- (b) to control the impact of buildings on the access of light and air to the streets and avenues of the Hudson Yards area and the surrounding neighborhoods;
- (c) to provide an open space network comprised of public parks, public open space and public access areas through the establishment of a large-scale plan and other controls and incentives;
- (d) to preserve the pedestrian orientation of ground floor uses, and thus safeguard a traditional quality of the City;
- (e) to preserve the low- and medium-scale residential character of the Hell’s Kitchen area;
- (f) to provide a transition between the Hudson Yards District and the Clinton community to the north;
- (g) to provide a transition between the Hudson Yards District and the Garment Center to the east;

- (i) to promote the use of the Jacob K. Javits Convention Center to the west by creating an active and attractive business district that facilitates pedestrian access to the Center;
- (j) to provide flexibility of architectural design within limits established to assure adequate access of light and air to the street, and thus to encourage more attractive and economic building forms;
- (k) to provide a transition between the Hudson Yards District and the Hudson River to the west;
- (l) to facilitate the restoration and reuse of the High Line elevated rail line as an accessible, public open space through special height and setback regulations;
- (m) to promote the most desirable use of land and building development in accordance with the District Plan for the Hudson Yards and thus conserve the value of land and buildings and thereby protect the City’s tax revenues; and
- (n) to limit the amount of off-street parking based on regulations that address the anticipated needs of residents, workers and visitors to the Hudson Yards Area, consistent with the objective of creating an area with a transit- and pedestrian-oriented neighborhood character.

 - (i) an amount of #floor area# equal to at least 20 percent of the total #residential# #floor area# is allocated to #qualifying affordable housing# or #qualifying senior housing#;
 - (ii) a #floor area# increase or transfer equal to a #floor area ratio# of 2.5 has been earned pursuant to Section [93-31](#) or [93-32](#); and
- (2) Any #floor area# increase above a #floor area ratio# of 12.0 shall be only pursuant to Sections [93-31](#) or [93-32](#).

Furthermore, in Subarea D1, the #floor area ratio# on a #zoning lot# may exceed 13.0 only where the #community facility# #floor area ratio# is not less than the excess of such #floor area ratio# above 13.0.

(b) Subarea D3

In Subarea D3, the basic maximum #floor area ratio# may be increased only pursuant to Section [93-31](#). In addition, for #qualifying affordable housing# or #qualifying senior housing#, the maximum #residential# #floor area ratio# shall be 9.0.

(c) Subareas D4 and D5

In Subareas D4 and D5, the underlying #floor area ratio# regulations shall apply.

(d) Authorization for transfer of #floor area# for public facilities

For any #zoning lot# located partially in Subarea D2 and partially in Subarea D4, where such #zoning lot# is occupied by a #development# or #enlargement# that includes a public facility, the City Planning Commission may authorize modifications to the #street wall# requirements of Subarea D4 and authorize modifications to the provisions of Section [77-22](#) (Floor Area Ratio) in order to allow the transfer of #floor area# from that portion of the #zoning lot# located in Subarea D4 to that portion located in Subarea D2, provided the #floor area ratio# for the #zoning lot# does not exceed the adjusted maximum #floor area ratio# for the #zoning lot# as specified in Section [77-22](#). In order to authorize such modifications, the Commission shall find that:

- (1) such public facility provides a necessary service to the surrounding area;
- (2) such transfer of #floor area# is necessary in order for the #development# or #enlargement# to achieve an adequate separation of #uses# on the #zoning lot#; and
- (3) such transfer of #floor area# will not unduly increase the #bulk# of any #development# or #enlargement#, density of population or intensity of #use# to the detriment of occupants of #buildings# on the #block# or surrounding #blocks#, and that any disadvantages to the surrounding area caused by reduced access of light and air will be more than offset by the advantages of the public facility to the local community and the City as a whole.

(e) Authorization for transfer of floor area for public open areas

For #developments# or #enlargements# on #zoning lots# divided by district boundaries that are wholly or partially within Hell's Kitchen Subdistrict D and provide publicly accessible open areas contiguous to or over the Lincoln Tunnel Approaches or Dyer Avenue, the Commission may authorize the distribution of #floor area# across such district boundaries pursuant to Section [93-543](#) (Authorization for the provision of public open areas).

As a pre-condition to applying for such #floor area# bonus, the applicant shall demonstrate that a #floor area ratio# of no less than 0.1 of the maximum #floor area ratio# set forth in Row C of Section [93-22](#) (Floor Area Regulations in Subdistricts B, C, D, E, and F), has been achieved, prior to, or in conjunction with, the application. For the purposes of this paragraph, defined terms additionally include those in Section [66-11](#) (Definitions).

However, any floor space occupied by a public #school#, constructed in whole or in part pursuant to agreement with the New York City School Construction Authority and subject to the jurisdiction of the New York City Department of Education, shall be exempted from the definition of #floor area# for the purposes of calculating the permitted #floor area ratio# for #community facility uses# and the total maximum #floor area ratio# of the #zoning lot#;

93-30 - SPECIAL FLOOR AREA REGULATIONS

LAST AMENDED

1/19/2005

93-31 - District Improvement Fund Bonus

LAST AMENDED

12/5/2024

In Subdistrict A-2 of the #Special Garment Center District# and in the #Special Hudson Yards District#, except in Subdistrict F, the Chairperson of the City Planning Commission shall allow, by certification, the applicable basic maximum #floor area ratio# to be increased up to the maximum amount specified in Sections [93-21](#), [93-22](#) or [121-31](#), as applicable, provided that instruments in a form acceptable to the City are executed and recorded and that, thereafter, a contribution has been deposited in the #Hudson Yards District Improvement Fund#. The execution and recording of such instruments and the payment of such non-refundable contribution shall be a precondition to the filing for or issuing of any building permit allowing more than the basic maximum #floor area# for such #development# or #enlargement#.

The Commissioner of Buildings shall not authorize the construction of any #development# or #enlargement# utilizing #floor area# bonused pursuant to this Section, including foundations with respect thereto, nor shall the construction of any bonused portion thereof be authorized, until the Chairperson has certified that the requirements of this Section have been met. Nothing herein shall limit the ability of the Commissioner of Buildings to issue a permit for the construction of a #development# or #enlargement# which does not utilize such bonused #floor area#, provided that, prior to issuance of such permit, the Chairperson has notified the Commissioner of Buildings in writing of the receipt by the Department of City Planning of either:

- (a) a letter from the applicant for such permit dated no earlier than 30 days prior to issuance thereof, stating whether as of such date the applicant anticipates filing an application to increase the applicable basic maximum #floor area ratio# pursuant to the provisions of this Section and/or other provisions in Sections [93-222](#) (Maximum floor area ratio in the 34th Street Corridor Subdistrict C), [93-223](#) (Maximum floor area ratio in Hell's Kitchen Subdistrict D) or [121-41](#) (Maximum Permitted Floor Area Within Subdistrict A-2); or
- (b) an application for a bonus from such applicant to increase the applicable basic maximum #floor area ratio# pursuant to the provisions of this Section and/or other provisions in Sections [93-222](#), [93-223](#) or [121-41](#).

