For purposes of this definition, “constructed” shall include any off-street parking spaces in #accessory# individual or #group parking facilities#, #public parking garages# or #public parking lots#, where such #accessory# or #group parking facilities#, #public parking garages# or #public parking lots# were either completed on April 14, 2010, or under construction on such date with the right to continue construction pursuant to Section 11-331.

Reservoir surplus

The initial #reservoir surplus# shall be 3,600 off-street parking spaces. The “reservoir surplus” shall be increased by:

- (a) the aggregate number of off-street parking spaces in the #reservoir parking supply# for which a building permit has been issued, pursuant to the as-of-right regulations in effect subsequent to January 19, 2005, and before April 14, 2010;
- (b) the number of off-street parking spaces in the #Hudson Yards parking regulations applicability area# above the ratios permitted in Section 93-821, either certified by the Chairperson pursuant to Section 93-822, paragraph (c), or by City Planning Commission special permit, pursuant to Section 93-823; and

- (b) the issuance of a certificate of occupancy for a #development# or #enlargement# providing a smaller number of spaces than allowed, pursuant to Section 93-821, to the extent of the difference between the number of #accessory# off-street parking spaces allowed, and the number provided. However, this paragraph shall not apply to Sites 2, 3, 4 and 5, as shown on Map 6 of Appendix A, and shall apply to no more than 200 #accessory# off-street parking spaces on Site 6 as shown on Map 6.

- (a) For #residences#, #accessory# off-street parking spaces may be provided for not more than 30 percent of the total number of #dwelling units#, except that where such #dwelling units# are comprised of #low income floor area#, #moderate income floor area# or #middle income floor area#, as defined in Section 23-911, #accessory# off-street parking spaces may be provided for not more than eight percent of the total number of such #dwelling units#.
- (b) For Use Group 5 #transient hotels#, the applicable provisions of Section 13-12 (Permitted Parking for Non-residential Uses) shall apply with respect to the number of permitted #accessory# off-street parking spaces, provided that the number of such spaces does not exceed 0.16 for every 1,000 square feet of #floor area#.
- (c) For Use Group 6B offices, not more than 0.16 #accessory# off-street parking spaces may be provided for every 1,000 square feet of #floor area#.
- (d) In the Eastern Rail Yard Subarea A1, paragraphs (a) through (c) of this Section shall not apply, and any #accessory# off-street parking shall comply with the provisions of this paragraph (d):
 - (1) for #residences#, #accessory# off-street parking spaces may be provided for not more than 40 percent of the total number of #dwelling units#;

- (4) Any certification granted by the Chairperson, pursuant to this Section, shall lapse after two years if #substantial construction# of the #development# or of the #enlarged# portion of an existing #building#, which includes the subject #accessory# off-street parking spaces, has not occurred. In making a certification pursuant to this Section, the Chairperson shall not consider any prior certification or any special permit that has lapsed in accordance with the provisions of this Resolution. However, for Site 6, as shown on Map 6 in Appendix A of this Chapter, any such certification shall lapse after six years if #substantial construction# of the new #building# that includes the subject #accessory# off-street parking spaces, has not occurred.

93-823 - Parking permitted by special permit

LAST AMENDED
5/8/2013

When a #reservoir deficit# exists, the City Planning Commission may allow, by special permit, Use Group 6B offices to exceed the number of #accessory# off-street parking spaces permitted by Section 93-822, provided that:

- (a) within the vicinity of the site, there are insufficient parking spaces available;
- (b) the facility will not create or contribute to serious traffic congestion nor unduly inhibit vehicular and pedestrian movement;
- (c) the facility is so located as to draw a minimum of vehicular traffic to and through local #residential streets#; and
- (d) adequate reservoir space is provided at the vehicular entrance to accommodate vehicles equivalent in number to 20 percent of the total number of parking spaces, up to 50 parking spaces, and five percent of any spaces in excess of 200 parking spaces, but in no event shall such reservoir spaces be required for more than 50 vehicles. However, in the case of a facility with a capacity of 10 vehicles or less, the Commission may waive this condition.

In addition, the Commission shall find that the number of #accessory# off-street parking spaces in excess of the number permitted by Section 93-821, proposed to be added by the #development# or #enlargement# that is the subject of the application under review, does not exceed the #reservoir deficit#; and that such additional #accessory# off-street parking spaces,

when added to the sum of the parking spaces specified in paragraphs (e)(2)(i), (e)(2)(ii) and (e)(2)(iii) of Section 93-821 do not exceed 5,905 spaces, except insofar as the limit of 5,905 spaces set forth in paragraph (e)(2) has been adjusted pursuant to the provisions of paragraph (e)(3) of Section 93-821. In making such finding, the Commission shall not consider any prior certification or any special permit that has lapsed in accordance with the provisions of this Resolution.

93-824 - Publication of data

LAST AMENDED

4/14/2010

The Department of City Planning shall make available, in a form easily accessed by the public, regularly updated calculations of the current #Hudson Yards development parking supply#, #reservoir parking supply#, spaces described in paragraphs (e)(2)(i) and (e)(2)(ii) of Section 93-821, and #reservoir surplus# or #reservoir deficit#, as applicable.

93-83 - Use and Location of Parking Facilities

LAST AMENDED

The provisions of this Section shall apply to all off-street parking spaces within the #Special Hudson Yards District#.

- (a) All off-street parking spaces #accessory# to #residences# shall be used exclusively by the occupants of such #residences#. Except in the Eastern Rail Yard Subarea A1, all off-street parking spaces #accessory# to Use Group 5 #transient hotels# and Use Group 6B offices may be made available for public use. No #accessory# off-street parking spaces shall be located on a #zoning lot# other than the same #zoning lot# as the #use# to which they are #accessory#.
- (b) All off-street parking spaces shall be located within facilities that, except for entrances and exits, are:
 - (1) entirely below the level of any #street# or publicly accessible open area upon which such facility, or portion thereof, fronts; or
 - (2) located, at every level above-grade, behind #commercial#, #community facility# or #residential floor# #area#, so that no portion of such parking facility is visible from adjoining #streets# or publicly accessible open areas.

93-831 - Authorization for above-grade parking

LAST AMENDED

2/2/2011

The City Planning Commission may authorize parking facilities that do not comply with the provisions of paragraph (b) of Section 93-83 (Use and Location of Parking Facilities) and may authorize floor space used for parking and located above a height of 23 feet to be exempt from the definition of #floor area#, provided that:

- (a) below-grade parking has been provided to the fullest extent feasible, and such above-grade facility is necessary due to subsurface conditions such as the presence of bedrock, railroad rights-of-way or other conditions that impose practical difficulties for the construction of below-grade parking facilities;
- (b) the scale of the parking facility is compatible with the scale of #buildings# in the surrounding area;
- (c) the materials and articulation of the #street wall# of the parking facility are compatible with #buildings# in the surrounding area;

- (d) the ground floor level of such parking facilities that front upon #streets# is occupied by #commercial#, #community facility# or #residential uses# that activate all such adjoining #streets#, except at the entrances and exits to the parking facility. Where site planning constraints make such #uses# infeasible, the parking facility shall be screened from adjoining #streets# or public access areas with a densely planted buffer strip at least 10 feet deep. Where such screening is not desirable, such ground floor wall of the parking facility shall be articulated in a manner that provides visual interest;
- (e) any floor space above the ground floor level utilized for parking is located, to the greatest extent feasible, behind #commercial#, #community facility# or #residential# #floor area#, to minimize the visibility of the parking facility from adjoining #streets# or public access areas. Any exterior wall of the parking facility visible from an adjoining #street# or public access area shall be articulated in a manner that is compatible with #buildings# in the surrounding area;
- (f) for portions of parking facilities that are visible from #streets#, publicly accessible open areas or nearby properties, interior lighting and vehicular headlights are shielded to minimize glare on such #streets#, public access areas or properties; and
- (g) the location of vehicular entrances and exits will not unduly inhibit surface traffic and pedestrian flow.

The Commission may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area.

Loading berths shall be arranged so as to permit head-in and head-out truck movements to and from the #zoning lot# and thereby permit a more efficient loading operation.

- (b) to encourage the provision of housing with appropriate amenities in areas suitable for residential development;
- (c) to improve vehicular and pedestrian circulation patterns by requiring limited curb cuts and uniform sidewalk widening, and encouraging the provision of public open space and other amenities as a related part of new development;
- (d) to provide an incentive for redevelopment of the area in a manner consistent with the foregoing objectives which are integral elements of the Comprehensive Plan of the City of New York;
- (e) to facilitate flood-resilient construction and open space design to reduce the potential for property damage and disruption from regular flood events; and
- (f) to promote the most desirable use of land in this area and thus to conserve the value of land and thereby protect the City's tax revenues.

Chapter 5 - Special Transit Land Use District (TA)

95-00 - GENERAL PURPOSES

LAST AMENDED
11/7/1974

The "Special Transit Land Use District" established in this Resolution is designed to promote and protect public health, safety, general welfare and amenity. These general goals include the following specific purposes:

- (a) to minimize the conflict between normal pedestrian movements on public sidewalks and access to underground transit systems, by requiring developments within the Special District to provide access to underground transit or other subway amenities;
 - (b) to reduce congestion on city streets in the vicinity of transportation nodes, by encouraging the provision of adequate underground pedestrian circulation systems;
 - (c) to require adequate access of light and air to the subway mezzanines or station areas of the underground transit system and other related facilities in order to provide greater visibility and safety to below ground spaces;
 - (d) to encourage development that reinforces and preserves the character of the existing communities within the area, by promoting needed pedestrian amenities;
 - (e) to coordinate the present and future relationship of land uses within the Special District including weather protected public access to the underground transit system; and
 - (f) to promote the most desirable use of land in the area and thus to conserve the value of land and buildings, and thereby protect the City's tax revenues.
-

95-04 - Certification of Transit Easement Volume

LAST AMENDED
12/20/1979

95-041 - For developments or enlargements

LAST AMENDED
2/2/2011

Prior to filing any applications with the Department of Buildings for an excavation permit or building permit for a #development# or #enlargement# within the #Special Transit Land Use District#, the owner of the #zoning lot# shall file an application with the Metropolitan Transportation Authority and the City Planning Commission requesting a certification as to whether or not a transit easement volume is required on the #zoning lot#.

Upon receipt of the completed application, the Commission shall furnish a copy to the affected Community Board.

Within 60 days after receipt of such application, the Metropolitan Transportation Authority and the Commission shall jointly certify whether or not an easement is required on the #zoning lot#. Failure to certify within the 60-day period will release the owner from any obligation to provide a transit easement volume on such #zoning lot#.

When the Metropolitan Transportation Authority and the Commission indicate that such easement is required, the owner shall submit a site plan indicating the location and type of easement volume that would be most compatible with the proposed #development# or #enlargement# on the #zoning lot# for joint approval and final certification by the Metropolitan Transportation Authority and the Commission. Copies of such certification shall be forwarded by the City Planning Commission to the Department of Buildings.

Use Group T #uses# shall not be permitted in #Residence Districts# prior to the improvement of a transit easement in accordance with approval and certified plans.

95-042 - For substantially vacant existing zoning lots

LAST AMENDED
2/2/2011

When a #zoning lot# located within the #Special Transit Land Use District# is substantially vacant and appropriate for a transit easement, the Metropolitan Transportation Authority may request the City Planning Commission to certify that a portion of such #zoning lot# is necessary for a transit easement.

As a condition for securing a transit easement on such #zoning lot#, the Commission shall make the following findings:

- (a) that such transit easement is required by the Metropolitan Transportation Authority to provide public access to a subway mezzanine or to a public passageway leading to a subway mezzanine or platform;
- (b) that such transit easement is located on a vacant portion of a #zoning lot#;
- (c) that the use of the transit easement will not reduce development potential on the #zoning lot# under the applicable district regulations; and

(d) that the Metropolitan Transportation Authority and the owner agree that the construction within the easement volume will be integrated with the total development.

At such time as an existing vacant #zoning lot# on which a transit easement volume provided pursuant to the provisions of this Section, is #developed#, it shall be subject to all regulations of this Chapter.

95-05 - Terms and Conditions for Permitted Uses and Construction Within Transit Easement Volume

LAST AMENDED
10/7/2021

The transit easement volume shall be used as an entrance/exit for public access to the subway and/or to provide better access of light and air to the subway station mezzanine, and for related uses. Illustrative of such purposes are light wells, stairs, ramps, escalators, elevators or, for #zoning lots# subject to the provisions of Section 95-032 (Determination of transit easements at other stations), ancillary facilities required to support the functioning of subways, including, but not limited to, emergency egress or ventilation structures.

No #floor area# bonus shall be allowed for any transit easement provided on a #zoning lot#, , except in accordance with the provisions of Section 66-51 (Additional Floor Area for Mass Transit Station Improvements), where applicable.

When a transit easement volume required on a #zoning lot# is located within a #building#, any floor spaces occupied by such transit easement volume shall not count as #floor area#. Any portion of the #lot area# of a #zoning lot# occupied by a transit easement and weather protected by an overhang or roofed area, shall be considered as a #public plaza# in the districts that allow such #public plaza# bonuses.

The transit easement volume, any construction allowed therein or any weather protection provided thereon by an overhang or roofed area pursuant to Section 95-053, shall be considered permitted obstructions within required #yards#, #open space# or in a #public plaza# area.

In addition, any portion of the transit easement volume at #curb level# not to be covered for weather protection, may contain trees, benches or any obstructions permitted in a #public plaza# area. However, such elements shall not interfere with the pedestrian movement.

The Metropolitan Transportation Authority and the City Planning Commission may permit penetration of the transit easement volume above #curb level# by a #building# lobby, including #building# columns, where such lobby space serves as a part of the pedestrian circulation system and provides from it direct public access to the subway entrance within the easement volume.

Chapter 6 - Special Clinton District (CL)

96-00 - GENERAL PURPOSES

LAST AMENDED

1/19/2005

The "Special Clinton District" (hereinafter also referred to as the "Special District"), established in this Resolution, is designed to promote and protect public health, safety, general welfare and amenity. Because of the unique geographical location of the Clinton community, situated between the waterfront on the west and a growing central business district on the east, it is necessary to provide specific programs and regulations which will assure realization of community and citywide goals.

These goals include, among others, the following:

- (a) to preserve and strengthen the residential character of the community;
- (b) to permit rehabilitation and new construction within the area in character with the existing scale of the community and at rental levels which will not substantially alter the mixture of income groups currently residing in the area;
- (c) to preserve the small-scale character and variety of existing stores and activities and to control new commercial uses in conformity with the existing character of the area;
- (d) to recognize the unique character of the eastern edge of the District as an integral part of the Theater Subdistrict within the Special Midtown District as well as the Special Clinton District;
- (e) to provide an appropriate transition from the mixed-use character along Eighth Avenue to the lower-scale residential character of the Clinton community on the narrow streets;
- (f) to relate the unique character of the 42nd Street Perimeter Area to the adjacent Special Hudson Yards District;
- (g) to provide amenities, such as street trees, to improve the physical environment;
- (h) to restrict demolition of buildings that are suitable for rehabilitation and continued residential use; and
- (i) to promote the most desirable use of land in the area and thus to conserve the value of land and buildings, and thereby protect the City's tax revenues, consistent with the foregoing purposes.

LAST AMENDED
2/2/2011

Within the Preservation Area, the #open space# requirement of Article II, Chapter 3, and the #lot coverage# provisions of Section 24-11, are not applicable. The #lot coverage# provisions of this Section apply in lieu thereof. In C6-2 Districts, for the purposes of determining #lot coverage#, any part of a #building# that is listed as a permitted obstruction in #open space# or in a

#rear yard# shall not be included in #lot coverage#. For #zoning lots#, or portions thereof, located within 100 feet of the #street line# of a #wide street#, the maximum #lot coverage# shall not exceed 70 percent. For all #zoning lots#, or portions thereof, located more than 100 feet from the #street line# of a #wide street#, the maximum #lot coverage# shall not exceed 60 percent.

The #yard# regulations of this Section apply to any #development# or #enlargement#.

For #zoning lots#, or portions thereof, located within 100 feet of the #street line# of a #wide street#, no #rear yard# shall be required.

For all #zoning lots#, or portions thereof, located more than 100 feet from the #street line# of a #wide street#, a #rear yard# having a minimum depth of 30 feet shall be required.

On a #through lot#, or portion thereof, more than 100 feet from the #street line# of a #wide street#, the #rear yard equivalent# provisions of Section 23-532, paragraph (a), shall apply.

96-104 - Height and setback regulations

LAST AMENDED

12/10/2013

The underlying height and setback regulations shall not apply, except as set forth in Sections 23-62 or 33-42 (Permitted Obstructions), as applicable. In lieu thereof, the height and setback provisions of this Section shall apply. All height shall be measured from #curb level#.

(a) #Street wall# location

For #zoning lots# with #wide street# frontage, #street walls# shall be located on the #wide# #street line# and extend along the entire #wide street# frontage of the #zoning lot#. For #corner lots# with #narrow street# frontage, #street walls# shall be located on and extend along the #narrow# #street line# within 50 feet of the #wide street#.

For #zoning lots# with #narrow street# frontage, #street walls# shall be located on the #street line# and extend along the entire #narrow street# frontage of the #zoning lot# beyond 50 feet of a #wide street#. However, where the #street wall# of an adjacent #building# fronting on the same #narrow# #street line# is located within 10 feet of the #street line#, the #street wall# of the #building# may be aligned with the #street wall# of the adjacent #building# for a distance of not less than 20 feet measured horizontally from the side wall of such #building#. The portion of a #zoning lot# that is located between a #street wall# and the #street line#, pursuant to the optional #street wall# location provisions of this paragraph (a), shall be maintained at the same elevation as the adjoining sidewalk. In addition, such portion of a #zoning lot# shall be planted, except at the entrances to and exits from the #building#, or adjacent to #commercial# #uses# fronting on the #street#.

(b) Permitted recesses

Ground floor recesses up to three feet deep shall be permitted for access to #building# entrances. Above a height of 12

feet, up to 30 percent of the #aggregate width of street walls# may be recessed, provided no such recesses are within 30 feet of the intersection of two #street lines#.

(c) #Building# height

Within 100 feet of a #wide street#, the #street wall# of a #building or other structure# shall rise without setback to a minimum height of 50 feet or the height of the #building#, whichever is less, and a maximum height of 66 feet. A setback shall be provided for all portions of #buildings# that exceed a height of 66 feet. Such setbacks shall be provided at a height not lower than 50 feet and not higher than 66 feet, and shall have a minimum depth of 10 feet, measured from any #street wall# facing a #wide street#, and a minimum depth of 15 feet, measured from any #street wall# facing a #narrow street#. No #building or other structure# shall exceed a height of 85 feet. Beyond 100 feet of a #wide street#, no #building or other structure# shall exceed a height of seven #stories# or 66 feet, whichever is less.

(d) The City Planning Commission, by special permit, may modify the special height and setback regulations set forth in this Section. In order to grant such special permit, the Commission shall find that the distribution of #bulk# permits adequate access of light and air to surrounding #streets# and properties and that the maximum height does not exceed 99 feet beyond 100 feet of a #wide street#, and 115 feet within 100 feet of a #wide street#.

In conjunction with such height and setback modifications, the Commission may allow modifications to other applicable #bulk# regulations of this Resolution. except #floor area ratio# regulations, for a #building# #developed# or #enlarged# using #public funding#, as defined in Section 23-911, to support #residences# with rents restricted pursuant to a regulatory agreement with a City, State, or Federal agency, provided that such #building# is located on a #zoning lot# that has an area of at least 40,000 square feet, occupies the frontage of a #wide street#, and contains a mass transit or water supply support facility. In order to grant such special permit, the Commission shall find that:

- (1) there are physical conditions, including the presence of existing #buildings or other structures#, public infrastructure, or topographical features, that create practical difficulties in complying with the #bulk# regulations that would adversely affect the #building# configuration or site plan;
- (2) the proposed modifications will not unduly obstruct access to light and air to adjoining properties or #streets#;
- (3) the proposed scale and placement of the #development# or #enlargement# relates harmoniously with the surrounding area; and
- (4) the requested modification is reasonable in relation to the practical difficulties on the site or the public benefit derived from the #development# or #enlargement#.

The Commission may prescribe appropriate conditions and safeguards to protect and minimize any adverse effects on the character of the surrounding area.

96-105 - Dwelling unit regulations

LAST AMENDED
2/2/2011

(a) #Dwelling unit# distribution

For #developments#, #enlargements#, #extensions# or #conversions# of an existing #building# to a #residential use#, the density requirements of the underlying districts shall be inapplicable. In lieu thereof, the required #lot area# per #dwelling unit# of a #development#, #enlargement#, #extension# or #conversion# of an existing #building# to a #residential use# shall not be less than 168 square feet and the number of two-bedroom units on a #zoning lot# shall not

be less than 20 percent.

In addition, the minimum density requirement and the 20 percent, two-bedroom unit requirement set forth in this Section shall apply to any alteration that creates additional #dwelling units# or additional zero-bedroom units. Alterations that reduce the percentage of apartments that contain two bedrooms are not permitted unless the resulting #building# meets the 20 percent, two-bedroom requirement.

However, notwithstanding any provision to the contrary contained in this Section, the minimum density requirement and the 20 percent, two-bedroom unit requirement shall not apply to alterations which add a code-complying bathroom, pursuant to Section 27-2063 of the Housing Maintenance Code of the City of New York, to a #dwelling unit# which is publicly assisted (exclusive of any tax abatement or tax exemption program), and which is administered by a not-for-profit agent.

The City Planning Commission, by special permit, may modify the two-bedroom unit distribution requirement and the density requirement of this Section for an #affordable independent residence for seniors# or for a #residence# substantially for elderly persons with disabilities, under jurisdiction of a State or City agency, provided that the following findings are made:

- (8) The Department of Housing Preservation and Development may deny a #certification of no harassment# without a prior hearing if there has been a finding by the Division of Housing and Community Renewal or any court having jurisdiction that there has been #harassment#, unlawful eviction or arson at the #multiple dwelling# during the #inquiry period#.

- (a) Prior to issuing a building permit for any #development# or #enlargement# on such #zoning lot# that would increase the applicable basic maximum #floor area ratio# by up to an amount specified in Section 98-22, or within Subarea J would cause the #floor area ratio# of a #zoning lot# to exceed the #floor area ratio# of such #zoning lot# on November 13, 2012, the Department of Buildings shall be furnished with a certification by the Chairperson of the City Planning Commission that:
 - (1) a contribution has been deposited into an escrow account or similar fund established by the City (the #High Line# Improvement Fund), or such contribution is secured by a letter of credit or other cash equivalent instrument in a form acceptable to the City. Furthermore, no recesses shall be permitted within 30 feet of the intersection of two #street lines# except that, to allow articulation of #street walls# at the intersection of two #street lines#, the #street wall# may be located anywhere within an area bounded by the two #street lines# and a line connecting such #street lines# at points 15 feet from their intersection.

For #developments# that occupy the entire #block# frontage of a #street# and provide a continuous sidewalk widening along such #street line#, the boundary of the sidewalk widening shall be considered to be the #street line# for the purposes of this Section.

The #street wall# location provisions of this Section shall not apply along that portion of any #street# frontage:

- (i) over which the #High Line# passes;
- (ii) occupied by existing #buildings# to remain, unless such #buildings# are vertically #enlarged#; or
- (iii) between the #High Line# and a #side lot line#, where such frontage measures less than 20 feet.

(2) Maximum #building# heights

(i) For C6-2A and C6-3A Districts

In C6-2A and C6-3A Districts, the maximum base height, maximum #building# height and the maximum number of #stories# shall be as set forth in Section 23-662 (Maximum height of buildings and setback regulations) for the residential equivalent of an R8A and R9A District, respectively. For #buildings# meeting the criteria set forth in paragraph (a) of Section 23-664 (Modified height and setback regulations for certain Inclusionary Housing buildings or affordable independent residences for seniors), such maximum heights and number of #stories# may be modified in accordance with the provisions of paragraph (b) of Section 23-664 for such districts' applicable residential equivalent. Separate maximum #building# heights are set forth within such Sections for #Quality Housing buildings# with #qualifying ground floors# and for those with #non-qualifying ground floors#.

(ii) For all other districts

All portions of #buildings or other structures# that exceed the applicable maximum base height specified in the table in this Section shall provide a setback at a height not lower than the applicable minimum base height. A setback with a depth of at least 10 feet shall be provided from any #street wall# fronting on a #wide street#, and a setback with a depth of at least 15 feet shall be provided from any #street wall# fronting on a #narrow street#, except such dimensions may include the depth of permitted recesses in the #street wall#.

No #building or other structure# shall exceed the maximum #building# height specified in the table in this Section.

(b) Subareas A and D

(1) #Street wall# location

In Subarea D, on #corner lots# between the north side of West 18th Street and the south side of West 22nd Street, a #street wall# with a minimum height of 15 feet shall be located on the #narrow# #street line# between 50 and 150 feet of its intersection with Eleventh Avenue.

In Subarea D, for #buildings# that do not include towers as set forth in paragraph (b)(3) of this Section, the #street wall# location provisions set forth in paragraph (a) shall not apply to any #zoning lot# that occupies the entire Eleventh Avenue #block# front. In lieu thereof, #street walls# with a minimum base height of 60 feet shall be located within 10 feet of all #street lines# bounding such #zoning lot# and extend along at least 70 percent of each #street# frontage of the #zoning lot#.

