of the Commission to permit special permit #uses# are modified by the provisions of Section 81-13 (Special Permit Use Modifications), and the powers of the Commission to permit modification of the #bulk# regulations or grant bonus #floor area# for certain amenities are made inapplicable or modified in accordance with the provisions of Section 81-062 (Applicability of Chapter 4 of Article VII).

In the #waterfront area#, the powers of the Commission to grant special permits are made inapplicable or modified in accordance with the provisions of Section 62-132 (Applicability of Article VII, Chapters 4, 8 and 9).

Except as permitted pursuant to this Chapter, in R3, R4 or R5 Districts, the following #uses# listed under Use Group IV shall be subject to the height and setback requirements of an R2 District:

Fire stations

Police stations

Electric utility substations or public transit or railroad electric substations, limited to sites of not less than 40,000 square feet and not more than 10 acres

Sewage disposal plants.

74-02 - Further Requirements

LAST AMENDED
6/6/2024

It shall be a further requirement that the decision or determination of the City Planning Commission shall set forth each required finding in each specific grant of a special permit #use#, or modification of the #use# or #bulk# regulations, and in each denial thereof which of the required findings has not been satisfied. In any such case, each finding shall be supported by substantial evidence or other data considered by the Commission in reaching its final decision, including the personal knowledge of or inspection by the members of the Commission.

74-03 - Requirements for Applications

LAST AMENDED
6/6/2024

An application to the City Planning Commission for the grant of a special permit respecting any of the #uses# specified in this Chapter shall include a site plan showing the location and proposed #use# of all #buildings or other structures# on the site, the location of all vehicular entrances and exits and off-street parking spaces, and such other information as may be required by the Commission.

74-04 - Conditions and Safeguards

LAST AMENDED
6/6/2024

The City Planning Commission may prescribe such conditions and safeguards to the grant of special permits as it may deem necessary in the specific case, in order to minimize the adverse effects of such special permit upon other property and the community at large. Such conditions and safeguards shall

be incorporated in the building permit and certificate of occupancy. Failure to comply with such conditions or restrictions shall constitute a violation of this Resolution, and may constitute the basis for denial or revocation of a building permit or certificate of occupancy and for all other applicable remedies.

74-05 - General Provisions for Special Permit Uses

LAST AMENDED
6/6/2024

The City Planning Commission shall have the power to permit in the districts indicated, the special permit #uses# set forth in this Chapter and to prescribe appropriate conditions and safeguards thereon, provided that in each specific case:

(a) The Commission shall make all of the findings required in the applicable sections of this Chapter with respect to each such special permit #use#, and shall find that the hazards or disadvantages to the community at large through the location of such #use# at the particular site are outweighed by the advantages to be derived by the community from the grant of such special permit #use#.

The Commission shall in each case determine that the adverse effects, if any, on the privacy, quiet, light and air in the neighborhood of such #use# will be minimized by appropriate conditions governing location of the site, design and method of operation.

(b) In all cases, the Commission shall deny a special permit #use# whenever such #use# will interfere with a public improvement project (including housing, highways, public #buildings# or facilities, redevelopment or renewal projects, or rights-of-way for sewers, transit or other public facilities) which is approved by or pending before the Board of Estimate or City

Planning Commission, as determined from the calendar of each such agency issued prior to the date of the public hearing on the application for a special permit #use#.

(c) Where, under the applicable findings, the Commission is required to determine whether the special permit #use# is appropriately located in relation to the #street# system, the Commission shall make such determination on the basis of the Master Plan of Arterial Highways and Major Streets. Whenever the Commission is required to make a finding on the location of a proposed special permit #use# in relation to secondary or local #streets# and such classification of #streets# is not shown on the Master Plan, the Commission shall thereupon establish the appropriate classification of such #streets#.

(d) All applications relating to Sections 74-41 to 74-70, inclusive, and Section 74-80 shall be referred by the Commission to the Department of Traffic for its report with respect to the anticipated traffic congestion resulting from such special permit #use# in the proposed location, and when so required in the specific Section, the Commission shall refer the application to a designated agency for a report on the issue in question. If such agency shall report thereon within one month from the date of referral, the Commission shall, in its determination, give due consideration to such report and, further, shall have the power to substantiate the appropriate findings solely on the basis of the report by such agency with respect to the issue referred. If such agency does not report within one month, the Commission may make a final determination without reference thereto.

(e) The Commission may authorize any special permit #use# for such term of years as it deems appropriate.

(f) The Commission may permit the #enlargement# or #extension# of any existing #use# which, if new, would be permitted by special permit in the specified districts under the provisions of Section 74-01 (General Provisions) and other applicable provisions of this Chapter, provided that before granting any such permit for #enlargement# or #extension# within the permitted districts, the Commission shall make all of the required findings applicable to the special

permit #use#, except that:

(1) in the case of #public parking garages# or #public parking lots#, the Commission may waive all such applicable required findings set forth in Sections 74-193 or 74-194; and

(2) in the case of electric utility substations or public transit or railroad electric substations, the Commission may waive all such required findings set forth in Sections 74-142 or 74-147, except that the requirements with respect to site size shall not be waived.

No such #enlargement# or #extension# shall create a new #non-compliance# or increase the degree of #non-compliance# with the applicable #bulk# regulations.

74-06 - Additional Considerations for Special Permit Use and Bulk Modifications

LAST AMENDED
6/6/2024

Where a special permit application would allow a significant increase in #residential# #floor area# and the special #floor area# requirements in #Mandatory Inclusionary Housing areas# of Section 27-131 (Mandatory Inclusionary Housing) are not otherwise applicable, the City Planning Commission, in establishing the appropriate terms and conditions for the granting of such special permit, shall apply such requirements where consistent with the objectives of the Mandatory Inclusionary Housing program as set forth in Section 27-12 (General Provisions). However, where the Commission finds that such special permit application would facilitate significant public infrastructure or public facilities addressing needs that are not created by the proposed #development#, #enlargement# or #conversion#, the Commission may modify the requirements of Section 27-131.

74-10 - SPECIAL PERMIT USES

LAST AMENDED
6/6/2024

74-11 - Agriculture and Other Open Uses

LAST AMENDED
6/6/2024

74-12 - Residences

LAST AMENDED
6/6/2024

74-121 - Residential use in C4-1 Districts in Staten Island

LAST AMENDED
12/5/2024

In the Borough of Staten Island, in C4-1 Districts that occupy at least four acres within a #block#, the City Planning Commission may permit #residences#, provided such #residences# comply with the #bulk# regulations for R5 Districts as set forth in Article II, Chapter 3, or Article III, Chapter 5, as applicable.

In order to grant such permit, the Commission shall find that such #residences# are part of a superior site plan, such #residences# are compatible with the character of the surrounding area and that the #streets# providing access to such #residences# are adequate to handle the traffic generated thereby or provision has been made to handle such traffic.

The Commission may prescribe appropriate safeguards and conditions to minimize the adverse effect of any #residences# permitted under this Section on the character of the surrounding area.

74-13 - Community Facilities

LAST AMENDED
6/6/2024

74-131 - Long-term care facilities

LAST AMENDED
12/5/2024

The Commission may permit #long-term care facilities# listed under Use Group III(A) in R1 and R2 Districts where they are not permitted as of right, provided that the following findings are made:

(a) such #use# is compatible with the character of the surrounding area;

(b) the proposed #building# access, orientation and landscaping create an adequate buffer between the proposed facility and nearby #residences#; and

(c) the #streets# providing access to such #use# are adequate to handle the traffic generated thereby or provision has been made to handle such traffic.

Where such #use# is permitted by the Commission, it may be eligible for #bulk# modification, pursuant to the provisions of Section 74-902 (Certain community facility uses in R1 and R2 Districts and certain Commercial Districts).

The Commission may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area.

74-132 - Non-profit hospital staff dwellings

LAST AMENDED
6/6/2024

The City Planning Commission may permit #non-profit hospital staff dwellings# in accordance with the conditions of paragraph (a) of this Section, provided that the findings of paragraph (b) are met.

(a) The Commission may permit:

(1) in all #Residence Districts#, or in C1, C2, C3, C4, C5, C6 or C7 Districts, #non-profit hospital staff dwellings# located on a #zoning lot#, no portion of which is located more than 1,500 feet from the non-profit or voluntary hospital and related facilities; or

(2) in C4-2 Districts without a letter suffix, in Community District 11 in the Borough of the Bronx, #non-profit hospital staff dwellings# on #zoning lots# located not more than 1,500 feet from the non-profit or voluntary hospital and related facilities.

(b) To permit such #non-profit hospital staff dwellings#, the Commission shall find:

(1) that the #bulk# of such #non-profit hospital staff dwelling# and the density of population housed on the site will not impair the essential character or the future use

or development of the surrounding area; and

(2) that the number of #accessory# off-street parking spaces provided for such #use# will be sufficient to prevent undue congestion of #streets# by such #use#.

The Commission may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area.

74-133 - Swimming pool clubs or certain non-commercial clubs

LAST AMENDED
6/6/2024

In all #Residence Districts#, the City Planning Commission may permit a non-commercial outdoor swimming pool club, or any non-commercial club with an outdoor swimming pool located less than 500 feet from any #lot line#, provided that the following findings are made:

(a) that such #use# is so located as not to impair the essential character or future use or development of the nearby residential neighborhood;

(b) that such #use# is so located as to draw a minimum of vehicular traffic to and through local #streets#;

(c) that such #use# has adequate reservoir space at the vehicular entrance to prevent the congestion of automobiles on the #streets#;

(d) that in R1, R2, R3 or R4 Districts, the pool or any #accessory# facilities affixed to the land are not located closer than 100 feet or, in the case of an #accessory# outdoor tennis court, such tennis court shall not be closer than 20 feet, to any #side# or #rear lot line# coincident with a #side# or #rear lot line# of an adjoining #zoning lot# in a #Residence District#, and not

located closer than 50 feet to any #street line#, and that any planned temporary enclosure such as an air-supported structure be indicated on the plans submitted with this application, and in no event shall such a structure be located closer than 50 feet from any #street# or #lot line#, if such a structure is planned subsequent to the approval of the special permit, then an amended application subject to the same approvals of this Section shall be submitted; and

(e) that for every 200 square feet of #lot area# used for the pool and its #accessory# facilities, one #accessory# off-street parking space is provided.

The Commission may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area, including limitations on #signs# or the hours of operation, or requirements for shielding of floodlights, screening or surfacing of all access roads or driveways.

74-134 - Other community facility uses in M1 Districts

LAST AMENDED
6/6/2024

In M1 Districts, the City Planning Commission may permit any remaining #uses# listed under Use Group III(B), other than educational institutions, provided that such #use# is located not more than 400 feet from the boundary of a district where such facility is permitted as-of-right and the Commission finds that:

(a) an adequate separation from noise, traffic and other adverse effects of the surrounding non-#residential districts# is achieved through the use of sound-attenuating exterior wall and window construction or by the provision of adequate open areas along #lot lines# of the #zoning lot#;

(b) such facility is so located as to draw a minimum of vehicular traffic to and through local #streets# and that such #use# will not produce traffic congestion or other adverse effects that interfere with the appropriate #use# of land in the district or in any adjacent district;

(c) where applicable, adequate reservoir space at the vehicular entrance and sufficient vehicular entrances and exits are provided to prevent congestion;

(d) in selecting the site, due consideration has been given to the proximity and adequacy of bus and rapid transit facilities;

(e) within the neighborhood primarily to be served by the #community facility#, there is no practical possibility of obtaining a site of adequate size located in a district where it is permitted as-of-right because appropriate sites in such districts are occupied by substantial improvements; and

(f) such facility will not impair the essential character of the surrounding area.

The Commission may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area.

74-14 - Public Service Facilities and Infrastructure

LAST AMENDED
6/6/2024

74-141 - Fire or police stations

LAST AMENDED
6/6/2024

In all #Residence Districts#, the City Planning Commission may permit fire or police stations listed under Use Group IV(A), provided that the following findings are made:

(a) that such #use# will serve the residential area within which it is provided to be located; that there are serious difficulties in locating it in a district wherein it is permitted as-of-right and from which it could serve the residential area, which make it necessary to locate such #use# within a #Residence District#; and

(b) in the case of fire stations, that such #use# is so located as to minimize the movement of fire apparatus through local #streets# in residential areas.

For any such #use#, the Commission may permit appropriate modifications of the applicable regulations of Article II, Chapter 3, provided that such #use# complies with all the applicable district #bulk# regulations for #community facility buildings# as set forth in Article II, Chapter 4.

The Commission may prescribe appropriate conditions or safeguards to minimize adverse effects on the character of the surrounding area, including requirements for landscaping.

74-142 - Electric utility substations

LAST AMENDED
6/6/2024

In all #Residence# and #Commercial Districts#, and in M1 Districts in the #Special Downtown Jamaica District#, the City Planning Commission may permit electric utility substations (including transformers, switches, or auxiliary apparatus) listed under Use Group IV(B), limited in each case to a site of not less than 40,000 square feet nor more than 10 acres, provided that the following findings are made:

(a) that there are serious difficulties in locating such #use# in a nearby district where it is permitted as-of-right;

(b) that the site for such #use# is so located as to minimize the adverse effects on the integrity of existing and future development;

(c) that the architectural and landscaping treatment of such #use# will blend harmoniously with the rest of the area; and

(d) that such #use# will conform to the performance standards applicable to M1 Districts.

The City Planning Commission may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area, including requirements for soundproofing of electric substations, for the construction of fences, barriers, or other safety devices, for surfacing of all access roads and driveways, for shielding of floodlights or other artificial illumination, or for landscaping or screening.

74-143 - Sewage pumping stations and sewage disposal plants

LAST AMENDED
6/6/2024

The City Planning Commission may permit sewage pumping stations and sewage disposal plants listed under Use Group IV(B) pursuant to paragraphs (a), (b) or (c) of this Section, as applicable.

(a) Private sewage pumping stations and sewage disposal plants

In all #Residence Districts#, the Commission may permit private sanitary or storm water sewage pumping stations and sewage disposal plants, provided that:

(1) such use will serve a #development# which contains more than 15 #dwelling units#;

(2) there are serious difficulties in locating it in a district where it is permitted as-of-right from which it could serve the residential area;

(3) in the case of sewage pumping stations, the sewers and treatment plants to which the flow is to be pumped will be adequate to accommodate anticipated future development in the area to be served by these facilities;

(4) for sewage disposal plants:

(i) the related #development# is arranged in such a way as best to serve active and passive recreation needs; protect and preserve scenic assets and natural features such as trees, streams and topographic features; and provide suitable variations in the siting of #buildings# to achieve these objectives; and

(ii) the proposed plant will be adequate for anticipated development in the area to be served; or

(5) in all cases, the proposal promotes and protects the public health, safety and general welfare.

In addition, the Commission shall refer such application to the Department of Health and the Department of Environmental Resources for a report.

The Commission may review the scope and impact of the proposal on public facilities and may, in addition, prescribe appropriate conditions or safeguards without dictating the architectural design of individual #buildings# in order to minimize adverse effects on the surrounding area.

(b) Private sewage disposal plants

In all #Residence Districts#, #Commercial Districts# and M1 and M2 Districts, the City Planning Commission may permit private sewage disposal plants provided that:

(1) such #use# will serve the commercial or residential area within which, or adjacent to which, it is to be located;

(2) that in the case of a residential area, such area contains more than 50 #dwelling units#; and

(3) that there are serious difficulties in locating it in a district where it is permitted as-of-right from which it could serve the residential area or commercial area.

In addition, the Commission shall refer such application to the Department of Health and the Department of Environmental Protection for a report.

The Commission may prescribe appropriate conditions or safeguards to minimize adverse effects on the character of the surrounding area including safety devices and the concealment of such #use# with fences, buffer zones, barriers or other screening devices, and landscaping.

(c) Municipal sewage pumping stations and sewage disposal plants

In all #Residence Districts#, the Commission may permit municipal sewage pumping stations, and in all #Residence Districts#, #Commercial Districts# and M1 and M2 Districts, the Commission may permit municipal sewage disposal plants, provided that:

(1) there are serious difficulties in locating it in a district where it is permitted as-of-right;

(2) in the case of sewage disposal plants, the proposed plant will be adequate for anticipated development in the area to be served;

(3) in the case of sewage pumping stations, the sewers and treatment plants to which the flow is to be pumped will be adequate to accommodate anticipated future development in the area to be served by these facilities; and

(4) in all cases, the proposal promotes and protects the public health, safety and general welfare.

The Commission may prescribe appropriate conditions or safeguards to minimize adverse effects on the character of the surrounding area including safety devices and the concealment of such #use# with fences, buffer zones, barriers or other screening devices and landscaping.

74-144 - Airports

LAST AMENDED
6/6/2024

In all #Manufacturing Districts#, the City Planning Commission may permit the construction, reconstruction, or #enlargement# of airports and their facilities listed under Use Group IV(B), in any case where the applicant has submitted a site plan showing the location and dimensions of all runways, provided that the following findings are made:

(a) that the airport is an appropriate #use# of the land and will not unduly interfere with surrounding land #uses#; and

(b) that due consideration has been given to the selection of a site situated near or adjacent to large parks or other open areas, or bodies of water.

The Commission shall refer the application to the Federal Aviation Administration, for the report of such agency as to whether such airport is either an integral part of, or will not interfere with, the

general plan of airports for New York City and the surrounding metropolitan region; and whether a new, reoriented, or lengthened runway will interfere with the flight pattern of any nearby airport.

The Commission may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area, and in the event that the application is granted, the Commission may adopt a resolution to amend the #zoning maps# so that for a depth of at least one-quarter mile around the entire perimeter of the airport, any adjacent #Residence District# shall be mapped as an R1, R2, or R3 District, and any adjacent #Commercial# or #Manufacturing District# shall be mapped as a C1, C2, C3, C4-1, C7, C8-1, C8-2, M1-1, M1-2, M1-4, M2-1, M2-3 or M3 District.

The Commission shall require the provision of adequate #accessory# off-street parking spaces necessary to prevent the creation of traffic congestion caused by the curb parking of vehicles generated by such #use# and shall determine the required spaces in accordance with the purposes established in this Resolution with respect to other major traffic-generating facilities.

74-145 - Bus stations

LAST AMENDED
11/21/2024

The City Planning Commission may permit bus stations listed under Use Group IV(B) with fewer than 10 berths pursuant to paragraph (a) of this Section, and with 10 or more berths pursuant to paragraph (b) or paragraph (c), as applicable.

All bus stations lawfully existing on December 15, 1961 are permitted to continue for the duration of the term for which such #use# has been authorized but the #enlargement#, #extension#, reconstruction or relocation of any bus station heretofore or hereafter constructed shall not be permitted except in accordance with the provisions set forth in this Section.

(a) In C1, C2, C4, C6, C7 or C8 Districts, or in any #Manufacturing District#, the Commission may permit bus stations with fewer than 10 berths for buses on a site of not less than 20,000 square feet, provided that the following findings are made:

(1) that the use of the premises as a bus station will not create serious traffic congestion, will not be detrimental to public health or general welfare and is consistent with the master plan of the city;

(2) that the principal access of such #use# is not located on a local #street#;

(3) that vehicular entrances and exits for such facility are provided separately and are located not less than 50 feet apart; and

(4) that access to such #use# is located on a #street# not less than 60 feet in width.

The Commission may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area.

In addition, the Commission shall require the provision of adequate #accessory# off-street parking spaces necessary to prevent the creation of traffic congestion caused by the curb parking of vehicles generated by such #use#, and shall determine the required spaces in accordance with the purposes established in this Resolution with respect to other major traffic-generating facilities. The Commission shall require, in any event, not less than 10 spaces for the temporary parking of automobiles.

(b) In C4, C6 or #Manufacturing Districts#, the Commission may permit the construction of a bus station with 10 or more berths for buses on a site of not less than 20,000 square feet, provided that the following findings are made:

(1) that the use of the premises as a bus station will not create serious traffic congestion, will not be detrimental to public health or general welfare and is consistent with the master plan of the city;

(2) that the principal access for such #use# is not located on a local #street# but is located either on an arterial highway, a major #street# or a secondary #street# within one-quarter mile of an arterial highway or major #street#;

(3) that such #use# is not located within 200 feet of a #Residence District#, or is otherwise separated from nearby #residential# areas by topographical or physical conditions of the land;

(4) that vehicular entrances and exits for such facility are provided separately and are located not less than 100 feet apart; and

(5) that access to such #use# is located on a #street# not less than 60 feet in width.

The Commission may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area.

In addition, the Commission shall require the provision of adequate #accessory# off-street parking spaces necessary to prevent the creation of traffic congestion caused by the curb parking of vehicles generated by such #use# and shall determine the required spaces in accordance with the purposes established in this Resolution with respect to other major traffic-generating facilities. The Commission shall require, in any event, no less than 20 spaces for the temporary parking of automobiles.

(c) In any #Commercial District# or #Manufacturing District#, the Commission may permit the construction of a bus station with 10 or more berths for buses on a site of any size, where the

#bus station and related facilities# are located wholly or partially in the #Special Midtown District# within Community District 4 in the Borough of Manhattan.

For purposes of this paragraph (c), a "bus station and related facilities" shall refer to: any bus station and #uses# #accessory# thereto that are #developed# in accordance with a special permit granted under this paragraph (c); and any #uses# that are constructed and maintained pursuant to Chapter 8 of Title 17 of the Unconsolidated Laws of New York.

In conjunction with a permit for a bus station, when the air space above a #street# or portion thereof is closed, demapped and conveyed by the City to the owner of an adjoining #zoning lot# that will contain such bus station, the Commission may permit, in such demapped air space, the #development# or #enlargement# of a #building# or portion thereof which is part of such bus station. The Commission may also permit, in connection with such bus station or any other #use# #developed# on the same #zoning lot# as such bus station, the modification of any applicable mandatory district plan elements, #bulk# regulations of this Resolution other than #floor area ratio# provisions, or the distribution of total allowable #floor area# without regard for #zoning lot# lines or district boundaries.

In order to grant such a permit, the Commission shall determine that the conditions set forth in paragraph (c)(1) and the findings set forth in paragraphs (c)(2) and (c)(3) of this Section, as applicable, are met.

Where the #bus station and related facilities# allowed under this Section will be #developed# pursuant to Chapter 8 of Title 17 of the Unconsolidated Laws of New York, any #buildings or other structures# comprising such #bus station and related facilities# shall not be subject to the #bulk# regulations or other applicable regulations of this Resolution, and the floor space within such #buildings or other structures# shall be excluded from the calculation of #floor area#.

The curb level of a zoning lot of which the demapped air space is a part shall not be affected by the closing and demapping of air space above such #street#. However, the Commission may establish an appropriate level or levels instead of curb level as the reference plane for the applicable regulations relating to open space, yards, level of yards, equivalent rear yards, rear yard setback, minimum distance between buildings, and height and setback.

(1) Conditions

Where the #development# or #enlargement# of a #building# is allowed within one or more demapped air spaces pursuant to this Section, such demapped air spaces and any adjoining tracts of land containing such #building# may be considered as part of a single #zoning lot#, but such demapped air spaces shall not generate #floor area# to be utilized on such #zoning lot#.

(2) Findings applicable to bus station #use#

In order to allow such bus station #use#, the Commission shall find that:

(i) the operation of such bus station does not create serious traffic congestion, and is not detrimental to public health or general welfare of the city;

(ii) the principal access for such #use# is not located on a local #street# but is located either on an arterial highway, a major #street# or a secondary #street# within one-quarter mile of an arterial highway or major #street#;

(iii) the site plan for the #bus station and related facilities# includes pedestrian-oriented public spaces that, in their sizes and locations, reflect appropriate consideration of existing or planned at-grade pedestrian circulation networks;

(iv) the design of the facility, including public entrances to the bus station, vehicular entrances and exits, bus ramps or overpasses, and accessory #uses# within the #bus station and related facilities# are sited and designed in a manner that reflects appropriate consideration of the civic importance of the site and of the experience of pedestrians within existing or planned #streets# or open areas;

(v) the locations of at-grade entrances to such #bus station and related facilities# are designed to encourage pedestrian circulation into and on the #zoning lot# and are well-situated in relation to existing and proposed at-grade pedestrian and bicycle circulation networks;

(vi) the bus station provides adequate connections to and from existing transportation facilities;

(vii) the bus station and surrounding transportation network accommodate projected bus volumes and reduces potential conflicts between buses and other modes of transportation in the surrounding area; and

(viii) the #use# and #development# of the bus station will not have undue adverse impacts on the character of or land uses in the surrounding area.

(3) Findings applicable to modifications other than those allowing the #bus station and related facilities#

In order to modify any other applicable regulations of this Resolution, the Commission shall find that:

(i) such modifications will facilitate an improved site plan for the #bus station and related facilities# or are otherwise in furtherance of the bus station project;

(ii) such modifications will not unduly obstruct access to light and air from surrounding #streets#, open areas and properties; and

(iii) any proposed modification of regulations governing #zoning lots# divided by district boundaries or the permitted transfer of #floor area# will not unduly increase the #bulk# of any #development# or #enlargement# on the #zoning lot# or the intensity of #use# on any #block# to the detriment of occupants of #buildings# on the #block# or the surrounding area.

The Commission may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area.

74-146 - Heliports

LAST AMENDED
6/6/2024

In C3, C4, C5, C6, C7 or C8 Districts or in any #Manufacturing District#, the City Planning Commission may permit the construction, reconstruction, or #enlargement# of heliports and their facilities listed under Use Group IV(B) where the applicant has submitted a site plan showing the location of landing areas, provided that the following findings are made:

(a) that the heliport is an appropriate #use# of the land and will not unduly interfere with surrounding land #uses#; and

(b) that due consideration has been given to the selection of a site situated near or adjacent to large parks or other open areas, or bodies of water.

The Commission shall refer the application to the Federal Aviation Administration for the report of such agency as to whether the heliport is either an integral part of, or will not interfere with, the general plan of airports for New York City and the surrounding metropolitan region.

The Commission may prescribe appropriate additional conditions and safeguards to minimize adverse effects on the character of the surrounding area.

The Commission shall require the provision of adequate #accessory# off-street parking spaces necessary to prevent the creation of traffic congestion caused by the curb parking of vehicles generated by such #use# and shall determine the required spaces in accordance with the purposes established in the Resolution with respect to other major traffic-generating facilities.

74-147 - Public transit or railroad electric substations

LAST AMENDED
6/6/2024

In all #Residence# and #Commercial Districts#, and in M1 Districts in the #Special Downtown Jamaica District#, the City Planning Commission may permit public transit or railroad electric substations, listed under Use Group IV(B), limited in each case to a site of not less than 40,000 square feet nor more than 10 acres, provided that the following findings are made:

(a) that there are serious difficulties in locating such #use# in a nearby district where it is permitted as-of-right;

(b) that the site for such #use# is so located as to minimize the adverse effects on the integrity of existing and future development;

(c) that the architectural and landscaping treatment of such #use# will blend harmoniously with the rest of the area; and

(d) that such #use# will conform to the performance standards applicable to M1 Districts.

The Commission may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area, including requirements for soundproofing of electric substations, for the construction of fences, barriers, or other safety devices, for surfacing of all access roads and driveways, for shielding of floodlights or other artificial illumination, or for landscaping or screening.

74-148 - Railroad passenger stations

LAST AMENDED
6/6/2024

(a) Except as provided in paragraph (b) of this Section, the City Planning Commission may permit the construction of railroad passenger stations listed under Use Group IV(B) in all districts, provided that the following findings are made:

(1) that the principal access for such #use# is not located on a local #street#;

(2) that such #use# is so located as to draw a minimum of vehicular traffic to and through local #streets# in residential areas; and

(3) that vehicular entrances and exits for such #use# are provided separately and are located not less than 50 feet apart.

The Commission may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area, including requirements for shielding of floodlights or surfacing of access roads or driveways.In addition, the Commission shall require the provision of adequate #accessory# off-street parking spaces necessary to prevent the creation of traffic congestion caused by the curb parking of vehicles generated by such #use#, and shall determine the required spaces in accordance with the purposes established in this Resolution with respect to other major traffic-generating facilities. The Commission shall require, in any event, not less than 20 spaces for the temporary parking of automobiles, and three spaces for buses.

(b) In Community Districts 4 and 5 in the Borough of Manhattan, the Commission may permit the construction of railroad passenger stations and ventilation facilities or other facilities or services used or required in connection with such railroad passenger station or in connection with an underground railroad right-of-way that provides access to such railroad passenger station, and may permit waivers of applicable #bulk# regulations, other than #floor area ratio#, in connection with such ventilation facilities, or other facilities or services, provided that the following findings are made:

(1) that the principal access for such railroad passenger station is not located on a local #street#;

(2) that such railroad passenger station is so located as to draw a minimum of vehicular traffic to and through local #streets# in residential areas;

(3) that any vehicular entrances and exits for such railroad passenger station are provided separately and are located not less than 50 feet apart;

(4) that the locations of at-grade entrances to such railroad passenger station are well situated in relation to existing at-grade pedestrian circulation patterns;

(5) that any below-grade pedestrian circulation elements provided in connection with the railroad passenger station are well integrated with any existing or planned below-grade pedestrian circulation networks providing connections to and from other transportation facilities; and

(6) for ventilation facilities or other facilities or services used or required in connection with a railroad passenger station or in connection with an underground railroad right-of-way that provides access to a railroad passenger station, that:

(i) any #bulk# modifications are the minimum necessary for the proper operation of the facility; and

(ii) the design of the facility will blend harmoniously with the surrounding area or that a process has been created with the purpose of ensuring that the future design of the facility takes into account existing conditions and anticipated development in the surrounding area.

Railroad passenger station entrances provided pursuant to paragraph (b)(4) of this Section and railroad passenger station emergency access stairs, located within #publicly accessible open areas# of #zoning lots# subject to the provisions of Section 81-542 (Retention of floor area bonus for plazas or other public spaces), shall be permitted obstructions within such #publicly accessible open areas#, provided that the Commission finds that any encroachment within such #publicly accessible open areas# by such entrances or emergency access stairs will facilitate improved pedestrian circulation to, from and within the proposed railroad passenger station.

The special permit shall provide that such #publicly accessible open area# shall be designed and improved in connection with the installation of entrances or railroad passenger station

emergency access stairs pursuant to a site plan accepted by the Chairperson of the Commission. The proposed site plan shall be referred to the affected Community Board, City Council Member and Borough President. Included with the site plan shall be a report to the Chairperson demonstrating that any comments and recommendations of the affected Community Board, City Council Member and Borough President have been considered, as set forth in a written response to such comments or recommendations. Where design modifications have been made in response to such comments and recommendations, the report shall identify how the design has been modified. The Chairperson shall not accept such site plan prior to 60 days after such referral. A #publicly accessible open area# improved pursuant to an accepted site plan shall be deemed to be certified pursuant to Section 37-625 (Design changes) and the standards set forth therein. Subsequent modifications of the site plan for such #publicly accessible open area#, including modifications involving the co-location of transportation facility entrances, shall be subject to this paragraph. An application to modify the site plan to facilitate the co-location of railroad passenger station entrances may be filed by the transportation agency seeking to co-locate a transportation facility entrance in the #publicly accessible open area# or by the property owner. Such application shall include evidence of consultation with any transportation agency with existing or planned facilities located in the #publicly accessible open area#. The modified site plan shall also be referred to such transportation agency by the Chairperson for comment.

The Commission may prescribe appropriate conditions and safeguards to minimize pedestrian and vehicular congestion and to minimize adverse effects on the character of the surrounding area, including requirements for shielding of floodlights, surfacing of access roads or driveways, mitigation of pedestrian impacts, signage requirements, or screening or placement of the facilities or services permitted pursuant to paragraph (b) of this Section.

74-149 - Seaplane bases

LAST AMENDED
6/6/2024

In all districts, the City Planning Commission may permit seaplane bases listed under Use Group IV(B) provided that the following findings are made:

(a) that such #use# and the take-off and landing operations it serves are so located as not to impair the essential character or future #use# or #development# of the surrounding area; and

(b) that such #use# is so located as to draw a minimum of vehicular traffic to and through local #streets# in residential areas.

The Commission shall refer the application to the Federal Aviation Administration for the report of such agency as to whether the seaplane base is either an integral part of, or will not interfere with, the general plan of airports for New York City and the surrounding metropolitan region.

The Commission may prescribe appropriate additional conditions and safeguards to minimize adverse effects on the character of the surrounding area.

The Commission shall require the provision of adequate #accessory# off-street parking spaces necessary to prevent the creation of traffic congestion caused by the curb parking of vehicles generated by such #use# and shall determine the required spaces in accordance with the purposes established in this Resolution.

74-15 - Transient Accommodations

LAST AMENDED
6/6/2024

74-151 - In R10H Districts

LAST AMENDED
6/6/2024

In R10H Districts, the City Planning Commission may permit #transient hotels# listed under Use Group V. Where a #building# in existence on December 15, 1961, is located on a #zoning lot#, a substantial portion of which is located in an R10H District and the remainder in a #Commercial District#, the Commission may also permit the #conversion# of specified #floor area# within such #building# from #residential use# to #transient hotel# #use# without regard to the #floor area#, supplementary #use# or density regulations otherwise applicable in the #Commercial District#. The Commission may also allow any subsequent #conversion# of such specified #floor area# to and from #residential# or #transient hotel# #use# to occur without further Commission approval, subject to the conditions of the special permit.

As a condition precedent to the granting of such #use# or #bulk# modifications, the Commission shall find that such modifications will not impair the essential character of the #Residence District#.

The Commission may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area.

74-152 - In Commercial Districts

LAST AMENDED
6/6/2024

In C1, C2, C4, C5, C6, C7 and C8 Districts, M1 Districts paired with a #Residence District#, or M1-6D Districts, the City Planning Commission may permit #transient hotels#, #motels#, or #tourist cabins# listed under Use Group V, as set forth in Sections 32-15 and 42-15 (Use Group V – Transient

Accommodations), that are not otherwise permitted pursuant to the provisions of Section 32-152 or 42-152 (Use Group V – uses subject to additional conditions). The Commission may also permit #transient hotels#, #motels#, or #tourist cabins# made permissible in Special Purpose Districts of this Resolution.

In order to grant such special permit, the Commission shall find that:

(a) the site plan incorporates elements that address any potential conflicts between the proposed #use# and adjacent #uses#, such as the location of the proposed access to the #building# and to service areas for refuse and laundry, and the #building's# orientation and landscaping;

(b) such #use# will not cause undue vehicular or pedestrian congestion on local #streets# or unduly inhibit vehicular or pedestrian movement or loading operations; and

(c) such #use# will not impair the future use or development of the surrounding area.

The Commission may prescribe additional conditions and safeguards to minimize adverse effects on the character of the surrounding area.

74-153 - In M1 Districts

LAST AMENDED
6/6/2024

In M1 Districts, other than those subject to the provisions of Section 74-152 (In Commercial Districts), the City Planning Commission may permit #transient hotels#, #motels# or #tourist cabins# listed in Use Group V, as set forth in Section 42-15 (Use Group V – Transient Accommodations), that are not otherwise permitted pursuant to Section 42-152 (Use Group V – uses subject to additional conditions).

In order to grant such special permit, the Commission shall find that:

(a) the site plan incorporates elements that address any potential conflicts between the proposed #use# and adjacent #uses#, such as the location of the proposed access to the #building# and to service areas for refuse and laundry, and the #building's# orientation and landscaping;

(b) the site plan demonstrates that the proposed #street wall# location and the design and landscaping of any area of the #zoning lot# between the #street line# and all #street walls# of the #building# and their prolongations will result in a site design that does not impair the character of the existing streetscape;

(c) such #use# will not cause undue vehicular or pedestrian congestion on local #streets# or unduly inhibit vehicular or pedestrian movement or loading operations; and

(d) such #use# will not impair the essential character including, but not limited to, existing industrial businesses, or future use or development of the surrounding area.

The Commission may prescribe additional conditions and safeguards to minimize adverse effects on the character of the surrounding area.

74-16 - Retail and Services

LAST AMENDED
6/6/2024

74-161 - Retail and service uses

LAST AMENDED
6/6/2024

In all #Commercial Districts# and #Manufacturing Districts#, the City Planning Commission may permit modifications to #uses# listed under Use Group VI, as set forth in Sections 32-16 and 42-16 (Use Group VI – Retail and Services), pursuant to paragraph (a) of this Section, provided that the findings in paragraph (b) are met.

(a) For #uses# listed under Use Group VI, other than those #uses# for which another permit exists pursuant to Section 74-16, inclusive, the Commission may permit modifications to a size limitation, denoted in the Use Group table with an "S", beyond any size limitation established by special permit of the Board of Standards and Appeals pursuant to Section 73-16, inclusive.

In conjunction with such size modification, the Commission may permit: modifications to supplementary #use# regulations, including enclosure and location within #buildings# provisions; or modifications to additional conditions, denoted in the Use Group table with a "P", including environmental standards, geographic limitations, or other measures.

(b) In order to grant such permit, the Commission shall find that:

(1) such #use# will not impair the character or the future use or development of the surrounding area;

(2) such #use# will not create or contribute to serious traffic congestion and will not unduly inhibit surface traffic and pedestrian flow; and

(3) the modifications are necessary to support the operation of such #use#.

The Commission may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area.

74-17 - Offices and Laboratories

LAST AMENDED
6/6/2024

74-171 - Laboratories

LAST AMENDED
6/6/2024

In #Residence Districts# and #Commercial Districts#, C1 or C2 Districts in the Borough of Manhattan, in other C1 or C2 Districts that are not #select commercial overlays#, and in other #Commercial Districts#, the City Planning Commission may permit laboratories listed under Use Group VII, not otherwise allowed by the underlying #use# regulations. In conjunction with such modifications the Commission may also permit modifications to the underlying #sign# regulations.

In order to grant such #use# modifications, the Commission shall find that such facility meets the applicable conditions of paragraph (a), the findings of paragraph (b) and the additional requirements of paragraph (c)

(a) Conditions

As a condition for the special permit, such facility shall:

(1) conform to the performance standards applicable to M1 Districts;

(2) occupy a #zoning lot# containing no #residential use#; and

(3) in #Residence Districts#, occupy a #large-scale community facility development# or occupy either a single #zoning lot# used predominantly for #community facility uses# that has an area of at least 40,000 square feet, or two or more contiguous #zoning lot#, or lots that would be contiguous but for their separation by a #street#, under the same single fee ownership or alternate ownership arrangements, used predominantly for #community facility uses#, that has an area of at least 40,000 square feet; and

(b) Findings

In order to grant such permit, the Commission shall find that the laboratory:

(1) will not unduly affect the essential character or impair the future use and development of the surrounding area;

(2) will be located so as to draw a minimum of vehicular traffic to and through local #streets#;

(3) provides fully enclosed storage space for all raw materials, finished products, by-products and waste materials including debris, refuse and garbage; and

(4) with regard to #sign# modifications:

(i) the modifications are consistent with the amount and location of signage for other laboratories and are appropriate on the #zoning lot#; and

(ii) #illuminated signs#, if provided, utilize an illumination type, and are located and oriented in a manner so as to minimize any negative effects on nearby residences; and do not alter the essential character of the adjacent area.

(c) Additional requirements

For the purposes of applying #bulk# regulations to such laboratory, the following shall apply:

(1) in all districts, where such laboratory will occupy a #large-scale community facility development# or occupy either a single #zoning lot# used predominantly for #community facility uses# that has an area of at least 40,000 square feet, or two or more contiguous #zoning lot#, or lots that would be contiguous but for their separation by a #street#, under the same single fee ownership or alternate ownership arrangements, used predominantly for #community facility uses#, that has an area of at least 40,000 square feet, the #floor area# associated with such laboratory shall be considered #community facility floor area#, and all other associated #community facility bulk# regulations shall apply; and

(2) in all other instances, the #floor area# associated with such laboratory shall be considered #commercial floor area#, and all other associated #commercial bulk# regulations shall apply.

Modifications to the applicable #bulk# regulations may be made in conjunction with such laboratory, by special permit of the City Planning Commission, pursuant to Section 74-901.

In order to promote and protect the public health, safety and general welfare, the City Planning Commission may impose additional conditions and safeguards and more restrictive performance standards where necessary.

74-18 - Recreation, Entertainment, and Assembly Spaces

LAST AMENDED
6/6/2024

74-181 - Recreation, entertainment and assembly space uses

LAST AMENDED
6/6/2024

In C1 or C2 Districts that are not #select commercial overlays#, in all other #Commercial Districts# and in #Manufacturing Districts#, the City Planning Commission may permit modifications to #uses# listed under Use Group VIII, as set forth in Sections 32-18 and 42-18 (Use Group VIII – Recreation, Entertainment and Assembly Spaces), pursuant to paragraph (a) of this Section, provided that the findings in paragraph (b) are met.

(a) For #uses# listed under Use Group VIII, other than those #uses# for which another permit exists pursuant to Section 74-18, inclusive, the Commission may permit modifications to a size limitation, denoted in the Use Group table with an "S", beyond any size limitation established by special permit of the Board of Standards and Appeals pursuant to Section 73-18, inclusive.

In conjunction with such size modification, the Commission may permit: modifications to supplementary #use# regulations, including enclosure and location within #buildings# provisions; or modifications to additional conditions, denoted in the Use Group table with a "P", including environmental standards, geographic limitations, or other measures.

(b) In order to grant such permit, the Commission shall find that:

(1) such #use# will not impair the character or the future use or development of the surrounding area;

(2) such #use# will not create or contribute to serious traffic congestion and will not unduly inhibit surface traffic and pedestrian flow; and

(3) the modifications are necessary to support the operation of such #use#.

The Commission may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area.

74-182 - Arenas, auditoriums, stadiums or trade expositions

LAST AMENDED
2/24/2026

C4 C6 C7 C8 M1 M2 M3

(a) The City Planning Commission may permit arenas, auditoriums or stadiums, or trade expositions, as listed in Use Group VIII, with a capacity in excess of 2,500 seats for arenas, auditoriums or stadiums, or with a rated capacity in excess of 2,500 persons for trade expositions, provided that the following findings are made:

(1) that the principal vehicular access for such #use# is not located on a local #street# but is located on an arterial highway, a major #street# or a secondary #street# within one-quarter mile of an arterial highway or major #street#;

(2) that such #use# is so located as to draw a minimum of vehicular traffic to and through local #streets# in nearby residential areas;

(3) that such #use# is not located within 200 feet of a #Residence District#;

(4) that adequate reservoir space at the vehicular entrance, and sufficient vehicular entrances and exits, are provided to prevent traffic congestion;

(5) that vehicular entrances and exits for such #use# are provided separately and are located not less than 100 feet apart; and

(6) that due consideration has been given to the proximity of bus and rapid transit facilities to serve such #use#.

(b) In Community District 7 in the Borough of the Bronx, the Commission may permit an indoor arena with a maximum seating capacity of 17,000 within 200 feet of a #Residence District# and, in conjunction with such arena, permit modifications to #sign# regulations and parking or loading regulations, provided that:

(1) the provisions of paragraphs (a)(1), (a)(2), (a)(4), (a)(5) and (a)(6) of this Section are met;

(2) open space surrounding such arena will be located and arranged to provide adequate pedestrian gathering areas to minimize disruption to the surrounding areas;

(3) the arena includes noise attenuation features and measures which serve to reduce arena-related noise in the surrounding area, including at nearby #residences#;

(4) where the #sign# regulations are modified, a #signage# plan has been submitted showing the location, size, height and illumination of all #signs# on the #zoning lot#, and the Commission finds that all such #signs#, and any illumination from or directed upon such #signs#, are located and arranged so as to minimize any negative effects from the arena #use# on nearby #residences#; and

(5) where the parking or loading regulations are modified, a loading plan has been submitted that addresses the operational needs of all servicers of the arena and shows the number, location and arrangement of all loading berths on the #zoning lot#, and the Commission finds that such loading plan is adequate to address the loading demand

generated by the arena #use# and has received assurances that the arena operator will implement such plan in accordance with its terms.

(c) In the Pennsylvania Station Subarea B4 of the Farley Corridor Subdistrict B of the #Special Hudson Yards District#, the Commission may permit arenas with seating in excess of 2,500 persons, provided that the following findings are made:

(1) the provisions of paragraphs (a)(1) through (a)(6) of this Section are met; and

(2) the proposed loading for the arena will not unduly: interfere with the use of public spaces; interfere with transit facilities; interrupt the flow of pedestrian traffic in the pedestrian circulation network; or interfere with the efficient functioning of adjacent #streets# including for the staging or queuing of vehicles for loading or for security checks. An application for this special permit shall include a loading operations plan that describes the number, location and arrangement of all loading berths on the #zoning lot# as well as the location and management of off-site storage and staging of vehicles associated with the arena #use#. The plan shall be referred to the Department of Transportation and affected transit agencies for a report or recommendations on the plan. The Commission shall, in its determination, give due consideration to these reports and recommendations.

The Commission may require that, within six months of approval of the special permit, the applicant submit to the Chairperson of the City Planning Commission a transportation management plan, developed in consultation with the Department of City Planning and the Department of Transportation, to detail the loading operations plan. The Chairperson shall certify that the loading operations, as described in the transportation management plan, comply with the relevant conditions of the Commission's resolution.

Special Coney Island District

(d) On Parcels B and G in the Coney West Subdistrict of the #Special Coney Island District#, the Commission may permit an arena with up to 6,000 seats and, in conjunction with such arena, permit modifications to #sign# and parking and loading regulations, provided that:

(1) the provisions of paragraphs (a)(1), (a)(2), (a)(4), (a)(5) and (a)(6) of this Section are met;

(2) adequate pedestrian gathering, queueing and circulation spaces for such arena are provided to minimize disruption to the surrounding area, including at nearby #residences#, #public parks# and other publicly accessible open spaces;

(3) the arena will include noise attenuation features and measures which serve to reduce arena-related noise in the surrounding area, including at nearby #residences#, #public parks# and other publicly accessible open spaces;

(4) where #sign# regulations are modified, a signage plan has been submitted showing the location, size, height and illumination of all #signs# on the #zoning lot#, and the Commission finds that all such #signs#, and any illumination from or directed upon such #signs#, are located and arranged so as to minimize any negative effects from the arena #use# on nearby #residences#, #public parks# and other publicly accessible open spaces;

(5) where parking regulations are modified, such waiver or reduction of parking spaces will not have undue adverse impacts on the residents, businesses or community facilities in the surrounding area; and

(6) where loading regulations are modified, a loading plan has been submitted that addresses the operational needs of all servicers of the arena and shows the number, location and arrangement of all loading berths on the #zoning lot#, and the Commission finds that such loading plan is adequate to address the loading demand generated by the arena #use#.

The Commission may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area, including limitations on #signs#, requirements for soundproofing of arenas or auditoriums, shielding of floodlights, screening of open #uses# or surfacing all access roads or driveways. The Commission may also prescribe requirements for pedestrian-accessible open areas surrounding the arena, auditorium or stadium, including #accessory# directional or building identification #signs# located therein.

In addition, within Pennsylvania Station Subarea B4 of the #Special Hudson Yards District#, design changes to existing #plazas# located within such pedestrian-accessible open areas may be made without a certification by the Chairperson of the Commission pursuant to Section 37-625, and the design standards of Section 37-70, inclusive, shall not apply to such #plazas#.

74-183 - Drive-in theaters

LAST AMENDED
6/6/2024

In C7 or C8 Districts or any #Manufacturing District#, the City Planning Commission may permit drive-in theaters listed under Use Group VIII, limited to a maximum capacity of 500 automobiles, provided that the following findings are made:

(a) that the principal vehicular access for such #use# is not located on a local #street# or an arterial highway but is located on a major or secondary #street# within one-quarter mile of an arterial highway;

(b) that such #use# is so located as to draw a minimum of vehicular traffic to and through local #streets# in nearby residential areas;

(c) that such #use# is not located within 200 feet of a #Residence District#;

(d) that adequate reservoir space at the vehicular entrance, and sufficient vehicular entrances and exits, are provided to prevent congestion; and

(e) that vehicular entrances and exits for such #use# are provided separately and are located not less than 100 feet apart.

The Commission may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area, including limitations on #signs# or requirements for shielding of floodlights, screening or surfacing all access roads or driveways.

74-184 - Racetracks

LAST AMENDED
6/6/2024

In C8 Districts or any #Manufacturing District#, the City Planning Commission may permit racetracks listed under Use Group VIII, provided that the following findings are made:

(a) that the principal vehicular access for such #use# is not located on a local #street# but is located either on an arterial highway, a major #street#, or a secondary #street# within one-quarter mile of an arterial highway or major #street#;

(b) that such #use# is so located as to draw a minimum of vehicular traffic to and through local #streets# in nearby residential areas;

(c) that adequate reservoir space at the vehicular entrance, and sufficient vehicular entrances and exits, are provided to prevent congestion;

(d) that vehicular entrances and exits for such #use# are provided separately and are located not less than 100 feet apart; and

(e) that, in selecting the site, due consideration has been given to the proximity and adequacy of bus and rapid transit facilities.

The Commission may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area, including limitations on #signs# or requirements for shielding of floodlights, screening or surfacing all access roads or driveways.

In addition, the Commission shall require the provision of adequate #accessory# off-street parking spaces necessary to prevent the creation of traffic congestion caused by the curb parking of vehicles generated by such #use#, and shall determine the required spaces in accordance with the requirements established in this Resolution with respect to other major traffic generating #uses#.

74-19 - Storage

LAST AMENDED
6/6/2024

74-191 - Micro-distribution facilities

LAST AMENDED
6/6/2024

In C1 or C2 Districts in the Borough of Manhattan, in other C1 or C2 Districts that are not #select commercial overlays#, and in C4 through C7 Districts, C1, C2, C4, C5, C6 and C7 Districts, for

micro-distribution facilities listed under Use Group IX(A), as set forth in Sections 32-19 (Use Group IX – Storage), the City Planning Commission may permit modifications to a size limitation, denoted in the Use Group table with an "S", beyond any size limitation established by special permit of the Board of Standards and Appeals pursuant to Section 73-19.

In order to grant such permit, the Commission shall find that:

(a) such #use# will not impair the character or the future use or development of the surrounding area;

(b) such #use# will not create or contribute to serious traffic congestion and will not unduly inhibit surface traffic and pedestrian flow; and

(c) the modifications are necessary to support the operation of such #use#.

The Commission may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area

74-192 - Self-service storage facility in designated areas within Manufacturing Districts

LAST AMENDED
6/6/2024

On #zoning lots# in designated areas within #Manufacturing Districts# in Subarea 2, as shown on the maps in Appendix J (Designated Areas Within Manufacturing Districts) of this Resolution, the City Planning Commission may permit the #development#, #enlargement# not permitted pursuant to the provisions of Section 42-193 (Use Group IX – uses subject to additional conditions), or change of #use# of a #building# for #self-service storage facility# #use# listed under Use Group IX(A).

To grant such permit, the Commission shall find that the #zoning lot# is appropriate for such #self-service storage facility# #use#, based on the land use characteristics of the proposed #zoning lot# and the surrounding area. In making this determination, the Commission may consider the following:

(a) whether such #use# is consistent with the economic development objectives of the City for the designated area in which the #self-service storage facility# seeks to be located, and may, in making this determination, consult with the Department of Small Business Services;

(b) whether recent trends for and levels of investment in "qualifying #uses#", as defined below, demonstrate that there is minimal demand for space for such #uses# in the surrounding area;

(c) whether the size and configuration of the #zoning lot# make it better suited for #self-service storage facility# #use# than for "qualifying #uses#";

(d) for changes of #use# to existing #buildings#, whether the design and layout of loading docks, interior column spacing, floor-to-ceiling height and other relevant physical characteristics of the existing #building# make the #building# better suited for #self-service storage facility# #use# than for "qualifying #uses#";

(e) whether the distance of the #zoning lot# from an arterial highway or a designated truck route, or lack of frontage on a #wide street#, makes the #zoning lot# better suited for #self-service storage facility use# than for "qualifying #uses#";

(f) whether the distance of the #zoning lot# from mass transit that serves employees makes the #zoning lot# better suited for #self-service storage facility# #use# than for "qualifying #uses#";

(g) whether the establishment of a #self-service storage facility# will cause environmental remediation work to be undertaken on the #zoning lot#; or

(h) whether there is a concentration of existing #self-service storage facilities# in the surrounding area.

For the purposes of this Section, “qualifying #uses#” shall include industrial drycleaning and laundry services listed in Use Group VI, as well as #uses# listed in Use Group IX (other than a #self-service storage facility#), or Use Group X.

The Commission may impose appropriate conditions and safeguards to minimize any adverse effects upon the existing #uses# in the surrounding area.

74-193 - Trucking terminals or motor freight stations

LAST AMENDED
6/6/2024

In C8 Districts, the City Planning Commission may permit trucking terminals or motor freight stations listed under Use Group IX(A), with sites in excess of 20,000 square feet, provided that the following findings are made:

(a) that the principal access for such #use# is not on a local #street# but is located within one-quarter mile of a secondary or major #street#;

(b) that vehicular entrances and exits for such #use# are provided separately and are located not less than 100 feet apart;

(c) that such #use# is not located within 200 feet of a #Residence District# boundary; and

(d) that access to such #use# is located on a #street# not less than 60 feet in width.

The Commission may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area, including requirements for shielding of floodlights, screening and surfacing all access roads or driveways.

74-194 - Public parking garages or public parking lots outside high density areas

LAST AMENDED
6/6/2024

In C1-1, C1-2, C1-3, C1-4, C2-1, C2-2, C2-3, C2-4, C4-1, C4-2, C4-3, C4-4, C4-5D, C8-1, C8-2, C8-3, M1-1, M1-2, M1-3, M2-1, M2-2 or M3-1 Districts or, outside the #Greater Transit Zone#, in C7, or M1, M2 or M3 Districts with an A suffix, the City Planning Commission may permit #public parking garages# or #public parking lots# listed under Use Group IX(C), with more than 150 spaces, provided that the applicable regulations set forth in Sections 36-53 (Width of Curb Cuts and Location of Access to the Street) or 44-43 (Location of Access to the Street), Sections 36-54 or 44-44 (Surfacing) and Sections 36-55 or 44-45 (Screening) are met. The Commission may permit some of such spaces to be located on the roof of such #public parking garage#, or may permit floor space on one or more #stories# and up to a height of 23 feet above #curb level# to be exempted from the definition of #floor area# as set forth in Section 12-10 (DEFINITIONS). As a condition of permitting such #use#, the Commission shall make the following findings:

(a) that the principal vehicular access for such #use# is located on an arterial highway, a major #street# or a secondary #street# within one-quarter mile of an arterial highway or major #street#, except that in C5 or C6 Districts such access may be located on a local #street#;

(b) that such #use# is so located as to draw a minimum of vehicular traffic to and through local #streets# in nearby residential areas;

(c) that such #use# has adequate reservoir space at the vehicular entrances to accommodate either 10 automobiles or five percent of the total parking spaces provided by the #use#, whichever amount is greater, but in no event shall such reservoir space be required for more than 50 automobiles;

(d) that the #streets# providing access to such #use# will be adequate to handle the traffic generated thereby;

(e) that, where roof parking is permitted, such roof parking is so located as not to impair the essential character or future use or development of adjacent areas; and

(f) that, where any floor space is exempted from the definition of #floor area#, such additional floor space is needed in order to prevent excessive on-street parking demand and relieve traffic congestion.

The Commission may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area, including limitations on #signs# or requirements for shielding of floodlights, for locations of entrances and exits, or for setback of any roof parking areas from #lot lines#.

This Section shall not apply to the #Manhattan Core# where the regulations set forth in Article I, Chapter 3, shall apply, except as provided in Section 13-06 (Previously Filed or Approved Special Permits or Authorizations).

For existing #public parking garages# located within a C4-4 District in Community District 4 in the Borough of Queens where such garage facility existed before October 17, 2019, and was previously granted a special permit pursuant to this Section, the finding set forth in paragraph (c) of this Section shall not apply. In lieu thereof, the number of reservoir spaces required shall be consistent with a finding that the permitted parking facility will not create or contribute to serious traffic congestion and will not unduly inhibit vehicular traffic and pedestrian flow in the surrounding area.

74-195 - Public parking garages or public parking lots in high density central areas

LAST AMENDED
6/6/2024

In C1-5, C1-6, C1-7, C1-8, C1-9, C2-5, C2-6, C2-7, C2-8, C4-5, C4-5A, C4-5X, C4-6, C4-7, C5, C6, C7 inside the #Greater Transit Zone#, C8-4, M1-4, M1-5, M1-6, M2-3, M2-4 or M3-2 Districts or, inside the #Greater Transit Zone#, in C7, or M1, M2 or M3 Districts with an A suffix, the City Planning Commission may permit #public parking garages# or #public parking lots# listed under Use Group IX(C), with any capacity for #public parking garages#, or with more than 150 spaces for #public parking lots#, provided that the applicable regulations set forth in Sections 36-53 (Width of Curb Cuts and Location of Access to the Street) or 44-43 (Location of Access to the Street), Sections 36-54 or 44-44 (Surfacing) and Sections 36-55 or 44-45 (Screening) are met.

The Commission may permit some of such spaces to be located on the roof of such #public parking garage#, or may permit floor space on one or more #stories# and up to a height of 23 feet above #curb level#, to be exempted from the definition of #floor area# as set forth in Section 12-10 (DEFINITIONS). As a condition of permitting such #use#, the Commission shall make the following findings:

(a) that such #use# will not be incompatible with, or adversely affect the growth and development of, #uses# comprising vital and essential functions in the general area within which such #use# is to be located;

(b) that such #use# will not create or contribute to serious traffic congestion and will not unduly inhibit surface traffic and pedestrian flow;

(c) that such #use# is so located as to draw a minimum of vehicular traffic to and through local #streets# in nearby residential areas;

(d) that such #use# has adequate reservoir space at the vehicular entrances to accommodate automobiles equivalent in number to 20 percent of the total number of spaces up to 50 and five percent of any spaces in excess of 200, but in no event shall such reservoir space be required for more than 50 automobiles;

(e) that the #streets# providing access to such #use# will be adequate to handle the traffic generated thereby;

(f) that, where roof parking is permitted, such roof parking is so located as not to impair the essential character or future use or development of adjacent areas; and

(g) that, where any floor space is exempted from the definition of #floor area#, such additional floor space is needed in order to prevent excessive on-street parking demand and relieve traffic congestion.

The Commission may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area including limitations on #signs#, or requirements for shielding of floodlights, for locations of entrances and exits, or for setback of any roof parking areas from #lot lines#.

This Section shall not apply to the #Manhattan Core# where the regulations set forth in Article I, Chapter 3, shall apply, except as provided in Section 13-06 (Previously Filed or Approved Special Permits or Authorizations).

74-20 - ADDITIONAL SPECIAL PERMIT USES

LAST AMENDED
6/6/2024

74-21 - Production Uses

LAST AMENDED
6/6/2024

74-211 - Production uses

LAST AMENDED
6/6/2024

In C1 or C2 Districts in the Borough of Manhattan, in other C1 or C2 Districts that are not #select commercial overlays#, in all other #Commercial Districts#, and in #Manufacturing Districts#, the City Planning Commission may permit modifications to the #uses# listed under Use Group X, as set forth in Sections 32-20 and 42-20 (Use Group X – Production Uses), pursuant to paragraph (a) of this Section, provided that the findings in paragraph (b) are met.

(a) For #uses# listed under Use Group X, other than those #uses# for which another permit exists pursuant to Section 74-21 (Production Uses), inclusive, the Commission may permit modifications to a size limitation, denoted with an "S" in the Use Group table, beyond any size limitation established by special permit of the Board of Standards and Appeals pursuant to Section 73-21 (Production Uses), inclusive.

In conjunction with such size modification, the Commission may permit: modifications to supplementary #use# regulations, including enclosure and location within #buildings# provisions; or modifications to additional conditions, denoted in the Use Group table with a "P", including environmental standards, geographic limitations, or other measures.

(b) In order to grant such permit, the Commission shall find that:

(1) such #use# will not impair the character or the future use or development of the surrounding area;

(2) such #use# will not create or contribute to serious traffic congestion and will not unduly inhibit surface traffic and pedestrian flow; and

(3) the modifications are necessary to support the operation of such #use#.

The Commission may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area.

74-30 - OTHER MODIFICATIONS TO USE REGULATIONS

LAST AMENDED
6/6/2024

74-31 - Stores or Offices on Large-scale Sites in Residence Districts

LAST AMENDED
6/6/2024

In #Residence Districts# the City Planning Commission may allow, by special permit, modifications to the underlying #use# regulations to permit #uses# that would be permitted in a C2 District on the #ground floor level# of a #building#. However, #accessory# drive-through facilities serving a #use# listed under Use Group VI, as set forth in Section 32-16 (Use Group VI – Retail and Services), shall not be permitted. The Commission may also permit the #sign# regulations applicable to a C2 District to be applied to such #use#. In order to grant such permit, the Commission shall find that the conditions of paragraph (a) and the findings of paragraph (b) are met.

(a) Conditions

As a condition for the special permit, the applicant shall demonstrate that the proposed #use#:

(1) is located on a #large-scale development#, or is located on either a single #zoning lot# that has an area of at least 1.5 acres, or two or more contiguous #zoning lots#, or lots that would be contiguous but for their separation by a #street#, under the same single fee ownership or alternate ownership arrangements, that has an area of at least 1.5 acres and contains #residences#; and

(2) does not exceed a size of 15,000 square feet. The #floor area# associated with such #uses# permitted in a C2 District shall be considered a #community facility# #use# for the purposes of determining compliance with the applicable district #floor area ratio# regulations.

(b) Findings

In order to grant the special permit, the Commission shall find that:

(1) such #use# will serve residents on the #zoning lot# and the surrounding residential area;

(2) such #use# will generate a minimum of vehicular traffic to and through local #streets# and will not create traffic congestion;

(3) such #use# will not produce objectionable effects; and

(4) such #use#, including any permitted #signs#, will not alter the essential character of the neighborhood in which the #building# is located.

The Commission may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area.

74-50 - OFF-STREET PARKING ESTABLISHMENTS

LAST AMENDED
12/15/1961

74-51 - Off-street Parking Requirement for Youth-oriented or Senior Citizen-oriented Community Centers and Non-profit Neighborhood Settlement Houses

LAST AMENDED
6/6/2024

In C1-2 and C2-2 Districts, for youth-oriented or senior citizen-oriented community centers and non-profit neighborhood settlement houses, the City Planning Commission may permit modifications of the parking requirement of Section 36-21, provided the following findings are made:

(a) that, because of site limitations, such a reduction is necessary for the proper design and operation of such community centers and non-profit neighborhood settlement houses; and

(b) that available off-site parking and mass transit facilities are adequate to satisfy the additional parking demand generated by such #community facility#.

74-52 - Special Permit to Remove Required Parking

LAST AMENDED

Outside the #Inner Transit Zone#, the City Planning Commission may permit the reduction or removal of #accessory# off-street parking spaces required pursuant to Section 25-20 (REQUIRED ACCESSORY OFF-STREET PARKING SPACES FOR RESIDENCES), provided the Commission finds that such reduction or removal:

(a) will not impede access to existing #accessory# off-street parking spaces on adjoining #zoning lots#; and

(b) will not have undue adverse effects on residents, businesses or #community facilities# in the surrounding area;

The Commission may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area.

74-53 - Accessory Group Parking Facilities for Uses in Large-Scale Residential Developments or Large-Scale Community Facility Developments or Large-Scale General Developments

LAST AMENDED
5/8/2013

74-531 - Additional parking spaces or roof parking for accessory group parking facilities

LAST AMENDED3/22/2016

The City Planning Commission may permit #group parking facilities# #accessory# to #uses# in #large-scale residential developments# or #large-scale community facility developments# or #large-scale general developments# with more than the prescribed maximum number of parking spaces set forth in Sections 25-12, 36-12 and 44-12 (Maximum Size of Accessory Group Parking Facilities) or may permit modifications of the applicable provisions of Sections 25-11, 36-11 and 44-11 (General Provisions) so as to permit off-street parking spaces #accessory# to such #uses# to be located on the roof of a #building#.

As a condition of permitting such exceptions or modifications, the Commission shall make the following findings:

(a) that such #use# is so located as to draw a minimum of vehicular traffic to and through local #streets# in residential areas;

(b) that such #use# has adequate reservoir space at the vehicular entrance to accommodate either 10 automobiles or five percent of the total parking spaces provided by the #use#, whichever amount is greater, but in no event shall such reservoir space be required for more than 50 automobiles;

(c) that the #streets# providing access to such #use# will be adequate to handle the traffic generated thereby; and

(d) that where roof parking is permitted, such roof parking is so located as not to impair the essential character or future use or development.

The Commission may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area including requirements for shielding of floodlights, for locations of entrances and exits, or for setback of any roof parking areas from #lot lines#.

This Section shall not apply to the #Manhattan Core# where the regulations set forth in Article I, Chapter 3, shall apply, or to the #Long Island City area#, as defined in Section 16-02 (Definitions), where the regulations set forth in Article I, Chapter 6, shall apply.

74-54 - Rear Yard Modifications

LAST AMENDED
10/9/1969

In C4, C6, C7, C8, M1, M2 or M3 Districts, for #public parking garages# with more than 150 spaces, the City Planning Commission may permit modifications of the applicable regulations in Sections 33-26 to 33-30, inclusive, and Sections 43-26 to 43-31, inclusive, relative to #rear yard# regulations, provided the following findings are made:

(a) that the #public parking garage# will alleviate excessive on-street parking demand and thereby relieve traffic congestion in the area; and

(b) that because of site limitations such modification is necessary for the proper design and operation of the #public parking garage#.

The Commission shall consider the characteristics of surrounding development and may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of adjacent areas.

74-60 - PUBLIC SERVICE OR TRANSPORTATION FACILITIES

LAST AMENDED
12/15/1961

74-61 - Developments on Lots that Include Railroad Right-of-Ways

LAST AMENDED

The City Planning Commission may permit a #development# or #enlargement# on a #zoning lot# that includes either a #railroad right-of-way# or a #former railroad right-of-way# where the #lot area# is one and a half acres or greater, and may include a #railroad right-of-way# that would otherwise be considered a #block# boundary in the #lot area# of such #zoning lot#, provided the Commission finds that:

(a) the distribution of #floor area# on the #zoning lot# does not adversely affect the character of the surrounding area by being unduly concentrated in any portion of such #development# or #enlargement#; and

(b) where the #zoning lot# includes a #former railroad right-of-way# and a transportation agency has a plan to use such tract of land for transportation purposes, the site plan does not preclude future improvements to facilitate such transportation purposes. The Commission shall request the Metropolitan Transportation Authority and the Departments of Transportation of the State of New York and the City of New York to indicate within 30 days whether said agencies have any such plans.

On #zoning lots# of any size that require a certification pursuant to Section 75-411 (Developments on or over railroad rights-of-way), the Commission may permit the establishment of an appropriate level or levels instead of #curb level#, #base plane#, or other applicable reference plane, as the reference plane for the applicable regulations pertaining to, but not limited to, height and setback, #floor area#, #lot coverage#, #open space#, #yards#, and minimum distance between #buildings#.

The Commission may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area.

74-62 - Developments Over Streets

In R9 or R10 Districts when the air space above a #street# or portion thereof is closed, demapped and conveyed by the City to the owner of an adjoining #zoning lot# owned by a non-profit institution pursuant to State-enabling legislation enacted in 1971, the City Planning Commission may, by special permit, allow in such demapped air space, the #development# or #enlargement# of #buildings# which are an expansion of an existing hospital, college, university or functionally-related facility. In connection therewith, the Commission may also permit modification of off-street loading and #bulk# regulations, except #floor area ratio# regulations, under the applicable district regulation, provided that the requirements set forth in the 1973 Agreement among the City of New York, the Society of the New York Hospital, and the New York Society for the Relief of the Ruptured and Crippled, maintaining the Hospital for Special Surgery and the Rockefeller University are met; and that such demapped air space shall be considered as part of the adjoining #zoning lot#, except that any #building# located in demapped air space shall utilize only unused #floor area# from the portion of the adjoining #zoning lot# not within the demapped air space.

In order to grant such special permit, the Commission shall find:

(a) for #development# or #enlargements# in such demapped air space and for modification of #bulk# regulations, that the location and distribution of new #bulk# shall result in a good site plan in relation to the existing #buildings# on-site and in the area; and

(b) for modification of off-street loading requirements, when such non-profit institution includes more than one #building# on two or more #zoning lots#, the Commission may determine the required number of loading berths as if such non-profit institution were located on a single #zoning lot#, and may permit such loading berths to be located anywhere within such institution without regard for #zoning# #lot lines#, provided that such loading berths shall be:

(1) adequate to serve the requirements of the institution;

(2) accessible to all the #uses# in such institution without the need to cross any #street# at grade; and

(3) located so as not to adversely affect the movement of pedestrians or vehicles on the #streets# within or surrounding such institution.

The #curb level# of a #zoning lot# of which the demapped air space is a part shall not be affected by the closing and demapping of air space above such #street#. However, the Commission may establish an appropriate level or levels instead of #curb level# as the reference plane for the applicable regulations relating to #open space#, #yards#, level of #yards#, equivalent #rear yards#, #rear yard# setback, minimum distance between #buildings#, and the front height and setback.

The Commission may impose additional conditions and safeguards, consistent with the requirements set forth in the 1973 Agreement, to improve the quality of the #development# and minimize adverse effects on the character of the surrounding area.

74-70 - ADDITIONAL PERMITS

LAST AMENDED
6/6/2024

74-71 - Landmark Preservation

LAST AMENDED
11/25/1997

74-711 - Landmark preservation in all districts

LAST AMENDED
2/2/2011

In all districts, for #zoning lots# containing a landmark designated by the Landmarks Preservation Commission, or for #zoning lots# with existing #buildings# located within Historic Districts designated by the Landmarks Preservation Commission, the City Planning Commission may permit modification of the #use# and #bulk# regulations, except #floor area ratio# regulations, provided that:

(a) The following conditions are met:

(1) any application pursuant to this Section shall include a report from the Landmarks Preservation Commission stating that a program has been established for continuing maintenance that will result in the preservation of the subject #building# or #buildings#, and that such #use# or #bulk# modifications, or restorative work required under the continuing maintenance program, contributes to a preservation purpose;

(2) any application pursuant to this Section shall include a Certificate of Appropriateness, other permit, or report from the Landmarks Preservation Commission stating that such #bulk# modifications relate harmoniously to the subject landmark #building# or #buildings# in the Historic District, as applicable; and

(3) the maximum number of #dwelling units# shall be as set forth in Section 15-111 (Number of permitted dwelling units).

(b) In order to grant a special permit, the City Planning Commission shall find that:

(1) such #bulk# modifications shall have minimal adverse effects on the structures or #open space# in the vicinity in terms of scale, location and access to light and air; and

(2) such #use# modifications shall have minimal adverse effects on the conforming #uses# within the #building# and in the surrounding area.

The Commission may prescribe appropriate additional conditions and safeguards which will enhance the character of the #development# and #buildings# on the #zoning lot#.

74-712 - Developments in Historic Districts

LAST AMENDED
12/5/2024

Within Historic Districts designated by the Landmarks Preservation Commission, the City Planning Commission may grant a special permit, in accordance with the following provisions:

(a) In M1-5B Districts, on a #zoning lot# that, as of December 15, 2003, is vacant, is #land with minor improvements#, or has not more than 40 percent of the #lot area# occupied by existing #buildings#, the Commission may modify #use# regulations to permit #residential# #development# and, below the floor level of the second #story# of any #development#, #uses# permitted in Use Group VI, provided:

(1) the #use# modifications shall meet the following conditions, that:

(i) #residential# #development# complies with the requirements of Sections 23-342 (Rear yard requirements) and 23-372 (Distances between legally required windows and lot lines), inclusive, pertaining to R8 Districts;

(ii) total #floor area ratio# on the #zoning lot# shall be limited to 5.0;

(iii) the minimum #floor area# of each #dwelling unit# permitted by this Section shall be 1,200 square feet;

(iv) all #signs# for #residential# or #commercial# #uses# permitted by this Section shall conform to the applicable regulations of Section 32-60 (SIGN REGULATIONS) pertaining to C2 Districts; and

(v) eating or drinking establishments of any size, as set forth in Use Group VI, are not permitted; and

(2) the Commission shall find that such #use# modifications:

(i) have minimal adverse effects on the conforming #uses# in the surrounding area;

(ii) are compatible with the character of the surrounding area; and

(iii) for modifications that permit #residential use#, result in a #development# that is compatible with the scale of the surrounding area.

(b) In all districts, the Commission may modify #bulk# regulations, except #floor area ratio# regulations, for any #development# on a #zoning lot# that is vacant or is #land with minor improvements#, and in M1-5B Districts, the Commission may make such modifications for #zoning lots# where not more than 40 percent of the #lot area# is occupied by existing #buildings# as of December 15, 2003, provided the Commission finds that such #bulk#

modifications:

(1) shall not adversely affect structures or #open space# in the vicinity in terms of scale, location and access to light and air; and

(2) relate harmoniously to #buildings# in the Historic District as evidenced by a Certificate of Appropriateness or other permit from the Landmarks Preservation Commission.

The City Planning Commission may prescribe appropriate additional conditions and safeguards in order to enhance the character of the #development# and to minimize adverse effects on the character of the surrounding area.

74-72 - Bulk Modification

LAST AMENDED
12/17/1981

74-721 - Height and setback and yard regulations

LAST AMENDED
6/6/2024

(a) In C4-7, C5-2, C5-3, C5-4, C6-1A, C6-4, C6-5, C6-6, C6-7 or M1-6 Districts, the City Planning Commission may permit modification of the height and setback regulations, including tower coverage controls, for #developments# or #enlargements# located on a #zoning

lot# having a minimum #lot area# of 40,000 square feet or occupying an entire #block#.

In C5-3, C6-6 and C6-7 Districts on such #zoning lots#, and in C6-4 Districts as set forth in paragraph (e) of this Section, the Commission also may modify #yard# and court regulations, and regulations governing the minimum required distance between #buildings# and/or the minimum required distance between #legally required windows# and walls or #lot lines#, provided that the Commission finds that such modifications:

(1) provide a better distribution of #bulk# on the #zoning lot#;

(2) result in a better relationship of the #building# to open areas, adjacent #streets# and surrounding development; and

(3) provide adequate light and air for #buildings# on the #zoning lot# and neither impair access to light and air to #legally required windows# in adjacent #buildings# nor adversely affect adjacent #zoning lots# by unduly restricting access to light and air to surrounding #streets# and properties.

As a condition of this special permit, if any open area extending along a #side lot line# is provided at any level, such open area shall be at least eight feet in width.

(b) In C5-3, C6-6 and C6-7 Districts, the Commission may modify height and setback and #yard# regulations, including tower coverage controls for #developments# or #enlargements# located on a #zoning lot# having an area less than 40,000 square feet, that occupies an entire #block# front on a #wide street#, subject to the following conditions:

(1) where #buildings# or portions thereof penetrate the established #sky exposure plane#, the aggregate area occupied by such #buildings# or portions thereof at such elevation shall not exceed:

(i) 55 percent of the area of such #zoning lot#; or

(ii) an equivalent of 55 percent of the aggregate area of such #zoning lot# and any adjoining #zoning lots# with a common #lot line# for at least 90 feet with negative easements limiting height of existing and future #developments# on the adjoining #zoning lots# by recorded deed or other written instruments;

(2) that the #development# or #enlargement# includes on-site amenities, such as #arcades#, #through block arcades# or #covered pedestrian spaces# where the size and dimensions of such spaces are substantially greater than the required minimum standards, and includes skylights or other provisions for additional access of direct natural light so as to provide for an increased penetration of light and air therein at the #street# level of the #development# or #enlargement#, or a transit station improvement that results in a direct major connection to a subway station.

(3) In lieu of condition (c)(2), the #development# or #enlargement# may provide, in the same or an adjoining #block# of such #development# or #enlargement#, compensatory "off-site public open space." For the purposes of this paragraph, (c)(3), the term "adjoining block" shall mean a #block# that is contiguous to the #block# containing the #development# or #enlargement# but for its separation by a #street# or #street# intersection. The area of such off-site public open space shall be at least 4,000 square feet, or 15 percent of the #lot area# of a #zoning lot# containing the #development# or #enlargement#, whichever is more, and a width of at least 40 feet at any point.

Such public open areas shall have a southern exposure, and adjoin a public sidewalk and be #developed# pursuant to the provisions of Section 37-70 (PUBLIC PLAZAS). A plan for the development and maintenance of such off-site public space shall be approved by the Commission. The off-site public area shall be kept open to the general public in

accordance with a time schedule specified by the Commission. In no event shall such off-site public open space be eligible for #floor area# or bonus computation in connection with this or any other #development# or #enlargement#.

For such #developments# or #enlargements#, the Commission may also modify the applicable regulations of Sections 32-43 (Limitations on Business Entrances, Show Windows or Signs) and 36-663 (Restrictions on location of berths near Residence Districts) where adjoining frontage within a distance of 75 feet on the same side of the #street# is occupied by a #community facility# or ground floor #commercial# #use#, provided that such modification is part of an overall design for #show windows#, signage and entrances or off-street loading berths developed in conjunction with a public amenity such as a #public plaza#, #through block arcade# or #covered pedestrian space#, and will not alter the essential character of the immediate neighborhood.

In the case of existing #buildings# containing #residences# to remain temporarily on such #zoning lot#, the provisions of Sections 23-311 (Permitted obstructions in all yards, courts and open areas), 23-35 (Court Regulations) and 23-37 (Other Open Area Regulations) may be modified provided that each and every one of the following conditions are met:

(i) that such existing #buildings# with unexpired leasehold interests are located upon such #zoning lot#;

(ii) that the portions of the #zoning lot# where such existing #buildings# are located and are to be demolished shall be redeveloped according to the approved site plan;

(iii) that no temporary or final certificate of occupancy shall be issued for that portion of #floor area# in the #development# or #enlargement# equal to twice the #floor area# in the temporary existing #buildings# until such #buildings# are vacated, demolished and their sites are redeveloped in accordance with the approved project plan, except that where the Commission shall have determined that the applicant for a special permit has made an offer to purchase the leasehold interests from the lessees at a fair market value of the remainder of the lease term, the Commission may decrease the amount of #floor area# for which no certificate of occupancy may be issued; and

(iv) that the #development# or #enlargement# conform with all the applicable laws relating to construction, operation and maintenance.

The owner of the #zoning lot# shall have prominently displayed thereon a sign stating the date by which the #buildings# are to be demolished.

(4) As a further condition for the issuance of a permit under this paragraph (c), the owner of the #zoning lot# upon which #developments# or #enlargements# are to take place, must post a bond or other security payable to the City of New York and approved by the Corporation Counsel as to form, sufficient in amount as determined by the Commission to cover the cost of demolishing the existing #buildings# should the owner fail to so demolish within the prescribed time set forth in the approved project plan, and ensure that all #floor area# which is to be vacant in the #development# shall remain unfinished and vacant.

The bonds or other securities shall be payable to the City of New York if any of the above conditions are violated.

The Commission must find, with each grant for a special permit under this paragraph, (c), that the #development# or #enlargement#:

(i) shall result in improved circulation; and

(ii) would eliminate the undesirable pre-emption of ground level space by private #buildings or other structures#.

In making these findings, the Commission may consider the provision of improved connections to rapid transit facilities, where applicable.

The site plan accompanying each application for a grant of special permit under this paragraph (c), shall include a schedule indicating the timetable of demolition of all existing #buildings# and the schedule of #development# or #enlargement# and other improvements on the #zoning lot#.

In addition to the conditions in paragraphs (c)(1), (c)(2), (c)(3) and (c)(4) of this Section, the Commission shall find that the modification of height and setback will provide a better distribution of #bulk# on the #zoning lot# and will not adversely affect other adjacent #zoning lots# by unduly restricting access to light and air to surrounding public spaces, #streets# and properties.

(c) Notwithstanding any other provisions of the Zoning Resolution, where a #development# shares a #lot line# with a landmark #building# site for an aggregate distance of at least 90 feet, or contains a historically significant #street# that has been demapped and an archeologically significant site, both of which have been identified by the Landmarks Preservation Commission, the Commission may permit modification of the height and setback and #yard# regulations regardless of the lot size, provided that the following findings are made:

(1) there is a harmonious architectural relationship between the landmark and the new structure, and such relationship is approved by the Landmarks Preservation Commission or, in the case of a #development# which contains a historically significant #street# that has been demapped and an archeologically significant site, there is a visual recognition of the location of the demapped #street# and of the archeologically significant site created by a design treatment that has been approved by both the Landmarks Preservation Commission and the City Planning Commission and, if such #development# is located within 200 feet of a historic district, there is a harmonious relationship between the proposed #development# and the historic district; and

(2) pedestrian amenities are contained in the new structure including, where appropriate, retail stores and substantial pedestrian space at the principal levels of circulation, such as wider sidewalks, #arcades#, #covered pedestrian space#, subsurface concourses and convenient subway connections.

(d) The City Planning Commission may also permit modification of all #bulk# regulations as set forth in paragraph (a) of this Section on #zoning lots# with a minimum #lot area# of 30,000 square feet, where such #zoning lot# is located in a C6-4 District in Manhattan Community District 3, has frontage on a #wide street# and existed on August 8, 2018.

74-74 - Large-scale General Development

LAST AMENDED
2/2/2011

For #large-scale general developments# involving several #zoning lots# but planned as a unit, the district regulations may impose unnecessary rigidities and thereby prevent achievement of the best

possible site plan within the overall density and #bulk# controls. The regulations of this Section are designed to allow greater flexibility for the purpose of securing better site planning, while safeguarding the present or future use and development of the surrounding area.

No portion of a #large-scale general development# shall contain:

(a) any #use# not permitted by the applicable district regulations for such portion, except as otherwise provided in Section 74-744 (Modification of use regulations). When an existing #building# in a #large-scale general development# is occupied by a #non-conforming use#, any #enlargement# of such existing #building# shall be subject to the requirements set forth in Section 52-00 (DEFINITIONS AND GENERAL PROVISIONS);

(b) any #zoning lot#, or portion thereof, that is part of a #large-scale residential development# or #large-scale community facility development#.

74-741 - Requirements for application

LAST AMENDED
8/13/2015

An application to the City Planning Commission for the grant of a special permit pursuant to Section 74-74 for a #large-scale general development# shall include a site plan showing the boundaries of the #large-scale general development# and the proposed location and #use# of all #buildings or other structures# on each #zoning lot# comprising the #large-scale general development#.

However, for applications proceeding pursuant to the ownership provisions of paragraph (e) of Section 74-742, such site plan need only show the applicable portion of the #large-scale general development# as set forth in paragraph (e)(1) or (e)(2) of Section 74-742.

74-742 - Ownership

LAST AMENDED
12/18/2025

Except as otherwise provided in this Section, any #large-scale general development# for which application is made for a special permit in accordance with the provisions of Section 74-74 (Large-scale General Development) shall be on a tract of land which at the time of application is all under the control of the applicant(s) as the owner(s) or holder(s) of a written option to purchase. No special permit shall be granted unless the applicant(s) acquired actual ownership (single fee ownership or alternate ownership arrangements according to the #zoning lot# definition in Section 12-10 (DEFINITIONS) for all #zoning lots# comprising the #large-scale general development#) of, or executed a binding sales contract for, all of the property comprising such tract.

When a #large-scale general development# is located within a designated urban renewal area, the City's urban renewal agency, or a person authorized by such agency, may apply for and be granted a special permit under the provisions of Section 74-74 even though such #large-scale general development# does not meet the ownership requirements set forth elsewhere in this Section. All parcels comprising such #large-scale general development# shall be within the designated urban renewal area and subject to the urban renewal controls set forth in the approved urban renewal plan.

A special permit may be applied for and granted under the provisions of Section 74-74, even though such #large-scale general development# does not meet the ownership requirements set forth elsewhere in this Section, when the site of such #large-scale general development# is:

(a) to be #developed# or #enlarged# through assemblage by any other governmental agency, or its agent, having the power of condemnation; or

(b) owned by the Federal government and is within Brooklyn Community District 2; or

(c) partially under City ownership, within the former Washington Square Southeast Urban Renewal Area, within Community District 2 in the Borough of Manhattan, provided that the exception to the ownership requirements set forth herein shall apply only to tracts of land in City ownership; or

(d) partially under State or City ownership, or may include a tract of land under private ownership that is located within the bed of 26th Avenue between 1st Street and the bulkhead line within the Halletts Point Peninsula, in the area bounded by 8th Street and Vernon Boulevard on the east, the East River on the west and south, and the north side of 26th Avenue on the north, in Community District 1 in the Borough of Queens, provided that the exception to the ownership requirements set forth herein shall apply only to:

(1) tracts of land in State or City ownership; or

(2) a tract of land in private ownership located within the bed of 26th Avenue, between 1st Street and the bulkhead line;

(e) within Manhattan Community District 2, where the City Planning Commission has approved a special permit under Section 74-74 for a #large-scale general development# located partially within a C2-7 District, and a portion of such #large-scale general development# is subsequently mapped as a park and transferred to City ownership, then the consent or authorization of any owner or party in interest to:

(1) such #public park# shall not be required for any application for a modification to the special permit or associated restrictive declaration relating only to property within the #large-scale general development# other than the #public park#; and

(2) property other than the #public park# shall not be required for any application for a modification to the special permit or associated restrictive declaration relating only to the #public park#.

However, the consent or authorization of the owners and any party in interest to the other property shall be required if the proposed modification would impose an additional obligation or increase the degree of an obligation existing as of the date of the application for the modification on any such owner or any such party in interest;

(f) partially under State or City ownership, and is located within the boundaries of Community District 1 in the Borough of Brooklyn, on a #waterfront zoning lot# located within a C6-2 District that is mapped within a #Mandatory Inclusionary Housing area#, provided that the exception to the ownership requirements set forth herein shall apply only to tracts of land in State or City ownership; or

(g) partially under State or City ownership, and occupied by an elevated rail line and associated structures, and is located within the boundaries of Community District 5 in the Borough of Brooklyn partially within a C6-4 District that is mapped within a #Mandatory Inclusionary Housing area#, provided that the exception to the ownership requirements set forth herein shall apply only to tracts of land in State or City ownership.

74-743 - Special provisions for bulk modification

LAST AMENDED
10/29/2025

(a) For a #large-scale general development#, the City Planning Commission may permit:

(1) distribution of total allowable #floor area#, #rooming units#, #dwelling units#, #lot coverage# and total required #open space# under the applicable district regulations within a #large-scale general development# without regard for #zoning lot# lines or district boundaries, subject to the following limitations:

(i) no distribution of #bulk# across the boundary of two districts shall be permitted for a #use# utilizing such #bulk# unless such #use# is permitted in both districts;

(ii) when a #large-scale general development# is located partially in a #Residence District# or in a C1, C2, C3 or C4-1 District and partially in other #Commercial# or #Manufacturing Districts#, no transfer of #commercial# #floor area# to a #Residence District# or to a C1, C2, C3 or C4-1 District from other districts shall be permitted, except that for a #large-scale general development# located partially or wholly within the former Seward Park Extension Urban Renewal Area, a transfer of #commercial# #floor area# from a C6 District to a C2 District may be permitted

(2) location of #buildings# without regard for the applicable #yard#, #court#, distance between #buildings#, or height and setback regulations;

(3) variation in the location of primary business entrances and #show windows# along frontages adjacent to #zoning lots# outside the #large-scale general development# without regard to regulations applicable near #Residence

District# boundaries;

(4) the maximum #floor area ratio# permitted pursuant to Section 23-732 (Floor area ratio and open space ratio in R6 through R9 Districts) for the applicable district without regard for #height factor# or #open space ratio# requirements, provided that the #large-scale general development# is located partially in a C6-1, C6-2 or C6-3 District within the boundaries of Community Districts 2 or 7 in Manhattan or located within a C4-4 District within the boundaries of Queens Community District 7 and that a minimum of 50 percent of the required #open space# is provided within the #large-scale general development#. Required #open space# for the purposes of this paragraph (a)(4) shall be calculated by utilizing the smallest #open space ratio# at the maximum #floor area ratio#, pursuant to Section 23-732 for the applicable district;

(5) in a former Inclusionary Housing Designated Area as indicated in APPENDIX F in a C4-6 or C5 District:

(i) a portion of the #lot area# that contains a wholly #commercial building# to be excluded from the calculation of #floor area# for any other #buildings# on the remainder of the #zoning lot#; or

(ii) #community facility# #floor area# located above the ground floor to be excluded from the calculation of the amount of #affordable housing# required pursuant to Section 23-95, as such Section existed prior to December 5, 2024;

(6) modification of the requirements of Section 23-372 (Distance between legally required windows and lot lines) for #developments# or #enlargements#, where:

(i) the required minimum distance as set forth in Section 23-372 is provided between the #legally required window# in the #development# or #enlargement# and a wall or #lot line# on an #abutting# property; and

(ii) the required minimum distance is provided by a light and air easement acceptable to the Department of City Planning and recorded in the County Clerk's office in the county in which such tracts of land are located;

(7) modification of the definition of #outer court# in Section 12-10 (DEFINITIONS) and the provisions of Section 23-353 (Outer court regulations) to include any open area that is bounded on all sides but one by #building# walls and is not otherwise a #yard# or an #inner court#, provided that:

(i) such modifications are permitted only for #large-scale general developments#, previously approved by the Commission, in a C4-7 District within the boundaries of Manhattan Community District 7; and

(ii) the minimum distance between a #legally required window# facing onto such #outer court# and a #building# wall shall be 30 feet, measured in a horizontal plane at the sill level of, and perpendicular to, such window for the full width of the rough window opening;

(8) in a former Inclusionary Housing Designated Area in a C4-7 District within the boundaries of Manhattan Community District 7, for the purpose of applying

the Inclusionary Housing Program, as such program existed prior to December 5, 2024:

(i) modification of the base and maximum #floor area ratios# specified in Section 23-154 (Inclusionary Housing), not to exceed the maximum #floor area ratios# permitted by the underlying district, based on a proportionality between #affordable floor area#, as defined in Section 23-911, and #residential# #floor area# in #buildings# containing multiple #uses#; and

(ii) modification of the requirements regarding distribution of #affordable housing units#, as defined in Section 23-911, specified in paragraph (b) of Section 23-96 (Requirements for Generating Sites or MIH Sites);

(9) within the boundaries of Community District 3 in the Borough of the Bronx, portions of any #building#, at any level, that contain permitted or required #accessory# off-street parking spaces, to be excluded from the calculation of #lot coverage#;

(10) for a #large-scale general development# located partially or wholly within the former Seward Park Extension Urban Renewal Area, waiver of the planting requirements of Section 23-613 (Front yard planting requirements), provided the area between the #street line# and the #street walls# of the #building# and their prolongations is to be improved as a publicly accessible widened sidewalk;

(11) wholly within a C1-9 District entirely within the boundaries of Community District 8 in Manhattan, for a predominantly #community facility#

#development#, a #floor area# bonus not to exceed 20 percent of the maximum #floor area ratio# permitted by the underlying district regulations where, in connection with such #development#, an improvement to a #public park# located within the same Community District and within a one mile radius of the proposed #development# is provided in accordance with the provisions of this Section.

(i) A request for such bonus #floor area# shall be accompanied by:

(a) a site plan for a #public park# improvement, transmitted by the Commissioner of Parks and Recreation, sufficient in detail and scope with respect to the work necessary to complete such #public park# improvement, to enable the City Planning Commission to determine the appropriate amount of bonus #floor area# to be granted to the #development#; and

(b) a letter from the Commissioner of Parks and Recreation stating:

(a) the selection of the #public park# for the #public park# improvement has been informed by community input in the form of consultation or an existing plan;

(b) such #public park# improvement provides an appropriate amenity for the surrounding area; and

(c) that, absent funding to be provided by the applicant, such #public park# improvement is unlikely to be made in the foreseeable future.

(ii) Prior to a determination as to whether to grant the special permit, the City Planning Commission shall have received from the Commissioner of Parks and Recreation:

(a) any revisions to the site plan for the #public park# improvement or a statement that the site plan provided in the application is unchanged; and

(b) a letter that shall include:

(a) cost estimates for the #public park# improvement; and

(b) a statement that the funding to be provided by the applicant, in combination with any other available funding, is adequate for completion of the necessary infrastructure, landscape and other work necessary to complete the #public

park# improvement;

(12) within the boundaries of Community District 1 in the Borough of Queens, in the area generally north of 30th Road and west of 8th Street, within the Hallets Point Peninsula, the #floor area# distribution from a #zoning lot# containing existing public housing #buildings#, provided that upon approval of a #large-scale general development# there exists unused #floor area# on a separate parcel of land with existing light industrial #buildings# in an amount equivalent to, or in excess of, the #floor area# approved for distribution and further provided:

(i) such parcel shall be made part of such #zoning lot# upon approval of such #large-scale general development#, pursuant to the definition of #zoning lot# in Section 12-10, paragraph (d); and

(ii) the existing light industrial #buildings# on the separate parcel of land are demolished;

(13) within the boundaries of Community District 1 in the Borough of Brooklyn, on a #waterfront zoning lot# located within a C6-2 District that is mapped within a #Mandatory Inclusionary Housing area#, portions of the land, #piers# or #platforms# projecting seaward of the bulkhead line and existing on December 15, 2021, may be replaced or reconstructed with #new piers# or #new platforms#, as follows:

(i) any such existing land projecting seaward of the bulkhead line may be replaced or reconstructed with #new platforms# and such #new platforms# may be included as part of the #upland lot#. In no event shall the #lot area# generated by such #new platforms# exceed the #lot area# of the land projecting seaward of the bulkhead line, as it existed on December 15, 2021;

(ii) any other such #new piers# or #new platforms# may be considered #lot area# for the purposes of determining allowable #floor area# or number of #dwelling units#, or to satisfy any other #bulk# regulations, in accordance with the provisions of paragraphs (b) and (c) of Section 62-31 (Bulk Computations on Waterfront Zoning Lots). In no event shall the #floor area# generated by such #new piers# or #new platforms# exceed the #floor area# generated by #piers# or #platforms# projecting seaward of the bulkhead line, as they existed on December 15, 2021; and

(iii) any #new piers# or #new platforms# that are subject to the provisions of this paragraph (a)(13) need not meet the requirements of Sections 62-242 (Uses on new piers and platforms), 62-54 (Requirements for Public Access on Piers) or 62-63 (Design Requirements for Public Access on Piers and Floating Structures), inclusive; or

(14) within the boundaries of Community District 1 in the Borough of Brooklyn, to apply the provisions of Section 23-23 to allow floor area exemptions in #buildings# existing on December 5, 2024 within the #large-scale general development# for use in one or more new #buildings# within the same #large-scale general development#.

(b) In order to grant a special permit pursuant to this Section for any #large-scale general development#, the Commission shall find that:

(1) the distribution of #floor area#, #open space#, #dwelling units#, #rooming units# and the location of #buildings#, primary business entrances and #show windows# will result in a better site plan and a better relationship among #buildings# and open areas to adjacent #streets#, surrounding development, adjacent open areas and shorelines than would be possible without such distribution and will thus benefit both the occupants of the #large-scale general development#, the neighborhood and the City as a whole;

(2) the distribution of #floor area# and location of #buildings# will not unduly increase the #bulk# of #buildings# in any one #block# or unduly obstruct access of light and air to the detriment of the occupants or users of #buildings# in the #block# or nearby #blocks# or of people using the public #streets#;

(3) where a #zoning lot# of a #large-scale general development# does not occupy a frontage on a mapped #street#, appropriate access to a mapped #street# is provided;

(4) considering the size of the proposed #large-scale general development#, the #streets# providing access to such #large-scale general development# will be adequate to handle traffic resulting therefrom;

(5) when the Commission has determined that the #large-scale general development# requires significant addition to existing public facilities serving the area, the applicant has submitted to the Commission a plan and timetable to provide such required additional facilities. Proposed facilities that are incorporated into the City's capital budget may be included as part of such plan and timetable;

(6) where the Commission permits the maximum #floor area ratio# in accordance with the provisions of paragraph (a)(4) of this Section, the #open space# provided is of sufficient size to serve the residents of new or #enlarged# #buildings#. Such #open space# shall be accessible to and usable by all residents of such new or #enlarged# #buildings#, have appropriate access, circulation, seating, lighting and paving, and be substantially landscaped. Furthermore, the site plan of such #large-scale general development# shall include superior landscaping for #open space# of the new or #enlarged# #buildings#;

(7) where the Commission permits the exclusion of #lot area# or #floor area# in accordance with the provisions of paragraph (a)(5) of this Section or modification of the base and maximum #floor area ratios# or requirements regarding distribution of #affordable housing units# in accordance with paragraph (a)(8) of this Section, such modification will facilitate a desirable mix of #uses# in the #large-scale general development# and a plan consistent with the objectives of the Inclusionary Housing Program, as such program existed prior to December 5, 2024, and those of Section 74-74 (Large-scale General Development) with respect to better site planning;

(8) where the Commission permits portions of #buildings# containing #accessory# parking spaces to be excluded from the calculation of #lot coverage# in accordance with the provisions of paragraph (a)(9) of this Section, the exclusion of #lot coverage# will result in a better site plan and a better relationship among #buildings# and open areas than would be possible without such exclusion and therefore will benefit the residents of the #large-scale general development#;

(9) where the Commission permits a #floor area# bonus for a #public park# improvement in accordance with the provisions of paragraph (a)(11) of this Section:

(i) the amount of such bonus #floor area# is appropriate in relation to the size and quality of the proposed #public park# improvement; and

(ii) such bonus #floor area# will not unduly increase the #bulk# of #buildings# on the #zoning lot# or unduly obstruct access of light and air to the detriment of the occupants or users of #buildings# on the #block# or nearby #blocks# or of people using the public #streets#.

Grant of a #floor area# bonus for a #public park# improvement in accordance with the provisions of paragraph (a)(11) of this Section shall be conditioned upon adequate assurances for provision of the funding identified by the Commissioner of Parks and Recreation in a letter pursuant to paragraph (a)(11)(ii) of this Section as necessary for completion of the necessary infrastructure, landscape and other work for the #public park# improvement. The Commissioner of Buildings shall not issue a building permit for the #large-scale general development# unless the Commissioner of Parks and Recreation shall have certified that the funding has been made or secured in a manner acceptable to such Commissioner;

(10) a declaration with regard to ownership requirements in paragraph (b) of the #large-scale general development# definition in Section 12-10 (DEFINITIONS) has been filed with the Commission;

(11) where the Commission permits #floor area# distribution from a #zoning lot# containing existing light industrial #buildings# to be demolished in accordance with the provisions of paragraph (a)(12) of this Section, such #floor area# distribution shall contribute to better site planning of the #waterfront public

access area# and shall facilitate the #development# of affordable housing units within a #large-scale general development#;

(12) where #new piers# or #new platforms# are constructed, replaced or reconstructed in accordance with the provisions of paragraph (a)(13) of this Section, such #new piers# and #new platforms# are an integral part of such #large-scale general development#, result in a superior site plan and form an appropriate relationship with adjacent #waterfront public access areas# and #shorelines#, and provide significant public access to or within the #seaward lot# portion of the #waterfront zoning lot#; and

(13) where the Commission permits floor space to be exempt from the definition of #floor area# in accordance with the provisions of paragraph (a)(14) of this Section:

(i) such exemptions shall result in improvements to #residential# amenities accessible to all residents of the #large-scale general development#; and

(ii) an amount of #floor area# equivalent to 20 percent of the amount of #residential# floor space exempted from #floor area# pursuant to the provisions of paragraph (a)(14) shall be allocated to units affordable at levels required for #affordable housing units# for a #UAP site#, as those terms are defined in Section 27-111 (General definitions).

Within Manhattan Community District 2, within the former Washington Square Southeast Urban Renewal Area, where the Commission has approved a #large-scale general development# and a #lot line# of such #large-scale general development# coincides with the boundary of a mapped #public park#, such #lot line# shall be considered to be a #street line# of a #wide street# for the purposes of

applying all #use# and #bulk# regulations of this Resolution.

In addition, within Manhattan Community District 2, where the Commission has approved a #large-scale general development# located partially within a C2-7 District, if any #open space# approved pursuant to paragraph (a)(4) of Section 74-743 is subsequently mapped as a park and transferred to City ownership, the #open space# requirement approved for such #large-scale general development# pursuant to paragraph (a)(4) of Section 74-743 shall be reduced by the area of such #public park#.

Within Community District 1 in the Borough of Queens, the Commission may prescribe additional conditions to ensure that the purpose of the Inclusionary Housing program as set forth in Section 23-92 (General Provisions) is achieved in a #large-scale general development#, as such program existed prior to December 5, 2024. The Commission may establish procedures resulting in limiting the amount of #affordable floor area# utilizing #public funding# that may count toward satisfying the #affordable floor area# required in paragraph (c)(2) of Section 23-154. Any such procedures established by the Commission shall be set forth in the restrictive declaration required in connection with the grant of a special permit for such #large-scale general development#.

For a phased construction program of a multi-#building# complex, the Commission may, at the time of granting a special permit, require additional information, including but not limited to a proposed time schedule for carrying out the proposed #large-scale general development#, a phasing plan showing the distribution of #bulk# and #open space# and, in the case of a site plan providing for common #open space#, common open areas or common parking areas, a maintenance plan for such space or areas and surety for continued availability of such space or areas to the people they are intended to serve.

The Commission may prescribe additional conditions and safeguards to improve the quality of the #large-scale general development# and to minimize adverse effects on the character of the surrounding area.

74-744 - Modification of use regulations

LAST AMENDED
6/6/2024

(a) #Use# modifications

(1) Automotive sales and service #uses#

For #large-scale general developments#, previously approved by the Commission, in a C4-7 District within the boundaries of Manhattan Community District 7, Commission may modify applicable district regulations to allow automotive sales and service establishments that include repair services and preparation for delivery, provided the Commission shall find that:

(i) the portion of the establishment used for the servicing and preparation of automobiles is located entirely in a #cellar# level and below grade or established #curb level#, and the ground floor level of such establishment is used only for showrooms and sales;

(ii) sufficient indoor space for storage of vehicles for sale or service has been provided; and

(iii) such #use# will not create or contribute to serious traffic congestion and will not unduly inhibit surface traffic or adversely affect pedestrian movement.

(2) Retail establishments

For a #large-scale general development# located partially or wholly within the former

Seward Park Extension Urban Renewal Area, the Commission may modify applicable district regulations to allow #uses# listed under Use Groups VI, VIII or X that would be permitted in a C6 District, except for arenas or auditoriums, trade expositions and stadiums, provided the Commission finds that:

(i) such #uses# will not impair the character of future #uses# or development of the surrounding area; and

(ii) the #streets# providing access to such #uses# will be adequate to handle the traffic generated thereby.

(b) Modifications of #sign# regulations

(1) In all #Commercial# or #Manufacturing Districts#, the Commission may, for #developments# or #enlargements# subject to the provisions of paragraphs (a)(1), (a)(2) or (a)(3) of Section 74-743 (Special provisions for bulk modification), permit the modification of the applicable provisions of Sections 32-64 (Surface Area and Illumination Provisions), 32-65 (Permitted Projection or Height of Signs), 32-66 (Additional Regulations for Signs Near Certain Parks and Designated Arterial Highways), 42-63 (Surface Area and Illumination Provisions), 42-64 (Permitted Projection or Height of Signs), 42-65 (Additional Regulations for Signs Near Certain Parks and Designated Arterial Highways) and the limitations on the location of #signs# in Sections 32-43 and 42-53 (Limitations on Business Entrances, Show Windows or Signs), provided the Commission finds that such modification will result in a better site plan.

(2) For a #large-scale general development# located partially or wholly within the former Seward Park Extension Urban Renewal Area, the Commission, by authorization, may make the #sign# regulations of a C6-1 District applicable to those portions of such

#large-scale general development# within a C2 District, and in addition, may modify the provisions of Section 32-68 (Permitted Signs on Residential or Mixed Buildings) to allow #signs# #accessory# to non-#residential uses# above the level of the finished floor of the third #story#, provided such #signs# do not exceed a height of 40 feet above #curb level#. In order to grant such authorizations, the Commission shall find that such modifications are consistent with the amount, type and location of #commercial# #uses# that the Commission finds appropriate within such #large-scale general development#.

The Commission may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the development.

74-745 - Modifications of parking and loading regulations

LAST AMENDED
6/6/2024

For a #large-scale general development# the City Planning Commission may permit:

(a) Modification of location requirements

When a #large-scale general development# includes two or more #zoning lots#, the Commission may permit required or permitted #accessory# off-street parking spaces, bicycle parking spaces or loading berths to be located anywhere within a #large-scale general development# without regard for #zoning lot# #lines#, provided that the Commission shall find:

(1) such off-street parking spaces, bicycle parking spaces and loading berths will be conveniently located in relation to the #use# to which such spaces or berths are #accessory#;

(2) such location of off-street parking spaces, bicycle parking spaces and loading berths will result in a better site plan; and

(3) such location of off-street parking spaces, bicycle parking spaces and loading berths will not unduly increase the number of spaces in any single #block#, draw excessive traffic through local #streets#, or otherwise adversely affect traffic conditions in the surrounding area.

Whenever required off-street parking spaces, bicycle parking spaces and loading berths are permitted to be located without regard for #zoning# #lot lines# in accordance with the provisions of this Section, the number of spaces required for each #building# shall be kept available for such #building# throughout its life.

(b) Waiver or reduction of loading berth requirements

For #zoning lots# in a #large-scale general development#, located either within a #Special Mixed Use District# in Community District 2 in the Borough of The Bronx, or within a waterfront area pursuant to paragraph (b) of Section 62-132, in Community District 1 in the Borough of Brooklyn, where such #zoning lots# in the waterfront area contain one or more retail or service #uses# listed in Use Group VI, and where no single such establishment in the waterfront area exceeds 8,500 square feet in #floor area#, or for #zoning lots# located in #large-scale general developments# within #Special Mixed Use District# 24 in Community District 1 in the Borough of Queens, the Commission may waive or reduce the number of required loading berths, provided that:

(1) curbside deliveries will not create or contribute to serious traffic congestion or unduly inhibit vehicular or pedestrian movement and will not interfere with the efficient functioning of nearby #uses#;

(2) an efficient goods receiving system will be implemented within the #commercial# establishment to expedite the movement of goods from the curb to areas within the establishment;

(3) such modification allows for a better relationship between the #street walls# of the #building# containing such establishment and the adjacent sidewalk and surrounding area; and

(4) such modification will not impair or adversely affect the development of the surrounding area.

(c) Reduction of parking requirements

For #buildings# on #zoning lots# in a #large-scale general development#, within R7-2 Districts in Community District 1 in the Borough of the Bronx, that contain an #affordable independent residence for seniors#, the Commission may waive or reduce the number of required #accessory# off-street parking spaces, including any spaces previously required for an existing #building#, provided that the Commission finds that:

(1) the anticipated automobile ownership patterns for residents of such #affordable independent residence for seniors# are minimal and that such waiver or reduction is warranted;

(2) such waiver or reduction of parking spaces will not have undue adverse impacts on the residents, businesses or community facilities in the surrounding area; and

(3) such waiver or reduction of parking spaces will result in a better site plan with better quality open areas.

In determining the amount of parking spaces to waive or reduce, the Commission may take into account current automobile ownership patterns for an existing #affordable independent residence for seniors# on the #zoning lot#, as applicable.

The Commission may prescribe additional conditions and safeguards to minimize adverse effects on the surrounding area.

74-746 - Special provisions for development or enlargement over streets

LAST AMENDED
2/2/2011

Within a #large-scale general development#, when the volume above a #street#, or portion thereof, has been eliminated, discontinued and closed, the City Planning Commission may permit such volume to be considered part of an adjoining #zoning lot# and may allow, within such volume, a #development# or #enlargement# that is part of a #building# or #buildings# in the #large-scale general development#. In no event shall such volume contribute to the amount of #lot area# counted for the purposes of qualifying as a #large-scale general development# or generating any #floor area#.

(a) The following conditions must be met for the #development# or #enlargement# to be permitted in such volume:

(1) a satisfactory ventilation plan consistent with the requirements of New York City's Departments of Transportation and Environmental Protection is provided for the #street# below the volume;

(2) an illumination of at least five foot candles at the #curb level# is provided for the #street# below the volume; and

(b) In order to grant the special permit, the Commission shall find that the #development# or #enlargement# in such volume:

(1) is functionally necessary or will improve the internal circulation within the #large-scale general development#, or will improve vehicular or pedestrian circulation on adjacent #streets#;

(2) will not adversely impact the continued use of the #street#;

(3) will not have an adverse impact on the essential character or future use or development of the adjacent area; and

(4) will not unduly obstruct any significant scenic view.

The Commission may prescribe additional conditions and safeguards to minimize adverse effects on the character of the surrounding area.

74-747 - Previously granted special permits

LAST AMENDED
2/2/2011

Any #development# or #enlargement# granted a special permit by the City Planning Commission under previous Section 74-74 (Commercial Development Extending into More than One Block) prior to February 22, 1990, may be started or continued pursuant to that special permit.

The Commission may administratively, upon application, allow modifications of the special permit granted under previous Section 74-74 (Commercial Development Extending into More than One Block) before February 22, 1990.

In no event may the Commission grant a modification of a special permit approved prior to February 22, 1990, that would require additional #bulk# distribution among #zoning lots# or modification of the height and #lot coverage# limitations previously established. Any modifications exceeding the limitations set forth herein shall be subject to the provisions of the new Section 74-74 (Large-scale General Development).

No existing #publicly accessible open area# or other public amenity for which a #floor area# bonus or any increase in tower coverage above 40 percent of the #lot area# of the #zoning lot# has been received under previous Section 74-74 (Commercial Development Extending into More than One Block) prior to February 22, 1990, shall be eliminated or reduced in size except by special permit of the Commission pursuant to a finding that a proposed change will provide a greater public benefit in the light of the public amenity's purpose.

Any #sign# shown on a site plan incorporated as part of a special permit of the Commission under the provisions of Section 74-74 (Large-scale General Development) prior to February 27, 2001, may be erected and maintained in accordance with such special permit.

74-75 - Educational Construction Fund Projects

LAST AMENDED
8/24/2017

74-751 - Educational Construction Fund in certain districts

In R5 through R12 Districts, in #Commercial Districts# mapped within, or with a #residential equivalent# of R5 through R12 Districts, and in C7 Districts, for combined #school# and #residences# including air rights over #schools# built on a #zoning lot# owned by the New York City Educational Construction Fund, the City Planning Commission may permit utilization of air rights; modify the requirements that open area be accessible to and usable by all persons occupying a #dwelling unit# or #rooming unit# on the #zoning lot# in order to qualify as #open space#; permit ownership, control of access and maintenance of portions of the #open space# to be vested in the New York City Educational Construction Fund or City agency successor in title; permit modification of #yard# regulations and height and setback regulations; permit the distribution of #lot coverage# without regard for #zoning# #lot lines# for a #zoning lot# containing the Co-op Tech High School in Manhattan Community District 11; authorize the total #floor area#, #open space#, #dwelling units# or #rooming units# permitted by the applicable district regulations on such site to be distributed without regard for district boundaries; and authorize an increase of 25 percent in the number of #dwelling units# or #rooming units# permissible under the applicable district regulations. For the purposes of this Section, a #zoning lot# owned by the New York City Educational Construction Fund may also include a tract of land under single fee ownership or alternate ownership arrangements according to the #zoning lot# definition in Section 12-10, when such tract of land includes a parcel which was the site of a public school listed in the following table.

School	Community District
P.S. 151	CD 8, Manhattan

The total number of #dwelling units# or #rooming units# and #residential# #floor area# shall not exceed that permissible for a #residential# #building# on the same #zoning lot#.

The distribution of #bulk# on the #zoning lot# shall permit adequate access of light and air to the surrounding #streets# and properties.

As further conditions for such modifications:

(a) the #school# and the #residence# shall be #developed# as a unit in accordance with a plan approved by the Commission;

(b) at least 25 percent of the total #open space# required by the applicable district regulations, or such greater percentage as may be determined by the Commission to be the appropriate minimum percentage, shall be accessible exclusively to the occupants of such #residence# and under the direct control of its management;

(c) notwithstanding the provisions of Section 23-734 (Permitted obstructions in open space), none of the required #open space# shall include driveways, private streets, open #accessory# off-street parking spaces or open #accessory# off-street loading berths; and

(d) the Commission shall find that:

(1) a substantial portion of the #open space# which is not accessible exclusively to the occupants of such #residence# will be accessible and usable by them on satisfactory terms part-time;

(2) playgrounds, if any, provided in conjunction with the #school# will be so designed and sited in relation to the #residence# as to minimize any adverse effects of noise; and

(3) all #open space# will be arranged in such a way as to minimize friction among those using #open space# of the #buildings or other structures# on the #zoning lot#.

The Commission shall give due consideration to the landscape design of the #open space# areas. The Commission shall also give due consideration to the relationship of the #development# to the #open space# needs of the surrounding area and may require the provision of a greater amount of total #open space# than the minimum amount required by the applicable district regulation where appropriate for

the purpose of achieving the #open space# objectives of the #Residence District# regulations.

The Commission may prescribe other appropriate conditions and safeguards to enhance the character of the surrounding area.

74-752 - Educational Construction Fund projects in certain areas

LAST AMENDED
9/26/2018

In C6-9 Districts within the #Special Downtown Brooklyn District#, for #developments#, #enlargements# or #conversions# that include one or more #schools# on a tract of land owned by the New York City Educational Construction Fund, the City Planning Commission may permit the modifications set forth in paragraph (a) of this Section. For the purposes of this Section, a tract of land owned by the New York City Educational Construction Fund may also include a tract of land under single fee ownership or alternate ownership arrangements according to the #zoning lot# definition in Section 12-10, when such tract of land includes a parcel which was the site of a public school.

(a) Modifications

The Commission may modify:

(1) applicable ground floor #use# regulations;

(2) in a #Mandatory Inclusionary Housing area#, the affordable housing requirements of Section 27-131 (Mandatory Inclusionary Housing);

(3) other #bulk# regulations, except that the maximum permitted #floor area ratio# may not be increased; and

(4) #accessory# off-street parking and loading berth requirements.

(b) Findings

To grant a special permit pursuant to this Section, the Commission shall find that:

(1) such modifications will facilitate the construction of one or more #schools# on the #zoning lot#;

(2) such ground floor #use# modifications will improve the layout and design of the #school# or #schools#, shall not have an adverse effect on the #uses# located within any portion of the #zoning lot# and will not impair the essential character of the surrounding area;

(3) such modifications to the affordable housing requirements in a #Mandatory Inclusionary Housing area# will facilitate significant public infrastructure or public facilities, including one or more #schools#, addressing needs that are not created by the proposed #development#, #enlargement# or #conversion#;

(4) such #bulk# modifications will result in a better site plan for the #school# or #schools# and will have minimal adverse effects on the surrounding area;

(5) such parking and loading modifications will improve the layout and design of the school and will not create serious traffic congestion or unduly inhibit vehicular or pedestrian movement and will not impair or adversely affect the development of the surrounding area.

The Commission may prescribe additional conditions and safeguards to minimize adverse effects on the character of the surrounding area.

74-76 - Plazas

LAST AMENDED
6/21/1973

74-761 - Elimination or reduction in size of bonused public amenities

LAST AMENDED
10/17/2007

In all districts, the City Planning Commission may, by special permit, allow the elimination or reduction in size of any existing #publicly accessible open area#, #arcade# or other public amenity, open or enclosed, for which a #floor area# bonus has been utilized, provided that such reduction or elimination shall not create a #floor area# #non-compliance# on the #zoning lot#.

In granting such special permit, the Commission shall find that:

(a) such elimination or reduction is adequately compensated by the substitution of another public amenity or improvement on the #zoning lot# that shall provide equal or increased public benefit; and

(b) for #publicly accessible open areas# any remaining bonused open area will comply to the maximum extent feasible with the standards of #public plazas# as set forth in Section 37-70.

However, the Commission may waive the provisions of paragraph (b) of this Section if it finds that such standards for #public plazas# would compromise the design integrity of the #publicly accessible open area# or would result in the loss of significant design elements or character that are integral components of the #publicly accessible open area's# design.

The Commission may prescribe additional conditions to enhance the relationship of public open areas, #buildings# or other amenities on the #zoning lot#, to the surrounding areas.

74-77 - Artists' Centers

LAST AMENDED
8/12/1969

In C6-1, C6-2, C6-3 or C6-4 Districts, for alterations or additions to existing #buildings#, to be occupied as living and working quarters by #artists# engaged in the visual or performing arts, with or without related community studio space, the City Planning Commission may permit #residential# and non-#residential uses# to be arranged within the #building# without regard for the regulations set forth in Section 32-42 (Location Within Buildings). For alterations of such #buildings# but not for additions, the Commission may permit modifications of the regulations set forth in Sections 23-35 to 23-37, inclusive, relating to Court Regulations and Minimum Distance between Windows or Walls or Lot Lines and may permit modification of the requirements set forth in Sections 23-33 to 23-34, inclusive, relating to #rear# and #side yard# regulations.

As a condition precedent to the grant of such special permit, the Commission shall make the following findings:

(a) that the location, design and construction of such #building# particularly suit it to use as an #artists'# center, and that full realization of these advantages requires modification of the regulations controlling arrangement of #residential# and non-#residential uses# within the

#building#, or modification of the #court# regulations or the required distance between #legally required windows# and existing walls or #lot lines#, or modification of the #rear# and #side yard# requirements; and

(b) that an organization has been established for assuring that the #dwelling units# will be occupied by persons who qualify as #artists#.

For the purposes of this Section, non-#commercial# studio space for use in common by artists residing in the #building# may be classified as a #community facility use#.

74-78 - Conversions of Non-residential Floor Area

LAST AMENDED
2/2/2011

74-781 - Modifications by special permit of the City Planning Commission of uses in M1-5B Districts

LAST AMENDED
12/5/2024

In M1-5B Districts, the City Planning Commission may, after public notice and hearing and subject to Board of Estimate approval, permit modification paragraphs (a)(3), (a)(4) and (b) of Section 42-315 (Use regulations in M1-5B Districts), provided that the Commission finds that the owner of the space, or a predecessor in title, has made a good faith effort to rent such space to a mandated #use# at fair market rentals. Such efforts shall include but not be limited to: advertising in local and citywide press, listing the space with brokers and informing local and citywide industry groups. Such efforts shall have been actively pursued for a period of no less than six months for #buildings# under 3,600 square

feet and one year for #buildings# over 3,600 square feet, prior to the date of the application for a special permit

74-79 - Transfer of Development Rights From Landmark Sites

LAST AMENDED
12/5/2024

The City Planning Commission may permit the allowances in paragraph (a) provided that the findings in paragraph (b) are met,

(a) The Commission may permit:

(1) in #Commercial Districts# or #Manufacturing Districts# where the maximum #floor area ratio# for non-#residential uses# is 15.0 or greater, a transfer of development rights pursuant to Section 75-42 (Transfer of Development Rights From Landmarks) that exceeds the maximum #floor area# allowable on such #zoning lot# by more than 30 percent; or

(2) in all districts, for #developments# or #enlargements#, #bulk# modifications, other than #floor area ratio#, to be made in conjunction with a transfer of development rights pursuant to Section 75-42.

(b) In order to grant such special permit, the Commission shall find that:

(1) the proposed modifications will not unduly obstruct access to light and air to adjoining properties or #streets#; and

(2) the proposed scale and placement of the #development# or #enlargement# relates harmoniously with the surrounding area.

The Commission may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area.

74-80 - ADDITIONAL PERMITS

LAST AMENDED
6/6/2024

74-81 - Through Block Arcades

LAST AMENDED
12/5/2024

In C4-7, C5-2, C5-3, C5-4, C5-5 and C6 Districts, the City Planning Commission may permit #through block arcades# to be located in #commercial buildings# or #mixed buildings#. For each square foot of #through block arcade# located in C4-7, C5-2, C5-4, C6-1, C6-2, C6-3, C6-4, C6-5 or C6-8 Districts, a bonus of three feet of #floor area# may be permitted and for each square foot of #through block arcade# located in C5-3, C5-5, C6-1A, C6-6, C6-7, C6-9, C6-11 or C6-12 Districts, a bonus of six feet of #floor area# may be permitted. #Through block arcades# may be located on a #zoning lot# in conjunction with a #publicly accessible open area# or an #arcade# but in no event shall the total #floor area# permitted on that #zoning lot# exceed the amount set forth in Section 33-12 (Maximum Floor Area Ratio) by more than 20 percent.

In the districts with an equivalent #residential# #floor area ratio# of 10, any #floor area# bonus earned by providing a #through block arcade# may be applied to increase the #residential# #floor area# of a #mixed building# provided the maximum #floor area ratio# for the #residential# portion does not exceed 12.0.

Each application for a #through block arcade# must meet the following criteria:

(1) result in substantial improvement of pedestrian circulation; and

(2) provide appropriate secondary #commercial# frontage along the #through block arcade# such as small shops and restaurants.

Bridges, mezzanines and balconies which add interest and function to the #arcade# without unduly obstructing its light and air may be incorporated in the proposal.

Lighting, paving, #signs# and plantings shall be specified in the application.

The Commission may prescribe appropriate conditions and safeguards to minimize any adverse effects on the character of the surrounding area.

74-82 - Public Service Establishments

LAST AMENDED
12/5/2024

74-821 - Court houses

LAST AMENDED
12/5/2024

In all #Commercial Districts#, the City Planning Commission may permit modifications of the applicable #bulk# regulations so as to allow the same #bulk# regulations as would apply for a #community facility building# in the applicable #Commercial District# and may permit modifications of the applicable regulations in Sections 33-26 to 33-30, inclusive, relating to Yard Regulations or Sections 33-41 to 33-45, inclusive, relating to Height and Setback Regulations. The Commission shall find that because of site limitations such modifications are necessary for the proper design and operation of the court house.

The Commission may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area.

74-822 - Borough-based jail system

LAST AMENDED
12/5/2024

For #zoning lots# that are the subject of a site selection for a borough-based jail system pursuant to application C 190333 PSY, the City Planning Commission may, by special permit, allow modifications to the applicable regulations governing #uses#, #bulk#, including permitted #floor area ratio#, the permitted capacities of #accessory# off-street parking facilities and #public parking garages#, and off-street loading regulations, to facilitate construction of the proposed facilities. In order to grant such special permit, the Commission shall find that:

(a) any #use# modifications will support the operation of the facility and will be compatible with the essential character of the surrounding area;

(b) ground floor #uses# will be located in a manner that is inviting to the public and will integrate the facility within the surrounding community;

(c) any increase in permitted #floor area ratio# will facilitate the development of the facility;

(d) any #bulk# modifications will improve the interior layout and functionality of the facility;

(e) such #bulk# modifications, including any increase in permitted #floor area ratio#, will have minimal adverse effects on access to light and air for buildings and open spaces in the surrounding area;

(f) any modifications to the provisions of #accessory# off-street parking and loading regulations will not create serious traffic congestion or unduly inhibit vehicular or pedestrian movement and will not impair or adversely affect the development of the surrounding area; and

(g) any modifications to the permitted capacity of #public parking garages#:

(1) will not create serious traffic congestion or unduly inhibit vehicular or pedestrian movement and will not impair or adversely affect the development of the surrounding area; and

(2) will provide adequate reservoir space at the vehicular entrances to accommodate automobiles equivalent in number to 20 percent of the total number of spaces up to 50 spaces, and five percent of any spaces in excess of 200, but in no event shall such reservoir space be required for more than 50 automobiles.

The Commission may prescribe additional conditions and safeguards to minimize adverse effects on the character of the surrounding area.

74-83 - Developments With Existing Buildings

LAST AMENDED
12/5/2024

74-831 - Development in certain Commercial Districts

LAST AMENDED
12/5/2024

In C5-2, C5-3, C5-4, C5-5, C6-4, C6-5, C6-6, C6-7, C6-8, C6-9, C6-11 or C6-12 Districts, the City Planning Commission may permit a #zoning lot# having a minimum area of 40,000 square feet or occupying an entire #block# to be #developed# to its maximum allowable #bulk# under applicable district regulations and any existing #buildings# to remain temporarily on that lot and may permit the #floor area# of any existing #buildings# to be excluded from computations determining such maximum allowable #floor area#, provided that each and every one of the following conditions are met:

(a) that existing #buildings# with unexpired leasehold interests are located upon such #zoning lot#;

(b) that all leases within the existing #buildings# must terminate within five years after the issuance of a special permit under this Section, and that no new leases or any lease renewals shall be entered into on any existing #buildings# or portion of such existing #buildings#;

(c) that the total #floor area# of all such existing #buildings# on the #zoning lot# is not greater than 20 percent of the maximum allowable #floor area# for that #zoning lot#;

(d) that demolition of all such existing #buildings# must commence within five years after the issuance of the special permit under this Section;

(e) that the portions of the #zoning lot# where existing #buildings# are located and are to be demolished shall be redeveloped according to the approved site plan; and

(f) that, until such time as demolition of all such existing #buildings# and completion of the approved site plans, #floor area# equal in amount to that which was located in such existing

#buildings#, must be left unfinished and vacant in the new #development#; and a temporary certificate of occupancy, for the vacant space, shall remain in effect until all conditions in the special permit are satisfied.

The owner of the #zoning lot# shall submit a copy of all leases on any #building# or portion of any #building# on the #zoning lot# together with an opinion of counsel that the leases will terminate within five years.

All leases of such existing #buildings# or portions of #buildings# shall submit affidavits attesting to the expiration date of their leases together with an opinion of counsel that the lease will expire within five years.

The owner of the #zoning lot# shall have prominently displayed on the front of all existing #buildings# a sign stating the date that the #building# is to be demolished.

As a further condition for the issuance of a permit under this Section, the owner of the #zoning lot#, upon which new #development# is to take place, must post a bond or other security payable to the City of New York and approved by the Corporation Counsel sufficient in amount to:

(1) cover the cost of demolishing the existing #buildings# should the owner fail to so demolish within the prescribed time;

(2) ensure that all #floor area# which is to be vacant in the new #development# shall remain unfinished and vacant; and

(3) ensure that no new leases or lease renewals are entered into on any portion of any of the existing #buildings#.

The bonds or other securities shall be payable to The City of New York if any of the above conditions are violated.

The Commission must find, with each grant for a special permit under this Section, that the #development# shall result in improved circulation and would eliminate the undesirable preemption

of ground level space by private #buildings or other structures#. In making this finding, the Commission may consider the provision of improved connections to rapid transit facilities, where applicable.

The site plan accompanying each application for a grant of special permit under this Section shall include a schedule indicating the timetable of demolition of all existing #buildings# and the schedule of new #development# and other improvements on the #zoning lot#.

74-84 - Certain Large Retail Establishments

LAST AMENDED
12/5/2024

In M1-5 or M1-6 Districts, the City Planning Commission may modify the applicable regulations governing height and setback or #yards# for a change of #use#, #extension# or minor #enlargement# involving a large retail establishment.

In M1-5M Districts, the Commission may also modify the applicable regulations governing loading berths so as to allow the location of such berths off-site in conjunction with a change of #use#, #extension# or #enlargement# of a large retail establishment with a #floor area# of at least 25,000 square feet within a #building# designed for #residential use#.

As a condition of granting a special permit for such large retail establishments, the Commission shall find:

(a) that such #bulk# modifications will not unduly obstruct the access of light and air to surrounding streets and properties; and

(b) that in the case of modification of loading berth regulations to allow off-site loading berths, the Commission further finds:

(1) that an adequate alternate loading facility in the same ownership (single fee ownership or control or alternative ownership arrangements of the #zoning lot# definition in Section 12-10) as the retail store is provided, subject to a deed restriction filed in an office of record binding the owner and his heirs and assigns to maintain the alternate facility throughout the life of the retail store;

(2) that the alternate loading facility is located within the same district or an adjoining C6-M, C8 or #Manufacturing District# and the maximum distance between the two sites is 1000 feet;

(3) that the location of the loading berths on the same #zoning lot# as the retail store would have a significant impact on the existing #residential uses# in the #building#;

(4) that the location of the loading berths on the same #zoning lot# as the retail store would create serious vehicular and pedestrian traffic conflict on the #street# upon which the store fronts; and

(5) that the alternate location of such loading berths will not unduly affect the movement of pedestrians or vehicles on the #streets# surrounding the alternate site.

The Commission may prescribe additional conditions and safeguards to minimize adverse effects on the character of the surrounding area.

74-85 - Covered Pedestrian Space

LAST AMENDED
8/14/2025

C4-7 C5-2 C5-3 C5-4 C5-5 C6-4 C6-5 C6-6 C6-7 C6-8 C6-9 C6-11 C6-12 M1-6A M1-7A M1-8A M1-9A

In the districts indicated and in the #Special Midtown South Mixed Use District#, the City Planning Commission may permit #floor area# bonuses for #covered pedestrian space# in accordance with the provisions of Sections 74-851 through 74-853, inclusive.

74-851 - Floor area bonus for covered pedestrian space

LAST AMENDED
8/14/2025

For the #development# or #enlargement# of a #commercial#, #community facility# or #mixed building#, for each square foot of #covered pedestrian space# provided on a #zoning lot#, the total #floor area# permitted on that #zoning lot# under the provisions of Section 33-12 (Maximum Floor Area Ratio) or Section 43-132 (Floor area regulations in M1 Districts with an A suffix), as applicable, may be increased as set forth in the following table:

PERMITTED ADDITIONAL FLOOR AREA PER SQUARE FOOT OF COVERED PEDESTRIAN SPACE

District	Basic (in square feet)	Maximum (in square feet)

C5-3 C5-5 C6-6 C6-7 C6-9 C6-11 C6-12 M1-8A M1-9A	11	14
C4-7 C5-2 C5-4 C6-4 C6-5 C6-8 M1-6A M1-7A	8	11

In no event shall the resulting #floor area ratio# exceed the amount set forth in the underlying provisions by more than 20 percent. Any #floor area# bonus earned by providing a #covered pedestrian space# may be applied to increase the #residential# #floor area# of a #mixed building#.

Any portion of the #covered pedestrian space# that is within 10 feet of a #street line# or #lot line# and that is extended along such #street line# or #lot line# on either side of an entrance to it from an adjoining #street#, #arcade#, #publicly accessible open area#, #court#, #yard# or other #covered pedestrian space#, may receive only that #floor area# bonus accorded to an #arcade#.

The basic #floor area# bonus may be increased by providing one or more of the following additional amenities:

(a) An escalator, providing pedestrian access from sidewalk level to any floor level containing #uses# specified in paragraph (c) of Section 74-852 (Design requirements for covered pedestrian spaces). Such escalator may be either within or directly accessible from the #covered pedestrian space#. The basic #floor area# bonus may be increased by 1.5 square feet per square foot of #covered pedestrian space# for each floor level connected by such escalator. However, the #floor area# bonus earned for the total #covered pedestrian space# by providing such escalator shall not exceed the allowable maximum set forth in the table.

(b) Where the height over at least one-third of the #covered pedestrian space# in one location is increased by more than one #story# of the #building# above the required height, the basic #floor area# bonus for that portion may be increased by 1.5 square feet per square foot of such raised portion for each such #story#. However, the #floor area# bonus earned for the total #covered pedestrian space# by providing such additional height shall not exceed the allowable maximum set forth in the table.

(c) Where direct access from the #covered pedestrian space# to a subway station mezzanine or concourse is provided and such connection is major, necessary, and kept open to the general public for the same hours as the #covered pedestrian space# or as specified by the Commission, an additional bonus of two square feet of #floor area# per square foot of #covered pedestrian space# may be permitted over the amount specified in the table.

74-852 - Design requirements for covered pedestrian spaces

LAST AMENDED
12/5/2024

In order to qualify for a #floor area# bonus, a #covered pedestrian space# shall be directly accessible to the public from the adjoining #street#, #arcade#, #through block arcade#, #publicly accessible open area#, #court#, #yard#, #pedestrian mall# or other #covered pedestrian space# which is a part of the public pedestrian circulation system, and shall:

(a) have an area of at least 3,000 square feet and a minimum width, at any point, of 20 feet. For spaces between 100 feet and 150 feet in length, the minimum width shall be 25 feet. For spaces longer than 150 feet, the average width shall be at least 30 feet;

(b) have a height of at least 30 feet;

(c) have appropriate #uses# permitted in the district, such as, but not limited to, small stores and cafes, occupying the maximum feasible frontage along those bounding walls of the #covered pedestrian space# which do not abut #lot lines# or #street lines#. At least 50 percent of such frontage shall be comprised of individual #uses#, each of which has a frontage not exceeding 25 feet, and the frontage of any other single #use# may not exceed 40 feet. In no event may banks, loan offices, insurance offices or similar office type #uses# occupy any portion of the frontage of the #covered pedestrian space#. Access to other #uses# within a #building# may be provided from the #covered pedestrian space# if such #uses# are not located at the same #story# as the pedestrian space;

(d) be adequately illuminated, utilizing natural daylight wherever possible; and

(e) be suitably maintained and kept open to the public between 7:00 a.m. and 12 midnight or on a schedule suitable to meet the public need.

Obstructions such as awnings, canopies, pedestrian bridges, escalators, stairs, balconies or other architectural elements above the floor level of the #covered pedestrian space# are prohibited unless it can be clearly demonstrated that they will enhance design or pedestrian circulation. In any event, horizontal projection of balconies into any #covered pedestrian space# shall not exceed five feet.

Planting, landscaping, ornamental fountains, statuary, outdoor furniture, kiosks, works of art, light wells and other features may be permitted in a portion of the pedestrian space, but not to the extent of impeding pedestrian movement.

Columns or similar elements may be permitted within a #covered pedestrian space#, but the aggregate area of such elements may not exceed two percent of the total pedestrian space. The clear span along the main path of pedestrian traffic shall not be less than the figure indicated for minimum dimensions of pedestrian space in paragraph (a) of this Section. However, when two or more pedestrian paths are provided, the minimum clear span widths of such paths may be reduced by five feet.

Where multiple access to the #covered pedestrian space# is provided from an #arcade#, the minimum clear spacing between columns at the face of the #building# may be reduced to 18 feet, provided the height of the #arcade# is not less than 30 feet.

A portion of the #covered pedestrian space# shall be public sitting areas with appropriate facilities such as cafes or other public seating arrangements.

Entrances to lobbies may be permitted along the boundary of a #covered pedestrian space#. The #floor area# of an entrance lobby shall not be considered as part of the #covered pedestrian space#. Where a #zoning lot# is bounded by more than one #street#, or by the combination of #streets#, #publicly accessible open areas# or other public rights-of-way, the #covered pedestrian space# will provide a connection between at least two such areas.

Where the space is heated or air-conditioned, the standards for heating, ventilating and air-conditioning shall be at least equal to that of the lobby.

For the purpose of ensuring prominent public attention to the #covered pedestrian space#, the openings at the face of the #building# for entrances to the #covered pedestrian space# shall be at least 20 feet wide, 30 feet high and unobstructed for a depth of 30 feet, except, where the #covered pedestrian space# is air-conditioned, the openings at the entrances may be partially enclosed. Such enclosure at the entrances shall be transparent in nature, commence at a height not less than eight feet above the floor level at the entrances, and be set back from the face of the #building# at least 12 feet. Air curtains are permitted but shall be located at a height not less than eight feet. Such entrances are permitted to be fully enclosed only for that portion of the year between October 15 and April 15, provided, however, that such space is readily accessible to the public between 7:00 a.m. and 12 midnight or on a schedule suitable to meet the public need.

An information plaque shall be provided that contains a public space symbol and required text that matches the dimensions and graphic standards provided in the Privately Owned Public Space Signage file from the Required Signage Symbols on the Department of City Planning website. Such symbol and required text shall include the phrase “Open To Public” and shall be provided with a highly

contrasting background, in a format that ensures legibility. Additional requirements and review procedures for privately owned public space signage systems are specified in Title 62, Chapter 11, of the Rules of the City of New York.

When a #through block arcade# provides public access to a #covered pedestrian space#, the opening at the point shall be at least 30 feet wide and 30 feet high. The two openings at the face of the #building# to the #through block arcade# shall be at least 20 feet wide and 30 feet high for a depth of 30 feet and shall be unobstructed except for stairs, ramps and escalators. If such space is air-conditioned, only one opening at the face of the #building# need comply with the partial enclosure requirements of the preceding paragraph.

A #covered pedestrian space# located at 12 feet or more below the sidewalk level shall provide direct subway or below grade pedestrian concourse access. For such #covered pedestrian spaces#, the entrance openings at the sidewalk level may be less than 30 feet in height, but not less than 15 feet, provided the entrance opening is unenclosed for its full height and is extended along the face of the #building# for the entire width of the #covered pedestrian space#.

74-853 - Findings for covered pedestrian spaces

LAST AMENDED
12/5/2024

As a condition for permitting such bonus #floor area#, the City Planning Commission shall find that:

(a) the proposed #covered pedestrian space# will have a useful role in meeting existing needs for sheltered space for the comfort and convenience of the general public;

(b) the proposed #covered pedestrian space# is located at or close to the principal level of pedestrian circulation in adjacent areas, with prominent and obvious public entrances;

(c) the public character of the proposed #covered pedestrian space# shall be obvious from the outside of the #building#;

(d) appropriate #commercial# #uses# including, but not limited to, small stores and cafes fronting on the #covered pedestrian space# are provided;

(e) the distribution of the #bulk# on the #zoning lot# permits satisfactory access of light and air to surrounding #streets# and properties; and

(f) the proposed connection to an underground subway station from a #covered pedestrian space# is necessary to ease pedestrian movement and sidewalk congestion in the area and the construction cost of the proposed amenity is substantial enough to justify the granting of additional #floor area ratio# bonus.

The Commission may permit modification of the entrance requirements for #covered pedestrian spaces#, provided that the Commission finds that the entrance is so designed as to ensure prominent public notice and promote public pedestrian circulation through such space.

74-86 - Bulk Modifications for Telephone Exchanges or Other Communication Equipment Structures

LAST AMENDED
12/5/2024

In C1 and C2 Districts when mapped in R6 through R12 Districts, and in C1-6, C1-7, C1-8, C1-9, C2-6, C2-7, C2-8, C4-2, C4-3, C4-4, C4-5, C4-6, C4-9, C4-11, C4-12, C5-1, C6-1, C6-2, C6-3, C7, C8-2, C8-3, C8-4, M1-1A through M1-4A, M1-2 through M1-5, M2 and M3 Districts, the City Planning Commission may permit modification of the #bulk# regulations for telephone exchanges or other communications equipment structures not existing on December 15, 1961, provided that the #zoning lot# has a minimum area of 40,000 square feet, a #floor area ratio# of no greater than 10.0 and

that the following findings are made:

(a) that the growth of the utility service demand to be served by the facility requires the construction of a #building or other structure# that would exceed the allowable #bulk# permitted by the district regulations;

(b) that provisions of new or additional facilities at other locations would cause substantial duplication of plant and facilities;

(c) that the proposal is the minimum modification necessary to permit the additional facilities needed to serve the demand;

(d) that the design of the facility will not adversely affect the character of the neighborhood;

(e) that the existing #street# and public transportation system will not be adversely affected; and

(f) that, where appropriate and feasible in the judgment of the Commission, the applicant provides a public amenity for the benefit of the affected community.

The Commission may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area and shall require that the certificate of occupancy shall be limited to such #use#.

74-90 - ADDITIONAL PERMITS

LAST AMENDED
6/6/2024

74-901 - Bulk modifications for laboratories

LAST AMENDED
6/6/2024

In #Residence Districts# and #Commercial Districts#, the City Planning Commission may permit, in conjunction with a laboratory listed under Use Group VII, modifications to #bulk# regulations, other than #floor area ratio#, provided that the following findings are met.

In order to grant the special permit, the Commission shall find that the proposed #bulk# modifications:

(a) will not unduly affect the essential character or impair the future use and development of the surrounding area; and

(b) will not unduly obstruct the access of light and air to adjoining properties or public #streets#.

74-902 - Certain community facility uses in R1 and R2 Districts and certain Commercial Districts

LAST AMENDED
6/6/2024

In R1 and R2 Districts, and in C1 and C2 Districts mapped within such #Residence Districts# for any #development#, #extension# or #enlargement# or change of #use# involving any #community facility uses# listed in Use Group III permitted as-of-right pursuant to the provisions of Sections 22-13, or #long-term care facilities# for which a special permit has been granted pursuant to Section 74-131, the City Planning Commission may permit the allowable #community facility# #floor area ratio# and #lot coverage# of Section 24-11 (Maximum Floor Area Ratio and Percentage of Lot Coverage) to apply to all such #uses#, provided that the following findings are made:

(a) that the distribution of #bulk# on the #zoning lot# will not unduly obstruct the access of light and air in and to adjoining properties or public #streets#, and will result in satisfactory site planning and satisfactory urban design relationships of #buildings# to adjacent #streets# and the surrounding area;

(b) that the architectural and landscaping treatment and the height of the proposed #building# containing such #uses# blends harmoniously with the topography and the surrounding area;

(c) that the proposed facility will not require any significant additions to the supporting services of the neighborhood or that provision for adequate supporting services has been made; and

(d) that the #streets# providing access to such #use# are adequate to handle the traffic generated thereby or provision has been made to handle such traffic.

The Commission may request a report from appropriate governmental agencies with respect to #community facility uses# requesting a special permit under this Section.

To minimize traffic congestion in the area, the Commission may require where necessary off-street parking facilities and #accessory# off-street loading berths beyond the amount required by the district regulations.

The Commission may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area.

74-903 - Certain community facility uses in R3 to R12 Districts and certain Commercial Districts

LAST AMENDED
3/22/2016

The City Planning Commission may permit the #community facility# #floor area ratio# and the #community facility# #bulk# provisions to apply to a #development#, #extension# or #enlargement#, or change of #use# containing #long-term care facilities# or philanthropic or non-profit institutions with sleeping accommodations, as set forth in paragraph (a), provided that the findings in paragraph (b) of this Section are met.

(a) The Commission may permit:

(1) in R3 through R9 Districts, or in C1 or C2 Districts mapped within an R3 through R9 District or #Commercial Districts# with an R3 through R9 District residential equivalent, the #community facility# #floor area ratio# of Section 24-11 (Maximum Floor Area Ratio and Percentage of Lot Coverage) to apply to #buildings# containing philanthropic or non-profit institutions with sleeping accommodations, as listed in Use Group III;

(2) in R3-1, R3A, R3X, R4-1, R4A, R4B, R5A or R5B Districts, or in C1 or C2 Districts mapped within R3-1, R3A, R3X, R4-1, R4A, R4B, R5A or R5B Districts, or in C3A Districts, the #community facility# #floor area ratio# of Section 24-11 to apply to #buildings# containing #long-term care facilities#, as listed in Use Group III;

(3) in R3-2 Districts, or R4 or R5 Districts without a letter or number suffix, or in C1 or C2 Districts mapped within an R3-2 District or within an R4 or R5 District without a letter suffix, or in C3 Districts without a letter suffix, or in C4-1 Districts, the #bulk# regulations of Article II, Chapter 4, Article III, Chapter 3, or Article III, Chapter 5, as applicable, and the #community facility# #floor area ratio# of Section 24-11, to apply to #buildings# containing #long-term care facilities#; or

(4) in R6 through R12 Districts without a letter suffix, and in #Commercial Districts# mapped within, or with a #residential equivalent# of such districts, the #bulk# regulations of Article II Chapter 4, Article III, Chapter 3 or Article III, Chapter 5, as

applicable, and the #community facility# #floor area ratio# of Section 24-11, as applicable, to apply to #buildings# containing #long-term care facilities#.

(b) In order to grant such a special permit for #community facility# #floor area ratio# or #community facility# #bulk#, as applicable, the Commission shall find that:

(1) the distribution of #bulk# on the #zoning lot# will not unduly obstruct the access of light and air to adjoining properties or public #streets#, and will result in satisfactory site planning and satisfactory urban design relationships of #buildings# to adjacent #streets# and the surrounding area;

(2) that the proposed facility will not require any significant additions to the supporting services of the neighborhood or that provision for adequate supporting services has been made; and

(3) the #streets# providing access to such #use# will be adequate to handle the traffic generated thereby or provision has been made to handle such traffic.

The Commission may request a report from appropriate governmental agencies with respect to #community facility uses# requesting a special permit under this Section.

The Commission may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area.

74-904 - Non-profit or voluntary hospitals in R9 or R10 Districts and certain Commercial Districts

LAST AMENDED
8/14/2025

For a #zoning lot# occupying an entire #block# located in an R9 or an R10 District, or in #commercial districts# mapped within, or with a #residential equivalent# of an R9 or an R10 District, partially within the #Special Park Improvement District#, and containing a non-profit or voluntary hospital and related facilities, as listed in Use Group III(B), the City Planning Commission may, by special permit, allow the modifications set forth in paragraph (a) of this Section, provided the conditions set forth in paragraph (b) and findings set forth in paragraph (c) are met.

(a) The Commission may allow an increase in the maximum #community facility# #floor area ratio# by up to a maximum of 20 percent. A #floor area# bonus pursuant to this Section may be used in combination with a #floor area# bonus permitted pursuant to Section 66-51 (Additional Floor Area for Mass Transit Station Improvements), and the combination of such bonuses may exceed 20 percent of the maximum #floor area ratio# otherwise permitted.

In connection with such #floor area# bonus, the Commission may allow modifications to applicable #bulk# regulations.

(b) In order to grant a special permit pursuant to this Section, the following conditions shall be met:

(1) a minimum #floor area# of 95 percent of any #development# or #enlargement# on such #zoning lot# will be allocated to such hospital #use#;

(2) the bonus #floor area# allowed pursuant to this Section shall be exclusively allocated to such hospital #use#; and

(3) the amount of #floor area# to be located on the portion of such #zoning lot# within the #Special Park Improvement District# shall not exceed a #floor area ratio# of 10.0.

(c) In order to grant a special permit pursuant to this Section, the Commission shall find that:

(1) the public benefit derived from such proposed hospital #development# or #enlargement# merits the additional #floor area# being granted pursuant to this special permit;

(2) where #bulk# modifications are utilized, such modifications will provide a more satisfactory physical relationship to existing hospital #buildings or other structures# on the #zoning lot#, and facilitate a more efficient and integrated site plan; and

(3) where #bulk# modifications are utilized, the distribution of #bulk# on the #zoning lot# will result in a satisfactory site plan and urban design relationships of #buildings or other structures# to adjacent #streets# and the surrounding area.

The Commission may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area.

74-91 - Modification of Public Plazas

LAST AMENDED
12/5/2024

In all districts, the City Planning Commission may permit modification of the provisions of Section 37-70 (PUBLIC PLAZAS) affecting the eligibility of #public plazas# for bonus #floor area#, provided that such modification shall not include any modification of Sections 23-22 (Floor Area Regulations for R6 through R12), 24-14 or 33-13 (Floor Area Bonus for a Public Plaza).

Any modification shall be conditioned upon the Commission finding that the usefulness and attractiveness of the #public plaza# will be assured by the proposed layout and design and that such modification will result in a superior urban design relationship with surrounding #buildings# and

open areas.

The Commission may prescribe appropriate conditions and controls to enhance the relationship of such #public plazas# to surrounding #buildings# and open areas.

74-92 - Bulk Modifications for Museums in M1-5 Districts

LAST AMENDED
6/6/2024

For a #building# containing a museum listed under Use Group III(B), in an M1-5 District, on a #zoning lot# over which the High Line (as defined in Section 98-01) passes, the Commission may modify height and setback regulations, provided that such modifications:

(a) provide a better distribution of #bulk# on the #zoning lot#;

(b) result in a better relationship of the #building# to open areas including the High Line, adjacent #streets# and surrounding properties;

(c) provide adequate light and air for #buildings# on the #zoning lot# and do not adversely affect adjacent #zoning lots# by unduly restricting access to light and air to surrounding #streets# and properties; and

(d) result in a #building# containing a museum #use# that facilitates the public's use and enjoyment of the High Line.

The Commission may prescribe additional conditions and safeguards to minimize adverse effects on the character of the surrounding area.

74-93 - Special Commercial or Mixed Use Developments in Commercial Districts

LAST AMENDED
6/6/2024

Within the boundaries of Community District 6, Borough of Queens, for #commercial# or #mixed use# #developments# or #enlargements# on two or more #zoning lots# in more than one #block#, which #zoning lots#, as defined in Section 12-10, each have single fee ownership or equivalent ownership arrangements for all lots comprising the #development# or #enlargement#, which are contiguous or would be contiguous but for their separation by a #street#, and located partially in a C4-2 District, partially in a C4-2F District, the City Planning Commission may permit upon application:

(a) reduction of the parking requirement of Section 36-21 (General Provisions) by an amount not to exceed 50 percent, provided that the Commission finds that the applicant has demonstrated that the proposed parking is sufficient for the #uses# proposed;

(b) any closed and demapped air space above a #street# to be considered as a part of the #development# or #enlargement# and to be used for automobile ways, or for pedestrian ways, provided the Commission finds that:

(1) each bridge over the #street# bed utilizes only unused #floor area# from an adjoining #zoning lot# within the #development# or #enlargement# and that no #floor area# credit is generated from the demapped air space;

(2) each bridge adjoins #zoning lots# which are wholly within the #development# or #enlargement#;

(3) the #curb levels# of the adjoining #zoning lots# are not affected by the closing and demapping of such air space;

(4) all #street# frontages of the #zoning lots# under each bridge are provided with satisfactory lighting; and

(5) a landscaped open, covered or enclosed space for public use at #street# level, linked with the pedestrian circulation system, is provided in one location within the #development# or #enlargement#, which open, covered or enclosed space is at least equivalent to the #street# area covered by the bridges, has a minimum area of 20,000 square feet and is maintained with planting and seating facilities, by the owner of the #development# or #enlargement# or his designee, said open, covered or enclosed space to be subject to such other requirements as the Commission may deem appropriate;

(c) automobile service establishments, including: automobile, tire, battery, muffler and accessories establishments, including installation services; automobile glass and mirror shops, including installation services where such #use# is an integral part of the permitted principal #use#; automotive seat cover or convertible top establishments, including installation service, but not including automobile laundries; automobile painting establishments; automobile body repair establishments; or automobile fuel service stations;

(d) modification of applicable #bulk# regulations by permitting the total permitted #floor area# for all #zoning lots# within such #development# or #enlargement# to be distributed without regard to #zoning# #lot lines# and permitting the location of #buildings# without regard for the applicable height and setback regulations, provided the Commission finds that:

(1) such distribution of #floor area# and location of #buildings# will result in better site planning and will thus benefit both the neighborhood and the City as a whole; and

(2) such distribution of #floor area# and location of #buildings# will permit adequate access of light and air to surrounding #streets# and properties; and

(e) modification of the applicable provisions of Sections 32-64 (Surface Area and Illumination Provisions) and 32-65 (Permitted Projection or Height of Signs), provided that the Commission finds that such modification will result in a better site plan.

The Commission may impose additional conditions and safeguards to improve the quality of the #development# or #enlargement# and minimize adverse effects on the character of the surrounding area, including restrictions on permitted #commercial# #uses#, #signs# and location of curb cuts to ease vehicular and pedestrian circulation in the area.

74-94 - Industrial Business Incentive Areas

LAST AMENDED
12/5/2024

For #developments# or #enlargements# on #zoning lots# located within any Industrial Business Incentive Area specified on the maps in Section 74-948 (Maps of Industrial Business Incentive Areas), the City Planning Commission may increase the maximum permitted #floor area ratio# in accordance with Section 74-943 (Permitted floor area increase). In conjunction with such #floor area# increase, t he Commission may permit modifications to other #bulk# regulations, provisions for publicly accessible open spaces, as well as parking and loading requirements for such #developments# or #enlargements#, pursuant to Section 74-944 (Modifications in conjunction with a floor area increase).

All applications for a special permit pursuant to this Section, inclusive, shall be subject to the requirements, conditions and findings set forth in Section 74-942 (Application requirements), Section 74-945 (Conditions), Section 74-946 (Findings), and Section 74-947 (Compliance, recordation and reporting requirements).

74-941 - Definitions

LAST AMENDED
12/5/2024

For the purposes of Section 74-94 (Industrial Business Incentive Areas), inclusive, a "required industrial use" and an "incentive use" shall be defined as follows:

Incentive Use

An "incentive use" is a #use# permitted by the applicable zoning district, that is allowed to occupy the additional #floor area# generated by a #required industrial use# with the exception of the following #uses#:

From Use Group V

> All #uses# listed under Use Group V

From Use Group VI

> All #uses# listed under Use Group VI, other than industrial drycleaning and laundry services or #uses# listed under Repair and Maintenance

From Use Group VIII

> All #uses# listed under Use Group VIII, other than #uses# listed under Art Galleries and Studios

From Use Group IX

> All #uses# listed under Use Groups IX(A) or IX(C).

Required Industrial Use

A “required industrial use” is a #referenced commercial and manufacturing use# that helps achieve a desirable mix of #commercial# and #manufacturing uses# in an Industrial Business Incentive Area, and that generates additional #floor area# pursuant to provisions set forth in Section 74-942.

74-942 - Application requirements

LAST AMENDED
12/5/2024

All applications for a special permit pursuant to this Section shall include the following:

(a) site plans and elevations which shall establish distribution of #floor area#, height and #setback#, sidewalk widths, primary business entrances, including parking and loading, #yards# and publicly accessible open space, signage and lighting;

(b) floor plans of all floors which shall establish the location, access plan and dimensions of freight elevators and loading areas and the location of #floor area# dedicated to #required industrial uses# and #incentive uses#;

(c) drawings that show, within a 600-foot radius, the location and type of #uses#, the location, dimensions and elements of off-site open areas including #streets#, waterfront and #upland# parcels, elements of a Waterfront Access Plan, as applicable, and the location of #street# trees and #street# furniture and any other urban design elements. Where applicable, for applications in Industrial Business Incentive Area 1, the plans shall demonstrate that any publicly accessible open space provided meets the requirements of paragraph (f) of Section 74-945 (Conditions);

and

(d) for #zoning lots# in #flood zones#, flood protection plans, location of mechanical equipment, areas for storage of any hazardous materials and proposed structural or design elements intended to mitigate the impacts of flood and storm events.

74-943 - Permitted floor area increase

LAST AMENDED
12/5/2024

In Industrial Business Incentive Areas, the City Planning Commission may increase the maximum #floor area ratio# on a #zoning lot# in accordance with the Table in this Section.

For #developments# or #enlargements# in the district indicated in Column A, for each square foot of #required industrial uses#, the base maximum #floor area ratio# on a #zoning lot#, set forth in Column B may be increased by 3.5 square feet up to the maximum #floor area ratio# for all #uses# on the #zoning lot# as set forth in Column E, provided that such increase in #floor area# is occupied by #required industrial uses# and #incentive uses# up to the maximum #floor area ratio# set forth in Column C (Maximum Additional #Floor Area Ratio# for #Required Industrial Uses#), and Column D (Maximum Additional #Floor Area Ratio# for #Incentive Uses#), respectively. In no event shall such #development# or #enlargement# include a #transient hotel#.

FLOOR AREA INCREASE PERMITTED
IN INDUSTRIAL BUSINESS INCENTIVE AREAS

A	B	C	D	E

District	Base Maximum #Floor Area Ratio#	Maximum Additional #Floor Area Ratio# for #Required Industrial Uses#	Maximum Additional #Floor Area Ratio# for #Incentive Uses#	Maximum #Floor Area Ratio# for All #Uses#
M1-2	2.0	0.8	2.0	4.8
M1-4	2.0	1.3	3.2	6.5

Applications for such #floor area# increases are eligible for modifications set forth in Section 74-944 (Modifications in conjunction with a floor area increase), and are subject to the conditions set forth in Section 74-945 and findings set forth in Section 74-946.

74-944 - Modifications in conjunction with a floor area increase

LAST AMENDED
12/5/2024

In Industrial Business Incentive Areas, the City Planning Commission may modify the following in conjunction with an application for a #floor area# increase pursuant to Section 74-943 (Permitted floor area increase).

(a) Bulk modifications

(1) Yard regulations

In all Industrial Business Incentive Areas, the #rear yard# regulations set forth in Section 43-20 (YARD REGULATIONS), inclusive, shall be modified pursuant to the provisions of paragraph (c) of Section 74-945 (Conditions). In addition, the Commission may modify any other #yard# regulations set forth in Section 43-20, inclusive.

(2) Height and setback regulations

(i) In Industrial Business Incentive Area 1, the height and setback regulations of Section 43-40 (HEIGHT AND SETBACK REGULATIONS), inclusive, shall be modified pursuant to the conditions of paragraph (d) of Section 74-945.

(ii) In Industrial Business Incentive Area 2, the Commission may modify the height and setback regulations of Section 43-40, inclusive.

(b) Modification for publicly accessible open space

In Industrial Business Incentive Area 1, where a publicly accessible open space is provided pursuant to paragraph (f) of Section 74-945, the Commission may modify the provisions of Section 37-70 (PUBLIC PLAZAS), inclusive.

(c) Parking and loading modifications

In all Industrial Business Incentive Areas, the Commission may reduce or waive the off-street parking requirements set forth in Section 44-20 (REQUIRED ACCESSORY OFF-STREET PARKING SPACES), inclusive, not including bicycle parking, and may also reduce or waive the loading berth requirements as set forth in Section 44-50 (OFF-STREET LOADING REGULATIONS), inclusive.

74-945 - Conditions

LAST AMENDED
12/5/2024

In Industrial Business Incentive Areas, applications for #floor area# increases pursuant to Section 74-943 (Permitted floor area increase) and modifications pursuant to Section 74-944 (Modifications in conjunction with a floor area increase), are subject to the following conditions:

(a) Minimum amount of #required industrial uses#

#Required industrial uses# shall occupy a minimum horizontally contiguous #floor area# of 5,000 square feet in Industrial Business Incentive Area 1, and 2,500 square feet in Industrial Business Incentive Area 2, and shall be served by loading areas and freight elevators with sufficient capacity.

(b) Minimum sidewalk width

In all Industrial Business Incentive Areas, all #developments# and horizontal #enlargements# that front upon a #street line# shall provide a sidewalk with a minimum width of 15 feet along the entire frontage of the #zoning lot#. Such sidewalk, and any open area on the #zoning lot# required to meet such minimum width shall be improved as a sidewalk to Department of Transportation standards; shall be at the same level as the adjoining public sidewalk; and shall be accessible to the public at all times.

(c) Yards

In all Industrial Business Incentive Areas, the #rear yard# regulations set forth in Section 43-20 (YARD REGULATIONS), inclusive, shall not apply to any #development# or #enlargement# on a #through lot# or the #through lot# portion of a #zoning lot#.

(d) Height and setback

In Industrial Business Incentive Area 1, the #street wall# location requirements and height and setback regulations of this paragraph shall apply to any #development# or #enlargement#. For the purposes of applying the provisions of this paragraph, any sidewalk widening line provided pursuant to the minimum sidewalk width requirement of paragraph (b) shall be considered the #street line#. All heights shall be measured from the #base plane#.

(1) The #street wall# of any #building# shall be located on the #street line# and shall extend to a height not lower than a minimum base height of 40 feet and not higher than a maximum base height of 75 feet or the height of the #building#, whichever is less. At least 70 percent of the aggregate width of such #street wall# below 12 feet shall be located at the #street line# and no less than 70 percent of the aggregate area of the #street wall# up to the base height shall be located at the #street line#. However, up to a width of 130 feet of such #street wall# located on the short end of the #block# may be set back from the #street line# to accommodate a publicly accessible open space provided pursuant to paragraph (f) of this Section.

(2) The height of a #building or other structure#, or portion thereof, located within 10 feet of a #wide street# or within 15 feet of a #narrow street# shall not exceed a maximum base height of 75 feet. Permitted obstructions as set forth in Section 43-42 shall be modified to include dormers above the maximum base height within the front setback area, provided that on any #street# frontage, the aggregate width of all dormers at the maximum base height does not exceed 50 percent of the #street wall# and a maximum height of 110 feet. Beyond 10 feet of a #wide street# and 15 feet of a #narrow street#, the height of a #building or other structure# shall not exceed a maximum #building# height of 110 feet. Where a publicly accessible open space is provided pursuant to paragraph (f) of this Section, such maximum #building# height may be increased to 135 feet.

(3) Along the short dimension of a #block#, up to 130 feet of such #street wall# may be set back from the #street line# to accommodate a publicly accessible open space provided

pursuant to paragraph (f) of this Section, and a #street wall# located at the #street line# that occupies not more than 40 percent of the short end of the #block# may rise without setback to the maximum #building# height.

(e) Ground floor design

In all Industrial Business Incentive Areas the ground floor level #street walls#, and ground floor level walls fronting on a publicly accessible open space of a #development# or horizontal #enlargement# provided pursuant to paragraph (f) of this Section, shall be glazed in accordance with the provisions of Section 37-34 (Minimum Transparency Requirements).

(f) Publicly accessible open space

In Industrial Business Incentive Area 1, a publicly accessible open space shall be provided where the additional #building# height provision of paragraph (d)(2) of this Section is used. Such publicly accessible open space shall contain an area of not less than 12 percent of the #lot area# of the #zoning lot# and a minimum of at least 2,000 square feet in area. In addition, such publicly accessible open space shall comply with the provisions set forth in Section 37-70 (PUBLIC PLAZAS), inclusive, except that certification requirements of Sections 37-73 (Kiosks and Open Air Cafes) and 37-78 (Compliance) shall not apply.

(g) Signs

In all Industrial Business Incentive Areas, the following shall apply:

(1) #Signs# shall be subject to the regulations applicable in C6-4 Districts as set forth in Section 32-60 (SIGN REGULATIONS), inclusive. Information #signs# provided pursuant to paragraph (g)(2) of this Section shall not count towards the maximum permitted #surface area# regulations of Section 32-64 (Surface Area and Illumination Provisions), inclusive.

(2) An information #sign# shall be provided for all #buildings# subject to the #use# restrictions of this special permit. Such required #sign# shall be mounted on an

exterior #building# wall adjacent to and no more than five feet from all primary entrances of the #building#. The #sign# shall be placed so that it is directly visible, without any obstruction, to persons entering the building, and at a height no less than four feet and no more than five and a half feet above the adjoining grade. Such #sign# shall be legible, no less than 12 inches by 12 inches in size and shall be fully opaque, non-reflective and constructed of permanent, highly durable materials. The information #sign# shall contain: the name and address of the building in lettering no less than three-quarters of an inch in height; and the following statement in lettering no less than one-half of an inch in height, "This building is subject to Industrial Business Incentive Area regulations which require a minimum amount of space to be provided for specific industrial uses." The information #sign# shall include the internet URL, or other widely accessible means of electronically transmitting and displaying information to the public, where the information required in paragraph (b) of Section 74-947 (Compliance, recordation and reporting requirements) is available to the public.

74-946 - Findings

LAST AMENDED
12/5/2024

In order to grant additional #floor area# and any modifications to #bulk#, publicly accessible open space or parking and loading regulations, the City Planning Commission shall find that:

(a) For all applications with a #floor area# increase, and for any applications with #bulk# modifications, such increase or modification:

(1) will promote a beneficial mix of #required industrial# and #incentive uses#;

(2) will result in superior site planning, harmonious urban design relationships and a safe and enjoyable streetscape;

(3) will result in a #building# that has a better design relationship with surrounding #streets# and adjacent open areas;

(4) will result in a #development# or #enlargement# that will not have an adverse effect on the surrounding neighborhood; and

(5) will, for #yard# or height and setback regulations, provide a better distribution of #bulk# on the #zoning lot# and will not unduly obstruct the access to light and air of surrounding #streets# and properties.

(b) Where modifications to publicly accessible open space requirements of paragraph (f) of Section 74-945 (Conditions) are proposed, such modifications will result in a publicly accessible open space of equivalent or greater value as a public amenity.

(c) Where modifications to parking or loading regulations are proposed:

(1) such reduction or waiver of required parking spaces will not create or contribute to serious traffic congestion and will not unduly inhibit vehicular and pedestrian movement;

(2) the number of curb cuts provided are the minimum required for adequate access to off-street parking and loading berths, and such curb cuts are located so as to cause minimum disruption to traffic, including vehicular, bicycle and pedestrian circulation patterns;

(3) the #streets# providing access to the #development# or #enlargement# are adequate to handle the traffic generated thereby, or provision has been made to handle such traffic; and

(4) the reduction or waiver of loading berths requirements will not create or contribute to serious traffic congestion or unduly inhibit vehicular and pedestrian movement.

The Commission may prescribe appropriate additional conditions and safeguards to minimize adverse effects on the character of the surrounding area.

74-947 - Compliance, recordation and reporting requirements

LAST AMENDED
12/5/2024

Applications for #floor area# increases and modifications in Industrial Business Incentive Areas are subject to the following requirements:

(a) Compliance and recordation

Failure to comply with a condition or restriction in a special permit granted pursuant to Section 74-94 (Industrial Business Incentive Areas), inclusive, or with applicable approved plans, or with provisions of paragraphs (a), (b) and (c) of this Section, shall constitute a violation of this Resolution and may constitute the basis for denial or revocation of a building permit or certificate of occupancy, or for a revocation of such special permit, and for the implementation of all other applicable remedies.

A Notice of Restrictions, the form and content of which shall be satisfactory to the Commission, for a property subject to #use# restrictions or #public plaza# requirements, as applicable, pursuant to this Section, shall be recorded against the subject tax lot in the Office of the City Register or, where applicable, in the County Clerk's office in the county where the tax lot is located.

The filing and recordation of such Notice of Restrictions shall be a precondition to the issuance of any building permit utilizing the provisions set forth in this Section. The recording information shall be referenced on the first certificate of occupancy to be issued after such notice is recorded, as well as all subsequent certificates of occupancy, for as long as the restrictions remain in effect. No temporary certificate of occupancy for any portion of the #building# to be occupied by #incentive uses# shall be issued until a temporary certificate of occupancy for the core and shell is issued for all portions of the #building# required to be occupied by #required industrial uses#.