Copies of letters received from applicants pursuant to paragraph (a) of this Section shall be forwarded by the Department of City Planning to the Community Board and local City Council member, and maintained on file and be available for public inspection at such Department.

The contribution amount shall be \$100 per square foot of #floor area# as of January 19, 2005, and shall be adjusted by the Chairperson annually. Such adjustment shall occur on August 1 of each calendar year, based on the percentage change in the Consumer Price Index for all urban consumers as defined by the U.S. Bureau of Labor Statistics for the twelve months ended on June 30 of that year. The contribution amount shall be determined based upon the rate which is in effect at the time the contribution is received, and contributions may be made only on days when the Hudson Yards Infrastructure Corporation (the "Corporation") is open for business and during business hours as specified by the Corporation.

The Commission may promulgate rules regarding the administration of this Section, and the Commission may also, by rule, adjust the contribution amount specified in the preceding paragraph to reflect changes in market conditions within the #Hudson Yards Redevelopment Area# if, in its judgment, the adjusted amount will facilitate the district-wide improvements that are consistent with the purposes of this Chapter and the purposes of the #Special Garment Center District#. The Commission may make such an adjustment by rule, not more than once a year.

For any such adjustment by rule decreasing the contribution amount, or increasing the contribution amount by more than the percentage change in the Consumer Price Index for all urban consumers, the following shall apply:

- (1) Such rule shall be effective for not more than two years; and
- (2) The Commission shall not publish the proposed rule pursuant to the City Administrative Procedure Act unless the City Council Land Use Committee and the Department of City Planning have jointly filed an application for a zoning text amendment under Section 201 of the New York City Charter, which would make such adjustment of the contribution amount permanently effective. The contribution amount established under such rule as finally adopted shall continue in effect with further adjustments based upon the Consumer Price Index for all urban consumers, until the next adjustment of the contribution amount pursuant to this Section.

For the #conversion# to #dwelling units# of non-#residential# #floor area#, where the total #floor area# on the #zoning lot# to be #converted# to #residential use# exceeds a #floor area ratio# of 12.0, such excess #floor area# shall be permitted only pursuant to the provisions of this Section.

93-32 - Floor Area Regulations in the Phase 2 Hudson Boulevard and Park

In the #Phase 2 Hudson Boulevard and Park#, no #development# shall be permitted and, except as provided in Section [93-051](#) (Applicability of Article I, Chapter 1), no #building# shall be #enlarged#. However, #floor area# from a granting site within the #Phase 2 Hudson Boulevard and Park# may be transferred to a receiving site in accordance with the provisions of paragraph (a) of this Section.

For the purposes of this Section, a “granting site” shall mean a #zoning lot#, or portion thereof, within the #Phase 2 Hudson Boulevard and Park# and the #lot area# of such granting site shall include any area on such site designated on the City Map as Hudson Boulevard or #public park#, and a “receiving site” shall mean a #zoning lot#, or portion thereof, within Subareas A2 through A5 of the Large-Scale Plan Subdistrict A or Subareas D1 or D2 of Hell’s Kitchen Subdistrict D, to which #floor area# from a granting site has been transferred.

Special regulations for certain #zoning lots# partially within the #Phase 2 Hudson Boulevard and Park# are set forth in Section [93-33](#).

(a) Transfer of floor area by certification

The Chairperson of the City Planning Commission shall allow, by certification, the applicable basic maximum #floor area ratio# of a receiving site to be increased up to the maximum amount specified in Section [93-21](#) or [93-22](#), as applicable, through the transfer of #floor area# from a granting site, provided that:

- (1) the maximum amount of #floor area# transferred from a granting site shall not exceed the #floor area ratio# permitted on the granting site, as listed below, less any existing #floor area# to remain on the granting site:

District	Maximum #floor area ratio#
C2-8	7.5
C6-2	6.02
C6-4	10.0
M1-5	5.0

- (2) each transfer, once completed, irrevocably reduces the amount of #floor area# that may be transferred from the granting site by the amount of #floor area# transferred;
- (3) the maximum amount of #floor area# transferred to a receiving site shall be based on an amount not to exceed the #floor area ratio# permitted on a #zoning lot# through such transfer pursuant to Section [93-21](#) or [93-22](#), as applicable. In the event a granting site generates more #floor area# than is permitted on a receiving site, the Chairperson shall certify that such excess #floor area# be credited towards future #floor area# transfers pursuant to this Section; and
- (4) where all #floor area# shall be transferred from a granting site pursuant to one or more such certifications, all certificates of occupancy have been surrendered for such granting site, all structures on such granting site have

been demolished, and such granting site has been conveyed to the City for improvement, where applicable, as a #public park# or #street#, as provided for on the City Map.

Where, as a result of the transfer of #floor area# pursuant to this paragraph (a), the amount of #floor area# on a receiving site is less than the maximum allowable as specified for the applicable subarea in Row B in the table in Section [93-21](#) and Row C in the table in Section [93-22](#), any additional #floor area#, up to the maximum #floor area ratio# permitted on the receiving site as specified in such rows, may be achieved only through contributions to the #Hudson Yards District Improvement Fund# pursuant to Section [93-31](#) (District Improvement Fund Bonus), an increase in #floor area# pursuant to paragraph (b) of this Section or Section [93-33](#) (Special Regulations for Residual Portions of Zoning Lots Partially Within the Phase 2 Hudson Boulevard and Park), or the provisions of Section [93-223](#) (Maximum floor area ratio in Hell's Kitchen Subdistrict D).

An application filed with the Chairperson for the transfer of #floor area# pursuant to this paragraph (a) shall be made jointly by the owners of the granting site and receiving site, and shall include a site plan and #floor area# zoning calculations for the granting site and the receiving site, and a copy of the transfer instrument legally sufficient in both form and content to effect such a transfer, together with notice of the restrictions upon further development of the granting site and the receiving site.