(2) Setback provisions

The setback provisions for portions of #buildings# above the maximum base height set forth in paragraph (a) of this Section shall not apply. In lieu thereof, no portion of a #building or other structure# that exceeds the applicable maximum base height shall penetrate a #sky exposure plane# that begins above the #street line# at the maximum base height and rises over the #zoning lot# at a ratio of 2.7 feet of vertical distance to one foot of horizontal distance on a #narrow street#, and 5.6 feet of vertical distance to one foot of horizontal distance on a #wide street#.

(3) Tower provisions

Any #building#, or portion thereof, which in the aggregate occupies not more than 40 percent of the #lot area# of the #zoning lot# and penetrates the #sky exposure planes# set forth in paragraph (b)(2) of this Section, is hereinafter referred to as a “tower.” Such towers are permitted provided they are set back at least 10 feet from a #wide# #street line# and at least 15 feet from a #narrow# #street line#, and provided no other portion of the #building# exceeds the applicable maximum base height. In addition, the following rules shall apply:

- (i) For #zoning lots# with less than 20,000 square feet of #lot area#, such tower may occupy more than 40 percent of the #lot area# of the #zoning lot# in accordance with the provisions of Section 33-454 (Towers on small lots).
- (ii) Any #story# within the highest 40 feet of such tower (the “penthouse portion”), shall not exceed 85 percent of the gross area of the highest #story# directly below such penthouse portion.
- (iii) In Subarea A, such tower shall occupy at least 30 percent of the #lot area# of the #zoning lot#, except that such minimum #lot coverage# requirement shall be reduced to 25 percent above a height of 220 feet. However, no minimum #lot area# requirement shall apply to the highest four #stories# or 40 feet of such #building#, whichever is less.
- (iv) In Subarea A, the maximum length of any #story# located above a height of 220 feet shall not exceed 150 feet. Such length shall be measured by inscribing within a rectangle the outermost walls at the level of each #story# entirely above a height of 220 feet. Any side of such rectangle shall not exceed 150 feet.
- (v) In Subarea A, for any #zoning lot# with more than 75 feet of #narrow street# frontage in which a #side lot line# is located within an area bounded by a line 200 feet east of and parallel to Eleventh Avenue and a line 410 feet east of and parallel to Eleventh Avenue, no tower portion of a #building# shall be located closer than 25 feet to such #side lot lines#.
- (vi) In Subarea D, the maximum #building# height shall be 250 feet, and the maximum length of any #story# located above the maximum base height shall not exceed 150 feet. Such length shall be measured by inscribing within a rectangle the outermost walls at the level of each #story# wholly or partially above the maximum base height. Any side of such rectangle shall not exceed 150 feet. However, for #zoning lots# that occupy the entire Eleventh Avenue #block# front, a portion of the #street wall# may rise above the maximum base height without setback

from Eleventh Avenue, provided the #aggregate width of the street wall# for Eleventh Avenue does not exceed 100 feet.

(c) Subareas C, F and G

In Subareas C, F and G, for #zoning lots# with #wide# and #narrow street# frontage, no #street wall# is required beyond 50 feet of a #wide street#. Furthermore, for any #development# or #enlargement# that occupies at least one corner of the Tenth Avenue #block# front and extends along the Tenth Avenue frontage of the #zoning lot# for at least 170 feet, exclusive of existing #buildings# to remain, a lowered #street wall# shall be provided for any #building# that exceeds 45 feet in height. Such lowered #street wall# shall have a maximum height of 45 feet and a minimum height of 35 feet and extend along the Tenth Avenue frontage for a width not less than 25 percent and not more than 30 percent of the #aggregate width of street walls# facing Tenth Avenue. Such lowered #street wall# portion of the Tenth Avenue frontage shall be located at the intersection of Tenth Avenue and a #narrow street#. Such lowered #street wall# shall extend along such #narrow# #street line# for a distance of at least 50 feet from Tenth Avenue. Beyond 50 feet of Tenth Avenue, excluding the #High Line frontage# of a #building#, such portion of the #building# shall not exceed a height of 45 feet.

The provisions of this Section, relating to the location and height of the lowered #street wall# portion of the Tenth Avenue frontage of a #building# are illustrated in Diagram 1 (Street Wall and High Line Frontage Regulations in Subareas C, F and G) in Appendix C of this Chapter.

In Subarea C, for #zoning lots# with Tenth Avenue frontage between West 24th Street and West 28th Street, the maximum #building# height shall be 125 feet.

(d) Subarea E

The #street wall# location provisions set forth in paragraph (a) of this Section shall not apply on a #zoning lot# fronting on West 18th Street and located partially in Subareas D, E and G, where #floor area# has been transferred pursuant to Section 98-241. A maximum of 60 percent of the West 18th Street frontage within Subarea E may rise without setback to a maximum #building# height of 250 feet, and a minimum of 20 percent of the West 18th Street frontage within Subarea E shall rise without setback to a minimum height of 60 feet and a maximum height of 85 feet and be located within 10 feet of the #street line#.

(e) Subarea H

No #building or other structure# shall be located east of the #High Line#, unless otherwise specified in agreements and other instruments that provide for City construction of some or all of the At-Grade Plaza Work and some or all of the Stairway and Elevator Work, executed in accordance with Appendix D.

No portion of a #building or other structure# shall exceed a height of 85 feet except for two #buildings#, or portions of #buildings#, hereinafter referred to as "Tower East" and "Tower West." At or above the base height, both such towers shall be set back at least 10 feet from any #street wall# facing a #wide street# and at least 15 feet from any #street wall# facing a #narrow street#. Such setbacks shall be provided at a height not lower than 60 feet, except that such setbacks may be provided at a height not lower than 40 feet, provided at least 65 percent of the #aggregate width of street walls# facing #narrow streets# and at least 60 percent of the #aggregate width of street walls# facing #wide streets# have a minimum base height of 60 feet.

Tower East shall be located in its entirety within 240 feet of the Tenth Avenue #street line#, and Tower West shall be located in its entirety within 200 feet of the Eleventh Avenue #street line#. Tower East shall not exceed a height of 290 feet and Tower West shall not exceed a height of 390 feet. No portion of Tower East shall be located closer than 25 feet to any portion of Tower West.

A maximum of 50 percent of the #street wall# of Tower West may rise without setback from a #narrow# #street line#. Such portion of the #street wall# shall be located a minimum of 15 feet and a maximum of 20 feet from the #narrow# #street line#.

(f) Subarea I

In that portion of Subarea I located within 300 feet of Tenth Avenue between West 16th Street and West 17th Street, the #street wall# location provisions set forth in paragraph (a) of this Section shall not apply along Tenth Avenue, as shown in Diagram 5 of Appendix C of this Chapter, but shall apply along a minimum of 85 percent of the West 16th Street and West 17th Street frontages. No portion of a #building# or other structure# located within 300 feet of Tenth Avenue shall exceed a height of 120 feet, except for one #building# which may have a height not to exceed 250 feet provided such #building# is located in its entirety between 10 feet and 90 feet of West 17th Street and has a length that does not exceed 175 feet when measured parallel to the West 17th Street #street line#.

In all other portions of Subarea I, the provisions of paragraph (a) shall apply.

(g) Subarea J

The provisions set forth in paragraph (a) of this Section shall not apply to any #development# or #enlargement# that utilizes the provisions of Section 98-25. In lieu thereof, the provisions of this paragraph (g) shall apply.

(1) Midblock Zone

The Midblock Zone shall be that portion of Subarea J located more than 150 feet west of the Ninth Avenue #street line# and more than 200 feet east of the Tenth Avenue #street line#. Within the Midblock Zone, a #building# shall have a maximum #street wall# height before setback of 110 feet, and shall have a maximum #building# height of 130 feet.

Within the Tenth Avenue Zone, any portion of a #building# shall have a maximum #street wall# height of 185 feet before setback and a maximum #building# height of 230 feet, provided that any portion of a #building# located above a height of 90 feet shall be set back not less than 15 feet from the Tenth Avenue #street line#. Any portion of a #building# located above a height of 185 feet shall be set back at least 10 feet from the West 15th and West 16th Street #street lines#, and at least 25 feet from the Tenth Avenue #street line#. Any portion of a #building# above a height of 200 feet shall be set back at least 25 feet from the West 15th and West 16th Street #street lines#, and at least 35 feet from the Tenth Avenue #street lines#, and any portion of a building located above a height of 215 feet shall be set back at least 75 feet from the Tenth Avenue #street line#. 98-424 - Authorization to modify certain bulk regulations

LAST AMENDED

3/22/2006

For #zoning lots# located entirely within 75 feet of the west side of the #High Line#, the City Planning Commission may authorize the modification of height and setback regulations set forth in Sections 98-40 and 98-50, inclusive, the transparency requirements set forth in Sections 98-141 and 98-54, and the underlying #rear yard# and minimum distance between #legally required windows# and walls or #lot lines# regulations. The Commission shall find that such modification will result in a better distribution of #bulk# on the #zoning lot# and will not adversely affect access to light and air for surrounding public areas.

The Commission may prescribe appropriate conditions and safeguards to enhance the character of the surrounding area.

98-43 - Special Distance Between Buildings Regulations

LAST AMENDED

6/23/2005

The provisions of Section 23-70 (MINIMUM REQUIRED DISTANCE BETWEEN TWO OR MORE BUILDINGS ON A SINGLE ZONING LOT) shall not apply.

Not more than 40 percent of the aggregate length of such #High Line frontage# may rise above the level of the #High Line bed#. No portion of such #High Line frontage# shall exceed a maximum height of 20 feet above the level of the #High Line bed#, as illustrated in Diagram 2 (Street Wall and High Line Frontage Regulations in Subarea A) in Appendix C of this Chapter.

(b) In C6-3A Districts and in Subareas C, F and G

For #zoning lots# extending less than 115 feet along the eastern side of the #High Line#, no portion of the eastern #High Line frontage# of a #building# shall exceed a height of 3 feet, 6 inches above the level of the #High Line bed#.

For #zoning lots# that extend for at least 115 feet along the eastern side of the #High Line#, no portion of the eastern #High Line frontage# of the #building# shall exceed a height of 3 feet, 6 inches above the level of the #High Line bed#, except that a maximum of 40 percent of such #High Line frontage# may rise without setback above a height of 3 feet, 6 inches above the level of the #High Line bed# provided such portion of the #building# is not located directly between the #High Line# and any #street wall# of a #building# that is subject to a maximum height of 45 feet in accordance with paragraph (c) (Subareas C, F and G) of Section 98-423 (Street wall location, minimum and maximum base heights and maximum building heights).

The portions of #buildings# in which #High Line# Service Facilities are provided in accordance with paragraph (b)(4) of Appendix E shall be considered permitted obstructions to the height and setback regulations of this paragraph (b).

However, the provisions of this paragraph (b) shall not apply to any #zoning lot# existing on June 23, 2005 where the greatest distance between the eastern side of the #High Line# and a #lot line# east of the #High Line# is 35 feet when measured parallel to the nearest #narrow# #street line#.

All screening materials must be substantially transparent. For the purposes of this Section, substantially transparent screening is defined as transparent, or non-opaque, in an evenly distributed fashion for at least 75 percent of its area. Chain link fences and razor wire shall not be permitted. Vegetated screening, such as shrubs, vines and other plantings, may be opaque if completely covered by vegetation, provided that any underlying surface is substantially transparent.

Such elements shall substantially cover the applicable non-transparent portion of the #High Line frontage#.

98-60 - SPECIAL REGULATIONS FOR CERTAIN ZONING LOTS

LAST AMENDED

10/27/2010

98-61 - High Line Access or Support Easement Volumes Requirement

LAST AMENDED

11/13/2012

For all #developments# or #enlargements# within the #Special West Chelsea District#, an easement volume to facilitate public pedestrian access to the #High Line# via stairway and elevator (hereinafter referred to as “primary access”), shall be provided on any #zoning lot# over which the #High Line# passes that, on or after December 20, 2004, has more than 5,000 square feet of #lot area#. For all #developments# or #enlargements# within Subareas H, I and J that are developed pursuant to Section 98-25 (High Line Improvement Bonus), this provision does not apply.

In the #High Line Transfer Corridor#, an easement volume to facilitate public pedestrian access to the #High Line# via stairway (hereinafter referred to as “secondary access”), shall be provided on any #zoning lot# from which #floor area# has been transferred pursuant to Section 98-33 unless a primary access easement has been provided pursuant to this Section.

However, a primary access easement shall not be required if a primary access easement is already provided on the same #block# and a secondary access easement shall not be required if a primary or secondary access easement has already been provided on the same #block#. Furthermore, primary and/or secondary access easements shall not be required where the Chairperson of the City Planning Commission certifies that:

- (a) the minimum dimensions required for the access easement volume pursuant to paragraph (a) of Section 98-62 cannot be accommodated within 33 feet, 6 inches of a #street line# for primary access easements and 40 feet of a #street line# for secondary access easements; or
- (b) in the case of a primary easement, a secondary easement is already provided on the same #zoning lot# and such easement is sufficient in size, or has been enlarged to be sufficient in size, to accommodate the provisions for primary access easements as specified in Section 98-62; or
- (c) for primary or secondary easements, access has already been constructed, or an access volume has been dedicated, on the same #block# or on the same #street# frontage, and that such access or access volume meets the location and access requirements for primary or secondary access easements, as specified in Section 98-62, paragraphs (a) and (b), and meets all standards, as applicable, for persons with disabilities; or
- (d) for primary or secondary easements, construction documents for the #High Line# open space have been developed by the City that specify the same #street# frontage as an access location; or
- (e) such #development# or #enlargement# is located wholly within an M1-5 District and no portion of such #development# or

#enlargement# has more than 10,000 square feet of #floor area# and is located within five feet of the #High Line#; or

(f) such #development# or #enlargement# is located on a #zoning lot# that fronts on West 23rd Street.

98-62 - High Line Access Easement Regulations

LAST AMENDED

11/13/2012

The provisions of this Section shall apply to any #zoning lot# providing an access easement volume, other than a #zoning lot# developed pursuant to Section 98-25 (High Line Improvement Bonus), as follows:

(a) Location and Minimum Dimensions

(1) Primary access easement volume

A primary access easement volume may be located within a #building# or within open areas on the #zoning lot#, including open areas required pursuant to Section 98-53 (Required Open Areas on the East Side of the High Line), provided such volume is within 15 feet of a #narrow# #street line#. The minimum length of such volume shall be 18 feet, 6 inches, and the minimum width shall be 10 feet; however, the minimum area of such volume shall be 350 square feet. The height of such volume shall extend from a point at least 10 feet below #curb level# to a point at least 15 feet above the level of the #High Line bed#. A primary access easement volume may also replace a previously provided secondary access easement volume, and such secondary access easement volume may be terminated pursuant to Section 98-64. Such minimum dimensions are illustrated in Diagram 6 (High Line Access Easement Volume Parameters) of Appendix C of this Chapter.

(2) Secondary access easement volume

A secondary access easement volume shall be located within 15 feet of a #narrow# #street line# and directly adjacent to the #High Line# for a minimum length of 25 feet. Such volume shall have a minimum width of 10 feet. The height of such volume shall extend from #curb level# to a point at least 10 feet above the level of the #High Line bed#.

(b) Access

All access easement volumes shall be accessible either directly from a public sidewalk or through a publicly traversable way through the #zoning lot# directly connecting with a public sidewalk. Such publicly traversable way shall meet the following requirements:

(1) The required width of the publicly traversable way shall be a minimum of eight feet.

(2) No portion of the publicly traversable way shall be interrupted or occupied by an off-street parking or loading area.

(3) The access easement volume shall be visible from the public sidewalk or the publicly traversable way.

(4) The publicly traversable way shall be maintained by the property owner in good repair.

(5) The publicly traversable way shall be fully accessible to persons with disabilities.

(6) The publicly traversable way shall be open and accessible to the public at all times when a stairway and/or elevator located within the associated access easement volume is open and accessible to the public.

(c) Permitted obstructions

Any access structure within the access easement volume, or any weather protection provided by an overhang or roofed area over such access easement volume, #accessory# to the access structure, shall be considered permitted obstructions within required #yards# or open areas.

(d) Permitted #uses#

An access easement volume required on a #zoning lot# pursuant to the provisions of this Chapter may be temporarily used by the owner of such #zoning lot# for any permitted #use# until such time as required by the City of New York or its designee for access purposes. Such permitted #use# shall be limited to non-residential #uses# where such access easement volume is within a #building#. Where such access easement volume is within an open area, such area shall be landscaped, or may be improved in accordance with the provisions of Sections 37-726 (Permitted obstructions) and 37-73 (Kiosks and Open Air Cafes), except that in the case of open air cafes and kiosks, a certification shall not be required.

Improvements or construction of a temporary nature within the easement volume shall be removed by the owner of such #zoning lot# prior to the time at which public use of the easement areas is required. Appendix D - Special Regulations for Zoning Lots Utilizing the High Line Improvement Bonus in Subarea H

LAST AMENDED
2/2/2011

This Appendix sets forth additional requirements governing #zoning lots# located within Subarea H between West 17th and 18th Streets over which the #High Line# passes with respect to a #development# or #enlargement# which involves an increase in the applicable basic maximum #floor area ratio# of the #zoning lot# up to the amount specified in Section 9822 (Maximum Floor Area Ratio and Lot Coverage in Subareas), with respect to: (1) the issuance of a building permit for such #development# or #enlargement# pursuant to paragraph (a) of Section 9825 (High Line Improvement Bonus); and (2) the performance or funding of improvements as a condition of issuance of temporary or permanent certificates of occupancy, pursuant to paragraph (b) of Section 9825, for #floor area# in such #development# or #enlargement# which exceeds the basic maximum #floor area ratio# of the #zoning lot#. The term “parties in interest” as used herein shall mean “parties-in-interest,” as defined in paragraph (f)(4) of the definition of #zoning lot# under Section 12-10.

(a) Requirements for issuance of building permit under paragraph (a) of Section 9825

(1) As a condition of issuance of a building permit under paragraph (a) of Section 9825:

- (i) Owner shall, subject to reduction pursuant to the other provisions of this Appendix D, deposit into the #High Line# Improvement Fund, or secure by letter of credit or other cash equivalent instrument in a form acceptable to the City, a contribution of \$50.00 per square foot of #floor area# which exceeds the basic maximum #floor area ratio# of the #zoning lot#, up to the amount specified in Section 98-22, provided, that in the event the Owner has previously entered into agreements for construction of At-Grade Plaza Work and Stairway and Elevator Access Work by the City, pursuant to paragraph (a)(2) of this Appendix D, and has made a contribution pursuant thereto, the amount of contribution to the #High Line# Improvement Fund under this subparagraph for purposes of Section 98-25, paragraph (a) shall be reduced by such amount at the time it is made;
- (ii) all parties-in-interest shall execute a restrictive declaration including easements to the City providing for: the location of and public access to and use of the At-Grade Plaza and the stairway and elevator that will provide access to the #High Line#, as shown in Diagram 3 of Appendix C, such easement area for the At-Grade Plaza to include the entire area of the #zoning lot# east of the #High Line# and such easement area as it relates to such stairway and elevator to be at least 2,500 square feet and in a location and configuration acceptable to the City; access for the potential performance by the City of work under the provisions set forth below; and maintenance and repair of the stairway and elevator. Such declaration shall incorporate by reference the maintenance and operating agreement referred to in paragraph (a)(1)(iii) of this Appendix D, provided that, in the event the Owner enters into agreements for construction of some or all of the At-Grade Plaza Work and Stairway and Elevator Access Work by the City pursuant to paragraph (a)(2) of this Appendix D, the provisions of such restrictive declaration shall be modified as deemed necessary by the City to effectuate such agreements; and
- (iii) the Owner shall execute a maintenance and operating agreement for the At-Grade Plaza.

The easements and agreements described herein shall remain in force and effect irrespective of whether certificates of occupancy are issued pursuant to Section 98-25, paragraph (b).

- (2) Upon the request of the Owner or the City, the City in its sole discretion, may enter into agreements with the Owner, in a form acceptable to the City, providing for construction by the City of some or all of the At-Grade Plaza Work described in paragraph (b)(2)(ii)(b) of this Appendix D, and some or all of the Stairway and Elevator Access Work described in paragraph (b)(3)(ii) by the City, including provisions with regard to the viability of retail space fronting the At-Grade Plaza. Pursuant to such agreements, the Owner shall make a contribution of \$2,300,000 to a sub-account of the #High Line# Improvement Fund to fund such construction, which amount may be reduced in accordance with provisions of such agreements by an amount reflecting expenditures that the owner has reasonably incurred or shall reasonably incur with respect to remediation work for the At-Grade Plaza and any other work which is the responsibility of the Owner

pursuant thereto. All parties in interest shall execute a Restrictive Declaration pursuant to paragraph (a)(1)(ii) of this Appendix D, with such modifications as deemed necessary by the City to effectuate such agreements.

- (3) Upon the request of Owner, the City in its sole discretion, may elect to have Owner perform all #High Line# improvements (i.e., non-structural and non-remediation work) at its own expense within the #High Line# improvement area, as shown in Appendix C of this Chapter, on such #zoning lot# and over #streets# contiguous to such #zoning lot#. In that event, certification under Section 98-25, paragraph (a), shall also be made upon execution of an agreement by Owner, approved by the Chairperson of the City Planning Commission, to perform such improvements, the cost of which shall be refunded or credited from the contribution to the #High Line# improvement. Such agreement may require Owner to reimburse the City for the costs of a full-time resident engineer to supervise such work.
 - (4) The location of #floor area# which would exceed the basic maximum #floor area ratio# and be subject to the provisions of Section 98-25 shall be considered to be the topmost portion of the #development# or #enlargement# unless, at the time of certification pursuant to Section 9825, paragraph (a), Owner designates, subject to the concurrence of the Chairperson of the City Planning Commission, an alternate location.
- (b) Requirements for issuance of certificates of occupancy under paragraph (b) of Section 9825
- (1) Structural Remediation Work under paragraph (b)(2) of Section 9825:
 - (i) Owner may, at its option, elect to perform Structural Remediation Work on the portion of the #High Line# within the #High Line# improvement area, as shown in Appendix C of this Chapter, on such #zoning lot# and over #streets# contiguous thereto in accordance with the provisions of this paragraph (b). Owner may exercise such option following receipt of the City's specifications for the Structural Remediation Work or upon the City's failure to provide such specifications, as set forth in paragraphs (b)(1)(iv) and (b)(1)(v) in this Section (unless such dates are extended by mutual agreement of the City and Owner), but in no event may exercise such option later than 90 days following receipt of a notice by the City of its intent to commence improvements to the #High Line# within the #High Line# improvement area applicable to the #zoning lot# within the next 24 months. In that event, the amount of contribution to the #High Line# Improvement Fund shall be reduced by \$21.00 per square foot of #floor area# which exceeds the basic maximum #floor area ratio# of the #zoning lot# up to the amount specified in Section 98-22 and the City shall refund or credit the Owner, as applicable, for any excess from or against the #High Line# Improvement Fund. In the event of exercise of such option, certification pursuant to Section 98-25, paragraph (b)(2), with respect to the Structural Remediation Work, shall be of substantial completion with respect to issuance of any temporary certificate of occupancy, and of final completion with respect to issuance of any final certificate of occupancy.
 - (ii) Such Structural Remediation Work shall include work on or under the #High Line# and above, at and below grade, which shall be of the same quality and performance standards (i.e., with respect to use, useful life and maintenance requirements) as required for the remainder of the #High Line# (recognizing that there may be different standards for portions of the #High Line# that will be exposed to public view versus those that will not be so exposed) and shall include, but not be limited to, the following:
 - (a) Removal and disposal of all leadbased products in accordance with specifications provided by the City, and disposal of all waste, all in accordance with the rules and regulations of all appropriate regulatory agencies and disposal facilities;
 - (b) Repair of all damaged portions of the entire steel structure, including but not limited to railings, columns and footings, in accordance with the specifications provided by the City and all applicable rules, including those pertaining to historic preservation;
 - (c) Recoating of the entire steel structure with the types of products and numbers of coats specified by the City;
 - (d) Repairs to damaged concrete; removal, disposal, and replacement of any concrete that is found to contain hazardous materials; and recoating of the entire concrete portion of the #High Line# as specified by the

City, all in accordance with the rules and regulations of all appropriate regulatory agencies and disposal facilities;

- (e) Removal of any or all portions of the ballast material on the #High Line#, including but limited to gravel, railroad ties and steel rails, trash, plant material, and any other objectionable materials (including, but not limited to, asbestos and pigeon guano) that are found on or under the #High Line#, as specified by the City, and disposal of all such material in accordance with the rules and regulations of all appropriate regulatory agencies and disposal facilities. In the event that the City directs that any or all ballast material is to remain on the #High Line#, it shall be capped, as necessary, in accordance with the specifications provided by the City and the rules and regulations of all appropriate agencies. Any ballast material that is to remain, but also remain uncapped, shall be cleared and grubbed in accordance with specifications of the City; and
 - (f) Any work required to be performed belowgrade for the anticipated improvements of the #High Line# for reuse as open space.
- (iii) Subject to the Not-To-Exceed Limit set forth in paragraph (c) of this Appendix D, if Owner exercises the option to perform the Structural Remediation Work, it shall reimburse the City for the reasonable cost of hiring or procuring the services of a fulltime resident engineer to supervise the Structural Remediation Work, with associated costs (e.g., trailer, computer, telephone).
- (iv) The City shall consult with Owner regarding the drafting of the specifications for the Structural Remediation Work, and then provide Owner with such specifications by January 31, 2006, subject to delays outside the reasonable control of the City (including, without limitation, litigation, but such delays shall not extend more than 180 days), unless such date is extended by mutual agreement between the City and Owner.
- (v) In the event Owner exercises the option to perform the Structural Remediation Work, Owner shall have 12 months to complete such work following June 23, 2005, or of the date of exercise of such option, whichever is later, unless such date is extended by mutual agreement between the City and Owner, and subject to reasonable extension for any delays beyond Owner's reasonable control and, in addition, for any time during which Owner is unable to gain access in order to perform the Structural Remediation Work due to the actions of a tenant occupying the #zoning lot#, or portion thereof, upon December 20, 2004.
- (vi) In the event that the City does not provide the specifications for the Structural Remediation Work, within the timeframe set forth in paragraph (iv) of this Section, Owner may exercise the option to perform such work, and shall complete it within 12 months of the exercise of such option, unless such date is extended by mutual agreement between the City and Owner, and subject to reasonable extension for any delays as described in paragraph (b)(1)(v), but may use its own specifications, consistent with the description of the Structural Remediation Work set forth above and sound, high quality engineering, construction and workmanship standards and practices.
- (2) At-Grade Plaza Work under paragraph (b)(3) of Section 9825:

The following shall apply, except to the extent that agreements and other instruments in a form acceptable to the City have been executed pursuant to paragraph (a)(2) of this Appendix D, that provide for construction of some or all of the At-Grade Plaza Work set forth in paragraphs (b)(2)(ii)(b) and (b)(2)(ii)(c), by the City:

- (i) Owner shall perform AtGrade Plaza Work within the area on the #zoning lot# shown in Diagram 3 of Appendix C. For any temporary certificate of occupancy, certification pursuant to Section 98-25, paragraph (b)(3), shall be of substantial completion of the At-Grade Plaza Work (i.e., the At-Grade Plaza shall be open and accessible to the public). For any permanent certificate of occupancy, certification pursuant to Section 98-25, paragraph (b) (3), shall be of final completion of the At-Grade Plaza Work. Substantial completion of the At-Grade Plaza Work shall also require execution by all parties-in-interest of the declarations, easements and maintenance and operating agreement described in paragraph (a) of section (1) of this Appendix, if not previously provided in connection with issuance of a building permit.