(b) Periodic notification by owner

No later than the 20th day after the lease executed by a new tenant permits occupancy of any #required industrial space#, the owner of a #building# subject to #use# restrictions of this special permit shall provide the following information at the designated internet URL, or other widely accessible means of electronically transmitting and displaying information to the public pursuant to paragraph (g)(2) of Section 74-945 (Conditions). If no new tenant executes a lease for any #required industrial space# within the calendar year, such information shall be provided no later than the 20th day of the following calendar year. Such electronic information source shall be accessible to the general public at all times and include the information specified below:

(1) the date of the most recent update of this information;

(2) total #floor area# of the #required industrial uses# in the #development#;

(3) a digital copy of all approved special permit drawings pursuant to Section 74-942 (Application requirements);

(4) the name of each business establishment occupying #floor area# reserved for #required industrial uses#. Such business establishment name shall include that name by which the establishment does business and is known to the public. For each business

establishment, the amount of #floor area#, the Use Group, subgroup and specific #use# as listed in this Resolution shall also be included;

(5) contact information, including the name of the owner of the #building# and the building management entity, if different, the name of the person designated to manage the #building#, and the street address, current telephone number and e-mail address of the management office. Such names shall include the names by which the owner and manager, if different, do business and are known to the public; and

(6) all prior periodic notification information required pursuant to the provisions of this paragraph (b). However, such notification information that is older than four years from the date of the most recent update need not be included.

(c) Annual reporting by qualified third party

No later than June 30 of each year, beginning in the first calendar year following the calendar year in which a temporary or final certificate of occupancy was issued for a #building# subject to #use# restrictions of this Section, the owner of a #building# subject to #use# restrictions of this Section shall cause to be prepared a report on the existing conditions of the #building#, as of a date of inspection which shall be no earlier than May 15 of the year in which the report is filed.

The inspection shall be preceded by an annual notification letter from the owner of a #building# subject to #use# restrictions of this Section to all the #required industrial use# tenants of the #building# announcing the date of such inspection, that the organization conducting the inspection shall have access to the spaces occupied by #required industrial uses#, and encouraging the tenants to provide information including, but not limited to, the number of employees for each such space, to the organization.

The owner of a #building# subject to #use# restrictions of this Section shall cause such report to be prepared by an organization under contract with the City to provide inspection services,

or on the Department of Small Business Services list of certified firms that provides such inspection services, or by an organization that the Commissioner of the Department of Small Business Services determines to be qualified to produce such report, or, in Industrial Business Incentive Area 2, by a special inspection agency that is registered with the City as established in Section 28-101.5 of the Administrative Code. Such organization or agency selected by the owner to prepare such report shall have a professional engineer or a registered architect, licensed under the laws of the State of New York, certify the report. Such report shall be in a form provided by the Director of the Department of City Planning, and shall include all of the information required pursuant to the provisions of paragraph (b) of this Section, and additional information as set forth in this paragraph (c):

(1) a description of each establishment including the North American Industry Classification System (NAICS) code and number of employees;

(2) the total amount of #required industrial use# #floor area# that is vacant, as applicable;

(3) the average annual rent for the portions of the #building#, in the aggregate, required to be occupied by #required industrial uses#. However, prior to 36 months from the date of execution of a lease by the first #required industrial use# tenant in the building, no such figure shall be required to be included in any report due pursuant to this paragraph (c). For all calendar years following the year in which the first average annual rent figure is required to be submitted as part of an annual report, the average annual rent figure reported shall be for the annual average rent for the calendar year two years prior to the year in which the report is due; and

(4) the number of new leases executed during the calendar year, categorized by lease duration, in five year increments from zero to five years, five to 10 years, 10 to 15 years, 15 to 20 years and 20 years or greater.

The report shall be submitted to the Director of the Department of City Planning by any method, including e-mail or other electronic means, acceptable to the Director. The applicable Community Board, Borough President and local City Council member shall be included in

such transmission.

74-95 - Bulk Modifications for Irregular Sites

LAST AMENDED
12/5/2024

For #developments# or #enlargements# of #buildings# containing #residences# on #zoning lots# with irregular site conditions, the City Planning Commission may permit modifications to the applicable #bulk# regulations, other than #floor area ratio#, provided that the following findings are met:

(a) there are physical conditions, including, but not limited to, irregular lot size or shape, topographical features, the presence of an existing #building# or proximity to transportation infrastructure, that creates practical difficulties in complying with the applicable #residential# #bulk# regulations and would adversely affect the configuration of #residences# or the #building# site plan;

(b) the practical difficulties of #developing# on the #zoning lot# have not been created by the owner or by a predecessor in title;

(c) the proposed modifications will not unduly obstruct access to light and air to adjoining properties or #streets#;the proposed scale and placement of the #development# or #enlargement# relates harmoniously with the surrounding area; and

(d) the requested modification is necessary to relieve such practical difficulties.

The Commission may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area.

74-96 - Lapse of Authorization or Special Permit

LAST AMENDED

Any authorization or special permit granted by the City Planning Commission pursuant to this Chapter shall automatically lapse if substantial construction has not been completed as set forth in Section 11-42 (Lapse of Authorization or Special Permit Granted by the City Planning Commission Pursuant to the 1961 Zoning Resolution). For any renewal of such authorization or special permit, the provisions of Section 11-43 (Renewal of Authorization or Special Permit) shall apply.

Chapter 5 - Authorizations and Certifications by the City Planning Commission

File generated by https://zr.planning.nyc.gov on 6/23/2026

Chapter 5 - Authorizations and Certifications by the City Planning Commission

75-10 - USE AUTHORIZATIONS

LAST AMENDED
6/6/2024

75-20 - BULK AUTHORIZATIONS

LAST AMENDED
6/6/2024

75-21 - Bulk Modifications in Certain Commercial and Manufacturing Districts

LAST AMENDED
6/6/2024

For #developments# or #enlargement# of #buildings# in C4, C5, C6, C8, M1, M2, or M3 Districts, as well as M1 Districts paired with #Residence Districts#, the City Planning Commission may authorize modifications to the applicable #bulk# regulations, other than #floor area ratio#, provided that the conditions of paragraph (a) and the findings of paragraph (b) are met.

(a) Conditions

As a condition for the authorization, the proposed #development# or #enlargement# shall:

(1) be allocated exclusively to non-#residential uses#; and

(2) comply with the applicable #bulk# regulations of a C7 District. In order to apply such #bulk# regulations:

(i) where the maximum permitted #floor area ratio# for #commercial# or #manufacturing# #uses#, as applicable, is less than 2.0, the provisions for a C7-1 District shall be applied;

(ii) where the maximum permitted #floor area ratio# for #commercial# or #manufacturing# #uses#, as applicable, is greater than or equal to 2.0 but less than 3.0, the provisions for a C7-2 District shall be applied; and

(iii) in all other instances, one shall determine the particular C7 District with the same maximum permitted #floor area ratio# as that of the highest #floor area ratio# permitted for a #use# in the proposed #development# or #enlargement# pursuant to the district regulations. Where there is no C7 District with the same maximum permitted #floor area ratio#, the C7 District with the closest #floor area ratio# above that of the applicable district shall be selected.

(b) Findings

In order to grant the authorization, the Commission shall find that such #bulk# modifications:

(1) will not be incompatible with or adversely affect the essential character, use or future growth of the surrounding area; and

(2) will not unduly obstruct access of light and air to surrounding #streets# and properties.

The Commission may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area.

75-22 - Height Modifications for Certain Sites

LAST AMENDED
12/5/2024

For #zoning lots# in R3-2 Districts, as well as R4 and R5 Districts without a letter or number suffix, the City Planning Commission may authorize modifications to the applicable height and setback regulations for #residences#, provided that the conditions of paragraph (a) and the findings of paragraph (b) are met.

(a) Conditions and limitations

The height modifications shall not apply to #buildings# utilizing the optional provisions for #predominantly built-up areas# set forth in Section 23-71, inclusive.

(b) Findings

The Commission shall find that:

(1) where the height modification is proposed for a #zoning lot# containing #qualifying senior housing#, the additional #floor area# permitted for the #use# is accommodated in an efficient manner;

(2) where the height modification is proposed for other #residences#, by concentrating permitted #floor area# in a #building# or #buildings# of greater height, the preservation

of an existing #building#, topography, vegetation, or view corridors having environmental, historic or aesthetic value to the public will be assured, and that such preservation would not be possible by careful siting of lower #buildings# containing the same permitted #floor area#;

(3) such modification is the least modification required to achieve the purpose for which it is granted;

(4) the proposed modification does not impair the essential character of the surrounding area; and

(5) the proposed modification will not have adverse effects upon light, air, and privacy of adjacent properties and of any existing #buildings# on the #zoning lot#.

The Commission may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area.

75-23 - Bulk Modifications for Non-complying Buildings

LAST AMENDED
12/5/2024

For #buildings# existing on December 31, 1990, the City Planning Commission may authorize an #enlargement#, #extension#, #conversion#, change of #use# or other alteration to a #building# that includes or will include #residences# that would create a new #non-compliance# or increase the degree of an existing #non-compliance#, with the applicable #bulk# regulations, provided that the conditions of paragraph (a) and the findings of paragraph (b) are met.

(a) Conditions

The following conditions shall be met:

(1) Where maximum #building# height limitations apply, the proposed height modifications shall not result in an increase that exceeds 25 percent of the height permitted by the applicable district regulations, or the height of the existing #building#, whichever is greater; and

(2) Where #floor area ratio# modifications are proposed, no increase in #residential# #floor area# shall exceed the maximum #floor area# permitted by the applicable district regulations by more than 20 percent.

(b) Findings

In order to grant such authorization, the Commission shall find that:

(1) the configuration of the existing #building#, proximity to other #buildings#, or other site conditions create practical difficulties that would adversely affect the configuration of #residences# or the #building# site plan;

(2) for #enlargements#, where applicable:

(i) the proposed modifications will not unduly obstruct access to light and air to adjoining properties or #streets#;

(ii) the proposed scale and placement relates harmoniously with the surrounding area; and

(3) the requested modification is the least amount necessary to relieve such practical difficulties.

The Commission may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area.

75-24 - Bulk Modifications Associated With a Transfer of Development Rights From Landmark Sites

LAST AMENDED
12/5/2024

In all districts, for #developments# or #enlargements#, the City Planning Commission may authorize #bulk# modifications, other than #floor area ratio#, to be made in conjunction with a transfer of development rights from landmark #buildings or other structures# certified pursuant to Section 75-42 (Transfer of Development Rights From Landmarks), provided the Commission determines that the conditions and limitations set forth in paragraph (a) and the findings set forth in paragraph (b) of this Section are met:

(a) Conditions and limitations

Where maximum #building# height limitations apply, modifications to the maximum permitted #building# height shall not result in an increase that exceeds 25 percent of the maximum #building# height as set forth in applicable district regulations.

(b) Findings

The Commission shall find that:

(1) the proposed modifications will not unduly obstruct access to light and air to adjoining properties or #streets#;

(2) the proposed scale and placement of the #development# or #enlargement# relates harmoniously with the surrounding area; and

(3) the requested modification is the least amount necessary to reasonably accommodate such transferred development rights.

The Commission may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area.

75-30 - PARKING AUTHORIZATIONS

LAST AMENDED
12/5/2024

75-31 - Authorization to Remove Required Parking

LAST AMENDED
12/5/2024

In the #Inner Transit Zone#, the City Planning Commission may authorize the reduction or removal of #accessory# off-street parking spaces required pursuant to Section 25-20 (REQUIRED ACCESSORY OFF-STREET PARKING SPACES FOR RESIDENCES) provided the Commission finds that such reduction or removal:

(a) will not impede access to existing #accessory# off-street parking spaces on adjoining #zoning lots#; and

(b) will not have undue adverse effects on residents, businesses or #community facilities# in the surrounding area;

The Commission may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area.

75-40 - CERTIFICATIONS

LAST AMENDED
12/5/2024

75-41 - Railroad Right-of-Ways

LAST AMENDED
12/5/2024

75-411 - Developments on or over railroad rights-of-way

LAST AMENDED
12/5/2024

No #development# or #enlargement# may occur on or over a #railroad right-of-way# unless the Chairperson of the City Planning Commission certifies to the Department of Buildings that:

(a) a site plan has been submitted showing:

(1) the total #lot area#, including any #railroad right-of-way# or platform over a #railroad right-of-way#; and

(2) that the #zoning lot# has direct access to one or more #streets#;

(b) the affected railroad entity or entities have indicated in writing that the proposed #development# or #enlargement# will not interfere with current or future railroad operations.

Certification by the Chairperson shall be a precondition to the issuance of any building permit, including any foundation or alteration permit, for any #development# or #enlargement# under this Section.

75-412 - Developments on lots under one and a half acres that include railroad right-of-ways

LAST AMENDED
12/5/2024

A #railroad right-of-way# that would otherwise be considered a #block# boundary may not be included in the #lot area# of a #zoning lot# less than one and a half acres unless the Chairperson of the City Planning Commission certifies to the Department of Buildings that:

(a) a site plan has been submitted showing:

(1) the total #lot area#, including any #railroad right-of-way# or platform over a #railroad right-of-way#; and

(2) that the #zoning lot# has direct access to one or more #streets#;

(b) the affected railroad entity or entities have indicated in writing that the proposed #development# or #enlargement# will not interfere with current or future railroad operations.

Certification by the Chairperson shall be a precondition to the issuance of any building permit, including any foundation or alteration permit, for any #development# or #enlargement# under this Section.

75-42 - Transfer of Development Rights From Landmarks

LAST AMENDED
12/5/2024

75-421 - Definitions

LAST AMENDED
12/5/2024

For purposes of this Section, inclusive, matter in italics is defined in Section 12-10 (DEFINITIONS) and in this Section.

Granting lot

For the purposes of this Section, inclusive, a “granting lot” shall mean a #zoning lot# or #split lot# that contains a #landmark building or other structure#.

Landmark building or other structure

For the purposes of this Section, inclusive, a “landmark building or other structure” shall include any structure designated as a landmark by the Landmarks Preservation Commission pursuant to the New York City Charter and Administrative Code, but shall not include those portions of #zoning lots# used for cemetery purposes, statues, monuments or bridges. No transfer of development rights is permitted pursuant to this Section, inclusive, from those portions of #zoning lots# used for cemetery purposes, statues, monuments or bridges.

Receiving lot

For the purposes of this Section, inclusive, a “receiving lot” shall mean a #zoning lot# or #split lot# to which development rights of a #granting lot# are transferred.

Split lot

For the purposes of this Section, inclusive, a “split lot” is each portion of a #zoning lot# that is divided by district boundaries.

Surrounding area

For the purposes of this Section, inclusive, the “surrounding area” shall mean all #zoning lots# on the #block# on which the #landmark building or other structure# is located, as well as all #zoning lots#

across a #street# or #street# intersection from the #block#. It shall also mean, in #Commercial Districts# where the maximum #floor area ratio# for #commercial uses# is 15.0 or greater, #zoning lots# that, except for the intervention of #streets# or #street# intersections, form a series extending to the #zoning lot# occupied by the #landmark building or other structure#. All such lots shall be in the same ownership (fee ownership or alternative ownership arrangements of the #zoning lot# definition in Section 12-10).

75-422 - Certification to transfer development rights from landmarks

LAST AMENDED
12/5/2024

The Chairperson of the City Planning Commission shall allow, by certification, a transfer of development rights from #granting lots# to #receiving lots# within the #surrounding area#, provided that the provisions of this Section are met.

(a) The transfer of development rights shall be subject to the following conditions:

(1) The maximum amount of #floor area# that may be transferred from a #granting lot# shall be the maximum #floor area# allowed by the applicable district regulations, less the total #floor area# of all existing #buildings# on the #granting lot#, and any previously transferred #floor area#. Such maximum #floor area# shall not include any additional #floor area# allowed for #publicly accessible open areas# or any other form of bonus whether as of right or by discretionary action;

(2) For each #receiving lot#, the increased #floor area# allowed by the transfer of development rights pursuant to this Section shall in no event exceed the maximum

#floor area# allowable on such #zoning lot# by more than 20 percent. Such #floor area# increase may be applied to any individual #use#, provided that the total of all #floor area ratios# does not exceed 20 percent of the greatest #floor area ratio# permitted on the #zoning lot#. However, in #Commercial Districts# or #Manufacturing Districts# where the maximum #floor area ratio# for non-#residential uses# is 15.0 or greater, such 20 percent limit shall be increased to 30 percent. Transfers over 30 percent in such districts shall only be permitted pursuant to Section 74-79 (Transfer of Development Rights from Landmark Sites);

(3) Each transfer, once completed, shall irrevocably reduce the amount of #floor area# that may be #developed# or #enlarged# on the #granting lot# by the amount of #floor area# transferred. If the landmark designation is removed from the #landmark building or other structure#, the #landmark building or other structure# is destroyed or #enlarged#, or the #zoning lot# with the #landmark building or other structure# is redeveloped, the #granting lot# may only be #developed# or #enlarged# up to the amount of permitted #floor area# as reduced by each transfer; and

(4) Prior to the issuance of a building permit, as set forth in paragraph (c) of this Section, the owners of the #granting lot# and the #receiving lot# shall submit to the Chairperson a copy of the transfer instrument legally sufficient in both form and content to effect such a transfer. Notice of the restrictions upon further #development# or #enlargement# of the #granting lot# and the #receiving lot# shall be filed by the owners of the respective lots in the Office of the Register of the City of New York. Proof of recordation shall be submitted to the Chairperson.

Both the transfer instrument and the notices of restrictions shall specify the total amount of #floor area# transferred and shall specify, by lot and block numbers, the #granting lot# and the #receiving lot# that are a party to such transfer.

(b) An application filed with the Chairperson for certification pursuant to this Section shall be made jointly by the owners of the #granting lot# and the #receiving lot#. The following items shall be submitted to the Chairperson as part of an application for certification:

(1) site plans and zoning calculations for the #granting lot# and #receiving lot# showing the additional #floor area# associated with the transfer, and any such other information as may be required by the Chairperson;

(2) materials to demonstrate the establishment of a program for the continuing maintenance of the #landmark building or other structure#; and

(3) a report from the Landmarks Preservation Commission concerning the continuing maintenance program of the #landmark building or other structure#.

(c) The Chairperson shall certify to the Department of Buildings that a #development# or #enlargement# is in compliance with the provisions of this Section only once the instrument of transfer and notice of restrictions required by paragraph (a) of this Section have been executed and recorded with proof of recordation provided to the Chairperson.

A separate application shall be filed for each transfer of development rights to an independent #receiving lot# pursuant to the provisions of this Section. #Bulk# modifications may be permitted in conjunction with a transfer of development rights pursuant to this Section through either Section 75-24 (Bulk Modifications Associated With a Transfer of Development Rights From Landmark Sites) or Section 74-79 (Transfer of Development Rights From Landmark Sites), as applicable.

Chapter 6 - Location of District Boundaries

File generated by https://zr.planning.nyc.gov on 6/23/2026

Chapter 6 - Location of District Boundaries

76-00 - MEASUREMENT OF DISTANCES

LAST AMENDED
12/15/1961

76-01 - Method of Measurement

LAST AMENDED
12/15/1961

Except as otherwise specifically provided, all prescribed distances shall be measured in a straight line, not necessarily coinciding with a #street line#.

76-10 - DISTRICT BOUNDARIES ON THE ZONING MAPS

LAST AMENDED
12/15/1961

76-11 - General Provisions

LAST AMENDED
12/15/1961

The district boundaries on the #zoning maps# shall be interpreted in accordance with the provisions set forth in Sections 76-12 (Area Enclosed by District Boundary Line), 76-13 (Location of Boundary Line) and 76-14 (Additional Rules of Construction).

76-12 - Area Enclosed by District Boundary Line

LAST AMENDED
12/15/1961

An area enclosed by a district boundary line shall be in the district designated therein.

76-13 - Location of Boundary Line

LAST AMENDED
12/15/1961

The precise location of a boundary line is to be interpreted in accordance with the provisions set forth in this Section.

76-131 - Boundary line parallel to the short dimension of block

LAST AMENDED
12/15/1961

In cases where a boundary line extends parallel to the short dimension of the #block# and no dimensions are shown, such boundary line shall be considered to be located:

(a) in the case of C1-1, C4-1, C4-2 or C4-4 Districts, 200 feet from the nearest #street# within the district;

(b) in the case of C1-2, C1-3, C2-1, C2-2, C2-3, C4-3 or C7 Districts, 150 feet from the nearest #street# within the district; and

(c) in the case of all other districts, 100 feet from the nearest #street# within the district.

76-132 - Boundary line parallel to the long dimension of block between parallel streets

LAST AMENDED
12/15/1961

In case of parallel #streets#, where a boundary line extends parallel to the long dimension of the #block# and no dimension is shown, such boundary line shall be considered to coincide with the center line of the #block#.

76-133 - Boundary line parallel to the long dimension of block between streets which are not parallel

LAST AMENDED
12/15/1961

In case of #streets# which are not parallel, where a boundary line extends parallel to the long dimension of the #block# and no dimension is shown, such boundary line shall be considered as the bisector of the angle formed by prolonging the #street lines# to an intersection.

76-14 - Additional Rules of Construction

LAST AMENDED
12/15/1961

76-141 - When distance from street line shown

LAST AMENDED
2/26/1967

In cases where the boundary line is shown by a dimension as being located a specific distance from a #street line#, this distance shall be considered to be measured from the nearest #street line# of the #street# from which dimensioned.

In cases where a #Limited Height District# boundary line appears to be identical or approximately identical with the boundary line of another district whose location is shown by a dimension, the boundary line of the #Limited Height District# shall be considered to be identical with the boundary line of the other district.

76-142 - Boundary line within street

LAST AMENDED
6/11/1974

In cases where the boundary line is given a position within a #street#, it shall be considered to be in the center of the #street#.

In cases where a C1 or C2 District is mapped within a #Residence District# and such C1 or C2 District abuts a #street line#, the boundary line along such abutting portion shall be deemed to be located in the center of the abutting #street#.

76-143 - Boundary line oblique to streets

LAST AMENDED
12/15/1961

In cases where a boundary line is shown having a position oblique to the #streets# bounding the #block# in which it is located, it shall (unless otherwise fixed) be considered to be the bisector of the angle formed by the intersection of lines 100 feet from and parallel to each of said bounding #streets#, this distance being measured at right angles to said #street lines#.

76-144 - Boundary line adjoining railroad right-of-way

LAST AMENDED
12/5/2024

In cases where a boundary line is shown as adjoining a #railroad right-of-way#, it shall (unless otherwise fixed) be considered to coincide with the boundary line of the #railroad right-of-way#.

76-145 - Boundary line coinciding with parks, cemeteries or navigable waters

LAST AMENDED
12/15/1961

In cases of parks, cemeteries, or navigable waters, the boundary line shall (unless otherwise fixed) be considered to coincide with the boundary line of the park or the cemetery or the pierhead line, except that in cases where no pierhead line has been established, the shore line shall control.

76-146 - Islands

LAST AMENDED
12/15/1961

Any island, or portion thereof, outside of the shore or pierhead lines, that is not a #public park# shall, unless otherwise designated or determined by the City Planning Commission, be considered to be in an R3-2 District.

76-147 - Park boundary line

LAST AMENDED
12/15/1961

The boundary line of a #public park# shall be considered a district boundary line.

76-148 - Scenic View District boundary line

LAST AMENDED
10/24/1974

The boundary lines of #Special Scenic View Districts# are set forth in Section 102-60 (SPECIAL SCENIC VIEW DISTRICTS SPECIFIED).

Zoning Resolution

THE CITY OF NEW YORK
Zohran K. Mamdani, Mayor

CITY PLANNING COMMISSION
Sideya Sherman, Chair

Chapter 7 - Special Provisions for Zoning Lots Divided by District Boundaries

File generated by https://zr.planning.nyc.gov on 6/23/2026

Chapter 7 - Special Provisions for Zoning Lots Divided by District Boundaries

77-00 - GENERAL PROVISIONS

LAST AMENDED
8/14/1987

77-01 - Applicability of This Chapter

LAST AMENDED
12/15/1961

Whenever any #zoning lot# is located in two or more districts in which different #uses# are permitted, or in which different #use#, #bulk#, #accessory# off-street parking and loading, or other regulations apply, the provisions of this Chapter shall apply.

77-02 - Zoning Lots not Existing Prior to Effective Date or Amendment of Resolution

LAST AMENDED
12/5/2024

Whenever a #zoning lot# is divided by a boundary between two or more districts and such #zoning lot# did not exist on December 15, 1961, or any applicable subsequent amendment thereto, each portion of such #zoning lot# shall be regulated by all the provisions applicable to the district in which such portion of the #zoning lot# is located. However, the provisions of Section 77-22 (Floor Area

Ratio) shall apply to #zoning lots# created at any time where different #bulk# regulations apply to different portions of such #zoning lot#.

77-03 - Zoning Lots Existing Prior to Effective Date or Amendment of Resolution

LAST AMENDED
12/15/1961

Whenever a #zoning lot# is divided by a boundary between two or more districts and such #zoning lot# existed on December 15, 1961, or any applicable subsequent amendment thereto, the provisions of this Resolution may be applied to such #zoning lot# as set forth in subsequent Sections of this Chapter. Except as specifically provided in this Chapter, each portion of such #zoning lot# shall be regulated by all the provisions applicable to the district in which such portion of the #zoning lot# is located.

77-10 - USE REGULATIONS

LAST AMENDED
12/15/1961

77-11 - Conditions for Application of Use Regulations to Entire Zoning Lot

LAST AMENDED
6/29/1989

Whenever a #zoning lot# existing on December 15, 1961, or on any applicable subsequent amendment thereto, is divided by a boundary between districts in which different #uses# are permitted, the #use# regulations applicable to the district in which more than 50 percent of the #lot area# of the #zoning lot# is located may apply to the entire #zoning lot#, provided that the greatest distance from the mapped district boundary to any #lot line# of such #zoning lot# in the district in which less than 50 percent of its area is located does not exceed 25 feet. Such distance shall be measured perpendicular to the mapped district boundary.

Whenever the #use# regulations are so applied, the district boundary may be assumed to be relocated accordingly, and the #bulk#, off-street parking and loading, and all other regulations applying to such expanded district shall apply to the entire #zoning lot#. However, when the #zoning lot# is divided by a district boundary between a district limited to #single-# or #two-family residences# and a district permitting multiple dwellings, the #use# and #bulk# regulations of an R3-2 District shall apply in the R1, R2, R3A, R3X or R3-1 portion, and the #use# and #bulk# regulations of an R4 District shall apply in the R2X, R4A, R4-1 or R4B portion.

Except as specifically provided by the provisions of a special purpose district, the provisions of this Section shall apply to #zoning lots# which are divided by a special purpose district boundary line.

77-12 - Application of Use Regulations Under All Other Conditions

LAST AMENDED
6/25/1964

Whenever a #zoning lot# is divided by a boundary between districts in which different #uses# are permitted and the provisions of Section 77-11 (Conditions for Application of Use Regulations to Entire Zoning Lot) do not apply, the applicable #use# regulations for each district shall apply to that portion of the #zoning lot# located within such district, except as provided in Section 73-42

(Enlargement of Uses Across District Boundaries) or 73-52 (Modifications for Zoning Lots Divided by District Boundaries).

The regulations governing #use# are set forth in Article II, Chapter 2; Article III, Chapter 2; and Article IV, Chapter 2.

77-20 - BULK REGULATIONS

LAST AMENDED
12/15/1961

77-21 - General Provisions

LAST AMENDED
9/27/1962

Whenever a #zoning lot# existing on December 15, 1961, or on any applicable subsequent amendment thereto, is divided by a boundary between districts with different #bulk# regulations, and the provisions of Sections 77-11 (Conditions for Application of Use Regulations to Entire Zoning Lot) or 77-211 (Conditions for application of bulk regulations to entire zoning lot) do not apply, the #bulk# regulations may apply as set forth in Sections 77-22 to 77-29, inclusive, relating to Bulk Regulations.

77-211 - Conditions for application of bulk regulations to entire zoning lot

LAST AMENDED
12/5/1990

Whenever a #zoning lot# existing on December 15, 1961, or on any applicable subsequent amendment thereto, is divided by a boundary between:

(a) two #Residence Districts# limited to #single-# or #single-# and #two-family residences#; or

(b) two #Commercial Districts# or two #Manufacturing Districts# in which the same #uses# are permitted but different #bulk# regulations apply;

the #bulk# regulations applicable to the district in which more than 50 percent of the #lot area# of the #zoning lot# is located may apply to the entire #zoning lot#, provided that the greatest distance from the mapped district boundary to any #lot line# of such #zoning lot# in the district in which less than 50 percent of its area is located does not exceed 25 feet. Such distance shall be measured perpendicular to the mapped district boundary.

Whenever the #bulk# regulations are so applied, the district boundary may be assumed to be relocated accordingly, and the off-street parking and loading and all other regulations applying to such expanded district shall apply to the entire #zoning lot#.

Except as specifically provided by the provisions of a Special Purpose District, the provisions of this Section shall apply to #zoning lots# that are divided by a Special Purpose District boundary line.

77-22 - Floor Area Ratio

LAST AMENDED
12/5/2024

The maximum #floor area ratio# permitted on each portion of such #zoning lot# for the applicable type of #building# or #buildings# on such #zoning lot# shall be determined under the applicable regulations of this Resolution.

Each such #floor area ratio# shall be multiplied by the percentage of the #zoning lot# to which such #floor area ratio# applies. The sum of the products thus obtained shall be the adjusted maximum #floor area ratio# applicable to such #zoning lot#.

The #floor area# resulting from application of the adjusted maximum #floor area ratio# may be located anywhere on the #zoning lot#, subject to all other regulations of this Resolution, and provided that the #floor area ratio# for any portion of the #zoning lot# within one district shall not exceed the maximum #floor area ratio#, specified for that district, or the adjusted maximum #floor area ratio# for the #zoning lot#, whichever is greater, except that the portion of the #zoning lot# fronting on and within 100 feet of a #wide street# and permitting the greater maximum permitted #residential# #floor area ratio# may exceed the maximum permitted #residential# #floor area ratio# for the portion of the #zoning lot# by up to 20 percent.

In applying the provisions of this Section, the following conditions shall apply:

(a) the #floor area# bonus permitted for #publicly accessible open areas# or #arcades#, under the applicable regulations of this Resolution, shall apply only to such #publicly accessible open areas#, #arcades# or portions thereof, as are located in a district in which such bonus is granted; and

(b) when a #zoning lot# contains a #sky exposure plane building# which does not have a specified maximum #floor area ratio#, for the purpose of computing the adjusted maximum #floor area ratio#, the #floor area ratio# of such #zoning lot# shall be deemed to be that which can be achieved at the minimum required #open space ratio# for such #zoning lot#.

77-23 - Open Space Ratio

LAST AMENDED
2/2/2011

The #open space# required for such #zoning lot# shall be computed separately for each portion of the #zoning lot# under the applicable regulations of the underlying districts. The total #open space# provided on the #zoning lot# shall not be less than the sum of such required #open space# so computed.

For portions of the #zoning lot# located in districts that have required #open space ratios#, the required #open space# for each such portion is computed by multiplying the #lot area# of that portion, by the maximum #floor area ratio# permitted for the applicable type of #building# or #buildings#, by the minimum #open space ratio# required at that #floor area ratio#, divided by 100.

For portions of the #zoning lot# located in other districts that do not have required #open space ratios# but do have required #open space#, the required #open space# for each such portion is computed by multiplying the #lot area# of that portion, by the minimum percentage of #open space# required, divided by 100.

For portions of the #zoning lot# located in districts that do not have a required #open space ratio# or required #open space#, no #open space# shall be required but any required #yards#, or #publicly accessible open area# provided, for which a #floor area# or #lot area# bonus is taken, shall be in addition to the amount of #open space# required on the remaining portion of the #zoning lot#. No open area may be counted twice in fulfilling these requirements.

The required #open space# may be located anywhere on the #zoning lot# subject to all other regulations of this Resolution and provided that the #open space ratio# for any portion of the #zoning lot# within one district shall not be less than 60 percent of the required #open space ratio# for that district.

77-24 - Lot Coverage

LAST AMENDED

The maximum percent of #lot coverage# permitted on each portion of a #zoning lot# shall be determined under the applicable regulations of Article II, Chapters 3 and 4.

Each such maximum percent of #lot coverage# shall be multiplied by the #lot area# of the portion of the #zoning lot# to which such percent of #lot coverage# applies. The sum of the areas of #lot coverage# thus obtained shall be the maximum area of #lot coverage# for the #zoning lot#. Such maximum area of #lot coverage#, divided by the #lot area# of the #zoning lot#, shall be the adjusted maximum percent of #lot coverage# for the #zoning lot#.

A #building# whose #lot coverage# does not exceed the adjusted maximum percentage of #lot coverage# may be located anywhere on such #zoning lot# or portion of such #zoning lot#, subject to all other regulations of this Resolution, and provided that the percentage of #lot coverage# for any portion of the #zoning lot# within one district shall not exceed the maximum percentage of #lot coverage# specified for that district, or the adjusted maximum percentage of #lot coverage# for the #zoning lot#, whichever is greater.

If a #zoning lot# divided by a boundary between two or more districts is partly a #corner lot# and partly an #interior lot# or #through lot#, separate adjusted maximum percentages of #lot coverage# shall be computed for such #corner lot# and for such #interior lot# or #through lot# and applied separately to such #corner lot# and to such #interior lot# or #through lot#, as though each were a separate #zoning lot#. The provisions of this paragraph shall not apply to #zoning lots# located on #waterfront blocks#.

If a #zoning lot# is partly in a district in which there is no maximum permitted percentage of #lot coverage# for the #use#, the provisions of this Section shall apply to such portions of the #zoning lot# as are in a district with a maximum #lot coverage# requirement.

Wherever a #zoning lot# is divided by a district boundary in which one portion of the #zoning lot# is located in a district having a #lot coverage# requirement and the other portion is located in a district having an #open space ratio# requirement, the required #open space# for the portion having the

#open space ratio# requirement shall be computed in accordance with Section 77-23 (Open Space Ratio). The inverse of such required #open space# shall be the maximum #lot coverage# permitted on that portion of the #zoning lot#, and may be located anywhere on the #zoning lot# subject to all other regulations of this Resolution.

77-25 - Density Requirements

LAST AMENDED
12/5/2024

Whenever a #zoning lot# is divided by a boundary between districts with different density requirements, the maximum number of #dwelling units# or #rooming units# permitted on the #zoning lot# shall equal the sum of the maximum number of #dwelling units# or #rooming units# permitted for each portion of the #zoning lot# in accordance with the applicable district regulations. Such #dwelling units# or #rooming units# may be located wherever a #building# is permitted on the #zoning lot#. However, wherever portions of a #zoning lot# are limited to #single-# or #two-family residences# pursuant to Section 22-12 (Use Group II – Residences), inclusive, no more than one or two #dwelling units# may be provided, as applicable.

77-26 - Minimum Lot Area and Lot Width Requirements for Residences

LAST AMENDED
2/2/2011

The minimum #lot area# and #lot width# regulation applying to the district with the more restrictive regulations shall apply to the entire #zoning lot#.

77-27 - Yard Regulations

LAST AMENDED
2/2/2011

Each portion of the #zoning lot# shall be governed by the #yard# regulations specified for the district in which it is located.

77-28 - Height and Setback Regulations

LAST AMENDED
12/5/2024

For #zoning lots# divided by district boundaries in which all applicable height and setback regulations include the use of #sky exposure planes#, the height and setback regulations of each #street# frontage of the #zoning lot# shall be determined by multiplying the quantitative requirements set forth in the regulations of the Chapters, which are applicable to each portion of such #street# frontage, by the percentage of such #street# frontage to which such regulations apply. The sum of the products obtained shall be the controlling requirements for the #zoning lot#.

In determining the percentage of such #street# frontage, the percentage shall be based on the total frontage of the #zoning lot# along such #street#.

However, if any portion of such #zoning lot# is located within a #Limited Height District#, the provisions of Sections 23-443, 24-591 or 33-491 (Limited Height Districts) shall apply to any portion of a #building# utilizing #sky exposure plane# provisions.

For all other #zoning lots#, each portion of such #zoning lot# shall be regulated by the height and setback provisions applicable to the district in which such portion of the #zoning lot# is located.

For the purposes of defining a #building# envelope pursuant to Section 23-421, apex points may be located on a zoning district boundary which divides a #building#.

Furthermore, if any portion of a #zoning lot# is located in an R2X, R3, R4, R4-1 or R4A District, the height and setback regulations specified for such district may apply to the entire #zoning lot# provided that such district comprises more than 50 percent of such #zoning lot#, and the greatest distance from the mapped district boundary to any #lot line# of such #zoning lot# in the district in which less than 50 percent of its area is located does not exceed 25 feet. Such distance shall be measured perpendicular to the mapped district boundary.

77-29 - Tower Regulations

LAST AMENDED
12/5/2024

If 50 percent or more of a #zoning lot# is located within a district to which the provisions of Sections 23-435, 23-737, 24-54, 33-45 or 43-45 (Tower Regulations) apply, and the remaining portion of the #zoning lot# is within a district to which such provisions do not apply, a tower, which, in the aggregate, occupies not more than the percentage of the #lot area# permitted for the particular district in which the tower is permitted, may be applied to the #lot area# of the entire #zoning lot#. Such tower may penetrate any applicable established #sky exposure plane#, or maximum base height, as applicable, provided that such tower shall comply with the applicable setback requirements or restrictions on aggregate area that may be occupied.

If 50 percent or more of a #zoning lot# is located in a district in which the provisions of Sections 33-455 (Alternate regulations for towers on lots bounded by two or more streets), 33-456 (Alternate

setback regulations on lots bounded by two or more streets) or 33-457 (Tower setbacks on narrow blocks) apply, and the remaining portion of the #zoning lot# is within a district in which such provisions do not apply, any #building# or any tower that occupies not more than the applicable percent of the #lot area# of a #zoning lot# as set forth in Section 33-455 or 33-456 and which complies with the applicable setback requirements as set forth in Sections 33-455, 33-456 or 33-457, may penetrate any applicable established #sky exposure plane#.

Subject to the requirements set forth hereinbefore and those specified in Sections 77-22 (Floor Area Ratio) and 77-23 (Open Space Ratio), such tower may be located anywhere on such #zoning lot#.

77-30 - OFF-STREET PARKING AND LOADING REGULATIONS

LAST AMENDED
12/15/1961

77-31 - General Provisions

LAST AMENDED
12/15/1961

Whenever a #zoning lot# existing on December 15, 1961, or on any applicable subsequent amendment thereto, is divided by a boundary between districts with different off-street parking or loading regulations, and the provisions of Section 77-11 (Conditions for Application of Use Regulations to Entire Zoning Lot) do not apply, the off-street parking and loading regulations may apply as set forth in this Chapter.

77-32 - Districts of Same General Use Class

LAST AMENDED
12/15/1961

When such boundary is between two #Residence Districts# or two #Commercial Districts# or two #Manufacturing Districts#, the provisions of this Section shall apply.

77-321 - Provisions governing off-street parking for residences

LAST AMENDED
2/2/2011

The percentage requirements for #accessory# off-street parking for #residences# applicable to each portion of the #zoning lot# shall be multiplied by the percentage of the total #lot area# of the #zoning lot# to which each such requirement applies. The sum of the products obtained shall be the percentage requirement applicable to #residences# on such #zoning lot#. Such off-street parking spaces may be located anywhere on the #zoning lot# without regard to district boundaries, provided that such spaces shall conform to all the other applicable provisions of this Resolution.

77-322 - Provisions governing off-street parking for non-residential uses

LAST AMENDED
2/2/2011

For non-#residential uses#, the requirements for #accessory# off-street parking or loading of that district in which more than 50 percent of the total area of the #zoning lot# is located, shall apply to the

entire #zoning lot#. The parking spaces or loading berths may be located anywhere on the #zoning lot# without regard to district boundaries, provided that such spaces or berths shall conform to all other applicable regulations of this Resolution.

77-33 - Districts of Different General Use Class

LAST AMENDED
12/15/1961

When such boundary is between a #Residence District# and a #Commercial District#, or between a #Commercial District# and a #Manufacturing District#, or between a #Residence District# and a #Manufacturing District#, the provisions of this Section shall apply.

77-331 - Use permitted in both districts

LAST AMENDED
12/15/1961

For any #use# which is permitted in both such districts, the applicable requirements for #accessory# off-street parking and loading of that district in which more than 50 percent of the #zoning lot# is located shall apply to the entire #zoning lot#. The parking spaces or loading berths may be located anywhere on the #zoning lot# without regard to district boundaries, provided that such spaces or berths shall conform to all other applicable regulations of this Resolution.

77-332 - Use not permitted in both districts

For any #use# which is permitted in one such district but not in the other, the applicable district requirements for #accessory# off-street parking and loading shall be satisfied entirely within the district within which such #use# is permitted, provided, however, that:

(a) the required parking spaces for #residential# or #community facility# #uses#, or the loading berths for #community facility# #uses#, may be located on that portion of the #zoning lot# which is in a C8 or #Manufacturing District#;

(b) the required parking spaces or loading berths for any #commercial# #use# may be located on that portion of the #zoning lot# which is in a #Manufacturing District#;

(c) the required parking spaces or loading berths for #manufacturing# #uses# may be located on that portion of the #zoning lot# which is in a C8 District; and

provided, further, that such spaces or berths shall conform to all other applicable regulations of this Resolution.

Zoning Resolution

THE CITY OF NEW YORK
Zohran K. Mamdani, Mayor

CITY PLANNING COMMISSION
Sideya Sherman, Chair

Chapter 8 - Special Regulations Applying to Large-Scale Residential Developments

File generated by https://zr.planning.nyc.gov on 6/23/2026

Chapter 8 - Special Regulations Applying to Large-Scale Residential Developments

78-00 - GENERAL PURPOSES, DEFINITIONS AND GENERAL PROVISIONS

LAST AMENDED
8/18/1977

78-01 - General Purposes

LAST AMENDED
8/24/1967

The regulations set forth in this Chapter are designed to deal with certain types of problems which arise only in connection with large-scale residential developments and to promote and facilitate better site planning and community planning through modified application of the district regulations in such developments.

For large-scale residential developments involving several zoning lots but planned as a unit, the district regulations may impose unnecessary rigidities and thereby prevent achievement of the best possible site plan within the overall density and bulk controls. For such developments, the regulations of this Chapter are designed to allow greater flexibility for the purpose of securing better site planning for development of vacant land and to provide incentives toward that end while safeguarding the present or future use and development of surrounding areas and, specifically, to achieve more efficient use of increasingly scarce land within the framework of the overall bulk controls, to enable open space in large-scale residential developments to be arranged in such a way as best to serve active and passive recreation needs of the residents, to protect and preserve scenic assets and natural features such as trees, streams and topographic features, to foster a more stable community by providing for a

population of balanced family sizes, to encourage harmonious designs incorporating a variety of building types and variations in the siting of buildings, and thus to promote and protect public health, safety and general welfare.

78-02 - Definitions

LAST AMENDED
2/2/2011

Words in italics are defined in Section 12-10 or, if applicable exclusively to this Chapter, in this Section.

Floor area

For the purposes of this Chapter, in R3, R4 or R5 Districts, #floor area# shall be as defined in Section 12-10, except that:

(a) #floor area# shall not include up to 200 square feet of floor space located in any #story# used for required #accessory# off-street parking spaces within individual garages; and

(b) within the definition of #floor area# in Section 12-10, listed under "#floor area# includes," paragraph (i)(3) shall not apply, and listed under "#floor area# of a #building# shall not include," paragraph (6)(ii), shall not apply.

78-03 - Applicability of This Chapter

LAST AMENDED
2/27/2020

#Large-scale residential developments# are governed by all the #use#, #bulk#, off-street parking and loading, and other applicable regulations of this Resolution, except for such special provisions as are specifically set forth in this Chapter and apply only to such #large-scale residential developments#.

Any #large-scale residential development# having a total of at least 500 #dwelling units# shall be subject to the provisions of Section 78-11 (General Provisions), relating to Provision of Public Facilities in Connection with Large-Scale Residential Developments.

#Large-scale residential developments# within the #waterfront area# shall be subject to the provisions of Section 62-132 (Applicability of Article VII, Chapters 4, 8 and 9).

78-04 - Powers of the City Planning Commission

LAST AMENDED
8/24/1967

78-041 - Authorization by Commission

LAST AMENDED
8/24/1967

For any #large-scale residential development# for which proposed modifications of the applicable district regulations are limited to those which may be granted in accordance with the provisions of Sections 78-21 to 78-23, inclusive, relating to Use Regulations, Sections 78-311 and 78-313 relating to Bulk Regulations, Section 78-41 (Location of Accessory Parking Spaces), or Sections 78-51 to 78-53, inclusive, relating to Subdivision of Large-Scale Residential Developments, the City Planning Commission may grant such modifications in accordance with the provisions of such specified

Sections and may prescribe appropriate conditions and safeguards thereon.

78-042 - Special permits

LAST AMENDED
12/18/1969

For #large-scale residential developments# for which proposed modifications of the applicable district regulations include those which may be granted only in accordance with the provisions of Sections 78-312 to 78-33, inclusive, relating to Bulk Regulations, or Section 78-42 (Parking Regulations for Commercial and Community Facility Uses), the City Planning Commission may grant special permits for such modifications in accordance with the applicable provisions of such specified Sections and other sections of this Chapter and may prescribe appropriate conditions and safeguards thereon.

78-043 - Requirements for findings

LAST AMENDED
2/2/2011

The requirements for findings as set forth in this Chapter shall constitute a condition precedent to the grant of any such modification by special permit or otherwise. The decision or determination of the City Planning Commission shall set forth each required finding in each grant of modifications for a #large-scale residential development#. Each finding shall be supported by substantial evidence or data considered by the Commission in reaching its final decision.

78-044 - Contractual agreements

LAST AMENDED
8/24/1967

The City of New York may enter into contractual agreements with the applicant as may be required to assure compliance with the terms and conditions of the modifications granted under the provisions of this Chapter.

78-05 - Requirements for Applications

LAST AMENDED
2/2/2011

An application to the City Planning Commission for an authorization or special permit respecting any #large-scale residential development# shall include a site plan and related schedules showing the location and proposed #use# of all #buildings or other structures# on the site, the location of existing natural features such as important trees or clusters of trees, streams or rock formations, and all information necessary to indicate the authorizations requested and their justification.

The Commission shall require, where relevant, a time schedule for carrying out the proposed #large-scale residential development#, a financial plan, a subdivision plan and, in the case of a site plan providing for common #open space# or common parking areas, a maintenance plan for such space or areas and surety for continued availability of such space or areas to the people they are intended to serve.

78-06 - Ownership

(a) Except as otherwise provided in this Section, any #large-scale residential development# for which application is made for an authorization or special permit or modification thereto, in accordance with the provisions of this Chapter, shall be on a tract of land that at the time of application is all under the control of the applicant(s) as the owner(s) or holder(s) of a written option to purchase. Except as otherwise provided in this Section, no authorization or special permit or modification thereto, shall be granted for such #large-scale residential development# unless the applicant(s) acquired actual ownership (single fee ownership or alternate ownership arrangements according to the #zoning lot# definition in Section 12-10 for all #zoning lots# comprising the #large-scale residential development#) of, or executed a binding sales contract for, all of the property comprising such tract.

(b) Notwithstanding the provisions of paragraph (a) of this Section, the following actions shall be permitted:

(1) When a #large-scale residential development# is part or all of a designated urban renewal project, the City's urban renewal agency, or a person authorized by such agency, may make application for and may be granted authorizations or special permits under the provisions of this Chapter, even though such #large-scale residential development# does not meet the ownership requirements set forth in paragraph (a) of this Section. All parcels comprising such #large-scale residential development# shall be within the designated urban renewal area and subject to the urban renewal controls set forth in the approved urban renewal plan.

(2) In the event that the urban renewal plan has expired, the owner(s) of a vacant parcel(s) within such #large-scale residential development#, if located in a former urban renewal area listed in this paragraph, (b)(2), may make application for and may be granted modifications of authorizations or special permits previously granted under

the provisions of this Chapter with respect to such parcel(s), subject to the conditions of paragraph (b)(5) of this Section.

Borough	Community District	Former Urban Renewal Area (URA)
Manhattan	7	West Side URA

(3) The owner(s) of a developed parcel(s) within a #large-scale residential development# located in a former urban renewal area listed in paragraph (b)(2), where at least 50 percent of such parcel(s) is located within a C1-9 or C2-8 District, may make application for, and may be granted, modifications of authorizations or special permits previously granted under the provisions of this Chapter, in order to utilize available #floor area# for #commercial# or #community facility# #uses#, subject to the conditions of paragraph (b)(5) of this Section and provided further that:

(i) no #residential use# existing prior to July 23, 2008, located above the level of the ground floor may be changed to a non-#residential use#;

(ii) the #enlarged# portion of the #building# shall be restricted to #community facility# #uses# and #commercial# #uses# listed in Use Group VI, provided that any ground floor #community facility# #use#, and any bank or loan office shall occupy not more than 25 feet of the #wide street# frontage, measured to a depth of 30 feet from the #wide# #street line#, and no #community facility# #use# shall be permitted above the level of the second #story# ceiling;

(iii) any #enlargement# fronting upon Columbus or Amsterdam Avenue shall contain a number of establishments, such that the entire #block# front on Columbus or Amsterdam Avenue shall contain no fewer than three establishments, each with a separate entrance on Columbus or Amsterdam Avenue. The Columbus or Amsterdam Avenue frontage of any one such establishment shall not exceed 100 feet;

(iv) the ground floor #street wall# of an #enlargement# located within C1-9 or C2-8 Districts shall be glazed with transparent materials which may include #show windows#, glazed transoms or glazed portions of doors. Such glazed area shall occupy at least 70 percent of the area of each such ground floor #street wall#, measured to a height of 12 feet above the level of the adjoining sidewalk or public access area;

(v) required #open space# with appropriate circulation, seating, lighting and plantings shall be accessible and usable by all residents of the #large-scale residential development#;

(vi) a plan, including elevations, shall be submitted showing the proposed #building(s)# and modification, and #open space#; and

(vii) the #enlargement# enhances the streetscape and the design promotes a harmonious relationship with the existing #buildings# and contiguous #blocks# within the #large-scale residential development#.

In addition, any significant adverse impacts resulting from a #development# or #enlargement# pursuant to such modifications, considered in combination with #developments# or #enlargements# within the former urban renewal area listed in paragraph (b)(2), previously the subject of modifications under this paragraph, (b)(3), shall have been avoided or minimized to the maximum extent practicable by incorporating as conditions to the modification those mitigative measures that have

been identified as practicable.

The provisions of paragraphs (b)(3)(ii) and (b)(3)(iii) shall not apply to #enlargements# of #community facility# #uses# and bank or loan offices existing prior to July 23, 2008, provided that such #enlargement# does not increase existing #street# frontage on Columbus or Amsterdam Avenues by more than 10 feet.

An application filed pursuant to this paragraph, (b)(3), shall be referred to the affected Community Board, and the City Planning Commission shall not grant any modification of an authorization or special permit pursuant thereto prior to 45 days after such referral.

(4) For any #large-scale residential development# located in the Community District(s) listed in this paragraph, (b)(4), the owner(s) of a vacant parcel(s) may make application for and may be granted modifications of authorizations or special permits previously granted under the provisions of this Chapter with respect to such parcel(s), subject to the conditions of paragraph (b)(5).

Borough	Community District
Queens	7

(5) Modifications of authorizations or special permits previously granted under the provisions of this Chapter, as permitted in paragraphs (b)(2), (b)(3) and (b)(4) of this Section, shall not:

(i) result in the distribution of #floor area# from any #zoning lot# not coextensive with or included within such parcel(s); or

(ii) increase the total allowable #floor area# on any #zoning lot# included within such parcel(s) beyond that amount permitted by the applicable district regulations.

Such modifications may include the withdrawal of such parcel(s) from the boundaries of the #large-scale residential development#, provided that such modification would not create a #non-compliance# within the #large-scale residential development#.

(6) When a #large-scale residential development# is to be #developed# or #enlarged# through assemblage by any other governmental agency, other than the City's urban renewal agency, or its agent, having the power of condemnation, authorizations or special permits may be applied for and may be granted under the provisions of this Chapter, even though such #large-scale residential development# does not meet the ownership requirements set forth elsewhere in this Section.

(7) In the event that the urban renewal plan has expired, the owner(s) of a parcel(s) of land previously used as open space for a term of years that has expired within such #large scale residential development#, if located in a former urban renewal area listed in this paragraph, (b)(7), may make application for and be granted modifications of authorizations or special permits previously granted under the provisions of this Chapter, where such modifications do not seek the distribution of #floor area# from any #zoning lot# not included within such parcel(s), for a #development# that includes a #building# and public open space permitted by the applicable district regulations. Such modifications shall result in a site plan that includes a #building# and public open space that are appropriately located and oriented with respect to other uses in the surrounding area.

Borough	Community District	Former Urban Renewal Area (URA)
Manhattan	8	Ruppert Brewery URA

78-07 - Lapse of Authorization or Special Permit

LAST AMENDED
7/18/1995

Any authorization or special permit granted by the City Planning Commission pursuant to this Chapter shall automatically lapse if substantial construction has not been completed as set forth in Section 11-42 (Lapse of Authorization or Special Permit Granted by the City Planning Commission Pursuant to the 1961 Zoning Resolution). For any renewal of such authorization or special permit, the provisions of Section 11-43 (Renewal of Authorization or Special Permit) shall apply.

78-10 - PROVISION OF PUBLIC FACILITIES IN CONNECTION WITH LARGE-SCALE RESIDENTIAL DEVELOPMENT

LAST AMENDED
8/24/1967

78-11 - General Provisions

LAST AMENDED
8/24/1967

The following regulations apply to all #large-scale residential developments# with a total of at least 500 #dwelling units#, except duly authorized urban renewal projects, as a condition precedent to the issuance of a building permit.

78-111 - Public facilities report

LAST AMENDED
2/2/2011

Within one month after a request from the Chairperson of the City Planning Commission, the Department of City Planning shall make a report, based upon information from the Department of Education and other appropriate City Departments, on the anticipated effect of the proposed #large-scale residential development# on the existing capacity of public #schools# or other public facilities serving the area in which the proposed #large-scale residential development# is to be located.

78-112 - If no additional public facilities needed

LAST AMENDED
2/2/2011

If the Department of City Planning reports that the proposed #large-scale residential development# will not require any significant addition to the public facilities serving the neighborhood, then the

requirements of this Section shall be considered to be satisfied.

78-113 - If additional public facilities needed

LAST AMENDED
2/2/2011

If the Department of City Planning reports that the proposed #large-scale residential development# can be expected to create a need for one or more new public facilities in the neighborhood, the City Planning Commission may, in its discretion, recommend that a site for one or more such facilities should be reserved within the site of such proposed #large-scale residential development#. If the Commission does so recommend, the issuance of a building permit shall be withheld for a period not to exceed three months. In such a case, the requirements of this Section shall be considered to be satisfied:

(a) if, within a period of less than three months, the developer and the appropriate City officials have agreed on the reservation of such a site or sites, or official proceedings have been initiated to authorize acquisition of such a site or sites, or if necessary to amend the capital budget to include the project as a prerequisite to site acquisition; or

(b) in any event, at the expiration of the above-mentioned period of three months.

78-20 - USE REGULATIONS

LAST AMENDED
8/24/1967

78-21 - Permitted Uses

LAST AMENDED
1/22/1970

A #large-scale residential development# may include within its area any #residential uses#, #commercial# #uses# or #community facility# #uses# permitted in the district or districts in which it is located. The #commercial# #uses# in these #Commercial Districts# shall be restricted to #uses# permitted in C1, C2 or C4 Districts.

78-22 - Accessory Uses in Large-Scale Residential Developments

LAST AMENDED
6/6/2024

A #large-scale residential development# in a #Residence District# may contain as #accessory# #uses#, any #commercial# #uses# listed in Use Group VI which in the aggregate occupy not more than two percent of the total #floor area# in the #large-scale residential development#, and of which no single establishment occupies more than 15,000 square feet of #floor area#, provided that upon a review of the site plan, the City Planning Commission finds that such #commercial# #uses#:

(a) will be primarily for the use of the residents of the #large-scale residential development# and will provide more convenient shopping for such residents;

(b) are so located as to minimize interference with #residential# or recreational areas within the #large-scale residential development# and to avoid creation of traffic congestion or other objectionable influences affecting #residences# outside the #large-scale residential development#;

(c) comply with all the applicable #bulk# and off-street parking and loading regulations for such #accessory# #commercial# #uses#, as set forth in Article II, Chapters 3 and 5; and

(d) conform to those provisions of the following Sections which are applicable to #commercial# # uses# in C1 Districts:

Section 32-41 (Enclosure Within Buildings)

Section 32-42 (Location Within Buildings)

Sections 32-61 to 32-68, inclusive, relating to Sign Regulations.

78-23 - Other Accessory Uses

LAST AMENDED
4/30/1981

78-231 - Accessory swimming pools

LAST AMENDED
2/2/2011

Swimming pools may be authorized by the City Planning Commission as #accessory# #uses# even though not located on the same #zoning lots# as the principal #uses# to which they are related, provided that:

(a) any such swimming pool is located in a common #open space# area and as a part of such area meets all the requirements set forth in Section 78-52 (Common Open Space);

(b) the use of such swimming pool is restricted to the residents of the #large-scale residential development# or portion thereof served by such common #open space#, and their guests;

(c) the edge of such swimming pool is located not less than 50 feet from any #lot line# on the periphery of the #large-scale residential development#, and is suitably screened from other areas on the same or adjacent #zoning lots#; and

(d) such swimming pool complies in all other respects with the definition of #accessory# #use# as set forth in Section 12-10 (DEFINITIONS).

78-232 - Accessory sewage disposal plants

LAST AMENDED
4/30/1981

In Staten Island, sewage disposal plants to serve not more than 50 #dwelling units# may be authorized by the City Planning Commission as #accessory# #uses# to be located anywhere within a #large-scale residential development# without regard for #zoning lot lines#, provided the Commission finds that:

(a) the sewage disposal plant is located not closer than 100 feet from any #residential use#;

(b) the #large-scale residential development# is arranged so as to best serve the active and passive recreation needs of the #residential development#, protect and serve scenic assets and natural features and provide suitable variations in the siting of #buildings#;

(c) the sewage disposal plant is adequately landscaped and buffered from all #residential uses# on the same or adjacent #zoning lots#; and

(d) the proposal promotes and protects the public health, safety and general welfare.

78-24 - Special Permits

LAST AMENDED
2/2/2011

78-241 - Location of commercial uses

LAST AMENDED
6/6/2024

For any #large-scale residential development#, the City Planning Commission, by special permit, may allow #residential# and non-#residential uses# to be arranged within a #building# without regard for the regulations set forth in Section 32-42 (Location Within Buildings) when terracing is required because of unusual topographic conditions in a #large-scale residential development# having a minimum area of 20 acres.

78-30 - BULK REGULATIONS

LAST AMENDED
8/24/1967

78-31 - Location of Buildings, Distribution of Bulk and Open Space and Modification of Height and Setbacks

LAST AMENDED
2/2/2011

(a) General provisions

For the purposes of this Section, the term "periphery" shall mean any #street line# bounding a #large-scale residential development# or any #lot line# abutting a #zoning lot# that is not part of the #large-scale residential development#. The term "wholly within" shall therefore mean any area of the #large-scale residential development# which is not within the area designated as "periphery." However, in R3-2 Districts, R4 Districts except R4-1, R4A and R4B Districts, or R5 Districts except R5B Districts, the "periphery" shall also include all portions of a #large-scale residential development# within 100 feet of a peripheral #street line# or within 30 feet of any other peripheral #lot line#, except for portions directly opposite:

(1) an area of at least 1.5 acres in a #Residence District# that is either vacant or #land with minor improvements#; or

(2) a #large-scale residential development# #developed# pursuant to the provisions of paragraph (b) of this Section; or

(3) a #Commercial# or a #Manufacturing District#.

All #buildings or other structures# in the periphery of a #large-scale residential development# shall comply with the height and setback regulations of Article II, Chapter 3, except as otherwise provided in this Section.

Special provisions applying to #large-scale residential developments# in R3, R4 or R5 Districts are set forth in paragraphs (b) and (c) of this Section. The provisions of paragraph (b) shall apply to any #large-scale residential development# in R3-2 Districts, R4 Districts except R4-1, R4A and R4B Districts, or R5 Districts except R5B Districts. The provisions of paragraph (c) shall apply only to #large-scale residential developments# in all R3, R4 or R5 Districts that utilize the bonus provisions of Section 78-32 through 78-35, inclusive.

(b) Alternate height and setback regulations for certain districts

In R3-2 Districts, R4 Districts except R4-1, R4A and R4B Districts, or R5 Districts except R5B Districts, #buildings or other structures#, or portions thereof, "wholly within" a #large-scale residential development# may use the alternate height and setback regulations set forth in paragraphs (b)(1) through (b)(3) of this Section.

(1) In R3-2 Districts, the height and setback regulations applicable to R4 Districts, except R4A and R4B Districts, may be used.

(2) In R4 Districts, no portion of any #building or other structure#, including the apex of a roof, shall penetrate a plane 35 feet in height above the #base plane#.

(3) In R5 Districts, no portion of any #building or other structure#, including the apex of a pitched roof, shall penetrate a plane 40 feet in height above the #base plane#.

(c) Alternate #floor area# and #open space# regulations in R3, R4 or R5 Districts

In #large-scale residential developments# that utilize the bonus provisions of this Chapter, the #floor area ratio# and the #open space ratio# controls set forth in the following table shall apply in lieu of the #floor area ratio# and #lot coverage# controls of Article II, Chapter 3.

District	#Open Space Ratio#	#Floor Area Ratio#
R3	150	.50*
R4	80	.75*

R5	40	1.25

* The #floor area ratio# in the table may be increased by up to 20 percent provided that any such increase in #floor area# is located under a sloping roof which rises at least three and one-half inches in vertical distance per each foot of horizontal distance and the structural headroom of such #floor area# is between five and eight feet. Any such additional #floor area# under a sloped roof shall not be used to compute the #open space ratio#

(d) Authorizations may be granted for #buildings# to be located, #bulk# and #open space# distributed, and height and setback modified, in accordance with the provisions of this Section.

(e) In R9 through R12 Districts, and in C1 or C2 Districts mapped within, or with a #residential equivalent# of, such districts, #floor area# bonuses for #public plazas# or #arcades# permitted in accordance with the applicable district regulations shall apply only to a #development# or #enlargement# with 25 percent or less of the total #floor area# of the #building# in #residential use#.

(f) Alternate window to #lot line# regulations for a #zoning lot# directly adjoining a #public park#

In R7-1 and R8 Districts within a #large-scale residential development# in Community District 6 in the Borough of the Bronx, the required minimum distance between a #legally required window# and a #lot line#, as set forth in Section 23-86 (Minimum Distance Between Legally Required Windows and Walls or Lot Lines), inclusive, shall not apply where a #legally required window# is fronting upon a #public park# with an area of at least one-half acre.

78-311 - Authorizations by the City Planning Commission

LAST AMENDED
2/2/2011

When a #large-scale residential development# includes, or will include after subdivision, two or more #zoning lots#, the City Planning Commission may authorize:

(a) the total #floor area#, #lot coverage#, #dwelling units# or #rooming units# permitted by the applicable district regulations for all #zoning lots# within the #large-scale residential development# to be distributed without regard for #zoning# #lot lines#;

(b) the total #open space# required by the applicable district regulations for all #zoning lots# within the #large-scale residential development# to be distributed without regard for #zoning # #lot lines#, except that where subdivision is authorized in accordance with the provisions of Section 78-51 (General Provisions), the Commission, in authorizing such distribution may allow reductions in the minimum required #open space# on individual #zoning lots# only where adequate provision is made for common #open space# to serve such lots.

If the required #open space# on the roof of a #community facility building# has an equivalent access arrangement acceptable to the Commission, it may authorize modification of requirements set forth in paragraph (b) of the #open space# definition in Section 12-10;

(c) for #zoning lots# adequately served by common #open space#, the minimum required #lot area# as set forth in Section 23-10 (LOT AREA AND LOT WIDTH REGULATIONS) to be reduced, provided that any #residence# for which the minimum required #lot area# is so reduced shall be separated from all other #buildings# on the same or adjacent #zoning lots# by a distance consistent with the provisions of Section 23-371 (Standard minimum distance between buildings), or in cases where at least one of the #buildings# is a one-family or two-family #detached# or #semi-detached# house, rowhouse, or series of rowhouses, by a lesser

distance to be determined by the Commission;

(d) the location of #buildings# without regard for #yard# regulations which would otherwise apply along portions of #streets# or #lot lines# "wholly within" the #large-scale residential development# provided that any #building# for which required #rear# or #side yards# are reduced shall be separated from all other #buildings# with which it does not share a party wall, on the same or adjacent #zoning lots#, by a distance consistent with the provisions of Section 23-371 or, in cases where at least one of the #buildings# is a single-family or two-family #detached# or #semi-detached# house, rowhouse or series of rowhouses, by a lesser distance to be determined by the Commission, where the location of the #buildings# will not be detrimental to the privacy of the occupants of the #buildings# on the #block#;

(e) the location of #buildings# without regard for the height and setback regulations which would otherwise apply along portions of #streets# "wholly within" the #large-scale residential development# or along #side# or #rear lot lines# #abutting# other #zoning lots# within the #large-scale residential development#, provided that any #building# for which required rear or side setbacks are reduced shall be separated from all other #buildings# with which it does not share a party wall, on the same or adjacent #zoning lots#, by a distance consistent with the provisions of Section 23-371;

(f) the location of primary business entrances, #show windows# or #signs# along frontages which are adjacent only to other #zoning lots# within the #large-scale residential development#, without regard to restrictions applicable near #Residence District# boundaries, for the purpose of achieving better site planning and community planning;

(g) special directional #signs# and their location and design within a #large-scale residential development# comprising an area of at least five acres provided that their construction would result in better pedestrian and vehicular circulation. The Commission shall in each case give due consideration to the effect of such #signs# on the surrounding residential area and may impose appropriate conditions and safeguards;

(h) the location of #buildings# on a single #zoning lot# without regard for spacing between #buildings#, provided that the resultant spacing will not be reduced beyond an amount considered appropriate by the Commission and in no case by more than 15 percent of that required by Section 23-371.

For that portion of a #large-scale residential development# located in an R6 District, the Commission may authorize the permitted #floor area ratio# and required #open space ratio# to be determined on the basis of a #height factor# which is different than the actual #height factor# of such portion of the #large-scale residential development#, for the purpose of achieving better site planning and community planning.

When subdivision is authorized in accordance with the provisions of Section 78-51 and satisfactory provision is made for common #open space#, the Commission may consider such common #open space# in determining to what extent, if any, modifications of the #yard# regulations are justified.

For any #large-scale residential development#, the City Planning Commission may, upon application, authorize in R3, R4 and R5 Districts, modifications of the height and setback regulations set forth in Section 23-42 (Height and Setback Requirements in R1 Through R5 Districts) and paragraph (b) of Section 78-31 for #buildings# "wholly within" the #large-scale residential development# for the purposes of introducing variety or preserving natural features or view corridors.

78-312 - Special permits by the City Planning Commission

LAST AMENDED
2/2/2011

For any #large-scale residential development#, the City Planning Commission may permit:

(a) the total #floor area#, #lot coverage#, #dwelling units# or #rooming units# permitted by the applicable district regulations or by Sections 78-32 (Bonus for Good Site Plan) or 78-33 (Bonus for Common Open Space) for all #zoning lots# within the #large-scale residential development# to be distributed without regard for #zoning# #lot lines#;

(b) the total #open space# required by the applicable district regulations or by Sections 78-32 or 78-33 for all #zoning lots# within the #large-scale residential development# to be distributed without regard for #zoning# #lot lines# except that where subdivision is authorized in accordance with the provisions of Section 78-51 (General Provisions), the Commission, in authorizing such distribution may allow reductions in the minimum required #open space# on individual #zoning lots# only where adequate provision is made for common #open space# to serve such lots;

(c) minor variations in required #front# or #rear yards# on the periphery of such #large-scale residential development# for the purpose of introducing variety or preserving natural features;

(d) in R1 and R2 Districts, and in R6 through R12 Districts, minor variations in the front height and setback regulations on the periphery of such #large-scale residential development# for the purpose of introducing variety, preserving natural features, or providing for improved access of light and air, but within the general purpose and intent of the height and setback regulations. In R3, R4 or R5 Districts, the Commission may modify the height and setback regulations set forth in Section 23-42 (Height and Setback Requirements in R1 Through R5 Districts) and paragraph (b) of Section 78-31, on the periphery of such #large-scale residential development#, for the purposes of introducing variety, providing a transition in neighborhood scale between the #large-scale residential development# and surrounding #buildings#, preserving natural features or view corridors, or improving the access of light and air;

(e) variations in the location of primary business entrances, #show windows#, and #signs# along frontages adjacent to #zoning lots# outside the #large-scale residential development#, without regard to restrictions applicable near #Residence District# boundaries, for the purpose of

achieving better site planning and community planning. However, in no event shall the Commission allow such primary business entrances, #show windows# or #signs# to be located within 10 feet of the #Residence District# boundary; and

(f) modifications of the minimum spacing requirements consistent with the intent of the provisions of Section 23-371 (Standard minimum distance between buildings) and may authorize modifications of the spacing required by paragraphs (c), (d), (e) and (h) of Section 78-311 (Authorizations by the City Planning Commission).

78-313 - Findings

LAST AMENDED
10/25/1993

As a condition precedent to the granting of authorizations under the provisions of Section 78-311 (Authorizations by the City Planning Commission) or a special permit under the provisions of Section 78-312 (Special permits by the City Planning Commission), the Commission shall make the following findings:

(a) that such modifications will aid in achieving the general purposes and intent of this Chapter as set forth in Section 78-01 (General Purposes);

(b) that such distribution of #floor area#, #dwelling units#, #rooming units#, #open spaces#, locations of #buildings#, or location of primary business entrances, #show windows# or #signs# will permit better site planning and will thus benefit both the residents of the #large-scale residential development# and the City as a whole;

(c) that such distribution or location will not unduly increase the #bulk# of #buildings#, density of population, or intensity of #use# in any #block#, to the detriment of the occupants of

#buildings# in the #block# or nearby #blocks#;

(d) that such distribution or location will not affect adversely any other #zoning lots# outside the #large-scale residential development# by restricting access to light and air or by creating traffic congestion;

(e) where portions of the total required #open space# are pooled in common #open space# areas or common parking areas, that such common areas will, by location, size, shape and other physical characteristics, and by their relationship to surrounding development and the circulation system, permit realization of the full community service of advantages for which such pooled areas are designed;

(f) where one or more #zoning lots# in the #large-scale residential development# do not #abut# mapped #streets#, that suitable private access to mapped #streets# will be provided conforming to standards which will ensure adequate circulation and make adequate provision for public services; and

(g) the modification of height and setback will not impair the essential character of the surrounding area and will not have adverse effects upon the access to light, air and privacy of adjacent properties.

78-32 - Bonus for Good Site Plan

LAST AMENDED
2/2/2011

In R1-2, R2 or R3-1 Districts, including #Commercial Districts# mapped within such #Residence Districts#, for any #large-scale residential development#, the City Planning Commission, by special permit, may allow the #open space ratio# otherwise required for the #large-scale residential development# as a whole and for individual #zoning lots# therein to be reduced by not more than 10

percent, may allow the maximum number of #dwelling units# to be increased by not more than five percent, and may allow the maximum #residential# #floor area ratio# to be increased by not more than 7.5 percent, if the Commission finds that throughout the #large-scale residential development# the site plan provides a significantly better arrangement of the #buildings# in relation to one another and to their sites from the standpoints of privacy, access of light, organization of private #open spaces# and preservation of important natural features than would be possible or practical for a development comprised of similar types built in strict compliance with the applicable district regulations.

78-33 - Bonus for Common Open Space

LAST AMENDED
2/2/2011

In R3-1 Districts, including #Commercial Districts# mapped within such #Residence Districts#, for any #large-scale residential development#, the City Planning Commission, by special permit, may allow the #open space ratio# otherwise required for such #large-scale residential development# as a whole to be reduced by not more than 20 percent, may allow the maximum number of #dwelling units# to be increased by not more than 10 percent and may allow the maximum #residential# #floor area ratio# to be increased by not more than 15 percent, provided that:

(a) at least one acre or 20 percent of the total #open space#, whichever is more, is provided in common areas meeting the requirements of Section 78-52 (Common Open Space) and not used for off-street parking;

(b) the #large-scale residential development# qualifies for a bonus in accordance with the provisions of Section 78-32; and

(c) the Commission makes the findings required in Section 78-32 and in paragraph (e) of Section 78-313 (Findings).

Such authorizations shall be instead of, rather than in addition to, those which would be allowable under the provisions of Section 78-32.

78-34 - Special Permit Provisions for Certain Large-scale Developments

LAST AMENDED
6/6/2024

In R3-2, R4 and R5 Districts, or in #Commercial Districts# in which #residential buildings# are governed by the #bulk# regulations of such #Residence Districts#, for any #large-scale residential development#, the City Planning Commission, by special permit, may make modifications in the #open space ratio#, #residential# #floor area ratio# and density regulations, pursuant to the provisions of Section 78-35 (Special Bonus Provisions), if the Commission finds that:

(a) throughout the #large-scale residential development# the site plan provides a significantly better arrangement of the #buildings# in relation to one another and to their sites from the standpoints of privacy, access of light, organization of private #open spaces# and preservation of important natural features to a greater degree than would be possible or practical for a development composed of similar types built in strict compliance with the applicable district regulations;

(b) the public facilities and utilities in the area are adequate to meet the needs of the #large-scale residential development# or that needed additional facilities will be provided as a part of the #large-scale residential development# by the developer or owner;

(c) the #large-scale residential development# complies with the provisions of Section 78-351 (Common open space and good site plan); and

(d) a #large-scale residential development# having an area of four acres or more complies with the provisions of Section 78-352 (Bonus for community facility space).

If the Commission determines that a proposed #large-scale residential development# containing not more than 250 #dwelling units# does not require #community facility# space, finding (d) shall be waived and the provisions of Section 78-352 made inapplicable. In making its determination, the Commission shall give due consideration to a recommendation from the Community Board within which the proposed #large-scale residential development# is located.

If a site for a fire or police station is provided within the Community District in which a #large-scale residential development# is to be located, which site has been donated in fee to the City, selected as a site pursuant to Section 218 (Site Selection) of the New York City Charter and, if applicable, approved under the provisions of Section 74-141 (Fire or police stations), the Commission may waive finding (d), provided that the #community facility# requirements contained in Section 78-352 are determined to be unnecessary.

Any #large-scale residential development# which qualifies for a bonus in accordance with this Section and the applicable provisions of Section 78-35 shall be eligible for any modifications permitted under Sections 78-311 (Authorizations by the City Planning Commission) or 78-312 (Special permits by the City Planning Commission) provided the findings of Section 78-313 (Findings) are satisfied.

78-35 - Special Bonus Provisions

LAST AMENDED
3/8/1973

78-351 - Common open space and good site plan

The provisions of this Section shall not apply to any #zoning lot# subdivided to under four acres after January 1, 1972, nor to any #large-scale residential development# for which authorization has been granted by the City Planning Commission prior to July 31, 1972.

In R3-2 or R4 Districts, or in #Commercial Districts# in which #residential buildings# are governed by the #bulk# regulations of such #Residence Districts#, for any #large-scale residential development# which complies with the requirements of Section 78-34 (Special Permit Provisions for Certain Large-scale Developments), the permitted #residential# #floor area ratio#, required #open space ratio# and density regulations for the #large-scale residential development# as a whole may be modified as set forth in this Section. At least 25 percent of the total required #open space# is to be provided in common areas meeting the requirements of Section 78-52 (Common Open Space). No portion of such common #open space# is to be used for driveways or off-street parking. The findings required in paragraph (e) of Section 78-313 (Findings) are to be satisfied.

District	Maximum #Floor Area Ratio#	Minimum #Open Space Ratio#
R3-2	.60	125.0
R4	1.00	66.5

The maximum number of #dwelling units# shall equal the total #residential# #floor area# permitted divided by the applicable factor in Section 23-50 (DENSITY REGULATIONS).

In R5 Districts, or in #Commercial Districts# in which #residential buildings# are governed by the #bulk# regulations of such #Residence Districts#, at least 25 percent of the total required #open space# is to be provided in common areas that meet the requirements of Section 78-52. No portion of

such common #open space# is to be used for driveways or off-street parking. All findings required in paragraph (c) of Section 78-313 are to be satisfied.

78-352 - Bonus for community facility space

LAST AMENDED
2/2/2011

In R3-2, R4 and R5 Districts, or in #Commercial Districts# in which #residential buildings# are governed by the #bulk# regulations of such #Residence Districts#, for any #large-scale residential development# which complies with the provisions of Section 78-34 (Special Permit Provisions for Certain Large-scale Developments), the permitted #residential# #floor area ratio#, required #open space ratio#, and required #floor area# per #dwelling unit# for the #large-scale residential development# as a whole may be modified as set forth in this Section, provided floor space for #community facility# #use# and/or a program for improvement and maintenance for parks not included in the City capital budget is provided as required in paragraph (b) of this Section.

(a) Permitted #Floor Area Ratio# and Required #Open Space Ratio#:

District	Maximum #Floor Area Ratio#	Minimum #Open Space Ratio#
R3-2	.70	102.0

R4	1.15	54.7
R5	1.45	37.7

The maximum number of #dwelling units# shall equal the total #residential# #floor area# permitted divided by the applicable factor in Section 23-50 (DENSITY REGULATIONS).

(b) There shall be at least 15 square feet of #community facility# floor space for each #dwelling unit# within the #large-scale residential development# and/or a substantial park area located adjacent to or within a reasonable distance from the #large-scale residential development#. Such space shall be used for #schools# where the need is certified by the Board of Education and where the Board agrees to lease such space at no cost. Otherwise such space shall be allocated for one or more #uses# as specified in this Section where the need for such space has been certified by the City Planning Commission and a City Department agrees to lease such space at no cost. If such certification and agreement are not obtained in either case, the Commission shall approve any private #community facility# proposed to be rented or maintained by the developer, or the homeowners' association or other entity owning the common elements of the #large-scale residential development#. In no case shall the size of an individual #use# be less than the amount set forth in this Section.

#Community Facility#	Size (in square feet)
Day care center	3,000
Ambulatory care center	10,000

Library	7,500
Senior citizen center	3,750
Community center	2,000
Indoor recreation center	2,000

In the case of a program for improvement and/or maintenance for parks which is eligible for a bonus pursuant to this Section, comparable improvements and maintenance costs for an equivalent amount of the required #community facility# space shall be incurred.

(c) In no event shall the total #floor area# for any #development# constructed pursuant to the Provisions Section exceed the maximum #floor area ratio# for #community facility# #uses# permitted by the applicable district regulations.

78-353 - Bonus for enclosed parking

LAST AMENDED
12/6/2023

In R4 or R5 Districts, or in #Commercial Districts# in which #residential buildings# are governed by the #bulk# regulations of such #Residence Districts#, for any #large-scale residential development# which complies with the provisions of Section 78-34 (Special Permit Provisions for Certain Large-scale Developments), the permitted #residential# #floor area ratio# may be increased over the amount earned by other provisions of Section 78-35 (Special Bonus Provisions) and the required #open space ratio# for the #large-scale residential development# as a whole correspondingly decreased as set forth

in this Section provided that at least two-thirds of the required off-street parking is enclosed.

District	Increase in #Floor Area Ratio#	Decrease in #Open Space Ratio#
R4	.25	14.5
R5	.25	10.0

For any #large-scale residential developments# comprising #buildings# of not more than four #stories# receiving a bonus under this Section, the Commission may modify where appropriate the requirements of Section 23-734 (Permitted obstructions in open space).

78-40 - OFF-STREET PARKING REGULATIONS

LAST AMENDED
8/24/1967

78-41 - Location of Accessory Parking Spaces

LAST AMENDED
2/2/2011

When a #large-scale residential development# includes, or will include after subdivision, two or more #zoning lots#, the City Planning Commission may, upon application, authorize permitted or required

#accessory# off-street parking spaces or bicycle parking spaces to be located anywhere within the #large-scale residential development# without regard for #zoning# #lot lines#, provided that in each case the Commission shall make the following special findings:

(a) that such off-street parking spaces or bicycle parking spaces will be conveniently located in relation to the #use# or #uses# to which such spaces are #accessory#;

(b) that such location of the off-street parking spaces or bicycle parking spaces will permit better site planning and will thus benefit both the owners, occupants, employees, customers, residents or visitors of the #large-scale residential development# and the City as a whole; and

(c) that such location of the off-street parking spaces or bicycle parking spaces will not increase the number of spaces in any single #block# or the traffic drawn through any one or more of the nearby local #streets# in such measure as to affect adversely other #zoning lots# outside the #large-scale residential development# or traffic conditions in the surrounding area.

Whenever required off-street parking spaces or bicycle parking spaces are authorized to be located without regard for #zoning# #lot lines# in accordance with the provisions of this Section, the number of spaces required for each #building# or #use# shall be kept available for such #building# or #use# throughout its life. Whenever any #zoning lot# within such a #large-scale residential development# is subdivided into two or more #zoning lots#, such subdivision shall be subject to the provisions of Section 78-51 (General Provisions).

78-42 - Parking Regulations for Commercial and Community Facility Uses

LAST AMENDED
2/2/2011

For #large-scale residential developments# in R3-2 Districts, R4 through R12 Districts, and #Commercial Districts# mapped within, or with a #residential equivalent# of, such districts, the City

Planning Commission may, by special permit, waive the requirements for off-street parking spaces #accessory# to any #commercial# or #community facility# #use# included in such #large-scale residential development# and intended primarily for the use of its residents.

78-43 - Modification for Open Space Requirements in Large-scale Developments

LAST AMENDED
2/2/2011

For all #large-scale residential developments# in R5, R6, R7, R8 or R9 Districts, or in #Commercial Districts# in which #residences# are governed by the #bulk# regulations of such #Residence Districts#, the City Planning Commission may modify the requirement for #open space# as set forth in the definition of #open space# in Section 12-10 (DEFINITIONS) by allowing parking space on the roofs of parking garages not #abutting# another #building# and not more than 23 feet in height above #curb level#, to count as #open space# and by not requiring connections from such roofs to ground level by exterior passageways or ramps, provided that the following findings are made:

(a) that the total area occupied by driveways, private streets, or open #accessory# off-street parking spaces in all areas claimed as common or private #open space# throughout the #large-scale residential development# shall not exceed 40 percent of the total required #open space# for the #large-scale residential development#; and

(b) that such arrangement and use of #open space# results in better site planning and community planning.

78-44 - Modification of Curb Cut Regulations

LAST AMENDED

2/2/2011

The City Planning Commission may, upon application, authorize modification of the requirements set forth in Section 25-631 (Location and width of curb cuts in certain districts), provided the Commission finds that the proposed location and width of curb cuts:

(a) results in a more efficient traffic circulation system;

(b) permits better site planning; and

(c) does not unduly increase the amount of traffic on nearby local #streets# so as to adversely affect #zoning lots# outside the #large-scale residential development#.

78-50 - SUBDIVISION OF LARGE-SCALE RESIDENTIAL DEVELOPMENTS

LAST AMENDED
8/24/1967

78-51 - General Provisions

LAST AMENDED
2/2/2011

A #large-scale residential development# may be subdivided before, during or after #development# into two or more #zoning lots# which may be in different ownerships, provided that either:

(a) all resulting #zoning lots# and all #buildings# thereon comply with all the applicable regulations of this Resolution;

(b) such subdivision conforms to a subdivision plan which was included as part of the application for authorizations or special permits under the provisions of this Chapter and whose execution has been authorized in the grant of such authorizations or special permits; or

(c) such subdivision is made necessary by forced sale or foreclosure of a portion of such #large-scale residential development#, but can be accommodated to any authorization or special permit granted pursuant to the provisions of this Chapter.

All #zoning lots# resulting from such subdivisions shall be subject to all the applicable regulations of this Resolution or, in the case of a #large-scale residential development# for which any modifications were granted in accordance with the provisions of this Chapter, shall be subject to the terms, conditions and limitations of the #large-scale residential development# plan as approved.

In any subdivision of a #large-scale residential development# for which such modifications were granted, covenants running with the land which shall permit of public or private enforcement, reflecting the terms, conditions and limitations of the #large-scale residential development# plan, as approved, shall be incorporated in the deed to each parcel conveyed.

Such subdivision may result in commonly or separately owned common #open space# or common parking areas, as set forth in Sections 78-52 (Common Open Space) or 78-53 (Common Parking Areas).

78-52 - Common Open Space

LAST AMENDED
2/2/2011

An area designated on the site plan of a #large-scale residential development# as "common #open space#" and on the subdivision plan as an area to be held in separate ownership for the use and benefit

of residents occupying specified #zoning lots# shown on such subdivision plan may be approved as part of such subdivision plan, provided that it meets the following requirements:

(a) it shall be conveniently accessible to all residents of #zoning lots# for which it is intended to satisfy the #open space# requirements;

(b) it shall be made available in its improved state as set forth on the site plan in accordance with an approved time schedule;

(c) it shall be maintained in accordance with an approved maintenance plan specifying what such maintenance shall consist of, whose responsibility it shall be, and assuring satisfactory execution of maintenance;

(d) provisions to ensure its continuing availability shall be included in the covenants to be incorporated in the deed to each parcel to be served by such common #open space#;

(e) it shall be entirely at natural grade level or at the principal level of pedestrian circulation in adjacent areas;

(f) it may contain only such obstructions as are specifically permitted under the provisions of Section 23-734 (Permitted obstructions in open space) or minor #accessory# structures, and the total area occupied by driveways, private streets or open #accessory# off-street parking spaces in all areas claimed as common or private #open space# throughout the #large-scale residential development#, shall not exceed 50 percent of the total required #open space# for the #large-scale residential development#; and

(g) such #open space# shall include both active and passive recreation space providing a range of recreational facilities and activities appropriate to the occupants of the #large-scale residential development#. Such space shall be physically and visually accessible to the occupants and shall be screened from unsuitable areas. Passive recreation space shall be landscaped and shall be located in areas other than access and egress spaces. Active recreation facilities, such as play equipment, court game facilities, or ball fields, shall be designed to provide the maximum

possible area appropriate to the size of the #large-scale residential development#.

The approval of a subdivision plan which includes common #open space# shall be conditioned upon a finding that these requirements are met.

78-53 - Common Parking Areas

LAST AMENDED
2/2/2011

An area designated on the site plan of a #large-scale residential development# as "common off-street parking area" and on the subdivision plan as an area to be held in separate ownership for use by the occupants or visitors of specified #zoning lots# shown on such subdivision plan may be approved as part of such subdivision plan, provided that it shall meet the following requirements:

(a) it shall be made available in its improved state as set forth in the site plan in accordance with an approved time schedule;

(b) it shall be maintained in accordance with an approved maintenance plan specifying what such maintenance shall consist of, whose responsibility it shall be, and assuring satisfactory execution of maintenance; and

(c) provisions to ensure its continuing availability shall be included in the covenants to be served by such common off-street parking area.

The approval of a subdivision plan which includes common off-street parking areas shall be conditioned upon a finding that these requirements are met.

Chapter 9 - Special Regulations Applying to Large-Scale Community Facility Developments

File generated by https://zr.planning.nyc.gov on 6/23/2026

Chapter 9 - Special Regulations Applying to Large-Scale Community Facility Developments

79-00 - DEFINITIONS

LAST AMENDED
11/19/1987

Words in italics are defined in Section 12-10 (DEFINITIONS) or, if applicable exclusively to this Chapter, in this Section.

79-10 - GENERAL PROVISIONS

LAST AMENDED
8/24/1967

79-11 - Applicability of This Chapter

LAST AMENDED
2/2/2011

#Large-scale community facility developments# are governed by all the #use#, #bulk#, off-street parking and loading, and other applicable regulations of this Resolution, except for such special provisions as are specifically set forth in this Chapter. Such special provisions are designed to deal with problems which arise only in connection with #large-scale community facility developments# and

apply only to such #large-scale community facility developments# as set forth herein.

#Large-scale community facility developments# within the #waterfront area# shall be subject to the provisions of Section 62-132 (Applicability of Article VII, Chapters 4, 8 and 9).

79-12 - Permitted Uses

LAST AMENDED
1/25/1968

A #large-scale community facility development# may include within its area any #community facility# #uses#, #residential uses# or #commercial# #uses# permitted in the district or districts in which it is located.

79-20 - BULK REGULATIONS

LAST AMENDED
8/24/1967

79-21 - General Provisions

LAST AMENDED
2/2/2011

When a #large-scale community facility development# includes two or more #zoning lots# which are contiguous or would be contiguous but for their separation by a #street#, the City Planning

Commission may, in appropriate cases, upon application, authorize the permitted #floor area#, #lot coverage#, #dwelling units# or #rooming units#, or the required #open space# for all #zoning lots# within the #large-scale community facility development#, to be distributed without regard for #zoning# #lot lines#, may modify the minimum required distance between #buildings# as set forth in Section 23-371 (Standard minimum distance between buildings), provided such reduction does not exceed 15 percent of that required by such provisions, may authorize the location of #buildings# without regard for #front yard# or height and setback regulation which would otherwise apply along portions of #streets# wholly within the #large-scale community facility development# and, further, may authorize the location of #community facility buildings# without regard to #side# or #rear yard# regulations which would otherwise apply along portions of #lot lines# #abutting# other #zoning lots# within the #large-scale community facility development#.

As a condition of granting such authorizations, in each case the Commission shall make the following special findings:

(a) that such distribution or location will permit better site planning and will thus benefit both the residents, occupants or users of the #large-scale community facility development# and the City as a whole;

(b) that such distribution or location will not unduly increase the #bulk# of #buildings# in any #block#, to the detriment of the occupants or users of #buildings# in the #block# or nearby #blocks#; and

(c) that such distribution or location will not affect adversely any other #zoning lots# outside the #large-scale community facility development# by restricting access to light and air or by creating traffic congestion.

In R9 through R12 Districts, and in C1 or C2 Districts mapped within, or with a #residential equivalent# of such districts, #floor area# bonuses for #public plazas# or #arcades# permitted in accordance with the applicable district regulations shall apply only to a #development# or #enlargement# with 25 percent or less of the total #floor area# of the #building# in #residential use#.

In R9 through R12 Districts, and in C1 or C2 Districts mapped within, or with a #residential equivalent# of such districts, no existing #publicly accessible open area#, #arcade# or other public amenity, open or enclosed, for which a #floor area# bonus has been received pursuant to regulations prior to February 9, 1994, shall be eliminated or reduced in size except by special permit, pursuant to Section 74-761 (Elimination or reduction in size of bonused public amenities).

79-30 - PARKING REGULATIONS

LAST AMENDED
8/24/1967

79-31 - Location of Parking Spaces

LAST AMENDED
2/2/2011

When a #large-scale community facility development# includes two or more #zoning lots#, the City Planning Commission may, upon application, authorize permitted or required #accessory# off-street parking spaces or bicycle parking spaces to be located anywhere within the #large-scale community facility development# without regard for #zoning# #lot lines#, provided that in each case the Commission shall make the following special findings:

(a) that such off-street parking spaces or bicycle parking spaces will be conveniently located in relation to the #use# or #uses# to which such spaces are #accessory#;

(b) that such location of the off-street parking spaces or bicycle parking spaces will permit better site planning and will thus benefit both the owners, occupants, employees, customers,

residents or visitors of the #large-scale community facility development# and the City as a whole; and

(c) that such location of the off-street parking spaces or bicycle parking spaces will not increase the number of spaces in any single #block# or the traffic drawn through any one or more of the nearby local #streets# in such measure as to affect adversely other #zoning lots# outside the #large-scale community facility development# or traffic conditions in the surrounding area.

Whenever required off-street parking spaces or bicycle parking spaces are authorized to be located without regard for #zoning# #lot lines# in accordance with the provisions of this Section, the number of spaces required for each #building# or #use# shall be kept available for such #building# or #use# throughout its life.

79-32 - Location of Loading Berths

LAST AMENDED
2/2/2011

When a #large-scale community facility development# includes two or more #zoning lots#, the City Planning Commission may, upon application, authorize permitted required #accessory# loading berths to be located anywhere within the #large-scale community facility development# without regard for #zoning# #lot lines#, provided that in each case the Commission shall make the following special findings:

(a) that such loading berths will be appropriately located in relation to the #use# or #uses# to which such berths are #accessory# so as to permit better site planning and will thus benefit the owners, occupants, employees, residents or visitors to the #large-scale community facility development# and the City as a whole;

(b) that such loading berths will be accessible to all the #uses# in the #large-scale community facility development# without the need to cross any #wide street# at grade;

(c) that the location of such loading berths will not unduly affect the movement of pedestrians or vehicles on the #streets# within or surrounding such #large-scale community facility development#; and

(d) that the loading berths comply with all other applicable district regulations.

79-40 - SPECIAL PERMIT PROVISIONS

LAST AMENDED
7/19/1973

79-401 - Special permit for development over streets

LAST AMENDED
2/2/2011

In a #large-scale community facility development# containing #schools#, hospitals or functionally related facilities in R6 or R7-1 Districts, in C1 or C2 Districts mapped within such #Residence Districts#, when the air space above a #narrow street# or portion thereof is closed and demapped, the City Planning Commission may, by special permit, allow the demapped air space to be considered as part of the adjoining #zoning lots# constituting a single #zoning lot#, and may allow within such demapped air space the #development# or #enlargement# of a #building# which is a necessary expansion of an existing #school#, hospital or functionally related facility located on adjoining #zoning lots#. As a condition for granting a permit for such #building#, or portion thereof, within the

demapped air space, the Commission shall find:

(a) that there is a Master Plan for institutional development which demonstrates that the #building# over the #street# is necessary to avoid or minimize demolition of existing facilities, or #buildings designed for residential use#, and expansion on existing #zoning lots# owned by the #community facility# is not feasible to meet its expansion needs;

(b) that the location of such #building#, or portion thereof, will not impair the existing residential character of the area;

(c) that such #building#, or portion thereof, utilizes only unused #floor area# from adjoining #zoning lots# and no #floor area# credit is received from the demapped air space, and such #building# complies with the off-street parking and loading requirements of the underlying district or districts;

(d) that such #building#, or portion thereof, is contained entirely within the buildable area of the air space plane as defined in this Section, conforms with the height and setback regulations set forth in this Section, is no more than 200 feet in length and is the only such #building# on a #block# front;

(e) that such #building#, or portion thereof, links the #zoning lots# across the #street#, in the same ownership, with adequate clearance above the #street# bed, and there is no intrusion on the existing #street#, including column supports;

(f) that all #street# frontages of the #zoning lots# under such #building#, or portion thereof, are provided with fenestration or natural light along at least 75 percent of such frontages, and such #street# frontages when #developed# with #uses# other than open area, contain only #uses# requiring human occupancy such as amusement, education, dining, shopping and other similar #uses# permitted by the underlying district regulations; that the main entrance for principal pedestrian access to the #development# is located along the #street# frontages under such #building# and that no storage rooms, mechanical equipment rooms, parking and

loading facilities or curb cuts are located along such #street# frontage unless authorized by the Commission;

(g) that a satisfactory lighting and ventilation plan consistent with current environmental standards is provided for the #development#; and

(h) that an additional amount of #open space# for public use at #street# level, linked with the pedestrian circulation system of the area, equivalent to the #street# area covered by such #building#, is provided within 1,000 feet of the #building# and such #open space# maintained as usable public area in the ownership of the applicant.

#Curb levels# of the pre-existing #zoning lots# shall not be affected by the closing and demapping of air space over such #street#.

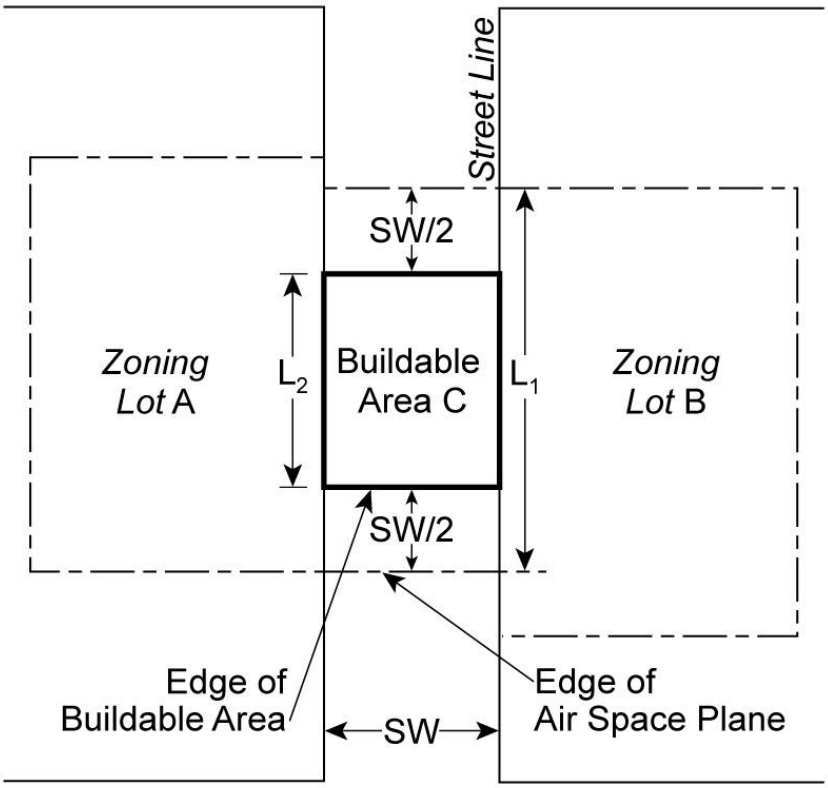
The Commission may impose additional conditions and safeguards to improve the quality of the development and minimize adverse effects on the character of the surrounding area.

For the purposes of paragraph (d) of this Section:

Air space plane is a plane above a #narrow street# located at the same elevation as the lower limiting plane of a volume of #street# eliminated, discontinued and closed by the Board of Estimate, or its successors. The length "L1" of such air space plane is the length of the common lot frontage of two #zoning lots# opposite and across the #street# in the same ownership and its width is the width of the #narrow street# "SW" (See illustration of Required Setback for the Buildable Area).

The buildable area "C" is the lower limiting plane of the volume of #street# eliminated, discontinued and closed by the Board of Estimate, or its successors, except that in no case shall the edge of the buildable area be closer to the edge of the air space plane by a distance equal to one half the #street# width "SW/2" (See illustration of Required Setback for the Buildable

Area).



SW - Width of a *narrow street*

SW/2 - Minimum required setback for the buildable area from the edge of air space plane

L_1 - Length of common lot frontage of two *zoning lots* across a *narrow street*

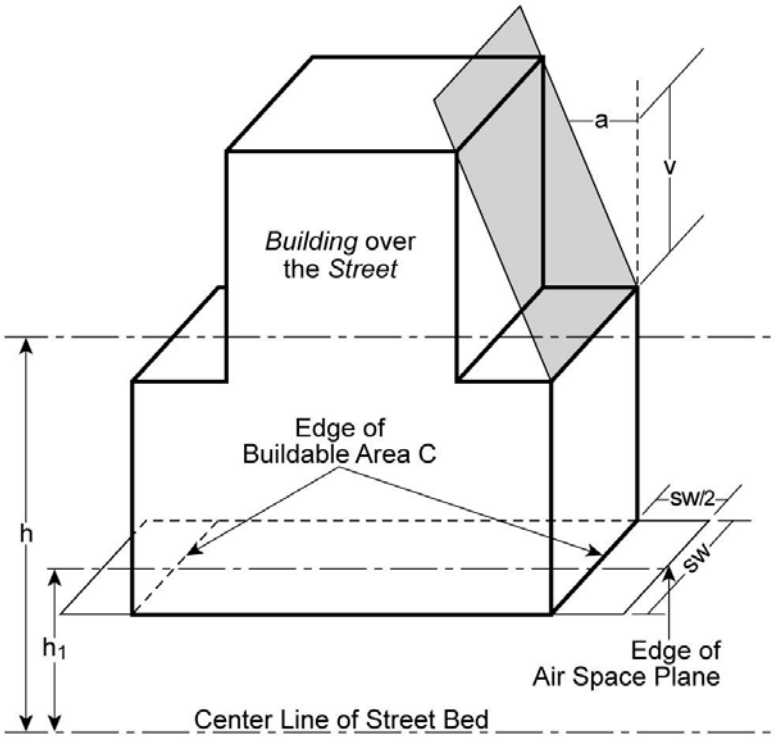
L_2 - Permissible length of the buildable area for a *building* over the *street*

REQUIRED SETBACK FOR THE BUILDABLE AREA

The #building# over the #street# shall comply with the height and setback regulations of this Section and the buildable area shall be completely covered by such #building#, except that such #building# may be set back from the edge of the buildable area which traverses the #street# provided that such setback area is open and obstructed from the lowest level of the #street# to the sky.

The #development# or #enlargement# of such #building# on the buildable area of the air space plane shall comply with the following #sky exposure plane# regulations (See illustration of Required Sky Exposure Plane):

Height above #street# bed (in feet)	#Sky Exposure Plane# Slope over buildable area (expressed as a ratio of vertical distance to horizontal distance)		District
	Vertical Distance	Horizontal Distance	
60	2.7	to 1	R6 R7-1 C1 C2



a - Horizontal distance

v - Vertical distance

h - Height of *sky exposure plane* above center line of street bed

h_1 - Required clearance above center line of street bed for a *building* over the *street*

$h–h_1$ - (h minus h_1) Maximum permissible height of vertical wall of a *building* over the *street* along the edge of a buildable area

SW - Width of a *narrow street*

SW/2 - Minimum required setback for the buildable area from the edge of air space plane

Sky exposure plane

REQUIRED SKY EXPOSURE PLANE

The height of the vertical wall or any other portion of a #building# over the #street#, shall not penetrate the #sky exposure plane#.

The #sky exposure plane# shall be measured from a point above the edge of the buildable area which traverses the #street#.

79-402 - Special permit for development of bridges over streets

LAST AMENDED
2/2/2011

In a #large-scale community facility development# containing hospitals or functionally related facilities in Manhattan Community Board 12, when the air space above a #wide street#, or portion thereof, is closed and demapped, the City Planning Commission may, by special permit, allow the #development# in such demapped air space of an enclosed bridge or bridges to connect #buildings# within the #large-scale community facility development#. As a condition for granting a permit for #development# of such bridges, the Commission shall find that:

(a) such bridge or bridges are essential to internal circulation of the medical function of the health care facility;

(b) such bridge or bridges shall not rest upon columns or other supports which intrude upon the #street#;

(c) the width of each such bridge shall not exceed 20 feet;

(d) such bridge within the demapped air space utilizes only #floor area# derived from the adjoining #zoning lots# and that no #floor area# credit is generated from the demapped air space;

(e) illumination of at least five foot candles is provided at the #curb level# of such bridge or bridges;

(f) such bridge in demapped air space over a #wide street# adjoins #zoning lots# wholly within the #large-scale community facility development#;

(g) the minimum horizontal distance between the nearest edges of two such bridges traversing the same #street# shall be two times the width of the #street#;

(h) the maximum exterior height of each such bridge shall not exceed 12 feet;

(i) the benefit gained from the bridge or bridges resulting from the #bulk# design or placement of such bridge or bridges outweighs any adverse impact on neighborhood character and any restriction of access to light and air to surrounding public spaces and #streets#; and

(j) a landscaped open area for public use at #street# level, linked with the pedestrian circulation system, which is at least equivalent to the #street# area covered by the bridge is provided in one location within the #large-scale community facility development# and such open area is maintained with planting and seating facilities by the owner of the #large-scale community facility development# or the owner's designee.

The City Planning Commission may prescribe appropriate conditions and safeguards to minimize the effect of the bridges, including but not limited to clearance above the #street# and surfacing materials of the bridge.

79-41 - Special Permit for Change of Community Facility Use

LAST AMENDED
10/10/1974

For #large-scale community facility developments# previously approved by the City Planning Commission, the Commission may, by special permit, allow a change of #community facility# #use# to a #residential use# subject to the applicable district regulations.

For the purpose of this special permit, such change of #use# shall be deemed not to alter the status and previous authorizations relating to the #large-scale community facility development#.

As a condition precedent to the grant of such special permit, the Commission shall find:

(a) that such #community facility# #use# does not provide essential services to the community at large; and

(b) that such #community facility# #use# has been actively operated as a #community facility# # use# for a period not less than five years following Commission approval of the #large-scale community facility development# or was actively operated as a #community facility# #use# prior to Commission approval of the #large-scale community facility development#.

79-42 - Special Permit for Non-profit Hospital Staff Dwelling Buildings

LAST AMENDED
6/6/2024

For #non-profit hospital staff dwellings# in #large-scale community facility developments# in Manhattan Community Board 8, the City Planning Commission, may by special permit, allow:

(a) Temporary occupancy of #dwelling units# by outpatients of the non-profit or voluntary hospital or by families visiting hospitalized patients provided the following findings are made:

(1) that the density and transient nature of the population housed in such #dwelling units# will not impair the essential character, future use or development of the surrounding area; or impair the security of the hospital staff residing in the #building#;

(2) that such occupancy will neither create nor contribute to serious traffic congestion and will not unduly inhibit surface traffic and pedestrian flow; and

(3) that the number of such #dwelling units# so occupied is less than 50 percent of the total number of #dwelling units# in the #building#.

(b) Ambulatory diagnostic or treatment health care facilities listed in Use Group III(B) on the third floor of such #buildings# in C1 Districts, provided the following findings are made:

(1) that such facilities are used exclusively for staff of, or staff affiliated with, the non-profit or voluntary hospital;

(2) that such occupancy will neither create nor contribute to serious traffic congestion and will not unduly inhibit surface traffic and pedestrian flow;

(3) that such #use# will not impair the essential character, future use or development of the surrounding area;

(4) that such #use# will not produce any adverse effects which interfere with the appropriate use of land in the districts or in any adjacent district; and

(5) that separate access to the outside is provided.

The City Planning Commission may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area.

79-43 - Special Permit for Limited Bulk Modifications for Certain Large-scale Community Facility Developments

LAST AMENDED
9/26/2024

For #large-scale community facility developments# located within the boundaries of Community Districts 8 and 12 in the Borough of Manhattan, that contain #community facility uses# specified in Section 73-64 (Modification for Community Facility Uses), the City Planning Commission may, by special permit, allow modifications to the following provisions set forth in paragraph (a) of this

Section, provided that the findings in paragraph (b) are met.

(a) The Commission may allow modifications:

(1) to regulations relating to height and setback on the periphery of the #large-scale community facility development#, #courts# and distance between windows and walls or #lot lines# not otherwise allowed in Section 79-21 (General Provisions); and

(2) additionally, in R9 and R10 Districts, located within Community District 8:

(i) to #lot coverage#; and

(ii) to #sign# regulations.

(b) In order to grant such special permit, the Commission shall find that such modification:

(1) is required in order to enable the #large-scale community facility development# to provide an essential service to the community;

(2) will provide a more satisfactory physical relationship to the existing #buildings# which form the #large-scale community facility development#, and provide a more efficient and integrated site plan;

(3) will better complement the existing character of the neighborhood;

(4) will not unduly increase the #bulk# of #buildings# in any #block# to the detriment of the occupants or users of #buildings# in the #block# or nearby #blocks#; will not adversely affect any other #zoning lots# or #streets# outside the #large-scale community facility development# by unduly restricting access to light and air; and

(5) in R9 and R10 Districts located within Community District 8:

(i) with regard to #lot coverage#, will result in a better site plan and a better relationship among #buildings# and open areas; and

(ii) with regard to #sign# modifications:

(a) a signage plan has been submitted showing the location, size, height, and illumination of all #signs# on the #zoning lot#;

(b) the modifications are consistent with the amount and location of the #large-scale community facility development# that the Commission finds appropriate on the #zoning lot#; and

(c) #illuminated signs#, if provided:

(a) utilize an illumination type, and are located and oriented in a manner so as to minimize any negative effects on nearby #residences#; and

(b) do not alter the essential character of the adjacent area.

The Commission may prescribe additional conditions and safeguards to improve the quality of the #large-scale community facility development# and to minimize adverse effects on the character of the surrounding area.

79-44 - Lapse of Authorization or Special Permit

LAST AMENDED

Any authorization or special permit granted by the City Planning Commission pursuant to this Chapter shall automatically lapse if substantial construction has not been completed as set forth in Section 11-42 (Lapse of Authorization or Special Permit Granted by the City Planning Commission Pursuant to the 1961 Zoning Resolution). For any renewal of such authorization or special permit, the provisions of Section 11-43 (Renewal of Authorization or Special Permit) shall apply.

Chapter 1 - Special Midtown District (MiD)

File generated by https://zr.planning.nyc.gov on 6/23/2026

Chapter 1 - Special Midtown District (MiD)

81-00 - GENERAL PURPOSES

LAST AMENDED
8/9/2017

The "Special Midtown District" established in this Resolution is designed to promote and protect public health, safety and general welfare. These general goals include, among others, the following specific purposes:

(a) to strengthen the business core of Midtown Manhattan by improving the working and living environments;

(b) to stabilize development in Midtown Manhattan and provide direction and incentives for further growth where appropriate;

(c) to control the impact of buildings on the access of light and air to the streets and avenues of Midtown;

(d) to link future Midtown growth and development to improved pedestrian circulation, improved pedestrian access to rapid transit facilities, and avoidance of conflicts with vehicular traffic;

(e) to preserve the historic architectural character of development along certain streets and avenues and the pedestrian orientation of ground floor uses, and thus safeguard the quality that makes Midtown vital;

(f) to continue the historic pattern of relatively low building bulk in midblock locations compared to avenue frontages;

(g) to improve the quality of new development in Midtown by fostering the provision of specified public amenities in appropriate locations;

(h) to preserve, protect and enhance the character of the Theater Subdistrict as the location of the world's foremost concentration of legitimate theaters and an area of diverse uses of a primarily entertainment and entertainment-related nature;

(i) to strengthen and enhance the character of the Eighth Avenue Corridor and its relationship with the rest of the Theater Subdistrict and with the Special Clinton District;

(j) to create and provide a transition between the Theater Subdistrict and the lower-scale Clinton community to the west;

(k) to preserve, protect and enhance the scale and character of Times Square, the heart of New York City's entertainment district, and the Core of the Theater Subdistrict, which are characterized by a unique combination of building scale, large illuminated signs and entertainment and entertainment-related uses;

(l) to preserve, protect and enhance the character of Fifth Avenue as the showcase of New York and national retail shopping;

(m) to preserve the midblock area north of the Museum of Modern Art for its special contribution to the historic continuity, function and ambience of Midtown;

(n) to protect and strengthen the economic vitality and competitiveness of the East Midtown Subdistrict by facilitating the development of its exceptional and sustainable buildings and enabling improvements to the pedestrian and mass transit circulation network;

(o) to ensure that development within the East Midtown Subdistrict occurs on sites that meet sound site planning criteria and therefore can accommodate additional density as appropriate;

(p) to protect and strengthen the role of landmark buildings as important features of the East Midtown Subdistrict;

(q) to protect and enhance the role of Grand Central Terminal as a major transportation hub within the City, to expand and enhance the pedestrian and mass transit circulation network connecting Grand Central Terminal to surrounding development, to minimize pedestrian congestion and to protect the surrounding area's special character;

(r) to expand the retail, entertainment and commercial character of the area around Pennsylvania Station and to enhance its role as a major transportation hub in the city;

(s) to provide freedom of architectural design within limits established to assure adequate access of light and air to the street, and thus to encourage more attractive and economic building forms without the need for special development permissions or "negotiated zoning"; and

(t) to promote the most desirable use of land and building development in accordance with the District Plan for Midtown and thus conserve the value of land and buildings and thereby protect the City's tax revenues.

81-01 - Definitions

LAST AMENDED
6/6/2024

For purposes of this Chapter, matter in italics is defined in Sections 12-10, 32-301, 81-261, 81-271 or 81-613 (Definitions).

81-02 - General Provisions

LAST AMENDED
8/9/2017

81-021 - Applicability of underlying district regulations

LAST AMENDED
10/7/2021

Except as modified by the express provisions of this Chapter, the regulations of the underlying districts remain in effect.

The regulations of the districts set forth below are applicable in the following Midtown districts unless modified by this Chapter:

Midtown Districts	Districts Whose Regulations Apply
C5P C5-2.5	C5-2
C6-4.5	C6-4
C6-5.5	C6-5

C6-6.5	C6-6
C6-7T	C6-7

For #transit-adjacent sites# or #qualifying transit improvement sites#, as defined in Section 66-11 (Definitions), in the event of a conflict between the provisions of this Chapter and the provisions of Article VI, Chapter 6 (Special Regulations Applying Around Mass Transit Stations), the provisions of Article VI, Chapter 6 shall control.

81-022 - Applicability of Special Transit Land Use District regulations

LAST AMENDED
10/7/2021

Except as otherwise provided in paragraphs (a), (b) or (c) of this Section, wherever the #Special Transit Land Use District# includes an area which also lies within the #Special Midtown District#, as designated on the #zoning map# by the letters "MiD-TA", the requirements of the #Special Transit Land Use District#, as set forth in Article IX, Chapter 5, shall apply.

(a) However, the requirements of Article IX, Chapter 5, shall be waived where the City Planning Commission certifies, in the case of a specific #development# otherwise subject to those requirements, that:

(1) the developer has agreed in a writing recorded against the property to implement a plan approved by the Commission and New York City Transit for off-street relocation of a subway stair entrance, in accordance with the requirements of Section

81-46 (Off-street Relocation or Renovation of a Subway Stair); or

(2) the developer has agreed in a writing recorded against the property to implement a plan approved by the Commission and New York City Transit for the provision of a #mass transit station# improvement in accordance with the provisions of Section 66-51 (Additional Floor Area for Mass Transit Station Improvements).

(b) Where the requirements of Article IX, Chapter 5, are not waived, modifications of the underlying district #bulk# regulations as set forth in this Chapter shall prevail over any inconsistent #bulk# regulations in Article IX, Chapter 5.

(c) In the East Midtown Subdistrict, the provisions of paragraph (c) of Section 81-673 (Mass transit access) shall supersede the provisions of Sections 95-031 (Selection of transit easement) and 95-052 (Special access facilities for persons with disabilities).

81-023 - Applicability of Special Clinton District regulations

LAST AMENDED
8/6/1998

Wherever the #Special Midtown District# includes an area which also lies within the #Special Clinton District#, the regulations of the #Special Clinton District# as set forth in Article IX, Chapter 6, shall also apply. In the event of any conflict or discrepancy between the regulations, the more restrictive regulations shall apply in accordance with Section 11-22 (Application of Overlapping Regulations).

The portion of the #Special Clinton District# within the #Special Midtown District# includes the area bounded by a line 150 feet west of Eighth Avenue, West 45th Street, Eighth Avenue and West 42nd Street. The area is designated on the #zoning maps# by the letters CL-MiD.

81-024 - Integration clauses

LAST AMENDED
10/31/2001

(a) The underlying zoning districts shall be deemed to be integral parts of the #Special Midtown District#. If the underlying zoning district of any #zoning lot# shall be amended or shall be nullified by any court of competent jurisdiction, such amendment or adjudication shall be construed to amend the #Special Midtown District# to remove such #zoning lot# from the #Special Midtown District# whereupon the regulations of the prior underlying district shall apply.

(b) The #bulk# regulations contained in Sections 81-20 through 81-28, inclusive, shall be deemed to be an integral unit and no modification thereof shall be permitted, except in accordance with the provisions of Section 200 of the New York City Charter. If any sentence, clause, paragraph or part of Sections 81-20 through 81-28, inclusive, shall be adjudged by any court of competent jurisdiction to be invalid, such judgment shall not be confined in its operation to the sentence, clause, paragraph or part thereof directly involved in the controversy in which such judgment shall have been rendered, but shall also be construed to invalidate and prohibit the application of the remainder of Sections 81-20 through 81-28, inclusive. However, any such judgment shall not act to invalidate any other sentence, paragraph, clause, section or chapter of the Zoning Resolution.

81-03 - District Plan

LAST AMENDED
8/9/2017

The regulations of this Chapter are designed to implement the #Special Midtown District# Plan.

The District Plan includes the following maps:

Map 1 Special Midtown District and Subdistricts

Map 2 East Midtown Subdistrict and Subareas

Map 3 Retail and Street Wall Continuity

Map 4 Subway Station and Rail Mass Transit Facility Improvement Areas

The maps are located in Appendix A of this Chapter and are hereby incorporated and made a part of this Resolution. They are incorporated for the purpose of specifying locations where special regulations and requirements set forth in the text of this Chapter apply.

81-04 - Subdistricts and Subareas

LAST AMENDED
8/9/2017

In order to carry out the purposes and provisions of this Chapter, five special Subdistricts are established within the #Special Midtown District#. In each of these Subdistricts certain special regulations apply which do not apply in the remainder of the #Special Midtown District#. The Subdistricts are outlined on Map 1 (Special Midtown District and Subdistricts) in Appendix A of this Chapter.

The Subdistricts, together with the Sections of this Chapter specially applying to each, are as follows:

Subdistricts	Sections Having Special Application
Penn Center Subdistrict	81-50
East Midtown Subdistrict	81-60
Theater Subdistrict	81-70
Fifth Avenue Subdistrict	81-80
Preservation Subdistrict	81-90

The Subdistricts are also subject to all other regulations of the #Special Midtown District# and, where applicable pursuant to Section 81-023, the #Special Clinton District# and the underlying districts, except as otherwise specifically provided in the Subdistrict regulations themselves.

Within the East Midtown Subdistrict, certain special regulations apply to Subareas that do not apply within the remainder of the Subdistrict. These Subareas are established, as follows:

Grand Central Transit Improvement Zone Subarea

Northern Subarea

Other Transit Improvement Zone Subarea

Park Avenue Subarea

Southern Subarea

Vanderbilt Corridor Subarea

The entirety of the Vanderbilt Corridor Subarea and the Grand Central Transit Improvement Zone Subarea as well as the portions of the Other Transit Improvement Zone Subarea south of East 47th Street, are hereinafter referred to as the Grand Central Core Area.

These Subareas, as well as the boundary of the Grand Central Core Area, are shown on Map 2 (East Midtown Subdistrict and Subareas) in Appendix A of this Chapter.

81-05 - Applicability of Certain Amendments

LAST AMENDED
4/28/1988

For #developments#, #enlargements# or other alterations within the #Special Midtown District#, any building permits issued by the Department of Buildings prior to April 28, 1988, shall continue in effect through May 12, 1988. Thereafter any #non-conformance# or #non-compliance# with the Zoning Resolution as so amended shall be subject to the provisions of Section 11-33 (Building Permits for Minor or Major Development or Other Construction Issued before Effective Date of Amendment).

81-06 - Applicability of Article VII Provisions

LAST AMENDED
8/26/1992

81-061 - Applicability of Article VII

LAST AMENDED
6/6/2024

Within the #Special Midtown District#, the following provisions regarding special permits by the Board of Standards and Appeals for #non-complying# #buildings# shall not be applicable:

Section 73-621 (Enlargement, change of use, or extension within buildings containing residential uses)

Section 73-63 (Enlargement of Non-residential Buildings)

Section 73-64 (Modifications for Community Facility Uses)

Within the #Special Midtown District#, the following provisions regarding special permits by the Board of Standards and Appeals shall only be applicable as modified below:

Section 73-146 (Public transit or railroad electric substations) shall be applicable subject to the provisions of the #Special Midtown District#.

Section 73-51 (Modification of Supplementary Use Regulations) shall be applicable subject to the height and setback or alternate height and setback regulations of the #Special Midtown District#.

Section 73-52 (Modifications for Zoning Lots Divided by District Boundaries) shall be applicable subject to the height and setback or alternate height and setback regulations of the #Special Midtown District#.

81-062 - Applicability of Article VII, Chapter 4

LAST AMENDED
12/5/2024

Within the #Special Midtown District#, the following provisions regarding special permits by the City Planning Commission shall not be applicable:

Section 74-72 (Bulk Modification)

Section 74-74 (General Large-scale Development)

Section 74-75 (Educational Construction Fund Projects)

Section 74-81 (Through Block Arcades)

Section 74-821 (Court houses)

Section 74-831 (Developments in certain Commercial Districts)

Section 74-85 (Covered Pedestrian Space)

Section 74-91 (Modification of Public Plazas)

Within the #Special Midtown District#, the following special permit by the City Planning Commission shall only be applicable as modified below:

Section 74-71 (Landmark Preservation) shall be applicable subject to the height and setback modifications of Sections 81-068, 81-254, 81-266 and 81-277.

81-063 - Applicability of Article VII, Chapter 5

LAST AMENDED
12/5/2024

Within the #Special Midtown District#, the following certification by the Chair of the City Planning Commission or authorization by the Commission shall only be applicable as modified below:

Section 75-24 (Bulk Modifications Associated with a Transfer of Development Rights from Landmarks)

Section 75-42 (Transfer of Development Rights from Landmarks) shall be applicable within the #Special Midtown District#, except in the East Midtown Subdistrict and Theater Subdistrict. Such provisions shall be subject to modifications of Section 81-212.

81-064 - Regulations for developments or enlargements on lots divided by district boundaries, within or partially within the Theater Subdistrict

LAST AMENDED
12/5/2024

Within the Theater Subdistrict of the #Special Midtown District#, the provisions of Article VII, Chapter 7 (Special Provisions for Zoning Lots Divided by District Boundaries), are modified in part by the provisions of Section 81-746 (Additional provisions for zoning lots divided by district or

subdistrict core boundaries).

81-065 - Inapplicability of provisions for height and setback modifications in large-scale residential developments

LAST AMENDED
12/5/2024

Within the #Special Midtown District#, the provisions of Article VII, Chapter 8 (Special Regulations Applying to Large-scale Residential Developments), permitting the City Planning Commission to authorize the location of #buildings# without regard for height and setback regulations shall be inapplicable.

81-066 - Inapplicability of provisions for height and setback modifications in large-scale community facility developments

LAST AMENDED
12/5/2024

Within the #Special Midtown District#, the provisions of Article VII, Chapter 9 (Special Regulations Applying to Large-scale Community Facility Developments), permitting the City Planning Commission to authorize the location of #buildings# without regard for height and setback regulations shall be inapplicable.

81-067 - Special permit modifications of Section 81-254, Section 81-40 and certain Sections of Article VII, Chapter 7

(a) The City Planning Commission, by special permit, for #zoning lots# where the #lot area# is at least 60,000 square feet or that occupy an entire #block#, may permit modification of the mandatory district plan elements of Section 81-40 or the provisions of Article VII, Chapter 7, that determine the distribution of permitted #floor area# on such #zoning lots# and, in conjunction with such modifications, may also modify the applicable #yard# and #court# requirements. However, no exception to the #street wall# or retail continuity requirements shall be permitted on Fifth Avenue or within 50 feet of Fifth Avenue within the #Special Midtown District#.

The modifications shall be subject to the following findings:

(1) that the modifications of mandatory plan elements, #floor area# allocation or #rear yard# and #court# regulations, result in a better arrangement of required facilities or in better site planning on a uniquely large #zoning lot#;

(2) that a substantial majority of the #zoning lot# is either vacant at the time of certification for review, pursuant to Section 197-c of the New York City Charter, or contains #buildings# that will be integrally related to #developments#, both physically and programmatically;

(3) that the design, scale and location of the new #buildings# or #enlarged# #buildings# are compatible with the character of the surrounding area and existing #buildings# to remain on the #zoning lot#;

(4) that such modifications will not unduly obstruct the access of light and air to surrounding properties;

(5) that any adverse impact on retail continuity is minimized by a site plan that requires pedestrian-oriented #uses# along the boundaries of any open or enclosed public areas on the #zoning lot#;

(6) that such modifications of mandatory plan elements or #floor area# allocation are consistent with the basic strategy of the #Special Midtown District# and the purposes of the Mandatory District Plan Elements.

(b) For #developments# or #enlargements# on a #zoning lot# with a #lot area# of at least 60,000 square feet located wholly or partially in the Penn Center Subdistrict, which have been granted a #floor area# bonus for subway station and/or rail mass transit facility improvements pursuant to Section 81-541, the Commission may permit modifications of the mandatory district plan elements of Section 81-40, the height and setback regulations of 81-26 and 81-27, or the provisions of Article VII, Chapter 7 (Special Provisions for Zoning Lots Divided by District Boundaries), that determine the distribution of permitted #floor area# on such #zoning lots# and, in conjunction with such modifications, may also modify the applicable #yard# and #court# requirements subject to the following findings:

(1) the modifications of mandatory plan elements, #floor area# allocation or #rear yard# and #court# regulations result in a better arrangement of required facilities or in better site planning on a uniquely large #zoning lot#;

(2) the design, scale and location of the new #buildings# or #enlarged# #buildings# are compatible with the character of the surrounding area and existing #buildings# to remain on the #zoning lot#;

(3) such modifications will not unduly obstruct the access of light and air to surrounding properties;

(4) any adverse impact on retail continuity is minimized by a site plan that requires pedestrian-oriented #uses# along the boundaries of any open or enclosed public areas within the #zoning lot#;

(5) such modifications of mandatory plan elements or #floor area# allocation are consistent with the basic strategy of the #Special Midtown District# and the purposes of the Mandatory District Plan Elements;

(6) the improvements to the below-grade pedestrian circulation network provided by the #development# or #enlargement# significantly increase public accessibility to and from subway stations and/or rail mass transit facilities in and around Pennsylvania Station; and

(7) the modifications of height and setback regulations:

(i) are necessary due to the constraints or conditions of the #development# or #enlargement# and conditions imposed by the configuration of the site; and

(ii) will provide an appropriate distribution of #bulk# on the #zoning lot# with due consideration of the basic strategy of the #Special Midtown District# and the purpose of the District's height and setback regulations. In considering whether such distribution of #bulk# is appropriate, the Commission shall consider a complete daylight evaluation for the proposed design.

The Commission may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area.

81-068 - Modification of provisions for minimum base height and street wall location in Historic Districts

LAST AMENDED
12/5/2024

Within the Special Midtown District, for any #zoning lot# located in a Historic District designated by the Landmarks Preservation Commission, any applicable provisions relating to minimum base height and #street wall# location requirements as modified in Sections 81-43 (Street Wall Continuity Along Designated Streets), 81-671 (Special street wall requirements) pertaining to the East Midtown Subdistrict, 81-75 (Special Street Wall and Setback Requirements) pertaining to the Theater Subdistrict, 81-83 (Special Street Wall Requirements) pertaining to the Fifth Avenue Subdistrict, and 81-90 (SPECIAL REGULATIONS FOR PRESERVATION SUBDISTRICT) pertaining to mandatory #street walls# may be modified pursuant to Sections 23-43 (Height and Setback Requirements in R6 Through R12 Districts) and 35-63 (Height and Setback Requirements in Commercial Districts With R6 Through R12 Equivalency).

81-10 - USE REGULATIONS

LAST AMENDED
8/9/2017

81-11 - Modifications of Use Regulations in Subdistricts

LAST AMENDED
8/9/2017

The #use# regulations of the underlying districts are modified in:

(a) the East Midtown Subdistrict in accordance with the provisions of Section 81-62 (Special Use Provisions), inclusive;

(b) the Theater Subdistrict in accordance with the provisions of Sections 81-72 (Use Regulations Modified) and 81-73 (Special Sign and Frontage Regulations); and

(c) the Fifth Avenue Subdistrict in accordance with the provisions of Section 81-82 (Special Regulations on Permitted and Required Uses).

81-12 - Special Retail Continuity Requirements

LAST AMENDED
5/13/1982

Special requirements for allocation of frontage to retail and service #uses# along designated #streets# are set forth in Section 81-42 (Retail Continuity Along Designated Streets).

81-13 - Special Permit Use Modifications

LAST AMENDED
6/6/2024

No special permits shall be issued by the Board of Standards and Appeals for #automotive service stations# pursuant to Section 73-163, for any #zoning lots# with frontage on any of the #streets#

designated in Sections 81-42 (Retail Continuity Along Designated Streets) or 81-43 (Street Wall Continuity Along Designated Streets).

No other special permit #use# within the #Special Midtown District# shall be granted by the Board of Standards and Appeals pursuant to Section 73-10 (SPECIAL PERMIT USES) or by the City Planning Commission pursuant to Section 74-10 through 74-20, inclusive, without a finding that such special permit #use# will be consistent with the purposes and provisions of this Chapter.

81-14 - Modification of Sign and Frontage Regulations in the Fifth Avenue Subdistrict

LAST AMENDED
4/28/1988

81-141 - Special sign regulations

LAST AMENDED
6/23/2005

(a) For all existing and new #uses# in the Fifth Avenue Subdistrict, #signs# shall not be permitted on the exterior of any #building# below a level of 10 feet above #curb level#. The aggregate #surface area# of all #signs# in ground floor windows is restricted to not more than one-third of the window area.

Any #sign# that does not comply with the provisions of this paragraph, (a), shall be terminated, except that a #sign# which the Chairperson of the City Planning Commission certifies is an integral part of the #building#, shall not be required to terminate.

(b) In a C5-3 District within the Fifth Avenue Subdistrict, the Chairperson of the City Planning Commission may, by certification, modify the requirements of Section 32-655 (Height of signs in all other Commercial Districts), to allow a single non-#illuminated sign# per #building#, other than an #advertising sign#, to be located at a height between 25 and 50 feet above #curb level#, provided that the permitted #sign# shall:

(1) be limited to one name and/or address of the #building# or the name of an establishment located therein, consisting only of individual letters and/or numbers not exceeding 18 inches in height;

(2) not be within a frame, a border, or any kind of background other than the #building# facade;

(3) not project more than three inches from the facade of the #building#; and

(4) not exceed 25 square feet in aggregate #surface area#.

(c) On any #zoning lot# occupied by a landmark designated by the Landmarks Preservation Commission which lies partially or wholly within the Fifth Avenue Subdistrict, the Chairperson of the City Planning Commission may, by certification, modify the applicable #sign# regulations of Section 32-60 to permit #illuminated signs# on the open area of the #zoning lot#, provided that such #signs# shall:

(1) be a re-creation of historic #signs# and that the Landmarks Preservation Commission has issued a Certificate of Appropriateness or other permit for such #signs#;

(2) not exceed a #surface area# of 12 square feet per #sign#; and

(3) not project across a #street line#.

81-142 - Special frontage regulations

LAST AMENDED
2/2/2011

(a) Transparency requirement

On #wide street# frontages in underlying C5 Districts, at least 50 percent of a #building's# #street wall# surface shall be glazed and transparent at the ground floor level, and not more than 50 percent of such transparent surface shall be painted. For the purpose of the glazing requirements, the #building's# #street wall# surface at the ground floor level shall be measured from the floor to the height of the ceiling or 14 feet above grade, whichever is less.

(b) Banners or pennants

The display of banners or pennants from the exterior of any #building# in an underlying C5 District is prohibited.

81-20 - BULK REGULATIONS

LAST AMENDED
8/9/2017

81-21 - Floor Area Ratio Regulations

LAST AMENDED
8/9/2017

The #floor area ratio# regulations of the underlying districts are modified in accordance with the provisions of Section 81-21, inclusive, or Section 81-241 (Maximum floor area ratios for a residential building or the residential portion of a mixed building). However, the provisions of Section 81-211 (Maximum floor area ratio for non-residential or mixed buildings), shall not apply to #non-residential buildings# or #mixed buildings# in the East Midtown Subdistrict, where the special #floor area# provisions of Sections 81-63 (Special Floor Area Provisions for the Vanderbilt Corridor Subarea), 81-64 (Special Floor Area Provisions for Qualifying Sites) or 81-65 (Special Floor Area Provisions for Non-qualifying Sites) shall apply.

81-211 - Maximum floor area ratio for non-residential or mixed buildings

LAST AMENDED
8/14/2025

(a) For #non-residential buildings# or #mixed buildings#, the basic maximum #floor area ratios# of the underlying districts shall apply as set forth in this Section.

(b) In the #Special Midtown District#, the basic maximum #floor area ratio# on any #zoning lot# may be increased by bonuses or other #floor area# allowances only in accordance with the provisions of this Chapter, and the maximum #floor area ratio# with such additional #floor area# allowances shall in no event exceed the amount set forth for each underlying district in the following table:

MAXIMUM FLOOR AREA ALLOWANCES FOR SPECIFIED FEATURES AND MAXIMUM FLOOR AREA RATIOS BY DISTRICTS

	Maximum #Floor Area Ratio# (FAR)				
Means for Achieving Permitted FAR Levels on a #Zoning Lot#	C5P	C6-4 C6-5	C5-2.5 C6-4.5 C6-5.5 C6-6.5	C6-7T	C5-3 C6-6 C6-7
A. Basic Maximum FAR	8.0	10.0	12.0	14.0	15.0
B. Maximum As-of-Right #Floor Area# Allowances: #Public plazas# - Section 81-23	—	1.0[1,2]	1.0[1,3]	—	1.0[2]
C. Maximum Total FAR with As-of-Right Incentives	8.0	11.0[1,2,6]	13.0[1,3]	14.0	16.0
D. Maximum District-wide #Floor Area# Allowances: #Mass Transit Station# - Section 66-51	1.6[5]	2.0[5]	2.4	2.8	3.0

E. Maximum Total FAR with District-wide and As-of-Right Incentives	9.6	12.0	14.4	16.8	18.0
F. Maximum #Floor Area# Allowances in Penn Center Subdistrict: #Mass Transit Station# Improvement - Section 81-541	—	2.0	—	—	3.0
G. Maximum Total FAR with As-of-Right, District-wide and Penn Center Subdistrict Incentives	—	12.0	—	—	18.0
H. Maximum As-of-Right #Floor Area# Allowances in Theater Subdistrict:					
Development rights (FAR) of a "granting site" - Section 81-744	—	10.0	12.0	14.0	15.0

Maximum amount of transferable development rights (FAR) from "granting sites" that may be utilized on a "receiving site" - Section 81-744(a)	—	2.0	2.4	2.8	3.0
I. Maximum Total FAR with As-of-Right #Floor Area# Allowances in Theater Subdistrict	—	12.0	14.4	16.8	18.0
J. Maximum #Floor Area# Allowances by Authorization in Eighth Avenue Corridor - Section 81-744(b)	—	2.4	—	—	—
K. Maximum Total FAR with As-of-Right and Theater Subdistrict Authorizations	—	14.4	14.4	16.8	18.0
L. Maximum Special Permit #Floor Area# Allowances in Theater Subdistrict: Rehabilitation of "listed theaters" Section 81-745	—	4.4	2.4	2.8	3.0

M. Maximum Total FAR with Theater Subdistrict, District-wide and As-of-Right Incentives	9.6	14.4[7]	14.4	16.8	18.0
N. Maximum FAR of Lots Involving Landmarks:					
Maximum FAR of a lot containing non-bonusable landmark - Section 74-711 or as-of-right	8.0	10.0	12.0	14.0	15.0
Development rights (FAR) of a landmark lot for transfer purposes - Section 75-42	8.0	10.0	13.0[4]	14.0	16.0
Maximum amount of transferable development rights (FAR) from a landmark #zoning lot# that may be utilized on a #receiving lot# - Section 75-42	1.6	2.0	2.4	No Limit	No Limit

O. Maximum Total FAR of a Lot with Transferred Development Rights from Landmark #Zoning Lot#, Theater Subdistrict Incentives, District-wide Incentives and As-of Right Incentives	9.6	14.4[7]	14.4	No Limit	No Limit

[1] Not available for #zoning lots# located wholly within Theater Subdistrict Core

[2] Not available within the Eighth Avenue Corridor

[3] Not available within 100 feet of a #wide street# in C5-2.5 Districts

[4] 12.0 in portion of C6-5.5 District within the Theater Subdistrict Core

[5] For #zoning lots# with #qualifying affordable housing# or #qualifying senior housing#, the permitted #floor area# bonus shall be calculated in accordance with Section 66-51 (Additional Floor Area for Mass Transit Station Improvements)

[6] 12.0 for #zoning lots# with full #block# frontage on Seventh Avenue and frontage on West 34th Street, pursuant to Section 81-542 (Retention of floor area bonus for plazas or other public spaces)

[7] For #zoning lots# utilizing a #floor area# bonus pursuant to Section 66-51, such maximum #floor area ratio# shall only be permitted with the provision of #qualifying affordable housing# or #qualifying senior housing#.

81-212 - Special provisions for transfer of development rights from landmark sites

LAST AMENDED

12/5/2024

In the #Special Midtown District#, a transfer of development rights from #granting lots# to #receiving lots# within the #surrounding area#, as defined in Section 75-421 (Definitions), shall be permitted in accordance with the provisions of this Section.

(a) For the purposes of applying the term #surrounding area#, as set forth in Section 75-421 (Definitions), the provisions pertaining to #Commercial Districts# where the maximum #floor area ratio# for #commercial uses# is 15.0 shall also apply to #zoning lots# in C6-5.5, C6-6.5 or C6-7T Districts.

(b) Except in the East Midtown Subdistrict and Theater Subdistrict, the transfer of development rights shall be permitted in accordance with the provisions of Section 75-42 (Transfer of Development Rights from Landmarks). However, the provisions of paragraph (a) of Section 75-422 (Certification to transfer development rights from landmarks) shall be subject to the restrictions set forth in the table in Section 81-211 (Maximum floor area ratio for non-residential or mixed buildings) for the development rights (FAR) of a landmark #granting lot#, as defined in Section 75-421, for transfer purposes. Wherever there is an inconsistency between any provision in Section 75-42 and the table in Section 81-211, the table in Section 81-211 shall apply.

(c) Within the East Midtown Subdistrict and Theater Subdistrict, the transfer of development rights may be granted in accordance with the provisions of Section 81-213 (Special provisions for transfer of development rights from landmark sites in certain areas).

81-213 - Special provisions for transfer of development rights from landmark sites in certain areas

LAST AMENDED
12/5/2024

Within the East Midtown and Theater Subdistricts, the City Planning Commission may permit a transfer of development rights from #zoning lots# occupied by #landmark buildings or other structures# to #zoning lots# within the #surrounding area#, as modified pursuant to paragraph (a) of Section 81-212 (Special provisions for transfer of development rights from landmark sites). The transfer of #floor area# from a #granting site# to a #receiving site# shall be subject to the conditions, application requirements and findings of paragraphs (a), (b) and (c) of this Section.

In addition to the provisions of this Section, the transfer of development rights pursuant to this special permit shall be made in accordance with the provisions of Sections 81-63 (Special Floor Area Provisions for the Vanderbilt Corridor Subarea), 81-653 (Special permit for transfer of development rights from landmarks to non-qualifying sites) and 81-747 (Transfer of development rights from landmarks).

For the purposes of this Section, defined terms additionally include those in Section 75-421 (Definitions).

(a) Conditions

The transfer of development rights shall be subject to the following conditions:

(1) The maximum amount of #floor area# that may be transferred from any #granting site# shall be the maximum #floor area# allowed by Sections 81-63, 81-65 or 81-747 less the total #floor area# of all existing #buildings on the #granting site#.

(2) For each #receiving site#, the increased #floor area# allowed by the transfer of development rights pursuant to this Section may exceed the maximum #floor area# pursuant to Sections 81-63, 81-65 or 81-747.

(b) Requirements for application

An application to the City Planning Commission for a grant of a special permit to allow a transfer of development rights and construction based thereon shall be made by the owners of the respective #zoning lots# and shall include: a site plan of #granting site# and the #receiving site#, including plans for all #developments# or #enlargements# on the #receiving site#; a program for the continuing maintenance of the landmark; and such other information as may be required by the City Planning Commission. The application shall be accompanied by a report from the Landmarks Preservation Commission.

A separate application shall be filed for each independent "adjacent lot" to which development rights are being transferred under this Section.

(c) Findings

The Commission shall make the following findings:

(1) that the permitted transfer of #floor area# will not unduly increase the #bulk# of any #development# or #enlargement#, density of population or intensity of use in any #block# to the detriment of the occupants of #buildings# on the #block# or nearby

#blocks#, and that any disadvantages to the surrounding area caused by reduced access of light and air will be more than offset by the advantages of the landmark's preservation to the local community and the City as a whole;

(2) that the program for continuing maintenance will result in the preservation of the landmark; and

(3) that in the case of landmark sites owned by the City, State or Federal Government, transfer of development rights shall be contingent upon provision by the applicant of a major improvement of the public pedestrian circulation or transportation system in the area.

The Commission shall give due consideration to the relationship between the landmark #building# and any #buildings# #developed# or #enlarged# on the adjacent lot regarding materials, design, scale and location of #bulk#.

The Commission may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area.

(d) Transfer instruments and notice of restrictions

The owners of the landmark lot and the adjacent lot shall submit to the City Planning Commission a copy of the transfer instrument legally sufficient in both form and content to effect such a transfer. Notice of the restrictions upon further #development# or #enlargement# on the lot occupied by the #granting site# and #receiving site# shall be filed by the owners of the respective lots in the place and county designated by law for the filing by the owners of the respective lots in the place and county designated by law for the filing of deeds and restrictions on real property, a certified copy of which shall be submitted to the Commission.

Both the instrument of transfer and the notice of restrictions shall specify the total amount of #floor area# to be transferred, and shall specify, by lot and #block# numbers, the lots from which and the lots to which, such transfer is made.

81-214 - Special provisions for transfer of development rights from listed theaters within the Special Clinton District

LAST AMENDED
12/5/2024

In C6-2 Districts within the #Special Clinton District#, for #zoning lots#, or portions thereof, comprised of listed theaters designated in Section 81-742, the City Planning Commission shall allow a transfer of development rights pursuant to Section 81-744 (Transfer of development rights from listed theaters). The basic maximum #floor area ratio# for transfer purposes for such #zoning lots#, or portions thereof, shall be 6.02.

81-22 - As-of-right Floor Area Bonuses

LAST AMENDED
12/5/2024

As-of-right #floor area# bonuses are not permitted in the #Special Midtown District#, except in accordance with

Section 81-23 (Floor Area Bonus for Public Plazas).

Any #floor area# bonus granted by certification for through #block# gallerias prior to August 6, 1998, shall remain in effect provided, however, that such certification shall automatically lapse if substantial construction, in accordance with the plans for which such certification was granted, has not been completed within four years from the effective date of such certification.

81-23 - Floor Area Bonus for Public Plazas

LAST AMENDED
8/9/2017

Within the #Special Midtown District#, for each square foot of #public plaza# provided on a #zoning lot#, the basic maximum #floor area# permitted on that #zoning lot# under the provisions of Section 81-211 (Maximum floor area ratio for non-residential or mixed buildings) may be increased by six square feet, provided that in no case shall such bonus #floor area# exceed a #floor area ratio# of 1.0.

This Section shall be applicable in all underlying districts throughout the #Special Midtown District#, except that there shall be no #floor area# bonus for a #public plaza# that is:

(a) on #zoning lots# in the C5P District within the Preservation Subdistrict;

(b) within 50 feet of a #street line# of a designated #street# on which retail or #street wall# continuity is required, pursuant to Sections 81-42 (Retail Continuity Along Designated Streets) or 81-43 (Street Wall Continuity Along Designated Streets);

(c) on a #zoning lot#, any portion of which is within the Theater Subdistrict Core, as defined in Section 81-71 (General Provisions); and

(d) on #zoning lots#, any portion of which is in the Grand Central Core Area, as shown on Map 2 (East Midtown Subdistrict and Subareas) in Appendix A of this Chapter, or on #qualifying sites#, as defined in Section 81-613, in any other subarea of the East Midtown Subdistrict.

All #public plazas# provided within the #Special Midtown District# shall comply with the requirements for #public plazas# set forth in Section 37-70, inclusive.

A major portion of a #public plaza# may overlap with a sidewalk widening which may be provided to fulfill the minimum pedestrian circulation space requirements set forth in Section 81-45 (Pedestrian Circulation Space), provided that the overlapping portion of the #public plaza# also conforms to the design standards of Section 37-50 (REQUIREMENTS FOR PEDESTRIAN CIRCULATION SPACE) for a sidewalk widening. Such sidewalk widening may be included in the major portion of a #public plaza# for purposes of calculating the proportional restrictions set forth in Section 37-715.

81-231 - Existing plazas or other public amenities

LAST AMENDED
3/26/2026

(a) Elimination or reduction in size of existing #publicly accessible open area# or other public amenities

No existing #publicly accessible open area# or other public amenity, open or enclosed, for which a #floor area# bonus has been utilized, shall be eliminated or reduced in size, except by special permit of the City Planning Commission, pursuant to Section 74-761 (Elimination or reduction in size of bonused public amenities).

(b) Kiosks and open air cafes

Kiosks and open air cafes may be placed within an existing #publicly accessible open area# or through #block# galleria for which a #floor area# bonus has been received by certification, pursuant to Section 37-73 (Kiosks and Open Air Cafes).

However, for through #block# gallerias, the provisions for open air cafes shall be modified as follows:

(1) such cafes need not be open to the sky; and

(2) movable planters or barriers that separate such cafes from the remainder of the through #block# galleria are allowed, provided that such planters or barriers do not exceed a height of three feet, or a depth of 12 inches.

The planters or barriers shall be removed from the through #block# galleria when the open air cafe is not in active use.

(c) Nighttime closing of existing #publicly accessible open areas#

The Commission may, upon application, authorize the closing of an existing #publicly accessible open area# for which a #floor area# bonus has been received, during certain nighttime hours, pursuant to Section 37-727 (Hours of access).

(d) Special provisions for certain #covered pedestrian spaces#

Where a portion of an existing #covered pedestrian space# was designated by a special authorization of the Commission prior to May 13, 1982, to be used for off-street loading after business hours, the Commission may, by special permit, after public notice and hearing, and subject to City Council action, allow relocation of the loading facilities and modifications relating to the loading berth requirements, provided that such modifications

will result in substantial improvement of the pedestrian circulation system and amenities within the existing #covered pedestrian space# without adversely affecting the operation of off-street loading facilities.

(e) Elimination or reduction in size of non-bonused open area on a #zoning lot# containing a bonused amenity

Any existing open area for which a #floor area# bonus has not been utilized that occupies the same #zoning lot# as an existing #publicly accessible open area# or other public amenity, open or enclosed, for which a #floor area# bonus has been utilized, may be reduced in size or eliminated only upon certification of the Chairperson of the City Planning Commission that all bonused amenities comply with the standards under which such #floor area# bonus was granted.

81-232 - Special provisions for zoning lots divided by district boundaries

LAST AMENDED
10/17/2007

Where a #public plaza# is located on a #zoning lot# divided by a district boundary, the #floor area# bonus for such #public plaza# may be credited to either portion of the #zoning lot# regardless of the #public plaza's# location or the date when the #zoning lot# was created, provided that the amount of such bonus permitted on either portion of the #zoning lot# shall not exceed the maximum amount that would be permitted on such portion if it were a separate #zoning lot# and subject to all other applicable provisions of Article VII, Chapter 7.

81-24 - Floor Area, Lot Coverage and Building Spacing Regulations for Residential Uses

LAST AMENDED
7/26/2001

81-241 - Maximum floor area ratios for a residential building or the residential portion of a mixed building

LAST AMENDED
12/5/2024

For #residential buildings# or #residential# portions of #mixed buildings# in the #Special Midtown District#, the underlying #floor area# regulations shall apply except that in the C5-P District, the maximum #residential# #floor area ratio# shall be 8.0 for #zoning lots# containing standard #residences#, and 9.6 for #zoning lots# containing #qualifying affordable housing# or #qualifying senior housing#.

81-242 - Regulations on minimum spacing between buildings

LAST AMENDED
12/5/2024

When a #building# containing #residential# #uses# is located on the same #zoning lot# as another #building#, the provisions of Section 23-371 (Distance between buildings) shall not apply.

81-25 - General Provisions Relating to Height and Setback of Buildings

LAST AMENDED
8/9/2017

For all #buildings# in the #Special Midtown District#, except as provided in Section 81-90 (SPECIAL REGULATIONS FOR PRESERVATION SUBDISTRICT), the height and setback regulations of the underlying districts are superseded by the provisions of this Section and by the two alternate sets of regulations controlling the height and setback of #buildings# as set forth in Sections 81-26 (Height and Setback Regulations--Daylight Compensation) and 81-27 (Alternate Height and Setback Regulations--Daylight Evaluation), respectively. For the purposes of applying height and setback regulations, the term "#buildings#" shall include #buildings or other structures#, except if specifically stated otherwise.

For the purposes of Sections 81-25 through 81-27, inclusive, all #buildings# on a #zoning lot# shall be considered a single #building#. Existing portions of such #buildings# are referred to as an "existing #building#." A "new #building#" shall include #developments#, #enlargements# or alterations that increase the width or height of a #building# wall.

An applicant for plan approval by the Department of Buildings may elect to be governed by the provisions of either Section 81-26 or 81-27 in addition to the provisions of this Section.

This Section sets forth the provisions that are common to both sets of regulations.

81-251 - Purpose of height and setback regulations

LAST AMENDED
2/2/2011

The common purpose of these two sets of regulations is to offer maximum design flexibility while setting reasonable but firm standards to protect access of light and air to public #streets# and adjacent #buildings#.

This purpose is implemented by the two alternate sets of regulations, which are based on two distinct approaches. Both sets are concerned with daylight at #street# level.

The daylight compensation regulations require any #building# generally to be built within a sky exposure curve which relates required setbacks to #building# heights. Within limits, the #buildings# may encroach outside the curve but only if extra setbacks or recesses provided elsewhere on the same #street# frontage of the #zoning lot# compensate for the #encroachment#. In the regulations, the sky exposure curve for three #street# width categories is represented in each case by a table of required setbacks related to #building# heights.

The daylight evaluation regulations measure and evaluate portions of sky blocked by a #building# as viewed from specified #vantage points# in the #street#. The #building# is plotted on #daylight evaluation charts# representing the #zoning lot's# available daylight from specified #vantage points#, measured in daylight squares as defined in paragraph (b) of Section 81-272. Daylight blockage by the #building# is then measured to determine the #building's# score on each frontage and the average score for the #building# as a whole. The regulations specify the minimum passing scores for compliance.

81-252 - Permitted obstructions

LAST AMENDED
12/5/2024

Except as set forth in this Section, structures which under the provisions of Sections 33-42 or 43-42 (Permitted Obstructions) or 34-11 or 35-10 (GENERAL PROVISIONS), are permitted to penetrate a maximum height limit or a #sky exposure plane# shall not be permitted as exceptions to the height limitations, setback requirements or rules for the measurement of #encroachments# or #compensating recesses# set forth in Section 81-26 (Height and Setback Regulations—Daylight Compensation), nor shall they be excluded in determining daylight blockage pursuant to the provisions of Section 81-27 (Alternate Height and Setback Regulations—Daylight Evaluation).

The following shall be permitted as exceptions to the height regulations, setback requirements or rules for the measurement of #encroachments# or #compensating recesses#, set forth in Section 81-26, and shall be excluded in determining daylight blockage, pursuant to the provisions of Section 81-27:

(a) unenclosed balconies conforming to the provisions of Section 23-62 (Balconies); and

(b) #qualifying exterior wall thickness#. Where #buildings# that have added exterior wall thickness pursuant to this Section are #enlarged#, such #enlarged# portion may similarly penetrate a maximum height limit in order to align with the exterior walls of the existing #building#, provided such #enlargement# contains less #floor area# than the existing #building#, and there is no penetration of #floor area# above a maximum height limit.

81-253 - Special provisions for the East Midtown, Theater, Fifth Avenue, Penn Center and Preservation Subdistricts

LAST AMENDED
8/9/2017

The provisions of Sections 81-26 (Height and Setback Regulations-- Daylight Compensation) and 81-27 (Alternate Height and Setback Regulations--Daylight Evaluation) are supplemented and modified

by special provisions applying in the Fifth Avenue Subdistrict, as set forth in Sections 81-81 (General Provisions) and 81-83 (Special Street Wall Requirements) or in the Theater Subdistrict as set forth in Sections 81-71 (General Provisions) and 81-75 (Special Street Wall and Setback Requirements) or in the East Midtown Subdistrict as set forth in Sections 81-61 (General Provisions), 81-66 (Special Height and Setback Requirements), inclusive, or 81-671 (Special street wall requirements), or in the Penn Center Subdistrict as set forth in Section 81-532 (Special street wall requirements).

The provisions of Sections 81-26 and 81-27 are not applicable in the Preservation Subdistrict, where height and setback is regulated by the provisions of Section 81-90 (SPECIAL REGULATIONS FOR PRESERVATION SUBDISTRICT).

81-254 - Modifications for height and setback

LAST AMENDED
12/5/2024

In the #Special Midtown District#, the City Planning Commission may modify the special height and setback regulations set forth in this Chapter only in accordance with the following provisions:

Section 74-711 (Landmark preservation in all districts) as modified by the provisions of Sections 81-266 or 81-277 (Special permit for height and setback modifications)

Section 75-24 (Bulk Modifications Associated With a Transfer of Development Rights From Landmark Sites)

Section 81-067 (Special permit modifications of Section 81-254, Section 81-40 and certain Sections of Article VII, Chapter 7)

Section 81-632 (Special permit for transfer of development rights from landmarks to the Vanderbilt Corridor Subarea)

Section 81-633 (Special permit for Grand Central public realm improvements)

Section 81-685 (Special permit to modify qualifying site provisions)

81-26 - Height and Setback Regulations--Daylight Compensation

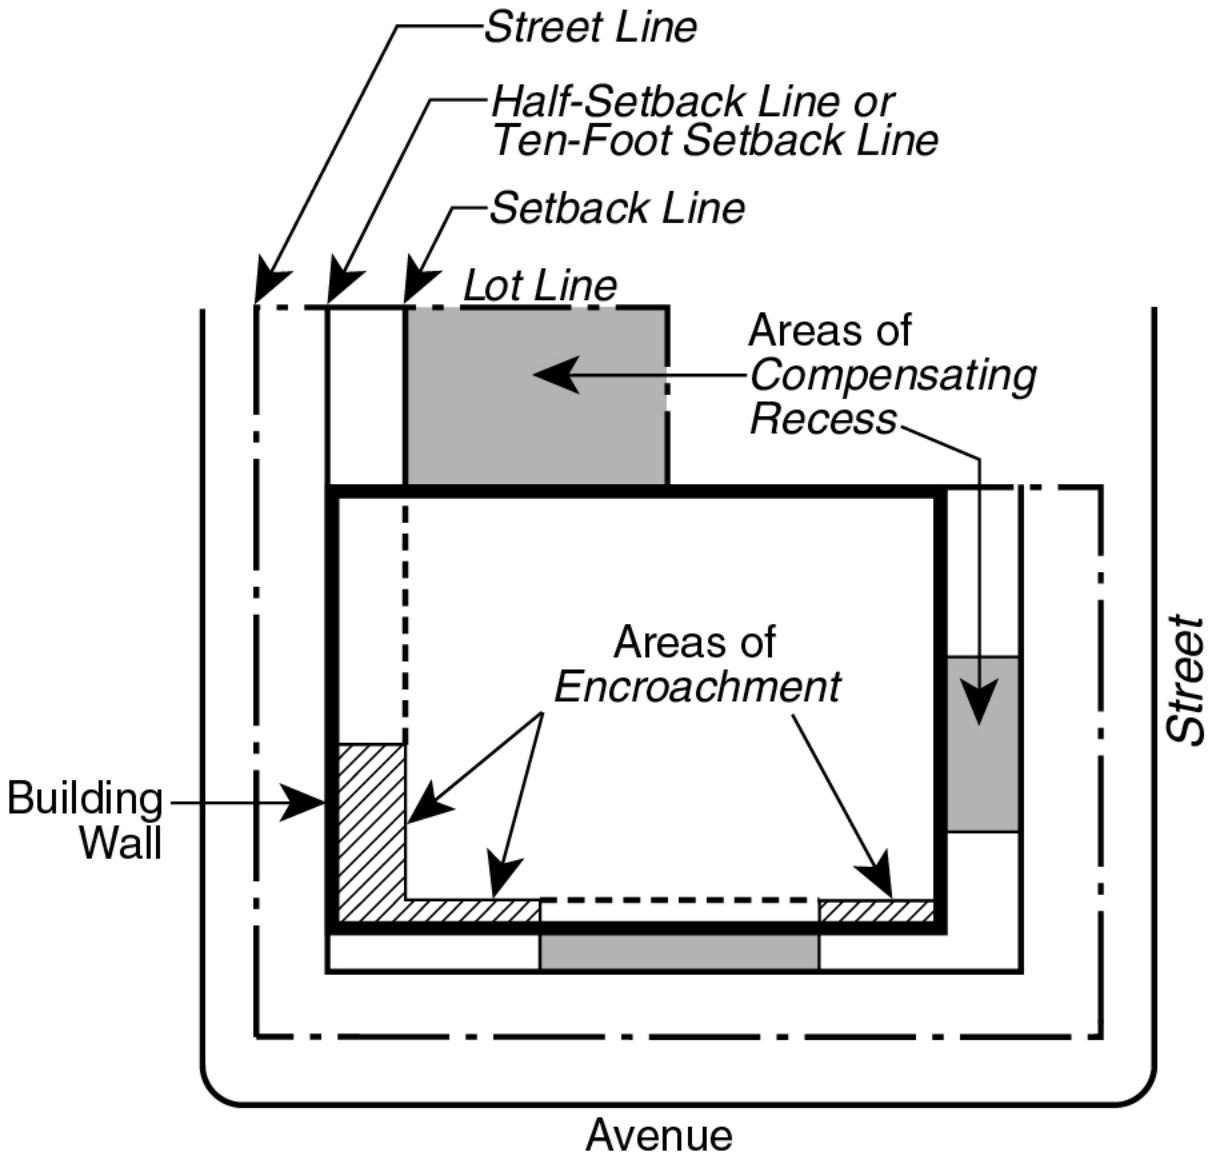
LAST AMENDED
5/13/1982

81-261 - Definitions

LAST AMENDED
2/2/2011

Compensating recess

A portion of a #zoning lot# which, at the #building# height selected for determining compliance with the provisions of Section 81-26 (Height and Setback Regulations--Daylight Compensation), lies in the #free zone# (Zone A on the #encroachment grid#), is not covered by any portion of a #building# and qualifies as compensating for #encroachments# beyond the #free zone# under the provisions of Section 81-264 (Encroachments and compensating recesses). (See illustration of #Compensating Recess# and #Encroachment#)



COMPENSATING RECESS AND ENCROACHMENT

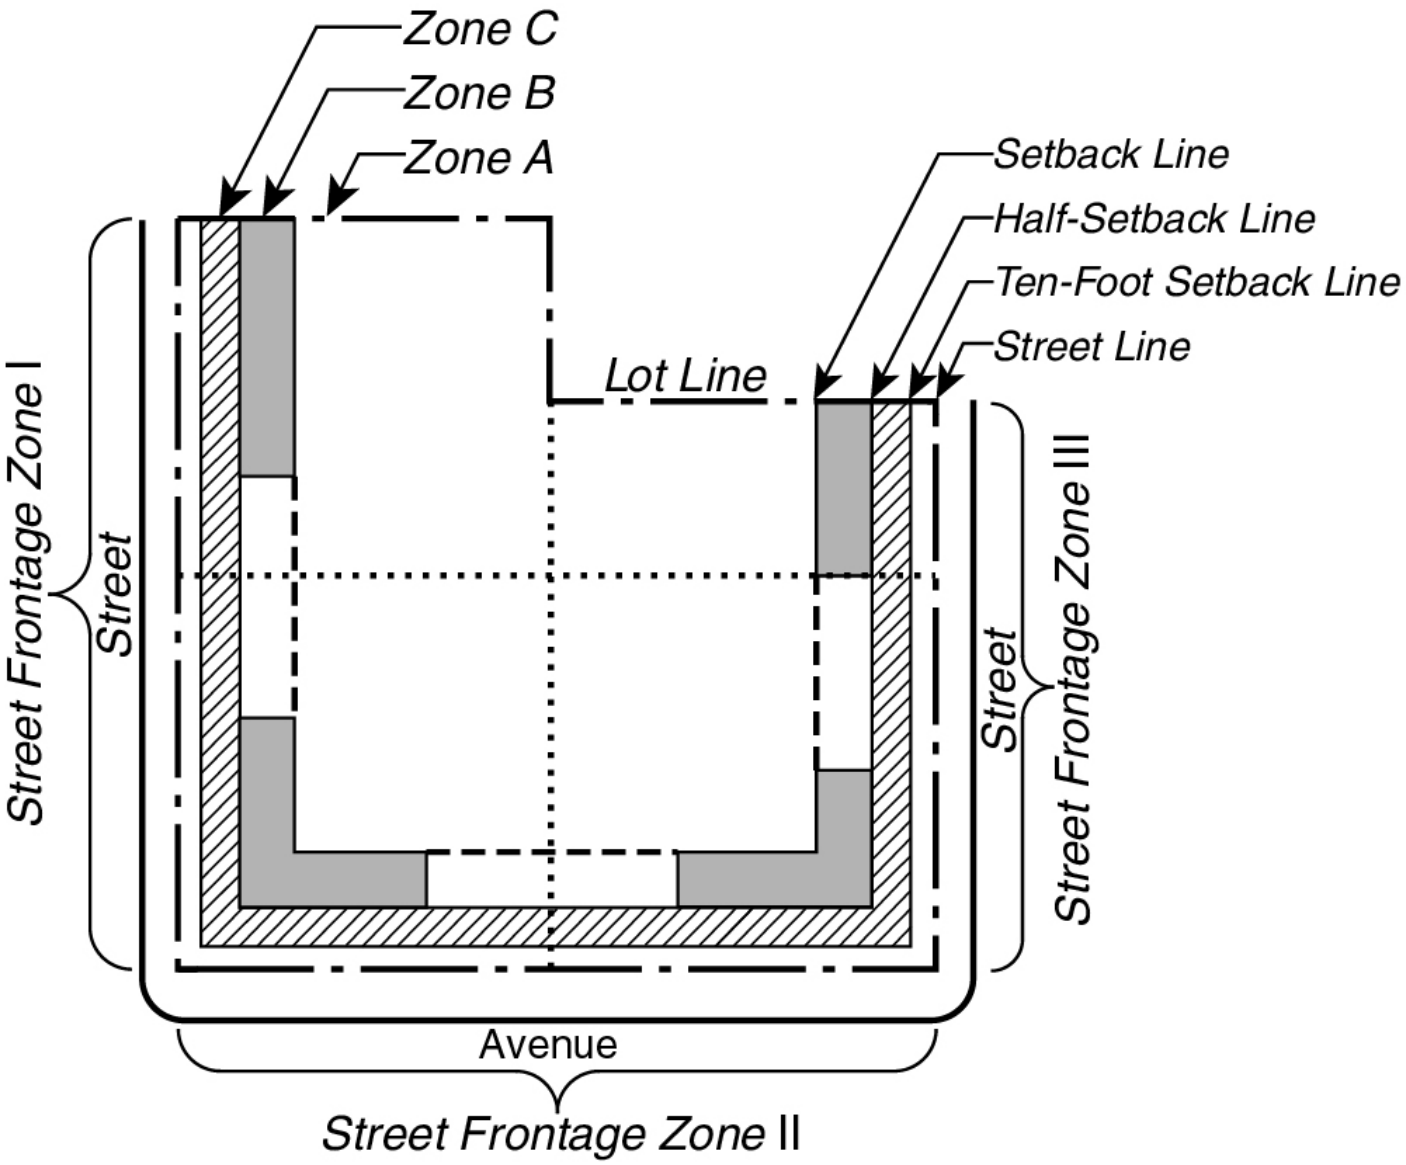
(81-261.1)

Encroachment

A projection beyond the #setback line#, the #free zone# or the #half-setback line# by any portion of a #building# that exceeds the maximum height permitted at the #street line#. (See illustration of #Compensating Recess# and #Encroachment#)

Encroachment grid

A plan drawing of the #zoning lot# at any given height above #curb level# selected to determine compliance with the provisions of Section 81-26 and showing, for that height, #street lines#, #setback lines#, #half-setback lines#, #Zone A# (the #free zone#), #Zone B# and #Zone C# (#encroachment zones#) and, where applicable, the #ten-foot setback line#. The #encroachment grid# serves as a device for measuring areas of #encroachment# beyond the #free zone# and areas of #compensating recess# within the #free zone#. (See illustration of #Encroachment Grid#)



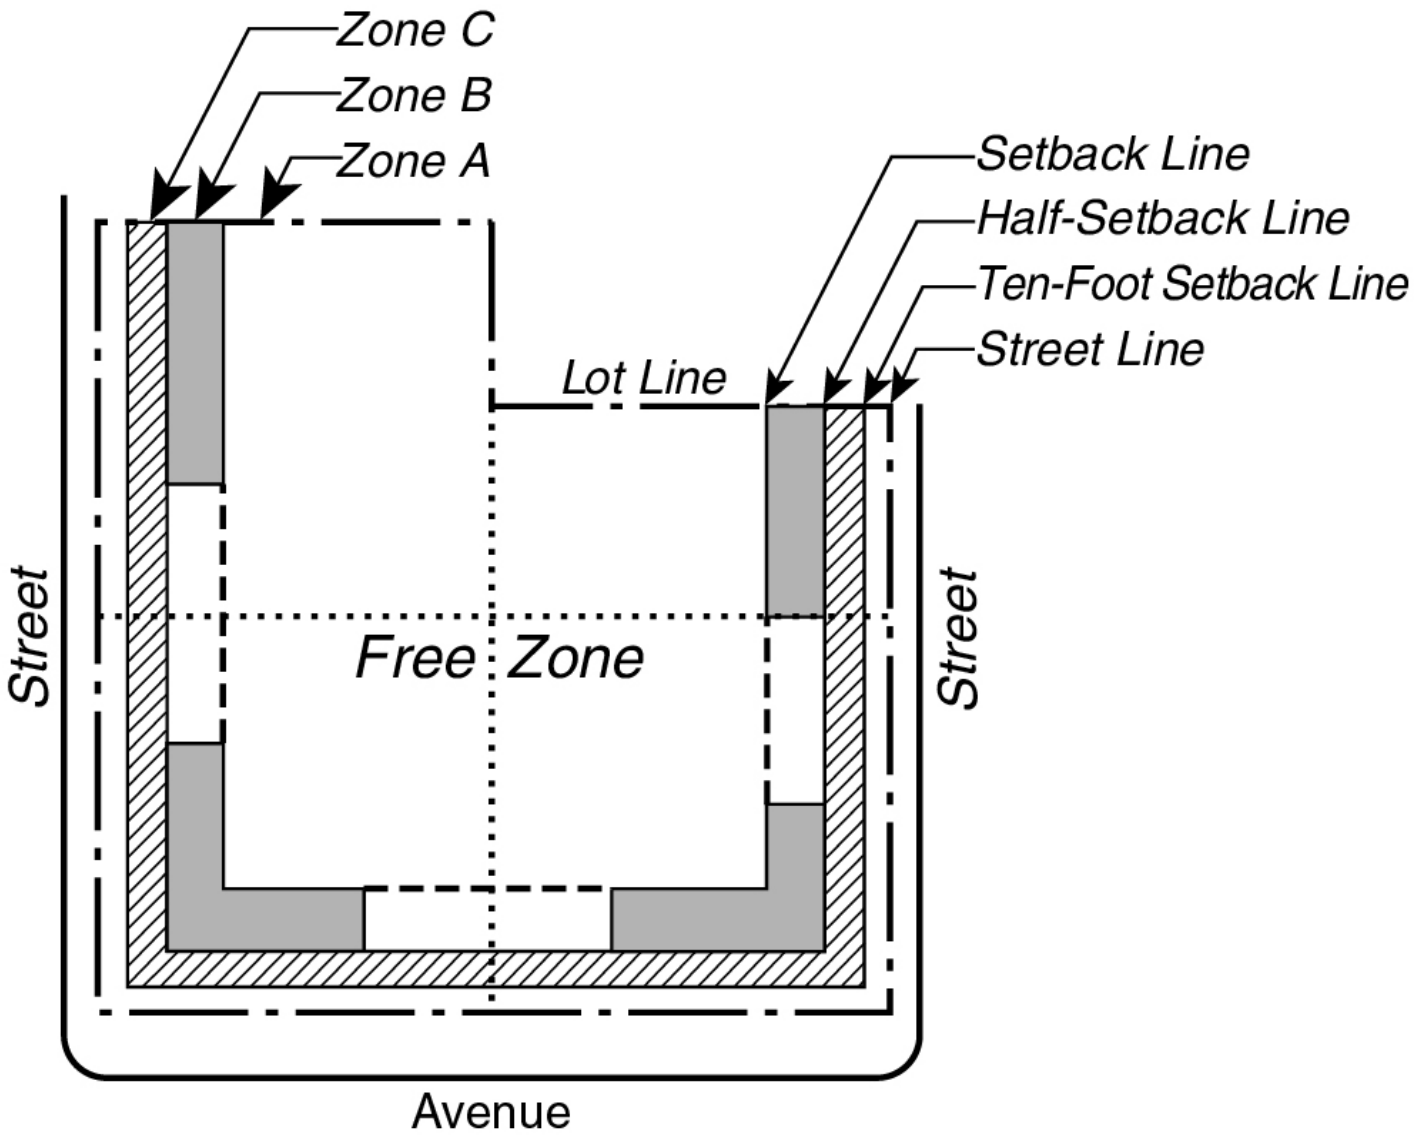
ENCROACHMENT GRID

(81-261.2)

Free zone

That portion of a #zoning lot#, at any given height, which may be covered by a #building# without coverage constituting an #encroachment# that requires daylight compensation.