Notices of restrictions shall be filed by the owners of the granting site and receiving site in the Borough Office of the Register of the City of New York, indexed against the granting site and the receiving site, a certified copy of which shall be submitted to the Chairperson of the Commission. Receipt of certified copies thereof shall be a pre-condition to issuance of any building permit, including any foundation or alteration permit, for any #development# or #enlargement# on the receiving site which incorporates #floor area# transferred pursuant to this paragraph (a).

(b) Authorization for contribution-in-kind

The City Planning Commission may authorize a contribution-in-kind to the #Hudson Yards District Improvement Fund# for a receiving site, provided that:

- (1) the conditions for transferring #floor area# set forth in paragraph (a) of this Section have been met as of the date of the authorization or will be met in accordance with agreements or instruments entered into pursuant to paragraph (b)(3) of this Section;
- (2) the granting site will be improved, at the applicant's expense, as a #public park# or #street#, as provided for on the City Map, prior to conveyance to the City; and
- (3) the applicant, or an affiliate of such applicant, has entered into an agreement or provided instruments in a form satisfactory to the City, providing for the improvement of the granting site as a #public park# or #street# pursuant to an agreed-upon construction schedule. The construction schedule may be adjusted from time to time in accordance with the provisions of such agreement or instruments and shall include progress milestones, including the date by which the improvements will be 50 percent complete, and a date by which the improvements will be substantially complete and usable by the public. In the event that the conditions for transferring #floor area# set forth in paragraph (a) of this Section have not been completed as of the date of this authorization, such agreement or instruments shall also provide that such conditions will be met, to the extent applicable, pursuant to an agreed-upon schedule.

In order to grant such authorization, the Commission shall find that the #public park# or #street# has been designed in accordance with the approved plan for the Hudson Boulevard and Park, or as an appropriate interim design, in consultation with the Department of Parks and Recreation or Department of Transportation.

The Commission shall determine the reasonable cost of such improvement, including any acquisition and site preparation costs, and shall divide this reasonable cost by the contribution amount per square foot of the District Improvement Bonus, as determined pursuant to Section [93-31](#), and in effect on the date of authorization of the contribution-in-kind pursuant to this paragraph (b), in order to determine the amount of increased #floor area# generated by the contribution-in-kind. In making such determination, the Commission may consult with an appraiser or engineer at the applicant's expense. In the event the contribution-in-kind results in an amount of #floor area# in excess of what is permitted on the receiving site, the Commission shall authorize that such excess #floor area# be credited towards future #floor area# increases pursuant to Section [93-31](#).

The owner of the receiving site shall not apply for or accept a temporary certificate of occupancy for that portion of the #development# or #enlargement# identified as utilizing the increased #floor area# permitted pursuant to this paragraph (b), and the Department of Buildings shall not issue a temporary certificate of occupancy for such portion until the Chairperson has certified that the improvements are substantially complete and usable by the public. The owner shall not apply for or accept a permanent certificate of occupancy for such portion of the #development# or #enlargement# nor shall the Department of Buildings issue a permanent certificate of occupancy for such portion until the improvements have been finally completed in accordance with the approved plans and such final completion has been certified by the Chairperson. A restrictive declaration in a form acceptable to the Chairperson shall be recorded against the receiving site in the Office of the Register of the City of New York in order to implement such restrictions.

An application filed with the Chairperson for the contribution-in-kind pursuant to this paragraph (b) shall be made jointly by the owners or contract vendees of the granting site and receiving site and shall, in all instances, include the party responsible either directly or through its affiliate, for the improvement of the granting site as a #public park# or #street# pursuant to the agreement or instruments entered into pursuant to paragraph (b)(3) of this Section.

Receipt of executed copies of the agreement or instruments required pursuant to paragraph (b)(3) of this Section, and of copies of the recorded restrictive declaration, shall be a precondition to the issuance of a building permit, including any foundation or alteration permit, for any #development# or #enlargement# on the receiving site that incorporates a #floor area# bonus granted pursuant to this paragraph (b).

In no event shall a building permit for a #development# or #enlargement# utilizing a #floor area# increase pursuant to this paragraph (b) be granted for the receiving site until the Chairperson provides notice to the Commissioner of Buildings that the applicant, or affiliate responsible for the improvement of the granting site, has provided acceptable evidence of site control for purposes of construction of the improvement.

93-33 - Special Regulations for Residual Portions of Zoning Lots Partially Within the Phase 2 Hudson Boulevard and Park

LAST AMENDED
2/2/2011

Where all of the #lot area# within the following parcels, as they existed on January 19, 2005, that is also within the #Phase 2 Hudson Boulevard and Park#, has been conveyed to the City pursuant to the provisions of Section [93-32](#), the owner of the residual portion of one of these parcels may convey to the City such residual portion, with all development rights appurtenant thereto, provided that all certificates of occupancy have been surrendered and all structures on such parcel have been demolished:

Block 708, Lots 20 and 46

Block 709, Lot 17

When such conveyance is made, the Chairperson of the City Planning Commission may certify that such owner is entitled to an increase in #floor area# on any receiving site as specified in Section [93-32](#), in lieu of a permitted #floor area# increase in exchange for contributions to the #Hudson Yards District Improvement Fund#. The amount of increase certified shall not exceed the #lot area# of the residual portion times the #floor area ratio# of the applicable zoning district, as specified in Section [93-32](#), paragraph (a)(1).

The maximum amount of #floor area# increase on a receiving site shall be based on an amount not to exceed the #floor area ratio# increase permitted on a #zoning lot# through such contribution pursuant to Sections [93-21](#) or [93-22](#), as applicable. In the event the certified permissible #floor area# increase is greater than that permitted on a receiving site, the Chairperson shall certify that such excess #floor area# be credited towards future #floor area# increases on receiving sites pursuant to this Section.

Once certified by the Chairperson, the entitlement to an increase in #floor area# pursuant to this Section shall be the property of the former owner of the residual property conveyed to the City, and such owner may assign, sell or otherwise transfer such entitlement without restriction.

Where certification is made pursuant to this Section, the site plan and #floor area# calculations for the receiving site, together with the notice of restrictions upon further development of the receiving site, included in the application submitted pursuant to Section [93-32](#), shall set forth the increase in #floor area# for such receiving site certified hereunder.