- (ii) At-Grade Plaza Work shall include, but not be limited to:
 - (a) remediation work; and
 - (b) all paving, plantings, surface treatments, lighting, trees, seating, fountains and other site amenities; and
 - (c) infrastructure work, including conduits, drainage, water line, electrical connections, and other utility work serving the At-Grade Plaza.
- (iii) The At-Grade Plaza Work shall be performed by the Owner pursuant to construction documents provided by the City by January 31, 2008. The At-Grade Plaza Work shall be completed within one year following January 31, 2008, subject to reasonable extension for any delays beyond Owner's reasonable control and to such extension as the City and the Owner may mutually agree, and, in addition, for any time during which Owner is unable to gain access in order to perform the At-Grade Plaza Work due to the actions of a tenant occupying the #zoning lot#, or portion thereof, upon October 17, 2007, or for any time needed to perform any necessary remediation work on the #zoning lot#.
- (iv) In no event shall Owner be required to complete the At-Grade Plaza Work until the #High Line# improvements within the portion of the #High Line# Improvement Area, as shown in Appendix C of this Chapter, adjacent to the #zoning lot# (and, as applicable, over such Improvement Area, as shown on Diagram 3 of Appendix C), are substantially complete (i.e., open to the public but for the work needed to complete the At-Grade Plaza Work). Notwithstanding the foregoing, in no event shall Owner be entitled to certification pursuant to Section 9825, paragraph (b)(3), until the Chairperson determines that the At-Grade Plaza Work is substantially complete.
- (v) The cost to Owner of the At-Grade Plaza Work (inclusive of the Stairway and Elevator Access Work described in paragraph, (b)(3) of this Section) shall not exceed \$2,300,000. The amount of contribution to the #High Line# Improvement Fund under subdivision (a) of section (1) of this Appendix made for purposes of Section 98-25, paragraph (a), shall be reduced by such amount at the time it is made. In addition to the costs of the At-Grade Plaza Work, subject to the Not-To-Exceed Limit set forth paragraph (c) of this Appendix D. Owner shall be required to reimburse the City for:
 - (a) the reasonable cost of developing the plans and construction documents for the At-Grade Plaza Work; and
 - (b) the reasonable cost of hiring or procuring the services of a fulltime resident engineer to supervise the At-Grade Plaza Work, with associated costs (e.g., trailer, computers, telephone).
- (vi) In the event that construction documents for the At-Grade Plaza Work (inclusive of the Stairway and Elevator Access Work described in paragraph (b)(3) of this Section) are not delivered to Owner within the timeframe set forth in paragraph (3) of this subsection, Owner shall not be required to perform the At-Grade Plaza Work (inclusive of the Stairway and Elevator Access Work described in paragraph (b)(3) of this Section) consistent with such documents. Instead, Owner shall perform Alternate At-Grade Plaza Work which shall include all necessary remediation work, all necessary belowgrade work (including related infrastructure work necessary to support the #High Line#), and atgrade improvements pursuant to the standards set forth in Sections 37-718, 37-726, 37-728, 37-741, 37-742, 37-743 and 37-76 of the Zoning Resolution, except that open-air cafes and kiosks shall not be permitted. Permitted obstructions, whether as described in the City's specifications for the At-Grade Plaza Work or as specified in Section 37-726, for the Alternate At-Grade Plaza Work, shall not count towards #lot coverage#.
- (vii) The cost to the Owner of the Alternate At-Grade Plaza Work shall not exceed \$1,400,000. In addition, Owner shall, subject to the Not-To-Exceed Limit of paragraph (c) of this Appendix D, be required to reimburse the City for the reasonable cost of hiring or procuring the services of a fulltime resident engineer to supervise the Alternate At-Grade Plaza Work, with associated costs (e.g., trailer, computers, telephone).
- (viii) Upon substantial completion of the At-Grade Plaza and in any event as a condition of certification of substantial completion pursuant to Section 98-25, paragraph (b)(4), Owner shall provide the City with the declarations,

easements and maintenance and operating agreement described in subsection (a) of section (1) of this Appendix, if not already provided in connection with the issuance of a building permit; such At-Grade Plaza shall be open and accessible to the public during at least the same hours during which the #High Line# is open and accessible to the public, subject to the terms of the maintenance and operating agreement; and Owner shall maintain the At-Grade Plaza pursuant to the terms of the maintenance and operating agreement.

(3) Stairway and Elevator Access Work under paragraph (b)(4) of Section 98-25:

The following shall apply except to the extent that agreements and other instruments in a form acceptable to the City have been executed pursuant to paragraph (a)(2) of this Appendix D that provide for the construction of some or all of the Stairway and Elevator Access Work described in paragraph (b)(3)(ii) of this Appendix D by the City:

- (i) Except as provided in paragraph (b)(3)(iii) of this Section, Owner shall perform Stairway and Elevator Access Work within the At-Grade Plaza area as shown in Diagram 3 of Appendix C in conjunction with performance of the At-Grade Plaza Work. For temporary certificates of occupancy, certification pursuant to Section 98-25, paragraph (b)(4), shall be of substantial completion of the Stairway and Elevator Access Work (i.e., the stairway and elevator could be made open and accessible to the public). For permanent certificates of occupancy, certification pursuant to such Section shall be of final completion of the work.
- (ii) The Stairway and Elevator Access Work shall consist of one stairway and one elevator, shall be included in the construction drawings for the At-Grade Plaza Work described above, and shall be performed by Owner within the time period for performance of the At-Grade Plaza Work described in paragraph (c) of this Section. The location for the stairway and elevator shall take into account the viability of any retail spaces fronting the At-Grade Plaza.
- (iii) Owner shall not be responsible for performance of the Stairway and Elevator Access Work where it performs the Alternate At-Grade Plaza Work in accordance with paragraph (b) of this Section. In that event, prior to commencing the Alternate At-Grade Plaza Work and in any event as a condition of certification of substantial completion pursuant to Section 98-25, paragraph (b)(4):
 - (a) Owner shall deposit into the #High Line# Improvement Fund, a contribution of \$900,000.00 (the Access Contribution), to be used at the direction of the Chairperson of the City Planning Commission for construction of stairway and elevator facilities on the #zoning lot#; and
 - (b) Owner shall provide the City with the declarations, easements, and maintenance and operating agreement described in paragraph (a)(1) of this Appendix D, if not previously provided in connection with issuance of a building permit.

(4) City performance of work in the event of failure to perform:

- (i) In the event Owner has not completed any of the #High Line# Improvement Work (where an agreement for performance of such work has been executed under paragraph (a) of this Appendix D, Structural Remediation Work (where Owner has exercised the option under paragraph (b)(1) of this Appendix), the At-Grade Plaza Work or Alternate Plaza Work, as applicable, and the Stairway and Elevator Access Work (where required to do so under paragraphs (b)(2) and (b)(3) of this Appendix), by a time at which the City has completed portions of the #High Line# (i.e., such that such portions are open and accessible to the public) immediately on either side of the #High Line# improvement area, as shown in Appendix C of this Chapter, for the #zoning lot#, as shown on Diagram 3 of Appendix C, and a relevant deadline for performance of such work under paragraphs (b)(1), (b)(2) or (b)(3) has passed, subject to the provisions of such sections relating to extension by mutual agreement or delay, the City, at its sole option, may, upon written notice to Owner, notify Owner of its intent to proceed with performance and/or completion of the relevant work at its own expense.
- (ii) The City may proceed with performance and/or completion of the work following such notice unless Owner:
 - (a) within 45 days following such notice, submits to the Department of City Planning a reasonable schedule (not to exceed 12 months in total), unless such date is extended by mutual agreement between the City and

Owner, for completion of the relevant work, as applicable, which schedule shall be subject to review and reasonable approval by the City; and

(b) completes the relevant work in accordance with such schedule, subject to reasonable extension for any delays beyond Owner's reasonable control and, in addition, any time in which Owner is unable to gain access in order to perform the At-Grade Plaza Work or Alternate Plaza Work due to the actions of a tenant occupying the #zoning lot#, or portion thereof, upon December 20, 2004, or for any time during which remediation work is in progress on the #zoning lot#.

(iii) In the event Owner does not comply with the requirements of paragraph (b)(4)(ii):

(a) the City may proceed with performance and/or completion of relevant work, and may obtain access to perform such work pursuant to the easements described in paragraph (1) of section (a) of this Appendix;

(b) the City shall return to Owner any contribution made to the #High Line# Improvement Fund; and

(c) no building permit may be issued pursuant to Section 98-25, paragraph (a), nor any temporary or permanent certificate of occupancy may be issued pursuant to Section 98-25, paragraph (b), for #floor area# in a #development# or #enlargement# which exceeds the maximum #floor area# of the #zoning lot#.

(c) Reimbursement Not-To-Exceed Limits

Reimbursement of the City by Owner of costs pursuant to this Appendix shall not exceed a total of \$450,000.00.

Appendix E - Special Regulations for Zoning Lots Utilizing the High Line Improvement Bonus and Located Partially Within Subareas D, E, G or I

LAST AMENDED

8/24/2017

This Appendix sets forth additional requirements governing #zoning lots# located partially within Subareas D, E and G or within Subarea I between West 16th and 17th Streets over which the #High Line# passes, with respect to a #development# or #enlargement# which involves an increase in the applicable basic maximum #floor area ratio# of the #zoning lot# up to the amount specified in Section 98-22 (Maximum Floor Area Ratio and Lot Coverage in Subareas), with respect to: (1) the issuance of a building permit for such #development# or #enlargement# pursuant to paragraph (a) of Section 98-25 (High Line Improvement Bonus); and (2) the performance or funding of improvements as a condition of issuance of temporary or permanent certificates of occupancy, pursuant to paragraph (c) of Section 9825, for #floor area# in such #development# or #enlargement# which exceeds the basic maximum #floor area ratio# of the #zoning lot#. The term "parties in interest" as used herein shall mean "parties-in-interest," as defined in paragraph (f)(4) of the definition of #zoning lot# in Section 12-10.

(a) Requirements for issuance of building permit pursuant to paragraph (a) of Section 98-25

(1) As a condition of certification:

(i) Owner shall, subject to reduction pursuant to the other provisions of this Appendix E, deposit into the #High Line# Improvement Fund, or secure by letter of credit or other cash equivalent instrument in a form acceptable to the City, a contribution of \$50.00 per square foot of #floor area# which exceeds the basic maximum #floor area ratio# of the #zoning lot#, up to the amount specified in Section 98-22; and

(ii) all parties-in-interest shall execute a restrictive declaration including easements to the City providing for: the location of and public access to and from a stairway and elevator on the #zoning lot# that will provide access to the #High Line# and for maintenance and repair by the City of such stairway and elevator; and the potential performance by the City of work under the provisions set forth below. In the case of #zoning lots# between West 16th and 17th Streets, Owner shall also provide the City with easements providing for City access to and from and

for public use of the #High Line# Service Facilities on the #zoning lot# and for maintenance and repair by the City of such #High Line# Service Facilities. For #zoning lots# between West 18th and 19th Streets, in the event that the Commissioner of Parks and Recreation requires #High Line# Service Facility Work pursuant to paragraph (b)(4) of this Appendix, no easements shall be required relating to the location of and public access to a #zoning lot# nor from a stairway and elevator on the #zoning lot#. In such event, Owner shall instead provide the City with easements providing for City access to and from and for use of the #High Line# Service Facilities on the #zoning lot# and for maintenance and repair by the City of such #High Line# Service Facilities, as specified in paragraph (b)(4)(ii) of this Appendix, and any restrictive declaration previously executed under this paragraph (a)(1)(ii) in connection with an initial certification pursuant to paragraph (a) of Section 98-25 shall be amended to provide for such easements. All easements described herein shall be in a form acceptable to the City and shall remain in force and effect irrespective of whether certificates of occupancy are issued pursuant to Section 98-25, paragraph (c); and

(iii) submit plans for Stairway and Elevator Access Facilities and, where applicable, #High Line# Service Facilities that demonstrate compliance with the provisions of this Appendix E, and are consistent with New York City Department of Parks and Recreation standards and best practices governing materials life cycle and maintenance for review and approval by the Chairperson of the City Planning Commission.

(2) Upon the request of Owner, the City in its sole discretion, may elect to have Owner perform all #High Line# improvements (i.e., non-structural and non-remediation work) at its own expense within the #High Line# improvement area, as shown in Appendix C of this Chapter, on such #zoning lot # and over #streets# contiguous to such #zoning lot#. In that event, certification under Section 98-25, paragraph (a), shall also be made upon execution of an agreement, approved by the Chairperson of the City Planning Commission, to perform such improvements, the cost of which shall be refunded or credited from the #High Line# Improvement Fund contribution to reflect the cost of such improvements. Such agreement may require Owner to reimburse the City for the costs of a full-time resident engineer to supervise such work.

(3) The location of #floor area# which would exceed the basic maximum #floor area ratio# and be subject to the provisions of Section 98-25 shall be considered to be the topmost portion of the #development# or #enlargement# unless, at the time of certification pursuant to Section 9825, paragraph (a), Owner designates, subject to the concurrence of the Chairperson of the City Planning Commission, an alternate location.

(b) Requirements for issuance of certificates of occupancy pursuant to paragraph (c) of Section 9825:

(1) Structural Remediation Work pursuant to paragraph (c)(2) of Section 9825

(i) Owner may, at its option, elect to perform Structural Remediation Work on the portion of the #High Line# within the #High Line# improvement area, as shown in Appendix C of this Chapter, on such #zoning lot# and over #streets# contiguous thereto in accordance with the provisions of this paragraph. Owner may exercise such option following receipt of the City's specifications for the Structural Remediation Work or upon the City's failure to provide such specifications, as set forth in paragraphs (b)(1)(iv) and (b)(1)(v), (unless such dates are extended by mutual agreement of the City and Owner), but in no event may exercise such option later than 90 days following receipt of a notice by the City of its intent to commence improvements to the #High Line# within the #High Line# improvement area applicable to the #zoning lot# within the next 24 months. In that event, the amount of contribution to the #High Line# Improvement Fund shall be reduced by \$21.00 for each square foot of #floor area# which exceeds the basic maximum #floor area ratio# of the #zoning lot# up to the amount specified in Section 98-22 and the City shall refund or credit the Owner, as applicable, for any excess from or against the #High Line# Improvement Fund. In the event of exercise of such option, certification pursuant to Section 98-25, paragraph (c)(2), with respect to the Structural Remediation Work shall be of substantial completion with respect to issuance of temporary certificates of occupancy, and of final completion with respect to issuance of final certificates of occupancy.

(ii) Such Structural Remediation Work shall include work on or under the #High Line# and above, at and below grade, which shall be of the same quality and performance standards (i.e., with respect to use, useful life, and maintenance requirements) as required for the remainder of the #High Line# (recognizing that there may be

different standards for portions of the #High Line# that will be exposed to the public versus those that will not be so exposed) and shall include, but not be limited to, the following:

In the event that the City directs that any or all ballast material is to remain on the #High Line#, it shall be capped, as necessary, in accordance with the specifications provided by the City and the rules and regulations of all appropriate agencies. Any ballast material that is to remain, but also remain uncapped, shall be cleared and grubbed in accordance with specifications of the City; and
 - (f) Any work required to be performed below grade for the anticipated improvements of the #High Line# for reuse as open space.
- (iii) The City shall consult with Owner regarding the drafting of the specifications for the Structural Remediation Work, and then provide Owner with such specifications by January 31, 2006, subject to such delays as are outside the reasonable control of the City (including, without limitation, litigation, but such delays shall not extend more than 180 days), unless such date is extended by mutual agreement between the City and Owner.
 - (iv) In the event Owner exercises the option to perform the Structural Remediation Work, Owner shall have 12 months to complete such work following June 23, 2005, or of the date of exercise of such option, whichever is later, unless such date is extended by mutual agreement between the City and Owner, and subject to reasonable extension for any delays beyond Owner's reasonable control.
 - (v) In the event that the City does not provide the specifications for the Structural Remediation Work within the timeframe set forth in paragraph (b)(1)(iii) of this Appendix, Owner may exercise the option to perform such work and proceed with the Structural Remediation Work, and shall complete it within 12 months of the exercise of such option, unless such date is extended by mutual agreement between the City and Owner, and subject to reasonable extension for any delays beyond Owner's reasonable control, but may use its own specifications, consistent with the description of the Structural Remediation Work set forth above and sound, high quality engineering, construction and workmanship standards and practices.
 - (vi) If Owner exercises the option to perform the Structural Remediation Work, Owner shall reimburse the City for the reasonable cost of hiring or procuring the services of a fulltime resident engineer to supervise the Structural Remediation Work, with associated costs (e.g., trailer, computer, telephone), such reimbursement not to exceed \$115,000.

Such facilities shall also have a component located no higher than #curb level# (hereinafter referred to as the "lower service facility"). The upper facility must be located directly above the lower facility to enable placement of a trash chute connecting the upper and lower facilities. Where the upper facility is not located exactly at the level of the #High Line bed#, a fully accessible ramp must connect such level with the level of the upper facility. Where the lower facility is not located exactly at #curb level#, a means acceptable to the City of connecting the lower service facility to a #street# frontage shall be provided.

Located Within Subarea J

LAST AMENDED

11/13/2012

This Appendix sets forth additional requirements governing #zoning lot# located within Subarea J over which the #High Line# passes for any #development# or #enlargement# which involves an increase in the applicable basic maximum #floor area ratio# of the #zoning lot# up to the amount specified in Section 98-22 (Maximum Floor Area Ratio and Lot Coverage in Subareas). The additional requirements are set forth in this Appendix F, in paragraph (a), the issuance of a building permit for such #development# or #enlargement# pursuant to paragraph (a) of Section 98-25 (High Line Improvement Bonus); in paragraph (b), the performance of improvements as a condition of issuance of temporary or permanent certificates of occupancy pursuant to paragraph (d) of Section 98-25; and in paragraph (c), the option of the owner to offer to the City an additional #High Line# Support Easement Volume. The term “parties in interest” as used herein shall mean “parties-in-interest,” as defined in paragraph (f)(4) of the definition of #zoning lot# in Section 12-10.

(a) Requirements for issuance of a building permit pursuant to paragraph (a) of Section 98-25

(1) As a condition of certification:

(d) Use of the #High Line# Support Easement Volumes

The #High Line# Support Easement Volumes shall not be dedicated for use by the general public but rather for use by the City or its designee for storage, delivery of materials and support of #uses# within the #High Line# (and in connection therewith, the fitting-out, operating, maintaining, repairing, restoring and replacement of the #High Line# Support Easement Volumes), except that:

- (1) the public may use the public restrooms;
- (2) up to 650 square feet of space adjacent to the #High Line# may be used exclusively for educational and related programming that is at no cost to the public; and
- (3) if dedicated to the City in accordance with paragraph (d) of this Appendix F, the optional additional #High Line# Support Easement Volume may be accessible to the public as part of concessions or other uses that relate to the #High Line#.

The City or its designee shall at all times use, operate and maintain the #High Line# Support Easement Volumes so as not to interfere with the use and enjoyment of the #buildings# located within Subarea J.

The #High Line# support spaces described in paragraphs (a)(1)(iii)(c)(2) and (3) of this Appendix F, shall be accessible by a dedicated freight elevator that connects to non-exclusive portions of the #building#, including a loading facility at #curb level#, through which the City or its designee shall be provided with a non-exclusive easement to enable reasonable and customary access;

(e) Effective date of the #High Line# Support Easement Volumes

The City's or its designee's rights to utilize the #High Line# Support Easement Volumes shall commence on the date that the #High Line# Support Work has been completed in accordance with paragraph (b)(1) of this Appendix F, or in the event of default of the owner in accordance with paragraph (c) of this Appendix F, the date that the City has notified the owner that it intends to perform such #High Line# Support Work in accordance with paragraph (c); and

- (f) Notice by the Department of City Planning of its receipt of certified copies of the recorded restrictive declarations required pursuant to paragraph (a) (1) (ii) and (iii) of this Appendix F, shall be a precondition to issuance by the Commissioner of Buildings of any building permits including any foundation or alteration permit for any #development# or #enlargement# which causes the #floor area ratio# of a #zoning lot# to exceed the #floor area ratio# of such #zoning lot# on November 13, 2012;
 - (iv) The owner shall submit plans for the #High Line# Support Work described in paragraph (b)(1) of this Appendix F, that demonstrate compliance with the provisions of this Appendix and are consistent with New York City Department of Parks and Recreation standards and best practices governing material life cycle and maintenance, for review and approval by the Chairperson of the City Planning Commission;
 - (v) Solely in the event the initial certification made pursuant to Section 98-25, paragraph (a), is with respect to additional #floor area# to be added to a #building# or portion of a #building# located outside of the Tenth Avenue Zone as described in Section 98-423, paragraph (g)(iii), then the owner shall enter into agreements with the City or its designee, in a form reasonably acceptable to the City, to provide interim access, in accordance with such agreements, to the #High Line# through a non-exclusive loading facility and an existing freight elevator. Such agreements shall provide that any space within the existing #building# may be used by the City or its designee at no cost, except that the City or its designee shall be obligated to pay for the proportionate costs of utilities, maintenance and other building expenses associated with the use of such loading facility and elevator, and for any improvements or modifications to such space that may be requested by the City or its designee. Such interim access shall cease upon the date that the City or its designee commences utilization of the #High Line# Support Easement Volumes in accordance with paragraph (a)(1)(iii)(d) of this Appendix F;
 - (2) The location of #floor area# which would cause the #floor area ratio# of a #zoning lot# to exceed the #floor area ratio# of such #zoning lot# on November 13, 2012, and be subject to the provisions of Section 98-25, shall be considered to be the topmost portion of the #development# or #enlargement# unless, at the time of certification pursuant to Section 98-25, paragraph (a), the owner designates on plans submitted to the Chairperson of the City Planning Commission, subject to the concurrence of the Chairperson, an alternate location.
- (b) Requirements for issuance of certificates of occupancy pursuant to paragraph (d) of Section 98-25
- (1) #High Line# Support Work pursuant to paragraph (d) of Section 98-25
 - (i) The owner shall perform #High Line# Support Work subject to the provisions of this paragraph (b)(1), inclusive. For temporary certificates of occupancy, certification pursuant to Section 98-25, paragraph (d), shall be the substantial completion of the work. For permanent certificates of occupancy, certification shall be of final completion of the work.
 - (ii) The #High Line# Support Work shall consist of the following:
 - (a) the construction, fit-out and delivery in an operative condition of public restrooms described in paragraph (a)(1)(iii)(c)(1) of this Appendix F, furnished with restroom fixtures, including six toilet stalls for women, an aggregate of six toilet stalls and/or urinals for men and three sinks in each restroom, and provided with utility connections.