In addition to the area that lies behind a #setback line# or #setback lines#, the #free zone# shall include areas between the #setback line# and either the #half-setback line# or the #ten-foot setback line#, whichever is further from the #street line#, and which qualify as #free zone# areas under the #middle one-third rule#. The #free zone# is referred to as #Zone A# on the #encroachment grid#.



FREE ZONE

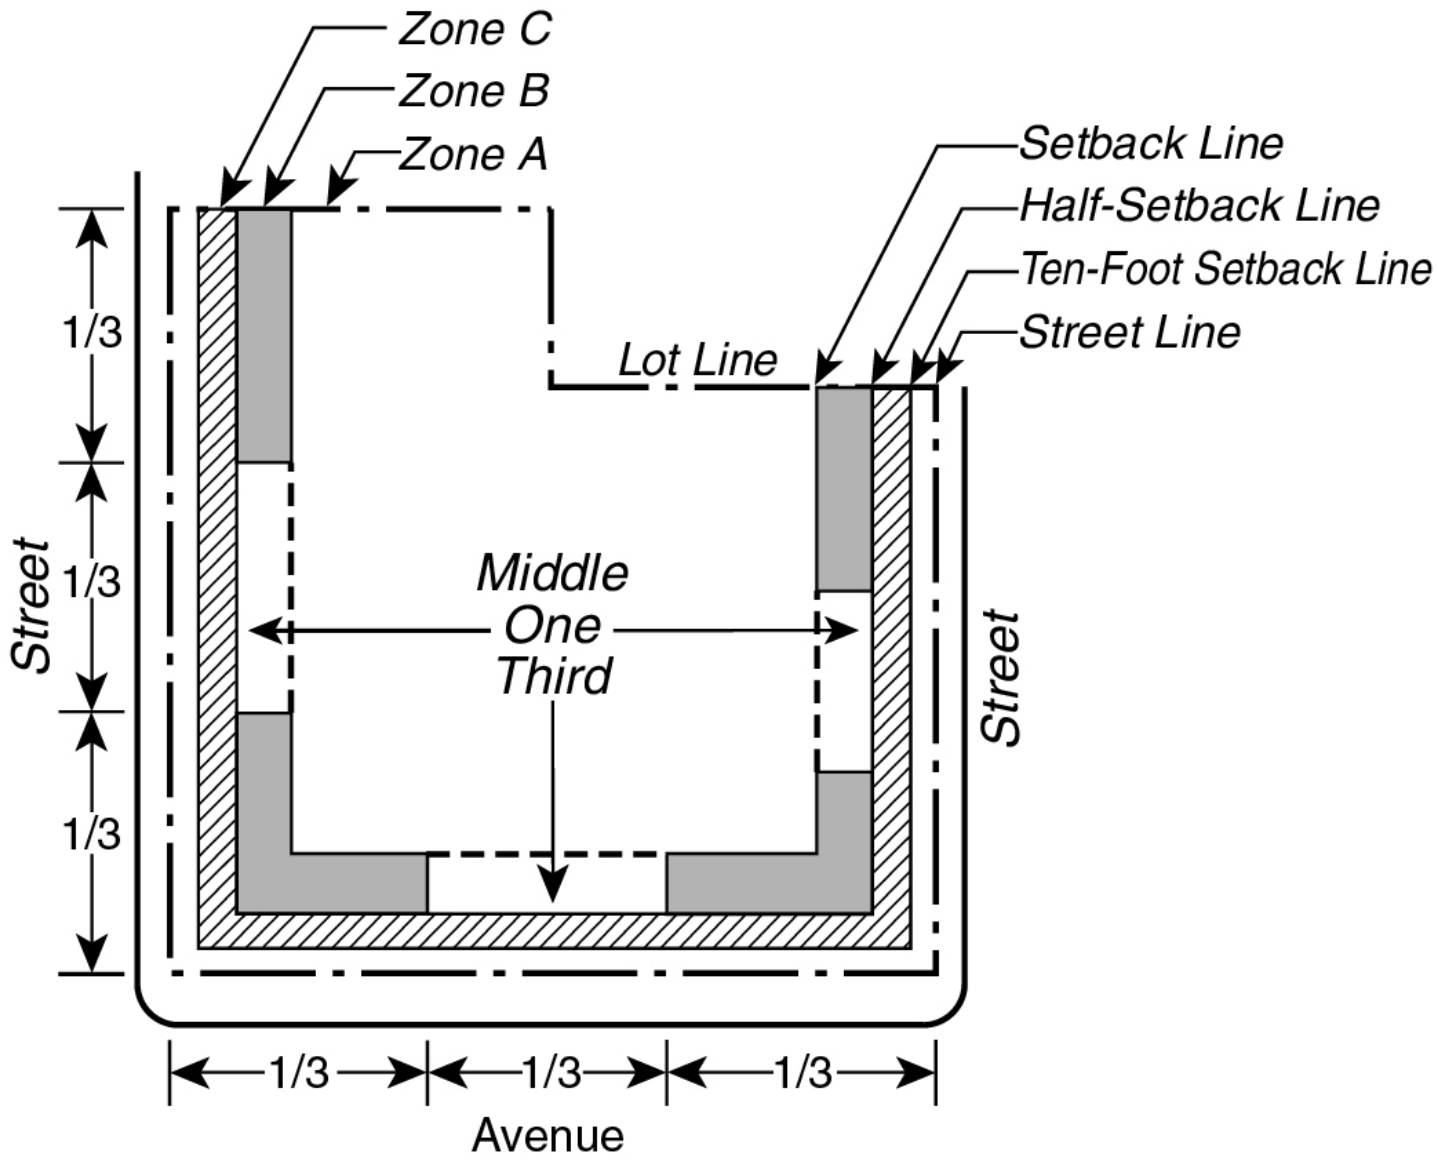
(81-261.3)

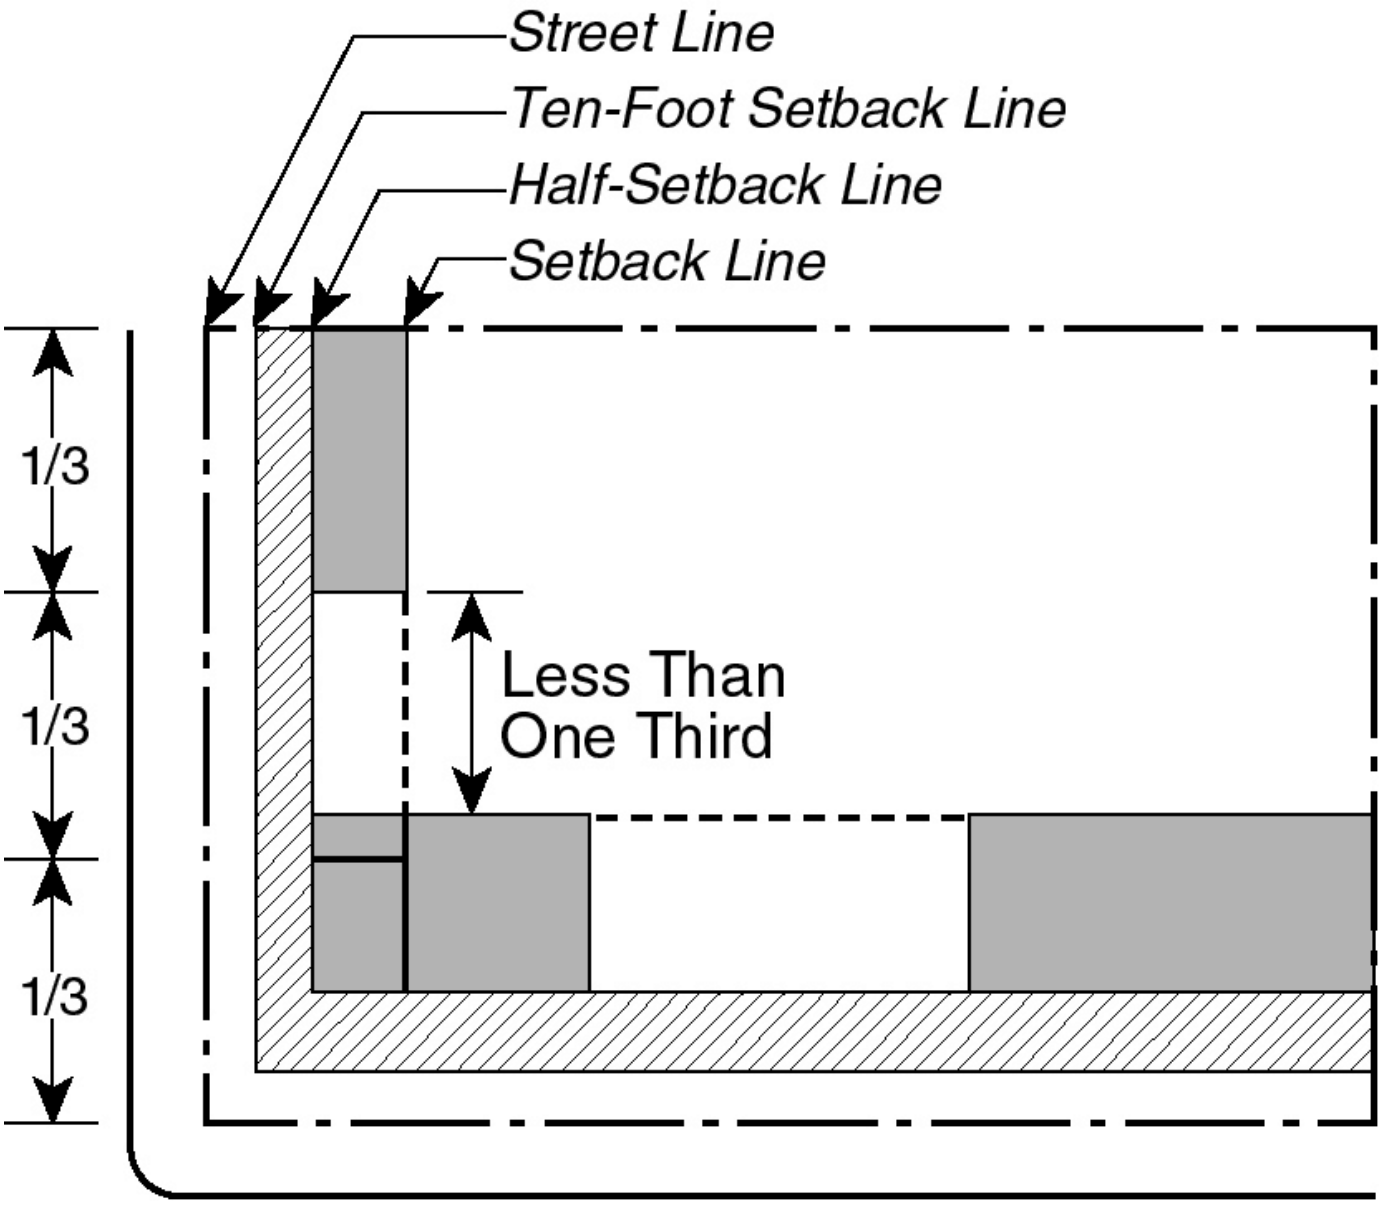
Half-setback line

A line drawn parallel to a #street line# and halfway between the #street line# and the #setback line#. (See illustration of #Setback Line# and #Half-Setback Line#)

Middle one-third rule

The rule under which, for the middle one-third of the #front lot line# length, the #free zone# includes area between the #setback line# and either the #half-setback line# or the #ten-foot setback line#, whichever is further from the #street line#. However, on a #corner lot# the #free zone# does not extend beyond the #setback line# along an intersecting #street#. (See illustrations of #Middle One-Third Rule#)





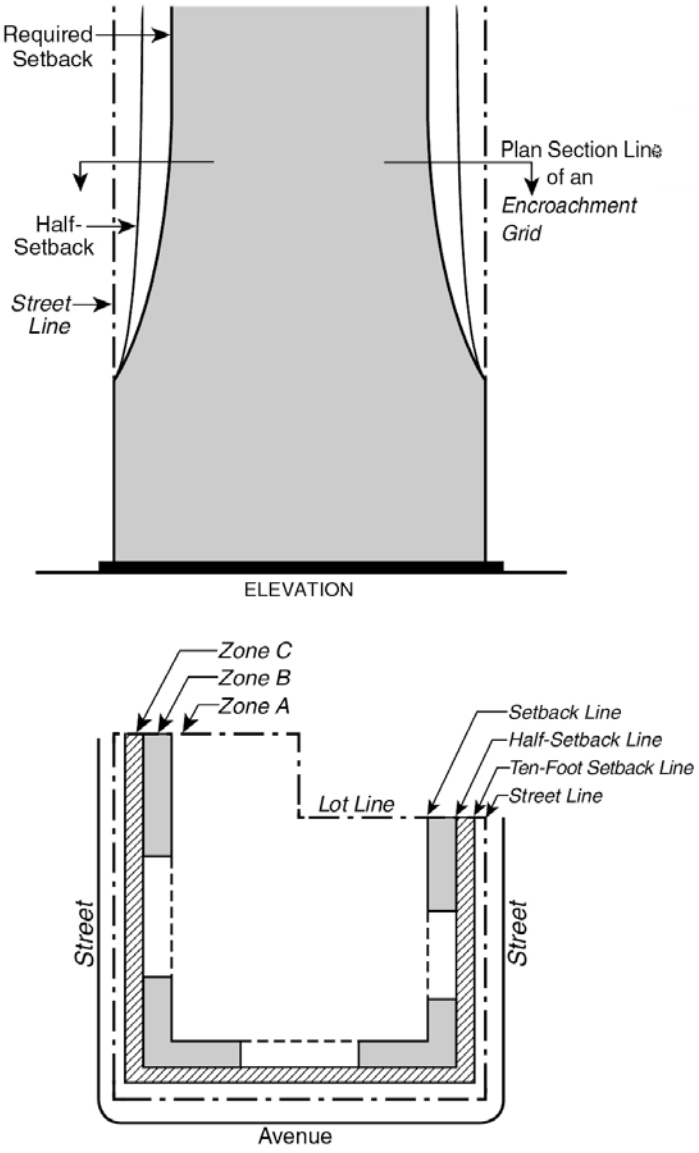
MIDDLE ONE-THIRD RULE

(81-261.4)

Setback line

A line drawn in plan parallel to a #street line# and showing for a given #building# height the minimum depth to which a #building# is required to be set back from the #street line# by the applicable depth to height chart in Section 81-263 (Standard setback requirements). Required

setbacks, established by the chart, increase with the #building's# height. (See illustration of #Setback Line# and #Half-Setback Line#)

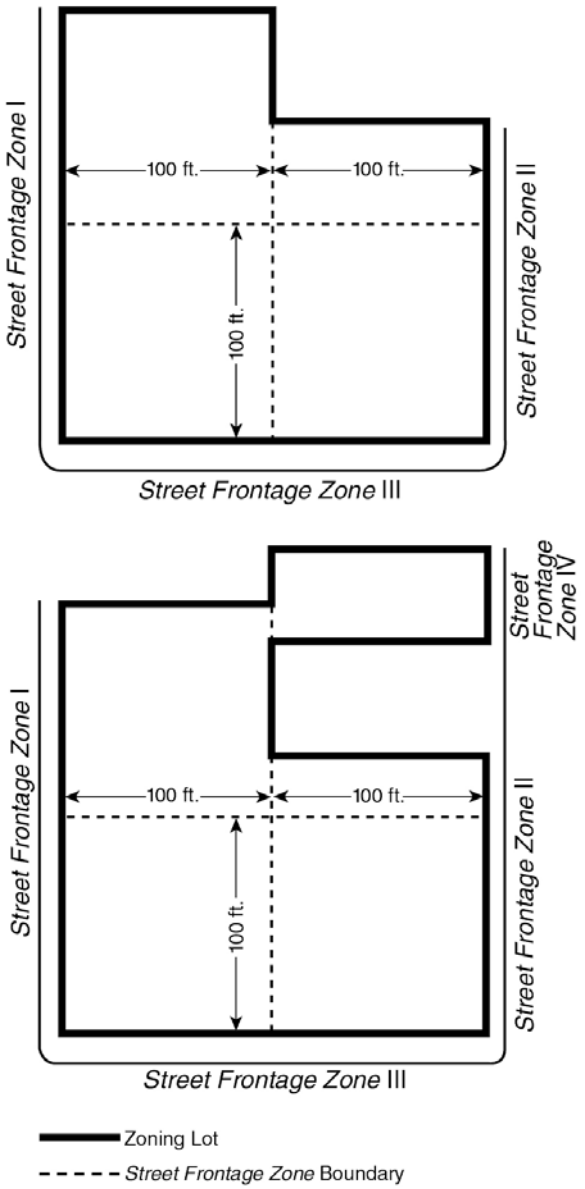


SETBACK LINE AND HALF-SETBACK LINE

(81-261.5)

Street frontage zone

A portion of a #zoning lot# which lies within an area bounded by a continuous #front lot line# and either the center line of the #block# or a line 100 feet distant from and parallel to that #front lot line#, whichever is closer to that #front lot line#. There shall be a #street frontage zone# for each #zoning lot# #street# frontage. (See illustration of #Street Frontage Zones#)

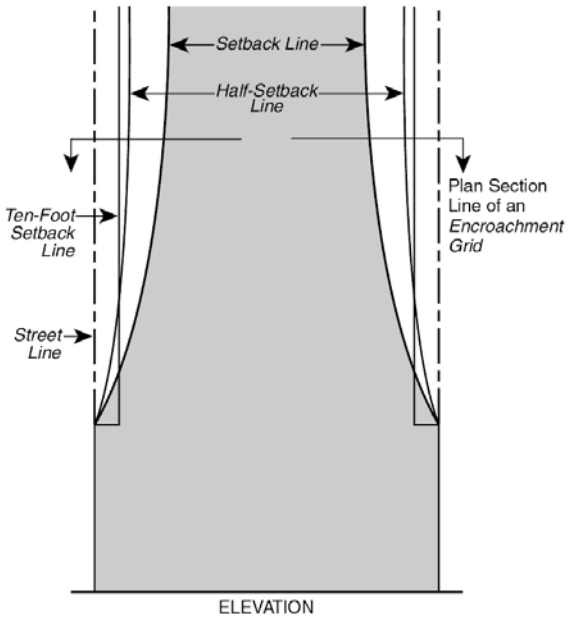


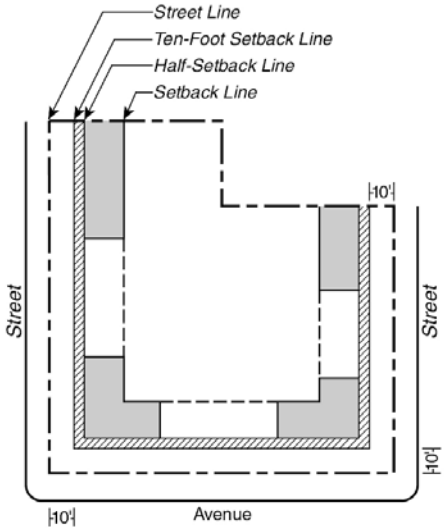
STREET FRONTAGE ZONES

(81-261.6)

Ten-foot setback line

A line which is parallel to the #street line# at a depth of 10 feet and represents the minimum distance any portion of a #building# exceeding the maximum height at the #street line# is required to be set back from the #street line#. A greater setback distance may be required by a #setback line# or a #half-setback line# depending upon the #building# height for which such #setback line# or #half-setback line# is established.





TEN-FOOT SETBACK LINE ON AN ENCROACHMENT GRID

(81-261.7)

Zone A, Zone B, Zone C

"Zone A," "Zone B" and "Zone C" are zones on an #encroachment grid# defined as follows:

(a) #Zone A# is the #free zone#.

(b) #Zone B#, an #encroachment# zone, is the zone, exclusive of any area in #Zone A# and any area closer to the #street line# than the #ten-foot setback line#, which lies between the #setback line# and either the #half-setback line# or the #ten-foot setback line#, whichever is further from the #street line#.

(c) #Zone C#, an #encroachment# zone and penalty zone, is the zone, exclusive of any area closer to the #street line# than the #ten-foot setback line#, which lies between the #half-setback line# and the #ten-foot setback line#.

81-262 - Maximum height of front wall at the street line

LAST AMENDED
5/13/1982

(a) General provisions

The front wall of a #building# at the #street line# shall not exceed the height limit applying along the #street# on which it fronts. Maximum front wall heights at the #street line# vary with the width of the #street# on which the wall fronts, as follows:

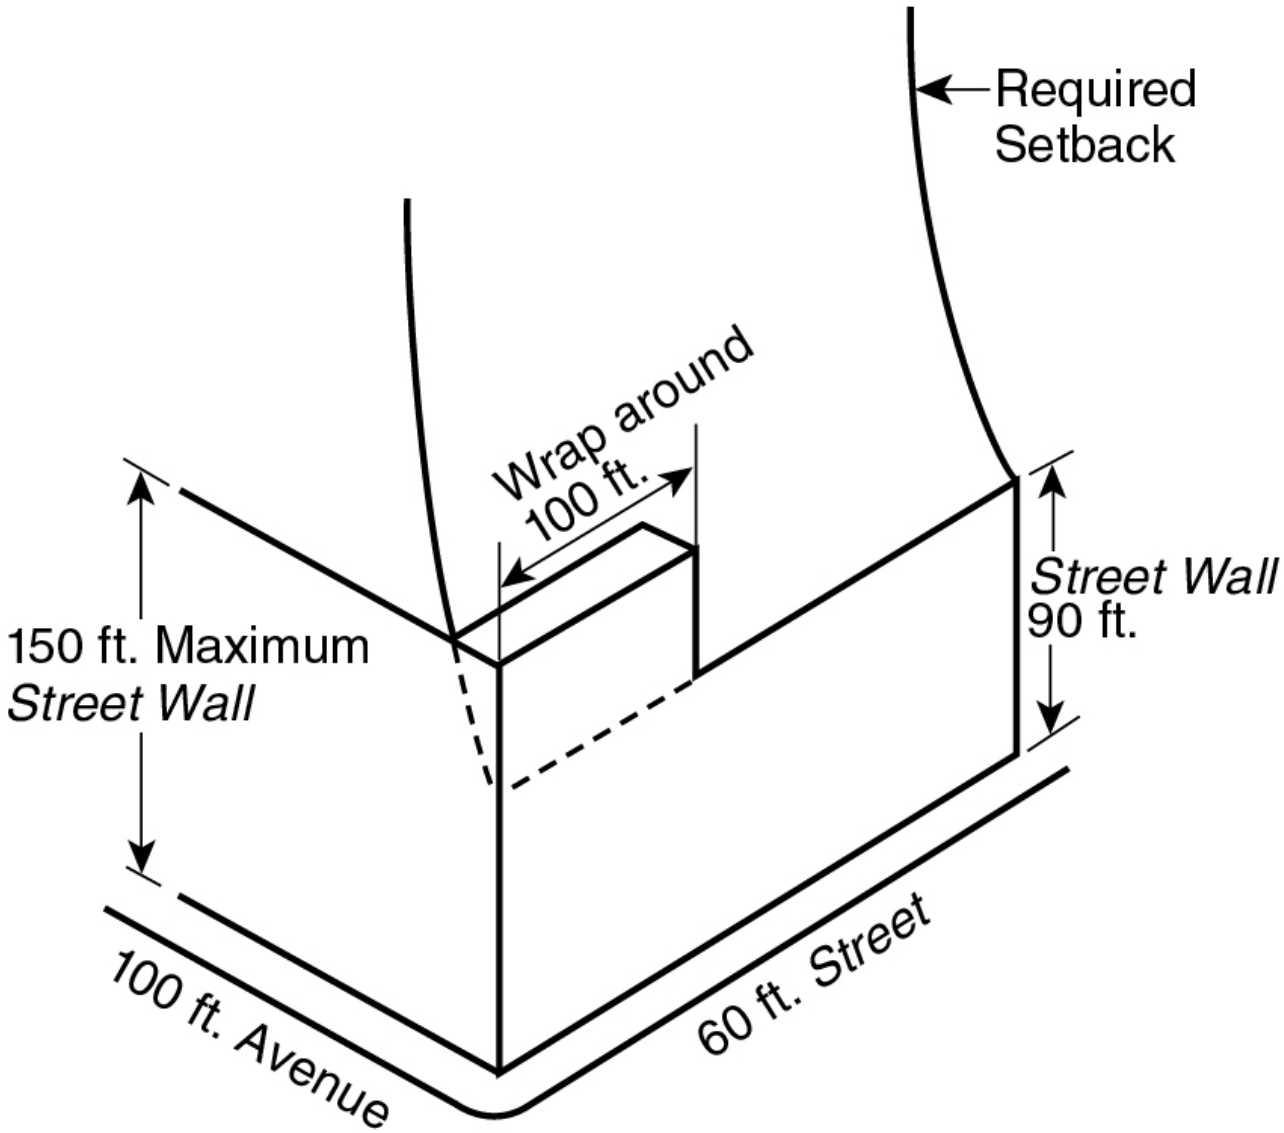
#Street# Width (in feet)	Maximum Front Wall Height at #Street Line# (in feet)
60 or less	90
75 or 80	120
100 or more	150

(b) Special provisions for #corner lots#

For a #corner lot# with frontage on #streets# of different widths, the maximum front wall height at the #street line# of the narrower #street# may be increased above that indicated in paragraph (a) in accordance with either one of the following rules:

Rule 1:

The maximum front wall height at the #street line# for the wider #street# may extend up to 100 feet from the corner along the #street line# of the narrower #street#; or



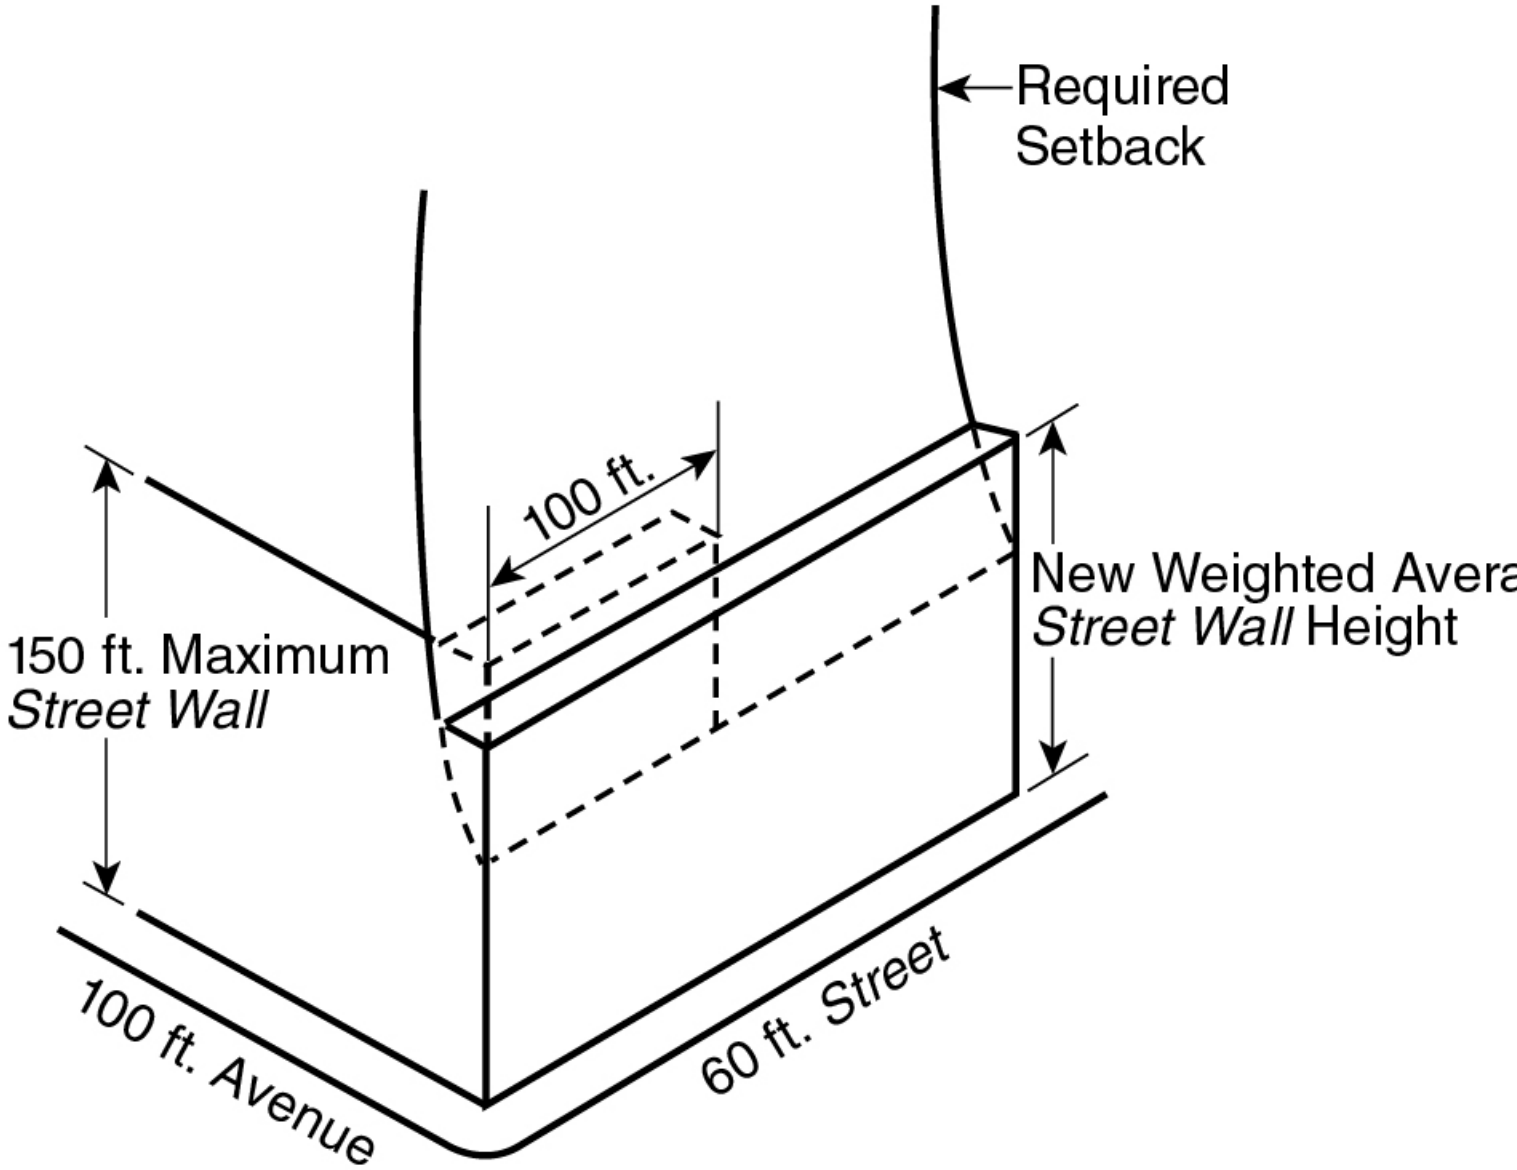
SPECIAL RULE 1 FOR CORNER LOTS

(81-262b.1)

Rule 2:

For any length of frontage from the corner along the narrower #street#, a maximum height for such length of frontage may apply, which shall be the weighted average of (1) the height permitted under Rule 1 for the first 100 feet from the corner, and (2) the standard height

limit for front walls on the narrower #street# for the remainder of the frontage. (See illustration of Special Rules for #Corner Lots#)



SPECIAL RULE 2 FOR CORNER LOTS

(81-262b.2)

81-263 - Standard setback requirements

LAST AMENDED
2/2/2011

#Buildings# shall comply with the regulations of this Section.

(a) Ten-foot setback requirement

Above the maximum height permitted at the #street line# pursuant to the provisions of Section 81-262, every portion of a #building# shall be set back at least 10 feet from the #street line#.

(b) General setback provisions; depth to height charts

Above the maximum height permitted at the #street line#, #buildings#, in addition to meeting the requirements of paragraph (a) of this Section, are required to be set back behind the applicable #setback line#, the depth of the #setback line# at any point depending upon the height of the wall at that point in accordance with the requirements of applicable Tables A, B or C of this Section presenting required setbacks from #streets# 60 feet or less, 75 or 80 feet, or 100 or more feet in width, respectively.

Above 710	For every 10 feet the depth shall increase by one foot

(c) Use of tables

To comply with the setback requirements of this Section, a #building# at any height shall be set back at least to the depth of the #setback line# indicated on the applicable table.

For heights between those shown on the table, the depth of the #setback line# shall be interpolated.

Required depths of #setback lines# shall be rounded off to the next highest half foot.

The setback requirements apply only to portions of #buildings# above the maximum height permitted at the #street line#, so that required setbacks on the narrower #street# frontage of a #corner lot# shall apply only to heights above the maximum front wall heights permitted by the #corner lot# provisions of paragraph (b) of Section 81-262 (Maximum height of front wall at the street line).

(d) #Middle one-third rule#

A #building# may penetrate beyond the #setback line# at any height if the penetration is confined to the middle third of the #front lot line# length and complies in all respects with the #middle one-third rule# as defined in Section 81-261 (Definitions).

81-264 - Encroachments and compensating recesses

LAST AMENDED
2/2/2011

In addition to complying with the setback requirements of Section 81-263 (Standard setback requirements), a #building# shall not at any height encroach beyond a #half-setback line# or a #ten-foot setback line#, except as provided below. For each #street frontage zone# and for all #street frontage zones#, taken together on a single #encroachment grid#, a #building# shall not, at any level, have an aggregate area of #encroachment# beyond the #setback line#, other than in any #free zones#, greater than the aggregate area of #compensating recess# at such level.

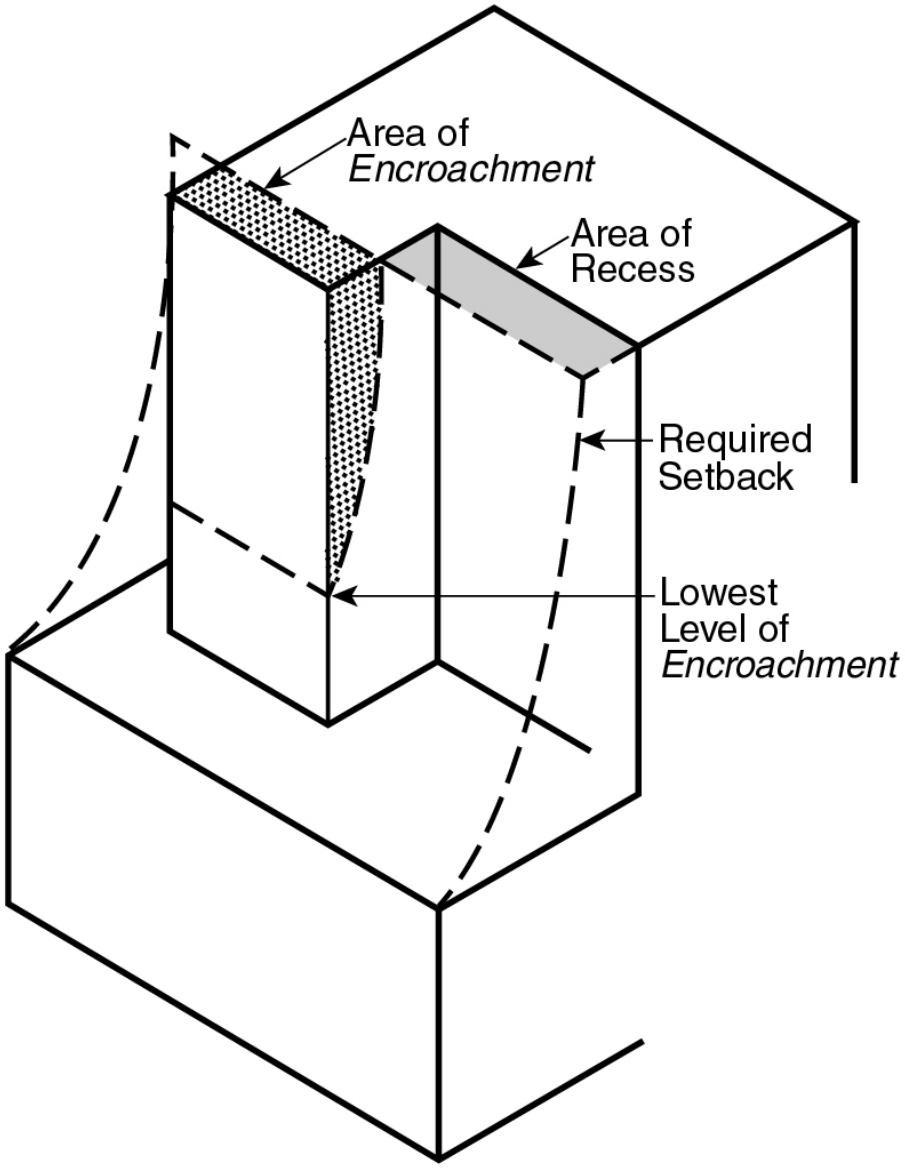
Except as provided below, an area of #compensating recess# in one #street frontage zone# shall not be used to compensate for #encroachment# in another #street frontage zone#. However, a #building# with a #street frontage zone# which lies along a north-south #wide street# and does not meet the above requirements because of excessive #encroachment# will be in compliance with the #street frontage zone# requirements of this Section if compensation is provided for such excessive #encroachment# by an overlapping #street frontage zone#.

The requirement that the aggregate area of #compensating recess# at least equal the aggregate area of #encroachment#, as set forth in this Section, shall also apply to any #building# which encroaches beyond a #half-setback line# and which is therefore subject to the provisions of Section 81-265 (Encroachment limitations by length and height rules). (See illustration of Encroachments and Compensating Recesses)

(a) Rules for measuring #encroachments# and recesses

Areas of #encroachment# and #compensating recess# shall be measured in plan on one or more #encroachment grids# showing for the #zoning lot#, at a given height level, the #street lines#, the #setback lines#, the #half-setback lines#, the #ten-foot setback lines#, #Zone A#,

#Zone B# and #Zone C# and the #street frontage zones#.



ENCROACHMENTS AND COMPENSATING RECESSES

(81-264a)

The scale of the #encroachment grid# shall be not more than 20 feet to the inch. All #buildings#, existing and proposed, shall be located accurately on the grid in plan at the height level selected to demonstrate compliance. For each #street frontage zone#, the areas of the #building's# #encroachment# in #Zone B# and #Zone C# and the #compensating recess# areas

not covered by any #building# in #Zone A# shall be measured on the #encroachment grid#.

(b) Limits of #encroachment#

Except as provided in paragraph (d) of this Section for existing #buildings# below specified heights, #encroachment# is limited as follows:

(1) For each #street frontage zone#, at every height above the maximum front wall height at the #street line#, the area within #Zone A# that is not covered by a #building# and qualifies as #compensating recess# area shall, in the aggregate, equal or exceed the aggregate area in #Zone B# and #Zone C# that is encroached upon by a #building# at such height.

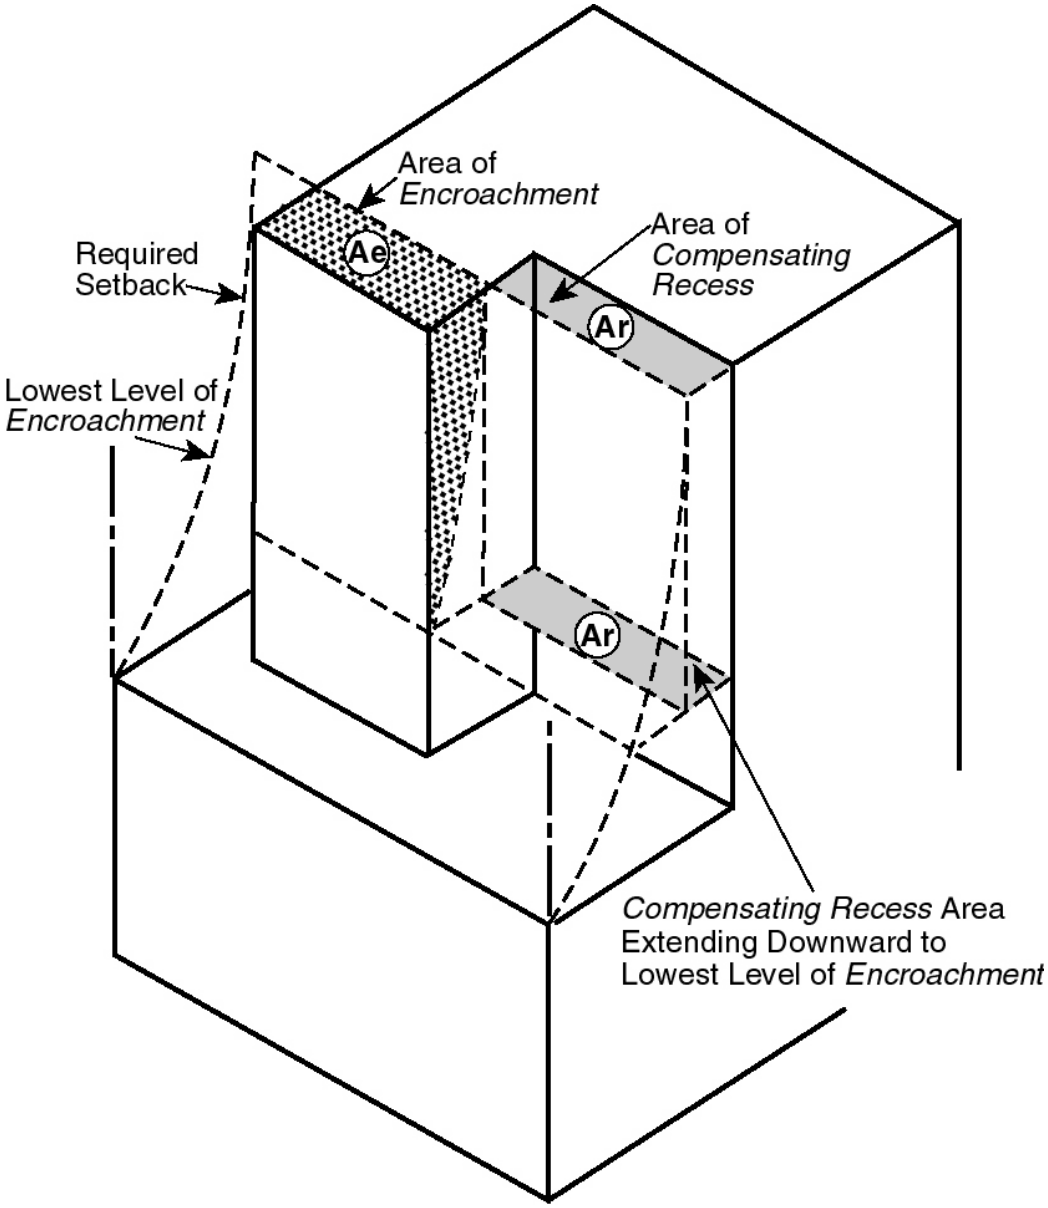
(2) No part of a #building# shall encroach into #Zone C# unless it complies with the provisions of Section 81-265.

(3) On #corner lots#, the projection of a #building# beyond the #setback line# or #half-setback line# on the narrower #street# shall not count as an #encroachment# except at heights above the maximum height permitted at the #street line# by the #corner lot# provisions in paragraph (b) of Section 81-262 (Maximum height of front wall at the street line).

(c) Limitations on #compensating recess#

#Compensating recess# areas are subject to the following limitations:

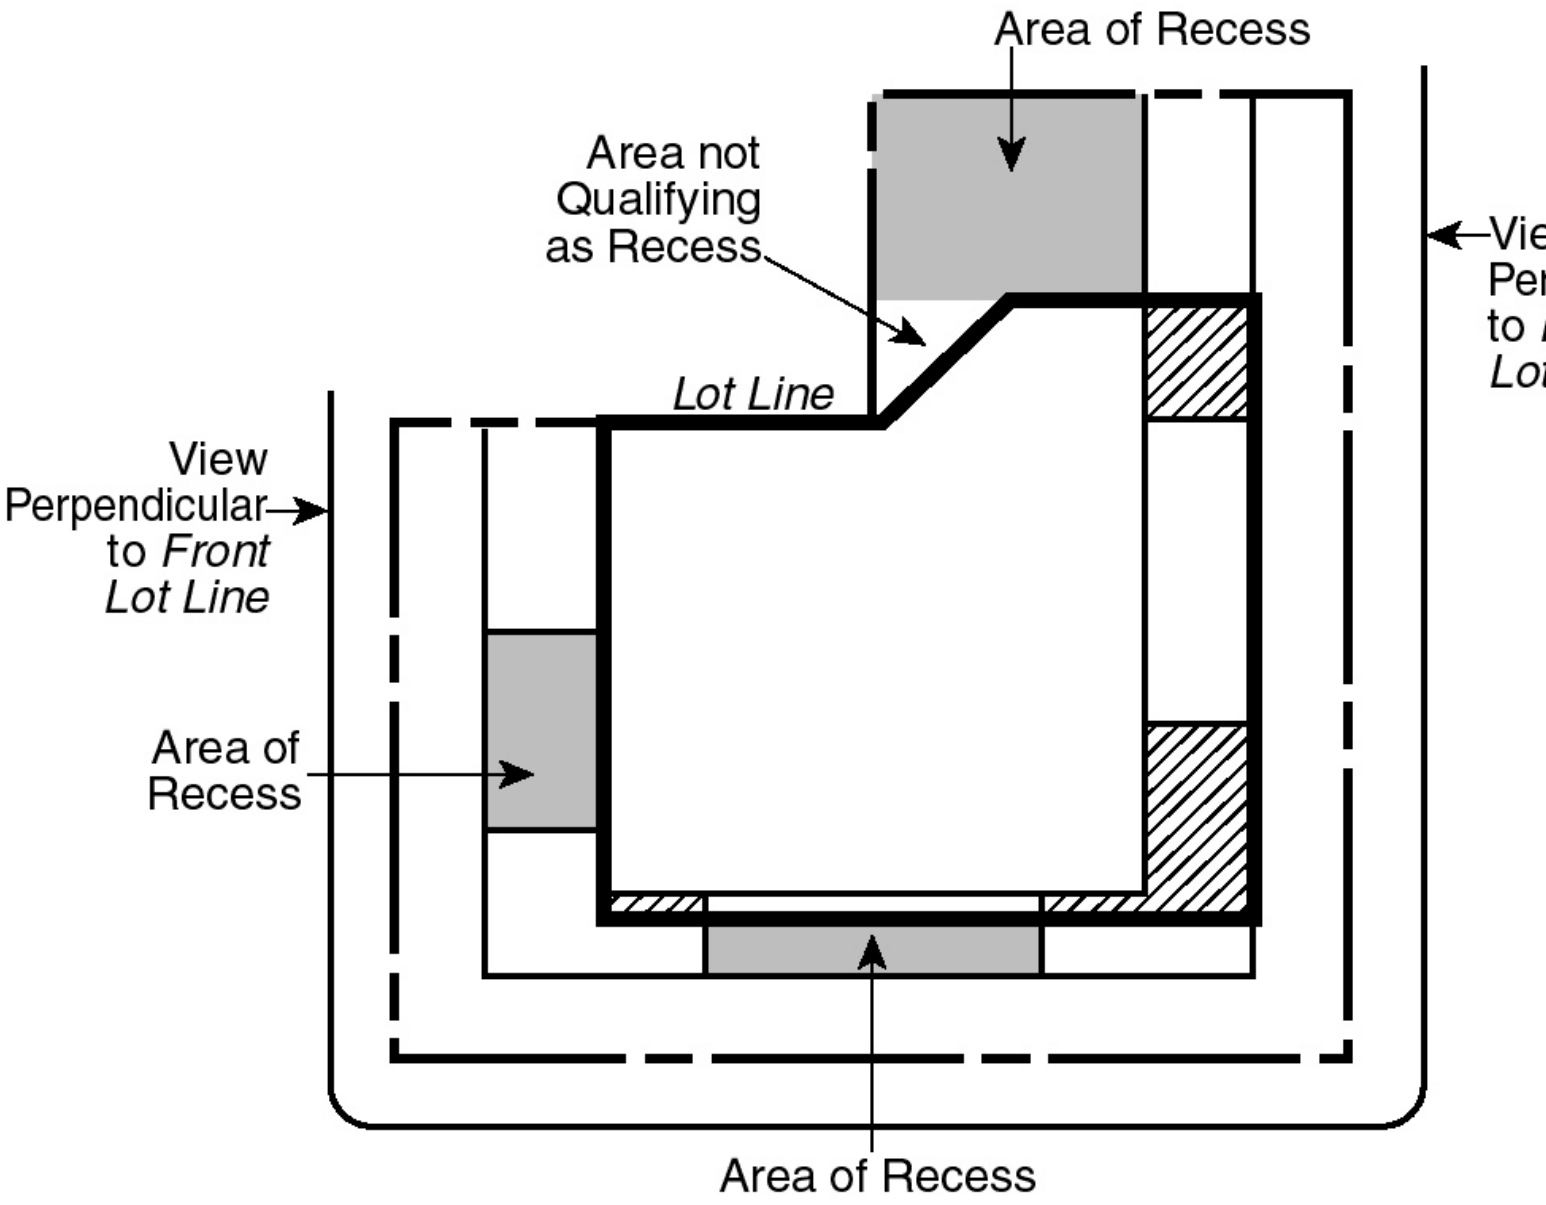
(1) Any required #compensating recess# area shall extend without diminution of dimensions downward at least to the lowest level at which any #encroachment# into #Zone B# or #Zone C# occurs and upward to the sky. (See illustration of Extension Downward of Compensating Recess Area)



EXTENSION DOWNWARD OF COMPENSATING RECESS AREA

(81-264c1)

(2) #Compensating recess# area shall be visible when viewed from at least one adjacent #street# along a line that intersects the #front lot line# of the #zoning lot# at right angles. (See illustration of Visibility of Compensating Recess Area)

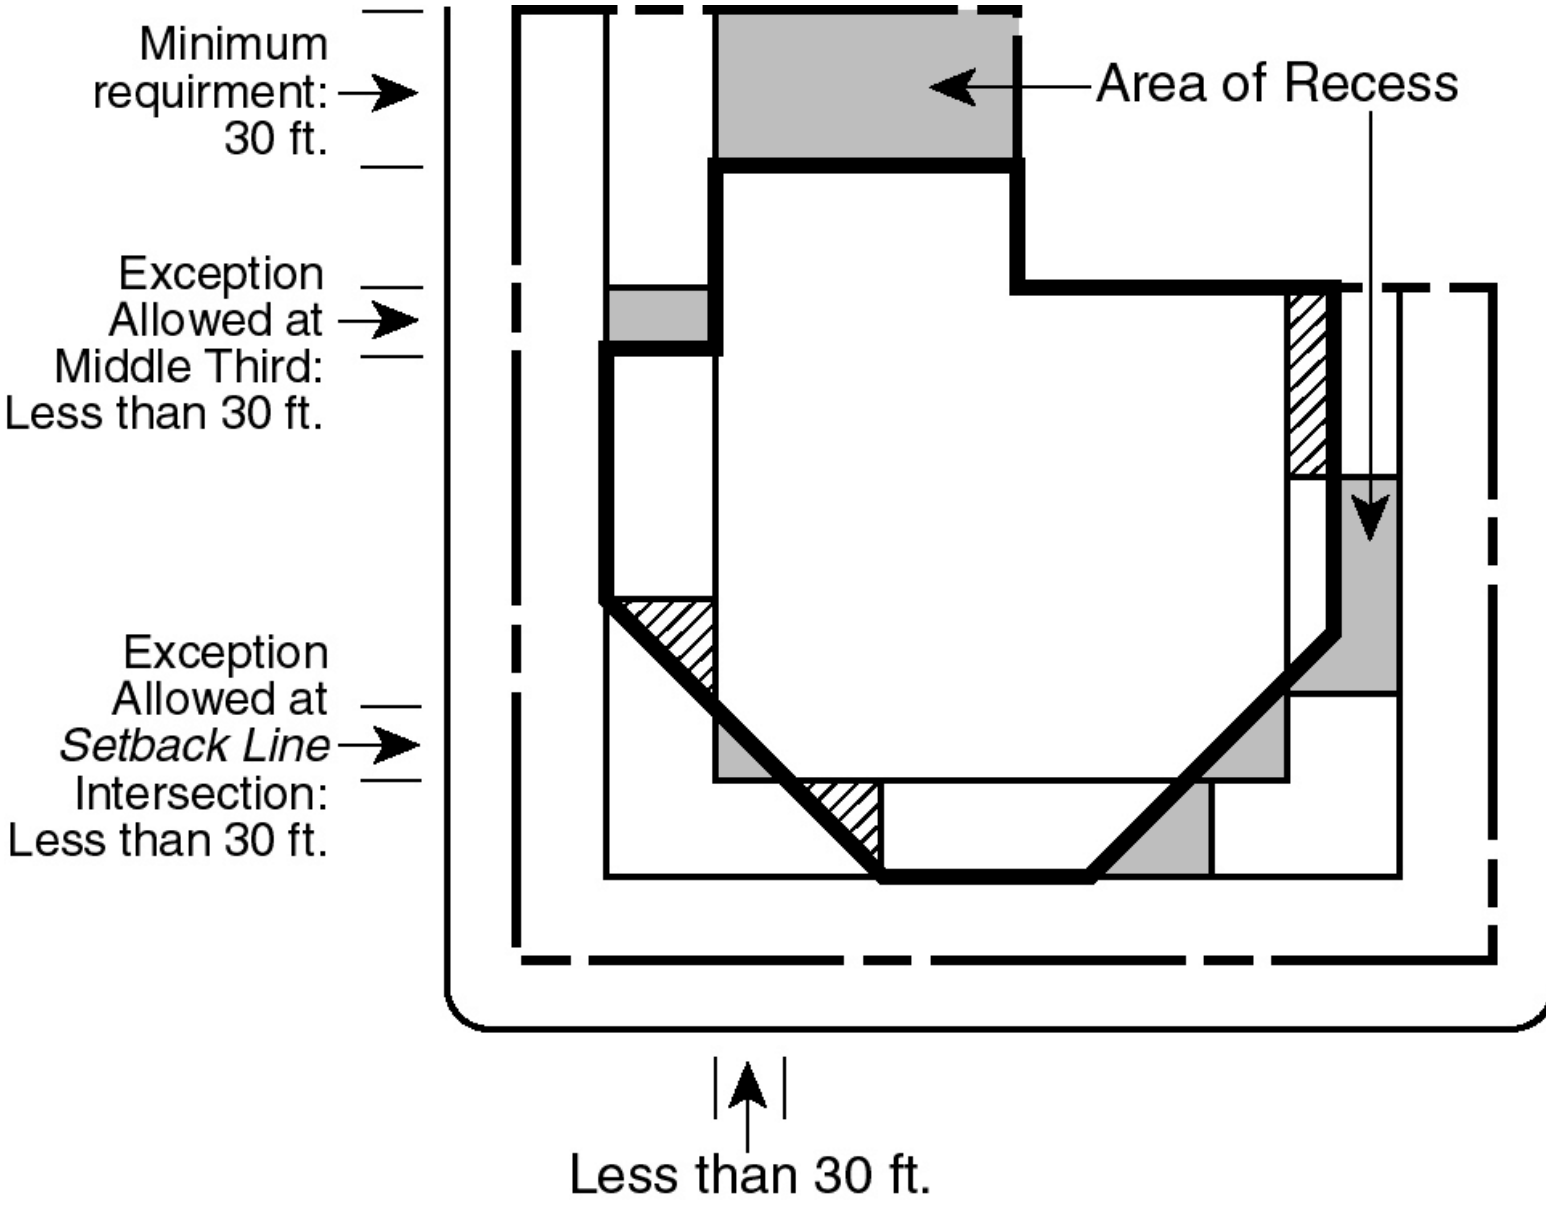


VISIBILITY OF COMPENSATING RECESS AREA

(81-264c2)

(3) The minimum length of a #compensating recess#, measured parallel to the #street line#, and behind the #setback line#, is 30 feet, except for any uncovered portion of an area that qualifies as #Zone A# under the #middle one-third rule# or an uncovered area located behind two intersecting #setback lines#. An uncovered area between the #setback line# and #half-setback line# that qualifies as #Zone A# under the #middle one-third rule# is not subject to the minimum length requirement. (See illustration of

Minimum Length of Compensating Recess)



MINIMUM LENGTH OF COMPENSATING RECESS

(81-264c3)

(4) #Compensating recess# area shall be within 100 feet of a #front lot line#.

(d) Existing #buildings# on the #zoning lot#

Where a #zoning lot# contains an existing #building# which exceeds a height limit, an

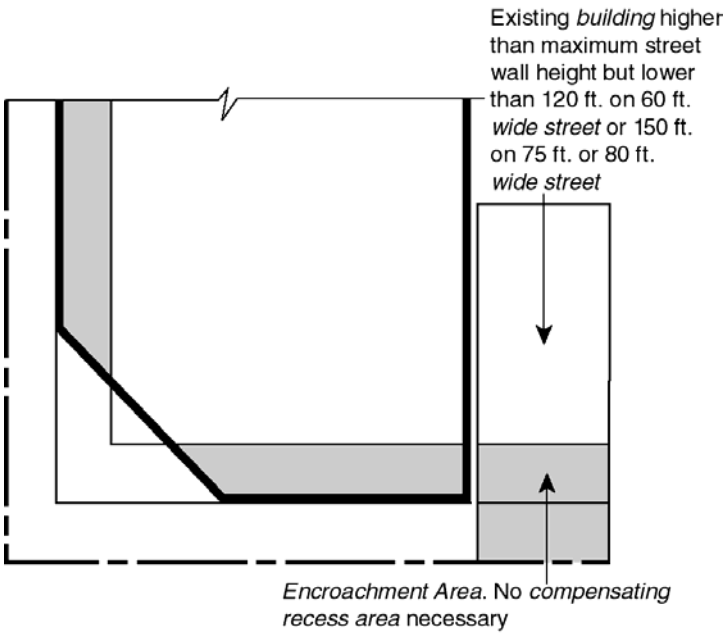
#enlargement# or #development# on such #zoning lot# shall comply with the following provisions:

(1) For each #street frontage zone#, if the existing #building# is not more than 120 feet in height at any point and encroaches into #Zone B# or #Zone C# or beyond the #ten-foot setback line# along the frontage of a #street# 60 feet wide, or if the existing #building# is not more than 150 feet in height at any point and encroaches into #Zone B# or #Zone C# or beyond the #ten-foot setback line# along the frontage of a #street# 75 or more feet in width, the new #building# or #enlargement# is not required to compensate for such #encroachment# by the provision of #compensating recess# areas. #Encroachment# by such an existing #building# into #Zone C# or beyond the #ten-foot setback line# will not subject the new #building# or #enlargement# to the provisions of Section 81-265 unless the new #building# or #enlargement# also encroaches into #Zone C#.

(2) For each #street frontage zone#, space above such existing #building# and within #Zone A# on the #encroachment grid# may count as #compensating recess# area for the new #building# or #enlargement# provided that such space is at or below the lowest level of any compensable #encroachment# by the new #building# or #enlargement#, that it is located within the same #street frontage zone# as that compensable #encroachment#, and that it qualifies in all respects under the provisions of paragraph (c) of this Section (Limitations on #compensating recess#).

(3) For each #street frontage zone#, if an existing #building# more than 120 feet in height at any point encroaches into #Zone B# or #Zone C# or beyond the #ten-foot setback line# along the frontage of a #street# 60 feet wide, or if an existing #building# more than 150 feet in height at any point encroaches into #Zone B# or #Zone C# or beyond the #ten-foot setback line# along the frontage of a #street# 75 or more feet in width, the #encroachment# of such #building# into #Zone B# or #Zone C# or beyond the #ten-foot setback line# at any height shall be subject to the requirements for

#compensating recess# areas set forth in paragraph (b)(1) of this Section, as if it were a new #building#. Where such an existing #building# encroaches into #Zone C# or beyond the #ten-foot setback line#, the provisions of paragraph (f)(2) in Section 81-265 shall apply in addition to the provisions of this Section. (See illustration of Existing Buildings on the Zoning Lot)



EXISTING BUILDINGS ON THE ZONING LOT

(81-264d3)

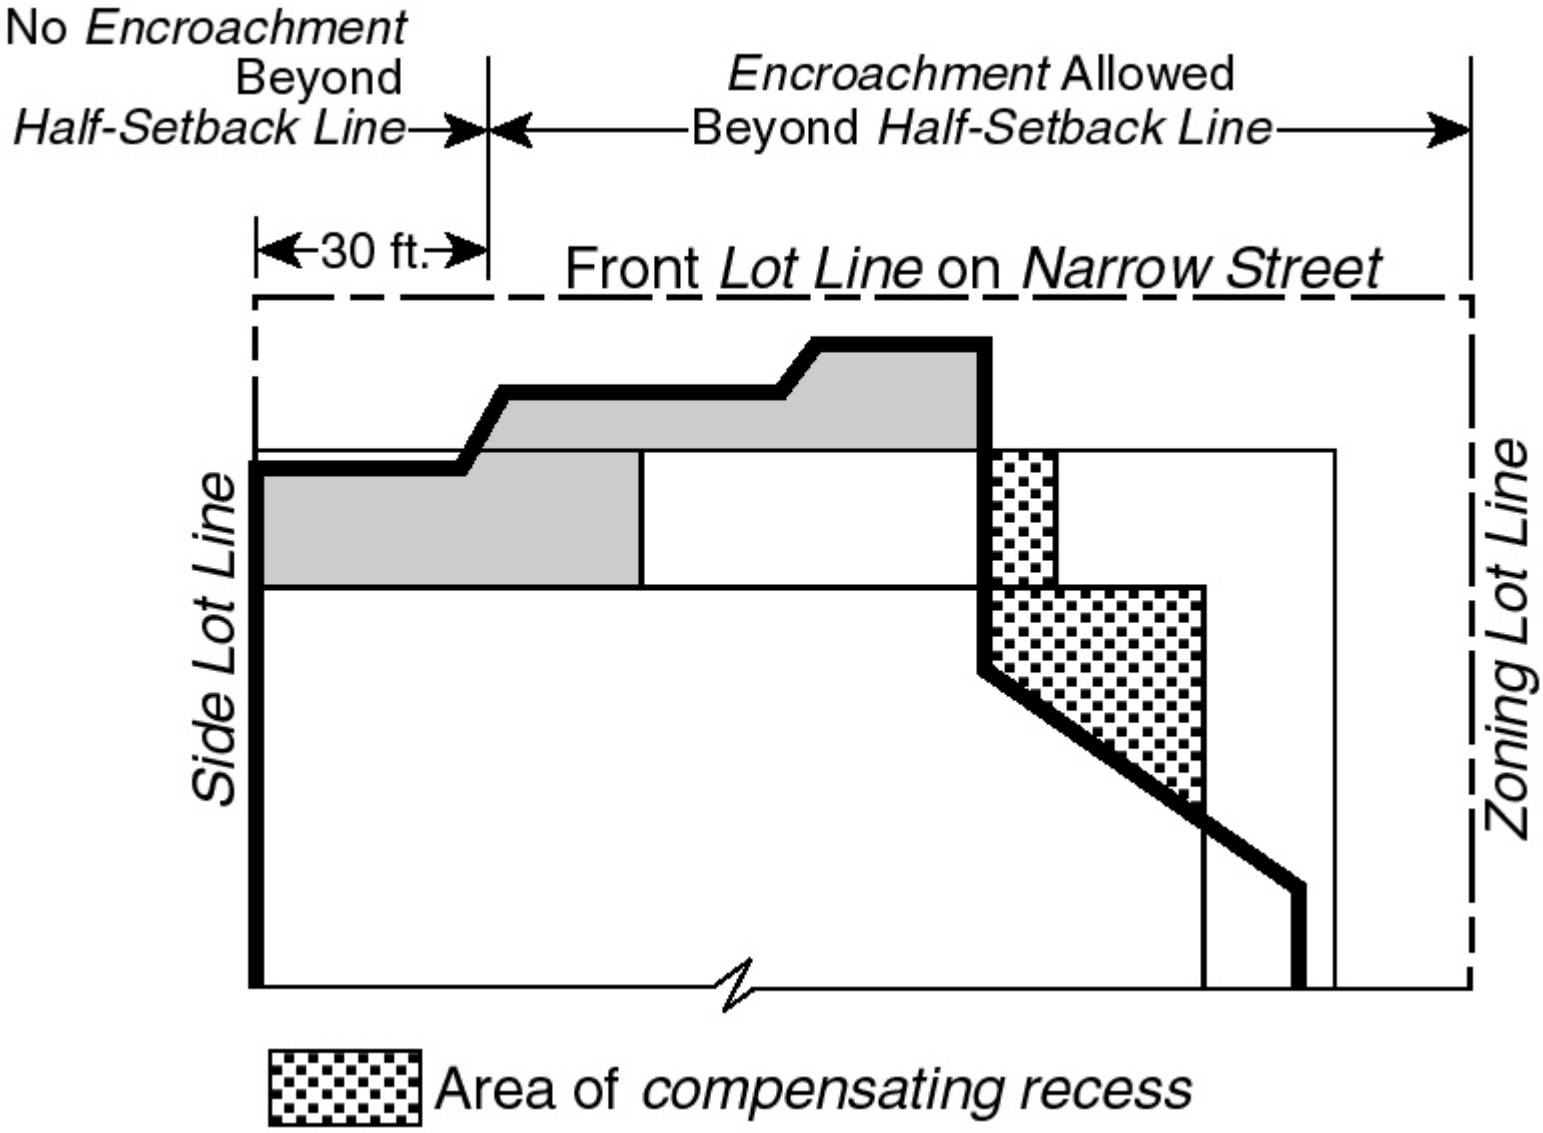
81-265 - Encroachment limitations by length and height rules

LAST AMENDED
4/28/1988

Above the maximum height of a front wall at the #street line# as set forth in Section 81-262, a #building# may only encroach beyond the #half-setback line# if it complies with the provisions of this Section and if the area of #compensating recess# equals or exceeds the area of #encroachment# in #Zone B# and #Zone C# in accordance with the provisions of Section 81-264 (Encroachments and compensating recesses).

(a) Special limitations

No #encroachment# beyond the #half-setback line# shall be within 30 feet of a #side lot line#. (See illustration of Prohibited and Allowed Encroachment Beyond Half-Setback Line)



PROHIBITED AND ALLOWED ENCROACHMENT BEYOND

HALF-SETBACK LINE

(81-265a)

(b) General provisions

The length, depth, height and area of #encroachments# along any #street# frontage all contribute to a #building's# impact on daylight access. In order to determine whether the

depth of a #building's# #encroachment# into #Zone C# is justified, the length of the #encroachment#, measured parallel to the #street line#, and its height above #curb level# must also be evaluated. The extent of #encroachment# also must be considered in relation to the extent of the area of #compensating recess# in the same #street frontage zone#. The purpose of the length and height rule is to ensure, in the case of #encroachments# beyond the #half-setback line#, that the closer a #building# comes to the #street line#, the less will be the length of its #encroachment#, its height or both. (See illustration of Elements Analyzed)

The elements comprising this analysis are represented by symbols and are as follows:

(1)

$$\frac{De}{D} = \frac{\text{depth of \#encroachment\#}}{\text{depth of \#setback line\#}}$$

De (depth of #encroachment#) means depth of #encroachment# beyond the #setback line#. Depth of #encroachment# is measured perpendicularly to the #setback line#.

D (depth of #setback line#) means depth of #setback line# from the #street line# or depth of #ten-foot setback line# from the #street line#, whichever depth is greater.

(2)

$$\frac{Le}{L} = \frac{\text{length of \#encroachment\#}}{\text{length of \#front lot line\#}}$$

Le (length of #encroachment#) means total length of #encroachment# outside the #half-setback line#. Length of #encroachment# is measured as the total length of the #encroachments'# projections on the #street line#.

L (length of #front lot line#) means the length of the #front lot line# along the particular #street#. However, the length of the #front lot line# for the purposes of this Section shall not exceed 300 feet, irrespective of the actual #lot line# length.

(3)

$$\frac{Le}{Lr} = \frac{\text{length of \#encroachment\#}}{\text{length of recess}}$$

Le (length of #encroachment#) as defined in paragraph (b)(2) of this Section.

Lr (length of recess) means total length of #setback line# not encroached upon by a #building#.

(4)

$$\frac{H}{L} = \frac{\text{height of \#encroachment\#}}{\text{length of \#front lot line\#}}$$

H (height of #encroachment#) means the height of the #encroachment# above #curb level#.

L (length of #front lot line#) as defined in paragraph (2) of this Section.

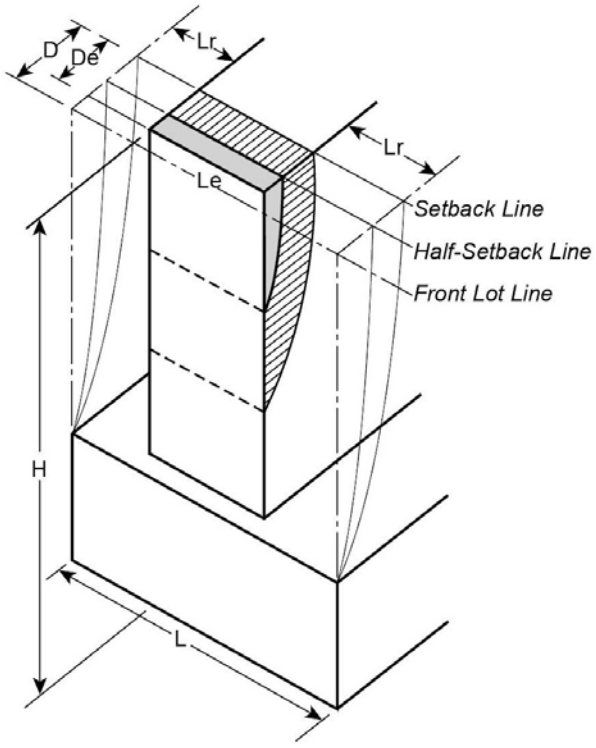
(5)

$$\frac{Ar}{Ae} = \frac{\text{area of \#compensating recess\#}}{\text{area of \#encroachment\#}}$$

Ar (area of #compensating recess#) means area of #compensating recess# in the particular #street frontage zone#. Area of #compensating recess# is calculated to a depth of 100 feet from the #street line#.

Ae (area of #encroachment#) means area of #encroachment# beyond the #setback line#. Area of #encroachment# is calculated to a depth of 100 feet from the #street line#.

Values for the elements in paragraphs (b)(1) through (b)(5) shall be found for each #street frontage zone# on which there is any #encroachment# beyond the #half-setback line#.



L – Length of *front lot line* along the particular *street*

Le – Length of *encroachment* outside *half-setback line* or *ten-foot setback line*

Lr – Total length of *setback line* not encroached by *building*

De – Depth of *encroachment*

D – Depth of *setback line*

H – Height of *encroachment* above *curb level*

ELEMENTS ANALYZED

(81-265b)

The elements, weighted according to the effects on daylight access, are represented in the formulas and charts that control the depth, length and height of #encroachments#, as set forth in paragraph (c) of this Section.

#Encroachments# of proposed #buildings# or #enlargements# beyond the #half-setback line#

are permitted only if in compliance at every point with the formulas in paragraph (c) of this Section. Aside from this general requirement, specified points at which the length, depth, height and area rules shall be applied are presented in paragraphs (d) and (e) of this Section.

(c) #Encroachment# limitations by Formulas 1 and 2

Where applicants elect to have their #buildings# regulated by the formulas, #buildings# shall comply with both Formula 1 and Formula 2 as set forth in this paragraph. Elements of the formulas and the symbols by which they are represented are as set forth in paragraph (b) of this Section.

nula 1: $$\text{Maximum } \frac{H}{L} = 5.5 - 4\left(\frac{De}{D}\right) - 2.5\left(\frac{Le}{L}\right)$$

Formula 2: $$\text{Minimum } Lr = \frac{L}{3.5}$$

The maximum height of #encroachment# (H) allowed by Formula 1 may be modified for certain conditions, as follows:

(1) For short frontages

For any frontage less than 200 feet in length, the maximum

$$\frac{H}{L}$$

found by applying Formula 1 may be increased by the following multiplier:

$$2 - \frac{L}{200}$$

(2) For large areas of #compensating recess#

To the extent that the aggregate area of #compensating recess# (Ar) exceeds the aggregate area of #encroachment# (Ae), the maximum

$$\left(\frac{H}{L}\right)$$

found by applying Formula 1 may be increased by the following multiplier:

$$1 + \frac{.067\ Ar}{}$$

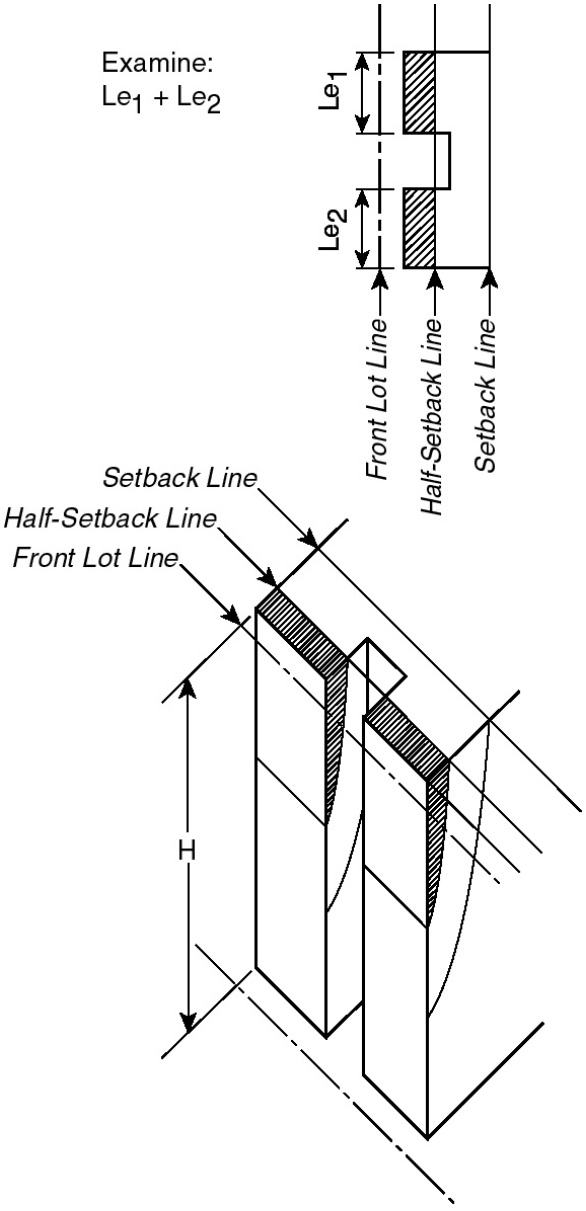
Ae

For the purposes of this modification, the measurement of the area of #compensating recess# (Ar) and the area of #encroachment# (Ae) in each particular #street frontage zone# shall be made on the #encroachment grid# at the height level for which #encroachments# beyond the #half-setback line# are checked. The #encroachment grid# shall include all #street frontage zones#. (Ar) shall include all areas of #compensating recess# in the particular #street frontage zone#, whether or not connected, and (Ae) shall include all #encroachments# in both #Zone B# and #Zone C# in the same #street frontage zone#, whether or not such #encroachments# are connected.

(d) Measurement of #encroachments#

The points at which the formulas are applied will depend upon the shape and dimensions of the #encroachments# beyond the #half-setback line# and shall be in accordance with the provisions of this paragraph and paragraph (e) of this Section.

Where the #encroachments# along a single #street# frontage are not connected outside the #half-setback line#, each #encroachment# shall be measured separately in accordance with the provisions of paragraph (e). However, at any given height, where such non-contiguous #encroachments# occur, the #encroachments# shall be examined together, and the length of #encroachment# (Le) shall be the total of the (Le) for the individual #encroachments#. (See illustration of Non-contiguous #Encroachments#)



NON-CONTIGUOUS ENCROACHMENTS

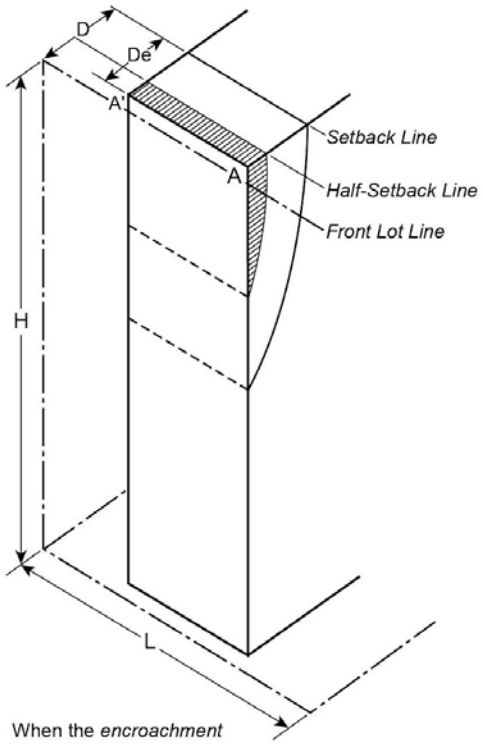
(81-265d)

(e) Heights and depths at which formulas are applied

Heights and depths at which the formulas shall be applied are set forth in this paragraph. In addition to meeting the requirements of paragraphs (e)(1) and (e)(2) of this Section, the applicant shall demonstrate that there is no height at which the proposed #building# or #enlargement# fails to comply with the formulas in paragraph (c) of this Section.

(1) Standard requirement where length of #encroachment# is uniform

Where the length of the #encroachment# (Le) is uniform for the entire height of the #encroachment# (H) and the entire depth (De) at every height, the length, depth and height rules expressed in the formulas shall be applied only at the height where (De/D) is greatest and at the outermost edge of the #encroachment#. (See illustration of Uniform Length of #Encroachment#)



When the *encroachment* beyond the *half-setback line* has uniform length. (Le is constant)

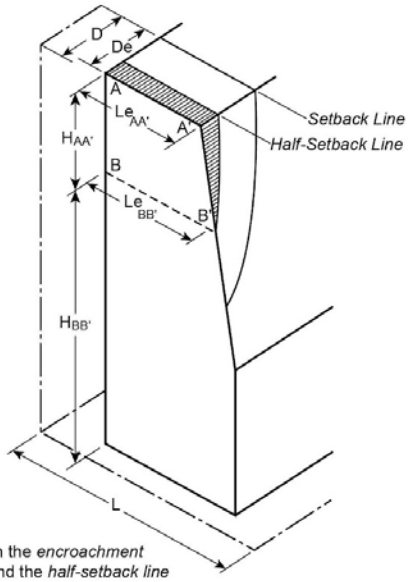
Check: AA' where De/D is the largest

UNIFORM LENGTH OF ENCROACHMENT

(2) Standard requirement where length of #encroachment# is not uniform

Where the length of the #encroachment# (Le) is not uniform, the rules shall be applied at the height level where (De/D) is greatest and also at the height level where the length of #encroachment# (Le) is greatest. If the greatest length of #encroachment# is uniform for part of the #building's# height, the rules shall be applied at the highest level at which such greatest length of #encroachment# occurs. (See illustrations Where Length of #Encroachment# Is Not Uniform).

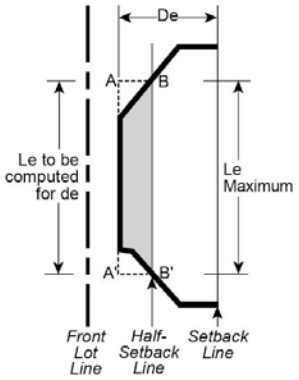
If for a particular height level, the length of the #encroachment# (Le) varies with the depth of the #encroachment# (De), the largest (Le) of this #encroachment# shall be used together with the largest (De) in applying the rules as if the #encroachment# were of uniform length as provided in paragraph (e)(1) of this Section.



When the *encroachment* beyond the *half-setback line* has variable lengths

Check: AA' where De/D is largest

BB' where Le/L is largest



WHERE LENGTH OF ENCROACHMENT IS NOT UNIFORM

(81-265e2)

(f) #Encroachments# by existing #buildings#

When a #zoning lot# contains an existing #building# which encroaches beyond a #half-setback line# or a #ten-foot setback line#, an #enlargement# or #development# on such #zoning lot# shall comply with the following provisions:

(1) Existing #buildings# below specified heights

(i) Except as provided in paragraph (f)(1)(ii) of this Section, an existing #building# not more than 120 feet in height shall not be considered in applying the length and height rules even though a portion of such #building# encroaches beyond the #half-setback line# or #ten-foot setback line# along a 60 foot wide #street# and an existing #building# not more than 150 feet in height shall not be considered in applying the length and height rules even though a portion of such #building# encroaches beyond the #half-setback line# or #ten-foot setback line# along a #street# 75 or more feet in width.

(ii) However, the area occupied by the existing #building# shall be included in the calculation of (Ar/Ae) for the modification of Formula 1 allowed in the case of large areas of #compensating recess#, as set forth in paragraph (c)(2) of this Section.

(2) Existing #buildings# above specified heights

Where an existing #building# more than 120 feet in height encroaches beyond the #half-setback line# or #ten-foot setback line# along a 60-foot wide #street# or where an existing #building# more than 150 feet in height encroaches beyond the #half-setback line# or #ten-foot setback line# along a #street# 75 or more feet in width, the following provisions, in addition to those of paragraph (d)(3) of Section 81-264 (Encroachments and compensating recesses), shall apply:

(i) no new construction on the #zoning lot# shall encroach beyond the #half-setback line# along any #street#, and

(ii) the length and height rules of this Section shall not apply.

81-266 - Special permit for height and setback modifications

LAST AMENDED
12/5/2024

In C5-3, C6-6 or C6-7 Districts, where a special permit application is made pursuant to Section 74-71 (Landmark Preservation) for modification of #bulk# regulations on a #zoning lot# containing a landmark, such application may include a request for modification of the height and setback regulations set forth in Sections 81-261 to 81-265, inclusive, relating to Height and Setback Regulations - Daylight Compensation. The City Planning Commission may authorize such height and setback modifications subject to the following conditions:

(a) the applicant shall demonstrate to the satisfaction of the Commission that a feasible design for the proposed #development# or #enlargement# which accommodates the permitted #floor area# is not possible under the provisions of Sections 81-261 to 81-265, inclusive, and shall further indicate for the proposed design where and to what extent deficiencies of #compensating recess# are necessary or compliance with the length and height rules is not possible. Scale drawings shall be used in presenting the analyses required herein; and

(b) the Commission shall make the following findings in addition to any required under the applicable provisions of Section 74-71:

(1) that the requested departure from the height and setback regulations is the minimum amount necessary to achieve a feasible #building# design;

(2) that the disadvantages to the surrounding area resulting from reduced light and air access will be more than offset by the advantages of the landmark's preservation to the local community and the City as a whole; and

(3) that where the landmark is located on the #zoning lot# proposed for #development# or #enlargement# or on a lot contiguous thereto or directly across a #street# therefrom, the modification of height and setback regulations will adequately protect the setting

for the landmark.

81-27 - Alternate Height and Setback Regulations - Daylight Evaluation

LAST AMENDED
8/9/2017

81-271 - Definitions

LAST AMENDED
8/9/2017

Center line of the street (bounding a #zoning lot#)

A line equidistant from and parallel or nearly parallel to the #street lines# on both sides of the #street#. However, for the purposes of daylight evaluation:

(a) on a #street# 75 feet in width, the #center line of the street# shall be considered to be a line 40 feet from, and parallel to, the #front lot line# of the #zoning lot#; and

(b) on a #street# more than 100 feet in width, the #center line of the street# shall be considered to be a line 50 feet from, and parallel to, the #front lot line# of the #zoning lot#.

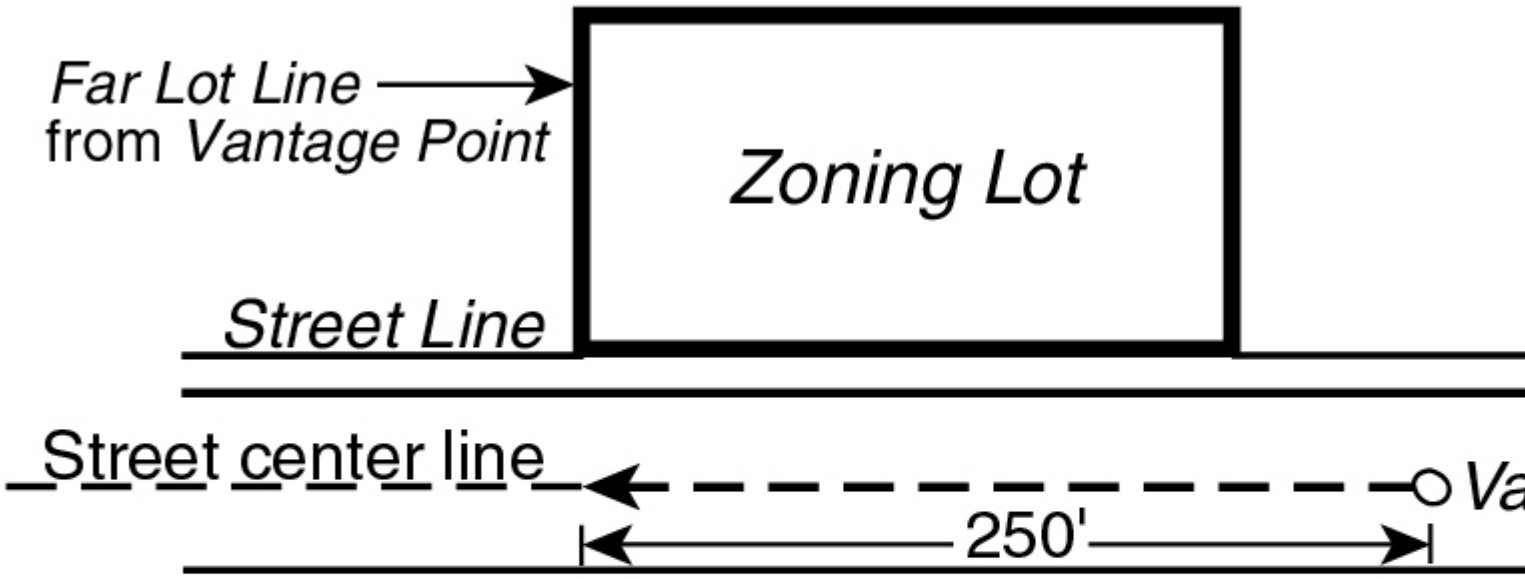
Daylight Evaluation Chart (DEC)

A graphic tool which permits objective measurements of portions of sky blocked by a #building# when it is viewed from a #vantage point#. There are three #daylight evaluation charts# for use with #street# widths of 60 feet, 75 to 80 feet and 100 feet and over, respectively. All #buildings# are drawn

on the appropriate #daylight evaluation chart# to evaluate their compliance with the regulations of Section 81-27 (Alternate Height and Setback Regulations—Daylight Evaluation). These three #daylight evaluation charts# are in Appendix B of this Chapter. A fourth chart in Appendix B is available for use with #qualifying sites# in the East Midtown Subdistrict, as defined in Section 81-613, with frontage along Park Avenue.

Far lot line

A #lot line# intersecting the #street line# of the #vantage street# such that, when viewed from the #vantage point#, the #zoning lot# does not contain any #lot area# that is on the far side of and immediately adjoining the #lot line# at its intersection with the #street line#. (See illustration of #Far Lot Line# and #Vantage Point#)



FAR LOT LINE AND VANTAGE POINT

(81-271.1)

Near lot line

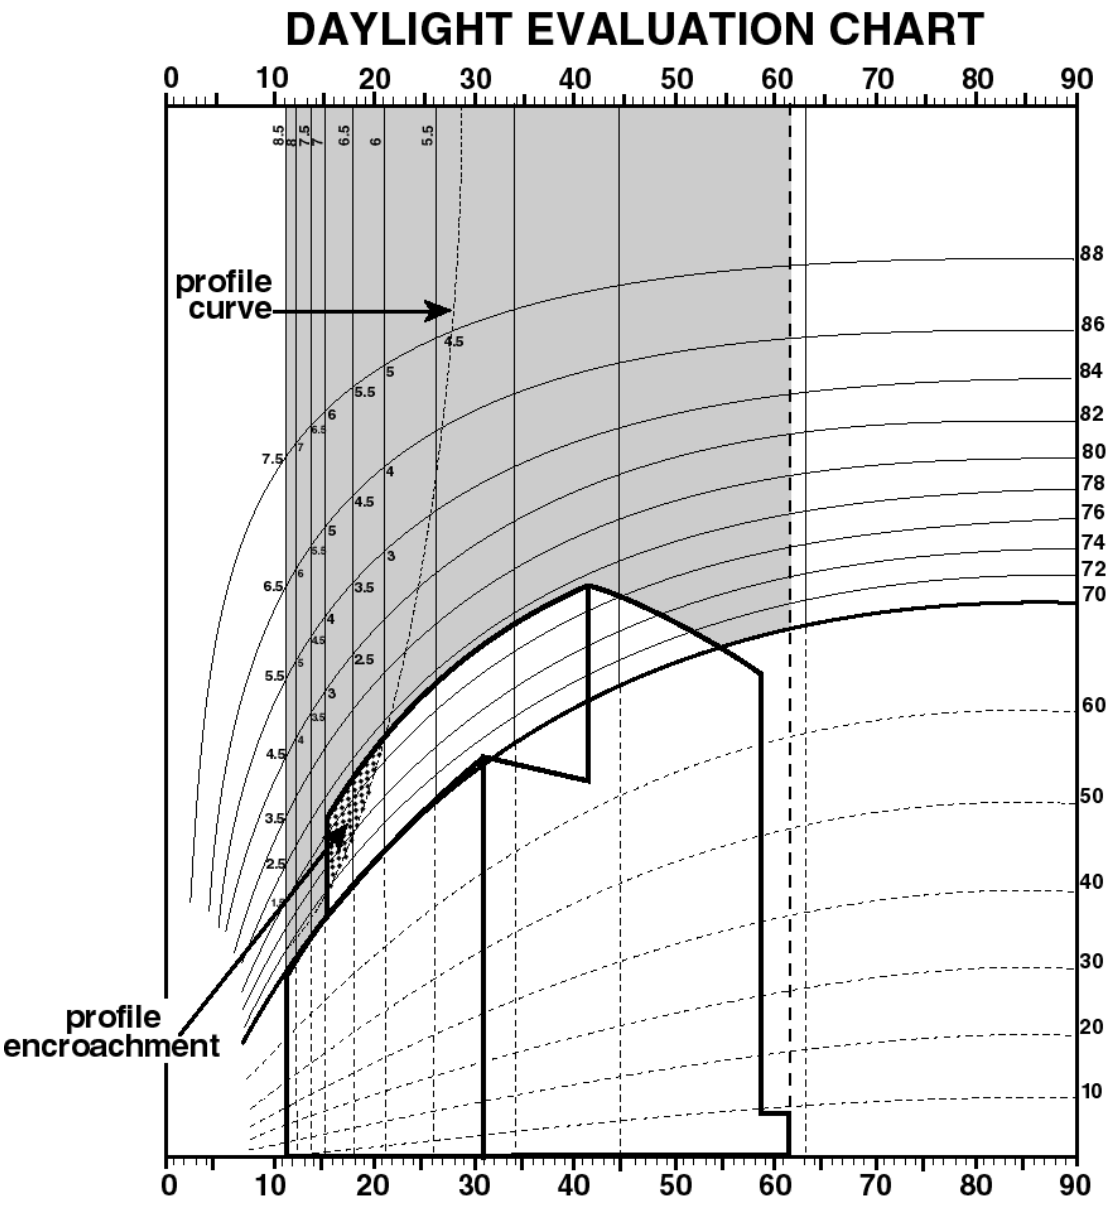
A #lot line#, other than the #far lot line#, which intersects the #street line# of the #vantage street# and which defines the extent of the #zoning lot's# continuous frontage along the #vantage street# from the #far lot line#.

Profile curve

A curved line on the #daylight evaluation chart# rising from the intersection of the curved line representing an elevation angle of 72 degrees with the vertical line at the #far lot line#. The #profile curve# is used to evaluate a #building's# obstruction of the sky as seen in profile from the #vantage point#.

Profile encroachment

The space on the #daylight evaluation chart# which, when viewed from the #vantage point#, is on the far side of the #profile curve# and which is blocked by the projection of the #building# on the #daylight evaluation chart#. (See illustration of #Profile Encroachment#)



PROFILE ENCROACHMENT

(81-271.2)

Vantage point

A point on the #center line of the street# bounding the #zoning lot# and located 250 feet from the intersection of the extension of the #zoning lot's# #far lot line# with the #center line of the street#. (See illustration of #Far Lot Line# and #Vantage Point#)

Vantage street

A #street# bounding the #zoning lot# and on the center line of which a #vantage point# is located.

81-272 - Features of the Daylight Evaluation Chart

LAST AMENDED
2/2/2011

The #daylight evaluation chart (DEC)# is a graphic representation of a pedestrian's field of view as he or she looks down a #street# and sweeps his or her view 90 degrees to the left or to the right.

Under special conditions, this view can be extended to 180 degrees horizontally as specified in Section 81-275 (Special conditions).

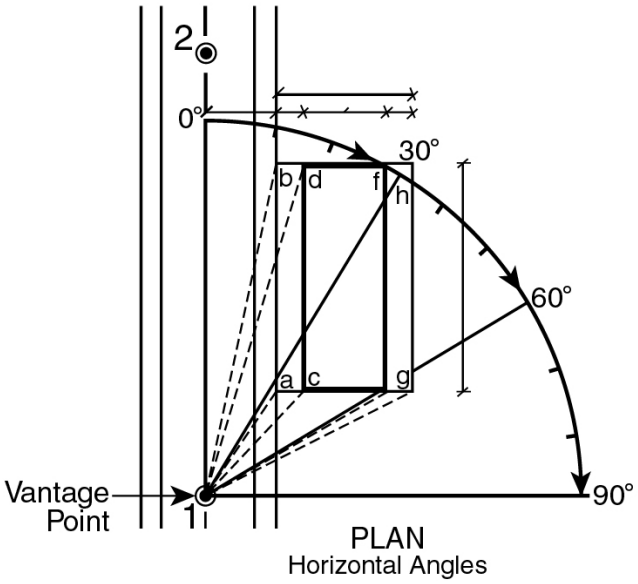
This pedestrian view is based on a #vantage point# located 250 feet from the intersection of the #zoning lot's# #far lot line# with the #center line of the street#.

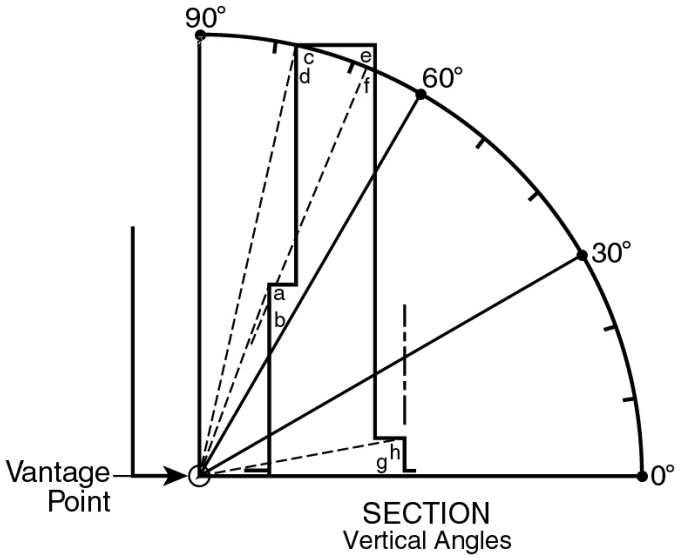
There are three #daylight evaluation charts# for use with different Midtown #street# widths. They include a chart for 60-foot wide #streets# (for most east-west crosstown #streets#) as well as a chart for 75-foot or 80-foot wide #streets# and a chart for #streets# 100 feet or more in width (for avenues and major crosstown #streets#). All of these charts have the following features:

(a) Horizontal and vertical axes

The #daylight evaluation chart# has both a horizontal and vertical component, encompassing views sweeping both 90 degrees horizontally and 90 degrees vertically. (See illustration of Horizontal and Vertical Angles of View)

Under special conditions, this view can be extended to 180 degrees horizontally as specified in Section 81-275.





HORIZONTAL AND VERTICAL ANGLES OF VIEW

(81-272a.1)

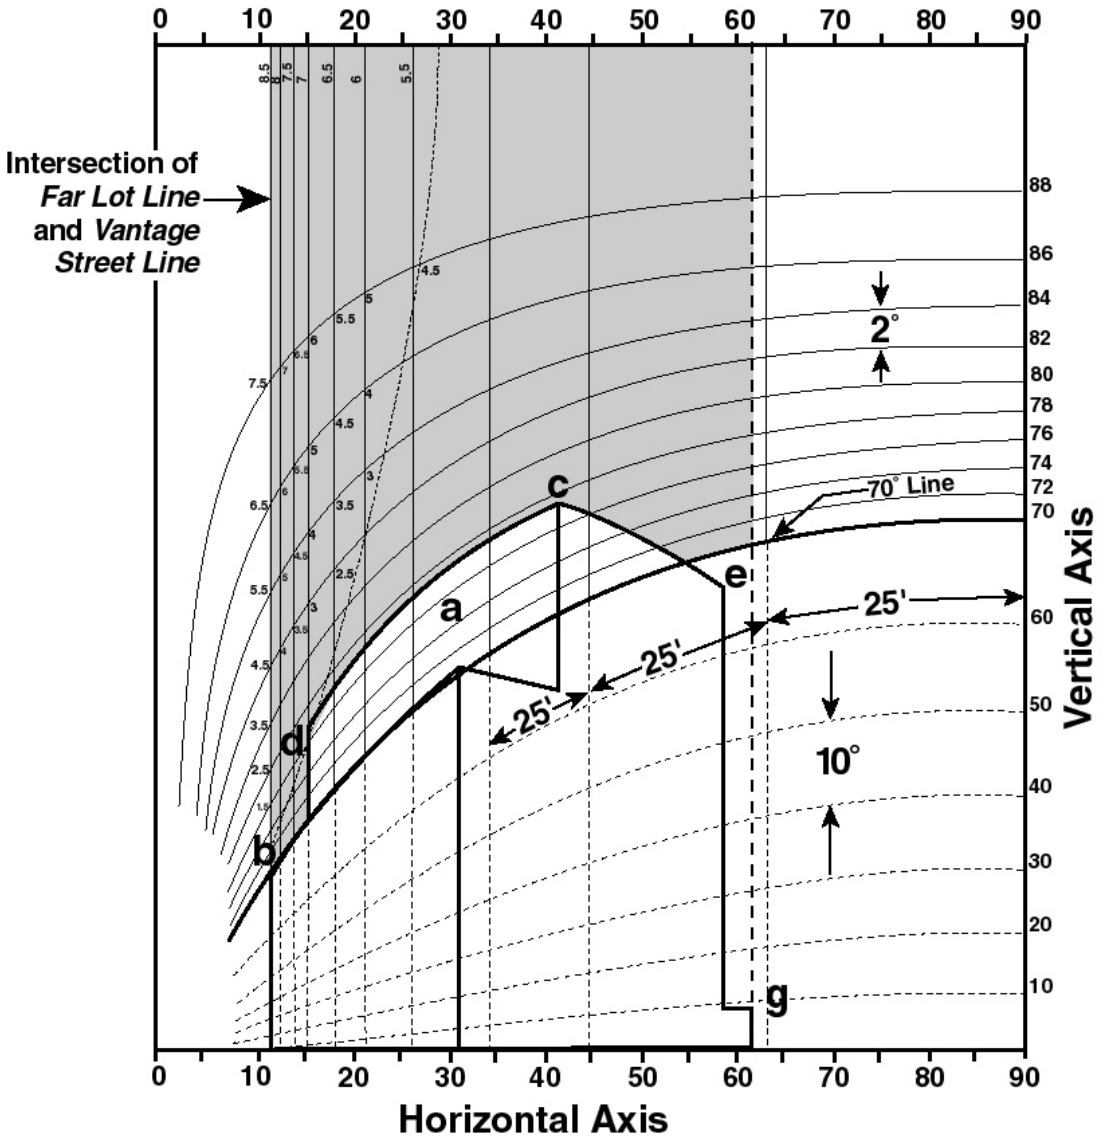
The horizontal axis of the #daylight evaluation chart# is measured in degrees of arc from zero degrees to 90 degrees starting from the #vantage point# along the #center line of the vantage street# and sweeping toward the #building#.

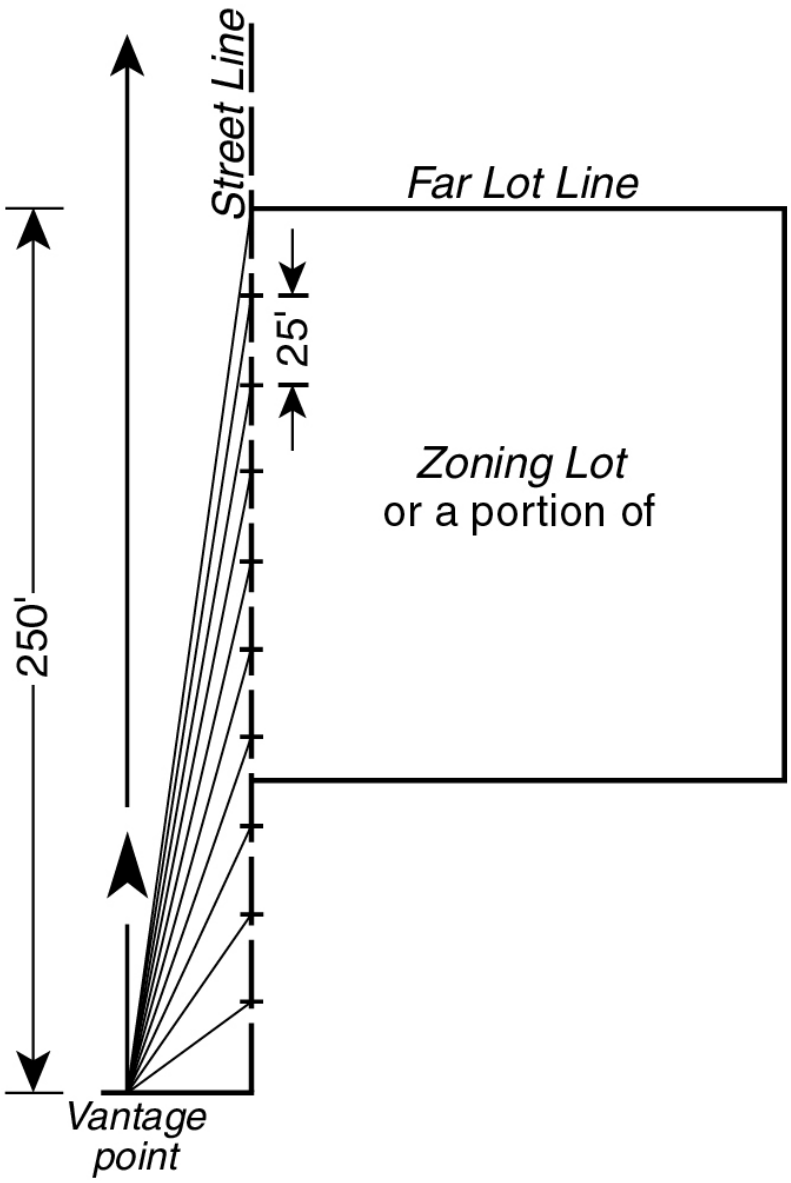
The horizontal axis is intersected by vertical lines corresponding to lines of sight from the #vantage point# to points 25 feet apart on the #front lot line# along the #vantage street# measured from the intersection of the #far lot line# with the #street line# of the #vantage street#.

The vertical axis of the #daylight evaluation chart# is measured in degrees of arc from zero degrees to 90 degrees starting from the #center line of the vantage street# at #curb level# and sweeping upward.

The vertical axis is intersected by curved elevation lines representing elevation angles from the #center line of the street# at 10 degree intervals from zero degrees to 70 degrees and at two degree intervals from 70 degrees to 90 degrees. (See illustration of Horizontal and Vertical Axes)

DAYLIGHT EVALUATION CHART





HORIZONTAL AND VERTICAL AXES

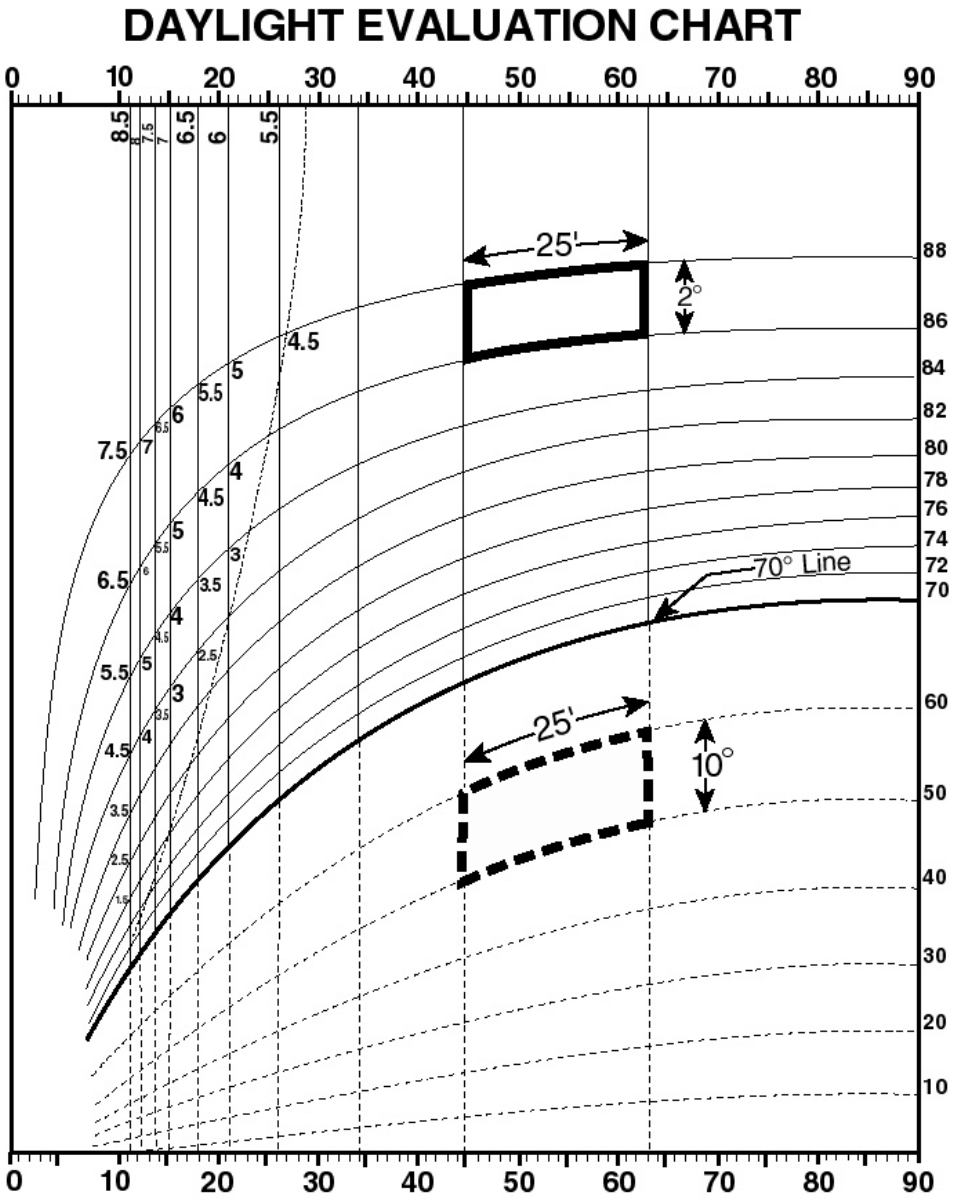
(81-272a.2)

(b) Daylight squares

The horizontal and vertical lines form a curvilinear grid dividing the #daylight evaluation chart# into areas called daylight squares. Above the 70 degree line, the grid is divided into 100 daylight squares starting from the vertical line rising from the intersection of the #far lot line# with the #street line# of the #vantage street# and ending at the vertical line representing 90

degrees along the horizontal axis. Each of these 100 squares represents 25 feet of lot frontage on the #vantage street# and two degrees of elevation angle from the #center line of the vantage street#.

Below 70 degrees, the grid is divided into 70 daylight squares starting from the vertical line rising from the intersection of the #far lot line# with the #street line# of the #vantage street# and ending at the vertical line rising at 90 degrees along the horizontal axis. Each of these 70 squares represents 25 feet of lot frontage on the #vantage street# and 10 degrees of elevation angle from the #center line of the street#. (See illustration of Daylight Squares)

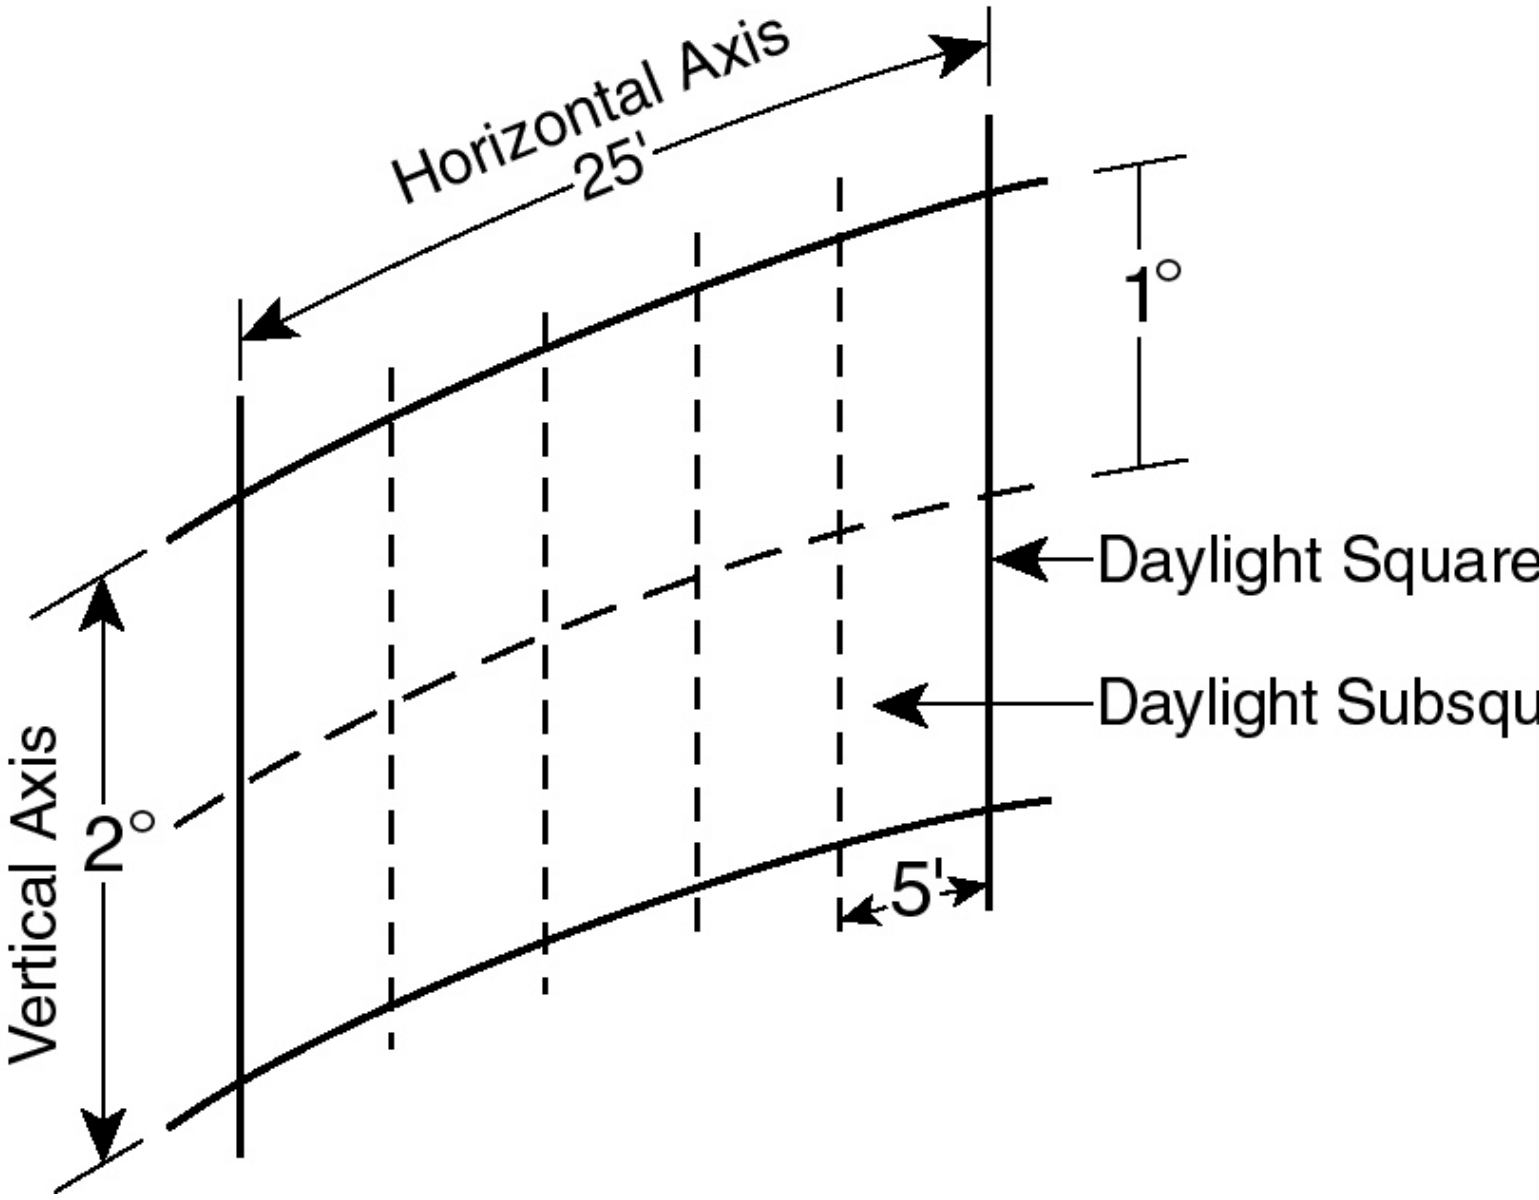


DAYLIGHT SQUARES

(81-272b)

(c) Daylight subsquares

For greater plotting and scoring precision, the horizontal axis of the grid is further subdivided by vertical lines at points five feet apart on the #front lot line# as seen from the #vantage point#. The vertical axis is further subdivided by curved lines representing lines of equal elevation at one degree intervals from 70 degrees to 90 degrees. Therefore, each daylight square is subdivided into 10 subsquares, each representing five feet of lot frontage on the #vantage street# and one degree of elevation angle from the #center line of the vantage street#. (See illustration of Daylight Squares and Subsquares Above 70 Degrees)



DAYLIGHT SQUARES AND SUBSQUARES ABOVE 70 DEGREES

(81-272c)

(d) The seventy degree line

Research shows that, as an average, 70 degrees is the elevation angle at which #buildings# in the #Special Midtown District# are set back from the #street line#. Most of the daylight below 70 degrees is blocked by such #buildings#. Slabs, towers or other setback portions of #buildings# rise to block an average of 25 percent of the available daylight squares above 70

degrees.

In #building# evaluation, the #DEC# measures the blocked sky above 70 degrees. Below 70 degrees, #buildings# are given credit for unblocked daylight.

(e) The #profile curve#

The grid is traversed by the #profile curve#, which rises from the intersection of the curved line representing an elevation angle of 72 degrees with the vertical line at the #far lot line#. The #profile curve# is derived from the predominant built character of developed Midtown #streets# as seen in profile. #Encroachment# across the #profile curve# is penalized to discourage canyon-like Midtown #streets# and to protect neighboring #buildings#.

81-273 - Rules for plotting buildings on the daylight evaluation chart

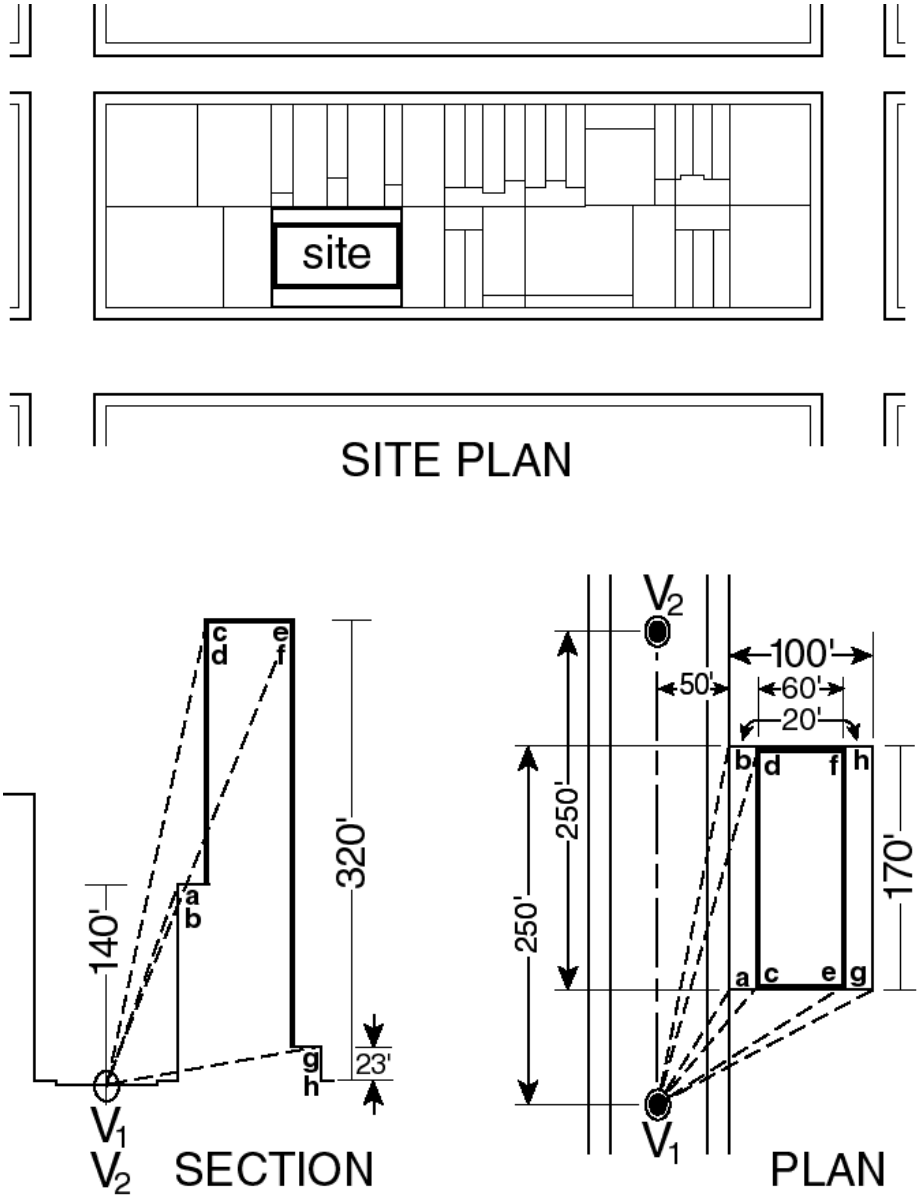
LAST AMENDED
2/2/2011

Evaluation of a #development# or #enlargement# requires drawing the new #buildings#, remaining #buildings# and open areas on the #zoning lot# on the appropriate #daylight evaluation chart (DEC)#, as viewed from each required #vantage point# and then scoring the #zoning lot#. The rules for plotting #buildings# on the #DEC# are set forth in the following paragraphs of this Section and illustrated by an example of a #building# which fronts on a 100-foot wide #street# and occupies a site 170 feet long by 100 feet deep.

(a) Draw the #building#

Draw the #building# in plan showing all #street# frontages of the #zoning lot#. Draw the

#building# in section perpendicular to each #street# on which the #zoning lot# fronts. On both plan and section drawings label all corners of the #building#. In the example they are labeled corners (a) through (h). (See illustrations of Example: Building Drawings)



EXAMPLE: BUILDING DRAWINGS

(81-273a)

(b) Establish #vantage points#

Establish on the plan all the #vantage points# from which views must be taken. #Vantage points# shall be established on the #center line of the vantage street# 250 feet from the intersection of the #zoning lot's# #far lot line# and the #center line of the street#. For each #vantage street# there are at least two #vantage points#. In the example, they are V1 and V2. For each #vantage point# there shall be a separate #daylight evaluation chart#. The example will use #vantage point# one.

(c) Record plan and section dimensions

Record on a coordinate chart for each corner of the #building# the following dimensions:

(1) Dimensions in plan:

The distance (S) between the corner and the #center line of the street# as measured along a line that intersects the #center line of the street# at right angles. In the example, distance (S) of corner (b) + 50 feet.

The distance (D) measured along the #center line of the street# from the #vantage point# to the point where the #street# center line is intersected by the perpendicular line from the corner. In the example, distance (D) of corner (b) + 250 feet.

(2) Dimension in section:

The height (H) of the corner above #curb level#. In the example, height (H) of corner (b) + 140 feet.

(d) Calculate plan and section angles

Determine the plan and section angles for each corner of the #building# as viewed from the #vantage point#.

(1) A plan angle is an angle on the plan formed at the #vantage point# by the line of sight to a corner of the #building# and the #center line of the vantage street#. The plan angle is found by calculating the tangent. The tangent is the quotient found by dividing distance (S) by distance (D). The plan angle for the resulting tangent is found in a tangent table and is then entered on the coordinate chart in the column marked "plan angles."

(2) The section angle is an angle formed by a line representing the distance in section from a corner of the #building# to the #center line of the vantage street# and a line representing the distance in plan (S) between the corner and the #center line of the street#. The section angle is found by calculating its tangent. The tangent is the quotient obtained by dividing the height of the corner (H) by its horizontal distance (S) from the #center line of the street#.

The section angle for the resulting tangent is found in a tangent table and is then entered on the coordinate chart in the column market "section angles."

EXAMPLE OF COORDINATE CHARTS

Plan Angles

Point	Distance (S) from #Street# Center Line (in feet)	Distance (D) from #Vantage Point# 1 (in feet)	Tangent (S÷D) of Angle	Angle
a	50	80	50/80 = 0.63	32.0^{o}
b	50	250	50/250 = 0.20	11.3^{o}

c	70	80	70/80 = 0.87	41.2°
d	70	250	70/250 = 0.28	15.6°
e	130	80	130/80 = 1.63	58.4°
f	130	250	130/250 = 0.52	27.5°
g	150	80	150/80 = 1.88	61.9°
h	150	250	150/250 = 0.60	31.0°

Section Angles

Point	Height (H) Above #Curb Level# (in feet)	Distance (S) from #Street# Center Line (in feet)	Tangent (H÷S) of Angle	Angle
a & b	140	50	140/50 = 2.80	70.3°
c & d	320	70	320/70 = 4.57	77.7°
e & f	320	130	320/130 = 2.46	67.9°

g & h	23	150	23/150 = 0.15	8.7^{o}

(e) Plot corner coordinates

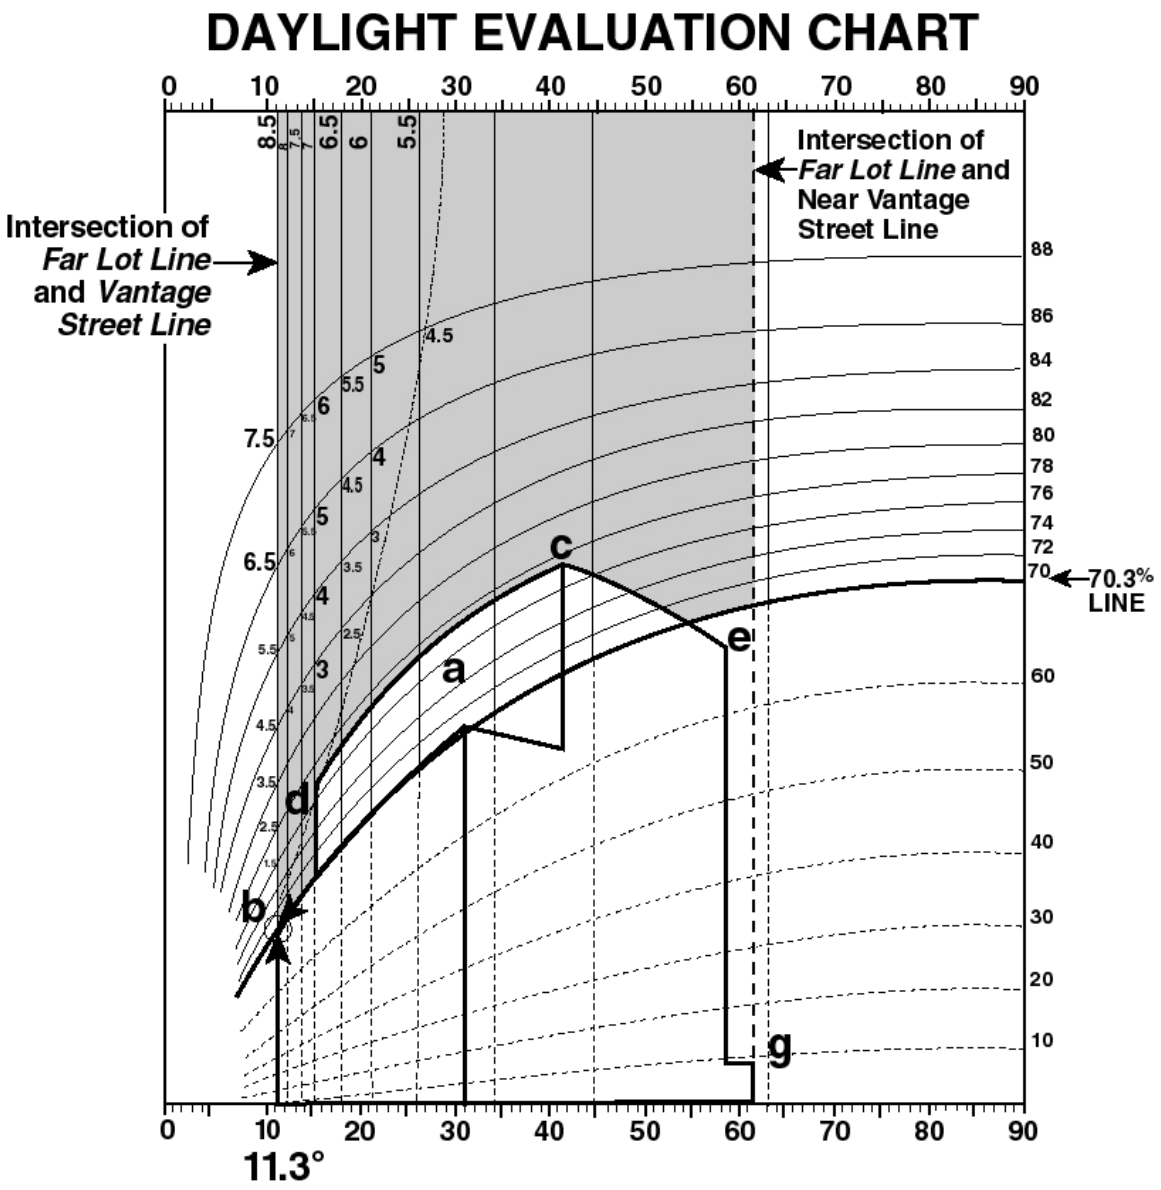
Plot each corner of the #building# onto the #daylight evaluation chart# at the point where the coordinates for that corner intersect. The plan angle coordinates are found on the horizontal axis of the chart and the section angle coordinates are found on the vertical axis. The points plotted are then connected to represent the edges of the #building# as shown on the plan and section drawings. A connecting line parallel to the #street line# of the #vantage street# is drawn as a curve parallel to the closest elevation line. A connecting line perpendicular to the #street line# of the #vantage street# is drawn parallel to the closest dotted elevation line, which is perpendicular to the #street#. A connecting line which is neither parallel nor perpendicular to the #vantage street# is approximated on the chart by:

(1) establishing points along the line in plan at 10-foot intervals;

(2) finding the coordinates of the points and plotting them on the chart; and

(3) connecting the resulting points.

The connecting lines produce a curvilinear perspective drawing of the #building# as seen from the #vantage point# projected onto the #daylight evaluation chart#. Since in the example #vantage point# one is on a 100 foot wide #street#, corner coordinates are plotted on a #daylight evaluation chart# for 100 foot wide #streets#. In the example, corner (b) is at the intersection of plan angle 11.3^{o} and section angle 70.3^{o} (See illustration of Building as Drawn on the Daylight Evaluation Chart)



BUILDING AS DRAWN ON THE DAYLIGHT EVALUATION CHART

(81-273e)

(f) Determine daylight boundaries

Draw a vertical line on the chart rising from the intersection of the #near lot line# of the #zoning lot# with the center line of the #block# or with a line 100 feet distant from and parallel to the #front lot line# on the #vantage street#, whichever line is closer to the #vantage street#. This line and the #far lot line# represent the boundaries of the potential sky area that

the #building# could block. (See illustration of Building as Drawn on the Daylight Evaluation Chart)

81-274 - Rules for determining the daylight evaluation score

LAST AMENDED
2/2/2011

A #zoning lot# is scored by determining the number and the value of the daylight squares the #building# blocks when viewed from the #vantage point#, compared to the total number of daylight squares available within the daylight boundaries as determined in paragraph (f) of Section 81-273 (Rules for plotting buildings on the daylight evaluation chart) and above an elevation angle of 70 degrees.

(a) Assign daylight values

The daylight squares on the #daylight evaluation chart# are each assigned a value.

(1) Except along #vantage streets# designated for #street wall# continuity (see Section 81-43), each unblocked daylight square below the curved line representing an elevation of 70 degrees has a positive value of 0.3 and each unblocked subsquare below the same curved line has a positive value of 0.03.

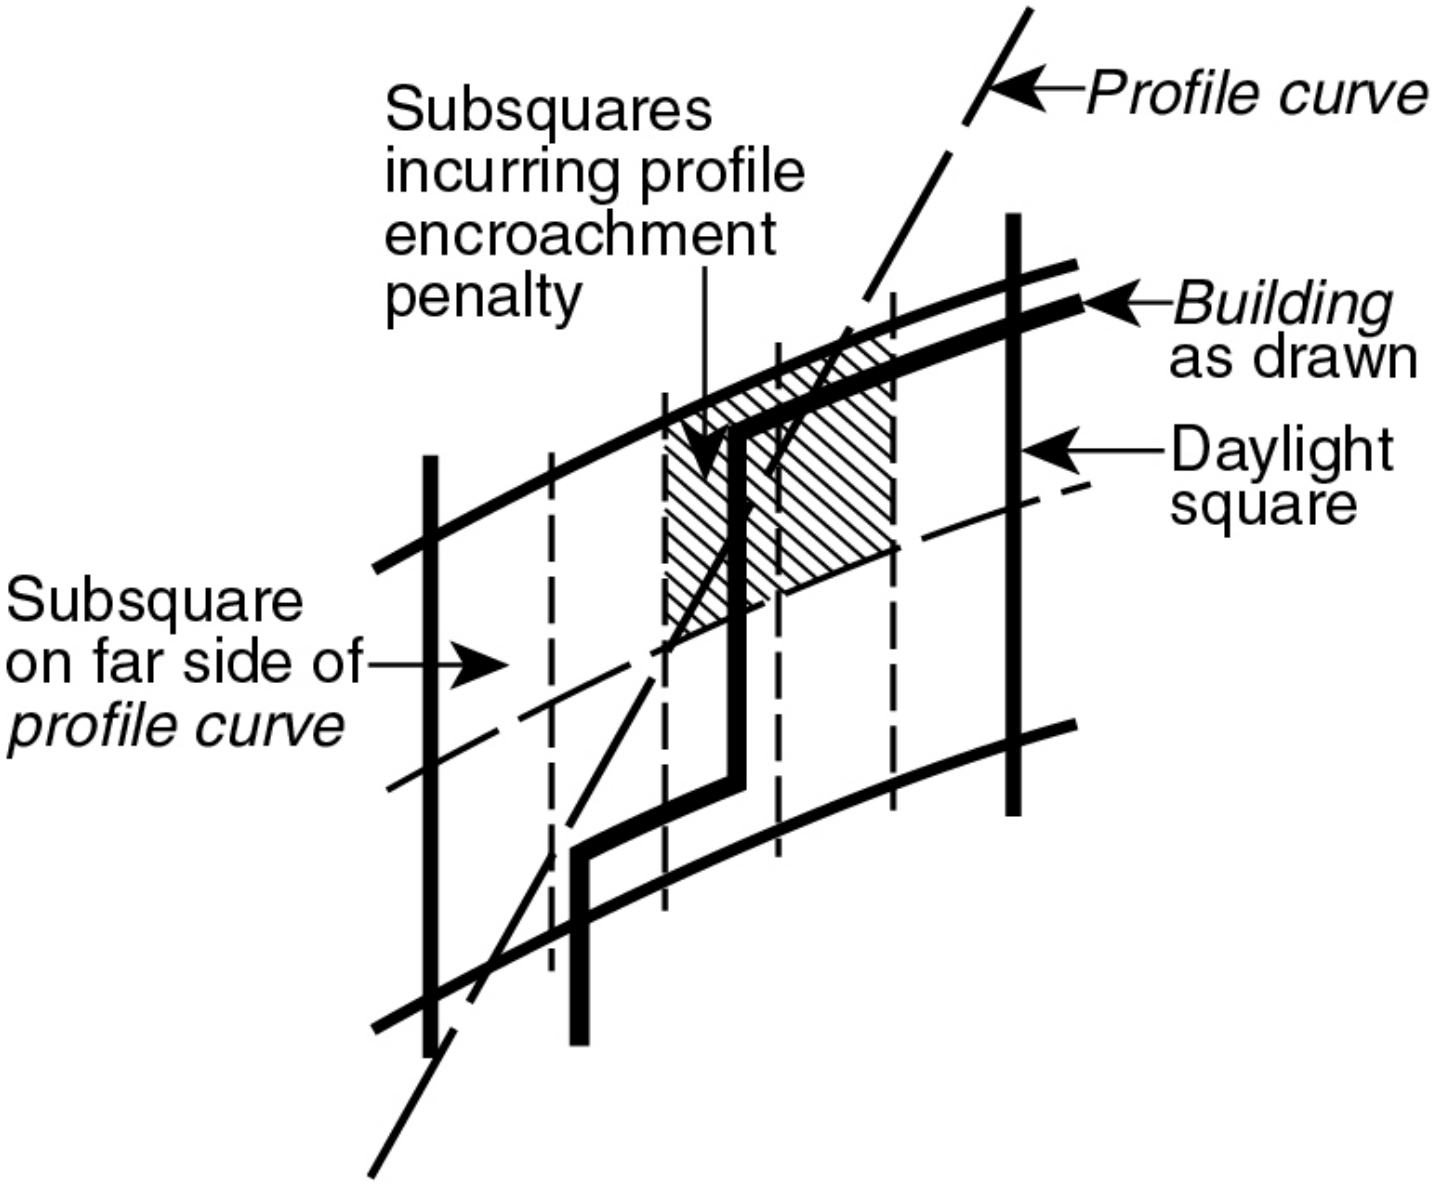
(2) Each blocked daylight square above the curved line representing an elevation of 70 degrees has a negative value of 1.0.

(3) Where a #building# blocks any portion of a subsquare the #building# is charged with blocking the entire subsquare in computing the daylight evaluation score. Each blocked subsquare has a negative value of 1.0/10 or 0.1.

(4) The daylight squares and subsquares which are on the far side of the #profile curve# are assigned additional weighted values set forth on the chart below. (See illustration of #Profile Encroachment# Incurring Profile Penalty)

Degrees of Elevation	Distance from #Far Lot Line#							
	1st 25ft	2nd 25ft	3rd 25ft	4th 25ft	5th 25ft	6th 25ft	7th 25ft	8th 25ft
88 to 90	8.5	8.0	7.5	7.0	6.5	6.0	5.5	5.0
86 to 88	7.5	7.0	6.5	6.0	5.5	5.0	4.5	4.0
84 to 86	6.5	6.0	5.5	5.0	4.5	4.0	3.5	-
82 to 84	5.5	5.0	4.5	4.0	3.5	3.0	2.5	-
80 to 82	4.5	4.0	3.5	3.0	2.5	2.0	1.5	-
78 to 80	3.5	3.0	2.5	2.0	1.5	1.0	-	-

76 to 78	2.5	2.0	1.5	1.0	.5	-	-	-
74 to 76	1.5	1.0	.5	.5	-	-	-	-
72 to 74	.5	.5	.5	-	-	-	-	-



PROFILE ENCROACHMENT INCURRING PROFILE PENALTY

(81-274a)

(5) If the #building# encroaches beyond the #profile curve#, the entire subsquare in which the #profile encroachment# is located is given an additional weighted value. The total penalty is the additional weighted value of the daylight square multiplied by the negative value of the subsquare. The penalty is applied even if the subsquare does not lie entirely beyond the curve.

(b) Calculate daylight blockage

Count the number of blocked daylight squares and subsquares which are above the curved line representing an elevation of 70 degrees. A negative sign is to be given to this number. Total value of daylight blockage in the example is -20.5.

(c) Calculate unblocked daylight credit

Count the number of unblocked daylight squares which are below the curved line representing an elevation of 70 degrees and within the area defined by the intersection of the #far lot line# with the #street line# of the #vantage street# and the intersection of the #near lot line# with the #street line# of the #vantage street#. The total is given a positive value and multiplied by 0.3, the value of these daylight squares. This provision is not applicable where the #vantage street# is a designated #street# on which #street wall# continuity is required by the provisions of Section 81-43 (Street Wall Continuity Along Designated Streets). In the example, the number and value of squares unblocked below 70 degrees = +0.0.

(d) Calculate profile daylight blockage

Count the number of blocked daylight squares which are entirely on the far side of the #profile curve# when viewed from the #vantage point# and the number of blocked or partially

blocked subsquares which are on the far side of the #profile curve#. All of these daylight squares and subsquares are given a negative sign, multiplied by their respective weighted values in the table in paragraph (a)(4) of this Section and the products added. Subsquares are counted as one tenth of a daylight square. In the example, the total value of profile daylight blockage = -0.45.

(e) Calculate available daylight

Count the number of daylight squares available to the site. This is the total number of daylight squares and subsquares, calculated to the nearest tenth, that are above the curved line representing the boundaries of the potential sky area available to the site, said boundaries being delineated in accordance with the provisions of paragraph (f) of Section 81-273 (Rules for plotting buildings on the daylight evaluation chart). Available daylight in the example is 89.9.

(f) Calculate daylight remaining

Calculate the remaining or unblocked daylight by adding the results of paragraphs (b) through (e) of this Section. Daylight remaining in the example is (-20.5) + (0.0) + (-0.45) + (89.9) = 68.95.

(g) Calculate daylight score

Compute the remaining daylight score from paragraph (f) of this Section, as a percentage of the available daylight from paragraph (e) of this Section. The percentage is the daylight score for the proposed #building# from that #vantage point#. In the example, the daylight score is 68.95/89.9 = 76.70 percent for #vantage point# one (V1).

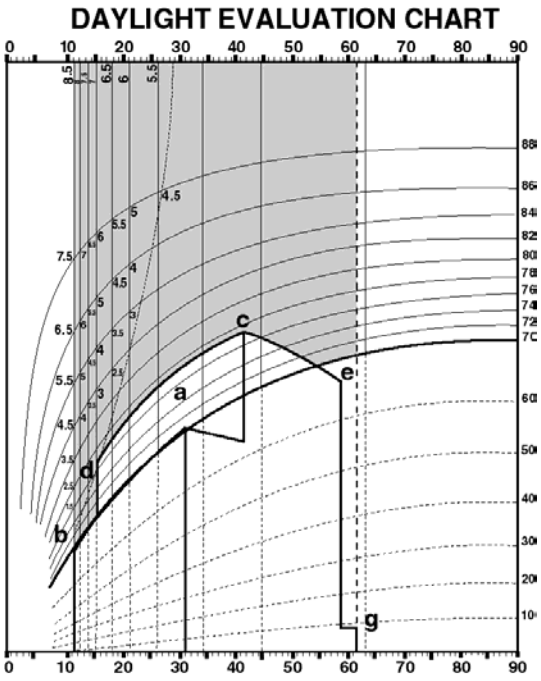
(h) Calculate overall daylight score

(1) The street score is the arithmetic mean of all the scores from all #vantage points# along a #vantage street#. When a #zoning lot# fronts on only one #street#, the street score is also the overall score. Where a #zoning lot# has more than one #street# frontage along any one #vantage street#, the street score is the average of all those individual #street# frontage scores computed pursuant to paragraph (b) of Section 81-275 (Special conditions), weighted by the lengths of all those #street# frontages.

(2) Where a #zoning lot# fronts on more than one #street#, the overall score is the average of the street scores, weighted by the length of their respective #vantage street# frontages.

(i) The passing score

To be in compliance with these regulations, a #zoning lot# must have an overall score of not less than 75 percent, with no single #street# frontage having a street score of less than 66 percent. If a #zoning lot# fronts only on one #street#, a daylight evaluation score of not less than 75 percent is required for that #street# frontage. If a street score is less than 66 percent, or if the overall daylight score is less than the passing score of 75 percent, a modest improvement in either the street score or the overall score may be obtained by scoring the relative reflectivity of the #building's# surface, as specified in Section 81-276 (Modification of score for reflectivity). The passing daylight score of 75 percent is equivalent to the average daylight levels of Midtown #buildings# built as-of-right under the 1916 and 1961 Zoning Resolutions. The minimum requirement of 66 percent on one frontage is equivalent to the daylight level of any #interior lot# #building# built in Midtown under the 1916 Zoning Resolution in a two-times height district. However, if any one frontage is less than 75 percent, other frontages must be greater than 75 percent to reach the passing overall daylight score. This allows flexibility in #building# design while maintaining daylight standards within the levels established by #buildings# built as-of-right under the 1916 and 1961 Zoning Resolutions. (See illustration of Daylight Evaluation Score Results)



SCORING SUMMARY
(Vantage point one)

SECTION		SCORE
81-274 (b)	Squares above 70° blocked	−20.5
81-274 (c)	Squares below 70° open	+ 0.0
81-274 (d)	Profile encroachment penalty .1 x 1.5 = .15 .3 x 1 = .45	− 0.45
	Total Blockage	− 20.95
81-274 (e)	Available daylight squares	89.9
81-274 (f)	Remaining daylight	68.95
81-274 (g)	DAYLIGHT SCORE	
	68.95 / 89.9 = 76.70	76.70%

DAYLIGHT EVALUATION SCORE RESULTS

(81-274i)

81-275 - Special conditions

LAST AMENDED

5/13/1982

Notwithstanding the provisions of Sections 81-271 to 81-274, inclusive, relating to Alternate Height and Setback Regulations-Daylight Evaluation, the provisions of this Section shall apply under special conditions, as follows:

(a) For #zoning lots# with #street# frontages exceeding 250 feet

(1) Where the length of the #street# frontage is more than 250 feet but not more than 500 feet, the #building# as viewed from each #vantage point# shall be plotted on a #daylight evaluation chart# that extends in both directions from the 90 degree line on the horizontal axis. In each case, the number of available daylight squares for daylight evaluation shall be the number of squares between the #far lot line# and the #near lot line#.

(2) Where the length of the #street# frontage is more than 500 feet, daylight evaluations shall be made from three #vantage points#, as follows: #vantage points# one and two, each 250 feet distant from a #far lot line# extended to the #center line of the street#, and #vantage point# three, on the #center line of the street#, half-way between the other two #vantage points#. The #daylight evaluation charts# for the first two #vantage points# shall in each case encompass a view extending from the #far lot line# to the 90 degree line on the horizontal axis and the number of available daylight squares shall be the number of squares between the #far lot line# and the 90 degree line and above the curved line representing an elevation angle of 70 degrees. The #daylight evaluation chart# for the third #vantage point# shall extend in both directions from the 90 degree line on the horizontal axis to the vertical lines representing the points on the #front lot line# directly opposite #vantage points# one and two. The number of available daylight squares for daylight evaluation shall be the number of daylight squares between such vertical lines and above the curved line representing an elevation angle of 70 degrees.

(b) For #zoning lots# with interrupted #street# frontages

Where a #zoning lot# has two or more #front lot lines# on the same #street# which are separated by frontage of an intervening #zoning lot#, there shall be two daylight evaluations for each such #front lot line#. Each #lot line# of the #zoning lot# that intersects the #street line# shall be treated as a #far lot line# for the purposes of daylight evaluation from a #vantage point#.

(c) Where #front lot lines# are curved or broken

If the #front lot line# of the #zoning lot# is curved or bent, the extremities of such #front lot line# shall be connected by a straight line, which shall be considered the #front lot line#.

81-276 - Modification of score for reflectivity

LAST AMENDED
2/2/2011

Where #zoning lots# have utilized the #daylight evaluation chart# but a street score along one frontage is less than 66 percent or the overall score is less than 75 percent, a modest improvement in either the street score or the overall score of a #zoning lot# within a #building# which reflects more light than a medium gray or glass #building# may be obtained by scoring the relative reflectivity of the #building's# surface.

The use of reflectivity is optional and not necessary if a passing score can be obtained under Section 81-274 (Rules for determining the daylight evaluation score). Reflectivity scoring permits greater design flexibility for a light-colored #building# than a dark one.

Because the greatest reflectivity comes from the upper portions of #buildings#, the value of reflected light is credited against the amount of daylight blocked by the portions of the #building# above an elevation angle of 70 degrees from the #center line of the street#.

Reflectivity has two components: the reflectance of the surface material and the orientation of the material to the sun.

(a) Reflectance

Reflectance values of materials will be determined by the Department of Buildings after the submission of samples of proposed surface materials by the applicant.

(1) Mixed reflectance

A #building# of several surface materials will have a reflectance value determined by multiplying each material's reflectance value by its percentage of the total wall surface and adding the products. For example, a #building# that is 60 percent limestone and 40 percent clear glass would have a reflectance of .60 x .45 (the reflectance of limestone) plus .40 x .15 (the reflectance of clear glass) or an overall reflectance of .33.

(2) Relative reflectance

In order to be included in the reflectivity score of a #zoning lot#, the material of the #building# must reflect more light than a medium gray or glass #building#. The reflectance value of a medium gray or glass #building# in Midtown is .15 so that the #building# with an overall reflectance of .33, given in the example in paragraph (a)(1) of this Section, would be increasing the expected reflectance by .33 minus .15 which equals .18.

Examples of potential reflectance values for different types of surface finishes are shown on the following chart.

REFLECTANCE VALUES - EXAMPLES OF BUILDING MATERIALS

White plaster or paint or glaze	.80 to .90
Aluminum paint	.55
Green paint	.50
Red paint	.26
Light gray paint	.25
Flat black paint	.06
Polished aluminum, stainless steel	.85
Polished light marble	.40 to .50
Light granite, limestone	.45
Copper, brass lead	.60 to .80

Smooth concrete	.45+
Rough concrete	.40
Asbestos cement	.31
Light buff brick	.48
Dark buff brick	.40
Light red brick	.45
Dark red glazed brick	.30
Dark red brick	.12
Slate	.11
Wood	.22+

Glass: double glazing with reflective coating*	
Solarcool(r) bronze or gray	.35 to .36
Solarban(r) clear	.36 to .44
Solarban(r) bronze	.18
Solarban(r) gray	.14
Glass: tinted double glazing	
Gray	.08
Bronze	.09
Solex(r) (green or blue)	.12
Glass: clear double glazing	.15

Glass: clear single glazing	.08

_____

* Reflectance varies according to which layer the reflective coating is placed on, but can be precisely determined for each position

Sources:

Anderson, Bruce. Solar Energy: Fundamentals in Building Design. (McGraw Hill, New York 1977).

Callendar, John Hancock. Time Saver Standards: A Handbook of Architectural Design. (McGraw Hill, New York, 4th Edition, 1964).

PPG Industries, Inc., Architectural Glass Products (G702). PPG, Pittsburgh, PA., 1977.

(b) Facade orientation

Orientation of the facade of the #building# is the second component required for measurement of reflectivity. Because reflectivity varies according to the orientation of the facade, the orientation value for a particular surface from the chart below is multiplied by the reflectance of the surface to ascertain the amount of daylight reflectivity.

The orientation values are shown on the following reflectivity chart. Orientation angles shall

be rounded to the nearest 22.5 degrees.

Orientation based on True North		Orientation Value
North:	0^{o}	.09
	22.5^{o}	.15
	45.0^{o}	.22
	67.5^{o}	.40
East:	90.0^{o}	.57
	112.5^{o}	.72
	135.0^{o}	.87
	157.5^{o}	.93

South:	180.0°	1.00
	157.5°	.93
	135.0°	.87
	112.5°	.72
West:	90.0°	.57
	67.5°	.40
	45.0°	.22
	22.5°	.15

(c) Reflectivity Score

In order to obtain the reflectivity score for each view of the #building#, first count the daylight squares and subsquares which are blocked by the #building# on the #daylight evaluation chart# above an elevation angle of 70 degrees. This number shall be calculated separately for every orientation of each facade and multiplied by the relative reflectance of

that portion of the #building# and the orientation value.

Reflectance = (% material A x reflectance material A) + (% material B x reflectance material B)

Relative reflectance (RR) = reflectance minus .15

Reflectivity score = RR x facade orientation value x daylight squares blocked above 70^{o}.

The reflectivity scores for the several orientations are then added together to give the reflectivity score for that view of the #building# as a whole from the #vantage point# represented on the #daylight evaluation chart#.

The reflectivity score is added to the daylight remaining after accounting for daylight blockage as calculated in paragraph (f) of Section 81-274

The sum is then calculated as a percentage of the available daylight squares calculated in paragraph (e) of Section 81-274 to give the adjusted daylight score for the #zoning lot# from the #vantage point# represented on the #daylight evaluation chart#.

The adjusted street score along a particular #vantage street# is obtained by calculating the mean average of the adjusted daylight scores from all #vantage points# along the #vantage street#.

The adjusted overall score for the #zoning lot# is obtained by calculating the average of the adjusted street scores weighted by the lengths of their respective #vantage street# frontages.

(d) Limits on adjusted scores

(1) Adjusted street score

The adjusted street score shall not be more than six percentage points higher than the street score not adjusted for reflectivity.

If reflectivity scoring is used to bring the adjusted overall score for the #zoning lot# above 75 percent (the passing overall score), the street score for each #street# frontage without adjustment for reflectivity shall be not less than 66 percent.

(2) Adjusted overall score

The adjusted overall score shall not be more than six percentage points higher than the overall score not adjusted for reflectivity.

If the reflectivity scores for any single #street# frontage are used to bring the adjusted street score for that frontage above 66 percent (the passing score for a single #street# frontage), the overall score of the #zoning lot# without adjustment for reflectivity shall be not less than 75 percent.

81-277 - Special permit for height and setback modifications

LAST AMENDED
12/5/2024

In C5-3, C6-6 or C6-7 Districts, where a special permit application is made pursuant to Section 74-71 (Landmark Preservation) for modification of #bulk# regulations on a #zoning lot# containing a landmark, such application may include a request for modification of the height and setback

regulations set forth in Sections 81-261 to 81-275, inclusive, relating to Alternate Height and Setback Regulations - Daylight Evaluation. The City Planning Commission may authorize such height and setback modifications subject to the following conditions:

(a) The applicant shall demonstrate to the satisfaction of the Commission that a feasible design for the proposed #development# or #enlargement# which accommodates the permitted #floor area# is not possible under the provisions of Sections 81-271 to 81-276, inclusive, and shall further present for the proposed design a complete daylight evaluation with an explanation of street score or overall daylight score deficiencies.

(b) The Commission shall make the following findings in addition to any required under the applicable provisions of Sections 74-71:

(1) that the requested departure from the alternate height and setback regulations is the minimum amount necessary to achieve a feasible #building# design;

(2) that the disadvantages to the surrounding area resulting from reduced light and air access will be more than offset by the advantages of the landmark's preservation to the local community and the City as a whole; and

(3) that where the landmark is located on the #zoning lot# proposed for #development# or #enlargement# or on a lot contiguous thereto or directly across a #street# therefrom, the modification of the alternate height and setback regulations will adequately protect the setting for the landmark.

81-28 - Minimum Distance Between Buildings

LAST AMENDED
2/2/2011

On any single #zoning lot# within the #Special Midtown District#, if two or more #buildings# or portions of #buildings# are detached from one another at any level, such #buildings# or portions of #buildings# shall at no point be less than eight feet apart.

81-30 - OFF-STREET PARKING AND OFF-STREET LOADING REGULATIONS

LAST AMENDED
5/13/1982

81-31 - General Provisions

LAST AMENDED
5/8/2013

The regulations of Article I, Chapter 3 (Comprehensive Off-street Parking and Loading Regulations in the Manhattan Core), and the applicable underlying district regulations of Article III, Chapter 6, or Article IV, Chapter 4, relating to Off-street Loading Regulations, shall apply throughout the #Special Midtown District#, except as otherwise provided in this Section.

81-311 - Prohibitions of off-street parking or off-street loading facilities

LAST AMENDED
5/8/2013

Notwithstanding the provisions of Article I, Chapter 3, prohibitions of off-street parking facilities or #accessory# off-street loading berths or restrictions as to their location or access, as provided in Sections 81-44 (Curb Cut Restrictions) or 81-84 (Mandatory Regulations and Prohibitions), may be waived only in accordance with the applicable provisions of Sections 81-44 or 81-84.

81-40 - MANDATORY DISTRICT PLAN ELEMENTS

LAST AMENDED
8/9/2017

81-41 - General Provisions

LAST AMENDED
8/9/2017

The provisions of Section 81-40 (MANDATORY DISTRICT PLAN ELEMENTS) specify mandatory planning and urban design features. Requirements which apply generally or with minor specified exceptions throughout the #Special Midtown District# are fully set forth in the provisions of Section 81-40. For requirements which are not generally applicable but tied to specific locations within the District, the locations where these requirements apply are shown on Map 3 (Retail and Street Wall Continuity) or Map 4 (Subway Station and Rail Mass Transit Facility Improvement Areas) in Appendix A of this Chapter.

The provisions of Section 81-40 are all primarily oriented toward the accommodation and well-being of pedestrians. The requirements pertain to a number of elements which are interrelated and complement one another but are set forth in different sections because they can be treated separately.

Sections 81-42 (Retail Continuity Along Designated Streets), 81-43 (Street Wall Continuity Along Designated Streets) and 81-44 (Curb Cut Restrictions) are a group of sections with closely related purposes concerned with amenity and the well-being and safety of pedestrians. Sections 81-45 to 81-48, inclusive, are all concerned primarily with pedestrian traffic circulation. Major #building# entrances are focal points of heavy pedestrian traffic, so that controls on the locations of these entrances, as set forth in Section 81-48, are closely related to the pedestrian circulation space requirements.

Special district plan requirements for the Penn Center Subdistrict are set forth in Section 81-50, for the East Midtown Subdistrict are set forth in Section 81-60, for the Theater Subdistrict are set forth in Section 81-70, for the Fifth Avenue Subdistrict are set forth in Section 81-80 and for the Preservation Subdistrict are set forth in Section 81-90.

81-411 - Maintenance of pedestrian circulation spaces

LAST AMENDED
2/2/2011

Owners of property on which pedestrian circulation spaces are provided shall be responsible for their maintenance unless, in the case of relocated subway stairs, the Metropolitan Transit Authority has agreed in writing to such maintenance responsibility.

81-412 - Directional signs

LAST AMENDED
5/13/1982

Directional #signs# are required to call attention to relocated subway stairs and through #block# connections and announce their accessibility to the public.

81-413 - Provisions for persons with disabilities

LAST AMENDED
10/17/2007

All mandatory district plan elements required by the provisions of Section 81-45 (Pedestrian Circulation Space) shall conform with applicable laws pertaining to access for persons with disabilities.

81-42 - Retail Continuity Along Designated Streets

LAST AMENDED
6/6/2024

The underlying #ground floor level# streetscape provisions of Section 32-30 (STREETSCAPE REGULATIONS), inclusive, shall apply, except that #ground floor level# #street# frontages along #streets#, or portions thereof, designated on Map 3 (Retail and Street Wall Continuity) in Appendix A of this Chapter shall be considered #Tier C street frontages#.

Additional regulations apply along designated retail #streets# located within the boundaries of the Penn Center Subdistrict, the East Midtown Subdistrict, the Theater Subdistrict or the Fifth Avenue Subdistrict and #uses# along such designated #streets# shall be subject to the respective subdistrict retail requirements in Sections 81-531, 81-674, 81-72 and 81-82.

81-43 - Street Wall Continuity Along Designated Streets

LAST AMENDED
12/5/2024

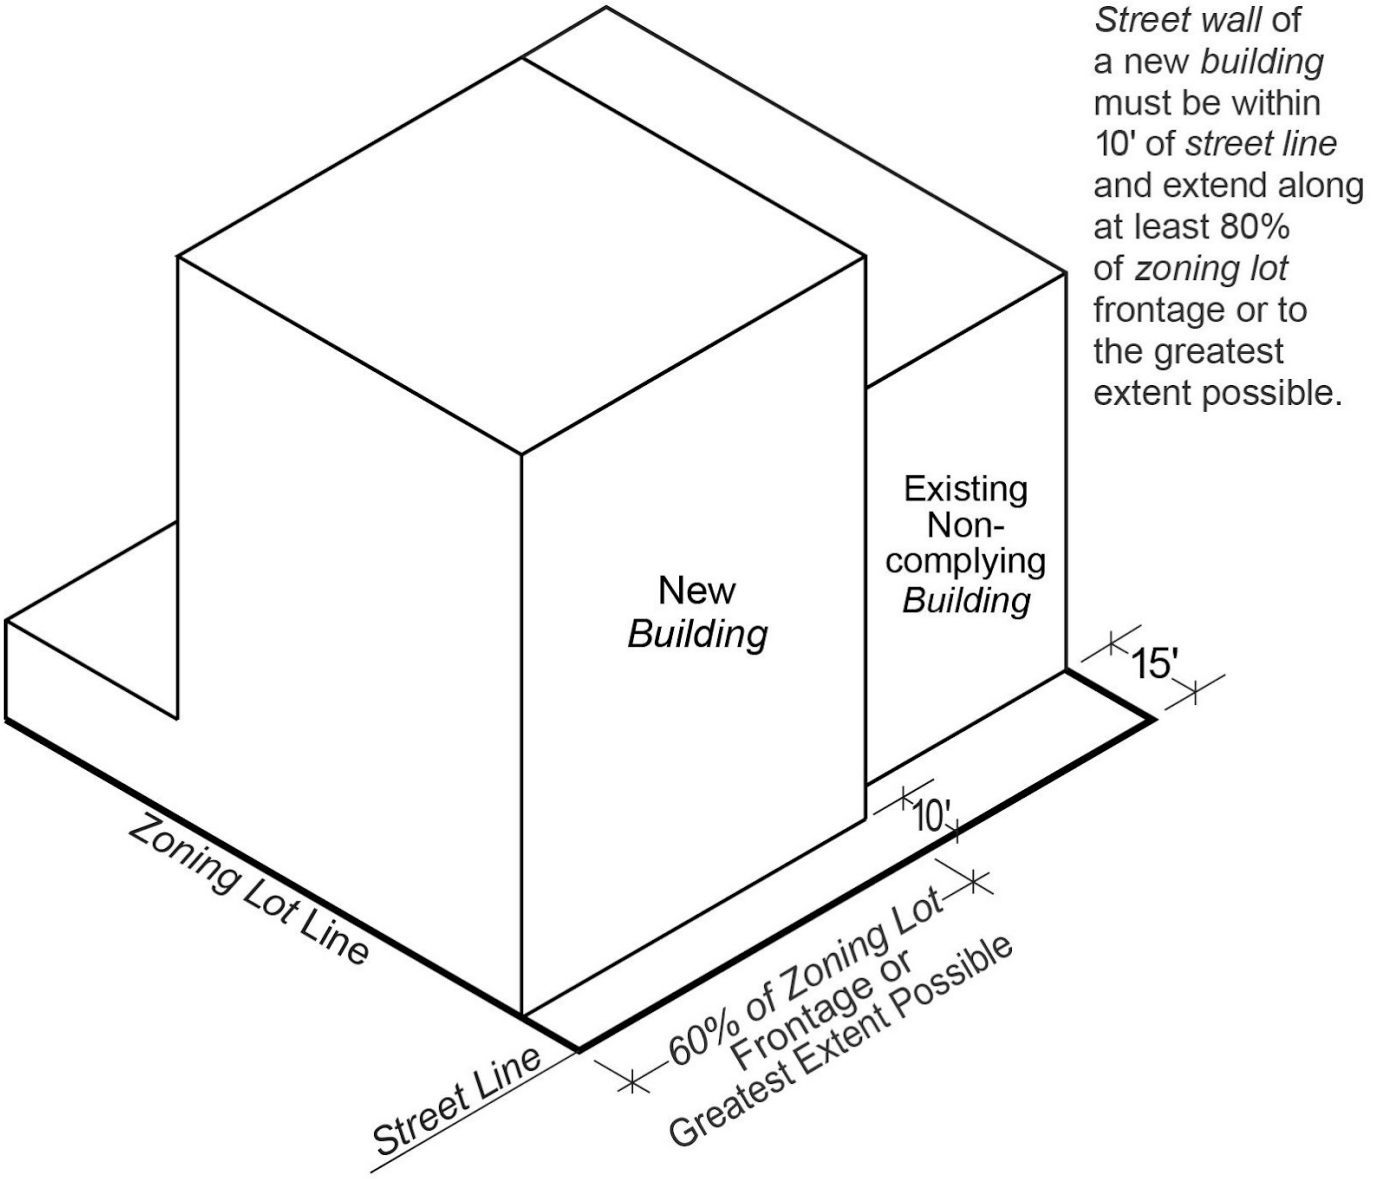
On designated #streets# where #street wall# continuity is required (see Map 2 in Appendix A) and, between 43rd and 50th Streets, on the #narrow street# frontages of #zoning lots# with #street# frontage on Seventh Avenue and/or Broadway, the #street wall# of a #building#, for the minimum width and height set forth in this Section, shall be within 10 feet of the #street line# or within 10 feet of a permitted arcade's supporting columns at the #street line#, except that on 57th Street, 42nd Street, 34th Street and Fifth Avenue, no #street wall# setback below a height of 85 feet is permitted. The width of the #street wall# subject to setback restrictions shall be at least 80 percent of the length of the #front lot line# of the #zoning lot# along the specified #street#, measured at the specific heights or anywhere above the specific heights indicated in the table in this Section. At those specific heights or anywhere above those specific heights, the #street wall# must extend continuously within 10 feet of the #street line# for all of its required width, except that on 57th Street, 42nd Street, 34th Street and Fifth Avenue, at a height of 85 feet or above, the #street wall# must extend continuously without setback for at least 75 percent of its required width and no portion of its required width shall be set back more than 10 feet from the #street line#; and, for #zoning lots# between 43rd and 50th Streets with #street# frontage on Seventh Avenue and/or Broadway, any portion of the required width of a #street wall# which lies behind a #sign# required under the provisions of Section 81-732 (Special Times Square signage requirements) may be set back up to 15 feet from the #street line#.