93-34 - Distribution of Floor Area in the Large-Scale Plan Subdistrict A

LAST AMENDED

2/2/2011

In order to promote a superior site plan in the Eastern Rail Yard Subarea A1 of the Large-Scale Plan Subdistrict A, the Chairperson of the City Planning Commission shall allow, by certification, the distribution of #floor area# from the Eastern Rail Yard Subarea A1 to #zoning lots# in Subareas A2 through A5 of the Large-Scale Plan Subdistrict A. Such distribution shall only be permitted for receiving sites that have maximized their permitted #floor area# through contributions to the #Hudson Yards District Improvement Fund#, pursuant to Section [93-31](#), or the transfer of #floor area# or increase in the amount of #floor area# from the #Phase 2 Hudson Boulevard and Park#, pursuant to Sections [93-32](#) or [93-33](#). For the purposes of this Section, a “receiving site” shall mean a #zoning lot# within Subareas A2 through A5 to which #floor area# from the Eastern Rail Yard Subarea A1 has been distributed.

(a) Distribution of #floor area# by certification

The Chairperson of the Commission shall allow, by certification, a distribution of #floor area# from the Eastern Rail Yard Subarea A1 to a receiving site provided that:

- (1) The amount of #floor area# distributed does not result in distributions in excess of the maximum amount specified for the applicable #use# that may be distributed from the Eastern Rail Yard Subarea A1, as set forth in paragraph (b)(2) of Section [93-21](#);
- (2) Each distribution, once completed, irrevocably reduces the amount of #floor area# that may be distributed from the Eastern Rail Yard Subarea A1 by the amount of #floor area# distributed; and
- (3) The amount of #floor area# on the receiving site which results from such distribution does not exceed the maximum #floor area ratio# permitted on a #zoning lot# through distribution of #floor area# from the Eastern Rail Yard Subarea A1, as specified in Row C of the table in Section [93-21](#).

(b) Requirements for application

An application filed with the Chairperson of the Commission for the distribution of #floor area# by certification pursuant to paragraph (a) of this Section shall be made jointly by the owner of the development rights of the Eastern Rail Yard Subarea A1 and the receiving site and shall include:

- (1) a site plan and #floor area# zoning calculations for the receiving site; and
- (2) a copy of the distribution instrument legally sufficient in both form and content to effect such a distribution, together with a notice of the restrictions limiting further development of the Eastern Rail Yard Subarea A1.

Such notice of restrictions shall be filed by the owners of the respective sites in the Borough Office of the Register of the City of New York, indexed against the Eastern Rail Yard Subarea A1 and the receiving site, a certified copy of which shall be submitted to the Chairperson of the Commission. Receipt of certified copies thereof shall be a pre-condition to issuance of any building permit for any #development# or #enlargement# utilizing #floor area# distributed pursuant to this Section, including foundations with respect thereto, on the receiving site. Nothing herein shall limit the ability of the Commissioner of Buildings to issue a permit for the construction of a #development# or #enlargement# which does not utilize such distributed #floor area#.

93-35 - Special Permit for Transit Bonus in Pennsylvania Station Subarea B4

LAST AMENDED
1/19/2005

In the Pennsylvania Station Subarea B4, for #developments# or #enlargements# that significantly enhance the pedestrian environment and provide improvements to access to public transit facilities, the City Planning Commission may permit a commensurate #floor area# increase for #commercial# #use# above a #floor area ratio# of 10.0 to a maximum #floor area ratio# of 19.5.

- (a) The following conditions shall apply:
- (1) the applicant shall submit a plan acceptable to the Commission identifying that portion of the #development# or #enlargement# utilizing such increased #floor area#;
 - (2) all transit facility improvements shall comply with applicable design standards or the current guidelines of the Metropolitan Transit Authority, New Jersey Transit, or Amtrak, as applicable;
 - (3) the applicant shall submit schematic or concept plans for all proposed improvements to the applicable transportation agency and the Commission, and any further documentation deemed necessary by the reviewing agencies;
 - (4) the Commission shall receive a letter from the applicable transportation agency stating the drawings and other documents submitted by the applicant have been determined to be of sufficient scope and detail to fix and describe the size and character of the transit improvement as to architectural, structural, mechanical and electrical systems; materials; relationship to existing site conditions; and other such elements as may be appropriate; and
 - (5) the owner shall sign a legally enforceable instrument in a form acceptable to the reviewing agencies containing complete drawings of the improvement and setting forth the obligations of owner and developer, their successors and assigns, to construct and maintain all parts of the improvement, whether on-site or off, pursuant to an agreed-upon construction schedule. Such instrument shall be recorded against the #zoning lot# in the

Office of the Register of the City of New York for New York County and a certified copy of the instrument shall be submitted to the Chairperson of the Commission and the applicable transportation agencies.

The owner shall not apply for or accept a temporary certificate of occupancy for that portion of the #development# or #enlargement# identified as utilizing the increased #floor area# permitted pursuant to this Section, and the Department of Buildings shall not issue a temporary certificate of occupancy for such portion, until the applicable transportation agencies have certified that the transit facility improvement is substantially complete and usable by the public. The owner shall not apply for or accept a permanent certificate of occupancy for such portion of the #development# or #enlargement#, nor shall the Department of Buildings issue a permanent certificate of occupancy for such portion until the transit improvement has been finally completed in accordance with the approved plans and such final completion has been certified by the applicable transportation agencies.

(b) In order to grant such special permit, the Commission shall find that:

- (1) the transit improvements significantly enhance the surface and subsurface pedestrian circulation network into and around the #development# or #enlargement# and to and from public transit facilities;
- (2) the streetscape, the site design and the location of #building# entrances for the #development# or #enlargement# contribute to the overall improvement of pedestrian circulation within the #Special Hudson Yards District# and minimize congestion on surrounding streets; and
- (3) the increased #floor area# will not unduly increase the #bulk# of the #development# or #enlargement#, density of population or intensity of #use# to the detriment of the occupants of #buildings# in the surrounding area.

In determining the amount of #floor area# bonus, the Commission shall consider the extent to which the transit improvements address each of the above findings.

The Commission may prescribe appropriate additional conditions and safeguards in order to enhance the character of the #development# or #enlargement# and to minimize adverse effects on the character of the surrounding area.

LAST AMENDED

4/29/2014

The following regulations shall apply to all #buildings# within Sites 1 through 6:

For the purposes of applying the height and setback regulations of this Section, inclusive, wherever a #building# fronts upon any publicly accessible open space, private street or pedestrian way, as shown on Map 3 (Subdistrict F: Public Access Area Plan) in Appendix B, the boundary of such publicly accessible open spaces, private streets or pedestrian ways shall be considered to be a #street line#. Furthermore, for the purposes of applying such height and setback regulations, the sidewalk widening line required along Eleventh Avenue shall be considered the Eleventh Avenue #street line#.