Within

the portion of the #High Line# support space in the vicinity of the level of the #High Line bed#, the owner will install a kitchen exhaust duct from such support space to a suitable point of discharge and will provide access to the #building# sprinkler standpipe and fire alarm system. Such support space shall also include access to a storage mezzanine pursuant to a dedicated lift, and there shall be a clear path at least five feet wide from the lift to the dedicated freight elevator described in paragraph (b)(1)(ii)(c) of this Appendix F. The owner will not be responsible for distributing any utility services within the #High Line# support space or for providing any ancillary equipment for the kitchen exhaust duct; and

(c) the construction of the dedicated freight elevator described in paragraph (a)(1)(iii)(c)(4) of this Appendix F, with a minimum capacity of 3,000 pounds;

(iii) Following the completion of the #High Line# Support Work described in paragraph (b)(1)(ii) of this Appendix F, all subsequent costs of operating, maintaining, repairing, replacing and additional fit-out of the #High Line# support space shall be exclusively the responsibility of the City and not the owner, provided that the owner shall be responsible for the repair and replacement of any defective #High Line# Support Work for a period of one year after completion thereof;

(iv) The cost to the owner of the #High Line# Support Work pursuant to the plans approved pursuant to this paragraph, (a)(1)(iv), shall be estimated at the time of such approval by a licensed engineer selected by the owner, such estimate to be in a form reasonably acceptable to the City, at an amount not to exceed \$2,544,000, as adjusted at the time of such approval by changes in the construction cost index published by the Engineering News Record (ENR) for New York City commencing as of December 1, 2012. In the event that the City requests the owner to perform any additional work in conjunction with the #High Line# Support Work and the owner agrees to perform such additional work, then the cost of such additional work shall be the responsibility of the City and may be deducted in whole or in part from the #High Line# Improvement Fund contribution required pursuant to paragraph (a)(1) of this Appendix F;

(v) Except as set forth in paragraph (b)(1)(v) of this Appendix F no temporary or permanent certificates of occupancy may be issued pursuant to Section 98-25, paragraph (d), for #floor area# in a #development# or #enlargement# which causes the #floor area ratio# on a #zoning lot# to exceed the #floor area ratio# of such #zoning lot# on November 13, 2012, until the #High Line# Support Work described in paragraph (b)(1) of this Appendix F has been substantially completed or finally completed, as applicable;

(vi) Notwithstanding anything to the contrary in this paragraph (b)(1), inclusive, if certification is initially made pursuant to Section 98-25, paragraph (a), with respect to additional #floor area# to be added to a #building# or portion of a #building# located outside of the Tenth Avenue Zone, as described in Section 98-423, paragraph (g)(iii), then the conditions for certification pursuant to Section 98-25, paragraph (d), for a permanent or temporary certificate of occupancy shall not apply to such #building# or portion of a #building# and the following conditions shall apply:

(a) the owner shall deliver a letter of credit or other security reasonably satisfactory to the City in an amount reasonably determined by the City as sufficient for the City to perform the #High Line# Support Work described in paragraph (b)(1) of this Appendix F which letter of credit or other security may be drawn or exercised by the City in the event of a default by the owner in accordance with paragraph (c)(ii) of this Appendix F; and

(b) the owner shall enter into an agreement with the City in a form reasonably acceptable to the City requiring the owner to commence the #High Line# Support Work described in paragraph (b)(1) of this Appendix F, no later than September 1, 2017, subject to force majeure as determined by the Chairperson, and shall thereafter diligently prosecute the same to completion, pursuant to an agreed-upon schedule, subject to force majeure as determined by the Chairperson.

(c) In the event the owner is in default of its obligations pursuant to the agreements required by paragraph (b)(1)(vi) of this Appendix F:

- (1) The City shall be entitled to draw the letter of credit or exercise the other security described in paragraph (b)(1)(vi)(a) of this Appendix F and to take possession of the #High Line# Support Easement Volumes following delivery of notice to the owner that the City intends to perform the #High Line# Support Work in accordance with provisions to be set forth in the restrictive declaration described in paragraph (a)(1)(iii) of this Appendix F;
 - (2) The City shall return to the owner any contribution made to the #High Line# Improvement Fund with respect to additional #floor area# to be added to a #building# or portion of a #building# located within the Tenth Avenue Zone as described in Section 98-423, paragraph (g)(3);
 - (3) No additional building permit may be issued pursuant to Section 98-25, paragraph (a), with respect to a #development# or #enlargement# to be located within the Tenth Avenue Zone as described in Section 98-423, paragraph (g)(iii), nor may any temporary or permanent certificates of occupancy be issued pursuant to Section 98-25, paragraph (d), for #floor area# in such a #development# or #enlargement# which causes the #floor area ratio# on a #zoning lot# to exceed the #floor area ratio# of such #zoning lot# on November 13, 2012.
- (d) Option to offer an additional #High Line# Support Easement Volume:
- (1) The owner, at its sole option, may elect to offer to the City an easement comprising up to 7,500 square feet of #floor area# within the #building# adjacent to the #High Line# and at the vicinity of the level of the #High Line bed# as an additional #High Line# Support Easement Volume by written notice to the Chairperson of the City Planning Commission, with a copy to the Commissioner of the Department of Parks and Recreation. Such written notice shall be delivered contemporaneously with the owner's first request for certification by the Chairperson, described in paragraph (a) of Section 98-25, that relates to a #building# or portion of a #building# within the Tenth Avenue Zone, as described in Section 98-423, paragraph (g)(3);
 - (2) If the owner elects to exercise such option, the owner shall provide an appraisal from an appraiser reasonably acceptable to the City who is a member of the American Institute of Real Estate Appraisers (or its successor organization) establishing the fair market value of the additional #High Line# Support Easement Volume to be so dedicated. The term "fair market value" shall mean the price at which such additional #High Line# Support Easement Volume would change hands between a willing buyer and a willing seller, both acting rationally, at arm's length, in an open and unrestricted market. The appraisal shall determine such fair market value of the additional #High Line# Support Easement Volume based on its highest and best as-of-right #uses#, valued in an unimproved core and shell physical condition (including any existing structural elements, such as the #building# wall separating the #High Line# from the additional easement volume) and considered unencumbered by any leases, mortgages or other matters that will be released or otherwise subordinate to the grant of such additional #High Line# Support Easement Volume to the City. The appraisal shall not assume that as-of-right #uses# of the additional #High Line# Support Easement Volume may enjoy any access to and from the #High Line#. Any other appraisal assumptions or instructions not set forth herein shall be subject to approval by the City.
 - (3) If such option is exercised by the owner, the City shall have up to 60 days from the delivery of the written notice described in paragraph (d)(1) of this Appendix F to irrevocably accept or decline the exercise of the option by written notice to the owner. If the City does not so accept or decline the option within said 60-day period, then the option shall be deemed declined and neither the City nor the owner shall have any further rights or obligations under this paragraph, (d), inclusive;
 - (4) If such option is exercised by the owner and accepted by the City, the restrictive declaration described in paragraph (a)(1)(ii) of this Appendix F shall provide or shall be amended to include the additional #High Line# Support Easement Volume within the grant to the City, and the value of the additional #High Line# Support Easement Volume as set forth in the appraisal shall be the responsibility of the City and may be deducted in whole or in part from the #High Line# Improvement Fund contribution required pursuant to paragraph (a)(1) of this Appendix F;
 - (5) In the event that the City requests the owner to perform any work in conjunction with the dedication of the additional #High Line# Support Easement Volume and the owner agrees to perform such work, then the cost of such additional work shall be the responsibility of the City and may be deducted in whole or in part from the #High Line# Improvement Fund contribution required pursuant to paragraph (a)(1) of this Appendix F. All costs of fitting-out, operating, maintaining, repairing and replacing the additional #High Line# Support Easement Volume shall be exclusively the

responsibility of the City and not the owner.

For #automated parking facilities#, off-street reservoir space at the vehicle entrance shall be provided as set forth in paragraph (a) of

this Section.

Each individual parking location where a driver is permitted to leave a vehicle for transfer to a mechanized automobile storage and retrieval unit shall constitute one reservoir space. Additional reservoir spaces may be located where drivers queue to access such locations for vehicle transfer.

In addition, the number of reservoir spaces required pursuant to paragraph (a) of this Section may be reduced where the Commissioner of Buildings determines that the operational characteristics of such #automated parking facility# warrant such a reduction.

(c) Self-parking facilities

For self-parking #accessory# parking facilities, #public parking garages# and #public parking lots#, where entering vehicles are required to stop at a mechanically operated barrier before entering the parking facility, such barrier shall be placed a minimum of 20 feet beyond the #street line#.

In addition to a maximum number of 225 public parking spaces, such garages may include required #accessory# parking spaces, which may be provided at any level. Any #accessory# parking spaces that are not required shall be included with all other public parking spaces in such #public parking garage# for the purpose of applying any regulations in this Resolution relating to the number or location of parking spaces in such #public parking garage#.

101-532 - Off-site accessory parking spaces in public garages

LAST AMENDED 3/22/2016

Section 36-57 (Accessory Off-street Parking Spaces in Public Garages) shall be modified to allow #accessory# off-street parking spaces in any #public parking garage# #developed# after December 10, 2012, provided such off-site spaces comply with the provisions of Section 101-55 (Location of Off-site Parking Spaces).

LAST AMENDED 3/22/2016

The provisions of this Section shall apply to parking facilities created after December 10, 2012, or for parking facilities enlarged by 50 or more spaces after December 10, 2012. For all #accessory# parking garages and #public parking garages#, the following safety features shall be provided at all vehicular exit points:

- (a) a 'stop' sign which shall be clearly visible to drivers. Such signage shall comply with the standards set forth in the Manual of Uniform Traffic Control Devices (MUTCD) issued by the Federal Highway Administration (FHWA) for a conventional single lane road; and
- (b) a speed bump, which shall be located within the exit lane of the parking facility. Such speed bump shall:
 - (1) span the entire width of such exit lane;

- (2) have a minimum of two inches in height, as measured from the adjoining grade of the exit lane, and a maximum depth of 12 inches; and
- (3) be located a minimum of four feet beyond the #street line#, as measured perpendicular to the #street line#.

101-534 - Stackers in garages

LAST AMENDED 3/22/2016

Within an enclosed attended parking facility with parking lift systems, for individual lifted trays upon which a vehicle is stored, each tray upon which a vehicle is stored shall be considered 153 square feet of #floor area#, except if located in portions of a #building# exempt from the definition of #floor area# pursuant to Section 12-10 (DEFINITIONS).

101-535 - Automated parking facilities

LAST AMENDED 3/22/2016

For an #automated parking facility#, the minimum size of spaces regulated in Sections 25-62 (Size and Location of Spaces) and 36-521 (Size of spaces) shall not apply.

For the purpose of calculating parking spaces in #automated parking facilities#, each tray upon which a vehicle is stored shall constitute one off-street parking space. However, auxiliary parking trays may be exempted from constituting a parking space where the Commissioner of Buildings determines that such auxiliary parking trays are needed to routinely store and retrieve vehicles for the efficient operation of such #automated parking facility#.

Within an #automated parking facility#, each tray upon which a vehicle is stored shall be considered 153 square feet of #floor area#, except if located in portions of a #building# exempt from the definition of #floor area# pursuant to Section 12-10 (DEFINITIONS).

101-536 - Special permit for public parking garages

LAST AMENDED 3/22/2016

Section 74-52 (Parking Garages or Public Parking Lots in High Density Central Areas) shall not apply to #public parking garages#. In lieu thereof, the City Planning Commission may permit:

- (a) a #public parking garage# that does not comply with the provisions of Section 101-531 (Public parking garages), provided that such garage complies with all other applicable regulations set forth in Section 101-50 (OFF-STREET PARKING AND OFF-STREET LOADING REGULATIONS); and
- (b) floor space on one or more #stories#, up to a height of 23 feet above #curb level#, to be exempted from the definition of #floor area# as set forth in Section 12-10.

In order to grant a special permit for such #use# or #floor area# exemption, the Commission shall find that:

- (1) such #use# will be compatible with the surrounding area, and will not adversely affect the growth and development of #uses# comprising vital and essential functions in the general area within which such #use# is to be located;
- (2) the proposed materials and articulation of the #street wall# of the parking facility are compatible with #buildings# in the surrounding area;
- (3) the ground floor level of such parking facilities that front upon #streets# with a width of 60 feet or more, or that front upon public access areas, is occupied by #commercial#, #community facility# or #residential uses# that generate activity on all such adjoining #streets# or public areas, except at the entrances and exits to the parking facility. Where site planning constraints make such #uses# infeasible, the parking facility shall be screened from such adjoining #streets# or public access areas with a strip at least five feet deep, densely planted with shrubs or trees that are at least four feet high at the time of planting and that are of a type which may be expected to form a year-round dense screen, at least six feet high, within three years. Where such screening is not desirable, a total of at

least 50 percent of the exterior #building# wall with adjacent parking spaces shall consist of opaque materials that include graphic or sculptural art, or living plant material;

- (4) any floor space above the ground floor level utilized for parking is located, to the greatest extent feasible, behind #commercial#, #community facility# or #residential# #floor area#, so as to minimize the visibility of the parking facility from adjoining #streets# with a width of 60 feet or more, or public access areas. Any exterior wall of the parking facility visible from an adjoining #street# or public access area shall be articulated in a manner that is compatible with #buildings# in the surrounding area;
- (5) such #use# will not create or contribute to serious traffic congestion and will not unduly inhibit surface traffic and pedestrian flow and that the #streets# providing access to such #use# will be adequate to handle the traffic generated thereby;
- (6) such #use# and its vehicular entrances and exits are so located as to draw a minimum of vehicular traffic to and through residential #streets# in nearby areas; and
- (7) if any floor space is exempted from the definition of #floor area#, such additional floor space is necessary to prevent excessive on-street parking demand and relieve traffic congestion.

The City Planning Commission may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area including limitations on #signs#, or requirements for shielding of floodlights, or locations of entrances and exits.

A #sign# located within the #sign# band may be applied directly to the surface of a #building# or to a #sign# board affixed to the surface of a #building#. If a #sign# board is employed, such #sign# board shall be entirely within the #sign# band, shall be mounted horizontally, shall have a uniform color over its entire surface excluding perimeter frame or trim and shall extend the full length of the #street wall# of the establishment to which it is #accessory#, except that such #sign# board may be interrupted by vertical architectural elements such as

columns, pilasters or other integral architectural elements. Any background material shall be considered as a #sign# board, unless it extends the full length of the #street wall# of a #building# (or that portion of a #building# occupied by the establishment) and the full height of the #building# up to the topmost cornice. On #corner lots#, a #sign# or #sign# boards shall be the same vertical dimension and shall be mounted at the same height above the #curb level# on both #street# frontages.

The provisions of Section 101-50 (OFF-STREET PARKING AND OFF-STREET LOADING REGULATIONS), inclusive, shall not apply within the Atlantic Avenue Subdistrict.

101-741 - Accessory off-street parking

LAST AMENDED

2/2/2011

No #accessory# off-street parking facilities are required for any #residential# or #commercial# #development#, or portion thereof, within the Atlantic Avenue Subdistrict. In no case shall the number of permitted #accessory# off-street parking spaces for #residential use# exceed 40 percent of the number of #dwelling units#. All #accessory# parking spaces shall be designed and operated exclusively for the long term storage of private passenger motor vehicles used by the occupants of such #residences#.

In no case shall curb cuts for vehicular access be located on Atlantic Avenue or on a #street# within 50 feet of its intersection with the #street line# of Atlantic Avenue. No off-site #accessory# off-street parking facilities for any #use# shall be permitted within the Atlantic Avenue Subdistrict.

The parking requirements set forth in Sections 25-31 or 36-21 shall not apply to any #development# for which the Commissioner of Buildings has certified that there is no way to provide the required parking spaces with access to a #street# in conformity with the provisions of this Section.

101-742 - Screening

LAST AMENDED
6/28/2004

Any permitted #accessory# off-street parking area, regardless of size or location, shall be screened from all adjoining #zoning lots# and #streets# by screening that complies with the provisions of Section 36-56 (Screening) and which, in the case of a wall or barrier or uniformly painted fence, is finished in an approved color as indicated in Appendix D of this Chapter.

101-743 - Accessory off-street loading

LAST AMENDED
2/2/2011

Curb cuts for vehicular access to #accessory# off-street loading berths shall not be located on Atlantic Avenue or on a #street# within 50 feet of its intersection with the #street line# of Atlantic Avenue. However, the City Planning Commission may, by authorization, permit a curb cut on Atlantic Avenue, provided that:

- (a) such curb cut is a relocation of an existing curb cut on the #zoning lot#; and
- (b) such curb cut will not unduly inhibit surface traffic and pedestrian flow along Atlantic Avenue.

The loading berth requirements of Section 25-72 or 36-62 shall not apply to any #development# for which the Commissioner of Buildings has certified that there is no way to provide the required loading berths with access to a #street# in conformity with the provisions of this Section.

All #accessory# off-street loading berths shall be enclosed within a #building#.

101-744 - Special permit for public parking garages or public parking lots

LAST AMENDED
2/2/2011

The City Planning Commission may grant a special permit for #public parking garages# or #public parking lots# with a capacity of not more than 100 spaces, provided that the regulations set forth in Sections 36-53 (Width of Curb Cuts and Location of Access to the Street), 36-55 (Surfacing) and 36-56 (Screening), are met and that no roof parking is permitted. The Commission may permit floor space on one or more #stories#, and up to a height of 23 feet above #curb level#, to be exempted from the definition of #floor area# set forth in Section 12-10 (DEFINITIONS). As a condition of permitting such #use#, the Commission shall make the following findings:

- (a) such #use# is so located as to draw a minimum of vehicular traffic to and through local #streets# in nearby residential areas;
- (b) such #use# has adequate reservoir space at the vehicular entrance to accommodate a minimum of 10 automobiles or 20 percent of the

spaces so provided, whichever amount is less; and

- (c) where any floor space is exempted from the definition of #floor area#, such additional floor space is needed in order to prevent excessive on-street parking demand and relieve traffic congestion.

101-75 - Special Provisions for Demolition of Buildings

LAST AMENDED
2/2/2011

Except in the case of #buildings# that are unsafe and the demolition of which is required pursuant to the provisions of Chapter 26, Title C, Part I, Article 8, or its successor, of the New York City Administrative Code, no demolition permit shall be issued by the Department of Buildings for any #development# within the Subdistrict until:

- (a) the owner of the property has obtained a building application approval for the new #development# or #enlargement#; and
- (b) the owner shall have presented evidence of having a commitment from a domestic bank, insurance company or real estate investment company, for construction financing, which shall be in the form of a letter trust.

101-80 - SPECIAL PERMITS

LAST AMENDED
6/17/2013

101-81 - Special Permit for Use and Bulk Modifications for Cultural Use in Certain C6-2 Districts

LAST AMENDED
3/13/2019

In order to support a concentration of cultural #uses# and public open spaces in the C6-2 District bounded by Flatbush Avenue, Hanson Place, St. Felix Street and Lafayette Avenue, for #buildings# intended to be occupied in whole or in part by cultural #uses#, the City Planning Commission may permit the maximum #community facility# #floor area ratio# to be increased from 6.5 to 7.0, may permit modifications of the special #street wall# location regulations of Section 101-41, and the height and setback regulations of Section 23-641 as applied to the #residential# portion of a #building#, and modifications of applicable #sign# regulations in accordance with this Section.

For the purposes of this Section, “cultural use” shall be defined as public or non-profit libraries, theaters, museums, visual or performing arts spaces, or art, music, dance, theatrical studios or other comparable #uses# and space occupied by such cultural #use# shall qualify as #community facility# #floor area#.

In order to grant such special permit, the conditions of paragraph (a) and the findings of paragraph (b) of this Section shall be met. In addition, special regulations pertaining to the certificate of occupancy of such #building# shall apply as set forth in paragraph (c).

- (a) Conditions
 - (1) A letter from the Office of the Mayor shall be submitted certifying that:
 - (i) a preliminary agreement has been executed providing for a cultural facility consisting of at least 40,000 square feet of interior gross square feet in the #building# to be transferred for cultural #uses# and for the construction of the core and shell of such cultural facility by the applicant; and
 - (ii) floor plans have been provided to the Office of the Mayor which demonstrate that the cultural facility is well-suited for cultural #uses#; and
 - (2) A legal commitment in the form of a declaration of restrictions shall be executed and delivered to the City for recording upon the approval of the permit, restricting use of the #floor area# to be occupied by cultural #uses# to cultural #use# for the life of the related #development#, provided that in the event the majority of the #zoning lot# containing such #floor area# is in the ownership of a not-for-profit corporation under contract with the City to provide economic development services at the time

of the grant of such permit, execution and recordation of such declaration of restrictions shall be made at the time of the transfer of ownership of the majority of such #zoning lot# for purposes of facilitating the related #development#.

(b) In order to grant such permit, the Commission shall find that:

- (1) the #building#, including such cultural #uses#, is designed and arranged on the #zoning lot# in a manner that results in ample visibility of and access to the cultural #uses# from surrounding #streets#;
- (2) any #street wall# modifications will facilitate access to #open space# on the lot and result in a #development# that activates the pedestrian environment;
- (3) any #bulk# modifications will result in a better distribution of #bulk# on the #zoning lot# by providing for increased light and air to #open space# on the #zoning lot#;
- (4) the appearance of #bulk# is minimized through an enhanced articulation of the base and tower elements of the #building#, an enhanced relationship between the #building# and the #open space# on the #zoning lot#, and an enhanced amount and arrangement of the fenestration of the #building#; and
- (5) any modifications to #sign# regulations will result in greater visibility for the cultural #uses# provided on the #zoning lot#.

The Commission may prescribe appropriate additional conditions and safeguards in order to enhance the character of the #development# and to minimize adverse effects on the character of the surrounding area.

(c) Certificate of occupancy

The Commissioner of Buildings shall not issue a temporary or permanent certificate of occupancy for more than an amount of #floor area# in the #building# equal to the #floor area# to be occupied by non-cultural #uses# minus 40,000 square feet of #floor area# unless the Department of Buildings has received a letter from the Office of the Mayor certifying that a deed transferring ownership of a majority of the #zoning lot# has been recorded and that such deed or other recorded document provides for:

- (1) the construction by transferee of the core and shell of the cultural facility described in paragraph (a)(1)(i) of this Section;
- (2) the creation of a condominium unit for such cultural facility and the transfer of ownership thereof to the City; and
- (3) a right of the transferor to re-enter and re-acquire the #zoning lot# should the applicant fail to complete the construction of the core and shell of the cultural facility.

Should the certification by the Office of the Mayor not be issued within 30 days of the recording of the deed or other document with the stated provisions, a copy of such deed or document may be provided to the Department of Buildings in satisfaction of such certification.

101-82 - Modification of Bulk Regulations for Certain Buildings on Irregular Sites

LAST AMENDED 10/21/2021

In C6-9 Districts within the #Special Downtown Brooklyn District#, mapped after March 13, 2019, and in C6-4 and C6-6 Districts within the #Special Downtown Brooklyn District#, mapped after October 21, 2021, for #developments# or #enlargements# on irregular sites, the City Planning Commission may modify underlying #bulk# regulations, other than #floor area ratio#, provided that no Use Group 5 #use# shall be permitted in any portion of the #building# receiving such modifications, and:

- (a) there are physical conditions, including irregularity, narrowness or shallowness of lot shape or size that create practical difficulties in complying with the #bulk# regulations and would adversely affect the #building# configuration or site plan;
- (b) the practical difficulties of developing on the #zoning lot# have not been created by the owner or by a predecessor in title;
- (c) the proposed modifications are limited to the minimum needed to relieve such difficulties;
- (d) the proposed modifications will not unduly obstruct access of light and air to adjoining properties or #streets#; and

(e) the proposed scale and placement of the #development# or #enlargement# relates harmoniously with the surrounding area.

The Commission may prescribe additional conditions and safeguards to minimize adverse effects on the character of the surrounding area and to improve the quality of the site configuration.

Chapter 2 - Special Scenic View District (SV-1)

102-00 - GENERAL PURPOSES

LAST AMENDED
10/24/1974

The "Special Scenic View District" (hereinafter also referred to as the "Special District"), established in this Resolution, is designed to promote and protect public health, safety, and general welfare. These general goals include, among others, the following specific purposes:

- (a) to preserve, protect and prevent obstruction of outstanding scenic views as seen from a mapped public park or an esplanade or a mapped public place directly accessible to the public; and
- (b) to promote the most desirable use of land and direction of building development, to assure the maintenance and enhancement of the aesthetic aspects of scenic views, to conserve the value of land and buildings and to protect the City's tax revenues.

102-01 - Definitions

LAST AMENDED
2/2/2011

Definitions specially applicable to this Chapter are set forth in this Section. The definitions of other defined terms are as set forth in Section 12-10 (DEFINITIONS).

Scenic view

A "scenic view" is an outstanding or unique view from a mapped #public park# or an esplanade or a mapped public place which is protected by the regulations of this Chapter. #Scenic views# shall be limited to:

- (a) distant landscapes of scenic grandeur which contain natural features such as hills, palisades or similar features;
- (b) outstanding views of large bodies of water such as rivers, streams, lakes, harbors, waterfalls or similar aquatic features; or
- (c) panoramic views of the waterfront profile of the skyline formed by built and natural elements.

The minimum horizontal distance between the #scenic view# and a #view reference line# shall be at least 1,500 feet and shall not contain distractions which reduce the quality of such view. The specific view to be preserved under the regulation of this #Special Scenic View District# shall be described and made part of this Chapter.

View framing line

The "view framing line" is a line or lines which establish the outer edge of the #scenic view# to be protected. For each #scenic view#, the #view framing line# or #lines# and their elevation are to be located and identified and made part of this Chapter.

View plane

A "view plane" is an imaginary plane above which no obstruction shall be permitted within a #Special Scenic View District# unless authorized by the City Planning Commission. Position of the #view plane# may be conical surfaces. Such #view plane# or #planes# are established by joining the #view reference line# with the #view framing lines# as illustrated below:

#View planes# and their elevation, length and slopes applicable to each #Special Scenic View District# are to be located and identified and made part of this Chapter.