The minimum height of a #street wall# subject to the setback restrictions shall be as follows:

Length of #Zoning Lot# Frontage	Minimum Height of a #Street Wall# Subject to the Setback Restrictions
For #zoning lots# with frontages of 50 feet or less on the designated #street#	Four #stories# or 50 feet above #curb level#, whichever is less
For #zoning lots# with frontages of more than 50 feet on the designated #street#	Six #stories# or 85 feet above #curb level#, whichever is less

#Developments#, which are in their entirety no more than two #stories# in height, shall be exempt from the minimum #street wall# height requirements set forth in the table in this Section, except that, subsequent to the issuance of a building permit for such #development#, if there are additional #developments# on the #zoning lot# or if any #building# on the #zoning lot# is #enlarged#, the #development# exempt from the requirements set forth in the table in this Section, shall no longer be exempt from such requirements and its #street walls# shall be raised to a height complying with the table.

Existing #buildings# need not comply with the minimum #street wall# height and location provisions of this Section. Such #buildings# shall be included in the calculation of the required percentage of #street wall# width and height along a #street# frontage. No existing #building# shall be altered such that a #non-compliance# with the provisions of this Section is created, nor shall an existing degree of #non-compliance# with these provisions be increased.



STREET WALL REQUIREMENT WITH EXISTING BUILDING

(81-43)

Pedestrian circulation spaces may be provided to meet the requirements of Sections 81-45 (Pedestrian Circulation Space), 81-46 (Off-street Relocation or Renovation of a Subway Stair) or 81-48 (Off-street Improvement of Access to Rail Mass Transit Facility), subject to the setback restrictions of this Section and to the minimum width of the #street wall# subject to such setback restrictions. However, the City Planning Commission may waive such restrictions for a subway entrance area which is part of a subway station or a rail mass transit facility improvement for which bonus #floor area# is granted, in

accordance with the provisions of Sections 66-51 (Additional Floor Area for Mass Transit Station Improvements) and 81-542 (Retention of floor area bonus for plazas or other public spaces), or an off-street improvement of access to a rail mass transit facility that has been certified in accordance with Section 81-48.

Except on 57th Street, 42nd Street, 34th Street and Fifth Avenue, below the minimum height of a #street wall# subject to the setback restriction, recesses (whose depth shall be measured in all cases from the #street line#) shall be permitted only as follows: no recesses greater than 15 feet deep shall be permitted, recesses up to 15 feet deep shall be limited in their aggregate area to no more than 30 percent of the area of the new #street wall# below the minimum required #street wall# height; in addition, recesses up to 12 feet deep shall be limited in their aggregate area to no more than 20 percent of the area of the #street wall# below the minimum required #street wall# height, and recesses up to 10 feet deep shall not be limited in their aggregate area.

On 57th Street, 42nd Street, 34th Street and Fifth Avenue, below the minimum height of a #street wall# subject to the setback restriction, recesses (whose depth shall be measured in all cases from the #street line#) shall be permitted only as follows: no recesses greater than 10 feet deep shall be permitted; recesses up to 10 feet deep shall be limited in their aggregate area to no more than 30 percent of the area of the #street wall# below the minimum required #street wall# height; in addition, recesses up to two feet deep shall be limited in their aggregate area to no more than 20 percent of the area of the #street wall# below the minimum required #street wall# height and recesses up to one foot deep shall not be limited in their aggregate area.

The restrictions on recesses shall not apply to arcades, corner arcades, subway stairs relocated within the #building#, through #block# connections within the #building# or #building# entrance recess areas within the #building#, where such spaces are provided in accordance with the requirements and design standards of Sections 81-45 or 81-46 and provided that such spaces shall be subject to a maximum height limit of 30 feet. Any recesses in the #residential# portion of a #building# shall comply with the #outer court# regulations of Section 23-353.

No arcades, sidewalk widenings or #public plazas# shall be permitted on Fifth Avenue, 34th Street, 42nd Street or 57th Street frontages. Between 42nd and 56th Streets, no arcades or #public plazas# shall be permitted on Eighth Avenue. Between 43rd and 50th Streets, no arcades or #public plazas# shall be permitted on Seventh Avenue or Broadway and, with the exception of marquees and #signs#, any area between the Seventh Avenue or Broadway #street line# and any required #street wall# below the height of the first required setback, including permitted recesses, shall be open from #curb level# to the sky in its entirety. Any such area shall be at the same elevation as the adjoining sidewalk, directly accessible to the public at all times and free of all obstructions at ground level, including #street# trees. On the remaining #streets# designated for #street wall# continuity, arcades, if provided, shall be not less than 10 feet in depth and not more than 30 feet high. Arcades shall not be counted toward the recess allowances.

For #zoning lots# between 43rd and 50th Streets with #street# frontage on Seventh Avenue and/or Broadway, the minimum and maximum heights of #street walls# subject to the setback restrictions on all #street# frontages shall be in accordance with Section 81-75 (Special Street Wall and Setback Requirements).

For #zoning lots# located wholly or partially within the Eighth Avenue Corridor, the minimum and maximum heights of #street walls# subject to the setback restrictions on all #street# frontages shall be in accordance with Section 81-75.

On Fifth Avenue, the minimum required #street wall# height without setback shall be 85 feet and the maximum allowable #street wall# height without setback shall be 125 feet. Above the maximum #street wall# height, a setback of at least 10 feet shall be required, pursuant to the provisions of Section 81-83.

81-44 - Curb Cut Restrictions

LAST AMENDED
12/5/2024

Along all avenues in Midtown and along 57th, 53rd, 42nd and 34th Streets, no driveway curb cuts for parking facilities or loading berths shall be permitted except for the following:

(a) the Commissioner of Buildings may approve a curb cut where there are no alternative means of access to off-street loading berths from other #streets# bounding the #zoning lot#; or

(b) the City Planning Commission may authorize curb cuts where such curb cuts are needed for required loading berths. Such loading berths must be adjacent to a fully enclosed maneuvering area on the #zoning lot# at least equal in area to the area of the required loading berth and arranged so as to permit head-in and head-out truck movements to and from the #zoning lot#. The City Planning Commission will refer such applications to the Department of Transportation for their comment.

In addition, for #zoning lots# with frontage along such avenues and #streets# in Midtown where curb cuts are prohibited, the Commissioner of Buildings may waive required off-street loading berths pursuant to the provisions set forth in Section 13-33 (Modification of Loading Berth Requirements).

Where a curb cut is permitted as indicated in this Section, the maximum width of such curb cut shall be 15 feet for one-way traffic and 25 feet for two-way traffic. These curb cut requirements shall be in addition to any other applicable City rules or regulations concerning driveway curb cuts.

The above exceptions do not apply to Fifth Avenue, or between 43rd and 50th Streets, to Seventh Avenue or Broadway and no curb cuts shall be permitted in these cases. Between 43rd and 50th Streets, access to #accessory# off-street loading berths or off-street parking facilities shall not be permitted on Seventh Avenue or Broadway or, except where the length of a #narrow street# #block# frontage between the #street lines# of Seventh Avenue and Broadway exceeds 75 feet but is less than 125 feet, within 50 feet of the Seventh Avenue or Broadway #street line#. #Interior lots# between 43rd and 50th Streets with a #street# frontage only on Seventh Avenue or Broadway shall not contain loading berths.

81-45 - Pedestrian Circulation Space

LAST AMENDED
2/2/2011

Within the #Special Midtown District#, all #developments# or #enlargements# constructed after May 13, 1982, on #zoning lots# of 5,000 square feet or larger with more than 70,000 square feet of new #floor area#, shall provide pedestrian circulation space on such #zoning lot# in accordance with the provisions of Section 37-50, as modified by the provisions of this Section.

The requirements for pedestrian circulation space may be met by providing one or more of the following types of spaces: arcade, #building# entrance recess area, corner arcade, corner circulation space, relocation or renovation of a subway stair, sidewalk widening, subway station improvement, through #block# connection or #public plaza#.

In addition to the types of pedestrian circulation spaces listed in Section 37-50, the following may be counted toward meeting the minimum pedestrian circulation space requirement:

(a) up to a maximum of 3,000 square feet of an access improvement to rail mass transit provided pursuant to Section 81-48 (Off-Street Improvement of Access to Rail Mass Transit Facility);

(b) within the Theater Subdistrict, theater waiting space provided pursuant to Section 81-451 (Theater waiting space).

However, pedestrian circulation space shall not be required if any of the following conditions exist:

(1) the #zoning lot# is entirely occupied by a #building# of no more than one #story# in height;

(2) the #zoning lot# is an #interior lot# fronting on a #wide street# with less than 80 feet of #street# frontage;

(3) the #zoning lot# is an #interior lot# or #through lot# fronting only on a #street# or #streets# where arcades, sidewalk widenings or #public plazas# are prohibited;

(4) the #zoning lot# is an #interior lot# fronting on either 34th Street, 42nd Street, 57th Street or Fifth Avenue, with another interior frontage of lesser length on any other #street#; or

(5) the #zoning lot# is a #through lot# with both #street# frontages less than 25 feet in length.

#Developments# or #enlargements# on a #zoning lot# having a full #block# frontage on a #wide street# other than Fifth Avenue, 34th Street, 42nd Street or 57th Street shall provide a minimum of 50 percent of their required pedestrian circulation space on that #street#. In the case of a #zoning lot# having two full #block# frontages on #wide streets#, this minimum amount may be allocated on either one or both #wide streets#; where each #street# bounding a #zoning lot# with at least one full #block# frontage is a #wide street#, the minimum amount may be allowed on one or more of those #wide streets#.

Where pedestrian circulation space is provided along Seventh Avenue or Broadway between 43rd and 50th Streets, #signs# and marquees shall be permitted as exceptions to the requirements relating to permitted obstructions in Section 37-50.

Special dimensional requirements for arcades and sidewalk widenings along designated #streets# are set forth in Section 37-53 (Design Standards for Pedestrian Circulation Spaces). Where a new #building# or #enlarged# portion of an existing #building# provides an arcade, no obstructions, including columns, shall be permitted within such arcade, and the maximum height of such arcade shall be 20 feet and the maximum width shall be 10 feet. Arcades or sidewalk widenings shall not be permitted on 34th Street, 42nd Street, 57th Street or Fifth Avenue frontages or on any #street# frontage within the Preservation Subdistrict. Between 43rd and 50th Streets, no arcades shall be permitted parallel to and along Seventh Avenue or Broadway.

81-451 - Theater waiting space

LAST AMENDED
8/6/1998

Theater waiting space shall be an unobstructed area providing outdoor waiting space for a theater audience, located immediately adjacent to the sidewalk and to a theater listed in Section 81-742 (Listed theaters) or a new theater designed and intended to show live theatrical performances. Theater waiting space may be located on the same #zoning lot# occupied by a theater or a #zoning lot# immediately adjacent to a theater, and shall meet the following requirements:

(a) such space shall adjoin and open onto a sidewalk or sidewalk widening for its entire length and shall have a minimum length of 30 feet measured parallel to the #street line# and a minimum clear depth of 10 feet measured perpendicular to the #street line# exclusive of any columns. Its level shall be entirely the same as that of the adjoining sidewalk. When located under an overhanging portion of a #building or other structure#, it shall have a minimum clear height of 15 feet and be free of any obstructions except for #building# columns;

(b) such space shall provide direct access to a #building's# entrance or the theater's lobby. Where the theater and the theater waiting space are on separate #zoning lots#, a plaque shall be provided within the theater waiting space adjacent to the theater stating that the space is available as a waiting area for the theater audience. Such plaque shall be placed between four feet and six feet above #curb level#, and shall be visible from the sidewalk;

(c) such space shall not adjoin a driveway or an off-street loading berth; and

(d) the entire theater waiting space shall be illuminated with a minimum level of not less than eight horizontal foot-candles (lumens per foot).

The theater waiting space may overlap with an arcade, a #building# entrance recess area, a corner arcade, a corner circulation space or a sidewalk widening. However, the area of overlap may only be counted once toward the fulfillment of the required minimum area of pedestrian circulation space.

81-46 - Off-street Relocation or Renovation of a Subway Stair

LAST AMENDED
2/2/2011

Where a #development# or #enlargement# is constructed on a #zoning lot# that contains at least 5,000 square feet of #lot area# and fronts on a sidewalk containing a stairway entrance or entrances into a subway station, the existing entrance or entrances shall be relocated from the #street# onto the #zoning lot#. The new entrance or entrances shall be provided in accordance with the provisions of Section 37-40 (OFF-STREET RELOCATION OR RENOVATION OF A SUBWAY STAIR). A relocated or renovated subway stair may be counted as pedestrian circulation space in accordance with the provisions of Section 37-50.

The subway stations where such improvements are required are listed in the following table and shown on Map 3 (Subway Station and Rail Mass Transit Facility Improvement Areas) in Appendix A.

Station	Line
34th Street-Penn Station	Broadway-7th Avenue
34th Street-Penn Station	8th Avenue
34th Street-Herald Square	6th Avenue/Broadway-60th Street

42nd Street-Times Square/42nd Street- Port Authority Bus Terminal	Broadway-7th Ave/Broadway/ 8th Ave/42nd St. Shuttle
42nd Street-Bryant Park/Fifth Avenue	6th Avenue/Flushing
42nd Street-Grand Central	Lexington Avenue/Flushing/ 42nd St. Shuttle
47th-50th Street-Rockefeller Center	6th Avenue
49th Street	Broadway-60th Street
50th Street	8th Avenue
50th Street	Broadway-7th Avenue
7th Avenue	53rd Street
Fifth Avenue-53rd Street	53rd Street

51st Street/Lexington Ave.- 53rd Street	53rd Street/Lexington Avenue
57th Street	Broadway-60th Street
57th Street	6th Avenue
59th Street-Columbus Circle	Broadway-7th Avenue/8th Avenue

81-47 - Major Building Entrances

LAST AMENDED
2/2/2011

In order to limit pedestrian traffic congestion on #zoning lots# with at least 20,000 square feet of #lot area#, the following restrictions apply to #buildings# #developed# after May 13, 1982, as described in paragraphs (a) and (b) of this Section, except as provided in paragraph (c) in this Section. For the purposes of this Section, the major entrance to a #building# shall be that entrance to the main lobby of the #building# which has the greatest aggregate width of clear openings for access.

(a) When the #zoning lot# contains a #public plaza# or an open though #block# connection located entirely outside of the #building#, the major entrance to the #building# shall open on the #public plaza# or the open through #block# connection.

(b) Where there is no #public plaza# or open through #block# connection on the #zoning lot#, the following restrictions on major entrances shall apply to #corner lots# or #block# front lots:

(1) #Corner lots#

On a #corner lot# with frontage on no more than one #narrow street#, the major entrance shall be located on the #narrow street#.

On a #corner lot# with frontages on two #wide streets#, the major entrance shall be located on either #wide street#.

(2) #Block# front lots

On a full #block# front lot with one or more #narrow street# frontages, a major entrance shall be located on at least one #narrow street#, except that this requirement shall not apply if the #zoning lot# contains a permitted sidewalk widening with a width of 10 feet along a #wide street#.

(c) Exceptions to requirements

Under the following conditions, #developments# shall not be subject to the locational requirements of this Section:

(1) where the location of an existing #building# on the #zoning lot# precludes compliance with the regulations of this Section; or

(2) where the #zoning lot# is located on a #block# where the distance between two intersections of #street lines# is less than 150 feet.

81-48 - Off-street Improvement of Access to Rail Mass Transit Facility

LAST AMENDED
2/2/2011

An off-street rail mass transit access improvement shall provide a new point of unobstructed off-street public access to a rail mass transit station or facility. It shall immediately adjoin, and be accessible without any obstruction from, an arcade, a #building# entrance recess area, a corner arcade, a corner circulation space, a public sidewalk, a sidewalk widening or a #public plaza#, each of which shall have a minimum horizontal dimension equal to the width of the rail mass transit access improvement. The rail mass transit access improvement may be provided within a #building# but shall not be enclosed by any doors. The area it occupies within a #building# shall not be counted toward the #floor area# of the #zoning lot#.

The Chairperson of the City Planning Commission may certify that an off-street rail mass transit access improvement satisfies the requirements of Section 81-45 (Pedestrian Circulation Space), provided that such improvement is approved by the entity which operates the mass transit station or facility and meets the following standards:

(a) Dimensions

An off-street mass transit access improvement shall have a minimum clear, unobstructed width of not less than 15 feet and a minimum clear, unobstructed height from finished floor to finished ceiling of not less than eight feet.

(b) Obstructions

An off-street mass transit access improvement shall be free of obstructions except for #building# columns and shall provide a continuous, unobstructed path at least 15 feet wide connecting the public sidewalk, pedestrian circulation space or #public plaza# with the rail

mass transit station or facility.

(c) Hours of public accessibility

An off-street rail mass transit access improvement shall be accessible to the public during the hours when the circulation areas to which it connects are open to the public or during such hours as are otherwise approved by both the Chairperson and the operating entity of the mass transit station or facility.

(d) Enclosures

The rail mass transit access improvement may be provided within a #building# but shall not be enclosed by any doors unless the Chairperson certifies that such improvement is an integral part of the #building# lobby and public circulation space, and such doors are secured only during the hours that the circulation areas of the rail mass transit facility to which it connects are closed.

(e) Maintenance

An off-street rail mass transit access improvement shall be maintained by the owner of the #development# or #enlargement#.

One and a half times the area of the new off-street rail mass transit access improvement measured at #street# level shall, upon the Chairperson's certification, count toward the minimum area of pedestrian circulation space required under the provisions of Section 81-45, up to a maximum of 3,000 square feet.

81-50 - SPECIAL REGULATIONS FOR THE PENN CENTER SUBDISTRICT

LAST AMENDED

10/31/2001

81-51 - General Provisions

LAST AMENDED
8/26/2010

In order to establish the Penn Center Subdistrict as a destination and enhance its retail, entertainment and commercial character and expand accessibility to its transportation network, special regulations are set forth governing the location and type of #signs#, urban design and streetscape relationships, and the improvement of pedestrian circulation to and from public transit facilities.

The regulations of Section 81-50 are applicable only in the Penn Center Subdistrict, the boundaries of which are shown on Map 1 (Special Midtown District and Subdistricts) in Appendix A of this Chapter, except as set forth for rail mass transit facility improvements, pursuant to Section 81-541. These regulations supplement or modify the provisions of this Chapter applying generally to the #Special Midtown District#, of which this Subdistrict is a part.

81-52 - Sign Regulations

LAST AMENDED
10/31/2001

The provisions of this Section shall apply to all #zoning lots# with frontage along Seventh Avenue. The height of all #signs# shall be measured from the #curb level#.

(a) #Signs#, including #advertising signs#, #flashing signs# and #illuminated signs#, unlimited in area, shall be permitted to a height of 40 feet. Below a height of 14 feet, such #signs# shall not

occupy more than 50 percent of the glazed #street wall# surface required, pursuant to Section 81-42, nor shall such #signs# be located within 10 feet of an entrance to a rail mass transit facility or subway station.

(b) #Signs#, including #advertising signs#, #flashing signs# and #illuminated signs#, except as otherwise provided in Section 81-52, paragraph (c), may be permitted above a height of 40 feet by the City Planning Commission, upon certification that:

(1) such #signs# and #sign# structures to which #signs# are attached shall not exceed a height of 60 feet; except that #signs# and #sign# structures onto which #signs# are attached, within 40 feet of the intersection of two #streets# or within 30 feet of the centerline of the westerly prolongation of West 32nd Street along the west #block# front of Seventh Avenue between West 31st and West 33rd Streets, shall not exceed a height of 100 feet;

(2) such #signs# above a height of 60 feet are located on #zoning lots# that contain an entrance to, or are adjacent to, an entrance to a rail mass transit facility and/or subway station;

(3) such #signs# shall not project across a #street line# more than 18 inches for double or multifaceted #signs# or 12 inches for other signs, except that #signs# within 40 feet of the intersection of two #streets# may project up to three feet across a #street line# above a height of 25 feet;

(4) such #signs# that exceed a height of 60 feet, shall be no wider than 40 feet each;

(5) such #signs# or #sign# structures that exceed a height of 60 feet, may include lighting effects at the top of such #sign# structure and such lighting effects shall not exceed a height of 10 feet above such #sign# or #sign# structure.

(6) such #signs# and #sign# structures onto which #signs# are attached within 30 feet of the centerline of the westerly prolongation of West 32nd Street shall have a minimum

clearance of 10 feet from the adjacent #building#, and such #sign# structure shall have a minimum clearance of 20 feet from the #street line# in order not to obstruct visibility of the transit entrance from the #street#;

(7) on #zoning lots# that contain an entrance to, or are adjacent to, an entrance to a rail mass transit facility and/or subway station, the requirements for rail mass transit or subway entrance informational #signs# of Section 81-521 are met; and

(8) monies will be deposited into an escrow account or similar fund established by the City, to be used at the direction of the Chairperson of the City Planning Commission and the Commissioner of the Department of Transportation, acting in consultation with the Metropolitan Transit Authority, as necessary, for streetscape and for abovegrade and belowgrade pedestrian circulation improvements within the Penn Center Subdistrict. For the period through January 1, 2003, and thereafter, until adjusted by rule of the City Planning Commission pursuant to the City Administrative Procedure Act, such #sign# contribution shall be equal to $30 per square foot of #sign# permitted above a height of 40 feet. Any net increase in the surface area of a previously approved #sign# shall require a new certification and the deposit of a supplemental #sign# contribution in an amount reflective of such increase.

Alternatively, an applicant may, at the time of the first certification for a #sign# at a location under its control, deposit a #sign# contribution in an amount equal to $20 per square foot of #sign# above a height of 40 feet for the total amount of square footage of all #signs# eligible for certification at locations under the applicant's control. The deposit of monies under this alternative procedure shall not relieve the applicant of the requirement to seek and obtain a certification for each such #sign#, pursuant to this paragraph (b), prior to installation.

For purposes of this paragraph (b), the square footage of the #sign# shall mean the #surface area# of a #sign#, except that it shall also include the area of any structural frame or similar enclosure in which the #sign# is located or to which it is attached. No #sign# for which a

certification has been received shall be installed prior to deposit of the #sign# contribution in accordance with this paragraph (b).

(c) #Signs# above a height of 40 feet on any #building# listed on the State and/or National Register of Historic Places, or any #building# formally determined eligible for inclusion on the Register, may be permitted upon authorization by the City Planning Commission, that:

(1) the proposed method of attachment of such #signs# shall be reversible;

(2) such #signs# shall not be disruptive to the historic fabric of the #building#;

(3) such #signs# shall comply with all other requirements of paragraph (b) of this Section;

(4) the requirements for rail mass transit or subway entrance informational #signs# of Section 81-521 are met; and

(5) monies shall be deposited into an escrow account or similar fund established by the City, to be used at the direction of the Chairperson of the City Planning Commission and the Commissioner of the Department of Transportation, acting in consultation with the Metropolitan Transit Authority, as necessary, for streetscape and for above-grade and belowgrade pedestrian circulation improvements within the Penn Center Subdistrict. For the period through January 1, 2003, and thereafter, until adjusted by rule of the City Planning Commission pursuant to the City Administrative Procedure Act, such #sign# contribution shall be equal to $30 per square foot of #sign# permitted above a height of 40 feet. For purposes of this paragraph (c), the square footage of the #sign# shall mean the #surface area# of a #sign#, except that it shall also include the area of any structural frame or similar enclosure in which the #sign# is located or to which it is attached. No #sign# for which an authorization has been approved shall be installed prior to deposit of the #sign# contribution in accordance with this paragraph (c), or the alternative #sign# contribution provided in paragraph (b)(8) of this Section.

Any net increase in the #surface area# of a previously approved #sign# shall require a new authorization and the deposit of a supplemental #sign# contribution in an amount reflective of such increase.

81-521 - Rail mass transit and subway entrance informational signs

LAST AMENDED
10/31/2001

For a #zoning lot# that contains or is adjacent to an entrance or entrances to a rail mass transit facility or subway station, no permit shall be issued for any #signs# that extend or are located above a height of 40 feet, unless the City Planning Commission certifies that each such entrance is clearly identified with rail mass transit or subway entrance informational #signs# and marquees in accordance with paragraphs (a) and (b) of this Section. Such rail mass transit or subway entrance informational #sign# or marquee shall remain, or be upgraded or replaced by a similar #sign# or marquee, for the life of the related development.

(a) Rail mass transit or subway entrance informational #signs# shall prominently identify the entrance on both #streets# of a #corner lot#. Where rail mass transit or subway entrance informational #signs# are provided at the western #block# front of Seventh Avenue between West 31st and West 33rd Streets, such #signs# shall prominently identify the entrance to Pennsylvania Station to pedestrians on both Seventh Avenue and West 32nd Street. All such informational #signs# shall comply with the following requirements:

(1) such #signs# shall contain only transit information;

(2) such #signs# shall be illuminated and located no less than 12 feet above and no more than 25 feet above #curb level#;

(3) such #signs# shall contain the word “Subway” and/or appropriate other rail mass transit identification and transit line symbols. The graphic standards shall adhere to New York City Transit or other pertinent transit agency standards with all letters no less than three feet and transit symbols no less than two feet in dimension;

(4) such #signs# shall be no less than 30 feet in length on each #street# and shall extend farther than 30 feet in order to include the actual entrance; and

(5) such #signs# may project up to five feet beyond the #street line#.

(b) At the rail mass transit or subway entrance, a marquee shall be provided to further identify the entrance and shall:

(1) contain only transit sign information;

(2) be illuminated and located no less than 12 feet above and no more than 25 feet above #curb level#;

(3) have a minimum length of 20 feet or the full width of the entrance, whichever is less;

(4) project no less than five feet beyond the transit or subway informational #sign#; and

(5) include illuminated mass transit identification and transit line symbols that meet the New York City Transit or other pertinent transit agency standards.

81-53 - Special Bulk and Urban Design Requirements

LAST AMENDED
2/2/2011

In addition to the requirements set forth in Sections 81-25 (General Provisions Relating to Height and Setback of Buildings) and 81-40 (MANDATORY DISTRICT PLAN ELEMENTS), the provisions of this Section shall apply to a #zoning lot# having 50 percent or more of its #lot area# within the Penn Center Subdistrict. For the purposes of this Section, all such #zoning lots# shall be deemed to be entirely within the Subdistrict. If any of the provisions of Sections 81-25, 81-40 and 81-53 are in conflict, the regulations of this Section shall govern.

81-531 - Special retail frontage requirements

LAST AMENDED
6/6/2024

The provisions of Section 81-42 (Retail Continuity Along Designated Streets) shall apply within the Penn Center Subdistrict, except that any underlying transparency requirement shall not apply to any informational #signs# or marquees provided to identify rail mass transit or subway entrances in accordance with Section 81-52 (Sign Regulations).

81-532 - Special street wall requirements

LAST AMENDED
2/2/2011

The provisions of Section 81-43 (Street Wall Continuity Along Designated Streets) shall apply, except that the #street wall# of all #buildings# along the Seventh Avenue frontage of #zoning lots# shall be a minimum of 85 feet above #curb level# or the full height of the #building#, whichever is less. All other provisions of Section 81-43 shall apply without modification.

In addition, the restrictions on permitted recesses contained in Section 81-43 shall not apply to pedestrian circulation spaces provided in accordance with Sections 81-46 (Off-street Relocation or Renovation of a Subway Stair) or 81-48 (Off-street Improvement of Access to Rail Mass Transit Facility) nor to interstitial spaces between #signs# or between #building# walls and #signs#.

81-54 - Floor Area Bonus in the Penn Center Subdistrict

LAST AMENDED
10/31/2001

81-541 - Mass transit station improvements

LAST AMENDED
10/7/2021

For #developments# or #enlargements# on #qualifying transit improvement sites#, a #floor area# bonus for #mass transit station# improvements may be granted by the City Planning Commission pursuant to the provisions of Section 66-51 (Additional Floor Area for Mass Transit Station Improvements). For the purposes of this paragraph, defined terms additionally include those in Section 66-11 (Definitions).

For the purposes of this Section, improvements to any #mass transit station# on a #qualifying transit improvement site# located wholly or partially within the Subdistrict qualifies for bonus #floor area# in accordance with the provisions of Section 66-51, as modified herein. For a #qualifying transit improvement site# located partially within the Subdistrict, such bonus #floor area# may be located anywhere on such #qualifying transit improvement site#. In addition, if a #mass transit station# improvement has been constructed in accordance with an approved authorization or special permit

and has received a Notice of Substantial Completion in accordance with the provisions of Section 66-51, the bonus #floor area# may be retained at the full amount granted by the authorization or special permit and may be utilized elsewhere on the #qualifying transit improvement site# subject to any applicable review and approval process for such #development# or #enlargement#.

81-542 - Retention of floor area bonus for plazas or other public spaces

LAST AMENDED10/17/2007

For the #zoning lot# bounded by West 34th Street, Seventh Avenue, West 33rd Street and Eighth Avenue, which contains at least 7,000 square feet of existing #publicly accessible open areas# or other bonused public amenity in the Penn Center Subdistrict, the maximum allowed #floor area# bonus for all existing #publicly accessible open areas# or other public amenities on the #zoning lot# may be retained at the amount allowed prior to October 31, 2001, subject to all other provisions of this Resolution, notwithstanding inclusion of such #zoning lot# within the #Special Midtown District#.

81-60 - SPECIAL REGULATIONS FOR THE EAST MIDTOWN SUBDISTRICT

LAST AMENDED
8/9/2017

81-61 - General Provisions

LAST AMENDED
8/9/2017

Special regulations are set forth in this Section to protect and strengthen the economic vitality and competitiveness of East Midtown by facilitating the development of exceptional modern and sustainable office towers; creating successful pedestrian-friendly public spaces; enabling improvements to the above- and below-grade pedestrian circulation network; protecting and strengthening the role of landmark buildings as important features of East Midtown; protecting and enhancing the role of Grand Central Terminal as a major transportation hub within East Midtown and the city; expanding and enhancing the pedestrian circulation network connecting Grand Central Terminal to surrounding development and minimizing pedestrian congestion; and protecting the iconic character of the surrounding area. Such regulations establish special provisions governing maximum floor area, sustainability, urban design and streetscape enhancements, the transfer of development rights from landmarks, and the improvement of the surface and subsurface pedestrian circulation network in the East Midtown Subdistrict.

The regulations of Section 81-60 (SPECIAL REGULATIONS FOR THE EAST MIDTOWN SUBDISTRICT), inclusive, are applicable only in the East Midtown Subdistrict, the boundaries of which are shown on Map 1 (Special Midtown District and Subdistricts) and Map 2 (East Midtown Subdistrict and Subareas) in Appendix A of this Chapter. These regulations supplement or modify the provisions of this Chapter applying generally to the #Special Midtown District#, of which this Subdistrict is a part.

Where the #lot line# of a #zoning lot# coincides with the boundary of the public place located at the southerly prolongation of Vanderbilt Avenue between East 42nd Street and East 43rd Street, such #lot line# shall be considered to be a #street line# for the purposes of applying the #use#, #bulk# and urban design regulations of this Chapter.

81-611 - Applicability of regulations

LAST AMENDED
8/9/2017

The provisions of Section 81-60, inclusive, shall apply in the East Midtown Subdistrict as follows:

(a) Section 81-61, inclusive, sets forth general provisions, applicability and definitions for the East Midtown Subdistrict;

(b) Section 81-62, inclusive, sets forth special use provisions;

(c) Section 81-63, inclusive, sets forth special #floor area# provisions for the Vanderbilt Corridor Subarea;

(d) Section 81-64, inclusive, sets forth special #floor area# provisions for #qualifying sites#;

(e) Section 81-65, inclusive, sets forth special #floor area# provisions for all other #zoning lots#;

(f) Section 81-66, inclusive, sets forth certain height and setback modifications to the provisions of Sections 81-26 and 81-27;

(g) Section 81-67, inclusive, sets forth certain modifications to the mandatory district plan elements of Section 81-40, inclusive; and

(h) Section 81-68, inclusive, sets forth additional provisions pertaining to #qualifying sites#.

81-612 - Applicability along district boundaries

LAST AMENDED

For #zoning lots# divided by district boundaries, the underlying provisions shall apply, except as follows:

(a) For #qualifying sites# divided by district boundaries where both districts have the same maximum #floor area ratio# set forth in Rows E and H of the table in Section 81-64 (Special Floor Area Provisions for Qualifying Sites), the provisions of Section 33-16 (Special Provisions for Zoning Lots Divided by District Boundaries) shall not apply to a #building# #developed# or, where permitted, #enlarged#, to exceed the basic maximum #floor area# in Row A of the table in Section 81-64. In lieu thereof, the #floor area# of such #building# on a #qualifying site# may be located anywhere on the #zoning lot#, regardless of the district boundary.

(b) In addition to the requirements set forth in Sections 81-25 (General Provisions Relating to Height and Setback of Buildings) and 81-40 (MANDATORY DISTRICT PLAN ELEMENTS), the provisions of Section 81-60, inclusive, shall apply to a #zoning lot# having 50 percent or more of its #lot area# within the East Midtown Subdistrict. For the purposes of Section 81-60, inclusive, all such #zoning lots# shall be deemed to be entirely within the Subdistrict. If any of the provisions of Sections 81-25, 81-40 and 81-60, inclusive, are in conflict, the regulations of Section 81-60, inclusive, shall govern. However, for #zoning lots# located partly within the East Midtown Subdistrict and partly within the Fifth Avenue Subdistrict, the provisions of Article VII, Chapter 7 shall apply.

(c) For #zoning lots# divided by subarea boundaries, the provisions of Article VII, Chapter 7 shall apply.

(d) For #zoning lots# with #landmark buildings or other structures# where more than 50 percent of the #lot area# is located within the #Special Midtown District#, and which #abut# the East

Midtown Subdistrict boundary, such #zoning lot# may be considered as part of the Subdistrict for the purposes of transferring development rights pursuant to the applicable provisions of Sections 81-642 (Transfer of development rights from landmarks to qualifying sites) or 81-653 (Special permit for transfer of development rights from landmarks to non-qualifying sites). However, the maximum amount of #floor area# that may be transferred from a #granting lot#, or portion thereof, located outside the Special Midtown District shall be the maximum #floor area ratio# permitted under the applicable underlying zoning district.

81-613 - Definitions

LAST AMENDED
12/5/2024

Non-qualifying site

For the purposes of Section 81-60, inclusive, a "non-qualifying site" shall refer to a #zoning lot# that does not meet the criteria for a #qualifying site# and is located in a subarea other than the Vanderbilt Corridor Subarea.

Public Realm Improvement Fund

For the purposes of Section 81-60, inclusive, the "Public Realm Improvement Fund" (the "Fund") shall be a separate interest-bearing account established for the deposit of contributions made when

#developments# or, where permitted, #enlargements# on #qualifying sites# in the East Midtown Subdistrict will exceed the basic maximum #floor area ratio# set forth in Section 81-64 (Special Floor Area Provisions for Qualifying Sites) through their utilization of the provisions of Sections 81-642 (Transfer of development rights from landmarks to qualifying sites), 81-643 (Special provisions for retaining non-complying floor area in commercial buildings) or 81-685 (Special permit to modify qualifying site provisions). The Fund shall be utilized, at the discretion of the #Public Realm Improvement Fund Governing Group#, to provide funding to implement improvements to the East Midtown Subdistrict, and its immediate vicinity, in the Borough of Manhattan. Upon receipt of any contribution, the #Public Realm Improvement Fund Governing Group# or the Department of City Planning shall notify the Comptroller of the City of New York and the Speaker of the New York City Council and promptly deposit it into the Fund.

Public Realm Improvement Fund Development Rights Valuation

For the purposes of Section 81-60, inclusive, the "Public Realm Improvement Fund Development Rights Valuation" ("Development Rights Valuation") shall be a value per square foot of transferable development rights in the East Midtown Subdistrict, which shall provide a basis for establishing a minimum contribution to the #Public Realm Improvement Fund#. As of August 9, 2017, the Development Rights Valuation shall be set at $307.45 per square foot.

When proposing an adjustment to the Development Rights Valuation, the Department of City Planning shall undertake a transferrable development rights valuation study conducted by qualified professionals utilizing industry best practices. The City Planning Commission shall, by rule, review and adjust the Development Rights Valuation, pursuant to the City Administrative Procedures Act not more than once every three years and not less than once every five years.

An applicant, upon written request to the Commission, may request a transferable development rights valuation study to evaluate whether the Development Rights Valuation should be modified for a particular #qualifying site# based upon any recent changes in market conditions within the

Subdistrict. The study must be paid for by the applicant and completed within a one-year timeframe. The Department of City Planning shall initiate the study, to be conducted by qualified professionals utilizing industry best practices. Where the study demonstrates that the value of the development rights for the #qualifying site# is less than the Development Rights Valuation, the Commission shall, by certification, and in connection with a certification pursuant to Section 81-642 (Transfer of development rights from landmarks to qualifying sites), modify the required contribution to 20 percent of the adjusted valuation.

Public Realm Improvement Fund Governing Group

For the purposes of Section 81-60, inclusive, the "Public Realm Improvement Fund Governing Group" (the "Governing Group") shall be established to administer the #Public Realm Improvement Fund# (the "Fund"), and shall consist of 13 members: seven members shall be representatives of City agencies, appointed by and serving at the pleasure of the Mayor; one member shall be a representative of a citywide civic organization, appointed by the Office of the Manhattan Borough President; one member shall be a representative of the Office of the Manhattan Borough President; one member shall be a representative of the New York City Council member representing the City Council district encompassing the largest portion of the East Midtown Subdistrict; one member shall be a representative of the Speaker of the City Council; one member shall be a representative of Manhattan Community Board 5; and one member shall be a representative of Manhattan Community Board 6. The Governing Group shall be a local development corporation, organized pursuant to the New York State Not-for-Profit Corporation Law, and affiliated with City government for purposes of the New York State Public Authorities Law, whose organizational purpose shall be limited solely to the purposes set forth in this Chapter. Each member shall have one vote, and all Governing Group decisions, as set forth below, shall be upon a majority vote at a public meeting at which a quorum is present. A quorum shall consist of a majority of the members.

The purpose of the Governing Group shall be to bolster and enhance East Midtown's status as a premier central business district with a high-quality public realm, by allocating funds from the Fund

to implement public realm improvement projects. The Governing Group shall establish and maintain a Public Realm Improvement Concept Plan ("Concept Plan") for the purpose of creating a list of priority improvements, and shall have the authority to amend such Concept Plan, and associated list of improvements, as necessary. All priority improvements in the Concept Plan shall meet the criteria set forth in Section 81-683 (Criteria for improvements in the Public Realm Improvement Concept Plan).

Establishment of the Concept Plan, amendment of the Concept Plan, calendaring of items for a vote to fund, and designation of funding for a specific public realm improvement on the Concept Plan shall be decisions requiring a majority vote of the Governing Group at a meeting at which a quorum is present. If only members of the Governing Group appointed by the Mayor vote to calendar a particular public realm improvement for a vote to fund it, the Governing Group shall conduct a public hearing on the matter prior to such improvement being placed on the calendar for vote. In addition, if any member of the Governing Group puts forth a proposed public realm improvement, discussion of such improvement shall be added to the agenda of the next public meeting. Establishment of the initial Concept Plan shall be completed no later than November 1, 2017.

In the event that more than 20 million dollars remains in the Fund for more than three years, the Governing Group shall be required to hold a vote either to fund a public realm improvement project or to retain the funds.

The Governing Group shall adopt procedures for the conduct of its activities. Such procedures shall be consistent with the requirements of the New York State Open Meetings Law (Article 7, NYS Public Officers Law), which procedures shall also be consistent with the goals of the Subdistrict. Those procedures shall be publicly available by posting on the Department of City Planning's website, and shall include rules requiring reporting and transparency including, but not limited to, the following: procedures on the adoption and amendment of the concept plan and opportunity for public comment thereon; requirements to provide a transcript or recording of all public meetings and hearings; and transparency and annual reporting requirements concerning deposits into and expenditures from the Fund. The Governing Group shall annually update the Concept Plan by

providing a list of all projects on the Concept Plan to date, those added or removed in the past year, the dollar amount of funds designated to each project on the Concept Plan, to the extent available, the estimated cost of each project on the Concept Plan, and the schedule for all projects for which a decision to designate funding has been made by the Governing Group. Such annual update shall be posted on the Department of City Planning's website no later than January 15 of each calendar year following the establishment of the initial Concept Plan. All meetings of the Governing Group shall be open to the public with advance public notice provided of all meetings and public hearings.

Qualifying site

For the purposes of Section 81-60, inclusive, a "qualifying site" shall refer to a #zoning lot#:

(a) that is not located in the Vanderbilt Corridor Subarea;

(b) that has frontage along a #wide street#;

(c) where, at the time of #development# or, where permitted, #enlargement#, either:

(1) at least 75 feet of such #zoning lot's# #wide street# frontage is clear of #buildings or other structures#; or

(2) the entire #block# frontage along such #wide street# is occupied by one or more #landmark buildings or other structures#; or

(3) such #zoning lot's# #wide street# frontage is occupied by an existing easement volume that is being preserved, or reconfigured in accordance with Section 81-673 (Mass transit access);

(d) where a #building# is #developed# or, where permitted, #enlarged#, in accordance with the #floor area# provisions of Section 81-64 (Special Floor Area Provisions for Qualifying Sites), and such #development# or, where permitted, #enlargement# exceeds the basic maximum #floor area# set forth in Row A of the table in Section 81-64 and such #building# or publicly accessible space occupies the cleared area in paragraph (c)(1) of this definition, unless the provisions of paragraphs (c)(2) or (c)(3) apply;

(e) where a maximum of 20 percent of the #floor area# permitted on such #zoning lot# is allocated to #residential uses#, or a maximum of 24 percent of the #floor area# permitted on such #zoning lot# where #qualifying affordable housing# or #qualifying senior housing# is provided; and

(f) where such #building# being #developed# or, where permitted, #enlarged#, complies with the performance requirements of paragraph (a) and the publicly accessible space requirements of paragraph (b) of Section 81-681 (Mandatory requirements for qualifying sites).

Sale price

For the purposes of Section 81-60, inclusive, "sale price" shall mean the total consideration exchanged for transferred #floor area# pursuant to certification to transfer development rights from #zoning lots# occupied by #landmark buildings or other structures# within the East Midtown Subdistrict to a #qualifying site#. The total consideration shall include all consideration as defined in Chapter 21 of the Administrative Code of the City of New York and Title 19 of the Rules of the City of New York, as they may be amended, or their successor provisions, whether or not subject to tax under that Chapter. The total consideration shall also include any other compensation in whatever form received in exchange for the #floor area#, including contingent consideration. A valuation prepared pursuant to procedures established by rule of the City Planning Commission or the New York City Department of Finance shall be required for all consideration in a form other than cash. The application for certification shall include affidavits from the buyer and seller, attesting under penalty

of perjury, that all of the terms of the transaction and all the consideration have been disclosed, and may be subject to audit.

81-62 - Special Use Provisions

LAST AMENDED
8/9/2017

81-621 - Location of uses in mixed buildings

LAST AMENDED
6/6/2024

For #mixed buildings# #developed# on #qualifying sites#, the provisions of Section 32-422 (Location of floors occupied by commercial uses) shall be modified such that only the limitations set forth in paragraph (c) of such Section need apply.

81-63 - Special Floor Area Provisions for the Vanderbilt Corridor Subarea

LAST AMENDED
12/5/2024

For #non-residential buildings# or #mixed buildings# in the Vanderbilt Corridor Subarea of the East Midtown Subdistrict, as shown on Map 2 (East Midtown Subdistrict and Subareas) in Appendix A of this Chapter, the basic maximum #floor area ratios# of the underlying districts shall apply as set forth in this Section. Such basic maximum #floor area ratio# on any #zoning lot# may be increased by bonuses or other #floor area# allowances only in accordance with the provisions of this Chapter, and the maximum #floor area ratio# with such additional #floor area# allowances shall in no event exceed the amount set forth for each underlying district in the following table:

Means for Achieving Permitted FAR Levels on a #Zoning Lot# in the Vanderbilt Corridor Subarea	Maximum #Floor Area Ratio# (FAR)
A.Basic Maximum FAR	15
B. Maximum #Floor Area# Allowances: (District-wide Incentives), #Mass transit station# improvements (Section 66-51)	3.0
C. Maximum FAR of Lots Involving Landmarks:	
Maximum FAR of a lot containing non bonusable landmark (Section 74-711 or as-of-right)	15.0
Development rights (FAR) of a landmark lot for transfer purposes (Section 81-213)	15.0

Maximum amount of transferable development rights (FAR) from a landmark #zoning lot# that may be utilized on:	
(a) a #receiving lot# within a #surrounding area# (Section 81-213)	No Limit
(b) a #receiving lot# from #a granting lot# in the Grand Central Core Area (Section 81-632)	15.0
D. Maximum #Floor Area# Allowances by Special Permit for Grand Central public realm improvements (Section 81-633)	15.0
E. Maximum Total FAR of a Lot with Transferred Development Rights on a #receiving lot# from a #granting lot# in the Grand Central Core Area (Section 81-632) or District-wide Incentives (including Section 81-633)	30.0
F. Maximum Total FAR of a Lot with Transferred Development Rights on a #receiving lot# within a #surrounding area# (Section 81-213) or District-wide Incentives (other than Section 81-633)	No Limit

Any transfer of development rights from a landmark site may be made pursuant to either Section 81-213 (Special provisions for transfer of development rights from landmark sites in certain areas) or Section 81-632 (Special permit for transfer of development rights from landmarks to the Vanderbilt Corridor Subarea), but not both.

81-631 - Special provisions for transfers of development rights in the Vanderbilt Corridor Subarea

LAST AMENDED
8/9/2017

All applications for transfers of development rights pursuant to the special permit by the City Planning Commission in Section 81-632 (Special permit for transfer of development rights from landmarks to the Vanderbilt Corridor Subarea) shall also comply with the regulations of this Section.

(a) Requirements for applications

In addition to the land use review application requirements, an application filed with the City Planning Commission for a special permit pursuant to Section 81-632 shall be made jointly by the owners of the #granting lot# and #receiving lot# and shall include:

(1) site plan and zoning calculations for the #granting lot# and #receiving lot#;

(2) a program for the continuing maintenance of the landmark;

(3) a report from the Landmarks Preservation Commission concerning the continuing maintenance program of the landmark and, for those "receiving" sites in the immediate vicinity of the landmark, a report concerning the harmonious relationship of the #development# or #enlargement# to the landmark;

(4) a plan of any required pedestrian network improvement; and

(5) any such other information as may be required by the City Planning Commission.

A separate application shall be filed for each transfer of development rights to an independent #receiving lot# pursuant to Section 81-632.

(b) Conditions and limitations

The transfer of development rights from a #granting lot# to a #receiving lot#, pursuant to Section 81-632, shall be subject to the following conditions and limitations:

(1) the maximum amount of #floor area# that may be transferred from a #granting lot# shall be the maximum #floor area# allowed by Section 33-12 for #commercial buildings# on such landmark #zoning lot#, as if it were undeveloped, less the total #floor area# of all existing #buildings# on the landmark #zoning lot#;

(2) for each #receiving lot#, the #floor area# allowed by the transfer of development rights under Section 81-632 shall be in addition to the maximum #floor area# allowed by the district regulations applicable to the #receiving lot#, as shown in the table in Section 81-63 (Special Floor Area Provisions for the Vanderbilt Corridor Subarea); and

(3) each transfer, once completed, shall irrevocably reduce the amount of #floor area# that may be #developed# or #enlarged# on the #granting lot# by the amount of #floor area# transferred. If the landmark designation is removed, the #landmark building or other structure# is destroyed or #enlarged#, or the #zoning lot# with the #landmark building or other structure# is redeveloped, the #granting lot# may only be #developed# or #enlarged# up to the amount of permitted #floor area# as reduced by each transfer.

(c) Transfer instruments and notice of restrictions

The owners of the #granting lot# and the #receiving lot# shall submit to the Commission a copy of the transfer instrument legally sufficient in both form and content to effect such a transfer. Notice of the restrictions upon further #development# or #enlargement# of the #granting lot# and the #receiving lot# shall be filed by the owners of the respective lots in the Office of the Register of the City of New York (County of New York), a certified copy of which shall be submitted to the Commission.

Both the instrument of transfer and the notice of restrictions shall specify the total amount of #floor area# transferred and shall specify, by lot and block numbers, the lots from which and the lots to which such transfer is made.

81-632 - Special permit for transfer of development rights from landmarks to the Vanderbilt Corridor Subarea

LAST AMENDED
8/9/2017

Within the Vanderbilt Corridor Subarea, as shown on Map 2 (East Midtown Subdistrict and Subareas) in Appendix A of this Chapter, the City Planning Commission may permit the transfer of development rights from a #granting lot# in the Grand Central Core Area, as shown on Map 2, to a #receiving lot#, and, in conjunction with such transfer, the Commission may permit modifications to #bulk# regulations, mandatory plan elements, and provisions regarding #zoning lots# divided by district boundaries, as set forth in paragraph (a) of this Section, provided that the Commission determines that the #development# or #enlargement# complies with the conditions of paragraph (b), the findings of paragraph (c) and the additional requirements of paragraph (d) of this Section.

For the purposes of this Section, defined terms additionally include those in Section 75-421 (Definitions). However, a #receiving lot# shall mean a #zoning lot# within the Vanderbilt Corridor Subarea to which development rights of a #granting lot# are transferred.

(a) The Commission may permit:

(1) a transfer of development rights from a #granting lot# to a #receiving lot# provided that the resultant #floor area ratio# on the #receiving lot# does not exceed 30.0;

(2) modifications of the provisions of Sections 77-02 (Zoning Lots not Existing Prior to Effective Date or Amendment of Resolution), 77-21 (General Provisions), 77-22 (Floor Area Ratio) and 77-25 (Density Requirements) for any #zoning lot#, whether or not it existed on December 15, 1961, or any applicable subsequent amendment thereto, #floor area# or #dwelling units# permitted by the district regulations which allow a greater #floor area ratio# may be located within a district that allows a lesser #floor area ratio#;

(3) in the case of an #enlargement# to an existing #building# utilizing the transfer of development rights from a #landmark building or other structure#, modifications of the provisions of Sections 81-66 (Special Height and Setback Requirements), 81-671 (Special street wall requirements), 81-674 (Ground floor use provisions), 81-675 (Curb cut restrictions and loading berth requirements), 81-676 (Pedestrian circulation space requirements), and Sections 81-25 (General Provisions Relating to Height and Setback of Buildings), 81-26 (Height and Setback Regulations-Daylight Compensation) and 81-27 (Alternate Height and Setback Regulations-Daylight Evaluation) in order to accommodate existing structures and conditions;

(4) for #zoning lots# of more than 40,000 square feet of #lot area# that occupy an entire #block#, modifications of #bulk# regulations, except #floor area ratio# regulations; and

(5) modifications, whether singly or in any combination, to:

(i) the #street wall# regulations of Sections 81-43 (Street Wall Continuity Along Designated Streets), inclusive, or 81-671, inclusive;

(ii) the height and setback regulations of Sections 81-26, inclusive, 81-27, inclusive, or 81-661; or

(iii) the mandatory district plan elements of Sections 81-42 (Retail Continuity Along Designated Streets), 81-44 (Curb Cut Restrictions), 81-45 (Pedestrian Circulation Space), 81-46 (Off-street Relocation or Renovation of a Subway Stair), 81-47 (Major Building Entrances), 81-48 (Off-street Improvement of Access to Rail Mass Transit Facility), 81-674 (Ground floor use provisions), 81-675 (Curb cut restrictions and loading berth requirements), 81-676 (Pedestrian circulation space requirements) or 37-50 (REQUIREMENTS FOR PEDESTRIAN CIRCULATION SPACE), inclusive, except that no modifications to the required amount of pedestrian circulation space set forth in Section 37-51 shall be permitted.

(b) Conditions

As a condition for granting a special permit pursuant to this Section, the design of the #development# or #enlargement# shall include a major improvement of the above- or below-grade, pedestrian or mass transit circulation network in the Grand Central Core Area. However, this condition may be waived by the Commission, where appropriate, or may be deemed to have been met by utilization of the provisions of Section 81-633 (Special permit for Grand Central public realm improvements). The improvement shall increase the general accessibility and security of the network, reduce points of pedestrian congestion and improve the general network environment through connections into planned expansions of the network. The improvement may include, but is not limited to, widening, straightening or expansion of the existing pedestrian network, reconfiguration of circulation routes to provide more direct pedestrian connections between the #development# or #enlargement# and Grand Central Terminal, and provision for direct daylight access, retail in new and existing passages, and improvements to air quality, lighting, finishes and signage.

The special permit application to the Commission shall include information and justification sufficient to provide the Commission with a basis for evaluating the benefits to the general public from the proposed improvement. As part of the special permit application, the applicant shall submit schematic or concept plans of the proposed improvement to the Department of City Planning, as well as evidence of such submission to the Metropolitan Transportation Authority (MTA) and any other entities that retain control and responsibility for the area of the proposed improvement. Prior to ULURP certification of the special permit application, the MTA and any other entities that retain control and responsibility for the area of the proposed improvement shall each provide a letter to the Commission containing a conceptual approval of the improvement including a statement of any considerations regarding the construction and operation of the improvement.

(c) Findings

In order to grant a special permit for the transfer of development rights to a #receiving lot#, the Commission shall find that:

(1) a program for the continuing maintenance of the #landmark building or other structure# has been established;

(2) for any proposed improvement required pursuant to this Section:

(i) the improvement to the above- or below-grade pedestrian or mass transit circulation network provided by the #development# or #enlargement# increases public accessibility to and from Grand Central Terminal;

(ii) the streetscape, the site design and the location of #building# entrances contribute to the overall improvement of pedestrian circulation within the surrounding area and minimize congestion on surrounding #streets#; and

(iii) a program is established to identify solutions to problems relating to vehicular and pedestrian circulation problems and the pedestrian environment within the surrounding area;

(3) where appropriate, the design of the #development# or #enlargement# includes provisions for public amenities including, but not limited to, publicly accessible open spaces, and subsurface pedestrian passageways leading to subway or rail mass transit facilities;

(4) for #developments# or #enlargements# with a proposed #floor area ratio# in excess of 21.6, the #building# has met the ground floor level, building design, sustainable design measures and, for #zoning lots# not located on two #wide streets#, the site characteristic considerations set forth in the applicable conditions and findings of Section 81-633 (Special permit for Grand Central public realm improvements);

(5) where the modification of #bulk# regulations is proposed:

(i) any proposed modification of regulations governing #zoning lots# divided by district boundaries or the permitted transfer of #floor area# will not unduly increase the #bulk# of any #development# or #enlargement# on the #receiving lot#, density of population or intensity of #use# on any #block# to the detriment of the occupants of #buildings# on the #block# or the surrounding area;

(ii) for #enlargements# to existing #buildings#, any proposed modifications of height and setback requirements and the requirements of Section 81-66 are necessary because of the inherent constraints or conditions of the existing #building#, that the modifications are limited to the minimum needed, and that the proposal for modifications of height and setback requirements demonstrates to the satisfaction of the Commission that an integrated design is not feasible for the proposed #enlargement# which accommodates the

transfer of development rights due to the conditions imposed by the existing #building# or configuration of the site; and

(iii) for #developments# or #enlargements# on #zoning lots# of more than 40,000 square feet of #lot area# that occupy an entire #block#, any proposed modifications of #bulk# regulations are necessary because of inherent site constraints and that the modifications are limited to the minimum needed; or

(6) any proposed modifications to #street walls#, height and setback regulations and mandatory plan elements meet the applicable application requirements and findings set forth in Section 81-634 (Permitted modifications in conjunction with additional floor area).

(d) Additional requirements

Prior to the grant of a special permit, the applicant shall obtain approvals of plans from the MTA and any other entities that retain control and responsibility for the area of the proposed improvement, and, if appropriate, the applicant shall sign a legally enforceable instrument running with the land, setting forth the obligations of the owner and developer, their successors and assigns, to construct and maintain the improvement and shall establish a construction schedule, a program for maintenance and a schedule of hours of public operation and shall provide a performance bond for completion of the improvement.

The written declaration of restrictions and any instrument creating an easement on privately owned property shall be recorded against such private property in the Office of the Register of the City of New York (County of New York) and a certified copy of the instrument shall be submitted to the Commission.

No temporary certificate of occupancy for any #floor area# of the #development# or #enlargement# on a #receiving lot# shall be granted by the Department of Buildings until all

required improvements have been substantially completed as determined by the Chairperson of the City Planning Commission and the area is usable by the public. Prior to the issuance of a permanent certificate of occupancy for the #development# or #enlargement#, all improvements shall be 100 percent complete in accordance with the approved plans and such completion shall have been certified by letter from the MTA.

The Commission may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area.

81-633 - Special permit for Grand Central public realm improvements

LAST AMENDED
8/9/2017

For #developments# and #enlargements# on #zoning lots# located within the Vanderbilt Corridor Subarea, as shown on Map 2 (East Midtown Subdistrict and Subareas) in Appendix A of this Chapter, the City Planning Commission may allow, by special permit, #floor area# in excess of the basic maximum #floor area ratio# established in the table in Section 81-63 (Special Floor Area Provisions for the Vanderbilt Corridor Subarea), up to the maximum #floor area# set forth in the table, in accordance with the provisions of this Section.

All applications for a special permit for additional #floor area# pursuant to this Section shall include on-site or off-site, above- or below-grade improvements to the pedestrian or mass transit circulation network, or a combination thereof, in the Grand Central Core Area, as shown on Map 2. In addition, requirements pertaining to the ground floor level, building design and sustainable design measures are set forth in this Section in order to ensure that any #development# or #enlargement# receiving additional #floor area# constitutes an exceptional addition to the #Special Midtown District#.

To approve a special permit application for additional #floor area#, the Commission shall determine that such #development# or #enlargement# complies with the conditions and application requirements of paragraph (a), the findings of paragraph (b) and the additional requirements of paragraph (c) of this Section.

(a) Conditions and application requirements

All applications for a special permit for additional #floor area# pursuant to this Section shall include the following:

(1) Above- or below-grade improvements to the pedestrian or mass transit circulation network.

In order to ensure that the proposed #development# or #enlargement# contributes to the improvement of pedestrian and mass transit circulation in the Grand Central Core Area, especially in the vicinity of Grand Central Terminal, any #development# or #enlargement# proposed under the provisions of this Section shall include above- or below-grade public realm improvements.

(i) Where a #development# or #enlargement# proposes the inclusion of above-grade public realm improvements, such improvements may consist of on-site or off-site improvements to the pedestrian circulation network, or a combination thereof.

On-site, above-grade public realm improvements shall consist of open or enclosed publicly accessible spaces, of ample size, provided for public use and enjoyment. Such publicly accessible spaces shall include amenities characteristic of #public plazas# or public atriums, as applicable, and include

amenities for the comfort and convenience of the public.

Off-site, above-grade public realm improvements shall consist of major improvements to the public right-of-way that support pedestrian circulation in the areas surrounding Grand Central Terminal. Where the area of such improvements is to be established as a pedestrian plaza, such improvements shall be characteristic of best practices in plaza design, as set forth by the Department of Transportation. Where the area of such improvements is along a #street# accommodating both vehicular and pedestrian access, such improvements shall be characteristic of current best practices in #street# design, as set forth by the Department of Transportation, and include improvements to the right-of-way such as pedestrian amenities, or streetscape, sidewalk, crosswalk and median enhancements.

(ii) Where a #development# or #enlargement# proposes the inclusion of below-grade public realm improvements, such improvements shall consist of on-site or off-site enhancements to the below-grade pedestrian and mass transit circulation network. Such improvements shall be characteristic of current best practice in mass-transit network design, and shall include improvements such as on-site or off-site widening, straightening, expanding or otherwise enhancing the existing below-grade pedestrian circulation network, additional vertical circulation, reconfiguring circulation routes to provide more direct pedestrian connections to subway or rail mass transit facilities, or providing daylight access, retail #uses#, or enhancements to noise abatement, air quality, lighting, finishes or rider orientation in new or existing passageways.

Applications shall include information and justification sufficient to provide the Commission with the basis for evaluating the benefits to the general public; determining the appropriate amount of bonus #floor area# to grant; and determining

whether the applicable findings set forth in paragraph (b) of this Section have been met. Such application materials shall also include initial plans for the maintenance of the proposed improvements.

Where the Metropolitan Transportation Authority or any other City or State agency has control and responsibility for the area of a proposed improvement, the applicant shall submit concept plans for the proposed improvement to such agency and the Commission. At the time of certification of the application, any such agency with control and responsibility for the area of the proposed improvement shall each provide a letter to the Commission containing a conceptual approval of the improvement, including a statement of any considerations regarding the construction and operation of the improvement.

(2) Ground floor level

In order to ensure that the proposed #development# or #enlargement# contributes to the improvement of the pedestrian circulation network in the surrounding area, any #development# or #enlargement# proposed under the provisions of this Section shall provide enhancements to the ground floor level of the #building#, including, but not limited to, sidewalk widenings, streetscape amenities or enhancements to required pedestrian circulation spaces.

Where a #development# or #enlargement# includes #street# frontage along Madison Avenue or a #narrow street# between East 43rd Street and East 47th Street, sidewalk widenings shall be provided as follows:

(i) where a #development# or #enlargement# is on a #zoning lot# which occupies the entire #block# frontage along Madison Avenue, a sidewalk widening shall be provided along Madison Avenue, to the extent necessary, so that a

minimum sidewalk width of 20 feet is achieved, including portions within and beyond the #zoning lot#. However, no sidewalk widening need exceed 10 feet, as measured perpendicular to the #street line#;

(ii) where a #development# or #enlargement# is on a #zoning lot# that does not occupy the entire #block# frontage along Madison Avenue, a sidewalk widening shall be provided along Madison Avenue where all existing #buildings# on the #block# frontage have provided such a widening. Such required widening shall match the amount of widened sidewalk provided on adjacent #zoning lots#, provided that no sidewalk widening need exceed 10 feet, as measured perpendicular to the #street line#; or

(iii) where a #development# or #enlargement# with frontage on a #narrow street# between East 43rd Street and East 47th Street is on a #zoning lot# with a #lot width# of 100 feet or more, as measured along the #street line# of the #narrow street#, a sidewalk widening shall be provided along such #narrow street#, to the extent necessary, so that a minimum sidewalk width of 15 feet is achieved, including portions within and beyond the #zoning lot#. However, no sidewalk widening need exceed 10 feet, as measured perpendicular to the #street line#.

Applications shall contain a ground floor level site plan, and other supporting documents of sufficient scope and detail to enable the Commission to determine the type of proposed #uses# on the ground floor level, the location of proposed #building# entrances, the size and location of proposed circulation spaces, the manner in which such spaces will connect to the overall pedestrian circulation network and the above- or below-grade public realm improvements required pursuant to this Section and any other details necessary for the Commission to determine whether the

applicable findings set forth in paragraph (b) of this Section have been met.

(3) Building design

In order to ensure that the proposed #development# or #enlargement# contributes to its immediate surroundings, with particular emphasis on Grand Central Terminal, any #development# or #enlargement# proposed under the provisions of this Section shall demonstrate particular attention to the building design, including, but not limited to, the proposed #uses#, massing, articulation and relationship to #buildings# in close proximity and within the Midtown Manhattan skyline.

Applications shall contain materials of sufficient scope and detail to enable the Commission to determine the proposed #uses# within the #building#, as well as the proposed #building# #bulk# and architectural design of the #building#, and to evaluate the proposed #building# in the context of adjacent #buildings# and the Midtown Manhattan skyline. Such materials shall include a description of the proposed #uses# within the #building#; measured elevation drawings, axonometric views, and perspective views showing such proposed #building# within the Midtown Manhattan skyline; and any other materials necessary for the Commission to determine whether the applicable findings set forth in paragraph (b) of this Section have been met.

For those #receiving lots# that are contiguous to a lot occupied by Grand Central Terminal or a lot that is across a #street# and opposite the lot occupied by Grand Central Terminal, or, in the case of a #corner lot#, one that fronts on the same #street# intersection as the lot occupied by Grand Central Terminal, applications shall contain a report from the Landmarks Preservation Commission concerning the harmonious relationship of the #development# or #enlargement# to Grand Central Terminal.

(4) Sustainable design measures

In order to foster the development of sustainable #buildings# in the Vanderbilt Corridor Subarea, any #development# or #enlargement# proposed under the provisions of this Section shall include sustainable design measures, including, but not limited to, enhancements to the energy performance, enhanced water efficiency, utilization of sustainable or locally sourced materials and attention to indoor environmental air quality of the #building#.

Applications shall contain materials of sufficient scope and detail to enable the Commission to determine whether the applicable findings in paragraph (b) of this Section have been met. In addition, any application shall include materials demonstrating the sustainable design measures of the #building#, including its anticipated energy performance, and the degree to which such performance exceeds either the New York City Energy Conservation Code (NYCECC) or the Building Performance Rating method of the applicable version and edition of American Society of Heating, Refrigerating and Air Conditioning Engineers, Inc., Standard 90.1 (ASHRAE 90.1), as referenced within the NYCECC.

(b) Findings

The Commission shall find that:

(1) for a #development# or #enlargement# not located on two #wide streets#, the amount of additional #floor area# being granted is appropriate based on the extent to which any or all of the following physical factors are present in the #development# or #enlargement#:

(i) direct access to subway stations and other rail mass transit facilities;

(ii) the size of the #zoning lot#;

(iii) the amount of wide #street# frontage; and

(iv) adjacency to the open area above Grand Central Terminal;

(2) for above-grade improvements to the pedestrian circulation network that are located:

(i) on-site, the proposed improvements will, to the extent practicable, consist of a prominent space of generous proportions and quality design that is inviting to the public; improve pedestrian circulation and provide suitable amenities for the occupants; front upon a #street# or a pedestrian circulation space in close proximity to and within view of and accessible from an adjoining sidewalk; provide or be surrounded by active #uses#; be surrounded by transparent materials; provide connections to pedestrian circulation spaces in the immediate vicinity; and be designed in a manner that combines the separate elements within such space into a cohesive and harmonious site plan, resulting in a high-quality public space; or

(ii) off-site, the proposed improvements to the public right-of-way, to the extent practicable, will consist of significant street and sidewalk designs that improve pedestrian circulation in the surrounding area; provide comfortable places for walking and resting, opportunities for planting and improvements to pedestrian safety; and create a better overall user experience of the above-grade pedestrian circulation network that supports the surrounding area as a high-density business district. Where the area of such improvement is to be

established into a pedestrian plaza that will undergo a public design and review process through the Department of Transportation subsequent to the approval of this special permit, the Commission may waive this finding;

(3) for below-grade improvements to the pedestrian or mass transit circulation network, the proposed improvements will provide:

(i) significant and generous connections from the above-grade pedestrian circulation network and surrounding #streets# to the below-grade pedestrian circulation network;

(ii) major improvements to public accessibility in the below-grade pedestrian circulation network between and within subway stations and other rail mass transit facilities in and around Grand Central Terminal through the provision of new connections, or the addition to or reconfiguration of existing connections; or

(iii) significant enhancements to the environment of subway stations and other rail mass transit facilities including daylight access, noise abatement, air quality improvement, lighting, finishes, way-finding or rider orientation, where practicable;

(4) the public benefit derived from the proposed above- or below-grade improvements to the pedestrian or mass transit circulation network merits the amount of additional #floor area# being granted to the proposed #development# or #enlargement# pursuant to this special permit;

(5) the design of the ground floor level of the #building#:

(i) contributes to a lively streetscape through a combination of retail #uses# that enliven the pedestrian experience, ample amounts of transparency and pedestrian connections that facilitate fluid movement between the #building# and adjoining public spaces; and demonstrates consideration for the location of pedestrian circulation space, #building# entrances, and the types of #uses# fronting upon the #street# or adjoining public spaces;

(ii) will substantially improve the accessibility of the overall pedestrian circulation network, reduce points of pedestrian congestion and, where applicable, establish more direct and generous pedestrian connections to Grand Central Terminal; and

(iii) will be well-integrated with on-site, above- or below-grade improvements required by this Section, where applicable and practicable;

(6) the design of the proposed #building#:

(i) ensures light and air to the surrounding #streets# and public spaces through the use of setbacks, recesses and other forms of articulation, and the tower top produces a distinctive addition to the Midtown Manhattan skyline which is well-integrated with the remainder of the #building#;

(ii) demonstrates an integrated and well-designed facade, taking into account factors such as #street wall# articulation and fenestration, that creates a prominent and distinctive #building# which complements the character of the surrounding area, especially Grand Central Terminal; and

(iii) involves a program that includes an intensity and mix of #uses# that are harmonious with the type of #uses# in the surrounding area;

(7) the proposed #development# or #enlargement# comprehensively integrates sustainable measures into the #building# and site design that:

(i) meet or exceed best practices in sustainable design; and

(ii) will substantially reduce energy usage for the #building#, as compared to comparable #buildings#; and

(8) in addition:

(i) the increase in #floor area# being proposed in the #development# or #enlargement# will not unduly increase the #bulk#, density of population or intensity of #uses# to the detriment of the surrounding area; and

(ii) all of the separate elements within the proposed #development# or #enlargement#, including above- or below-grade improvements, the ground floor level, #building# design, and sustainable design measures, are well–integrated and will advance the applicable goals of the #Special Midtown District# described in Section 81-00 (GENERAL PURPOSES).

(c) Additional requirements

Prior to the grant of a special permit pursuant to this Section, and to the extent required by the Metropolitan Transportation Authority (MTA) or any other City or State agencies with control and responsibility for the area in which a proposed improvement is to be located, the

applicant shall execute an agreement, setting forth the obligations of the owner, its successors and assigns, to establish a process for design development and a preliminary construction schedule for the proposed improvement; construct the proposed improvement; where applicable, establish a program for maintenance; and, where applicable, establish a schedule of hours of public access for the proposed improvement. Where the MTA, or any other City or State agencies with control and responsibility for the area of a proposed improvement, deems necessary, such executed agreement shall set forth obligations of the applicant to provide a performance bond or other security for completion of the improvement in a form acceptable to the MTA or any other such agencies.

Where the proposed #development# or #enlargement# proposes an off-site improvement located in an area to be acquired by a City or State agency, the applicant may propose a phasing plan to sequence the construction of such off-site improvement. To determine if such phasing plan is reasonable, the Commission may consult with the City or State agency that intends to acquire the area of the proposed improvement.

Prior to obtaining a foundation permit or building permit from the Department of Buildings, a written declaration of restrictions, in a form acceptable to the Chairperson of the City Planning Commission, setting forth the obligations of the owner to construct, and, where applicable, maintain and provide public access to public improvements provided pursuant to this Section, shall be recorded against such property in the Office of the Register of the City of New York (County of New York). Proof of recordation of the declaration of restrictions shall be submitted in a form acceptable to the Department of City Planning.

Except where a phasing plan is approved by the Commission, no temporary certificate of occupancy shall be granted by the Department of Buildings for the portion of the #building# utilizing bonus #floor area# granted pursuant to the provisions of this Section until the required improvements have been substantially completed, as determined by the Chairperson, acting in consultation with the MTA, or any other City or State agencies with control and

responsibility for the area where a proposed improvement is to be located, where applicable, and such improvements are usable by the public. Such portion of the #building# utilizing bonus #floor area# shall be designated by the Commission in drawings included in the declaration of restrictions filed pursuant to this paragraph.

No permanent certificate of occupancy shall be granted by the Department of Buildings for the portion of the #building# utilizing bonus #floor area# until all improvements have been completed in accordance with the approved plans, as determined by the Chairperson, acting in consultation with the MTA, or any other City or State agencies with control and responsibility for the area where a proposed improvement is to be located, where applicable.

The Commission may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area.

81-634 - Permitted modifications in conjunction with additional floor area

LAST AMENDED
8/9/2017

In conjunction with the grant of a special permit pursuant to Section 81-633 (Special permit for Grand Central public realm improvements), the City Planning Commission may permit modifications to #street walls#, height and setback regulations and mandatory plan elements, as set forth in paragraph (a) of this Section, provided that the Commission determines that the application requirements set forth in paragraph (b) and the findings set forth in paragraph (c) of this Section are met.

(a) The Commission may modify the following, whether singly or in any combination:

(1) the #street wall# regulations of Sections 81-43 (Street Wall Continuity Along Designated Streets) or 81-671 (Special street wall requirements), inclusive;

(2) the height and setback regulations of Sections 81-26 (Height and Setback Regulations - Daylight Compensation), inclusive, 81-27 (Alternate Height and Setback Regulations - Daylight Evaluation), inclusive, or 81-66 (Special Height and Setback Requirements); or

(3) the mandatory district plan elements of Sections 81-42 (Retail Continuity Along Designated Streets), 81-44 (Curb Cut Restrictions), 81-45 (Pedestrian Circulation Space), 81-46 (Off-street Relocation or Renovation of a Subway Stair), 81-47 (Major Building Entrances), 81-48 (Off-street Improvement of Access to Rail Mass Transit Facility), 81-674 (Ground floor use provisions), 81-675 (Curb cut restrictions and loading berth requirements), 81-676 (Pedestrian circulation space requirements) or 37-50 (REQUIREMENTS FOR PEDESTRIAN CIRCULATION SPACE), inclusive, except that no modifications to the required amount of pedestrian circulation space set forth in Section 37-51 shall be permitted.

(b) Application requirements

Applications for a special permit for modifications pursuant to this Section shall contain materials, of sufficient scope and detail, to enable the Commission to determine the extent of the proposed modifications. In addition, where modifications to #street wall# or height and setback regulations are proposed, any application shall contain the following materials, at a minimum:

(1) drawings, including but not limited to, plan views and axonometric views, that illustrate how the proposed #building# will not comply with the #street wall# regulations of Section 81-43 or as such provisions are modified pursuant to Section 81-671, as applicable, and that illustrate how the proposed #building# will not comply with the height and setback regulations of Sections 81-26, 81-27 or as such provisions are modified pursuant to Section 81-66, as applicable;

(2) where applicable, formulas showing the degree to which such proposed #building# will not comply with the length and height rules of Section 81-26 or as such provisions are modified pursuant to Section 81-66; and

(3) where applicable, #daylight evaluation charts# and the resulting daylight evaluation score showing the degree to which such proposed #building# will not comply with the provisions of Section 81-27 or as such provisions are modified pursuant to Section 81-66.

(c) Findings

The Commission shall find that such proposed modifications:

(1) to the mandatory district plan elements will result in a better site plan for the proposed #development# or #enlargement# that is harmonious with the mandatory district plan element strategy of the #Special Midtown District#, as set forth in Section 81-41 (General Provisions); and

(2) to the #street wall# or height and setback regulations will result in an improved distribution of #bulk# on the #zoning lot# that is harmonious with the height and

setback goals of the #Special Midtown District# set forth in Section 81-251 (Purpose of height and setback regulations).

The Commission may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area.

81-64 - Special Floor Area Provisions for Qualifying Sites

LAST AMENDED
8/9/2017

For #non-residential buildings# or #mixed buildings# on #qualifying sites# in the East Midtown Subdistrict, the basic maximum #floor area ratios# of the underlying districts shall apply as set forth in this Section. Such basic maximum #floor area ratio# on any #zoning lot# may be increased by bonuses or other #floor area# allowances only in accordance with the provisions of this Chapter, and the maximum #floor area ratio# with such additional #floor area# allowances shall in no event exceed the amount set forth for each underlying district in the following table:

MAXIMUM FLOOR AREA RATIOS AND ALLOWANCES FOR QUALIFYING SITES

Means for Achieving Permitted FAR Levels on a #Zoning Lot# for #Qualifying Sites#	Grand Central Transit Improvement Zone Subarea		Park Avenue Subarea		Other Transit Improvement Zone Subarea		Southern Subarea		North Subar
	C5-2.5	C5-3	C5-2.5	C5-3	C5-2.5 C6-4.5	C5-3 C6-6	C5-2.5 C6-4.5	C5-3 C6-6	C5-2. C6-4.
A. Basic Maximum FAR									
	12	15	12	15	12	15	12	15	12
B. Minimum #Floor Area# Allowances through identified transit improvements (Section 81-641) if exceedi maximum FAR									
	2.7	2.7	-	-	2.3	2.3	-	-	-
C. Maximum #Floor Area# Allowances through identified transit improvements (Section 81-641)									
	5.4	5.4	-	-	4.6	4.6	-	-	-

D. Maximum amount of transferable development rights (FAR) from landmark #zoning lots# that may be u a #qualifying site# (Section 81-642)									
	12.3	9.3	13	10	8.7	5.7	9.6	6.6	6
E. Maximum as-of-right #Floor Area Ratio# on #qualifying sites#									
	27	27	25	25	23	23	21.6	21.6	18
F. Maximum FAR for transit improvement special permit (Section 81-644)									
	3	3	-	-	3	3	-	-	-
G. Maximum FAR for public concourse special permit (Section 81-645)									
	3	3	3	3	3	3	3	3	3
H. Maximum Total FAR on a #qualifying site#									

	30	30	28	28	26	26	24.6	24.6	21

1 For #zoning lots# located east of Third Avenue between the centerline of East 46th Street to the centerline of East 51st Street, the maximum #floor area ratio# shall be the basic maximum #floor area ratio# set forth in Row A.

81-641 - Additional floor area for Transit Improvements on Qualifying Sites

LAST AMENDED
8/9/2017

All #developments# or, where permitted, #enlargements# on #qualifying sites# located within the Grand Central Transit Improvement Zone Subarea, or the Other Transit Improvement Zone Subarea, as shown on Map 2 (East Midtown Subdistrict and Subareas) in Appendix A of this Chapter, that exceed the basic maximum #floor area ratio# set forth in Row A of the table in Section 81-64 (Special Floor Area Provisions for Qualifying Sites) shall comply with the provisions of this Section.

The Chairperson of the City Planning Commission shall allow, by certification, #floor area# on a #qualifying site# to be increased above the applicable basic maximum #floor area ratio# provided that such resulting increase in #floor area ratio# is not less than the minimum specified in Row B of the table in Section 81-64, nor more than the maximum specified in Row C, as applicable, and further provided that a transit improvement, or a combination of transit improvements, will be constructed in the Grand Central Transit Improvement Zone Subarea, or the Other Transit Improvement Zone Subarea, in accordance with the provisions of this Section.

(a) The following requirements shall be completed prior to application for certification by the Chairperson:

(1) the applicant shall select a transit improvement that has been identified on the Priority Improvement List in Section 81-682 (Priority Improvement List for qualifying sites) and is commensurate with the minimum #floor area# required, and results in a #floor area ratio# increase not exceeding the maximum #floor area ratio# permitted to be achieved through the provisions of this Section. The process for such selection shall also comply with paragraph (a) of Section 81-682;

(2) the applicant shall submit preliminary plans for the proposed transit improvement to the Chairperson and any applicable City or State agencies with jurisdiction over and control of the proposed transit improvement;

(3) the applicant shall obtain and provide to the Chairperson a conceptual approval of the proposed transit improvement from any applicable City or State agencies with jurisdiction over and control of the proposed improvement in letter form, wherein such agencies state that such improvements meet the requirements set forth in Section 81-682; and

(4) prior to the issuance of a building permit, as set forth in this Section, the applicant shall execute agreements and legally enforceable instruments running with the land, setting forth the obligations of the owner and developer, their successors and assigns, to design and construct the improvement in accordance with the requirements of the applicable City or State agencies with jurisdiction over and control of the proposed improvement. Such agreements and instruments shall be filed and recorded in the Office of the Register of the City of New York (County of New York). Proof of recordation shall be sent to the Chairperson.

(b) The following items shall be submitted to the Chairperson as part of an application for certification:

(1) all of the materials required pursuant to paragraph (a) of this Section;

(2) site plans and zoning calculations for the proposed #development# or, where permitted, #enlargement# on the #qualifying site# showing the additional #floor area# associated with the completion of such transit improvement; and

(3) drawings including, but not limited to, plans, sections, elevations, three-dimensional projections or other drawings deemed necessary or relevant by the Chairperson for the transit improvement, and any such other information as may be required by the Chairperson.

When an applicant has submitted materials to the Chairperson that satisfy the requirements of paragraphs (a) and (b) of this Section, the Chairperson shall certify to the Department of Buildings that the #development# or, where permitted, #enlargement# on a #qualifying site# is in compliance with the provisions of this Section. Such certification shall be a precondition to the issuance of any foundation permit or new building permit by the Department of Buildings allowing a #development# or, where permitted, an #enlargement# on a #qualifying site# in the Grand Central Transit Improvement Zone Subarea, or the Other Transit Improvement Zone Subarea. All applications pursuant to this Section shall be referred to the affected Community Board, the local Council Member and the Manhattan Borough President. No certification shall be granted prior to 60 days after such referral.

No temporary certificate of occupancy shall be granted by the Department of Buildings for the portion of the #building# identified as utilizing the additional #floor area# granted pursuant to the provisions of this Section until the Chairperson, acting in consultation with the applicable City or State agencies having jurisdiction over and control of the proposed improvement, has certified that the

improvements are substantially complete and usable by the public. Such portion of the #building# shall be designated by the applicant in drawings included in the instruments filed pursuant to paragraph (b) of this Section and shall be noted on the temporary certificate of occupancy.

No permanent certificate of occupancy shall be granted by the Department of Buildings for the portion of the #building# utilizing such additional #floor area# until the improvements have been finally completed in accordance with the approved plans and such final completion has been certified by the Chairperson, acting in consultation with the applicable City or State agencies having jurisdiction over and control of the proposed improvement.

In addition, the Chairperson shall allow, by certification, a reduction in, or waiver of, the minimum #floor area ratio# required pursuant to Row B of the table in Section 81-64, where there are an insufficient number of available projects on the Priority Improvement List in Section 81-682. The Chairperson shall also allow, by certification, the maximum #floor area ratio# for a #qualifying site# to be increased beyond the limit set forth in Row C of the table in Section 81-64, where the Metropolitan Transportation Authority requires improvements to the Fifth Avenue and East 53rd Street Station to be combined in order to adequately phase improvements and avoid practical difficulties in operating the station.

81-642 - Transfer of development rights from landmarks to qualifying sites

LAST AMENDED
8/9/2017

The Chairperson of the City Planning Commission shall allow, by certification, a transfer of development rights from #zoning lots# occupied by #landmark buildings or other structures# within

the East Midtown Subdistrict to a #qualifying site#, provided that the provisions of this Section are met.

For the purposes of this Section, defined terms additionally include those in Section 75-421 (Definitions). However, a #receiving lot# shall mean a #qualifying site# to which development rights of a #granting lot# are transferred.

(a) The transfer of development rights shall be subject to the following conditions:

(1) For #qualifying sites# in the Grand Central Transit Improvement Zone Subarea, or the Other Transit Improvement Zone Subarea, as shown on Map 2 (East Midtown Subdistrict and Subareas), the applicant shall obtain a certification pursuant to Section 81-641 (Additional floor area for transit improvements on qualifying sites) prior to, or in conjunction with, meeting the requirements of this Section.

(2) The maximum amount of #floor area# that may be transferred from a #granting lot# shall be the applicable basic maximum #floor area# set forth in Section 81-64 (Special Floor Area Provisions for Qualifying Sites), less the total #floor area# of all existing #buildings# on the landmark #zoning lot#, and any previously transferred #floor area#. In no event shall a #granting lot# transfer any previously granted bonus #floor area# received for subway station improvements, #publicly accessible open areas# or the provision of district improvements pursuant to the provisions of this Chapter, or any preceding regulations.

(3) For each #receiving lot#, the increased #floor area# allowed by the transfer of development rights pursuant to this Section shall not exceed the amount resulting in the maximum #floor area ratio# set forth in Row D of the table in Section 81-64.

(4) Each transfer, once completed, shall irrevocably reduce the amount of #floor area# that may be #developed# or #enlarged# on the #granting lot# by the amount of #floor

area# transferred. If the landmark designation is removed from the #landmark building or other structure#, the #landmark building or other structure# is destroyed or #enlarged#, or the #zoning lot# with the #landmark building or structure# is redeveloped, the #granting lot# may only be #developed# or #enlarged# up to the amount of permitted #floor area# as reduced by each transfer.

(5) Prior to the issuance of a building permit, as set forth in paragraph (c) of this Section, the owners of the #granting lot# and the #receiving lot# shall submit to the Chairperson a copy of the transfer instrument legally sufficient in both form and content to effect such a transfer. Notice of the restrictions upon further #development# or #enlargement# of the #granting lot# and the #receiving lot# shall be filed by the owners of the respective lots in the Office of the Register of the City of New York (County of New York). Proof of recordation shall be submitted to the Chairperson.

Both the transfer instrument and the notices of restrictions shall specify the total amount of #floor area# transferred and shall specify, by lot and block numbers, the #granting lot# and the #receiving lot# that are a party to such transfer.

(6) Prior to the issuance of a building permit, as set forth in this Section, a non-refundable contribution shall have been deposited by the applicant into the #Public Realm Improvement Fund#. Such contribution shall be equal to the greater of:

(i) 20 percent of the #sales price# of the transferred #floor area#; or

(ii) an amount equal to 20 percent of the #Public Realm Improvement Fund Development Rights Valuation# multiplied by the amount of transferred #floor area#.

(b) An application filed with the Chairperson for certification pursuant to this Section shall be made jointly by the owners of the #granting lot# and the #receiving lot#. The following items

shall be submitted to the Chairperson as part of an application for certification:

(1) for #qualifying sites# in the Grand Central Transit Improvement Zone Subarea, or the Other Transit Improvement Zone Subarea, materials that are sufficient to demonstrate compliance with the provisions of Section 81-641;

(2) site plans and zoning calculations for the #granting lot# and #receiving lot# showing the additional #floor area# associated with the transfer, and any such other information as may be required by the Chairperson;

(3) materials to demonstrate the establishment of a program for the continuing maintenance of the #landmark building or other structure#;

(4) a report from the Landmarks Preservation Commission concerning the continuing maintenance program of the #landmark building or other structure#; and

(5) for those #receiving lots# that are contiguous to a lot occupied by Grand Central Terminal or a lot that is across a #street# and opposite the lot occupied by Grand Central Terminal, or, in the case of a #corner lot#, one that fronts on the same #street# intersection as the lot occupied by Grand Central Terminal, a report from the Landmarks Preservation Commission concerning the harmonious relationship of the #development# or, where permitted, #enlargement# to Grand Central Terminal.

All applications pursuant to this Section shall be referred to the affected Community Board, the local Council Member and the Borough President of Manhattan. No certification shall be granted prior to 60 days after such referral.

The Chairperson shall certify to the Department of Buildings that a #development# or, where permitted, an #enlargement# on a #qualifying site# is in compliance with the provisions of this Section only after the following have been received:

(a) the instrument of transfer and notice of restrictions required by paragraph (a) of this Section have been executed and recorded with proof of recordation provided to the Chairperson;

(b) documents confirming the #sale price# have been provided to the Chairperson, including, but not limited to, the real property transfer tax return form recorded with the New York City Department of Finance and the details of consideration schedule; and

(c) payment of a non-refundable contribution to the #Public Realm Improvement Fund# in the amount required by paragraph (a) of this Section has been made.

Such certification shall be a precondition to the filing for or issuing of any building permit allowing more than the basic maximum #floor area ratio# for such #development# or, where permitted, #enlargement# on a #qualifying site#. Additional provisions are set forth in Section 81-686 for applicants undertaking a sidewalk improvement immediately adjacent to their #qualifying site#.

A separate application shall be filed for each transfer of development rights to an independent #receiving lot# pursuant to this Section.

81-643 - Special provisions for retaining non-complying floor area in commercial buildings

LAST AMENDED
8/9/2017

For #non-complying# #commercial buildings# existing on December 15, 1961 with #non-complying# #floor area#, the provisions of Section 54-41 (Permitted Reconstruction) may be modified to allow such #non-complying# #building# to be demolished or altered, to the extent of 75 percent or more of its total #floor area#, and reconstructed on a #qualifying site# to retain the amount of pre-existing #non-complying# #floor area# in accordance with the applicable district #bulk# regulations of this Chapter, upon certification by the Chairperson of the City Planning Commission to the Department of Buildings first, that prior to demolition or alteration, the applicant meets the provisions of paragraph (a) of this Section, as applicable, and, subsequently, prior to reconstruction, the proposed #development# will comply with the applicable provisions of paragraph (b) of this Section. For purposes of this Chapter, the reconstruction of such #non-complying# #floor area# shall be considered a #development#. Any #enlargement# of a #non-complying# #commercial building# on a #qualifying site# shall be permitted only pursuant to paragraph (a) of Section 81-684 (Authorizations for qualifying sites), or Section 81-685 (Special permit to modify qualifying site provisions).

(a) Certification to demolish or alter a #non-complying# #building#

The Chairperson shall certify the amount of #non-complying# #floor area# existing within a #non-complying# #building# that may be reconstructed pursuant to the provisions of paragraph (b) of this Section, based on calculations submitted to the Chairperson. Such calculations shall be based on either the #building's# construction documents previously approved by the Department of Buildings at the time of such #building's# construction, #enlargement#, or subsequent alterations, as applicable; or on an as-built drawing set completed by a registered architect.

For the purpose of calculating the amount of #non-complying# #floor area# to be retained on #zoning lots# with multiple existing #buildings# at the time of application, the maximum amount of #non-complying# #floor area# that may be reconstructed shall be equivalent to the #floor area# of the #zoning lot# at the time of application, less the total #floor area# of all

existing #buildings# to remain.

Certification pursuant to the provisions of paragraph (a) of this Section shall be a precondition to the issuance of any demolition or alteration permit by the Department of Buildings for a #zoning lot# reconstructing #non-complying# #floor area#.

(b) Certification to reconstruct #non-complying# #floor area#

The amount of #non-complying# #floor area# established pursuant to paragraph (a) of this Section may be reconstructed, provided that the Chairperson certifies that:

(1) all requirements for #qualifying sites# set forth in the definition in Section 81-613, inclusive, have been met, except that no publicly accessible space shall be required notwithstanding the provisions of paragraph (f) of the definition of #qualifying site#; and

(2) a non-refundable contribution has been deposited by the applicant into the #Public Realm Improvement Fund#. Such contribution shall be an amount equal to 20 percent of the #Public Realm Improvement Fund Development Rights Valuation# multiplied by the amount of such pre-existing #non-complying# #floor area#.

The payment of the non-refundable contribution to the #Public Realm Improvement Fund# pursuant to the provisions of paragraph (b) of this Section, shall be a precondition to the issuance of any foundation permit or new building or alteration permit by the Department of Buildings allowing a #development# on a #qualifying site#.

All applications pursuant to this Section shall be referred to the affected Community Board, the local Council Member and the Borough President of Manhattan. No certification shall be granted prior to 60 days after such referral.

Except for #zoning lots# located east of Third Avenue between the centerline of East 46th Street to the centerline of East 51st Street, any proposed #floor area# in the #development# beyond the amount contained in the pre-existing #non-complying# #building# may be obtained by utilizing the applicable provisions of Section 81-64 (Special Floor Area Provisions for Qualifying Sites). For the purposes of applying the provisions of such Section, the reconstructed #floor area ratio# shall be considered the basic maximum #floor area ratio#. However, the maximum #floor area ratios# of Row E and Row H of the table in Section 81-64 shall continue to apply.

81-644 - Special permit for transit improvements

LAST AMENDED
10/7/2021

For #qualifying sites# located in the Grand Central Transit Improvement Zone Subarea, or the Other Transit Improvement Zone Subarea, as shown on Map 2 (East Midtown Subdistrict and Subareas) in Appendix A of this Chapter, the City Planning Commission may permit a #floor area# bonus in accordance with the provisions of this Section, where a major improvement to a subway or rail mass transit facility is provided in accordance with the conditions of paragraph (b). All applications for a special permit pursuant to this Section shall be subject to the application requirements, findings and additional requirements of paragraphs (c) through (e).

As a pre-condition to applying for such special permit, an applicant shall demonstrate that the maximum as-of-right #floor area ratio# for #qualifying sites# set forth in Row E of the table in Section 81-64 has been achieved prior to, or in conjunction with, the special permit application.

(a) #Floor area# bonus

The City Planning Commission may permit an increase in the amount of #floor area ratio# permitted on a #qualifying site#, up to the amount specified in Row F of the table in Section 81-64 (Special Floor Area Provisions for Qualifying Sites).

(b) Conditions

All applications shall include proposed on-site or off-site improvements to a proximate subway or rail mass transit facility, that shall be characteristic of current best practice in mass-transit network design.

All applications shall include accessibility or capacity-enhancing improvements, including, but not limited to, the provision of elevators and escalators, widening, straightening, expanding or otherwise enhancing the existing pedestrian circulation network, or reconfiguring circulation routes to provide more direct pedestrian connections to subway or rail mass transit facilities. Where improvements are proposed for a subway or rail mass transit facilities that is not in compliance with the Americans with Disabilities Act, accessibility improvements shall be prioritized.

In addition to accessibility or capacity-enhancing improvements, environmental design or resiliency improvements may also be provided, including but not limited to, daylight access, retail #uses#, enhancements to noise abatement, air quality, lighting, finishes, or rider orientation in new or existing passageways, or flood resiliency upgrades.

All proposed improvements shall be subject to the approval of the Metropolitan Transportation Authority (MTA) and the City Planning Commission.

(c) Application requirements

All applications for a special permit pursuant to this Section shall include the following:

(1) Prior to submitting an application for a special permit pursuant to this Section, the applicant shall submit a schematic or concept plan for the proposed improvement to the MTA and the Chairperson of the City Planning Commission. Such schematic or concept plan shall include such materials and information sufficient to provide the basis for the #transit agencies# to evaluate and determine the constructability of such proposed improvement.

(2) At the time of certification, the Commission shall be provided with the following application materials:

(i) a letter from the MTA containing a conceptual approval of the improvement, including a statement of any considerations regarding the construction and operation of the improvement;

(ii) all information and justification sufficient to provide the Commission with the basis for evaluating the benefits of such improvements to the general public; and

(iii) initial plans for the maintenance of the proposed improvements.

(d) Findings

In order to grant such special permit, the Commission shall find that:

(1) the public benefit derived from the improvements to a subway or rail mass transit facility merits the amount of additional#floor area#being granted to the proposed #development# pursuant to this special permit;

(2) for accessibility or capacity-enhancing improvements, newly created or expanded accessible routes for persons with physical disabilities, or measures to improve station ingress and egress routes or platform capacity, such improvements will constitute significant enhancements to connectivity from the pedestrian circulation network to and through the subway or rail mass transit facility; and

(3) where environmental design or resiliency improvements are provided in addition to accessibility or capacity-enhancing improvements, such improvements will constitute significant enhancements to the station environment or its function.

(e) Additional requirements

In addition to the application requirements of paragraph (c) of this Section, additional requirements set forth in this paragraph shall apply.

(1) Prior to the granting of a special permit pursuant to this Section, the following requirements shall be met:

(i) To the extent required by the MTA, the applicant shall execute an agreement, setting forth the obligations of the owner, its successors and assigns, to establish a process for design development and a preliminary construction schedule for the proposed improvement; construct the proposed improvement; establish a program for maintenance and capital maintenance; and establish that such improvements shall be accessible to the public during the hours of operation of the station or as otherwise approved by the MTA. Where the MTA deems necessary, such executed agreement shall set forth obligations of the applicant to provide a performance bond or other security for completion of the improvement in a form acceptable to the MTA; and

(ii) The City Planning Commission shall be provided with a final letter of approval from the MTA stating that the drawings and other documents submitted by the applicant have been determined by the MTA to be of sufficient scope and detail to fix and describe the size and character of the improvement as to architectural, structural, mechanical and electrical systems, materials, relationship to existing site conditions and such other conditions as may be appropriate, and that the construction of the improvement in accordance with such submission is feasible.

(2) Prior to obtaining a foundation permit or building permit from the Department of Buildings, a written declaration of restrictions, in a form acceptable to the Chairperson of the City Planning Commission, containing complete drawings of the improvement and setting forth the obligations of the owner as agreed upon with the MTA pursuant to the requirements of paragraph (e)(1) of this Section, shall be recorded against such property in the Borough Office of the City Register of the City of New York. Proof of recordation of the declaration of restrictions shall be submitted in a form acceptable to the Department of City Planning.

(3) No temporary certificate of occupancy shall be granted by the Department of Buildings for the portion of the #building# utilizing bonus #floor area# granted pursuant to the provisions of this Section until the required improvements have been substantially completed, as determined by the Chairperson, acting in consultation with the MTA, where applicable, and such improvements are usable by the public. Such portion of the #building# utilizing bonus #floor area# shall be designated by the Commission in drawings included in the declaration of restrictions filed pursuant to this paragraph.

No permanent certificate of occupancy shall be granted by the Department of Buildings for the portion of the #building# utilizing bonus #floor area# until all

improvements have been completed in accordance with the approved plans, as determined by the Chairperson, acting in consultation with the MTA, where applicable.

The Commission may prescribe additional appropriate conditions and safeguards to enhance the character of the surrounding area.

81-645 - Special permit for a public concourse

LAST AMENDED
8/9/2017

For #qualifying sites#, the City Planning Commission may permit an increase in the amount of #floor area ratio# permitted on such #zoning lots#, up to the amount specified in Row G of the table in Section 81-64 (Special Floor Area Provisions for Qualifying Sites), as applicable, where an above-grade public concourse, in the form of an open or enclosed, publicly accessible space for public use and enjoyment, is provided on the #qualifying site#. Such publicly accessible spaces shall include amenities that are characteristic of #public plazas# or public atriums, as applicable, for the comfort and convenience of the public. In addition, to facilitate such public concourse, the Commission may permit the modification of provisions, other than #floor area ratio# regulations, of this Resolution.

As a pre-condition to applying for such special permit, an applicant shall demonstrate that the maximum as-of-right #floor area ratio# for #qualifying sites# set forth in Row E of the table in Section 81-64 has been achieved prior to, or in conjunction with, the special permit application.

In order for the City Planning Commission to approve a special permit application for additional #floor area#, the Commission shall determine that such #development# or, where permitted, #enlargement#, complies with the conditions and application requirements of paragraph (a), the

findings of paragraph (b) and the additional requirements of paragraph (c) of this Section.

(a) Applications shall include information and justification sufficient to provide the Commission with the basis for:

(1) evaluating the benefits to the general public;

(2) determining the appropriate amount of increased #floor area# to grant; and

(3) determining whether the applicable findings set forth in paragraph (b) of this Section have been met. Such application materials shall also include initial plans for the maintenance of the proposed improvements.

(b) The Commission shall find that:

(1) to the extent practicable, the open or enclosed public concourse will:

(i) consist of a prominent space of generous proportions and quality design that is inviting to the public;

(ii) improve pedestrian circulation and provide suitable amenities for the occupants;

(iii) front upon a #street# or a pedestrian circulation space in close proximity to and within view of, and accessible from, an adjoining sidewalk;

(iv) provide or be surrounded by active #uses#;

(v) be surrounded by transparent materials;

(vi) provide connections to pedestrian circulation spaces in the immediate vicinity; and

(vii) be designed in a manner that combines the separate elements within such space into a cohesive and harmonious site plan, resulting in a high-quality public space;

(2) the public benefit derived from the proposed public concourse merits the amount of additional #floor area# being granted to the proposed #development# or, where permitted, #enlargement#, pursuant to this special permit; and

(3) with regard to a modification to regulations of this Resolution, other than #floor area ratio# regulations, such modification:

(i) is the minimum extent necessary and will facilitate an improved public concourse, inclusive of enhancements described in the findings of paragraph (b)(1) of this Section; and

(ii) will not have adverse effects on the #qualifying site#, surrounding #zoning lots#, or adjacent #streets#.

(c) Prior to obtaining a foundation permit or building permit for a #development# or, where permitted, an #enlargement# on a #qualifying site#, from the Department of Buildings, a written declaration of restrictions, in a form acceptable to the Chairperson of the City Planning Commission, setting forth the obligations of the owner to construct, maintain and

provide public access to public improvements provided pursuant to this Section, shall be recorded against such property in the Office of the Register of the City of New York (County of New York). Proof of recordation of the declaration of restrictions shall be submitted in a form acceptable to the Department of City Planning.

No temporary certificate of occupancy shall be granted by the Department of Buildings for the portion of the #building# utilizing increased #floor area# granted pursuant to the provisions of this Section until the required improvements have been substantially completed, as determined by the Chairperson, and such improvements are usable by the public. Such portion of the #building# utilizing increased #floor area# shall be designated by the Commission in drawings included in the declaration of restrictions filed pursuant to this paragraph.

No permanent certificate of occupancy shall be granted by the Department of Buildings for the portion of the #building# utilizing increased #floor area# until all improvements have been finally completed in accordance with the approved plans, as determined by the Chairperson.

81-65 - Special Floor Area Provisions for All Non-qualifying Sites

LAST AMENDED

12/5/2024

For #non-residential buildings# or #mixed buildings# on #non-qualifying sites# in the East Midtown Subdistrict, the basic maximum #floor area ratios# of the underlying districts shall apply as set forth in this Section. Such basic maximum #floor area ratio# on any #zoning lot# may be increased by bonuses or other #floor area# allowances only in accordance with the provisions of this Chapter, and the maximum #floor area ratio# with such additional #floor area# allowances shall in no event exceed the amount set forth for each underlying district in the following table:

	Grand Central Core Area	
Means for achieving permitted FAR on a #zoning lot# for all other sites	C5-3 C6-6	C5-2.5 C6-4.5
A. Basic Maximum FAR	15	12
B. Additional FAR for provision of a #public plaza# (Section 81-651)	--	--
C. Total as-of-right FAR	15	12
D. Additional FAR for #mass transit station# improvements (Section 81-652)	3	2.4
E. Maximum FAR of a #granting lot# for transfer purposes (Sections 81-213 and 81-653)	15	12

F. Maximum amount of transferable development rights from a #granting lot# that may be utilized on a #receiving lot# within the #surrounding area# (Sections 81-213 and 81-653)	No limit	2.4
G. Maximum FAR permitted on a #receiving lot# within the #surrounding area#	No limit	14.4

81-651 - Floor area bonus for public plazas

LAST AMENDED
8/9/2017

For #non-qualifying sites# in subareas outside the Grand Central Core Area, as shown on Map 2 (East Midtown Subdistrict and Subareas) in Appendix A of this Chapter, the basic maximum #floor area ratio# permitted on such #zoning lots# shall be increased, up to the amount specified in Row B of the table in Section 81-65 (Special Floor Area Provisions for All Non-qualifying Sites), where a #public plaza# is provided in accordance with the provisions of Section 81-23 (Floor Area Bonus for Public Plazas).

81-652 - Floor area bonus for mass transit station improvements

LAST AMENDED
10/7/2021

For #developments# or #enlargements# on #non-qualifying sites# that are #qualifying transit improvement sites#, a #floor area# bonus for #mass transit station# improvements may be granted by the City Planning Commission pursuant to the provisions of Section 66-51 (Additional Floor Area for Mass Transit Station Improvements). For the purposes of this paragraph, defined terms additionally include those in Section 66-11 (Definitions).

81-653 - Special permit for transfer of development rights from landmarks to non-qualifying sites

LAST AMENDED
12/5/2024

For #non-qualifying sites#, the City Planning Commission may permit the transfer of development rights from a #granting lot# to a #receiving lot# within the #surrounding area#, pursuant to the provisions of Section 81-213 (Special provisions for transfer of development rights from landmark sites in certain areas), provided that:

(a) the maximum amount of #floor area# that may be transferred from a #granting lot# shall be the applicable basic maximum #floor area# set forth in Section 81-65 (Special Floor Area Provisions for All Non-qualifying Sites), less the total #floor area# of all existing #buildings# on the landmark #zoning lot#, and any previously transferred #floor area#. In no event shall a #granting lot# transfer any previously granted bonus #floor area# received for subway station improvements, #publicly accessible open areas# or the provision of district improvements pursuant to the provisions of this Chapter, or any preceding regulations;

(b) for each #receiving lot#, the increased #floor area# allowed by the transfer of development rights pursuant to this Section shall not exceed the amount resulting in the maximum #floor area ratio# set forth in Row F of the table in Section 81-65; and

(c) each transfer, once completed, shall irrevocably reduce the amount of #floor area# that may be #developed# or #enlarged# on the #granting lot# by the amount of #floor area# transferred.

81-66 - Special Height and Setback Requirements

LAST AMENDED
8/9/2017

For #buildings# which are #developed# or #enlarged# within the East Midtown Subdistrict, the applicable height and setback regulations of Sections 81-26 (Height and Setback Regulations – Daylight Compensation), inclusive, and 81-27 (Alternate Height and Setback Regulations – Daylight Evaluation), inclusive, are modified by the provisions of this Section, inclusive.

81-661 - Height and setback modifications for buildings in the Grand Central Core Area

LAST AMENDED
8/9/2017

For #buildings# on #non-qualifying sites# within the Grand Central Core Area, as shown on Map 2 (East Midtown Subdistrict and Subareas) in Appendix A of this Chapter, the provisions of Sections 81-26 (Height and Setback Regulations – Daylight Compensation), inclusive, or 81-27 (Alternate Height and Setback Regulations – Daylight Evaluation), inclusive, are modified as follows:

(a) where such #buildings# are governed by Section 81-26, no #compensating recess# shall be required for the #encroachment# of that portion of the #building# below a height of 150 feet, as measured from #curb level#; or

(b) where such #buildings# are governed by Section 81-27, the computation of daylight evaluation shall not include any daylight blockage, daylight credit, profile daylight blockage or available daylight for that portion of the #building# below 150 feet above #curb level#. However, the passing score required pursuant to paragraph (i) of Section 81-274 shall apply.

81-662 - Daylight compensation modifications for qualifying sites

LAST AMENDED
8/9/2017

For #buildings# on #qualifying sites# in the East Midtown Subdistrict using the daylight compensation method of height and setback regulations, the provisions of Section 81-26 (Height and Setback Regulations – Daylight Compensation) are modified as follows:

(a) for the purposes of determining permitted #encroachments# and #compensating recesses# pursuant to Section 81-264 (Encroachments and compensating recesses):

(1) no #compensating recess# shall be required for the #encroachment# of that portion of the #building# below a height of 150 feet, as measured from #curb level#;

(2) #compensating recesses# provided for #encroachments#, or portions thereof, above a height of 400 feet, as measured from #curb level#, need not comply with the provisions of paragraph (c)(1) of Section 81-264. In lieu thereof, for any portion of the #building# located above a height of 400 feet, the amount of #compensating recess# required for any particular level of the #building# shall be equal to the amount of #encroachment# provided at such level. The remaining provisions of paragraph (c) of Section 81-264 shall continue to apply to such #compensating recess#; and

(3) for #buildings# on #qualifying sites# with frontage along the easterly side of Vanderbilt Avenue, the full width of Vanderbilt Avenue may be considered part of the #zoning lot# for the purposes of determining permitted #encroachments# and #compensating recesses#. Such modified #zoning lot# shall be constructed by shifting the westerly boundary of the #zoning lot# to the westerly #street line# of Vanderbilt Avenue, and by prolonging the #street lines# of #narrow streets# to such new westerly boundary. The Vanderbilt Avenue portion of such modified #zoning lot# may be considered a #compensating recess# for encroachments along such #building's# #narrow street# #street frontage zone#, provided that any portion of the #building# fronting along Vanderbilt Avenue above a height of 100 feet, as measured from #curb level#, is set back a minimum 15 feet from the Vanderbilt Avenue #street line#, and

further provided that the #street frontage zone# calculation along Park Avenue shall not include Vanderbilt Avenue;

(b) for the purposes of determining the permitted length of #encroachments# pursuant to Section 81-265 (Encroachment limitations by length and height rules) the minimum length of recess required by Formula 2 in paragraph (c) of Section 81-265 shall be modified to 20 percent of the length of the #front lot line#; and

(c) for #buildings# on #qualifying sites# with frontage along Park Avenue, as an alternative to the setback requirements of Table A, B or C in paragraph (b) of Section 81-263 (Standard setback requirements), the Park Avenue wall of such #building# shall be set back behind the applicable #setback line# to the depth of the #setback line# required at that particular height, in accordance with the applicable requirements of the table in this Section.

81-663 - Daylight evaluation modifications for qualifying sites

LAST AMENDED
8/9/2017

For #buildings# on #qualifying sites# in the East Midtown Subdistrict using the daylight evaluation method of height and setback regulations, the provisions of Section 81-27 (Alternate Height and Setback Regulations – Daylight Evaluation) are modified as follows:

(a) for the purposes of calculating the daylight evaluation score pursuant to Section 81-274 (Rules for determining the daylight evaluation score):

(1) the computation of daylight evaluation shall not include any daylight blockage for that portion of the #building# above the curved line representing 70 degrees in the applicable #Daylight Evaluation Charts#, and below a height of 150 feet, as measured from #curb level#. However, such computation shall include the daylight blockage created by extending the lines representing the outermost edges of the portion of the #building# immediately above a height of 150 feet downwards to such 70 degree line;

(2) the computation of unblocked daylight squares which are below the curved line representing an elevation of 70 degrees, pursuant to paragraph (c) of Section 81-274, may apply along designated #streets# where #street wall# continuity is required;

(3) the profile penalty for #profile encroachment#, set forth in paragraph (a) of Section 81-274, shall not apply; and

(4) the provisions of paragraph (i) of Section 81-274 shall be modified to require an overall passing score of 66 percent. Notwithstanding such modifications, no single #street#

frontage shall have a street score of less than 66 percent;

(b) the reflectivity provisions of Section 81-276 may be utilized to raise both an individual score and the overall score by up to six percentage points;

(c) for #buildings# on #qualifying sites# with frontage along the easterly #street line# of Vanderbilt Avenue, the full width of Vanderbilt Avenue may be considered part of the #zoning lot# for the purposes of constructing the #daylight evaluation chart# pursuant to Section 81-272 (Features of the Daylight Evaluation Chart). Such modified #zoning lot# shall be constructed by shifting the westerly boundary of the #zoning lot# to the westerly #street line# of Vanderbilt Avenue, and by prolonging the # street lines# of #narrow streets# to such new westerly boundary. Such modified #zoning lot# may be utilized to create a modified pedestrian view along Vanderbilt Avenue and intersecting #narrow streets# provided that:

(1) any portion of the #building# fronting along Vanderbilt Avenue above a height of 100 feet, as measured from #curb level#, is set back a minimum of 15 feet from the Vanderbilt Avenue #street line#;

(2) #vantage points# along Vanderbilt Avenue are taken 30 feet west of the westerly #street line# instead of the #center line of the street#; and

(3) #vantage points# along #narrow streets# are taken from the corner of the modified #zoning lot#; and

(d) for #buildings# with frontage along Park Avenue:

(1) for the purposes of establishing #vantage points# along Park Avenue to construct a #daylight evaluation chart# pursuant to the provisions of Section 81-272, the

definition of #center line of the street#, as set forth in Section 81-271 (Definitions), shall be modified along Park Avenue to be a line 70 feet from, and parallel to, the Park Avenue #street line# of the #zoning lot#; and

(2) for the purpose of plotting #buildings# on the #daylight evaluation chart# pursuant to Section 81-273 (Rules for plotting buildings on the daylight evaluation chart), Chart 4 (Daylight Evaluation Diagram – Park Avenue) in Appendix B of this Chapter shall be utilized in lieu of the chart for #streets# 100 feet or more in width.

81-67 - Special Mandatory District Plan Element Requirements

LAST AMENDED
8/9/2017

For #buildings# which are #developed# or #enlarged# within the East Midtown Subdistrict, the applicable provisions of Section 81-40 (MANDATORY DISTRICT PLAN ELEMENTS) shall be modified in accordance with the provisions of this Section, inclusive.

81-671 - Special street wall requirements

LAST AMENDED
8/9/2017

The requirements of Section 81-43 (Street Wall Continuity Along Designated Streets) shall be applicable within the Subdistrict, except as modified in this Section.

#Buildings# with frontage on Park, Lexington, Madison and Vanderbilt Avenues, or Depew Place in the Grand Central Core Area, as shown on Map 2 (East Midtown Subdistrict and Subareas) in Appendix A of this Chapter, shall have a #street wall# within 10 feet of the #street line# of such #streets#. On 42nd Street, the #street wall# shall be at the #street line#. The width of the required #street wall# shall be at least 80 percent of the length of the #front lot line#.

The minimum height of such #street walls# without any setback shall be 120 feet above #curb level# or the height of the #building#, whichever is less, and the maximum height shall not exceed 150 feet above #curb level#. Where a #zoning lot# is bounded by the intersection of Park Avenue, Lexington Avenue, Madison Avenue, Vanderbilt Avenue, 42nd Street or Depew Place and any other #street#, these #street wall# height regulations shall apply along the full length of the #zoning lot# along the other #street# or to a distance of 125 feet from the intersection, whichever is less.

However, for #developments# or, where permitted, #enlargements# on #qualifying sites# within an area bounded by East 43rd Street, Second Avenue, East 42nd Street and a line 200 feet east of Third Avenue, such #street wall# location requirements shall not apply to the portion of the frontage where an open publicly accessible space is provided in accordance with paragraph (b) of Section 81-681 (Mandatory requirements for qualifying sites).

Beyond 125 feet of the intersection, the maximum height of the #street wall# above #curb level# shall not exceed 120 feet. For such #buildings#, the provisions of Section 81-262 (Maximum height of front wall at the street line) shall not be applicable.

However, the ten-foot setback requirement of paragraph (a) of Section 81-263 (Standard setback requirements) shall apply only to those portions of the #building# above 120 feet.

81-672 - Sidewalk widenings

LAST AMENDED

All sidewalk widenings provided pursuant to the provisions of this Section shall be improved as sidewalks to Department of Transportation standards, shall be at the same level as the adjoining public sidewalks, and shall be accessible to the public at all times. The design provisions set forth in paragraph (f) of Section 37-53 (Design Standards for Pedestrian Circulation Spaces) shall apply, except as modified in this Section. All sidewalk widenings provided in accordance with the provisions of this Section shall constitute pedestrian circulation space, as required pursuant to Section 81-45 (Pedestrian Circulation Space).

(a) Mandatory sidewalk widenings along Madison and Lexington Avenues

#Developments# or, where permitted, #enlargements# on #qualifying sites# with frontage along Madison and Lexington Avenues, shall provide mandatory sidewalk widenings as follows:

(1) where such #zoning lot# occupies the entire #block# frontage, a sidewalk widening shall be provided to the extent necessary so that a minimum sidewalk width of 20 feet is achieved, including portions within and beyond the #zoning lot#. However, no sidewalk widening need exceed 10 feet, as measured perpendicular to the #street line#;

(2) where such #zoning lot# does not occupy the entire #block# frontage, a sidewalk widening shall be provided where all existing #buildings# on the #block# frontage have provided such a widening. Such required widening shall match the amount of widened sidewalk provided on adjacent #zoning lots#, provided that no sidewalk widening need exceed 10 feet, as measured perpendicular to the #street line#.

(b) Permitted sidewalk widenings

Sidewalk widenings may be provided, in accordance with the applicable size and design standards established in Section 37-50 (REQUIREMENTS FOR PEDESTRIAN CIRCULATION SPACE), inclusive:

(1) along #narrow streets# in the Grand Central Subarea, as shown on Map 2 (East Midtown Subdistrict and Subareas) in Appendix A of this Chapter, for #developments# or #enlargements# on #zoning lots# with a #lot width# of 100 feet or more, as measured along the #street line# of such #narrow street#; and

(2) where a #street wall#, or portions thereof, is permitted to be located beyond the #street line# pursuant to the applicable provisions of Section 81-671 (Special street wall requirements).

(c) Permitted obstructions

In the Grand Central Subarea, as shown on Map 2, awnings and canopies shall be permitted obstructions within a sidewalk widening provided that no structural posts or supports are located within any portion of the sidewalk or such widening.

81-673 - Mass transit access

LAST AMENDED
8/9/2017

(a) On #qualifying sites#

Where a #zoning lot# contains an easement volume for pedestrian access to a subway station

or rail mass transit facility and such #zoning lot# is proposed to be #developed# or, where permitted, #enlarged# in accordance with the provisions for #qualifying sites#, such existing easement volume shall be preserved, or reconfigured in accordance with standards and terms approved by the Metropolitan Transportation Authority (MTA), as part of such #development# or #enlargement#. Any reconfiguration shall be constructed by the owner of the #development# or #enlargement#.

For such #developments# or, where permitted, #enlargements#, the owner shall submit a site plan showing a proposed location and size of the transit easement volume that would provide access between the #street# and the below-grade subway station or rail mass transit facility and be compatible with the proposed #development# or #enlargement# on the #zoning lot# for joint approval and final certification by the MTA and the Chairperson of the City Planning Commission. The MTA and the Chairperson shall comment on such site plan within 45 days of its receipt and may, within such 45-day period or following its expiration, permit the granting of an excavation permit while the location and size of the transit easement volume is being finalized. Upon joint approval of a site plan by the MTA and the Chairperson, copies of such certification shall be forwarded by the Chairperson to the Department of Buildings.

Legal instruments creating a transit easement volume shall be executed and recorded in a form acceptable to the City. The execution and recording of such instruments shall be a precondition to the issuance of any foundation permit, new building permit, or alteration permit by the Department of Buildings allowing such #development# or #enlargement#.

(b) On #qualifying sites# in the Grand Central Transit Improvement Zone Subarea or in the Other Transit Improvement Zone Subarea

For #developments# or, where permitted, #enlargements# involving ground floor level construction on #qualifying sites# in the Grand Central Transit Improvement Zone Subarea, or in the Other Transit Improvement Zone Subarea, as shown on Map 2 (East Midtown

Subdistrict and Subareas) in Appendix A of this Chapter, in addition to the provisions of paragraph (a) of this Section, as applicable, a transit easement volume may be required on such #zoning lot# for public access between the #street# and a below-grade subway station or rail mass transit facility.

Prior to filing any applications with the Department of Buildings for an excavation permit, foundation permit, new building permit or alteration permit for a #development# or #enlargement#, the owner of the #zoning lot# shall file an application with the MTA and the Chairperson requesting a certification as to whether or not a transit easement volume is required on the #zoning lot#.

Within 60 days of receipt of such application, the MTA and the Chairperson shall jointly certify whether or not a transit easement volume is required on the #zoning lot#. Failure to certify within the 60-day period will release the owner from any obligation to provide a transit easement volume on such #zoning lot#.

When the MTA and the Chairperson indicate that a transit easement volume is required, the owner shall submit a site plan showing a proposed location and size of the transit easement volume that would provide access between the #street# and the below-grade subway station or rail mass transit facility and be compatible with the proposed #development# or #enlargement# on the #zoning lot# for joint approval and final certification by the MTA and the Chairperson. The MTA and the Chairperson shall comment on such site plan within 45 days of its receipt and may, within such 45-day period or following its expiration, permit the granting of an excavation permit while the location and size of the transit easement volume is being finalized. Upon joint approval of a site plan by the MTA and the Chairperson, copies of such certification shall be forwarded by the Chairperson to the Department of Buildings.

Legal instruments creating a transit easement volume shall be executed and recorded in a form acceptable to the City. The execution and recording of such instruments shall be a

precondition to the issuance of any foundation permit, new building permit, or alteration permit by the Department of Buildings allowing such #development# or #enlargement#.

If a transit easement volume is required on the #zoning lot#, pursuant to the provisions of this Section, an off-street subway or rail mass transit access improvement may be constructed and maintained by either the owner of the #development# or #enlargement#, or the MTA, as follows:

(1) where such mass transit access improvement is constructed and maintained by the owner of the #development# or #enlargement#:

(i) such mass transit access shall be improved to the standards set forth in Section 81-48 and shall be approved by the MTA, and shall comply with the following:

(a) where the lobby of the #building# adjoins such mass transit access, in addition to mass transit access to the #street#, such mass transit access shall provide a direct connection to the lobby of the #building# that is open during normal business hours; and

(b) such mass transit access shall provide directional #signs# in accordance with the provisions of Section 81-412 (Directional signs). Such #signs# shall be exempt from the maximum #surface area# of non-#illuminated signs# permitted by Section 32-642 (Non-illuminated signs); and

(ii) no temporary certificate of occupancy shall be granted by the Department of Buildings for the #building# until the Chairperson of the City Planning

Commission, acting in consultation with the MTA, has certified that the improvements are substantially complete and usable by the public.

(2) where such mass transit access improvement is constructed and maintained by the MTA:

(i) where construction of the transit easement volume by the MTA is not contemporaneous with the construction of the #development#:

(a) any underground walls constructed along the #front lot line# of a #zoning lot# shall contain a knockout panel, not less than 12 feet wide, below #curb level# down to the bottom of the easement. The actual location and size of such knockout panel shall be determined through consultation with the MTA; and

(b) temporary construction access shall be granted to the MTA on portions of the #zoning lot# outside of the transit easement volume, as necessary, to enable construction within and connection to the transit easement volume; and

(ii) in the event that the MTA has approved of obstructions associated with the #development# or #enlargement# within the transit easement volume, such as building columns or footings, such construction and maintenance shall exclude any such obstructions within the transit easement volume.

(c) In other locations

For portions of the #Special Midtown District# within the #Special Transit Land Use

District#, where, as part of a #development# or #enlargement# involving ground floor level construction, a transit easement volume is required by the MTA to accommodate, whether singly or in any combination, light wells, stairs, ramps, escalators, elevators, passageways, or ancillary facilities required to support the functioning of subway station or rail mass transit facilities, including, but not limited to, emergency egress or ventilation structures, the MTA shall, in consultation with the owner of the #zoning lot# and the City Planning Commission, determine the appropriate type of transit easement and reasonable dimensions for such transit easement volume.

The floor space occupied by any transit easement volume required pursuant to this Section shall not count as #floor area#. Where access improvements are constructed by the owner of the #zoning lot#, each square foot of mass transit access may constitute three square feet of pedestrian circulation space required pursuant to Section 81-45 (Pedestrian Circulation Space), not to exceed 3,000 square feet.

81-674 - Ground floor use provisions

LAST AMENDED
6/6/2024

(a) Within the Vanderbilt Corridor Subarea

For #buildings# #developed# or #enlarged# on the ground floor on #zoning lots# located within the Vanderbilt Corridor Subarea, as shown on Map 2 (East Midtown Subdistrict and Subareas) in Appendix A of this Chapter, where a #building# fronts upon a designated retail #street#, as shown on Map 3 (Retail and Street Wall Continuity), any portion of such #building's# ground floor level frontage along such designated retail #street# allocated to above- or below-grade public realm improvements provided in accordance with a special

permit pursuant to Section 81-632 (Special permit for transfer of development rights from landmarks to the Vanderbilt Corridor Subarea) or Section 81-633 (Special permit for Grand Central public realm improvements) shall be excluded from the retail continuity requirements of Section 81-42 (Retail Continuity Along Designated Streets).

(b) Within the Grand Central Core Area

For #buildings# #developed# or #enlarged# on the ground floor after August 26, 1992, in the Grand Central Core Area, as shown on Map 2, #building# lobby entrances shall be required on each #street# frontage of the #zoning lot# where such #street# frontage is greater than 75 feet in length, except that if a #zoning lot# has frontage on more than two #streets#, #building# entrances shall be required only on two #street# frontages. Each required #building# entrance shall lead directly to the #building# lobby. #Buildings# #developed# from May 13, 1982, to August 25, 1992, shall be subject to the provisions of Section 81-47 (Major Building Entrances).

Required #building# entrances on opposite #street# frontages shall be connected directly to the #building# lobby by providing a through #block# connection in accordance with paragraph (h) of Section 37-53 (Design Standards for Pedestrian Circulation Spaces), except that such through #block# connection shall be located at least 50 feet from the nearest north/south #wide street#.

Each required #building# entrance shall include a #building# entrance recess area, as defined in paragraph (b) of Section 37-53, except that for #developments# or #enlargements# with frontage on Madison Avenue, Lexington Avenue or 42nd Street, the width of a #building# entrance recess area shall not be greater than 40 feet parallel to the #street line# and there may be only one #building# entrance recess area on each such #street# frontage.

81-675 - Curb cut restrictions and loading berth requirements

LAST AMENDED
8/9/2017

For #developments# or #enlargements# within the Grand Central Core Area, as shown on Map 2 (East Midtown Subdistrict and Subareas) in Appendix A of this Chapter, in addition to the provisions of Sections 81-30 (OFF-STREET PARKING AND OFF-STREET LOADING REGULATIONS), inclusive, and 81-44 (Curb Cut Restrictions), the following shall apply:

(a) Loading berth provisions

For #through lots#, the required loading berth shall be arranged so as to permit head-in and head-out truck movements to and from the #zoning lot#.

However, the Commissioner of Buildings may waive such head-in and head-out requirements, provided that:

(1) the #zoning lot# has frontage along a #street# where curb cuts accessing a loading berth are permitted, but there is no access to such #zoning lot# from the #street# due to the presence of:

(i) a #building# existing on August 9, 2017, containing #residences#;

(ii) a #non-residential building# existing on August 9, 2017, that is three or more #stories# in height; or

(iii) a #building# designated as a landmark or considered a contributing #building# in an Historic District designated by the Landmarks Preservation Commission; or

(2) there are subsurface conditions, ventilation requirements from below-grade infrastructure or other site planning constraints that would make accommodating such loading berths infeasible.

(b) Curb cut provisions

The maximum width of any curb cut (including splays) shall be 15 feet for one-way traffic and 25 feet for two-way traffic. Curb cuts shall not be permitted on 47th Street between Park and Madison Avenues or on 45th Street between Depew Place and Madison Avenue.

81-676 - Pedestrian circulation space requirements

LAST AMENDED
8/9/2017

Any #development# or #enlargement# within the Grand Central Core Area, as shown on Map 2 (East Midtown Subdistrict and Subareas) in Appendix A of this Chapter, shall be subject to the provisions of Sections 81-45 (Pedestrian Circulation Space), 81-46 (Off-street Relocation or Renovation of a Subway Stair) and 81-48 (Off-street Improvement of Access to Rail Mass Transit Facility), except that:

(a) no arcade shall be allowed;

(b) a sidewalk widening may be provided only for a #building# occupying an Avenue frontage, provided that such sidewalk widening extends for the length of the full #block# front; and

(c) for #developments# or #enlargements# on #zoning lots# located within the Vanderbilt Corridor Subarea, as shown on Map 2, up to a maximum of 3,000 square feet of on-site improvements to the public realm provided in accordance with a special permit pursuant to Section 81-632 (Special permit for transfer of developments rights from landmarks to the Vanderbilt Corridor Subarea) or Section 81-633 (Special permit for Grand Central public realm improvements) may be applied toward the pedestrian circulation space requirement.

81-68 - Additional Provisions for Qualifying Sites

LAST AMENDED
8/9/2017

81-681 - Mandatory requirements for qualifying sites

LAST AMENDED
5/8/2019

(a) Building energy design requirements for #buildings# on #qualifying sites#

To ensure advancement of goals for the reduction of greenhouse gas emissions, #buildings# on #qualifying sites# shall either:

(1) utilize a district steam system for the #building's# heating and hot water systems; or

(2) the core and shell of such #building# shall exceed the standards of the chosen commercial building energy-efficiency compliance path within the 2016 New York City Energy Conservation Code (NYCECC), by three percent.

Compliance with the provisions of this Section shall be demonstrated to the Department of Buildings at the time of issuance of a new building permit for a #development# or, where permitted, an #enlargement# on a #qualifying site#.

The City Planning Commission may, by rule, modify the standards of this Section, as necessary, to ensure that the environmental standards established herein, meet or exceed the current best practices in reducing greenhouse gas emissions.

(b) Mandatory publicly accessible space requirements for qualifying sites

A #qualifying site# shall provide a publicly accessible space, open or enclosed, as defined herein, in accordance with the size provisions of paragraph (b)(1) of this Section and the design requirements of paragraph (b)(2). Each publicly accessible space shall require a certification by the Chairperson of the City Planning Commission, pursuant to Section 37-78 (Compliance), as modified herein.

For the purposes of this Chapter on a #qualifying site#, a "publicly accessible space" shall be defined as an open or enclosed area provided for public use and enjoyment on the #zoning lot#. An "open publicly accessible space" shall be defined as a publicly accessible space, that is

open to the sky on a #qualifying site#, and an "enclosed publicly accessible space" shall be defined as a fully enclosed, climate-controlled publicly accessible space on a #qualifying site#. The design standards contained in paragraph (b)(2)(ii) of this Section for an enclosed publicly accessible space are intended to serve the same purposes outlined for #public plazas# in Section 37-70.

(1) Type and minimum size

(i) A #qualifying site# with a #lot area# of at least 30,000 square feet but less than 45,000 square feet shall provide a publicly accessible space, open or enclosed, with an area of not less than 10 percent of the #lot area# of the #zoning lot#.

(ii) A #qualifying site# with a #lot area# of 45,000 square feet but less than 65,000 square feet shall provide an open publicly accessible space with an area of not less than 10 percent of the #lot area# of the #zoning lot#, except that where the provisions of Sections 81-40 (MANDATORY DISTRICT PLAN ELEMENTS), inclusive, and 81-67 (Special Mandatory District Plan Element Requirements), inclusive, are applicable to the #qualifying site# and preclude an open publicly accessible space from being provided on the #qualifying site#, an enclosed publicly accessible space shall be provided in the proposed #building#.

In addition to complying with paragraphs (a) through (d) of Section 37-78, each application for an enclosed publicly accessible space shall demonstrate which of the applicable provisions of Sections 81-40 and 81-67, inclusive, conflict with the design requirements set forth in 37-70, inclusive, and that they necessitate the provision of the enclosed publicly accessible space in lieu of an open publicly accessible space.

(iii) A #qualifying site# with a #lot area# of 65,000 square feet or greater shall provide an open publicly accessible space with an area of not less than 10,000 square feet. Where such #qualifying site# has a #through lot# portion, such #qualifying site# shall provide an open publicly accessible space across the #through lot# portion.

However, for a #qualifying site# with a #lot area# of 80,000 square feet or greater that includes an existing entrance to a rail mass-transit facility located outside the #through lot# portion of the #zoning lot# existing on May 8, 2019, such open publicly accessible space may be located so as to include the entrance to a rail mass-transit facility, provided that such open publicly accessible space adjoins a #street# or a required sidewalk widening, as applicable.

(2) Design requirements for publicly accessible spaces

(i) Open publicly accessible space

For open publicly accessible space, the provisions of Section 37-70, inclusive, shall apply, except that the provisions of Section 37-713 (Locational restrictions) shall not apply. In addition, the following modifications or waivers may be applied under certain circumstances:

(a) For #qualifying sites# where an open publicly accessible space is permitted to adjoin a #street# or a required sidewalk widening to accommodate an entrance to a rail mass-transit facility in accordance with paragraph (b)(1)(iii) of this Section, and the majority of the subsurface area of such #qualifying site# is occupied by a railroad

right-of-way, thus imposing practical difficulty in configuring the #building# or required publicly accessible space:

(1) the provisions of Sections 81-42 (Retail Continuity Along Designated Streets), 81-43 (Street Wall Continuity Along Designated Streets) and 81-671 (Special street wall requirements), paragraph (d) of Section 37-715 (Requirements for major portions of public plazas) need not apply;

(2) where #street wall# requirements are not applied, the provisions of paragraphs (a) and (b) of Section 37-726 (Permitted obstructions) may be modified to allow a portion of an open publicly accessible space to be covered by a #building or other structure#, provided that there is an average separation of at least 50 feet between the level of such open publicly accessible space and any portion of #building# above, and further provided that any such portion shall be located no lower than 40 feet above the level of such open publicly accessible space. In addition, such #building or other structure# shall not obstruct more than 60 percent of the area of such open publicly accessible space;

(3) the provisions of paragraphs (a) and (c) of Section 37-76 (Mandatory Allocation of Frontages for Permitted Uses) need not apply, where at least one food service kiosk shall abut or be included within such open publicly accessible space. The size limitations of paragraph (a), and the certification

requirements of paragraph (c) of Section 37-73 shall not apply to such kiosk; and

(4) where the provisions of paragraph (d) of Section 37-715 are not applied, the provisions of paragraph (a) of Section 37-721 (Sidewalk frontage) may be modified to require no more than 40 percent of the area within 15 feet of any such #street line# to be free of obstructions and the provisions of Section 37-741 (Seating), may be modified to exclude the length of any such #street line# from the calculation of the amount of seating required within 15 feet of such #street line#.

(b) For #qualifying sites# where an open publicly accessible space is permitted to adjoin a #street# or a required sidewalk widening to accommodate an entrance to a rail mass-transit facility in accordance with paragraph (b)(1)(iii) of this Section, the Chairperson of the City Planning Commission shall permit modifications to the remaining design provisions of Section 37-70, inclusive, upon certification to the Department of Buildings that such modifications are limited to those that directly address practical difficulties resulting from the presence of the entrance to a rail mass-transit facility within the open publicly accessible space. Any application shall include materials demonstrating the extent of modifications necessary. The Chairperson, in consultation with the Metropolitan Transportation Authority, shall determine the appropriate amount of above-grade pedestrian circulation space into and around the entrance to such rail mass-transit facility.

(ii) Enclosed publicly accessible space

For enclosed publicly accessible spaces, the following shall apply:

(a) An enclosed publicly accessible space shall have a minimum height of 30 feet or the height of the ground floor level, whichever is greater, and a minimum width and depth, at any point, of 30 feet. Such enclosed publicly accessible space shall be located on the ground floor level of the #building# and shall be directly accessible from an adjoining #street# or #publicly accessible open area# that the area fronts. A minimum of one entrance to the enclosed publicly accessible space shall be provided from the adjoining #street# on which it fronts; however, if it fronts on more than one #street#, such entrance shall be from the #street# with the longer frontage. The aggregate width of doorways accessing such enclosed publicly accessible space shall not be less than 10 feet in width.

(b) All ground floor level #street walls# enclosing the enclosed publicly accessible space shall be treated with clear, untinted, transparent materials. Such transparent materials shall occupy at least 70 percent of the surface area of such ground floor level #street wall# between a height of two feet and 30 feet, or the height of the ground floor ceiling, whichever is higher, as measured from the adjoining sidewalk. Such enclosed publicly accessible space shall be heated or air-conditioned, and the standards for heating, ventilating and air-conditioning shall be at least equal to those of the lobby for the principal #use# of the #building#.

(c) Public access to the enclosed publicly accessible space shall be provided, at a minimum, from 7:00 a.m. to 10:00 p.m. However, if a cafe or kiosk, pursuant to Section 37-73 (Kiosks and Open Air Cafes), is provided within, such enclosed publicly accessible space shall remain open to the public during the hours of operation of the cafe or kiosk, if such hours are longer than otherwise required by this Section.

The hours of access shall be included on all required entry plaques and information plaques in accordance with the provisions of Section 37-751 (Public space signage systems) and for through #block# enclosed publicly accessible spaces, an information plaque shall be provided in accordance with paragraph (h)(2)(viii) of Section 37-53 (Design standards for Pedestrian Circulation Spaces).

(d) The provisions of Sections 37-718 (Paving), 37-722 (Level of plaza), 37-728 (Standards of accessibility for persons with disabilities), 37-744 (Litter receptacles), 37-745 (Bicycle parking), 37-746 (Drinking fountains), 37-748 (Additional amenities), 37-752 (Prohibition signs), 37-753 (Accessory signs) and 37-77 (Maintenance) shall apply to enclosed publicly accessible spaces.

(e) The provisions of Section 37-723 (Circulation paths) shall apply to enclosed publicly accessible spaces. In addition, for enclosed publicly accessible spaces provided in conjunction with subway entrances and/or designed to provide connection to above- and/or below-grade improvements, an unobstructed pedestrian circulation path shall be provided from at least one entrance of the enclosed publicly accessible space to such subway entrance and to such above- and/or below-grade improvements.

(f) The provisions of paragraphs (a) and (b) of Section 37-726 (Permitted obstructions) shall apply to enclosed publicly accessible spaces and are modified as follows:

(1) structural columns shall be considered permitted obstructions. The area occupied by such structural columns shall be excluded from the area calculations for the enclosed publicly accessible space. In addition, interior structural columns shall have an aggregate area of no more than two percent of the total enclosed publicly accessible space. Such columns shall not be considered permitted obstructions in any circulation path; and

(2) a cafe or kiosk permitted by certification pursuant to Section 37-73 (Kiosks and Open Air Cafes) shall be considered a permitted obstruction within an enclosed publicly accessible space and may not occupy more than 20 percent of the enclosed publicly accessible space.

(g) The provisions of Section 37-741 for seating shall apply to enclosed publicly accessible spaces, except that such provisions are modified as follows:

(1) the requirements of seating within 15 feet of a #street line# shall not apply;

(2) all of the linear seating capacity may be in moveable seats. All such moveable seats must remain in the enclosed publicly accessible space during the hours of operation; and

(3) the requirement that seats facing walls be located a minimum of six feet from such wall shall only apply to fixed seating.

(h) The requirements of Section 37-742 for planting and trees shall apply to enclosed publicly accessible spaces, except that the surface area of any vertical planting may be included in the calculation of the total area of planting beds that are provided, and trees shall not be required.

(i) All enclosed publicly accessible spaces shall be illuminated with a minimum level of illumination of not less than five horizontal foot candles (lumens per foot) throughout the space. The requirements of Section 37-743 for a lighting schedule, a diagram of light level distribution and electrical power shall apply.

(j) At least 50 percent of the total frontage of all #building# walls fronting on an enclosed publicly accessible space, excluding such frontage occupied by #street walls#, #building# lobbies or #building# walls #abutting# #lot lines#, shall be limited to retail, personal service or amusement #uses# permitted by the underlying zoning district regulations, but not including #uses# in Use Groups 6B, 6E, 7C, 7D, 8C, 8D, 9B, 10B, 11 and 12D or banks, automobile showrooms or plumbing, heating or ventilating equipment showrooms. For such #building# walls, the transparency provisions of paragraph (c) of

Section 37-76 shall apply.

(k) The area of the enclosed publicly accessible space shall be exempt from calculations for #floor area# as defined in Section 12-10 (DEFINITIONS).

In addition, a maximum of 30 percent of the area of the publicly accessible space, whether open or enclosed, may be counted towards meeting the pedestrian circulation space requirement, up to a maximum of 3,000 square feet.

81-682 - Priority Improvement List for qualifying sites

LAST AMENDED
8/9/2017

In accordance with the provisions of Section 81-641 (Additional floor area for transit improvements on qualifying sites), any applicant for a #development# or #enlargement# on a #qualifying site# in the Grand Central Transit Improvement Zone Subarea, or the Other Transit Improvement Zone Subarea, shall select a transit improvement, or combination thereof, to be completed in accordance with the provisions of this Section.

(a) Selecting an Improvement

An applicant shall select a transit improvement from the Priority Improvement List in paragraph (b) of this Section based on the #floor area# such improvement generates relative to the minimum #floor area# required and maximum #floor area# permitted for completion of such improvement pursuant to Section 81-641, and based on the following geographical and technical considerations:

(1) First, the applicant shall select a transit improvement in the same Subarea of the East Midtown Subdistrict as the proposed #development# or #enlargement# on a #qualifying site#;

(2) If none of the transit improvements on the Priority Improvement List meet the criteria of paragraph (a)(1) of this Section, the applicant shall select a transit improvement on a transit route that passes through, and has stations or other facilities in the same Subarea of the East Midtown Subdistrict as the proposed #development# or #enlargement# on a #qualifying site#;

(3) If none of the transit improvements on the Priority Improvement List meet the criteria of paragraphs (a)(1) or (a)(2) of this Section, the applicant shall select from any remaining improvement on the list.

In addition, applicants shall consult with the applicable City or State agencies with jurisdiction over and control of the proposed improvement to ensure that the selected improvement will meet the operational and long-term planning needs of the station or transit route, including any phasing requirements, and compliance with the Americans with Disabilities Act (ADA).

(b) The Priority Improvement List

The Priority Improvement List (the "Improvement List"), set forth in the tables below, details physical improvements to subway stations and other rail mass transit facilities in, or adjacent to, the East Midtown Subdistrict, that an applicant for a #development# or, where permitted, an #enlargement# on a #qualifying site# may complete to obtain additional #floor area#.

Three levels of improvements are available for completion, which, accordingly, generate three different amounts of additional #floor area#:

(1) Type 1 Improvements generate 40,000 square feet of #floor area#, and include new or expanded on-street station entrances, new or expanded off-street station entrances, new or expanded accessible routes for persons with physical disabilities between two levels of a station, and four or fewer new or reconfigured station stairs.

(2) Type 2 Improvements generate 80,000 square feet of #floor area#, and include new or expanded station escalators, new or expanded accessible routes for persons with physical disabilities between three or more station levels, new or expanded paid areas of a station, including widened platforms or mezzanine levels, and more than four new or reconfigured station stairs.

(3) Type 3 Improvements generate 120,000 square feet of #floor area#, and include large-scale renovations that significantly improve the environment of stations, and new connections between two or more stations.

In consultation with the Metropolitan Transportation Authority, the City Planning Commission may, by rule, modify the Improvement List to reflect new improvements needed in the transit network.

PRIORITY IMPROVEMENT LIST

TYPE 1 IMPROVEMENTS		
Location	Type of Improvement	Transit Line

Lexington Avenue/ 53rd – 51st Street station	Replace escalator and stair connecting downtown Lexington platform to underpass with widened stair	Lexington Avenue Line/53rd Street Line
Lexington Avenue/ 53rd – 51st Street station	Provide new street entrance to uptown Lexington platform from 50th Street	Lexington Avenue Line/53rd Street Line
42 St - Bryant Park /5th Ave station	Provide ADA elevator between Flushing platform and mezzanine level	Flushing Line/6th Avenue Line
42 St - Bryant Park /5th Ave station	Provide new street entrance from north side of West 42nd street	Flushing Line/6th Avenue Line
42 St - Bryant Park /5th Ave station	Provide ADA elevator between Sixth Avenue northbound platform and mezzanine level	Flushing Line/6th Avenue Line
42 St - Bryant Park /5th Ave station	Provide ADA elevator between Sixth Avenue southbound platform and mezzanine level	Flushing Line/6th Avenue Line

Lexington Av - 59th Street station	Provide new street stair capacity at northeast and northwest corners of East 60th Street and Lexington Avenue	Lexington Avenue Line/Broadway-60th Street Line
Lexington Av - 59th Street station	Provide ADA elevator between local IRT platform and street level	Lexington Avenue Line/Broadway-60th Street Line
Lexington Av - 59th Street station	Provide ADA elevator between 60th Street (BMT) line platform and mezzanine level	Lexington Avenue Line/Broadway-60th Street Line
Lexington Av - 59th Street station	Provide new platform stair and widen existing stairs between 60th Street (BMT) line platform and mezzanine level	Lexington Avenue Line/Broadway-60th Street Line
Fifth Avenue/53rd Street station	Provide new street entrance on East 53rd Street west of Madison Avenue	53rd Street Line
Grand Central/42nd Street station	Widen platform stair at east end of Flushing platform	Flushing Line

Grand Central/42nd Street station	Widen two stairs between uptown Lexington platform and Flushing and Lexington platforms	Flushing Line
TYPE 2 IMPROVEMENTS		
Location	Type of Improvement	Transit Line
Lexington Avenue/ 53rd–51st Street station	Provide widened escalator between 53rd Street platform and mezzanine	Lexington Avenue Line/53rd Street Line
Lexington Av-59th Street station	Provide ADA elevator between northbound local Lexington Avenue Line platform, northbound express Lexington Ave Line platform, and the 60th Street (BMT) line mezzanine	Lexington Avenue Line/Broadway-60th Street Line
Lexington Av-59th Street station	Provide ADA elevator between southbound local Lexington Avenue Line platform, southbound express Lexington Avenue Line platform, and the 60th Street (BMT) line mezzanine	Lexington Avenue Line/Broadway-60th Street Line

47th/50th Streets Rockefeller Ctr station	Provide two new platform stairs and widen seven platform stairs	6th Avenue Line
Fifth Av/53rd Street station	Provide a new stair from mezzanine level to upper platform, and a new stair from upper platform to lower platform	53rd Street Line
Fifth Av/53rd Street station	Provide ADA elevator from mezzanine to upper platform, and to lower platform	53rd Street Line
Fifth Av/53rd Street station	Provide two escalators from mezzanine to upper platform	53rd Street Line
Fifth Av/53rd Street station	Provide new mezzanine area under East 53rd Street with fare control to accommodate street entrance and new access core	53rd Street Line
Fifth Av/53rd Street station	Provide new access core between platforms and street level to accommodate escalators, elevator, and stairs	53rd Street Line

Grand Central/42nd Street station	Provide new Flushing platform stair and expand transfer passageway to accommodate the addition of the stair	Flushing Line
TYPE 3 IMPROVEMENTS		
Location	Type of Improvement	Transit Line
Grand Central/42nd Street station	Renovate to contemporary standards the south end of the Grand Central Lexington Subway mezzanine from the Shuttle Passageway and 125 Park Avenue entrances to join the renovated areas on the north end of the mezzanine	Flushing Line/Lexington Avenue Line

81-683 - Criteria for improvements in the Public Realm Improvement Concept Plan

LAST AMENDED
8/9/2017

The #Public Realm Improvement Fund Governing Group# shall select priority improvements for the Public Realm Improvement Concept Plan (the "Concept Plan") in accordance with the provisions of this Section.

All improvements in the Concept Plan, which may be funded through contributions to the #Public Realm Improvement Fund#, shall:

(a) be within the East Midtown Subdistrict, a location immediately adjacent thereto, or in a subway or rail mass transit facility in the Borough of Manhattan which has significant ridership into and out of the Subdistrict;

(b) have a City or State agency as a project sponsor;

(c) meet the definition of a capital project under Section 210 of the New York City Charter; and

(d) consist of either:

(1) above-grade public realm improvements, including, but not limited to, pedestrian plazas that provide opportunities for passive recreation, or improvements along a street accommodating both vehicular and pedestrian access that may include pedestrian amenities, or streetscape, sidewalk, crosswalk and median enhancements; or

(2) below-grade public realm improvements, including, but not limited to widening, straightening, expanding or otherwise enhancing the existing below-grade pedestrian circulation network, additional vertical circulation, reconfiguring circulation routes to provide more direct pedestrian connections to subway or rail mass transit facilities, improved or new disabled access, or providing daylight access, or enhancements to noise abatement, air quality, lighting, finishes or rider orientation in new or existing passageways, within the East Midtown Subdistrict, a location immediately adjacent thereto, or in a subway or rail mass transit facility identified on the Priority Improvement List in Section 81-682 (Priority Improvement List for qualifying sites).

The Governing Group shall first consider the funding of the public realm improvements set forth in the table in this Section prior to consideration and selection of other above- or below-grade public realm improvements.

PUBLIC REALM IMPROVEMENTS

PEDESTRIAN PLAZAS
Pershing Square East
East side of Park Avenue between East 40th Street and East 41st Street
West side of Park Avenue between East 40th Street and East 41st Street
SHARED STREETS
East 41st Street between 5th Avenue and Lexington Avenue
Vanderbilt Avenue between East 43rd Street and East 47th Street
East 43rd Street between Lexington Avenue and 3rd Avenue
East 44th Street between Lexington Avenue and 3rd Avenue
MEDIAN WIDENINGS

Expansion of Park Avenue medians between East 46th Street and East 57th Street
THOROUGHFARE IMPROVEMENTS
Five blocks of East 53rd Street between 2nd Avenue and 5th Avenue

81-684 - Authorization for qualifying sites

LAST AMENDED
8/9/2017

(a) Authorization to allow enlargements on qualifying sites

In conjunction with any application that would allow additional #floor area# permitted beyond the basic maximum #floor area# for a #qualifying site# set forth in Section 81-64 (Special Floor Area Provisions for Qualifying Sites), the City Planning Commission may authorize modifications to the requirement in the definition of #qualifying site# in Section 81-613 to allow #enlargements# on #qualifying sites# to an existing #building# with frontage along a #wide street#. The Commission may also waive the requirement that such #qualifying site# provide publicly accessible space in accordance with the provisions of paragraph (b) of Section 81-681 (Mandatory requirements for qualifying sites). In order to permit such modifications, the Commission shall find that such #enlargement# includes significant renovations to the existing #building# that will bring it up to contemporary space standards.

Where the existing #building# includes #non-complying# #floor area#, a contribution shall be

deposited by the applicant into the #Public Realm Improvement Fund#. Such contribution shall be an amount equal to 20 percent of the #Public Realm Improvement Fund Development Rights Valuation# multiplied by the amount of such pre-existing #non-complying# #floor area#. For the purposes of such calculation, the amount of existing #non-complying# #floor area# shall not include any bonus #floor area# associated with a #publicly accessible open area# to remain on the #zoning lot#. The payment of the non-refundable contribution to the #Public Realm Improvement Fund#, shall be a precondition to the issuance of any foundation permit or new building permit by the Department of Buildings allowing the #enlargement# on a #qualifying site#.

For such #enlargements# to #buildings# with #non-complying# #floor area#, the proposed #floor area# beyond the amount contained in the pre-existing #non-complying# #building# shall be obtained by utilizing the applicable provisions of Section 81-64. For the purposes of applying the provisions of such Section, the reconstructed #floor area ratio# shall be considered the basic maximum #floor area ratio#. However, the maximum #floor area ratios# of Row E and Row H shall continue to apply.

However, an alteration of an existing #building# resulting in both the removal of more than 75 percent of the #floor area# and more than 25 percent of the perimeter walls of such existing #building#, and the replacement of any amount of #floor area#, shall be considered a #development#.

Applications for authorizations shall be referred to the affected Community Board for a period of at least 30 days for comment. The Commission shall grant, in whole or in part, or deny the application within 60 days of the completion of the Community Board review period.

The Commission may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area.

(b) Authorization for a #qualifying site# providing publicly accessible space

In conjunction with any application that would allow additional #floor area# permitted beyond the basic maximum #floor area# on a #qualifying site# set forth in Section 81-64 and providing publicly accessible space, open or enclosed, pursuant to paragraph (b) of Section 81-681, the Commission may authorize the waiver of the #street wall# regulations of Sections 81-43 (Street Wall Continuity Along Designated Retail Streets) and 81-671 (Special street wall requirements), requirements of Sections 81-42 (Retail Continuity Along Designated Streets) and 81-674 (Ground floor use provisions), the curb cut location restriction of paragraph (b) of Section 81-675 (Curb cut restrictions and loading berth requirements), and the design requirements for publicly accessible space, open or enclosed, set forth in paragraph (b)(2) of Section 81-681.

In order to grant such authorization, the Commission shall find that such proposed waivers will result in a superior urban design relationship with surrounding #streets#, #buildings#, and other open areas, and;

(1) for waiver of #street wall# regulations:

(i) such waiver is necessary due to constraints or conditions of the configuration of the site; and

(ii) such waiver will not unduly obstruct the access to light and air of surrounding #buildings# and open spaces;

(2) for waivers of retail continuity and ground floor #use# provisions, such waivers are minimized by a site plan that requires pedestrian-oriented #uses# along the boundaries of any publicly accessible space, open or enclosed;

(3) for waiver of the curb cut location restriction of paragraph (b) of Section 81-675, for a #qualifying site# on 47th Street between Park Avenue and Vanderbilt Avenue, that the proposed curb cut location will not unduly interrupt the flow of pedestrian traffic or result in any undue conflict between pedestrian and vehicular movement; and

(4) for modifications of the design requirements for a publicly accessible space, open or enclosed:

(i) the publicly accessible space and proposed #building# on the #qualifying site# are designed in a manner that results in a cohesive and harmonious site plan,

(ii) the publicly accessible space is superior in design and quality of amenities;

(iii) the publicly accessible space provides connections to pedestrian circulation spaces in the immediate vicinity;

(iv) the pedestrian network of the surrounding area is enhanced by the publicly accessible space; and

(v) such waiver is the minimum waiver necessary to afford relief. No modifications to the required amount of publicly accessible space set forth in paragraph (b) of Section 81-681 shall be permitted.

All applications pursuant to this Section shall be referred to the affected Community Board, the local Council Member, and the Manhattan Borough President. No authorization shall be granted prior to 60 days after such referral.

The Commission may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area.

81-685 - Special permit to modify qualifying site provisions

LAST AMENDED
8/9/2017

In conjunction with any application that would allow additional #floor area# permitted beyond the basic maximum #floor area# for a #qualifying site# set forth in Section 81-64 (Special Floor Area Provisions for Qualifying Sites), the City Planning Commission may permit modifications to certain #qualifying site# criteria, as well as height and setback regulations and mandatory plan elements, as set forth in paragraph (a) of this Section, provided that the Commission determines that the application requirements set forth in paragraph (b) and the findings set forth in paragraph (c) of this Section are met.

(a) The Commission may modify the following, whether singly or in any combination:

(1) the following #qualifying site# criteria:

(i) the requirement for minimum #wide street# frontage, including the requirement that no existing #buildings# will remain on such #wide street#

frontage, set forth in paragraphs (b) and (c) of the definition of a #qualifying site# in Section 81-613 (Definitions);

(ii) the #building# performance and publicly accessible space requirements in paragraph (f) of the definition of a #qualifying site# and Section 81-681 (Mandatory requirements for qualifying sites);

(iii) the requirement that the additional #floor area# permitted through the provisions of Section 81-64 be achieved exclusively through a #development#;

(iv) the requirement that a #qualifying site# be comprised of a single #zoning lot#, provided that the two or more #zoning lots# constituting such #qualifying site# are contiguous and include the #zoning lot# occupied by Grand Central Terminal. All #bulk# regulations of this Chapter shall apply to such modified #qualifying site# without regard to #zoning lot lines#; or

(v) the requirement that a #development# or #enlargement# exceed the basic maximum #floor area ratio# set forth in Row A of the table in Section 81-64 as a pre-condition to an increase in #floor area# pursuant to such table, where a #qualifying site# includes the #zoning lot# occupied by Grand Central Terminal;

(2) the provisions for #zoning lots# divided by district boundaries set forth in Sections 77-02 (Zoning Lots Not Existing Prior to Effective Date or Amendment of Resolution), 77-21 (General Provisions) or 77-22 (Floor Area Ratio), and the provisions of Section 81-612 (Applicability along district boundaries) requiring that #zoning lots# divided by Subarea boundaries utilize the provisions of Article VII, Chapter 7;

(3) for #qualifying sites# modified pursuant to paragraph (a)(1)(iv) and paragraph (a)(1)(v) of this Section:

(i) the pre-condition of achieving the maximum as-of-right #floor area ratio# for #qualifying sites# set forth in Row E of the table in Section 81-64 prior to, or in conjunction with, the special permits set forth in Sections 81-644 (Special permit for transit improvements) and 81-645 (Special permit for a public concourse), provided that, prior to obtaining a new building permit for a #development# utilizing bonus #floor area# granted pursuant to Sections 81-644 or 81-645, a contribution is made to the #Public Realm Improvement Fund# in an amount that is commensurate with what the provisions of Section 81-642 (Transfer of development rights from landmarks to qualifying sites) would require if the #zoning lot# occupied by Grand Central Terminal were a #granting lot# and the #development# site were a #receiving lot#; and

(ii) the permitted #floor area ratio# attributable to the combination of the special permits set forth in Row F and Row G of the table in Section 81-64, from 3.0 to 6.0;

(4) the #street wall# regulations of Sections 81-43 (Street Wall Continuity Along Designated Streets) or 81-671 (Special street wall requirements), inclusive;

(5) the height and setback regulations of Sections 81-26 (Height and Setback Regulations – Daylight Compensation), inclusive, 81-27 (Alternate Height and Setback Regulations –Daylight Evaluation), inclusive, or 81-66 (Special Height and Setback Requirements);

(6) the mandatory district plan elements of Sections 81-42 (Retail Continuity Along Designated Streets), 81-44 (Curb Cut Restrictions), 81-45 (Pedestrian Circulation Space), 81-46 (Off-street Relocation or Renovation of a Subway Stair), 81-47 (Major Building Entrances), 81-48 (Off-street Improvement of Access to Rail Mass Transit Facility), 81-674 (Ground floor use provisions), 81-675 (Curb cut restrictions and loading berth requirements), 81-676 (Pedestrian circulation space requirements) or 37-50 (REQUIREMENTS FOR PEDESTRIAN CIRCULATION SPACE), inclusive, except that no modifications to the required amount of pedestrian circulation space set forth in Section 37-51 shall be permitted; or

(7) for #qualifying sites# modified pursuant to paragraph (a)(1)(iv) or paragraph (a)(1)(v) of this Section, the time period for substantial construction to be completed prior to the lapse of any special permit granted for such #qualifying site#, as set forth in Section 11-42 (Lapse of Authorization or Special Permit Granted by the City Planning Commission Pursuant to the 1961 Zoning Resolution), provided that such time period does not exceed 10 years.

(b) Application requirements

Applications for a special permit for modifications pursuant to this Section shall contain materials, of sufficient scope and detail, to enable the Commission to determine the extent of the proposed modifications. In addition, where modifications to #street wall# or height and setback regulations are proposed, any application shall contain the following materials, at a minimum:

(1) drawings, including but not limited to, plan views and axonometric views, that illustrate how the proposed #building# will not comply with the #street wall# regulations of Section 81-43, or as such provisions are modified pursuant to Section 81-671, as applicable, and that illustrate how the proposed #building# will not comply with the height and setback regulations of Sections 81-26 or 81-27, or as such provisions are modified pursuant to Section 81-66, as applicable;

(2) where applicable, formulas showing the degree to which such proposed #building# will not comply with the length and height rules of Section 81-26, or as such provisions are modified pursuant to Section 81-66;

(3) where applicable, #daylight evaluation charts# and the resulting daylight evaluation score showing the degree to which such proposed #building# will not comply with the provisions of Section 81-27 or as such provisions are modified pursuant to Section 81-66; and

(4) for any #development# or #enlargement# on a #qualifying site# that includes Grand Central Terminal, a report from the Landmarks Preservation Commission concerning the harmonious relationship of the #development# or, where permitted, #enlargement# to Grand Central Terminal.

(c) Findings

The Commission shall find that such proposed modifications:

(1) to the definition of #qualifying site# are the minimum extent necessary, and are harmonious with the Subdistrict objective to protect and strengthen the economic vitality and competitiveness of East Midtown by facilitating the development of exceptional modern and sustainable office towers;

(2) to the requirement for #wide street# frontage in the definition of #qualifying sites# will not unduly concentrate #bulk# towards the middle of the #block# to the detriment of the surrounding area;

(3) to the #building# performance requirements in the definition of #qualifying sites# and paragraph (a) of Section 81-681:

(i) are necessary due to the presence of existing #buildings# on the site; and

(ii) will not detract from the incorporation of innovative sustainable design measures;

(4) to the publicly accessible space requirements in the definition of #qualifying sites# and paragraph (b) of Section 81-681:

(i) are the minimum necessary to accommodate the proposed #building#; and

(ii) that any reduction or waiver will result in a better site plan and will not detract from a lively streetscape and pedestrian experience;

(5) to regulations pertaining to #zoning lots# divided by district boundaries will result in better site planning;

(6) to #floor area ratio# requirements will facilitate significant improvements to transit infrastructure and the public realm in and around Grand Central Terminal;

(7) to the mandatory district plan elements:

(i) will result in a better site plan for the proposed #development# or #enlargement# that is harmonious with the mandatory district plan element strategy of the #Special Midtown District#, as set forth in Section 81-41 (General Provisions);

(ii) any adverse impact on retail continuity is minimized by a site plan that requires pedestrian-oriented #uses# along the boundaries of any open or enclosed public areas within the #zoning lot#;

(8) to the #street wall# or height and setback regulations:

(i) are necessary due to constraints or conditions of the #development# or #enlargement# and conditions imposed by the configuration of the site;

(ii) will not unduly obstruct the access of light and air to surrounding properties;

(iii) will result in an improved distribution of #bulk# on the #zoning lot# that is harmonious with the height and setback goals of the #Special Midtown District# set forth in Section 81-251 (Purpose of height and setback regulations); and

(iv) the overall design of the #building# demonstrates an integrated and well-considered facade, taking into account factors such as #street wall# articulation, and fenestration, that creates a prominent and distinctive #building# which complements the character of the surrounding area and constitutes a distinctive addition to the Midtown Manhattan skyline; and

(9) to the time period for substantial construction to be completed prior to the lapse of any special permit granted for such #qualifying site# are necessary due to the complexity of demolition and construction on the site.

The Commission may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area.

81-686 - Contribution in-kind for certain public realm improvements

LAST AMENDED
8/9/2017

The Chairperson of the City Planning Commission shall allow, by certification, in conjunction with a certification pursuant to Sections 81-642 (Transfer of development rights from landmarks to qualifying sites) or, where applicable, 81-643 (Special provisions for retaining non-complying floor area in commercial buildings), the applicant for a #development# or, where permitted, #enlargement# on a #qualifying site# that is immediately adjacent to a sidewalk improvement identified in the Public Realm Improvement Concept Plan to undertake such improvement, and to deduct the cost of such improvement from their contribution to the #Public Realm Improvement Fund#, provided that the

provisions of this Section are met.

(a) The following requirements shall be completed prior to application for certification by the Chairperson:

(1) the applicant shall submit preliminary plans for the proposed improvement to the Chairperson, the Department of Transportation (DOT), and the #Public Realm Improvement Fund Governing Group# (the "Governing Group");

(2) DOT shall provide a letter to the Chairperson and the Governing Group containing a conceptual approval of the proposed improvement including a statement of any considerations regarding the construction and operation of the improvement;

(3) construction documents and cost estimates shall be prepared for such proposed improvements by a professional engineer, and submitted to the Chairperson, the DOT and the Governing Group;

(4) upon review, the DOT and the Governing Group shall either approve such construction documents and costs estimates or detail discrepancies to be resolved by the applicant; and

(5) upon approval of the construction documents and cost estimates by the DOT and Governing Group, and prior to the issuance of a building permit as set forth in Section 81-642 and in this Section, the applicant shall execute agreements and legally enforceable instruments running with the land, setting forth the obligations of the owner and developer, their successors and assigns, to design and construct the improvement in accordance with the requirements of the DOT. A certified copy of such legal instruments shall be sent to the Chairperson.

(b) Upon submittal of all the items in paragraph (a) of this Section, along with drawings indicating the portion of the #building# utilizing transferred #floor area# pursuant to the provisions of Section 81-642 or, where applicable, 81-643, the Chairperson shall certify that a #development# or, where permitted, #enlargement# on a #qualifying site# may undertake an improvement to an adjoining sidewalk.

The execution and recording of legal instruments in accordance with paragraph (a) of this Section shall be a precondition to the issuance of any foundation permit or new building permit or alteration permit by the Department of Buildings allowing a #development# or, where permitted, #enlargement# on a #qualifying site# undertaking a contribution-in-kind pursuant to this Section.

(c) Upon certification by the Chairperson, monies equal to such agreed upon cost estimate between the applicant, DOT and the Governing Group shall be deposited by the applicant into an escrow account or other similar account established by the Governing Group, which shall not be commingled with the #Public Realm Improvement Fund# ("the Improvement Fund").

(d) No temporary certificate of occupancy shall be granted by the Department of Buildings for the portion of the #building# utilizing transferred #floor area# pursuant to Section 81-642 until the Chairperson of the City Planning Commission, acting in consultation with the DOT and the Governing Group, has certified that the improvements are substantially complete and usable by the public. No permanent certificate of occupancy shall be granted by the Department of Buildings until the improvements have finally been completed in accordance with the approved plans and such final completion has been approved by the Chairperson, the DOT and the Governing Group.

(e) Upon completion of the sidewalk improvement, the monies secured in the escrow account or other similar account established by the Governing Group shall be released to the applicant.

(f) In the event that an applicant utilizing the provisions of this Section has not completed the sidewalk improvements within five years of obtaining a new building permit or alteration permit from the Department of Buildings, the Governing Group shall release the monies in the escrow account or other similar account to the Improvement Fund.

81-70 - SPECIAL REGULATIONS FOR THEATER SUBDISTRICT

LAST AMENDED
5/13/1982

81-71 - General Provisions

LAST AMENDED
8/14/2025

The regulations of Sections 81-72 to 81-75, inclusive, relating to Special Regulations for the Theater Subdistrict, are applicable only in the Theater Subdistrict, of which the Theater Subdistrict Core and the Eighth Avenue Corridor are parts, except that any listed theater designated in Section 81-742, or portion thereof, located outside of the Theater Subdistrict shall be deemed to be a "granting site" pursuant to Section 81-744 (Transfer of development rights from listed theaters).

The west side of Eighth Avenue between 42nd and 45th Streets is also subject to the provisions of the Special Clinton District to the extent set forth in Article IX, Chapter 6, subject to Section 81-023 (Applicability of Special Clinton District regulations).

These boundaries are shown on Map 1 (Special Midtown District and Subdistricts) in Appendix A of this Chapter. The regulations of Sections 81-72 to 81-75, inclusive, supplement or modify the regulations of this Chapter applying generally to the #Special Midtown District# of which the Subdistrict is a part.

In order to preserve and protect the character of the Theater Subdistrict as a cultural, theatrical and entertainment showcase as well as to help ensure a secure basis for the useful cluster of shops, restaurants and related amusement activities, special incentives and controls are provided for the preservation and rehabilitation of existing theaters and special restrictions are placed on ground floor #uses# within the Subdistrict. In order to preserve and protect the special scale and character of the Theater Subdistrict Core, which includes Times Square, special #building# #street wall# height and setback controls and requirements for the inclusion of #illuminated signs# and entertainment and entertainment-related #uses# apply within the Subdistrict Core. In order to ensure the orderly growth and development of the Eighth Avenue Corridor and its transition to the scale and character of adjoining midblocks, special #building# #street wall#, height and setback controls apply within the Corridor. In order to preserve and maintain the character of the western edge of the Theater Subdistrict as both an integral part of the Theater Subdistrict and as a transition to the Clinton neighborhood, the west side of Eighth Avenue between 42nd and 45th Streets is also subject to the provisions of the Special Clinton District.