Wherever a #building# on Sites 1, 5 or 6 faces the #High Line#, the #street wall# shall not be located closer than five feet to the edge of the #High Line#, as shown on Map 3. Such five foot separation shall remain unobstructed, from the level of finished grade adjacent to a #building#, to the sky, except as permitted:

- (1) for that portion of a #building# on Site 5 located above a height of 50 feet as measured from the #High Line bed#, pursuant to Section [93-567](#) (Site 5);
- (2) for that portion of a #building# on Site 6 located below the #High Line#, pursuant to Section [93-568](#) (Site 6); and

For portions of a #building# that front upon a publicly accessible sidewalk, the maximum #building# base height and, where applicable, the maximum transition height of a #street wall#, shall be measured from the mean level of the public sidewalk that such #street wall# fronts upon. For portions of a #building# that front upon publicly accessible open spaces in which no sidewalks are provided adjacent to a #street wall#, the maximum #building# base height or, where applicable, the maximum transition height of a #street wall#, shall be measured from the mean level of the final grade of the open space that such #street wall# fronts upon. However, the following #street wall# heights shall be measured from the #High Line bed#:

- (i) on Site 6, the portion of a #street wall# above the #High Line bed# facing the #High Line# beyond 60 feet of Eleventh Avenue; and
- (ii) on Site 6, along the Southwest Open Space within 60 feet of the #High Line#.

- (2) Measurement of tower heights

The height of a tower shall be measured from the highest level of the public sidewalk or finished grade located nearest such tower, to the ceiling of the highest #story# of the tower where #floor area# occupies more than 75 percent of the gross area of such #story#. However, on Site 5, the height of the tower shall be measured from the #High Line bed#.

Where minimum height differences are required between towers, such heights, for each tower, shall be measured from the Manhattan Datum, which is 2.75 feet above sea level.

The provisions of this paragraph (a)(2)(ii) shall apply to #street walls# above the #High Line bed#, facing the #High Line# beyond 60 feet of Eleventh Avenue, and to those portions of #street walls# facing the Southwest Open Space that are within 60 feet of the #High Line#. Such #street walls# shall rise without setback to a minimum height of 50 feet as measured above the level of the #High Line bed#, and a maximum height of 60 feet as measured above the level of the #High Line bed#. Above a height of 60 feet, all portions of a tower, or portions of a transition height located beneath a tower facing the #High Line#, shall be set back from the #street wall# of the #building# at least 15 feet, except such setback distance may include the depth of any permitted recesses. Portions of #street walls# along the Southwest Open Space within 60 feet of the #High Line# need not set back above the maximum base height to allow portions of a tower, or portions of a transition height located beneath a tower that comply with the provisions of paragraphs (a)(3) and (a)(4), respectively, to rise without setback.

All portions of a #building# that exceed the maximum base height of 90 feet shall comply with the tower provisions of paragraph (a)(4), with the exception of a #building# which provides a transition height in accordance with the provisions of paragraph (a)(3).

(3) Transition height

If the outermost walls of all #stories# of any tower provided in accordance with the tower provisions of paragraph (a)(4) are individually inscribed within a rectangle where the east-west dimension does not exceed a length of 110 feet, a transition height may be provided above the #building# base in accordance with the provisions of this paragraph (a)(3).

Above the maximum base height, a #street wall# may rise to a maximum transition height equal to two-thirds of the height of the #street wall# of the #building# base facing the West 31st Street Extension. Such a transition height shall not exceed a maximum height of 150 feet, as measured above the West 31st Street Extension #street line#.

All portions of a transition height shall be set back 30 feet from the #street wall# of the #building# base along the West 31st Street Extension and the #High Line#, except that where towers are provided directly above a portion of the transition height, such a portion of transition height located directly below a tower shall provide setbacks in accordance with the #building# base provisions of paragraph (a)(2) of this Section.

All portions of a #building# that exceed the maximum transition height shall comply with the tower provisions of paragraph (a)(4).

(4) Towers

All #stories# of a #building# located partially or wholly above a height of 90 feet, or 150 feet if a transition height is provided in accordance with the provisions of paragraph (a)(3), shall be considered a tower and shall comply with the provisions of this paragraph (a)(4).

(i) Maximum floorplate

If more than one tower is provided on Site 6, the aggregate gross area of any such tower #stories#, measured at any height, shall not exceed 25,000 square feet.

(ii) Maximum length and height

The outermost walls of all #stories# of a tower, when viewed from above, shall be inscribed within a rectangle where the east-west dimension shall not exceed a length of 160 feet and the north-south dimension shall not exceed a length of 110 feet. Where more than one tower is located on Site 6, each tower shall comply independently with such maximum dimensions.

The #aggregate width of street walls# of all #stories# of a tower facing the West 31st Street Extension or the #High Line# shall not exceed 220 feet within 40 feet of the #street wall# of the #building# base.

If more than one tower is provided on Site 6, such towers shall either be equal in height, or the easternmost tower shall have a height greater than the height of the westernmost tower.

All towers that exceed a height of 350 feet shall provide articulation in accordance with Section [93-569](#) (Tower top articulation).

(b) Certification to expand Site 6

The area of Site 6, as shown on Map 2 (Subdistrict F: Site Plan) in Appendix B, may be extended westward by up to 40 feet in order to accommodate a public #school# upon certification of the Chairperson of the City Planning Commission, that:

- (1) the Chairperson is in receipt of a letter from the School Construction Authority that describes the need for the additional area;
- (2) the site and landscape plans for the Southwest Open Space have been approved by the Chairperson, pursuant to Section [93-78](#) (Site and Landscape Plans for Public Access Areas in Subdistrict F);
- (3) no portion of a tower located on Site 6 extends beyond 395 feet west of the Eleventh Avenue #street line#; and
- (4) any portion of a #building# located beyond 395 feet from the Eleventh Avenue #street line# shall affect southwesterly view corridors from the Central Open Space towards the Hudson River to the minimum extent necessary to accommodate a public #school#.

93-569 - Tower top articulation

LAST AMENDED
12/21/2009

All towers that exceed a height of 350 feet shall provide articulation in accordance with this Section.

For the purposes of this Section, a minimum of the uppermost 15 percent of the height of a #building or other structure#, including all rooftop mechanical structures and their required enclosures pursuant to the regulations of paragraph (b) of Section [93-41](#) (Rooftop Regulations), shall henceforth be referred to as the “Tower Top Zone”. However, chimneys, antennae or decorative spires shall not be considered part of the Tower Top Zone, provided no such structures contain #floor area#.

The height of such #building or other structure# shall be measured from the highest level of the public sidewalk or finished grade located nearest such #building or other structure#.