View reference line

The "view reference line" is a line within a mapped #public park# or an esplanade or a mapped public place from which at any point an outstanding #scenic view# may be observed. A #view reference line#

and its elevation applicable to each #Special Scenic View District# are to be located and identified and made part of this Chapter.

The mapped #public park# or an esplanade or a mapped public place in which such #view reference line# is located shall be directly accessible from a #street#.

102-02 - General Provisions

LAST AMENDED
2/2/2011

In harmony with the general purpose and intent of this Resolution and the general purposes of the #Special Scenic View District#, the regulations of the districts upon which this Special District is superimposed are supplemented or modified in accordance with the provisions of this Chapter. Except as so modified, all the

applicable regulations of the underlying districts shall be in effect.

#Special Scenic View Districts# may be mapped only in areas where the control of the height of a #building or other structure#, including #signs#, is necessary to preserve outstanding #scenic views# from a mapped #public park# or an esplanade or a mapped public place.

102-021 - Requirement for application

LAST AMENDED
2/2/2011

An application to the City Planning Commission for a special permit pursuant to Section 102-30, shall include maps, plans or other documents showing topography, elevations, and site plans showing arrangement and spacing of #buildings or other structures#, and other information necessary to determine the impact of the proposal on the #scenic view# to be protected.

102-023 - Relationship to public improvement projects

LAST AMENDED
2/2/2011

In all cases, the City Planning Commission shall deny a special permit application whenever the proposal will interfere with a public improvement project (including highways, public #buildings# and facilities), redevelopment or renewal projects, or rights-of-way for sewers, transit, or other public facilities) which is approved by or pending before the Board of Estimate, the City Planning Commission, or the Site Selection Board as determined from the calendar of each such agency issued prior to the date of the public hearing on the application for a special permit.

102-10 - HEIGHT REGULATIONS FOR BUILDINGS, SIGNS OR STRUCTURES

LAST AMENDED
2/2/2011

Notwithstanding any other provisions of this Resolution, no portion of any #building or other structure# hereafter

constructed, or of any #sign# hereafter erected, or of any existing #building or other structure# hereafter relocated, #enlarged# or reconstructed, shall penetrate a #view plane# unless authorized by the City Planning Commission, pursuant to Section 102-30 (SPECIAL PERMIT PROVISIONS).

102-11 - Damage, Destruction or Demolition

LAST AMENDED
10/24/1974

If an existing #building or other structure# which penetrates the #view plane# of a #Special Scenic View District# is damaged, destroyed or demolished by any means, such #building or other structure# may be reconstructed provided that such reconstruction shall not create a new #non-compliance# nor increase the pre-existing degree of #non-compliance#.

102-20 - MANDATORY LANDSCAPING PLAN

LAST AMENDED
10/24/1974

The requirements of this Section shall apply to #zoning lots#, any portion of whose finished ground elevation is within 30 feet of the elevation of the #view plane# located above the #zoning lot#. At the time of filing with the Department of Buildings, for any application for an excavation permit or a building permit for a #development# or #enlargement# or site improvement on such

#zoning lots# within a #Special Scenic View District#, a landscaping plan shall be submitted to the City Planning Commission indicating that future landscaping on the site will not impair #scenic views# from the #view reference line#. Such plan shall indicate existing topography, trees, shrubs, #buildings or other structures# and proposed landscaping. All future landscaping on the site shall be in accordance with the approved landscaping plan on file with the Commission. The Commission shall submit a copy of the approved landscaping plan to the Department of Buildings or other appropriate city agency having jurisdiction.

102-30 - SPECIAL PERMIT PROVISIONS

LAST AMENDED
2/2/2011

On all #zoning lots# located entirely or partially within a

#Special Scenic View District#, the City Planning Commission, by special permit, may allow penetration by a #sign# or #building or other structure# of a #view plane# and grant minor modifications of #open space#, #lot coverage#, #yards# and height and setback regulations of the underlying district. As a condition for such modifications, the Commission shall find:

- (a) that any penetration of a #view plane# shall not significantly obstruct the #scenic view# which is to be protected by the provisions of this Chapter;
- (b) that any penetration of a #view plane# will cause the minimal obstruction consistent with reasonable development and #bulk# distribution on the #zoning lot#; and
- (c) that any #bulk# modifications on a #zoning lot# will not affect adversely any other #zoning lots# outside the development, by restricting access of light and air.

In reaching a determination for such modifications, the Commission shall be guided by the description of the #scenic view# to be made part of this Chapter at the time of the designation of a #Special Scenic View District#.

The Commission may prescribe appropriate conditions and safeguards to protect the #scenic view# and to minimize the adverse effects on the character of the surrounding areas.

102-40 - SPECIAL DISTRICT DESIGNATION ON PUBLIC PARKS

LAST AMENDED
10/24/1974

When a #Special Scenic View District# is designated on a #public park# or portion thereof, any future landscaping, erection of new #signs# or #buildings or other structures#, thereon, shall not penetrate a #view plane# unless authorized by the City Planning Commission. As a condition for such authorization, the Commission shall find that any penetration of a #view plane# shall not significantly obstruct the #scenic view# which is to be protected by the provisions of this Chapter.

102-50 - SPECIAL PROVISIONS FOR CITY-OWNED LANDS

LAST AMENDED
10/24/1974

Chapter 3 - Special Planned Community Preservation District (PC)

103-00 - GENERAL PURPOSES

LAST AMENDED

6/10/2009

The "Special Planned Community Preservation District" (hereinafter referred to as the "Special District"), established in this Resolution, is designed to promote and protect the public interest, general welfare and amenity. These general goals include, among others, the following specific purposes:

- (a) to preserve and protect the Special Districts as superior examples of town planning or large-scale development;
- (b) to preserve and protect the character and integrity of these unique communities which, by their existing site plan, pedestrian and vehicular circulation system, balance between buildings and open space, harmonious scale of the development, related commercial uses, open space arrangement and landscaping add to the quality of urban life;
- (c) to preserve and protect the variety of neighborhoods and communities that presently exist which contribute greatly to the livability of New York City;
- (d) to maintain and protect the environmental quality that the Special District offers to its residents and the City-at-large; and
- (e) to guide development within each of the Special Districts that is consistent with the existing character, quality and amenity of the Special Planned Community Preservation District.

103-01 - Establishment of Special Planned Community Preservation District

- (b) contain a minimum of three #buildings#;
- (c) were designed and substantially #developed# as a unit under the regulations of the Zoning Resolution prior to December 15, 1961; and
- (d) include considerable clustered #open space# and related #commercial# #uses# available to all residents of the District.

The Commission has found that existing site plans resulted in superior functional relationships of #buildings#, #open spaces#, pedestrian and vehicular circulation systems, including parking facilities, and other amenities all together creating an outstanding planned residential community.

103-02 - Special Planned Community Preservation District Areas

LAST AMENDED

7/18/1974

The #Special Planned Community Preservation District# areas are as follows, and are each indicated by the letters "PC" on the

#zoning maps#:

The Harlem River Houses in the Borough of Manhattan

Parkchester in the Borough of the Bronx

Sunnyside Gardens in the Borough of Queens.

103-10 - GENERAL PROVISIONS

LAST AMENDED

5/12/2021

In harmony with the general purpose and intent of this Resolution and the general purposes of the #Special Planned Community Preservation District#, no #development#, #enlargement#, or substantial alteration of landscaping or topography, shall be permitted within the Fresh Meadows, Harlem River Houses and Parkchester areas, except by special permit of the City Planning Commission, pursuant to Sections 103-11 (Special Permit for Bulk and Parking Modifications) and 103-12 (Special Permit for Landscaping and Topography Modifications).

No demolition of #buildings# shall be permitted within the Fresh Meadows, Harlem River Houses and Parkchester areas, unless it is an unsafe #building# and demolition is required pursuant to the provisions of Chapter 26, Title C, Part I, Article 8, of the New York City Administrative Code, or its successor, except that such demolition may be permitted pursuant to a development plan for which a special permit has been granted under the provisions of Sections 103-11 and 103-12.

In a C8-4 District, however, a demolition permit may be issued for any #building# that is less than 10,000 square feet and was constructed after December 31, 1955, but prior to July 18, 1974.

Special regulations for the Sunnyside Gardens area are set forth in Section 103-20, inclusive.

In #flood zones#, in the event of a conflict between the provisions of this Chapter and the provisions of Article VI, Chapter 4 (Special Regulations Applying in Flood Zones), the provisions of Article VI, Chapter 4, shall control.

103-11 - Special Permits for Bulk and Parking Modifications

LAST AMENDED

2/2/2011

- (a) For any #development# or #enlargement#, either of which may include demolition, within a #Special Planned Community Preservation District#, the City Planning Commission, by special permit, may allow:
- (1) the unused total #floor area#, #dwelling units# or #rooming units# permitted by the applicable district regulations for all #zoning lots# within the development to be distributed without regard for #zoning lot lines#;
 - (2) the total #open space# or #lot coverage# required by the applicable district regulations for any #zoning lots# within the development to be distributed without regard for #zoning lot lines#;
 - (3) minor variations in the #yard# regulations required by the applicable district regulations;
 - (4) minor variations in the height and setback regulations required by the applicable district regulations;
 - (5) modifications of the minimum spacing requirements consistent with the intent of the provisions of Section 23-

71 (Minimum Distance Between Buildings on a Single Lot); or

- (6) permitted or required #accessory# off-street parking spaces, driveways or curb cuts to be located anywhere within the development, without regard to #zoning lot lines# or the provisions of Sections 25-621 (Location of parking spaces in certain districts) and 25-631 (Location and width of curb cuts in certain districts), subject to the findings of Section 78-41 (Location of Accessory Parking Spaces).
- (b) In order to grant such special permits, the City Planning Commission shall make the following findings:
- (1) that the #development# or #enlargement# relates to the existing #buildings or other structures# in scale and design, and that the #development# will not seriously alter the scenic amenity and the environmental quality of the community;
 - (2) that the #development# or #enlargement# be sited in such a manner as to preserve the greatest amount of #open space# and landscaping that currently exists, consistent with the scale and design of the existing development, the landscaping surrounding the new landscaping arrangement, and conditions of the community;
 - (3) that the #development# or #enlargement# be sited in such a manner that it will not require at that time, or in the foreseeable future, new access roads or exits, off-street parking or public parking facilities that will disrupt or eliminate major portions of #open space# and landscaping or will generate large volumes of traffic that will diminish the environmental quality of the community; and
 - (4) that minimal landscaping be removed during construction and such areas will be fully restored upon completion of construction.
- (c) Notwithstanding the provisions of paragraph (a)(6) of this Section, where the requirement for #accessory# off-street parking spaces, driveways or curb cuts can only be accommodated in such a manner that the functioning of the existing planned community is substantially injured, the Commission shall authorize waiver of all or part of the required parking.

The Commission may prescribe appropriate conditions and safeguards, including covenants running with the land which shall permit public or private enforcement reflecting terms, conditions and limitations of any special permit in order to minimize adverse effects on the character and quality of the community. The Commission may advise and recommend special conditions or modifications in the plans submitted by applicants in order to conform to the intentions of the #Special Planned Community Preservation District#.

No single fixed element, within 15 feet of the #street line# of the Square, shall have a dimension greater than 15 feet or be higher than 30 inches, measured from the finished level of the adjacent sidewalk. The clear path between obstructions shall be at least three feet; however, to qualify as an unobstructed access that contributes to the 50 percent requirement set forth in this paragraph, a minimum width of five feet is required.

Elevation of the Square

The elevation of the Square shall generally follow the adjacent topography. Within 15 feet of the #street line#, the elevation of the Square, for a minimum of 50 percent of the length of each frontage on a #street#, shall have a maximum slope of 1:15. However, other types of seating, such as the edges of planters and fountains, may count toward the required amount of seating if such seating has a minimum depth of 22 inches and is between 16 and 18 inches in height.

At least 20 percent of the required seating shall be provided within 15 feet of the #street line# of the Square fronting all #streets# and the adjacent Midblock Open Area, and arranged to encourage a variety of uses. If such Midblock Open Area is provided with seating, that frontage of the Square may be exempt from this requirement.

Other required amenities

Racks shall be provided for a minimum of 16 bicycles. Such racks shall be located in the Square within 10 feet of the #street line# or, if outside the Square, on any open area facing the Square.

- (a) the top of the exhaust or intake vent shall be a minimum of 20 feet above the finished level of the adjacent grade;
- (b) no single element shall be more than 200 square feet; and
- (c) the aggregate area occupied by all vents and stair bulkheads shall not exceed one percent of the area of the Square.

In order to grant such authorization, the Commission shall find that:

- (1) placement of such elements cannot be reasonably accommodated elsewhere on the #zoning lot#; and
- (2) such vents and stair bulkheads are located so as to minimize impact on the visibility, accessibility and public use and enjoyment of the Square.

The Commission may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the Square.

Chapter 5 - Special Natural Area District (NA)

105-00 - GENERAL PURPOSES

LAST AMENDED

2/2/2005

The "Special Natural Area District" (hereinafter also referred to as the "Special District"), established in this Resolution, is designed to promote and protect public health, safety and general welfare. These general goals include, among others, the following specific purposes:

- (a) to guide development in areas of outstanding natural beauty in order to protect, maintain and enhance the natural features of such areas;
- (b) to preserve land having qualities of exceptional recreational or educational value to the public;
- (c) to protect aquatic, biologic, botanic, geologic and topographic features having ecological and conservation values and functions;
- (d) to reduce hillside erosion, landslides and excessive storm water runoff associated with development by conserving vegetation and protecting natural terrain;
- (e) to preserve hillsides having unique aesthetic value to the public; and
- (f) to promote the most desirable use of land and the direction of building development in accordance with a well-considered plan, to promote stability of residential development, to promote the character of the district and its peculiar suitability for particular uses, to conserve the value of land and buildings and thereby protect the City's tax revenues.

105-01 - Definitions

LAST AMENDED

2/2/2011

Definitions specially applicable to this Chapter are set forth in this Section. The definitions of other defined terms are set forth in Section 12-10 (DEFINITIONS).

Area of no disturbance

An "area of no disturbance" is an area designated on the site plan that is protected from all types of intrusion, including: #site alteration#, operation of construction equipment, storage of construction materials, excavation or regrading, tunneling for utilities, removal of trees, #topsoil# or any living vegetation, or construction of driveways, #private roads#, parking areas, patios, decks, swimming pools, walkways or other impervious surfaces. #Areas of no disturbance# shall include #steep slopes#, #steep slope buffers# and the #critical root zone# of each tree proposed for preservation.

Average percent of slope

The "average percent of slope" of a #zoning lot# is the average slope of all portions of a #zoning lot# excluding #steep slopes# and shall be determined according to the following equation:

$$S = \frac{IL}{A} \times 100$$

Where: S - #average percent of slope#

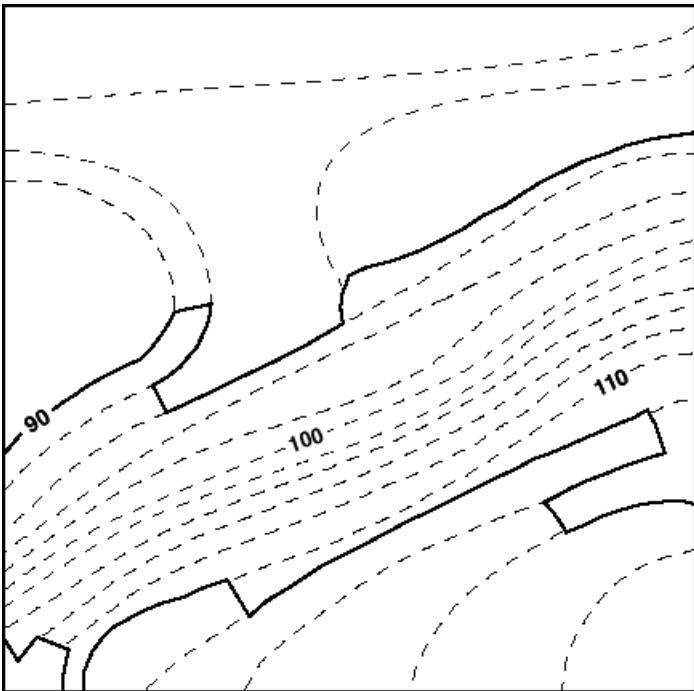

I - contour interval in feet

L - combined length of contour lines in feet, excluding those portions bordering or lying within areas having a slope of 25 percent or greater and meeting the definition of #steep slope#

A - gross area in square feet of the #zoning lot#, excluding those portions of the #zoning lot# having a slope of 25 percent or greater and meeting the definition of #steep slope#. For a proposed #site alteration# on a tract of land not within a #zoning lot#, the portion of such tract of land owned by the applicant shall be considered to be part of the #zoning lot#

100 - factor which yields slope as a percentage

CALCULATING AREAS HAVING A SLOPE EQUAL TO OR GREATER THAN 25 PERCENT (ILLUSTRATIVE EXAMPLE)

Example:

$$X = \frac{\text{Contour interval in feet}}{0.25} = \frac{2}{0.25} = 8.0 \text{ feet}$$

Where: X - distance between contour lines which indicates a slope of 25 percent

In order to calculate the area having a slope equal to or greater than 25 percent, one can use a map with two-foot contour

intervals and a scale of one inch equals 20 feet, as shown in the map in this Section. A 25 percent slope, on a map with two-foot contour intervals, is indicated by contour lines that are 8.0 feet apart, rounded to the nearest tenth (0.1) of a foot. On a map whose scale is one inch to 20 feet, 8.0 feet is represented by 0.4 of an inch, rounded to the nearest tenth (0.1) of an inch. Identify where the contour lines are 0.4 of an inch or less apart. Connect these contour lines (as indicated by the heavy lines on the map) and calculate the area.

Caliper (of a tree)

"Caliper" of a tree is the diameter of a tree trunk measured 4 feet, 6 inches from the ground. If a tree splits into multiple trunks below 4 feet, 6 inches from the ground, the trunk is measured at its most narrow point beneath the split.

Critical root zone

The "critical root zone" of a tree is the area containing the roots of a tree that must be maintained and protected to ensure the tree's survival. The area of the #critical root zone# is measured as one radial foot for every #caliper# inch of the tree, with a required minimum of four radial feet and maximum of 22 radial feet, measured from the surface of the tree trunk at grade.

Hillside

A "hillside" is ground where the ratio of change in elevation to horizontal distance results in a 10 percent or greater slope or #average percent of slope#.

Natural feature

A "natural feature" is a specific natural feature belonging to one of the types listed in Section 105-10 (NATURAL FEATURES) and existing within a #Special Natural Area District#.

Site alteration

A "site alteration" is an alteration on any vacant tract of land, #land with minor improvements# or any tract of land containing #buildings or other structures# which includes land contour work, topographic modifications, removal of #topsoil#, vegetation, excavating, filling, dumping, changes in existing drainage systems, improvements in public rights-of-way, relocation of erratic boulders or modification of any other #natural features#, whether or not a permit is required from the Department of Buildings, the Department of Transportation or other public agencies.

Staging area

A "staging area" is any area on a #zoning lot# used during the construction of a #development#, #enlargement# or #site alteration# for the purposes of stockpiling soil or construction materials; storing, cleaning or servicing construction equipment, vehicles or tools; or storing leachable construction products, gases or other materials used to clean or service vehicles, equipment or tools.

Steep slope

A "steep slope" is a portion of a #zoning lot# with an incline of 25 percent or greater. However, a portion of a #zoning lot# with an incline of 25 percent or greater shall not be considered a #steep slope# if it occupies an area of less than 200 square feet or has a dimension of less than 10 feet, measured along the horizontal plane, unless such portions in the aggregate equal 10 percent or more of the area of the #zoning lot#.

Steep slope buffer

A "steep slope buffer" is a 15-foot wide area having a slope of less than 25 percent that adjoins the entire length of the crest of a #steep slope#.

Tier I site

A "Tier I site" is a #zoning lot# or other tract of land having an #average percent of slope# of less than 10 percent.

Tier II site

A "Tier II site" is a #zoning lot# or other tract of land having an #average percent of slope# equal to or greater than 10 percent.

Topsoil

"Topsoil" is soil containing undisturbed humus and organic matter capable of sustaining vigorous plant growth and is generally the top six inches of soil.

Tree credit

A "tree credit" is a credit for preserving an existing tree of six-inch #caliper# or more that is counted towards a tree preservation requirement or a credit for a newly planted tree of three-inch #caliper# or more that is counted towards a tree planting requirement.

Tree protection plan

A "tree protection plan" is a plan that modifies the #area of no disturbance# around a tree proposed for preservation while protecting and preserving the tree during construction. A #tree protection plan# is prepared by an arborist certified by the International Society of Arboriculturists (ISA) or equivalent professional organization that includes:

- (a) a survey of the current condition and health of such trees of six-inch #caliper# or more;
- (b) methods for tree protection and preservation based on best management practices, including the prevention of damage due to compaction, grade and drainage pattern changes and tunneling for utilities;
- (c) a schedule for site monitoring during construction;

- (d) a procedure to communicate protection measures to contractor and workers; and
- (e) post-construction treatment.

For a #site alteration#, #enlargement# or #development# within any #Special Natural Area District#, the Commission may modify one or more requirements set forth in paragraphs (a) through (h) of this Section, when such modification is requested by the applicant in writing and when the Commission determines that the requirements are unnecessary for evaluation purposes.

Appendix B of this Chapter should be used as a guide to assist in identifying the #natural features# on the survey required in this Section.

The applicant's submission shall also include a statement admitting authorized Department of City Planning personnel to the site for the purposes of recording or verifying survey data.

Where a permit is required for a #development#, #enlargement# or #site alteration# within a #Special Natural Area District# from any City or State agency, an application for such permit shall be filed simultaneously with such agency and the Commission.

LAST AMENDED
2/2/2005

In all cases, the City Planning Commission shall deny an application, whenever the #development#, #enlargement# or #site alteration# will interfere with a public improvement project (including highways, public #buildings# or facilities, redevelopment or renewal projects, or rights-of-way for sewers, transit or other public facilities) that has been approved by the City Council or the City Planning Commission.

105-03 - District Plan

LAST AMENDED

Appendix A - Special Natural Area District Plan Maps

Appendix B – Glossary

Appendix C - Selection List for Ground Covers and Shrubs

Appendix D - Tree Selection List for On-site Trees

105-10 - NATURAL FEATURES

LAST AMENDED
12/19/1974

105-11 - Description of Natural Features

LAST AMENDED
2/2/2005

All #natural features# shall be significant in terms of age, size, composition, function, structure, history, association, location, ecological value or educational interest.

The protection of one #natural feature# may require the protection of another which is closely linked to it. The preservation of #natural features# may also be necessary to avoid such adverse conditions as flooding, erosion or hazards to private property. All vegetation is part of a botanic environment or part of an aquatic feature and shall be considered as a #natural feature# protected by the regulations of this District. For the purposes of this Chapter, vegetation includes all forms of plant material, including, but not limited to, trees, shrubs, vines, ferns, grasses, herbs and other plant life.

All #natural features# defined in this Section and further described in Appendix B of this Chapter shall be protected by the provisions of this Chapter.

(a) Geologic features

(1) Rock outcrop

A rock outcrop is the portion of a rock formation which appears at the surface of the earth.

(2) Geologic deposit

A geologic deposit is a mass of material which has been placed, shaped or created by the actions of wind, water, ice, gravity, vulcanism, pressure or temperature, either alone or in combination. Such deposits are to include erratic boulders, glacial formations, mineral deposits or semi-precious stones.

(b) Topographic features

(1) #Steep slope#

(2) Existing natural topography

Existing natural topography is the ground elevation of land.

(3) #Topsoil#

#Topsoil# is generally the top six inches of soil containing undisturbed humus and organic matter capable of sustaining vigorous plant growth.

(c) Aquatic features

Wetlands, including, but not limited to State and Federal, mapped or designated, freshwater or tidal wetlands:

(1) Laminarian zone

A laminarian zone is that land under the surface of salt water from the mean low tide mark to the depth of 15 fathoms. The portion of laminarian zone to be protected by the provisions of this Special District extends to the pierhead line or to the shore line where no pierhead line has been established.

(2) Beach

A beach is a tract of relatively flat, sandy or gravelly land, without visible vegetation, forming the shore of a large body of water.

(3) Tidal wetland and saltwater littoral zone

A tidal wetland or saltwater littoral zone is that land which is regularly covered by tidal waters and its spray.

(4) Swamp

A swamp is a wet woodland, the soil of which is typically waterlogged or often covered with water.

(5) Marsh

A marsh is a wet prairie that has waterlogged soil during the growing season (from last spring frost to first fall frost) and is often covered with shallow water.

(6) Bog

A bog is a tract of waterlogged land without natural drainage.

(7) Meadow

A meadow is a tract of land that is waterlogged to within a few inches of the surface and may have temporary ponds during the non-growing season (between the first fall frost and first spring frost).

(8) Creek, stream or brook

A creek, stream or brook is a free flowing fresh watercourse on soil, gravel or rock that drains a watershed.

(9) Lake or pond

A lake or pond is a body of fresh or salt water standing year round.

(10) Natural spring

A natural spring is a point source of water exiting from the surface of the earth or rock.

(d) Botanic environments

(1) Primary succession community area

A primary succession community area is a tract of land characterized by species that can tolerate extreme environmental conditions and provide initial protection for less tolerant forms of life. These species are usually annuals and herbaceous.