A Theater Subdistrict Council shall be created comprised of the Mayor, three (3) representatives appointed by the Mayor from the performing arts, theatrical and related industries, the Director of the Department of City Planning, the Speaker of the City Council and his or her designee, and the Manhattan Borough President. The members shall choose a Chair from among themselves. The Theater Subdistrict Council shall be a not-for-profit corporation whose organizational purpose shall be limited solely to promoting theater and theater-related use and preservation within the Theater Subdistrict and promoting the welfare of the Theater Subdistrict generally. The goals of the Theater Subdistrict Council shall include enhancing the long-term viability of Broadway by facilitating the production of plays and small musicals within the Theater Subdistrict, developing new audiences for all types of theatrical productions, and monitoring preservation and use covenants in Broadway's

"listed theaters."

The Theater Subdistrict Council shall adopt a plan every three years for the sale, distribution and marketing of reduced price tickets to new and undeveloped audience groups. Such plan shall include locations outside of the Theater Subdistrict where such reduced price tickets will be available. The plan shall also include a way to evaluate yearly its effectiveness by:

(a) the number of tickets sold; and

(b) the penetration of the new identified markets which shall be reported to the Chairperson of the City Planning Commission and filed with the Council of the City of New York.

The Theater Subdistrict Council shall advise the Chairperson of the City Planning Commission concerning applications for any special permit, authorization or certification pursuant to the special regulations for the Theater Subdistrict and shall be the holder and administrator of the funds received in connection with transfers of development rights from "listed theaters" pursuant to Section 81-744 in accordance with the provisions for the Theater Subdistrict Fund set forth in paragraph (h) of Section 81-741 (General provisions).

81-72 - Use Regulations Modified

LAST AMENDED
8/14/2025

The #use# regulations of this Section, inclusive, shall apply within that portion of the Theater Subdistrict bounded by West 40th Street, a line through the midblock between 40th Street and 41st Street, a line 100 feet east of Eighth Avenue, West 51st Street and a line 200 feet west of Avenue of the Americas, to #buildings# #developed# after May 13, 1982, to portions of #buildings# #enlarged# on the ground floor level after May 13, 1982, and to #extensions#.

81-721 - Special ground floor street frontage restrictions

LAST AMENDED
6/6/2024

Each establishment along a designated #street# frontage shall be located within 10 feet of the #lot line# on which it is required to front for the full length of the frontage of that establishment, except that, where a #street wall# recess at #curb level# permitted under Section 81-43 (Street Wall Continuity Along Designated Streets) extends a greater distance from the #lot line#, the length of frontage of any establishment adjoining that recess may be located at an equal, but not greater, distance from the #lot line#.

81-722 - Requirements for entertainment-related uses

LAST AMENDED
6/6/2024

With the exception of a #development# or #enlargement# in which more than 50 percent of the new #floor area# is allocated to #transient hotel# #use#, or all of the #floor area# of the #development# or #enlargement# is allocated to #public parking garage# #use#, a #development# or #enlargement# on a #zoning lot# with more than 50 percent of its #zoning lot# area located within the Theater Subdistrict Core shall meet the following requirements:

(a) If the new #floor area# of the #development# or #enlargement# generated by that portion of the #zoning lot# located within the Theater Subdistrict Core exceeds 60,000 square feet, then an amount of floor space on the #zoning lot# equal to five percent of the amount by which such new #floor area# exceeds 50,000 square feet shall be allocated to #uses# listed in Section

81-723 (Entertainment-related uses).

Except as provided in paragraphs (b), (f) and (g) of this Section, the amount of floor space specified shall be located on the same #zoning lot# as the #development# or #enlargement# for which that floor space is provided to meet the requirements of this Section.

(b) A maximum of 75 percent of the amount of floor space specified in paragraph (a) of this Section may be located on a separate #zoning lot#, with the remainder located on the same #zoning lot# as the #development# or #enlargement#, by authorization of the City Planning Commission provided, upon examination of proposed plans, the Commission finds that:

(1) one of the following conditions exists:

(i) more than 50 percent of the area of the separate #zoning lot# is located within the Theater Subdistrict Core;

(ii) the separate #zoning lot# is located within the Theater Subdistrict and the floor space located on such separate #zoning lot# is allocated in its entirety to studios (music, dancing or theatrical), a theater designed and arranged for live performances of drama, music or dance, and #uses# accessory thereto, or a combination thereof, as listed in Section 81-723, and that the separate #zoning lot# is located within the Theater Subdistrict; or

(iii) the separate #zoning lot# is located within an area bounded by West 42nd Street, Sixth Avenue, West 57th Street, a line 175 feet west of Ninth Avenue, West 52nd Street and a line 150 feet west of Eighth Avenue, and the floor space located on such separate #zoning lot# is allocated in its entirety to studios (music, dancing or theatrical), a theater designed and arranged for live performances of drama, music or dance, or a combination thereof, and any support spaces related thereto, not including administrative office space, where such floor space occupies no less than 25,000 square feet;

(2) the floor space located on the separate #zoning lot# is in addition to any floor space provided to meet the requirements of this Section for any other #development# or #enlargement#;

(3) the floor space located on the separate #zoning lot# is constructed or renovated specifically for the purpose of meeting the requirements of this Section and has not been utilized for any of the #uses# listed in Section 81-723 at any time during the two-year period immediately prior to the date on which this authorization, as described in paragraph (b) of this Section, is granted; and

(4) the #use# located on the separate #zoning lot# achieves a reasonable distribution of entertainment-related #uses# and locations of such #uses#.

(c) Except as provided in this paragraph (c), floor space allocated to entertainment-related #uses# listed in Section 81-723, accommodating any number of occupants, shall be classified under Sections 27-254 to 27-258 (Title 27, Chapter 1, Subchapter 3, Article 8 - Occupancy Group F-Assembly) of the 1968 Building Code or Section BC 303 of the 2008 Building Code, as applicable, and shall meet all relevant requirements of Sections 27-522 to 27-549 (Title 27, Chapter 1, Subchapter 8-Places of Assembly) of the 1968 Building Code or Section BC 1024 of the 2008 Building Code, as applicable.

Alternatively, where floor space in an existing #building# is allocated to #uses# listed in Section 81-723 in order to meet the requirements of this Section, the Commission may, by authorization, modify or waive the Code requirements of this paragraph (c) if, upon examination of proposed plans, it finds that:

(1) the existing #building# does not otherwise require structural alteration to accommodate the entertainment-related #uses#; and

(2) two plaques will be provided prior to the issuance of any certificate of occupancy for the floor space so allocated to be affixed, as follows:

(i) the first in a prominently visible location either to the exterior wall of the #building# at ground level adjacent to the main entry or in the main lobby stating that floor space in the #building# is provided to meet the requirements of this Section; and

(ii) the second either on or immediately adjacent to the corridor or lobby side of the main door to the space itself stating that such floor space is located within that part of the #building#.

Each plaque shall indicate in letters, not less than one inch high, the amount of entertainment-related floor space in square feet, the floor or floors on which it is located, the category of #use# under Section 81-723 to which it is dedicated, and the name and street address of the #development# or #enlargement# for which it partially fulfills the requirements of this Section.

(d) The certificate of occupancy for the #development# or #enlargement# shall record and specifically describe all floor space allocated to meet the requirements of this Section and shall require the permanent reservation of this space for such purposes as a condition of the certificate of occupancy.

If a portion of the amount of the specified floor space is located on a separate #zoning lot#, no certificate of occupancy for the #development# or #enlargement# shall be issued until a certificate of occupancy has been issued for that floor space provided on the separate #zoning lot# and all other floor space allocated to fulfill the requirements of this Section.

The certificate of occupancy for the #development# or #enlargement# shall identify the amount and location of such specified floor space provided on the separate #zoning lot#. The certificate of occupancy of the separate #zoning lot# shall identify the #development# or #enlargement# for which the specified floor space is provided and the amount and location of that floor space on the separate #zoning lot#. Both certificates of occupancy shall require the

permanent reservation of the floor space provided on the separate #zoning lot# for #uses# which meet the requirements of this Section.

An amount of floor space allocated in an existing #building# to meet the requirements of this Section may be reallocated to another location, except that no floor space allocated in an existing #building# located within the Theater Subdistrict may be reallocated to another location outside the Theater Subdistrict. Such reallocation shall be made provided that the Commission finds, by authorization, that all of the requirements of this Section are still met and that the Commission has received sufficient assurances that the certificates of occupancy of the #development# or #enlargement# and the #building# to which the floor space has been reallocated, will be amended within a period of time after the date of such authorization specified therein to accord with the provisions of this Section.

(e) A written declaration shall be recorded against the #zoning lot# of the #development# or #enlargement# and against the separate #zoning lot#, which contains an agreement that the floor space provided on the separate #zoning lot# shall be used solely for entertainment-related #uses# for the life of the #development# or #enlargement#.

If floor space allocated to entertainment-related #uses# on the separate #zoning lot# is reallocated in accordance with the provisions of paragraph (d) of this Section, the agreement contained in the written declaration shall be amended so that the #zoning lot# on which the newly allocated floor space is located complies with paragraph (d).

(f) If a certificate of occupancy for floor space to be located on a separate #zoning lot#, pursuant to the provisions of paragraph (b) of this Section, is not reasonably anticipated to be issued prior to the date upon which the #development# or #enlargement# would otherwise be eligible for issuance of a certificate of occupancy, the Commission may also authorize the waiver of any or all of the provisions of paragraphs (b)(3), (d) and (e) of this Section, provided that:

(1) the owner or lessee of the #development# or #enlargement#, or an affiliate thereof, will make or cause to be made a financial contribution, through payment or repayment of the costs thereof, which will facilitate on such separate #zoning lot#, the #development# of a #building# that will consist predominantly of either entertainment-related #uses# and #uses# accessory thereto or #community facility# #uses# where at least 25,000 square feet of such floor space allocated to meet the requirements of this Section shall be allocated in its entirety to studios (music, dancing or theatrical), a theater designed and arranged for live performances of drama, music or dance, or a combination thereof, and any support spaces related thereto not including administrative office space;

(2) the Department of City Planning has received a fully executed copy of a written declaration against such separate #zoning lot#, requiring that the floor space allocated to meet the requirements of this Section and located on the separate #zoning lot# shall be used solely for entertainmentrelated #uses# and #uses# #accessory# thereto for the life of the #development# or #enlargement#. Prior to the release of the financial contribution, pursuant to paragraph (f)(3) of this Section, such declaration shall be filed and duly recorded in the borough office of the City Register of the City of New York, indexed against the property in the form of a legal instrument providing notice of the authorization pursuant to this Section;

(3) such financial contribution will be deposited in a trust and agency account, to be released upon a determination made in writing by the Chairperson of the City Planning Commission, made in consultation with the Commissioner of Buildings, that all work on foundations has been completed for such #building#; and

(4) the prospective operator of the entertainmentrelated #uses# in the #building# on such separate #zoning lot#:

(i) has made substantial financial and constructionrelated commitments towards the development of the #building#, including, at a minimum, commitments

for site acquisition, such as a purchase agreement, deed or ground lease, and architectural agreements for the design of the floor space; and

(ii) has secured, or has implemented a fundraising plan to secure, the funding necessary for the development of the #building#, other than the financial contribution by the owner or lessee of the #development# or #enlargement#.

Where the Commission makes the findings set forth in paragraphs (f)(1) through (f)(4) of this Section, inclusive, a certificate of occupancy may be issued for the #development# or #enlargement# requiring the provision of such floor space, notwithstanding that no certificate of occupancy has been issued with respect to the floor space located on the separate #zoning lot#.

(g) In the event that all work on foundations of the #building# on the separate #zoning lot# has not been completed within three years of the grant of an authorization provided under the provisions of paragraph (f) of this Section, the owner or lessee of the #development# or #enlargement# shall, in accordance with the terms of the written declaration recorded against the #development# or #enlargement# at the time of the grant of such authorization, apply to the Commission for:

(1) an extension of the authorization for up to one additional year for good cause shown; or

(2) a new authorization, under paragraph (b) of this Section, for alternative floor space consisting of entertainment-related #uses# to be located on a separate #zoning lot# as necessary to meet the requirements of this Section.

In granting such authorization for alternative floor space, the Commission may waive the provisions of paragraph (b)(3) of this Section, provided the floor space was not utilized for any of the #uses# listed in Section 81-723 at any time during the two-year period immediately prior to the date on which the authorization was originally granted under paragraph (b) of

this Section.

(h) Floor space allocated in an existing #building# on a separate #zoning lot#, pursuant to an authorization granted under paragraph (f) of this Section, may be reallocated to another location, provided that the Commission finds, by authorization, that all applicable requirements of this Section are met, except that no floor space allocated in an existing #building# located within the Theater Subdistrict may be reallocated to another location outside the Theater Subdistrict.

(i) All #uses# satisfying the requirements of this Section shall be subject to the locational requirements of Section 81-72 (Use Regulations Modified).

81-723 - Entertainment-related uses

LAST AMENDED
6/6/2024

In the Theater Subdistrict, references to entertainment-related #uses# shall include the following #uses#, as applicable:

From Use Group III

Museums

From Use Group VI

Eating or drinking establishments

From Use Group VIII

Art galleries

Art, music, dancing or theatrical studios

Auditoriums

Historical exhibits

Production or entertainment studios

Theaters.

81-73 - Special Sign and Frontage Regulations

LAST AMENDED
5/13/1982

81-731 - Special regulations for signs, transparency, banners and canopies

LAST AMENDED
6/6/2024

Within that area of the Theater Subdistrict whose boundaries are described in Section 81-72 (Use Regulations Modified), the following provisions apply along #wide street# frontages:

(a) The provisions of Section 81-42 (Retail Continuity Along Designated Streets) shall apply, except that any underlying transparency requirement shall be modified such that any clear, unobstructed openings in the surface of a #street wall# provided for a through #block# connection provided in accordance with the requirements of paragraph (h) of Section 37-53 (Design Standards for Pedestrian Circulation Spaces) shall be treated as transparent glazed

surfaces.

(b) Canopies (as defined in the Building Code) and awnings shall not be permitted on the exterior of any #building#.

For the purposes of this Section, any #signs# which do not comply with the regulations of this Section may be continued for one year after May 13, 1982, provided that after the expiration of that period such #non-conforming# #sign# shall terminate; a #sign# which the Chairperson of the City Planning Commission certifies as an integral part of the #building# shall not be required to terminate.

81-732 - Special Times Square signage requirements

LAST AMENDED
2/2/2011

The provisions of this Section shall apply to all #developments# and #enlargements# on #zoning lots# between 43rd and 50th Streets with #street# frontage on Seventh Avenue and/or Broadway in the Theater Subdistrict.

No building permit shall be issued by the Department of Buildings for any portion or all of a #development# or #enlargement# on a #zoning lot# between 43rd and 50th Streets with #street# frontage on Seventh Avenue and/or Broadway without prior submission of drawings showing that the #sign# requirements related to #surface area#, location and number of #signs# set forth in paragraphs (a), (b) and (c) of this Section have been met and that electrical power is provided in amounts and locations sufficient to illuminate all such required #signs# to the illumination levels specified herein. Such drawings shall include, at a scale of 1/16 inch equals one foot, a plan, elevations of #narrow streets# and Seventh Avenue and/or Broadway and cross-sections showing setbacks on Seventh Avenue, Broadway and #narrow streets#. These drawings shall show, for all the #signs# required under this Section, their number and for each, its #surface area# and location and shall list

each requirement and the actual dimensions or areas achieved in the design.

Temporary certificates of occupancy for #floor area# of the #development# or #enlargement# comprising in aggregate more than 50 percent of the total #floor area# of the #development# or #enlargement# shall not be issued by the Department of Buildings until 50 percent of the aggregate #surface area# of #signs# required under paragraph (a)(3) of this Section has been installed and put in operation in accordance with all of the requirements and standards as set forth in paragraphs (a)(3) and (a)(7) of this Section.

Temporary certificates of occupancy for #floor area# of the #development# or #enlargement# comprising in aggregate more than 90 percent of the total #floor area# of the #development# or #enlargement# shall not be issued by the Department of Buildings until 90 percent of the aggregate #surface area# of #signs# required under paragraphs (a)(3) of this Section has been installed and put in operation in accordance with all of the requirements and standards as set forth in paragraphs (a)(3) and (a)(7) of this Section.

Neither temporary certificates of occupancy for #floor area# of the #development# or #enlargement# comprising in aggregate 100 percent of the total #floor area# of the #development# or #enlargement# nor a first permanent certificate of occupancy for the #development# or #enlargement# shall be issued by the Department of Buildings until all of the #signs# required under this Section have been installed and put in operation in accordance with all of the requirements and standards as set forth in paragraphs (a)(3) and (a)(7) of this Section.

Notwithstanding the foregoing requirements relating to the granting of certificates of occupancy, the City Planning Commission may, prior to January 1, 2003, certify to the Commissioner of Buildings that compelling circumstances warrant the waiver of any or all such provisions. In granting any such waiver, the Commission shall establish a completion schedule, not to exceed one year from the date of such certification, for the installation and operation of all requisite #signs# in accordance with all of the requirements and standards as set forth in paragraphs (a)(3) and (a)(7) of this Section. The Commission, as it deems appropriate, shall also require security for performance under the schedule and may prescribe other conditions to address the delay in installation and operation of requisite

#signs#.

(a) All #developments# located on #zoning lots# between 43rd and 50th Streets with #street# frontage on Seventh Avenue and/or Broadway shall provide #signs# meeting all of the following requirements:

(1) At least one #illuminated sign# shall be provided for each ground floor establishment with a #street# frontage on Seventh Avenue, Broadway or a #narrow street# for the full length of the #zoning lot# frontage or the first 100 feet from Seventh Avenue or Broadway, whichever is less. With the exception of theater #signs#, each required #illuminated sign# shall be located directly behind the clear, untinted, transparent material with which the #street wall# is required to be glazed under Section 81-731 (Special regulations for signs, transparency, banners and canopies). There shall be no obstructions between the #sign# and the glazing material.

(2) In addition, #illuminated signs# shall be provided with a minimum aggregate #surface area# of 12 square feet for each linear foot of #street# frontage of the #zoning lot# on Seventh Avenue, Broadway and intersecting #narrow streets# up to the first 40 linear feet of #street# frontage from either Seventh Avenue or Broadway.

No portion of any #illuminated sign# required under this paragraph, (a)(2), shall be located:

(i) further than 40 feet from the Broadway or Seventh Avenue #street line#;

(ii) below a height of 10 feet above #curb level# or above the top of the #street wall# of the #building# before setback as defined in Section 81-75 (Special Street Wall and Setback Requirements).

There shall be a minimum of one #sign# with a #surface area# of not less than 100 square feet for each 25 linear feet, or part thereof, of #zoning lot# #street# frontage on

Seventh Avenue or Broadway.

(3) In addition, #illuminated signs# shall be provided with a minimum aggregate #surface area# of 50 square feet for each linear foot of #street# frontage of the #zoning lot# on Seventh Avenue, Broadway and intersecting #narrow streets# up to the first 40 linear feet of #street# frontage from either Broadway or Seventh Avenue, except that for any one #zoning lot#, the required minimum aggregate #surface area# shall not exceed 12,000 square feet.

No portion of any #illuminated sign# required under this paragraph (a)(3) shall be located:

(i) further than 40 feet from the Seventh Avenue or Broadway #street line# except that, for a #zoning lot# with #street# frontage on Seventh Avenue, Broadway and at least one #narrow street#, the areas of required #signs# specified in paragraph (a)(3)(ii) of this Section may be located without distance limit from the Seventh Avenue or Broadway #street line#;

(ii) below a height of 10 feet or above a height of 120 feet above #curb level#, except that for a #zoning lot# with #street# frontage on Seventh Avenue, Broadway and 47th Street, a minimum of 25 percent of the minimum aggregate #surface area# required under this Section or 7,500 square feet, whichever is greater, shall comprise #signs# no portion of which shall exceed 250 feet in height above #curb level#, and each of which shall face the intersection of the center lines of 45th Street and Broadway and shall have its #surface area# measured by projecting its edges onto a plane perpendicular to a line drawn between the center of the #sign# and the above intersection at ground level and measuring the resultant #surface area# on that plane; and, for other #zoning lots# with #street# frontage on Seventh Avenue, Broadway and a #narrow street# a maximum of 25 percent of the minimum aggregate

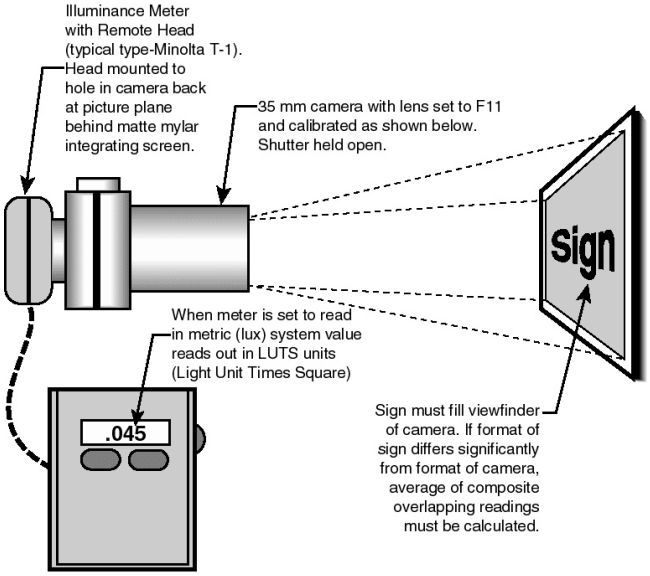
#surface area# required under this Section may comprise #signs# located without height limit provided that each such #sign# faces the intersection of the center lines of 45th Street and Broadway and its #surface area# is measured by projecting its edges onto a plane perpendicular to a line drawn between the center of the #sign# and the above intersection at ground level and measuring the resultant #surface area# on that plane.

Where a #zoning lot# is located at the intersection of Seventh Avenue or Broadway and one or more #narrow streets#, at least 60 percent of the minimum aggregate #surface area# of signage required under this paragraph, (a)(3), shall be located within 50 feet of the #narrow streets#. Where a #zoning lot# is located at two such intersections, at least 15 percent of the minimum aggregate #surface area# required under this subsection shall be within 50 feet of each #narrow street#. Where a #zoning lot# is located at three or more such intersections, at least seven percent of the minimum aggregate #surface area# required under this Section shall be within 50 feet of a #narrow street# at each intersection of that #narrow street# and Seventh Avenue or Broadway.

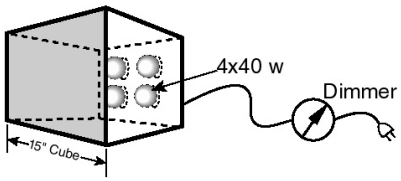
There shall be a minimum of one #illuminated sign# with a #surface area# of not less than 1,000 square feet for each 50 linear feet, or part thereof, of #street# frontage on Seventh Avenue or Broadway, except that for any one #zoning lot# no more than five #signs# shall be required.

With the exception of #signs# defined in paragraph (a)(3)(ii) of this Section as facing the intersection of the centerlines of 45th Street and Broadway, at least 75 percent of the #surface area# of #signs# required under this paragraph, (a)(3), shall be placed at an angle in plan view of not more than 45 degrees to the Seventh Avenue or Broadway #street line#.

#Signs# required under this paragraph, (a)(3), shall, when installed on the #building# and set in operation, meet at a minimum the requirements set out in paragraphs (a)(3)(iii), (iv) and (v) of this Section. The illumination standards contained therein for each #sign# shall be measured with an apparatus (to be known as a Light Unit Times Square or "LUTS" meter) comprising an illuminance meter attached to a 35 millimeter single lens reflex camera body and fitted with a lens of appropriate focal length in accordance with the diagrams herein (see Illustrations of Sign Brightness Measurement System - LUTS Meter). The lens shall be set at F-stop 11.



The LUTS meter must be calibrated prior to use. Although the lens is nominally set to F11, the actual light transmission value may differ especially with long focal length zoom lenses



To calibrate, build a lightbox as shown above. The front of the box shall be 1/4" #2447 opal plexiglass; the other five interior sides shall be painted matte white.

Four standard 40 watt 120 volt incandescent lamps shall be mounted on the back of the box and wired through a dimmer.

In a dark room adjust the dimmer so that the plexiglass is illuminated to a brightness (exitance) of 125 Footlamberts as measured with an accurate luminance meter (e.g. Minolta LS100, Photo Research 1500).

Using the measuring lens of the LUTS meter set to the appropriate focal length, fill the viewfinder with the lightbox, and adjust the aperture until the meter reads 1.5 LUTS. If different lenses or degrees of zoom are to be used, calibrate the meter for each condition and record the appropiate aperture settings.

SIGN BRIGHTNESS MEASUREMENT SYSTEM

(LUTS Meter)

(81-732a3ii)

The LUTS Meter shall be calibrated against a reference standard (See illustrations of Sign Brightness Measurement System - LUTS Meter). Alternative measuring equipment may be employed provided such equipment provides identical measurement against the reference standard described herein.

In measuring the brightness of the whole of a #sign# under the provisions of paragraphs (a)(3)(iii) and (iv) of this Section, the illumination level of the #sign# shall be determined by pointing the LUTS Meter at the #sign# so that the entire #sign# completely fills the viewing frame of the meter. If, because of the shape of the #sign#, the entire #sign# cannot be viewed within the viewing frame, readings may be taken of discrete portions of the #sign# separately, provided, however, that no more of the #sign# than is absolutely necessary to measure the entire #sign#, may be included in more than one such reading. Readings of portions of a #sign# shall be averaged to obtain the average illumination level of the entire #sign#.

In measuring the brightness of a portion of a #sign# required to meet the incident illumination standards specified in paragraphs (a)(3)(iii) and (iv) of this Section, the illumination level of that portion of the #sign# shall be determined by pointing the LUTS Meter at that portion so that the entire portion completely fills the viewing frame of the meter. If, because of the shape or configuration of that portion of the #sign#, the entire portion

cannot be viewed within the viewing frame, readings may be taken of discrete sections of that portion separately, provided, however, that no more of the portion than is absolutely necessary to measure the entire portion, may be included in more than one such reading. Readings of sections of that portion of the #sign# shall be averaged to obtain the average illumination level of the entire portion.

If the illumination of a required #sign# or portion thereof is measured prior to its installation on the #building#, all measurements shall be taken in an interior environment with an ambient air temperature of between 65 and 75 degrees Fahrenheit and no ambient light. For all readings, the LUTS meter shall be located so that its relationship to the #sign# or portion thereof is identical to that described below for taking measurements when the same #sign# or portion thereof is installed on the #building#.

If the illumination of a required #sign# or portion thereof is measured after its installation on the #building#, all measurements shall be taken at night when the ambient air temperature, at a height above #street# level equal to that of the center of the #sign#, is between 65 and 75 degrees Fahrenheit. To measure the illumination level of a #sign# or portion thereof, an imaginary line shall be established which is perpendicular in plan view to the surface of the #sign# or portion thereof and connects its center to a point from which the #sign# or portion thereof is actually visible and which is five feet above #street# level and 60 or more feet away from the #sign#. The LUTS meter shall be located along this line at the furthest distance from the #sign# or portion thereof at which a reading may be obtained by the method specified above.

The duration of one complete operating cycle of any #sign# required under this paragraph (a)(3) which is animated, in whole or in part, shall not exceed

five minutes.

During any one complete operating cycle of any such #sign#, the aggregate time for which such #sign# is unlit shall not exceed 10 percent of the operating cycle and in no case shall exceed 15 seconds. In addition, no single continuous time period during which such a #sign# is unlit shall exceed three seconds. During any one complete operating cycle of any such #sign#, the brightness levels specified below in paragraphs (a)(3)(iii) and (iv) shall be attained for an aggregate time of not less than 20 percent of the operating cycle and in no case shall be less than l0 seconds. In addition, the #surface area# of any #sign# required to be continuously animated, either in whole or in part and either electrically or mechanically, shall exhibit visual changes clearly discernable by an observer at #street# level at intervals not exceeding 30 seconds.

(iii) A minimum of 25 percent of the required minimum aggregate #surface area# of #signs# required under this paragraph, (a)(3), shall comprise #signs# each of which shall attain for a minimum of 25 percent of its #surface area# at least 1.5 LUTS incident illumination measured as specified in this paragraph, (a)(c), by means of electric lamps, such as neon tubes, incandescent lamps or cathode ray tubes, which are exposed directly to view. All of the remainder of each such #sign# shall attain at least 0.2 LUTS incident illumination measured as specified by means of electric lamps exposed directly to view and/or luminous surfaces comprising translucent material lit from behind by electric lamps.

In addition, each of the #signs# required to meet the standards of this paragraph (a)(3)(iii) shall have either: a minimum of 20 percent of its #surface area# continuously electrically animated either by means of flashing borders,

writing, pictorial representations, emblems or other figures of similar character or by means of #flashing sign# #surface area# serving as a field or background thereto; or, a minimum of 50 percent of its #surface area# continuously mechanically animated.

(iv) In addition, a minimum of 25 percent of the required minimum aggregate #surface area# of #signs# required under this paragraph (a)(3) shall comprise #signs# each of which shall attain for all of its #surface area# at least 0.4 LUTS incident illumination measured as specified by means of luminous surfaces comprising translucent material lit from behind by electric lamps. Alternatively, but also in addition to paragraph (a)(3)(iii) of this Section, a minimum of 25 percent of the required minimum aggregate #surface area# of #signs# required under this paragraph (a)(3) shall achieve the same incident illumination levels for the same amounts of #surface area# as specified in paragraph (a)(3)(iii).

In addition, each of the #signs# required to meet the standards of this paragraph (a)(3)(iv) shall have either: a minimum of 20 percent of its #surface area# continuously electrically animated either by means of flashing borders, writing, pictorial representations, emblems or other figures of similar character or by means of #flashing sign# #surface area# serving as a field or background thereto; or, a minimum of 50 percent of its #surface area# continuously mechanically animated.

(v) The provisions of paragraphs (a)(3)(iii) and (iv) of this Section may be modified or waived upon certification by the Chairperson of the City Planning Commission that the dynamic character and attractiveness of the #sign# or #signs# for which the modification or waiver is granted are assured by the proposed design and operation and that the signage on the #zoning lot# will produce an effect at least equal to that achieved through the

application of paragraphs (a)(3)(iii) and (iv).

Except for an individual #sign# meeting the illumination requirements of paragraphs (a)(3)(iii) and (iv) for at least 50 percent of its #surface area#, for all of the #signs# required under this paragraph (a)(3), all #surface area# not complying with paragraphs (a)(3)(iii) and (iv) shall be lighted with an average level of illuminance across the entirety of that #surface area# of 75 foot candles and with an average to minimum illuminance ratio of not greater than 3.0 to 1.0.

(vi) For #zoning lots# that contain 15,000 square feet or more of #lot area#, the provisions of paragraphs (a)(2) and (a)(3)(ii) of this Section may be modified or waived, upon certification by the Chairperson that:

(a) the #sign# or #signs# for which the modification or waiver is granted are affixed to a #building# that contains a "listed theater" as designated in Section 81-742 (Listed theaters), and a portion of such theater is located within 100 feet of the #street line# of Seventh Avenue or Broadway; and

(b) such #sign# or #signs# provide visual interest that furthers the purposes of the #illuminated sign# requirements set forth in Section 81-73 (Special Sign and Frontage Regulations), inclusive, in a manner that is at least equal to that achieved through the application of paragraphs (a)(2) and (a)(3)(ii).

(4) One marquee #illuminated sign# and one additional projecting identification #illuminated sign# are required for each theater on a #zoning lot#. A group of motion picture theaters under single ownership and operation shall be treated as one theater

for the purposes of this requirement.

Each required marquee shall have a minimum area in plan of 500 square feet and each projecting identification #sign# shall have a minimum #surface area# of 200 square feet. Marquees and identification #signs# may count towards meeting the minimum aggregate #surface area# requirements of paragraph (a)(2) or (a)(3) of this Section, provided that they comply with the locational requirements therein.

(5) #Signs# which do not meet the locational requirements of paragraph (a)(2) or (a)(3) are permitted, but shall not count towards meeting minimum aggregate #surface area# requirements.

(6) Required minimum aggregate #surface areas# of #signs# for #zoning lots# with #street# frontage on both Seventh Avenue and Broadway shall be calculated by including both those #street# frontages and any #narrow street# frontages up to the first 40 linear feet of #street# frontage from either Seventh Avenue or Broadway.

(7) All required #illuminated signs# shall at a minimum remain lit from dusk until 1:00 a.m. daily.

All of the #surface area# of #signs# required under paragraphs (a)(2) and (a)(3) shall be visible from a height of five feet above #street# level at any point 60 feet from the Seventh Avenue or Broadway #street line# of the #zoning lot# on which they are required to be provided.

At least 50 percent of the minimum aggregate #surface area# of #signs# required under paragraph (a)(3) shall comprise #signs# each of which shall be legible during daylight hours from a minimum distance of 60 feet when viewed from ground level at a point perpendicular in plan to the center of the #sign#.

(b) For #enlargements# which add #floor area# amounting to a #floor area ratio# of at least 1.0, the #sign# requirements of this Section shall apply as follows:

(1) If the #enlargement# involves an increase in #floor area#, minimum aggregate #surface areas# of required #signs# shall be determined in the same manner as for #developments# on the basis of the length of the #zoning lot's# frontage as set forth in paragraphs (a)(2), (a)(3) and (a)(6) of this Section.

(2) All other requirements for #signs# required for #enlargements# shall be as provided for #developments# in paragraphs (a)(1), (a)(2), (a)(3), (a)(4), (a)(5) and (a)(7) of this Section.

(3) The provisions of paragraphs (a)(1) or (a)(2) may be modified or waived upon certification by the Chairperson of the City Planning Commission that such modification or waiver results from compelling necessity.

(c) #Zoning lots# between 43rd and 50th Streets with #street# frontage on Seventh Avenue and/or Broadway comprising #developments# or #enlargements# and existing #buildings# to remain shall meet the requirements of paragraph (a) of this Section for #developments# or paragraph (b) for #enlargements# on the basis of the configuration and #street# frontages of the entire #zoning lot#.

There shall be no reduction in the aggregate #surface area# of #signs# on any existing #buildings# to remain. A #non-conforming# #sign# may be structurally altered, reconstructed or replaced in the same location and position, provided that such structural alteration, reconstruction or replacement does not result in the creation of a new #non-conformity# or an increase in the degree of #non-conformity# of such #sign#.

81-733 - Special signage regulations for portions of the west side of Eighth Avenue

LAST AMENDED
10/31/2017

For a #corner lot#, or portions thereof, bounded by two #wide streets# on the west side of Eighth Avenue within the Eighth Avenue Corridor of the Theater Subdistrict, the #sign# provisions for C6-7 Districts pursuant to Section 32-60 (SIGN REGULATIONS) shall apply only to such #corner lot# portion, with the following modifications:

(a) no #sign# shall function with sound; and

(b) #illuminated signs# may face both #wide streets#, or be parallel to the #street line# of one #wide street#.

81-734 - Special permit to modify sign and frontage regulations on small zoning lots

LAST AMENDED
11/25/2025

In the Theater Subdistrict, for #zoning lots# that contain 10,000 square feet or less of #lot area#, the City Planning Commission may allow, by special permit, modification to the #sign# provisions of this Chapter, inclusive, provided that the Commission finds that the modified #sign# is consistent with general goals for the Theater Subdistrict set forth in Sections 81-00 (General Purposes) and 81-71 (General Provisions).

The Commission may prescribe appropriate conditions and safeguards to minimize adverse effects of such #sign# on the character of the surrounding area.

81-74 - Special Incentives and Controls in the Theater Subdistrict

LAST AMENDED

5/13/1982

81-741 - General provisions

LAST AMENDED

8/14/2025

(a) Certifications

(1) The transfer of development rights from any "granting site" in accordance with the provisions of Section 81-744 (Transfer of development rights from listed theaters) shall be permitted upon certification by the City Planning Commission.

(2) In the Theater Subdistrict, modifications of the provisions of Article VII, Chapter 7 (Special Provisions for Zoning Lots Divided by District Boundaries), in accordance with the provisions of Section 81-746 (Additional provisions for zoning lots divided by district or subdistrict core boundaries), shall be permitted upon certification of the Chairperson of the Commission.

(b) Authorizations by the City Planning Commission

The transfer of development rights from any "granting site" in accordance with the provisions of paragraph (b) of Section 81-744 shall be permitted by authorization by the Commission.

(c) Special permit by the City Planning Commission

In the Theater Subdistrict, the Commission may allow, by special permit:

(1) demolition of a theater where permissible under the provisions of Section 81-742 (Listed theaters);

(2) a #floor area# bonus for rehabilitation of an existing theater in accordance with the provisions of Section 81-745 (Floor area bonus for rehabilitation of existing listed theaters); and

(3) transfer of development rights from a #zoning lot# occupied by a designated landmark in accordance with the provisions of Section 81-747 (Transfer of development rights from landmarks).

(d) Required assurances

All special permits, authorizations or certifications involving preservation of existing theaters shall be subject to the provisions of Section 81-743 (Required assurances for continuance of legitimate theater use).

(e) Limits on total additional #floor area#

Except as otherwise provided in Section 81-212 (Special provisions for transfer of development rights from landmark sites), the total additional #floor area# permitted on the #zoning lot# by such special permit, authorization or certification, together with all bonus #floor area# or #floor area# derived from transferred development rights under other provisions of this Chapter, shall in no event exceed the maximum amount permitted by certification, authorization or special permit as set forth in Section 81-211 (Maximum floor area ratio for non-residential or mixed buildings).

(f) Limitations on non-theater-related bonuses in C6-4 or C6-5 Districts

For #zoning lots# or portions thereof in C6-4 or C6-5 Districts, the total amount of #floor area# derived from non-theater-related bonuses or other special #floor area# allowances, pursuant to provisions of this Chapter other than those in Sections 81-744, 81-745, 81-746 or 81-747, shall not exceed a #floor area ratio# of 2.0.

(g) Theater-related bonus #floor area# for #residences# in C6-4 and C6-5 Districts

For #zoning lots# or portions thereof in C6-4 or C6-5 Districts, some or all of the bonus #floor area# or other special #floor area# allowances permitted pursuant to the provisions of Sections 81-744, 81-745, 81-746 or 81-747, relating to the preservation or rehabilitation of existing theaters, may be allocated to a #residential building# or the #residential# portion of a #mixed building#, provided that the total #residential# #floor area ratio# with such #floor area# allowances shall not exceed 12.0.

(h) Theater Subdistrict Fund

In furtherance of the purposes of this Section, the Theater Subdistrict Council shall establish a separate interest-bearing account (the "Theater Subdistrict Fund" or "Fund") for the deposit and administration of the revenues received by the Theater Subdistrict Council generated by the transfer of development rights pursuant to Section 81-744. Upon receipt of any revenue generated pursuant to such Section, the Theater Subdistrict Council shall notify the Comptroller, the Speaker and the Department of City Planning, and promptly deposit such revenues into the Theater Subdistrict Fund and shall expend such revenues and any interest accumulated thereon in the following manner:

(1) a portion of any such revenues shall be reserved, sufficient in the judgment of the Theater Subdistrict Council but in no event less than 20 percent of such revenues, to undertake the ongoing periodic inspection and maintenance report requirements pursuant to paragraph (c) of Section 81-743. The Theater Subdistrict Council may petition the City Planning Commission for a reduction in the percentage of such

reserve and the Commission may grant such reduction if, in its judgement, a lesser percentage will be sufficient to carry out the purposes of this paragraph; and

(2) the remainder of such revenue shall be used for activities chosen by the Theater Subdistrict Council furthering the objectives and purposes of this Section, which activities may include judicial or administrative proceedings instituted by the Theater Subdistrict Council against any property owner or lessee to enforce the obligations of such owner or lessee pursuant to any restrictive declaration entered into in connection with a transfer of development rights pursuant to Section 81-744. Notwithstanding the foregoing, funds shall not be used for the physical repair and preservation of theaters.

The Theater Subdistrict Council shall provide an annual report to the Department of City Planning, the Comptroller, the Speaker and the City Planning Commission indicating the amounts and dates of any deposits to the Theater Subdistrict Fund in the immediately preceding calendar year, the balance of the Theater Subdistrict Fund at the close of the calendar year, the amounts expended on activities within the Theater Subdistrict and the nature of those activities. The Theater Subdistrict Council shall maintain complete, accurate and detailed records, with supporting documentation, in respect to all deposits to and withdrawals from the Theater Subdistrict Fund, and shall make such records available to the City of New York, the Department of City Planning, the Comptroller, the Speaker and the City Planning Commission upon reasonable notice and during business hours for inspection and copying.

81-742 - Listed theaters

LAST AMENDED
6/6/2024

(a) Designation of listed theaters

"Listed theaters" are theaters to which special provisions of this and other Sections as set forth in 81-741 (General provisions) apply, and are predominantly free-standing theaters with full stage and wings. The theaters as identified on August 6, 1998, in the table in this Section, are designated as "listed theaters."

LISTED THEATERS

Theater Name	Address	Block Number	Lot Number
Ambassador	215 West 49th St.	1021	15
Barrymore	243 West 47th St.	1019	12
Belasco	111 West 44th St.	997	23

* Indicates theaters which do not qualify as a “granting site" pursuant to Section 81-744

In the case of an existing legitimate theater that received a #floor area# bonus pursuant to regulations in effect prior to May 13, 1982, no provisions of this amendment shall be construed as changing any previously existing responsibility of the owner or lessee of such theater for continuance of its #use# as a legitimate theater.

(b) Restrictions on demolition of listed theaters

No demolition permit shall be issued by the Department of Buildings for any theater listed in this Section as a “listed theater," unless:

(1) it is an unsafe #building# and demolition is required pursuant to the provisions of Title 28, Article 216 of the New York City Administrative Code;

(2) it has been designated a landmark by the Landmarks Preservation Commission and a notice to proceed has been issued to the owner pursuant to Section 25-309 of Title 25, Chapter 3, of the New York City Administrative Code permitting demolition that contemplates removal of the theater from theater #use#; or

(3) the City Planning Commission, by special permit, allows its demolition in accordance with the provisions of paragraph (c) of this Section.

(c) Special permit for demolition of listed theaters

The City Planning Commission may allow, by special permit, the demolition of a theater designated as a "listed theater" pursuant to this Section, provided the Commission finds that the demolition of the theater structure will not unduly diminish the character of the Theater Subdistrict as a cultural, entertainment and theatrical showcase. In making this determination, the Commission may consider any or all of the following:

(1) the current physical characteristics of the theater that affect its suitability as a legitimate theater, including but not limited to seating capacity, configuration and location;

(2) the history of the theater's #use# as a legitimate theater, presenting legitimate attractions to the general public;

(3) the likelihood of its future #use# for legitimate theater production under reasonable terms and conditions prevailing in the theater industry; and/or

(4) that the applicant's plans, if any, for replacement of the theater structure with a #development# or #enlargement# contain replacement #uses# supportive of the character of the Theater Subdistrict.

As a condition of the special permit, there shall exist a legal commitment binding upon all parties in interest of the #zoning lot# containing the theater that any #development# or #enlargement# on a #zoning lot# containing a portion or all of the former site of the "listed theater", that floor space at least equivalent in amount to the total #floor area# of the theater shall be reserved or devoted exclusively to #uses# described in Section 81-723 (Entertainment-

related uses) and meeting the requirements of paragraphs (b) and (c) of Section 81-722 (Requirements for entertainment-related uses) for the life of such #development# or #enlargement#. Notwithstanding the foregoing, if the area of the #zoning lot# containing the theater is less than 20,000 square feet and the Commission finds that the allocation of floor space at least equivalent in amount to the total #floor area# of the theater to #uses# described in Section 81-723 is impractical or unreasonable, the Commission may permit a reduction in the amount of area allocated to such #uses#.

Any #development# or #enlargement# on a #zoning lot# containing a portion or all of the former site of a "listed theater" must, however, meet the requirements of paragraphs (b) and (c) of Section 81-722 whether or not the #zoning lot# is located within the area described in that Section.

81-743 - Required assurances for continuance of legitimate theater use

LAST AMENDED
10/7/2021

Prior to the issuance of any special permit under the provisions of Sections 81-745 (Floor area bonus for rehabilitation of existing listed theaters) or 81-747 (Transfer of development rights from landmarks), or the issuance of a certification, authorization or special permit under the provisions of Sections 66-51 (Additional Floor Area for Mass Transit Station Improvements), 81-744 (Transfer of development rights from listed theaters), or 81-746 (Additional provisions for zoning lots divided by district or subdistrict core boundaries) the following conditions shall exist:

(a) a signed lease from a prospective theater operator, or a written commitment from the owner of the theater if such owner is also the operator, for occupancy of the theater and its operation as a legitimate theater for a period of not less than five years;

(b) a licensed engineer's and/or architect's report certifying either that the theater is physically and operationally sound so as to permit its use as a legitimate theater or, if it is determined that the theater is not physically or operationally sound, a plan and program for the upgrade of the theater to put it in condition of physical and operational soundness. For the purposes of this Section, physical and operational soundness shall include the structural integrity of the exterior and interior elements of the #building# to the extent that they relate to the theater, compliance with applicable electrical and fire safety codes, and compliance with applicable building code standards.

In the event that the theater has been designated as a landmark or an interior landmark by the Landmarks Preservation Commission, physical and operational soundness shall include preserving the integrity of existing significant architectural features identified in the Landmarks Preservation Commission designation report. In such case, a licensed engineer and/or architect with knowledge of historic preservation and credentials acceptable to the Landmarks Preservation Commission shall prepare a report documenting the condition of such significant architectural features and, if determined to be necessary, a plan and program to preserve such significant features in a state of good physical repair and sound proper condition. Any certification report regarding a landmark or interior landmark theater shall be submitted concurrently to the Landmarks Preservation Commission and the Chairperson of the City Planning Commission;

(c) A plan and program shall be accompanied by written commitment from such owner of the financial resources available to ensure timely completion of the identified scope of work;

(d) a legal commitment providing for inspection and ongoing maintenance of the theater to ensure its continued availability for theater use. Such inspection shall be conducted every five years by a licensed engineer and/or architect or by the Theater Subdistrict Council, and a report issued to the Chairperson of the City Planning Commission and notice of such report shall be published in the City Record. Such report shall also be issued to the Theater Subdistrict Council unless the Theater Subdistrict Council has performed such inspection, and, in the

event the theater has been designated a landmark or an interior landmark, such report shall also be issued to the Landmarks Preservation Commission and notice of such report shall be published in the City Record. Such reports shall describe the condition of the theater and identify any maintenance or repair work necessary to ensure the physical and operational soundness of the theater and to maintain the condition of any landmark architectural features and establish a plan and program for such work, including providing that adequate resources be made available to ensure timely completion of such maintenance or repair work; and

(e) a legal commitment for continuance of its #use# as a legitimate theater for the life of the related #development# or #enlargement#.

Such legal commitments shall be in the form of a declaration of restrictions, filed and duly recorded in the Borough Office of the Register of the City of New York, binding upon the owner, lessee of the theater and their successors and assigns, a certified copy of which shall be submitted to the City Planning Commission. The filing of such declaration and the posting of any bond or other security required by the declaration and receipt of such certified copy shall be preconditions to issuance of any building permit, including any foundation or alteration permit, for any #development# or #enlargement# on the receiving site.

81-744 - Transfer of development rights from listed theaters

LAST AMENDED
12/5/2024

For the purposes of the Theater Subdistrict:

A “listed theater” shall mean a theater designated as listed pursuant to Section 81-742 (Listed theaters).

A “granting site” shall mean either a #zoning lot# or that portion of a #zoning lot# occupied by a “listed theater” and comprised of those block and lot numbers specified for such theater pursuant to the table in Section 81-742, as such block and lots existed on January 12, 1998. However, a “granting site” shall not include any #zoning lot# occupied by a “listed theater” located within the geographical area covered by the 42nd Street Development Land Use Improvement Project, adopted by the New York State Urban Development Project in 1984, as such Project has and may be subsequently amended.

A “receiving site” shall mean a #zoning lot# or the portion of a #zoning lot# located within the Theater Subdistrict to which development rights of the “granting site” are transferred. However, no portion of a “receiving site” shall be located within the 42nd Street Development Project Area. In addition, for #zoning lots# containing “listed theaters,” that portion of the #zoning lot# occupied by the “listed theater” and comprised of the block and lot numbers specified for such theater, pursuant to the table in Section 81-742, shall not be included in the “receiving site.”

Any “receiving site” divided by a district boundary or Theater Subdistrict Core boundary may locate #bulk# in accordance with the provisions of Section 81-746 (Additional provisions for zoning lots divided by district or subdistrict core boundaries).

(a) Transfer of development rights by certification

The City Planning Commission shall allow, by certification, a transfer of development rights from a “granting site” to a “receiving site,” except that any “granting site,” or portion thereof,

located outside the Theater Subdistrict, may not transfer development rights to any portion of a "receiving site" within the Special Clinton District, provided that:

(1) the maximum amount of #floor area# transferred from a "granting site" is the basic maximum #floor area ratio# established pursuant to Sections 81-211 (Maximum floor area ratio for non-residential or mixed buildings) or 81-214 (Special provisions for transfer of development rights from listed theaters within the Special Clinton District), as applicable, for such "granting site" as if it were undeveloped, less the total #floor area# of all existing #buildings# or portions of #buildings# on the "granting site" and #floor area# attributed to the "granting site" that has been previously used or transferred;

(2) each transfer, once completed, irrevocably reduces the amount of #floor area# that may be #developed# or #enlarged# on the #zoning lot# containing the "granting site" by the amount of #floor area# transferred;

(3) the maximum amount of #floor area# transferred to a "receiving site" shall not exceed the basic maximum #floor area ratio# established pursuant to Section 81-211 for such "receiving site" by more than 20 percent;

(4) the provisions of Section 81-743 (Required assurances for continuance of legitimate theater use) are met; and

(5) appropriate legal documents are executed ensuring that a contribution in an amount equal to 10 dollars* per square foot of transferred #floor area# be deposited in the Theater Subdistrict Fund established pursuant to paragraph (h) of Section 81-741 (General provisions) at the earlier of either the time of closing on the transfer of development rights pursuant to this Section or the filing for any building permit for any #development# or #enlargement# that anticipates using such development rights.

The Commission shall review such amount no more than once every three years and

no less than once every five years and shall adjust the amount to reflect any change in assessed value of all properties on #zoning lots# wholly within the Theater Subdistrict.

(b) Transfer of development rights by authorization

The City Planning Commission shall allow, by authorization, an additional transfer of development rights beyond the amount of #floor area# transfer permitted by certification in paragraph (a) of this Section from a "granting site" to any portion of a “receiving site” located within the Eighth Avenue Corridor, except that any “granting site,” or portion thereof, located outside the Theater Subdistrict may not transfer development rights to any portion of a “receiving site” within the Special Clinton District, subject to the following conditions:

(1) the maximum amount of such additional #floor area# transfer to that portion of a "receiving site" located within such Corridor shall not exceed the maximum total #floor area ratio# with as-of-right #floor area# allowances in the Theater Subdistrict set forth in Section 81-211 by more than 20 percent; and

(2) such transfer complies with the conditions and limitations set forth for the transfer of development rights in paragraph (a) of this Section.

In order to grant such authorization, the Commission shall find that such #development# or #enlargement#:

(i) relates harmoniously to all structures and #open space# in its vicinity in terms of scale, location and access to light and air in the area; and

(ii) serves to enhance or reinforce the general purposes of the Theater Subdistrict.

Any application pursuant to paragraphs (a) and/or (b) of this Section shall be referred to the affected Community Board, the local Council Member and the Borough President of Manhattan. The Commission shall not grant any such certification or authorization prior to sixty days after such referral and sixty days after the date any reports required to be submitted

to the Landmarks Preservation Commission pursuant to Section 81-743, paragraph (b), or the Theater Subdistrict Council pursuant to Section 81-71 (General Provisions) have been so submitted.

(c) Requirements for Application

An application filed with the Chairperson of the City Planning Commission for the transfer of development rights by certification pursuant to paragraph (a) of this Section, or with the City Planning Commission for the transfer of development rights by authorization pursuant to paragraph (b) of this Section, shall be made jointly by the owners of the "granting site" and the “receiving site” and shall include:

(1) a site plan and #floor area# zoning calculations for the “granting site” and the “receiving site” and, for authorizations and/or special permit applications, any such other information as may be required by the Commission;

(2) a copy of the transfer instrument legally sufficient in both form and content to effect such a transfer, together with a notice of the restrictions limiting further #development# or #enlargement# of the “granting site” and the “receiving site.” The notice of restrictions shall be filed by the owners of the respective lots in the Borough Office of the Register of the City of New York, indexed against the “granting site” and the "receiving site," a certified copy of which shall be submitted to the Chairperson. Receipt of the certified copy shall be a pre-condition to issuance of any building permit, including any foundation or alteration permit, for any #development# or #enlargement# on the “receiving site.”

Both the instrument of transfer and the notice of restrictions shall specify the total amount of #floor area# transferred and shall specify, by lot and block numbers, the lots from which and the lots to which such transfer is made.

(3) demonstrations of compliance with the requirements of Section 81-743 and paragraph (a)(5) of this Section, including all necessary legal documents. Issuance of any building permit, including any foundation or alteration permit, shall be conditioned upon the filing of such legal documents in the Borough Office of the Register of the City of New York and receipt by the Commission of certified copies of same as required pursuant to Section 81-743.

A separate application shall be filed for each transfer of development rights to an independent "receiving site."

* The contribution of 10 dollars per square foot of transferred #floor area# was adjusted by rule on November 15, 2006, to $14.91 per square foot; on December 10, 2011, to $17.60 per square foot; and on July 15, 2022, to $24.65 per square foot

81-745 - Floor area bonus for rehabilitation of existing listed theaters

LAST AMENDED
8/14/2025

The City Planning Commission by special permit may authorize bonus #floor area# for substantial rehabilitation or restoration of any theater listed as a "listed theater" in Section 81-742 (Listed theaters), in accordance with the provisions of this Section.

(a) Conditions for rehabilitation bonus

As a condition for the issuance of a special permit under the provisions of this Section, the following requirements shall be satisfied:

(1) Location of #development#

The #development# or #enlargement# for which a theater rehabilitation bonus is granted is located on the same #zoning lot# as the "listed theater."

(2) Qualification of substantial rehabilitation

Substantial rehabilitation work qualifying for a #floor area# bonus shall consist of major structural changes for the purpose of improving a theater's design and its commercial viability for legitimate theater #use#, or historic restoration of the interior of a theater designated as an interior landmark.

Substantial rehabilitation may include, without limitations, such work as expanding stage wings, re-raking the orchestra, increasing rehearsal, dressing room or lobby and ancillary spaces, improving accessibility beyond applicable legal requirements, or historic restoration. It may also include reconversion to legitimate theater #use# of an original legitimate theater currently in other #use#. Substantial rehabilitation does not mean normal theater maintenance, painting or improvements to mechanical systems alone.

(3) Timing and commitment

(i) there shall be a contractual commitment or commitments for the construction work involved in the substantial rehabilitation;

(ii) the requirements of Section 81-743 (Required assurances for continuance of legitimate theater use) shall be satisfied; and

(iii) a rehabilitation bonus shall not be granted for a substantial rehabilitation completed before May 13, 1982.

(b) Amount of rehabilitation bonus

The amount of bonus #floor area# granted for a qualifying theater rehabilitation shall be at the discretion of the Commission after consideration of the following findings:

(1) how and to what extent the proposed rehabilitation will improve the theater's suitability for #use# as a legitimate theater;

(2) how the proposed rehabilitation will contribute toward satisfying the needs of the Theater Subdistrict;

(3) whether the bonus #floor area# will unduly increase the #bulk# of any #development# or #enlargement#, density of population or intensity of #use# on any #block# to the detriment of occupants of #buildings# on the #block# or the surrounding area; and

(4) whether the distribution and location of such #floor area# bonus will adversely affect the surrounding area by restricting light and air or otherwise impair the essential character or future development of the surrounding area.

Such bonus #floor area# shall not exceed 20 percent of the basic maximum #floor area# permitted on the #zoning lot# containing the #development# or #enlargement# by the regulations of the underlying district, except that in the case of an underlying C6-4 or C6-5 District, the bonus #floor area# shall not exceed 44 percent of the basic maximum #floor area# permitted in such underlying district, and except that in the case of a #zoning lot# located partially in a C6-5.5 District and partially in a C6-7T District, the Commission may allow bonus #floor area# to be utilized anywhere on the #zoning lot#.

For purposes of applying the provisions of Section 11-42 (Lapse of Authorization or Special Permit by the City Planning Commission Pursuant to the 1961 Zoning Resolution) to a special permit granted pursuant to this Section, “substantial construction” shall mean substantial rehabilitation, as described in paragraph (b) of this Section, of the subject theater for which a #floor area# bonus has been granted to a related #development# or #enlargement#.

The Commission may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding areas.

81-746 - Additional provisions for zoning lots divided by district or subdistrict core boundaries

LAST AMENDED
2/2/2011

(a) For any #zoning lot# which includes a "listed theater" as set forth in Section 81-742 (Listed theaters) or is, or contains, a "receiving site" pursuant to Section 81-744 (Transfer of development rights from listed theaters), and which is divided by a boundary between districts with different basic maximum #floor area ratios# as set forth in Section 81-211 (Maximum floor area ratio for non-residential or mixed buildings), the Chairperson of the City Planning Commission, by certification, shall allow modifications of the provisions of Sections 77-02 (Zoning Lots Not Existing Prior to Effective Date or Amendment of Resolution), 77-21 (General Provisions), 77-22 (Floor Area Ratio) and 77-25 (Density Requirements), as follows.

For any #zoning lot#, #floor area#, #dwelling units# or #rooming units# permitted by the applicable district regulations on either side of the district boundary may be located on the other side of the district boundary, provided:

(1) the amount of such #floor area# to be located on either side of the district boundary shall not exceed 20 percent of the basic maximum #floor area ratio# of the district in which it is to be located;

(2) the number of such #dwelling units# or #rooming units#, if any, to be located on either side of the district boundary shall not exceed the number permitted by the applicable

district regulations; and

(3) the provisions of Section 81-743 (Required assurances for continuance of legitimate theater use) are met for any "listed theater" on such #zoning lot#.

The Chairperson's certification approving modification of the provisions for such #zoning lots# divided by district boundaries shall state the total amount of #floor area#, including #floor area# of any existing theater, to be provided on the #zoning lot# as a whole and the portion thereof to be located in each district, and the amount authorized herein to be located across the district boundary from the district in which the theater is located.

Notice of the restrictions upon further development of each portion of the #zoning lot# shall be recorded by the owner against the #zoning lot# in the Office of the Register of the City of New York (County of New York) and a certified copy shall be submitted to the Commission.

(b) Notwithstanding any other provisions of this Resolution, for any #zoning lot# which is divided by a boundary of the Theater Subdistrict Core as defined in Section 81-71 (General Provisions) and for which the basic maximum #floor area ratio# as set forth in Section 81-211 is the same for both the portion within and the portion outside of the Theater Subdistrict Core, the applicable underlying #bulk# regulations shall be modified, as follows:

(1) #floor area#, including bonus #floor area#, or #dwelling units# permitted by the applicable district regulations on that portion of the #zoning lot# within the Theater Subdistrict Core may be located on the portion of the #zoning lot# outside the Core, provided that the number of such #rooms#, if any, to be located outside of the Core shall not exceed the number permitted by the applicable district regulations; and

(2) #floor area#, including bonus #floor area#, or #dwelling units# permitted by the applicable district regulations on that portion of the #zoning lot# outside of the Theater Subdistrict Core shall not be located on the portion of the #zoning lot# within the Core.

(c) Notwithstanding any other provisions of this Resolution, for any #zoning lot# located wholly within the Theater Subdistrict and outside of the Theater Subdistrict Core that is divided by a boundary of the Eighth Avenue Corridor as defined in Section 81-71 and for which the basic maximum #floor area ratio# as set forth in Section 81-211 is the same for both the portion within and the portion outside of the Eighth Avenue Corridor, #floor area#, including bonus #floor area#, or #dwelling units# permitted by the applicable district regulations may be located on either side of the Eighth Avenue Corridor boundary.

81-747 - Transfer of development rights from landmarks

LAST AMENDED
12/5/2024

The City Planning Commission by special permit may authorize development rights to be transferred from a #granting lot# to a #receiving lot# proposed for #developments# or #enlargements# within the #surrounding area# in accordance with the provisions of Section 81-213 (Special provisions for transfer of development rights from landmark sites in certain areas).

The limitations on development rights transferred to #receiving lots# from #granting lots#, including sites of landmark theaters, are set forth in Section 81-213.

Where development rights are proposed to be transferred and exercised in accordance with the provisions of Section 81-213, as modified by this Section, the Commission shall find that:

(a) within the #surrounding area#, the series of intervening lots in common ownership leading to the #receiving lot# includes lots, identified by the Commission, which are occupied by “listed

theaters" or by #uses# which directly support neighborhood theater business, such as, but not limited to, rehearsal space, recording facilities or theater costume rental facilities and that such #uses# will be continued or replaced by other legitimate theaters or theater supportive #uses# as evidenced by covenants binding the owners of such lots, their successors and assigns to provide for such continuation or replacement; or

(b) useful circulation improvements or other public facilities will be provided and maintained on one or more of the lots comprising the series of intervening lots to accommodate pedestrian or vehicular traffic generated by legitimate theaters.

The Commission shall require the owner of any intervening lot on which special #use# restrictions are applicable or on which circulation improvements or other public facilities are to be provided and maintained to sign a written declaration of restrictions setting forth the obligations of the owner, his successors and assigns and providing a performance bond for the completion of any required improvements. The declaration of restrictions shall be recorded in the Office of the Register of the City of New York (County of New York) and the Commission shall be provided with a certified copy.

The provision of Section 81-213 empowering the Commission to grant variations in the front height and setback regulations is modified by the provisions of Sections 81-266 or 81-277 (Special permit for height and setback modifications).

Compliance with the provisions of Section 81-743 (Required assurances for continuance of legitimate theater use) shall be a condition for issuance of a special permit under the provisions of this Section.

81-75 - Special Street Wall and Setback Requirements

LAST AMENDED
8/6/1998

#Buildings# located on #zoning lots#, or portions of #zoning lots# within the Theater Subdistrict Core or the Eighth Avenue Corridor, shall comply with the regulations of this Section. The height of all #buildings or other structures# shall be measured from #curb level#.

81-751 - Special street wall and setback regulations within the Theater Subdistrict Core

LAST AMENDED
6/6/2024

#Buildings# located on #zoning lots# between 43rd and 50th Streets with #street# frontage on Seventh Avenue and/or Broadway, or located partially within the Theater Subdistrict Core and partially within the Eighth Avenue Corridor shall comply with the requirements of this Section and, in all other respects related to height and setback, with the provisions of Sections 81-25 (General Provisions Relating to Height and Setback of Buildings), and either Section 81-26 (Height and Setback Regulations - Daylight Compensation) or 81-27 (Alternate Height and Setback Regulations - Daylight Evaluation). The #street wall# location rules of Section 81-43 shall also apply, except as modified in this Section.

With the exception of #signs# and parapets not exceeding four feet in height, no obstructions are permitted to penetrate the mandatory #street wall# height limits or setback requirements for #zoning lots# between 43rd and 50th Streets with #street# frontage on Seventh Avenue and/or Broadway set forth in this Section.

For the purposes of this Section, #signs# are permitted as exceptions to the special #street wall# and setback requirements contained herein, except that above the top of a #street wall# before setback required under this Section, no #sign# may be located closer than six feet to the Seventh Avenue or Broadway #street wall# before setback. #Signs# located below the top of a required #street wall#

before setback, as defined in this Section, may project across a #street line# up to 10 feet. Marquees are not subject to the requirements of this Section.

(a) With the exception of #buildings# located on #zoning lots# between Seventh Avenue and Broadway, #buildings# located on #zoning lots# between 43rd and 50th Streets with #street# frontage on Seventh Avenue or Broadway shall meet the following requirements:

(1) The #street walls# of any #building# shall have a minimum #street wall# height before setback of 50 feet above #curb level# and a maximum #street wall# height before setback of 60 feet above #curb level# on all #street# frontages, except that:

(i) if the #zoning lot# contains a complete #wide street# #block# frontage, #wide street# #street walls# within 25 feet of the #street line# of a #narrow street# and #narrow street# #street walls# shall have a minimum #street wall# height before setback of 30 feet above #curb level#; and/or

(ii) if the #zoning lot# contains a theater listed in the table in Section 81-742 (Listed theaters) and the theater is retained as part of a #development# or #enlargement#, the maximum #street wall# height above #curb level# before setback of a #narrow street# #street wall# which is a reconstruction or replacement of an existing #narrow street# #street wall# of the theater shall be equal to the height above #curb level# of that existing theater #street wall# and the same maximum #street wall# height above #curb level# shall apply only for the width of that existing theater #street wall#.

(2) Above the required #street wall# height before setback, the #street wall# of any #building# shall be set back at least 15 feet along all #narrow street# frontages of the #zoning lot#.

(3) For #zoning lots# greater than 15,000 square feet in area:

(i) Above the required #street wall# height before setback, the #street wall# of any #building# shall be set back at least 50 feet along the Seventh Avenue or Broadway #street# frontage of the #zoning lot#.

(ii) Alternatively, above the required #street wall# height before setback, the #street wall# shall be set back at least 60 feet along the Seventh Avenue or Broadway #street# frontage of the #zoning lot#, except that a portion of the #building# at least 50 feet from the #street line# of any #narrow street# and with aggregate area per floor not exceeding 10 square feet for each linear foot of #zoning lot# #street# frontage on Seventh Avenue or Broadway may extend forward of the 60 foot #setback line#, provided that no portion is closer than 35 feet to the Seventh Avenue or Broadway #street line#.

(iii) Alternatively, if the #building# contains a "listed theater" designated pursuant to Section 81-742 and if any portion of the theater is within 100 feet of the #street line# of Seventh Avenue or Broadway, above the required #street wall# height before setback the #street wall# shall be set back at least 60 feet along the Seventh Avenue or Broadway #street# frontage of the #zoning lot#, except that a portion of the #building# with aggregate area per floor not exceeding the lesser of 4,500 square feet or 30 square feet for each linear foot of #zoning lot# #street# frontage on Seventh Avenue or Broadway, may extend forward of the 60 foot #setback line#, provided that no portion is closer than 20 feet to the Seventh Avenue or Broadway #street line#, 15 feet to the #street line# of the #narrow street# on which the theater has frontage and 50 feet to any other #narrow street# #street line#.

In addition, one or more #signs# affixed to any such #building# may project up to 10 feet across the #street line# and rise to a height of 120 feet above #curb level#. Balconies and terraces, including railings or parapets, may be located within the required setback area behind such #signs#. For the

purposes of applying the definition of #floor area# in Section 12-10, #signs# projecting across the #street line# shall not constitute an enclosure, and the requirements of Section 32-41 (Enclosure Within Buildings) shall not apply to such balconies or terraces, provided that a portion of any such balcony or terrace is used for an entertainment-related #use# listed in Section 81-723 (Entertainment-related uses) or an accessory #use#.

(4) For #zoning lots# 15,000 square feet in area or less, above the required #street wall# height before setback, the #street wall# of any #building# shall be set back at least 35 feet along the Seventh Avenue or Broadway #street# frontage of the #zoning lot#.

(5) Above the required #street wall# height before setback, a portion of any such #building# up to a height of 120 feet above #curb level# may occupy area forward of the setbacks required in paragraphs (a)(3) or (a)(4) of this Section but not closer than 20 feet to the Seventh Avenue or Broadway #street line#, provided that:

(i) 90 percent of any #narrow street# #street wall#, higher than 60 feet above #curb level# and forward of the setbacks required in paragraphs (a)(3) or (a)(4) of this Section is covered with #illuminated signs#.

(ii) In addition, 90 percent or 6,000 square feet, whichever is less, of any Seventh Avenue or Broadway #street wall# higher than 60 feet above #curb level# and forward of the setbacks required in paragraphs (a)(3) or (a)(4) of this Section is covered with #illuminated signs#.

For the purposes of this Section, a portion of a #street wall# shall be deemed to be covered with an #illuminated sign# if such #sign# obscures that portion of the #street wall# from view at #street# level at a point perpendicular in plan to the #sign# and 60 feet from the #street line# of the #narrow street# for paragraph (a)(5)(i) of this Section, and of Seventh Avenue or Broadway for paragraph (a)(5)(ii)

Neither temporary certificates of occupancy for #floor area# of the #development# or #enlargement# comprising, in aggregate, more than 50 percent of the total #floor area# of the #development# or #enlargement#, nor a first permanent certificate of occupancy for the #development# or #enlargement#, shall be issued by the Department of Buildings until all of the requirements as set forth in this Section at the time of issuance of such certificates of occupancy have been met and all #illuminated signs# required under this Section have been installed and put in operation.

(b) The #street wall# of any #building# on a #zoning lot# between 43rd and 50th Streets and between Seventh Avenue and Broadway shall have a minimum #street wall# height of 50 feet on all #street# frontages.

(c) For #zoning lots# located partially within the Theater Subdistrict Core and partially within the Eighth Avenue Corridor, the #street wall# of any #building# or portion of a #building# within the Theater Subdistrict Core shall have a minimum #street wall# height of 50 feet or the height of the #building#, whichever is less, and a maximum #street wall# height of 60 feet within 15 feet of the #narrow street# #street line#.

81-752 - Special street wall and setback regulations within the Eighth Avenue Corridor

LAST AMENDED
12/5/2024

#Buildings# on #zoning lots# located in whole or in part within the Eighth Avenue Corridor, as defined in Section 81-71, and east of Eighth Avenue, shall comply with the requirements of this Section, and except as superseded by this Section, with the provisions of Section 81-25 (General Provisions Relating to Height and Setback of Buildings), and either Section 81-26 (Height and

Setback Regulations - Daylight Compensation) or 81-27 (Alternate Height and Setback Regulations - Daylight Evaluation).

#Buildings# on #zoning lots# located in whole or in part within the Eighth Avenue Corridor, as defined in Section 81-71, and west of Eighth Avenue shall comply with the requirements of this Section. The provisions of Sections 81-25, 81-26 and 81-27 shall not apply.

The provisions of paragraphs (a) and (b) of this Section shall apply to #developments#, #enlargements# and alterations, where such alterations change the height, width or location of a #street wall#. For purposes of applying #street wall# location provisions, all streets shall be considered as #wide streets#.

(a) #Street wall# location and minimum and maximum heights before setbacks

(1) On Eighth Avenue and 42nd Street, the #street wall# location provisions of paragraph (a) of Section 35-631 shall apply, except that recesses shall be permitted below a height of 15 feet. The #street walls# shall extend up to a minimum base height of 50 feet or the height of the #building#, whichever is less. The maximum height of #street walls# within 10 feet of the #wide street# #street line# shall be 150 feet beyond 15 feet of a #narrow street# #street line# and 85 feet within 15 feet of a #narrow street# #street line#.

(2) On a #narrow street# east of Eighth Avenue, and on a #narrow street# west of and within 100 feet of Eighth Avenue, the #street wall# location provisions of paragraph (a)(1) of this Section shall apply and maximum height of #street walls# within 15 feet of the #narrow street# #street line# shall be 85 feet.

On a #narrow street# west of and beyond 100 feet of Eighth Avenue, the maximum height of #street walls# within 15 feet of the #narrow street# #street line# shall be 66 feet. However, no #street wall# need be provided where at least 70 percent of the entire frontage of the #zoning lot# along such #narrow street# is occupied by #street

walls# located on the #street line#.

(3) Where a continuous sidewalk widening is provided along the entire #block# frontage of a #wide street#, the boundary of the sidewalk widening shall be considered to be the #street line# for the purposes of this Section.

(b) Special #street wall# regulations for #buildings# adjacent to listed theaters

For #buildings# that are adjacent to a theater listed pursuant to Section 81-742 (Listed theaters), the maximum height of the #street wall# of the #building# facing the same #street# as the "listed theater" shall be 60 feet within 15 feet of the #street line#.

(c) Additional regulations applying west of Eighth Avenue

West of Eighth Avenue, at any level above a height of 85 feet, any #building# or #buildings# or portions thereof shall be subject to the provisions of Sections 23-435 (Tower regulations) and 23-442 (Special provisions for certain community districts) applicable to an R10X District.

81-80 - SPECIAL REGULATIONS FOR FIFTH AVENUE SUBDISTRICT

LAST AMENDED
5/13/1982

81-81 - General Provisions

LAST AMENDED
10/17/2007

The regulations of Sections 81-82 to 81-85, inclusive, relating to Special Regulations for the Fifth Avenue Subdistrict are applicable only in the Fifth Avenue Subdistrict, whose boundaries are shown on Map 1 in Appendix A of this Chapter. They supplement or modify the regulations of this Chapter applying generally to the #Special Midtown District#, of which this Subdistrict is a part.

81-82 - Special Regulations on Permitted and Required Uses

LAST AMENDED
6/6/2024

In order to preserve, protect and enhance the character of the Fifth Avenue Subdistrict as the showcase of New York and national retail shopping, and to allow for #uses# that are consistent with the character of the Fifth Avenue Subdistrict as a major shopping and tourist destination, the following special limitations are imposed on the location and kinds of #uses# and #signs# permitted within the Fifth Avenue Subdistrict.

(a) Minimum retail space requirement

Any #zoning lot#, or portion thereof, located within the Fifth Avenue Subdistrict shall contain:

(1) #uses# listed under Use Group VI; and

(2) #uses# listed under Art Galleries and Studios in Use Group VIII;

with a #floor area ratio# of not less than 1.0.

In order to count toward the requirement, retail or service establishments shall be located on

levels up to but not exceeding a height of six #stories# or 85 feet, whichever is less, or not more than five feet below #curb level#.

(b) Lobby restriction

The provisions of Section 81-42 (Retail Continuity Along Designated Streets) shall apply, except that where a #building# has #ground floor level# frontage on Fifth Avenue, and frontage on another #street#, no lobby shall be permitted on the Fifth Avenue frontage.

(c) Sign regulations

The following special #sign# regulations apply to existing as well as new establishments or #uses#:

(1) The aggregate area of all #signs# in ground floor store windows are restricted to not more than one-third of the window area. Below a level of 10 feet above #curb level#, #signs# shall not be permitted on the exterior of any #building#.

(2) The display of banners or pennants from the exteriors of #buildings# is prohibited.

For the purposes of this Section, any #signs#, including banners and pennants, which do not comply with the above regulations may be continued for one year after April 28, 1983, provided that after the expiration of that period, such #non-conforming# #sign# shall terminate. A #sign# which the Chairperson of the City Planning Commission certified as an integral part of the #building# shall not be required to terminate.

81-83 - Special Street Wall Requirements

LAST AMENDED

The #street wall# of any #building# with frontage on Fifth Avenue shall extend without setback from the Fifth Avenue #street line# for at least 90 percent of the entire length of the #front lot line#. The #street wall# shall reach a minimum required height of 85 feet and shall not exceed a height of 125 feet at or within 10 feet of the #street line#.

Where a #building# occupies less than an entire #block# front of Fifth Avenue frontage, the height of the #street wall# at the #street line# shall be not more than 10 feet above or below the height of an adjacent existing #building# at the #street line#. If the #building# is on an #interior lot# between two adjacent existing #buildings# of different heights, the height of such #building's# #street wall# at the #street line# shall be not more than 10 feet above or below the #street wall# height of one of the adjacent existing #buildings# at the #street line#. However, this shall not be construed to permit a #street wall# height of less than 85 feet or more than 125 feet at the #street line#. At the required height of the #building's# #street wall# at the #street line#, the #street wall# must extend continuously without setback for at least 75 percent of its required width and no portion of its required width shall be set back more than 10 feet from the #street line#.

For the purpose of calculating the maximum #street wall# height on the #narrow street# frontage of a #corner lot# by the weighted average method, as set forth in paragraph (b) of Section 81-262 (Maximum height of front wall at the street line), the maximum #street wall# height generally applicable along the #narrow street# shall be averaged with a height of 150 feet for the first 100 feet from the #street line# intersection, provided that no actual #street wall# either on the Fifth Avenue or on the #narrow street# frontage shall exceed a height of 125 feet at the #street line#.

Below the minimum required #street wall# height, recesses whose depth shall be measured in all cases from the #street line#, shall be permitted only as follows: no recesses greater than 10 feet deep shall be permitted; recesses up to 10 feet deep shall be limited in their aggregate area to no more than 30 percent of the area of the #street wall# below the minimum required #street wall# height; in addition, recesses up to two feet deep shall be limited in their aggregate area to no more than 20 percent of the area of the #street wall# below the minimum required #street wall# height; and recesses up to one foot

deep shall not be limited in their aggregate area. For the area above the minimum required #street wall# height, recesses are not restricted.

Above a height of 125 feet, a #street wall# shall be set back not less than 10 feet from the #street line#.

81-84 - Mandatory Regulations and Prohibitions

LAST AMENDED
6/6/2024

The following requirements listed in this Section shall apply to all #developments#, #enlargements#, #extensions# or changes of #use# within the Subdistrict:

(a) Plaza location

No #public plaza#, or any part thereof, shall be permitted on or within 50 feet of the Fifth Avenue #street line#.

(b) Off-street parking regulations

No off-street parking facilities are permitted within the Fifth Avenue Subdistrict.

(c) Off-street loading regulations

In no event shall access to #accessory# off-street loading berths be permitted on or within 50 feet of the Fifth Avenue #street line#. Beyond 50 feet from the Fifth Avenue #street line#, where three or more #accessory# loading berths are required, such berths shall be located below #street# grade. Access to such berths, however, shall be permitted at #street# grade.

#Interior lots# with a frontage only on Fifth Avenue or only on a #wide street# shall not contain loading berths.

81-85 - Transfer of Development Rights From Landmark Sites

LAST AMENDED
12/5/2024

For #developments# or #enlargements#, in addition to the provisions of Sections 75-42 (Transfer of Development Rights from Landmark Sites) and 81-212 (Special provisions for transfer of development rights from landmark sites), the City Planning Commission may modify or waive the requirements of Section 81-40 (MANDATORY DISTRICT PLAN ELEMENTS), inclusive, and the requirements of Section 81-84 (Mandatory Regulations and Prohibitions).

In granting such special permit, the Commission shall find that the permitted transfer of #floor area# and modification or waiver of mandatory plan elements will result in a distribution of #bulk# and arrangement of #uses# on the #zoning lot# that relate more harmoniously with surrounding landmark #buildings or other structures#.

81-90 - SPECIAL REGULATIONS FOR PRESERVATION SUBDISTRICT

LAST AMENDED
12/5/2024

In order to conform with the existing scale and character of the Preservation Subdistrict, any #zoning lot# located in the underlying C5-P District shall be limited to a maximum #floor area ratio# of 8.0,

except as permitted in Sections 81-211 (Maximum floor area ratio for non-residential or mixed buildings) or 81-241 (Maximum floor area ratios for a residential building or the residential portion of a mixed building).

For all purposes other than as set forth in this Section, the R10 District regulations shall apply to any portion of a #building# containing #residential uses#.

Mandatory #street walls# are required as follows:

> The #street wall# of any #building# shall be located on the #street line# and shall extend along the full length of the #front lot line# to a minimum height of 72 feet above the #curb level#, or the full height of 72 feet above the #curb level#, or the full height of the #building#, whichever is less. Above a height of 85 feet, the #street wall# shall be set back at least 15 feet from the #street line# and shall be subject to the #sky exposure plane# regulations of Section 33-432 (In other Commercial Districts) applicable in C5 Districts. The provisions of Sections 33-44 (Alternate Front Setbacks) and 33-45 (Tower Regulations) are not applicable in the Preservation Subdistrict.
>
> On application, the City Planning Commission may grant special authorization for minor modifications of the mandatory #street wall# provisions of this Section as applied to an #enlargement#, upon the applicant's showing of compelling necessity. Such authorization, however, may in no event include modification of permitted #floor area# regulations.

For #qualifying affordable housing# or #qualifying senior housing#, the height and setback provisions of Section 81-25 (General Provisions Relating to Height and Setback of Buildings) shall apply as alternate regulations to the provisions of this Section.

Chapter 2 - Special Lincoln Square District (L)

File generated by https://zr.planning.nyc.gov on 6/23/2026

Chapter 2 - Special Lincoln Square District (L)

82-00 - GENERAL PURPOSES

LAST AMENDED
4/24/1969

The "Special Lincoln Square District" established in this Resolution is designed to promote and protect public health, safety, general welfare and amenity. These general goals include, among others, the following specific purposes:

(a) to preserve, protect and promote the character of the Special Lincoln Square District area as the location of a unique cultural and architectural complex - an attraction which helps the City of New York to achieve preeminent status as a center for the performing arts, and thus conserve its status as an office headquarters center and a cosmopolitan residential community;

(b) to improve circulation patterns in the area in order to avoid congestion arising from the movements of large numbers of people; improvement of subway stations and public access thereto; including convenient transportation to, from and within the district; and provision of arcades, open spaces, and subsurface concourses;

(c) to help attract a useful cluster of shops, restaurants and related amusement activities which will complement and enhance the area as presently existing;

(d) to provide an incentive for possible development of the area in a manner consistent with the aforegoing objectives which are an integral element of the Comprehensive Plan of the City of New York;

(e) to encourage a desirable urban design relationship of each building to its neighbors and to Broadway as the principal street; and

(f) to promote the most desirable use of land in this area and thus to conserve the value of land and buildings, and thereby protect the City's tax revenues.

82-01 - Definitions

LAST AMENDED
6/6/2024

For the purposes of this Chapter, matter in italics shall include those defined in Sections 12-10 (DEFINITIONS), 32-301 (Definitions) or in this Section.

Development

For purposes of this Chapter, a "development" includes both #development# and #enlargement#, as defined in Section 12-10 (DEFINITIONS).

82-02 - General Provisions

LAST AMENDED
10/7/2021

In harmony with the general purpose and intent of this Resolution and the general purposes of the #Special Lincoln Square District# and in accordance with the provisions of this Chapter, certain specified regulations of the districts on which the #Special Lincoln Square District# is superimposed are made inapplicable, and special regulations are substituted in this Chapter. Each #development# within the Special District shall conform to and comply with all of the applicable district regulations of this Resolution, except as otherwise specifically provided in this Chapter.

For #transit-adjacent sites# or #qualifying transit improvement sites#, as defined in Section 66- 11 (Definitions), in the event of a conflict between the provisions of this Chapter and the provisions of Article VI, Chapter 6 (Special Regulations Applying Around Mass Transit Stations), the provisions of Article VI, Chapter 6 shall control.

82-03 - Requirements for Applications

LAST AMENDED
2/9/1994

An application to the City Planning Commission for the grant of a special permit or an authorization respecting any #development# under the provisions of this Chapter shall include a site plan showing the location and the proposed #use# of all #buildings or other structures# on the site; the location of all vehicular entrances and exits and proposed off-street parking spaces, and such other information as may be required by the Commission for its determination as to whether or not a special permit or an authorization is warranted. Such information shall include, but not be limited to, justification of the proposed #development# in relation to the general purposes of the #Special Lincoln Square District#.

82-04 - District Plan

LAST AMENDED
2/9/1994

The District Plan for the #Special Lincoln Square District#, included as Appendix A, identifies specific subdistricts in which special zoning regulations carry out the general purposes of the #Special Lincoln Square District#. These areas are: Subdistrict A, Subdistrict B and Subdistrict C.

The District Plan also identifies #blocks# with mandatory #front lot line# #street walls#. The District Plan is hereby incorporated as an integral part of the #Special Lincoln Square District#.

82-10 - MANDATORY DISTRICT IMPROVEMENTS

LAST AMENDED
2/9/1994

The provisions of this Section specify mandatory or optional physical improvements to be provided in connection with #developments# on certain #zoning lots# located within the Special District.

82-11 - Special Provisions for Optional Arcades

LAST AMENDED
2/9/1994

Any #development# located on a #zoning lot# with a #lot line# which coincides with either of the following #street lines# - the east side of Broadway between West 61st and West 65th Streets or the east side of Columbus Avenue between West 65th and West 66th Streets - may contain an #arcade# as defined in Section 12-10, except that:

(a) the #arcade# shall extend the full length of the #zoning lot# along the #street lines# described above; however, the required #arcade# along the east side of Columbus Avenue may be terminated at a point 40 feet south of West 66th Street;

(b) the exterior face of #building# columns shall lie along the #street lines# described above;

(c) the minimum depth of the #arcade# shall be 15 feet (measured perpendicular to the exterior face of the #building# columns located on the #street line#) and the minimum height of the #arcade# along the center line of its longitudinal axis shall not be less than 20 feet;

(d) the #arcade# shall contain no permanent obstruction within the area delineated by the minimum width and height requirements of this Section except for the following:

(1) unenclosed cafes, provided that there is at least a six foot wide unobstructed pedestrian way adjacent to the #street wall#. In no event may such cafes be enclosed at any time; and

(2) structural columns not exceeding two feet by three feet provided that the longer dimension of such columns is parallel to the #street line#, that such columns are spaced at a minimum of 17 feet on center, and that the space between such columns and the face of the #street wall# is at least 13 feet wide. No other columns shall project beyond the face of the #street wall# ;

(e) no #signs# may be affixed to any part of the #arcade# or #building# columns except on a parallel to the #street wall# projecting no more than 18 inches therefrom parallel to the #street line# along which the #arcade# lies; and

(f) the #arcade# shall be illuminated only by incandescent lighting to a standard of average eight foot-candle intensity with a minimum five foot-candle intensity at any point within the #arcade#.

82-12 - Mandatory Off-street Relocation of a Subway Stair

LAST AMENDED
10/17/2007

Where a #development# is constructed on a #zoning lot# that fronts on a sidewalk containing a stairway entrance into the West 59th Street (Columbus Circle) or the West 66th Street subway station and such #zoning lot# contains 5,000 square feet or more of #lot area#, the existing entrance shall be relocated from the #street# onto the #zoning lot# in accordance with the provisions of Sections 37-41 (Standards for Location, Design and Hours of Public Accessibility) and 37-42 (Administrative Procedure for a Subway Stair Relocation or Renovation).

82-13 - Special Provisions for a Transit Easement

LAST AMENDED
10/7/2021

Any #development# located on the east side of Broadway between West 66th Street and West 67th Street shall provide an easement on the #zoning lot# for public access to the subway mezzanine or station when required by the New York City Transit Authority (TA) in accordance with the procedure set forth in Section 95-04 (Certification of Transit Easement Volume) and hereby made applicable.

82-20 - SPECIAL USE AND SIGN REGULATIONS

LAST AMENDED
6/6/2024

In order to provide for the special cultural needs, convenience, enjoyment, education and recreation of the residents of the area and of the many visitors who are attracted to the Lincoln Center for the Performing Arts, special #ground floor level# streetscape and #sign# regulations apply.

82-21 - Streetscape Regulations

LAST AMENDED
6/6/2024

The underlying #ground floor level# streetscape provisions set forth in Section 32-30 (STREETSCAPE REGULATIONS) shall apply, except that #ground floor level# #street# frontages facing Broadway, Columbus Avenue or Amsterdam Avenue, or portions thereof, shall be considered #Tier C street frontages#.

82-22 - Location of Floors Occupied by Commercial Uses

LAST AMENDED
6/6/2024

The provisions of Section 32-422 (Location of floors occupied by commercial uses) shall be modified such that the limitations set forth in paragraph (a) of such Section need not apply, and the requirements in paragraph (b) of such Section shall apply only where #commercial uses# are located above any #story# containing #dwelling units#.

82-23 - Supplementary Sign Regulations

LAST AMENDED
6/6/2024

No permitted #sign# shall extend above #curb level# at a height greater than 20 feet or obstruct an #arcade#.

Within Subdistrict B, permitted #signs# facing upon West 65th Street shall not exceed a height of 40 feet above #curb level#, and permitted #signs# facing upon Broadway between West 65th Street and West 66th Street shall not exceed a height of 60 feet above #curb level#. However, #signs# facing in an easterly or southerly direction upon that portion of the public place designated on the City Map that is located within an area bounded by West 65th Street and the prolongation of the south side of West 64th Street shall not exceed a height of 40 feet above the level of such public place.

82-30 - SPECIAL BULK REGULATIONS

LAST AMENDED
12/5/2024

The underlying bulk provisions shall apply, except as modified in this Section, inclusive.

82-31 - Floor Area Ratio Regulations

LAST AMENDED
12/5/2024

The underlying #floor area# provisions shall apply except that:

(a) Within Subdistrict A, for any #building# in a C4-7 District, the maximum permitted #commercial# #floor area# shall be 100,000 square feet. However, the City Planning

Commission may grant, by special permit, additional #commercial# #floor area# pursuant to the provisions of Section 82-311 (Commercial floor area increase by special permit).

(b) No #floor area# bonuses shall be permitted within the #Special Lincoln Square District# except that for #developments# or #enlargements# on #qualifying transit improvement sites#, a #floor area# bonus for #mass transit station# improvements may be granted by the City Planning Commission pursuant to the provisions of Section 66-51 (Additional Floor Area for Mass Transit Station Improvements). For the purposes of this paragraph, defined terms additionally include those in Section 66-11 (Definitions).

82-311 - Commercial floor area increase by special permit

LAST AMENDED
12/5/2024

The City Planning Commission may by special permit allow the #commercial# #floor area ratio# permitted on a #zoning lot# pursuant to Section 82-31 (Floor Area Ratio Regulations) within Subdistrict A to be increased to 10.0 for #commercial# #uses#. As a condition for such special permit, the Commission shall find that:

(a) the #uses# are appropriate for the location and shall not unduly affect the #residential uses# in the nearby area or impair the future land use and development of the adjacent areas;

(b) the #uses# shall not require any significant addition to the supporting services of the neighborhood or that provision for adequate supporting services has been made;

(c) the additional #bulk# devoted to #commercial# #uses# shall not create or contribute to serious traffic congestion and will not unduly inhibit vehicular and pedestrian flow; and

(d) the #streets# providing access to such #use# are adequate to handle the traffic generated thereby or provision has been made to handle such traffic.

The Commission may prescribe appropriate conditions and safeguards to minimize adverse effects of any such #uses# on the character of the surrounding area.

82-32 - Height and Setback Regulations

LAST AMENDED
12/5/2024

Within the Special District, all #buildings# shall be subject to the height and setback regulations of Section 35-63 (Height and Setback Requirements in Commercial Districts with R6 Through R12 Equivalency), except as follows:

(a) for any portion of a building that qualifies as a "tower", the provisions of Section 82-321 (Special tower coverage and setback regulations) shall apply;

(b) #street wall# provisions shall be modified in Section 82-322 (Street walls along certain street lines);

(c) permitted obstructions above a required setback shall be modified pursuant to the provisions of Section 82-323 (Permitted obstructions within required setback areas); and

(d) special height limitations at certain locations shall apply, pursuant to the provisions of Section 82-324 (Special height limitations).

82-321 - Special tower coverage and setback regulations

LAST AMENDED
12/5/2024

The requirements set forth in Section 23-435 (Tower regulations) for any #building#, or portion thereof, that qualifies as a "tower" shall apply, except as modified in this Section.

(a) At any level at or above a height of 85 feet above #curb level#, a tower shall occupy in the aggregate not less than 30 percent of the #lot area# of a #zoning lot#. However, any #story# located within the highest 15 percent of the tower may cover less than 30 percent of the #lot area# of a #zoning lot# provided that the gross area of any such #story# does not exceed 90 percent of the gross area of that #story# directly below the highest 15 percent of the tower.

(b) At all levels at or above a height of 85 feet from #curb level#, the minimum required setback of the #street wall# of a tower shall be at least 15 feet from the #street line# of Broadway or Columbus Avenue, and at least 20 feet on a #narrow street#.

(c) At least 60 percent of the total #floor area# permitted on a #zoning lot# shall be within #stories# located partially or entirely below a height of 150 feet from #curb level#.

For the purposes of determining allowable #floor area#, where a #zoning lot# has a mandatory 85 foot high #street wall# requirement along Broadway, the portion of the #zoning lot# located within 50 feet of Broadway shall not be included in #lot area# unless such portion contains or will contain a #building# with a wall at least 85 feet high coincident with the entire #street line# of Broadway.

For the purposes of determining the permitted tower coverage in Block 3, as indicated on the District Plan in Appendix A of this Chapter, that portion of a #zoning lot# located within 100 feet of the west #street line# of Central Park West shall be treated as if it were a separate #zoning lot# and the tower regulations shall not apply to such portion.

82-322 - Street walls along certain street lines

LAST AMENDED
12/5/2024

(a) On a #zoning lot# with a #front lot line# along Broadway or Columbus Avenue as indicated on the District Plan in Appendix A of this Chapter, the #street wall# location provisions of paragraph (a) of Section 35-631 shall apply and except that the #street wall# shall rise without setback to a height of 85 feet above #curb level#.

Such #street wall# shall extend on a #narrow street# to a distance of not less than 50 feet from its intersection with the #street line# of Broadway or Columbus Avenue and shall include a 20 foot setback at a height of 85 feet above #curb level#.

(b) On a #zoning lot# in Block 1, as indicated on the District Plan in Appendix A of this Chapter, the #street wall# location provisions of paragraph (a) of Section 35-631 shall apply to the designated frontages, except that:

(1) the #street wall# located on the south side of West 63rd Street shall rise vertically without setback to the full height of the #building# except for the top four floors or 40 feet, whichever is less; and

(2) the #street wall# shall extend along Columbus Avenue and/or Broadway for no more than one-half of the length of the total #block# front. The #street wall# located on the remaining #block# front on Broadway shall rise to a height of 85 feet above #curb level# and then set back 20 feet.

(c) On a #zoning lot# in Block 2, as indicated on the District Plan the #street wall# location provisions of paragraph (a) of Section 35-631 shall apply, except that:

(1) the #street wall# located on the north side of West 66th Street shall rise vertically without setback to the full height of the #building# except for the top four floors or 40 feet, whichever is less; and

(2) the #street wall# shall extend on Broadway and/or Columbus Avenue for no more than one-half of the length of the total #block# front. The #street wall# located on the remaining #block# front on Broadway shall rise to a height of 85 feet above #curb level# and then set back 20 feet.

(d) On a #zoning lot# in Block 3, as indicated on the District Plan, the #street wall# location provisions of paragraph (a) of Section 35-631 shall apply, except that for purposes of applying the base heights the #street wall# shall extend to the base heights outlined in an R10A District.

(e) Recessed fenestration and special architectural expression lines in the #street wall# are required per articulation allowances of paragraph (d) of Section 23-431 or Section 35-631.

In addition, along the #street lines# of Broadway, West 63rd Street and West 66th Street within Blocks 1 and 2, the #street wall# shall provide, at a height of 20 feet above #curb level#, an architectural expression line consisting of a minimum six inch recess or projection, for a minimum height of one foot and maximum height of two feet.

82-323 - Permitted obstructions within required setback areas

LAST AMENDED
12/5/2024

Above a height of 85 feet above #curb level#, a dormer shall be allowed as a permitted obstruction pursuant to paragraph (b) of Section 23-413 (Permitted obstruction in certain districts) provided that, along a #wide street#, or on a #narrow street# within 50 feet of a #wide street# the #building# shall contain special architectural expression lines at a height of 85 feet above #curb level#.

82-324 - Special height limitations

LAST AMENDED
12/5/2024

On Block 1 or 2, as indicated on the District Plan in Appendix A of this Chapter, the maximum height of a #building or other structure# shall not exceed 275 feet above #curb level#, except that the maximum #building# heights may be increased by 15 percent, provided that the gross area of any such #story# located above the maximum #building# height does not exceed 90 percent of the gross area of that #story# directly below the highest 15 percent of the #building#.

The underlying allowances for permitted obstructions above such maximum height limit shall apply.

82-33 - Modification of bulk regulations by special permit

LAST AMENDED
12/5/2024

The City Planning Commission may, by special permit, modify the height and setback regulations, #yard# regulations, regulations governing minimum distance between #buildings# on a single #zoning lot#, and regulations governing #courts# and minimum distance between #legally required windows#

and walls or #lot lines#, provided the Commission finds that such modifications are necessary to:

(a) facilitate good design;

(b) allow design flexibility for any #development# to which the mandatory provisions of Section 82-10 (MANDATORY DISTRICT IMPROVEMENTS) are applicable; or

(c) incorporate a #floor area# allowance pursuant to paragraph (b) of Section 82-31 (Floor Area Regulations) where inclusion of the proposed public amenity will significantly further the specific purposes for which the #Special Lincoln Square District# is established.

82-40 - OFF-STREET PARKING AND OFF-STREET LOADING REGULATIONS

LAST AMENDED
12/5/2024

The regulations of Article I, Chapter 3 (Comprehensive Off-street Parking and Loading Regulations in the Manhattan Core) and the applicable underlying district regulations of Article III, Chapter 6, relating to Off-street Loading Regulations, shall apply in the #Special Lincoln Square District# except as otherwise provided in this Section. In addition, the entrances and exits to all off-street loading berths shall not be located on a #wide street# except by authorization as set forth in this Section.

(a) #Accessory# off-street parking spaces

#Accessory# off-street parking spaces are permitted only by the applicable special permit of the City Planning Commission pursuant to Section 13-45 (Special Permits for Additional Parking Spaces), inclusive.

(b) Curb cuts

The City Planning Commission may authorize curb cuts within 50 feet of the intersection of any two #street lines#, or on #wide streets# where such curb cuts are needed for off-street loading berths, provided the location of such curb cuts meets the findings in Section 13-441.

(c) Waiver of loading berth requirements

The City Planning Commission may authorize a waiver of the required off-street loading berths where the location of the required curb cuts would:

(1) be hazardous to traffic safety;

(2) create or contribute to serious traffic congestion or unduly inhibit vehicular and pedestrian movement; or

(3) interfere with the efficient functioning of bus lanes, specially designated streets or public transit facilities.

The Commission shall refer these applications to the Department of Transportation for its comments.

82-50 - EXISTING PUBLICLY ACCESSIBLE OPEN AREAS

LAST AMENDED
12/5/2024

No existing #publicly accessible open area# or other public amenity, open or enclosed, for which a #floor area# bonus has been utilized shall be eliminated or reduced in size, except by special permit of the City Planning Commission, pursuant to Section 74-761 (Elimination or reduction in size of public amenities).

Any existing open area for which a #floor area# bonus has not been utilized that occupies the same #zoning lot# as an existing #publicly accessible open area# or other public amenity, open or enclosed,

for which a #floor area# bonus has been utilized, may be reduced in size or eliminated only upon certification of the Chairperson of the City Planning Commission that all bonused amenities comply with the standards under which such #floor area# bonus was granted.

Chapter 3 - Special Limited Commercial District (LC)

File generated by https://zr.planning.nyc.gov on 6/23/2026

Chapter 3 - Special Limited Commercial District (LC)

83-00 - GENERAL PURPOSES

LAST AMENDED
10/9/1969

The "Special Limited Commercial District" established in this Resolution is designed to promote and protect public health, safety, general welfare and amenity. These general goals include, among others, the following specific purposes:

(a) to preserve, protect, and enhance the character of Historic Districts as the location of many of the city's most valued cultural assets;

(b) to improve circulation patterns in the areas in order to avoid congestion arising from the movements of large numbers of people;

(c) to help attract a useful cluster of shops, restaurants, cultural attractions and related activities which will complement and enhance the areas as presently existing; and

(d) to promote the most desirable use of land in these areas and thus to conserve the value of land and buildings, and thereby protect the City's tax revenues.

83-01 - Definitions

LAST AMENDED
2/2/2011

For purposes of this Chapter, matter in italics is defined in Section 12-10 (DEFINITIONS).

83-02 - General Provisions

LAST AMENDED
10/7/2021

#Special Limited Commercial Districts# may only be mapped in #Commercial Districts# within areas, or portions of areas, designated by the Landmarks Preservation Commission as "Historic Districts" pursuant to Chapters 8A or 63 of the New York City Charter and Chapter 8A of the New York City Administrative Code.

In harmony with the general purpose and intent of this Resolution and the general purpose of the #Special Limited Commercial District# and in accordance with the provisions of this Chapter, certain specified #use#, #sign# and enclosure regulations of the districts on which #Special Limited Commercial Districts# are superimposed are made inapplicable, and are superseded by the #use#, #sign# and enclosure regulations of the #Special Limited Commercial District# as set forth in this Chapter.

In addition to meeting the #use#, #sign# and enclosure regulations as set forth in this Chapter, each #building# shall conform to and comply with all of the applicable district regulations of this Resolution, except as otherwise specifically provided in this Chapter.

For #transit-adjacent sites#, as defined in Section 66-11 (Definitions), in the event of a conflict between the provisions of this Chapter and the provisions of Article VI, Chapter 6 (Special Regulations Applying Around Mass Transit Stations), the provisions of Article VI, Chapter 6 shall control.

83-10 - SPECIAL USE REGULATIONS

LAST AMENDED
6/6/2024

Within the #Special Limited Commercial District#, the #use# regulations applicable to a C2-5 District set forth in Section 32-10 (USE ALLOWANCES), inclusive, shall apply. In addition, the regulations applicable to a C1 District shall apply for the enclosure regulations of Section 32-41 (Enclosure Within Buildings), inclusive, the #sign# regulations of Section 32-60 (SIGN REGULATIONS), inclusive, and the #use# allowances and modifications available by special permit of the Board of Standards and Appeals and the City Planning Commission, pursuant to Article VII, Chapters 3 and 4, respectively.

Chapter 4 - Special Battery Park City District (BPC)

File generated by https://zr.planning.nyc.gov on 6/23/2026

Chapter 4 - Special Battery Park City District (BPC)

84-00 - GENERAL PURPOSES

LAST AMENDED
1/8/1997

The "Special Battery Park City District" established in this Resolution is designed to promote and protect public health, safety and general welfare. These general goals include, among others, the following specific purposes:

(a) to strengthen the business core of Lower Manhattan by improving the working environment;

(b) to provide major additional space for expansion of office uses and their ancillary facilities;

(c) to broaden the regional choice of residence by introducing new housing in the vicinity of the major employment center of Lower Manhattan;

(d) to achieve a harmonious visual and functional relationship with adjacent areas;

(e) to create an environment which will be lively and attractive and provide daily amenities and services for the use and enjoyment of the working population and the new residents;

(f) to take maximum advantage of the beauty of the Hudson River waterfront, thereby best serving the downtown business community, the new residential population and providing regional recreation as well; and

(g) to promote the most desirable use of land and direction of building development in the Lower Manhattan area.

84-01 - Definitions

LAST AMENDED
2/2/2011

For purposes of this Chapter, matter in italics is defined in Section 12-10 (DEFINITIONS), in this Section or Section 84-021 (District Plan). Where matter in italics is defined both in Section 12-10 and in this Chapter, the definitions in this Chapter shall govern.

Esplanade

The "Esplanade" is a #public park# extending along all waterfront edges of the #Special Battery Park City District#. The #Esplanade# is shown in the District Plan in Appendix 1.

Mandatory front building wall lines

"Mandatory front building wall lines" are imaginary lines extending through Zone A and Zone C of the #Special Battery Park City District# which, except as shown in Appendices 2.1 and 3.1 of this Chapter, coincide with #street lines# and with which #building# walls must generally coincide, as provided in Sections 84-132 and 84-332 (Mandatory front building walls).

Special height locations

"Special height locations" are designated areas in Zone A and Zone C of the #Special Battery Park City District# subject to the regulations in Appendices 2.2 and 3.2 of this Chapter, in accordance with Sections 84-135 and 84-333 (Limited height of buildings).

84-02 - General Provisions

LAST AMENDED
5/12/2021

In harmony with the general purpose and intent of this Resolution and in order to achieve the purpose of the #Special Battery Park City District#, a special set of regulations is established for the #Special Battery Park City District# controlling #use#, #bulk#, #accessory# off-street parking facilities and #accessory# off-street loading facilities.

In #flood zones#, in the event of a conflict between the provisions of this Chapter and the provisions of Article VI, Chapter 4 (Special Regulations Applying in Flood Zones), the provisions of Article VI, Chapter 4 shall control.

84-021 - District Plan

LAST AMENDED
1/8/1997

The District Plan is set forth in Appendix 1. Each #block# shall be considered a single #zoning lot# for the purposes of the #Special Battery Park City District#.

84-022 - Incorporation of Appendix 1, Appendix 2 and Appendix 3

LAST AMENDED
1/8/1997

Appendix 1 (District Plan), Appendix 2 (Zone A South Residential Neighborhood) and Appendix 3 (Zone A North Residential Neighborhood and Zone C) are hereby incorporated as integral parts of the provisions of this Chapter. In the event of an inconsistency or need for clarification between Appendix 1 or Appendix 2 or Appendix 3 and the written specifications in this Chapter, in each such case the written specifications in this Chapter shall govern.

84-023 - Subdistricts

LAST AMENDED
1/8/1997

In order to carry out the purposes and provisions of this Chapter, the #Special Battery Park City District# is divided into three subdistricts: Zone A, Zone B and Zone C. The location and boundaries of the subdistricts are shown on the District Plan in Appendix 1.

84-03 - Use Regulations (For Zone A and Zone C)

LAST AMENDED
8/17/2005

The #uses# permitted shall be constructed and located so that no exhaust vents or chimneys open onto any #street# or park or onto the #Esplanade#.

84-10 - ZONE A GENERAL DISTRICT REGULATIONS

LAST AMENDED
2/2/2011

Zone A is designed generally to provide for residential development with ancillary retail and service #uses#, and #transient hotels# as permitted pursuant to Section 84-12. Zone A is divided into six subzones: A-1, A-2, A-3, A-4, A-5 and A-6. The location and boundaries of the subzones are shown in Appendices 2 and 3 of this Chapter.

84-11 - General Provisions

LAST AMENDED
12/5/2024

Except as expressly modified by the provisions of this Chapter, the regulations applying to an R10 District shall apply in subzones A-1, A-2, A-3, A-5 and A-6 of the #Special Battery Park City District#.

Notwithstanding any other provision of this Resolution, #developments# and #enlargements# may only be constructed in subzone A-4 in accordance with certifications given by the City Planning Commission. #Residential# #open space# in subzone A-4 shall be subject to the provisions of Sections 12-10 (DEFINITIONS) and 23-311 (Permitted obstructions in all yards, courts and open areas). All other provisions of this Chapter with respect to Zone A shall not apply to #developments# or #enlargements# in subzone A-4 unless otherwise indicated.

84-12 - Use Regulations

LAST AMENDED
6/6/2024

In the areas indicated as permitted #commercial# locations in Appendices 2.3 and 3.3, the #use# regulations applying in a C2 District shall apply, except as provided in Section 84-121 (Uses along Esplanade) and this Section.

In the case of a #mixed building# containing #residential# and #commercial# #uses#, the provisions set forth in Section 32-422 (Location of floors occupied by commercial uses) applicable to a C6 District shall apply. However, such provisions shall be modified as follows:

(a) the limitations set forth in paragraph (a) of such Section need not apply; and

(b) the requirements in paragraph (b) of such Section shall apply only where #commercial uses# are located above any #story# containing #dwelling units#.

Notwithstanding any other provisions of this Resolution, #uses# listed under Use Groups VI, VII or VIII shall be limited in size to 10,000 square feet of #floor area# per establishment, with the exception of grocery and convenience retailers listed under Use Group VI. In addition, the #zoning lot# south of First Place and east of Battery Place may contain #residential uses#, #transient hotel# #uses# where permitted pursuant to Section 32-153 (Use Group V – uses subject to additional conditions), or both #residential# and hotel #uses#.

84-121 - Uses along Esplanade

LAST AMENDED
6/6/2024

#Uses# fronting on the #Esplanade# shall be limited to the #uses# listed under Use Groups I, II and III, except that in the areas indicated as permitted #commercial# locations in Appendix 2.3, in the lowest #story# other than a #basement# in any #building#, eating or drinking establishments listed

under Use Group VI shall be permitted.

84-122 - Uses permitted within public open space areas

LAST AMENDED
2/27/2001

Public open space areas located between Murray Street and Warren Street, as indicated in Appendix 3.6, shall be improved at or above grade for use by the public as open areas for passive and/or active recreational #uses#.

84-123 - Streetscape regulations

LAST AMENDED
6/6/2024

In the areas indicated as permitted #commercial# locations in Appendices 2.3 and 3.3 of this Chapter, the underlying #ground floor level# streetscape provisions for a C2 District, set forth in Section 32-30 (STREETSCAPE REGULATIONS), inclusive, shall apply.

84-13 - Bulk Regulations

LAST AMENDED
12/5/2024

#Residential# and #community facility# #bulk# regulations otherwise applicable in R10 Districts are modified to the extent set forth in this Section and Sections 84-131 through 84-135, inclusive.

The regulations otherwise applicable in R10 Districts are superseded by the regulations set forth in Sections 84-131 (Floor area regulations), 84-132 (Mandatory front building walls), 84-133 (Front wall recess), 84-134 (Mandatory arcades) and 84-135 (Limited height of buildings).

The provisions of Sections 23-343 (Rear yard equivalent requirements) and 24-11 (Maximum Floor Area Ratio and Percentage of Lot Coverage), and Article VII, Chapter 8 (Special Regulations Applying to Large-scale Residential Developments) and Chapter 9 (Special Regulations Applying to Large-scale Community Facility Developments), are not applicable.

The provisions of Section 23-371 (Distance in between buildings) may be modified by the Battery Park City Authority. Prior to the granting of any such modification, the Authority shall make the following findings:

(a) that such modification will aid in achieving the general purpose and intent of the #Special Battery Park City District#, as set forth in Section 84-01;

(b) that such modification will not unduly increase the #bulk# of #buildings#, the density of population or the intensity of #use# on any #zoning lot# to the detriment of the occupants of #buildings# on such #zoning lot# or nearby #zoning lots# ;

(c) that such modification will not adversely affect the #buildings# on the #zoning lot# or nearby #zoning lots# by restricting access to light and air; and

(d) that if an open area is provided, at any level, between two #buildings#, it shall have a width of not less than eight feet.

84-131 - Floor area regulations

LAST AMENDED
12/5/2024

Notwithstanding any other provisions of this Resolution, the permitted #floor area ratio# for any #zoning lot#:

(a) in subzones A-1 and A-5 shall not exceed 12.0; and

(b) in subzones A-2, A-3 and A-6 shall not exceed 8.0, except that for #qualifying affordable housing# or #qualifying senior housing#, the permitted #floor area ratio# shall be 9.60. In addition, within subzone A-6, the #floor area ratio# for the #zoning lot# on the southeast corner of Chambers Street and North End Avenue may be increased from 8.0 to a maximum of 12.0, provided that such additional #floor area# is occupied by a #school#.

The #floor area# bonus provisions with respect to R10 Districts shall not apply.

84-132 - Mandatory front building walls

LAST AMENDED
2/2/2011

Except as set forth in paragraphs (g) and (i) of this Section, where Appendices 2.1 or 3.1 show a requirement for a #building# in Zone A to be built to a #mandatory front building wall line#, any such #building# shall have a mandatory front #building# wall coincident with and constructed along such #mandatory front building wall line#, which shall rise without setback for a height above #curb level#, as specified in this Section, except that, at #building# entrances, openings below the second #story# ceiling in the mandatory front #building# walls will be permitted to provide access to courtyards:

(a) except as set forth in paragraph (d) of this Section, with respect to any 60–85 foot #mandatory front building wall line# shown in Appendix 2.1, a height of not less than 60 feet nor more than 85 feet;

(b) with respect to any 110–135 foot #mandatory front building wall line# shown in Appendix 2.1, a height of not less than 110 feet nor more than 135 feet. However, a setback of not more than 10 feet may be provided at a height of 85 feet or more above #curb level# ;

(c) on the portion of any #zoning lot# designated as a #special height location# in Appendix 2.2, a height of not less than the applicable amount set forth in paragraphs (a) or (b) of this Section and not more than the maximum height indicated in Appendix 2.2 or in paragraph (d)(1) of Section 84-135 (Limited height of buildings);

(d) with respect to any #zoning lot# south of West Thames Street, east of South End Avenue, north of Third Place and west of Battery Place, a height of not less than 18 feet nor more than 85 feet above #curb level# ;

(e) with respect to any 110–135 foot #mandatory front building wall line# shown in Appendix 3.1, a height of not less than 110 feet nor more than 135 feet;

(f) with respect to any 110–230 foot #mandatory front building wall line# shown in Appendix 3.1, a height of not less than 110 feet nor more than 230 feet, except that:

(1) the width of the mandatory front #building# wall in excess of a height of 135 feet shall not exceed 120 feet along any frontage;

(2) where the width of the #mandatory front building wall line# along #street lines# intersecting North End Avenue exceeds 100 feet, the mandatory front #building# wall in excess of a height of 135 feet shall not exceed a width of 75 feet along North End Avenue. However, the width of the mandatory front #building# wall along #street lines# intersecting North End Avenue may be reduced to not less than 100 feet in order to accommodate landscaping and other improvements within or adjacent to the

public open space areas shown in Appendix 3.6;

(3) a setback of 10 feet at a height of 135 feet is required along all street frontages, except Park Place West; and

(4) a setback of not less than five feet and not more than 10 feet is required in other locations at a height of 135 feet, as shown in Appendix 3.1;

(g) with respect to any 150–250 foot #mandatory front building wall line# shown in Appendix 3.1, a height of not less than 150 feet nor more than 250 feet, except that the height may not exceed either 150 feet for more than 120 feet or 75 percent of the length of the site's western property line, whichever is less, and a setback of not less than five feet and not more than 10 feet is required at a height of 150 feet. Where Appendix 3.1 shows a requirement for a #building# to be built to a #mandatory front building wall line# along frontage on River Terrace, any such #building# may have a mandatory front #building# wall coincident with and constructed along a line set back one and one-half feet from the #street line# along River Terrace to accommodate landscaping treatment as required by the Battery Park City Authority;

(h) on the portion of any #zoning lot# designated as a #special height location# in Appendix 3.2, a height of not less than the applicable amount set forth in paragraphs (e), (f) or (g) of this Section and not more than the height shown in Appendix 3.2; and

(i) on the #zoning lot# south of First Place and west of Battery Place, the eastern mandatory front #building# wall may be located within 30 feet from the eastern #mandatory front building wall line#, and the southern mandatory front #building# wall may be reduced in width up to 30 feet along the southern #mandatory front building wall line# within 30 feet from the intersection with the eastern #mandatory building wall line#.

Subject to the provisions of Section 84-133 (Front wall recesses), the mandatory front #building# wall requirements set forth in this Section shall also apply to all #buildings# along all #street lines# within 50 feet of their intersection with any #mandatory front building wall line#. For the next 20 feet along

the #street line#, the mandatory front #building# wall requirements are optional except that, for any #building# north of Vesey Street and Vesey Place, the mandatory front #building# wall requirements are optional for the next 25 feet. The height limit of 85 feet shall apply along #street lines# or to #buildings# not subject to the mandatory front #building# wall requirements.

84-133 - Front wall recesses

LAST AMENDED
12/5/2024

Front wall recesses for architectural or decorative purposes are permitted, except in an #arcade# required in Section 84-134 (Mandatory arcades), provided that below the level of the second #story# ceiling the depth of such recess does not exceed 20 feet. At any #story# above the level of the second #story# ceiling, recesses to the amount of 25 percent of the aggregate area of the wall at each #story# are permitted, provided the depth of any such recess does not exceed 10 feet. All recesses shall be subject to the applicable provisions of Section 23-353 (Outer court regulations).

84-134 - Mandatory arcades

LAST AMENDED
2/2/2011

Appendix 2.4 (Mandatory Arcades) specifies those #zoning lots# where an #arcade#, as defined in Section 12-10 (DEFINITIONS), shall be provided; and:

(a) the #arcade# shall extend the full width of the #zoning lot# along the indicated #street lines# or other lines, except where otherwise indicated in Appendix 2.4; and

(b) the minimum unobstructed depth of the #arcade# shall be 12 feet, and the minimum height of the #arcade# shall be 20 feet above #curb level#.

84-135 - Limited height of buildings

LAST AMENDED
12/5/2024

For the purposes of this Section, the term "#buildings#" shall include #buildings or other structures#. No portion of any #building# may be built to a height greater than 85 feet above #curb level#, except that:

(a) any portion of a #building# required to have an exterior wall coincident with a 110–135 foot #mandatory front building wall line#, as provided in Section 84-132 (Mandatory front building walls), may be built to a height of up to 135 feet above #curb level# ;

(b) any portion of a #building# required to have an exterior wall coincident with a 110–230 foot #mandatory front building wall line#, as provided in Section 84-132 and subject to the requirements contained in paragraph (f) therein, may be built to a height of up to 230 feet above #curb level# ;

(c) portions of a #building# required to have an exterior wall coincident with a 150–250 foot #mandatory front building wall line#, as provided in Section 84-132, may be built to a height of up to 250 feet above #curb level# ;

(d) on the portion of any #zoning lot# designated as a #special height location# in Appendices 2.2 or 3.2, a #building# may be built to the height above #curb level# indicated in Appendices 2.2 or 3.2, subject to the following:

(1) on any #building# south of First Place and east of Battery Place, with a mandatory front #building# wall, the area of which, below the level of the second story ceiling, occupies 100 percent of the frontage along its #mandatory front building wall line#, a height of not more than 450 feet, provided, however, that a setback of not more than 10 feet may be provided at a height of 85 feet or more above #curb level#;

(2) on #zoning lots# located north of First Place, south of Third Place, and east of Battery Place, #special height locations# not to exceed heights of 135 feet or 360 feet above #curb level# are permitted as indicated in Appendix 2.2, provided that a setback of 10 feet is provided at a height of 85 feet above #curb level# along any #narrow street# frontage;

(3) on the #zoning lot# at the southeast corner of Chambers Street and North End Avenue, the #special height location# indicated in Appendix 3.2 shall apply only if such #zoning lot# is occupied by #school# and #residential uses# and the portion of the #building# above a height of 135 feet above #curb level# does not exceed a #lot coverage# of 40 percent; and

(4) on the #zoning lot# at the northeast corner of Murray Street and North End Avenue, a #special height location# of 320 feet above #curb level# is permitted as indicated in Appendix 3.2, subject to the requirements contained in Section 84-132, paragraph (f);

(e) Any portion of a #building# that exceeds an established height limit shall be subject to the following provisions:

(1) The obstructions set forth in Section 23-41 and 33-42, as applicable, along with heliostats, may penetrate a maximum height limit.

(2) The maximum permitted size of enclosure walls surrounding elevator or stair bulkheads, roof water tanks, cooling towers and #accessory# mechanical equipment may be increased by authorization of the City Planning Commission, provided the

Commission finds that:

(i) the width of such additional enclosure wall at each #building# face does not exceed 80 percent of the width of the enclosure wall as allowed in paragraph (e)(1) of this Section;

(ii) the additional area of the enclosure wall at each #building# face is not more than 50 percent of the area permitted as-of-right; and

(iii) the enclosure wall is compatible with the #building# and the urban design goals of the Special District and complements the design by providing a decorative top; and

(f) in #special height locations# in Appendices 2.2 and 3.2 of this Chapter, no portion of a #building#, including permitted obstructions, shall exceed a height of 450 feet above #curb level#.

84-14 - Parking Regulations and Curb Cuts

LAST AMENDED
1/8/1997

84-141 - Accessory off-street parking spaces

LAST AMENDED
12/5/2024

Except as provided in Section 84-142 (Accessory off-street parking spaces for buildings containing hotel uses), #accessory# off-street parking spaces may be provided only for #residential uses# subject to the provisions of this Section. The ownership requirement for #accessory# off-street parking is satisfied by an interest commensurate with the interest of the principal #use#. Such #accessory# parking spaces shall be #completely enclosed#. No portion of any #accessory# parking facility may be constructed at a height of more than 23 feet above #curb level#. Except as otherwise provided in this Section, no #accessory# off-site parking shall be permitted.

#Accessory# parking facilities shall be constructed so that no exhaust vents open onto any #street# or park or onto the #Esplanade# and so that no portion of the facility, other than entrances and exits, is visible from adjoining #zoning lots#, #streets# or parks or the #Esplanade#.

The City Planning Commission may, upon application, authorize permitted #accessory# off-street parking spaces to be located anywhere within Zone A without regard for #zoning lot lines#, provided that the Commission shall find that:

(a) the #accessory# off-street parking spaces and required curb cuts are located within subzones A-1, A-2 or A-3 for #zoning lots# within subzones A-1, A-2 or A-3, or within subzones A-5 or A-6 for #zoning lots# in subzones A-5 or A-6, as indicated in Appendices 2 and 3; parking setbacks in Appendices 2.5 and 3.4; and curb cut locations in Appendices 2.6 and 3.5;

(b) such #accessory# off-street parking spaces will be conveniently located in relation to the #buildings# containing #residences# to which such off-street spaces are #accessory#, and provided that all such spaces shall not be further than 600 feet from the nearest boundary of the #zoning lot# occupied by the #residences# to which they are #accessory# ;

(c) such location of #accessory# off-street parking spaces will permit better site planning;

(d) such #accessory# off-street parking facility shall contain parking spaces #accessory# to #residential uses# only; and

(e) such parking facility complies with the findings in paragraphs (b)(1), (b)(2), (b)(3) and (b)(5) of Section 13-45 (Special Permits for Additional Parking Spaces).

Whenever off-street parking spaces are authorized to be located without regard to #zoning lot lines# in accordance with the provisions of this Section, the number of spaces generated by each #building# shall be recorded in that building's certificate of occupancy (temporary and permanent). In addition, any certificate of occupancy for the #accessory# off-street parking facility shall state the number of parking spaces authorized to be relocated from each #zoning lot#.

84-142 - Accessory off-street parking spaces for buildings containing hotel uses

LAST AMENDED
5/8/2013

For the #zoning lot# south of First Place and east of Battery Place, #accessory# off-street parking spaces for hotel #uses# may be provided at the rate established for #transient hotels# in Section 13-12 (Permitted Parking for Non-residential Uses) or 13-13 (Permitted Parking for Zoning Lots With Multiple Uses), as applicable.

84-143 - Off-street loading

LAST AMENDED
6/6/2024

Enclosed #accessory# off-street loading berths shall be provided in conformity with the requirements set forth in the following table and under rules and regulations promulgated by the Commissioner of Buildings for the #uses# listed in the table.

REQUIRED OFF-STREET LOADING BERTHS

Type of #Use#	For #Floor Area# (in square feet)	Required Berths
Food and beverage retailers	First 8,000	None
	Next 17,000	1
	Next 15,000	1
	Each additional 15,000 or fraction thereof	1
#Transient hotels#	First 100,000	None
	Next 200,000	1
	Each additional 300,000 or fraction thereof	1

84-144 - Location of curb cuts

LAST AMENDED

2/2/2011

Curb cuts are permitted only in the areas or locations indicated in Appendices 2.6 and 3.5. The aggregate width of all curb cuts provided for any #zoning lot# shall not exceed 20 feet, except that:

(a) for the #zoning lot# bounded to the north by a mapped public place, to the west by North Park, to the south by Chambers Street, and to the east by Marginal Street, the aggregate width of all curb cuts shall not exceed 40 feet;

(b) for the #zoning lot# bounded by Warren Street to the north, River Terrace to the west, North End Avenue to the east and Park Place West to the south, the aggregate width of all curb cuts shall not exceed 30 feet, comprised of two 15 foot curb cuts;

(c) for the #zoning lot# bounded by Murray Street to the north, River Terrace to the west, North End Avenue to the east and Vesey Place to the south, the aggregate width of all curb cuts shall not exceed 40 feet, including a 25 foot wide curb cut to the #accessory# off-street parking facility;

(d) for the #zoning lot# south of First Place and east of Battery Place, the aggregate width of all curb cuts shall not exceed 50 feet;

(e) for each #zoning lot# located on the east side of Battery Place:

(1) between First Place and Second Place, the aggregate width of all curb cuts shall not exceed 40 feet;

(2) between Second Place and Third Place, the aggregate width of all curb cuts shall not exceed 50 feet; and

(f) for the #zoning lot# south of First Place and west of Battery Place, the aggregate width of all curb cuts shall not exceed 24 feet.

84-20 - ZONE B

LAST AMENDED
2/2/2011

Zone B is designed to provide for commercial and mixed development with ancillary retail and service uses, in accordance with the Large Scale Commercial Development Plan which is attached as an exhibit to the Master Lease for Battery Park City dated June 6, 1980, as amended. Alignment of the pedestrian bridge at Liberty Street shall connect or allow for connection at the easterly line of West Street with a pedestrian connection to be provided on the southerly side of Liberty Street, as provided in this Section. In addition, the pedestrian bridge at the World Trade Center crossing shall connect or allow for connection with the World Trade Center at the easterly line of West Street. The pedestrian bridges are shown on the District Plan in Appendix 1.

84-30 - ZONE C

LAST AMENDED
1/8/1997

84-31 - General Provisions

LAST AMENDED
2/2/2011

Zone C is designed to provide for commercial and mixed use development, parking and ancillary retail and service uses, as permitted pursuant to this Chapter. Zone C is divided into two subzones: C-1 and C-2. The location and boundaries of the subzones are shown in Appendix 3 of this Chapter. Except as

expressly modified by the provisions of this Chapter, the regulations applying to a C6-6 District shall apply in Zone C of the #Special Battery Park City District#.

84-32 - Use Regulations

LAST AMENDED
6/6/2024

Use regulations applicable in C6-6 Districts shall apply. In addition, public parking facilities, subject to the provisions of Section 84-341 (Off-street parking), shall be permitted.

The underlying #ground floor level# streetscape provisions set forth in Section 32-30 (STREETSCAPE REGULATIONS), inclusive, for a C6 District shall apply.

84-33 - Bulk Regulations

LAST AMENDED
1/8/1997

#Bulk# regulations otherwise applicable in C6-6 Districts and equivalent #Residential Districts# are hereby modified to the extent set forth in this Section and Sections 84-331 through 84-333, inclusive.

The height and setback regulations otherwise applicable in C6-6 Districts, and equivalent #Residential Districts#, are superseded by the regulations set forth in Section 84-332 (Mandatory front building walls) and 84-333 (Limited height of buildings) and Appendices 3.1 and 3.2.

84-331 - Floor area regulations

LAST AMENDED
12/5/2024

Notwithstanding any other provisions of this Resolution, the permitted #floor area ratio# for any #zoning lot# shall not exceed 15.0. The #floor area ratio# for #residential uses# shall not exceed 10.0, except that for #qualifying affordable housing# or #qualifying senior housing#, the permitted #floor area ratio# shall be 12.0. The #floor area# bonus provisions shall not apply.

84-332 - Mandatory front building walls

LAST AMENDED
2/2/2011

Appendix 3.1 specifies locations where a #mandatory front building wall line# is required. #Buildings# shall have a mandatory front #building# wall coincident with and constructed along such #mandatory front building wall line# for a minimum of 80 percent of the length of the frontage required to have the mandatory front #building# wall, which shall rise without setback for a height above #curb level# not less than 110 feet nor more than 140 feet in subzone C-1, and not less than 60 feet nor more than 140 feet in subzone C-2, except that the mandatory front #building# wall on Murray Street within subzone C-2 may rise without setback to the maximum height established pursuant to Section 84-333 (Limited height of buildings) and, provided further, that the mandatory front #building# wall requirement shall not apply to the #building# frontage along a pedestrian right-of-way in subzone C-2.

However, where Appendix 3.1 shows a mandatory front wall along Murray Street, such front #building# wall may be located either along the #street line# on Murray Street or at a right angle to

North End Avenue within 30 feet from the intersection of Murray Street and North End Avenue.

At 140 feet above #curb level#, the #building# must set back at least 15 feet from the #street line# of Vesey Street, North End Avenue and Murray Street, except that there shall be no required setback along Murray Street in subzone C-2. Front wall recesses for architectural and decorative purposes are permitted in mandatory front walls, provided that:

(a) the aggregate area of front wall recesses below the maximum height of the required front wall is less than 50 percent of the required mandatory front #building# wall;

(b) the maximum depth of any recess shall be 20 feet;

(c) recesses with a depth of less than two feet shall not be considered recesses for the purposes of this Section; and

(d) recesses shall not be open to the sky.

84-333 - Limited height of buildings

LAST AMENDED
12/5/2024

The maximum height of any #building or other structure#, or portion thereof, shall not exceed 400 feet on any portion of subzone C-1 shown as a #special height location# in Appendix 3.2 of this Chapter, except that permitted obstructions, pursuant to Section 33-42, shall be allowed to penetrate a maximum height limit.

The maximum height of any #building or other structure#, or any portion thereof, located within subzone C-2 shall not exceed 180 feet above #curb level#, except that:

(a) the maximum height of any #building or other structure#, or portion thereof, shown as a #special height location#, shall not exceed the height set forth in Appendix 3.2; and

(b) Any portion of a #building or other structure# that exceeds an established height limit shall be subject to the following provisions:

(1) The obstructions set forth in Sections 23-41, inclusive, and 33-42, as applicable, may penetrate a maximum height limit.

(2) The maximum permitted size of enclosure walls surrounding elevator or stair bulkheads, roof water tanks, cooling towers and #accessory# mechanical equipment may be increased by authorization of the City Planning Commission, provided the Commission finds that:

(i) the width of such additional enclosure wall at each #building# face does not exceed 80 percent of the width of the enclosure wall as allowed in paragraph (b)(1) of this Section;

(ii) the additional area of the enclosure wall at each #building# face is not more than 50 percent of the area permitted as-of-right; and

(iii) the enclosure wall is compatible with the #building# and the urban design goals of the Special District and complements the design by providing a decorative top.

(c) In no event shall the height of any #building#, including permitted obstructions, exceed 800 feet above #curb level#.

84-34 - Parking Regulations and Curb Cuts

LAST AMENDED

8/12/2004

Notwithstanding any other regulations of this Resolution, off-street parking spaces shall be permitted pursuant to this Section.

84-341 - Off-street parking

LAST AMENDED
8/12/2004

#Accessory# off-street parking spaces are not required in Zone C. However, a maximum of 300 public parking spaces are permitted in subzones C-1 and C-2 combined, provided that:

(a) such spaces shall be completely enclosed;

(b) no portion of the parking facility, other than entrances and exits, shall be visible from adjoining #zoning lots#, #streets#, parks or the #Esplanade# ;

(c) no exhaust vents shall open onto any #street# or park; and

(d) the parking facility shall not be more than 23 feet above #curb level#.

84-342 - Off-street loading

LAST AMENDED
8/12/2004

The number of required #accessory# loading berths in subzone C-2 may be reduced by up to 50 percent of the number required pursuant to Section 36-62 (Required Accessory Off-street Loading

Berths).

84-343 - Curb cuts

LAST AMENDED
8/12/2004

Curb cuts are permitted only in locations indicated in Appendix 3.5 and along any #street# or right-of-way not shown on Appendix 3.5. The aggregate width of all curb cuts for subzone C-1 shall not exceed 50 feet. The aggregate width of all curb cuts for subzone C-2 shall not exceed 60 feet.

File generated by https://zr.planning.nyc.gov on 6/23/2026

Chapter 5 - Special United Nations Development District (U)

85-00 - GENERAL PURPOSES

LAST AMENDED
8/21/1980

The "Special United Nations Development District" established in this Resolution is designed to promote and protect public health, safety, general welfare and amenity. These general goals include, among others, the following specific purposes:

(a) to preserve, protect and promote the character of the Special United Nations Development District adjacent to the headquarters of the United Nations, an attraction which helps the City of New York to maintain its preeminent status as a center for international organizations, as an office headquarters center and a cosmopolitan residential community;

(b) to facilitate the continued growth of the programs and activities of the United Nations and to help assure the retention of the United Nations headquarters in the City of New York;

(c) to encourage the provision of suitable office facilities for the United Nations, missions of member nations of the United Nations, and for non-governmental organizations related to the United Nations, in an attractive environment within a reasonable distance of the United Nations;

(d) to encourage the provision of housing suitable for personnel of delegations and members of the United Nations staff within a reasonable distance of the United Nations;

(e) to encourage the provision of hotel accommodations in the immediate vicinity of the United Nations suitable for visiting heads of state and other dignitaries attending the United Nations;

(f) to encourage the provision of community facilities, meeting rooms, and other facilities suitable for United Nations-related uses and purposes;

(g) to alleviate vehicular and pedestrian traffic congestion in the vicinity of the United Nations;

(h) to promote coordinated redevelopment of the area contiguous to the United Nations in a manner consistent with the foregoing objectives which are an integral element of the comprehensive plan of the City of New York;

(i) to provide freedom of architectural design in accommodating facilities for the United Nations and supporting activities within multi-use structures which produce more attractive and economic development; and

(j) to promote the most desirable use of land in this area in accordance with a well-considered plan to promote the special character of the district and its peculiar suitability for uses related to the United Nations and thus to conserve the value of land and buildings, and thereby protect the City's tax revenues.

85-01 - Definitions

LAST AMENDED
2/2/2011

For purposes of this Chapter, matter in italics is defined in Section 12-10 (DEFINITIONS).

85-02 - General Provisions

LAST AMENDED

8/21/1980

In harmony with the general purpose and intent of this Resolution and the general purposes of the #Special United Nations Development District# and in accordance with the provisions of this Chapter, the existing district regulations are superseded and replaced by the regulations applying to a C5-3 District, except as modified by the provisions of this Chapter, for construction of any #development# in the #Special United Nations Development District#, provided that the #development# is undertaken in accordance with a development plan approved by the City Planning Commission and the Board of Estimate, which plan comprises #zoning lots# having a total area of at least 1.5 acres to be #developed# at one time or in stages, and that such #development# is undertaken by or with the consent of the party proposing such plan, and further provided that the Chairperson of the City Planning Commission certifies:

(a) for #development# commencing before January 1, 1980, that the final plans generally comply with the design concept dated January 6, 1970, on file with the Commission; or

(b) for #development# commencing after January 1, 1980, that the final plans generally comply with the amended design concept dated April 30, 1980, on file with the Commission.

85-03 - Modifications of Use Regulations

LAST AMENDED
6/6/2024

In addition to the #uses# permitted in a C5-3 District, auditoriums listed under Use Group VIII shall be permitted with any capacity, and #group parking facilities# with a capacity of 380 parking spaces shall be permitted where #accessory# to #residences#, #transient hotels#, foreign missions or United Nations-related #uses#. All such #commercial# #uses# may be located in any #mixed building# and anywhere within such #building# without regard to Section 32-42 (Location Within Buildings).

85-04 - Modifications of Bulk Regulations

LAST AMENDED
12/5/2024

Notwithstanding any other provisions of this Resolution the following modifications of #bulk# regulations are hereby granted for any #development# which the Chairperson of the City Planning Commission certifies will generally comply with the concept on file with the City Planning Commission dated January 6, 1970, for #development# commencing before January 1, 1980, or the amended design concept on file with the Commission dated April 30, 1980, for #development# commencing after January 1, 1980.

In no event shall the maximum #floor area ratio# for the #Special United Nations Development District#, taken as a whole, exceed 15.0. The #floor area ratio# of a #residential building# or the #residential# portion of a #mixed building# shall not exceed the maximum #floor area ratio# set forth in Sections 34-112, 23-22 and 35-31.

The #development# may include land in more than one #block# and the total permitted #floor area# of all #zoning lots# within such #development# may be distributed without regard for #zoning lot lines# or any #streets# separating the #zoning lots# and the #buildings# comprising such #development# may be located without regard for the applicable height and setback regulations.

In no event shall any #development# on the south side of 44th Street within the #Special United Nations Development District# contain more than 200,000 square feet of #floor area#, and no more than 61,000 square feet of #floor area# may be transferred for any such #development#.

At the time of any transfer of #floor area# in the #Special United Nations Development District#, there shall be recorded in the land records, and indexed against each tax lot from which #floor area# is removed, an instrument removing such #floor area# and stating the maximum permissible #floor area#

remaining on the tax lot after deducting the #floor area# transferred; and there shall be recorded in the land records, and indexed against each tax lot to which #floor area# is added, an instrument evidencing the transfer of the #floor area# to the tax lot benefitted and identifying by tax block and lot number and description the tax lot from which the #floor area# has been transferred. A certified copy of such instruments shall be filed with the Commission upon recordation thereof.

For the purpose of any transfer of #floor area# in the #Special United Nations Development District#, the total permitted #floor area# of any tax lot from which #floor area# is transferred shall be the maximum #floor area# permitted under this Chapter for a #commercial building#, less the total #floor area# of any #building# on the tax lot.

The minimum front setback of a #building# on any portion of 45th Street within the #Special United Nations Development District#, more than 100 feet from First Avenue, shall be not less than 10 feet from the #street line#, and required #yards# within the #Special United Nations Development District# shall not be less than 20 feet in depth.

For a #residential building# or the #residential# portions of any mixed-#use# #building# located on the north side of 44th Street within the #Special United Nations Development District#, the provisions of Sections 23-343 (Rear yard equivalent requirements) and 23-371 (Distance between buildings) shall not apply. Notwithstanding anything in this Resolution to the contrary, the minimum distance between a #residential# portion of a #building# and any other #building# on the same #zoning lot# within the #Special United Nations Development District# shall be not less than 28 feet.

For any #building# containing #residences# within the #Special United Nations Development District#, the applicable density requirements may be modified.

As a condition for granting such authorizations, in each case the Commission shall make the following findings:

(a) that the land use intensity and distribution of #bulk# of the total #development# permit better site planning and significantly achieve the specific purposes for which the #Special United Nations Development District# is established; and

(b) that all new #buildings or other structures# erected within the #Special United Nations Development District# are in compliance with the special height requirements set forth in Section 85-05 of this Chapter.

85-05 - Limited Height of Buildings

LAST AMENDED
12/6/2023

The maximum height of a #building or other structure#, including elevator or stair bulkheads, #accessory# water tanks or cooling towers, chimneys, parapets, arbors or trellises and flagpoles, located within the #Special United Nations Development District#, shall not exceed 550 feet above the established grade of the easterly side of Second Avenue midway between East 43rd and East 45th Streets. No portion of any #building# within the #Special United Nations Development District# may be built to a height greater than the present height of the United Nations Secretariat Building within 200 feet west of the westerly boundary of First Avenue. No portion of any #development# on the south side of 44th Street within the #Special United Nations Development District# may be built to a height greater than 183 feet above #curb level# or 15 #stories#, whichever is less. However, #energy infrastructure equipment# and #accessory# mechanical equipment shall be permitted obstructions above all such height limits, subject to the provisions of Section 33-42.

Chapter 6 - Special Forest Hills District (FH)

File generated by https://zr.planning.nyc.gov on 6/23/2026

Chapter 6 - Special Forest Hills District (FH)

86-00 - GENERAL PURPOSES

LAST AMENDED
3/24/2009

The "Special Forest Hills District" established in this Resolution is designed to promote and protect the public health, safety, general welfare and amenity of Forest Hills. The general goals include, among others, the following specific purposes:

(a) to ensure that the form of new buildings is compatible with and relates to the built character of the Forest Hills neighborhood;

(b) to preserve, protect and promote the special character of Austin Street as a regional shopping destination;

(c) to create a graduated transition from the lower-scale character of Austin Street to the higher-scale character of Queens Boulevard;

(d) to support a broad and vibrant mix of commercial and residential uses throughout the Special District;

(e) to enhance the pedestrian setting of Austin Street through appropriate ground floor uses and structural requirements; and

(f) to promote the most desirable use of land and thus conserve and enhance the value of land and buildings, and thereby protect the City's revenue.

86-01 - Definitions

LAST AMENDED
6/6/2024

For purposes of this Chapter, matter in italics is defined in Sections 12-10 (DEFINITIONS) and 32-301 (Definitions).

86-02 - General Provisions

LAST AMENDED
12/5/2024

In harmony with the general purposes of this Resolution and in accordance with the provisions of the #Special Forest Hills District#, the regulations of this Chapter shall apply within the Special District. Unless modified by the particular provisions of the Special District, the regulations of the underlying zoning districts shall remain in effect. In the event of a conflict between the provisions of this Chapter and other regulations of this Resolution, the provisions of this Chapter shall control. However, for #transit-adjacent sites#, as defined in Section 66-11 (Definitions), in the event of a conflict between the provisions of this Chapter and the provisions of Article VI, Chapter 6 (Special Regulations Applying Around Mass Transit Stations), the provisions of Article VI, Chapter 6 shall control.

86-03 - District Plan and Maps

LAST AMENDED
3/24/2009

The regulations of this Chapter are designed to implement the District Plan for the #Special Forest Hills District#. The District Plan includes the map of the #Special Forest Hills District#, which is set forth in the Appendix to this Chapter and is hereby incorporated as part of this Resolution for the purpose of specifying locations where the special regulations and requirements set forth in this Chapter apply.

86-10 - SPECIAL USE REGULATIONS

LAST AMENDED
3/24/2009

86-11 - Use Modifications Along Austin Street

LAST AMENDED
6/6/2024

Within C2 Districts fronting on Austin Street in the #Special Forest Hills District#, the #use# regulations shall be modified to permit #uses# listed under Use Groups VI and VIII, pursuant to the regulations applicable to C4 Districts.

86-12 - Streetscape Regulations

LAST AMENDED
6/6/2024

The underlying #ground floor level# streetscape provisions set forth in Section 32-30 (STREETSCAPE REGULATIONS), inclusive, shall apply, except that #ground floor level# #street frontages# along #streets#, or portions thereof, designated on the District Plan map in the Appendix to this Chapter shall be considered #Tier C street frontages#.

86-13 - Location of Uses in Mixed Buildings

LAST AMENDED
6/6/2024

The provisions of Section 32-422 (Location of floors occupied by commercial uses) shall be modified such that the limitations set forth in paragraph (a) of such Section need not apply, and the requirements in paragraphs (b) of such Section shall apply only where #commercial uses# are located above any #story# containing #dwelling units#

86-20 - SPECIAL BULK REGULATIONS

LAST AMENDED
3/24/2009

The applicable #bulk# regulations of the underlying districts shall apply within the #Special Forest Hills District#, except as modified by this Section, inclusive.

86-21 - Special Floor Area Regulations in C4-5X Districts

LAST AMENDED
3/24/2009

In C4-5X Districts within the #Special District#, the underlying #floor area ratio# for #commercial uses# shall not apply. In lieu thereof, the provisions of Section 33-122 (Commercial buildings in all other Commercial Districts) shall be modified to permit a maximum #floor area ratio# of 5.0.

86-22 - Waiver for Rear Yards

LAST AMENDED
3/24/2009

No #rear yards# shall be required for any #commercial# or #community facility# #use# permitted within a C2-3 District in the #Special Forest Hills District#.

86-23 - Height and Setback Regulations

LAST AMENDED
12/5/2024

#Buildings or other structures# within the Special District shall comply with the height and setback regulations of Section 35-63 (Height and Setback Requirements in Commercial Districts with R6 Through 12 Equivalency) except that within the C4-5X District west of 70th Road, the minimum base height of the #street wall# shall be 40 feet.

86-30 - SPECIAL PERMIT TO MODIFY USE OR BULK REGULATIONS

LAST AMENDED
2/2/2011

For any #zoning lot# within the #Special Forest Hills District#, the City Planning Commission may permit modification of the #use# or #bulk# regulations, other than #floor area ratio# provisions, provided the Commission shall find that such:

(a) #use# or #bulk# modification will aid in achieving the general purposes and intent of the Special District;

(b) #use# modification will encourage a lively pedestrian environment along Austin Street;

(c) modification is the only practicable way to achieve the programmatic requirements of the development;

(d) modification will enhance the distribution of #bulk# on the #zoning lot#;

(e) modification of #bulk# will permit adequate access of light and air to surrounding #streets# and properties; and

(f) #use# or #bulk# modification will relate harmoniously to the character of the surrounding area.

The Commission may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area.

86-40 - SPECIAL OFF-STREET PARKING AND LOADING REGULATIONS

LAST AMENDED
3/24/2009

The applicable parking and loading regulations of the underlying districts shall apply within the #Special Forest Hills District#, except as modified by this Section, inclusive.

86-41 - Parking Regulations for Commercial Uses

LAST AMENDED
6/6/2024

For all #commercial# #uses# located within the #Special Forest Hills District#, the parking requirements of Section 36-21 (General Provisions) pertaining to the number of #accessory# off-street parking spaces required for each type of #use# shall be modified as follows:

(a) #uses# in parking requirement category (PRC) A shall be required to provide one parking space per 400 square feet of #floor area# for all such #uses#;

(b) #uses# in PRC-B shall be required to provide one parking space per 12 persons rated capacity; and

(c) for #transient hotels#, the #floor area# used for sleeping accommodations (PRC-F2) shall be required to provide one parking space per 12 guest rooms or suites.

86-42 - Location of Off-site Accessory Parking Spaces for Residential Uses

LAST AMENDED
12/5/2024

The applicable regulations for the location of permitted off-site #accessory# parking spaces for #residential uses# in Sections 36-42 (Off-site Spaces for Residences) and 36-421 (Maximum distance from zoning lot) shall not apply in the #Special Forest Hills District#. In lieu thereof, such off-site parking spaces, which are #accessory# to a #residential use#, may also be located on any #zoning lot# within the Special District other than the #zoning lot# to which they are #accessory#.

86-43 - Modification of Parking Requirement Waivers

LAST AMENDED
12/5/2024

The waiver provisions of Article III, Chapter 6 (Accessory Off-street Parking and Loading Regulations), inclusive, shall be modified within the #Special Forest Hills District#.

For any #commercial# or #community facility# #use# permitted in the Special District, the modification waiver provisions for a C4-4 or C4-5 District set forth in Section 36-232 (In districts with very low parking requirements) shall not apply. In lieu thereof, the total number of #accessory# off-street parking spaces required in Section 36-21 (General Provisions) shall be waived if the number of spaces for all #uses# on the #zoning lot#, required by the regulations of Section 36-21, is fewer than 40 spaces.

The provisions of Section 36-23 (Waiver of Requirements for Spaces Below Minimum Number) shall apply only to #zoning lots# existing both on March 24, 2009, and on the date of application for a building permit.

86-44 - Location of Access to the Street

LAST AMENDED
3/24/2009

The waiver provisions of Article III, Chapter 6 (Accessory Off-street Parking and Loading Regulations), pertaining to location of access shall be modified within the #Special Forest Hills District#, as follows:

(a) curb cuts for permitted or required #accessory# off-street parking and loading spaces along Austin Street from 70th Avenue to Ascan Avenue and along 71st Avenue from Austin Street to Queens Boulevard, as shown on the map in the Appendix to this Chapter, shall not be allowed. The Chairperson of the City Planning Commission, however, may certify to the Commissioner of Buildings that such #zoning lot# has access only to such prohibited location and that a curb cut in that location would not be hazardous to traffic safety and would, if granted, be no wider than 20 feet; and

(b) an application for certification respecting such curb cut shall be accompanied by a site plan drawn to a scale of at least one sixteenth inch to a foot, showing the size and location of the proposed curb cut.

The Commissioner may refer such matter to the Department of Transportation, or its successor, for a report and may base the determination on such report.

Chapter 7 - Special Harlem River Waterfront District (HRW)

File generated by https://zr.planning.nyc.gov on 6/23/2026

Chapter 7 - Special Harlem River Waterfront District (HRW)

87-00 - GENERAL PURPOSES

LAST AMENDED
12/11/2017

The "Special Harlem River Waterfront District" established in this Resolution is designed to promote and protect public health, safety and general welfare. These general goals include, among others, the following specific purposes:

(a) to maintain and reestablish physical and visual public access to and along the waterfront;

(b) to create a lively and attractive built environment that will provide amenities and services for the use and enjoyment of area residents, workers and visitors;

(c) to promote the pedestrian orientation of ground floor uses in appropriate locations, and thus safeguard a traditional quality of higher density areas of the City;

(d) to encourage well-designed development that complements the built character of the neighborhood;

(e) to take advantage of the Harlem River waterfront and provide an open space network comprised of parks, public open space and public access areas;

(f) to provide flexibility of architectural design within limits established to assure adequate access of light and air to streets and public access areas, and thus encourage more attractive and economic building forms;

(g) to enhance neighborhood economic diversity by broadening the range of housing choices for residents at varied incomes;

(h) to encourage investment in mixed residential and industrial neighborhoods by permitting expansion and new development of a wide variety of uses in a manner that will safeguard the health and safety of people using the area; and

(i) to promote the most desirable use of land and building development in accordance with the District Plan for the Harlem River waterfront and thus conserve the value of land and buildings and thereby protect City tax revenues.

87-01 - Definitions

LAST AMENDED
6/6/2024

For purposes of this Chapter, matter in italics is defined in Sections 12-10, 32-301, 62-11 or 64-11, or within this Section.

Ground floor level

The "ground floor level" shall mean the finished floor level of the first #story# that is within five feet of an adjacent public sidewalk or any other #publicly accessible open area#.

Major Deegan Expressway street line

The "Major Deegan Expressway street line" shall be:

(a) in the event that the portion of the Major Deegan Expressway traversing Parcels 1, 2, 3 or 4, as shown on Map 1 in the Appendix to this Chapter, has been widened after December 11, 2017, a line 22 feet west of and parallel to the as-built western edge of such Expressway structure for Parcel 1, and a line 14 feet west of and parallel to the as-built western edge of such Expressway for Parcels 2, 3, or 4; or

(b) in the event that the portion of the Major Deegan Expressway traversing Parcels 1, 2 , 3 or 4, as shown on Map 1 in the Appendix to this Chapter, has not been widened after December 11, 2017, a line connecting on:

(1) Parcel 1:

(i) a point located on the northern boundary of Parcel 1 that is 120 feet west of its intersection with the eastern parcel boundary; and

(ii) a point on the southern boundary of Parcel 1 that is 110 feet west of its intersection with the eastern parcel boundary.

(2) Parcel 2:

(i) a point located on the northern boundary of Parcel 2 that is 74 feet west of its intersection with the eastern parcel boundary; and

(ii) a point located on the southern boundary of Parcel 2 that is 74 feet west of its intersection with the eastern parcel boundary.

(3) Parcel 3:

(i) a point located on the northern boundary of Parcel 3 that is 74 feet west of its intersection with the eastern parcel boundary; and

(ii) a point located on the southern boundary of Parcel 3 that is 30 feet west of its intersection with the eastern parcel boundary.

(4) Parcel 4:

(i) a point located on the northern #lot line# of Parcel 4 that is 30 feet west of its eastern #lot line#; and

(ii) a point located on the eastern #lot line# of Parcel 4 that intersects with a line parallel to and 60 feet from the northern #lot line#.

87-02 - General Provisions

LAST AMENDED
12/11/2017

In harmony with the general purpose and intent of this Resolution and the general purposes of the #Special Harlem River Waterfront District#, the regulations of the #Special Harlem River Waterfront District# shall apply. The regulations of all other Chapters of this Resolution are applicable, except as superseded, supplemented or modified by the provisions of this Chapter. In the event of a conflict between the provisions of this Chapter and other regulations of this Resolution, the provisions of this Chapter shall control, except as specifically modified in this Chapter.

87-03 - District Plan

LAST AMENDED
12/11/2017

The regulations of this Chapter are designed to implement the #Special Harlem River Waterfront District# Plan as set forth in the Appendix to this Chapter. The plan area has been divided into three Subdistricts comprised of parcels that consist of tax blocks and lots as follows:

Core Subdistrict - tax blocks and lots existing on June 30, 2009

Parcel 1: Block 2349, Lot 112

Parcel 2: Block 2349, Lot 100 (that portion not mapped as parkland in accordance with Alteration Map No. 13124, dated January 29, 2009, in the Office of the Bronx Borough President)

Parcel 3: Block 2349, Lots 46, 47, 146

Parcel 4: Block 2349, Lot 38

Parcel 5: Block 2349, Lots 15, 20

Parcel 6: Block 2349, Lots 3, 4

Parcel 7: Block 2323, Lot 43

Parcel 8: Block 2323, Lot 28

Parcel 9: Block 2323, Lots 5, 13, 18

North Subdistrict - tax blocks and lots existing on December 11, 2017

Parcel 10: Block 2539, Lot 1, portion of
Lots 2, 3

Block 2356, Lots 2, 72 and tentative
Lot 102 (existing on December 11, 2017)

South Subdistrict - tax blocks and lots existing on December 11, 2017

Parcel 11: Block 2319, Lot 55

Parcel 12: Block 2319, Lot 60

Parcel 13: Block 2319, Lots 37 and 155

Parcel 14: Block 2319, Lot 98

Parcel 15: Block 2319, Lot 99

Parcel 16: Block 2319, Lots 100 and 108

Parcel 17: Block 2319, Lot 109

Parcel 18: Block 2319, Lot 112

Parcel 19: Block 2319, Lot 2

Parcel 20: Block 2316, Lots 1 and 35

Parcel 21: Block 2319, Lot 200

The District Plan includes the following maps:

Map 1. (Special Harlem River Waterfront District, Subdistricts and Parcels)

Map 2. (Designated Non-residential Use Locations)

Map 3. (Waterfront Access Plan: Public Access Elements)

Map 4. (Waterfront Access Plan: Designated Visual Corridors)

87-04 - Applicability of District Regulations

LAST AMENDED
12/11/2017

Parcels 1, 2, 3 and 4, as shown on Map 1 (Special Harlem River Waterfront District and Parcels) in the Appendix to this Chapter, shall be considered #waterfront zoning lots#, notwithstanding the mapping of any #streets# on such parcels after June 30, 2009.

87-041 - Applicability of Article VI, Chapter 2

LAST AMENDED
12/5/2024

The provisions of Article VI, Chapter 2 (Special Regulations Applying in the Waterfront Area) shall apply in all #waterfront areas#, except as modified by the provisions of this Chapter.

For the purpose of applying the provisions of Article VI, Chapter 2, Parcels 1, 2, 3 and 4 within the Core Subdistrict, and any parcels having a boundary within 40 feet of a #shoreline# within the South Subdistrict, as shown on Map 1 (Special Harlem River Waterfront District, Subdistricts and Parcels) in the Appendix to this Chapter, shall be considered #waterfront zoning lots#, notwithstanding the mapping of any #streets# on such parcels after June 30, 2009 for the Core Subdistrict, and after December 11, 2017, for the South Subdistrict.

87-042 - Applicability of Article VI, Chapter 4

LAST AMENDED
12/5/2024

In #flood zones#, in the event of a conflict between the provisions of this Chapter and the provisions of Article VI, Chapter 4 (Special Regulations Applying in Flood Zones), the provisions of Article VI, Chapter 4, shall control.

87-043 - Applicability of Article XII, Chapter 3

LAST AMENDED
12/5/2024

Within the South Subdistrict, for M1 Districts mapped with a #Residence District#, the provisions of Article XII, Chapter 3 (Special Mixed Use District) for #waterfront blocks# shall apply, except as modified in this Chapter. In the event of a conflict between the provisions of Article XII, Chapter 3

and this Chapter, the provisions of this Chapter shall control.

87-044 - Applicability of Mandatory Inclusionary Housing

LAST AMENDED
12/5/2024

The North Subdistrict, as shown on Map 1, shall be a #Mandatory Inclusionary Housing area#.

87-05 - Modification of Use and Bulk Regulations for Parcels Containing Newly Mapped Streets

LAST AMENDED
12/11/2017

In the event that #streets# are mapped on Parcels 1, 2, 3 and 4 in the Core Subdistrict after June 30, 2009, and on any Parcel in the South Subdistrict after December 11, 2017, as shown on Map 1 in the Appendix to this Chapter, the area within such #streets# may continue to be considered part of the #zoning lot# for the purposes of applying #floor area# regulations of this Zoning Resolution.

87-10 - SPECIAL USE REGULATIONS

LAST AMENDED
12/11/2017

The #use# regulations of the underlying districts and of Article VI, Chapter 2 (Special Regulations Applying in the Waterfront Area) are modified by the provisions of this Section, inclusive.

87-11 - Use Regulations Within the Core Subdistrict

LAST AMENDED
12/11/2017

The special #use# provisions of this Section, inclusive, shall apply to #zoning lots# within the Core Subdistrict, as shown on Map 1 in the Appendix to this Chapter.

87-111 - Vehicle storage establishments

LAST AMENDED
6/6/2024

Commercial or public utility vehicle storage, including #accessory# motor fuel pumps, listed under Use Group IX(C), open or enclosed, shall be a permitted #use# on Parcel 5, as shown on Map 1 in the Appendix to this Chapter, provided that:

(a) such #use# is the primary #use# on Parcel 5;

(b) no more than 10,000 square feet of #floor area# shall be provided on Parcel 5; and

(c) a #shore public walkway# is provided as set forth in paragraph (a) of Section 87-71 (Special Public Access Provisions).

The streetscape provisions of Section 87-41, inclusive and the special height and setback regulations of Section 87-32, inclusive, shall not apply to such #use#. In lieu thereof, the applicable height and setback provisions of Article VI, Chapter 2 shall apply.

87-112 - Location of commercial space

LAST AMENDED
6/6/2024

The provisions of Section 32-422 (Location of floors occupied by commercial uses) shall be modified such that the limitations set forth in paragraph (a) of such Section need not apply, and the requirements in paragraph (b) of such Section shall apply only where #commercial uses# are located above any #story# containing #dwelling units#.

87-113 - Location of underground uses

LAST AMENDED
10/17/2017

Notwithstanding the provisions of Section 62-332 (Rear yards and waterfront yards), underground #uses#, such as parking garages, shall not be allowed in #waterfront yards#.

87-12 - Use Regulations in the North Subdistrict

LAST AMENDED

12/11/2017

The special #use# provisions of this Section, inclusive, shall apply to #zoning lots# within the North Subdistrict, as shown on Map 1 in the Appendix to this Chapter.

87-121 - Modification of supplementary commercial use regulations

LAST AMENDED
6/6/2024

In the North Subdistrict, the provisions of Section 32-422 (Location of floors occupied by commercial uses) shall apply in lieu of Section 32-421 (Limitation on floors occupied by commercial uses).

In addition, the provisions of Section 32-422 shall be modified such that the limitations set forth in paragraph (a) of such Section need not apply, and the requirements in paragraph (b) of such Section shall apply only where #commercial uses# are located above any #story# containing #dwelling units#.

87-20 - SPECIAL FLOOR AREA REGULATIONS

LAST AMENDED
12/11/2017

The applicable #floor area# regulations of the underlying districts and of Article VI, Chapter 2 (Special Regulations Applying in the Waterfront Area), or of Article XII, Chapter 3 (Special Mixed Use District), are modified by the provisions of this Section, inclusive.

87-21 - Floor Area Regulations in the Core Subdistrict

LAST AMENDED
12/11/2017

The provisions of this Section, inclusive, shall apply to #developments# and #enlargements# within the Core Subdistrict, as shown on Map 1 in the Appendix to this Chapter.

87-211 - Special floor area regulations

LAST AMENDED
12/5/2024

The maximum #floor area ratio# for #zoning lots# containing only standard #residences#, or such #residential uses# with #community facility# or #commercial# #uses#, shall be 3.33. The maximum #floor area ratio# for #zoning lots# containing #qualifying affordable housing# or #qualifying senior housing# shall be 4.0.

87-212 - Special floor area requirement for certain commercial uses

LAST AMENDED
6/6/2024

For each square foot of #commercial# #floor area# in a #building# occupied by #uses# listed under Use Groups VI or VIII an equal or greater amount of permitted #residential#, #community facility# or other permitted #commercial# #floor area# shall be provided.

However, the City Planning Commission may authorize a modification or waiver of this provision upon finding that such #building# includes:

(a) a superior site plan that enables safe and efficient pedestrian connectivity to and between establishments and publicly accessible areas;

(b) a superior parking and circulation plan that reduces conflicts between pedestrian and vehicular traffic, minimizes open parking lots and limits conflicts between curb cuts;

(c) a design that enhances and is integrated with publicly accessible areas including provision of a public entrance fronting on a #waterfront public access area#;

(d) a variety of retail establishments; and

(e) #uses# that do not unduly affect the #residential uses# in the nearby area or conflict with future land use and development of adjacent areas.

The Commission may prescribe appropriate conditions and safeguards to minimize adverse effects of any such #uses# on publicly accessible areas.

87-22 - Floor Area Regulations in the North Subdistrict

LAST AMENDED
12/11/2017

Within the North Subdistrict, as shown on Map 1 in the Appendix to this Chapter, for all permitted #uses#, the #floor area# provisions of Article VI, Chapter 2 (Special Regulations Applying in the Waterfront Area) shall apply. However, in no event shall the maximum #floor area ratio# for any #zoning lot# exceed 4.6.

87-30 - SPECIAL HEIGHT AND SETBACK, LEGAL WINDOW AND COURT REGULATIONS

LAST AMENDED
12/11/2017

In the Core Subdistrict, as shown on Map 1 in the Appendix to this Chapter, the underlying height and setback regulations shall apply, except as modified by the provisions of this Section, inclusive. The special height and setback regulations of Section 62-34 (Height and Setback Regulations on Waterfront Blocks), inclusive, shall not apply.

In the North Subdistrict, as shown on Map 1, the underlying height and setback regulations shall apply, except as modified by the provisions of this Section, inclusive, as applicable. The height and setback regulations of Section 62-34 (Height and Setback Regulations on Waterfront Blocks) shall not apply, except as specifically made applicable in this Section, inclusive.

In the South Subdistrict, as shown on Map 1, the height and setback and other bulk regulations of Article XII, Chapter 3 (Special Mixed Use District) applicable to M1 Districts mapped with an R8 District in #waterfront blocks# shall apply, except as modified in this Section, inclusive.

In all Subdistricts, the height of all #buildings or other structures# shall be measured from the #base plane#.

87-31 - Permitted Obstructions

LAST AMENDED
12/5/2024

In the Core and North Subdistricts, the provisions of Section 33-42 (Permitted Obstructions) shall apply to all #buildings#. In addition, dormers may penetrate a maximum base height in accordance with the provisions of paragraph (b)(1) of Section 23-413 (Permitted obstructions in certain districts).

87-32 - Special Height and Setback Regulations in the Core Subdistrict

LAST AMENDED
12/11/2017

In the Core Subdistrict, as shown on Map 1 in the Appendix to this Chapter, for #developments# and #enlargements#, the provisions of this Section, inclusive, shall apply.

For the purposes of applying the special height and setback regulations of this Section, inclusive, and the provisions of the underlying height and setback, distance between #legally required windows# and #lot lines#, and #court# regulations, as applicable, a #shore public walkway#, mapped parkland, #supplemental public access area#, #upland connection#, or fire apparatus access road provided in accordance with the provisions of Section 87-61 (Special Provisions for Certain Fire Apparatus Access Roads), shall be considered a #street# and its boundary shall be considered a #street line#. In addition, the #street line# of Exterior Street shall be modified as follows:

(a) for Parcels 1, 2, 3 and 4, the westerly #street line# along Exterior Street shall be the #Major Deegan Expressway street line# or the #street line# of Exterior Street, whichever is closest to the #shore line#; and

(b) for Parcel 1, the #street line# of East 149th Street shall be the southernmost boundary of any easement area existing on December 11, 2017, any fire apparatus access road or any private road.

For Parcels 2, 3 and 4, where a fire apparatus access road in accordance with the provisions of Section 87-61 (Special Provisions for Certain Fire Apparatus Access Roads) is immediately adjacent to and contiguous with the #shore public walkway#, the fire apparatus access road shall be considered as part of the #shore public walkway#, and the #street line# shall be considered the boundary of the fire apparatus access road furthest from the #shoreline#. In addition, for Parcels 1 and 2, where a fire apparatus access road in accordance with the provisions of Section 87-61 is provided immediately adjacent to and contiguous with the northern or southern boundaries, as applicable, of the mapped parkland, the #street line# shall be considered the boundary of the fire apparatus access road furthest from the mapped parkland.

87-321 - Street wall location

LAST AMENDED
12/5/2024

In the Core Subdistrict, the following #street wall# location rules shall apply.

Along the following frontages, the #street wall# location provisions of paragraph (b) of Section 23-431 shall apply, except that the #street walls# shall extend to the minimum base heights as specified in Section 87-322 (Base heights and transition heights):

(a) On Parcels 1, 2, 3 and 4, as shown on Map 1 in the Appendix to this Chapter, for frontages along the #shore public walkway#, #supplemental public access areas#, #upland connections#, mapped parkland or #visual corridors#, as shown on Map 2; and

(b) On Parcels 5, 6, 7, 8 and 9, as shown on Map 1, for frontages along #visual corridors#, or #upland connections#, as shown on Map 2.

Along other frontages, no #street wall# location provisions shall apply.

87-322 - Base heights and transition heights

LAST AMENDED
12/5/2024

In the Core Subdistrict, the following base heights, required setbacks and maximum transition heights shall apply. Towers are permitted above the maximum heights set forth in this Section only in accordance with Section 87-323 (Tower provisions).

(a) Base heights

(1) Within 50 feet of the #shore public walkway# for #street walls# fronting on, or within 50 feet of, the #shore public walkway#, the maximum base height shall be 85 feet, except that:

(i) on Parcels 1, 2, 3 and 4, as shown on Map 1 in the Appendix to this Chapter, for #street walls# fronting on a #shore public walkway#, at least 30 percent of the #aggregate width of street walls# fronting on the #shore public walkway#, or a contiguous #street wall# width of 60 feet, whichever is greater, shall not exceed a maximum height of 45 feet. In addition to being applied along the #shore public walkway#, such lowered #street wall# may be applied along intersecting #streets# within 100 feet of the #shore public walkway#; and

(ii) on Parcels 5 and 6, as shown on Map 1, such maximum base height shall be 45 feet.

(2) Beyond 50 feet of the #shore public walkway# and beyond 50 feet of the #Major Deegan Expressway street line#

Along all other frontages beyond 50 feet of the #shore public walkway# and beyond 50 feet of the #Major Deegan Expressway street line#, the #street wall# shall rise without setback to a minimum base height of 60 feet, or the height of the #building#, whichever is less, and may rise to a maximum base height of 105 feet.