The Tower Top Zone shall contain an “Upper Zone” and a “Lower Zone.” The Lower Zone shall be a minimum of 50 percent of the height of the Tower Top Zone and shall contain tower #stories#. The Upper Zone shall contain the highest tower #story# where #floor area# occupies more than 75 percent of the gross area of such #story#, and any enclosed rooftop mechanical equipment.

For the purposes of this Section, each tower of a #building or other structure# shall be comprised of four separate tower top elevation views that shall be used to measure compliance with the regulations of this Section. Each elevation view shall have an angle of 90 degrees from another such view.

Each tower top shall provide the following forms of articulation:

(a) Change in the #building or other structure# profile

(1) Constructing the profile change boundary

To comply with the provisions of this paragraph (a)(1), a rectilinear boundary within the Tower Top Zone shall be created in each elevation view to determine the required amount of profile change. In order to construct such boundary, two datum lines shall first be drawn in each elevation view. Such datum lines shall begin at the average outermost edges of those portions of tower floor plates above a height of 350 feet containing #floor area# below the Tower Top Zone, and shall extend upward for the entirety of the height of the #building or other structure#. The rectilinear profile change boundary shall include the portion of these two datum lines within the Tower Top Zone, as well as their intersection with two datum lines indicating the uppermost elevation and the lowermost elevation of the Tower Top Zone. In addition, a datum line shall indicate the boundary between the Upper and Lower Zone, creating a boundary for both the Upper Zone and Lower Zone.

(2) Required profile change

A minimum of 10 percent of the area of the profile change boundary within the Lower Zone shall remain open to the sky in each required elevation view. Such profile change shall begin upward at the lowermost datum line of the Tower Top Zone. In addition, a minimum of 20 percent of the area of the profile change boundary within the Upper Zone shall remain open to the sky in each required elevation view.

However, for portions of a #building or other structure# providing enclosed rooftop mechanical equipment within the Upper Zone, the width (as viewed in elevation) of the lowermost portion of enclosed rooftop mechanical space at that point in elevation which coincides with the uppermost portion of the highest tower #story# shall in no event be reduced beyond 50 percent of the width of such highest tower #story#. Upwards of such a point in elevation, no restriction on maximum width reduction for enclosed rooftop mechanical spaces shall apply.

(b) Change in the #building or other structure# #lot coverage#

For portions of a #building or other structure# within the Lower Zone, the average #lot coverage# for all tower #stories# within such zone shall not exceed 80 percent of the #lot coverage# of the tower #story# with the largest #lot coverage# below the Tower Top Zone and above a height of 350 feet.

(c) Material continuity

A minimum of 10 percent of the surface area of the exterior portion of the facade of the #building or other structure# within the Tower Top Zone, as viewed in elevation, shall be composed of a single material. Such material shall be continuously visible (in each elevation view) from the lowermost datum line of the Tower Top Zone to the uppermost

datum line of the Tower Top Zone. However, within each #story# of the Lower Zone, a break in the vertical continuity of the material shall be permitted, provided that the vertical break does not exceed 12 inches.

93-57 - Special Height and Setback Regulations in Subdistrict G

LAST AMENDED

(a) Required setbacks

The required minimum setback for portions of #buildings or other structures# that exceed the maximum base height specified in paragraph (a) of Section [93-42](#) shall be 10 feet from a #wide street# and 15 feet from a #narrow street#. However, the required minimum setback along West 39th Street shall be five feet.

(b) Tower #lot coverage#

The portion of any #building# or #buildings# located above a height of 150 feet shall be considered a “tower.”

- (1) Towers shall occupy a minimum of 20 percent of the #lot area# of the #zoning lot#, except that this requirement shall not apply to the highest 40 feet of such tower or towers.
- (2) Towers containing #residences# shall occupy a maximum of 40 percent of the #lot area#.
- (3) The aggregate #lot area# of all towers, including #residential# and non-#residential# towers, shall not exceed 65 percent of the #lot area#.

93-58 - Special Permit for Modification of Height and Setback Regulations

LAST AMENDED

6/11/2025

Within the #Special Hudson Yards District#, except within C1-7A Districts, or C2-5 Districts mapped within R8A Districts, for #developments# or #enlargements# on #zoning lots# with at least 20,000 square feet of #lot area# or #developments# or #enlargements# on any size #zoning lot# that occupy the entire #block# front along a #wide street#, the City Planning Commission may modify the regulations set forth in Sections [93-40](#) (HEIGHT AND SETBACK REGULATIONS), inclusive, and [93-50](#) (SPECIAL HEIGHT AND SETBACK REGULATIONS), inclusive, and, within Subdistrict F, may modify or waive the regulations set forth in Sections [93-10](#) (USE REGULATIONS), inclusive, [93-70](#) (PUBLIC ACCESS REQUIREMENTS FOR SPECIAL SITES), inclusive, and [13-242](#) (Maximum width of curb cuts), provided the Commission finds that:

- (a) such modifications will result in a better distribution of #bulk# on the #zoning lot# and will not adversely affect access to light and air for surrounding public access areas, #streets# and properties;
- (b) where the regulations set forth in Section [93-70](#) are modified or waived, the resulting arrangement of public access areas on the #zoning lot# results in better site planning;
- (c) such modifications are consistent with the goal of the special district to provide flexibility of architectural design and encourage more attractive building forms;
- (d) such modifications will result in a #development# or #enlargement# that enhances the streetscape and will be compatible with development in the surrounding area; and

(e) such modifications to the curb cut regulations are necessary to accommodate a turnaround area for fire apparatus and other vehicular traffic.

The Commission may establish an appropriate level or levels instead of the mean level of the public sidewalk, the mean level of the final grade of open space, the #High Line bed#, or the highest level of the public sidewalk or finished grade, as applicable, as the reference plane for the applicable regulations relating to the measurement of #building# heights within Subdistrict F.

The Commission may prescribe additional conditions and safeguards to minimize adverse effects of the #development# or #enlargement# on the character of the surrounding area.

The easement shall accommodate a relocated subway entrance from the adjoining sidewalk to a location within the #development# or #enlargement#.

The Chairperson of the City Planning Commission shall certify that a plan has been submitted indicating the volume of the easement necessary for future construction of a subway entrance. Such plan shall be developed in consultation with, and with the approval of, the Transit Authority. The Chairperson may alternately certify that a plan has been submitted whereby the applicant agrees to provide the required easement, at the applicant's expense, within two years of request by the Transit Authority or by its designee.