(2) Secondary succession community area

A secondary succession community area is a tract of land characterized by short-lived trees and shrubs as well as grasses and herbaceous material. These species are less tolerant than primary succession community species but provide a greater diversity and range of protection from the sun, wind and rain.

(3) Climax community area

A climax community area is a stable association of plants and animals that will perpetuate itself indefinitely with minor variation in the group of associated plants. The climax community area in New York City is the glaciated oak-chestnut association, which is part of the eastern hardwood deciduous forest.

(4) Dune or heathland

A dune or heathland is a tract of windblown and wind- or water-shaped sandy land with such characteristic species as beach grass and beach heather.

(5) Wild grassland

A wild grassland is an area whose vegetation is primarily of wild grass species.

The #natural features# defined in this Section are described in Appendix B of this Chapter.

105-20 - PROTECTION OF NATURAL FEATURES

LAST AMENDED
2/2/2005

All #natural features# within a #Special Natural Area District# shall be protected by the regulations of this Chapter in accordance with the provisions set forth in Sections 105-02 (General Provisions), 105-30 (PRESERVATION OF NATURAL FEATURES) and 105-50 (REGULATIONS FOR PROTECTION OF NATURAL FEATURES).

Except for any existing #natural feature# that is unsafe and the removal of which is required by the Department of Buildings to eliminate hazardous conditions, no #natural features# described in Section 105-11 (Description of Natural Features) shall be removed, destroyed or altered unless permitted by certification, authorization or special permit of the City Planning Commission, pursuant to Section 105-40 (SPECIAL REVIEW PROVISIONS), or allowed pursuant to Section 105-021 (Actions not requiring special review).

105-30 - PRESERVATION OF NATURAL FEATURES

LAST AMENDED
2/2/2005

The provisions of this Section are applicable to all #developments#, #enlargements# and #site alterations# within the #Special Natural Area District#, pursuant to Section 105-02 (General Provisions). When pursuant to Sections 105-41 (Certification) or 105-021 (Actions not requiring special review), it is not necessary for an applicant for a #development#, #enlargement# or a #site alteration# to apply for an authorization or special permit, such #development#, #enlargement# or #site alteration# shall nonetheless comply with the #natural feature# preservation requirements of this Section, inclusive.

105-31 - Botanic Environment and Tree Preservation Requirements

LAST AMENDED
2/2/2005

To the maximum extent possible, existing trees and vegetation shall be retained. Trees of six-inch #caliper# or more and vegetation may only be removed or destroyed as a result of a #development#, #enlargement# or #site alteration#, provided that:

- (a) such trees or vegetation are located in areas to be occupied by #buildings#, #private roads#, driveways, areas for required #accessory# parking, or within a distance of 15 feet of the exterior walls of such #building#, provided that it is not possible to avoid such removal by adjustments in the arrangement of such #buildings#, driveways or required parking areas;
- (b) the continued presence of such tree would create special hazards or dangers to persons or property, which would not be possible or practical to eliminate by pruning;
- (c) the continued presence of such tree would interfere with the growth or health of another tree of six-inch #caliper# or more, designated for preservation and belonging to a species listed in Appendix D (Tree Selection List for On-site Trees) of this Chapter; or
- (d) an authorization pursuant to Section 105-425 (Modification of botanic environment and tree preservation and planting requirements) has been granted by the City Planning Commission approving the removal of such trees or vegetation.

Any tree of six-inch #caliper# or more that cannot be preserved as a result of a proposed #development#, #enlargement# or #site alteration# shall be replaced pursuant to the provisions of Section 105-32 (Botanic Environment and Tree Planting

Requirements).

105-32 - Botanic Environment and Tree Planting Requirements

LAST AMENDED

2/2/2005

Any vegetation that cannot be saved as a result of #site alteration#, #enlargement# or #development# shall be replaced with alternative vegetation to be approved by the City Planning Commission. All #developments#, #enlargements# and #site alterations# shall comply with the tree planting requirements set forth in this Section, whether or not existing trees are removed as a result of such #development#, #enlargement# or #site alteration#.

The replanting of elements of vegetation that are parts of an association or community shall be such as to reestablish, as rapidly as is reasonable, the vigor and character of the association. When necessary to establish ecological balance, the Commission may also require additional vegetation to be planted.

(a) Tree planting

For the purposes of this Section, the following minimum standard shall apply for tree planting:

- (1) For any #development#, #enlargement# or #site alteration# within a #Special Natural Area District#, trees of at least three-inch #caliper#, pre-existing or newly planted, shall be provided on the #zoning lot# at the rate of one tree for each 1,000 square feet of #lot area# or portion thereof or shall equal a total of 51 percent of all #tree credits# for trees originally on site, whichever is greater.
- (2) For any existing tree of at least six-inch #caliper# that is preserved, credit for one tree shall be given for the first six inches of #caliper# and, for each additional four inches of #caliper#, credit for an additional tree shall be given.

Single-trunk trees, newly planted to meet this requirement, shall be of at least three-inch #caliper# at the time of planting. Multiple-trunk trees and low-branching coniferous evergreens shall be at least 10 feet in height at the time of planting. Trees newly planted to meet this requirement shall be of a species selected from Appendix D of this Chapter, and acceptable from the standpoint of hardiness, appearance and habit of growth suitable to the site.

The Commission may grant a waiver of the tree planting requirements by certification to the Department of Buildings, where the Commission finds that the ecology of the site is such that the substitution of other plant material would be more appropriate than the tree planting requirements and a detailed plan for planting has been filed with the Commission for its approval.

(b) Botanic Environment Planting

For the purposes of this Section, the following minimum standard shall apply for the planting of vegetation.

Any vegetation or #topsoil# that cannot be preserved as a result of a proposed #development#, #enlargement# or #site alteration# and is not permitted to be removed pursuant to the regulations of Sections 105-31 (Botanic Environment and Tree Preservation Requirements) or 105-425 (Modification of botanic environment and tree preservation and planting requirements), shall be replaced as follows: for every square foot of #lot area# of removed vegetation or #topsoil#, plantings shall be provided of the size and number indicated in paragraphs (b)(1), (b)(2), (b)(3) and (b)(4) of this Section. The area of removed vegetation shall be measured so as to include any portions of the #zoning lot# that were located within the #critical root zone# of a removed tree of six-inch #caliper# or more. Species of ground cover and

shrubs shall be selected from Appendix C (Selection List for Ground Covers and Shrubs) of this Chapter. Species of on-site trees shall be selected from Appendix D (Tree Selection List for On-site Trees) of this Chapter.

- (1) Ground cover shall be planted one at one-foot-on-center and at the rate of one plant for every square foot of #lot area# of removed vegetation; and
- (2) Large trees shall be planted at the rate of one three-inch #caliper# tree for every 500 square feet of #lot area# of removed vegetation; or
- (3) Small trees shall be planted at a rate of one eight-foot high tree for every 100 square feet of #lot area# of removed vegetation; or
- (4) #Shrubs# shall be planted at a rate of one gallon container-grown material for every 25 square feet of #lot area# of removed vegetation.

The planting of species shall not be limited to woody plant materials, but shall include trees, shrubs, vines, ferns, grasses, herbs, annuals, biennials, perennials, mosses and other associated vegetation. All vegetation to be planted shall be either of the species which characterized the area's biological community prior to #site alteration#, #enlargement# or #development#, or of an alternative biologic community found in the area. Species selection shall give particular attention to the relationship of the species to each other and to the surrounding plant community and to the quality of the soil and the vertebrate and invertebrate populations associated with and dependent upon the proposed plants.

If a sidewalk is to be installed parallel to the roadway, the graded section shall be increased by the width of the sidewalk plus no more than one foot beyond the curb back.
 - (3) The paved width of a #private road# shall not exceed 34 feet.
 - (4) Curbs shall be provided along each side of the entire length of a #private road# and #accessory# parking spaces may be located between the required roadbed and curb.

Such approval may include the modification of #private road# width as set forth in paragraph (b)(3) of this Section.

The City Planning Commission may by authorization pursuant to Section 105-434 (Modification of requirements for private roads and driveways), allow modifications to, or waivers of, the requirements of this Section. The prior approval of the Fire Department regarding the adequacy of vehicular access to and within the #development# for fire safety shall be a condition for any modification or waiver.

105-36 - Controls During Construction

LAST AMENDED
2/2/2005

The following requirements must be met during construction and identified on the construction plan:

- (a) No construction equipment of any kind shall operate beyond 15 feet of the perimeter of a #building# foundation except those vehicles engaged in the construction of #private roads#, driveways or required #accessory# parking areas. This provision may be waived by the Commissioner of Buildings should it be determined that the particular conditions of the site make a 15-foot limit infeasible or impractical.
- (b) Construction fences shall be erected around all vegetation proposed for preservation and all #areas of no disturbance#, and those portions of the fence that are downhill from the construction site shall have hay bales placed adjacent to them.

- (c) Excavating for fill shall be prohibited unless the material is obtained from a cut permitted under an approved grading plan obtained for some purpose other than to produce fill material, or imported from outside the #Special Natural Area District#.
- (d) The #staging area# shall be located in an area that would most minimize destruction of the #natural features# of the landscape. Such area shall be as close to the construction area on the #zoning lot# as practical, and shall be either on the flattest portion of the #zoning lot# or behind a containment wall where it will not erode any #area of no disturbance# or endanger any tree designated for preservation.
- (e) #Topsoil# shall be used in the area to be replanted as soon as construction is complete.
- (f) Any exposed earth area shall have straw, jute matting or geotextiles placed on it within two days of exposure and be seeded with annual rye grass during construction.

105-37 - Special Erosion and Sedimentation Prevention Requirements for Authorizations for Tier II Sites

LAST AMENDED
2/2/2011

Any #development#, #enlargement# or #site alteration# that is on a #Tier II site# and requires an authorization shall be subject to the provisions of this Section. The requirements of this Section shall supplement any other requirements set forth in Section 105-40 (SPECIAL REVIEW PROVISIONS) that also must be met.

Prior to construction, at least one of the erosion and sedimentation control measures described in paragraphs (a) through (e) of this Section shall be selected. A plan describing how the selected erosion and sedimentation control measure will be implemented and justifying its selection on the basis of the particular conditions of the site shall be prepared by a professional engineer or landscape architect and submitted to the City Planning Commission.

(a) Benches and berms

These are level terraces or ledges constructed across sloping land to provide a relatively flat construction site or reduce the length and grade of the slope. Benches and berms reduce runoff and erosion hazards by slowing down the velocity of water and providing greater intake opportunity.

(b) Diversion channels

These are earth channels with a supporting ridge on the lower side constructed across the slope lengths to break up concentration of runoff and move water to stable outlets at a non-erosive velocity.

(c) Debris or sediment basins

These consist of a dam or embankment, a pipe outlet and an emergency spillway situated at the low corner of the site to provide a temporary means of trapping and storing sediment while releasing the water. They protect property below the installation from damage by excessive sedimentation and debris.

(d) Retention ponds

These are impoundment-type ponds that temporarily store runoff water and release it at rates that minimize erosion and prevent flooding. They may be located above the site to trap water before it enters the area or within the site to protect properties below the site.

(e) Grassed waterways or outlets

These are natural or excavated channels to dispose of excess runoff water from diversions, berms, benches and other areas at non-erosive velocities. Waterways or outlets are shaped or graded and established in suitable vegetation as needed, depending on the supplemental measure used to slow the velocity of runoff.

105-38 - Special Submission Requirements for Authorizations on Tier II Sites

LAST AMENDED
2/2/2011

When a #development#, #enlargement# or #site alteration# is on a #Tier II site#, an application to the City Planning Commission for an authorization shall include the following submission requirements. These requirements shall be in addition to the requirements set forth in Section 105-40 (SPECIAL REVIEW PROVISIONS).

- (a) A drainage plan and soil report prepared by a professional engineer to protect #natural features#. The drainage plan shall describe the temporary (during construction) and permanent measures to collect, direct and discharge stormwater drainage from the site, indicating the direction of drainage flow and providing detailed plans and locations of all surface and subsurface drainage devices, walls, dams, sediment basins, stormwater storage (detention and retention) facilities, and other drainage facilities and protective devices. Such report shall include an estimate of runoff from the site after completion of proposed #developments#, #enlargements# or #site alterations# and provide a description with supporting information of the manner in which the proposed #development#, #enlargement# or #site alteration# complies with the requirements of Local Law 103 of 1989.
- (b) An erosion and sedimentation plan as described in Section 105-37 (Special Erosion and Sedimentation Prevention Requirements for Authorizations for Tier II Sites).
- (c) For any #development# or #site alteration# on a tract of land 40,000 square feet or greater, a landscape plan prepared by a registered landscape architect that shows the location and species of all new plantings of trees, shrubs and ground covers and the proposed method of preserving existing trees, shrubs and ground covers.
- (d) Any other information the Commission may deem necessary to evaluate the request.

The applicant's submission shall also include a statement admitting authorized Department of City Planning personnel to the site for the purposes of recording or verifying survey data.

105-40 - SPECIAL REVIEW PROVISIONS

LAST AMENDED
2/2/2011

The provisions of this Section shall apply to all #developments#, #enlargements# or #site alterations# located within a #Special Natural Area District#.

Prior to the issuance by the Department of Buildings of any permit for a #development#, #enlargement# or #site alteration# within a #Special Natural Area District#, the City Planning Commission shall certify to the Department of Buildings that the #development#, #enlargement# or #site alteration# is approved pursuant to Sections 105-41, 105-42, 105-43 or 105-44, inclusive.

The provisions of Article VII, Chapter 8 (Special Regulations Applying to Large-scale Residential Developments), shall apply to a #large-scale residential development#, as modified by the provisions of Section 105-701 (Applicability of large-scale residential

development regulations).

105-41 - Certification

LAST AMENDED

2/2/2005

When it is not necessary for the applicant for a #development#, #enlargement# or #site alteration# to apply for an authorization or special permit, the City Planning Commission shall certify to the Department of Buildings that such #development#, #enlargement# or #site alteration# complies with the regulations of this Chapter, and that no authorization or special permit is required pursuant to this Chapter.

Where #natural features# are to be protected and maintained under Section 105-60 (MAINTENANCE OF NATURAL FEATURES), the Commission shall indicate in the certification specific conditions and safeguards appropriate to the designated area.

- (b) modification of geologic features including the relocation of erratic boulders, and the alteration of rock outcrops pursuant to Sections 105-423 and 105-424;
- (c) modification of botanic environment, pursuant to Section 105-425;
- (d) alteration of aquatic features, pursuant to Section 105-426 in NA-1, NA-2 and NA-3 Districts.

The Commission may prescribe appropriate additional conditions and safeguards to protect the character of the #Special Natural Area District#.

105-421 - Modification of topographic features on Tier I sites

LAST AMENDED

2/2/2005

The topographic features, including natural topography and #topsoil#, existing at the time of designation of a #Special Natural Area District# may be modified by the City Planning Commission, provided that the Commission finds that:

- (a) #development#, #enlargement# and #site alteration# is not feasible without such modification, or that the requested modification will permit a #development#, #enlargement# or #site alteration# that satisfies the purposes of this Chapter;
- (b) such modification, including any removal of #topsoil#, will not disturb the drainage pattern and soil conditions in the area;

- (c) such modification of topography has minimal impact on the existing topographic features of the surrounding area and blends harmoniously with it;
- (d) such modification is the least modification required to achieve the purpose for which it is granted; and
- (e) the #development#, #enlargement# or #site alteration# takes advantage of the natural characteristics of the site.

Where permits are required from a City agency, the Commission shall request a report from such agency, and the provisions of Section 105-93 (Inter-agency Coordination) shall apply.

105-422 - Authorization of a development, enlargement or site alteration on a Tier II site or portion of a zoning lot having a steep slope or steep slope buffer

LAST AMENDED

2/2/2011

The City Planning Commission may authorize #developments#, #enlargements# and #site alterations# on a #Tier II site# or on portions of a #zoning lot# having a #steep slope# or #steep slope buffer#.

In order to grant such authorizations, the Commission shall find that:

- (a) the #development#, #enlargement# or #site alteration# is not feasible without such modification, or that the modification will permit a #development#, #enlargement# or #site alteration# that satisfies the purposes of this Chapter;
- (b) such modification is the least modification required to achieve the purpose for which it is granted;
- (c) the modification has minimal impact on the existing natural topography and vegetation and blends harmoniously with it;
- (d) the modification will not disturb the drainage patterns and soil conditions of the area; and
- (e) the #development#, #enlargement# or #site alteration# takes advantage of the natural characteristics of the site.

The #lot coverage# regulations of Table II of Section 105-33 (Residential Lot Coverage Regulations on Tier II Sites or on Sites Granted an Authorization Pursuant to Section 105-422) shall apply to any #residential# #development#, #enlargement# or #site alteration# granted an authorization pursuant to this Section.

Any #development#, #enlargement# or #site alteration# requiring an authorization pursuant to this Section shall be subject to all the requirements of this Chapter for which an authorization or special permit has not been obtained.

105-423 - Relocation of erratic boulders

LAST AMENDED

2/2/2005

No erratic boulder with a diameter at any point of six feet or more may be moved from its location at the time of designation of a #Special Natural Area District# to another location within the Special District during #development#, #enlargement# or #site alteration# except in compliance with the provisions of this Section.

Prior to the moving of an erratic boulder from its present location to a location elsewhere within the #Special Natural Area District#, an application shall be filed with the City Planning Commission showing the present location and the proposed location. Moving of an erratic boulder will be permitted only by authorization of the Commission under the following circumstances:

- (a) where such a boulder is located in an area to be occupied by #buildings#, driveways, parking areas or recreation areas and it is not possible to avoid such location by minor adjustments in the arrangement of such #buildings#, driveways, parking areas or recreation areas on the site;
- (b) where the boulder's continued existence in its present location would create hazards or dangers; or
- (c) where authorizations granted by the Commission under the provisions of this Chapter require or clearly contemplate the boulder's relocation from its present position.

In issuing an authorization under this Section, the Commission shall require an appropriate relocation site, visible, if possible, from a public #street#, park, or public place, preferably on the #zoning lot# or elsewhere within the #Special Natural Area District#. The Commission may prescribe appropriate conditions to enhance the setting of the relocated boulder.

105-424 - Alteration of rock outcrops

LAST AMENDED

2/2/2005

The City Planning Commission may authorize the alteration of a rock outcrop, provided that:

- (a) the #development# or #enlargement# is not feasible without such alteration, or that the requested alteration will permit a #development# or #enlargement# that satisfies the purposes of this Chapter; or
- (b) such alteration is necessary to protect the health and safety of the site occupants; and
- (c) such #development# or #enlargement#, as authorized, will result in the minimum #natural feature# interference that must be permitted in order to allow reasonable #development# or #enlargement# and #bulk# distribution under the regulations of the underlying district.

The Commission shall impose appropriate conditions and safeguards to assure protection of the portions of the area to be preserved in their natural state.

105-425 - Modification of botanic environment and tree preservation and planting requirements

LAST AMENDED

2/2/2005

The City Planning Commission may authorize modifications to the provisions of Sections 105-31 (Botanic Environment and Tree Preservation Requirements), 105-32 (Botanic Environment and Tree Planting Requirements) and paragraph (b)(8) of Section 105-35 (Tier II Requirements for Driveways and Private Roads).

In order to grant such authorizations, the Commission shall find that:

- (a) the #development#, #enlargement# or #site alteration# is not feasible without such modifications, or that the requested modification will permit a #development#, #enlargement# or #site alteration# that satisfies the purposes of this Chapter;
- (b) such modification is the least modification required to achieve the purpose for which it is granted;
- (c) the ecology and soil conditions of the site are such that the substitution of other plant material would be as appropriate as the botanic preservation or planting requirements being modified; and

- (d) in order to modify requirements relating to tree preservation, planting or removal, the Commission shall also find that:
- (1) such tree is located in areas which require excessive cut or fill of land deemed inimical to plant survival; or
 - (2) the continued presence of such tree would create hazards or dangers (such as an area affected by storm or plant disease) to persons, property or other plant material which it would not be possible or practical to eliminate by pruning.

Where on-site replanting of vegetation would result in overcrowding or would adversely affect the ecology of the site, the Commission may authorize planting of one or more trees on adjoining public sidewalks or in a nearby public area within the #Special Natural Area District#. The Commission may also allow the substitution of other plant material, provided a detailed landscaping plan is filed with the Commission for approval and certification.

105-426 - Alteration of aquatic features

LAST AMENDED

No portion of an aquatic feature shall be altered or land operations affecting aquatic features undertaken by or on behalf of present or future applicants for permits except in compliance with the provisions of this Section. The City Planning Commission may permit the alteration of aquatic features, provided that:

- (a) the #development# or #enlargement# is not feasible without such alteration or where such alteration will permit a #development# or #enlargement# that satisfies the purposes of this Chapter; or
- (b) such alteration is necessary to protect the health and safety of the site occupants; and
- (c) such #development# or #enlargement#, as authorized, will result in the minimum #natural feature# interference that must be permitted in order to allow reasonable #development# or #enlargement# and #bulk# distribution under the regulations of the underlying district; and
- (d) such modification shall not disturb the drainage patterns in the area.

The Commission shall impose appropriate conditions and safeguards to assure protection of the portions of the area to be preserved in their natural state.

Where permits are required from a City agency for any work affecting #natural features#, the Commission shall request a report from such agency and the provisions of Section 105-93 (Inter-agency Coordination) shall apply.

In the event alteration of an aquatic feature is found inappropriate, the Commission may treat an application under this Section as an application for modification of #yard# and height and setback regulations under Section 105-432.

In order to grant such authorization, the Commission shall find that:

- (a) the #development# or #enlargement# is not feasible without such modification, or that the requested modification will permit a #development# or #enlargement# that satisfies the purpose of this Chapter;
- (b) by allowing the permitted #floor area# in a #building# or #buildings# of lower height to cover more land, the preservation of #hillsides# having aesthetic value to the public would be assured, and that such preservation would not be possible by careful siting of a higher #building# containing the same permitted #floor area# on less land;
- (c) such modification is the least modification required to achieve the purpose for which it is granted;
- (d) the modification has minimal impact on the existing natural topography and vegetation and blends harmoniously with it;

- (f) the modification does not impair the essential character of the surrounding area.

105-432 - Modification of yard, height and setback regulations, and parking location regulations

LAST AMENDED
2/2/2011

- (a) the proposed placement of #buildings# and arrangement of #open space# will not have significant adverse effects upon the light, air and privacy for existing #buildings# in adjacent areas or the opportunities therefore in future #development#; and
- (b) will preserve significant #natural features#.

The Commission may condition such authorizations upon the joint submission of acceptable plans for #development# or #enlargement# of two or more adjacent #zoning lots# by the owners thereof.

- (a) the #development#, #enlargement# or #site alteration# is not feasible without such modifications, or that the modifications will permit a #development#, #enlargement# or #site alteration# that satisfies the purposes of this Chapter;
- (b) such modification is the least modification required to achieve the purpose for which it is granted;
- (c) the modification has minimal impact on the existing natural topography and vegetation and blends harmoniously with it;
- (d) the modification will not disturb the drainage pattern and soil conditions of the area;
- (e) the modification does not impair the essential character of the surrounding area; and
- (f) the benefits to the surrounding area from the modification outweigh any disadvantages that may be incurred thereby in the area.

105-434 - Modification of requirements for private roads and driveways

 - (2) such modification is the least modification required to achieve the purpose for which it is granted;
 - (3) the modification will not disturb the drainage pattern and soil conditions of the area;
 - (4) the modification has minimal impact on the existing natural topography and vegetation and blends harmoniously with it; and
 - (5) such modification will enhance the quality of the design of the #development#, #enlargement# or #site alteration#; or
- (b) located on a #zoning lot# containing historic buildings designated by the Landmarks Preservation Commission within the New York City Farm Colony-Seaview Hospital Historic District, as shown on Map 2 in Appendix A of this Chapter,

the City Planning Commission may authorize modifications or waivers of the requirements for #private roads# as set forth in Section 26-20 (SPECIAL REQUIREMENTS FOR LOTS WITH PRIVATE ROADS) through Section 26-27 (Waiver of Bulk Regulations Within Unimproved Streets), inclusive, and Section 26-30 (SPECIAL REQUIREMENTS FOR LOTS WITH PRIVATE ROADS IN LOWER DENSITY GROWTH MANAGEMENT AREAS) through 26-35 (Screening), inclusive, provided that such modification or waiver:

- (1) results in greater environmental conservation or preservation of existing natural features;
- (2) results in a superior site and landscape plan that will not unduly disturb the drainage pattern and soil conditions of the area;
- (3) results in greater preservation of historic #buildings# or other architectural elements of the Historic District designated by the Landmarks Preservation Commission;
- (4) enhances vehicular and pedestrian connections between #buildings# on the site and the surrounding neighborhood;
- (5) will not impair the essential character of the Historic District and the surrounding area;
- (6) is the least required to achieve the purpose for which it is granted; and
- (7) will not reduce the required minimum width of the #private road# to a width less than 34 feet unless the Fire Department has approved such reduction and determined that emergency vehicles can adequately access and move within the site.

105-44 - Special Permit

LAST AMENDED
2/2/2005

For any #development#, #enlargement# or #site alteration# within the #Special Natural Area District#, the City Planning Commission may grant special permits for modification of the underlying district regulations in accordance with the provisions of Sections 105-441 and 105-442.