(3) Along, and within 50 feet of, the #Major Deegan Expressway street line#

Along, and within 50 feet of, the #Major Deegan Expressway street line#, the #street wall# shall rise without setback to a minimum base height of 15 feet, or the height of the #building#, whichever is less, and may rise to a maximum base height of 105 feet.

(b) Required setbacks

Above such maximum base height, #street walls# shall be set back a minimum of 30 feet from the #street line# along the #shore public walkway# on Parcel 1, 15 feet from such #street line# along the #shore public walkway# on any other parcels, and a minimum of 10 feet from the #street line# along all other #streets#. Such setbacks may be modified pursuant to the provisions of Section 23-433, except that on Parcel 1 along the #shore public walkway# dormers may not exceed a depth of 15 feet.

In addition, on Parcels 1, 2, 3 and 4, in locations where the maximum base height is limited to 45 feet, #street walls# above such maximum base height shall be set back a minimum of 30 feet from the #street line#, and a minimum of seven feet from any portion of the #street wall# below such height.

(c) Maximum transition heights

For #street walls# fronting on, or within 50 feet of, the #shore public walkway#, #street walls#

above a required setback may rise to a maximum transition height of 125 feet and, along all other frontages, #street walls# above a required setback may rise to a maximum transition height of 155 feet. Such transition heights may only be exceeded where towers are provided in accordance with the provisions of Section 87-323 (Tower provisions).

87-323 - Tower provisions

LAST AMENDED
12/5/2024

All #stories# that partially or wholly exceed the applicable maximum heights set forth in Section 87-322 (Base heights and transition heights) shall be considered a "tower" and may exceed such transition height only in accordance with the tower provisions of this Section.

(a) Maximum number of towers

For #zoning lots# with less than 130,000 square feet of #lot area#, only one tower shall be permitted. For #zoning lots# with 130,000 square feet of #lot area# or more, not more than two towers shall be permitted. The minimum separation between any two towers on the same #zoning lot# shall be 50 feet.

(b) Setbacks

All towers shall comply with the applicable setback provisions set forth in paragraph (b) of Section 87-322.

The dormer provisions of paragraph (b)(1) of Section 23-413 (Permitted obstructions in certain districts) shall not apply to the tower portion of a #building#. In lieu thereof, up to 50

percent of the width of the #street wall# of a tower shall be permitted to encroach into a required setback area, except in setback areas along the #shore public walkway#.

(c) Maximum tower size

Each #story# of a tower shall not exceed a gross area of 10,000 square feet, except that any encroachment into a setback area provided in accordance with paragraph (b) of this Section need not be included in such gross area.

(d) Maximum tower width

On Parcels 1, 3, 4 and 7, as shown on Map 1 in the Appendix to this Chapter, the maximum width of any #story# of a tower facing the #shoreline# shall not exceed 130 feet, and on Parcel 2 the maximum width of any #story# of a tower facing mapped parkland shall not exceed 100 feet.

(e) Maximum height of towers

For #zoning lots# with 100,000 square feet or less of #lot area#, the maximum height of a tower shall be 300 feet, and for #zoning lots# with more than 100,000 square feet of #lot area# the maximum height of a tower shall be 400 feet.

However, for #zoning lots# with two towers, such maximum tower height of 400 feet shall apply to only one tower and a maximum tower height of 260 feet shall apply to the second tower. There shall be a height differential of at least 40 feet between any two towers on a #zoning lot#.

(f) Tower top articulation

The uppermost three #stories# of a tower, or as many #stories# as are located entirely above a height of 300 feet, whichever is less, shall have a #lot coverage# not exceeding 90 percent of

the #lot coverage# of the #story# immediately below such #stories#.

87-324 - Authorization to modify the special street line provision for Parcels 2, 3 or 4

LAST AMENDED
12/11/2017

For Parcels 2, 3 or 4, as shown on Map 1 in the Appendix to this Chapter, the City Planning Commission may authorize the modification of the definitions of #Major Deegan Expressway street line# as set forth in paragraph (b) of Section 87-01 and the associated special #street line# provision of paragraph (a) of Section 87-32 (Special Height and Setback Regulations in the Core Subdistrict), on condition that there shall be no less than 14 feet between the #street wall# of #developments# or #enlargements# and the as-built western edge of the Major Deegan Expressway. In conjunction with the modification of such #street line# provision, the special open area provisions of paragraph (a) of Section 87-416 may also be modified. In order to grant such authorization, the Commission shall find that:

(a) the #development# or #enlargement# is not feasible without such modification, or that the requested modification will permit a #development# or #enlargement# that satisfies the purpose of this Chapter;

(b) such modification is the least modification required to achieve the purpose for which it is granted;

(c) the benefits to the surrounding area from the modification outweigh any disadvantages that may be incurred thereby in the area; and

(d) such modification will enhance the quality of the design of the #development# or #enlargement#.

Prior to granting such authorization, the Commission shall request the Department of Transportation of the State of New York to indicate within 30 days whether said agency has any plan to widen or expand the Major Deegan Expressway or its ramps.

The Commission may prescribe appropriate conditions and safeguards to promote the benefits to the surrounding area or to minimize adverse effects on the character of the surrounding area.

87-33 - Special Height and Setback, Legal Windows and Courts in the North Subdistrict

LAST AMENDED
12/11/2017

In the North Subdistrict, as shown on Map 1 in the Appendix to this Chapter, the provisions of this Section, inclusive, shall apply.

For the purposes of applying the underlying height and setback, distance between #legally required windows# and #lot lines#, and #court# regulations, as modified by the provisions of this Section, inclusive, the following provisions shall apply: a #shore public walkway#, #visual corridor#, #upland connection# or #supplemental public access area# shall be considered a #street# and its boundary shall be treated as a #street line#. Any #visual corridor# or #upland connection# that measures at least 75 feet in width, or any #shore public walkway# or #supplemental public access area#, shall be considered a #wide street#. Any other #visual corridor# or #upland connection# shall be considered a #narrow street#.

In the North Subdistrict, as shown on Map 1 in the Appendix to this Chapter, the provisions of this Section, inclusive, shall apply.

For the purposes of applying the underlying height and setback, distance between #legally required windows# and #lot lines#, and #court# regulations, as modified by the provisions of this Section, inclusive, the following provisions shall apply: a #shore public walkway#, #visual corridor#, #upland connection# or #supplemental public access area# shall be considered a #street# and its boundary shall be treated as a #street line#. Any #visual corridor# or #upland connection# that measures at least 75 feet in width, or any #shore public walkway# or #supplemental public access area#, shall be considered a #wide street#. Any other #visual corridor# or #upland connection# shall be considered a #narrow street#.

87-331 - Maximum height of buildings and setback regulations

LAST AMENDED
12/5/2024

In the North Subdistrict, #buildings or other structures#, or portions thereof, within 30 feet of a #shore public walkway#, shall not exceed the maximum base height provisions set forth in paragraph (a) of this Section. #Buildings or other structures#, or portions thereof, within 10 feet of all other #wide streets#, or within 15 feet of #narrow streets#, shall not exceed the maximum base height provisions set forth in paragraph (b) of this Section. Except as otherwise set forth in paragraphs (a) or (b) of this Section, as applicable, such maximum heights may be exceeded only in accordance with Section 87-31 (Permitted Obstructions).

(a) Height allowances along the #shore public walkway#:

The maximum height of #buildings or other structures#, or portions thereof, located within 30

feet of a #shore public walkway# shall be as follows:

(1) such #buildings or other structures#, or portions thereof, shall not exceed 65 feet, except that 80 percent of the #street wall# of such #building or other structure#, or portion thereof, may rise to a maximum height of 85 feet; and

(2) no dormers shall be permitted.

(b) Height allowances along all other frontages

The maximum height of #buildings or other structures#, or portions thereof, located within 10 feet of all other #wide streets#, or within 15 feet of #narrow streets#, shall not exceed a maximum height of 85 feet.

Beyond 30 feet of a #shore public walkway#, or beyond 10 feet of all other #wide streets# or 15 feet of #narrow streets#, the maximum height of #buildings or other structures# shall be as set forth in Section 87-332 (Towers).

87-332 - Towers

LAST AMENDED
12/5/2024

In the North Subdistrict, the maximum height of #buildings or other structures#, or portions thereof, beyond 30 feet of a #shore public walkway#, or beyond 10 feet of all other #wide streets#, or 15 feet of #narrow streets#, shall be 85 feet.

Such maximum #building# height may be exceeded by "towers" permitted in Location A or Location B. Such #towers# shall be provided in accordance with paragraphs (a) or (b) of this Section, as applicable.

For the purposes of applying the provisions of this Section, Location A shall be the portion of the North Subdistrict located within 100 feet of the northerly boundary of East 149th Street; Location B shall be the remaining portion of the North Subdistrict; and all #stories# of a #building# located partially or wholly above 85 feet shall be considered a "tower" and shall comply with the provisions of this Section. Two or more #abutting# #towers# shall be considered one #tower#.

(a) Tower in Location A

One #tower# shall be permitted, subject to the following provisions:

(1) the maximum width of any #story# of a #tower# facing a #shoreline# shall not exceed 100 feet, except that any permitted dormers need not be included in such maximum width;

(2) each #residential# #story# of such #tower#, partially or fully above the height of the base height, shall not exceed 10,000 square feet, except that any permitted dormers need not be included in such gross area;

(3) such #tower# shall not exceed a maximum #building# height of 375 feet;

(4) a #tower# that exceeds a height of 300 feet shall provide articulation in accordance with the following provisions: the gross area of any #story# located within the highest 15 percent of the #tower# shall not exceed 90 percent of the gross area of that #story# located directly below the highest 15 percent of the #tower#.

(b) Towers in Location B

#Towers# shall be permitted, subject to the following provisions:

(1) no #tower# shall be located within 60 feet of a #tower# within Location A;

(2) the aggregate width of #towers# that face a #shoreline#, and are located within 100 feet of a #shore public walkway#, shall not exceed 185 feet, where such aggregate width is measured in accordance with paragraph (b)(2) of Section 62-343 (Height and setback regulations in other medium- and high-density districts);

(3) the #aggregate width of street walls# of #towers# located along the southerly boundary of the required #visual corridor# as specified in paragraph (d) of Section 87-71, shall not exceed 150 feet.

(4) such #towers# shall not exceed a maximum #building# height of 260 feet; and

(5) any #tower# that exceeds a height of 200 feet shall provide articulation in accordance with the following provisions: the gross area of any #story# located within the highest 15 percent of the #tower# shall not exceed 90 percent of the gross area of that #story# located directly below the highest 15 percent of the #tower#.

87-34 - Special Height and Setback Provision in the South Subdistrict

LAST AMENDED
12/11/2017

For #zoning lots# that coincide with, or are completely within, the boundaries of Parcel 19 in the South Subdistrict, as shown on Map 1 in the Appendix to this Chapter, the setback provisions of Section 62-34 (Height and Setback Regulations on Waterfront Blocks) shall be modified to require an #initial setback distance# with a depth of 15 feet from the boundary of a #shore public walkway#.

87-40 - SPECIAL REGULATIONS FOR GROUND FLOOR LEVEL

LAST AMENDED
6/6/2024

The provisions set forth in this Section, inclusive, shall apply to #ground floor levels# within the #Special Harlem River Waterfront District#, as applicable.

87-41 - Streetscape Regulations

LAST AMENDED
6/6/2024

The underlying #ground floor level# streetscape provisions set forth in Section 32-30 (STREETSCAPE REGULATIONS), inclusive, shall apply, except that #ground floor level# #street frontages# locations, in 50-foot increments designated on Map 2 (Designated Non-Residential Use Locations) in the Appendix of this Chapter, shall be considered #Tier C street frontages#, and all other frontages shall be considered #Tier B street frontages#.

For the purposes of applying such streetscape regulations, #shore public walkways#, mapped parkland, #supplemental public access areas#, #upland connections# and fire apparatus access roads provided pursuant to the provisions of Section 87-61 (Special Provisions for Certain Fire Apparatus Access Roads), shall be considered #streets#, and #shore public walkways# and mapped parkland shall be considered #wide streets#.

87-42 - Building Entrances and Maximum Widths

LAST AMENDED
6/6/2024

On Parcels 5 and 6, as shown on Map 1 in the Appendix to this Chapter, the width of any ground floor level #commercial# or #community facility# establishments facing a #shore public walkway# or #upland connection#, shall be limited to 60 feet for each #street wall# facing such #shore public walkway# or #upland connection#.

On Parcels 2, 3 and 4, as shown on Map 1 in the Appendix to this Chapter, a main front entrance for at least one #building#, as the term "main front entrance" is used in the New York City Fire Code, Section 502.1 (FRONTAGE SPACE), or its successor, shall be located facing the #shore public walkway#. Such main front entrance of a #building# shall be:

(a) on Parcel 2, located no less than 95 feet from a mapped parkland; and

(b) on Parcels 3 and 4, located no less than 45 feet from an #upland connection#.

87-43 - Open Parking Areas

LAST AMENDED
6/6/2024

Open parking areas shall be permitted only in the following locations:

(a) on Parcel 1, as shown on Map 1 in the Appendix to this Chapter, a parking lot shall be permitted east of the #Major Deegan Expressway street line#;

(b) on Parcel 5, as shown on Map 1, a parking lot shall be permitted anywhere within the parcel only if a commercial or public utility vehicle storage #use#, including #accessory# motor fuel pumps listed under Use Group IX(C), is #developed# or #enlarged# as the primary #use# on the parcel;

(c) on Parcel 6, a parking lot shall be permitted within 130 feet of the southern boundary of the parcel with East 138th Street; and

(d) on all parcels, open, unscreened, in tandem (one behind the other), #accessory# off-street parking spaces shall be permitted on private roads, including fire apparatus access roads provided pursuant to the provisions of Section 87-61 (Special Provisions for Certain Fire Apparatus Access Roads), provided that all parking spaces comply with the Department of Transportation standards for on-street parking.

For such open parking lots, the provisions of paragraph (c) of Section 25-621 (Location of parking spaces in certain districts) shall not apply. In addition, on Parcel 1, for parking lots located east of the #Major Deegan Expressway street line#, or, on Parcel 5, for parking lots used solely as a commercial or public utility vehicle storage #use#, including #accessory# motor fuel pumps listed under Use Group IX(C), the provisions of Sections 37-90 (PARKING LOTS) and 62-655 (Planting and trees) shall be modified to permit fencing, excluding chain link fencing, in lieu of all planting requirements, provided that the surface area of such fencing is not more than 50 percent opaque and provided that the height does not exceed six feet. The provisions of Sections 37-90 and 62-555 shall not apply to any parking lots provided within private roads, including fire apparatus access roads provided pursuant to the provisions of Section 87-61.

87-44 - Special Open Area Provisions

LAST AMENDED
6/6/2024

(a) For Parcels 1, 2, 3 and 4, as shown on Map 1 in the Appendix to this Chapter, the open area between the #street wall# of a #building# fronting on the #Major Deegan Expressway street line# and the western edge of such Expressway, shall be subject to the provisions of Section 23-613 (Front yard planting requirements), whether the ground floor is occupied by #residential uses# or non- #residential uses#. Such provisions shall be modified by the provisions of this Section.

(1) Primary circulation path

A circulation path, with a width of at least 13 feet or the width of such open area, whichever is less, and the western edge of such path shall be provided within five feet of a #street wall# facing the #Major Deegan Expressway street line#. Such circulation path shall extend along the entire frontage of the #zoning lot#, and shall be constructed in accordance with Department of Transportation standards for sidewalks.

(2) Planting

At least 20 percent, but not more than 50 percent of the required open area shall be planted with any combination of perennials, annuals, decorative grasses, shrubs or trees in planting beds, raised planting beds or planter boxes. Such planting bed shall extend to a depth of at least three feet, inclusive of any structure containing the planted material, and any individual planted area shall have a width of at least five feet. For planting located east of the circulation path required pursuant to this paragraph (a), the maximum linear length of any individual planting bed shall not exceed 50 feet.

(3) Other amenities

The remainder of the open area may contain any combination of:

(i) streetscape amenities including, but not limited to, benches or tables and chairs;

(ii) entertainment amenities including, but not limited to, water features, playgrounds, dog runs, game tables, courts or skateboard parks; and

(iii) streetscape-enhancing amenities including, but not limited to, trees in tree pits, and lighting, or sculptural artwork.

All streetscape and entertainment amenities provided in accordance with paragraphs (a)(3)(i) and (a)(3)(ii) of this Section shall be connected to the primary circulation path required by paragraph (a) of this Section through secondary circulation paths, paved with permeable materials, each with a minimum width of six feet. Any planting associated with an amenity including, but not limited to, playgrounds and dog runs, as applicable, may exceed the amount set forth in paragraph (b) of this Section.

Any open area not otherwise allocated to amenities or secondary circulation paths shall also be paved with permeable materials. The minimum clear space between any planted areas required by paragraph (b) of this Section, any amenity provided under this paragraph, or any combination thereof, shall be six feet.

(4) Fencing

In no event shall chain link fencing or barbed or razor wire be permitted in any open area provided pursuant to this Section. No fences may exceed a height of four feet.

(b) In the event that Parcel 1 is #developed# with #mixed buildings#, sidewalks shall be provided on such parcel as follows:

(1) Sidewalks with a width of at least 15 feet shall be provided along the entire Exterior Street and East 149th Street frontage of a #zoning lot#.

(2) In locations where the width of the sidewalk within the #street# is less than 15 feet, a sidewalk widening shall be provided on the #zoning lot# such that the combined width of the sidewalk within the #street# and the sidewalk widening equals at least 15 feet. However, existing #buildings# remaining on the #zoning lot# need not be removed in order to comply with this requirement.

All sidewalks and sidewalk widenings shall be constructed or improved to Department of Transportation standards and shall connect at grade to the adjoining public sidewalks.

87-50 - SPECIAL PARKING REGULATIONS

LAST AMENDED
12/11/2017

The applicable parking and loading regulations of underlying districts or of Article VI, Chapter 2 (Special Regulations Applying in the Waterfront Area) shall apply, except as modified by the provisions of this Section, inclusive.

87-51 - Special Parking Regulations in the Core Subdistrict

LAST AMENDED
12/11/2017

(a) Off-site parking

The off-site parking location provisions of Sections 36-42 and 36-43 shall not apply. In lieu thereof, all permitted or required #accessory# off-street parking spaces may be provided on any #zoning lot# within the Core Subdistrict.

(b) Roof parking

Any roof, or portion thereof, that covers off-street parking spaces and is larger than 400 square feet in surface area, shall be landscaped. Up to five percent of such roof area may be used for mechanical equipment, provided that such mechanical equipment is screened from view by a fence which is at least 75 percent opaque or by at least three feet of dense planting. Up to 25 percent of such roof area may be accessible solely from an adjacent #dwelling unit# and the remaining roof area shall be accessible for the recreational use of the occupants of the #building# in which it is located. Hard surfaced areas shall not cover more than 60 percent of such roof area.

87-52 - Curb Cut Restrictions

LAST AMENDED
12/11/2017

On Parcels 1, 2, 3 and 4, as shown on Map 1 in the Appendix to this Chapter, no curb cuts shall be provided facing a #shore public walkway#, and further, on Parcels 1 and 2, no curb cuts shall be provided facing a mapped parkland.

87-53 - Sidewalks

LAST AMENDED10/17/2017

In the event that Parcel 1, as shown on Map 1 in the Appendix to this Chapter, is #developed# with #mixed use buildings#, as defined in Section 123-11, sidewalks shall be provided on Parcel 1, as follows:

(a) Sidewalks with a depth of at least 15 feet, measured perpendicular to the curb of a #street#, shall be provided along the entire Exterior Street and East 149th Street frontage of a #zoning lot#. In locations where the width of the sidewalk within the #street# is less than 15 feet, a sidewalk widening shall be provided on the #zoning lot# so that the combined width of the sidewalk within the #street# and the sidewalk widening equals 15 feet. However, existing #buildings# to remain on the #zoning lot# need not be removed in order to comply with this requirement.

(b) A 22 foot wide walkway shall extend east of and along the Parcel 1 #building# line, linking East 149th Street and mapped parkland, or a fire apparatus access road if such road is provided adjacent to mapped parkland. In the event that a parking lot is provided east of such walkway, the easternmost seven feet of such walkway shall be densely planted with evergreen shrubs maintained at a maximum height of three feet above the adjoining walkway. Such walkway

and planting strip may be interrupted to allow vehicular or pedestrian access.

(c) Any driveway located east of the Parcel 1 #building# line that extends along a sewer easement and intersects Exterior Street shall have curbs and sidewalks with a minimum width of 13 feet along each curb, which may be interrupted to allow for vehicular access to a parking lot.

All sidewalks and sidewalk widenings shall be constructed or improved to Department of Transportation standards, shall be at the same level as the adjoining public sidewalks, and shall be accessible to the public at all times.

87-60 - FIRE APPARATUS ACCESS ROADS

LAST AMENDED
12/11/2017

The provisions of this Section, inclusive, shall apply in the Core Subdistrict, as shown on Map 1 in the Appendix to this Chapter. The #lot area# allocated to fire apparatus access road pursuant to the provisions of this Section 87-60, inclusive, may count towards any required #supplemental access area# required pursuant to the provisions of Section 62-57 (Required Supplemental Public Access Areas) and, where applied, such area may be discounted from the planting requirement set forth in paragraph (c) of Section 62-62 (Design Requirements for Shore Public Walkways and Supplemental Public Access Areas).

87-61 - Special Provisions for Certain Fire Apparatus Access Roads

LAST AMENDED

Within the Core and South Subdistricts, for Parcels 1, 2, 3, 4 and 11, as shown on Map 1 in the Appendix to this Chapter, where a fire apparatus access road is provided as required by New York City Fire Code Section 503.2 (Fire apparatus access roads), or its successor, the Chairperson of the City Planning Commission shall certify, in conjunction with a certification application filed pursuant to paragraph (c) of Section 62-811, the following:

(a) the road shall be constructed to minimum Department of Transportation standards for public #streets#, including two sidewalks, curbs and curb drops, lighting, signage, materials and crosswalk, and shall meet the requirements set forth in the New York City Fire Code. For Parcels 2, 3 and 4, where a fire apparatus access road is immediately adjacent to and contiguous with the #shore public walkway#, any pedestrian path within such #shore public walkway# shall substitute for one such sidewalk, provided that at least 30 percent of such path is provided adjacent to and contiguous with the fire apparatus access road;

(b) for Parcels 2, 3 and 4, the contiguity provisions of paragraph (a) of Section 87-62 shall apply, except that where no connection for vehicular travel lanes terminating at the opposite side of a shared #lot line# exist at the time of construction, the provisions of paragraph (b) of such Section may be utilized as an interim alternative;

(c) a restrictive declaration shall be executed in accordance with the provisions of Section 87-63; and

(d) street trees shall be planted pursuant to the requirements of Section 26-41 along such fire apparatus access road as if it were a #street#.

However, the requirements of this Section shall not apply to: fire apparatus access roads on Parcels 1 and 3 that are provided pursuant to the provisions of paragraph (b)(3) of Section 87-71 (Special Public

Access Provisions); and to a fire apparatus access road on Parcel 11 located in the required #upland connection# within the prolongation of East 134th Street.

87-62 - Contiguity of Fire Apparatus Access Road with Adjacent Zoning Lots on Parcels 2, 3 and 4

LAST AMENDED
12/11/2017

On Parcels 2, 3 and 4, as shown on Map 1 in the Appendix to this Chapter, in addition to the certification provisions of Section 87-61 (Special Provisions for Certain Fire Apparatus Access Roads), a fire apparatus access road shall be provided in accordance with the provisions of this Section.

(a) Bi-Directional Road

On each of Parcels 2, 3 and 4, and only between such parcels, a connection for bi-directional vehicular travel lanes to an adjacent #zoning# #lot line# shall be provided. When complete, such fire apparatus access road shall provide bi-directional contiguous vehicular access from the intersection of Exterior Street and the northern boundary of Parcel 2, immediately adjacent to and contiguous with the entire southern boundary of the mapped parkland immediately adjacent to Parcel 2, immediately adjacent to and contiguous with the #shore public walkway# of Parcels 2, 3 and 4, to within the southerly #upland connection# of Parcel 4.

Any connection of fire apparatus access roads across a shared #zoning# #lot line# must meet the grade of, and maintain the street width of, the existing adjacent fire apparatus access road. Such fire apparatus access road shall extend immediately adjacent to and contiguous with the entire #shore public walkway# of the #zoning lot#, from #lot line# to #lot line#. A connection

need not be opened unless and until such declaration of restrictions, in accordance with Section 87-63, has been recorded against the adjacent #zoning lot#.

(b) Interim fire apparatus access road turnaround

When bi-directional vehicular travel lanes are constructed that terminate at a #lot line# and do not continue on the adjacent #zoning lot# at the time of their construction, an interim dead-end fire apparatus access road turnaround may be constructed as an alternative to the provisions of paragraph (a) of this Section, in accordance with the following provisions.

An applicant utilizing the provisions of this paragraph shall construct a fire apparatus access road that extends along the entire southern boundary of mapped parkland immediately adjacent to Parcel 2, the entire #upland connection# and the entire #shore public walkway# of the #zoning lot#, as applicable, from #lot line# to #lot line#, and shall provide an "approved turnaround area," constructed as part of a "dead-end fire apparatus access road," as those terms are defined in the New York City Fire Code, Section 503.2.9 (Dead-end turnarounds), or its successor.

Such turnaround area shall be constructed to dimensions no greater than required under the New York City Fire Code, Section 503.2.9, or its successor, and shall be located at the end of the fire apparatus access road, abutting the adjacent #lot line#. Such turnaround area may extend into the designated #shore public walkway#, but at no point may such turnaround area extend into the associated circulation path. Where an interim dead-end fire apparatus access road turnaround area extends into the #shore public walkway#, the area of such turnaround may be discounted from the planting requirement set forth in paragraph (c) of Section 62-62. Sidewalks shall not be required adjacent to the turnaround area. The portion of the turnaround area that lies within a #shore public walkway# shall remain clear of obstacles, shall be composed of permeable materials to the extent permissible by the Fire Commissioner and shall meet all applicable requirements set forth in the New York City Fire Code, Section 503.2

(Fire apparatus access roads), or its successor. In addition, the roadbed material of a fire apparatus access road leading to a turnaround may be extended into the turnaround provided the area of the turnaround paved with such material is not wider than the roadbed leading to the turnaround. The remaining portions of the turnaround shall be paved with distinct materials to facilitate pedestrian usage.

At the time of certification pursuant to Section 87-61, the site plan shall demonstrate a suitable design for the dead-end fire apparatus access road that demonstrates both the approved turnaround area and the repurposed turnaround area outside of the roadbed upon the issuance of a notice of substantial compliance for the adjacent #zoning lot#. In addition, a conceptual site plan shall demonstrate that the proposed site plan and grading plan for required contiguous access pursuant to the provisions of paragraph (a) of this Section is compatible with future #development# on the adjoining #zoning lot#. Such site plans shall be included as an exhibit to the declaration of restrictions recorded pursuant to Section 87-63.

Repurposing a turnaround area and providing contiguous access in accordance with an approved conceptual site plan shall not necessitate a certification pursuant to Section 62-811, provided that there are no further modifications to an approved #waterfront public access area#.

87-63 - Declaration of Restrictions

LAST AMENDED
12/11/2017

For any fire apparatus access road proposed for certification pursuant to Section 87-61 (Special Provisions for Certain Fire Apparatus Access Roads), a declaration of restrictions shall be provided to guarantee the construction, improvement, operation, maintenance and repair of such road, and any

sidewalk adjacent to such road, to guarantee that such road, and any sidewalk adjacent to such road, remains open, unobstructed and accessible to all members of the public, except as necessary to avoid public dedication, and to ensure compliance with all applicable provisions. Such declaration of restrictions shall be prepared in a form acceptable to the Department of City Planning, shall be filed and duly recorded in the Borough Office of the Register of the City of New York and indexed against the property. Filing and recording of the declaration of restrictions shall be a precondition for the Chairperson's certification under Section 87-61, where applicable.

For certifications proposed pursuant to Section 87-61 on Parcels 2, 3 or 4, where #developments# or #enlargements# on such parcels utilize the allowance for interim fire access turnaround, in accordance with paragraph (b) of Section 87-62 (Contiguity of Fire Apparatus Access Road with Adjacent Zoning Lots on Parcels 2, 3 and 4), any declaration of restrictions shall include that, at the time of the issuance of the notice of substantial compliance for the adjacent #development#, or #enlargement# pursuant to this Section, thereby permitting vehicular connection between #zoning lots#, the #zoning lot# containing a previously constructed fire apparatus access road turnaround area shall be responsible for the following actions on the portion of the connection on such #zoning lot#:

(a) repurposing the fire apparatus access road turnaround area pursuant to the requirements set forth in paragraph (b) of Section 87-62;

(b) extending all required sidewalks that had remained short of the #lot line# to the shared #lot line# to connect to the required adjacent sidewalks and enable unobstructed pedestrian movement across parcels;

(c) complying with all applicable waterfront rules, the Department of Transportation standards for public #streets# and the New York City Fire Code; and

(d) providing a connection with the adjacent #zoning lot# pursuant to Section 87-62.

87-70 - HARLEM RIVER WATERFRONT ACCESS PLAN

LAST AMENDED
12/11/2017

Map 3 (Waterfront Access Plan: Public Access Elements) in the Appendix to this Chapter shows the boundaries of the area comprising the Harlem River Waterfront Access Plan and the location where certain features are mandated or permitted by the Plan.

The underlying regulations for #waterfront public access areas# shall apply, except as modified in this Section, inclusive. For the purposes of applying the provisions of Section 61-822, the City Planning Commission may authorize modifications to the requirements for #waterfront public access areas# set forth in Article VI, Chapter 2 (Special Regulations Applying in the Waterfront Area), and as those provisions are modified by the provisions of this Section, inclusive.

87-71 - Special Public Access Provisions

LAST AMENDED
5/12/2021

The provisions of Section 62-50 (GENERAL REQUIREMENTS FOR VISUAL CORRIDORS AND WATERFRONT PUBLIC ACCESS AREAS) shall apply to #developments#, as modified in this Section. For the purpose of this Section, "development" shall be as defined in Section 62-11. To "develop" shall mean to create such #development#. In addition, the #lot area# allocated to fire apparatus access road pursuant to the provisions of Section 87-60, inclusive, may count towards any required #supplemental access area# required pursuant to the provisions of Section 62-57 (Required Supplemental Public Access Areas).

(a) #Shore public walkways#

(1) The #shore public walkway# shall be provided in the location designated on Map 3 (Waterfront Access Plan: Public Access Elements) and constructed at an elevation not lower than the highest level of the train track bed of the Oak Point Rail Link, except that on Parcel 5, if commercial or public utility vehicle storage, as listed in Use Group 16C, is #developed# as the primary #use# on the #zoning lots#, the elevation requirement shall not apply. However, for any other #use#, the elevation requirement shall only apply along the westernmost section of the #shore public walkway# to a depth of 40 feet.

(2) An approved turnaround area in a dead-end fire apparatus access road, as defined in the New York City Fire Code, Section 503.2.9 (Dead-end turnarounds), or its successor, may, by certification extend into a designated #shore public walkway# pursuant to paragraph (b) of Section 87-62 (Contiguity of Fire Apparatus Access Road with Adjacent Zoning Lots on Parcels 2, 3 and 4).

(3) In the event that a portion of a #waterfront# #zoning lot# is within 40 feet of the #shoreline# yet does not abut the #shoreline# because of an intervening #zoning lot#, a #shore public walkway# shall be provided on such upland portion. The width of the #shore public walkway# on such portion shall be 40 feet measured from the #shoreline# of the intervening #zoning lot# and shall include the width of the intervening #zoning lot#. The portion of such #shore public walkway# located upland of the intervening #zoning lot# shall be improved with a circulation path at least 10 feet wide, and any required planted screening buffer shall have a width of at least four feet.

(4) On Parcel 5, if a commercial or public utility vehicle storage #use# is #developed# as the primary #use# on the parcel, the #shore public walkway# requirements set forth in Section 62-62 shall apply, except that:

(i) the required width of the #shore public walkway# may be reduced to a minimum of 20 feet along the northern edge of the inlet and may be reduced to a minimum of 30 feet along the eastern edge of the inlet;

(ii) the circulation path required in paragraph (a)(1) of Section 62-62 shall be modified to a minimum width of 10 feet along the northern and eastern edge of the inlet;

(iii) the screening provisions of paragraph (c)(2) of Section 62-62 shall not apply. In lieu thereof, a planted screening buffer with a width of four feet shall be provided. Such planted buffer shall consist of densely planted shrubs or multi-stemmed screening plants, with at least 50 percent being evergreen species. Shrubs shall have a height of at least four feet at the time of planting; and

(iv) a 10-foot-wide pedestrian walkway between the #shore public walkway# and Exterior Street shall be provided on Parcel 5 adjacent to such #upland connection# location.

(b) #Upland connections#

#Upland connections# shall be located on Parcels 1, 3, 4, 5, 6, 10 and 11, as designated on Map 3 in the Appendix to this Chapter. The applicable provisions of Section 62-50, inclusive, are modified, as follows:

(1) On Parcel 1, for an #upland connection# required along the northern boundary of a mapped park, the additional open area requirement of paragraph (a)(2) of Section 62-

561 (Types of upland connections) shall not apply;

(2) Parcel 3 shall provide an #upland connection# at the designated location shown on Map 3. In addition, such #upland connection# shall be provided as specified below:

(i) The additional area requirements of paragraph (a)(2) of Section 62-561 shall not apply.

(ii) In the event that Parcel 3 is developed with Parcels 2 or 4, an #upland connection# shall be provided within the flexible location zone shown on Map 3. The additional area requirements of paragraph (a)(2) of Section 62-561 shall apply.

(3) On Parcels 1 and 3, if a Type 1 #upland connection# is provided, and a fire apparatus access road is required pursuant to the New York City Fire Code, Section 503.2 (Fire apparatus access roads), or its successor, the design requirements of Section 62-64 shall be modified as follows:

(i) the required circulation path may be used to allow such fire apparatus access road, and its minimum width shall be in accordance with all applicable requirements of the Fire Code;

(ii) such circulation path shall be paved with distinct materials, not including asphalt, to facilitate pedestrian usage; and

(iii) the minimum planting area requirements shall be reduced to 15 percent;

(4) The required width for an #upland connection# on Parcel 6 is reduced to 12 feet. Such #upland connection# shall be subject only to the applicable pedestrian path provisions.

(c) #Supplemental public access areas#

#Supplemental public access areas#, pursuant to this Plan, shall be provided on Parcels 1, 2, 10 and 11, as indicated on Map 3 in the Appendix to this Chapter, except that:

(1) such requirement may be waived for Parcels 1 and 2 by the Chairperson of the City Planning Commission, in conjunction with a certification pursuant to paragraph (c) of Section 62-811 (Waterfront public access and visual corridors), where the site plan includes a vehicular connection through the #zoning lot#, provided that:

(i) such vehicular connection complies with the requirements of Section 87- 62 (Fire Apparatus Access Roads) and, for Parcel 2, the requirements of Section 87-62 (Contiguity of Fire Apparatus Access Road With Adjacent Zoning Lots on Parcels 2, 3 and 4); and

(ii) such vehicular connection, either:

(a) on Parcel 1, provides access between East 149th Street and Exterior Street, serving all #buildings# along the #shore public walkway# and mapped parkland; or

(b) on Parcel 2, provides a bi-directional connection from the intersection of Exterior Street and the northern boundary of Parcel 2, immediately adjacent to and contiguous with the entire southern boundary of the

mapped parkland, immediately adjacent to and contiguous with the #shore public walkway# to the southernmost #lot line# of Parcel 2.

(2) for Parcel 11, at the location designated as "Supplemental Public Access Area (Shore Public Walkway Location)" on Map 3, a #supplemental public access area# shall be provided at a minimum width of 40 feet as indicated on Map 3, and the design and dimensional requirements for #shore public walkway# as set forth in Sections 62-50, inclusive, and 62-60, inclusive, shall apply.

(d) #Visual Corridors#

#Visual corridors# shall be located within Parcels 4, 9, 10, 11, 12 and 13, and mapped parkland, as indicated on Map 4 (Waterfront Access Plan: Visual Corridors) in the Appendix to this Chapter. For all required #visual corridors#, the provisions of Section 62-512 (Dimension of visual corridors) shall be modified to allow the lowest level of a #visual corridor#, at its seaward points, to be measured to a height as set forth in Section 62-512 or a height equal to the Oak Point Rail Link train track bed elevation, whichever is higher.

The Oak Point Rail Link shall be a permitted obstruction for #visual corridors#.

87-72 - Applicability of Waterfront Regulations

LAST AMENDED
12/11/2017

In the event that #streets# are mapped within a #zoning lot# on Parcels 1, 2, 3 or 4 after June 30, 2009, or on Parcel 11 after December 11, 2017, the area within such #streets# may continue to be considered part of the #zoning lot# for the purposes of applying all waterfront regulations of the Zoning Resolution.

87-73 - Special Vesting Provisions for the South Subdistrict

LAST AMENDED
12/11/2017

In the South Subdistrict, as shown on Map 1 in the Appendix to this Chapter, the provisions of Section 11-30 (BUILDING PERMITS ISSUED BEFORE EFFECTIVE DATE OF AMENDMENT), inclusive, shall apply, except as modified by the provisions of this Section. For the purpose of this Section, #development# shall be as defined in Section 62-11.

(a) For Parcel 20, a building permit may be issued in accordance with the #bulk# and #waterfront public access area# regulations that were effective immediately prior to December 11, 2017, where, as part of an application filed with the Department of City Planning for certification pursuant to the provisions of Section 62-811 prior to December 11, 2017, a declaration of restrictions has been recorded with the Office of the Register of the City of New York (County of the Bronx), setting forth the obligations of the owner to construct, and maintain a #waterfront public access area# pursuant to the provisions of Section 62-811. Such building permit shall allow the #development# of a #building# only in accordance with such certified #waterfront public access area# plan.

(b) For Parcel 19, a building permit may be issued in accordance with the bulk and waterfront public access area regulations that were effective immediately prior to December 11, 2017, where the Chairperson has certified that no #waterfront public access area# is required on the #zoning lot# pursuant to the provisions of Section 62-811 prior to December 11, 2017, provided that no new #buildings or other structures#, except those permitted as obstructions pursuant to Section 62-611, are located within 40 feet of the #shoreline#, and further provided that all work on the foundations for such #development# has been completed prior to December 11, 2021.

In addition, for such #development#, no temporary certificate of occupancy shall be granted by the Department of Buildings unless and until the Chairperson of the City Planning Commission certifies that the #zoning lot# provides open space between the #building# and the #shoreline# that is in compliance with the size and design provisions for #shore public walkways# set forth in Section 62-53 and the provisions of Section 62-60, inclusive. However, such provisions may be modified as follows:

(1) in addition to the permitted obstructions listed in Section 62-611, a dead-end fire apparatus access road turnaround shall be permitted obstruction within a #shore public walkway#, and an emergency egress path from #buildings# shall be a permitted obstruction within a screening buffer;

(2) for portions of the #shore public walkway# where a fire apparatus access road turnaround is provided, the minimum width of a circulation path required pursuant to paragraph (a)(1) of Section 62-62 (Design Requirements for Shore Public Walkways and Supplemental Public Access Areas) may be reduced to a width of 10 feet, and the required width of a screening buffer required pursuant to paragraph (c)(2) of Section 62-62, may be reduced to six feet; and

(3) where a fire apparatus access road is provided within the #shore public walkway#, the percentage of the #shore public walkway# required to be planted pursuant to paragraph (c) of Section 62-62 may be reduced to 35 percent.

As part of an application for certification pursuant to this paragraph, a site plan shall be submitted, along with any other materials necessary to demonstrate compliance with the provisions of this paragraph (b).

All open space certified pursuant to the provisions of this paragraph shall comply with the maintenance and operation requirements of Sections 62-71 and 62-72.

In addition, a written declaration of restrictions shall be recorded against such property in the Office of the Register of the City of New York (County of the Bronx) pursuant to the provisions of Section 62-74 (Requirements for Recordation), setting forth obligations of the owner to construct, maintain and provide public access to improvements certified by the Chairperson pursuant to this paragraph. Proof of recordation of the declaration of restrictions shall be submitted in a form acceptable to the Department of City Planning.

In the event that foundations required to be completed prior to December 11, 2021, have been commenced but not completed before such date, the building permit shall automatically lapse and the right to continue construction under the provisions of this Section shall terminate. No application to renew the building permit may be made to the Board of Standards and Appeals.

Where foundations have been completed prior to December 11, 2021, the provisions of Section 11-332 (Extension of period to complete construction) may be utilized and such date shall be the effective date for applying such provisions.

Zoning Resolution

THE CITY OF NEW YORK
Zohran K. Mamdani, Mayor

CITY PLANNING COMMISSION
Sideya Sherman, Chair

Chapter 8 - Special Hudson Square District (HSQ)

File generated by https://zr.planning.nyc.gov on 6/23/2026

Chapter 8 - Special Hudson Square District (HSQ)

88-00 - GENERAL PURPOSES

LAST AMENDED
3/20/2013

The "Special Hudson Square District" established in this Resolution is designed to promote and protect public health, safety and general welfare. These general goals include, among others, the following specific purposes:

(a) to support the growth of a mixed residential, commercial and industrial neighborhood by permitting expansion and new development of residential, commercial and community facility uses while promoting the retention of commercial uses and light manufacturing uses;

(b) to recognize and enhance the vitality and character of the neighborhood for workers and residents;

(c) to encourage the development of buildings compatible with existing development;

(d) to regulate conversion of buildings while preserving continued manufacturing or commercial use;

(e) to encourage the development of affordable housing;

(f) to promote the opportunity for workers to live in the vicinity of their work;

(g) to retain jobs within New York City; and

(h) to promote the most desirable use of land in accordance with a well-considered plan and thus conserve the value of land and buildings, and thereby protect City tax revenues.

88-01 - Definitions

LAST AMENDED
6/6/2024

For the purposes of this Chapter, matter in italics is defined in Sections 12-10, 32-301 or within this Section.

Qualifying building

For the purposes of this Chapter, a "qualifying building" shall be any #building# that contained at least 70,000 square feet of #floor area# on March 20, 2013.

88-02 - General Provisions

LAST AMENDED
10/7/2021

In harmony with the general purposes and intent of this Resolution and the general purposes of the #Special Hudson Square District#, the provisions of this Chapter shall apply within the #Special Hudson Square District#. The regulations of all other Chapters of this Resolution are applicable, except as superseded, supplemented or modified by the provisions of this Chapter. In the event of a conflict between the provisions of this Chapter and other regulations of this Resolution, the provisions of this Chapter shall control. However, in #flood zones#, or for #transit-adjacent sites# or #qualifying transit improvement sites#, as defined in Section 66-11 (Definitions), in the event of a conflict between the provisions of this Chapter and the provisions of Article VI, Chapter 4 (Special Regulations Applying in Flood Hazard Areas), or Article VI, Chapter 6 (Special Regulations Applying Around Mass Transit Stations), the provisions of Article VI shall control.

88-03 - District Plan and Maps

LAST AMENDED
3/20/2013

The regulations of this Chapter are designed to implement the #Special Hudson Square District# Plan. The District Plan includes the map, "Special Hudson Square District and Subdistrict," in the Appendix to this Chapter which is hereby incorporated and made part of this Resolution for the purpose of specifying locations where the special regulations and requirements set forth in this Chapter apply.

88-04 - Subdistricts

LAST AMENDED
3/20/2013

In order to carry out the purposes and provisions of this Chapter, Subdistrict A is established. The Subdistrict is specified on the map in the Appendix to this Chapter.

88-05 - Applicability of District Regulations

LAST AMENDED
3/20/2013

88-051 - Applicability of Article I, Chapter 5

LAST AMENDED
12/5/2024

The conversion to #dwelling units# of non-#residential buildings# erected prior to December 31, 1990, or portions thereof, shall be permitted subject to the provisions applicable to #Commercial Districts# in Article I, Chapter 5 (Residential Conversion within Existing Buildings), except as superseded or modified by the provisions of this Chapter.

88-10 - SUPPLEMENTAL USE REGULATIONS

LAST AMENDED
6/6/2024

All permitted #uses# in the underlying districts, as set forth in Section 42-10 (USE ALLOWANCES), inclusive, shall comply with the provisions set forth in this Section, inclusive.

88-11 - Residential Use

LAST AMENDED
3/20/2013

#Residential use# shall be permitted in accordance with the provisions of this Section.

(a) #Residential use# as-of-right

#Residential use# shall be permitted as-of-right on any #zoning lot# that, on March 20, 2013, was not occupied by a #qualifying building#. As a condition to receiving a building permit, such absence of a #qualifying building# on the #zoning lot# must be demonstrated to the satisfaction of the Department of Buildings.

(b) #Residential use# by certification

#Residential use# shall be permitted on a #zoning lot# that, on March 20, 2013, was occupied by one or more #qualifying buildings#, only upon certification by the Chairperson of the City Planning Commission that the #zoning lot#, as it existed on March 20, 2013, will contain at least the amount of #commercial# or #manufacturing floor area# that existed within such #qualifying buildings# on the #zoning lot# on March 20, 2013, subject to the following:

(1) #commercial# or #manufacturing# #floor area# that is preserved within existing non-#qualifying buildings# on the #zoning lot# through restrictive declaration may count

towards meeting the requirements of this certification; and

(2) #floor area# from #community facility uses# with sleeping accommodations shall not count towards meeting the requirements of this certification.

However, #commercial# or #manufacturing# #floor area# converted to #residential# vertical circulation space and lobby space need not be replaced as #commercial# or #manufacturing# #floor area#.

A restrictive declaration acceptable to the Department of City Planning shall be executed and recorded, binding the owners, successors and assigns to maintain the amount of #commercial# or #manufacturing# #floor area# that existed within such #qualifying buildings# on March 20, 2013, on the #zoning lot#. Such restrictive declaration shall be recorded in the Office of the City Register. A copy of such declaration shall be provided to the Department of Buildings upon application for any building permit related to a change of #use# from #commercial# or #manufacturing# to #residential#, or for any #development# containing #residences#.

88-12 - Community Facility Use

LAST AMENDED
6/6/2024

The #community facility use# regulations for Use Group III that are applicable in M1 Districts shall not apply in the #Special Hudson Square District#. In lieu thereof, all #uses# listed under Use Group III shall be permitted, except that those listed under Use Group III(A) shall only be permitted in

accordance with paragraphs (a) or (b) of this Section, as applicable.

(a) #Community facilities# with sleeping accommodations shall be permitted as-of-right on any #zoning lot# that, on March 20, 2013, was not occupied by a #qualifying building#. As a condition to receiving a building permit, such absence of a #qualifying building# on the #zoning lot# shall be demonstrated to the satisfaction of the Department of Buildings.

(b) #Community facilities# with sleeping accommodations shall be permitted on a #zoning lot# that, on March 20, 2013, was occupied by one or more #qualifying buildings#, only upon certification by the Chairperson of the City Planning Commission that the #zoning lot# will contain at least the amount of #commercial# or #manufacturing# #floor area# that existed within #qualifying buildings# on the #zoning lot# on March 20, 2013, subject to the following:

(1) #commercial# or #manufacturing# #floor area# that is preserved within existing non-#qualifying buildings# on the #zoning lot# through restrictive declaration may count towards meeting the requirements of this certification; and

(2) #floor area# from #community facility uses# with sleeping accommodations shall not count towards meeting the requirements of this certification.

However, #commercial# or #manufacturing# #floor area# converted to vertical circulation and lobby space associated with a #community facility# with sleeping accommodations need not be replaced as #commercial# or #manufacturing# #floor area#.

A restrictive declaration acceptable to the Department of City Planning shall be executed and recorded, binding the owners, successors and assigns to maintain the amount of #commercial# or #manufacturing# #floor area# that existed within such #qualifying buildings# on March 20, 2013, on the #zoning lot#. Such restrictive declaration shall be recorded in the Office of the City Register. A copy of such declaration shall be provided to the Department of Buildings upon application for any building permit related to a change of #use# from #commercial# or #manufacturing# to #community facility uses# with sleeping accommodations, or for any

#development# containing #community facility uses# with sleeping accommodations.

88-13 - Commercial Use

LAST AMENDED
6/6/2024

The #commercial# #use# regulations applicable in M1 Districts shall apply in the #Special Hudson Square District#, except that:

(a) #uses# listed under Food and Beverage Retailers in Use Group VI shall not be limited as to the size of the establishment;

(b) other #uses# listed under Use Group VI, as well as #uses# listed under Use Group VIII shall be limited to a size of 10,000 square feet on the #ground floor level# of #floor area# per establishment;

(c) #commercial# #uses# permitted in M1 Districts shall be subject to the modifications set forth in Section 123-22 (Additional Conditions for Certain Uses), inclusive;

(d) #transient hotels# listed under Use Group V shall be subject to the provisions of Section 32-153 (Use Group V – uses subject to additional conditions) applicable to a C7 District; and

(e) eating or drinking establishments listed under Use Group VI, where such establishment provides entertainment with a cover charge or specified showtime, or includes a dance floor, shall be limited to a capacity of 200 persons or fewer. A capacity of more than 200 persons may be permitted by the Board of Standards and Appeals pursuant to Section 73-162 (Eating or drinking establishments).

88-131 - Streetscape provisions

LAST AMENDED
6/6/2024

For the purposes of applying the underlying provisions set forth in Section 32-30 (STREETSCAPE REGULATIONS), inclusive, to the #Special Hudson Square District#, the streetscape regulations for C7 Districts shall apply to all M1 Districts.

The underlying #ground floor level# streetscape provisions set forth in Section 32-30, inclusive, shall apply, except that #ground floor level# #street# frontages along #wide streets# shall be considered #Tier C street frontages#.

88-14 - Manufacturing Use

LAST AMENDED
6/6/2024

In the #Special Hudson Square District#, #manufacturing uses# permitted in M1 Districts shall be subject to the modifications set forth in Section 123-22 (Additional conditions for certain uses), inclusive.

88-20 - SIGN REGULATIONS

LAST AMENDED
3/20/2013

In the #Special Hudson Square District#, #signs# are subject to the regulations applicable in C6-4 Districts, as set forth in Section 32-60, inclusive.

88-30 - SPECIAL BULK REGULATIONS

LAST AMENDED
12/5/2024

Except as modified in this Chapter, the following bulk regulations shall apply:

(a) For #developments#, #enlargements#, or changes of #use# containing #residences#, the #bulk# regulations of a C6-4A District, as set forth in Article III, Chapter 4 (Bulk Regulations for Residential Buildings in Commercial Districts) or Article III, Chapter 5 (Bulk Regulations for Mixed Buildings in Commercial Districts), shall apply;

(b) For #developments#, #enlargements#, or changes of #use# containing #manufacturing#, #commercial# or #community facility uses#, the #bulk# regulations set forth in Article IV, Chapter 3 (Bulk Regulations), shall apply.

For the purposes of applying the regulations of this Section, Greenwich Street shall be a #wide street#.

88-31 - Floor Area Regulations

LAST AMENDED
12/5/2024

In the #Special Hudson Square District#, the #floor area# regulations applicable to a C6-4A District shall apply.

88-311 - Special floor area regulations in Subdistrict A

LAST AMENDED
12/5/2024

Within Subdistrict A, any floor space designated for #use# as a #school# shall be exempted from the definition of #floor area# for the purposes of calculating the permitted #floor area ratio# for #community facility uses# and the total maximum #floor area ratio# of the #zoning lot#, provided that such school is either:

(a) a public school, subject to the jurisdiction of the New York City Department of Education, pursuant to an agreement accepted by the School Construction Authority; or

(b) a charter school, subject to the New York State Education Law, pursuant to an agreement with a charter school organization.

88-32 - Yard Regulations

LAST AMENDED
12/5/2024

In the #Special Hudson Square District#, the #yard# provisions applicable in C6 Districts shall apply to non-#residential# #buildings#, or the non-#residential# portion of a #building#.

88-33 - Height and Setback

LAST AMENDED
12/5/2024

In the #Special Hudson Square District#, the height and setback regulations applicable to C6-4A Districts shall apply, except that for #buildings#, or portions thereof, located on #wide streets#, and on #narrow streets# within 100 feet from their intersection with a #wide street#, the maximum height of such #buildings# shall be 290 feet. In addition, for #buildings# that exceed a height of 230 feet, any #story# located within the highest 15 percent of the portion of such #building# above the maximum base height shall not exceed 90 percent of the gross area of that #story# located directly below the highest 15 percent of such portion of the #building#.

88-331 - Special height and setback regulations in Subdistrict A

LAST AMENDED
12/5/2024

For #zoning lots# in Subdistrict A of this Chapter, the regulations in Section 88-33 applicable to #wide streets# shall apply, except where modified or superseded by the regulations of this Section.

(a) Maximum #building# height

The maximum height of #buildings# shall be 430 feet.

(b) #Lot coverage#

The minimum #lot coverage# of the portion of a #building# above the maximum base height shall be 30 percent of the #lot area# of the #zoning lot#. However, any #story# located within the highest 15 percent of the portion of such #building# above the maximum base height may cover less than 30 percent of the #lot area# of a #zoning lot# provided that the gross area of any such #story# does not exceed 90 percent of the gross area of that #story# directly located below the highest 15 percent of such portion of the #building#.

(c) Modification of #bulk# regulations for #zoning lots# bounding a #public park#

In the case of a #zoning# #lot line# #abutting# the boundary of a #public park#, such #zoning# #lot line# shall be considered to be a #wide# #street line# for the purposes of applying all #bulk# regulations of this Resolution, except for #street wall# regulations. For the purposes of applying #street wall# regulations in the case of a #zoning# #lot line# #abutting# the boundary of a #public park#, a line no more than 45 feet west of and parallel to the nearest boundary line of the #public park# shall be considered a #wide# #street line#.

(d) #Street wall# location

The #street wall# provisions of this Chapter shall apply, except that, for the portion of a #building# bounding a #public park#, the #street wall# shall be located at the #street line# for at least 50 percent of the frontage bounding the #public park# and shall rise to the minimum base height, but not higher than the maximum base height.

88-40 - PARKING AND LOADING REGULATIONS AND CURB CUT LOCATIONS

LAST AMENDED

12/5/2024

In the #Special Hudson Square District#, the parking regulations applicable in C6-4 Districts, as set forth in Article III, Chapter 6, and as modified, pursuant to Article I, Chapter 3 (Comprehensive Off-street Parking and Loading Regulations in the Manhattan Core) shall apply.

Chapter 9 - Special Hudson River Park District (HRP)

File generated by https://zr.planning.nyc.gov on 6/23/2026

Chapter 9 - Special Hudson River Park District (HRP)

89-00 - GENERAL PURPOSES

LAST AMENDED
12/15/2016

The "Special Hudson River Park District" established in this Resolution is designed to promote and protect public health, safety, general welfare and amenity. These general goals include, among others, the following specific purposes:

(a) to facilitate the repair and rehabilitation of piers, bulkheads and infrastructure within Hudson River Park, and to facilitate their maintenance and development, through the transfer of development rights within the Special Hudson River Park District, given that commercial development is limited by the Hudson River Park Act;

(b) to promote an appropriate range of uses that complements Hudson River Park and, to the extent housing is included, to serve residents of varied income levels;

(c) to establish criteria for any and all transfers of air rights from the Hudson River Park to inland areas; and

(d) to promote the most desirable use of land and development in this area and thus to conserve the value of land and buildings and thereby protect the City's tax revenues.

89-01 - General Provisions

LAST AMENDED
5/12/2021

The provisions of this Chapter shall apply within the #Special Hudson River Park District#. The regulations of all other Chapters of this Resolution are applicable, except as superseded, supplemented or modified by the provisions of this Chapter. In the event of a conflict between the provisions of this Chapter and other regulations of this Resolution, the provisions of this Chapter shall control. However, in #flood zones#, in the event of a conflict between the provisions of this Chapter and the provisions of Article VI, Chapter 4 (Special Regulations Applying in Flood Zones), the provisions of Article VI, Chapter 4, shall control.

89-02 - Definitions

LAST AMENDED
12/15/2016

For the purposes of this Chapter, matter in italics is defined in Section 12-10 (DEFINITIONS) and in this Section.

Granting site

Within the #Special Hudson River Park District#, a "granting site" is a #zoning lot#, or a portion of a #zoning lot#, within the areas identified as "A1" or "B1" on the map in the Appendix to this Chapter, upon which development is regulated by contract, lease, covenant, declaration or otherwise to assure compliance with the purposes of this Special District and from which #floor area# may be transferred.

A #granting site# may only transfer #floor area# to a #receiving site# within an area that shares the same letter designation. For example, a #granting site# within area A1 may transfer #floor area# to a #receiving site# within area A2, but not to a #receiving site# within area B2.

Receiving site

Within the #Special Hudson River Park District#, a "receiving site" is a #zoning lot#, within the area identified as "A2", "B2" or "B3" on the maps in the Appendix to this Chapter, to which #floor area# of a #granting site# may be transferred.

Required funds

Within the #Special Hudson River Park District#, the "required funds" are the specified amount of funds required to effectuate the transfer of #floor area#, pursuant to paragraph (a) of Section 89-21, set forth in a statement from the Hudson River Park Trust.

89-03 - District Plan and Maps

LAST AMENDED
12/15/2016

The regulations of this Chapter are designed to implement the #Special Hudson River Park District# Plan. The District Plan includes the map in the Appendix to this Chapter which is hereby incorporated and made part of this Resolution for the purpose of specifying locations where special regulations and requirements set forth in this Chapter apply.

89-10 - USE AND BULK REGULATIONS

LAST AMENDED
12/15/2016

89-11 - Use and Bulk Regulations on Receiving Sites

LAST AMENDED
10/9/1986

The #use# and #bulk# regulations applicable to a #receiving site# shall be modified as follows:

(a) C6-4 Districts

Within Area A2 on the maps in the Appendix to this Chapter, the #use# and #bulk# regulations of the underlying C6-4 District shall not apply. In lieu thereof, the #use# and #bulk# regulations of an M1-5 District shall apply.

Within Areas B2 and B3, the #use# and #bulk# regulations of the underlying C6-4X District shall not apply. In lieu thereof, the #use# and #bulk# regulations of an M2-3 District shall apply.

(b) C6-3 and M1-5 Districts

The #use# and #bulk# regulations of the underlying C6-3 and M1-5 Districts shall not apply. In lieu thereof, the #use# and #bulk# regulations of an M2-4 District shall apply.

However, on a #receiving site#, for any #development#, #enlargement# or #conversion# that is the subject of a special permit granted by the City Planning Commission pursuant to Section 89-21

(Transfer of Floor Area From Hudson River Park), the #use# and #bulk# regulations of the underlying C6-3, C6-4 or M1-5 District shall only apply to such approved #development#, #enlargement# or #conversion#.

89-12 - Special Floor Area Regulations Within Areas B2 and B3

LAST AMENDED
12/5/2024

Within Areas B2 and B3 on the maps in the Appendix to this Chapter, where a special permit by the City Planning Commission on a #receiving site# is sought pursuant to Section 89-21 (Transfer of Floor Area From Hudson River Park), and the #bulk# regulations of the underlying C6-4X District apply pursuant to the provisions of Section 89-11 (Use and Bulk Regulations on Receiving Sites), the #floor area ratio# for #qualifying affordable housing# shall be 10.0 within a #Mandatory Inclusionary Housing area#, and such maximum #floor area ratio# may be increased to a maximum of 12.0 only as set forth in Section 89-21.

89-20 - SPECIAL PERMITS

LAST AMENDED
12/15/2016

89-21 - Transfer of Floor Area From Hudson River Park

LAST AMENDED
12/5/2024

The City Planning Commission may permit a transfer of #floor area# from a #granting site# to a #receiving site#, may permit distribution of total allowable #floor area# of a #receiving site# without regard for zoning district boundaries, may permit that such #receiving site# be treated as a single #zoning lot# for all purposes of this Resolution, and may modify #bulk# regulations, except #floor area# regulations, for a #development#, #enlargement# or #conversion# located on such #receiving site#. In addition, for #receiving sites# within Area B2 on the maps in the Appendix to this Chapter, the Commission may exempt floor space from the definition of #floor area# in a #building# that contains an ambulance station and may increase the maximum number of #accessory# off-street parking spaces permitted for such station.

(a) Application requirements

All applications for a special permit pursuant to this Section shall include the following:

(1) a survey of the #granting site# illustrating existing #buildings# to remain on the #granting site# and zoning calculations indicating the #floor area# on the #granting site# and within such #buildings#;

(2) a survey of the #receiving site# and a site plan illustrating the proposed #development#, #enlargement# or #conversion# on such lot, and associated zoning calculations demonstrating compliance with the conditions and limitations set forth in this special permit;

(3) drawings that illustrate any proposed #bulk# modifications for the proposed #development#, #enlargement# or #conversion# on the #receiving site#; and

(4) a statement from the Hudson River Park Trust identifying improvements to be made to Hudson River Park, and indicating that payment of the #required funds# necessary to effectuate the transfer of #floor area# pursuant to this Section, in combination with any other available funding, would be sufficient, according to the Trust's estimate, to complete such identified improvements.

(b) Conditions and limitations

All applications for a special permit pursuant to this Section shall comply with the following conditions:

(1) the maximum #floor area# that may be transferred from the #granting site# shall be the maximum #floor area# permitted for the #granting site# under the applicable district regulations if it were undeveloped, less the #floor area# of all #buildings# on such #granting site#;

(2) the increase in #floor area# on the #receiving site# allowed by the transfer of #floor area# to such #receiving site# shall in no event exceed 20 percent of the maximum #floor area# permitted on such #receiving site# by the underlying district;

(3) the transfer, once completed, shall irrevocably reduce the amount of #floor area# that can be utilized by the #granting site# by the amount of #floor area# transferred;

(4) the #granting site# and location of identified improvements to be made to the Hudson River Park in connection with the proposed transfer of #floor area# are located in the same Community District as the #receiving site#;

(5) if the proposed #development#, #enlargement# or #conversion# on the #receiving site# includes #residential# #floor area#, it shall provide #qualifying affordable housing#;

(6) for the #receiving site# within Area A2 on the map in the Appendix to this Chapter:

(i) the portion of the #receiving site# located over West Houston Street shall not generate #floor area# for the proposed special permit #development#, and no #floor area# shall be located directly above West Houston Street;

(ii) the height and setback requirements of the applicable district shall apply to the portions of the #receiving site# located on each side of the mapped #street lines# of West Houston Street; and

(7) no more than 200,000 square feet of #floor area#, in the aggregate, shall be transferred to #receiving sites# located within the boundaries of Manhattan Community District 2.

(c) Findings

The Commission may grant the transfer of #floor area# and any associated #bulk# modifications, provided that:

(1) such transfer of #floor area# will facilitate the repair, rehabilitation, maintenance and development of Hudson River Park, including its piers, bulkheads and infrastructure;

(2) the transfer of #floor area# will support the completion of improvements to Hudson River Park as identified in the statement submitted to the Commission by the Trust as part of this application; and

(3) for the #receiving site#:

(i) the proposed configuration and design of #buildings#, including any associated structures and open areas, will result in a superior site plan, and such #buildings# and open areas will relate harmoniously with one another and with adjacent #buildings# and open areas;

(ii) the location and quantity of the proposed mix of #uses# will complement the site plan;

(iii) the proposed transfer of #floor area# and any modification to #bulk# regulations will not unduly increase the #bulk# of any #building# on the #receiving site# or unduly obstruct access of adequate light and air to the detriment of the occupants or users of #buildings# on the #block# or nearby #blocks#, or of people using the public #streets# and other public spaces;

(iv) such transferred #floor area# and any proposed modifications to #bulk# are appropriate in relation to the identified improvements to Hudson River Park;

(v) any #qualifying affordable housing# that is provided as part of the project will enhance neighborhood economic diversity by broadening the range of housing choices for residents at varied incomes; and

(vi) the Commission, in consultation with the Fire Department, determines that the amount of proposed floor space and the number of proposed parking spaces in such ambulance station is reasonable in order to provide a necessary service to the surrounding area.

(d) Additional requirements

The City Planning Commission shall receive a copy of a transfer instrument legally sufficient in both form and content to effect such a transfer of #floor area#. Notices of the restriction

upon further #development#, #enlargement# or #conversion# of the #granting site# and the #receiving site# shall be filed by the owners of the respective #zoning lots# in the Office of the Register of the City of New York (County of New York). Proof of recordation of the notices shall be submitted to the Chairperson of the City Planning Commission, in a form acceptable to the Chairperson.

Both the transfer instrument and the notices of restriction shall specify the total amount of #floor area# transferred and shall specify, by lot and block numbers, the #granting site# and the #receiving site# that are a party to such transfer.

On a #receiving site#, for any #development#, #enlargement# or #conversion# that is the subject of a special permit granted by the Commission pursuant to this Section, the Department of Buildings shall not:

(1) issue a building permit until the Chairperson has certified that the owner of the #receiving site# and the Hudson River Park Trust have jointly executed a Purchase and Sale Agreement for the amount of the #required funds#, specified in paragraph (a)(4) of this Section, associated with the transfer of #floor area#, and that all of such #required funds# have either been irrevocably paid to Hudson River Park Trust or will be paid in accordance with a payment schedule and secured by a cash equivalent, such as a letter of credit, in accordance with such Purchase and Sale Agreement; or

(2) issue a temporary or final certificate of occupancy until the Chairperson has certified that the Hudson River Park Trust has submitted a letter to the Chairperson confirming that payment of all of the #required funds# specified in paragraph (a)(4) of this Section, associated with the transfer of #floor area#, has been irrevocably made by the owner of such #receiving site# to the Hudson River Park Trust, or that the Hudson River Park Trust has drawn down on the security such that no portion of the #required funds# is outstanding.

Any modification of a special permit previously issued pursuant to this Section which proposes a change to the amount of #required funds# shall be referred to the affected Community Board for a period of at least 45 days. The Commission shall not act upon the modification application until the completion of the Community Board review period.

The Commission may prescribe additional appropriate conditions and safeguards to improve the quality of the #development#, #enlargement# or #conversion# and to minimize adverse effects on the character of the surrounding area.

Chapter 1 - Special Lower Manhattan District (LM)

File generated by https://zr.planning.nyc.gov on 6/23/2026

Chapter 1 - Special Lower Manhattan District (LM)

91-00 - GENERAL PURPOSES

LAST AMENDED
6/21/2016

The "Special Lower Manhattan District" established in this Resolution is designed to promote and protect public health, safety, general welfare and amenity. These general goals include, among others, the following specific purposes:

(a) encourage development of a 24-hour community through the conversion of older commercial buildings to residential use;

(b) facilitate maximum design flexibility of buildings and enhance the distinctive skyline and streetscape of Lower Manhattan;

(c) improve public use and enjoyment of the East River waterfront by creating a better physical and visual relationship between development along the East River and the waterfront area, public access areas and the adjoining upland community;

(d) enhance the pedestrian environment by relieving sidewalk congestion and providing pedestrian amenities;

(e) restore, preserve and assure the use of the South Street Seaport Subdistrict as an area of small historic and restored buildings, open to the waterfront and having a high proportion of public spaces and amenities, including a South Street Seaport Environmental Museum, with associated cultural, recreational and retail activities;

(f) establish the Historic and Commercial Core to protect the existing character of this landmarked area by promoting development that is harmonious with the existing scale and street configuration;

(g) establish the Water Street Subdistrict to improve the urban design relationship between existing buildings and open areas by promoting retail activities and the enhancement of existing public spaces with new amenities in this area; and

(h) promote the most desirable use of land and thus conserve and enhance the value of land and buildings, and thereby protect the City's tax revenues.

91-01 - General Provisions

LAST AMENDED
6/6/2024

Except as modified by the express provisions of the #Special Lower Manhattan District#, the regulations of the underlying zoning districts shall remain in effect.

Requirements that apply generally throughout the District are set forth in the provisions for this Chapter. The provisions of Section 91-40 (MANDATORY DISTRICT PLAN ELEMENTS) specify planning and urban design features that are primarily oriented toward the accommodation and well-being of pedestrians.

For requirements that are not generally applicable but are tied to specific locations within the Special District, the locations where these requirements apply are shown on District Map 2 (Street Wall Continuity Types 1, 2A, 2B & 3), Map 3 (Street Wall Continuity Types 4 & 5), Map 4 (Designated Retail Streets) and Map 5 (Curb Cut Prohibitions) in Appendix A. Certain #sign# regulations that apply to landmark #buildings# with #street walls# fronting Broadway are set forth in Section 91-114.

The provisions of Article VI, Chapter 2 (Special Regulations in the Waterfront Area), shall apply to all areas of the #waterfront area# within the #Special Lower Manhattan District#, except as otherwise provided in Section 91-60 (REGULATIONS FOR THE SOUTH STREET SEAPORT SUBDISTRICT) for Piers 9, 11, 13 and 14. Piers 9, 11, 13 and 14 are shown on Maps 1 and 6 in Appendix A.

In #flood zones#, or for #transit-adjacent sites# or #qualifying transit improvement sites#, as defined in Section 66-11 (Definitions), in the event of a conflict between the provisions of this Chapter and the provisions of Article VI, Chapter 4 (Special Regulations Applying in Flood Hazard Areas), or Article VI, Chapter 6 (Special Regulations Applying Around Mass Transit Stations), the provisions of Article VI shall control.

An existing public amenity, open or enclosed, that was a mandatory requirement or received a #floor area# bonus pursuant to the provisions of the former Special Greenwich Street Development District, eliminated on August 27, 1998, shall not be removed, reduced in size or in any way altered, other than pursuant to the provisions of Section 91-71 (Authorization for the Modification of Required Public Amenities).

Special regulations governing the development of three specific sites in the #Special Lower Manhattan District# are set forth in the following Sections:

Section 91-72 (Special Permit for Development Over or Adjacent to the Approaches to the Brooklyn Battery Tunnel)

Section 91-73 (Special Provisions for Battery Park Underpass/South Street).

91-02 - Definitions

LAST AMENDED
2/2/2011

For the purposes of this Chapter, matter in italics is defined in Sections 12-10 or 91-62 (Definitions).

91-03 - District Maps

LAST AMENDED
6/21/2016

District maps are located in Appendix A of this Chapter and are hereby incorporated and made an integral part of this Resolution. They are incorporated for the purpose of specifying locations where special regulations and requirements, as set forth in the text of this Chapter, apply.

Map 1 Special Lower Manhattan District

Map 2 Street Wall Continuity Types 1, 2A, 2B & 3

Map 3 Street Wall Continuity Types 4 & 5

Map 4 Designated Retail Streets

Map 5 Curb Cut Prohibitions

Map 6 South Street Seaport Subdistrict (Section 91-63)

Map 7 Subway Station Improvement Areas

Map 8 Water Street Subdistrict

Map 9 Water Street Subdistrict Arcades

91-04 - Subdistricts and Core Area

LAST AMENDED
2/2/2011

In order to carry out the purposes and provisions of this Chapter, the South Street Seaport Subdistrict, the Historic and Commercial Core and the Water Street Subdistrict are established within the #Special Lower Manhattan District# and include specific regulations designed to advance the purpose of these areas:

(a) South Street Seaport Subdistrict

The South Street Seaport Subdistrict contains certain provisions that do not apply to other areas of the Special District. Except as otherwise provided in the Subdistrict regulations, the Subdistrict is subject to all other regulations of the #Special Lower Manhattan District# and the underlying districts. The requirements for the South Street Seaport Subdistrict are set forth in Section 91-60 (SPECIAL REGULATIONS FOR THE SOUTH STREET SEAPORT SUBDISTRICT).

The Subdistrict is shown on Map 1 (Special Lower Manhattan District) and Map 6 (South Street Seaport Subdistrict) in Appendix A of this Chapter.

(b) The Historic and Commercial Core

The Historic and Commercial Core has been established to promote development compatible

with existing #buildings# that border the area whose street plan has been accorded landmark status by the New York City Landmarks Commission as the Streetplan of New Amsterdam and Colonial New York. Height and setback provisions for the Historic and Commercial Core are set forth in Sections 91-31 through 91-33.

The Core is bounded by Broadway and Wall, Whitehall and Water Streets, as shown on Map 1 (Special Lower Manhattan District) in Appendix A of this Chapter.

(c) Water Street Subdistrict

The Water Street Subdistrict has been established to improve the urban design relationship between existing #buildings# and open areas by promoting retail activities and the enhancement of existing public spaces with new amenities in this area.

The Subdistrict is shown on Map 8 (Water Street Subdistrict) and Map 9 (Water Street Subdistrict Arcades) in Appendix A of this Chapter.

91-05 - Applicability of Article VII Provisions

LAST AMENDED
12/5/2024

91-051 - Applicability of special permits by the Board of Standards and Appeals

LAST AMENDED
12/5/2024

Within the #Special Lower Manhattan District#, the following Board of Standards and Appeals special permits shall not be applicable or shall be applicable only as modified.

The following special permit by the Board of Standards and Appeals shall not be applicable:

Section 73-68 (Modifications of Height, Setback and Rear Yard Regulations)

The following special permits by the Board of Standards and Appeals shall be applicable as modified:

Section 73-163 (Automotive Service Stations) shall not apply on #zoning lots# with frontage on any #street# listed on Map 2 or Map 4 in Appendix A.

91-052 - Applicability of special permits by the City Planning Commission

LAST AMENDED
12/5/2024

Within the #Special Lower Manhattan District#, the following special permits by the City Planning Commission shall not be applicable or shall be applicable within C5 Districts.

The following special permits by the City Planning Commission shall not be applicable:

Section 74-721 (Height, setback and yard regulations)

Section 74-81 (Through Block Arcades).

91-07 - Modification of Use and Bulk Regulations for Zoning Lots Fronting Upon DeLury Square Park

LAST AMENDED
12/21/2009

Where the #lot line# of a #zoning lot# coincides with, or is within 20 feet of, the boundary of DeLury Square Park, such #lot line# shall be considered to be a #street line# for the purposes of applying all #use# and #bulk# regulations of this Resolution.

91-10 - SPECIAL USE REGULATIONS

LAST AMENDED
8/27/1998

91-11 - Sign Regulations

LAST AMENDED
6/6/2024

In the #Special Lower Manhattan District#, except as modified by the provisions of this Section, inclusive, the regulations of Section 32-60, et seq., pertaining to #signs#, shall apply.

91-111 - Illuminated signs in C5 Districts

LAST AMENDED
6/6/2024

In all C5 Districts within the #Special Lower Manhattan District#, not more than one #illuminated#, non-#flashing sign#, other than an #advertising sign#, with a total #surface area# not exceeding eight

square feet shall be permitted for each #street# frontage of the #zoning lot#. Such #sign# may be located only within a window of a #building#.

91-112 - Banner regulations

LAST AMENDED
6/6/2024

In all C5 and C6 Districts within the #Special Lower Manhattan District#, in lieu of the provisions of Section 32-652 (Permitted projection in all other Commercial Districts), banners may project across a #street line# for a maximum distance of eight feet.

In C5-3 or C5-5 Districts within the Special District, in lieu of the provisions of Section 32-655 (Height of signs in all other Commercial Districts), banners may extend above #curb level# to a maximum height of 40 feet.

91-113 - Height of signs in C6-9 Districts

LAST AMENDED
6/6/2024

In C6-9 Districts within the #Special Lower Manhattan District#, the regulations of Section 32-655 (Height of signs in all other Commercial Districts) may be modified to allow a maximum height of 50 feet above #curb level#, provided the City Planning Commission certifies that the design features of the existing #building#, as they appear on May 9, 2001, would unduly obstruct the visibility of the #sign# without such modification. An application for such certification shall be filed with detailed plans showing compliance with this Section.

91-114 - Signs on landmark buildings fronting Broadway in C5-5 Districts

LAST AMENDED
6/6/2024

In addition to #signs# and banners otherwise permitted pursuant to Section 91-11, et seq., within 100 feet of Broadway in C5-5 Districts, on any #building# with a #street wall# fronting Broadway that is a landmark designated by the Landmarks Preservation Commission, the applicable #sign# regulations of Section 32-60 shall be modified according to the following provisions, provided such #signs# and any alterations to the #building# connected with such #signs# have received a certificate of appropriateness or other permit from the Landmarks Preservation Commission.

(a) #Illuminated# non-#flashing signs# other than #advertising signs# are permitted with a total #surface area# (in square feet) not to exceed 50 square feet along any #street# frontage.

(b) No permitted #sign# shall extend above #curb level# at a height greater than 30 feet.

(c) No permitted #sign# shall project across a #street line# more than 60 inches.

(d) Permitted #signs# displayed on awnings may also include commercial copy related to the type of business, profession, commodity, service or entertainment conducted, sold or offered within such #building#.

91-20 - FLOOR AREA AND DENSITY REGULATIONS

LAST AMENDED
8/27/1998

91-21 - Maximum Floor Area Ratio

LAST AMENDED
2/2/2011

The basic maximum #floor area ratio# on a #zoning lot# is specified in the table in Section 91-22 (Floor Area Increase Regulations) and may be increased only pursuant to the #floor area# increase and bonus provisions of this Chapter.

Notwithstanding the #floor area# increase and bonus provisions of this Chapter, the maximum permitted #floor area ratio# on a #zoning lot# for #residential use# shall be 12.0.

91-22 - Floor Area Increase Regulations

LAST AMENDED
12/5/2024

The basic maximum #floor area ratio# (FAR) of the underlying district may be increased by the inclusion of specific additional bonus #floor area# for a maximum #floor area ratio# as specified in the table in this Section.

The provisions of paragraph (a) of Section 75-422 (Certification to transfer development rights from landmarks), pertaining to the transfer of development rights from landmark sites, shall be subject to the restrictions on the transfer of development rights (FAR) of a landmark "granting lot" as set forth in this table. Wherever there may be an inconsistency between any provision in Section 75-422 and the table, the provisions of the table shall apply.

MAXIMUM FLOOR AREA RATIOS AND FLOOR AREA BONUSES BY ZONING DISTRICT

4 if receiving lot is located in a zoning district with a basic maximum FAR of 15

5 maximum FAR for receiving lots less than 30,000 square feet

6 for #zoning lots# utilizing a #floor area# bonus pursuant to Section 66-51 (Additional Floor Area for Mass Transit Station Improvements), the maximum #floor area# bonus shall be 2.4 FAR

7 only pursuant to Section 66-51

8 for #zoning lots# containing #qualifying affordable housing# or #qualifying senior housing#, and utilizing a #floor area# bonus pursuant to Section 66-51, the maximum FAR shall be calculated in accordance with the provisions of such Section

9 for #zoning lots# containing #qualifying affordable housing# or #qualifying senior housing#, and utilizing a #floor area# bonus for #public plaza#, the maximum FAR shall be calculated in accordance with the provisions of paragraph (c) of Section 91-23 (Floor Area Bonus for Public Plazas).

91-23 - Floor Area Bonus for Public Plazas

LAST AMENDED
12/5/2024

The maximum permitted #floor area# on a #zoning lot# may be increased, in accordance with the following regulations, where a #public plaza# is provided that meets the requirements of Section 37-70 (PUBLIC PLAZAS):

(a) A #floor area# bonus for a #public plaza# shall only be permitted for a #development# or #enlargement# that is located:

(1) outside the Historic and Commercial Core;

(2) outside the South Street Seaport Subdistrict; or

(3) beyond 50 feet of a #street line# of a designated #street#, except in C6-4 Districts, on which:

(i) retail continuity is required, pursuant to Section 91-41 (Regulations for Designated Retail Streets); or

(ii) #street wall# continuity is required, pursuant to the regulations for Type 1 or Type 2A #street walls# pursuant to Section 91-31 (Street Wall Regulations).

(b) Within a C6-4 District, paragraph (a)(3) of this Section shall not apply to the location of a #development# or #enlargement#. However, a #floor area# bonus for a #public plaza# shall be permitted, provided that such #public plaza# is located beyond 50 feet of the designated #streets# referenced in paragraph (a)(3) of this Section.

(c) For each square foot of a #public plaza#, the basic maximum #floor area# permitted by Section 91-22 (Floor Area Increase Regulations) may be increased, in C6-4 Districts, by six square feet, to a maximum #floor area ratio# of 12.0, or 20 percent of the greatest #floor area ratio# permitted on the #zoning lot# and, in C5-3, C5-5 and C6-9 Districts, by 10 square feet, to a maximum #floor area ratio# of 18.0.

(d) When a #public plaza# that meets the requirements for a #floor area# bonus is located on a #zoning lot# divided by a district boundary, the bonusable #floor area# may be credited to either portion of the #zoning lot#, notwithstanding the location of the #public plaza# or the date of the creation of the #zoning lot#. The amount of bonusable #floor area# permitted on either portion of the #zoning lot# shall not exceed the maximum amount of #floor area# permitted on such portion if it were a separate #zoning lot# subject to all other provisions of Article VII, Chapter 7.

91-24 - Special Permit Bonuses for Increased Floor Area

LAST AMENDED
12/5/2024

Within the #Special Lower Manhattan District#, the City Planning Commission may grant the following special permits for increased #floor area# in accordance with the provisions of this Section.

91-241 - Special permit for covered pedestrian space

LAST AMENDED
12/5/2024

In C5-3, C5-5, C6-4 and C6-9 Districts within the #Special Lower Manhattan District#, except within the South Street Seaport Subdistrict, the City Planning Commission may grant, by special permit, a #floor area# bonus for a #commercial#, #community facility# or #mixed building# that provides #covered pedestrian space# on a #zoning lot#, in accordance with the provisions of Section 74-85 (Covered Pedestrian Space).

The total additional #floor area# permitted on the #zoning lot# shall not exceed the maximum amount permitted in the underlying district by the provisions of Sections 91-21 (Maximum Floor Area Ratio) and 91-22 (Floor Area Increase Regulations).

91-30 - HEIGHT AND SETBACK AND LOT COVERAGE REGULATIONS

LAST AMENDED
4/30/2003

For all #buildings or other structures# in the #Special Lower Manhattan District#, the height and setback regulations of the underlying districts are superseded by the regulations of this Section.

The height of all #buildings or other structures# shall be measured from #curb level#.

91-31 - Street Wall Regulations

LAST AMENDED
12/5/2024

For the purposes of applying the #street wall# regulations of this Section, #developments# shall include alterations and #enlargements# that change the height, width or location of a #street wall#.

All portions of #buildings or other structures# located above the maximum base heights specified in paragraph (a) of this Section shall provide a setback in accordance with the regulations of Section 91-32 (Setback Regulations).

(a) Within the Special District, the maximum base height shall be 85 feet or 1.5 times the width of the #street# upon which the #building# fronts, whichever is greater, except as provided for the following types of #street wall# regulations:

(1) #Street wall# regulations: Type 1

For #developments# that front upon a #street# indicated as "Type 1" on Map 2 (Street Wall Continuity Types 1, 2A, 2B and 3) in Appendix A, #street walls# shall extend along the entire #street# frontage of the #zoning lot# not occupied by existing #buildings# to remain, to a minimum base height of 150 feet or the height of the #building#, whichever is less. The maximum base height shall be 250 feet.

(2) #Street wall# regulations: Type 2A

For #developments# that front upon a #street# indicated as "Type 2A" on Map 2 in Appendix A, #street walls# shall extend along such entire #street# frontage of the #zoning lot# not occupied by existing #buildings# to remain, to a minimum base height of 85 feet or the height of the #building#, whichever is less. The maximum base height shall be 150 feet.

(3) #Street wall# regulations: Type 2B

For #developments# that front upon a #street# indicated as "Type 2B" on Map 2 in Appendix A, #street walls# shall extend along at least 60 percent of such #street#

frontage of the #zoning lot# not occupied by existing #buildings# to remain, to a minimum base height of 85 feet or the height of the #building#, whichever is less. The maximum base height shall be 150 feet.

(4) #Street wall# regulations: Type 3

For #developments# that front upon a #street# indicated as "Type 3" on Map 2 in Appendix A, #street walls# shall extend along the entire #street# frontage of the #zoning lot# not occupied by existing #buildings# to remain, to a minimum base height of 60 feet, five stories, or the height of the #building#, whichever is less. The maximum base height shall be 85 feet or 1.5 times the width of the #street# upon which the #building# fronts, whichever is greater.

(5) #Street wall# regulations: Type 4

For #developments# that front upon a #street# within the Historic and Commercial Core, indicated as "Type 4" on Map 3 (Street Wall Continuity Types 4 and 5) in Appendix A, the maximum base height shall be 100 feet.

(6) #Street wall# regulations: Type 5

For #developments# that front upon a #street# indicated as "Type 5" on Map 3 in Appendix A, no setbacks are required for any portion of a #building#.

(b) For #developments# that front upon a #street# indicated as "Type 1" or "Type 2A," at least 70 percent of the #aggregate width of street walls# shall be located on such #street line#. For #developments# that front upon a #street# indicated as "Type 2B," at least 60 percent of the #aggregate width of street walls# shall be located within 10 feet of such #street line#. For #developments# that front upon a #street# indicated as "Type 3," at least 70 percent of the

#aggregate width of street walls# shall be located within 10 feet of such #street line#. The remaining 30 percent of the #aggregate width of street walls# may be located beyond such #street lines#, provided that:

(1) for #street walls# associated with the #residential# or #community facility portion of a #building#, any such recesses deeper than 10 feet along a #wide street# or 15 feet along a #narrow street# are located within an #outer court#; and

(2) where recessed areas are pedestrian circulation spaces, the requirements of Section 37-50, inclusive, shall be applied.

(c) When a #building# fronts on two intersecting #streets# for which different maximum base heights are specified, the higher maximum base height may wrap around to the #street# with the lower maximum base height for a distance along the #street line# of 100 feet. However, "Type 5" #street walls# shall not be permitted to wrap around to the intersecting #street#.

(d) Arcades and sidewalk widenings that meet the design standards of Section 37-53 (Design Standards for Pedestrian Circulation Spaces) shall be permitted along any #street# indicated as "Type 1," "Type 2A" or "Type 3," pursuant to paragraphs (a), (b) or (c) of this Section, provided such arcade or sidewalk widening extends along the entire #block# frontage or abuts another arcade, existing on August 27, 1998, of equal width and height or another sidewalk widening of equal width. In such case, the #street wall# requirements for paragraph (b) of this Section shall be measured from the permitted arcade or sidewalk widening.

(e) The articulation allowances set forth in paragraph (d) of Section 35-631 may be applied in modifying the #street wall# location provisions of this Section.

91-32 - Setback Regulations

LAST AMENDED
2/2/2011

In accordance with the provisions of Section 91-31 (Street Wall Regulations), setbacks are required for any portion of a #building or other structure# that exceeds the maximum base heights specified for the applicable #street# in Section 91-31.

Required setbacks shall be provided at a height not lower than any minimum base height or 60 feet where none is specified and not higher than any maximum base height specified for the applicable #street# in Section 91-31. The depth of the setback shall be determined by the #lot area# of the #zoning lot#, as shown in the following table:

REQUIRED DEPTH OF SETBACKS

#Lot area# of #zoning lot#	Minimum setback depth
Less than 15,000 square feet	10 feet
15,001 to 30,000 square feet	15 feet
Greater than 30,000 square feet	20 feet

For "Type 1" and "Type 2A and 2B" #street walls#, the required setbacks shall be measured from the #street line#.

For "Type 3" #street walls#, the required setbacks shall be measured from a line drawn at or parallel to the #street line# so that at least 70 percent of the #aggregate width of street walls# of the #building# at the minimum base height are within such line and the #street line#.

For all other #street walls#, the required setbacks shall be measured from a line drawn at, or parallel to, the #street line# so that at least 50 percent of the #aggregate width of street walls# of the #building# at the minimum base height are within such drawn line and the #street line#. However, setbacks are not required for #street walls# fronting upon the major portion of a bonused #public plaza#.

For #buildings# within the Historic and Commercial Core as shown on Map 1 in Appendix A, any #building# or portion of a #building# may be located within the required setback area beneath a #sky exposure plane# that rises from a height of 100 feet above the #street line# over the #zoning lot# at a vertical distance of six to a horizontal distance of one.

91-33 - Lot Coverage Regulations

LAST AMENDED
2/2/2011

Above the maximum base height specified in Section 91-31 (Street Wall Regulations), up to a height of 300 feet, the maximum #lot coverage# of any #zoning lot# shall be 65 percent. Above a height of 300 feet, the maximum #lot coverage# of any #zoning lot# shall be 50 percent.

However, within the Historic and Commercial Core, above the maximum base height specified in Section 91-31, up to a height of 300 feet, the maximum #lot coverage# of any #zoning lot# shall be 75 percent. Above a height of 300 feet, the maximum #lot coverage# of any #zoning lot# shall be 60 percent.

For #buildings# fronting on more than one #street# where different maximum base heights are specified, the maximum #lot coverage# regulations specified in this Section shall apply at horizontal

planes at heights corresponding to the different maximum base heights. The #lot coverage# at the level of the lowest plane shall apply to the portion of a #zoning lot# located beyond 100 feet from any #street# with a higher maximum base height. The #lot coverage# at the level of each subsequent higher plane shall apply to the portion of the #zoning lot# located beyond 100 feet from any #street# with a higher maximum base height, and shall also include those portions of the #zoning lot# where lower base heights apply. The highest horizontal plane shall be established over the entire #zoning lot#.

91-34 - Maximum Horizontal Dimension for Tall Buildings

LAST AMENDED
2/2/2011

For any portion of a #building# above a height of 300 feet, the maximum horizontal dimension, measured in any direction, shall not exceed 175 feet

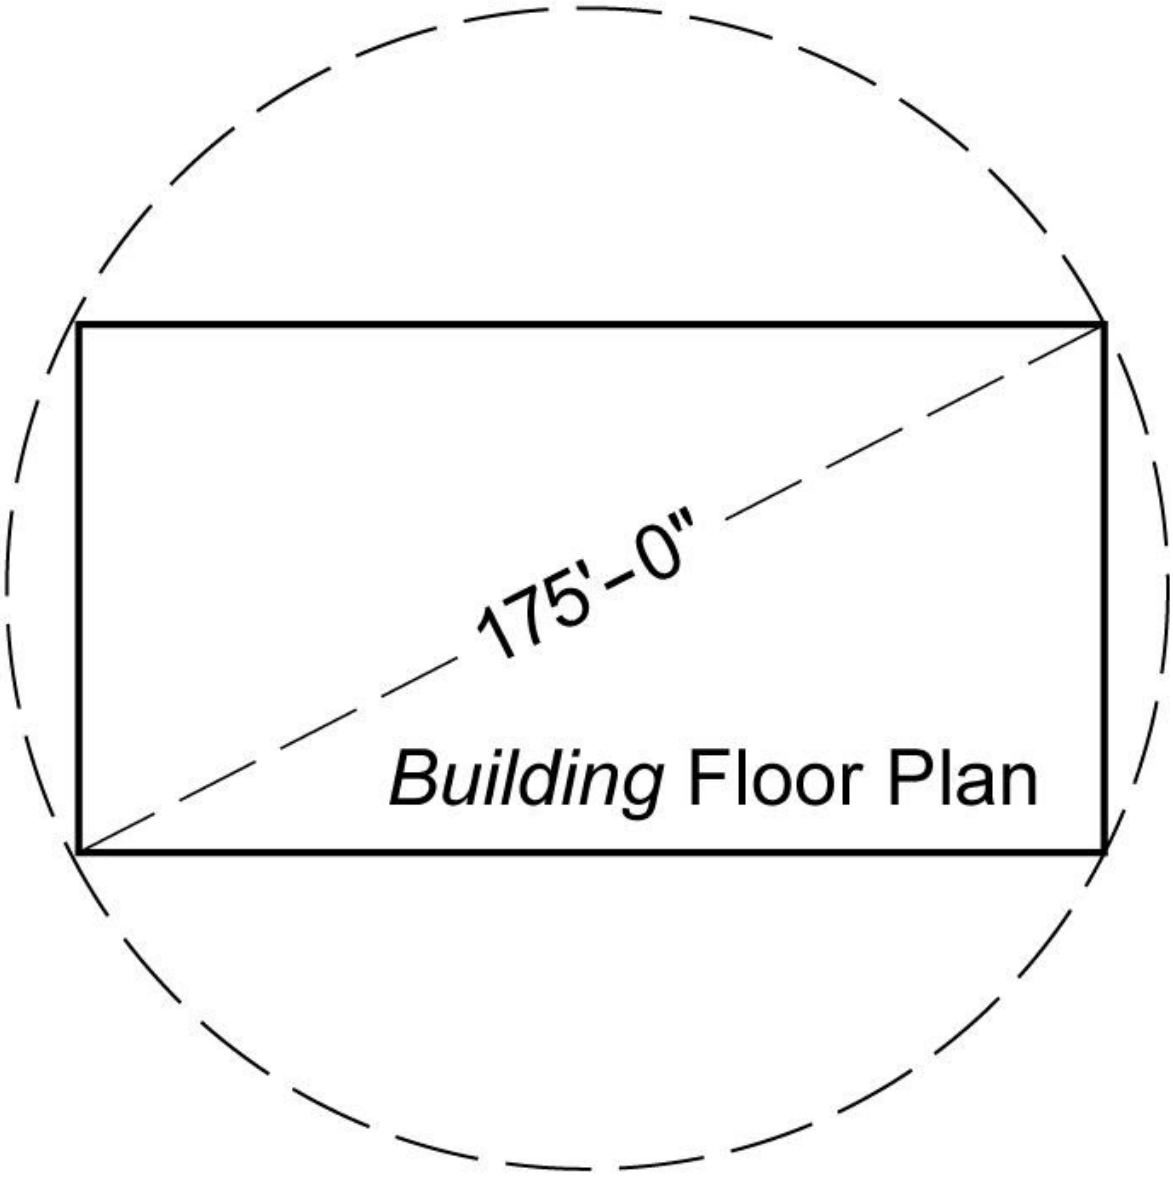

Diagram of Maximum Horizontal Dimension

(91—34)

91-35 - Modification of Street Wall, Setback, Lot Coverage and Maximum Horizontal Dimension Regulations

LAST AMENDED

2/2/2011

The City Planning Commission, by special permit, may modify:

(a) the #street wall# requirements and minimum base heights of Section 91-31 (Street Wall Regulations);

(b) the setback requirements of Section 91-32; and

(c) where such #zoning lots# contain #buildings# existing on December 15, 1961, that exceed a height of 300 feet, the #lot coverage# regulations of Section 91-33 and the maximum horizontal dimension set forth in Section 91-34 (Maximum Horizontal Dimension for Tall Buildings), provided such modifications are limited to that portion of the #development# or #enlargement# between 300 and 325 feet in height, and provided the #lot coverage# of such portion does not exceed 55 percent.

In order to grant such special permit, the Commission shall find that:

(1) such modifications will result in a site plan consistent with existing scale and streetscape patterns;

(2) such modifications will ensure a harmonious relationship between the #development# or #enlargement# and the surrounding area;

(3) such #street wall# modifications will enhance pedestrian circulation by providing pedestrian amenities that relieve sidewalk congestion;

(4) such setback, #lot coverage# or horizontal dimension modifications will not unduly obstruct access to light and air to surrounding #streets# and properties; and

(5) such setback, #lot coverage# or horizontal dimension modifications will result in a built form that maintains an appropriate relationship between tower and base portions of the #development# or #enlargement#.

The Commission may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area.

91-40 - MANDATORY DISTRICT PLAN ELEMENTS

LAST AMENDED
8/27/1998

91-41 - Streetscape Regulations

LAST AMENDED
6/6/2024

The underlying #ground floor level# streetscape provisions set forth in Section 32-30 (STREETSCAPE REGULATIONS), inclusive, shall apply, except that #ground floor level# #street frontages# along #streets#, or portions thereof, designated on Map 4 (Retail and Street Wall Continuity) in Appendix A of this Chapter shall be considered #Tier C street frontages#.

Access to each permitted establishment or #use# shall be provided directly from the #Tier C street frontage#, as shown on Map 4 in Appendix A. Where there is more than one entrance to the establishment or #use# from the #Tier C street frontage#, direct access shall be provided via the entrance with the greatest aggregate clear opening width.

Defined terms in this Section include those in Section 12-10 and Section 32-301.

91-42 - Pedestrian Circulation Space

LAST AMENDED
2/2/2011

Within the boundaries of the #Special Lower Manhattan District#, all #developments# or #enlargements# constructed after August 27, 1998, on #zoning lots# of at least 5,000 square feet that contain more than 70,000 square feet of new #floor area# shall provide pedestrian circulation space on such #zoning lot# in accordance with the provisions of Section 37-50.

Pedestrian circulation space shall not be required if any of the following conditions exist:

(a) the #zoning lot# is entirely occupied by a #building# of no more than one #story# in height;

(b) the #zoning lot# is an #interior lot# fronting on a #wide street# with less than 80 feet of #street frontage#;

(c) the #zoning lot# is an #interior# or #through lot# fronting on a #street# or #streets# with Type 1, Type 2A, Type 2B, Type 3, Type 4 or Type 5 #street wall# regulations, as set forth in paragraph (a) of Section 91-31 (Street Wall Regulations);

(d) the #zoning lot# is a #through lot# and both #street# frontages are less than 25 feet in length; or

(e) the #zoning lot# is located in a C6-2A or C6-9 District within the South Street Seaport Subdistrict.

91-43 - Off-street Relocation or Renovation of a Subway Stair

LAST AMENDED
2/2/2011

Where a #development# or #enlargement# is constructed on a #zoning lot# that contains at least 5,000 square feet of #lot area# and fronts on a sidewalk containing a stairway entrance or entrances into a subway station, the existing entrance or entrances shall be relocated from the #street# onto the #zoning lot#. The new entrance or entrances shall be provided in accordance with the provisions of Section 37-40 (OFF-STREET RELOCATION OR RENOVATION OF A SUBWAY STAIR). A relocated or renovated subway stair may be counted as pedestrian circulation space in accordance with the provisions of Section 37-50.

The subway stations where such improvements are required are listed in the following table and shown on Map 7 (Subway Station Improvement Areas) in Appendix A.

STATION	LINE

91-50 - OFF-STREET PARKING, LOADING AND CURB CUT REGULATIONS

LAST AMENDED
5/8/2013

The off-street parking regulations of Article 1, Chapter 3 (Comprehensive Off-street Parking and Loading Regulations in the Manhattan Core) and the loading regulations of the underlying districts apply to the #Special Lower Manhattan District#, except as supplemented or modified by the provisions of this Section.

91-51 - Accessory Off-street Parking for Residential Uses in Converted Buildings

LAST AMENDED
2/2/2011

#Accessory# off-street parking spaces shall be permitted for #dwelling units# in non-#residential buildings# erected prior to January 1, 1977, or portions thereof, that are #converted# to #residential use#, provided:

(a) no more than 200 spaces or a number of spaces equal to 20 percent of the number of #dwelling units# in the #converted# #building#, whichever is less, shall be permitted;

(b) no curb cut shall be permitted on any #street# where the #converted# #building# has a #street# frontage of 40 feet or less;

(c) no portion of any such parking facility shall be more than 23 feet above #curb level#;

(d) no exhaust vents shall open onto any #street# or #public park# or publicly accessible #open space#, and no portion of the parking facility, other than entrances and exits, shall be visible from adjoining #zoning lots#, #streets# or parks; and

(e) all such parking facilities shall be provided on the same #zoning lot# as the #residential uses# to which they are #accessory#, except as otherwise provided in Section 91-511 (Authorization for

off-site parking facilities for converted buildings).

91-511 - Authorization for off-site parking facilities for converted buildings

LAST AMENDED
12/5/2024

The City Planning Commission may authorize #accessory# residential off-site parking spaces for non-#residential buildings# erected prior to January 1, 1977, or portions thereof, that are #converted# to #residential use#, to be provided in a fully enclosed #building# on a #zoning lot# within the #Special Lower Manhattan District# other than the #zoning lot# that contains the #residential use#, provided the Commission finds that:

(a) such #accessory# off-site parking spaces are conveniently located in relation to the #residential use#, and in no case further than 600 feet from the #zoning lot# containing the #residential use#;

(b) such location of the #accessory# off-site parking facility will permit better site planning for the #building# #converted# to #residential use#;

(c) that such #accessory# off-site parking facility shall contain parking spaces #accessory# only to #residential uses#; and

(d) such parking facility complies with findings in paragraphs (b)(1), (b)(2), (b)(3) and (b)(5) of Section 13-45 (Special Permits for Additional Parking Spaces).

The number of #accessory# off-site parking spaces authorized in accordance with the provisions of this Section shall be recorded on the certificates of occupancy, temporary and permanent, for both the #residential use# and the #accessory# off-site parking facility.

91-52 - Curb Cut Regulations

LAST AMENDED
5/8/2013

All curb cuts shall be prohibited on #streets# indicated on Map 5 in Appendix A, except that:

(a) The Commissioner of Buildings may approve a curb cut where there are no alternative means of access to required off-street loading berths from other #streets# bounding the #zoning lot#.

(b) The City Planning Commission may authorize curb cuts for loading berths, provided:

(1) such loading berths are adjacent to a fully enclosed maneuvering area on the #zoning lot#;

(2) such maneuvering area is at least equal in size to the area of the loading berth; and

(3) there is adequate space to permit head-in and head-out truck movements to and from the #zoning lot#.

The City Planning Commission may refer such applications to the Department of Transportation for comment.

(c) The City Planning Commission may authorize curb cuts for #accessory# parking for #residences#, provided such curb cuts:

(1) will not create or contribute to serious traffic congestion or unduly inhibit vehicular and pedestrian movement; and

(2) will not interfere with the efficient functioning of required pedestrian circulation spaces, or public transit facilities.

The City Planning Commission may refer such applications to the Department of Transportation for comment.

No curb cuts may be approved or authorized on Battery Place, Broad Street, Broadway, Liberty Street west of Broadway, Park Row South or Wall Street.

In addition, for #zoning lots# with frontage on #streets# where curb cuts are prohibited, the Commissioner of Buildings may waive required off-street loading berths pursuant to the provisions set forth in Section 13-35 (Modification of Loading Berth Requirements).

Where a curb cut is approved or authorized pursuant to this Section, the maximum width of a curb cut, including splays, shall be 15 feet for a #street# with one-way traffic and 25 feet for a #street# with two-way traffic.

91-60 - REGULATIONS FOR THE SOUTH STREET SEAPORT SUBDISTRICT

LAST AMENDED
8/27/1998

91-61 - General Provisions

LAST AMENDED
12/5/2024

The regulations of Section 91-60, et seq., relating to special regulations for the South Street Seaport Subdistrict are applicable only in the South Street Seaport Subdistrict. The boundaries of the South Street Seaport Subdistrict are shown on Map 1 (Special Lower Manhattan District) and Map 6 (South Street Seaport Subdistrict) in Appendix A. The regulations of Section 91-60, et seq., supplement or

modify the regulations of this Chapter applying in general to the South Street Seaport Subdistrict area of the #Special Lower Manhattan District#.

In order to preserve and protect the character of the South Street Seaport Subdistrict and to implement the provisions of the Brooklyn Bridge Southeast Urban Renewal Plan, as amended, special controls and incentives are provided.

The provisions of Article VI, Chapter 2 (Special Regulations in the Waterfront Area), shall apply to #waterfront zoning lots# within the South Street Seaport Subdistrict. The provisions of paragraph (a) of Section 75-422 (Certification to transfer development rights from landmarks) concerning the transfer of development rights from landmark sites in C5-3, C5-5, C6-6, C6-7 or C6-9 Districts shall not apply in the South Street Seaport Subdistrict.

91-62 - Definitions

LAST AMENDED
12/15/2021

For purposes of this Section, matter in italics is defined in Section 12-10 (DEFINITIONS) or within this Section.

Development rights

Within the South Street Seaport Subdistrict, the basic maximum permitted #floor area# for a #granting lot# shall be that which is allowed by the applicable district regulations as if such granting lot were undeveloped, and shall not include any additional #floor area# bonuses for #public plazas#, #arcades# or any other form of #floor area# increase, whether as-of-right or by special permit. #Streets# located within the Subdistrict that have been closed or discontinued in whole, part or whose air space has been closed or discontinued pursuant to Section E15-3.0 of the Administrative Code, or

its successor, shall have attributed to such closed area or closed air space the basic maximum permitted #floor area# allowed within the underlying zoning district within which such #streets# are situated. The #lot area# of a closed or discontinued volume of air space shall be measured by the area of the bed of the #street# lying below and within such closed or discontinued volume.

Granting lot

Within the South Street Seaport Subdistrict, a "granting lot" is a #zoning lot# or a closed or discontinued portion of a #street# or air space over a #street# which is identified as a #granting lot#, as identified on Map 6 (South Street Seaport Subdistrict) in Appendix A, upon which development is regulated by contract, lease, covenant, declaration or otherwise to assure compliance with the purposes of this Subdistrict and from which #development rights# may be transferred. Such #zoning lots# and closed portions of #streets# or air space over #streets# are identified on the map of the transfer areas (Map 6) as Parcels 6, 7 and 9 and the adjacent hatched #street# areas.

Person

Within the South Street Seaport Subdistrict, a "person" is an individual, corporation (whether incorporated for business, public benefit or not-for-profit purposes or otherwise), partnership, trust firm, organization, other association or any combination thereof.

Receiving lot

Within the South Street Seaport Subdistrict, a "receiving lot" is a #zoning lot# identified on the map of transfer areas (Map 6 in Appendix A) to which #development rights# may be added. Such "receiving lots" are identified on the map as Parcels 1, 2, 8, 15, 16, 20, 21 and 22.

Street

(a) A #street#, as defined in Section 12-10; or

(b) a way, designed or intended for general public circulation and #use#, that:

(1) performs the pedestrian circulation functions usually associated with a way shown on the City Map;

(2) remains open and unobstructed from the at-grade circulation level to the sky, except for public facilities customarily located on a #street# shown on the City Map, or those facilities permitted to be located on a #street# shown on the City Map, including without limitation, transitory fixtures or objects unattached to the real property encompassed by such way; and

(3) is a designated pedestrian way, pursuant to Section 91-68.

A #street#, as defined in paragraph (b) of this Section, shall satisfy and apply to all references to #streets# provided elsewhere in the Zoning Resolution.

91-63 - Transfer Areas Map

LAST AMENDED
8/27/1998

The South Street Seaport Subdistrict transfer areas map, shown hereto as Map 6 in Appendix A, sets forth each #granting lot# and #receiving lot# within the Subdistrict.

91-64 - Transfer of Development Rights From Granting Lots

LAST AMENDED
2/2/2011

Within the South Street Seaport Subdistrict, #development rights# from each of the #granting lots# may be conveyed or otherwise disposed of:

(a) directly to a #receiving lot#; or

(b) to a #person# for subsequent disposition to a #receiving lot#, all in accordance with the provisions of this Subdistrict, except that with respect to #zoning lots# located on Parcels 6, 7 and 9, as identified on Map 6 (South Street Seaport Subdistrict) in Appendix A, only those #development rights# in excess of the larger of the following conditions may be so conveyed or otherwise disposed of:

(1) an amount equal to the product of the #lot area# of each of such #zoning lots# multiplied by 5.0; or

(2) the total #floor area# of all existing #buildings# on any such #zoning lots#.

The City Planning Commission shall certify such initial transfer from the #granting lots#. Any #person# may convey its interest in all or a portion of such #development rights# to another #person# but such #development rights# may only be used on a #receiving lot#.

91-65 - Addition of Development Rights to Receiving Lots

LAST AMENDED
2/2/2011

Within the South Street Seaport Subdistrict, all or any portion of the #development rights# transferred from a #granting lot# may be added to the #floor area# of all or any one of the #receiving lots# in an amount not to exceed the ratio of 10 square feet of #development rights# to each square foot of #lot area# of such #receiving lot#, except that with respect to a #receiving lot# having a #lot area# of less than 30,000 square feet, the total #floor area ratio# shall not exceed 21.6. However, if a #receiving lot# is located in a C4-6 District, the total #floor area ratio# shall not exceed 3.4 and if a #receiving lot# is located in a C6-2A District, the total #floor area ratio# shall not exceed 8.02. #Development rights# transferred to a #receiving lot# may be applied to a #mixed building# to increase the #floor area# of the #residential#, #commercial# and/or #community facility# portions of such #building# so that the maximum #floor area# for such #building# may be increased by the aggregate of #development rights# so transferred. In no event shall the #residential# #floor area ratio# exceed 12.0.

The City Planning Commission shall certify that any #zoning lot# that utilizes such transferred #development rights# conforms to this Section and, for those #receiving lots# within the Urban Renewal Area, to the regulations and controls of the Urban Renewal Plan.

91-66 - Modification of Use and Bulk Regulations

LAST AMENDED
3/20/2013

91-661 - Bulk modifications in C6-2A Districts

LAST AMENDED
12/5/2024

Within the South Street Seaport Subdistrict, for any #zoning lot# located in a C6-2A District, the underlying height and setback regulations shall apply, except that no minimum base height shall apply, and the depth of a required setback along a #narrow street# shall be at least 10 feet.

91-662 - Authorization for modification of bulk provisions and public space in C6-9 Districts

LAST AMENDED2/2/2011

In the South Street Seaport Subdistrict, the City Planning Commission may authorize:

(a) the alteration of any public amenity, open or enclosed, for which a #floor area# bonus has been granted, provided that the Commission finds that such modifications improve the intended public purpose of the amenity; or

(b) the elimination or reduction of an existing public amenity, open or enclosed, for which a #floor area# bonus has been granted, provided that a new or improved public amenity, open or enclosed, is supplied elsewhere on, or within proximity to, the #zoning lot#, and the Commission finds that:

(1) the public amenity to be eliminated no longer serves its original purpose; and

(2) the proposed new or improved public amenity will provide a greater public benefit than the amenity to be eliminated or reduced and will better serve the purposes of the #Special Lower Manhattan District#; and

(c) the modification of the applicable height, setback, lot coverage and distance between #buildings# requirements for any #development# or #enlargement# on a designated #receiving lot# that will incorporate transferred #development rights#, provided the Commission finds

that the modifications:

(1) provide an appropriate distribution of #bulk# on the #zoning lot#;

(2) permit adequate light and air to the #development# or #enlargement# and adjoining properties as well as the surrounding #streets#; and

(3) will not impair the use and desirability of any public amenity that may be created or improved under the provisions of paragraph (b) of this Section.

If a #receiving lot# contains an existing #building#, such authorization shall incorporate any previous height and setback or other bulk modifications, granted prior to December 11, 2001, by the Board of Standards and Appeals, for such existing #building#.

The Commission may prescribe appropriate conditions and safeguards in connection with the grant of such authorization.

91-663 - Special permit for bulk modifications

LAST AMENDED
2/2/2011

Within the South Street Seaport Subdistrict, the City Planning Commission may modify, by special permit, the height and setback and #lot coverage# regulations of Section 91-30, provided that:

(a) either of the following conditions have been met:

(1) that the developer has obtained negative easements limiting the height of future #development# or #enlargement# to 85 feet or less on any adjoining #zoning lots# which are contiguous or would be contiguous to said #zoning lot# but for their

separation by a #street# or #street# intersection, and such easements are recorded against such adjoining #zoning lots# by deed or written instrument. The Commission shall consider the aggregated areas of said #zoning lot# and the adjoining lots subject to such negative easements and the extent to which they achieve future assurance of light and air in determining the maximum permitted coverage. In no event shall such coverage exceed 80 percent of the #zoning lot# on which the #development# or #enlargement# will be located; or

(2) that the #lot coverage# for that portion of a #development# or #enlargement# below 300 feet may be increased to a maximum of 80 percent when additional #development rights# have been purchased and converted to increased #lot coverage#. The maximum percentage of #lot coverage# on such #receiving lot# shall be the sum of 65 percent plus one-half of one percent for every .10 by which the total #floor area ratio# on such #receiving lot# would exceed a #floor area ratio# of 21.6, provided that the #development# or #enlargement# on such #receiving lot# has achieved a minimum #floor area ratio# of 18.0;

(b) In order to grant such special permit, the Commission shall make the following findings:

(1) the location of the #development# or #enlargement# and the distribution of #bulk# will permit adequate light and air to surrounding #streets# and properties;

(2) any modification of height and setback will provide for better distribution of #bulk# on the #zoning lot#; and

(3) such special permit will aid in achieving the general purposes and intent of the Subdistrict.

The Commission may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area.

91-664 - Modification of hours of operation for waterfront public access areas

LAST AMENDED
3/20/2013

For any #zoning lot# which was the subject of application N130058 ZCM, the hours of operation set forth in paragraph (a) of Section 62-71 (Operational Requirements) may be extended to allow public access up to 24 hours per day, and the provisions of paragraph (a)(3) of Section 62-654 (Signage) shall be modified to require any such extended hours of public access, as may change over time, to be included on the required signage. The provisions of paragraph (a)(4) of Section 62-654 shall not apply where 24 hour access is allowed. The provisions of paragraph (b) of Section 62-71 requiring rules of conduct for the #waterfront public access area# to be established with the Department of Parks and Recreation, and other provisions of this Chapter requiring a maintenance and operation agreement pursuant to Section 62-74 (Requirements for Recordation), shall not apply so long as a legal instrument acceptable to the Chairperson, in all other respects consistent with the provisions of Section 62-74, has been executed and recorded, setting forth rules of conduct and maintenance and operations requirements.

91-67 - Recordation

LAST AMENDED
8/27/1998

Within the South Street Seaport Subdistrict, at the time of transfer of #development rights# from a #granting lot#, there shall be recorded in the Office of the Register of the City of New York, and indexed against such #granting lot# from which #floor area# is removed, an instrument removing such #floor area# and prohibiting construction on such #zoning lot# of any #building or other structure# which would contain #floor area# in excess of that still available to the #zoning lot# after deducting

the #floor area# removed, such prohibition to be non-cancelable for 99 years; and at the time of the addition of #development rights# to a #receiving lot# as provided in Section 91-65, there shall be recorded in the Office of the Register of the City of New York, and indexed against such #receiving lot# to which #floor area# is added, an instrument transferring the #floor area# to the #receiving lot# benefited and identifying the #granting lot# (by tax block and lot number and description) from which the #floor area# has been removed. A certified copy of such instruments shall be submitted to the City Planning Commission upon recordation.

91-68 - Designated Pedestrian Ways

LAST AMENDED
12/15/2021

Within the South Street Seaport Subdistrict, the volume situated above the subsurface #streets# shown on the City Map, and listed in this Section are designated pedestrian ways and are governed by paragraph (b) of the definition of #street# as set forth in Section 91-62 (Definitions):

(a) Fulton Street, between Water and South Streets

(b) Water Street, between Fulton and Beekman Streets

(c) Front Street, between Fulton and Beekman Streets, and between John and Fulton Streets

(d) South Street (the 18-foot-wide strip located on the northwesterly side), between Beekman and John Streets.

In addition, the designated pedestrian ways referenced in paragraphs (a), (b) and (c) of this Section may be considered a single #zoning lot# for purposes of the definition of #large-scale general development# in Section 12-10 (Definitions).

91-69 - Special Permit for Development of Piers 9, 11, 13 and 14

LAST AMENDED
2/2/2011

Within the area bounded by South Street, the southerly edge of Pier 9, the U. S. Pierhead Line and the northerly edge of Pier 14, which, for the requirements of this Section, shall be deemed to be a single #zoning lot#, the City Planning Commission may, by special permit, permit modification of the bulk regulations, other than #floor area ratio# applicable to the #zoning lot#, and may modify or waive the requirements of Section 62-50 (GENERAL REQUIREMENTS FOR VISUAL CORRIDORS AND WATERFRONT PUBLIC ACCESS AREAS), in accordance with the provisions of this Section.

The special permit shall be subject to the condition that the property owner, principal lessee or licensee of property owner has entered into an agreement with the Department of Parks and Recreation to operate and maintain the publicly accessible areas in accordance with Section 62-70 (MAINTENANCE AND OPERATION REQUIREMENTS FOR WATERFRONT PUBLIC ACCESS AREAS). For purposes of this Section, such publicly accessible areas shall be deemed "waterfront public access areas."

In granting any such modifications, the Commission shall find that:

(a) any modification of height and setback regulations results in an appropriate distribution of permitted bulk on the piers;

(b) no #buildings or other structures# shall unduly obstruct the visual corridor bounded by the prolongation of the northern and southern #street lines# of Wall Street seaward to the U. S. Pierhead Line;

(c) any modification will not unduly impede surface traffic and will minimize possible vehicular/pedestrian conflicts in the surrounding area;

(d) that the seaward end of all such piers is unobstructed to the greatest extent feasible so as to maximize views northward and southward;

(e) the development plan for such area includes an appropriate amount of publicly-accessible open space which shall incorporate appropriate design features that serve the needs of the local area, including but not limited to landscaping, lighting and seating; and

(f) the development plan is integrated with existing and proposed nearby development.

The Commission may prescribe additional appropriate conditions and safeguards to minimize adverse effects on the character of the waterfront and surrounding area.

91-70 - SPECIAL REGULATIONS FOR CERTAIN AREAS

LAST AMENDED
2/2/2011

#Developments# or #enlargements# in the former Special Greenwich Street Development District built prior to August 27, 1998, will continue to be governed by the regulations in effect at the time of issuance of the building permit and can only be modified or altered by Sections 91-71 through 91-73, inclusive.

91-71 - Authorization for the Modification of Required Public Amenities

LAST AMENDED
2/2/2011

The City Planning Commission may authorize modifications of certain provisions of the former Special Greenwich Street Development District, eliminated on August 27, 1998, that mandated public amenities, as follows:

(a) For any mandatory or elective public amenities or improvements built pursuant to the regulations of the former Special District that resulted in an increase in the basic maximum #floor area ratio# or an increase in the adjusted basic maximum #floor area ratio#, the Commission may authorize:

(1) the alteration of the amenity or improvement, provided that the Commission finds that such modifications improve the intended public purpose of the amenity;

(2) the elimination of the amenity or improvement, provided that the Commission finds that the intended public purpose is no longer useful or desirable and a new public amenity or improvement is supplied, as permitted pursuant to this Chapter, that generates the same or higher amount of bonusable #floor area#; or

(3) in the case of an amenity or improvement built in excess of the requirements necessary to generate the bonus #floor area# at the time of #development# or #enlargement#, the elimination of such portion of the amenity not tied to the bonus #floor area#, provided that the Commission finds that such portion is no longer useful or desirable.

(b) For any mandatory or elective public amenities or improvements built pursuant to the regulations of the former Special District that did not result in an increase in the basic maximum #floor area ratio#, the Commission may authorize the elimination or alteration of the amenity or improvement if it finds that the intended public purpose is no longer useful or desirable.

(c) No mandatory or elective public amenity or improvement built pursuant to the regulations of the former Special District shall be eliminated or reduced in size, without a corresponding reduction in the #floor area# of the #building# or the substitution of equivalent complying

area for such amenity elsewhere on the #zoning lot#, in accordance with the provisions of paragraph (a)(2) of this Section, except by special permit of the Commission, subject to a finding that the proposed change will provide a greater public benefit in light of the public amenity's purpose and the purposes of the #Special Lower Manhattan District#.

However, the open pedestrian bridge spanning Greenwich Street between Liberty and Cedar Streets may be eliminated, without recourse to the Commission, where the pedestrian access provided between the required elevated public pedestrian circulation systems is no longer useful or desired.

The Commission may prescribe appropriate conditions and safeguards in connection with the grant of such authorization.

91-72 - Special Permit for Development Over or Adjacent to the Approaches to the Brooklyn Battery Tunnel

LAST AMENDED
2/2/2011

The City Planning Commission, by special permit, may allow:

(a) the unmapped air space above the approaches to the Brooklyn Battery Tunnel to be considered a single #zoning lot# and may allow the #development# or #enlargement# of a #building# on such unmapped air space, where the #zoning lot# for such #development# or #enlargement# shall include only that portion of the area above the approaches to the Brooklyn Battery Tunnel and contiguous areas of land or property that are covered by a permanent platform and not designated as approaches to the Brooklyn Battery Tunnel.

(b) the unmapped air space above the approaches to the Brooklyn Battery Tunnel, the unmapped air space above Joseph P. Ward Street and the at-grade parcels bounding the northern #street

line# of Joseph P. Ward Street to be deemed a single #zoning lot#, and in connection therewith:

(1) such #zoning lot# shall generate #floor area# only from such at-grade parcels and only those portions of the unmapped air space above the approaches to the Brooklyn Battery Tunnel covered by a permanent platform or #building# existing on November 15, 2007;

(2) no #floor area# shall be generated from the unmapped air space above Joseph P. Ward Street; and

(3) unused #floor area# generated from those portions of the unmapped air space above the approaches to the Brooklyn Battery Tunnel covered by a permanent platform or #building# existing on November 15, 2007, shall only be located on the at-grade parcels bounding the northern #street line# of Joseph P. Ward Street and shall only be used for #residential# #floor area#.

Notwithstanding any of the foregoing, the use and occupancy of the unmapped air space above the approaches to the Brooklyn Battery Tunnel and of the at-grade parcel bounding the northern #street line# of Joseph P. Ward Street and shown on the City Map, as amended October 3, 1946, as an approach to the Brooklyn Battery Tunnel by the New York State Triborough Bridge and Tunnel Authority, may be continued and in effect as set forth in Resolutions of the former New York City Board of Estimate and as otherwise permitted by law.

The at-grade parcels of the #zoning lot# bounding the northern #street line# of Joseph P. Ward Street shall be considered a #through lot# bounded by Washington Street and West Street from its lowest level to the sky, and only such at-grade parcels shall be used to determine

compliance with applicable #bulk# regulations other than #floor area# and #lot area# regulations.

For purposes of this paragraph, (b), the at-grade parcels bounding the northern #street line# of Joseph P. Ward Street shall mean:

the at-grade parcel bounding the northern #street line# of Joseph P. Ward Street and shown on the City Map, as amended October 3, 1946, as an approach to the Brooklyn Battery Tunnel; and

the at-grade parcel bounding the northern line of said parcel.

In order to grant such special permit, the Commission shall find that adequate access and #street# frontage to one or more #streets# is provided; and the streetscape, site design and location of #building# entrances of the proposed #development# or #enlargement# will contribute to the overall improvement of pedestrian circulation within the surrounding area.

The Commission may prescribe appropriate conditions and safeguards to protect and minimize any adverse effects on the character of the surrounding area.

91-73 - Special Provisions for Battery Park Underpass/South Street

LAST AMENDED
2/2/2011

A #zoning lot# containing a #development#, or portion thereof, on a #waterfront zoning lot#, may be located within the volume above the upper limiting plane of the Battery Park Underpass/South Street, when such volume is eliminated, discontinued and closed. That portion of the #zoning lot# that lies

above the Battery Park Underpass/South Street shall not be considered #lot area# for the purpose of computing maximum #floor area#; however, such portion shall be considered #lot area# for all other purposes of this Resolution.

91-80 - PUBLIC ACCESS AREAS

LAST AMENDED
6/21/2016

The following regulations shall apply to #arcades# and #publicly accessible open areas# existing on June 21, 2016, located within the Water Street Subdistrict as shown on Map 8 in Appendix A of this Chapter except for the #plaza# that was the subject of special permit application CP-20518, approved by the City Planning Commission on November 27, 1968.

For the purposes of this Section, inclusive, "arcade" shall refer to an #arcade# or #through block arcade# provided in accordance with the provisions of Sections 12-10 (DEFINITIONS) and 37-80 (ARCADES), or any other #arcade# that generated a #floor area# bonus as evidenced by plans approved by the Department of Buildings.

A horizontal #enlargement# permitted by Sections 91-83 (Retail Uses Within Existing Arcades), inclusive, or 91-841 (Authorization for retail uses within existing arcades) shall not be included as #floor area#, and such additional area shall not result in a reduction of the permitted #floor area#.

No #arcade# may be eliminated or reduced in size pursuant to paragraphs (a) or (d) of Section 33-124 (Existing public amenities for which floor area bonuses have been received). In lieu thereof the following provisions shall apply: Sections 91-83, 91-841 and, as applicable, Section 91-85 (Special Permit for Enlargements of 7,500 Square Feet or Greater).

For any #zoning lot# that was the subject of application C810325ZSM, C810506ZSM or C841070ZSM, a certification pursuant to Section 91-83 or an authorization pursuant to Section 91-841 shall not result in a departure from the findings and conditions specified in the applicable special permit, and such certification or authorization shall not require modification of the applicable special permit unless such a modification is required pursuant to a related restrictive declaration. For the #zoning lot# that was the subject of application C810325ZSM, the existing #through block arcade# shall not be eliminated, but may be modified in size and configuration provided that the standards for #through block arcades# set forth in Section 12-10 are met.

Public events may take place within a #publicly accessible open area# or #arcade# pursuant to the provisions of Section 91-81 (Events Within Public Access Areas). Publicly accessible tables, chairs, shade umbrellas and heating lamps may be located within a #publicly accessible open area# or #arcade# pursuant to the provisions of Section 91-82 (Amenities Within Public Access Areas). An outdoor cafe may be located within an #arcade# pursuant to Section 91-821 (Certification for outdoor cafes within arcades).

A horizontal #enlargement# of the ground floor and second floor levels may be permitted within #arcades#, or portions thereof, located within Area A in Map 9 of Appendix A of this Chapter pursuant to the provisions of Section 91-83, and within Area B pursuant to the provisions of Section 91-841. In addition, a horizontal #enlargement# of 7,500 square feet or greater shall also require a special permit pursuant to Section 91-85. For the purposes of calculating the total area of the horizontal #enlargement# that is subject to the special permit, the aggregate area of the horizontal #enlargement# permitted by prior certifications pursuant to Sections 91-83 and 91-837 (Subsequent design changes) and prior authorizations pursuant to Section 91-841 shall be included in such calculation, except the area of an indoor public space shall be excluded from such calculation. In no event shall an #enlargement# be permitted within #arcades#, or portions thereof, located within Area C on Map 9 in Appendix A of this Chapter.

91-81 - Events Within Public Access Areas

LAST AMENDED
6/21/2016

The provisions of Article III, Chapter 7 restricting the temporary placement or storage of event-related amenities or equipment within a #publicly accessible open area# or #arcade# shall be modified by the provisions of this Section. The temporary placement or storage of event-related equipment or amenities in accordance with the provisions of this Section shall not constitute a design change pursuant to the provisions of Sections 37-625 or 91-837.

Events including, but not limited to, farmers' markets, holiday markets, concerts and performances, art and cultural exhibitions and festivals are permitted within all #publicly accessible open areas# and #arcades#. The utilization of a #publicly accessible open area# or #arcade# for the promotion of products or services shall not itself qualify as an event permitted under this Section.

Events shall be open to the public, provide free and unticketed admission and only be permitted to use amplified sound between the hours of 9:00 a.m. and 10:00 p.m. All #publicly accessible open areas# and #arcades# shall continue to be publicly accessible at all times. Event-related amenities and equipment shall be considered temporary permitted obstructions provided that sufficient circulation space connecting all #streets# and #building# entrances exists. All #publicly accessible open areas# and #arcades# shall be restored to their approved condition within 24 hours of the conclusion of an event.

The storage of equipment or materials outside of an event's scheduled hours, excluding time required for set up and clean up, shall not be permitted within a #publicly accessible open area# or #arcade#. However, for events taking place over multiple days or weeks, large temporary equipment that requires assembly and will be actively used during the event, such as stages, kiosks and sound and video entertainment systems, may remain in the #publicly accessible open area# or #arcade# outside of the event's scheduled hours.

At least 30 days prior to the scheduled date of an event, notification shall be given to the local Community Board, local Council Member and Borough President of the nature, size and duration of the event.

91-82 - Amenities Within Public Access Areas

LAST AMENDED
6/21/2016

The provisions of Article III, Chapter 7 restricting the placement of tables, chairs, shade umbrellas and heating lamps within a #publicly accessible open area# or #arcade# shall be modified by the provisions of this Section. The placement of tables, chairs, shade umbrellas or heating lamps in accordance with the provisions of this Section, inclusive, shall not constitute a design change pursuant to the provisions of Sections 37-625 or 91-837.

Publicly accessible tables and chairs, as well as shade umbrellas and heating lamps, shall be permitted obstructions within a #publicly accessible open area# or #arcade#, provided that such obstructions comply with the provisions of Section 91-822 (Requirements for furnishings), as applicable. Tables, chairs, shade umbrellas and heating lamps provided pursuant to this Section may be used by the public without restriction. Outdoor cafes may be placed within an #arcade# by certification pursuant to Section 91-821 (Certification for outdoor cafes within arcades).

91-821 - Certification for outdoor cafes within arcades

LAST AMENDED
6/21/2016

An outdoor cafe may be permitted within an #arcade# upon certification by the Chairperson of the City Planning Commission to the Commissioner of Buildings that, in addition to the provisions of this Section, the provisions of Section 91-822 (Requirements for furnishings) are met. An outdoor cafe that is permitted by this Section shall be a permanently unenclosed restaurant or eating or drinking place, which may have waiter or table service.

No portion of an outdoor cafe that is permitted by this Section may extend into a #publicly accessible open area# except where an open air cafe has been permitted by a certification pursuant to Section 37-73 (Kiosks and Open Air Cafes).

In order to certify that the proposed modification to an existing #arcade# is consistent with the provisions of this Section, the applicant shall submit to the Chairperson a site plan and other detailed plans demonstrating that the proposed obstructions within the existing #arcade# and, where applicable, pursuant to paragraph (a)(2) of Section 91-822, the adjacent #publicly accessible open area#, will comply with the provisions of this Section. The placement of publicly accessible tables and chairs within a #publicly accessible open area# pursuant to paragraph (a)(2) of Section 91-822 shall not constitute a design change pursuant to the provisions of Section 37-625.

All plans for #arcades# or other #publicly accessible open areas# that are the subject of a certification pursuant to this Section shall be filed and duly recorded in the Office of the City Register of the City of New York, indexed against the property in the form of a legal instrument, in a form satisfactory to the Chairperson, providing notice of the certification of the #arcade#, pursuant to this Section. The filing and recording of such instrument shall be a precondition to certification. The filing and recording information shall be included on any temporary or final certificate of occupancy for any #building#, or portion thereof, on the #zoning lot# issued after the recording date.

91-822 - Requirements for furnishings

LAST AMENDED

The following provisions shall apply to all furnishings, including tables, chairs, shade umbrellas and heating lamps, permitted by Section 91-82 (Amenities Within Public Access Areas) and Section 91-821 (Certification for outdoor cafes within arcades).

(a) Size, location and other requirements

(1) Requirements for all furnishings

All furnishings shall be moveable. Permanent fixtures may be installed in the ground of a #publicly accessible open area# or #arcade# for the purposes of supporting shade umbrellas or heating lamps provided that such fixtures are flush-to-grade.

No furnishings shall be permitted within five feet of any #building# entrance, nor shall they be permitted within any required circulation paths.

(2) Additional requirements for outdoor cafes located within #arcades#

Where an outdoor cafe is provided pursuant to Section 91-821, a minimum of four tables and 16 chairs shall be provided and made available to the public without restriction, which may be located within an #arcade# or within a #publicly accessible open area# and shall be outside of the permitted cafe boundary.

Outdoor cafes shall be located at the same elevation as the adjoining sidewalk area or #publicly accessible open area#, except that they may be located no more than six inches below or on a platform no more than six inches above such adjoining sidewalk area or #publicly accessible open area#. The border of the outdoor cafe shall be permanently marked in accordance with the applicable standards for open air cafes set forth in paragraph (b) of Section 37-73.

Fences, planters, walls, fabric dividers or other barriers that separate outdoor cafe areas from other portions of the #arcade#, adjacent sidewalks or #publicly accessible open areas# shall be prohibited. No kitchen equipment shall be installed within an outdoor cafe.

Litter receptacles shall be provided in accordance with the standards for #public plazas# set forth in Section 37-744.

(3) Circulation requirements for outdoor cafes located within #arcades#

For #arcades# with a depth of 10 feet or less, as measured from the column face furthest from the #street line# or #publicly accessible open area# to the #building# wall fronting on such #street line# or #publicly accessible open area#, an unobstructed path not less than three feet wide shall be provided. For #arcades# with a depth greater than 10 feet, as measured from the column face furthest from the #street line# or #publicly accessible open area# to the #building# wall fronting on such #street line# or #publicly accessible open area#, such unobstructed pedestrian way shall be increased to at least six feet. For #through block arcades#, an unobstructed pedestrian way, except for approved doorways, of at least eight feet shall be provided connecting each #street# on which the #through block arcade# fronts.

(b) Operation

(1) Requirements for all tables and chairs

Except as otherwise provided in paragraph (b)(2) of this Section, tables, chairs, shade umbrellas and heating lamps may be stored or secured within an #arcade# between the hours of 9:00 p.m. and 7:00 a.m., but may not be stored or secured within a #publicly

accessible open area#.

(2) Additional requirements for outdoor cafes located within #arcades#

Publicly accessible tables and chairs that are required by paragraph (a)(2) of this Section may not be removed or secured while the cafe is in active use.

All furnishings within the boundary of an outdoor cafe, including tables, chairs, shade umbrellas, bussing stations and heating lamps, shall be completely removed from the #arcade# when the outdoor cafe is not in active use, except that tables and chairs may remain in such #arcade# if they are unsecured and may be used by the public without restriction.

91-83 - Retail Uses Within Existing Arcades

LAST AMENDED
6/21/2016

A horizontal #enlargement# of the ground floor and second floor levels within an #arcade# located within Area A on Map 9 in Appendix A of this Chapter may be permitted upon certification by the Chairperson of the City Planning Commission to the Commissioner of Buildings that such #enlargement# complies with the provisions of this Section, and the following conditions are met:

(a) the horizontal #enlargement# meets the requirements of Section 91-831 (Ground floor requirements);

(b) a compensating amenity is provided pursuant to the provisions of Section 91-832 for plaza improvements, Section 91-834 for indoor public spaces, or Section 91-835 for alternative improvements; and

(c) the additional requirements of Section 91-836, as applicable.

For #zoning lots# with one or more #publicly accessible open area#, unless an alternative improvement has been identified in Section 91-835, an improvement to all #publicly accessible open areas# pursuant to the provisions of Section 91-832 shall be required as the compensating amenity required by condition (b) of this Section, and a certification for design changes pursuant to Section 37-625 shall not be required. Where a #publicly accessible open area# was improved and is fully compliant with a prior certification pursuant to Section 37-625 that was granted before January 19, 2016, the further improvement of such #publicly accessible open area# shall not be required.

The provision of a compensating amenity as part of a prior certification pursuant to this Section or a prior authorization pursuant to Section 91-841 (Authorization for retail uses within existing arcades) may satisfy the requirements of condition (b) of this Section for a compensating amenity.

As part of the certification, a horizontal #enlargement# of the ground floor level may be permitted within the area between a #street wall# and an #arcade# that did not generate a #floor area# bonus prior to June 21, 2016. The provisions of Section 91-831 (Ground floor requirements) shall not apply to such portion of the horizontal #enlargement#.

As part of the certification, a horizontal #enlargement# of the ground floor level may be permitted along existing #building# walls that do not face an #arcade#, and such #enlargement# shall not occupy any #publicly accessible open area#. The locational requirements of paragraph (a)(1) of Section 91-831 and the frontage prohibitions of paragraph (b)(1)(ii) of Section 91-831 shall apply to such #enlargement#. Where an #enlargement# is located adjacent to a #publicly accessible open area#, the #use# and transparency requirements of Section 91-831 for new #building# walls facing a #publicly accessible open area# shall apply.

For a horizontal #enlargement# of 7,500 square feet or greater, a special permit pursuant to Section 91-85 shall also be required. For the purposes of calculating the total area of the horizontal #enlargement# that is subject to the special permit, the aggregate area of the horizontal #enlargement# permitted by prior certifications pursuant to this Section and Section 91-837 (Subsequent design changes) and prior authorizations pursuant to Section 91-841 shall be included in such calculation, except the area of an indoor public space shall be excluded from such calculation.

Where any portion of the #arcade# remains open and accessible, such remaining #arcade# area shall maintain a minimum level of illumination of not less than five horizontal foot candles between sunset and sunrise. Any non-transparent portion of a #building# wall between columns that fronts on such #arcade# area shall be treated with artwork, planting or decorative material. Additional requirements for transparency in paragraph (c)(3) of Section 91-831 may apply.

91-831 - Ground floor requirements

LAST AMENDED
6/6/2024

The provisions of this Section shall apply to the #street wall# of the ground floor and second floor level #enlargement#. For the purposes of this Section, a #publicly accessible open area# or #through block arcade# shall be considered a #street#, and a #building# wall that faces a #publicly accessible open area# or #through block arcade# shall also be considered a #street wall#. The provisions of this Section for new #building# walls fronting on a #publicly accessible open area# shall also apply to new #building# walls fronting on a #through block arcade#, except as otherwise specified. The City Planning Commission may authorize a modification of the provisions of this Section pursuant to Section 91-842 (Authorization to modify design requirements).

(a) Location of #enlargement#

(1) Location of new #building# walls

All new #building# walls shall extend to the full height of the #arcade#. New #building# walls may only be located between the column face closest to an existing #street wall# and the column face furthest from an existing #street wall# or the #street wall# location of the floor above, except that new #building# walls within an existing #through block arcade# that do not face a #street# may extend past the column face furthest from the existing #street wall# provided that the standards for #through block arcades# set forth in Section 12-10 (DEFINITIONS) and all other provisions of this Section are met. New #building# walls within an existing #through block arcade# that do not face a #street# shall not be required to extend for the full height of the #through block arcade#.

(2) Length of new #building# walls

An #enlargement# shall extend for the full length of the #street wall#, except for the locations specified on Map 9 in Appendix A of this Chapter and except if a corner #arcade# that adjoins the Water Street #street line# and another #street line# or #publicly accessible open area# is provided in accordance with the provisions of paragraph (c) of Section 37-53 (Design Standards for Pedestrian Circulation Spaces) which may provide a clear path 10 feet wide. However, an #enlargement# shall not be required along the length of the #street wall# occupied by an existing parking or loading entrance. Where an #enlargement# within an #arcade# extends along two or more #street walls#, the #enlargement# shall also include the area where the #arcade# areas intersect, except as otherwise provided in this Section, and the location of new #building# walls in such area shall be subject to the provisions of paragraph (a)(1) of this Section.

(b) Permitted #uses# within an #enlargement#

(1) Requirements for all frontages

The underlying #ground floor level# streetscape provisions set forth in Section 32-30 (STREETSCAPE REGULATIONS), inclusive, shall apply, except that #ground floor level# #street# frontages subject to the provisions of this Section shall be considered #Tier C street frontages#. For the purposes of applying such regulations, the #minimum qualifying depth# shall be the depth set forth in Section 32-301, or the depth of the #enlargement#, whichever is less.

Defined terms in this Section include those in Sections 12-10 and 32-301

(c) Number of establishments

Along the longest #street wall# of the #ground floor level# #enlargement#, at least two establishments permitted by paragraph (b) of this Section shall be provided on the #ground floor level#. Frontage that is solely dedicated to access a #use# on a level other than the #ground floor level# shall not constitute an establishment for the purposes of this paragraph.

91-832 - Plaza improvements

LAST AMENDED
6/21/2016

A #publicly accessible open area# shall be improved in full accordance with the provisions of Section 37-70 (PUBLIC PLAZAS) as modified by this Section, and as further modified by Section 91-833 (Special regulations for plazas less than 40 feet in depth) for #publicly accessible open areas# with a maximum depth of less than 40 feet, as measured perpendicular to any #street line#. Subsequent

design changes to any #publicly accessible open area# improved pursuant to the provisions of such Sections may only be permitted pursuant to Section 91-837. The City Planning Commission may authorize a modification of the provisions of this Section and Section 91-833 pursuant to Section 91-842 (Authorization to modify design requirements).

(a) For the purposes of applying the provisions of this Section, any portion of the #publicly accessible open area# occupied by a garage entrance, driveway, loading berth or gratings for electrical vaults may be excluded from the calculation of the total area or total #street# frontage of the #publicly accessible open area#. Such area shall remain open and accessible to the public at all times.

(b) The area dimension requirements of Section 37-712, the locational restrictions of Section 37-713, the orientation restrictions of Section 37-714 and the requirements for major and minor portions of #public plazas# set forth in Sections 37-715 and 37-716, respectively, shall not apply.

(c) The #through block public plaza# provisions of Section 37-717 that require a setback along any #building# wall or walls that adjoin a #through block public plaza# or through #block# portion of a #publicly accessible open area# shall not apply.

(d) The sidewalk frontage provisions of Section 37-721 shall be modified as follows:

(1) the requirements of paragraph (a) may be reduced to the minimum extent necessary to allow existing walls or structures within such area to remain, provided that such walls or structures do not increase in height or length along the #street# frontage, and all portions of the #publicly accessible open area# are accessible from a #street#, #arcade# or other portion of the #publicly accessible open area#.

(2) paragraph (b) shall be modified to allow planters with bounding walls that exceed a height of two feet that are permitted by paragraph (g) of this Section to be located in such area.

(3) for #corner public plazas#, where there is a change in elevation permitted by paragraph (e) of this Section for the area within 15 feet of the intersection of any two or more #streets# on which the #publicly accessible open area# fronts, such area shall not be required to be at the same elevation as the adjoining public sidewalk, but must be free of obstructions except as may otherwise be provided in paragraph (d)(1) of this Section.

(e) The provisions of Section 37-722 (Level of plaza) shall be modified to permit any elevation of the #publicly accessible open area# existing on June 21, 2016, to remain.

(f) The provisions of Section 37-726 (Permitted obstructions) shall be modified as follows:

(1) paragraph (c) shall allow awnings above retail and service establishments that do not project into the #publicly accessible open area# more than three feet when measured perpendicular to the #building# facade. There shall be no limitation on the area or height of an awning, but in no event shall an awning for a retail or service establishment contain vertical supports.

(2) paragraph (d) shall allow garage entrances, driveways or loading berths fronting on a #publicly accessible open area# and existing on June 21, 2016, to remain, provided that they are separated from the remainder of the #publicly accessible open area# by a barrier sufficient to substantially conceal these facilities and any vehicles therein when viewed from any point in the #publicly accessible open area#. A #building# trash storage facility may be accessed or serviced through the portion of a #publicly

accessible open area# that is occupied by a garage entrance, driveway or loading berth.

(g) The provisions of Section 37-742 (Planting and trees) may be modified where the Chairperson of the City Planning Commission has been provided with documentation sufficient to establish that subsurface conditions do not allow the required soil depth for shrubs or trees to be provided below-grade or within a planter with bounding walls no higher than 18 inches in height above an adjacent walking surface or the highest adjacent surface where the bounding wall of such planter adjoins two or more walking surfaces with different elevations. A raised planter may be provided with bounding walls up to three feet for shrubs, or 3 feet, 6 inches for trees, provided that fixed seating with backs is integrated into the planter for at least 50 percent of the perimeter of the planter that is adjacent to a walking surface. If such planter, or any portion thereof, is located within ten feet of a #street line#, fixed seating with backs shall be integrated into at least 75 percent of the perimeter of the planter that is adjacent to a walking surface. Where it is demonstrated that no required trees can be planted flush-to-grade or planted at grade within planting beds with no raised curbs or railings, the Chairperson may allow all trees to be planted within raised planters.

(h) The calculation of the minimum number of entry plaques required by paragraph (a) of Section 37-751 (Public space signage systems) may be modified for #publicly accessible open areas# that occupy more than one #street# frontage to alternatively require a minimum of one entry plaque at each #street# frontage of the #publicly accessible open area#, and to further require one additional entry plaque at each #street# frontage that measures 80 feet or more in length.

(i) The provisions of paragraphs (a) and (d) of Section 37-753 (Accessory signs) shall not apply. Each establishment fronting on the #publicly accessible open area# shall be permitted to have one or more #signs# with an aggregate area not to exceed the product of 12 square feet and the length of the establishment along the #publicly accessible open area# in linear feet, divided by 40 linear feet. In no event shall a #sign# exceed 16 square feet in area. #Signs# may be affixed

to the #building# wall or to awnings, or may project no more than 18 inches when measured perpendicular to the #building# facade, provided that such #sign# is located a minimum of 10 feet above the level of the #publicly accessible open area#.

(j) The provisions of paragraphs (a) and (b) of Section 37-76 (Mandatory Allocation of Frontages for Permitted Uses) shall not apply. The provisions of Section 91-831 (Ground floor requirements) shall apply to all new #building# walls fronting on the #publicly accessible open area#, and the following shall also apply:

(1) the #use# requirements of paragraph (b)(1) of Section 91-831 shall apply to all new establishments located along existing #building# walls fronting on a #publicly accessible open area#; and

(2) the provisions of paragraph (c) of Section 37-76 for existing #building# walls that are non-transparent shall apply except for frontage occupied by active loading and parking entrances.

(k) The provisions of Section 37-78 (Compliance) shall be modified as follows:

(1) paragraph (a) shall be modified to provide that no permit shall be issued by the Department of Buildings for any change to a #publicly accessible open area# without certification by the Chairperson of the City Planning Commission of compliance with the provisions of this Section and Sections 91-833 or 91-837, as applicable; and

(2) paragraph (b) shall be modified to require that the periodic compliance report shall document compliance with the provisions of Section 37-70 as modified by this Section and, as applicable, Section 91-833, and that such report shall also be provided to the local Council Member.

91-833 - Special regulations for plazas less than 40 feet in depth

LAST AMENDED
6/21/2016

A #publicly accessible open area# with a maximum depth less than 40 feet measured perpendicular to any #street line# shall be improved in full accordance with the provisions of Section 37-70 (PUBLIC PLAZAS) as modified by Section 91-832 (Plaza improvements) and as further modified by this Section. Where a #publicly accessible open area# may be considered a #corner public plaza#, the maximum depth shall be measured from a #street line# to a #street wall#. The City Planning Commission may authorize a modification of the provisions of this Section pursuant to Section 91-842 (Authorization to modify design requirements).

(a) The provisions of Section 37-721 (Sidewalk frontage) shall not apply. In lieu thereof, the provisions of this paragraph (a) shall apply to the area of the #publicly accessible open area# located within 10 feet of a #street line# or sidewalk widening line.

(1) At least 40 percent of such area shall be free of obstructions and, in addition:

(i) to facilitate pedestrian access at least 40 percent of the frontage along each #street line# or sidewalk widening line of the #publicly accessible open area# shall be free of obstructions; and

(ii) such unobstructed access area shall extend to a depth of 10 feet measured perpendicular to the #street line#. The width of such access area need not be contiguous provided that no portion of such area shall have a width of less than five feet measured parallel to the #street line#, and at least one portion of such area shall have a width of at least eight feet measured parallel to the #street line#.

The requirement of this paragraph for unobstructed access may be reduced to the minimum extent necessary to allow existing walls or structures within such area to remain provided that such walls or structures do not increase in height or length along the #street# frontage, and all portions of the #publicly accessible open area# are accessible from a #street#, #arcade# or other portion of the #publicly accessible open area#.

(2) In the remaining 60 percent or more of such area, the provisions of paragraph (b) of Section 37-721 shall apply, except that no more than 40 continuous linear feet of any #street# frontage occupied by a #publicly accessible open area# may be obstructed. Furthermore, planters with bounding walls that exceed a height of two feet that are permitted by paragraph (g) of Section 91-832 may be located in such area.

(3) For #corner public plazas#, the requirements of this paragraph (a) shall apply separately to each #street# frontage, and the area within 10 feet of the intersection of any #street# and Water Street or Wall Street shall be at the same elevation as the adjoining public sidewalk, except where there is a change in elevation permitted by paragraph (e) of Section 91-832, and such area shall be free of obstructions except as may otherwise be provided in paragraph (a)(1) of this Section.

(b) The provisions of Section 37-723 (Circulation paths) shall be modified so that the required circulation path of at least eight feet clear width shall be located adjacent to the #street wall# and shall extend for at least 80 percent of the length of such #street wall#. Where there are multiple #street walls#, the provisions of this paragraph shall apply separately to each frontage. In addition to the obstructions that are permitted within circulation paths, moveable tables and chairs, fixed seating and planting beds not exceeding six inches above any adjacent walking surface shall also be considered permitted obstructions provided that an unobstructed path of at least five feet wide is provided.

Where an open air cafe pursuant to Section 37-73 (Kiosks and Open Air Cafes) is provided adjacent to a #building# wall, such open air cafe may occupy a portion of the required circulation path provided that there is an unobstructed clear path of at least six feet wide between the #building# wall and any furnishings of the open air cafe. The unobstructed path shall be included in the calculation of the area occupied by the open air cafe.

(c) The provisions of Section 37-741 (Seating) that require seating within 15 feet of the #street line# shall not apply to #street# frontages that measure less than 40 feet in length.

(d) The provisions of Section 37-742 (Planting and trees) shall be further modified as follows:

(1) For #publicly accessible open areas# with an area less than 2,000 square feet, the number of required trees shall be reduced to two, and only one tree shall be required to be planted flush-to-grade or planted at grade within planting beds with no raised curbs or railings, except as may be modified by paragraph (g) of Section 91-832.

(2) The total area of required planting beds may not be concentrated within one continuous planter or planting bed, except when a #publicly accessible open area# has an area of 1,000 square feet or less.

(e) The provisions of Section 37-746 (Drinking fountains) shall be modified to require only #publicly accessible open areas# containing an area of 2,000 square feet or more to provide a minimum of one drinking fountain.

91-834 - Indoor public spaces

LAST AMENDED
6/21/2016

Indoor public spaces are enclosed, climate-controlled areas on a #zoning lot# intended for public use and enjoyment. The standards contained within this Section are intended to serve the same purposes outlined for #public plazas# in Section 37-70. The City Planning Commission may authorize a modification of the provisions of this Section pursuant to Section 91-842 (Authorization to modify design requirements).

(a) Indoor public spaces shall contain an area of not less than 2,000 square feet and have a minimum width and depth, at any point, of 20 feet. Indoor public spaces shall be located on the ground floor level, shall be directly accessible from all #streets# or #publicly accessible open areas# that the space fronts, and shall extend, at a minimum, for the full height of the ground floor level.

(b) Indoor public spaces shall be fully enclosed, and the transparency requirements of paragraph (c) of Section 91-831 (Ground floor requirements) shall apply to all #street walls# or #building# walls facing a #publicly accessible open area#. The space shall be heated or air-conditioned, and the standards for heating, ventilating and air-conditioning shall be at least

equal to those of the lobby for the principal #use# of the #building#.

(c) Public access to the indoor public space shall be provided, at a minimum, between the hours of 6:00 a.m. to 12:00 a.m. The hours of access shall be included on all required entry plaques and information plaques in accordance with the provisions of Section 37-751 (Public space signage systems) and paragraph (i) of this Section.

(d) The provisions of Sections 37-718 (Paving), 37-722 (Level of plaza), 37-728 (Standards of accessibility for persons with disabilities), 37-744 (Litter receptacles), 37-745 (Bicycle parking), 37-746 (Drinking fountains), 37-748 (Additional amenities), 37-752 (Prohibition signs), 37-753 (Accessory signs) and 37-77 (Maintenance) shall apply.

(e) The provisions of Section 37-723 (Circulation paths) for #through block public plazas# shall apply to #through block arcades# except as otherwise provided in Section 91-821 (Certification for outdoor cafes within arcades) when a cafe is provided. Trees planted flush-to-grade that measure less than four caliper inches at the time of planting, as permitted by paragraph (h) of this Section, shall not be considered permitted obstructions within circulation paths.

(f) The provisions of paragraphs (a) and (b) of Section 37-726 (Permitted obstructions) shall apply. A kiosk shall be a permitted obstruction provided that the requirements of paragraph (a) of Section 37-73 (Kiosks and Open Air Cafes) are met. A certification pursuant to Section 37-73 shall not be required to locate a kiosk within an indoor public space. A cafe permitted by certification pursuant to Section 91-821 shall be considered a permitted obstruction within an indoor public space and may not occupy more than 20 percent of the indoor public space area.

(g) The provisions of Section 37-741 for seating shall apply, except as modified as follows:

(1) The requirements for seating within 15 feet of a #street line# shall not apply.

(2) All of the linear seating capacity may be in moveable seats. Any moveable seats that are provided must remain in the indoor public space during the hours of operation.

(3) The requirement that seats that face walls must be a minimum of six feet from such wall shall only apply to fixed seating.

(h) The requirements of Section 37-742 for planting and trees shall apply, except that the surface area of any vertical planting may be included in the calculation of the total area of planting beds that are provided, and trees shall not be required.

(i) Public space signage shall be provided in accordance with the provisions of Section 37-751, except as modified as follows:

(1) An information plaque shall be provided at each point of pedestrian entry to the indoor public space. Information plaques for #through block arcades# shall also include lettering stating "PUBLIC ACCESS TO ____ STREET" indicating the opposite #street# to which the through #block# connection passes and which lettering shall not be less than three inches in height and located not more than three inches away from the public space symbol. Furthermore, a minimum of one additional information plaque shall be provided within the indoor public space.

(2) Paragraph (c) shall not apply.

(j) All indoor public spaces shall be illuminated with a minimum level of illumination of not less than five horizontal foot candles (lumens per foot) throughout the space. The requirements of

Section 37-743 for a lighting schedule, a diagram of light level distribution and electrical power shall apply.

(k) The #use# requirements of paragraph (b) and the lobby requirements of paragraph (c)(2) of Section 91-831 shall apply to all #building# walls fronting on an indoor public space that do not face a #street# or #publicly accessible open area#. The provisions of paragraph (c) of Section 37-76 for new or existing #building# walls that are non-transparent shall apply.

(l) The provisions of Section 37-78 (Compliance) shall be modified as follows:

(1) paragraph (a) shall not apply; and

(2) paragraph (b) shall be modified to require that the periodic compliance report shall document compliance with the provisions of Section 37-70 as modified by this Section, and that such report shall also be provided to the local Council Member.

Subsequent design changes to any indoor public space that was subject to the provisions of this Section may only be permitted pursuant to Section 91-837 (Subsequent design changes).

91-835 - Alternative improvements

LAST AMENDED
6/21/2016

A permanent amenity other than the improvement of an existing #publicly accessible open area# pursuant to the provisions of Section 91-832 or the provision of an indoor public space pursuant to the provisions of Section 91-834 may be provided for the properties listed in this Section. The City Planning Commission may authorize an improvement not listed in this Section pursuant to Section 91-843 (Authorization to modify requirements for alternative improvements).

Building Address	Required Alternative Improvement
175 Water Street	Area C on Map 9 in Appendix A of this Chapter, the open area along John Street and the open area along Front Street with a minimum depth of 15 feet measured perpendicular to the Front Street #street line# shall be improved in accordance with the provisions of Sections 91-832 and 91-833. Such open area and remaining #arcade# area shall be considered one contiguous public space and shall be accessible to the public at all times.
100 Wall Street	Maintenance of Manahatta Park between Water Street and Front Street for the life of the #building#.

110 Wall Street	Maintenance of Manahatta Park between Front Street and South Street for the life of the #building#.

91-836 - Additional requirements

LAST AMENDED
6/21/2016

(a) Legal requirements

All plans for #arcades#, #publicly accessible open areas#, required open areas, and indoor public spaces that are the subject of a certification pursuant to Section 91-83 (Retail Uses Within Existing Arcades) shall be filed and duly recorded in the New York County Office of the City Register of the City of New York, indexed against the property in the form of a legal instrument, in a form satisfactory to the Chairperson of the City Planning Commission, providing notice of the certification pursuant to Section 91-83. The filing and recording of such instrument shall be a precondition to certification. The recording information shall be included on the certificate of occupancy for any #building#, or portion thereof, on the #zoning lot# issued after the recording date. Where compensating amenity required by condition (b) of Section 91-83 is located on the same #zoning lot# as an #enlargement#, no temporary or final certificate of occupancy shall be issued for such #enlargement# until the compensating amenity has been substantially completed in accordance with the approved plans, as certified by the Department of City Planning to the Department of Buildings.

Where a compensating amenity is located within a #street# or #public park# pursuant to

Section 91-835 (Alternative improvements), the commitment to provide or maintain such compensating amenity shall be duly recorded in the form of a signed declaration of restrictions, including a maintenance agreement with the Department of Parks and Recreation or other relevant agency, indexed against the #zoning lot#, binding the owners, successors and assigns. Such declaration or maintenance agreement may require security in the form of a bond or letter of credit to ensure that the compensating amenity is maintained in accordance with the declaration or maintenance agreement. The form and content of the legal instrument shall be satisfactory to the Chairperson, and the filing of such instrument in the New York County Office of the City Register shall be a precondition to certification. The recording information shall be included on the certificate of occupancy for any #building#, or portion thereof, on the #zoning lot# issued after the recording date. Modifications to the declaration required by this paragraph may only be allowed upon approval by the Chairperson.

(b) Existing approvals by the Board of Standards and Appeals

Where a #zoning lot# is subject to a variance or special permit that was granted by the Board of Standards and Appeals, the application pursuant to Section 91-83 shall be referred for thirty (30) days to the Board of Standards and Appeals who shall certify to the Department of City Planning whether such application would not result in a departure from the findings and conditions specified in the original approval.

(c) Community Board review

No earlier than the date on which the application for certification pursuant to Section 91-83 is filed, a copy of the application shall be submitted by the applicant to the affected Community Board and local Council Member for 45 days to review said application. The Chairperson shall not issue a certification for an application during the Community Board review period, unless the Community Board has submitted to the Chairperson comments

regarding such proposal or informed the Chairperson that the Community Board has no comments.

91-837 - Subsequent design changes

LAST AMENDED
6/21/2016

Design changes to any #publicly accessible open area#, required open area or indoor public space previously improved pursuant to the provisions of Sections 91-832 (Plaza improvements) or 91-834 (Indoor public spaces) may only be made upon certification by the Chairperson of the City Planning Commission that such changes would result in a #publicly accessible open area# or indoor public space that is compliant with the Section under which it was previously approved. As part of the certification, a horizontal #enlargement# on the ground floor level may be permitted along existing #building# walls that face the #publicly accessible open area# and do not face an #arcade#, but such #enlargement# shall not occupy any #publicly accessible open area#. The locational requirements of paragraph (a)(1) of Section 91-831 (Ground floor requirements) and the #use# and transparency requirements of Section 91-831 for new #building# walls facing a #publicly accessible open area# shall apply. The legal requirements of paragraph (a) of Section 91-836 shall apply.

91-84 - Authorizations

LAST AMENDED
6/21/2016

91-841 - Authorization for retail uses within existing arcades

LAST AMENDED
6/6/2024

The City Planning Commission may authorize a horizontal #enlargement# of the ground floor and second floor levels within an #arcade# located within Area B on Map 9 in Appendix A of this Chapter. In order to grant an authorization, the Commission shall find that:

(a) the requirements of Section 91-831 (Ground floor requirements) are met;

(b) a compensating amenity is provided pursuant to the provisions of Section 91-832 for plazas, Section 91-834 for indoor public spaces or Section 91-835 for alternative improvements;

(c) sufficient unobstructed space exists adjacent to the proposed #enlargement# to facilitate pedestrian circulation; and

(d) the #enlargement# will maintain a visual or physical connection to Water Street from another #street#, #public park# or #publicly accessible open area#.

As part of the authorization, the Commission may modify the requirements for the location of new #building# walls of paragraph (a) of Section 91-831.

For #zoning lots# with one or more #publicly accessible open area#, unless an alternative improvement has been identified in Section 91-835, an improvement to all #publicly accessible open areas# pursuant to the provisions of Section 91-832 shall be required as the compensating amenity required by finding (b) of this Section, and a certification for design changes pursuant to Section 37-625 shall not be required. Where a #publicly accessible open area# was improved and is fully compliant with a prior certification pursuant to Section 37-625 that was granted before January 19, 2016, the further improvement of such #publicly accessible open area# shall not be required.

The provision of a compensating amenity as part of a prior certification pursuant to Section 91-83 (Retail Uses Within Existing Arcades) or a prior authorization pursuant to this Section may satisfy the requirement of finding (b) of this Section for a compensating amenity.

As part of the authorization, a horizontal #enlargement# of the ground floor level may be permitted within the area between a #street wall# and an #arcade# that did not generate a #floor area# bonus prior to June 21, 2016. The provisions of Section 91-831 shall not apply to such portion of the horizontal #enlargement#.

As part of the authorization, a horizontal #enlargement# of the ground floor level may be permitted along existing #building# walls that do not face an #arcade#. The locational requirements of paragraph (a)(1) of Section 91-831 and the frontage prohibitions of paragraph (b)(1)(ii) of Section 91-831 shall apply to such #enlargement#. Where the #enlargement# is located adjacent to a #publicly accessible open area#, the #use# and transparency requirements of Section 91-831 for new #building# walls facing a #publicly accessible open area# shall apply.

For a horizontal #enlargement# of 7,500 square feet or greater, a special permit pursuant to Section 91-85 shall also be required. For the purposes of calculating the total area of the horizontal #enlargement# that is subject to the special permit, the aggregate area of the horizontal #enlargement# permitted by prior certifications pursuant to Sections 91-83 and 91-837 (Subsequent design changes) and prior authorizations pursuant to this Section shall be included in such calculation, except the area of an indoor public space shall be excluded from such calculation.

Where any portion of the #arcade# remains open and accessible, such remaining #arcade# area shall maintain a minimum level of illumination of not less than five horizontal foot candles between sunset and sunrise.

All plans for #arcades#, #publicly accessible open areas#, required open areas and indoor public spaces, once authorized, shall be filed and duly recorded in the Borough Office of the City Register of the City of New York, indexed against the property in the form of a legal instrument, in a form satisfactory to the Commission, providing notice of the authorization pursuant to this Section. The

filing and recording of such instrument shall be a precondition to the issuance of a building permit. The recording information shall be included on the certificate of occupancy for any #building#, or portion thereof, on the #zoning lot# issued after the recording date. Where a compensating amenity required by paragraph (b) of this Section is located on the same #zoning lot# as an #enlargement#, no temporary or final certificate of occupancy shall be issued for any #enlargement# unless and until the compensating amenity has been substantially completed in accordance with the approved plans, as verified by the Department of City Planning to the Department of Buildings.

Where a compensating amenity is located within a #street# or #public park# pursuant to Section 91-835 (Alternative improvements), the applicable legal requirements of Section 91-836 (Additional requirements) shall apply.

Where a #zoning lot# is subject to a variance or special permit that was granted by the Board of Standards and Appeals, the requirements of paragraph (b) Section 91-836 shall apply.

The Commission may prescribe appropriate conditions and safeguards in connection with the grant of such authorization.

91-842 - Authorization to modify design requirements

LAST AMENDED
6/21/2016

The City Planning Commission may authorize a modification of the requirements of Section 91-831 (Ground floor requirements), the provisions of Sections 91-832 (Plaza improvements) and 91-833 (Special regulations for plazas less than 40 feet in depth) for #publicly accessible open areas# and the provisions of Section 91-834 for indoor public spaces. In no event shall an #enlargement# be permitted within a #publicly accessible open area# or other required open area unless specified on Map 9 of Appendix A of this Chapter.

In order to grant such authorization, the Commission shall find:

(a) the location, #use#, access, size and treatment of the #enlargement# would result in a superior urban design relationship with the surrounding #streets#, #buildings# and open areas;

(b) the usefulness and attractiveness of the #publicly accessible open area#, required open area or indoor public space will be assured by the proposed layout and design, and that such modification will result in a superior urban design relationship with surrounding #streets#, #buildings# and public open areas; and

(c) any waiver of required amenities and circulation paths is the minimum necessary to create a better site plan.

The Commission may prescribe appropriate conditions and controls to enhance the relationship between the #enlargement#, #publicly accessible open area#, required open area or indoor public space and the surrounding #streets#, #buildings# and open areas.

91-843 - Authorization to modify requirements for alternative improvements

LAST AMENDED
6/21/2016

The City Planning Commission may authorize an alternative improvement not listed in Section 91-835 provided that the Commission finds that the new amenity will better serve the purpose of the Water Street Subdistrict described in Section 91-00 (GENERAL PURPOSES).

As a condition of the authorization, for a compensating amenity that is located within a #street# or #public park#, the commitment to provide or maintain such compensating amenity shall be duly

recorded in the form of a signed declaration of restrictions, including a maintenance agreement with the Department of Parks and Recreation or other relevant agency, indexed against the #zoning lot#, binding the owners, successors and assigns. Such declaration or maintenance agreement may require security in the form of a bond or letter of credit to ensure that the compensating amenity is maintained in accordance with the declaration or maintenance agreement. The form and content of the legal instrument shall be satisfactory to the Commission, and the filing of such instrument in the New York County Office of the City Register shall be a precondition to the issuance of a building permit. The recording information shall be included on the certificate of occupancy for any #building#, or portion thereof, on the #zoning lot# issued after the recording date.

The Commission may prescribe appropriate conditions and safeguards in connection with the grant of such authorization.

91-85 - Special Permit for Enlargements of 7,500 Square Feet or Greater

LAST AMENDED6/21/2016

In addition to any certification pursuant to Section 91-83 (Retail Uses Within Existing Arcades), inclusive, or an authorization pursuant to Section 91-841 (Authorization for retail uses within existing arcades), the City Planning Commission may permit a horizontal #enlargement# of 7,500 square feet or greater within Areas A or B on Map 9 in Appendix A of this Chapter, provided that the Commission finds that the public amenity or improvement that is provided on the #zoning lot# is of equal or greater benefit to the public than the #arcade# to be eliminated or reduced.

For the purposes of calculating the total area of the horizontal #enlargement# that is subject to the special permit, the aggregate area of the horizontal #enlargement# permitted by any prior certification pursuant to Section 91-83, inclusive, and prior authorizations pursuant to Section 91-841 shall be included in such calculation, except the area of an indoor public space provided in accordance with

the provision of Section 91-834 (Indoor public spaces) shall be excluded from such calculation.

As part of the special permit, the Commission may modify the requirements of Section 91-831 (Ground floor requirements), the provisions of Sections 91-832 (Plaza improvements) and 91-833 (Special regulations for plazas less than 40 feet in depth) for #publicly accessible open areas# and the provisions of Section 91-834 for indoor public spaces. In no event shall an #enlargement# be permitted within a #publicly accessible open area# or other required open area unless specified on Map 9 in Appendix A of this Chapter.