An instrument establishing such transit easement, or agreement to provide one within two years of request by the Transit Authority, once certified, shall be filed and duly recorded in the Borough Office of the City Register of the City of New York, indexed against the property in the form of a legal instrument providing notice of such certification. Such

filing and recording of the instrument shall be a precondition for the filing for or issuance of any building permit for any #development# or #enlargement# on the #zoning lot#. The recording information shall be included on the certificate of occupancy for any #building#, or portion thereof, on the #zoning lot# issued after the recording date.

Floor space within any required transit easement shall be excluded from the definition of #floor area#, and may be temporarily used by the owner of the #zoning lot# for any permitted #uses# until such time as required by the Transit Authority or by its designee for subway purposes. Improvements or construction of a temporary nature within the easement volume for such temporary #uses# shall be removed by the owner of the #zoning lot# prior to the time at which public use of the easement area is required. In Subareas A2 through A5 of the Large-Scale Plan Subdistrict A, the provisions of this Section shall apply to all open areas between the #street wall# of any #development# or #enlargement# and the #street line#.

- (a) Where such open areas are sidewalk widenings required pursuant to Section [23-61](#), or where a sidewalk widening is not required but an open area extends along the entire #street line# of the #zoning lot#, no obstructions shall be permitted within such open areas within five feet of the #street line#. Beyond five feet of the #street line#, up to a distance of 10 feet from the #street line#, obstructions shall be limited to seating, tables, and trees planted flush to grade. Any open area provided beyond 10 feet of the #street line# shall comply with the provisions of paragraphs (b) through (d) of this Section, as applicable.
- (b) All open areas less than 1,200 square feet in area, or open areas of any size but with a width or depth of less than 30 feet, shall be paved or contain landscaping. Paved areas shall be at the same elevation as the adjoining sidewalk or any adjoining public access area required pursuant to this Chapter.

All paved areas shall be accessible to the public during business hours and have lighting with a minimum level of two foot candles. Edges of planters in all landscaped areas shall not be higher than 2 feet, 6 inches above the level of any adjacent paved area.

93-70 - PUBLIC ACCESS REQUIREMENTS FOR SPECIAL SITES

LAST AMENDED

4/29/2014

Public access shall be provided for special sites as specified in this Section, inclusive. In the event of a conflict between the provisions of this Section, inclusive, and any underlying regulation, the provisions of this Section shall govern.

No building permit shall be issued for any #development# or #enlargement# on such sites other than for an #ERY Culture, Festival and Exhibit Facility# until the Chairperson of the City Planning Commission certifies to the Department of Buildings that the provisions of this Section have been met.

An application for such certification shall be filed with the Chairperson showing the plan of the #zoning lot#; a site plan indicating the area and dimensions of all required public access areas and the location of all proposed #buildings#, and a detailed plan or plans demonstrating compliance with the provisions of this Section. For certifications relating to the #ERY High Line# and, if applicable, the #Tenth Avenue Spur#, the requirements set forth in paragraph (h) of Section [93-71](#), shall apply. For certifications relating to 450 West 33rd Street, the requirements set forth in Section [93-722](#) shall apply. For certifications relating to the Ninth Avenue Rail Yard, the requirements set forth in Section [93-732](#) shall apply.

Plans for public access areas shall be set forth in an instrument in a form acceptable to the City, and setting forth such provisions as necessary to ensure compliance with the provisions of this Section. Such instrument shall be filed and duly recorded in the Borough Office of the City Register of the City of New York and indexed against the property. Such filing and recording of the instrument shall be a precondition for the Chairperson's certification under this Section. The recording information shall be included on the certificate of occupancy for any #building#, or portion thereof, on the #zoning lot# issued after the recording date.

The Chairperson shall allow for the phased development of public access areas upon certification to the Commissioner of Buildings that a plan has been submitted that provides for the completion of any public access area that is integral to the #development# of a #building# or #buildings# within each phase. The completion of the Cultural Facility Plaza shall be deemed integral only to an #ERY Culture, Festival and Exhibit Facility# and to no other #use# or #development# in the Eastern Rail Yard Subarea A1. Where the public use and enjoyment of a public access area is contingent upon #development# on an adjacent #zoning lot# that has not yet occurred, the Chairperson may allow for the future development of such public access area at the time that the adjacent #zoning lot# is #developed#. For the Eastern Rail Yard Subarea A1, such phased development plan may provide for the outdoor plaza described in paragraph (b) of Section [93-71](#) to be constructed in phases. For 450 West 33rd Street

and the Ninth Avenue Rail Yard, such phased development plan shall comply with additional provisions set forth in Sections [93-722](#) and [93-732](#), respectively.

For any portion of any #development# or #enlargement# other than an #ERY Culture, Festival and Exhibit Facility#, no temporary certificate of occupancy from the Department of Buildings may be issued for any portion of any #development# or #enlargement# with a #floor area ratio# of 10.0 or more until the Chairperson certifies to the Department of Buildings that the public access area is substantially complete, and the public access area is open to and useable by the public. No permanent certificate of occupancy from the Department of Buildings may be issued for any portion of such #development# or #enlargement# with a #floor area ratio# of 10.0 or more until the Chairperson certifies to the Department of Buildings that the public access area is complete and that all public access requirements of this Section have been met in accordance with the plans for such public access areas. Notwithstanding the foregoing, for #zoning lots# with multiple #buildings# for which the Chairperson has certified that a plan has been submitted that provides for the phased development of public access areas through completion of any public access area that is integral to the #development# of a #building# or #buildings# within each phase, such certifications shall be made with respect to substantial completion or completion of the public access areas integral to each such phase, except as provided in paragraph (h) of Section [93-71](#), and Section [93-732](#). Issuance of a temporary or permanent certificate of occupancy for any #building#, or portion of a #building#, not occupied by an #ERY Culture, Festival and Exhibit Facility# shall not be conditioned upon the completion, substantial completion or improvement of the Culture Facility Plaza.