105-441 - Modification of use regulations

LAST AMENDED
2/2/2011

In addition to any #use# modifications which may be granted under the provisions of Section 105-701 (Applicability of large-scale residential development regulations), the City Planning Commission may permit #semi-detached# or #attached# #single-family residences# in R2 Districts and #attached# #single-# or #two-family residences# in R3-1 Districts.

Furthermore, except in the #Special Natural Area District#-1 (NA-1), the Commission may permit #semi-detached# or #attached# #single-family residences# in R1-2 Districts provided that the #development# or #enlargement# is on a tract of land of at least four acres, and provided the Commission finds that:

- (a) the preservation of #natural features# requires the permitted #development# to be concentrated to the extent feasible in the remaining portion of the tract;
- (b) for such concentration of #development#, better standards of privacy and usable #open space# can be and are achieved under the development plan by inclusion of the proposed #residential building# types;

- (c) the change of housing type constitutes the most effective method of preserving #natural features#;
- (d) the #aggregate width of street walls# of a number of #residential buildings# separated by party walls shall not exceed 100 feet;
- (e) the proposed #street# system for the tract of land to be #developed# is so located as to draw a minimum of vehicular traffic to and through #streets# in the adjacent area; and
- (f) the existing topography, vegetation and proposed planting effectively screen all #attached# #single-family residences# from the #lot lines# along the perimeter of the tract of land to be #developed#.

105-442 - Natural area dedicated for public use

LAST AMENDED

2/2/2005

Where commonly or separately owned areas containing #natural features# of exceptional recreational, cultural or educational value to the public are dedicated to the City, without any cost to the City, pursuant to Section 105-701 (Applicability of large-scale residential development regulations), the City Planning Commission may by special permit allow, where appropriate, such portion of the #zoning lot# to be included in the zoning computation for #floor area#, #open space#, #lot coverage# and density regulations and other #bulk# computations.

105-45 - Certification of Restoration Plans

LAST AMENDED

2/2/2005

On any #zoning lot# to which the provisions of Section 105-02 (General Provisions) apply, no #natural features# as described in Section 105-11 (Description of Natural Features) or any other vegetation shall be removed, altered, relocated or replaced without prior approval by the City Planning Commission, as set forth in Section 105-40 (SPECIAL REVIEW PROVISIONS).

In the event that any such features are removed, altered, relocated or replaced from a #zoning lot# without prior approval by the Commission, the Commission may specify the manner of their replacement or restoration. If trees are to be planted, the Commission may require that they be three inches in #caliper#.

A copy of the restoration plan certified by the Commission specifying requirements for the replacement or restoration of the #natural features# shall be issued to the owner of the #zoning lot# containing such violations and to the Department of Buildings.

Upon receipt of the Commission's certified restoration requirements, the Department of Buildings shall require the owner of the #zoning lot# to remove the violations in accordance with the requirements set forth by the Commission. If such violations have not ceased within 90 days of receipt of the Commission's requirements, the Department of Buildings shall institute such action as may be necessary to terminate the violations. For compliance with new planting requirements to remove violations, the Department of Buildings may allow an additional 90 days.

No building permit or certificate of occupancy shall be issued by the Department of Buildings for any #development#, #enlargement#, #site alteration# or #use# on such #zoning lot# until the violations are removed from the #zoning lot# in accordance with the restoration plan certified by the Commission.

105-50 - REGULATIONS FOR PROTECTION OF NATURAL FEATURES

The provisions of this Section establish regulations for City Planning Commission review of #development#, #enlargement# or #site alteration# plans from the standpoint of the adequacy of protection for #natural features# within a #Special Natural Area District#. Plans that are deficient in this regard may be rejected or required to be modified, even though they comply with all other applicable regulations of this Chapter.

These regulations are to be used by the Commission in reaching a determination whether to approve #development#, #enlargement# or #site alteration# plans filed pursuant to Sections 105-41 (Certification), 105-42 (Authorizations to Alter Natural Features), 105-43 (Authorizations to Modify Bulk, Parking, Grading and Private Roads Regulations) or 105-44 (Special Permits).

The Commission, where appropriate, shall be guided by the reports from other city agencies involved in land contour work, storm water drainage systems and similar operations affecting #natural features#.

In determining the necessary alteration of #natural features# or extent of modifications involved in a #development#, #enlargement# or #site alteration#, the Commission shall be guided by the effect of any alteration of a #natural feature# on the total ecological process of the surrounding natural environment including the following: the effect of such alteration on the existing topography, soil conditions, erosion, natural flow of water and drainage, water quality, and animal, plant and marine life.

Further guidelines for the protection of #natural features# are:

- (a) No #natural feature# shall be moved, removed, covered, diminished, broken or disfigured, unless permitted pursuant to the provisions of Sections 105-30 (PRESERVATION OF NATURAL FEATURES) and 105-40 (SPECIAL REVIEW PROVISIONS). Furthermore, #topsoil# shall neither be removed from the surface of any #zoning lot# nor covered with inferior material unless permitted pursuant to Section 105-40. Where existing topography is altered without prior authorization of the Commission, the Commission may require new grading or other topographical modifications or surface improvement to reestablish the viability and function of the soil as a growing medium, and as a drainage surface, in order to permit the site to blend harmoniously with the surrounding area of the Special District.
- (b) Filling, excavating, draining, dredging, grading and contouring shall be staged and controlled so as to minimally impair the function, composition, vitality and existence of #natural features#. When and where possible, such operations shall be done in a manner so as to maintain or improve the biological system and individual features on the site.
- (c) All filling, excavating, draining, dredging, grading and contouring shall avoid creation of #steep slopes# or conditions causing erosion, loss of fertility of soil, health or safety hazards, and shall be done in conformance with the limits and nature of the soil involved.
- (d) All land operations including filling, excavating, draining, dredging, grading and contouring shall be limited to those operations which maintain or restore natural drainage, cause a minimum disturbance of the #natural features# and their setting while providing for the #development#, #enlargement# or #site alteration# or permitted #uses#.
- (e) No #development#, #enlargement# or #site alteration# shall be such as to impede or change the quality, turbidity, temperature or chemical composition of natural drainage or aquatic features.
- (f) A #development#, #enlargement# or #site alteration# shall be permitted only in areas sufficiently removed from the #natural features# to avoid impairment of their existence, functions or beauty.
- (g) There shall be maximum preservation of all natural vegetation in and adjacent to the #natural features# found on the site. Plant communities which have been substantially reduced in area or composition as a result of a #development#,

#enlargement# or #site alteration# shall be restored, extended or replaced by alternative plant materials with an adequate maintenance program. In no case shall the site be allowed to be denuded and without vegetational cover upon completion of the #development#, #enlargement# or #site alteration#.

- (h) Replacement of any #natural feature# and planting of new vegetation on a site in the Special District shall be such as to extend, reinforce, increase the diversity, function and vitality of an association or community in the area. Special attention shall be given to symbiotic relationships between plants and the relationship between vegetation to be planted and animal populations which are dependent upon or related to the proposed vegetation. Where appropriate, planting shall include trees, shrubs, vines, ferns, grasses, herbs, annuals, biennials, perennials, mosses, and other associated vegetation.
- (i) Adequate provision shall be made for proper management and maintenance of #natural features# and their immediate surroundings to avoid pollution, loss of vigor, reduction in composition or function or other ecological damage.
- (j) Where appropriate, when a portion of a #natural feature# or its function must be altered, such alteration shall not only reinforce the function, vitality and existence of the remaining portion of the #natural feature# but also improve conditions for other #natural features#. This shall apply particularly but not exclusively to the removal and replanting of plant materials.
- (k) Where appropriate, a #development#, #enlargement# or #site alteration# shall be such as to leave #natural features# intact in their natural setting and, where feasible, visible from public #streets# or places.
- (l) For a #steep slope#, these additional requirements apply:
 - (1) In all #Residence Districts#, for #residential# #developments# on individual #zoning lots# substantially within a #steep slope# area, the #lot area per dwelling unit# requirement shall not be less than 12,500 square feet. Except in R1 Districts located in #Special Natural Area District#-1 (NA-1), the Commission may, for a tract of land of at least four acres substantially within the #steep slope# area, modify, by authorization, the #lot area per dwelling unit# requirement set forth in this paragraph, (l)(1), for the #steep slope# area, and may allow #development# to be concentrated in clusters to preserve the #steep slope# areas in their natural state, provided that such clusters are located to the extent feasible in areas of comparatively flat topography and will not require unnecessary grading on adjacent slopes or the creation of new #steep slopes#.
 - (2) In no event shall the #lot area per dwelling unit# requirement be less than the amount required by the underlying district regulations.
 - (3) Existing vegetational cover in steep areas shall not be removed, destroyed or damaged except pursuant to development and grading plans approved by the Commission. An objective of such plans shall be to fit #street# layouts and #building# designs to the natural terrain, limit grading to a practical minimum and provide for maximum preservation of the natural terrain and vegetational cover.

105-60 - MAINTENANCE OF NATURAL FEATURES

LAST AMENDED
2/2/2005

For any #development#, #enlargement# or #site alteration# on a tract of land within a #Special Natural Area District#, the City Planning Commission may require a maintenance plan for a #natural feature#. Where a maintenance plan is required, approval of the development plan and the granting of any certification, authorization or special permit shall be conditioned upon the Commission's approval of the maintenance plan.

The maintenance plan shall specify what the maintenance is to consist of and whose responsibility it will be, and shall provide assurance that maintenance will be satisfactorily executed. The Commission, in considering the maintenance needs of a particular #natural feature# and the content of an acceptable maintenance plan shall, where appropriate, refer all relevant plans to the Landmarks Preservation Commission, Department of Parks or other City agency with primary responsibilities in natural areas conservation, for its report thereon. The Commission shall, in its determination, give due consideration to any such report submitted within one month from the date of referral. If such City agency does not report within one month, the Commission may make a final determination without reference thereto.

For #natural features# for which the Commission determines that specialized maintenance and regulated public #use# are appropriate, the maintenance plan may provide for dedication of the #natural feature# to the City or an approved private conservation organization for responsible maintenance in the public interest.

105-70 - SPECIAL REGULATIONS FOR RESIDENTIAL DEVELOPMENT

LAST AMENDED
2/2/2011

In order to carry out the purposes of this Chapter, all #zoning lots# #developed# predominantly for #residential use# may be subject to the provisions of this Section.

105-701 - Applicability of large-scale residential development regulations

LAST AMENDED
2/2/2011

The provisions of Article VII, Chapter 8 (Special Regulations Applying to Large-Scale Residential Developments), shall apply except as modified by the provisions of this Section.

Any #zoning lots# #developed#, used predominantly for #residential uses#, may be treated as a #large-scale residential development# and authorizations or special permits for such #zoning lot# may be granted in accordance with the provisions of Article VII, Chapter 8, as modified herein or in Section 105-80 (JOINT APPLICATIONS), regardless of whether such #zoning lot# will have the area, number of #buildings# or number of #dwelling units# specified in the definition of #large-scale residential development#, as set forth in Section 12-10 (DEFINITIONS).

However, in R1 Districts located in the #Special Natural Area District#-1 (NA-1), no modification of minimum required #lot area# as set forth in Section 23-32 (Minimum Lot Area or Lot Width for Residences) shall be allowed for any #development# pursuant to paragraph (c) of Section 78-311 (Authorizations by the City Planning Commission) or Section 78-32 (Bonus for Good Site Plan) but modifications of required #front# or #rear yards# and height and setback regulations on the periphery of such #zoning lot#, pursuant to paragraphs (c) and (d) of Section 78-312 (Special permits by the City Planning Commission), shall apply. Modification of #side yards# of all #zoning lots#, including #zoning lots# in R1 Districts, shall be subject to the provisions of Section 105-432 (Modification of yard, height and setback regulations, and parking location regulations).

Bonuses which may be granted for #large-scale residential developments#, pursuant to Section 78-32 through Section 78-35 (Special Bonus Provisions), may not be granted for #zoning lots# which have less than 10 acres and less than the number of #buildings# or number of #dwelling units# required by the definitions of a #large-scale residential development#.

Commonly or separately owned areas containing #natural features# may qualify as common #open space# for purposes of satisfying #open space# requirements.

Approval by the Commission of a development plan incorporating #natural features# as common #open space# shall be conditioned upon the findings required in Sections 78-313 (Findings) and 78-52 (Common Open Space) with respect to the

qualification of areas as common #open space# and upon additional findings that appropriate safeguards are provided for the protection and preservation of such #natural features#. In the case of #natural features# that are determined to have qualities of exceptional recreational, cultural or educational value to the public and that are directly accessible to the public from a public right-of-way, the applicant may request the City to take title or a less than fee interest in the property occupied by such a #natural feature# without any cost to the City or its designee for #use# and enjoyment by the public subject to the provisions of Section 105-60 (MAINTENANCE OF NATURAL FEATURES).

105-702 - Applicability of lower density growth management area regulations

LAST AMENDED
2/2/2011

The regulations for #developments# or #enlargements# within #lower density growth management areas# are modified as follows:

(a) Parking location regulations

#Accessory# parking spaces shall be permitted within a #front yard#.

(b) Private road regulations

The provisions of paragraph (b) of Section 105-35 (Tier II Requirements for Driveways and Private Roads) shall apply to #Tier II sites# accessed by #private roads#.

105-80 - JOINT APPLICATIONS

LAST AMENDED
12/19/1974

Notwithstanding the provisions of Section 78-06 (Ownership), a tract of land which is the subject of an application for authorizations or special permits under the provisions of this Chapter may include adjacent property in more than one ownership, provided that the application is filed jointly by the owners of all property included. Any subdivision of the tract reflecting ownerships at the time of application or creating new ownerships before, during or after #development# shall be subject to the provisions of Section 78-51 (General Provisions).

105-90 - FUTURE SUBDIVISION

LAST AMENDED
2/2/2011

Within a #Special Natural Area District#, any #zoning lot# existing on the effective date of the Special District designation may be subdivided into two or more #zoning lots#, provided that #natural features# are preserved to the greatest extent possible under future development options.

A plan for such subdivision shall be filed with the City Planning Commission and the Commission shall certify that such subdivision complies with this objective. The subdivision plan shall include a survey map indicating existing topography and other #natural features# within this area. When a #zoning lot#, existing on the effective date of the Special District designation, is more than 10 acres and is intended to be subdivided, an area plan of the entire #zoning lot# shall be filed with the Commission. The area plan shall include the proposed #street# system within the area, #block# layouts and any other information required by the Commission.

When any #zoning lot# is subdivided into two or more #zoning lots#, all resulting #zoning lots# that lie substantially within a #steep slope# area existing as of December 19, 1974, shall be subject to the #steep slope# provisions of Section 105-50 (REGULATIONS FOR PROTECTION OF NATURAL FEATURES) and all other provisions of this Chapter, as applicable.

In the event that #natural features# on any #zoning lot# subject to the provisions of Section 105-02 (General Provisions) proposed for subdivision have been removed, altered, relocated or replaced from the #zoning lot# without prior approval by the Commission, as set forth in Section 105-40 (SPECIAL REVIEW PROVISIONS), the Commission shall not approve the subdivision until violations are removed from the #zoning lot# in accordance with the Commission's requirements under Section 105-45 (Certification of Restoration Plans).

105-91 - Special District Designation on Public Parks

LAST AMENDED
2/2/2005

When a #Special Natural Area District# is designated on a #public park# or portion thereof, any #natural features# existing on December 19, 1974, within such area shall not be removed, destroyed or altered unless authorized by the City Planning Commission. As a condition for granting such authorization, the Commission shall find that any alteration of #natural features# is the least alteration required to achieve the purpose intended and such authorization is consistent with the intent of the #Special Natural Area District#.

105-92 - Special Provisions for City-owned Land

LAST AMENDED
2/2/2011

The provisions of Section 105-40 (SPECIAL REVIEW PROVISIONS) shall apply on City-owned land, except that modifications permitted under Section 105-44 (Special Permits) may be approved by the City Planning Commission.

Furthermore, provisions of Section 105-93 (Inter-agency Coordination) shall apply on City-owned land. However, the provisions of this Chapter shall not apply to any public improvement project approved by the Board of Estimate prior to the effective date of the Special District designation.

105-93 - Inter-agency Coordination

LAST AMENDED

Where an authorization or permit is required from the City Planning Commission pursuant to this Chapter and where a permit is required from the Departments of Transportation or Buildings for land contour work, by the Department of Environmental Protection for storm water drainage systems for #buildings# or adjacent areas or where construction of a public improvement project is undertaken by a City agency, the Department of City Planning and the agencies involved shall jointly determine the conditions under which such proposed #development#, #enlargement# or #site alteration# within a #Special Natural Area District# will best meet the purposes of the Special District. Applications for any required permit or authorizations shall be filed simultaneously with each agency requiring a permit.

105-94 - Special Natural Area Districts Specified

LAST AMENDED
5/21/1975

105-941 - Special Natural Area District-1:

LAST AMENDED

6/23/1977

Emerson Hill, Dongan Hills, Todt Hill, Lighthouse Hill and the Central Wetlands Area of Staten Island

The central, serpentine, hilly spine of Staten Island is composed of Emerson Hill, Dongan Hills, Todt Hill and Lighthouse Hill. These hills are richly endowed with steep slopes, rock outcrops, erratic boulders and ponds, lakes, swamps, creeks and many trees of the glaciated Oak-Chestnut association.

To the south and west of the serpentine hills are tidal wetlands, a habitat for marine life and water fowl. The wetlands include parts of Latourette Park, Fresh Kills Park and New Springville Park. The high and low wetlands of Latourette Park and New Springville Park and most of the low wetlands of Fresh Kills Park remain in their natural state. The purpose of this #Special Natural Area District# is to preserve and protect the aforementioned #natural features# pursuant to the provisions of this Chapter.

105-942 - Special Natural Area District-2:

LAST AMENDED

5/21/1975

Riverdale, Spuyten Duyvil and Fieldston, The Bronx

The Riverdale Ridge of The Bronx is composed of part of Riverdale, Spuyten Duyvil and Fieldston. This ridge contains steep slopes, rock outcrops, ponds, brooks, swampy areas and mature trees.

The western foot of the ridge contains marshes, feeding areas for water fowl. The shore line of the Hudson River estuary contains the aquatic food web necessary to sustain marine life.

The marshes and most of the Hudson River shore line are included in Riverdale Park. Much of the Riverdale Ridge and Riverdale Park are in their natural state. The purpose of this #Special Natural Area District# is to preserve and protect the aforementioned #natural features# pursuant to the provisions of this Chapter.

105-943 - Special Natural Area District-3:

LAST AMENDED

12/1/1977

Shore Acres Area of Staten Island

The Shore Acres area of Staten Island owes its unique character to Shore Acres Pond, which is fed predominantly by springs percolating from an underground aquifer through Pleistocene strata of sand and gravel.

The Pond is a resting place for migratory and local fowl as well as a watering hole for opossums which are abundant along the wooded cliffs of the Narrows. The Pond has shaped its built environment, including the street layout, landscaping and orientation of neighboring homes. The surrounding area is distinguished by rolling topography with orientation of the northeastern edge toward Lower New York Bay and the Narrows.

The natural drainage area is in need of protection to ensure survival and maintenance of the Pond which in turn is essential to the preservation of this special area.

105-944 - Special Fort Totten Natural Area District-4

LAST AMENDED

2/2/2011

(a) General purposes

The "Special Fort Totten Natural Area District"-4 (hereinafter referred to as the Special District), established in this Resolution, is designed to promote and protect public health, safety, general welfare and amenity. These general goals include, among others, the following general purposes:

- (1) to preserve, protect and enhance the combination of historically significant buildings and other structures, public open spaces, outstanding scenic views and pedestrian and vehicular circulation system which by their siting create a unique balance between buildings and open spaces and which, together with the harmonious scale of development and landscaping, add to the quality of life in the area;
- (2) to protect aquatic, biologic, geologic, topographic and other natural features having ecological and conservation values and functions;
- (3) to improve the quality of new development in the area by fostering the provision of specified public amenities and recreational facilities in appropriate locations and by making these facilities directly accessible to the public; and
- (4) to promote the desirable use of land improvements in accordance with the District Plan and in conformance with the character of the Fort Totten area and thus conserve the value of land and buildings and thereby protect the City's tax revenue.

(b) Definitions

(1) Designated open space

The "designated open space" is an #open space# as shown on the District Plan.

(2) Street

For the purpose of this Section, a "street" is a way existing within the #Special Fort Totten Natural Area District#-4 as shown on the District Plan (Appendix A) complying with the definition of #street# in Section 12-10, except that the #street# width shall be limited to existing dimensions. No modification of existing dimensions shall be permitted without prior certification of the City Planning Commission.

(c) General requirements

(1) Requirements for applications

An application to the Commission for any #development# within the Special District shall be subject to the requirements of Section 105-021 (Actions not requiring special review). In addition, an application for #development# within Area B shall include the existing and proposed site plan showing the location and the scale of the existing and proposed #buildings or other structures#, the location of all vehicular entrances and exits and off-street parking facilities, the changes that will be made in the location and size of the #open space#, and such other information as may be required by the Commission. The submission shall include a landscaping plan, #building# sections and elevation and an appropriate model of the planned community.

The Commission shall require, where relevant, a subdivision plan and, in the case of a site plan providing for common #open space# or common parking areas, a maintenance plan for such space or areas and surety for continued availability of such space or areas to the people they are intended to serve.

(2) Pier #development#

The Commission may permit, by special permit, pier #development#, only upon finding that the proposed #development# shall have no significant adverse impact on the Special District or surrounding environment. The Commission may prescribe appropriate conditions and safeguards to minimize possible adverse effects on the surrounding area.

(d) Special regulations

(1) Demolition

Except in Area E, no demolition permit or alteration permit for alterations which may affect the character or design of the facade of a #building or other structure# shall be issued by the Department of Buildings, except as permitted by the Commission, unless it is an unsafe #building or other structure# and demolition or alteration is required pursuant to the provisions of Chapter 26, Title C, Part I, Article 8, or its successor, of the New York City Administrative Code. An applicant for any such permit shall notify the Landmarks Preservation Commission of the application.

The Commission, by special permit, may allow:

- (i) the alteration of such #building or other structure#, provided that such alteration treatment of the facade relates harmoniously to the character and materials of the original facade and to the adjoining #buildings or other structures#; or
- (ii) the demolition of such #buildings or other structures#, other than those deemed unsafe as defined by the Department of Buildings, provided that the Commission finds that the existing #building or other structures# are not suitable for rehabilitation.

Where a #building or other structure# has been demolished pursuant to this Section, the Commission may, by special permit, allow the replacement of the demolished structure provided that the design of the new structure in terms of scale, #lot coverage#, #building# height and exterior treatment of the facade shall replicate as nearly as possible the design and site plan of the original #building#.

(2) Special height regulations

In order to preserve the unique character of the Special District and to protect the views of and to the water within the Special District, Section 23-631 (General provisions) shall apply except that the maximum height for any #development# or #enlargement# shall be 32 feet or three #stories#, whichever is less.

(3) Location of zoning district boundaries at the shore line

Zoning district boundary lines shall coincide with the shore line lawfully existing on April 28, 1983, or any natural or lawful alteration thereof.

A zoning district boundary line which intersects the shore line lawfully existing on April 28, 1983 shall be prolonged, in a straight line, to such naturally or lawfully altered shore line. Lawfully approved piers or other

lawfully approved structural extensions of the shore line, as may be so altered, shall not generate development rights.

(4) Designated open space

Any #development# or #site alteration# on a #zoning lot# which contains #designated open space# as shown on the District Plan, shall require certification by the Commission that such #designated open space# shall not be reduced in size or altered in shape and shall be preserved in its natural state by the owner of the #zoning lot#.

Planting, landscaping or provision of footpaths or sitting areas are permitted in any part of #designated open space#, provided that such improvements do not involve removal of trees or alteration of existing topography, and do not obstruct pedestrian movement within the public pedestrian ways.

#Designated open space# may be used for active recreational facilities provided that the Commission certifies that such #uses# have minimal impact on tree removal, topographic alteration or drainage conditions.

All #designated open spaces# shall be directly accessible to the public from public rights-of-way between dawn and dusk. A prominent plaque or other permanent #sign# shall be displayed on all #designated open spaces# in a prominent location, designated by the Commission, visible from the adjacent public right-of-way. Such plaque or permanent #sign# shall have a #surface area# of not less than three nor more than six square feet, and shall contain the following statement:

"This area is open to the public between sunrise and sunset."

(5) District plan

The District Map for the #Special Fort Totten Natural Area District#-4 identifies specific areas comprising the District Plan in which special zoning regulations carry out the general purposes of the #Special Fort Totten Natural Area District#-4. The District Plan is set forth in Appendix A and is made an integral part hereof. These areas and the specific paragraphs of this Section which contain regulations pertaining thereto are as follows:

Area A - Historic Fort Area, paragraph (d)(6)

Area B - Planned Community Area, paragraph (d)(7)

Area C – Water Related Area, paragraph (d)(8)

Area D - Bay Area, paragraph (d)(9)

Area E - Development Area, paragraph (d)(10)

(6) Historic Fort Area (Area A)

Within Area A (Fort Area) there shall be no #development# nor #enlargement# of existing #buildings or other structures# except that the Commission may authorize necessary renovation to protect existing structures. In all cases the Commission shall refer all applications to the Landmarks Preservation Commission and Department of Parks and Recreation or other City agencies with primary responsibilities in the conservation area, for its report thereon.