The Commission may prescribe additional conditions and safeguards to enhance the relationship between the #enlargement# and the surrounding #streets#, #buildings# and public open areas.

Zoning Resolution

THE CITY OF NEW YORK
Zohran K. Mamdani, Mayor

CITY PLANNING COMMISSION
Sideya Sherman, Chair

Chapter 2 - Special Park Improvement District (PI)

File generated by https://zr.planning.nyc.gov on 6/23/2026

Chapter 2 - Special Park Improvement District (PI)

92-00 - GENERAL PURPOSES

LAST AMENDED
4/23/1973

The "Special Park Improvement District" established in this Resolution is designed to promote and protect public health, safety, general welfare and amenity. These general goals include, among others, the following specific purposes:

(a) to preserve and protect the unique character and architectural quality of the residential part of Fifth Avenue and Park Avenue which includes many landmarks and other cultural buildings;

(b) to provide alternatives to plaza and arcade development along Fifth Avenue and Park Avenue which are redundant in view of the existence of Central Park and the Park Avenue malls;

(c) to channel private expenditures which would otherwise be spent on redundant facilities into development, beautification and maintenance of proximate public parks and other public areas;

(d) to encourage the development of buildings compatible with the height of present development; and

(e) to promote the most desirable use of land in this area and thus to conserve the value of land and buildings and thereby protect the City's tax revenues.

92-01 - Definitions

LAST AMENDED
2/2/2011

Development

For purposes of this Chapter a "development" includes the construction of a new #building or other structure# on a #zoning lot#, the relocation of an existing #building# on another #zoning lot#, and an #enlargement# involving an increase in #lot coverage#.

92-02 - General Provisions

LAST AMENDED
10/7/2021

Except as modified by the express provisions of this Chapter, the regulations of the underlying district remain in effect.

For the purposes of this Chapter, Duke Ellington Circle, located at the intersection of Fifth Avenue and East 110th Street, shall be considered a separate #street#.

For #transit-adjacent sites# or #qualifying transit improvement sites#, in the event of a conflict between the provisions of this Chapter and the provisions of Article VI, Chapter 6 (Special Regulations Applying Around Mass Transit Stations), the provisions of Article VI, Chapter 6 shall control. For the purposes of this paragraph, defined terms additionally include those in Section 66-11 (Definitions).

In #flood zones#, in the event of a conflict between the provisions of this Chapter and the provisions of Article VI, Chapter 4 (Special Regulations Applying in Flood Zones), the provisions of Article VI, Chapter 4 shall control.

92-10 - SPECIAL USE REGULATIONS

LAST AMENDED
12/5/2024

For any #zoning lot# located between Fifth Avenue, Duke Ellington Circle, East 109th Street and East 110th Streets:

(a) #commercial# #uses# shall only be permitted beyond 100 feet of Fifth Avenue and shall be restricted to #uses# listed under Offices in Use Group VII;

(b) the underlying district #sign# regulations shall not apply. In lieu thereof, #signs# #accessory# to a #commercial# #use# shall conform with all the #sign# regulations applicable in C1 Districts, except that #illuminated signs# shall not be permitted and, within 100 feet of Fifth Avenue, signs shall conform with the #sign# regulations for #Residence Districts# set forth in Section 22-20; and

(c) the underlying #ground floor level# streetscape provisions set forth in Section 32-30 (STREETSCAPE REGULATIONS), inclusive, shall apply, except that any #ground floor level# #use# limitations shall be modified to reflect the #use# provisions of this Section.

92-20 - SPECIAL BULK REGULATIONS

LAST AMENDED
12/5/2024

92-21 - Special Floor Area Regulations

LAST AMENDED
8/14/2025

The underlying #floor area# regulations shall apply except as modified in this Section.

For #developments# or #enlargements# on #qualifying transit improvement sites#, a #floor area# bonus for #mass transit station# improvements may be granted by the City Planning Commission pursuant to the provisions of Section 66-51 (Additional Floor Area for Mass Transit Station Improvements). For the purposes of this paragraph, defined terms additionally include those in Section 66-11 (Definitions). No other #floor area# bonuses shall be permitted.

92-22 - Mandatory Front Building Walls Along Certain Street Lines

LAST AMENDED
12/5/2024

(a) Except as provided in paragraph (b) of this Section, the front #building# wall for all #developments# on #zoning lots# having frontage on Fifth Avenue or Park Avenue, and within 50 feet of their intersection with the #street lines# of Fifth Avenue or Park Avenue, the #street wall# location provisions of paragraph (a) of Section 35-631 (Street wall location) shall apply to all #street# frontages, except that the #street wall# shall extend without any articulation up to a height of 125 feet above #curb level# or the full height of the #building#, whichever is less. Above the height of 150 feet above #curb level#, the provisions of Section 23-433 (Standard setback regulations) shall apply. The mandatory front #building# wall requirements are optional for the next 20 feet along the #street line# of a #narrow street# or for the next 75 feet

along the #street line# of a #wide street#. However, where the front wall of a #building# with a height less than 125 feet above #curb level# was constructed with a setback from the #street lines#, #enlargement# of such #building# may be permitted by vertical extension of its existing #building# wall.

(b) For any #zoning lot# having frontage on Fifth Avenue or Duke Ellington Circle, and along East 109th Street and East 110th Street within 50 feet of their intersection with Fifth Avenue and Duke Ellington Circle, the #street wall# location provisions of paragraph (a) of Section 35-631 shall apply to all #street# frontages, except that the #street wall# shall extend without any articulation to a minimum height of 85 feet above #curb level# or the full height of the #building#, whichever is less. Above a height of 150 feet, the provisions of Section 23-433 shall apply. Such mandatory front #building# wall requirements are optional for the next 50 feet along the East 109th Street and East 110th Street #street lines#.

(c) Front wall recesses are permitted within mandatory front #building# walls for architectural or decorative purposes pursuant to recess provisions of paragraph (a) of Section 35-631 except that the aggregate length at the level of any #story# does not exceed 50 percent of the length of the front wall where such recesses are permitted, the depth of such recesses shall not exceed six feet and no front wall recesses are permitted within 20 feet of the intersection of two #street lines#.

The underlying district height and setback regulations apply along #street lines#, or portions thereof, not subject to the front #building# wall requirement.

92-23 - Special Height Limitation

LAST AMENDED
12/5/2024

The maximum height of a #building or other structure#, or portion thereof, shall not exceed 215 feet above #curb level#, except that:

(a) for #qualifying affordable housing# or #qualifying senior housing# in R10 Districts or #Commercial Districts# mapped within, or with a #residential equivalent# of such district, the provisions of an R10A District, as set forth in Section 23-432 (Height and setback requirements), shall apply; and

(b) #energy infrastructure equipment# and #accessory# mechanical equipment shall be permitted obstructions above such height limits, subject to the provisions of Sections 23-41, inclusive, or 33-42, as applicable.

92-30 - OFF-STREET PARKING REGULATIONS

LAST AMENDED
12/5/2024

92-31 - Maximum Number of Accessory Off-street Parking Spaces

LAST AMENDED
12/5/2024

Within the portion of the #Special Park Improvement District# located within the #Manhattan Core#, the provisions of Article I, Chapter 3 (Comprehensive Off-street Parking and Loading Regulations in the Manhattan Core), inclusive, shall apply. For all other portions of the #Special Park Improvement District#, the provisions of this Section shall apply.

In no case shall the number of #accessory# off-street parking spaces for a #residential use# exceed 40 percent of the number of #dwelling units#. In no case shall curb cuts for vehicular access be located on Fifth Avenue or Park Avenue or on a #street# within 50 feet of its intersection with the #street line# of Fifth Avenue or Park Avenue. No off-site #accessory# off-street parking facilities for any #use# shall be permitted within the Special District. All parking spaces #accessory# to #residences# shall be designed and operated exclusively for the long term storage of the private passenger motor vehicles used by the occupants of such #residences#.

The parking requirements set forth in Sections 25-31 or 36-21 shall not apply to any #development# for which the Commissioner of Buildings has certified that there is no way to provide the required parking spaces with access to a #street# in conformity with the provisions of this Section.

Chapter 3 - Special Hudson Yards District (HY)

File generated by https://zr.planning.nyc.gov on 6/23/2026

Chapter 3 - Special Hudson Yards District (HY)

93-00 - GENERAL PURPOSES

LAST AMENDED
8/14/2025

The "Special Hudson Yards District" established in this Resolution is designed to promote and protect public health, safety and general welfare. These general goals include, among others, the following specific purposes:

(a) to facilitate and guide the development of an environmentally beneficial, transit-oriented business and residence district by coordinating high density development with expanded mass transit facilities, extended and improved subway lines, improved pedestrian access to mass transit facilities, improved pedestrian circulation and avoidance of conflicts with vehicular traffic;

(b) to control the impact of buildings on the access of light and air to the streets and avenues of the Hudson Yards area and the surrounding neighborhoods;

(c) to provide an open space network comprised of public parks, public open space and public access areas through the establishment of a large-scale plan and other controls and incentives;

(d) to preserve the pedestrian orientation of ground floor uses, and thus safeguard a traditional quality of the City;

(e) to preserve the low- and medium-scale residential character of the Hell's Kitchen area;

(f) to provide a transition between the Hudson Yards District and the Clinton community to the north;

(g) to provide a transition between the Hudson Yards District and the Midtown South Mixed Use District to the east;

(h) to provide a transition between the Hudson Yards District and the West Chelsea area to the south;

(i) to promote the use of the Jacob K. Javits Convention Center to the west by creating an active and attractive business district that facilitates pedestrian access to the Center;

(j) to provide flexibility of architectural design within limits established to assure adequate access of light and air to the street, and thus to encourage more attractive and economic building forms;

(k) to provide a transition between the Hudson Yards District and the Hudson River to the west;

(l) to facilitate the restoration and reuse of the High Line elevated rail line as an accessible, public open space through special height and setback regulations;

(m) to promote the most desirable use of land and building development in accordance with the District Plan for the Hudson Yards and thus conserve the value of land and buildings and thereby protect the City's tax revenues; and

(n) to limit the amount of off-street parking based on regulations that address the anticipated needs of residents, workers and visitors to the Hudson Yards Area, consistent with the objective of creating an area with a transit- and pedestrian-oriented neighborhood character.

93-01 - Definitions

LAST AMENDED
8/14/2025

For purposes of this Chapter, matter in italics is defined in Sections 12-10, 32-301, 66-11, 75-421 or within this Section.

ERY Culture, Festival and Exhibit Facility

An "ERY Culture, Festival and Exhibit Facility" is a #use#, operated by a not-for-profit entity, that comprises changing, non-permanent exhibits, events, expositions, presentations, festivals and fairs related to any or all of the following: visual arts, performing arts, culinary arts, literature, journalism, crafts, fashion and design, or any similar artistic activity. No trade shows shall be permitted unless they are related to one of such activities. Any #building# in which an #ERY Culture, Festival and Exhibit Facility# is located may include a moveable portion that may be extended and retracted to cover all or a portion of the Culture Facility Plaza described in Section 93-71, paragraph (j).

ERY High Line

For the purpose of this Chapter, the #ERY High Line# shall refer to the portion of the #High Line# between the western #street line# of Tenth Avenue and the western #street line# of Eleventh Avenue north of West 30th Street.

High Line

For the purpose of this Chapter, the "High Line" shall refer to the elevated rail line structure located between Gansevoort Street and West 34th Street in the north-south direction, and between Washington Street and Twelfth Avenue in the east-west direction.

High Line bed

The “High Line bed” is the highest level of the horizontal surface (platform) of the elevated rail line structure of the #High Line#.

High Line Landscape Improvement Deposit

For the purpose of this Chapter, the “High Line Landscape Improvement Deposit” shall be in the amount of $18,214,507 for the #ERY High Line# and, if the #Tenth Avenue Spur# is provided as a public access area pursuant to Section 93-71, in the amount of $23,200,228, as adjusted by changes in the construction cost index published by the Engineering News-Record (ENR) for New York City, commencing as of January 2012. Payment of the #High Line Landscape Improvement Deposit# shall be in the form of cash or other form of immediately available funds. The #High Line Landscape Improvement Deposit# shall be held by the City, or an instrumentality of the City, as the Chairperson of the City Planning Commission shall designate, and shall be applied exclusively to the improvement for public use of the #ERY High Line# and, if applicable, the #Tenth Avenue Spur#.

High Line Maintenance Funding

For the purpose of this Chapter, #High Line Maintenance Funding# shall mean funding sufficient for the maintenance and ordinary repair of the #ERY High Line# and, if applicable, the #Tenth Avenue Spur#, in an amount acceptable to the City, as adjusted on an annual basis.

High Line Rehabilitation Deposit

For the purpose of this Chapter, the #High Line Rehabilitation Deposit# shall be in the amount of $9,580,763 for the #ERY High Line# and, if the #Tenth Avenue Spur# is provided as a public access area pursuant to Section 93-71, in the amount of $12,203,234, as adjusted by changes in the construction cost index published by the ENR for New York City commencing as of January, 2012.

Payment of the #High Line Rehabilitation Deposit# shall be in the form of cash or other form of immediately available funds if plans and specifications for rehabilitation of the #ERY High Line# and, if applicable, the #Tenth Avenue Spur#, have been substantially completed as of the time the #High Line Rehabilitation Deposit# is required, and if such plans and specifications have not been substantially completed at the time the #High Line Rehabilitation Deposit# is required, in the form of cash or a cash equivalent, such as a letter of credit, in a form acceptable to the City. The #High Line Rehabilitation Deposit# shall be held by the City, or an instrumentality of the City, as the Chairperson of the City Planning Commission shall designate, and shall be applied exclusively to the rehabilitation of the #ERY High Line# and, if applicable, the #Tenth Avenue Spur#.

Hudson Yards District Improvement Fund

The "Hudson Yards District Improvement Fund" (the "Fund") shall be an account of the Hudson Yards Infrastructure Corporation (the "Corporation"). The Fund shall be owned for all purposes by the Corporation and may be used for any corporate purpose of the Corporation, including its pledge, assignment or sale in furtherance of any financing by the Corporation in support of district improvements in the #Hudson Yards Redevelopment Area#. The Corporation, as owner for all purposes of the Fund, will manage the Fund in furtherance of the purposes of the Corporation.

Hudson Yards Redevelopment Area

The "Hudson Yards Redevelopment Area" shall be the areas within the #Special Hudson Yards District#, the 42nd Street Perimeter Area of the #Special Clinton District#, and the area bounded by the center line of Eleventh Avenue, the northern #street line# of West 43rd Street, the westerly prolongation of the northern #street line# of West 43rd Street to the U.S. Pierhead Line, the U.S. Pierhead Line, the westerly prolongation of the southern #street line# of West 29th Street to the U.S. Pierhead Line, and the southern #street line# of West 29th Street. However, the area bounded by the

westerly side of Eleventh Avenue, the southerly side of West 43rd Street, the westerly side of Twelfth Avenue and the northerly side of West 33rd Street shall not be included in the #Hudson Yards Redevelopment Area#, except for any portion of such #blocks# containing a transit easement for subway-related use. Furthermore, the #Hudson Yards Redevelopment Area# shall not include any underground connections from a subway station to any #use# located on such excluded #blocks# or between any such #uses#.

Phase 2 Hudson Boulevard and Park

The "Phase 2 Hudson Boulevard and Park" is the area within the #Special Hudson Yards District# bounded on the north by the center line of West 39th Street, on the east by the eastern boundary of the park located between West 38th and West 39th Streets and the eastern #street line# of Hudson Boulevard East, on the south by the center line of West 36th Street, and on the west by the western #street line# of Hudson Boulevard West and the western boundary of the park located between West 38th and West 39th Streets, as shown on Map 1 (Special Hudson Yards District, Subdistricts and Subareas) in Appendix A of this Chapter.

Tenth Avenue Spur

For the purpose of this Chapter, the #Tenth Avenue Spur# shall refer to the portion of the #High Line# above the intersection of Tenth Avenue and West 30th Street.

93-02 - General Provisions

LAST AMENDED
10/7/2021

The provisions of this Chapter shall apply within the #Special Hudson Yards District#. The regulations of all other chapters of this Resolution are applicable, except as superseded, supplemented or modified by the provisions of this Chapter. In the event of a conflict between the provisions of this Chapter and other regulations of this Resolution, the provisions of this Chapter shall control. However, in #flood zones#, or for #transit-adjacent sites# or #qualifying transit improvement sites#, as defined in Section 66-11 (Definitions), in the event of a conflict between the provisions of this Chapter and the provisions of Article VI, Chapter 4 (Special Regulations Applying in Flood Hazard Areas), or Article VI, Chapter 6 (Special Regulations Applying Around Mass Transit Stations), the provisions of Article VI shall control.

93-03 - District Plan and Maps

LAST AMENDED
4/29/2014

The regulations of this Chapter are designed to implement the #Special Hudson Yards District# Plan.

The District Plan includes the following six maps in Appendix A of this Chapter:

Map 1 Special Hudson Yards District, Subdistricts and Subareas

Map 2 Mandatory Ground Floor Retail

Map 3 Mandatory Street Wall Requirements

Map 4 Mandatory Sidewalk Widenings

Map 5 Transit Facilities

Map 6 Sites Where Special Parking Regulations Apply

Subdistrict Plans include the following five maps in Appendix B of this Chapter:

Map 1 Subdistrict B: 450 West 33rd Street and Ninth Avenue Rail Yard Public Access Area Plan

Map 2 Subdistrict F: Site Plan

Map 3 Subdistrict F: Public Access Area Plan

Map 4 Subdistrict F: Mandatory Ground Floor Requirements

Map 5 Subdistrict F: Mandatory Street Wall Requirements

The Maps are hereby incorporated and made part of this Resolution. They are incorporated for the purpose of specifying locations where special regulations and requirements set forth in the text of this Chapter apply.

93-04 - Subdistricts and Subareas

LAST AMENDED
8/14/2025

In order to carry out the provisions of this Chapter, six subdistricts are established, as follows:

Large-Scale Plan Subdistrict A

Farley Corridor Subdistrict B

34th Street Corridor Subdistrict C

Hell's Kitchen Subdistrict D

South of Port Authority Subdistrict E

Western Rail Yard Subdistrict F

Eleventh Avenue Subdistrict G

Garment Center Subdistrict H

In each of these subdistricts, certain special regulations apply which do not apply within the remainder of the #Special Hudson Yards District#. Within certain subdistricts, subareas are established, as follows:

Within the Large-Scale Plan Subdistrict A:

Eastern Rail Yard Subarea A1

Four Corners Subarea A2

Subarea A3

Subarea A4

Subarea A5

Within Farley Corridor Subdistrict B:

Western Blocks Subarea B1

Central Blocks Subarea B2

Farley Post Office Subarea B3

Pennsylvania Station Subarea B4

Within Hell's Kitchen Subdistrict D:

Subarea D1

Subarea D2

Subarea D3

Subarea D4

Subarea D5

Within these subareas, certain special regulations apply which do not apply within the remainder of the subdistrict.

The subdistricts and subareas are outlined on Map 1 (Special Hudson Yards District, Subdistricts and Subareas) in Appendix A of this Chapter. Additional requirements for specific subdistricts, or portions thereof, are outlined in Appendix B of this Chapter.

93-05 - Applicability of District Regulations

LAST AMENDED
1/19/2005

93-051 - Applicability of Article I, Chapter 1

LAST AMENDED
3/28/2012

Within the #Hudson Yards Redevelopment Area#, Section 11-332 (Extension of period to complete construction) shall apply, except that notwithstanding the provisions of paragraph (a) of such Section, in the event that other construction for which a building permit has been lawfully issued and for which construction has been commenced but not completed on January 19, 2005, such other construction may be continued provided that the construction is completed and a temporary or permanent certificate of occupancy is obtained not later than January 19, 2006.

93-052 - Applicability of Article I, Chapter 3

LAST AMENDED
12/5/2024

#Public parking lots# authorized prior to January 19, 2005, and #accessory# off-street parking facilities for which a special permit has been granted prior to January 19, 2005, may be renewed subject to the terms of such authorization or special permit.

The provisions of Article I, Chapter 3, in their entirety shall be applied to Subdistricts F and G.

The following provisions of Article I, Chapter 3, governing #automated parking facilities#, automobile rental establishments, commercial or public utility vehicle parking, and off-street loading berths shall apply to Subdistricts A, B, C, D and E, as applicable:

(a) for #automated parking facilities#, the provisions of paragraph (b) of Section 13-24 (Reservoir Spaces), paragraph (b) of Section 13-26 (Minimum and Maximum Size of Parking Facilities),

paragraph (a)(3) of Section 36-521 (Size of spaces), and Section 36-524 (Calculating floor area in parking facilities with lift systems, or in automated parking facilities);

(b) for automobile rental establishments, the provisions of Section 13-15 (Permitted Parking for Automobile Rental Establishments), paragraph (b) of Section 13-221 (Enclosure and screening requirements), Section 13-231 (Location of curb cuts), paragraph (b) of Section 13-232 (Maximum width of curb cuts), paragraph (c) of Section 13-24, and paragraph (c) of Section 13-26;

(c) or commercial or public utility vehicle parking, the applicable provisions of Section 36-46 (Restrictions on the Use of Accessory Parking Spaces and Spaces in Public Parking Garages and Public Parking Lots), inclusive; and

(d) for off-street loading berths, the provisions of Section 13-30, inclusive.

Additional provisions of Article I, Chapter 3, shall be applicable as specified in Section 93-80, inclusive.

93-053 - Applicability of Article VII, Chapter 3

LAST AMENDED
6/6/2024

The following special permits by the Board of Standards and Appeals shall not be applicable:

Section 73-143 (Electric or gas utility substations) shall not apply to electrical utility substations. In lieu thereof, such #uses# shall be allowed within the #Special Hudson Yards District# upon authorization of the City Planning Commission pursuant to Section 93-18 (Authorization for Electrical Utility

Substations)

Section 73-62 (Modification of Bulk Regulations for Buildings Containing Residences)

Section 73-63 (Enlargement of Non-residential Buildings)

Section 73-64 (Modifications for Community Facility Uses).

93-054 - Applicability of Article VII, Chapter 4

LAST AMENDED
12/5/2024

(a) The following special permits by the City Planning Commission shall not be applicable:

Section 74-142 (Electric utility substations) shall not apply. In lieu thereof, such #uses# shall be allowed within the #Special Hudson Yards District# upon authorization of the City Planning Commission pursuant to Section 93-18 (Authorization for Electrical Utility Substations

Section 74-61 (Developments on Lots that Include Railroad Right-of-Ways)

Section 74-72 (Bulk Modification)

Section 74-74 (Large-scale General Development) shall be inapplicable in the Large-scale Plan Subdistrict A

Section 74-821 (Court houses)

Section 74-831 (Development in certain Commercial Districts)

Section 74-85 (Covered Pedestrian Space)

Section 74-91 (Modification of Public Plazas).

(b) The following provisions regarding special permits by the City Planning Commission shall be applicable as modified:

Section 74-194 (Public parking garages or public parking lots in high density central areas) shall be applicable to the renewal of City Planning Commission special permits for #public parking lots# and #public parking garages# granted prior to April 14, 2010.

Section 74-81 (Through Block Arcades) shall apply to any #development# or #enlargement# for which a #through block arcade# would not otherwise be permitted pursuant to this Chapter, except that no #floor area# bonus shall be permitted.

93-055 - Applicability of Article VII, Chapter 5

LAST AMENDED
12/5/2024

(a) The following authorization by the City Planning Commission or certifications from the Chairperson of the City Planning Commission shall not be applicable:

Section 75-411 (Developments on or over railroad rights-of-way)

Section 75-412 (Developments on lots under one and a half acres that include railroad rights-of-way)

In lieu thereof, all #developments# or #enlargements# on or over a #railroad right-of-way# or on #zoning lots# that include a #railroad right-of-way# shall comply with the provisions of this Chapter.

(b) The following provisions regarding certification by the Chairperson of the City Planning Commission shall be applicable as modified:

Section 75-42 (Transfer of Development Rights From Landmark Sites) shall apply, except that within the Pennsylvania Station Subarea B4 of the Farley Corridor Subdistrict B, such section shall be applicable only for a #development# or #enlargement# that has increased its permitted #floor area ratio# to 15.0 pursuant to Section 93-35 (Special Permit for Transit Bonus in Pennsylvania Station Subarea B4). Furthermore, the maximum amount of #floor area# that may be transferred from the #zoning lot# occupied by a landmark #building# may increase the maximum allowable #floor area ratio# within the Pennsylvania Station Subarea B4 to 19.5.

93-056 - Modification of use and bulk regulations for zoning lots bounding Hudson Boulevard Park

LAST AMENDED
12/5/2024

Where the #lot line# of a #zoning lot# coincides with the boundary of the #public parks# located between West 35th Street, Hudson Boulevard East, West 33rd Street and Eleventh Avenue, such #lot line# shall be considered to be the #street line# of Hudson Boulevard West for the purposes of applying all #use# and #bulk# regulations of this Resolution.

Where the #lot line# of a #zoning lot# coincides with the boundary of the #public park# located between West 39th Street, Tenth Avenue, West 38th Street and Eleventh Avenue, such #lot line# shall be considered to be the #street line# of Hudson Boulevard East and West, as applicable, for the purposes of applying all #use# and #bulk# regulations of this Resolution.

93-06 - Declaration of Restrictions in Subdistrict F

LAST AMENDED
12/21/2009

No building permit shall be issued for any #development# or #enlargement# within Subdistrict F unless a declaration of restrictions, in substantially the form reviewed by the City Planning Commission pursuant to CEQR No. 09DCP007M and referenced in and made an exhibit to the findings of the Commission pursuant to 6 NYCRR Section 617.11 in connection with its adoption of the regulations of this Chapter and as modified by the City Council, applicable to Subdistrict F (as such declaration may be revised prior to filing and recordation in accordance with the provisions thereof applicable to amendments made subsequent to filing and recordation), shall have been filed and duly recorded in the Borough Office of the City Register of the City of New York and indexed against all property interests in Subdistrict F proposed for #development# or #enlargement# pursuant to this Chapter.

93-10 - USE REGULATIONS

LAST AMENDED
5/31/2012

The #use# regulations of the underlying districts are modified as set forth in this Section, inclusive.

The only permitted change of #use# for the #High Line# shall be to provide publicly accessible open space in accordance with the provisions of Sections 93-71 (Public Access Areas in the Eastern Rail Yard Subarea A1) and 93-75 (Publicly Accessible Open Spaces in Subdistrict F).

93-11 - ERY Culture, Festival and Exhibit Facility

LAST AMENDED
12/5/2024

For purposes of this Chapter, all references to #community facility#, #community facility use# or #uses# listed under Use Group III, in connection with Eastern Rail Yard Subarea A1 shall be deemed to include an #ERY Culture, Festival and Exhibit Facility#.

93-12 - Special Residential Use Regulations

LAST AMENDED
1/19/2005

93-121 - Restrictions on residential use

LAST AMENDED
1/19/2005

No #residential use# shall be permitted within the Pennsylvania Station Subarea B4 of the Farley Corridor Subdistrict B.

93-122 - Certification for residential use in Subdistricts A, B and E

LAST AMENDED
7/20/2017

Within the Large-Scale Plan Subdistrict A, Subareas B1 and B2 of the Farley Corridor Subdistrict B, and the South of Port Authority Subdistrict E, #residential use# shall be permitted only upon certification of the Chairperson of the City Planning Commission that the #zoning lot# on which such #residential use# is located contains the minimum amount of #commercial# #floor area# required before #residential use# is allowed, as specified in Section 93-21 (Floor Area Regulations in the Large-Scale Plan Subdistrict A) or 93-22 (Floor Area Regulations in Subdistricts B, C, D, E and F), as applicable, and that for #zoning lots# in Subareas A2 through A5 of the Large-Scale Plan Subdistrict A, a certification pursuant to Section 93-34 (Distribution of Floor Area in the Large-Scale Plan Subdistrict A) has been made.

However, special regulations shall apply to #zoning lots# with phased development, as follows:

(a) except as provided in paragraph (c) of this Section, for #zoning lots# with less than 69,000 square feet of #lot area#, the Chairperson shall allow for phased development, upon certification that a plan has been submitted whereby the ratio of #commercial# #floor area# to #residential# #floor area#, in #buildings# in each phase, is no smaller than the ratio of the minimum amount of #commercial# #floor area# required on the #zoning lot# before #residential use# is allowed, to the maximum #residential# #floor area# permitted on the

#zoning lot# as specified in Section 93-21 or 93-22, as applicable;

(b) for #zoning lots# with at least 69,000 square feet of #lot area#, the Chairperson shall allow for one or more #buildings# containing #residences# to be #developed# or #enlarged# without the minimum amount of #commercial# #floor area# required before #residential use# is allowed, as specified in Section 93-21 or 93-22, as applicable, upon certification that a plan has been submitted whereby one or more regularly shaped portions of the #zoning lot# with a minimum area of 50,000 square feet are reserved for future development of not more than two million square feet of #commercial# #floor area# on each such portion, and that, upon full development of such #zoning lot#, the ratio of #commercial# #floor area# to #residential# #floor area# shall be no smaller than the ratio of the minimum amount of #commercial floor# #area# required on the #zoning lot# before #residential use# is allowed, to the maximum #residential# #floor area# permitted on the #zoning lot#, as specified in Section 93-21 or 93-22 , as applicable; and

(c) for #zoning lots# with at least 55,000 square feet but less than 69,000 square feet of #lot area# within Subarea A3 of the Large-Scale Plan Subdistrict A, the Chairperson shall allow for one or more #buildings# containing #residences# to be #developed# or #enlarged# without the minimum amount of #commercial# #floor area# required before #residential use# is allowed, as specified in paragraph (a) of Section 93-21, upon certification that a plan has been submitted whereby one or more regularly shaped portions of the #zoning lot# with a minimum area of 35,000 square feet are reserved for future development, and that, upon full development of such #zoning lot#, the ratio of #commercial# #floor area# to #residential# #floor area# shall be no smaller than the ratio of the minimum amount of #commercial# #floor area# required on the #zoning lot# before #residential use# is allowed, to the maximum #residential# #floor area# permitted on the #zoning lot#, as specified in Section 93-21.

All #developments# or #enlargements# so certified shall be permitted only in accordance with the provisions of this Chapter.

93-123 - Location of residential use within buildings

LAST AMENDED
2/2/2011

The provisions of Section 32-422 (Location of floors occupied by commercial uses) are modified to permit #residential uses# on the same #story# as a #commercial# #use# provided no access exists between such #uses# at any level containing #dwelling units# and provided any #commercial# #uses# are not located directly over any #story# occupied in whole or in part by #dwelling units#. However, such #commercial# #uses# may be located over such a #story# occupied by #dwelling units# by authorization of the City Planning Commission upon a finding that sufficient separation of #residential uses# from #commercial# #uses# exists within the #building#.

93-124 - Restrictions on conversions of residential use

LAST AMENDED
2/2/2011

In #Commercial Districts# mapped within R8A Districts, a #residential use# existing on December 21, 2005, within a #story# that has a floor level within five feet of #curb level#, may not be #converted# to a #commercial use#.

93-13 - Special Commercial Use Regulations

LAST AMENDED
1/19/2005

93-131 - Certification for office use

LAST AMENDED
8/14/2025

The provisions of this Section shall apply to all #developments# or #enlargements# in the #Hudson Yards Redevelopment Area#, with the exception of Subdistricts F and G.

(a) No temporary certificate of occupancy from the Department of Buildings may be issued for any portion of a #development# or #enlargement# in the #Hudson Yards Redevelopment Area# that includes #uses# listed under Office in Use Group VII #developed# or #enlarged# after January 19, 2005, until the Chairperson of the Department of City Planning certifies to the Commissioner of Buildings that:

(1) such #development# or #enlargement# does not utilize any #floor area# increases pursuant to Section 96-25 (Floor Area Bonus for New Theater Use); or

(2) such #development# or #enlargement# utilizes #floor area# increases pursuant to the special provisions for #qualifying affordable housing# or #qualifying senior housing# in Sections 93-222 (Maximum floor area ratio in the 34th Street Corridor Subdistrict C) or 93-223 (Maximum floor area ratio in Hell's Kitchen Subdistrict D), or the provisions of Sections 93-30 (SPECIAL FLOOR AREA REGULATIONS), inclusive, or 96-25, and will not result in a total amount of office #floor area# #developed# or #enlarged# after January 19, 2005, within the #Hudson Yards Redevelopment Area# of over 20 million square feet.

All #developments# or #enlargements# so certified shall be permitted in accordance with the provisions of this Chapter, or the provisions of the #Special Clinton District#, as applicable.

(b) Where the Chairperson of the Department of City Planning determines that the amount of #floor area# for #uses# listed under Offices in Use Group VII in any #development# or #enlargement# will result in a total amount of #floor area# #developed# or #enlarged# with such #use# after January 19, 2005, within the #Hudson Yards Redevelopment Area# of over 20 million square feet, no building permit from the Department of Buildings shall be issued for any #development# or #enlargement# that includes offices constructed after January 19, 2005, until the Chairperson certifies to the Commissioner of Buildings that:

(1) such #development# or #enlargement# does not utilize any #floor area# increases pursuant to the special provisions for #qualifying affordable housing# or #qualifying senior housing# in Sections 93-222 or 93-223, or the provisions of Sections 93-30, inclusive, or 96-25; or

(2) such #development# or #enlargement# utilizes #floor area# increases pursuant to the special provisions for #qualifying affordable housing# or #qualifying senior housing# in Sections 93-222 or 93-223, or the provisions of Sections 93-30, inclusive, or 96-25, and will not result in a total amount of office #floor area# #developed# or #enlarged# after January 19, 2005, within the #Hudson Yards Redevelopment Area# of over 25 million square feet.

All #developments# or #enlargements# so certified shall be permitted in accordance with the provisions of this Chapter, or the provisions of the #Special Clinton District#, as applicable.

However, if such #developments# or #enlargements# fail to comply with the provisions of Section 11-331 with respect to completion of foundations within one year of the date of certification pursuant to this Section, such building permit shall lapse, and any new building permit will require a new Chairperson's certification pursuant to this Section.

(c) Where the Chairperson of the Department of City Planning determines that the amount of #floor area# for #uses# listed under Offices in Use Group VII in any #development# or #enlargement# will result in a total amount of #floor area# #developed# or #enlarged# with such #use# after January 19, 2005, within the #Hudson Yards Redevelopment Area# of over 25 million square feet, and where such #development# or #enlargement# utilizes #floor area# increases pursuant to the special provisions for #qualifying affordable housing# or #qualifying senior housing# in Sections 93-222 or 93-223, or the provisions of Sections 93-30, inclusive, or 96-25, such #development# or #enlargement# shall be permitted only upon authorization of the City Planning Commission pursuant to Section 93-132.

However, no such authorization shall be required for #developments# or #enlargements# utilizing the Inclusionary Housing Program within the area bounded by West 35th Street, Eighth Avenue, West 33rd Street, and a line 100 feet east of and parallel to Ninth Avenue, or in the 42nd Street Perimeter Area of the #Special Clinton District#, where the total #floor area ratio# for such #developments# or #enlargements# does not exceed 12.0.

93-132 - Authorization for office use

LAST AMENDED
12/5/2024

The provisions of this Section shall apply to all #developments# or #enlargements# in the #Hudson Yards Redevelopment Area#, with the exception of Subdistricts F and G.

Where the amount of #floor area# for #uses# listed under Offices in Use Group VII in a #development# or #enlargement# will result in over 25 million square feet of such #use# #developed# or #enlarged# after January 19, 2005, within the #Hudson Yards Redevelopment Area#, and such #development# or #enlargement# utilizes increased #floor area# pursuant to the special provisions for #qualifying affordable housing# or #qualifying senior housing# in Sections 93-222 (Maximum floor area ratio in the 34th Street Corridor Subdistrict C) or 93-223 (Maximum floor area ratio in Hell's Kitchen Subdistrict D), or the provisions of Sections 93-30 (SPECIAL FLOOR AREA REGULATIONS), inclusive, or 96-25 (Floor Area Bonus for New Theater Use), such #development# or #enlargement# shall be permitted only upon authorization of the City Planning Commission that:

(a) such #development# or #enlargement# will not require any significant additions to the supporting services of the neighborhood or that provisions for adequate supporting services have been made;

(b) the #streets# providing access to the #development# or #enlargement# are adequate to handle the traffic generated thereby or provisions have been made to handle such traffic; and

(c) such #development# or #enlargement# is consistent with the goals of the applicable special district.

93-133 - Transient hotels and offices in Subdistrict H

LAST AMENDED
8/14/2025

For a #building# subject to the provisions of Sections 93-90 (HARASSMENT) and 93-91 (Demolition) and for which #HPD# issued a #certification of no harassment# that was in effect on June 11, 2018, a special permit pursuant to Section 74-152 (In Commercial Districts) shall not be required where such #building# is #enlarged# and a portion of which is subsequently converted to #residences# pursuant to Article I, Chapter 5 (Residential Conversions Within Existing Buildings), provided that all new #transient hotel# rooms shall be located in the #enlarged# portion of such #building#, and except for #transient hotel# lobbies and #accessory# #uses# located below the floor level of the second #story#, the non-#enlarged# portion of such #building# shall contain only permanently affordable #residences# pursuant to a #regulatory agreement# enforceable by #HPD#.

In Subdistrict H, any #development# or #enlargement# that includes #uses# listed under Offices in Use Group VII, #developed# or #enlarged# after January 19, 2005, shall be permitted only pursuant to Section 93-13 (Special Office Use Regulations).

93-134 - C6-4M Districts in Subdistrict H

LAST AMENDED
8/14/2025

In the C6-4M District located within Subdistrict H, for #buildings# existing on January 19, 2005, the #use# regulations of the underlying district shall be modified as follows:

The following #uses# shall be allowed:

From Use Group IX

All #uses# listed under Use Group IX(A) that are permitted in a C8 District

From Use Group X

All #uses# listed under Use Group X that are permitted in a C8 District.

93-135 - Vehicle storage establishments

LAST AMENDED
8/14/2025

Within Subdistrict G, commercial or public vehicle storage, including #accessory# motor fuel pumps listed under Use Group IX(C) shall be permitted as-of-right, applicable to a C8 District. The #floor area# of a #building# shall not include floor space used for public utility vehicle storage provided in any #story# located not more than 56 feet above #curb level#.

93-14 - Ground Floor Level Requirements

LAST AMENDED
6/6/2024

The following provisions relating to retail continuity and transparency requirements shall apply to all subdistricts in the #Special Hudson Yards District#, except that the provisions of this Section shall not apply in Subdistrict G and along the northern #street# frontage of West 35th through West 39th Streets within 100 feet of Eleventh Avenue, as shown on Map 2 (Mandatory Ground Floor Retail) in Appendix A of this Chapter. However, any #zoning lot# fronting on such #streets# and partially within 100 feet of Eleventh Avenue may, as an alternative, apply the provisions of this Section to the entire West 35th, West 36th, West 37th, West 38th or West 39th Street frontage of the #zoning lot#.

The underlying #ground floor level# streetscape provisions set forth in Section 32-30 (STREETSCAPE REGULATIONS), inclusive, shall apply, except that #ground floor level# #street

frontages# along #streets#, or portions thereof, designated on Map 2 (Mandatory Ground Floor Retail) in Appendix A of this Chapter, shall be considered #Tier C street frontages#.

However, the lobby limitations for #Tier C street frontages# shall be modified as follows: within the Four Corners Subarea A2 of the Large-Scale Plan Subdistrict A, for a #development# occupying a full #block# with frontage on Hudson Boulevard East and Tenth Avenue and having two million or more square feet of #floor area#, the width of lobbies located on the Hudson Boulevard East #street# frontage or the Tenth Avenue #street# frontage may occupy up to 70 feet of the #building# wall width of the #building# located on each such frontage.

In addition, for the purposes of applying such provisions to Sites 1, 2 and 6 in the Western Rail Yard Subdistrict F, West 31st and West 32nd Street Extension, as shown on Map 3 (Subdistrict F: Public Access Area Plan) in Appendix B of this Chapter, shall be considered #streets#.

93-141 - Certification to modify ground floor level requirements in Subdistrict F

LAST AMENDED
6/6/2024

Within Subdistrict F, the Chairperson of the City Planning Commission may modify the ground floor level requirements of Section 93-14 (Ground Floor Level Requirements), provided that the Chairperson certifies to the Commissioner of Buildings that such a change is the minimum necessary to accommodate the ventilation requirements of the below-grade rail operations. Any application for such change shall include a mechanical plan that conveys the extent of the needs and required modifications, as well as a letter from the Metropolitan Transportation Authority describing the needs for such modifications.

93-15 - Public Parking Facilities

LAST AMENDED
6/6/2024

In C2-5, C2-8 and C6 Districts, the provisions of Section 32-19 (Use Group IX - Storage), inclusive, with respect to #public parking garages# and #public parking lots# are inapplicable and are superseded by the provisions of Section 93-80 (OFF-STREET PARKING REGULATIONS).

93-16 - Modification of Sign Regulations

LAST AMENDED
8/14/2025

(a) Subdistricts A, B, C, D and E

Within Subdistricts A, B, C, D and E, the underlying #sign# regulations shall apply, except that #flashing signs# shall not be allowed within 100 feet of Hudson Boulevard, its northerly prolongation to West 39th Street and its southerly prolongation to West 33rd Street. Within the Pennsylvania Station Subarea B4, the provisions of Section 93-161 (Special permit for signs within the Pennsylvania Station Subarea) shall apply. The following modifications to the underlying #sign# regulations shall apply in the Eastern Rail Yard Subarea A1:

(1) #Flashing signs# shall not be allowed on any portion of a #building# fronting upon the outdoor plaza required pursuant to Section 93-71.

(2) For #signs# facing Tenth Avenue, or on a portion of a #building# within 100 feet of Tenth Avenue, in addition to #signs# permitted under the underlying #sign# regulations:

(i) up to four #signs# may exceed the maximum height limitations of the underlying #sign# regulations, provided that no such #sign# exceeds 95 feet in height; and

(ii) up to five #signs# may be located without regard to the maximum #surface area# limitations of the underlying #sign# regulations, provided that:

(a) the aggregate #surface area# of such #signs# does not exceed 4,400 square feet; and

(b) each such #sign# shall have a maximum #surface area# of 650 square feet, except for one #sign# that may have a maximum #surface area# of 1,800 square feet.

Any #sign# which exceeds the maximum height permitted by the underlying sign regulations shall direct attention to no more than one business conducted on the #zoning lot# and no such #signs# shall be #flashing signs#. Additionally, no more than two of the additional #signs# permitted under this paragraph (a)(2), if located below the maximum height permitted by the underlying #sign# regulations, shall be #flashing signs#.

Erection of one or both of the additional #flashing signs# permitted under this paragraph (a)(2) shall be conditioned upon and subject to additional

limitations upon flashing effects for all #flashing signs# located on a #building# wall facing Tenth Avenue or on a #building# wall within 100 feet of Tenth Avenue, as prescribed by the City Planning Commission pursuant to a restrictive declaration. Recordation of such restrictive declaration in the Office of the Register and compliance with the terms thereof with respect to any previously erected #flashing signs# permitted under the underlying #sign# regulations shall be a precondition to the issuance of permits by the Commissioner of Buildings for an additional #flashing sign# permitted under this paragraph.

(3) Along the #ERY High Line#, the #sign# regulations as set forth in Section 93-16, paragraph (b)(1), shall apply. In addition, no #flashing signs# above the level of the #High Line bed# shall be located within 150 feet of and facing the #ERY High Line#.

(4) For an #ERY Culture, Festival and Exhibit Facility#, the total #surface area# of all permitted #signs# and banners shall be as set forth in this paragraph, (a)(4). The maximum aggregate #surface area# of all #signs# shall not exceed 2,700 square feet. #Signs#, other than banners, facing the outdoor plaza, as described in Section 93-71, paragraph (b), shall not exceed a maximum aggregate #surface area# of 200 square feet; #signs# facing the connection to the High Line, as described in Section 93-71, paragraph (f), shall not exceed a maximum aggregate #surface area# of 200 square feet; and #signs# facing West 30th Street shall not exceed a maximum aggregate #surface area# of 1,700 square feet. A maximum of 600 square feet of #signs# in the form of banners are permitted facing or within the outdoor plaza. No #sign# shall exceed a height of 30 feet above the level of the Culture Facility Plaza, as described in Section 93-71, paragraph (j) and no #signs# facing West 30th Street shall be located at a height above the #High Line#. Banners located within the outdoor plaza may be installed on one or two poles

located not less than 13 feet from an #ERY Culture, Festival and Exhibit Facility#. The bottom of any such banner shall be located at least 10 feet above the bottom of the pole. Any #sign# that exceeds 300 square feet of #surface area# shall be non-#illuminated# or a #sign with indirect illumination#.

(b) Subdistrict F

For the purposes of calculating the permitted #surface area# of a #sign#, each site set forth on Map 2 (Subdistrict F: Site Plan) in Appendix B shall be considered a separate #zoning lot#.

(1) Along the #High Line#

The #sign# regulations of the underlying districts shall not apply to #signs# located within 50 feet of the #High Line#, except for #signs# located entirely below the level of the #High Line bed#. In lieu thereof, the #sign# regulations of a C1 District shall apply, except that #accessory# #signs# located within the #High Line# frontage may have a maximum height of 20 feet above the level of the #High Line bed#.

No #signs# affixed to or resting upon the #High Line# shall be permitted, except as pursuant to a signage plan for the #High Line#, as authorized by the City Planning Commission, provided the Commission finds that such signage plan will:

(i) enhance the use of the #High Line# by providing signage that is consistent with the use of the #High Line# as a public open space;

(ii) provide, at a minimum, directional, informational and interpretive signage consistent with the use of the #High Line# as a public open space;

(iii) be integrated with the design of the #High Line# open space; and

(iv) not adversely affect development adjacent to the #High Line# and in the surrounding neighborhood.

(2) Other locations

Within Subdistrict F, the underlying #sign# regulations shall apply for #signs# located beyond 50 feet of the #High Line#, and for portions of #signs# located entirely below the level of the #High Line bed# along West 30th Street. However, #flashing signs# shall not be permitted in Subdistrict F, except along frontages within 200 feet of the intersection of the West 33rd Street and Eleventh Avenue #street lines#.

(c) Subdistrict H

In Subdistrict H, #flashing signs# shall not be permitted.

93-161 - Special permit for signs within the Pennsylvania Station Subarea

LAST AMENDED3/22/2016

For an arena permitted pursuant to Section 74-41 within Pennsylvania Station Subarea B4, the City Planning Commission may, by special permit, modify the applicable provisions of Sections 32-63 (Permitted Advertising Signs) to allow advertising #signs#, 32-64 (Surface Area and Illumination

Provisions) to allow increased #surface area# along specified #streets# and 32-65 (Permitted Projection or Height of Signs), provided such #signs# comply with the conditions of paragraph (a) and the findings of paragraph (b) of this Section, as follows:

(a) Conditions

(1) no #sign# shall extend to a height greater than 85 feet above #curb level# ;

(2) all #signs# located below a height of 12 feet above #curb level# shall be limited in location and aggregate #surface area# to 550 square feet on the West 31st Street frontage of Subarea B4, 250 square feet on the West 33rd Street frontage of Subarea B4 and 850 square feet on the Eighth Avenue frontage of Subarea B4; and

(3) all #signs# located above a height of 12 feet above #curb level# shall be limited in location and aggregate #surface area# to 5,500 square feet within the #through lot# fronting on Eighth Avenue, 3,000 square feet within each #corner lot# fronting on Eighth Avenue, 3,000 square feet within the #through lot# portion of the West 31st Street frontage of Subarea B4 and 3,000 square feet within the #through lot# portion of the West 33rd Street frontage of Subarea B4.

(b) The Commission shall find that the location and placement of such #signs# is appropriate in the relationship to #buildings# and #uses# on the #zoning lot# and to adjacent open areas, and would be compatible with the character of the arena site, including its use as an entryway to Pennsylvania Station, and of the surrounding area.

For purposes of calculating the height of any #sign# permitted pursuant to this Section, #curb level# shall be defined as 30.755 feet above Manhattan datum.

The Commission may prescribe additional conditions and safeguards to minimize adverse effects on the character of the surrounding area, including limitations on the number, size and location of arena #signs# permitted pursuant to the district regulations.

93-20 - FLOOR AREA REGULATIONS

LAST AMENDED
2/2/2011

The #floor area# regulations of this Section, inclusive, shall apply to #zoning lots#.

93-21 - Floor Area Regulations in the Large-Scale Plan Subdistrict A

LAST AMENDED
12/5/2024

In the Large-Scale Plan Subdistrict A, the #floor area# provisions of this Section shall apply.

(a) Subareas A2 through A5

In Subareas A2 through A5, the basic maximum permitted #floor area ratio# shall be as specified in Row A in the table in this Section. Such #floor area ratio# may be increased to the maximum amount specified in Row B in the table, pursuant to Section 93-31 (District Improvement Fund Bonus) or the transfer of #floor area# or increase in the amount of #floor area# from the #Phase 2 Hudson Boulevard and Park# pursuant to Sections 93-32 or 93-33. For #zoning lots# that have maximized their permitted #floor area# through such #floor area#

bonus or transfer provisions, the permitted #floor area# may be further increased to the maximum amount specified in Row C in the table through the distribution of #floor area# from the Eastern Rail Yard Subarea A1, pursuant to Section 93-34.

For #residential use#, the maximum #floor area ratio# for #zoning lots# containing standard #residences# shall be as set forth in Row C. For #zoning lots# containing #qualifying affordable housing# or #qualifying senior housing#, the maximum #floor area ratio# shall be 7.2. #Residential use# shall only be permitted on a #zoning lot# with a non-#residential# #floor area ratio#, as follows, or as provided for phased developments pursuant to Section 93-122 (Certification for residential use in Subdistricts A, B and E):

(1) 18.0 or more in Subareas A2 and A3, or 16.8 or more for #zoning lots# containing #qualifying affordable housing# or #qualifying senior housing# in Subarea A3

(2) 15.6 or more, or 14.4 or more for #zoning lots# containing #qualifying affordable housing# or #qualifying senior housing# in Subarea A4

(3) 14.0 or more, or 12.8 or more for #zoning lots# containing #qualifying affordable housing# or #qualifying senior housing# in Subarea A5.

MAXIMUM PERMITTED FLOOR AREA RATIO WITHIN SUBAREAS A2 THROUGH A5

	Subarea A2	**Subarea A3**	**Subarea A4**	**Subarea A5**

C = Commercial FAR

CF = Community Facility FAR

R = Residential FAR

(b) Eastern Rail Yard Subarea A1

The Eastern Rail Yard Subarea A1 shall generate a maximum #floor area ratio# of 19.0. The maximum #floor area ratio# for #commercial# #use# shall be 19.0, the maximum #floor area ratio# for #community facility# #use# shall be 2.0, and the maximum #residential# #floor area ratio# shall be 3.0 for #zoning lots# containing standard #residences# or 3.6 for #zoning lots# containing #qualifying affordable housing# or #qualifying senior housing#. In order to promote a superior site plan, the amount of #floor area# permitted in the subarea shall be limited, and unused #floor area# may be distributed as follows:

(1) The maximum #floor area ratio# for any #zoning lot# in the subarea shall be 11.0. The maximum #floor area ratio# for #commercial# #use# shall be 9.0, the maximum #floor area ratio# for #community facility# #use# shall be 2.0, and the maximum #residential# #floor area ratio# shall be 3.0 for #zoning lots# containing standard #residences# or 3.6 for #zoning lots# containing #qualifying affordable housing# or #qualifying senior housing#. #Residential use# shall only be permitted on a #zoning lot# with a non-#residential# #floor area ratio# of 8.0 or more, or as provided for phased developments pursuant to Section 93-122 (Certification for residential use in Subdistricts A, B and E).

Any floor space occupied by an #ERY Culture, Festival and Exhibit Facility#, including any floor space #accessory# thereto, that is located below the elevation of the Culture Shed Plaza described in Section 93-71, paragraph (j), within the moveable portion that may be extended and retracted to cover and enclose all or any portion of the Culture Facility Plaza, or within a portion of a #building# that contains #residential use# and is not designed to house such moveable portion, shall be exempt from the definition of #floor area# for the purposes of calculating the permitted #floor area ratio# for #community facility uses# and the total maximum #floor area ratio# of the #zoning lot#. In addition, in a #building# containing both #residential use# and an #ERY Culture, Festival and Exhibit Facility#, any floor space occupied by elevator shafts, structural systems or stairwells serving the #residential use# that is either located on any #story# occupied entirely by the #ERY Culture, Festival and Exhibit Facility#, except for such elevator shafts, structural systems, and stairwells, or is located on a #story# occupied in part by the #ERY Culture, Festival and Exhibit Facility# where such elevator shaft or stairwell is not accessible for #residential use# on such #story# except for emergency egress, shall be exempt from the definition of #floor area# for the purposes of calculating the permitted #floor area ratio# for #residential uses# and the total maximum #floor area ratio# of the #zoning lot#.

For a #building#, or portion of a #building#, containing #residential use# that is located adjacent to the #ERY High Line#, any floor space used for storage, restrooms, maintenance facilities or other support space for the #ERY High Line# shall be exempt from the definition of #floor area# for the purposes of calculating the permitted #floor area ratio# for #residential# or #community facility uses# and the total maximum #floor area ratio# of the #zoning lot#.

(2) Unused #floor area# may be distributed to #zoning lots# in Subareas A2 through A5 pursuant to Section 93-34, provided the total amount of distributed #floor area# does not exceed an amount equal to the #lot area# of the Eastern Rail Yard Subarea A1 multiplied by 10.0. Furthermore, the total #floor area# distributed to Subarea A2 shall not exceed 3,238,000 square feet.

(c) #Phase 2 Hudson Boulevard and Park#

For #zoning lots# or portions of #zoning lots# in the #Phase 2 Hudson Boulevard and Park#, the provisions of Section 93-32 (Floor Area Regulations in the Phase 2 Hudson Boulevard and Park) and 93-33 (Special Regulations for Residual Portions of Zoning Lots Partially Within the Phase 2 Hudson Boulevard and Park) shall apply.

Notwithstanding the provisions of this Section, the basic maximum permitted #floor area ratio# may be increased on a #receiving lot# in accordance with Section 75-42 (Transfer of Development Rights from Landmarks), provided that the maximum #floor area# transferred from the landmark lot does not exceed the basic maximum permitted #floor area ratio# less the total #floor area# of all #buildings# on the landmark lot.

93-22 - Floor Area Regulations in Subdistricts B, C, D, E, F, G and H

LAST AMENDED
8/14/2025

(a) Subdistricts B, C, D and E

In Subdistricts B, C, D and E, the basic maximum #floor area ratio# is determined by the subdistrict and, where applicable, subarea, as specified in the table in this Section. The basic maximum #floor area ratios# for non-#residential buildings# are set forth in Row A, and the basic maximum #floor area ratios# for #buildings# containing #residences# are set forth in Row B. Such basic maximum #floor area ratios# may be increased to the amount specified in Row C only pursuant to Section 93-31 (District Improvement Fund Bonus) or as otherwise specified in Sections 93-221 through 93-224.

For a #zoning lot# with more than one #building#, the basic maximum #floor area ratios# set forth in Row A shall apply, provided that any #building# that is #developed# or #enlarged# after January 19, 2005, is wholly non-#residential#. If a #building# containing #residences# is #developed# or #enlarged# on such a #zoning lot# after January 19, 2005, the basic maximum #floor area ratios# set forth in Row B shall apply.

Notwithstanding the provisions of this Section, the basic maximum permitted #floor area ratio# may be increased on a #receiving lots# in accordance with Section 75-42 (Transfer of Development Rights from Landmarks), provided that the maximum #floor area# transferred from the landmark lot does not exceed the basic maximum permitted #floor area ratio# less the total #floor area# of all #buildings# on the landmark lot.

C = Commercial FAR

CF = Community Facility FAR

R = Residential FAR

(b) Subdistrict F

In Subdistrict F, the #floor area ratio# provisions of Section 93-225 (Floor area regulations in Subdistrict F) shall apply.

(c) Subdistrict G

In Subdistrict G, the #floor area ratio# provisions of Section 93-226 (Floor area regulations in Subdistrict G) shall apply.

(d) Subdistrict H

The basic maximum #floor area ratio# of a #zoning lot# containing non-#residential buildings# shall be 10.0 and may be increased to a maximum #floor area ratio# of 12.0 pursuant to Section

93-31 (District Improvement Fund Bonus). Such #zoning lot# may also contain #residences# within #buildings# existing on January 19, 2005, provided that such #buildings# are not #enlarged# after such date. For #zoning lots# containing #residences# within a #building# that is #developed# or #enlarged# on or after January 19, 2005, the basic maximum #floor area ratio# shall be 6.5. The #floor area ratio# of any such #zoning lot# may be increased from 6.5 as follows:

(1) The #residential# #floor area# may be increased to a maximum of 12.0 where the following are met:

(i) an amount of #floor area# equal to at least 20 percent of the total #residential# #floor area# is allocated to #qualifying affordable housing# or #qualifying senior housing#; and

(ii) a #floor area# increase or transfer equal to a #floor area ratio# of 2.5 has been earned pursuant to Section 93-31 or 93-32 (Floor Area Regulations in the Phase 2 Hudson Boulevard and Park).

(2) For the #conversion# to #dwelling units# of non-#residential buildings#, or portions thereof, where the total #floor area# on the #zoning lot# to be #converted# to #residential use# exceeds a #floor area ratio# of 12.0, such excess #floor area# shall be permitted only pursuant to Section 93-31.

For #developments# or #enlargements# on #qualifying transit improvement sites#, a #floor area# bonus for #mass transit station# improvements may be granted by the City Planning Commission pursuant to the provisions of Section 66-51 (Additional Floor Area for Mass Transit Station Improvements). As a pre-condition to applying for such #floor area# bonus, the applicant shall demonstrate that a #floor area ratio# of no less

than 0.1 of the maximum #floor area ratio# pursuant to Section 93-31 or the provisions of paragraph (a) of this Section, has been achieved prior to, or in conjunction with, the application. For the purposes of this paragraph, defined terms additionally include those in Section 66-11 (Definitions).

93-221 - Maximum floor area ratio in the Farley Corridor Subdistrict B

LAST AMENDED
12/5/2024

(a) Western Blocks Subarea B1

In the Western Blocks Subarea B1 of Farley Corridor Subdistrict B, #residential use# shall only be permitted on a #zoning lot# with a #commercial# #floor area ratio# of 12.0 or more, or as provided for phased developments in Section 93-122 (Certification for residential use in Subdistricts A, B and E). The maximum #residential# #floor area ratio# for #zoning lots# containing standard #residences shall be as set forth in Row C. For #zoning lots# containing #qualifying affordable housing# or #qualifying senior housing#, the maximum #residential# #floor area ratio# shall be 7.2.

(b) Central Blocks Subarea B2

In the Central Blocks Subarea B2 of Farley Corridor Subdistrict B, #residential use# shall only be permitted on a #zoning lot# with a #commercial# #floor area ratio# of 15.0 or more, or as provided for phased developments in Section 93-122. The maximum #residential# #floor area

ratio# for #zoning lots# containing standard #residences shall be as set forth in Row C. For #zoning lots# containing #qualifying affordable housing# or #qualifying senior housing#, the maximum #residential# #floor area ratio# shall be 7.2.

(c) Farley Post Office Subarea B3

In the Farley Post Office Subarea B3 of Farley Corridor Subdistrict B, no #floor area# increases shall be permitted. The maximum #residential# #floor area ratio# for #zoning lots# containing standard #residences shall be as set forth in Row B. For #zoning lots# containing #qualifying affordable housing# or #qualifying senior housing#, the maximum #residential# #floor area ratio# shall be 7.2.

(d) Pennsylvania Station Subarea B4

In the Pennsylvania Station Subarea B4 of Farley Corridor Subdistrict B, any increase in the #floor area ratio# specified in Row A in the table in Section 93-22 shall be permitted only pursuant to Section 93-35 (Special Permit for Transit Bonus in Pennsylvania Station Subarea B4) and Section 75-42 (Transfer of Development Rights from Landmarks), as modified by paragraph (b) of Section 93-054 (Applicability of Article VII, Chapter 4).

(e) Transfer of #floor area#

Notwithstanding any other provision of this Resolution, #floor area# may not be transferred between a #zoning lot# located north of West 31st Street in the Western Blocks Subarea B1 and a #zoning lot# located north of West 31st Street in the Central Blocks Subarea B2.

93-222 - Maximum floor area ratio in the 34th Street Corridor Subdistrict C

LAST AMENDED
12/5/2024

In the 34th Street Corridor Subdistrict C, the basic maximum #floor area ratios# of non-#residential buildings# are set forth in Row A in the table in Section 93-22 and may be increased to the amount specified in Row C pursuant to Section 93-31 (District Improvement Fund Bonus). The basic maximum #floor area ratios# of any #building# containing #residences# are set forth in Row B.

The #floor area ratio# of any #building# containing #residences# may be increased from 6.5, as follows:

(a) the #residential# #floor area ratio# may be increased to a maximum of 12.0 where the following are met:

(1) an amount of #floor area# equal to at least 20 percent of the total #residential# #floor area# is allocated to #qualifying affordable housing# or #qualifying senior housing#;

(2) a #floor area# increase equal to a #floor area ratio# of 2.5 has been earned pursuant to Section 93-31 (District Improvement Fund Bonus); and

(b) any #floor area# increase above a #floor area ratio# of 12.0 shall be only pursuant to Section 93-31.

For #developments# or #enlargements# on #qualifying transit improvement sites#, a #floor area# bonus for #mass transit station# improvements may be granted by the City Planning Commission pursuant to the provisions of Section 66-51 (Additional Floor Area for Mass Transit Station Improvements). As a pre-condition to applying for such #floor area# bonus, the applicant shall demonstrate that a #floor area ratio# of no less than 0.1 of the maximum #floor area ratio# set forth in Row C of Section 93-22 (Floor Area Regulations in Subdistricts B, C, D, E, F, G and H), has been achieved prior to, or in conjunction with, the application. For the purposes of this paragraph, defined terms additionally include those in Section 66-11 (Definitions).

93-223 - Maximum floor area ratio in Hell's Kitchen Subdistrict D

LAST AMENDED
12/5/2024

(a) Subareas D1 and D2

In Subareas D1 and D2 of Hell's Kitchen Subdistrict D, the basic maximum #floor area ratios# of non-#residential buildings# are set forth in Row A in the table in Section 93-22 and may be increased to the amount specified in Row C pursuant to Section 93-31 (District Improvement Fund Bonus) or through the transfer of #floor area# from the #Phase 2 Hudson Boulevard and Park# as set forth in Section 93-32. The basic maximum #floor area ratios# of any #building# containing #residences# are set forth in Row B.

The #floor area ratio# of any #building# containing #residences# may be increased from 6.5 as follows:

(1) The #residential# #floor area ratio# may be increased to a maximum of 12.0 where the following are met:

(i) an amount of #floor area# equal to at least 20 percent of the total #residential# #floor area# is allocated to #qualifying affordable housing# or #qualifying senior housing#;

(ii) a #floor area# increase or transfer equal to a #floor area ratio# of 2.5 has been earned pursuant to Section 93-31 or 93-32; and

(2) Any #floor area# increase above a #floor area ratio# of 12.0 shall be only pursuant to Sections 93-31 or 93-32.

Furthermore, in Subarea D1, the #floor area ratio# on a #zoning lot# may exceed 13.0 only where the #community facility# #floor area ratio# is not less than the excess of such #floor area ratio# above 13.0.

(b) Subarea D3

In Subarea D3, the basic maximum #floor area ratio# may be increased only pursuant to Section 93-31. In addition, for #qualifying affordable housing# or #qualifying senior housing#, the maximum #residential# #floor area ratio# shall be 9.0.

(c) Subareas D4 and D5

In Subareas D4 and D5, the underlying #floor area ratio# regulations shall apply.

(d) Authorization for transfer of #floor area# for public facilities

For any #zoning lot# located partially in Subarea D2 and partially in Subarea D4, where such #zoning lot# is occupied by a #development# or #enlargement# that includes a public facility, the City Planning Commission may authorize modifications to the #street wall# requirements of Subarea D4 and authorize modifications to the provisions of Section 77-22 (Floor Area Ratio) in order to allow the transfer of #floor area# from that portion of the #zoning lot# located in Subarea D4 to that portion located in Subarea D2, provided the #floor area ratio# for the #zoning lot# does not exceed the adjusted maximum #floor area ratio# for the #zoning lot# as specified in Section 77-22. In order to authorize such modifications, the Commission shall

find that:

(1) such public facility provides a necessary service to the surrounding area;

(2) such transfer of #floor area# is necessary in order for the #development# or #enlargement# to achieve an adequate separation of #uses# on the #zoning lot#; and

(3) such transfer of #floor area# will not unduly increase the #bulk# of any #development# or #enlargement#, density of population or intensity of #use# to the detriment of occupants of #buildings# on the #block# or surrounding #blocks#, and that any disadvantages to the surrounding area caused by reduced access of light and air will be more than offset by the advantages of the public facility to the local community and the City as a whole.

(e) Authorization for transfer of floor area for public open areas

For #developments# or #enlargements# on #zoning lots# divided by district boundaries that are wholly or partially within Hell's Kitchen Subdistrict D and provide publicly accessible open areas contiguous to or over the Lincoln Tunnel Approaches or Dyer Avenue, the Commission may authorize the distribution of #floor area# across such district boundaries pursuant to Section 93-543 (Authorization for the provision of public open areas).

93-224 - Maximum floor area ratio in the South of Port Authority Subdistrict E

LAST AMENDED
12/5/2024

In the South of Port Authority Subdistrict E, #residential use# shall only be permitted as part of a #development# or #enlargement# on a #zoning lot# with a #commercial# #floor area ratio# of 15.0 or more, or as provided for phased #developments# in Section 93-122 (Certification for residential use in Subdistricts A, B and E). The maximum #residential# #floor area ratio# for #zoning lots# containing standard #residences shall be as set forth in Row C. For #zoning lots# containing #qualifying affordable housing# or #qualifying senior housing#, the maximum #residential# #floor area ratio# shall be 3.6.

For #developments# or #enlargements# on #qualifying transit improvement sites#, a #floor area# bonus for #mass transit station# improvements may be granted by the City Planning Commission pursuant to the provisions of Section 66-51 (Additional Floor Area for Mass Transit Station Improvements). As a pre-condition to applying for such #floor area# bonus, the applicant shall demonstrate that a #floor area ratio# of no less than 0.1 of the maximum #floor area ratio# set forth in Row C of Section 93-22 (Floor Area Regulations in Subdistricts B, C, D, E, F, G and H), has been achieved, prior to, or in conjunction with, the application. For the purposes of this paragraph, defined terms additionally include those in Section 66-11 (Definitions).

93-225 - Floor area regulations in Subdistrict F

LAST AMENDED
12/5/2024

In Subdistrict F, the maximum #floor area ratio# for #residential#, #community facility# and #commercial uses# on a #zoning lot# shall be as follows:

(a) the maximum #residential# #floor area ratio# shall be 8.0 for #zoning lots# containing standard #residences or 9.6 for #zoning lots# containing #qualifying affordable housing# or #qualifying

senior housing#;

(b) the maximum #floor area ratio# for #community facility uses# shall be 2.0. However, any floor space occupied by a public #school#, constructed in whole or in part pursuant to agreement with the New York City School Construction Authority and subject to the jurisdiction of the New York City Department of Education, shall be exempted from the definition of #floor area# for the purposes of calculating the permitted #floor area ratio# for #community facility uses# and the total maximum #floor area ratio# of the #zoning lot#;

(c) the maximum #floor area ratio# for #commercial# #uses# shall be 8.0; and

(d) the total maximum #floor area ratio# in the subdistrict shall be 10.4.

93-226 - Floor area regulations in Subdistrict G

LAST AMENDED
12/5/2024

In Subdistrict G, the basic maximum permitted #floor area ratio# for #residential#, #community facility#, and #commercial# #uses# on a #zoning lot# shall be as follows:

(a) the maximum #floor area ratio# for #residential uses# shall be 12.0, pursuant to the Mandatory Inclusionary Housing Program provisions set forth in Section 27-10 (ADMINISTRATION OF AFFORDABLE HOUSING);

(b) the maximum #floor area ratio# for #community facility uses# shall be 12.0;

(c) the maximum #floor area ratio# for #commercial# #uses# shall be 12.0; and

(d) the total maximum #floor area ratio# shall be 24.0.

93-30 - SPECIAL FLOOR AREA REGULATIONS

LAST AMENDED
1/19/2005

93-31 - District Improvement Fund Bonus

LAST AMENDED
8/14/2025

In the #Special Hudson Yards District#, except in Subdistrict F, the Chairperson of the City Planning Commission shall allow, by certification, the applicable basic maximum #floor area ratio# to be increased up to the maximum amount specified in Sections 93-21 or 93-22, as applicable, provided that instruments in a form acceptable to the City are executed and recorded and that, thereafter, a contribution has been deposited in the #Hudson Yards District Improvement Fund#. The execution and recording of such instruments and the payment of such non-refundable contribution shall be a precondition to the filing for or issuing of any building permit allowing more than the basic maximum #floor area# for such #development# or #enlargement#.

The Commissioner of Buildings shall not authorize the construction of any #development# or #enlargement# utilizing #floor area# bonused pursuant to this Section, including foundations with respect thereto, nor shall the construction of any bonused portion thereof be authorized, until the Chairperson has certified that the requirements of this Section have been met. Nothing herein shall limit the ability of the Commissioner of Buildings to issue a permit for the construction of a

#development# or #enlargement# which does not utilize such bonused #floor area#, provided that, prior to issuance of such permit, the Chairperson has notified the Commissioner of Buildings in writing of the receipt by the Department of City Planning of either:

(a) a letter from the applicant for such permit dated no earlier than 30 days prior to issuance thereof, stating whether as of such date the applicant anticipates filing an application to increase the applicable basic maximum #floor area ratio# pursuant to the provisions of this Section and/or other provisions in Sections 93-222 (Maximum floor area ratio in the 34th Street Corridor Subdistrict C) or 93-223 (Maximum floor area ratio in Hell's Kitchen Subdistrict D); or

(b) an application for a bonus from such applicant to increase the applicable basic maximum #floor area ratio# pursuant to the provisions of this Section and/or other provisions in Sections 93-222 or 93-223.

Copies of letters received from applicants pursuant to paragraph (a) of this Section shall be forwarded by the Department of City Planning to the Community Board and local City Council member, and maintained on file and be available for public inspection at such Department.

The contribution amount shall be $100 per square foot of #floor area# as of January 19, 2005, and shall be adjusted by the Chairperson annually. Such adjustment shall occur on August 1 of each calendar year, based on the percentage change in the Consumer Price Index for all urban consumers as defined by the U.S. Bureau of Labor Statistics for the twelve months ended on June 30 of that year. The contribution amount shall be determined based upon the rate which is in effect at the time the contribution is received, and contributions may be made only on days when the Hudson Yards Infrastructure Corporation (the "Corporation") is open for business and during business hours as specified by the Corporation.

The Commission may promulgate rules regarding the administration of this Section, and the Commission may also, by rule, adjust the contribution amount specified in the preceding paragraph to reflect changes in market conditions within the #Hudson Yards Redevelopment Area# if, in its

judgment, the adjusted amount will facilitate the district-wide improvements that are consistent with the purposes of this Chapter. The Commission may make such an adjustment by rule, not more than once a year.

For any such adjustment by rule decreasing the contribution amount, or increasing the contribution amount by more than the percentage change in the Consumer Price Index for all urban consumers, the following shall apply:

(1) Such rule shall be effective for not more than two years; and

(2) The Commission shall not publish the proposed rule pursuant to the City Administrative Procedure Act unless the City Council Land Use Committee and the Department of City Planning have jointly filed an application for a zoning text amendment under Section 201 of the New York City Charter, which would make such adjustment of the contribution amount permanently effective. The contribution amount established under such rule as finally adopted shall continue in effect with further adjustments based upon the Consumer Price Index for all urban consumers, until the next adjustment of the contribution amount pursuant to this Section.

For the #conversion# to #dwelling units# of non-#residential# #floor area#, where the total #floor area# on the #zoning lot# to be #converted# to #residential use# exceeds a #floor area ratio# of 12.0, such excess #floor area# shall be permitted only pursuant to the provisions of this Section.

93-32 - Floor Area Regulations in the Phase 2 Hudson Boulevard and Park

LAST AMENDED
12/5/2024

In the #Phase 2 Hudson Boulevard and Park#, no #development# shall be permitted and, except as provided in Section 93-051 (Applicability of Article I, Chapter 1), no #building# shall be #enlarged#. However, #floor area# from a granting site within the #Phase 2 Hudson Boulevard and Park# may be transferred to a receiving site in accordance with the provisions of paragraph (a) of this Section.

For the purposes of this Section, a "granting site" shall mean a #zoning lot#, or portion thereof, within the #Phase 2 Hudson Boulevard and Park# and the #lot area# of such granting site shall include any area on such site designated on the City Map as Hudson Boulevard or #public park#, and a "receiving site" shall mean a #zoning lot#, or portion thereof, within Subareas A2 through A5 of the Large-Scale Plan Subdistrict A or Subareas D1 or D2 of Hell's Kitchen Subdistrict D, to which #floor area# from a granting site has been transferred.

Special regulations for certain #zoning lots# partially within the #Phase 2 Hudson Boulevard and Park# are set forth in Section 93-33.

(a) Transfer of floor area by certification

The Chairperson of the City Planning Commission shall allow, by certification, the applicable basic maximum #floor area ratio# of a receiving site to be increased up to the maximum amount specified in Section 93-21 or 93-22, as applicable, through the transfer of #floor area# from a granting site, provided that:

(1) the maximum amount of #floor area# transferred from a granting site shall not exceed the #floor area ratio# permitted on the granting site, as listed below, less any existing #floor area# to remain on the granting site:

District	Maximum #floor area ratio#

C2-8	7.5
C6-2	6.02
C6-4	10.0
M1-5	5.0

(2) each transfer, once completed, irrevocably reduces the amount of #floor area# that may be transferred from the granting site by the amount of #floor area# transferred;

(3) the maximum amount of #floor area# transferred to a receiving site shall be based on an amount not to exceed the #floor area ratio# permitted on a #zoning lot# through such transfer pursuant to Section 93-21 or 93-22, as applicable. In the event a granting site generates more #floor area# than is permitted on a receiving site, the Chairperson shall certify that such excess #floor area# be credited towards future #floor area# transfers pursuant to this Section; and

(4) where all #floor area# shall be transferred from a granting site pursuant to one or more such certifications, all certificates of occupancy have been surrendered for such granting site, all structures on such granting site have been demolished, and such granting site has been conveyed to the City for improvement, where applicable, as a #public park# or #street#, as provided for on the City Map.

Where, as a result of the transfer of #floor area# pursuant to this paragraph (a), the amount of #floor area# on a receiving site is less than the maximum allowable as specified for the applicable subarea in Row B in the table in Section 93-21 and Row C in the table in Section 93-22, any additional #floor area#, up to the maximum #floor area ratio# permitted on the receiving site as specified in such rows, may be achieved only through contributions to the

#Hudson Yards District Improvement Fund# pursuant to Section 93-31 (District Improvement Fund Bonus), an increase in #floor area# pursuant to paragraph (b) of this Section or Section 93-33 (Special Regulations for Residual Portions of Zoning Lots Partially Within the Phase 2 Hudson Boulevard and Park), or the provisions of Section 93-223 (Maximum floor area ratio in Hell's Kitchen Subdistrict D).

An application filed with the Chairperson for the transfer of #floor area# pursuant to this paragraph (a) shall be made jointly by the owners of the granting site and receiving site, and shall include a site plan and #floor area# zoning calculations for the granting site and the receiving site, and a copy of the transfer instrument legally sufficient in both form and content to effect such a transfer, together with notice of the restrictions upon further development of the granting site and the receiving site.

Notices of restrictions shall be filed by the owners of the granting site and receiving site in the Borough Office of the Register of the City of New York, indexed against the granting site and the receiving site, a certified copy of which shall be submitted to the Chairperson of the Commission. Receipt of certified copies thereof shall be a pre-condition to issuance of any building permit, including any foundation or alteration permit, for any #development# or #enlargement# on the receiving site which incorporates #floor area# transferred pursuant to this paragraph (a).

(b) Authorization for contribution-in-kind

The City Planning Commission may authorize a contribution-in-kind to the #Hudson Yards District Improvement Fund# for a receiving site, provided that:

(1) the conditions for transferring #floor area# set forth in paragraph (a) of this Section have been met as of the date of the authorization or will be met in accordance with agreements or instruments entered into pursuant to paragraph (b)(3) of this Section;

(2) the granting site will be improved, at the applicant's expense, as a #public park# or #street#, as provided for on the City Map, prior to conveyance to the City; and

(3) the applicant, or an affiliate of such applicant, has entered into an agreement or provided instruments in a form satisfactory to the City, providing for the improvement of the granting site as a #public park# or #street# pursuant to an agreed-upon construction schedule. The construction schedule may be adjusted from time to time in accordance with the provisions of such agreement or instruments and shall include progress milestones, including the date by which the improvements will be 50 percent complete, and a date by which the improvements will be substantially complete and usable by the public. In the event that the conditions for transferring #floor area# set forth in paragraph (a) of this Section have not been completed as of the date of this authorization, such agreement or instruments shall also provide that such conditions will be met, to the extent applicable, pursuant to an agreed-upon schedule.

In order to grant such authorization, the Commission shall find that the #public park# or #street# has been designed in accordance with the approved plan for the Hudson Boulevard and Park, or as an appropriate interim design, in consultation with the Department of Parks and Recreation or Department of Transportation.

The Commission shall determine the reasonable cost of such improvement, including any acquisition and site preparation costs, and shall divide this reasonable cost by the contribution amount per square foot of the District Improvement Bonus, as determined pursuant to Section 93-31, and in effect on the date of authorization of the contribution-in-kind pursuant to this paragraph (b), in order to determine the amount of increased #floor area# generated by the contribution-in-kind. In making such determination, the Commission may consult with an appraiser or engineer at the applicant's expense. In the event the contribution-in-kind results in an amount of #floor area# in excess of what is permitted on the receiving site, the Commission shall authorize that such excess #floor area# be credited towards future #floor area# increases pursuant to Section 93-31.

The owner of the receiving site shall not apply for or accept a temporary certificate of occupancy for that portion of the #development# or #enlargement# identified as utilizing the increased #floor area# permitted pursuant to this paragraph (b), and the Department of Buildings shall not issue a temporary certificate of occupancy for such portion until the Chairperson has certified that the improvements are substantially complete and usable by the public. The owner shall not apply for or accept a permanent certificate of occupancy for such portion of the #development# or #enlargement# nor shall the Department of Buildings issue a permanent certificate of occupancy for such portion until the improvements have been finally completed in accordance with the approved plans and such final completion has been certified by the Chairperson. A restrictive declaration in a form acceptable to the Chairperson shall be recorded against the receiving site in the Office of the Register of the City of New York in order to implement such restrictions.

An application filed with the Chairperson for the contribution-in-kind pursuant to this paragraph (b) shall be made jointly by the owners or contract vendees of the granting site and receiving site and shall, in all instances, include the party responsible either directly or through its affiliate, for the improvement of the granting site as a #public park# or #street# pursuant to the agreement or instruments entered into pursuant to paragraph (b)(3) of this Section.

Receipt of executed copies of the agreement or instruments required pursuant to paragraph (b)(3) of this Section, and of copies of the recorded restrictive declaration, shall be a precondition to the issuance of a building permit, including any foundation or alteration permit, for any #development# or #enlargement# on the receiving site that incorporates a #floor area# bonus granted pursuant to this paragraph (b).

In no event shall a building permit for a #development# or #enlargement# utilizing a #floor area# increase pursuant to this paragraph (b) be granted for the receiving site until the Chairperson provides notice to the Commissioner of Buildings that the applicant, or affiliate responsible for the improvement of the granting site, has provided acceptable evidence of site

control for purposes of construction of the improvement.

93-33 - Special Regulations for Residual Portions of Zoning Lots Partially Within the Phase 2 Hudson Boulevard and Park

LAST AMENDED
2/2/2011

Where all of the #lot area# within the following parcels, as they existed on January 19, 2005, that is also within the #Phase 2 Hudson Boulevard and Park#, has been conveyed to the City pursuant to the provisions of Section 93-32, the owner of the residual portion of one of these parcels may convey to the City such residual portion, with all development rights appurtenant thereto, provided that all certificates of occupancy have been surrendered and all structures on such parcel have been demolished:

Block 708, Lots 20 and 46

Block 709, Lot 17

Block 710, Lot 20.

When such conveyance is made, the Chairperson of the City Planning Commission may certify that such owner is entitled to an increase in #floor area# on any receiving site as specified in Section 93-32, in lieu of a permitted #floor area# increase in exchange for contributions to the #Hudson Yards District Improvement Fund#. The amount of increase certified shall not exceed the #lot area# of the residual portion times the #floor area ratio# of the applicable zoning district, as specified in Section 93-32, paragraph (a)(1).

The maximum amount of #floor area# increase on a receiving site shall be based on an amount not to exceed the #floor area ratio# increase permitted on a #zoning lot# through such contribution pursuant to Sections 93-21 or 93-22, as applicable. In the event the certified permissible #floor area# increase is greater than that permitted on a receiving site, the Chairperson shall certify that such excess #floor area# be credited towards future #floor area# increases on receiving sites pursuant to this Section.

Once certified by the Chairperson, the entitlement to an increase in #floor area# pursuant to this Section shall be the property of the former owner of the residual property conveyed to the City, and such owner may assign, sell or otherwise transfer such entitlement without restriction.

Where certification is made pursuant to this Section, the site plan and #floor area# calculations for the receiving site, together with the notice of restrictions upon further development of the receiving site, included in the application submitted pursuant to Section 93-32, shall set forth the increase in #floor area# for such receiving site certified hereunder.

93-34 - Distribution of Floor Area in the Large-Scale Plan Subdistrict A

LAST AMENDED
2/2/2011

In order to promote a superior site plan in the Eastern Rail Yard Subarea A1 of the Large-Scale Plan Subdistrict A, the Chairperson of the City Planning Commission shall allow, by certification, the distribution of #floor area# from the Eastern Rail Yard Subarea A1 to #zoning lots# in Subareas A2 through A5 of the Large-Scale Plan Subdistrict A. Such distribution shall only be permitted for receiving sites that have maximized their permitted #floor area# through contributions to the #Hudson Yards District Improvement Fund#, pursuant to Section 93-31, or the transfer of #floor area# or increase in the amount of #floor area# from the #Phase 2 Hudson Boulevard and Park#, pursuant to Sections 93-32 or 93-33. For the purposes of this Section, a “receiving site” shall mean a

#zoning lot# within Subareas A2 through A5 to which #floor area# from the Eastern Rail Yard Subarea A1 has been distributed.

(a) Distribution of #floor area# by certification

The Chairperson of the Commission shall allow, by certification, a distribution of #floor area# from the Eastern Rail Yard Subarea A1 to a receiving site provided that:

(1) The amount of #floor area# distributed does not result in distributions in excess of the maximum amount specified for the applicable #use# that may be distributed from the Eastern Rail Yard Subarea A1, as set forth in paragraph (b)(2) of Section 93-21;

(2) Each distribution, once completed, irrevocably reduces the amount of #floor area# that may be distributed from the Eastern Rail Yard Subarea A1 by the amount of #floor area# distributed; and

(3) The amount of #floor area# on the receiving site which results from such distribution does not exceed the maximum #floor area ratio# permitted on a #zoning lot# through distribution of #floor area# from the Eastern Rail Yard Subarea A1, as specified in Row C of the table in Section 93-21.

(b) Requirements for application

An application filed with the Chairperson of the Commission for the distribution of #floor area# by certification pursuant to paragraph (a) of this Section shall be made jointly by the owner of the development rights of the Eastern Rail Yard Subarea A1 and the receiving site and shall include:

(1) a site plan and #floor area# zoning calculations for the receiving site; and

(2) a copy of the distribution instrument legally sufficient in both form and content to effect such a distribution, together with a notice of the restrictions limiting further development of the Eastern Rail Yard Subarea A1.

Such notice of restrictions shall be filed by the owners of the respective sites in the Borough Office of the Register of the City of New York, indexed against the Eastern Rail Yard Subarea A1 and the receiving site, a certified copy of which shall be submitted to the Chairperson of the Commission. Receipt of certified copies thereof shall be a pre-condition to issuance of any building permit for any #development# or #enlargement# utilizing #floor area# distributed pursuant to this Section, including foundations with respect thereto, on the receiving site. Nothing herein shall limit the ability of the Commissioner of Buildings to issue a permit for the construction of a #development# or #enlargement# which does not utilize such distributed #floor area#.

93-35 - Special Permit for Transit Bonus in Pennsylvania Station Subarea B4

LAST AMENDED
1/19/2005

In the Pennsylvania Station Subarea B4, for #developments# or #enlargements# that significantly enhance the pedestrian environment and provide improvements to access to public transit facilities, the City Planning Commission may permit a commensurate #floor area# increase for #commercial# #use# above a #floor area ratio# of 10.0 to a maximum #floor area ratio# of 19.5.

(a) The following conditions shall apply:

(1) the applicant shall submit a plan acceptable to the Commission identifying that portion of the #development# or #enlargement# utilizing such increased #floor area#;

(2) all transit facility improvements shall comply with applicable design standards or the current guidelines of the Metropolitan Transit Authority, New Jersey Transit, or Amtrak, as applicable;

(3) the applicant shall submit schematic or concept plans for all proposed improvements to the applicable transportation agency and the Commission, and any further documentation deemed necessary by the reviewing agencies;

(4) the Commission shall receive a letter from the applicable transportation agency stating the drawings and other documents submitted by the applicant have been determined to be of sufficient scope and detail to fix and describe the size and character of the transit improvement as to architectural, structural, mechanical and electrical systems; materials; relationship to existing site conditions; and other such elements as may be appropriate; and

(5) the owner shall sign a legally enforceable instrument in a form acceptable to the reviewing agencies containing complete drawings of the improvement and setting forth the obligations of owner and developer, their successors and assigns, to construct and maintain all parts of the improvement, whether on-site or off, pursuant to an agreed-upon construction schedule. Such instrument shall be recorded against the #zoning lot# in the Office of the Register of the City of New York for New York County and a certified copy of the instrument shall be submitted to the Chairperson of the Commission and the applicable transportation agencies.

The owner shall not apply for or accept a temporary certificate of occupancy for that

portion of the #development# or #enlargement# identified as utilizing the increased #floor area# permitted pursuant to this Section, and the Department of Buildings shall not issue a temporary certificate of occupancy for such portion, until the applicable transportation agencies have certified that the transit facility improvement is substantially complete and usable by the public. The owner shall not apply for or accept a permanent certificate of occupancy for such portion of the #development# or #enlargement#, nor shall the Department of Buildings issue a permanent certificate of occupancy for such portion until the transit improvement has been finally completed in accordance with the approved plans and such final completion has been certified by the applicable transportation agencies.

(b) In order to grant such special permit, the Commission shall find that:

(1) the transit improvements significantly enhance the surface and subsurface pedestrian circulation network into and around the #development# or #enlargement# and to and from public transit facilities;

(2) the streetscape, the site design and the location of #building# entrances for the #development# or #enlargement# contribute to the overall improvement of pedestrian circulation within the #Special Hudson Yards District# and minimize congestion on surrounding streets; and

(3) the increased #floor area# will not unduly increase the #bulk# of the #development# or #enlargement#, density of population or intensity of #use# to the detriment of the occupants of #buildings# in the surrounding area.

In determining the amount of #floor area# bonus, the Commission shall consider the extent to which the transit improvements address each of the above findings.

The Commission may prescribe appropriate additional conditions and safeguards in order to enhance the character of the #development# or #enlargement# and to minimize adverse effects on the character of the surrounding area.

93-40 - HEIGHT AND SETBACK REGULATIONS

LAST AMENDED
1/19/2005

In the #Special Hudson Yards District#, height and setback regulations shall be as set forth in this Section, inclusive.

93-41 - Rooftop Regulations

LAST AMENDED
12/5/2024

(a) Subdistricts A, B, C, D, E and G

The provisions of Section 33-42 (Permitted Obstructions) shall apply to all #buildings# within Subdistricts A through E and G, except that dormers may penetrate a maximum base height in accordance with the provisions of paragraph (b)(1) of Section 23-413 (Permitted obstructions in certain districts).

(b) Subdistrict F

In Subdistrict F, the provisions of paragraph (b) of Section 33-42 shall apply, except that for

towers above a height of 350 feet, in lieu of the provisions of 37-20 (SPECIAL SCREENING AND ENCLOSURE PROVISIONS), inclusive, the tower top articulation provisions set forth in Section 93-569 shall apply.

93-42 - Height and Setback in Subdistricts A, B, C, D, E, F and G

LAST AMENDED
2/2/2011

In Subareas D4 and D5 of the Hell's Kitchen Subdistrict D, the underlying height and setback regulations shall apply as set forth in Section 93-542, as modified by Section 93-41 (Rooftop Regulations).

In Subdistricts A, B and C, Subareas D1, D2 and D3 of the Hell's Kitchen Subdistrict D, and Subdistrict E, the underlying height and setback regulations shall not apply. In lieu thereof, the provisions of Section 93-41 and paragraphs (a) through (d) of this Section shall apply. These regulations are further modified in certain locations as set forth in Section 93-50 (SPECIAL HEIGHT,SETBACK AND YARD REGULATIONS). The height of all #buildings or other structures# shall be measured from #curb level#.

In Subdistrict F, the underlying height and setback regulations shall not apply. In lieu thereof, the provisions of Section 93-41 and Section 93-56 (Special Height and Setback Regulations in Subdistrict F) shall apply.

In Subdistrict G, the underlying height and setback regulations and paragraphs (b) through (d) of this Section shall not apply. In lieu thereof, Section 93-57 (Special Height and Setback Regulations in Subdistrict G) shall apply.

(a) Maximum base heights

The maximum height of a #building or other structure# before setback shall be 150 feet along a #wide street# and along a #narrow street# within 100 feet of its intersection with a #wide street#, and 90 feet along a #narrow street# beyond 100 feet of its intersection with a #wide street#. For #corner lots# with #wide street# frontage and more than 100 feet of #narrow street# frontage, the maximum #building# height before setback along the #narrow street# may, as an alternative, be the weighted average of 150 feet for the first 100 feet from the corner, and 90 feet for the remainder of the #narrow street# frontage. Such allowable maximum heights before required setbacks are hereinafter referred to as "maximum base heights."

(b) Required setbacks

For #buildings# that contain only #residential use# above the applicable maximum base height, the required minimum setback for portions of such #buildings# that exceed such maximum base height shall be 10 feet from a #wide street# and 15 feet from a #narrow street#.

For #buildings or other structures# that contain #commercial# or #community facility use# above the applicable maximum base height, the required minimum setback for portions of #buildings or other structures# that exceed such maximum base height shall be 15 feet from a #wide street# and 20 feet from a #narrow street#.

(c) Tower #lot coverage#

The portion of any #building# or #buildings# located above a height of 150 feet are hereinafter referred to as "towers."

(1) Towers containing #residences# shall occupy, in the aggregate, a minimum of 30 percent of the #lot area# of the #zoning lot#, except that this requirement shall not

apply to the highest 40 feet of such tower or towers. Furthermore, towers containing #residences# shall occupy not more than 40 percent of the #lot area# of the #zoning lot# or, for #zoning lots# less than 20,000 square feet, the percentage set forth in the following table:

LOT COVERAGE OF TOWERS ON SMALL ZONING LOTS

Area of #Zoning Lot# (in square feet)	Maximum Percentage of #Lot Coverage#
10,500 or less	50
10,501 to 11,500	49
11,501 to 12,500	48
12,501 to 13,500	47
13,501 to 14,500	46
14,501 to 15,500	45
15,501 to 16,500	44
16,501 to 17,500	43

17,501 to 18,500	42
18,501 to 19,999	41

(2) Towers that contain only #commercial# or #community facility use#, or a combination thereof, shall occupy not more than 60 percent of the #lot area# of the #zoning lot# or, for #zoning lots# less than 30,000 square feet, the percentage set forth in the following table:

LOT COVERAGE OF TOWERS ON SMALL ZONING LOTS

Area of #Zoning Lot# (in square feet)	Maximum Percentage of #Lot Coverage#
20,500 or less	70
20,501 to 21,500	69
21,501 to 22,500	68
22,501 to 23,500	67
23,501 to 24,500	66

24,501 to 25,500	65
25,501 to 26,500	64
26,501 to 27,500	63
27,501 to 28,500	62
28,501 to 29,999	61

(d) Length of #building# wall

The maximum length of any #story# located above a height of 500 feet shall not exceed 250 feet. Such length shall be measured by inscribing within a rectangle the outermost walls at the level of each #story# entirely above a height of 500 feet. No side of such rectangle shall exceed a width of 250 feet.

93-43 - Height of Street Walls and Maximum Building Height Within Subdistrict H

LAST AMENDED
8/14/2025

(a) Height of #street walls#

The #street wall# location provisions of paragraph (a) of Section 35-631 shall apply to all #street frontages#, except that the #street wall# shall extend to a minimum base height of 80 feet and a maximum base height of 90 feet before setback. However, if the height of an adjacent #street wall# fronting on the same #street line# is higher than 90 feet before setback, the #street wall# of the new or #enlarged# #building# may rise without setback to the height of such adjacent #street wall#, up to a maximum height of 120 feet.

For #zoning lots#, or portions thereof, with #street# frontage of 25 feet or less and existing on June 29, 2010, a minimum base height lower than 80 feet shall be permitted along such #street# frontage in accordance with the following provisions:

(1) where the height of an adjacent #street wall# fronting on the same #street line# is at least 60 feet and less than 80 feet, the #street wall# of the new or #enlarged# #building# may rise without setback to the height of such adjacent #street wall#; or

(2) where the height of an adjacent #street wall# fronting on the same #street line# is less than 60 feet, the #street wall# of the new or #enlarged# #building# may rise without setback to a minimum #street wall# height of 60 feet.

The #street wall# of any #building# may rise to a height less than the minimum base height required pursuant to this paragraph (a), provided that no #building# on the #zoning lot# exceeds such height, except where such #building# is located on a #zoning lot# with multiple #buildings#, one or more of which is #developed#, #enlarged# or altered after February 2, 2011, to a height exceeding the minimum base height required pursuant to

this paragraph (a).

(b) Maximum #building# height

Above a height of 90 feet or the height of the adjacent #street wall# if higher than 90 feet, no portion of a #building or other structure# shall penetrate a #sky exposure plane# that begins at a height of 90 feet above the #street line#, or the height of the adjacent #street wall# if higher than 90 feet, and rises over the #zoning lot# at a slope of four feet of vertical distance for each foot of horizontal distance to a maximum height limit of 250 feet, except as provided below:

(1) any portion of the #building or other structure# #developed# or #enlarged# pursuant to the tower regulations of Section 33-45 (Tower Regulations) or paragraph (d) of Section 35-632 (Maximum height of buildings and setback regulations), as applicable, may penetrate the #sky exposure plane#, provided no portion of such #building or other structure# exceeds the height limit of 250 feet; and

(2) permitted obstructions, as listed in Section 33-42, may penetrate the #sky exposure plane# and the height limit of 250 feet. In addition, a dormer shall be allowed as a permitted obstruction pursuant to paragraph (b) of Section 23-413 (Permitted obstructions in certain districts).

On a #zoning lot# with frontage of at least 200 feet along at least one #street#, up to 20 percent of the #aggregate width of the street wall# facing such #street#, for a maximum width of 50 feet, may be recessed to a maximum depth of 15 feet from the #street line#, provided the recessed area is located a minimum of 20 feet from an adjacent #building# and that a minimum of 60 percent of such area is planted with any combination of grass, ground cover, shrubs, trees or other living plant material in the ground or in planters permanently affixed to the ground.

93-50 - SPECIAL HEIGHT, SETBACK AND YARD REGULATIONS

LAST AMENDED
6/29/2010

In Subdistricts A, B and C, and Subareas D1, D2 and D3 of the Hell's Kitchen Subdistrict D, and Subdistrict E, the height and setback regulations set forth in paragraphs (a) through (d) of Section 93-42 (Height and Setback in Subdistricts A, B, C, D, E, F and G) shall apply, except that such regulations are modified in certain locations as set forth in this Section. Such modifications include the establishment of #street wall# location regulations, and minimum and maximum base heights, as shown on Map 3 (Mandatory Street Wall Requirements) of Appendix A of this Chapter. Such modifications also include depths of required setbacks, maximum length of #building# walls for towers, and tower #lot coverage#. Special provisions for recesses and sidewalk widenings are as follows:

(a) Recesses

Where #street walls# are required to be located on #street lines# or sidewalk widening lines, ground floor recesses up to three feet deep shall be permitted for access to #building# entrances, and deeper recesses shall be permitted only where necessary to comply with the pedestrian circulation space provisions of Section 93-63. Above a height of 60 feet for #buildings# fronting upon 34th Street in Subdistrict C or above a height of 50 feet for #buildings# fronting upon Tenth Avenue in Subdistricts C and D, and up to any specified minimum base height, recesses are permitted provided that the aggregate length of such recesses does not exceed 30 percent of the length of the required #street wall# at any level, and the depth of such recesses does not exceed five feet. No limitations on recesses shall apply above any specified minimum base height or to any portion of a #zoning lot# where #street walls# are not required.

Where #street walls# are required to extend along the entire #street# frontage of a #zoning

lot#, no recesses shall be permitted within 20 feet of an adjacent #building#, or within 30 feet of the intersection of two #street lines#, except where corner articulation rules apply.

(b) Sidewalk Widenings

Where a #street wall# is required to extend along the entire #street# frontage of a #zoning lot#, and such #street# is intersected by a #street# with a mandatory sidewalk widening, no #street wall# shall be required within such sidewalk widening. Where corner articulation rules apply, the inner boundary of any required sidewalk widening may be considered to be the #street line#. The mandatory #street wall# requirements are illustrated on Map 3 in Appendix A of this Chapter. Where sidewalk widening lines are specified, such lines shall be parallel to and five or 10 feet from the #street line#, as required pursuant to Section 93-61 and illustrated on Map 4 (Mandatory Sidewalk Widenings) in Appendix A.

In Subdistrict F, the provisions of Section 93-41 (Rooftop Regulations) and Section 93-56 (Special Height and Setback Regulations in Subdistrict F) shall apply.

In Subdistrict G, the provisions of Sections 93-57 (Special Height and Setback Regulations in Subdistrict G) and 93-58 (Special Permit for Modification of Height and Setback Regulations) shall apply.

93-51 - Special Height and Setback Regulations in the Large-Scale Plan Subdistrict A

LAST AMENDED
2/2/2011

93-511 - Tower lot coverage

LAST AMENDED2/2/2011

The tower #lot coverage# requirements of paragraph (c) of Section 93-42 shall not apply within the Large-Scale Plan Subdistrict A.

93-512 - Subareas A3, A4 and A5 of the Large-Scale Plan Subdistrict A

LAST AMENDED
2/2/2011

(a) Hudson Boulevard

For the purposes of this paragraph (a), Hudson Boulevard shall be considered to be a #wide street#. The #street wall# of #buildings# shall be located on the Hudson Boulevard sidewalk widening line and extend along at least 70 percent of the length of the Hudson Boulevard frontage of the #zoning lot#, and shall rise without setback to a minimum base height of 90 feet and a maximum base height of 120 feet. On #corner lots#, the maximum base height may apply along intersecting #narrow# #street lines# for a distance of 100 feet from its intersection with Hudson Boulevard. Above a height of 120 feet, a setback at least 25 feet in depth is required from the Hudson Boulevard #street line#, and setbacks from intersecting #narrow streets# shall comply with the provisions of paragraph (b) of Section 93-42 (Height and Setback in Subdistricts A, B, C, D, E and F).

Alternatively, for #zoning lots# that occupy the entire Hudson Boulevard #block# front, the Hudson Boulevard #street wall# may rise above a height of 120 feet without setback at the Hudson Boulevard sidewalk widening line, provided that:

(1) the aggregate width of such #street wall# facing Hudson Boulevard does not exceed 100 feet;

(2) all other portions of the #building# that exceed a height of 120 feet are set back at least 25 feet from the Hudson Boulevard #street line# at a height not lower than 90 feet; and

(3) all portions of the #building# that exceed a height of 120 feet are set back from a #narrow street# in compliance with the provisions of paragraph (b) of Section 93-42.

(b) Tenth Avenue

The #street wall# of #buildings# shall be located within 10 feet of the Tenth Avenue #street line# and extend along at least 70 percent of the Tenth Avenue frontage of the #zoning lot#, and shall rise without setback to a minimum base height of 90 feet and a maximum base height of 150 feet. On #corner lots#, the maximum base height may apply along intersecting #narrow street lines# for a distance of 100 feet from its intersection with Tenth Avenue. Above a height of 150 feet, the setback provisions of paragraph (b) of Section 93-42 shall apply.

Alternatively, for #zoning lots# that occupy the entire Tenth Avenue #block# front and where no portion of the #building# is within 10 feet of the Tenth Avenue #street line#, the Tenth Avenue #street wall# may rise above a height of 150 feet without setback, provided:

(1) the aggregate width of such #street wall# does not exceed 100 feet;

(2) all other portions of the #building# that exceed a height of 150 feet are set back at least 10 feet from the Tenth Avenue #street wall# of the #building# at a height not lower than 90 feet; and

(3) all portions of the #building# that exceed a height of 150 feet are set back from a #narrow street# in compliance with the provisions of paragraph (b) of Section 93-42.

(c) Midblocks

For all #zoning lots# with frontage along the northerly #street lines# of West 35th through West 40th Streets, the #street wall# of any #building# shall be located on and extend along at least 50 percent of the length of the sidewalk widening line of the #zoning lot# and shall rise without setback to a minimum base height of 60 feet and a maximum base height of 120 feet. Above a height of 120 feet, the setback provisions of paragraph (b) of Section 93-42 shall apply. Alternatively, the #street wall# of a #building# may rise without setback at the sidewalk widening line provided the aggregate width of such #street wall# does not exceed 100 feet or 50 percent of the width of such northerly #street line# frontage of the #zoning lot#, whichever is less, and provided all other portions of the #building# that exceed a height of 120 feet comply with the setback provisions of Section 93-42. The provisions of this paragraph shall not apply within 100 feet of Eleventh Avenue. However, any #zoning lot# partially within 100 feet of Eleventh Avenue may, as an alternative, apply the provisions of this paragraph (c) to the entire West 35th, West 36th, West 37th, West 38th, West 39th or West 40th Street #street# frontage of the #zoning lot#.

For all #zoning lots# with frontage along the southerly #street lines# of West 36th through West 41st Streets, the #street wall# of any #building# shall not exceed a maximum base height of 120 feet. Above a height of 120 feet, the setback provisions of paragraph (b) of Section 93-42 shall apply.

(d) Rear setback

No #yard# requirements shall apply to any #commercial building# or commercial portion of a #building#. However, above a height of 120 feet, no portion of such #building# shall be nearer to a #rear lot line# than 20 feet.

93-513 - Four Corners Subarea A2

LAST AMENDED
2/2/2011

(a) Hudson Boulevard

The provisions of paragraph (a) of Section 93-512 (Subareas A3, A4 and A5 of the Large-Scale Plan Subdistrict A) shall apply, except that the maximum base height shall be 150 feet.

(b) West 34th Street

The #street wall# of any #building# shall be located on the West 34th Street sidewalk widening line and extend along at least 70 percent of the West 34th Street frontage of the #zoning lot#, and shall rise without setback to a minimum base height of 90 feet and a maximum base height of 150 feet. For portions of #buildings# exceeding a height of 150 feet, a setback of 20 feet from the #street line# of West 34th Street shall be required. However, a #street wall# may rise without setback along the sidewalk widening line provided the

aggregate width of such #street wall# does not exceed 50 percent of the width of the West 34th Street frontage of the #zoning lot# and provided all other portions of the #building# that exceed a height of 150 feet are set back at least 20 feet from the #street line# of West 34th Street.

(c) Tenth Avenue

The regulations set forth in paragraph (b) of Section 93-512 shall apply.

(d) Rear setback

The provisions of paragraph (d) of Section 93-512 shall apply.

93-514 - Eastern Rail Yard Subarea A1

LAST AMENDED
6/6/2024

(a) Location of #buildings#

#Buildings# shall be located only in the following areas:

(1) east of the southerly prolongaton of the eastern sidewalk widening line of Hudson Boulevard East;

(2) west of the southerly prolongation of the western sidewalk widening line of Hudson Boulevard West and within 220 feet of West 33rd Street;

(3) west of the southerly prolongation of the eastern sidewalk widening line of Hudson Boulevard East and within 220 feet of West 30th Street, provided that either:

(i) such area contains only #uses# listed under Use Group III; or

(ii) where such area includes #residential use#, such #residential use# shall be located only in a #building#, or portion of a #building#, located west of the southerly prolongation of the western sidewalk widening line of Hudson Boulevard West, and such #building# may also include #uses# listed under Use Group III. In addition, #uses# listed under Use Group III may be located in a #building# separate from any #building# containing #residential use#, provided that any such separate #building# may not be located closer than 50 feet east of the southerly prolongation of the western sidewalk widening line of Hudson Boulevard West.

(4) for any #building# located at or above the elevation of the #High Line bed# which faces the #ERY High Line#, the #street wall# shall not be located closer than five feet to the edge of the #ERY High Line# and such five foot separation shall remain unobstructed, from the level of the #High Line bed# adjacent to such #building# to the sky. Notwithstanding the foregoing, for any #building# located partly within 335 feet of the Tenth Avenue #street line#, any portion thereof of up to 280 feet in width, as measured parallel to West 30th Street, may be located above the #High Line bed# at a height of 60 feet or more measured from the #High Line bed#, provided such portion has a maximum width of 200 feet along the West 30th Street #street line# and a maximum average width of 240 feet. Structural columns and related architectural features placed within the maximum width of 200 feet along the West 30th Street #street line# supporting such portion of the #building# may be located within five feet of the southern edge of the #ERY High Line#, and such columns and related

architectural features shall, when viewed in elevation along West 30th Street, occupy no more than 50 percent of the measured area of such elevation located within the maximum width of 200 feet along the West 30th Street #street line#, from the mean level of the adjoining public sidewalk to a height of 60 feet above the level of the #High Line bed#. A maximum of 30 percent of such measured area may be constructed of opaque materials. Additionally, such columns and related architectural features shall, when viewed in elevation along West 30th Street, occupy no more than 45 percent of the measured area of such elevation located within the maximum width of 200 feet along the West 30th Street #street line#, from the level of the #High Line bed# to a height of 25 feet above the level of the #High Line bed#.

(b) Height and setback

No setbacks shall be required for any #building# wall facing Eleventh Avenue, West 30th Street or West 33rd Street. Along Tenth Avenue, a #street wall# with a minimum height of 60 feet is required to extend along at least 70 percent of the Tenth Avenue frontage of the #zoning lot# not occupied by the public plaza required pursuant to Section 93-71. Such #street wall# shall align with any existing #street wall# facing Tenth Avenue. Existing #street walls# shall be treated in a manner that provides for visual articulation.

(c) Length of #building# walls

The provisions of paragraph (d) of Section 93-42 limiting the length of #building# walls above a height of 500 feet shall not apply.

93-52 - Special Height and Setback Regulations in the Farley Corridor Subdistrict B

LAST AMENDED
2/2/2011

The tower #lot coverage# requirements of paragraph (c) of Section 93-42 shall not apply within the Farley Corridor Subdistrict B.

93-521 - 450 West 33rd Street

LAST AMENDED
2/2/2011

The provisions of this Section shall apply within an area bounded by Tenth Ave, West 31st Street, the Lincoln Tunnel Approach and West 33rd Street.

No #building# shall exceed a height of 150 feet within 10 feet of West 33rd Street, 15 feet of Tenth Avenue and 20 feet of West 31st Street, except as provided below:

(a) along West 31st Street, a #building# may rise without setback provided no part of such #building# is within 15 feet of West 31st Street; and

(b) along West 33rd Street, a #building# may rise without setback, provided that the #aggregate width of street walls# above a height of 150 feet and within 10 feet of the West 33rd Street #street line# does not exceed 50 percent of the length of the West 33rd Street frontage of the #zoning lot#.

However, if more than 75 percent of the total #floor area# existing on the #zoning lot# on January 19, 2005, is demolished, the reconstructed #buildings# shall not exceed a height of 150 feet within 15 feet of a #wide street line# and 20 feet of a #narrow street line#.

93-522 - Ninth Avenue Rail Yard

LAST AMENDED
4/29/2014

The provisions of this Section shall apply within the area bounded by Ninth Ave, West 31st Street, the Lincoln Tunnel Approach and West 33rd Street.

No #building or other structure# shall exceed a height of 150 feet within 15 feet of a #wide street line# and 20 feet of a #narrow street line#. However, on a #narrow street#, a #building# may rise without setback provided no part of such #building# is within 15 feet of the #narrow street line#.

No #rear yard# or #rear yard equivalent# regulations shall apply to any #building# #developed# or #enlarged# pursuant to this Section. Furthermore, the provisions of this Section may be waived or modified in conjunction with the granting of a special permit pursuant to Section 74-41 (Arenas, Auditoriums, Stadiums or Trade Expositions) for the #development# of an arena in the area bounded by Ninth Avenue, West 31st Street, Dyer Avenue and West 33rd Street.

93-523 - Pennsylvania Station Subarea B4

LAST AMENDED
2/2/2011

Along Eighth Avenue, #street walls# shall be provided as follows:

(a) A #street wall# shall be provided for the mandatory public space required pursuant to paragraph (a) of Section 93-74. Such #street wall# shall extend for at least 100 feet along the Eighth Avenue sidewalk widening line and rise without setback to a minimum height of 60

feet. No portion of such #street wall# shall exceed a height of 150 feet within 15 feet of the Eighth Avenue #street line#. However, such #street wall# may encroach upon the mandatory sidewalk widening provided the height of such #street wall# within the sidewalk widening does not exceed 90 feet.

(b) In addition to the #street wall# required pursuant to paragraph (a) of this Section, #street walls# shall be provided along at least 35 percent of the Eighth Avenue frontage of the #zoning lot#. Such #street walls# shall be located within 10 feet of the Eighth Avenue #street line# and rise without setback to a minimum height of 90 feet and a maximum height of 150 feet, except that no setbacks shall be required where such #street walls# are located 10 feet from the Eighth Avenue #street line#.

(c) No #street walls# shall be located further than 10 feet from the Eighth Avenue #street line# unless they front upon a public plaza provided pursuant to paragraph (c) of Section 93-74. Along West 31st and West 33rd Streets, any portion of a #street wall# that exceeds a height of 150 feet shall be set back at least 15 feet from the West 31st and West 33rd Street #street lines#, as applicable. As an alternative, if the entire #building# is set back at least 10 feet from the West 31st or West 33rd Street #street line#, such #building# may rise without setback along such #street#.

93-53 - Special Height and Setback Regulations in the 34

LAST AMENDED
2/2/2011

(a) 34th Street

For #zoning lots# with frontage on 34th Street, the #street wall# of a #building# shall be located on and extend along the entire West 34th Street #street line#, except that to allow for corner articulation, the #street wall# may be located anywhere within an area bounded by intersecting #street lines# and lines 15 feet from and parallel to such #street lines#. Such #street walls# shall rise without setback to a minimum base height of 120 feet and a maximum base height of 150 feet. For #corner lots#, these provisions shall also apply along any intersecting #street line# for a minimum distance of 50 feet and a maximum distance of 100 feet from its intersection with West 34th Street. Above a height of 150 feet, the setback provisions of paragraph (b) of Section 93-42 shall apply.

(b) Tenth Avenue

For #zoning lots# with frontage on Tenth Avenue, the provisions of paragraph (a) of Section 93-541 shall apply.

(c) Midblocks between Eighth Avenue and Ninth Avenue

For #zoning lots# with frontage on West 33rd Street or West 35th Street beyond 100 feet of Eighth Avenue and Ninth Avenue, the #street wall# of any #building# shall be located on and extend along the entire West 33rd Street or West 35th Street frontage of the #zoning lot# not occupied by existing #buildings# to remain. Such #street wall# shall rise without setback to a minimum base height of 80 feet and a maximum base height of 90 feet. However, if the height of an adjacent #street wall# fronting on the same #street line# is higher than 90 feet before setback, the #street wall# of the new or #enlarged building# may rise without setback to the height of such adjacent #street wall#, up to a maximum height of 120 feet. Above a height of 90 feet or the height of the adjacent #street wall# if higher than 90 feet, the setback provisions

of paragraph (b) of Section 93-42 shall apply. The #street wall# of any #building# may rise to a height less than 80 feet, except where such #building# is located on a #zoning lot# with multiple #buildings#, one or more of which is #developed#, #enlarged# or altered after February 2, 2011, to a height exceeding 80 feet.

93-54 - Special Height and Setback Regulations in Hell's Kitchen Subdistrict D

LAST AMENDED
1/19/2005

93-541 - Height and setback in Subareas D1 and D2

LAST AMENDED
2/2/2011

(a) Tenth Avenue

(1) For #zoning lots# that do not occupy the entire Tenth Avenue #block# front, and for #zoning lots# that occupy the entire Tenth Avenue #block# front where existing #buildings# containing #residences# will remain, the #street wall# of any #development# or #enlargement# shall be located on and extend along the entire Tenth Avenue #street line#, except that to allow for corner articulation, the #street wall# may be located anywhere within an area bounded by intersecting #street lines# and lines 15 feet from and parallel to such lines. Such #street wall# shall rise without setback to a minimum base height of 90 feet and a maximum base height of 150 feet,

except that such minimum base height requirement shall not apply to any existing #buildings# containing #residences# to remain. Where such #zoning lots# also front upon a #narrow street#, these provisions shall apply along such #narrow street# frontage for a minimum distance of 50 feet and a maximum distance of 100 feet from the intersection of Tenth Avenue. Above a height of 150 feet, the setback provisions of paragraph (b) of Section 93-42 shall apply.

(2) For #zoning lots# that occupy the entire Tenth Avenue #block# front, and where no existing #buildings# fronting upon Tenth Avenue will remain, the #street wall# shall be located within 10 feet of the Tenth Avenue #street line# and extend along the entire Tenth Avenue frontage of the #zoning lot# and shall rise without setback to a minimum base height of 90 feet and a maximum base height of 150 feet. These provisions shall apply for a minimum distance of 50 feet and a maximum distance of 100 feet from the intersection of Tenth Avenue.

Above a height of 150 feet, the setback provisions of paragraph (b) of Section 93-42 shall apply. Alternatively, the Tenth Avenue #street wall# may rise above 150 feet without setback, provided that:

(i) the aggregate width of such #street wall# does not exceed 100 feet;

(ii) all other portions of the #building# that exceed a height of 150 feet are set back at least 10 feet from the Tenth Avenue #street wall# of the #building# at a height not lower than 90 feet;

(iii) all portions of the #building# that exceed a height of 150 feet are set back from a #narrow street# in compliance with the provisions of paragraph (b) of Section 93-42; and

(iv) all portions of the Tenth Avenue #street wall# that do not exceed a height of 90 feet are located 10 feet from the Tenth Avenue #street line#, except that recesses may be provided in accordance with the recess provisions of paragraph (a) of Section 93-50. Above a height of 90 feet, up to a height of 150 feet, any #street wall# facing Tenth Avenue shall be located no closer to Tenth Avenue than 10 feet.

(b) Hudson Boulevard

The regulations set forth in paragraph (a) of Section 93-512 (Subareas A3, A4 and A5 of the Large-Scale Plan Subdistrict A) shall apply, except that wherever a setback from the Hudson Boulevard #street line# is required to be at least 25 feet deep, such setback depth may be reduced to 15 feet.

(c) Midblocks between Tenth Avenue and Hudson Boulevard

The regulations set forth in paragraph (c) of Section 93-512 shall apply.

(d) Length of #building# wall

The maximum length of any #story# located above a height of 150 feet that faces north or south shall not exceed 100 feet. Such length shall be measured by inscribing within a rectangle the outermost walls at the level of each #story# entirely above a height of 150 feet. Any side of such rectangle from which perpendicular lines may be drawn to the nearest #narrow# #street line# shall not exceed 100 feet.

(e) Tower #lot coverage#

Where more than one tower on a #zoning lot# contains #residences#, the minimum #lot area# requirement of paragraph (c)(1) of Section 93-42 shall not apply to the highest 80 feet of at least half of the number of such towers.

93-542 - Height and setback in Subareas D4 and D5

LAST AMENDED
12/5/2024

In Subareas D4 and D5 of Hell's Kitchen Subdistrict D, the underlying height and setback regulations shall apply, except that:

(a) the rooftop regulations set forth in Section 93-41 shall apply;

(b) within the C2-5 District of Subarea D4, #commercial# #uses# shall be limited to two #stories# or a height of 30 feet, whichever is less; and

(c) within the C1-7A District of Subarea D5, recesses in the #street wall# of any #building# facing Ninth Avenue shall not be permitted within 20 feet of an adjacent #building# or within 30 feet of the intersection of two #street lines#, except as provided for permitted corner articulation.

93-543 - Authorization for the provision of public open areas

LAST AMENDED
2/2/2011

For #zoning lots# that are wholly or partially within Hell's Kitchen Subdistrict D and provide publicly accessible open areas adjacent to or over the Lincoln Tunnel Approaches or Dyer Avenue, the City Planning Commission may authorize height and setback modifications within C2-5 Districts mapped within R8A Districts and the distribution of #floor area# without regard to district boundaries, provided the Commission finds that:

(a) such publicly accessible open area provides an appropriate amenity to the surrounding area;

(b) such publicly accessible open area has appropriate access, circulation, landscaping, seating, paving and lighting;

(c) modifications to the height and setback regulations of C2-5 Districts mapped within R8A Districts result in a #building# that does not exceed a height of 180 feet and is compatible with the scale and character of the surrounding area; and

(d) all necessary approvals have been granted by the Port Authority, or adequate provision has been made for the receipt of such approvals prior to the issuance of any building permit.

In granting such authorization, the Commission may prescribe additional conditions and safeguards to minimize adverse effects on the character of the surrounding area.

Publicly accessible open areas authorized by this Section shall be accessible to the public at all times, except where the Commission has authorized a nighttime closing pursuant to Section 37-727 (Hours of access). Furthermore, such open areas shall comply with the requirements for #public plazas# set forth in Sections 37-744 (Litter receptacles), 37-75 (Signs), 37-77 (Maintenance) and paragraph (a) of Section 37-78 (Compliance).

All plans for publicly accessible open areas, once authorized, shall be filed and duly recorded in the Borough Office of the City Register of the City of New York, indexed against the property in the

form of a legal instrument providing notice of the certification of the publicly accessible open areas and setting further such provisions as necessary to ensure compliance with the requirements of this Section. Such filing and recording of the instrument, together with the grant of all necessary approvals by the Port Authority, shall be a precondition for the filing for or issuance of any building permit for any #development# or #enlargement# on the #zoning lot#. The recording information shall be included on the certificate of occupancy for any #building#, or portion thereof, on the #zoning lot# issued after the recording date.

No temporary certificate of occupancy from the Department of Buildings may be issued for any portion of any #development# or #enlargement# subject to the provisions of this Section until the Chairperson of the Commission certifies to the Department of Buildings that the public access area is substantially complete and that the public access area is open to and useable by the public. No permanent certificate of occupancy from the Department of Buildings may be issued for any portion of such #development# or #enlargement# until the Chairperson of the Commission certifies to the Department of Buildings that the public access area is complete and that all public access requirements of this Section have been met in accordance with the plans for such public access area.

93-55 - Special Height and Setback Regulations in the South of Port Authority Subdistrict E

LAST AMENDED
12/5/2024

(a) #Zoning lots# with Eighth Avenue frontage

For #zoning lots# with frontage on Eighth Avenue, the #street wall# of a #building# shall be located on the Eighth Avenue sidewalk widening line and, where applicable, on the West 39th Street and West 40th Street #street lines#, and extend along the entire #street# frontage of the

#zoning lot#. Such #street walls# shall rise without setback to a minimum height of 90 feet and a maximum height of 120 feet. The #street wall# of any #building# may rise to a height less than 90 feet, provided that no #building# on the #zoning lot# exceeds such height except where such #building# is located on a #zoning lot# with multiple #buildings#, one or more of which is #developed#, #enlarged# or altered after February 2, 2011, to a height exceeding 90 feet.

Above a height of 120 feet, no portion of a #building or other structure# shall penetrate a #sky exposure plane# that begins at a height of 120 feet above the Eighth Avenue sidewalk widening line and #street lines# of West 39th Street and West 40th Street, as applicable, and rises over the #zoning lot# at a slope of four feet of vertical distance for each foot of horizontal distance, except as provided below:

(1) any portion of the #building or other structure# #developed# or #enlarged# pursuant to the tower regulations of Sections 33-45 or 35-642, as applicable, may penetrate the #sky exposure plane#;

(2) permitted obstructions, as listed in paragraph (a) of Section 93-41, may penetrate the #sky exposure plane#. In addition, a dormer, pursuant to the provisions of paragraph (b)(1) of Section 23-413 (Permitted obstructions in certain districts), may penetrate the #sky exposure plane#.

(b) #Zoning lots# without Eighth Avenue frontage

For #zoning lots# without frontage on Eighth Avenue, the #street wall# of a #building# shall be located on the #street line# and extend along the entire #street# frontage of the #zoning lot# not occupied by existing #buildings# to remain. Such #street walls# shall rise without setback to a minimum base height of 80 feet and a maximum base height of 90 feet. However, if the height of an adjacent #street wall# fronting on the same #street line# is higher than 90 feet before setback, the #street wall# of the new or #enlarged# #building# may rise without setback

to the height of such adjacent #street wall#, up to a maximum height of 120 feet. Above a height of 90 feet or the height of the adjacent #street wall# if higher than 90 feet, the setback provisions of paragraph (b) of Section 93-42 shall apply. The #street wall# of any #building# may rise to a height less than 80 feet, provided that no #building# on the #zoning lot# exceeds such height except where such #building# is located on a #zoning lot# with multiple #buildings#, one or more of which is #developed#, #enlarged# or altered after February 2, 2011, to a height exceeding 80 feet.

93-56 - Special Height and Setback Regulations in Subdistrict F

LAST AMENDED
4/29/2014

The height and setback regulations set forth in this Section, inclusive, shall apply to specific development sites identified as Sites 1 through 6 on Map 2 (Subdistrict F: Site Plan) in Appendix B. All #buildings or other structures# #developed# or #enlarged# within Subdistrict F, with the exception of those approved as part of a public access area pursuant to Section 93-78 (Site and Landscape Plans for Public Access Areas in Subdistrict F), shall occur within these designated site locations. However, portions of a #building# located entirely below grade, and exempt from the definition of #floor area#, shall be permitted to extend beyond such designated site locations. Furthermore, the boundary of Site 6 may be extended in a westerly direction, by up to 40 feet, to accommodate a public #school# in accordance with the provisions of paragraph (b) of Section 93-568 (Site 6).

Map 4 (Mandatory Sidewalk Widenings) in Appendix A identifies the location of a sidewalk widening required along Eleventh Avenue that is referenced in this Section, inclusive. Regulations governing the design of this sidewalk widening are set forth in Section 93-61.

Public access areas in Subdistrict F shall be comprised of publicly accessible open spaces, private streets and pedestrian ways. Map 3 (Subdistrict F: Public Access Area Plan) in Appendix B identifies the location of publicly accessible open spaces, private streets and pedestrian ways that are referenced in this Section.

Publicly accessible open spaces are comprised of the Western Open Space, the Central Open Space, the Southwest Open Space, the Northeast Plaza, the Midblock Connection and the #High Line#. General rules governing such publicly accessible open spaces are set forth in Section 93-75 (Publicly Accessible Open Spaces in Subdistrict F).

Publicly accessible private streets are comprised of the West 32nd Street Extension (including the Allee, as defined in paragraph (c)(2) of Section 93-761 and shown on Map 3 in Appendix B) and the West 31st Street Extension. Publicly accessible pedestrian ways are comprised of the West 30th Street Corridor, and the Connector. General rules governing such private streets and pedestrian ways are set forth in Section 93-76 (Publicly Accessible Private Streets and Pedestrian Ways in Subdistrict F).

For the purposes of applying height and setback regulations, the term "#buildings#" shall include #buildings or other structures#.

93-561 - General rules for Subdistrict F

LAST AMENDED
4/29/2014

The following regulations shall apply to all #buildings# within Sites 1 through 6:

(a) #Street wall# location

For the purposes of applying the height and setback regulations of this Section, inclusive,

wherever a #building# fronts upon any publicly accessible open space, private street or pedestrian way, as shown on Map 3 (Subdistrict F: Public Access Area Plan) in Appendix B, the boundary of such publicly accessible open spaces, private streets or pedestrian ways shall be considered to be a #street line#. Furthermore, for the purposes of applying such height and setback regulations, the sidewalk widening line required along Eleventh Avenue shall be considered the Eleventh Avenue #street line#.

Wherever a #building# on Sites 1, 5 or 6 faces the #High Line#, the #street wall# shall not be located closer than five feet to the edge of the #High Line#, as shown on Map 3. Such five foot separation shall remain unobstructed, from the level of finished grade adjacent to a #building#, to the sky, except as permitted:

(1) for that portion of a #building# on Site 5 located above a height of 50 feet as measured from the #High Line bed#, pursuant to Section 93-567 (Site 5);

(2) for that portion of a #building# on Site 6 located below the #High Line#, pursuant to Section 93-568 (Site 6); and

(3) pursuant to paragraph (d) of Section 93-756 (General requirements for the High Line).

(b) Measurement of #building# heights

(1) Measurement of #building# base and transition heights

For portions of a #building# that front upon a publicly accessible sidewalk, the maximum #building# base height and, where applicable, the maximum transition height of a #street wall#, shall be measured from the mean level of the public sidewalk that such #street wall# fronts upon. For portions of a #building# that front upon

publicly accessible open spaces in which no sidewalks are provided adjacent to a #street wall#, the maximum #building# base height or, where applicable, the maximum transition height of a #street wall#, shall be measured from the mean level of the final grade of the open space that such #street wall# fronts upon. However, the following #street wall# heights shall be measured from the #High Line bed#:

(i) on Site 6, the portion of a #street wall# above the #High Line bed# facing the #High Line# beyond 60 feet of Eleventh Avenue; and

(ii) on Site 6, along the Southwest Open Space within 60 feet of the #High Line#.

(2) Measurement of tower heights

The height of a tower shall be measured from the highest level of the public sidewalk or finished grade located nearest such tower, to the ceiling of the highest #story# of the tower where #floor area# occupies more than 75 percent of the gross area of such #story#. However, on Site 5, the height of the tower shall be measured from the #High Line bed#.

Where minimum height differences are required between towers, such heights, for each tower, shall be measured from the Manhattan Datum, which is 2.75 feet above sea level.

(c) Towers

Criteria for towers on Sites 1 through 6 are set forth in this Section, inclusive. The minimum distance between all such towers shall be 60 feet.

93-562 - Street wall regulations for certain streets

LAST AMENDED
4/29/2014

The locations of all #street walls# identified in this Section are shown on Map 5 (Subdistrict F: Mandatory Street Wall Requirements) in Appendix B.

(a) Applicability

The provisions of this Section shall apply to:

(1) All #street walls# of #buildings# on Site 1 that front along:

(i) the West 32nd Street Extension;

(ii) the Western Open Space within 60 feet of the West 32nd Street Extension; and

(iii) the Midblock Connection within 60 feet of the West 32nd Street Extension.

(2) All #street walls# of #buildings# on Site 2 that front along:

(i) Eleventh Avenue south of the Northeast Plaza;

(ii) the West 32nd Street Extension; and

(iii) the Midblock Connection within 60 feet of the West 32nd Street Extension.

(3) All #street walls# of a #building# on Site 4 that front along:

(i) Eleventh Avenue;

(ii) the West 32nd Street Extension within 50 feet of Eleventh Avenue; and

(iii) the West 31st Street Extension within 50 feet of Eleventh Avenue.

(4) All #street walls# of a #building# on Site 6 that front along:

(i) Eleventh Avenue five feet north of the #High Line#;

(ii) the West 31st Street Extension;

(iii) the #High Line#, completely above the #High Line bed#;

(iv) the Southwest Open Space within 60 feet of the #High Line#; and

(v) the Southwest Open Space within 60 feet of the West 31st Street Extension.

(b) #Street wall# location

All #street walls# identified in paragraph (a) of this Section shall be located on the #street line#.

All such #street walls# shall extend along the entire #street# frontage of the site or the required portion identified in paragraph (a). However, such #street wall# location rules may be modified in accordance with the recess provisions of paragraph (c) of this Section.

(c) Recesses

(1) Ground floor recesses up to three feet deep shall be permitted for access to #building# entrances;

(2) To allow for corner articulation, the required #street wall# may be located anywhere within an area bounded by intersecting #street lines# and lines 15 feet from and parallel to such lines;

(3) To ensure variation in the required #street wall#, a #building# shall provide recesses or ground floor level setbacks in accordance with the following provisions:

(i) A minimum of 20 percent of the #aggregate width of street walls# shall provide a minimum recess of three feet from the #street wall# above the level of the second #story#. However, for the portion of Site 6 that fronts along the #High Line#, such recess shall be provided above the level of the first #story#. However, no portion of such recess shall be located within 30 feet of the intersection of two #street lines#, except where corner articulation is provided in accordance with paragraph (c)(2) of this Section.

(ii) A maximum of 30 percent, or 50 percent for Site 4, of the #aggregate width of street walls# may provide a recess of up to 15 feet at any level, which may extend to the height of the #building# base and may allow for portions of towers to rise without setback from the ground floor level. However, no such setbacks shall be permitted within 30 feet of the intersection of two #street lines#, except where corner articulation is provided in accordance with paragraph (c)(2) of this Section.

93-563 - Site 1

LAST AMENDED
2/2/2011

In addition to the applicable requirements set forth in Section 93-562 (Street wall regulations for certain streets), the provisions of this Section shall apply to #buildings# on Site 1.

(a) #Building# base

(1) Facing West 33rd Street

The #street wall# of the #building# facing West 33rd Street may rise without setback to a maximum base height of 120 feet before a setback is required. However, no setbacks shall be required within 150 feet of Twelfth Avenue.

(2) Facing the West 32nd Street Extension

The provisions of this paragraph, (a)(2), shall apply to #street walls# facing the West 32nd Street Extension, the Western Open Space and the Midblock Connection within 60 feet of the West 32nd Street Extension. Such #street walls# shall rise without setback to a minimum base height of 60 feet and a maximum base height of 90 feet.

(3) Facing the Western Open Space

The provisions of this paragraph, (a)(3), shall apply to #street walls# facing the

Western Open Space beyond 60 feet of its intersection with the West 32nd Street Extension. The #street wall# of the #building# may rise without setback to a maximum base height of 90 feet before a setback is required. However, no setbacks shall be required within 150 feet of Twelfth Avenue.

(b) Transition height

All portions of a #building# that exceed the applicable maximum base height specified in paragraph (a) of this Section shall be set back in accordance with the provisions of this paragraph (b), except that where towers are provided directly above a portion of the transition height, such a portion of transition height located directly below a tower shall provide setbacks in accordance with the tower provisions of paragraph (c) of this Section.

Portions of a transition height facing West 33rd Street shall be set back from the West 33rd Street #street line# a minimum of 20 feet. Portions of a transition height facing the Western Open Space that exceed the maximum base height shall be set back from the #street wall# of a #building# facing the Western Open Space a minimum of 30 feet. However, in both cases, no such setback shall be required within 150 feet of Twelfth Avenue.

Above the maximum base height, a #street wall# may rise to a maximum transition height equal to one-half the height of the #street wall# of the #building# base facing the Western Open Space. Such a transition height shall not exceed a maximum height of 135 feet.

All portions of a #building# that exceed the maximum transition height shall comply with the tower provisions of paragraph (c) of this Section.

(c) Towers

All #stories# of a #building# located partially or wholly above the maximum transition height

shall be considered a “tower” and shall comply with the provisions of this paragraph (c).

(1) Required setbacks

All towers, or portions of a transition height located beneath a tower, shall be set back at least 15 feet from the #street line# of West 33rd Street and from the #street walls# of the #building# facing the West 32nd Street Extension, except that the depth of such setback distance may include the depth of any permitted recesses. However, no setbacks shall be required within 150 feet of Twelfth Avenue, along the Western Open Space or along the Midblock Connection to allow portions of towers that comply with the provisions of paragraphs (c)(2) and (c)(3) of this Section to rise without setback.

(2) Maximum floor plate

If more than one tower is provided on Site 1, the aggregate gross area of any such tower #stories#, measured at any height, shall not exceed 25,000 square feet.

(3) Maximum length and height

The outermost walls of all #stories# of a tower, when viewed from above, shall be inscribed within a rectangle where the east-west dimension shall not exceed a length of 110 feet and the north-south dimension shall not exceed a length of 160 feet. Where more than one tower is located on Site 1, each tower shall comply independently with such maximum dimensions.

If more than one tower is located on Site 1, the height of the easternmost tower shall be a minimum of 100 feet greater than the height of the westernmost tower.

All towers that exceed a height of 350 feet shall provide articulation in accordance with Section 93-569 (Tower top articulation).

93-564 - Site 2

LAST AMENDED
2/2/2011

In addition to the applicable requirements set forth in Section 93-562 (Street wall regulations for certain streets), the provisions of this Section shall apply to #buildings# on Site 2.

(a) #Building# base

(1) Facing Eleventh Avenue

The provisions of this paragraph (a)(1) shall apply to #street walls# facing Eleventh Avenue (exclusive of #street walls# facing the Northeast Plaza, which need not set back), and the West 32nd Street Extension within 60 feet of Eleventh Avenue. Such #street walls# shall rise without setback to a minimum height of 120 feet and a maximum height of 150 feet. Above a height of 150 feet, all portions of such #building# shall be set back from the #street wall# of the #building# at least 15 feet, except such setback distance may include the depth of any permitted recesses. These #building# base provisions may apply along the West 32nd Street Extension #street line# beyond 60 feet of Eleventh Avenue, up to a maximum distance of 100 feet from Eleventh Avenue.

(2) Facing the West 32nd Street Extension

The provisions of this paragraph (a)(2) shall apply to #street walls# facing the West 32nd Street Extension beyond 60 feet of Eleventh Avenue (or beyond 100 feet if the optional #building# base provisions of paragraph (a)(1) of this Section are applied along the West 32nd Street Extension), and the Midblock Connection within 60 feet of the West 32nd Street Extension. Such #street walls# shall rise without setback to a minimum height of 90 feet and a maximum height of 120 feet. Above a height of 120 feet, all portions of such #buildings# facing the West 32nd Street Extension shall be set back from the #street wall# of the #building# at least 15 feet, except such setback distance may include the depth of any permitted recesses. Portions of #street walls# along the Midblock Connection within 60 feet of the West 32nd Street Extension need not set back above the maximum base height to allow tower portions that comply with the provisions of paragraph (b) of this Section to rise without setback.

(3) Facing West 33rd Street

#Street walls# facing West 33rd Street (exclusive of the Northeast Plaza) may rise without setback to a maximum base height of 150 feet. Above a height of 150 feet, setbacks shall be required as follows:

(i) portions of a #building# facing West 33rd Street within 150 feet of the Eleventh Avenue #street line# shall provide a 15 foot setback from the #street line# of West 33rd Street;

(ii) portions of a #building# beyond 150 feet of Eleventh Avenue that do not exceed an #aggregate width of street wall# of 150 feet, as measured along the West 33rd Street #street line#, shall be permitted to rise without setback; and

(iii) portions of a #building# located beyond 150 feet of Eleventh Avenue that exceed the #aggregate width of street wall# of 150 feet, as measured along the West 33rd Street #street line#, shall be set back a minimum of 15 feet from the #street line# of West 33rd Street.

All portions of a #building# that exceed a height of 150 feet shall comply with the tower provisions of paragraph (b) of this Section.

(b) Towers

All #stories# of a #building# located partially or wholly above a height of 150 feet shall be considered a tower and shall comply with the provisions of this paragraph, (b). Not more than one tower shall be allowed on Site 2.

(1) Maximum floor plate

The gross area of any tower #story# shall not exceed 40,000 square feet.

(2) Maximum length and height

The outermost walls of all #stories# of a tower, when viewed from above, shall be inscribed within a rectangle where the east-west dimension shall not exceed a length of 250 feet.

All towers that exceed a height of 350 feet shall provide articulation in accordance with Section 93-569 (Tower top articulation).

93-565 - Site 3

LAST AMENDED
6/6/2024

The regulations of this Section shall apply to all #buildings# within Site 3.

All #stories# of a #building# located wholly or partially above the highest level of the adjoining public sidewalk or finished grade on Site 3 shall be considered a tower and shall comply with the provisions of this Section. Not more than one tower shall be permitted on Site 3.

(a) Ground floor

A maximum of 6,000 square feet of the ground floor shall be permitted to provide #residential uses#. The remaining portion of the ground floor shall provide an area that is accessible to the surrounding publicly accessible open spaces listed in Section 93-75 (Publicly Accessible Open Spaces in Subdistrict F). Such space may provide ground floor #uses# pursuant to paragraph (a) of Section 37-76 (Mandatory Allocation of Frontages for Permitted Uses), or may be considered part of the Central Open Space and comply with the regulations set forth in Section 93-75.

If such remaining ground floor level space provides ground floor #uses#, such #uses# shall adjoin a minimum of 70 percent of the perimeter of the outermost walls of the ground floor of the #building# to a minimum depth of 30 feet. In addition, such outermost wall shall be at least 70 percent glazed with transparent material to a height of 40 feet.

If such remaining ground floor level space is considered part of the Central Open Space, such space may be open or enclosed. An open space provided pursuant to this paragraph (a) shall have a clear height of at least 40 feet measured from the level of an adjoining finished grade or sidewalk. An enclosed publicly accessible space provided pursuant to this paragraph (a) shall

adjoin a minimum of 70 percent of the perimeter of the outermost walls of the ground floor of the #building# to a minimum depth of 30 feet. In addition, such outermost wall shall be at least 70 percent glazed with transparent material to a height of 40 feet.

(b) Maximum floor plate

The gross area of any #story# of a tower on Site 3 shall not exceed 12,000 square feet.

(c) Maximum length and height

The maximum horizontal dimension of a tower, measured in any direction, shall not exceed 145 feet. However, if the angle of the tower's maximum horizontal dimension is aligned within 15 degrees of a 45 degree line constructed from either the southwest or northeast corner of the Site 3 rectangle in plan, as shown on Map 2 (Subdistrict F: Site Plan) in Appendix B, then such maximum horizontal dimension measured in this direction may be increased to 160 feet, provided that the maximum dimension measured perpendicular to such increased dimension does not exceed a length of 120 feet.

The maximum height of a tower within Site 3 shall be a minimum of 100 feet taller than the tower height of Site 5.

All towers that exceed a height of 350 feet shall provide articulation in accordance with Section 93-569 (Tower top articulation).

93-566 - Site 4

LAST AMENDED
4/29/2014

In addition to the applicable requirements set forth in Section 93-562 (Street wall regulations for certain streets), the provisions of this Section shall apply to #buildings# on Site 4.

(a) Street wall location along West 31st and West 32nd Street Extensions

Any portion of a #street wall# facing the West 32nd Street Extension within 100 feet of Eleventh Avenue shall be set back at least 15 feet from the West 32nd Street Extension #street line#, which shall coincide with the northern edge of the Site 4 boundary. Any portion of a #street wall# facing the West 32nd Street Extension that extends beyond 100 feet of Eleventh Avenue, as measured along the West 32nd Street Extension #street line#, shall be set back at least 30 feet from the West 32nd Street Extension #street line#. Any portion of a #street wall# facing the West 31st Street Extension that extends beyond 100 feet of Eleventh Avenue, as measured along the West 31st Street Extension #street line#, shall be set back at least 15 feet from the West 31st Street Extension #street line#.

(b) #Building# base facing Eleventh Avenue

The provisions of this paragraph (b) shall apply to #street walls# below a height of 120 feet facing Eleventh Avenue and the West 31st and West 32nd Street Extensions within 50 feet of Eleventh Avenue. Such #street walls# shall rise without setback to a minimum height of 90 feet and a maximum height of 120 feet. Above a height of 120 feet, all portions of a #building# facing Eleventh Avenue shall be set back from the #street wall# of the #building# at least 15 feet, except such setback distance may include the depth of any permitted recesses. Portions of #street walls# along the West 31st and West 32nd Street Extensions within 50 feet of Eleventh Avenue need not set back above the maximum base height to allow tower portions that comply with the provisions of paragraph (c) of this Section to rise without setback.

All portions of a #building# that exceed the maximum base height of 120 feet shall comply with the tower provisions of paragraph (c) of this Section.

(c) Towers

All #stories# of a #building# located partially or wholly above the maximum base height of 120 feet shall be considered a tower and shall comply with the provisions of this paragraph (c). Not more than one tower shall be permitted on Site 4.

(1) Maximum floor plate

The gross area of any such #story# shall not exceed 12,000 square feet.

(2) Maximum length and height

For any portion of a tower above 120 feet, the maximum horizontal dimension, measured in any direction, shall not exceed 145 feet. However, if the angle of the tower's maximum horizontal dimension is aligned within 15 degrees of a 45 degree line constructed from either the southwest or northeast corner of the Site 4 rectangle, in plan, as shown on Map 2 (Subdistrict F: Site Plan) in Appendix B, then such maximum horizontal dimension measured in this direction may be increased to 160 feet, provided that the maximum dimension measured perpendicular to such increased dimension does not exceed a length of 120 feet.

The maximum height of a tower on Site 4 shall be a minimum of 100 feet taller than any tower located on Site 3.

All towers that exceed a height of 350 feet shall provide articulation in accordance with Section 93-569 (Tower top articulation).

93-567 - Site 5

LAST AMENDED
4/29/2014

All #stories# of a #building# located wholly or partially above finished grade on Site 5 shall be considered a tower and shall comply with the provisions of this Section.

On Site 5, a #building# may be located adjacent to and above the #High Line#, provided no portion of such #building# or an associated structural column is located within five feet of the edge of the #High Line# from the level of finished grade to a level of 50 feet above the level of the #High Line bed#, as shown on Map 3 (Subdistrict F: Public Access Area Plan) in Appendix B.

(a) Maximum floor plate

The gross area of any #story# within that portion of a #building or other structure# located east of the #High Line# and wholly or partially above the finished grade to a height of 50 feet above the #High Line bed# shall not exceed 5,000 square feet.

The aggregate gross area of any portion of a #building or other structure# located west of the #High Line# and wholly or partially above the finished grade to a height of 50 feet above the #High Line bed# shall not exceed 700 square feet, and the maximum aggregate horizontal dimension of such portions, individually measured in their longest dimension, shall not exceed 30 feet.

The gross area of any #story# within that portion of a tower located above a height of 50 feet above the #High Line bed# shall not exceed 12,000 square feet.

(b) Maximum length and height

At or below a height of 50 feet above the #High Line bed#, if a #building# is located so that it has portions on both sides of the #High Line#, the minimum horizontal dimension, measured in any direction between such portions shall be 60 feet.

For that portion of a tower located above a height of 50 feet above the #High Line bed#, the maximum horizontal dimension, measured in any direction, shall not exceed 145 feet. However, if the angle of the tower's maximum horizontal dimension is aligned within 15 degrees of a 45 degree line constructed from either the southwest or northeast corner of the Site 5 rectangle, in plan, as shown on Map 2 (Subdistrict F: Site Plan) in Appendix B, then such maximum horizontal dimension measured in this direction may be increased to 160 feet, provided that the maximum dimension measured perpendicular to such increased dimension does not exceed a length of 120 feet. Furthermore, the maximum horizontal dimension for that portion of a tower that spans the #High Line#, measured in any direction, shall not exceed 120 feet.

The maximum height of a tower on Site 5 shall be 350 feet.

93-568 - Site 6

LAST AMENDED
4/29/2014

In addition to the applicable requirements set forth in Section 93-562 (Street wall regulations for certain streets), the provisions of this Section shall apply to #buildings# on Site 6.

(a) Height and setback regulations

(1) #Street wall# beneath the #High Line#

The provisions of this paragraph (a) shall apply to #street walls# on Site 6 beneath the #High Line# that face West 30th Street, Eleventh Avenue and the Southwest Open Space.

All such #street walls# shall extend along the entire #street# frontage of the site, except that along West 30th Street, the #street wall# shall be no closer to the northerly #street line# of West 30th Street than the northerly edge of the southern row of structural columns of the #High Line#, and along the Southwest Open Space and Eleventh Avenue, the #street wall# shall extend to a point five feet north of the #High Line#. Ground floor recesses up to three feet deep shall be permitted for access to #building# entrances.

All such #street walls# shall rise without setback to a maximum height of the underside of the #High Line bed#.

(2) #Building# base

(i) Facing Eleventh Avenue and the West 31st Street Extension, north of the #High Line#

The provisions of this paragraph (a)(2)(i) shall apply north of the #High Line# to #street walls# facing Eleventh Avenue, the West 31st Street Extension, portions of #street walls# facing the #High Line# within 60 feet of Eleventh Avenue, and portions of #street walls# facing the Southwest Open Space within 60 feet of the West 31st Street Extension. Such #street walls# shall rise without setback to a minimum height of 60 feet and a maximum height of 90

feet. Above a height of 90 feet, all portions of a tower, or portions of a transition height located beneath a tower facing Eleventh Avenue, the #High Line# and the West 31st Street Extension, shall be set back from the #street wall# of the #building# at least 15 feet, except such setback distance may include the depth of any permitted recesses. Portions of #street walls# along the Southwest Open Space within 60 feet of the West 31st Street Extension need not set back above the maximum base height to allow portions of towers, or portions of a transition height located beneath a tower that comply with the provisions of paragraphs (a)(3) and (a)(4) of this Section, respectively, to rise without setback. These #building# base provisions may apply along the #High Line# beyond 60 feet of Eleventh Avenue, up to a maximum distance of 100 feet from Eleventh Avenue.

(ii) Facing West 30th Street, north of the #High Line#

The provisions of this paragraph (a)(2)(ii) shall apply to #street walls# above the #High Line bed#, facing the #High Line# beyond 60 feet of Eleventh Avenue, and to those portions of #street walls# facing the Southwest Open Space that are within 60 feet of the #High Line#. Such #street walls# shall rise without setback to a minimum height of 50 feet as measured above the level of the #High Line bed#, and a maximum height of 60 feet as measured above the level of the #High Line bed#. Above a height of 60 feet, all portions of a tower, or portions of a transition height located beneath a tower facing the #High Line#, shall be set back from the #street wall# of the #building# at least 15 feet, except such setback distance may include the depth of any permitted recesses. Portions of #street walls# along the Southwest Open Space within 60 feet of the #High Line# need not set back above the maximum base height to allow portions of a tower, or portions of a transition height located beneath a tower that comply with the provisions of paragraphs (a)(3) and (a)(4),

respectively, to rise without setback.

All portions of a #building# that exceed the maximum base height of 90 feet shall comply with the tower provisions of paragraph (a)(4), with the exception of a #building# which provides a transition height in accordance with the provisions of paragraph (a)(3).

(3) Transition height

If the outermost walls of all #stories# of any tower provided in accordance with the tower provisions of paragraph (a)(4) are individually inscribed within a rectangle where the east-west dimension does not exceed a length of 110 feet, a transition height may be provided above the #building# base in accordance with the provisions of this paragraph (a)(3).

Above the maximum base height, a #street wall# may rise to a maximum transition height equal to two-thirds of the height of the #street wall# of the #building# base facing the West 31st Street Extension. Such a transition height shall not exceed a maximum height of 150 feet, as measured above the West 31st Street Extension #street line#.

All portions of a transition height shall be set back 30 feet from the #street wall# of the #building# base along the West 31st Street Extension and the #High Line#, except that where towers are provided directly above a portion of the transition height, such a portion of transition height located directly below a tower shall provide setbacks in accordance with the #building# base provisions of paragraph (a)(2) of this Section.

All portions of a #building# that exceed the maximum transition height shall comply with the tower provisions of paragraph (a)(4).

(4) Towers

All #stories# of a #building# located partially or wholly above a height of 90 feet, or 150 feet if a transition height is provided in accordance with the provisions of paragraph (a)(3), shall be considered a tower and shall comply with the provisions of this paragraph (a)(4).

(i) Maximum floorplate

If more than one tower is provided on Site 6, the aggregate gross area of any such tower #stories#, measured at any height, shall not exceed 25,000 square feet.

(ii) Maximum length and height

The outermost walls of all #stories# of a tower, when viewed from above, shall be inscribed within a rectangle where the east-west dimension shall not exceed a length of 160 feet and the north-south dimension shall not exceed a length of 110 feet. Where more than one tower is located on Site 6, each tower shall comply independently with such maximum dimensions.

The #aggregate width of street walls# of all #stories# of a tower facing the West 31st Street Extension or the #High Line# shall not exceed 220 feet within 40 feet of the #street wall# of the #building# base.

If more than one tower is provided on Site 6, such towers shall either be equal in height, or the easternmost tower shall have a height greater than the height of the westernmost tower.

All towers that exceed a height of 350 feet shall provide articulation in accordance with Section 93-569 (Tower top articulation).

(b) Certification to expand Site 6

The area of Site 6, as shown on Map 2 (Subdistrict F: Site Plan) in Appendix B, may be extended westward by up to 40 feet in order to accommodate a public #school# upon certification of the Chairperson of the City Planning Commission, that:

(1) the Chairperson is in receipt of a letter from the School Construction Authority that describes the need for the additional area;

(2) the site and landscape plans for the Southwest Open Space have been approved by the Chairperson, pursuant to Section 93-78 (Site and Landscape Plans for Public Access Areas in Subdistrict F);

(3) no portion of a tower located on Site 6 extends beyond 395 feet west of the Eleventh Avenue #street line#; and

(4) any portion of a #building# located beyond 395 feet from the Eleventh Avenue #street line# shall affect southwesterly view corridors from the Central Open Space towards the Hudson River to the minimum extent necessary to accommodate a public #school#.

93-569 - Tower top articulation

LAST AMENDED

All towers that exceed a height of 350 feet shall provide articulation in accordance with this Section.

For the purposes of this Section, a minimum of the uppermost 15 percent of the height of a #building or other structure#, including all rooftop mechanical structures and their required enclosures pursuant to the regulations of paragraph (b) of Section 93-41 (Rooftop Regulations), shall henceforth be referred to as the "Tower Top Zone". However, chimneys, antennae or decorative spires shall not be considered part of the Tower Top Zone, provided no such structures contain #floor area#.

The height of such #building or other structure# shall be measured from the highest level of the public sidewalk or finished grade located nearest such #building or other structure#.

The Tower Top Zone shall contain an "Upper Zone" and a "Lower Zone." The Lower Zone shall be a minimum of 50 percent of the height of the Tower Top Zone and shall contain tower #stories#. The Upper Zone shall contain the highest tower #story# where #floor area# occupies more than 75 percent of the gross area of such #story#, and any enclosed rooftop mechanical equipment.

For the purposes of this Section, each tower of a #building or other structure# shall be comprised of four separate tower top elevation views that shall be used to measure compliance with the regulations of this Section. Each elevation view shall have an angle of 90 degrees from another such view.

Each tower top shall provide the following forms of articulation:

(a) Change in the #building or other structure# profile

(1) Constructing the profile change boundary

To comply with the provisions of this paragraph (a)(1), a rectilinear boundary within the Tower Top Zone shall be created in each elevation view to determine the required amount of profile change. In order to construct such boundary, two datum lines shall first be drawn in each elevation view. Such datum lines shall begin at the average

outermost edges of those portions of tower floor plates above a height of 350 feet containing #floor area# below the Tower Top Zone, and shall extend upward for the entirety of the height of the #building or other structure#. The rectilinear profile change boundary shall include the portion of these two datum lines within the Tower Top Zone, as well as their intersection with two datum lines indicating the uppermost elevation and the lowermost elevation of the Tower Top Zone. In addition, a datum line shall indicate the boundary between the Upper and Lower Zone, creating a boundary for both the Upper Zone and Lower Zone.

(2) Required profile change

A minimum of 10 percent of the area of the profile change boundary within the Lower Zone shall remain open to the sky in each required elevation view. Such profile change shall begin upward at the lowermost datum line of the Tower Top Zone. In addition, a minimum of 20 percent of the area of the profile change boundary within the Upper Zone shall remain open to the sky in each required elevation view.

However, for portions of a #building or other structure# providing enclosed rooftop mechanical equipment within the Upper Zone, the width (as viewed in elevation) of the lowermost portion of enclosed rooftop mechanical space at that point in elevation which coincides with the uppermost portion of the highest tower #story# shall in no event be reduced beyond 50 percent of the width of such highest tower #story#. Upwards of such a point in elevation, no restriction on maximum width reduction for enclosed rooftop mechanical spaces shall apply.

(b) Change in the #building or other structure# #lot coverage#

For portions of a #building or other structure# within the Lower Zone, the average #lot coverage # for all tower #stories# within such zone shall not exceed 80 percent of the #lot

coverage# of the tower #story# with the largest #lot coverage# below the Tower Top Zone and above a height of 350 feet.

(c) Material continuity

A minimum of 10 percent of the surface area of the exterior portion of the facade of the #building or other structure# within the Tower Top Zone, as viewed in elevation, shall be composed of a single material. Such material shall be continuously visible (in each elevation view) from the lowermost datum line of the Tower Top Zone to the uppermost datum line of the Tower Top Zone. However, within each #story# of the Lower Zone, a break in the vertical continuity of the material shall be permitted, provided that the vertical break does not exceed 12 inches.

93-57 - Special Height and Setback Regulations in Subdistrict G

LAST AMENDED
2/2/2011

(a) Required setbacks

The required minimum setback for portions of #buildings or other structures# that exceed the maximum base height specified in paragraph (a) of Section 93-42 shall be 10 feet from a #wide street# and 15 feet from a #narrow street#. However, the required minimum setback along West 39th Street shall be five feet.

(b) Tower #lot coverage#

The portion of any #building# or #buildings# located above a height of 150 feet shall be considered a “tower.”

(1) Towers shall occupy a minimum of 20 percent of the #lot area# of the #zoning lot#, except that this requirement shall not apply to the highest 40 feet of such tower or towers.

(2) Towers containing #residences# shall occupy a maximum of 40 percent of the #lot area#.

(3) The aggregate #lot area# of all towers, including #residential# and non-#residential# towers, shall not exceed 65 percent of the #lot area#.

93-58 - Special Permit for Modification of Height and Setback Regulations

LAST AMENDED
6/11/2025

Within the #Special Hudson Yards District#, except within C1-7A Districts, or C2-5 Districts mapped within R8A Districts, for #developments# or #enlargements# on #zoning lots# with at least 20,000 square feet of #lot area# or #developments# or #enlargements# on any size #zoning lot# that occupy the entire #block# front along a #wide street#, the City Planning Commission may modify the regulations set forth in Sections 93-40 (HEIGHT AND SETBACK REGULATIONS), inclusive, and 93-50 (SPECIAL HEIGHT AND SETBACK REGULATIONS), inclusive, and, within Subdistrict F, may modify or waive the regulations set forth in Sections 93-10 (USE REGULATIONS), inclusive, 93-70 (PUBLIC ACCESS REQUIREMENTS FOR SPECIAL SITES), inclusive, and 13-242 (Maximum width of curb cuts), provided the Commission finds that:

(a) such modifications will result in a better distribution of #bulk# on the #zoning lot# and will not adversely affect access to light and air for surrounding public access areas, #streets# and properties;

(b) where the regulations set forth in Section 93-70 are modified or waived, the resulting arrangement of public access areas on the #zoning lot# results in better site planning;

(c) such modifications are consistent with the goal of the special district to provide flexibility of architectural design and encourage more attractive building forms;

(d) such modifications will result in a #development# or #enlargement# that enhances the streetscape and will be compatible with development in the surrounding area; and

(e) such modifications to the curb cut regulations are necessary to accommodate a turnaround area for fire apparatus and other vehicular traffic.

The Commission may establish an appropriate level or levels instead of the mean level of the public sidewalk, the mean level of the final grade of open space, the #High Line bed#, or the highest level of the public sidewalk or finished grade, as applicable, as the reference plane for the applicable regulations relating to the measurement of #building# heights within Subdistrict F.

The Commission may prescribe additional conditions and safeguards to minimize adverse effects of the #development# or #enlargement# on the character of the surrounding area.

93-59 - Special Yard Regulations in Subdistrict G

LAST AMENDED10/21/2021

No rear yard equivalent shall be required in Subdistrict G.

93-60 - MANDATORY IMPROVEMENTS

LAST AMENDED
1/19/2005

93-61 - Sidewalk Widenings

LAST AMENDED
1/19/2005

Map 4 (Mandatory Sidewalk Widenings) in Appendix A of this Chapter specifies locations of mandatory sidewalk widenings. The depth of such sidewalk widenings shall be as indicated on Map 4 in Appendix A and shall be measured perpendicular to the #street line#. All sidewalk widenings shall be improved as sidewalks to Department of Transportation standards, at the same level as the adjoining public sidewalks, and shall be accessible to the public at all times.

93-62 - Street Tree Planting

LAST AMENDED
5/29/2019

In addition to the applicable underlying #street# tree planting requirements, in the Four Corners Subarea A2 of the Large-Scale Plan Subdistrict A, trees shall also be provided along the #street# edge of the mandatory sidewalk widenings along West 34th Street. All such trees shall be provided for the entire length of the #street# frontage of the #zoning lot#, at maximum intervals of 25 feet. Trees shall be planted in gratings flush to grade in at least 200 cubic feet of soil per tree with a depth of soil at

least three feet, six inches. Species shall be selected and installed in accordance with specifications established by the Department of Parks and Recreation. The provisions of this Section shall not apply where the Department of Parks and Recreation determines that such tree planting would be infeasible.

93-63 - Pedestrian Circulation Space

LAST AMENDED
2/2/2011

In C2-8 and C6-4 Districts, except within Subdistrict G, all #developments# or #enlargements# on #zoning lots# of 5,000 square feet or larger with more than 70,000 square feet of new #floor area# shall provide pedestrian circulation space in accordance with the provisions of Section 37-50. In addition, for #developments# or #enlargements# that provide subway entranceways constructed after December 21, 2005, one and one-half times the area of such entranceway accessible to the public at #street# level may qualify as pedestrian circulation space, up to a maximum amount of 3,000 square feet.

Pedestrian circulation space shall not be required if any of the following conditions exist:

(a) The #zoning lot# is entirely occupied by a #building# of no more than one #story# in height.

(b) The #zoning lot# is an #interior lot# fronting on a #wide street# with less than 80 feet of #street# frontage.

(c) The #zoning lot# is a #through lot# and both #street# frontages are less than 25 feet in length.

(d) The #zoning lot# is required to provide public access pursuant to Section 93-70 (PUBLIC ACCESS REQUIREMENTS FOR SPECIAL SITES).

93-64 - Major Building Entrances

LAST AMENDED
2/2/2011

Any #development# or #enlargement# with a #commercial# #floor area ratio# of 5.0 or greater and located on a #zoning lot# with frontage upon Hudson Boulevard shall provide a major entranceway to the #commercial# portion of the #building# on Hudson Boulevard.

Any #development# or #enlargement# containing #residences# located on #zoning lots# with frontage upon Tenth Avenue north of West 33rd Street shall provide a major entrance to the #residential# portion of the #building# on or within 100 feet of Tenth Avenue.

The #street wall# of any #building# facing east towards Ninth Avenue south of West 33rd Street shall contain either a major #building# entrance or have at least 70 percent of its ground floor frontage occupied by retail #uses#.

93-65 - Transit Facilities

LAST AMENDED
10/27/2010

(a) Any #development# or #enlargement# on a #zoning lot# that includes the southwest corner of West 40th Street and Eighth Avenue shall provide an easement for public access to the subway mezzanine or station as illustrated on Map 5 (Transit Facilities) in Appendix A of this Chapter. The easement shall accommodate a relocated subway entrance from the adjoining sidewalk to a location within the #development# or #enlargement#.

The Chairperson of the City Planning Commission shall certify that a plan has been submitted indicating the volume of the easement necessary for future construction of a subway entrance. Such plan shall be developed in consultation with, and with the approval of, the Transit Authority. The Chairperson may alternately certify that a plan has been submitted whereby the applicant agrees to provide the required easement, at the applicant's expense, within two years of request by the Transit Authority or by its designee.

An instrument establishing such transit easement, or agreement to provide one within two years of request by the Transit Authority, once certified, shall be filed and duly recorded in the Borough Office of the City Register of the City of New York, indexed against the property in the form of a legal instrument providing notice of such certification. Such filing and recording of the instrument shall be a precondition for the filing for or issuance of any building permit for any #development# or #enlargement# on the #zoning lot#. The recording information shall be included on the certificate of occupancy for any #building#, or portion thereof, on the #zoning lot# issued after the recording date.

Floor space within any required transit easement shall be excluded from the definition of #floor area#, and may be temporarily used by the owner of the #zoning lot# for any permitted #uses# until such time as required by the Transit Authority or by its designee for subway purposes. Improvements or construction of a temporary nature within the easement volume for such temporary #uses# shall be removed by the owner of the #zoning lot# prior to the time at which public use of the easement area is required. A minimum notice of six months in

writing shall be given by the Transit Authority to the owner of the #zoning lot# in order to vacate the tenants of such temporary #uses#.

(b) For the locations listed in this paragraph, (b), floor space devoted to subway-related #uses# consisting of ventilation facilities and other facilities or services used or required in connection with the operation of a subway line or station, which are established pursuant to an easement or other agreement, shall be excluded from the definition of #floor area# in Section 12-10:.

(1) The volume bounded by Eleventh Avenue, a line 52 feet north of and parallel to West 33rd Street, the western boundary of the #public park#, and West 33rd Street, up to a height of 82 feet, as illustrated on Map 5.

(2) The volume bounded by Eleventh Avenue, West 36th Street, a line 95 feet east of and parallel to Eleventh Avenue, and a line 95 feet south of and parallel to West 36th Street, up to a height of 129 feet, as illustrated on Map 5.

(3) The tax lot located at Block 1051, Lot 2, existing on October 27, 2010, up to a height of 73 feet, as illustrated on the District Map in Appendix A of the #Special Clinton District#.

(4) The volume bounded by a line 37 feet east of and parallel to Eleventh Avenue, West 26th Street, a line 100 feet east of and parallel to Eleventh Avenue, and a line 95 feet south of and parallel to West 26th Street, up to a height of 60 feet, as illustrated on the District Map in Appendix A of the #Special West Chelsea District#.

Any transit easement or other agreement for such subway-related #use# shall be filed and duly recorded in the Borough Office of the City Register of the City of New York, and indexed against the property.

93-66 - Open Area Requirements in the Large-Scale Plan Subdistrict A

LAST AMENDED
10/17/2007

In Subareas A2 through A5 of the Large-Scale Plan Subdistrict A, the provisions of this Section shall apply to all open areas between the #street wall# of any #development# or #enlargement# and the #street line#.

(a) Where such open areas are sidewalk widenings required pursuant to Section 93-61, or where a sidewalk widening is not required but an open area extends along the entire #street line# of the #zoning lot#, no obstructions shall be permitted within such open areas within five feet of the #street line#. Beyond five feet of the #street line#, up to a distance of 10 feet from the #street line#, obstructions shall be limited to seating, tables, and trees planted flush to grade. Any open area provided beyond 10 feet of the #street line# shall comply with the provisions of paragraphs (b) through (d) of this Section, as applicable.

(b) All open areas less than 1,200 square feet in area, or open areas of any size but with a width or depth of less than 30 feet, shall be paved or contain landscaping. Paved areas shall be at the same elevation as the adjoining sidewalk or any adjoining public access area required pursuant to this Chapter.

(c) All open areas at least 1,200 square feet in area, and with a width and depth of at least 30 feet, shall be paved and contain landscaping. Paved areas shall not be more than 2 feet, 6 inches above or below the level of the adjoining sidewalk or any adjoining public access area required pursuant to this Chapter.

(d) Open areas described in paragraphs (b) and (c) of this Section may be occupied by features, equipment and appurtenances normally found in #public parks# and playgrounds, as listed in Section 37-726 (Permitted obstructions). In addition, gates or fences shall be permitted for open areas described in paragraph (c) of this Section, provided such gates are fully open during business hours, such gates or fences are not higher than five feet, and are a minimum of 65 percent open to permit visibility of the open area. No parking areas shall be permitted in any open area. Driveways in any open area shall lead directly to an enclosed parking or loading facility, except that portes-cocheres are allowed in any open area on #zoning lots# with at least 80,000 square feet of #lot area#. #Building# trash storage facilities and mechanical equipment shall be screened by a wall or planted area sufficient to visually conceal these facilities from the #street# or any public access area. All paved areas shall be accessible to the public during business hours and have lighting with a minimum level of two foot candles. Edges of planters in all landscaped areas shall not be higher than 2 feet, 6 inches above the level of any adjacent paved area.

93-70 - PUBLIC ACCESS REQUIREMENTS FOR SPECIAL SITES

LAST AMENDED
4/29/2014

Public access shall be provided for special sites as specified in this Section, inclusive. In the event of a conflict between the provisions of this Section, inclusive, and any underlying regulation, the provisions of this Section shall govern.

No building permit shall be issued for any #development# or #enlargement# on such sites other than for an #ERY Culture, Festival and Exhibit Facility# until the Chairperson of the City Planning

Commission certifies to the Department of Buildings that the provisions of this Section have been met.

An application for such certification shall be filed with the Chairperson showing the plan of the #zoning lot#; a site plan indicating the area and dimensions of all required public access areas and the location of all proposed #buildings#, and a detailed plan or plans demonstrating compliance with the provisions of this Section. For certifications relating to the #ERY High Line# and, if applicable, the #Tenth Avenue Spur#, the requirements set forth in paragraph (h) of Section 93-71, shall apply. For certifications relating to 450 West 33rd Street, the requirements set forth in Section 93-722 shall apply. For certifications relating to the Ninth Avenue Rail Yard, the requirements set forth in Section 93-732 shall apply.