For an #ERY Culture, Festival and Exhibit Facility#, no temporary certificate of occupancy from the Department of Buildings may be issued for such #ERY Culture, Festival and Exhibit Facility# until the Chairperson certifies to the Department of Buildings that the Culture Facility Plaza described in paragraph (j) of Section [93-71](#) is substantially complete and open to and useable by the public and no permanent certificate of occupancy from the Department of Buildings may be issued for the #ERY Culture, Festival and Exhibit Facility# until the Chairperson certifies to the Department of Buildings that the Culture Facility Plaza is complete. If a moveable portion of the #ERY Culture, Festival and Exhibit Facility# is not initially constructed as part of the #ERY Culture, Festival and Exhibit Facility# but is constructed at a later date, any closure of the Culture Facility Plaza necessary for such construction shall not affect the validity of any certificate of occupancy previously issued for the #ERY Culture, Festival and Exhibit Facility#. No temporary certificate of occupancy for the moveable portion that is thereafter constructed, or an amended temporary certificate of occupancy for the #ERY Culture, Festival and Exhibit Facility# that includes the moveable portion, may be issued by the Department of Buildings until the Chairperson certifies to the Department of Buildings that the reconstructed Culture Facility Plaza is substantially complete and open to and useable by the public and no permanent certificate of occupancy for the moveable portion that is thereafter constructed, or an amended permanent certificate of occupancy for the #ERY Culture, Festival and Exhibit Facility# that includes the moveable portion, may be issued by the Department of Buildings until the Chairperson certifies to the Department of Buildings that the reconstructed Culture Facility Plaza is complete.

At least 40 percent of the #lot area# of the #zoning lot# shall be publicly accessible and open to the sky. At least an additional 15 percent of the #lot area# of the #zoning lot# shall be publicly accessible and may be either open or enclosed. Such open or enclosed areas shall be comprised of the types of public access areas listed in paragraphs (b) through (f), and paragraphs (h) and (j), of this Section. the Culture Facility Plaza, any portion of the connection to the High Line allowed to be covered by the moveable portion of an #ERY Culture, Festival and Exhibit Facility# pursuant to paragraph (f), and any portion of the connection to the High Line that is not required to have a clear height of 60 feet pursuant to paragraph (f) shall be deemed publicly accessible and open to the sky at all times, including any time when a moveable portion of an #ERY Culture, Festival and Exhibit Facility# extends over the Culture Facility Plaza or the connection to the High Line. Open areas may also include the area of the sidewalk widening along Eleventh Avenue required pursuant to Section [93-61](#) and, at the option of the owner, the #Tenth Avenue Spur#. If the Cultural Facility Plaza is closed during the construction of the moveable portion of the #ERY Culture, Festival and Exhibit Facility#, the amount of publicly accessible open space shall not be considered reduced during such period.

Such open area may extend beyond such boundaries and have necessary grade changes, and up to 10 percent of the area of such outdoor plaza may be covered by a #building or other structure#.

In addition, a #building# containing eating or drinking establishments and other #uses# listed under Use Group VI may be located within the outdoor plaza (but shall not be included as public access area pursuant to paragraph (a) of Section [93-71](#)), provided that any such #building#:

- (1) is located within the area west of the southerly prolongation of the western sidewalk widening line of Hudson Boulevard West and within 400 feet of West 30th Street;
- (2) covers no more than 3,600 square feet of the #zoning lot# at the level of the outdoor plaza and above;

The retail and glazing requirements of paragraph (k) of this Section shall apply to at least 50 percent of the length of all #building# walls facing each side of the through block connection (or, if enclosed, the interior walls facing the through block connection). The through block connection may be occupied by the following permitted obstructions: vertical circulation elements including escalators, stairs and elevators, columns and lighting elements, provided that such permitted obstructions shall not occupy more than 20 percent of the through block connection, and a single path of travel no less than 24 feet in width is maintained. Vertical circulation elements traversing the grade changes of the through block connection shall be considered a part of the through block connection and not an obstruction.

(e) Connection to public plaza

A public way, open or enclosed, shall be provided connecting the outdoor plaza or the through block connection with the public plaza. Such connection need not be linear and may have necessary grade changes. The retail and glazing requirements of paragraph (k) of this Section shall apply to at least 50 percent of the length of all #building# walls facing each side of such connection (or, if enclosed, the interior walls facing the connection). The minimum clear width of such public way shall be 20 feet. For any portions that are enclosed, the minimum clear height shall be 34 feet within at least 50 percent of the enclosed area of the connection to the public plaza, provided that no portion of the connection to the

public plaza shall have a minimum height less than 17 feet. The connection to the public plaza may be occupied by the following permitted obstructions: vertical circulation elements including escalators, stairs and elevators, columns and lighting elements, provided that such permitted obstructions shall not occupy more than 20 percent of the connection to the public plaza and a single path of travel no less than 20 feet in width is maintained. Additionally, such overhang shall project over no more than 16 feet of the 60 foot width dimension. Any portion of the connection east of the minimum 60 foot width shall, if covered, have a minimum clear height of 60 feet. The movable portion of the #ERY Culture, Festival and Exhibit Facility# shall be permitted to overhang any portion of the connection west of such minimum 60 foot width, provided that the angle of such overhanging portion is a maximum of 14 degrees measured at the western edge of the connection at its ground level. LAST AMENDED
2/2/2011

The City Planning Commission may authorize parking facilities that do not comply with the provisions of paragraph (b) of Section [93-83](#) (Use and Location of Parking Facilities) and may authorize floor space used for parking and located above a height of 23 feet to be exempt from the definition of #floor area#, provided that:

- (a) below-grade parking has been provided to the fullest extent feasible, and such above-grade facility is necessary due to subsurface conditions such as the presence of bedrock, railroad rights-of-way or other conditions that impose practical difficulties for the construction of below-grade parking facilities;
- (b) the scale of the parking facility is compatible with the scale of #buildings# in the surrounding area;

- (c) the materials and articulation of the #street wall# of the parking facility are compatible with #buildings# in the surrounding area;
- (d) the ground floor level of such parking facilities that front upon #streets# is occupied by #commercial#, #community facility# or #residential uses# that activate all such adjoining #streets#, except at the entrances and exits to the parking facility. Where site planning constraints make such #uses# infeasible, the parking facility shall be screened from adjoining #streets# or public access areas with a densely planted buffer strip at least 10 feet deep. Where such screening is not desirable, such ground floor wall of the parking facility shall be articulated in a manner that provides visual interest;
- (e) any floor space above the ground floor level utilized for parking is located, to the greatest extent feasible, behind #commercial#, #community facility# or #residential# #floor area#, to minimize the visibility of the parking facility from adjoining #streets# or public access areas. Any exterior wall of the parking facility visible from an adjoining #street# or public access area shall be articulated in a manner that is compatible with #buildings# in the surrounding area;
- (f) for portions of parking facilities that are visible from #streets#, publicly accessible open areas or nearby properties, interior lighting and vehicular headlights are shielded to minimize glare on such #streets#, public access areas or properties; and
- (g) the location of vehicular entrances and exits will not unduly inhibit surface traffic and pedestrian flow.

The Commission may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area.