Plans for public access areas shall be set forth in an instrument in a form acceptable to the City, and setting forth such provisions as necessary to ensure compliance with the provisions of this Section. Such instrument shall be filed and duly recorded in the Borough Office of the City Register of the City of New York and indexed against the property. Such filing and recording of the instrument shall be a precondition for the Chairperson's certification under this Section. The recording information shall be included on the certificate of occupancy for any #building#, or portion thereof, on the #zoning lot# issued after the recording date.

The Chairperson shall allow for the phased development of public access areas upon certification to the Commissioner of Buildings that a plan has been submitted that provides for the completion of any public access area that is integral to the #development# of a #building# or #buildings# within each phase. The completion of the Cultural Facility Plaza shall be deemed integral only to an #ERY Culture, Festival and Exhibit Facility# and to no other #use# or #development# in the Eastern Rail Yard Subarea A1. Where the public use and enjoyment of a public access area is contingent upon #development# on an adjacent #zoning lot# that has not yet occurred, the Chairperson may allow for the future development of such public access area at the time that the adjacent #zoning lot# is #developed#. For the Eastern Rail Yard Subarea A1, such phased development plan may provide for the outdoor plaza described in paragraph (b) of Section 93-71 to be constructed in phases. For 450

West 33rd Street and the Ninth Avenue Rail Yard, such phased development plan shall comply with additional provisions set forth in Sections 93-722 and 93-732, respectively.

For any portion of any #development# or #enlargement# other than an #ERY Culture, Festival and Exhibit Facility#, no temporary certificate of occupancy from the Department of Buildings may be issued for any portion of any #development# or #enlargement# with a #floor area ratio# of 10.0 or more until the Chairperson certifies to the Department of Buildings that the public access area is substantially complete, and the public access area is open to and useable by the public. No permanent certificate of occupancy from the Department of Buildings may be issued for any portion of such #development# or #enlargement# with a #floor area ratio# of 10.0 or more until the Chairperson certifies to the Department of Buildings that the public access area is complete and that all public access requirements of this Section have been met in accordance with the plans for such public access areas. Notwithstanding the foregoing, for #zoning lots# with multiple #buildings# for which the Chairperson has certified that a plan has been submitted that provides for the phased development of public access areas through completion of any public access area that is integral to the #development# of a #building# or #buildings# within each phase, such certifications shall be made with respect to substantial completion or completion of the public access areas integral to each such phase, except as provided in paragraph (h) of Section 93-71, and Section 93-732. Issuance of a temporary or permanent certificate of occupancy for any #building#, or portion of a #building#, not occupied by an #ERY Culture, Festival and Exhibit Facility# shall not be conditioned upon the completion, substantial completion or improvement of the Culture Facility Plaza.

For an #ERY Culture, Festival and Exhibit Facility#, no temporary certificate of occupancy from the Department of Buildings may be issued for such #ERY Culture, Festival and Exhibit Facility# until the Chairperson certifies to the Department of Buildings that the Culture Facility Plaza described in paragraph (j) of Section 93-71 is substantially complete and open to and useable by the public and no permanent certificate of occupancy from the Department of Buildings may be issued for the #ERY Culture, Festival and Exhibit Facility# until the Chairperson certifies to the Department of Buildings that the Culture Facility Plaza is complete. If a moveable portion of the #ERY Culture, Festival and Exhibit Facility# is not initially constructed as part of the #ERY Culture, Festival and Exhibit Facility#

but is constructed at a later date, any closure of the Culture Facility Plaza necessary for such construction shall not affect the validity of any certificate of occupancy previously issued for the #ERY Culture, Festival and Exhibit Facility#. No temporary certificate of occupancy for the moveable portion that is thereafter constructed, or an amended temporary certificate of occupancy for the #ERY Culture, Festival and Exhibit Facility# that includes the moveable portion, may be issued by the Department of Buildings until the Chairperson certifies to the Department of Buildings that the reconstructed Culture Facility Plaza is substantially complete and open to and useable by the public and no permanent certificate of occupancy for the moveable portion that is thereafter constructed, or an amended permanent certificate of occupancy for the #ERY Culture, Festival and Exhibit Facility# that includes the moveable portion, may be issued by the Department of Buildings until the Chairperson certifies to the Department of Buildings that the reconstructed Culture Facility Plaza is complete.

93-71 - Public Access Areas in the Eastern Rail Yard Subarea A1

LAST AMENDED
6/6/2024

Any #development# in the Eastern Rail Yard Subarea A1 shall provide public access areas in accordance with the following requirements:

(a) Amount of public access areas

Public access areas shall be provided in an amount not less than 55 percent of the #lot area# of the #zoning lot#. At least 40 percent of the #lot area# of the #zoning lot# shall be publicly accessible and open to the sky. At least an additional 15 percent of the #lot area# of the #zoning lot# shall be publicly accessible and may be either open or enclosed. Such open or enclosed areas shall be comprised of the types of public access areas listed in paragraphs (b) through (f), and

paragraphs (h) and (j), of this Section. For purposes of determining compliance with such 55 percent and 40 percent requirements, the Culture Facility Plaza, any portion of the connection to the High Line allowed to be covered by the moveable portion of an #ERY Culture, Festival and Exhibit Facility# pursuant to paragraph (f), and any portion of the connection to the High Line that is not required to have a clear height of 60 feet pursuant to paragraph (f) shall be deemed publicly accessible and open to the sky at all times, including any time when a moveable portion of an #ERY Culture, Festival and Exhibit Facility# extends over the Culture Facility Plaza or the connection to the High Line. Open areas may also include the area of the sidewalk widening along Eleventh Avenue required pursuant to Section 93-61 and, at the option of the owner, the #Tenth Avenue Spur#. If the Cultural Facility Plaza is closed during the construction of the moveable portion of the #ERY Culture, Festival and Exhibit Facility#, the amount of publicly accessible open space shall not be considered reduced during such period.

All public access areas listed in this Section, other than the #ERY High Line# and the #Tenth Avenue Spur#, shall be accessible to the public, as follows:

(1) unenclosed public access areas shall be accessible between the hours of 6:00 a.m. and 1:00 a.m., except that any portions of the outdoor plaza, as described in paragraph (b) of this Section, designed and constructed for purposes of vehicular use, shall be accessible at all times, except as necessary to perform maintenance and repairs or address hazardous or emergency conditions;

(2) enclosed portions of the through block connection and connection to the public plaza, described in paragraphs (d) and (e) of this Section, shall be accessible to the public between the hours of 8:00 a.m. and 10:00 p.m.; and

(3) upon completion of the Tenth Avenue bridge, described in paragraph (g) of this Section, access between the bridge and the outdoor plaza shall be provided by means of

the through block connection between the hours of 6:00 a.m. and 1:00 a.m.

All public access areas, other than the #ERY High Line# and the #Tenth Avenue Spur#, shall include public space signage erected at conspicuous locations. Such signs shall include the statement "Open to the Public," followed by the hours of operation specified in this paragraph (a). The public space signage for the Culture Facility Plaza may include additional information, consistent with the provisions of paragraph (j) of this Section.

(b) Outdoor plaza

A publicly accessible space, open to the sky (hereinafter referred to as the "outdoor plaza"), shall be located within the area bounded by West 33rd Street, the southerly prolongation of the eastern sidewalk widening line of Hudson Boulevard East, a line 250 feet north of and parallel to West 30th Street, Eleventh Avenue, a line 220 feet south of and parallel to West 33rd Street, and the southerly prolongation of the western sidewalk widening line of Hudson Boulevard West. Such open area may extend beyond such boundaries and have necessary grade changes, and up to 10 percent of the area of such outdoor plaza may be covered by a #building or other structure#.

In addition, a #building# containing eating or drinking establishments and other #uses# listed under Use Group VI may be located within the outdoor plaza (but shall not be included as public access area pursuant to paragraph (a) of Section 93-71), provided that any such #building#:

(1) is located within the area west of the southerly prolongation of the western sidewalk widening line of Hudson Boulevard West and within 400 feet of West 30th Street;

(2) covers no more than 3,600 square feet of the #zoning lot# at the level of the outdoor plaza and above;

(3) contains no more than 7,200 square feet of #floor area# at the level of the outdoor plaza and above, and no more than 3,600 square feet of #floor area# below the level of the outdoor plaza;

(4) has a maximum north-south dimension of 85 feet at the level of the outdoor plaza and above;

(5) is located such that the maximum east-west dimension measured along a line 355 feet from West 30th Street is 40 feet at the level of the outdoor plaza and above. For portions of the #building# located north or south of such line, the maximum east-west dimension shall increase at a rate of one foot in the east-west dimension for every four feet in the north-south dimension from such line, up to a maximum east-west dimension of 60 feet; and

(6) has a maximum perimeter wall height of 24 feet, and a maximum #building# height of 30 feet. Above a height of 24 feet, no portion of a #building# may penetrate a #sky exposure plane# that begins at a height of 24 feet above the perimeter walls and rises over the #building# at a slope of 2.5 feet of horizontal distance for each foot of vertical distance. Such heights shall be measured from the highest level of the adjoining portions of the outdoor plaza.

No #building# location or setback requirements shall apply to any #building# walls facing the northern, eastern or southern boundaries of the outdoor plaza.

#Building# walls fronting upon the western boundary of the outdoor plaza shall extend along at least 70 percent of the length of the southerly prolongation of the western sidewalk widening line of Hudson Boulevard West and shall rise to a minimum height of 90 feet and a maximum

height of 120 feet. Above a height of 120 feet, a setback at least 20 feet in depth is required from such prolongation line. However, such #building# wall may rise without setback at such prolongation line, provided the aggregate width of such #building# wall does not exceed 50 percent of the width of such line and provided all other portions of the #building# that exceed a height of 120 feet are set back at least 20 feet from such prolongation line at a height not lower than 90 feet.

The retail and glazing requirements of paragraph (k) of this Section shall apply to at least 70 percent of the length of all #building# walls facing each side of the outdoor plaza, except that such retail requirements shall not apply to any #building#, or portion of a #building#, located west of the southerly prolongation of the eastern sidewalk widening line of Hudson Boulevard East and within 220 feet of West 30th Street containing #uses# listed under Use Group III or an #ERY Culture, Festival and Exhibit Facility#.

(c) Public plaza

A publicly accessible space, (hereinafter referred to as a "public plaza"), shall be provided at the intersection of Tenth Avenue and West 30th Street. Such public plaza shall have a minimum area of 12,000 square feet with a minimum frontage of 180 feet along Tenth Avenue and a minimum frontage of 60 feet along West 30th Street. Such public plaza shall be open to the sky except that such space may be covered by the #ERY High Line# structure, including any connections to the #ERY High Line# or other design features, as well as a #building# or portion of a #building# as allowed pursuant to Section 93-514, paragraph (a)(4), except that no #building# or portion of a #building# may encroach within the area that is within 60 feet of Tenth Avenue and 180 feet of West 30th Street. In addition, no more than 50 percent of the public plaza shall be covered by the permitted obstructions described in Section 37-726, paragraph (a), as well as any vents or shafts that are placed by the Department of Environmental Protection within the portion of the public plaza that is subject to an access easement.

Such public plaza shall contain the following amenities:

(1) no less than 120 linear feet of fixed seating;

(2) no less than 12 moveable tables and 48 moveable chairs; and

(3) no less than four trees or multi-stemmed equivalents measuring at least four inches in caliper at the time of planting, which trees or multi-stemmed equivalents may be planted in a planting bed. In addition, such public plaza shall contain at least two of the following additional amenities:

(i) artwork;

(ii) water features; or

(iii) food service located in a retail space directly accessible from the public plaza.

The glazing requirements of paragraph (k) of this Section shall apply to at least 70 percent of the length of all #building# walls, other than the #building# walls of any facility operated by the Long Island Rail Road, or its successor, facing each side of the public plaza. In addition, at least 25 percent of the frontage of all #building# walls facing the portion of the public plaza that is within 60 feet of Tenth Avenue and 180 feet of West 30th Street shall be occupied by #uses# listed in Use Group VI or the connection to the public plaza described in paragraph (e) of this Section.

(d) Through block connection

A publicly accessible through block connection shall be provided connecting the outdoor plaza with the Tenth Avenue sidewalk within 50 feet or anywhere north of the center line of West 32nd Street. Public access shall also be provided between such through block connection and

the Tenth Avenue bridge at the time such bridge is constructed pursuant to paragraph (g) of this Section, and may connect to other public access areas or sidewalks. Such through block connection may be open to the sky or enclosed, need not be linear and may have necessary grade changes.

Such through block connection shall have a minimum width of 30 feet and any enclosed portion shall have a minimum height of 30 feet. As an alternative, if an enclosed atrium space adjacent to the outdoor plaza is provided as part of the through block connection that meets all the following dimensional requirements: (1) comprises no less than 4,000 square feet with a minimum height of 60 feet and a minimum depth of 50 feet as measured by a line parallel from the #building# wall facing the outdoor plaza; (2) is free of #building# structural obstructions other than vertical circulation and other elements occupying no more than 500 square feet in the aggregate; and (3) contains interior walls facing such area that comply with the ground floor retail #use# requirements of paragraph (k) of this Section then such through block connection may: (i) have a minimum width of 24 feet; and (ii) have a minimum height of 34 feet for at least 70 percent of the aggregate enclosed area of the through block connection (including the atrium), provided that no portion of the through block connection shall have a minimum height less than 17 feet.

The retail and glazing requirements of paragraph (k) of this Section shall apply to at least 50 percent of the length of all #building# walls facing each side of the through block connection (or, if enclosed, the interior walls facing the through block connection). The through block connection may be occupied by the following permitted obstructions: vertical circulation elements including escalators, stairs and elevators, columns and lighting elements, provided that such permitted obstructions shall not occupy more than 20 percent of the through block connection, and a single path of travel no less than 24 feet in width is maintained. Vertical circulation elements traversing the grade changes of the through block connection shall be considered a part of the through block connection and not an obstruction.

(e) Connection to public plaza

A public way, open or enclosed, shall be provided connecting the outdoor plaza or the through block connection with the public plaza. Such connection need not be linear and may have necessary grade changes. The retail and glazing requirements of paragraph (k) of this Section shall apply to at least 50 percent of the length of all #building# walls facing each side of such connection (or, if enclosed, the interior walls facing the connection). The minimum clear width of such public way shall be 20 feet. For any portions that are enclosed, the minimum clear height shall be 34 feet within at least 50 percent of the enclosed area of the connection to the public plaza, provided that no portion of the connection to the public plaza shall have a minimum height less than 17 feet. The connection to the public plaza may be occupied by the following permitted obstructions: vertical circulation elements including escalators, stairs and elevators, columns and lighting elements, provided that such permitted obstructions shall not occupy more than 20 percent of the connection to the public plaza and a single path of travel no less than 20 feet in width is maintained. Vertical circulation elements traversing the grade changes of the connection to the public plaza shall be considered a part of the connection to the public plaza and not an obstruction.

(f) Connection to High Line

A publicly accessible connection between the High Line and the outdoor plaza (hereinafter referred to as the "connection") shall be provided that has a minimum width, measured parallel to the High Line, of 60 feet and is located east of the Culture Facility Plaza. For a width of 60 feet measured parallel to the High Line, the clear height of the connection shall be at least 60 feet. Above such height, overhangs of the 60 foot width dimension of the connection shall be permitted by the movable portion of the #ERY Culture, Festival and Exhibit Facility#, provided that the angle of such overhang is a maximum of 14 degrees east of the vertical extension of the western edge of such 60 foot width, as measured from the intersection of such

vertical extension with the 60 foot clear height of the connection. Additionally, such overhang shall project over no more than 16 feet of the 60 foot width dimension. Any portion of the connection east of the minimum 60 foot width shall, if covered, have a minimum clear height of 60 feet. The movable portion of the #ERY Culture, Festival and Exhibit Facility# shall be permitted to overhang any portion of the connection west of such minimum 60 foot width, provided that the angle of such overhanging portion is a maximum of 14 degrees measured at the western edge of the connection at its ground level. The glazing requirements of paragraph (k) of this Section shall apply to at least 50 percent of the length of all #building# walls facing the connection.

(g) Tenth Avenue bridge

A publicly accessible pedestrian bridge shall be provided over Tenth Avenue linking the through block connections required pursuant to paragraph (d) of this Section and paragraph (a) of Section 93-72 (Public Access Areas at 450 West 33rd Street). Such bridge need not be constructed until the 450 West 33rd Street through block connection has been completed. Such bridge may be open or enclosed, have a minimum clear width of 30 feet and, if enclosed, have a minimum clear height of 15 feet. Such bridge shall be located within 10 feet of the center line of West 32nd Street and be at the same elevation as the through block connection required pursuant to paragraph (a) of Section 93-72.

(h) #ERY High Line# and #Tenth Avenue Spur#

The #ERY High Line# shall be provided as a publicly accessible open area. The #Tenth Avenue Spur# may, at the option of the owner, also be provided as a publicly accessible open area.

(1) In order to meet the public access area requirements of Section 93-71, paragraph (a), and this paragraph (h), the following shall be provided for the #ERY High Line#, and shall,

if the owner has elected to include the #Tenth Avenue Spur# as a public access area, be further provided for the #Tenth Avenue Spur#:

(i) Payment of the #High Line Rehabilitation Deposit#; or subject to entry into construction-related agreements with the City or its designee, completion of the rehabilitation of the #ERY High Line# and, if applicable, the #Tenth Avenue Spur#, not later than March 31, 2013, subject to a determination of force majeure by the City in accordance with the terms thereof. If the owner has elected to perform the rehabilitation work, then all such work shall be completed in accordance with plans and specifications prepared by or on behalf of the City;

(ii) Payment of the #High Line Landscape Improvement Deposit#;

(iii) Provision of #High Line Maintenance Funding#;

(iv) An easement agreement allowing use of the #ERY High Line# for public space in accordance with the requirements of this paragraph (h), as well as for use and access for rehabilitation, improvement, maintenance and repair purposes, acceptable to the City.

Such requirements shall be set forth in agreements or instruments in a form acceptable to the City, including such provisions as are necessary to ensure compliance with the provisions of this Section. The execution of such agreements by the owner, and mortgagees and parties in interest of the owner, and, where appropriate, the filing and recordation of such instruments in the Borough Office of the City Register of the City of New York, indexed against the property, shall be a precondition to the Chairperson's

certification to the Department of Buildings for a building permit under Section 93-70. The recording information shall be included on the certificate of occupancy for any #building#, or portion thereof, on the #zoning lot# issued after the recording date.

(2) No certification for the phased development of public access areas on the Eastern Rail Yard Subarea A1 under Section 93-70 shall be permitted unless the #ERY High Line# is included as a public access area for the initial phase in accordance with the provisions of this paragraph (h).

(3) No crane permit shall be granted for construction of a #development# or #enlargement# in such initial phase until the Chairperson certifies to the Department of Buildings that: (i) either the #High Line Rehabilitation Deposit# has been made or all construction documents and instruments necessary for accomplishment of the rehabilitation of the #ERY High Line# and, if applicable, the #Tenth Avenue Spur#, in accordance with paragraph (h)(1)(i) of this Section, have been executed and delivered; and (ii) the #High Line Landscape Improvement Deposit# has been made.

(4) No temporary or permanent certificate of occupancy for a #development# or #enlargement# in such initial phase shall be granted unless the Chairperson certifies to the Department of Buildings that (i) either the #High Line Rehabilitation Deposit# has been previously furnished or the rehabilitation of the #ERY High Line# and, if applicable, the #Tenth Avenue Spur#, have been completed in accordance with the construction documents and instruments; (ii) the initial installment of #High Line Maintenance Funding# has been delivered, provided and to the extent that the #ERY High Line# and, if applicable, the #Tenth Avenue Spur#, have been substantially completed and are open for use by the public; and (iii) the easement agreement described in paragraph (h)(1)(iv) of this Section, is in effect for the #ERY High Line#.

The requirement for a certification of substantial completion of public access areas before the granting of a temporary certificate of occupancy for the #development# or #enlargement# within such phase pursuant to Section 93-70 shall not apply with respect to the #ERY High Line# and, if applicable, the #Tenth Avenue Spur#.

(5) Nothing herein shall be construed to affect any obligation of the owner to make the #High Line Rehabilitation Deposit# at an earlier date, in accordance with the terms of agreements or instruments entered into by the parties, or to complete rehabilitation work for the #ERY High Line# and, if applicable, the #Tenth Avenue Spur#, by March 31, 2013, subject to a determination of force majeure by the City in accordance with the terms of such agreements.

(6) Use by the City of the #High Line Landscape Improvement Deposit# for improvement of the #ERY High Line# and, if applicable, the #Tenth Avenue Spur#, shall be subject to approval by the Chairperson, based upon a determination that the design and location of access points to the #ERY High Line# and, if applicable, the #Tenth Avenue Spur#, have been arranged such that public use thereof will not result in any significant adverse impacts with respect to transit or pedestrians.

(i) Certifications for phased development pursuant to Section 93-70 granted before May 31, 2012

If a certification for the phased development of public access areas on the Eastern Rail Yard Subarea A1 under Section 93-70 was granted before May 31, 2012, such certification shall expire 45 days following such date and shall thereupon no longer be in force and effect. Within said 45-day period, a new application for certification pursuant to Section 93-70 and Section 93-71, paragraph (h), shall be filed by the owner which shall include the #ERY High Line# and, if applicable, the #Tenth Avenue Spur#, as public access areas associated with the initial phase, in addition to any other public access areas previously so certified. The expiration of any certification under Section 93-70 granted before May 31, 2012, shall not affect the validity of

any permit issued by the Department of Buildings prior to the expiration of such 45-day period, provided the new application under Section 93-70 and Section 93-71, paragraph (h), is made within such 45-day period.

In the event that a certification for the phased development of public access areas on the Eastern Rail Yard Subarea A1 under Section 93-70 was granted before May 31, 2012, and a crane permit for the construction of a #development# or #enlargement# within such initial phase was granted prior to 45 days after May 31, 2012, the preconditions to issuance of a crane permit set forth in Section 93-71, paragraph (h), shall be prerequisites for the grant of any new certification for phased development made under this paragraph (i).

(j) Culture Facility Plaza

A publicly accessible space located east of and #abutting# the non-moveable portion of an #ERY Culture, Festival and Exhibit Facility#, and bounded to the north by the outdoor plaza and to the south by the #ERY High Line# shall be provided. During times when the Culture Facility Plaza is not covered by the moveable portion of an #ERY Culture, Festival and Exhibit Facility#, the Culture Facility Plaza may be used for purposes of outdoor events related to an #ERY Culture, Festival and Exhibit Facility#. Outdoor installations for such events, including seating, shall be restricted to the Culture Facility Plaza. All such events shall be open and accessible to the general public free of admission charge, provided that ticketed events with tickets available on a first come, first served, or timed basis, shall be permitted. During all times when the Culture Facility Plaza is not used for an #ERY Culture, Festival and Exhibit Facility# event or covered by the moveable portion of an #ERY Culture, Festival and Exhibit Facility#, the Culture Facility Plaza shall be open and accessible to the public between the hours of 6:00 a.m. and 1:00 a.m. Notwithstanding any other provision, the Culture Facility Plaza may be closed to the public not more than 12 days each calendar year for an event related to the #ERY Culture, Festival and Exhibit Facility#, provided that not less than five days prior to any such

closing, notice is given to the applicable community board and is posted at conspicuous locations at such plaza. No #building# or portion of a #building# that is not used for an #ERY Culture, Festival and Exhibit Facility# shall have any obligation to comply with the requirements of paragraph (a), or this paragraph (j), of this Section related to the Culture Facility Plaza.

(k) Retail continuity requirements for public access areas

Within the Eastern Rail Yard Subarea A1, the retail continuity and transparency requirements of this paragraph are applicable to specified #building# walls facing certain public access areas. The applicability of retail, transparency or both provisions, are set forth in the individual provisions of this Section.

(1) Retail requirements

#Uses# on the portion of the #ground floor level# frontage along a publicly accessible open space required pursuant to this paragraph, to the minimum depth set forth in Section 37-32 (Access and Circulation), inclusive, shall be limited to permitted #commercial uses#, except for lobbies, entrances and exits to off-street parking facilities and entryways to #mass transit stations#, as provided by Section 37-33 (Maximum Width of Certain Uses). However, within the Eastern Rail Yard Subarea A1, the width of a lobby located on a #building# wall facing the eastern boundary of the outdoor plaza may occupy 120 feet or 25 percent of such #building# wall, whichever is less. At least 50 percent of the frontage not otherwise occupied by excepted #uses# shall be allocated to #uses# listed under Use Groups VI and VIII. All parking shall be wrapped by #floor area# in accordance with the provisions of paragraph (a) of Section 37-35.

(2) Glazing requirements#

Ground floor level# #street walls# shall be glazed in accordance with the provisions of Section 37-34 (Minimum Transparency Requirements).

93-72 - Public Access Areas at 450 West 33rd Street

LAST AMENDED
4/29/2014

For the purposes of this Section 93-72, inclusive, 450 West 33rd Street shall be considered the area bounded by the eastern #street line# of Tenth Avenue, the northern #street line# of West 31st Street, a line 302 feet east of the eastern #street line# of Tenth Avenue and the southern #street line# of West 33rd Street. Such area shall include the tax lots located at Block 729, Lots 1 and 15, existing on April 29, 2014. Any #development# or #enlargement# in such area shall provide public access areas in accordance with the provisions of this Section. However, if a special permit has been granted for the #development# of an arena pursuant to Section 74-41 in the area bounded by the western #street line# of Ninth Avenue, the northern #street line# of West 31st Street, a line 498 feet west of the western #street line# of Ninth Avenue and the southern #street line# of West 33rd Street, the provisions of this Section may be waived or modified in conjunction with such special permit. All public access areas listed in this Section shall be accessible to the public between the hours of 6:00 a.m. and 1:00 a.m.

(a) Through block connection

A publicly accessible through block connection shall be provided within 10 feet of the prolonged center line of West 32nd Street, at an elevation that connects the Tenth Avenue pedestrian bridge required pursuant to paragraph (g) in Section 93-71 with the Dyer Avenue Platform required pursuant to paragraph (b) of this Section and paragraph (e) of Section 93-

73 (Public Access Areas on the Ninth Avenue Rail Yard). Public access shall also be provided between such through block connection and the Tenth Avenue sidewalk.

For #developments# or #enlargements# where 75 percent or less of the total #floor area# existing on the #zoning lot# on January 19, 2005, has been demolished, such through block connection shall be open or enclosed and have a minimum clear width of 30 feet. If enclosed, at least 75 percent of such through block connection shall have a minimum clear height of 30 feet, and the remainder shall have a minimum clear height of 20 feet.

For #developments# or #enlargements# where more than 75 percent of the total #floor area# existing on the #zoning lot# on January 19, 2005, is demolished, such through block connection shall have a minimum width of 60 feet and a minimum clear path of 20 feet, and have retail uses fronting upon at least 50 percent of its northern and southern boundaries. At least 60 percent of such through block connection shall be enclosed, with an average clear height of 60 feet and a roof of transparent material that allows for natural daylight to enter. Direct access shall be provided to any #building# adjacent to such through block connection. The maximum height of a #building# wall along the southern boundary of the through block connection shall not exceed the average height of the enclosed portion, or the height at which an arched or angled ceiling of the enclosed through block connection begins, whichever is less. Any portion of a #building# that exceeds such height shall be set back at least 20 feet in depth from the southern boundary of the through block connection. Any portion of such through block connection that is open to the sky shall comply with the provisions for #public plazas# set forth in Sections 37-718, 37-726, 37-728, 37-741, 37-742, 37-743, 37-744, 37-75, 37-76 and 36-77.

An #enlargement# that does not increase the total #floor area# on the #zoning lot# to more than 1,373,700 square feet, shall not be considered an #enlargement# for purposes of this paragraph (a).

(b) Dyer Avenue Platform

A permanent easement shall be provided along the eastern edge of 450 West 33rd Street, as shown on Map 1 (Subdistrict B: 450 West 33rd Street and Ninth Avenue Rail Yard Public Access Area Plan) in Appendix B of this Chapter, for the purposes of constructing the Dyer Avenue Platform required pursuant to paragraph (d) of Section 93-73. Such easement shall have a minimum width of 33 feet. Any amenities required by paragraph (d) of Section 93-73 may be located within such easement.

(c) West 31st Street Passageway

A publicly accessible passageway space, (hereinafter referred to as the "West 31st Street passageway") shall be provided connecting the Tenth Avenue podium required pursuant to paragraph (d) of this Section to the Dyer Avenue Platform required pursuant to paragraph (d) of Section 93-73, as shown on Map 1 in Appendix B. The West 31st Street passageway shall be located at the same elevation as the Dyer Avenue Platform. Such space shall be located within 35 feet of West 31st Street, have a minimum clear path of 10 feet and be visually open to West 31st Street except for structural elements of the #building# at 450 West 33rd Street.

(d) Tenth Avenue podium

(1) Location and minimum dimensions

A publicly accessible area (hereinafter referred to as the "Tenth Avenue podium") shall be provided at the corner of Tenth Avenue and West 31st Street, as shown on Map 1 in Appendix B. The Tenth Avenue podium shall have a minimum area of 1,800 square feet, be located at the same elevation as the Dyer Avenue Platform

required pursuant to paragraph (d) of Section 93-73, and shall connect to the West 31st Street passageway required pursuant to paragraph (c) of this Section.

(2) Required amenities

The Tenth Avenue podium shall contain a minimum of four trees and be directly accessible from West 31st Street by a staircase and elevator. The stair and the adjoining area shall be open to West 31st Street except for columns and structural elements of the 450 West 33rd Street #building#.

93-721 - Design and maintenance requirements for public access areas at 450 West 33rd Street

LAST AMENDED
8/9/2017

Public access areas at 450 West 33rd Street provided pursuant to the requirements of Section 93-72 shall comply with the applicable design reference standards set forth in paragraph (a), and the maintenance provisions of paragraph (b) of this Section.

(a) Design reference standards

The public access areas required by paragraphs (c) and (d) of Section 93-72 shall comply with the following applicable design standards:

(1) at least two litter receptacles in such public access areas shall be provided;

(2) the public access areas at 450 West 33rd Street shall provide the following public signage system:

(i) One entry plaque shall be provided in each of the following locations:

(a) the Dyer Avenue access point to the West 31st Street Passageway;

(b) the Tenth Avenue Podium access point to the West 31st Street Passageway; and

(c) the #street# level entrance to the Tenth Avenue Podium.

(ii) Each entry plaque is subject to the signage standards as set forth in paragraphs (a)(1) through (a)(4) of Section 37-751 (Public space signage systems).

(iii) Each entry plaque shall be mounted on a wall, a permanent free-standing post, or on a post located within a planter, with its center five feet above the elevation of the nearest walkable pavement. The maximum height of such free-standing post shall be six feet, with a maximum width and depth of 16 inches. Each entry plaque shall be in a position that clearly identifies the entry into the portion of the public access areas at 450 West 33rd Street that such plaque is provided in connection with, and placed so that the entire entry plaque is obvious and directly visible, without any obstruction, along every line of sight from all paths of pedestrian access to that portion of the public access areas at 450 West 33rd Street.

(iv) A minimum of two information plaques, constructed from the same permanent materials as the entry plaque, or combined with one or more of the required entry plaques, shall be provided within the public access areas. Information plaques shall be mounted on a wall, a permanent free-standing post, or on a post located within a planter, with its center five feet above the elevation of the nearest walkable pavement. The maximum height of such free-standing post shall be six feet, with a maximum width and depth of 16 inches.

(v) The information plaque is subject to the signage standards as set forth in paragraphs (b)(1) through (b)(6) of Section 37-751, except that paragraph (b)(3) shall be modified to read, "in lettering three-eighths of an inch in height, the words: 'This public access area contains:'" followed by the total linear feet of seating, the type and quantity of trees and the number of additional required amenities, such as moveable seating, that are provided in the portion of the public access area in which the entry plaque or information plaque is provided.

(3) the minimum level of illumination shall be 1.5 horizontal foot candles (lumens per foot);

(4) no gates, fences or other barriers shall be permitted within such public access areas; and

(5) for the purposes of applying the #sign# regulations to #building# walls facing public access areas, such public access areas shall be considered #streets#.

(b) Maintenance

The owner(s) shall be responsible for the maintenance of all public access areas, including, but not limited to, litter control, management of pigeons and rodents, maintenance of required lighting levels, and the care and replacement of furnishings and vegetation.

93-722 - Certification for public access areas at 450 West 33rd Street

LAST AMENDED
4/29/2014

For #enlargements# that do not increase the total #floor area# on the #zoning lot# to more than 1,373,700 square feet, in accordance with the provisions of Section 93-732 (Certification for public access areas on the Ninth Avenue Rail Yard), no temporary or permanent certificate of occupancy shall be issued by the Department of Buildings for more than 3,204,000 square feet of #floor area developed# or #enlarged# on the Ninth Avenue Rail Yard until the Chairperson of the City Planning Commission certifies to the Commissioner of Buildings that a phasing plan has been submitted requiring the West 31st Street Passageway and the Tenth Avenue Podium, required pursuant to paragraphs (c) and (d) of Section 93-72 (Public Access Areas at 450 West 33rd Street), respectively, to be substantially complete and open to and useable by the public.

93-73 - Public Access Areas on the Ninth Avenue Rail Yard

LAST AMENDED
6/6/2024

For the purposes of this Section 93-73, inclusive, the Ninth Avenue Rail Yard shall be considered the area bounded by the western #street line# of Ninth Avenue, the northern #street line# of West 31st Street, a line located 498 feet west of the western #street line# of Ninth Avenue and the southern #street line# of West 33rd Street. Such area shall include the tax lots located at Block 729, Lots 50 and 60, existing on April 29, 2014. Any #development# in such area shall provide public access areas in accordance with the provisions of Section 93-73, inclusive.

Public access areas on the Ninth Avenue Rail Yard shall be comprised of the types of public access areas listed in this Section. Public access areas shall also include the area of the sidewalk widenings along Ninth Avenue and West 33rd Street required pursuant to Section 93-61. The entry plaza and the art plaza, as set forth in paragraphs (a) and (c) of this Section, respectively, shall be subject to the hours of access provisions set forth in Section 37-727. All other public access areas listed in this Section shall be accessible to the public between the hours of 6:00 a.m. and 1:00 a.m.

(a) Entry Plaza

(1) Location and minimum dimensions

A publicly accessible space, open to the sky (hereinafter referred to as the "entry plaza"), shall be located within the area bounded by the western #street line# of Ninth Avenue, the southern #street line# of West 33rd Street, a line 168 feet south of and parallel to the southern #street line# of West 33rd Street and a line 60 feet west of and parallel to the western #street line# of Ninth Avenue, as shown on Map 1 (Subdistrict B: 450 West 33rd Street and Ninth Avenue Rail Yard Public Access Area Plan) in Appendix B of this Chapter. The entry plaza shall have a minimum area of 10,080 square feet, shall have a minimum frontage along Ninth Avenue of 168 feet and shall provide a direct connection to the central plaza required pursuant to paragraph (b) of this Section. No more than 50 percent of the entry plaza area shall be covered by the permitted obstructions described in paragraph (a) of Section 37-726.

(2) Required amenities

The entry plaza shall have the following amenities:

(i) a minimum of eight trees (or other amounts equivalent to a minimum of 32 caliper inches);

(ii) at least 336 linear feet of seating including a minimum of 48 moveable chairs and 12 moveable tables. At least 50 percent of the seating, including movable seats, shall have backs and no more than 50 percent of the seating with backs shall be movable seating;

(iii) two or more planting beds which, in the aggregate, occupy an area of at least 800 square feet. No more than 35 percent of the linear feet of the planting beds shall have bounding walls exceeding 18 inches in height above an adjacent walking surface;

(iv) ground floor transparency, in accordance with the provisions of Section 37-34 , shall apply to at least 70 percent of the length of all #building# walls facing the entry plaza; and

(v) one clear pedestrian circulation path with a minimum width of 12 feet shall be provided adjacent to the #building# facing the entry plaza and shall extend for the full length of the #building# frontage.

(b) Central Plaza

(1) Location and minimum dimensions

A publicly accessible space (hereinafter referred to as the “central plaza”), shall be located within an area bounded by the western #street line# of Ninth Avenue, a line 168 feet south of and parallel to the southern #street line# of West 33rd Street, a line

478 feet west of and parallel to the western #street line# of Ninth Avenue, a line 167 feet north of and parallel to the northern #street line# of West 31st Street beyond 40 feet of the western street line of Ninth Avenue, a line 40 west of and parallel to the western #street line# of Ninth Avenue and a line 187 feet north of and parallel to the northern #street line# of West 31st Street within 40 feet of the western street line of Ninth Avenue, as shown on Map 1 in Appendix B of this Chapter. Except as provided in paragraph (b)(3) of this Section, the central plaza shall have a minimum area of 47,800 square feet, and shall have a minimum north-south dimension of 100 feet as measured from the #building# walls of the #buildings# facing onto the central plaza of. The central plaza shall be open to the sky, except:

(i) for the area occupied by the pavilion permitted by paragraph (b)(2)(vii) of this Section; and

(ii) within a line 115 feet west of and parallel to the western #street line# of Ninth Avenue, a #building# may cantilever over the central plaza and required circulation paths located therein, provided such cantilever extends no greater than 10 feet over such central plaza.

(2) Required amenities

The central plaza shall contain the following features and amenities:

(i) Landscaped area

A landscaped area shall be provided and shall contain a minimum of 44 trees (or other amounts equivalent to a minimum of 176 caliper inches), and planting beds which, in the aggregate, occupy an area of at least 7,500 square feet.

Within the area bounded by the western #street line# of Ninth Avenue and a

line drawn 45 feet west of the western #street line# of Ninth Avenue, a minimum of 1,000 square feet of such total requirement shall be occupied by planting beds.

(ii) Seating

A minimum of 725 linear feet of seating shall be provided, with 120 moveable chairs and 30 moveable tables. At least 50 percent of the required seating shall have backs.

Within the area bounded by the western #street line# of Ninth Avenue and a line drawn 45 feet west of the western #street line# of Ninth Avenue, a minimum of 50 linear feet of seating of such total requirement shall be provided, of which 50 percent shall have backs.

(iii) Event space

The portion of the central plaza located beyond a line drawn 295 feet west of and parallel to the western #street line# of Ninth Avenue may be used for events (hereinafter referred to as the "event space"). Such event space may be used for events not exceeding a maximum area of 4,500 square feet, except as set forth below for summer public events and winter public events. When the event space is not being used for an event (general public events, summer public events, winter public events and private events), it shall contain a minimum of 192 linear feet of seating, with 96 moveable chairs and 24 moveable tables and, between April 1 and November 15, a minimum of two moveable food carts within the event space or on the periphery thereof. Such tables and chairs shall be in addition to the amount required for the landscaped area in paragraph (b)(2)(ii) of this Section. When the event space is being used for an event (general public events, summer public events, winter

public events and private events), the additional tables, chairs and moveable food carts may be removed.

(a) General Public Events

At all times of the year, the event space may be used to host general public events which are open and accessible to the general public and free of admission. During such public events, the event space may contain associated temporary structures and seating.

(b) Summer Public Events

For not more than 75 days between April 1 and November 15, the event space may be used for summer public events which are open and accessible to the general public and free of admission charge, where the temporary structures and seating associated with such summer public events may extend beyond 4,500 square feet, provided that the total area used for such summer public events does not exceed an additional 2,000 square feet and is located beyond a line drawn 295 feet west of and parallel to the western #street line# of Ninth Avenue.

(c) Winter Public Events

Between November 15 and April 1, an ice skating rink, together with associated temporary structures, may extend beyond 4,500 square feet, provided that the total area used for the ice skating rink together with associated temporary structures does not exceed an additional 2,000 square feet and is located beyond a line drawn 295 feet west of and parallel to the western #street line# of Ninth Avenue. The ice

skating rink shall be open and accessible to the general public, but a fee for use of the ice skating rink may be charged, provided the combined total admission and equipment rental fees do not exceed the highest of such combined fees charged at any one rink operating in a #public park#.

(d) Private Events

The City Planning Commission may allow the closing of the event space for up to 12 private events per year pursuant to a restrictive declaration acceptable to the City and recorded in the Office of the City Register for New York County and indexed against the property.

For all events specified in this Section, temporary structures or seating associated with such an event (general public events, summer public events, winter public events and private events) permitted by this paragraph may be installed in the event space, provided the circulation paths required in paragraph (b)(2)(iv) of this Section remain unobstructed at all times.

(iv) Circulation paths

Circulation paths in the central plaza shall meet the following minimum requirements:

(a) pedestrian circulation paths with an aggregate width of not less than 30 feet shall be provided;

(b) at least two of the required circulation paths with a minimum clear width of 12 feet shall be located within 20 feet of the facade of each #building# facing the central plaza;

(c) in addition to the circulation paths required by paragraph (b)(2)(iv)(a) of this Section, at least two circulation paths shall be provided through the landscaped area required by paragraph (b)(2)(i) of this Section, which connect with the circulation paths required by paragraph (b)(2)(iv)(b) of this Section;

(d) all circulation paths shall be unobstructed during events held in the event space permitted by paragraph (b)(2)(iii) of this Section; and

(e) clear paths, with a total minimum aggregate width of 20 feet, shall be located at the boundary between the entry plaza, required pursuant to paragraph (a) of this Section, and the central plaza, required by paragraph (b) of this Section, and at the boundary between the art plaza, required pursuant to paragraph (c) of this Section, and the central plaza, required by paragraph (a) of this Section, provided that up to eight feet of such required clear path may be located within the entry plaza and within the art plaza, respectively, and that all clear paths counted toward the aggregate minimum width required by this paragraph shall be a minimum of 7 feet, 6 inches in clear width, and be located no further than 12 feet apart from one another.

(v) Transparency

The transparency requirements of Section 37-34 (Minimum Transparency Requirements) shall apply to the ground floor level of at least 70 percent of the length of all #building# walls facing each side of the central plaza.

(vi) Retail continuity

At least 40 percent of the frontage of any #building# fronting on the central plaza shall comply with the retail continuity requirements of paragraph (a) of

Section 37-76 (Mandatory Allocation of Frontages for Permitted Uses) and at least 50 percent of the aggregate frontage of all #buildings# fronting on the central plaza shall comply with the retail continuity requirements of paragraph (a) of Section 37-76. Such retail space shall have a minimum depth of 30 feet measured perpendicular to the wall adjoining the central plaza.

(vii) Pavilion

A #building# (hereinafter referred to as a "pavilion") containing #uses# listed in Use Groups 6A and 6C may be located within the central plaza, provided that such pavilion, and any seating associated with a #use# in the pavilion, shall be located at least ten feet west of the prolongation of the east face of the #building# fronting on the north side of the central plaza. The pavilion shall have a minimum #lot coverage# of 1,000 square feet and a maximum #lot coverage# of 3,000 square feet, with a maximum width of 40 feet parallel to Ninth Avenue. Such pavilion shall be no more than one #story# in height, except such one #story# limitation may be exceeded by portions of the pavilion allocated to mechanical equipment as well as restrooms and a food preparation kitchen occupying, in the aggregate, no more than 200 square feet area. Such pavilion shall not exceed a height limit of 25 feet, except that the permitted obstructions set forth in Section 33-42, as well as restrooms and a food preparation kitchen located above the level of the first #story# may be permitted to exceed such height limit provided that the height of such restroom and food preparation kitchen do not exceed ten feet. Seating may be provided for the #uses# in the pavilion provided that the total area occupied by the pavilion and such associated seating does not exceed a maximum #lot coverage# of 3,600 square feet and that such seating shall not count towards meeting the seating requirements set forth in paragraphs (b)(2)(ii) and (iii) of this Section. Floor space within the pavilion shall not be considered #floor

area#. At least 60 percent of the exterior walls of the pavilion shall be transparent except for structural supports, provided that 100 percent of the east facing wall of the pavilion shall be transparent except for structural supports.

(3) Alternative design option

Notwithstanding the provisions of paragraph (b)(1) of this Section, the minimum north-south width of the central plaza may be reduced to no less than 80 feet for at least 50 percent of the aggregate frontage of the #buildings# fronting on the central plaza, provided that such narrowed portion begins no further than 150 feet from the western #street line# of Ninth Avenue, and further provided that the minimum size of the central plaza is not less than 41,382 square feet. The minimum height of a #building# wall fronting upon such narrowed portion shall be 45 feet, and the maximum height of such #building# wall shall not exceed 85 feet. Above a height of 85 feet, the minimum setback distance shall be 10 feet and the minimum distance between #buildings# fronting on the central plaza shall be 100 feet.

(c) Art Plaza

(1) Location and minimum dimensions

A publicly accessible space open to the sky (hereinafter referred to as the "art plaza") shall be located in the area bounded by the western #street line# of Ninth Avenue, the northern #street line# of West 31st Street, a line 40 feet west of and parallel to the western #street line# of Ninth Avenue and a line 187 feet north of and parallel to the northern #street line# of West 31st Street, as shown on Map 1 in Appendix B. The art plaza shall have a minimum area of 7,480 square feet, a minimum east-west dimension of 40 feet and shall provide a direct connection to the central plaza required pursuant to paragraph (b) of this Section.

(2) Required amenities

The art plaza shall contain the following features and amenities:

(i) a minimum of four trees (or other amounts equivalent to a minimum of 16 caliper inches);

(ii) planting beds which, in the aggregate, occupy an area of at least 410 square feet;

(iii) a minimum of 45 linear feet of seating;

(iv) one or more pieces of artwork. Such artwork may not incorporate addresses, text or logos related to the adjacent #building# or tenants of such #building#; and

(v) the transparency requirements of Section 37-34 shall apply to the ground floor level of at least 70 percent of the length of all #building# walls facing the art plaza.

(d) Dyer Avenue Platform

(1) Location and minimum dimensions

A publicly accessible platform shall be constructed over Dyer Avenue connecting West 33rd Street and West 31st Street (hereinafter referred to as the "Dyer Avenue Platform"), as shown on Map 1 in Appendix B. The Dyer Avenue Platform shall include the easement area described in paragraph (b) of Section 93-72 and shall directly connect with the central plaza and the West 31st Street connector required by paragraphs (b) and (e) of this Section, respectively. The Dyer Avenue Platform shall have a minimum east-west dimension of 53 feet and a minimum north-south dimension of 455 feet. However, such minimum east-west dimension may be reduced

to accommodate an extension of such existing egress stair in order to adjoin the level of the platform, or to accommodate up to 15 inches of additional exterior wall thickness added to the eastern face of the existing #building# at 450 West 33rd Street. Except for any portion of the Dyer Avenue Platform which on April 29, 2014, was covered by the #building# located at 450 West 33rd Street and the existing egress stairs on the eastern face on such #building#, or the permitted additions thereto, respectively, the Dyer Avenue Platform shall be open to the sky.

(2) Required amenities

The Dyer Avenue Platform shall contain the following features and amenities which may be located on the portion of the Dyer Avenue Platform located within the easement provided pursuant to paragraph (b) of Section 93-72 (Public Access Areas at 450 West 33rd Street):

(i) a minimum of 16 trees (or other amounts equivalent to a minimum of 64 caliper inches), of which a minimum of 12 trees (or other amounts equivalent to a minimum of 48 caliper inches) shall be located south of the center line of the prolongation of West 32nd Street;

(ii) planting beds, which in the aggregate, occupy an area of at least 1500 square feet, of which a minimum of 450 square feet of planting beds shall be located south of the center line of the prolongation of West 32nd Street and a minimum of 250 square feet of planting beds shall be located within 30 feet of the southern street line of 33rd Street. No more than 25 percent of the linear feet of the planting beds shall have bounding walls exceeding 18 inches in height above an adjacent walking surface;

(iii) a minimum of 350 linear feet of seating shall be provided, of which 50 percent shall consist of seats with backs and with at least 210 linear feet of seating located south of the center line of the prolongation of West 32nd Street and a

minimum of 50 linear feet of seating located within 30 feet of the southern street line of West 33rd Street;

(iv) the glazing requirements of Section 37-34 shall apply to the ground floor level of at least 70 percent of the length of all #building# walls fronting on the eastern edge of the Dyer Avenue Platform; and

(v) at least two pedestrian circulation paths with a minimum clear path of eight feet or one circulation path with a minimum clear path of 12 feet shall be provided along the full length of the Dyer Avenue Platform, from West 31st Street to West 33rd Street.

Vertical circulation elements, including stairs and ramps traversing the grade changes of the Dyer Avenue Platform shall be considered a part of the Dyer Avenue Platform and not an obstruction.

(e) West 31st Street Connector

(1) Location and minimum dimensions

A publicly accessible connection (hereinafter referred to as the "West 31st Street connector") shall be provided between the Dyer Avenue Platform required pursuant to paragraph (e) of this Section and West 31st Street, as shown on Map 1 in Appendix B. The West 31st Street connector shall be located on West 31st Street adjoining the eastern boundary of the Dyer Avenue Platform and shall have a minimum area of 450 square feet.

(2) Required amenities

The West 31st Street connector shall be directly accessible from West 31st Street by a staircase with a minimum width of eight feet and by an elevator.

(f) Connection to below-grade passage

Where a pedestrian passage extending from the Eighth Avenue Subway beneath West 33rd Street to the west side of Ninth Avenue has been constructed, an entrance within the #development# shall be constructed that connects with such passage.

93-731 - Design and maintenance requirements for public access areas on the Ninth Avenue Rail Yard

LAST AMENDED
8/9/2017

Public access areas on the Ninth Avenue Rail Yard provided pursuant to the requirements of Section 93-73, shall comply with the applicable design reference standards set forth in paragraph (a) and the maintenance provisions of paragraph (b) of this Section.

(a) Design reference standards

(1) seating shall meet the minimum and maximum dimensional standards set forth in paragraphs (1) through (7) of Section 37-741 (Seating), inclusive;

(2) where planting areas are provided, they shall meet the soil depth, continuous area, permeable surface and irrigation requirements of Section 37-742 (Planting and trees). Where trees are provided, they shall meet the planting standards, soil requirements and irrigation standards set forth in Section 37-742;

(3) steps shall meet the minimum dimensional standards set forth in Section 37-725 (Steps);

(4) kiosks or open air cafes shall meet the operational and service requirements listed in paragraphs (a) and (b) of Section 37-73 (Kiosks and Open Air Cafes) and shall not occupy in the aggregate more than 20 percent of the public access areas required by Section 93-73. Seating provided as part of an open air cafe shall not count towards meeting the seating requirements of a public access area listed in Section 93-73;

(5) the public access areas on the Ninth Avenue Rail Yard shall provide the following public signage system:

(i) One entry plaque in each of the following locations:

(a) entry to the Entry Plaza from West 33rd Street;

(b) entry to the Central Plaza from Ninth Avenue;

(c) entry to the Art Plaza from West 31st Street;

(d) sidewalk level entry to the West 31st Street Connector; and

(e) entry to the Dyer Avenue Platform from West 33rd Street.

(ii) Each entry plaque is subject to the signage standards as set forth in paragraph (a)(1) through (a)(4) of Section 37-751 (Public space signage systems).

(iii) Each entry plaque shall be mounted on a wall, a permanent free-standing post, or on a post located within a planter, with its center five feet above the elevation of the nearest walkable pavement. The maximum height of such

free-standing post shall be six feet, with a maximum width and depth of 16 inches. Each entry plaque shall be in a position that clearly identifies the entry into the portion of the public access areas on the Ninth Avenue Rail Yard that such plaque is provided in connection with, and placed so that the entire entry plaque is obvious and directly visible, without any obstruction, along every line of sight from all paths of pedestrian access to that portion of the public access areas on the Ninth Avenue Rail Yard.

(iv) A minimum of one information plaque, constructed from the same permanent materials as the entry plaques, or combined with one or more of the required entry plaques, shall be provided within the Art Plaza, the Entry Plaza, the Central Plaza and Dyer Avenue. The information plaque shall be mounted on a wall, a permanent free-standing post, or on a post located within a planter, with its center five feet above the elevation of the nearest walkable pavement. The maximum height of such free-standing post shall be six feet, with a maximum width and depth of 16 inches.

(v) Each information plaque is subject to the signage requirements as set forth in paragraphs (b)(1) through (b)(6) of Section 37-751 except that paragraph (b)(3) shall be modified to read, "in lettering three-eighths of an inch in height, the words: 'This public access area contains:'" followed by the total linear feet of seating, the type and quantity of trees and the number of additional required amenities, such as moveable seating, that are provided in the portion of the public access area in which the entry plaque or information plaque is provided.

(6) where #buildings# front on to public access areas, canopies, awnings, marquees and sun control devices shall be permitted pursuant to the standards set forth in paragraph (c) of Section 37-726 (Permitted obstructions);

(7) the aggregate number of litter receptacles in such public access areas shall be 21;

(8) no gates, fences or other barriers shall be permitted within such public access areas except that protective bollards provided in connection with the development of the Ninth Avenue Rail Yard may be located within the required public access areas; and

(9) for the purposes of applying the #sign# regulations to #building# walls facing public access areas, such public access areas shall be considered #streets#.

(b) Maintenance

The owner or owners shall be responsible for the maintenance of all public access areas, including, but not limited to, litter control, management of pigeons and rodents, maintenance of required lighting levels, and the care and replacement of furnishings and vegetation.

93-732 - Certification for public access areas on the Ninth Avenue Rail Yard

LAST AMENDED
4/29/2014

No certification for the phased development of public access areas on the Ninth Avenue Rail Yard shall be permitted until a plan has been submitted that provides for the completion of public access areas in accordance with the provisions of this Section. Such plan shall provide, at a minimum, that the entry plaza, required pursuant to paragraph (a) of Section 93-73 (Public Access Areas on the Ninth Avenue Rail Yard) will be provided in connection with the construction of a #building#

located on the northeast corner of the Ninth Avenue Rail Yard, that the art plaza, required pursuant to paragraph (c) of Section 93-73, will be provided in connection with the construction of a #building# located on the southeast corner of the Ninth Avenue Rail Yard and that in connection with the construction of a #building# on the southwest corner of the Ninth Avenue Rail Yard, the West 31st Street connector required by paragraph (e) of Section 93-73, and a 20-foot wide paved area along the eastern edge of Dyer Avenue and extending for the north-south dimension of such #building# will be provided.

An application for certification under this Section shall be filed with the Chairperson of the City Planning Commission and such application shall include a site plan indicating the area and dimensions of the public access area, or portions thereof, and a detailed plan or plans demonstrating compliance with the requirements of Section 93-73.

Plans for the public access areas shall be set forth in an instrument in a form acceptable to the City, including such provisions as are necessary to ensure compliance with the provisions of this Section. Such instrument shall be filed and duly recorded in the Office of the City Register of the City of New York for New York County and indexed against the property. Such filing and recording of the instrument shall be a precondition for the Chairperson's certification to the Department of Buildings under this Section. The recording information shall be included on the certificate of occupancy for any #building#, or portion thereof, on the #zoning lot# issued after the recording date.

No temporary certificate of occupancy from the Department of Buildings may be issued for any portion of a #development# within a phase until the Chairperson of the City Planning Commission certifies to the Department of Buildings that the public access area, or portions thereof associated with such phase, is substantially complete and that such public access area, or portions thereof, are open to and useable by the public. No permanent certificate of occupancy from the Department of Buildings may be issued for any portion of such #development# until the Chairperson certifies to the Department of Buildings that the public access areas, or portions thereof, are fully complete, and that all requirements of this Section have been met in accordance with the plans for public access area, or portions thereof associated with such phase.

No temporary certificate of occupancy from the Department of Buildings may be issued for a #building#, or portion thereof, where the total amount of #floor area# that has been #developed# or #enlarged# on the Ninth Avenue Rail Yard exceeds 3,204,000 square feet until the Chairperson of the City Planning Commission certifies to the Commissioner of Buildings that the public access areas at 450 West 33rd Street required by paragraphs (c) and (d) of Section 93-72 and that all public access areas on the Ninth Avenue Rail Yard required by Section 93-73 have been substantially completed and are open and usable by the public. Notwithstanding the foregoing, the Chairperson may, with respect to the public access area required by paragraph (c) and the elevator required by paragraph (d) of Section 93-72 at 450 West 33rd Street, certify to the Commissioner of Buildings that such temporary certificate of occupancy may be issued absent their substantial completion provided that:

(a) the owner of 450 West 33rd Street has submitted proof that all or portions of the area of the West 31st Street passageway required by paragraph (c) of Section 93-72 was at any time subject to a lease with an expiration date of December 31, 2019, and was not able to obtain control of the areas subject to such lease on or before December 31, 2017;

(b) a letter of credit has been posted in accordance with City requirements, and such letter of credit:

(1) is in an amount equal to 200 percent of the estimated cost to construct the public access area and the elevator at 450 West 33rd Street, required by paragraphs (c) and (d) of Section 93-72, respectively, as set forth in a cost estimate prepared by a professional engineer. Such cost estimate shall be based upon construction documents prepared by a registered architect and submitted with the application for certification pursuant to this Section, and shall be subject to review and acceptance by the City; and

(2) authorizes the City to draw upon the letter of credit if such public access area and elevator have not been substantially completed and are not open and usable by the

public by December 31, 2022;

(c) that an easement agreement has been recorded granting the City access to 450 West 33rd Street and the Ninth Avenue Rail Yard, as may be necessary for purposes of constructing the public access area and elevator required by paragraphs (c) and (d) of Section 93-72, respectively, if they are not completed by the owner by December 31, 2022; and

(d) in addition to the foregoing, such letter of credit shall be maintained from the date of certification for temporary certificates of occupancy, pursuant to this Section, until the Chairperson of the City Planning Commission certifies to the Commissioner of Buildings that the public access area required by paragraph (c) and the elevator required by paragraph (d) of Section 93-72 have been substantially completed and are open and usable by the public, or until same have been substantially completed by the City. The Chairperson may, no more frequently than annually, require the submission of an updated or new letter of credit in an amount that reflects changes in costs over time, and such updated or new letter of credit shall be subject to the requirements and procedures of paragraph (b) of this Section, until such letter of credit is released based upon substantial completion.

Notwithstanding the foregoing, in the event that a temporary public access area plan is approved pursuant to Section 93-734 (Certification to temporarily modify public access areas for construction staging), no temporary certificate of occupancy from the Department of Buildings may be issued for any portion of a #development# until the Chairperson certifies to the Department of Buildings that the public access area, or portions thereof associated with a phase of #development#, is substantially complete and in accordance with such temporary public access area plan, and the public access area, or portions thereof, are open and useable by the public. No permanent certificate of occupancy from the Department of Buildings may be issued for any portion of such #development# until the Chairperson certifies to the Department of Buildings that the public access area, or portions thereof associated with such phase, has been fully completed in accordance with the plan therefor, and that such public access area, or portions thereof, are open and useable by the public.

93-733 - Certification to modify general requirements of public access areas for ventilation demands

LAST AMENDED
4/29/2014

The Chairperson of the City Planning Commission may modify the general requirements of the public access areas listed in Section 93-73 (Public Access Areas on the Ninth Avenue Rail Yard), provided that the Chairperson certifies to the Commissioner of Buildings that such a change is necessary to accommodate unforeseen ventilation demands within the Ninth Avenue Rail Yard. In addition to the site plan required pursuant to Section 93-732 (Certification for public access areas on the Ninth Avenue Rail Yard), a mechanical plan shall be provided demonstrating the need to modify such general requirements.

93-734 - Certification to temporarily modify public access areas for construction staging

LAST AMENDED
4/29/2014

In the event that the applicant demonstrates to the satisfaction of the Chairperson of the City Planning Commission that the area designated for public access will be required for construction staging or similar activities in a future phase of #development#, the application for the site plan approval may be accompanied by a request for approval of a temporary public area which may include fewer amenities and other features required pursuant to Section 93-73 (Public Access Areas on the Ninth Avenue Rail Yard), as necessary to accommodate such future construction staging or similar activities.

Such temporary public access area plan shall be subject to review and approval in the same manner as site plan approval pursuant to Section 93-732 (Certification for public access areas on the Ninth Avenue Rail Yard) and, if approved pursuant thereto, shall be implemented and remain in effect only for the period necessary to accommodate the need for use of the public access area for construction staging or similar activities in a future phase of development. Following the expiration of such period, the site plan shall be implemented.

93-74 - Public Access Areas in Pennsylvania Station Subarea B4

LAST AMENDED
6/6/2024

The provisions of this Section shall apply to any #development# in the Pennsylvania Station Subarea B4 of the Farley Corridor Subdistrict B.

(a) Public space

A publicly accessible enclosed space with a minimum area of 32,500 square feet shall be provided. Such space shall have at least 100 feet of frontage along the Eighth Avenue #street line#, and have a minimum clear height of 60 feet. The length of such space shall not exceed four times its narrowest width. Up to one-half of such space may be below- grade but shall be visually connected to the at-grade space. Furthermore, such below-grade space shall be connected to the at-grade space by escalators on at least two sides. The retail and glazing requirements of Section 37-76 shall apply to least 70 percent of the length of all #building# walls facing each side of such space. Such space shall provide direct access to the through block connection required pursuant to paragraph (b) of this Section, adjacent #building# lobbies and transit facilities.

(b) Through block connection

A through block connection shall be provided linking West 31st Street and West 33rd Street, at least 300 feet from Eighth Avenue and with direct access to the public space required pursuant to paragraph (a) of this Section. Such through block connection shall have a minimum clear width of 20 feet and may be open or enclosed. If enclosed, such through block connection shall have a minimum clear height of 30 feet.

(c) Plaza

A publicly-accessible plaza, open to the sky, may be provided at the intersection of Eighth Avenue and West 31st Street. Such plaza shall have a minimum area of 12,000 square feet with a minimum frontage of 60 feet along West 31st Street, and be provided in accordance with the standards for #public plazas# set forth in Section 37-70, inclusive.

(d) Corner circulation space

Corner circulation spaces shall be provided at the corners of Eighth Avenue and West 31st Street and Eighth Avenue and West 33rd Street. Such spaces shall comply with the requirements for corner circulation spaces of paragraph (d) of Section 37-53. Such spaces shall count towards meeting the pedestrian circulation space requirements of Section 93-63. However, no corner circulation space shall be required at the corner of Eighth Avenue and West 31st Street if a plaza is provided at such corner in accordance with paragraph (c) of this Section.

93-75 - Publicly Accessible Open Spaces in Subdistrict F

LAST AMENDED
4/29/2014

Public access areas in Subdistrict F shall be comprised of publicly accessible open spaces, private streets and pedestrian ways.

Publicly accessible open spaces are listed in this Section, inclusive. Such publicly accessible open spaces shall be comprised of the Western Open Space, the Central Open Space, the Southwest Open Space, the Northeast Plaza, the Midblock Connection, and the #High Line# as described within this Section, inclusive. Map 3 (Subdistrict F: Public Access Area Plan) in Appendix B identifies the location of publicly accessible open spaces.

General requirements for each publicly accessible open space are set forth within this Section. Design requirements for each publicly accessible open space are set forth in Section 93-77 (Design Criteria for Public Access Areas in Subdistrict F). The phasing and approval process for each publicly accessible open space is set forth in Section 93-78 (Site and Landscape Plans for Public Access Areas in Subdistrict F).

All publicly accessible open spaces listed in this Section shall be accessible to the public from the hours of 6:00 a.m. to 1:00 a.m. with the exception of the #High Line# and the Northeast Plaza. The Northeast Plaza shall provide hours of access pursuant to Section 37-727.

93-751 - General requirements for the Western Open Space

LAST AMENDED
4/29/2014

A publicly accessible open space, (henceforth referred to as the “Western Open Space”), shall be provided in Subdistrict F. Such a space shall be open to the sky, except that amenities that are provided in accordance with this Section and Section 93-77 (Design Criteria for Public Access Areas in

Subdistrict F) shall be permitted to cover a portion of the Western Open Space.

(a) General purpose

The Western Open Space is intended to serve the following purposes:

(1) to provide a major open space that joins the northern portion of the #High Line# open space network on its west to the open space networks leading to the Hudson Park and Boulevard on its east;

(2) to provide a large open lawn area overlooking the Hudson River for public use and enjoyment; and

(3) to provide transition areas that offer shade, supplemental space between the open lawn and surrounding #building# and connections between surrounding publicly accessible open spaces.

(b) Location and minimum dimensions

The Western Open Space shall be located east of the #High Line#, and encompass the area between Sites 1 and 5 as shown on Map 3 (Subdistrict F: Public Access Area Plan) in Appendix B. The Western Open Space shall have a minimum easterly boundary of 225 feet, as measured from the easterly #street line# of Twelfth Avenue.

(c) Core elements

The Western Open Space shall provide the following core elements:

(1) Lawn area

An accessible lawn area shall be provided with a minimum area of one acre. Any lawn area located within 40 feet of a #building# wall on Sites 1 or 5 shall not contribute towards this one acre requirement. The required lawn area shall be comprised of the following amenities:

(i) a continuous lawn area shall be provided over a minimum of 75 percent of the required one acre. Such area shall have a maximum slope of three degrees and unobstructed visual access toward the Hudson River; and

(ii) a transitional lawn area may be provided for a maximum of 25 percent of the required one acre of lawn area. Such area need not be continuous, and shall have a maximum slope of 15 degrees. Trees and other plantings shall be permitted in such area.

(2) #High Line# connection

Access to the #High Line# shall be provided along a minimum of 75 feet and a maximum of 150 feet of #High Line# frontage length. Such frontage need not be continuous, however, in order to qualify as unobstructed access that contributes to the minimum 75 foot requirement set forth in this paragraph (c)(2), a minimum frontage width of five feet is required. Such access need not be opened to the public until the #High Line# is reconstructed as public open space in accordance with the provisions of Section 93-756 (General requirements for the High Line).

(3) Supplemental area

Any space provided in the Western Open Space which does not meet the criteria for lawn area set forth in paragraph (c)(1) of this Section or the criteria for the #High Line# connection set forth in paragraph (c)(2) shall be designated as supplemental area and shall comply with the requirements set forth in this paragraph (c)(3).

A minimum of 50 percent of the supplemental area shall be landscaped with soft ground cover, and the remaining 50 percent may be paved. At least one tree shall be provided for every 2,000 square feet of supplemental area. Such trees may be distributed anywhere within the supplemental area.

A minimum of two unimpeded paved pedestrian accesses, each with a minimum width of 12 feet, shall be provided in the supplemental area. One such pedestrian access shall link the Allee of the West 32nd Street Extension, as defined in paragraph (c)(2) of Section 93-761 and shown on Map 3 in Appendix B, to the #High Line#, and the second such pedestrian access shall link the West 31st Street Extension to the #High Line#.

A minimum of one linear foot of seating shall be provided for every 75 square feet of supplemental area. At least 50 percent of such required seating shall provide seatbacks. Such seating may be distributed anywhere within the supplemental area.

Permanent structures such as food or information kiosks, pavilions or public restrooms may be placed within the supplemental area, provided the height of such structures does not exceed 20 feet. The maximum #lot coverage# that all such permanent structures may occupy shall be 400 square feet, and such structures shall be exempt from the definition of #floor area#.

(d) Transparency

For portions of #buildings# on Site 1 and Site 5 fronting upon the Western Open Space, a minimum of 50 percent of the surface area of the ground floor #street wall# fronting upon the open space shall be treated with clear, untinted transparent material.

(e) Permitted encroachments from private streets and pedestrian ways

The Connector and the terminus of the West 32nd Street Extension shall be permitted to encroach upon the supplemental area of the Western Open Space, provided that the site and landscape plans incorporating the private street or pedestrian way are approved in conjunction with the Western Open Space, pursuant to Section 93-78 (Site and Landscape Plans for Public Access Areas in Subdistrict F).

93-752 - General requirements for the Central Open Space

LAST AMENDED
4/29/2014

A publicly accessible open space, (henceforth referred to as the "Central Open Space"), shall be provided in Subdistrict F. Such a space shall be open to the sky, except that portions of a #building# on Site 3 and amenities that are provided in accordance with Sections 93-75 and 93-77 (Design Criteria for Public Access Areas in Subdistrict F) shall be permitted to cover a portion of the Central Open Space.

(a) General purpose

The Central Open Space is intended to serve the following purposes:

(1) to serve as a neighborhood open space;

(2) to provide amenities for area residents, workers and the general public; and

(3) to provide areas that offer varied programs, supplemental spaces between amenities and surrounding #buildings# and connections between surrounding publicly accessible open spaces.

(b) Location and dimensions

The Central Open Space shall be located within the area bounded by the West 32nd Street Extension, the West 31st Street Extension, the Connector and Eleventh Avenue, and shall also be comprised of any portion of Sites 3 and 4 that are not covered by #buildings# at the ground level as shown on Map 3 (Subdistrict F: Public Access Area Plan) in Appendix B.

The Central Open Space shall have a minimum dimension in the north-south direction as measured from the southerly #street line# of the West 32nd Street Extension to the northerly #street line# of the West 31st Street Extension of 175 feet. In addition, the minimum dimension of the Central Open Space in the north-south direction between the northern boundary of Site 3 and the southerly #street line# of the West 32nd Street Extension shall be 55 feet.

The Central Open Space shall have a minimum dimension in the east-west direction as measured from the easterly #street line# of the Connector to the westerly #street line# of Eleventh Avenue of 545 feet. In addition, the minimum dimension of the open space in the east-west direction between the eastern boundary of Site 3 and the western boundary of Site 4 shall be 265 feet.

Within 350 feet of the Eleventh Avenue #street line#, the maximum height of the finished grade of the Central Open Space shall be 45 feet above the Manhattan Datum, which is 2.75

feet above sea level. Beyond 350 feet of Eleventh Avenue, the maximum height of the finished grade shall be 47 feet above the Manhattan Datum.

(c) Core elements

The Central Open Space shall provide the following core elements:

(1) Lawn area

An accessible lawn area shall be provided with a minimum aggregate area of 10,000 square feet and a maximum slope of three degrees. Such area need not be continuous. Any lawn area located within 12 feet of a #building# wall on Sites 3 or 4 shall not contribute towards such minimum gross area.

(2) Playground

A playground shall be provided with a minimum area of 10,000 square feet.

(3) Supplemental area

Any space in the Central Open Space other than the required lawn area set forth in paragraph (c)(1) of this Section or the required playground space set forth in paragraph (c)(2) of this Section, shall be designated as supplemental area and shall comply with the requirements set forth in this Section.

A minimum of 50 percent of the supplemental area shall be landscaped with soft ground cover, and the remaining 50 percent may be paved. At least one tree shall be provided for every 1,500 square feet of the supplemental area. Such trees may be

distributed anywhere within the supplemental area.

A minimum of two unimpeded paved pedestrian accesses, each with a minimum width of 12 feet, shall be provided in the supplemental area. Such pedestrian access shall link the West 31st and West 32nd Street Extensions and be no closer than 150 feet to one another at any point.

A minimum of one linear foot of seating shall be provided for every 75 square feet of supplemental area. At least 50 percent of such required seating shall provide seatbacks. Such seating may be distributed anywhere within the supplemental area.

Within 15 feet of a required sidewalk or pedestrian access, the slope of the supplemental area shall not exceed 7.5 degrees, or a maximum height of two feet. Beyond 15 feet of a required sidewalk or pedestrian access, the slope of the supplemental area shall not exceed 15 degrees.

(d) Permanent structures

Permanent structures, such as food or information kiosks, pavilions or public restrooms may be placed within the Central Open Space, provided the height of such structures does not exceed 20 feet. The maximum #lot coverage# that all such permanent structures may occupy shall be 400 square feet and such structures shall be exempt from the definition of #floor area#.

(e) Transparency

For portions of #buildings# in Site 4 fronting upon the Central Open Space, a minimum of 50 percent of the surface area of the ground floor #street wall# fronting upon the open space shall be treated with clear, untinted, transparent material.

(f) Permitted encroachments from private streets and pedestrian ways

The Connector and the terminus of the West 31st Street Extension shall be permitted to encroach upon the supplemental area of the Central Open Space, provided that the site and landscape plans incorporating the private street or pedestrian way are approved in conjunction with the Central Open Space, pursuant to Section 93-78 (Site and Landscape Plans for Public Access Areas in Subdistrict F).

93-753 - General requirements for the Southwest Open Space

LAST AMENDED
4/29/2014

A publicly accessible open space, (henceforth referred to as the "Southwest Open Space"), shall be provided in Subdistrict F. Such accessible open space shall be open to the sky, except that portions of a #building or other structure# on Site 5, the #High Line# and amenities that are provided in accordance with Sections 93-75 and 93-77 (Design Criteria for Public Access Areas in Subdistrict F) shall be permitted to cover a portion of the Southwest Open Space.

(a) General purpose

The Southwest Open Space is intended to serve the following purposes:

(1) to serve as an inviting pedestrian gateway to the Western Rail Yard from open space networks along the Hudson River;

(2) to provide pedestrian amenities and connections between surrounding public spaces both on and adjacent to the Western Rail Yard; and

(3) to offer a unique open space experience for pedestrians through the negotiation of the area's grade changes.

(b) Location and minimum dimensions

The Southwest Open Space shall be located within the area bounded by Twelfth Avenue, the Western Open Space, the West 31st Street Extension, Site 6 and West 30th Street, and shall also be comprised of any portion of Site 5 which is not covered by a #building or other structure# at the ground level as shown on Map 3 (Subdistrict F: Public Access Area Plan) in Appendix B.

The Southwest Open Space shall have a minimum dimension in the east-west direction as measured from the easterly #street line# of Twelfth Avenue to the western boundary of Site 6 of 400 feet. However, if the length of Site 6 is extended to accommodate a public #school# in accordance with the provisions of paragraph (b) of Section 93-568 (Site 6), the minimum dimension of the Southwest Open Space shall be 360 feet.

The Southwest Open Space shall have a minimum dimension in the north-south direction as measured from the northerly #street line# of West 30th Street to the southern boundary of the Western Open Space of 180 feet and a maximum dimension of 200 feet.

(c) Core elements

The Southwest Open Space shall have the following core elements. For the purpose of determining the amount of an amenity to provide in relation to the area of the Southwest

Open Space, the area of the Southwest Open Space shall exclude the area occupied by a #building or other structure# on Site 5 and the #High Line#.

A minimum of 50 percent of the area of the Southwest Open Space shall be landscaped with soft ground cover, and the remaining 50 percent of the Southwest Open Space may be paved. At least one tree shall be provided for every 1,500 square feet of Southwest Open Space.

An unimpeded paved pedestrian access with a minimum width of 12 feet shall link either Twelfth Avenue or West 30th Street and the West 31st Street Extension. If such pedestrian access contains 'switchbacks,' comprised of a series of ascending pedestrian ways, the minimum distance between midpoints of each way, as measured, in plan, from the northerly edge of one way to the southerly edge of the next ascending way shall be 15 feet.

A second unimpeded paved pedestrian access with a minimum width of 12 feet shall link either Twelfth Avenue or West 30th Street and the #High Line bed# or with an elevator located adjacent to the #High Line# that provides public access to the #High Line bed#. Such access need not be opened to the public until the #High Line# is reconstructed as public open space in accordance with the provisions of Section 93-756.

A minimum of one linear foot of seating shall be provided for every 75 square feet of soft ground cover provided within the Southwest Open Space. At least 50 percent of such required seating shall provide seatbacks.

Permanent structures, such as food or information kiosks, pavilions or public restrooms shall be permitted within the Southwest Open Space, provided the height of such structures does not exceed 20 feet. The maximum area #lot coverage# that all such permanent structures may occupy shall be 1,000 square feet, provided that such structures are located entirely west of the #High Line#. Such permanent structures shall be exempt from the definition of #floor area#.

(d) Permitted encroachments from private streets

The terminus of the West 31st Street Extension shall be permitted to encroach upon the Southwest Open Space, provided that the site and landscape plans for the West 31st Street Extension are approved in conjunction with the Southwest Open Space, pursuant to Section 93-78 (Site and Landscape Plans for Public Access Areas in Subdistrict F).

93-754 - General requirements for the Northeast Plaza

LAST AMENDED
4/29/2014

A publicly accessible open space, (henceforth referred to as the "Northeast Plaza"), shall be provided at the intersection of West 33rd Street and Eleventh Avenue, as shown on Map 3 (Subdistrict F: Public Access Area Plan) in Appendix B. The area of such space shall be at least 2,600 square feet, and shall have a minimum #street# frontage of 40 feet along each #street#. The Northeast Plaza shall be provided in accordance with the standards for #public plazas#, as set forth in Section 37-70 (PUBLIC PLAZAS), exclusive of the area dimensions set forth in Section 37-712.

93-755 - General requirements for the Midblock Connection

LAST AMENDED
4/29/2014

A pedestrian way, (henceforth referred to as the "Midblock Connection"), shall be provided between West 33rd Street and the West 32nd Street Extension, as shown on Map 3 (Subdistrict F: Public

Access Area Plan) in Appendix B.

(a) General purpose

The Midblock Connection is intended to serve the following purposes:

(1) to provide pedestrian access between West 33rd Street and the Western Rail Yard Subdistrict F; and

(2) to provide amenities similar to a through block public plaza.

(b) Location and dimensions

The entirety of the Midblock Connection shall be located between 335 feet and 455 feet west of the westerly Eleventh Avenue #street line#.

The minimum width of the Midblock Connection, measured in the east-west direction, shall be 60 feet.

(c) Core elements

The Midblock Connection shall provide the following core elements:

(1) A minimum of one unimpeded pedestrian access, with a minimum width of 12 feet, shall be provided to connect the West 32nd Street Extension with West 33rd Street;

(2) A minimum of one linear foot of seating shall be provided for every 75 square feet of the Midblock Connection. A minimum of 50 percent of the required seating shall

provide seatbacks; and

(3) A minimum of 20 percent of the gross area of the Midblock Connection shall be landscaped with soft ground cover, and shall provide a minimum of one tree per every 1,500 square feet.

93-756 - General requirements for the High Line

LAST AMENDED
2/2/2011

For the portion of the #High Line# that is located within the boundary of Subdistrict F, the following provisions shall apply.

(a) General purpose

The #High Line# is intended to serve the following purposes:

(1) to serve as a continuation of the #High Line# public open space to the east and to the south of West 30th Street;

(2) to offer a pedestrian and passive open space experience similar to the #High Line# open space south of West 30th Street, through planting, materials and amenities, while taking into account the nature and character of the Western Rail Yard Subdistrict F; and

(3) to allow for connections to other public areas on the Western Rail Yard Subdistrict F.

(b) Permitted #uses#

Any permitted change of #use# for the #High Line# shall be made pursuant to the provisions of Section 93-10 (USE REGULATIONS).

(c) Core elements

The #High Line# open space shall provide amenities including, but not limited to, planting, seating and lighting designed to complement and be integrated with portions of the #High Line# south of West 30th Street in a manner that provides both visual and pedestrian continuity along the #High Line# open space network. The #High Line# open space shall not be subject to the design criteria for public access areas in Subdistrict F set forth in Section 93-77.

The site and landscape plans for the #High Line# approved pursuant to Section 93-78 (Site and Landscape Plans for Public Access Areas in Subdistrict F) shall make provision for access points to and from the #High Line# open space, including the public access provided in the Southwest Open Space pursuant to Section 93-753 (General requirements for the Southwest Open Space) and, subject to agreement, shall include support facilities necessary for the operation, maintenance and public enjoyment of the #High Line# open space located in Subdistrict F, or at other locations north of West 30th Street.

(d) Certification to modify requirements adjacent to the #High Line#

The Chairperson of the City Planning Commission may modify certain regulations on adjacent development sites 1 through 6, provided that the Chairperson certifies to the

Commissioner of Buildings that such a change is necessary in order to provide access to the #High Line# open space or to accommodate facilities for the #High Line# open space, and that such change is compatible with the character of developed portions of the #High Line# south of West 30th Street.

The following regulations may be modified:

(1) The ground floor level requirements set forth in Section 93-14 (Ground Floor Level Requirements), where applicable;

(2) The unobstructed five foot separation between the #High Line# and a #street wall# on Sites 1, 5 and 6 required pursuant to paragraph (a) of Section 93-561 (General rules for Subdistrict F) in order to accommodate a pedestrian access way, open to the sky, between the #High Line# and such development sites. However, the required five foot #street wall# separation from the edge of the #High Line# shall not be modified;

(3) The #street wall# requirements for Site 6 set forth in Section 93-562 (Street wall regulations for certain streets), only as necessary to accommodate pedestrian access onto the #High Line#;

(4) The general requirements for the Western Open Space and the Southwest Open Space set forth in Section 93-75 (Publicly Accessible Open Spaces in Subdistrict F); and

(5) The general requirements for the 30th Street Corridor set forth in Section 93-76 (Publicly Accessible Private Streets and Pedestrian Ways in Subdistrict F).

Any application for such change shall be included in the application for the site and landscape plans submitted pursuant to the provisions of Section 93-78 (Site and Landscape Plans for

Public Access Areas in Subdistrict F) for the #High Line# open space.

93-76 - Publicly Accessible Private Streets and Pedestrian Ways in Subdistrict F

LAST AMENDED
4/29/2014

Public access areas in Subdistrict F shall be comprised of publicly accessible open spaces, private streets and pedestrian ways.

Publicly accessible private streets and pedestrian ways shall be provided in Subdistrict F in addition to the publicly accessible open spaces required in Section 93-75. Such private streets and pedestrian ways shall be comprised of the West 31st and West 32nd Street Extensions, the West 30th Street Corridor and the Connector. Map 3 (Subdistrict F: Public Access Area Plan) in Appendix B of this Chapter identifies the location of these publicly accessible private streets and pedestrian ways.

General requirements for each publicly accessible private street and pedestrian way are set forth within this Section. Design requirements for each publicly accessible private street and pedestrian way are set forth in Section 93-77 (Design Criteria for Public Access Areas in Subdistrict F). The phasing and approval process for each publicly accessible private street and pedestrian way are set forth in Section 93-78 (Site and Landscape Plans for Public Access Areas in Subdistrict F).

Publicly accessible private streets and pedestrian ways listed in this Section shall be accessible to the public at all times.

93-761 - General requirements for the West 32nd Street Extension

A private street, (henceforth referred to as the "West 32nd Street Extension"), shall be provided south of and parallel to West 33rd Street.

(a) General purpose

The West 32nd Street Extension is intended to serve the following purposes:

(1) to serve as the primary publicly accessible pedestrian and vehicular connection to the Western Rail Yard from Eleventh Avenue;

(2) to provide an experience substantially similar to active public #streets# in other high-density, mixed use districts;

(3) to provide a unique urban park-like experience for an active public #street# by connecting the Western Open Space and the Eastern Rail Yard plaza with a pedestrian Allee, as defined in paragraph (c)(2) of this Section and shown on Map 3 (Subdistrict F: Public Access Area Plan) in Appendix B; and

(4) to provide a private street with core elements that are substantially similar to the surrounding public #streets#.

(b) Location and dimensions

The West 32nd Street Extension shall have its northerly edge located a minimum of 180 feet and a maximum of 200 feet south of the West 33rd Street #street line#, as shown on Map 3 in Appendix B, except that a terminus to the West 32nd Street Extension, located west of the

Connector shall be permitted to expand beyond the maximum dimensions, provided that such terminus extends to provide a #building# entrance drive along Site 1, and complies with the provisions set forth in paragraph (e) of Section 93-751 (General requirements for the Western Open Space).

(c) Core elements

The West 32nd Street Extension shall provide the following core elements:

(1) Streets and sidewalk requirements

The West 32nd Street Extension shall be a private street constructed to minimum Department of Transportation and Fire Department standards for public #streets#.

Such private street shall consist of:

(i) a road bed, paved with asphalt, with a minimum width pursuant to the requirements set forth by the Fire Department;

(ii) a 20 foot minimum sidewalk along its entire northern curb; and

(iii) a 25 foot minimum sidewalk along its entire southern curb.

(2) Planting and seating requirements for the southern sidewalk and the Allee

Two trees shall be planted for every 20 feet of southern curb length of the West 32nd Street Extension between Eleventh Avenue and the Connector. Fractions equal to or greater than one-half resulting from this calculation shall be considered to be one tree.

Such trees shall be planted at approximately equal intervals along the entire curb length of the West 32nd Street Extension.

Along the southern sidewalk, trees shall be planted within five feet of the curb and the southern edge of the sidewalk. One row of trees shall be planted within five feet of the curb and a second row of trees shall be planted within five feet of the southern edge of the sidewalk. This double row of tree planting along the southern sidewalk of the West 32nd Street Extension between Eleventh Avenue and the Connector shall henceforth be referred to as the Allee, as shown on Map 3 in Appendix B. No #building or other structure# shall be permitted within 15 feet of the southern edge of the Allee.

The Allee shall provide a minimum of one linear foot of seating for every 75 square feet of the Allee. A minimum of 50 percent of the required seating shall provide seatbacks.

(3) Planting requirements for the northern sidewalk

One tree shall be planted for every 25 feet of curb length of the West 32nd Street Extension along its northern curb between Eleventh Avenue and the Connector. Fractions equal to or greater than one-half resulting from this calculation shall be considered to be one tree. Such trees shall be planted at approximately equal intervals along the entire curb length of the West 32nd Street Extension between Eleventh Avenue and the Connector. Along the northern sidewalk, trees shall be planted within five feet of the curb.

(4) Curb cuts

No curb cuts shall be permitted along the West 32nd Street Extension, except for

access to the Connector if required by the Fire Department.

93-762 - General requirements for the West 31st Street Extension

LAST AMENDED
4/29/2014

A private street, (henceforth referred to as the "West 31st Street Extension"), shall be provided north of and parallel to West 30th Street.

(a) General purpose

The West 31st Street Extension is intended to serve the following purposes:

(1) to serve as a publicly accessible pedestrian and vehicular connection to the Western Rail Yard from Eleventh Avenue;

(2) to provide an experience substantially similar to active public #streets# in other high-density, mixed use districts; and

(3) to provide a private street with core elements that are substantially similar to the surrounding public #streets#.

(b) Location and dimensions

The West 31st Street Extension shall have its southerly edge located a minimum of 180 feet and a maximum of 200 feet north of the West 30th Street #street line#, as shown on Map 3

(Subdistrict F: Public Access Area Plan) in Appendix B, except that a terminus to the West 31st Street Extension, located west of the Connector, shall be permitted to expand beyond the maximum dimensions, provided that such terminus extends to provide a #building# entrance drive along Site 5, and complies with the provisions set forth in paragraph (d) of Section 93-753 (General requirements for the Southwest Open Space), and/or paragraph (f) of Section 93-752 (General requirements for the Central Open Space), as applicable.

(c) Core Elements

The West 31st Street Extension shall provide the following core elements:

(1) Street and sidewalk requirements

The West 31st Street Extension shall be a private street constructed to minimum Department of Transportation and Fire Department standards for public #streets#.

Such private street shall consist of:

(i) a road bed, paved with asphalt, with a minimum width pursuant to requirements set forth by the Fire Department;

(ii) a 15 foot minimum sidewalk along its entire northern curb; and

(iii) a 20 foot minimum sidewalk along its entire southern curb.

(2) Planting requirements for sidewalks

One tree shall be planted for every 25 feet of curb length of the West 31st Street

Extension between Eleventh Avenue and the Connector. Fractions equal to or greater than one-half resulting from this calculation shall be considered to be one tree. Such trees shall be planted at approximately equal intervals along the entire length of the curb of the private street between Eleventh Avenue and the Connector.

(3) Curb cuts

One curb cut shall be permitted along each side of the West 31st Street Extension. The maximum width of such curb cut shall be 30 feet. A third curb cut accessing the Connector shall be permitted if required by the Fire Department.

93-763 - General requirements for the West 30th Street Corridor

LAST AMENDED
4/29/2014

A pedestrian way (henceforth referred to as the "West 30th Street Corridor"), shall be provided along the northerly sidewalk of West 30th Street adjacent to the area below the #High Line#.

(a) General purpose

The West 30th Street Corridor is intended to serve the following purposes:

(1) to serve as a transition space between the #High Line# and the West 30th Street sidewalk;

(2) to allow for active frontages with publicly accessible spaces for establishments below the #High Line#; and

(3) to provide an overall streetscape design that complements and provides views of the #High Line# along West 30th Street.

(b) Location and dimensions

The West 30th Street Corridor shall be located in the area bounded by the #High Line#, Eleventh Avenue, West 30th Street and the eastern edge of the Southwest Open Space, as shown on Map 3 (Subdistrict F: Public Access Area Plan) in Appendix B.

In the north-south direction, the West 30th Street Corridor shall extend from the #street wall# of #buildings# beneath the #High Line# facing West 30th Street (which shall coincide with the northerly edge of the southern row of structural columns of the #High Line#) to the northerly #street line# of West 30th Street.

(c) Core elements

The West 30th Street Corridor shall have the following provisions for its core elements:

(1) a pedestrian access area at least 10 feet in width shall be provided along the entire length of the West 30th Street Corridor, linking Eleventh Avenue with the sidewalk adjacent to the Southwest Open Space. Such area shall be located a minimum of five feet beyond the northerly curb line of West 30th Street, and shall be free of obstructions;

(2) portions between the required pedestrian access area and the #High Line# may be paved or landscaped; and

(3) street trees shall be planted within five feet of the northern curb of West 30th Street. One tree shall be planted for every 25 feet of curb length. Fractions equal to or greater than one-half resulting from this calculation shall be considered to be one tree. Such trees shall be planted at approximately equal intervals along the entire curb length of West 30th Street.

93-764 - General requirements for the Connector

LAST AMENDED
4/29/2014

A publicly accessible connection (henceforth referred to as the "Connector"), shall be provided between the West 32nd Street Extension and the West 31st Street Extension.

(a) General purpose

The Connector is intended to serve the following purposes:

(1) to serve as a connection between the West 32nd Street Extension and the West 31st Street Extension;

(2) to provide a space that complements the surrounding publicly accessible open spaces; and

(3) to provide an emergency egress connector pursuant to Fire Department standards.

(b) Location and dimensions

The western #street line# of the Connector shall be located a minimum of 225 feet east of the easterly #street line# of Twelfth Avenue, as shown on Map 3 (Subdistrict F: Public Access Area Plan) in Appendix B.

(c) Core elements

The Connector shall provide the following core elements:

(1) the Connector shall be constructed to minimum Fire Department standards for an emergency egress connection between the West 32nd Street Extension and the West 31st Street Extension, including, but not limited to, the width and materials of paved area, and permitted obstructions within such area; and

(2) the Connector shall not be located within 15 feet of a #building#.

93-77 - Design Criteria for Public Access Areas in Subdistrict F

LAST AMENDED
6/6/2024

Public access areas in Subdistrict F shall be comprised of publicly accessible open spaces, private streets and pedestrian ways.

(a) Design criteria

Where private streets, pedestrian ways and publicly accessible open spaces, with the exception of the #High Line#, provide elements listed in this Section, such elements shall comply with the applicable minimum design standards, set forth in paragraph (a) of this Section, as a minimum design standard.

(1) Seating

Seating shall meet the minimum and maximum dimensional standards set forth in paragraphs (1) through (7) of Section 37-741, inclusive.

(2) Planting and trees

Where planting areas are provided, they shall meet the planting bed requirements and irrigation requirements of Section 37-742 (Planting and trees).

Where trees are provided, they shall meet the applicable minimum tree caliper standards, soil requirements and irrigation standards set forth in Section 37-742, except that within the Western Open Space, the Central Open Space and the Southwest Open Space, the soil requirements for tree planting shall not apply. In lieu thereof, all trees in the Central and Western Open Spaces shall be planted in areas with soil depth of at least five feet. In the Southwest Open Space, all trees shall be planted in continuous planted areas that have a minimum depth of five feet and a minimum area of 500 square feet of soil.

(3) Paving

Paving, exclusive of the required asphalt paving of the West 31st and West 32nd Street Extension roadbeds, shall meet the minimum standards set forth in Section 37-

718.

(4) Steps

Steps shall meet the minimum dimensional standards set forth in Section 37-725.

(5) Kiosks and open air cafes

Kiosks or open air cafes shall meet the operational and service requirements listed in paragraphs (a) and (b) of Section 37-73 (Kiosks and Open Air Cafes). Seating provided as part of an open air cafe shall not count towards meeting the seating requirements of a public access area listed in Section 93-75 (Publicly Accessible Open Spaces in Subdistrict F).

(6) Standards of accessibility for persons with disabilities

All publicly accessible open spaces, private streets and pedestrian ways shall be designed pursuant to the standards of accessibility for persons with disabilities set forth in Section 37-728.

(7) Lighting and electrical power

All publicly accessible open spaces, private streets and pedestrian ways shall provide lighting and electrical power pursuant to the standards set forth in Section 37-743.

(8) Litter receptacles

All publicly accessible open spaces, private streets and pedestrian ways shall provide litter receptacles pursuant to the standards set forth in Section 37-744.

(9) Bicycle parking

Bicycle racks sufficient to accommodate at least 25 bicycle parking spaces shall be provided in the Southwest Open Space, bicycle racks sufficient to accommodate at least 30 bicycle parking spaces shall be provided in the Central Open Space and bicycle racks sufficient to accommodate at least 33 bicycle parking spaces shall be provided in the Western Open Space. Such racks shall be located adjacent to a paved circulation path within the open space or in public sidewalks adjacent to the open space.

(10) Playgrounds and additional amenities

Where playgrounds and additional amenities are provided in publicly accessible open spaces, such amenities shall be designed pursuant to the standards set forth in Section 37-748.

(11) Signs

All open spaces within the publicly accessible open spaces shall provide open space signage pursuant to the standards set forth in Section 37-751.

(12) Canopies, awnings, marquees and sun control devices

Where #buildings# front onto publicly accessible open spaces, private streets and pedestrian ways, canopies, awnings, marquees and sun control devices shall be permitted pursuant to the standards set forth in paragraph (c) of Section 37-726 (Permitted obstructions).

(13) Gates and fences

Gates, fences or other barriers shall be permitted at the perimeter of any playgrounds, tot lots or dog runs provided as part of a publicly accessible open space or pedestrian way. Additional gates, fences or other barriers shall be permitted in the Midblock Connection, the Southwest Open Space and the #High Line# only as approved as part

of the site and landscape plans submitted pursuant to Section 93-78 (Site and Landscape Plans for Public Access Areas in Subdistrict F).

Such gates, fences or other barriers shall have a maximum height of 48 inches, as measured from the adjoining grade level, and shall be at least 70 percent open. However, where gates, fences or other barriers are mounted on a solid curb, such minimum transparency shall not include the surface area of the curb, provided that the height of such curb does not exceed six inches.

Chain link fencing or barbed or razor wire shall not be permitted.

(14) Public restrooms

At least one public restroom shall be provided to serve either the Central Open Space or the Western Open Space, whichever is developed first pursuant to the provisions of Section 93-78. Such public restroom shall provide separate restroom spaces for each gender, and may be located in either the publicly accessible open space or within the ground floor of any adjacent #building#.

(b) Maintenance

The owner of each of Sites 1 through 6 in Subdistrict F shall be responsible for the maintenance of all publicly accessible open spaces, private streets and pedestrian ways, including, but not limited to, litter control, management of pigeons and rodents, maintenance of required lighting levels, and the care and replacement of furnishings and vegetation within the portion of the Subdistrict associated with such site in the phased development provided in the site and landscape plans required pursuant to Section 93-78. Notwithstanding the foregoing, maintenance of the #High Line# shall be governed by such agreements as are entered into with respect thereto.

(c) Interim #use#

Open #uses# listed under Use Group I, with the exception of cemeteries and golf courses, shall be permitted as interim #uses# within the designated boundary of any public access area described in Sections 93-75 or 93-76 (Publicly Accessible Private Streets and Pedestrian Ways in Subdistrict F) with the exception of the #High Line# open space, or within the designated boundary of any development site described in Section 93-56 (Special Height and Setback Regulations in Subdistrict F). Such interim #uses# may be #developed# prior to the approval of the site and landscape plans for the public access area in which it is located, and may continue until such time as development commences on such public access area pursuant to the approved site and landscape plans. Any such interim #uses# shall be open to and usable by the public, and may include temporary structures, provided that all associated #floor area# is appurtenant to the interim #use#.

93-78 - Site and Landscape Plans for Public Access Areas in Subdistrict F

LAST AMENDED
4/29/2014

Public access areas in Subdistrict F shall be comprised of publicly accessible open spaces, private streets and pedestrian ways.

All publicly accessible open spaces, or portions thereof, listed in Section 93-75 (Publicly Accessible Open Spaces in Subdistrict F), and private streets and pedestrian ways, or portions thereof, listed in Section 93-76 (Publicly Accessible Private Streets and Pedestrian Ways in Subdistrict F), shall comply with the following provisions:

(a) No building permit shall be issued for any #development# or #enlargement# within Subdistrict F unless the Chairperson of the City Planning Commission has certified to the Commissioner of Buildings that the site and landscape plans for the Subdistrict F public access area have been

approved by the Chairperson pursuant to the provisions of this Section. Notwithstanding the foregoing, the Chairperson shall allow for the phased development of public access areas, or portions thereof, upon certification to the Commissioner of Buildings that site and landscape plans have been submitted that provide for the completion of public access areas in association with the #development# or #enlargement# of a #building# or #buildings# within each phase.

(b) An application under this Section shall be filed with the Chairperson of the City Planning Commission and such application shall include:

(1) a site plan indicating the area and dimensions of the public access area, or portions thereof, and the location of all proposed #buildings# in the phase subject to the application;

(2) a landscape plan, prepared by a registered landscape architect, for the public access area, or portions thereof, in the phase subject to the application; and

(3) a report to the Chairperson demonstrating:

(i) that the site and landscape plans have been presented by the applicant to the affected Community Board, City Council Member and Borough President and the Community Board, City Council Member and Borough President have had at least 60 days to review; and

(ii) that any comments and recommendations of the affected Community Board, City Council Member and Borough President have been considered by the applicant, as set forth in a written response to such comments or recommendations. Where design modifications have been made in response to such recommendations, the report shall identify how the design has been

modified.

(c) The Chairperson of the City Planning Commission shall approve the site and landscape plans within 45 days following filing, provided that the following provisions are met:

(1) the site and landscape plans provide for the improvement of the public access area, or portions thereof, which, taking into account relevant considerations relating to platform construction and engineering, are:

(i) of sufficient size to provide a valuable public amenity and promote site access for the benefit of residents and workers in the #buildings# in the phase to which they relate, as well as for the general public; and

(ii) appropriately sited and located in suitable proximity to the #building# locations in the phase to which they relate.

(2) the site and landscape plans are consistent with the general purposes and contain the core elements listed in Sections 93-75 and 93-76, inclusive;

(3) all elements in the site and landscape plans comply with the design criteria as set forth in Section 93-77 (Design Criteria for Public Access Areas in Subdistrict F), or, in the case of the #High Line#, that the elements in the landscape plan comply with the criteria set forth in paragraph (c) of Section 93-756 (General requirements for the High Line);

(4) the site and landscape plans are consistent and appropriate in relation to any previously approved landscape plan for other phases and in relation to conceptual plans for future phases, as applicable;

(5) the level of public amenity provided in the landscape plan is equal to or better than the level of public amenity required in #public plazas# that are provided in accordance with the standards of Section 37-70 or, in the case of the #High Line#, than the level of public amenity provided on developed portions of the #High Line# south of West 30th Street. All public amenities that are provided in the landscape plan shall take into account the nature and character of the Subdistrict F public access areas; and

(6) a maintenance plan, including any necessary maintenance facilities for the public access area, or portions thereof, in the phase, has been established that will ensure compliance with the provisions of paragraph (b) of Section 93-77.

Approved site and landscape plans shall be set forth in an instrument in a form acceptable to the City, including such provisions as are necessary to ensure compliance with the provisions of this Section. Such instrument shall be filed and duly recorded in the Borough Office of the City Register of the City of New York and indexed against the property. Such filing and recording of the instrument shall be a precondition for the Chairperson's certification to the Department of Buildings under this Section. The recording information shall be included on the certificate of occupancy for any #building#, or portion thereof, on the #zoning lot# issued after the recording date.

(d) No temporary certificate of occupancy from the Department of Buildings may be issued for any portion of a #development# or #enlargement# within a phase until the Chairperson of the City Planning Commission certifies to the Department of Buildings that the public access area, or portions thereof associated with such phase, is substantially complete and in accordance with the site and landscape plans, and that such public access area, or portions thereof, are open to and useable by the public. No permanent certificate of occupancy from the Department of Buildings may be issued for any portion of such #development# or

#enlargement# until the Chairperson certifies to the Department of Buildings that the public access areas, or portions thereof, are fully complete, and that all requirements of this Section have been met in accordance with the site and landscape plans for the public access area, or portions thereof associated with such phase. Notwithstanding the foregoing, in the event that a temporary public access area plan is approved pursuant to Section 93-782 (Certification to temporarily modify public access areas for construction staging), no temporary certificate of occupancy from the Department of Buildings may be issued for any portion of a #development# or #enlargement# within the phase until the Chairperson certifies to the Department of Buildings that the public access area, or portions thereof associated with such phase, is substantially complete and in accordance with such temporary public access area plan, and the public access area, or portions thereof, are open and useable by the public. No permanent certificate of occupancy from the Department of Buildings may be issued for any portion of such #development# or #enlargement# until the Chairperson certifies to the Department of Buildings that the public access area, or portions thereof associated with the phase previously improved pursuant to the temporary public access area plan, has been fully completed in accordance with the site and landscape plans therefor, and that the public access area, or portions thereof, are open to and useable by the public.

(e) Where a phase of development results in all development sites in Subdistrict F, as shown on Map 2 (Subdistrict F: Site Plan) in Appendix B, having been #developed# in whole or in part pursuant to the provisions of Section 93-56 (Special Height and Setback Regulations in Subdistrict F), the Department of Buildings shall not issue a certificate of occupancy for the last #building# of such phase unless and until the Chairperson certifies to the Commissioner of Buildings that all public access areas within Subdistrict F are substantially complete, and are open to and useable by the public. However, in the event that the site and landscape plans for the #High Line# open space have not been approved, pursuant to paragraph (c) of this Section, at the time such last #building# is eligible for a certificate of occupancy, the Department of Buildings shall issue such certificate of occupancy upon certification of the Chairperson that all public access areas other than the #High Line# open space are

substantially complete.

93-781 - Certification to modify general requirements of public access areas for ventilation demands

LAST AMENDED
12/21/2009

The Chairperson of the City Planning Commission may modify the general requirements of the publicly accessible open spaces listed in Section 93-75 (Publicly Accessible Open Spaces in Subdistrict F), and private streets and pedestrian ways listed in Section 93-76 (Publicly Accessible Private Streets and Pedestrian Ways in Subdistrict F), provided that the Chairperson certifies to the Commissioner of Buildings that such a change is necessary to accommodate unforeseen ventilation demands within the Western Rail Yard. In addition to the site and landscape plans required pursuant to Section 93-78, a mechanical plan shall be provided demonstrating the need to modify such general requirements.

93-782 - Certification to temporarily modify public access areas for construction staging

LAST AMENDED
2/2/2011

In the event that the applicant demonstrates to the satisfaction of the Chairperson of the City Planning Commission that a public access area will be required for construction staging or similar activities in a future phase of #development# or #enlargement#, the application for the site and landscape plans may be accompanied by a request for approval of a temporary public access area plan

for the public access area which may include fewer than all core elements required as part of a phase of #development# or #enlargement# of such public access area pursuant to paragraph (c)(2) of Section 93-78 (Site and Landscape Plans for Public Access Areas in Subdistrict F), as necessary to accommodate such future construction staging or similar activities. Such temporary public access area plan shall be subject to review and approval in the same manner as the site and landscape plans, pursuant to Section 93-78 and, if approved pursuant thereto, shall be implemented and remain in effect only for the period necessary to accommodate the need for use of the public access area for construction staging or similar activities in a future phase of development. Following the expiration of such period, the site and landscape plans, including all core elements for such public access area, shall be implemented.

93-80 - OFF-STREET PARKING REGULATIONS

LAST AMENDED
5/8/2013

In Subdistricts A, B, C, D and E, the regulations governing permitted #accessory# off-street parking spaces of Article I, Chapter 3 (Comprehensive Off-street Parking and Loading Regulations in the Manhattan Core), and Article II, Chapter 5; Article III, Chapter 6; and Article IV, Chapter 4 (Accessory Off-street Parking and Loading Regulations) shall not apply, except as set forth in this Section. In lieu thereof, the provisions of this Section, inclusive, shall apply.

In Subdistricts F and G, the regulations of Article I, Chapter 3, shall apply.

93-81 - Definitions

LAST AMENDED

Hudson Yards parking regulations applicability area

The “Hudson Yards parking regulations applicability area” is comprised of Subdistricts A, B, C, D and E of the #Special Hudson Yards District#, the 42nd Street Perimeter Area of the #Special Clinton District#.

Hudson Yards development parking supply

The “Hudson Yards development parking supply” shall be the aggregate number of off-street parking spaces in #accessory# individual or #group parking facilities#, #public parking lots# and #public parking garages# in the #Hudson Yards parking regulations applicability area#:

(a) that have been constructed, pursuant to the as-of-right regulations in effect subsequent to January 19, 2005, and before April 14, 2010, to the extent that such spaces satisfy the ratios of Section 93-821;

(b) that have been constructed, pursuant to a City Planning Commission special permit approved subsequent to January 19, 2005, and before April 14, 2010;

(c) for which the Chairperson has issued a certification, pursuant to Section 93-821, paragraph (e); and

(d) that have been approved by Board of Standards and Appeals variance, pursuant to Section 72-21 , to the extent that such spaces satisfy the ratios of Section 93-821.

However, all off-street parking on Site 1, as shown on the map of the Special 42nd Street Perimeter Area in Appendix A of the #Special Clinton District# (Article IX, Chapter 6), shall be counted toward the #Hudson Yards development parking supply#.

For purposes of this definition, "constructed" shall include any off-street parking spaces in #accessory# or #group parking facilities#, #public parking garages# or #public parking lots#, where such #accessory# or #group parking facilities#, #public parking garages# or #public parking lots# were completed on April 14, 2010, under construction on such date with the right to continue construction pursuant to Section 11-331 or granted a City Planning Commission special permit after January 19, 2005, where such permit had not lapsed as of April 14, 2010.

Public parking

"Public parking" shall be off-street parking that is open to the public during the business day for hourly, daily or other time-defined rental of parking spaces, for which a fee is charged.

Reservoir deficit

The “reservoir deficit” shall be the amount by which the #reservoir surplus# is less than zero.

Reservoir parking supply

The “reservoir parking supply” shall be the sum of:

(a) all off-street parking spaces lawfully operating as of May 27, 2009, in the #Hudson Yards parking regulations applicability area# as #public parking#; and

(b) any off-street parking spaces for which a valid building permit had been issued, as of May 27, 2009, and which have been constructed before April 14, 2010.

However, any off-street parking space that satisfies the definition of the #Hudson Yards development parking supply# in this Section shall not be counted as part of the #reservoir parking supply#.

For purposes of this definition, “constructed” shall include any off-street parking spaces in #accessory# individual or #group parking facilities#, #public parking garages# or #public parking lots#, where such #accessory# or #group parking facilities#, #public parking garages# or #public parking lots# were either completed on April 14, 2010, or under construction on such date with the right to continue construction pursuant to Section 11-331.

Reservoir surplus

The initial #reservoir surplus# shall be 3,600 off-street parking spaces. The "reservoir surplus" shall be increased by:

(a) the aggregate number of off-street parking spaces in the #reservoir parking supply# for which a building permit has been issued, pursuant to the as-of-right regulations in effect subsequent to January 19, 2005, and before April 14, 2010;

(b) the number of off-street parking spaces in the #Hudson Yards parking regulations applicability area# above the ratios permitted in Section 93-821, either certified by the Chairperson pursuant to Section 93-822, paragraph (c), or by City Planning Commission special permit, pursuant to Section 93-823; and

(c) the number of off-street parking spaces lawfully added in the #Hudson Yards parking regulations applicability area#, other than those permitted pursuant to Section 93-80, inclusive, except for any increase by Board of Standards and Appeals variance that is counted as part of the #Hudson Yards development parking supply#;

The #reservoir surplus# shall be decreased by:

(a) the aggregate number of parking spaces counted at any time in the #reservoir parking supply#, that subsequently are:

(1) reduced through modification or discontinuance of the applicable Department of Consumer Affairs license or certificate of occupancy or otherwise cease operation permanently; or

(2) not constructed in accordance with the applicable building permit, as reflected in a modification of such building permit or the issuance of a certificate of occupancy for a reduced number of spaces; or

(b) the issuance of a certificate of occupancy for a #development# or #enlargement# providing a smaller number of spaces than allowed, pursuant to Section 93-821, to the extent of the difference between the number of #accessory# off-street parking spaces allowed, and the number provided. However, this paragraph shall not apply to Sites 2, 3, 4 and 5, as shown on Map 6 of Appendix A, and shall apply to no more than 200 #accessory# off-street parking spaces on Site 6 as shown on Map 6.

Substantial construction

"Substantial construction" shall mean the substantial enclosing and glazing of a new #building# or of the #enlarged# portion of an existing #building#.

93-82 - Permitted Parking

LAST AMENDED
4/14/2010

#Developments# or #enlargements# in the #Hudson Yards parking regulations applicability area# may provide #accessory# parking spaces in accordance with the provisions of this Section. The provisions of Sections 36-52 (Size, Location and Identification of Spaces) and 36-53 (Width of Curb Cuts and Location of Access to the Street) shall apply to all permitted #accessory# off-street parking spaces.

93-821 - Permitted parking when the reservoir surplus is greater than or equal to zero

LAST AMENDED
12/5/2024

When the #reservoir surplus# is greater than or equal to zero, off-street parking spaces may be provided only in accordance with the provisions of this Section.

(a) For #residences#, #accessory# off-street parking spaces may be provided for not more than 30 percent of the total number of #dwelling units#, except that where such #dwelling units# are comprised of #low income floor area#, #moderate income floor area# or #middle income floor area#, as defined in Section 27-11, #accessory# off-street parking spaces may be provided for not more than eight percent of the total number of such #dwelling units#.

(b) For #transient hotels# listed under Use Group V, the applicable provisions of Section 13-12 (Permitted Parking for Non-residential Uses) shall apply with respect to the number of permitted #accessory# off-street parking spaces, provided that the number of such spaces does not exceed 0.16 for every 1,000 square feet of #floor area#.

(c) For Office #uses# listed under Use Group VII, not more than 0.16 #accessory# off-street parking spaces may be provided for every 1,000 square feet of #floor area#.

(d) In the Eastern Rail Yard Subarea A1, paragraphs (a) through (c) of this Section shall not apply, and any #accessory# off-street parking shall comply with the provisions of this paragraph (d):

(1) for #residences#, #accessory# off-street parking spaces may be provided for not more than 40 percent of the total number of #dwelling units#;

(2) for #commercial# and #community facility uses#, not more than 0.325 #accessory# off-street parking spaces may be provided for every 1,000 square feet of #floor area#, provided that in no event shall the number of off-street parking spaces #accessory# to #commercial# or #community facility uses# exceed 350 spaces; and

(3) in no event shall the total number of #accessory# off-street parking spaces for all #uses# exceed 1,000.

(e) The Department of Buildings shall not issue a building permit for any #accessory# off-street parking pursuant to paragraphs (a) through (c) of this Section, unless the Chairperson has certified that:

(1) the sum of the permitted parking spaces set forth in the following paragraphs, (e)(1)(i), (e)(1)(ii) and (e)(1)(iii), is less than or equal to 5,084 spaces:

(i) the #reservoir surplus# or zero;

(ii) the #Hudson Yards development parking supply#; and

(iii) the number of spaces proposed to be added by the #development# or #enlargement# for which certification is sought; and

(2) the sum of the permitted parking spaces set forth in the following paragraphs, (e)(2)(i), (e)(2)(ii), (e)(2)(iii) and (e)(2)(iv), is less than or equal to 5,905 spaces:

(i) all off-street parking spaces in the #Hudson Yards parking regulations applicability area# that have been categorized, in accordance with the

definition in Section 93-81, as part of the #reservoir parking supply#, less any such off-street parking spaces that have been categorized as decreasing the #reservoir surplus# in accordance with paragraph (a) of the second part of the definition of #reservoir surplus# in Section 93-81;

(ii) all off-street parking spaces in the #Hudson Yards parking regulations applicability area# that have been categorized as increasing the #reservoir surplus# in accordance with paragraphs (b) and (c) of the first part of the definition of #reservoir surplus# in Section 93-81;

(iii) the #Hudson Yards development parking supply#; and

(iv) the number of spaces proposed to be added by the #development# or #enlargement# for which certification is sought.

(3) Notwithstanding paragraphs (e)(1) and (2) of this Section, if the Chairperson determines that final certificates of occupancy have been issued by the Department of Buildings for all #buildings# shown in the site plan for the Eastern Rail Yard Subarea A1 as required by the provisions of Section 93-70, and that upon the completion of all such #buildings#, fewer than 1,000 #accessory# off-street parking spaces have been provided in such subarea, any difference between the number of #accessory# off-street parking spaces provided in the Eastern Rail Yard Subarea A1, and 1,000, may be added to the limits of 5,084 and 5,905 spaces set forth in paragraphs (e)(1) and (e)(2), respectively.

(4) Any certification granted by the Chairperson, pursuant to this Section, shall lapse after two years if #substantial construction# of the #development# or of the #enlarged# portion of an existing #building#, which includes the subject #accessory# off-street parking spaces, has not occurred. In making a certification pursuant to this Section, the Chairperson shall not consider any prior certification or any special permit that has lapsed in accordance with the provisions of this Resolution. However, for Site 6, as shown on Map 6 in Appendix A of this Chapter, any such certification shall lapse

after six years if #substantial construction# of the new #building# that includes the subject #accessory# off-street parking spaces, has not occurred.

93-822 - Permitted parking when a reservoir deficit exists

LAST AMENDED
6/6/2024

When a #reservoir deficit# exists, additional off-street parking spaces may be provided in accordance with the provisions of this Section. However, this Section shall not apply in the Eastern Rail Yard Subarea A1.

(a) The number of permitted #accessory# off-street parking spaces for Use Group V hotels may exceed 0.16 for every 1,000 square feet of #floor area#, up to the number permitted by the applicable provisions of Section 13-12 (Permitted Parking for Non-residential Uses).

(b) The number of permitted #accessory# off-street parking spaces for #uses# included under Offices in Use Group VII may be increased by up to 33 percent of the number permitted pursuant to Section 93-821, paragraph (b).

(c) The Department of Buildings shall not issue a building permit for any additional #accessory# off-street parking spaces permitted pursuant to this Section unless the Chairperson has certified that:

(1) a #reservoir deficit# exists;

(2) the number of #accessory# off-street parking spaces in excess of the number permitted by Section 93-821, proposed to be added by the #development# or #enlargement# for which certification is sought, does not exceed such #reservoir deficit#; and

(3) such additional #accessory# off-street parking spaces, when added to the sum of the parking spaces specified in paragraphs (e)(2)(i), (e)(2)(ii) and (e)(2)(iii) of Section 93-821 does not exceed 5,905 spaces, except insofar as the limit of 5,905 spaces set forth in paragraph (e)(2) has been adjusted pursuant to the provisions of paragraph (e)(3) of Section 93-821.

(d) Any certification granted by the Chairperson pursuant to this Section shall lapse after two years if #substantial construction# of the new #building# or of the #enlarged# portion of an existing #building#, which includes the subject #accessory# off-street parking spaces, has not occurred. In making a certification pursuant to this Section, the Chairperson shall not consider any prior certification or any special permit that has lapsed in accordance with the provisions of this Resolution. However, for Site 6, as shown on Map 6 in Appendix A of this Chapter, any such certification shall lapse after six years if #substantial construction# of the new #building# that includes the subject #accessory# off-street parking spaces, has not occurred.

93-823 - Parking permitted by special permit

LAST AMENDED
6/6/2024

When a #reservoir deficit# exists, the City Planning Commission may allow, by special permit, #uses# included under Offices in Use Group VII to exceed the number of #accessory# off-street parking spaces permitted by Section 93-822, provided that:

(a) within the vicinity of the site, there are insufficient parking spaces available;

(b) the facility will not create or contribute to serious traffic congestion nor unduly inhibit vehicular and pedestrian movement;

(c) the facility is so located as to draw a minimum of vehicular traffic to and through local #residential streets#; and

(d) adequate reservoir space is provided at the vehicular entrance to accommodate vehicles equivalent in number to 20 percent of the total number of parking spaces, up to 50 parking spaces, and five percent of any spaces in excess of 200 parking spaces, but in no event shall such reservoir spaces be required for more than 50 vehicles. However, in the case of a facility with a capacity of 10 vehicles or less, the Commission may waive this condition.

In addition, the Commission shall find that the number of #accessory# off-street parking spaces in excess of the number permitted by Section 93-821, proposed to be added by the #development# or #enlargement# that is the subject of the application under review, does not exceed the #reservoir deficit#; and that such additional #accessory# off-street parking spaces, when added to the sum of the parking spaces specified in paragraphs (e)(2)(i), (e)(2)(ii) and (e)(2)(iii) of Section 93-821 do not exceed 5,905 spaces, except insofar as the limit of 5,905 spaces set forth in paragraph (e)(2) has been adjusted pursuant to the provisions of paragraph (e)(3) of Section 93-821. In making such finding, the Commission shall not consider any prior certification or any special permit that has lapsed in accordance with the provisions of this Resolution.

93-824 - Publication of data

LAST AMENDED
4/14/2010

The Department of City Planning shall make available, in a form easily accessed by the public, regularly updated calculations of the current #Hudson Yards development parking supply#, #reservoir parking supply#, spaces described in paragraphs (e)(2)(i) and (e)(2)(ii) of Section 93-821, and #reservoir surplus# or #reservoir deficit#, as applicable.

93-83 - Use and Location of Parking Facilities

LAST AMENDED
6/6/2024

The provisions of this Section shall apply to all off-street parking spaces within the #Special Hudson Yards District#.

(a) All off-street parking spaces #accessory# to #residences# shall be used exclusively by the occupants of such #residences#. Except in the Eastern Rail Yard Subarea A1, all off-street parking spaces #accessory# to #transient hotels# listed under Use Group V and #uses# included under Offices in Use Group VII may be made available for public use. No #accessory# off-street parking spaces shall be located on a #zoning lot# other than the same #zoning lot# as the #use# to which they are #accessory#.

(b) All off-street parking spaces shall be located within facilities that, except for entrances and exits, are:

(1) entirely below the level of any #street# or publicly accessible open area upon which such facility, or portion thereof, fronts; or

(2) located, at every level above-grade, behind #commercial#, #community facility# or #residential floor# #area#, so that no portion of such parking facility is visible from

adjoining #streets# or publicly accessible open areas.

93-831 - Authorization for above-grade parking

LAST AMENDED
2/2/2011

The City Planning Commission may authorize parking facilities that do not comply with the provisions of paragraph (b) of Section 93-83 (Use and Location of Parking Facilities) and may authorize floor space used for parking and located above a height of 23 feet to be exempt from the definition of #floor area#, provided that:

(a) below-grade parking has been provided to the fullest extent feasible, and such above-grade facility is necessary due to subsurface conditions such as the presence of bedrock, railroad rights-of-way or other conditions that impose practical difficulties for the construction of below-grade parking facilities;

(b) the scale of the parking facility is compatible with the scale of #buildings# in the surrounding area;

(c) the materials and articulation of the #street wall# of the parking facility are compatible with #buildings# in the surrounding area;

(d) the ground floor level of such parking facilities that front upon #streets# is occupied by #commercial#, #community facility# or #residential uses# that activate all such adjoining #streets#, except at the entrances and exits to the parking facility. Where site planning constraints make such #uses# infeasible, the parking facility shall be screened from adjoining

#streets# or public access areas with a densely planted buffer strip at least 10 feet deep. Where such screening is not desirable, such ground floor wall of the parking facility shall be articulated in a manner that provides visual interest;

(e) any floor space above the ground floor level utilized for parking is located, to the greatest extent feasible, behind #commercial#, #community facility# or #residential# #floor area#, to minimize the visibility of the parking facility from adjoining #streets# or public access areas. Any exterior wall of the parking facility visible from an adjoining #street# or public access area shall be articulated in a manner that is compatible with #buildings# in the surrounding area;

(f) for portions of parking facilities that are visible from #streets#, publicly accessible open areas or nearby properties, interior lighting and vehicular headlights are shielded to minimize glare on such #streets#, public access areas or properties; and

(g) the location of vehicular entrances and exits will not unduly inhibit surface traffic and pedestrian flow.

The Commission may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area.

93-84 - Curb Cut Restrictions

LAST AMENDED
4/14/2010

Along all avenues in the #Special Hudson Yards District#, and along Hudson Boulevard and West 34th Street, and along the north side of West 35th, West 36th, West 37th and West 38th Streets

between Tenth and Eleventh Avenues, no driveway curb cuts for parking facilities or loading berths shall be permitted, except:

(a) for entrances or exits to a public parking garage located beneath Hudson Boulevard and the adjacent #public parks#; or

(b) where the Commissioner of Buildings determines there is no alternative means of access to required off-street parking spaces or required loading berths from other #streets# bounding the #zoning lot#. However, in no event shall curb cuts be permitted on or within 40 feet of Hudson Boulevard.

93-841 - Curb cut restrictions in the Large-Scale Plan Subdistrict A

LAST AMENDED
4/14/2010

In Subarea A2 of the Large-Scale Plan Subdistrict A, curb cuts for parking and loading facilities shall be prohibited on West 34th Street, Tenth Avenue, Hudson Boulevard and Eleventh Avenue except where the City Planning Commission certifies there is no frontage available on West 33rd Street or West 35th Street to access a required parking or loading facility.

93-842 - Curb cut restrictions in the Farley Corridor Subdistrict B

LAST AMENDED
4/14/2010

No curb cuts shall be permitted on Eighth or Ninth Avenues between West 31st and West 33rd Streets. In the Pennsylvania Station Subarea B4, the maximum aggregate width of curb cuts on West 33rd Street shall be 90 feet. On the south side of West 33rd Street between the Lincoln Tunnel Approach and Ninth Avenue, the maximum aggregate width of curb cuts shall be 90 feet.

93-85 - Authorization for Additional Curb Cuts

LAST AMENDED
4/14/2010

Along the north side of West 35th, West 36th, West 37th and West 38th Streets between Tenth and Eleventh Avenues, for #zoning lots# greater than 20,000 square feet, the City Planning Commission may authorize curb cuts, provided the Commission finds that such curb cuts are needed for required loading berths, do not unduly inhibit surface traffic or pedestrian flow and do not impair the essential character of the surrounding area. Loading berths shall be arranged so as to permit head-in and head-out truck movements to and from the #zoning lot# and thereby permit a more efficient loading operation.

93-90 - HARASSMENT

LAST AMENDED
8/14/2025

(a) Definitions

(1) Anti-harassment area

"Anti-harassment area" shall mean the #Special Hudson Yards District#.

(2) Application date

"Application date" shall mean the date that the Department of Housing Preservation and Development accepts a completed application for a #certification of no harassment# for processing.

(3) Certification of no harassment

"Certification of no harassment" shall mean a certification by the Department of Housing Preservation and Development pursuant to this Section that there has not been #harassment# of the lawful occupants of a #multiple dwelling# during the #inquiry period#.

(4) Cure compliance lot

"Cure compliance lot" shall mean a #zoning lot# on which #low income housing# is provided pursuant to a #restrictive declaration# in accordance with the cure provisions of paragraph (d) of this Section. A #cure compliance lot# may be a #cure requirement lot#.

(5) Cure requirement

Except as otherwise provided in paragraph (e) of this Section with respect to Subareas 4 and 5 of the Hell's Kitchen Subdistrict D of the #Special Hudson Yards District#, "cure

requirement" shall mean #floor area# in an amount not less than the greater of:

(i) 28 percent of the total #residential# and #hotel# #floor area# of any #multiple dwelling# to be altered or demolished in which #harassment# has occurred; or

(ii) 20 percent of the total #floor area# of any new or altered #building# on the #cure requirement lot#.

(6) Cure requirement lot

"Cure requirement lot" shall mean:

(i) a #zoning lot# containing a #multiple dwelling# with respect to which the Department of Housing Preservation and Development has denied a #certification of no harassment#; or

(ii) a #zoning lot# with respect to which an applicant, in lieu of seeking a #certification of no harassment# which would otherwise be required for the full or partial demolition or #material alteration# of a #multiple dwelling# located in the #anti-harassment area#, elects to seek a certification of compliance with the cure provisions of paragraph (d) of this Section and enters into a #restrictive declaration#.

(7) Dwelling unit

"Dwelling unit" shall have the meaning set forth in the Multiple Dwelling Law.

(8) Exempt hotel

"Exempt hotel" shall mean any #multiple dwelling#:

(i) which is a #transient hotel# and was a #transient hotel# on the #referral date#;

(ii) in which no #residential# occupant is, or was on the #referral date#, entitled to a renewal lease or otherwise entitled to continued occupancy pursuant to the Local Housing Emergency Rent Control Act, as amended, the City Rent and Rehabilitation Law, as amended, the Rent Stabilization Law of 1969, as amended, or the Emergency Tenant Protection Act of 1974, as amended; and

(iii) which has been exempted from the provisions of this Section by written determination of the Department of Housing Preservation and Development.

(9) Exempt institutional residence

"Exempt institutional residence" shall mean any #multiple dwelling#:

(i) the occupancy of which is restricted to non-profit institutional use and was restricted to non-profit institutional use on the #referral date#, and

(ii) which has been exempted from the provisions of this Section by written determination of the Department of Housing Preservation and Development.

(10) Harassment

"Harassment" shall mean any conduct by or on behalf of an owner of a #multiple dwelling# that includes:

(i) the use or threatened use of force which causes or is intended to cause any person lawfully entitled to occupancy of a #dwelling unit# or #rooming unit# in such #multiple dwelling# to vacate such unit or to surrender or waive any rights in relation to such occupancy;

(ii) the interruption or discontinuance of essential services which

(a) interferes with or disturbs or is intended to interfere with or disturb the comfort, repose, peace or quiet of any person lawfully entitled to occupancy of a #dwelling unit# or #rooming unit# in the use or occupancy of such #dwelling unit# or #rooming unit#, and

(b) causes or is intended to cause such person lawfully entitled to occupancy of such #dwelling unit# or #rooming unit# to vacate such #dwelling unit# or #rooming unit# or to surrender or waive any rights in relation to such occupancy;

(iii) a failure to comply with the provisions of subdivision (c) of section 27-2140 of article seven of subchapter five of the Housing Maintenance Code which causes or is intended to cause such person lawfully entitled to occupancy of such #dwelling unit# or #rooming unit# to vacate such unit or to waive any rights in relation to such occupancy; or

(iv) any other conduct which prevents or is intended to prevent any person from the lawful occupancy of such #dwelling unit# or #rooming unit# or causes or is intended to cause such person lawfully entitled to occupancy of such #dwelling unit# or #rooming unit# to vacate such #dwelling unit# or #rooming unit# or to

surrender or waive any rights in relation to such occupancy, including but not limited to removing the possessions of any occupant from the #dwelling unit# or #rooming unit#; removing the door at the entrance to the #dwelling unit# or #rooming unit#; removing, plugging or otherwise rendering the lock on such entrance door inoperable; or changing the lock on such entrance door without supplying the occupant with a key.

(11) Inquiry period

"Inquiry period" shall mean a period which:

(i) commences upon the later of the #referral date# or a date which is 15 years prior to the #application date#, and

(ii) terminates upon the #application date#;

provided, however, that the Department of Housing Preservation and Development may:

(a) set such commencement date upon any date which is on or after the #referral date# and is more than 15 years prior to the #application date# where it determines that such extension of the duration of the inquiry period would further the purposes of this Section, and

(b) extend such termination date up to and including the date upon which the Department of Housing Preservation and Development determines to grant or deny a #certification of no harassment#.

(12) Low income housing

"Low income housing" shall mean #dwelling units# or #rooming units# occupied or to be occupied by persons or families having an annual household income at the time of initial occupancy equal to or less than 80 percent of the median income for the primary metropolitan statistical area, as determined by the United States Department of Housing and Urban Development or its successors from time to time for a family of four, as adjusted for family size.

(13) Material alteration

"Material alteration" shall mean any alteration to a #multiple dwelling# or other #building#, including, but not limited to, an alteration which reduces or increases the #floor area# of the #multiple dwelling# or other #building#, #converts# #floor area# from #residential# to non-#residential use#, changes the number or layout of #dwelling units# or #rooming units#, or adds or removes kitchens or bathrooms; provided, however, that #material alteration# shall not include:

(i) an #incidental alteration# which does not change the layout of #dwelling units# or #rooming units#, or

(ii) a repair or replacement of existing elements of such #multiple dwelling# or other #building# without materially modifying such elements.

(14) Multiple dwelling

"Multiple dwelling" shall have the meaning set forth in the Multiple Dwelling Law.

(15) Referral date

"Referral date" shall mean June 21, 2004.

(16) Restrictive declaration

"Restrictive declaration" shall mean a legal instrument which:

(i) provides that #low income housing# in an amount not less than the #cure requirement# shall be provided in a new or altered #multiple dwelling# located in the #anti-harassment area#,

(ii) provides that the #low income housing# must comply with the requirements of Section 27-10 (ADMINISTRATION OF AFFORDABLE HOUSING), inclusive, for rental #affordable housing# provided without #public funding#, as amended by this Chapter, unless any such requirement is waived by the Department of Housing Preservation and Development,

(iii) contains such other terms as the Department of Housing Preservation and Development shall determine,

(iv) has been approved by the Department of Housing Preservation and Development,

(v) runs with the land and binds all parties in interest to the #cure requirement lot# and their successors,

(vi) runs with the land and binds all parties in interest to the #cure compliance lot# and their successors, and

(vii) is perpetual in duration.

(17) Rooming unit

"Rooming unit" shall have the meaning set forth in the Housing Maintenance Code.

(b) Permit Process

(1) Unless the Department of Housing Preservation and Development has issued a #certification of no harassment# pursuant to paragraph (c) of this Section or has certified compliance with the cure provisions of paragraph (d) of this Section, the Department of Buildings shall not issue a permit for:

(i) the full or partial demolition of a #multiple dwelling# located in the #anti-harassment area#; or

(ii) the #material alteration# of a #multiple dwelling# located in the #anti-harassment area#.

(2) Any permit for alterations may be exempted from the provisions of this Section by written determination of the Department of Housing Preservation and Development that such alterations are to be performed solely for the purpose of either:

(i) making the public areas of a #multiple dwelling# accessible to persons with disabilities without altering the configuration of any #dwelling unit# or #rooming unit#; or

(ii) making a #dwelling unit# or a #rooming unit# accessible to persons with disabilities.

(3) The following structures shall be exempt from the provisions of this Section:

(i) any city-owned #multiple dwelling#;

(ii) any #multiple dwelling# which is the subject of a program approved by Department of Housing Preservation and Development for the provision of housing for persons of low or moderate income and has been exempted from the provisions of this Section by written determination of the Department of Housing Preservation and Development;

(iii) any #multiple dwelling# initially occupied for residential purposes after January 1, 1974, except for #buildings# which are or have been interim #multiple dwellings# pursuant to Article 7C of the Multiple Dwelling Law;

(iv) any #exempt hotel#;

(v) any #multiple dwelling# in which occupancy is restricted to clubhouse or school dormitory use and occupancy was restricted to clubhouse or school dormitory use on the #referral date#; and

(vi) any #exempt institutional residence#.

(4) Where the Department of Housing Preservation and Development has denied a #certification of no harassment# with respect to a #multiple dwelling#, the Department of Buildings shall not issue any permit with respect to any #multiple dwelling# or other #building# located on, or to be located on, the #cure requirement lot# except in accordance with paragraph (d) of this Section.

(c) Certification of No Harassment

(1) The Department of Housing Preservation and Development shall determine and certify whether there has been #harassment# of the lawful occupants of a #multiple dwelling# during the #inquiry period#.

(2) There shall be a rebuttable presumption that any of the acts or omissions described in paragraph (a)(10) of this Section occurring within the #inquiry period# were committed by or on behalf of the owner of such #multiple dwelling# and that such acts or omissions:

(i) were committed with the intent to cause a person lawfully entitled to occupancy of a #dwelling unit# or #rooming unit# in such #multiple dwelling# to vacate such unit or to surrender or waive a right in relation to such occupancy, and

(ii) materially advanced the demolition or alteration in furtherance of which the permit and #certification of no harassment# are sought.

(3) The Department of Housing Preservation and Development may promulgate rules regarding the implementation of this Section. Such rules may include, but shall not be limited to, provisions which:

(i) establish the information to be required in an application for #certification of no harassment#, the form of such application, and the manner of filing of such application,

(ii) establish reasonable fees and charges to be collected from applicants for the administrative expenses incurred by the Department of Housing Preservation and Development, including, but not limited to, costs for publication of any notices, and

(iii) establish the duration for which a #certification of no harassment# will remain effective, and

(iv) authorize the recission of a #certification of no harassment# if the Department of Housing Preservation and Development finds either that #harassment# has occurred after the #inquiry period# or that the application for such #certification of no harassment# contained a material misstatement of fact. Following such recission, the Department of Buildings may revoke any permit for which such #certification of no harassment# was required.

(4) The Department of Housing Preservation and Development may refuse to accept, or to act upon, an application for a #certification of no harassment# where the Department of Housing Preservation and Development finds that:

(i) taxes, water and sewer charges, emergency repair program charges, or other municipal charges remain unpaid with respect to such #multiple dwelling#,

(ii) such #multiple dwelling# has been altered either without proper permits from the Department of Buildings or in a way that conflicts with the certificate of occupancy for such #multiple dwelling# (or, where there is no certificate of occupancy, any record of the Department of Housing Preservation and Development indicating the lawful configuration of such #multiple dwelling#) and such unlawful alteration remains uncorrected; or

(iii) the Department of Housing Preservation and Development has previously denied an application for a #certification of no harassment# pursuant to this Section.

(5) If the Department of Housing Preservation and Development determines that an application for a #certification of no harassment# contains a material misstatement of fact, the Department of Housing Preservation and Development may reject such application and bar the submission of a new application with respect to such #multiple dwelling# for a period not to exceed three years.

(6) Before determining whether there is reasonable cause to believe that #harassment# has occurred with respect to any #multiple dwelling#, the Department of Housing Preservation and Development shall publish a notice in such form and manner as shall be specified in the rules promulgated pursuant to paragraph (c)(3) of this Section. Such notice shall seek public comment regarding whether there has been #harassment# of the lawful occupants of such #multiple dwelling# from the #referral date# to the date of submission of comments. If the Department of Housing Preservation and Development receives comments containing material evidence that #harassment# occurred on or after the #referral date# and more than 15 years prior to the #application date#, the Department of Housing Preservation and Development shall, in accordance with

paragraph (a)(11) of this Section, set the commencement of the #inquiry period# on a date prior to the date of such alleged harassment.

(7) The Department of Housing Preservation and Development shall determine whether there is reasonable cause to believe that #harassment# has occurred during the #inquiry period#.

(i) If there is no reasonable cause to believe that #harassment# has occurred during the #inquiry period#, the Department of Housing Preservation and Development shall issue a #certification of no harassment#.

(ii) If there is reasonable cause to believe that #harassment# has occurred during the #inquiry period#, the Department of Housing Preservation and Development shall cause a hearing to be held in such manner and upon such notice as shall be determined by the Department of Housing Preservation and Development, unless the applicant waives the right to a hearing. Following receipt of the report and recommendation of the hearing officer, or receipt of a waiver of the right to such a hearing from the applicant, the Department of Housing Preservation and Development shall either grant or deny a #certification of no harassment#.

(8) The Department of Housing Preservation and Development may deny a #certification of no harassment# without a prior hearing if there has been a finding by the Division of Housing and Community Renewal or any court having jurisdiction that there has been harassment, unlawful eviction or arson at the #multiple dwelling# during the #inquiry period#.

(d) Certification of Cure for Harassment

(1) The Department of Housing Preservation and Development shall not certify compliance with the cure provisions of this paragraph to the Department of Buildings unless all parties in interest to the #cure requirement lot# and all parties in interest to the #cure compliance lot# have entered into a #restrictive declaration#.

(2) Any permit or certificate of occupancy issued by the Department of Buildings with respect to any structure located on a #cure requirement lot# or a #cure compliance lot# shall be subject to the following conditions:

(i) The Department of Buildings shall not issue any permit, except a permit for an alteration which is not a #material alteration#, with respect to any structure located on the #cure requirement lot# unless the #restrictive declaration# has been recorded in the Office of the City Register and indexed against each tax lot within the #cure requirement lot# and each tax lot within the #cure compliance lot#.

(ii) The Department of Buildings shall not issue any temporary or permanent certificate of occupancy for any new or existing structure or portion thereof on the #cure requirement lot#, other than any #low income housing# located on the #cure requirement lot#, until:

(a) the Department of Housing Preservation and Development certifies that the #low income housing# required by the #restrictive declaration# has been completed in compliance with the #restrictive declaration#; and

(b) the Department of Buildings has issued a temporary or permanent certificate of occupancy for each unit of such #low income housing#.

(iii) The Department of Buildings shall include the occupancy restrictions of the #restrictive declaration# in any temporary or permanent certificate of occupancy for any new or existing structure or portion thereof on the #cure compliance lot#. Failure to comply with the terms and conditions set forth in the #restrictive declaration# shall constitute a violation, and a basis for revocation, of any certificate of occupancy containing such restriction.

(iv) The Department of Buildings shall include the occupancy restrictions of the #restrictive declaration# in any temporary or permanent certificate of occupancy for any new or existing structure or portion thereof on the #cure requirement lot#, except where:

(a) the #cure requirement lot# is not the #cure compliance lot#; and

(b) the management and operation of the #cure compliance lot# is wholly controlled by, and the #restrictive declaration# requires that management and operation of the #cure compliance lot# remain wholly controlled by, an independent not-for-profit administering agent that is not affiliated with the owner of the #cure requirement lot#.

Failure to comply with the terms and conditions set forth in the #restrictive declaration# shall constitute a violation, and a basis for revocation, of any certificate of occupancy containing such restriction.

(3) No portion of the #low income housing# required under this Section shall qualify to:

(i) increase the #floor area ratio# pursuant to the provisions of Section 27-10 (ADMINISTRATION OF AFFORDABLE HOUSING), inclusive, as modified by the provisions of the #Special Hudson Yards District#; or

(ii) satisfy an eligibility requirement of any real property tax abatement or exemption program with respect to any #multiple dwelling# that does not contain such #low income housing#.

(4) Demolition in Subareas 4 and 5 of the Hell's Kitchen Subdistrict D

Notwithstanding any provision of paragraph (a)(5) of this Section or paragraph (d) of this Section to the contrary, with regard to any #multiple dwelling# to be demolished in Subareas 4 and 5 of the Hell's Kitchen Subdistrict D of the #Special Hudson Yards District#, #cure requirement# shall mean #floor area# in an amount not less than the greater of:

(i) 40 percent of the total #residential# or #hotel# #floor area# of any #multiple dwelling# to be demolished in which #harassment# has occurred; or

(ii) 30 percent of the total #floor area# of any new #building# on the same #zoning lot# as the #multiple dwelling# to be demolished.

93-91 - Demolition

LAST AMENDED
8/14/2025

The Department of Buildings shall not issue a permit for the demolition of a #multiple dwelling#, as defined in Section 93-90 (HARASSMENT), paragraph (a)(14), located within Subareas D4 or D5 in the Hell's Kitchen Subdistrict D or within Subdistrict H of the #Special Hudson Yards District#, or an alteration permit for the partial demolition of a #multiple dwelling# located within Subareas D4 and D5 or within Subdistrict H of the #Special Hudson Yards District#, where such partial demolition would decrease the amount of #residential# #floor area# in such #multiple dwelling# by 20 percent or more, unless:

(a) such #multiple dwelling# is an unsafe #building# or an emergency exists such that demolition is required pursuant to the provisions of Title 28, Chapter 2, Articles 215 or 216 of the New York City Administrative Code; or

(b) the Commissioner of the Department of Housing Preservation and Development, after providing 60 days notice and opportunity to comment to the local Community Board, has certified:

(1) if such #multiple dwelling# is to be substantially preserved, that an alteration permit is required to allow the removal and replacement of 20 percent or more of the #floor area#;

(2) if such #multiple dwelling# is not to be substantially preserved, that the Department of Housing Preservation and Development has determined that the rehabilitation of such #multiple dwelling# is not feasible under any active governmentally funded program; and

(3) that the Department of Housing Preservation and Development has issued a #certification of no harassment# pursuant to Section 93-90, paragraph (c), or has certified compliance with the cure provisions of Section 93-90, paragraph (d).

(c) the following structures shall be exempt from the provisions of this Section:

(1) any city-owned #multiple dwellings#;

(2) any #multiple dwelling# which is the subject of a program approved by the Department of Housing Preservation and Development for the provision of housing for persons of low- or moderate-income and has been exempted from the provisions of this Section by written determination of the Department of Housing Preservation and Development;

(3) any #multiple dwelling# initially occupied for #residential# purposes after January 1, 1974, except for #buildings# which are or have been interim #multiple dwellings#, pursuant to Article 7C of the Multiple Dwelling Law;

(4) any #exempt hotel#, as defined in Section 93-90;

(5) any #multiple dwelling# in which occupancy is restricted to clubhouse or school dormitory #use# and occupancy was restricted to clubhouse or school dormitory #use# on June 21, 2004; or

(6) any #exempt institutional residence#, as defined in Section 93-90.

Zoning Resolution

THE CITY OF NEW YORK
Zohran K. Mamdani, Mayor

CITY PLANNING COMMISSION
Sideya Sherman, Chair

Chapter 4 - Special Sheepshead Bay District (SB)

File generated by https://zr.planning.nyc.gov on 6/23/2026

Chapter 4 - Special Sheepshead Bay District (SB)

94-00 - GENERAL PURPOSES

LAST AMENDED
5/12/2021

The "Special Sheepshead Bay District," established in this Resolution, is designed to promote and protect public health, safety, general welfare and amenity. These general goals include, among others, the following specific purposes:

(a) to promote and strengthen the unique character of the "Special Sheepshead Bay District" area as a prime location for waterfront-related commercial and recreational development and to help attract a useful cluster of shops, restaurants and related activities, which will complement and enhance the area as presently existing;

(b) to encourage the provision of housing with appropriate amenities in areas suitable for residential development;

(c) to improve vehicular and pedestrian circulation patterns by requiring limited curb cuts and uniform sidewalk widening, and encouraging the provision of public open space and other amenities as a related part of new development;

(d) to provide an incentive for redevelopment of the area in a manner consistent with the foregoing objectives which are integral elements of the Comprehensive Plan of the City of New York;

(e) to facilitate flood-resilient construction and open space design to reduce the potential for property damage and disruption from regular flood events; and

(f) to promote the most desirable use of land in this area and thus to conserve the value of land and thereby protect the City's tax revenues.

94-01 - Definitions

LAST AMENDED
2/2/2011

Development

For the purposes of this Chapter, a "development" includes #development#, as defined in Section 12-10, or an #enlargement#.

Development rights

For the purposes of this Chapter, the "development rights" of a #granting lot# shall consist of the unused bonus #floor area# allowed by Section 94-08 (Special Floor Area Bonus Provisions). Any unused bonus #floor area# transferred from a #granting lot# may be used on a #receiving lot# either for #residential# or #commercial# #uses# as set forth in Section 94-094 (Authorization provisions for transfer of development rights to receiving lots).

Granting lot

For the purposes of this Chapter, a "granting lot" is a #zoning lot#, with a minimum area of 20,000 square feet, which is located in Areas A, C, D or E, as indicated in Appendix A (District Map), and is #developed# pursuant to Sections 94-07 (Mandatory Provisions) and 94-08 (Special Floor Area Bonus

Provisions).

Person

For the purposes of this Chapter, a "person" is an individual, corporation (whether incorporated for business, public benefit, or non-profit purposes or otherwise), partnership, trust, firm, organization, other association or any combination thereof.

Receiving lot

For the purposes of this Chapter, a "receiving lot" is a #zoning lot#, with a minimum area of 20,000 square feet, which is located in Areas A, C, E or F, as indicated in Appendix A (District Map), and on which #development rights# are transferred from a #granting lot# pursuant to Section 94-094.

94-02 - General Provisions

LAST AMENDED
12/5/2024

In harmony with the general purposes of the #Special Sheepshead Bay District# and in accordance with the provisions of this Chapter, certain specified regulations of the districts on which the #Special Sheepshead Bay District# is superimposed are made inapplicable and special regulations are substituted therefor. The City Planning Commission, by special permit, may grant certain #uses# and may authorize #bulk# modifications within the Special District as set forth in this Chapter. Except as modified by the express provisions of this Special District, the regulations of the underlying zoning districts remain in effect.

In #flood zones#, in the event of a conflict between the provisions of this Chapter and the provisions of Article VI, Chapter 4 (Special Regulations Applying in Flood Zones), the provisions of Article VI, Chapter 4, shall control.

94-04 - Requirements for Applications

LAST AMENDED
10/4/1973

An application to the City Planning Commission for the grant of a special permit or authorization respecting any #development# under the provisions of this Chapter shall include a site plan showing the location and proposed #use# of all #buildings or other structures# on both the #granting# and #receiving lots#; the location of all special amenities that are to be provided under the mandatory and bonus provisions; the location of all vehicular entrances and exits and off-street parking and loading spaces; and such other information as may be required by the Commission for its determination as to whether or not a special permit or authorization is warranted.

94-05 - Relationship to Public Improvement Projects

LAST AMENDED
10/4/1973

In all cases, the City Planning Commission shall deny a special permit or authorization application whenever the #development# will interfere with a public improvement project (including housing, highways, public #buildings# or facilities, redevelopment or renewal projects, or rights-of-way for sewers, transit or other public facilities) which is approved by or pending before the Board of Estimate, City Planning Commission or Site Selection Board, as determined from the calendar of each

agency issued prior to the date of the public hearing on the application for a special permit or authorization.

94-06 - Special Use Regulations

LAST AMENDED
10/4/1973

In order to preserve the character of the area and to encourage waterfront and related #uses#, special limitations are imposed on the location, size and kinds of #uses# permitted within the Special District as set forth in this Section.

94-061 - Permitted residential, community facility and commercial uses

LAST AMENDED
6/6/2024

A. #Residential# and #community facility# #uses#

#Residential# and #community facility# #uses# shall be allowed anywhere within the Special District, except as set forth in Section 94-065 (Restriction on ground floor use).

B. #Commercial# #uses#

In all Areas, as indicated in Appendix A (Special Sheepshead Bay District Map) of this Chapter, the underlying C2 District regulations shall apply to #commercial# #uses#.

94-062 - Streetscape regulations

LAST AMENDED
6/6/2024

The underlying #ground floor level# streetscape provisions of Section 32-30 (STREETSCAPE REGULATIONS), inclusive, shall apply, except that:

(a) #ground floor level# #street# frontages in Areas A, B, C and D as indicated in Appendix A (Special Sheepshead Bay District Map) of this Chapter along Emmons Avenue shall be considered #Tier C street frontages#;

(b) #ground floor level# #street# frontages in Areas A, B, C, E and F, as indicated in Appendix A (Special Sheepshead Bay District Map) of this Chapter, along Sheepshead Bay Road, Ocean Avenue, Bedford Avenue, Nostrand Avenue, as well as, in Areas E and F, frontages along Emmons Avenue, shall be considered #Tier B street frontages#; and

(c) in Areas A, B, C and D, the size of #ground floor level# #commercial uses# shall be limited to a maximum #floor area# of 3,500 square feet per establishment and to a maximum frontage per establishment at the #ground floor level# of 35 feet when facing any plaza, Emmons Avenue, Sheepshead Bay Road, Ocean Avenue and Bedford Avenue, except that:

(1) such size limitation shall not apply to eating or drinking establishments listed under Use Group VI; and

(2) in Area B, grocery and convenience retailers listed under Use Group VI may exceed such size limitations if the following criteria are met:

(i) such establishment shall be on a #zoning lot# existing on May 27, 2015;

(ii) only one such establishment shall be permitted on a #zoning lot#; and

(iii) the size of such establishment shall be limited to 15,000 square feet of #floor area# utilized for the sale of food and non-food grocery products and, further, such establishment shall be limited to an additional 6,500 square feet of #floor area# for #accessory# office and storage space.

94-063 - Additional sign regulations

LAST AMENDED
6/6/2024

Where #illuminated signs# are permitted by the underlying district regulations, such #signs# shall have only indirect illumination. Where #signs#, other than #advertising signs#, are permitted by the underlying district regulations, such #signs# shall not extend above the roof level of any #building or other structure# in the Special District.

94-07 - Mandatory Provisions

LAST AMENDED
10/4/1973

All #developments# within the Special District shall comply with the mandatory provisions made applicable by this Section and such mandatory improvements, when developed for a #floor area# bonus pursuant to Section 94-08 (Special Floor Area Bonus Provisions), shall require certification by

the City Planning Commission, pursuant to Section 94-13.

94-071 - Sidewalk extension area

LAST AMENDED
5/12/2021

All #developments# which are located on a #zoning lot# with frontage along Emmons Avenue, Sheepshead Bay Road, Ocean Avenue, Bedford Avenue or Nostrand Avenue shall contain a sidewalk extension area, which complies with the following requirements:

(a) has a minimum depth of five feet, measured perpendicular to such #street lines#;

(b) extends the full length of the #zoning lot# along such #street lines#, except for existing #buildings# within five feet of the #street line#;

(c) is open and unobstructed from its lowest level to the sky;

(d) maintains continuity with the established sidewalk, to which it shall be immediately adjacent throughout its entire length;

(e) is available for public use at all times; and

(f) has a paved surface which complies with standards as established by the New York City Department of Transportation.

No sidewalk extension area shall be required along any portion of a #street line# where a plaza is provided in accordance with the provisions of Sections 94-072 (Special plaza provisions) or 94-081 (Plaza bonus).

94-072 - Special plaza provisions

LAST AMENDED
5/12/2021

In Areas A, C and E, all #developments# that are located on a #zoning lot# with frontage along Emmons Avenue, except for a #zoning lot# of less than 8,000 square feet that was in existence as of November 1, 1972, shall provide and maintain a plaza for public use which complies with the following requirements:

(a) The plaza shall #abut# the Emmons Avenue #street line# along the full length of such #lot line# or for a distance of at least 50 feet, whichever is less.

(b) The plaza shall be directly accessible to the public at all times from Emmons Avenue or a plaza.

(c) The size of the plaza shall be at least 4,000 square feet in one location with a minimum dimension of 35 feet, and shall comply with the provisions of Section 94-20 (DESIGN REQUIREMENTS FOR PLAZAS).

94-08 - Special Floor Area Bonus Provisions

LAST AMENDED
2/2/2011

In Areas A, C, D, E and F, any #development# on a #zoning lot# with an area of at least 20,000 square feet within the Special District shall be eligible for a #floor area# bonus as set forth in this Section.

In areas A and E, for any #development#, the #floor area# bonus earned under the provisions of this Section may be used either for #residential use# on the same #zoning lot# or may be transferred to a

#receiving lot# within the Special District, pursuant to Section 94-093 (Transfer of development rights from granting lots).

In Area C, for any #development#, the #floor area# bonus earned under the provisions of this Section may be used either for #commercial# #use# on the same #zoning lot# or may be transferred to a #receiving lot# within the Special District, pursuant to Section 94-093.

In Area D, for any #development#, the #floor area# bonus earned under the provisions of this Section may be used only for the purposes of transfer to a #receiving lot# within the Special District, pursuant to Section 94-093.

In Area F, for any #development#, the #floor area# bonus earned under the provisions of this Section may be used only for #residential use# on the same #zoning lot#.

In no event shall the aggregate bonus #floor area#, permitted under the provisions of this Section, exceed the basic #floor area ratio# permitted for #residential use# by Section 94-09 (Special Bulk Regulations) by more than 60 percent in Areas A, C, D or E, or by more than 20 percent in Area F.

Any #floor area# bonus received according to the provisions of this Section shall require certification by the City Planning Commission, pursuant to Section 94-13.

94-081 - Plaza bonus

LAST AMENDED
5/12/2021

In Areas A, C, D, E and F, any #development# on a #zoning lot# which provides and maintains a plaza for public use shall be eligible for a #floor area# bonus, in accordance with the following provisions:

(a) the #development# shall contain a minimum area of 20,000 square feet;

(b) the plaza shall comply with the following minimum area requirements:

(1) in Areas A, C, D and E, the plaza shall be at least 4,000 square feet in one location, with a minimum dimension of 35 feet;

(2) in Area F, the plaza shall be at least 5,000 square feet in one location, with a minimum dimension of 50 feet;

(c) the plaza shall not be located within 30 feet of the Leif Ericson Drive service road;

(d) the plaza shall comply with the provisions of Section 94-20 (DESIGN REQUIREMENTS FOR PLAZAS); and

(e) the #development# shall be eligible for a #floor area# bonus as follows:

(1) in Areas A, C, D, and E, the #floor area# bonus shall be at a rate of 3.5 square feet of #floor area# for every square foot of plaza area;

(2) in Area F, the #floor area# bonus shall be at a rate of one square foot of #floor area# for every two square feet of plaza area.

94-082 - Special parking bonus

LAST AMENDED
5/12/2021

In Areas C, D or E, any #development# on a #zoning lot# with a minimum area of 20,000 square feet shall be eligible for a #floor area# bonus at the rate of one square foot of #floor area# for every square foot of #accessory# #commercial# parking space above the minimum amount required by the underlying district regulations and made available for daily long-term parking.

To be eligible for a #floor area# bonus under the provisions of this Section, there shall be at least five additional parking spaces provided and the size of each parking space shall be at least 300 square feet. In no event shall the dimension of any parking stall be less than 18 feet long and 8 feet, 6 inches wide.

94-09 - Special Bulk Regulations

LAST AMENDED
10/4/1973

94-091 - Basic floor area ratio

LAST AMENDED
12/5/2024

For the purposes of this Chapter, the #floor area ratio# of a #zoning lot# within the Special District shall not exceed the #floor area ratio# permitted by the underlying district regulations.

94-092 - Maximum floor area ratio

LAST AMENDED
12/5/2024

The permitted basic #floor area ratio# for #community facility# #use# is 1.25. The underlying district #floor area ratio# may be increased on any #zoning lot# by the amount set forth in Section 94-08 (Special Floor Area Bonus Provisions) or through transfer provisions pursuant to Section 94-094 (Authorization provisions for transfer of development rights to receiving lots) or by special permit pursuant to Section 94-095 (Special permit for floor area, location within buildings, building height and related parking modifications within Area G).

94-093 - Transfer of development rights from granting lots

LAST AMENDED
10/4/1973

#Development rights# from a #granting lot# may be conveyed, or otherwise disposed of:

(a) directly to a #receiving lot#; or

(b) to a #person# for subsequent disposition to a #receiving lot# all in accordance with the provisions of this Special District. Any #person# may convey interest in all or any portion of such #development rights# to another #person#, but such #development rights# may only be used for a #development# on a #receiving lot#.

In transferring #development rights# from #granting lots#, such bonus #floor area# shall not exceed 40 percent of the basic #floor area ratio# in Areas A, C and E, and shall not exceed 60 percent of the basic #floor area ratio# in Area D, as permitted on such #granting lots# by Section 94-09 (Special Bulk Regulations), inclusive.

94-094 - Authorization provisions for transfer of development rights to receiving lots

LAST AMENDED
2/2/2011

The City Planning Commission, on application after public notice and hearing, may authorize the addition of all or any portion of the #development rights# from a #granting lot# to the permitted #floor area# of a #receiving lot#, provided that:

(a) the maximum #floor area# for any #development# on a #receiving lot# does not exceed the maximum #floor area# permitted by Section 94-092 (Maximum floor area ratio);

(b) the #development# shall aid in achieving the general purposes and intent of this Chapter as set forth in Section 94-00 (GENERAL PURPOSES);

(c) the design of the #development# shall not impair the character of the surrounding area or its future development;

(d) the distribution of the #bulk# on the #receiving lot# permits adequate access of light and air to surrounding #streets# and properties;

(e) the traffic created by the #development# will not create or contribute to serious traffic congestion and will make adequate provisions for unconstrained pedestrian circulation; and

(f) the requirements set forth in Sections 94-093 (Transfer of development rights from granting lots), 94-12 (Recordation) and 94-13 (Certification) are satisfied.

The Commission may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area.

94-095 - Special permit for floor area, location within buildings, building height and related parking modifications within Area G

LAST AMENDED
12/5/2024

For #enlargements# to #buildings# in Area G, on #zoning lots# with a #lot area# of at least 10,000 square feet and existing on March 22, 2016, the City Planning Commission may:

(a) modify the provisions of Section 94-092 (Maximum floor area ratio) to increase the permitted #floor area ratio# for #commercial# #use# to 2.0 provided that such #enlargement#:

(1) is designed so as not to impair the character of the surrounding area or its future development; and

(2) will not cause undue congestion on local #streets# or impair pedestrian circulation;

(b) modify the height provisions of Section 33-431 (In C1 or C2 Districts with bulk governed by surrounding Residence District) relating to the requirements in Section 32-42 for location of #uses# within #buildings#, to allow a #commercial building# or portion thereof to exceed 30 feet in height or two #stories#, provided that such #building# shall not exceed a maximum height of 35 feet or three #stories#, whichever is less; and provided that the distribution of the #bulk# permits adequate access of light and air to surrounding #streets# and properties, and does not impair the view of the Bay; and

(c) waive or reduce the number of #accessory# off-street parking spaces required by Section 36-21 (General Provisions) for such #use#, provided that the applicant has demonstrated that the number of #accessory# off-street parking spaces supplied is sufficient to meet the parking needs of such #use#.

The Commission may prescribe appropriate additional conditions and safeguards to minimize adverse effects on the character of the surrounding area.

94-10 - SPECIAL REQUIREMENTS FOR BUILDING HEIGHT AND SETBACKS

LAST AMENDED
12/5/2024

The height and setback regulations set forth in Section 23-42 (Height and Setback Requirements in R1 Through R5 Districts), 34-24 (Modification of Height and Setback Regulations) and 35-62 (Commercial Districts With an R1 Through R5 Residential Equivalent), shall apply to #buildings# in the #Special Sheepshead Bay District#.

In Areas A, B, C, D, E and F, the #street wall# or any other portion of a #residential building# or the #residential# portion of a #mixed building#, except for a structure which encloses only #accessory# parking fronting on the Leif Ericson Drive service road #street line#, shall be set back a minimum distance of 10 feet from all #street lines#. Such minimum setback may be modified in accordance with the provisions of Section 23-423. Beyond the #initial setback distance#, the #building# shall not exceed the maximum height as set forth in this Section.

Beyond the #initial setback distances# in Area A, the #building# shall not exceed seven #stories# or 85 feet, whichever is fewer.

In Areas E and F, within 75 feet of the Emmons Avenue #street line#, the maximum height of any portion of a #building# shall not be more than three #stories# or 35 feet, whichever is fewer. Beyond the #initial setback distance# of 75 feet in Areas E and F, the #building# shall not exceed six #stories# or 75 feet, whichever is fewer.

94-11 - Special Parking Provisions

LAST AMENDED
10/4/1973

94-111 - Curb cuts

LAST AMENDED
2/2/2011

No curb cuts shall be permitted on Emmons Avenue, Sheepshead Bay Road, Ocean Avenue, Bedford Avenue or Nostrand Avenue except that where no access is available on a #zoning lot# from another #street#, one curb cut shall be permitted.

94-112 - Treatment of parking areas

LAST AMENDED
6/6/2024

Any parking facilities in the Special District that are not completely enclosed shall be screened by shrubbery at least three feet high at the time of planting and expected to form a year-round dense screen at least five feet high within three years. When roof parking is provided, it shall be screened where it is visible from a #street# or plaza.

94-114 - Exceptions to application of waiver provisions

LAST AMENDED
3/22/2016

In areas A, B, C, D, E and F, the provisions of Section 36-23 (Waiver of Requirements for Spaces Below Minimum Number) do not apply.

The provisions relating to modifications of parking requirements of Article VII, Chapter 3 (Special Permits by the Board of Standards and Appeals) in Sections 73-10 through 73-52, shall not apply in the Special District.

94-115 - Location of commercial parking spaces

LAST AMENDED
5/12/2021

In Area F, #accessory# off-street parking spaces for #commercial# #uses# may be located outside the commercially zoned area but within 600 feet of the #building# to which it is #accessory#, only if an area equal to the #lot area# occupied by the parking in the #residential# area is provided as a plaza in the commercially zoned area to which the parking is #accessory#.

94-12 - Recordation

LAST AMENDED
10/4/1973

At the time of transfer of #development rights# from a #zoning lot#, there shall be recorded in the land records and indexed against such #granting lot# from which #floor area# is removed, an instrument removing such #floor area# and prohibiting construction on such lot from which the

#floor area# is taken, of any #building or other structure# which would contain a #floor area# in excess of that still available to the #zoning lot# after deducting the #floor area# removed. Such prohibition shall be non-cancelable for 99 years and, at the time of the addition of #development rights# to a #receiving lot# as provided in Section 94-094 (Authorization provisions for transfer of development rights to receiving lots), there shall be recorded in the land records and indexed against such #zoning lot# to which #floor area# is added, an instrument transferring the #floor area# to the #receiving lot# benefited. A certified copy of such instruments shall be submitted to the City Planning Commission upon recordation thereof.

94-13 - Certification

LAST AMENDED
10/4/1973

An application for certification pursuant to Sections 94-07 (Mandatory Provisions) or 94-08 (Special Floor Area Bonus Provisions), by the City Planning Commission shall include:

(a) written notice of intention to #develop# a #zoning lot# within the Special District;

(b) plans for lot improvements, which shall be constructed on both #granting# and #receiving lots#; and

(c) consents, agreements, restrictive declarations or legal documents obligating the owner of the #zoning lot# or its designee to #develop# its property in accordance with the provisions of this Chapter.

The Commission may prescribe appropriate conditions and safeguards in connection with the issuance of such certification.

94-20 - DESIGN REQUIREMENTS FOR PLAZAS

LAST AMENDED
5/12/2021

Where a plaza within the #Special Sheepshead Bay District# is provided in accordance with the provisions of this Chapter, such plaza shall comply with the applicable minimum design standards set forth in this Section.

(a) Design criteria

(1) Basic design criteria

Plazas shall comply with the standards set forth in paragraphs (a) and (b) of Sections 37-715 (Requirements for major portions of public plazas), 37-716 (Requirements for minor portions of public plazas), and 37-718 (Paving).

(2) Access and circulation

Plazas shall meet the requirements set forth in Section 37-721 (Sidewalk frontage), and Sections 37-723 (Circulation paths) through 37-726 (Permitted obstructions), inclusive. Hours of access shall be governed by Section 37-727 (Hours of access). Accessibility for persons with disabilities shall be provided in compliance with Section 37-728 (Standards of accessibility for persons with disabilities).

Plazas shall be located no lower than #curb level#.

(3) Kiosks and open air cafes

Kiosks or open air cafes shall meet the operational and service requirements as set forth in paragraphs (a) and (b) of Section 37-73 (Kiosks and Open Air Cafes), as applicable. In addition, kiosks may be placed on plazas upon certification by the Chairperson of the City Planning Commission as set forth in paragraph (c) of Section 37-73.

(4) Seating

Seating shall meet the minimum and maximum dimensional standards set forth in paragraphs (1) through (7) of Section 37-741 (Seating).

(5) Planting and trees

Plazas shall provide planting areas in compliance with Section 37-742 (Planting and trees). All planted areas shall consist of salt-tolerant species recommended by the Department of Parks and Recreation.

(6) Lighting and electrical power

All plazas shall provide lighting and electrical power pursuant to the standards set forth in Section 37-743 (Lighting and electrical power).

(7) Litter receptacles

All plazas shall provide litter receptacles pursuant to the standards set forth in Section 37-744 (Litter receptacles).

(8) Bicycle parking

All plazas shall provide bicycle parking pursuant to the standards set forth in Section 37-745 (Bicycle parking).

(9) Drinking fountains

A minimum of one drinking fountain shall be provided in all plazas.

(10) Signs

All plazas shall provide entry and information plaques that contain the words “Open to the public” and information regarding the hours of access. Prohibition and accessory signage may be provided pursuant to the standards set forth in Sections 37-752 (Prohibition signs) and 37-753 (Accessory signs).

(b) Maintenance

The owner shall be responsible for the maintenance of all plazas, including, but not limited to, litter control, management of pigeons and rodents, maintenance of required lighting levels, and the care and replacement of furnishings and vegetation within the #zoning lot#.

(c) Compliance

Plazas shall be governed by the compliance requirements of Section 94-13 (Certification).

Chapter 5 - Special Transit Land Use District (TA)

File generated by https://zr.planning.nyc.gov on 6/23/2026

Chapter 5 - Special Transit Land Use District (TA)

95-00 - GENERAL PURPOSES

LAST AMENDED
11/7/1974

The "Special Transit Land Use District" established in this Resolution is designed to promote and protect public health, safety, general welfare and amenity. These general goals include the following specific purposes:

(a) to minimize the conflict between normal pedestrian movements on public sidewalks and access to underground transit systems, by requiring developments within the Special District to provide access to underground transit or other subway amenities;

(b) to reduce congestion on city streets in the vicinity of transportation nodes, by encouraging the provision of adequate underground pedestrian circulation systems;

(c) to require adequate access of light and air to the subway mezzanines or station areas of the underground transit system and other related facilities in order to provide greater visibility and safety to below ground spaces;

(d) to encourage development that reinforces and preserves the character of the existing communities within the area, by promoting needed pedestrian amenities;

(e) to coordinate the present and future relationship of land uses within the Special District including weather protected public access to the underground transit system; and

(f) to promote the most desirable use of land in the area and thus to conserve the value of land and buildings, and thereby protect the City's tax revenues.

95-01 - Definitions

LAST AMENDED
2/2/2011

For purposes of this Chapter, matter in italics is defined in Section 12-10 (DEFINITIONS).