(7) Planned Community Area (Area B)

In order to protect the unique scale, character and design relationships between the existing #buildings# and public #open spaces# and parade grounds, no #development#, #enlargement# nor alteration of landscaping or topography shall be permitted, except as set forth herein and as provided by paragraph (d)(1) of this Section.

(i) Special permit

For any #development#, #enlargement# or alteration of landscaping or topography, the Commission may, by special permit, allow:

- (a) the unused total #floor area#, #dwelling units# or #rooming units# permitted by the applicable district regulations for all #zoning lots# within the development to be distributed without regard for #zoning# #lot lines#;
- (b) the total #open space# or #lot coverage# required by the applicable district regulations for any #zoning lot# within the development to be distributed without regard for #zoning# #lot lines#;
- (c) minor variations in the #yard# and #court# regulations required by the applicable district regulations;
- (d) minor variations in the height and setback regulations required by the applicable district regulations;
- (e) modifications of the minimum spacing requirements consistent with the intent of the provisions of Section 23-71 (Minimum Distance Between Buildings on a Single Zoning Lot);
- (f) permitted or required #accessory# off-street parking spaces to be located anywhere within the #development# without regard to #zoning# #lot lines#, or the provisions of Sections 25-621 (Location of parking spaces in certain districts) and 25-631 (Location and width of curb cuts in certain districts), subject to findings of Section 78-41 (Location of Accessory Parking Spaces), or where such requirement substantially injures the functioning of the existing area, authorize waiver of all or part of the required parking.

(ii) Findings

As a condition precedent to the granting of a special permit under the provisions of paragraph (d)(7)(i) of this Section, the Commission shall make the following findings:

- (a) that the #development#, #enlargement# or said alteration is related to the existing #buildings# or other structures# in the Planned Community Area (Area B) in scale and design, and that the #development# will not seriously alter the scenic amenity and the environmental quality of the area;
- (b) that the #development# or #enlargement# be sited in such a manner as to preserve the greatest amount of #open space# and landscaping that presently exists, consistent with the scale and design of the existing #buildings# and the landscaping surrounding the new landscaping arrangement and conditions of the community;
- (c) that the #development# or #enlargement# is sited such that it will not require at the same time, or in the foreseeable future, new access roads or exits, off-street parking or public parking facilities that will disrupt or eliminate major portions of #open space# and landscaping or will generate large volumes of traffic which will diminish the environmental quality of the community;

- (d) that minimal landscaping is to be removed during construction and such areas will be fully restored upon completion of construction.

The Commission may prescribe appropriate conditions and safeguards, including covenants running with the land which shall permit public or private enforcement reflecting terms, conditions, and limitations of any special permit hereunder to minimize adverse effects on the character and quality of the community.

- (iii) Parade ground

Unless ownership is retained in a governmental agency, the parade ground #designated open space# shall be commonly owned with a #zoning lot# within Area B or Area E and the maintenance of the parade ground shall be the collective responsibility of said owner or owners. The parade ground shall be used for open recreational #uses# and may contain minor #accessory# structures to said #use#. The parade ground shall be directly accessible from the adjoining #streets# along its entire perimeter. There shall be no fences nor walls around or within the parade ground.

- (8) Water Related Area (Area C)

In order to protect the unique aquatic and botanic characteristics of the area, there shall be no #development# in Area C except as provided by paragraph (d)(1) of this Section.

Part I:

Certain botanic terms referred to in the text and Part II of this Appendix are explained below:

A "tree" is any woody plant with one trunk rising out of the earth and root system, from which branches then spring, usually at some distance from the earth. A tree may be deciduous or coniferous.

A "shrub" is a woody plant that has one or more trunks rising from the same root system instead of a single trunk. These trunks or stems may or may not branch at some distance from the earth. A shrub may be deciduous or coniferous.

A "herb" is a non-woody plant with a fleshy stem which dies back to the earth level at the end of the growing season. It may be annual, biennial, or perennial.

A "vine" is a woody plant whose trunk or stem must be supported by the general environment or other plants. It is unable to stand on its own.

A "grass" is a family of herbaceous plants, rarely woody, with hollow round stems.

An "annual" is a plant which completes its life cycle in the space of one growing season, that is, it goes from seed to full plant and flower and sets seed in a single season.

A "biannual" is a plant which requires two years to grow from seed to mature plant capable of producing seed and then dies.

A "perennial" is a plant which lives more than one or two years and usually produces seeds for more than a few years.

A "fern" is a perennial, flowerless plant which reproduces by spores.

An "association" is a grouping of many plant species over a wide area sharing a common habitat and similar geographic conditions.

A "community" is a series of plants, animals, algae, fungi, grasses, trees, shrubs, herbs and other life forms which characteristically grow and live together in harmony, creating a balanced biological environment.

Part II:

Description of Natural Features defined in Section 105-10 (NATURAL FEATURES):

(a) Geologic features

(1) Rock outcrop

A rock outcrop shows the type of rock underlying the area, the results of surface abrasion by glacier, waterborne or windborne matter, or the results of chemical or temperature weathering.

(2) Geologic deposits

Geologic deposits include:

Soils of different origins such as loess and mineral deposits such as artinite, garnets, zircon, topaz, beryl, tourmaline, algite, tremolite, serpentine, muscovite, amethyst, peridot, jadeite, geodes and other elements of the Precambrian, Ordovician, Triassic, Cretaceous, Pleistocene and Holocene geology found in New York City.

An erratic boulder is a relatively large mass of rock which has been moved significant distances from its parent rock to be left amidst a geologic area which has a different history and origin than the parent.

(b) Topographic features

(1) #Steep slope#

A #steep slope# includes ground formation with sharp inclines such as hills and palisades.

(2) Existing natural topography

Existing natural topography includes terrain other than #steep slope# areas.

(3) #Topsoil#

#Topsoil# includes all of the A horizon, specifically, from top to bottom: the A1 litter layer where organic material, such as leaves and animal matter accumulate; the A2 fermentation layer where organic material is decomposed by fermentation, fungi, bacteria and soil organisms; the A3 humic layer where humus, resulting from the decomposition process, lies; and the B1 mixing layer where the humic substances become mixed with mineral matter.

For any #development# containing #residential uses#, the Department of Buildings shall be in receipt of a certification from the Chairperson of the City Planning Commission which certifies that sufficient #school# capacity exists to accommodate the anticipated primary and intermediate public school children of the #development#. All applications for certification pursuant to this Section shall be referred by the Chairperson of the Commission to the Board of Education.

The Board of Education shall issue a report concerning the availability of #school# capacity within 60 days after receipt of the application. The Chairperson of the Commission shall respond within 90 days after receipt of an application. The report shall specify the following:

- (a) whether or not #school# space is available;
- (b) if #school# space is not available, the report shall include:
 - (1) the number of seats required;
 - (2) the grade organization;
 - (3) the location of the #school#;
 - (4) the size of #school# (sq. ft. per pupil); and

(5) the proposed financing mechanism.

For the purposes of this Section, sufficient #school# capacity shall be deemed to exist if:

- (1) such capacity is available in existing #schools#; or
- (2) construction funds have been authorized in the Capital Budget to accommodate anticipated primary and intermediate public school children from the #development# upon its completion or within three years from the date of the Chairperson's certification; or
- (3) sufficient #school# space is to be provided by the applicant under a plan jointly approved by the Chairperson of the Commission and Board of Education.

After approval of the Chairperson of the Commission and Board of Education of the applicant's plan to provide the #school# #building#, the certification may be granted either upon approval of a financial agreement by the Board of Estimate or such guarantee of construction with provision for future #school# occupancy as may be accepted by the Board of Education and the Chairperson of the Commission.

However, the Chairperson of the Commission may grant such certification if capacity is not currently available and the Board of Education after consulting with the Community School Board determines that the impact from the #development# will have a minimal effect on the concerned #schools# and includes such statement in their report.

A certification by the Chairperson of the Commission that sufficient capacity will be available in the public #schools#, as set forth in the above circumstances, shall automatically lapse if substantial construction of the foundations of the #development# in accordance with approved plans has not been completed within one year from the date of such certification.

No certification concerning the availability of #school# capacity shall be required for any #development# within a predominantly built up area or within an area for which #drainage schemes# were approved prior to January 1, 1975. For the purposes of this Chapter, a "predominantly built up area" is a #block# having a maximum of four acres which is #developed# with #buildings# on #zoning lots# comprising 75 percent or more of the area of the #block#. All such #buildings# shall have a certificate of occupancy or other evidence acceptable to the Commissioner of Buildings issued not less than three years prior to the date of application for a building permit.

107-20 - DISTRICT PLAN ELEMENTS

LAST AMENDED
8/18/1983

All land in the #open space network# as shown on the District Plan (Map 3 in Appendix A), except #public parks#, is subject to the provisions of this Section.

107-21 - Modification of Designated Open Space

LAST AMENDED
8/18/1983

The City Planning Commission may adjust the boundaries of a #designated open space# on a #zoning lot# provided that such adjustment will not place the new boundary closer than 60 feet to a watercourse. As a condition for such adjustment in the boundaries, the Commission shall find that:

- (a) such adjustment shall:

- (1) result in a substantial improvement in the quality and usefulness of the #designated open space#; and
 - (2) permit #development# which better satisfies the purpose of this Chapter and include new features in the #designated open space# which will be at least equal in quality to those which are displaced from it; and
 - (3) provide an equivalent area replacement for the area removed from the #designated open space#; or
- (b) such adjustment shall:
- (1) be permitted to exclude:
 - (i) a #zoning lot# which is contiguous to exempted #zoning lots# along at least two #lot lines#; or
 - (ii) a #zoning lot# which would otherwise be contiguous to exempted #zoning lots# along at least two #lot lines# but for the separation by a #street#; or
 - (iii) #streets# #abutting# exempted #zoning lots#; and
 - (2) not substantially alter the utility and quality of the #designated open space#; or
- (c) such adjustment shall:
- (1) be in conjunction with a public improvement project approved by the City prior to September 11, 1975, for funding to exclude in whole or in part the bed of a mapped #street# and/or adjacent #zoning lots# or portions thereof; and
 - (2) not substantially alter the utility and quality of the #open space network#; or
- (d) such adjustment shall:
- (1) exclude, in whole or in part, private property contiguous with a #public park# which has been mapped since September 11, 1975; and
 - (2) not preclude the continuity to the #designated open space# or the public pedestrian way or the #waterfront esplanade#; and
 - (3) not substantially alter the utility and quality of the #designated open space#.

107-22 - Designated Open Space

LAST AMENDED
9/11/1975

Any #development# or #site alteration# on a #zoning lot# which contains #designated open space# as shown on the District Plan (Map 3 in Appendix A), shall require certification by the City Planning Commission that:

- (a) such #designated open space# shall be preserved in its natural state by the owner of the #zoning lot#; and
- (b) where required by the Commission, the applicant has complied with the provisions of Section 107-222 (Public pedestrian ways); and
- (c) where required by the Commission, as indicated on the District Plan, that the applicant has complied with Section 107-23 (Waterfront Esplanade).

Within any #designated open space#, removal of trees, alteration of topography, #development# of active recreational facilities or utility easements may be undertaken only in accordance with the provisions of this Section and Section 107-30 (TOPOGRAPHIC AND TREE REGULATIONS).

Planting, landscaping or provision of footpaths or sitting areas are permitted in any part of #designated open space#, provided that such improvements do not involve removal of trees or alteration of existing topography, and do not obstruct pedestrian movement within the public pedestrian ways.

107-221 - Active recreational facilities

LAST AMENDED

2/2/2011

#Designated open space# may be used for active recreational facilities provided that the City Planning Commission certifies that such #uses# are compatible with the purposes of the network #open space# and have minimal impact on tree removal, topographic alterations or drainage conditions.

Active recreational facilities may include swimming pools, tennis courts or facilities and equipment normally found in playgrounds, and shall comply with the #use# regulations of the underlying district.

In the development of active recreational facilities, no individual trees of six-inch caliper or more shall be removed except by special authorization of the Commission in accordance with the provisions of Sections 107-64 (Removal of Trees) or 107-65 (Modification of Existing Topography). Active recreational facilities shall not be allowed within 60 feet of any watercourse in #designated open space# unless the Commission certifies that a location closer to such watercourse will not adversely affect the natural character of the watercourse or its drainage function. The Commission, where appropriate, shall be guided by the reports from other City agencies involved in land contour work, storm water drainage systems or similar operations.

If the City of New York acquires an easement for public access to any #designated open space# on which a #building# has been, is being or could be in the future, constructed in accordance with the provisions of this Chapter, the City's acquisition of an easement shall not affect the qualifications of the #designated open space# for satisfying #lot area# requirements, #yard# requirements, #floor area# or #lot coverage# restrictions or #open space# requirements as provided in Section 107-224 (Qualification of designated open space as lot area for bulk computations) and shall not be deemed to create a #non-compliance#.

107-222 - Public pedestrian ways

LAST AMENDED

2/2/2011

For any #site alteration# or #development# on a #zoning lot# which contains #designated open space#, the City Planning Commission shall certify whether or not the applicant shall be required to provide a public pedestrian way through a portion of the #designated open space#.

When a public pedestrian way is required, it shall be built and maintained by the owner of the #zoning lot# and shall be accessible to the public at all times. The public pedestrian way shall be improved at the time the #site alteration# or #development# takes place, except that for #site alterations# or #developments# on a tract of land less than 1.5 acres, the Commission may allow the applicant to delay the construction of the public pedestrian way if the applicant complies with Section 107-24 (Performance Bond).

The location and dimension of such pedestrian way shall be determined by the Commission. The owner of the #zoning lot# may request the City to take an easement on the property. If the City of New York acquires an easement for public access to any #designated open space# on which a #building# has been, is being or could be in the future, constructed in accordance with the

provisions of this Chapter, the City's acquisition of an easement shall not affect the qualifications of the #designated open space# requirements as provided in Section 107-224 (Qualification of designated open space as lot area for bulk computations) and shall not be deemed to create a #non-compliance#.

107-223 - Permitted obstruction in designated open space

LAST AMENDED

4/30/2012

The following shall not be considered as obstructions when located in #designated open space#:

- (a) Awnings and other sun control devices, pursuant to Section 23-44 (Permitted Obstructions);
- (b) Balconies, unenclosed, subject to the provisions of Section 23-13;
- (c) Eaves, gutters or downspouts projecting into such #designated open space# not more than 16 inches;
- (d) Fences or walls, conditioned upon certification by the City Planning Commission that:
 - (1) such fences or walls will not obstruct or preclude public access or circulation of pedestrians, cyclists or horseback riders through the public easement within #designated open space#; and
 - (2) the location, size, design and materials of such fences or walls are appropriate to the character of the #designated open space#;
- (e) Exterior wall thickness, pursuant to Section 23-44;
- (f) Solar energy systems on walls existing on April 30, 2012, projecting no more than 10 inches and occupying no more than 20 percent of the surface area of the #building# wall (as viewed in elevation) from which it projects.

No #accessory# off-street parking facilities shall be permitted in #designated open space#. No #building or other structure# shall be erected in #designated open space# except as permitted by the provisions of Section 107-221 (Active recreational facilities). Any existing #building or other structure# located within the #designated open space# on September 11, 1975, and not complying with the provisions of this Section or the other Sections specified in the preceding paragraph, shall not be #enlarged# but may be continued as a #non-conforming# #use# or #non-complying# #building# subject to the applicable provisions of Article V (Non-conforming Uses and Non-complying Buildings) in accordance with the underlying district regulations.

107-224 - Qualification of designated open space as lot area for bulk computations

LAST AMENDED

2/2/2011

#Designated open space# on a #zoning lot# may count as #lot area# for the purposes of the applicable regulations on #yards#, #floor area ratio#, #open space ratio#, #open space#, #lot coverage#, #lot area# or density, provided that the area of the #designated open space# claimed as #lot area# does not exceed the area of the #zoning lot# located outside the designated space. For a #single-family residence#, any portion of a #zoning lot# occupied by #designated open space# shall count as #lot area# for the purposes of satisfying minimum density requirements only pursuant to this Section.

Where the area of the #designated open space# claimed as #lot area# exceeds the above permitted amount, the provisions of Section 107-72 (Qualification of Designated Open Space as Lot Area) shall apply.

Any #designated open space#, or portion thereof, claimed as required #open space# or used to satisfy the #lot coverage#

restrictions for a #development# containing #residences# shall be accessible to and usable by all residents of the #zoning lot#.

In the case of a #large-scale residential development#, any #designated open space#, or portion thereof, that qualifies as #lot area# may be used as common space.

107-225 - Special bulk regulations for developments containing designated open space

LAST AMENDED

2/2/2011

This section shall apply to any tract of land containing #designated open space# that is #developed# as a unit in single ownership and where the area of the #designated open space# claimed as #lot area# for zoning computation does not exceed the area of that portion of the tract of land not located within #designated open space#. Such a tract of land may contain a single #zoning lot# or two or more #zoning lots# which are contiguous or would be contiguous except for their separation by a #street#.

In all #Residence Districts#, except R1-1 Districts, for all permitted #residential uses# on such tract of land, the total #floor area# or #dwelling units# generated by that portion of the #designated open space# claimed as #lot area# by the applicable district regulations may be distributed without regard for #zoning# #lot lines#, for all #zoning lots# wholly within such tract of land. The total #open space# required or #lot coverage# permitted for such tract of land may be located anywhere within the tract of land without regard for #zoning lot# #lines#.

No transfer of #floor area# or #dwelling units# shall be permitted from a #zoning lot# not containing any #designated open space#.

The site plan and #bulk# distribution for the entire tract of land shall be recorded in the land records and indexed against all #zoning lots# in such tract of land.

Furthermore, the minimum #lot area# and #lot width# regulations, #yards# and spacing between #buildings# regulations shall not apply along portions of #streets# or #lot lines# wholly within such tract of land, provided that:

- (a) the maximum #lot coverage# on any #zoning lot# shall not exceed 50 percent of the #lot area#;
- (b) the minimum distance between #buildings# on the same or adjacent #zoning lots# across a common #side lot line# is not less than 10 feet; and
- (c) the minimum distance between #buildings# on adjacent #zoning lots# across a common #rear lot line# shall not be less than 40 feet.

107-226 - Zoning lots entirely or substantially within designated open space

LAST AMENDED

2/2/2011

When a #zoning lot# owned separately or individually from all adjoining #zoning lots# prior to January 2, 1975, is located entirely or substantially within #designated open space# and no reasonable development is possible on the #zoning lot#, the owner may request the City to provide, in exchange, a City-owned #zoning lot#.

The #zoning lots# may be exchanged only after an appraisal made by a body consisting of the following:

- (a) one independent fee appraiser appointed by the City;
- (b) one independent fee appraiser appointed by the private property owner, which appraiser may be the same as in paragraph

(a) of this Section; and

- (c) if needed to resolve a disagreement between the two appraisers appointed in paragraphs (a) and (b), one independent fee appraiser chosen by mutual agreement between the two individually appointed appraisers.

Such requests for exchange shall be filed by the owner of the #zoning lot# with the City Planning Commission.

If such exchange of #zoning lots# is not feasible under this Section or Section 384-7.0 of the New York City Administrative Code, the City may either acquire such #zoning lot# or permit development to proceed thereon with the minimal modification of the #designated open space# necessary to permit #development# containing #residences#.

107-23 - Waterfront Esplanade

LAST AMENDED

2/2/2011

When a #zoning lot# containing a portion of the #waterfront esplanade#, as shown on the District Plan (Map 3 in Appendix A) is #developed#, the location and design of the #waterfront esplanade# shall be certified by the City Planning Commission and such #waterfront esplanade# shall conform to the guidelines and standards established by the Department of City Planning in consultation with the Department of Transportation and the Department of Parks and Recreation.

The #waterfront esplanade# shall be built and maintained by the owner of a #zoning lot# on which the esplanade is shown on the District Plan, except where such #zoning lot# has been #developed# prior to September 11, 1975. Where such #waterfront esplanade# is not accessible to the public, the Commission may require the owner of the #zoning lot# to provide public access to such a #waterfront esplanade# from a public right-of-way through the #zoning lot#.

The #waterfront esplanade# shall be either built at the same time that the #zoning lot# is #developed# or the Commission may allow the owner to comply with Section 107-24 (Performance Bond).

The owner of a #zoning lot# may request the City to take an easement on the property. If the City of New York acquires an easement for public access to any #designated open space# on which a #building# has been, is being or could be in the future constructed in accordance with the provisions of this Chapter, the City's acquisition of an easement shall not affect the qualifications of the #designated open space# for satisfying #lot area# requirements, #yard# requirements, #floor area# or #lot coverage# restrictions or #open space# requirements as provided in Section 107-224 (Qualification of designated open space as lot area for bulk computations) and shall not be deemed to create a #non-compliance#.

107-24 - Performance Bond

LAST AMENDED

2/2/2011

When the provision of the required improvement is to be delayed for a period not to exceed five years from the date of the City Planning Commission certification, the owner of the #zoning lot# shall, prior to obtaining any certificate of occupancy, provide to the Comptroller of the City of New York a performance bond or City securities to ensure the future provision of either the #waterfront esplanade# or the public pedestrian way.

When the required improvement has been constructed, the Comptroller of the City of New York may release the bond or City securities posted to ensure such construction, provided an amount of the bond or City securities to ensure maintenance of the improvement, as set forth in the paragraph above, remains with the Comptroller.

The value of the bond or City securities tendered to ensure the future provision of the improvement shall be at the rate of \$400

per 100 square feet of #waterfront esplanade# and at \$200 per 100 square feet of public pedestrian way, if such bond or securities are tendered prior to January 1, 1980.

At five year intervals after January 1, 1980, the Commission, with the approval of the Board of Estimate, shall establish the new rates for the future provision (and maintenance) of the improvement.

107-251 - Special provisions for arterials

LAST AMENDED

2/2/2011

Along those #streets# designated as #arterials#, the following regulations shall apply:

(a) Access restrictions

Curb cuts are not permitted along an #arterial street# on #zoning lots# with access to a non-#arterial street#. For #zoning lots# with access only to an #arterial street#, one curb cut is permitted along such #arterial street#. For purposes of this Section, adjoining #zoning lots# in the same ownership shall be treated as one #zoning lot#. Such access restrictions with regard to curb cuts shall not apply to #schools#, hospitals and related facilities, police stations or fire stations.

For #zoning lots# with access only to a #arterial street#, the City Planning Commission may, by certification, approve additional curb cuts for access to such #arterial street# when necessary to avoid adverse effects on the traffic flow of the #arterial#.

For #zoning lots# with access to both #arterial# and non-#arterial streets#, the Commission may authorize one or more curb cuts on the #arterial street#, pursuant to the provisions of Section 107-68 (Modification of Group Parking Facility and Access Regulations).

(b) #Building# setback

Along portions of the #arterials#, as indicated on the District Plan, a 20 foot #building# setback shall be provided for the full length of the #front lot line# #abutting# such #arterial#. The front #building# setback area shall be unobstructed from its lowest level to the sky except as permitted by this Section. Where a front #building# setback area at least 35 feet in depth is provided, such setback area may be used for required #accessory# off-street parking or loading facilities. No portion of such required setback area may be used for open storage.

In the case of the service roads of the West Shore Expressway, a 30 foot #building# setback shall be provided and required off-street parking and loading facilities are permitted within such setback. Within the required front #building# setback, there shall be provided one tree of three-inch caliper or more, pre-existing or newly planted, for each 400 square feet of such front open area. The trees shall be selected in accordance with the table set forth in Appendix B.

107-252 - Special provisions for park streets

LAST AMENDED

2/2/2011

For those #streets# designated as #park streets#, the following regulations shall apply:

(a) Access restrictions

No curb cuts are permitted on such #streets# except that one curb cut is permitted for any #residential#, #community facility# or #commercial# #use# whose #zoning lot# has frontage only on a #park street#. For purposes of this Section, adjoining #zoning lots# in the same ownership shall be treated as one #zoning lot#.

For #zoning lots# with access to both #park streets# and non-#park streets#, the City Planning Commission may

authorize one or more curb cuts on the #park street#, pursuant to the provisions of Section 107-68 (Modification of Group Parking Facility and Access Regulations).

(b) Landscaping

One tree of at least three inch caliper, pre-existing or newly planted, shall be provided for each 400 square feet of area of the #street# sidewalk area. Trees shall be selected in accordance with the table set forth in Appendix B and shall be planted in the #street# sidewalk area.

(c) Development and maintenance responsibility

The owner of each #development# abutting a #park street# shall have responsibility for landscaping and maintenance of that portion of the #park street# located between the #front lot line# and the curb.

Alternatively, maintenance responsibility may be vested in a properly constituted Home Association or other organization established for this purpose. Those segments of a #park street# which are abutted by land #developed# prior to the effective date of the Special District designation shall be #developed#, landscaped and maintained by the City of New York.

107-253 - Building setbacks along railroad rights-of-way

LAST AMENDED

9/11/1975

For all #developments# on #zoning lots# immediately adjacent or directly opposite to the Staten Island Rapid Transit right-of-way, a #building# setback of at least 20 feet in depth, unobstructed from its lowest level to the sky, except as permitted herein, shall be provided along the #lot line# adjacent to or directly opposite the right-of-way of such railroad. Such #building# setback shall be measured perpendicular to such #lot line#, as indicated on the District Map. Within such #building# setback area, there shall be provided one tree of three-inch caliper or more, pre-existing or newly planted, for each 400 square feet of such open area. The trees shall be selected in accordance with the table set forth in Appendix B.

107-30 - TOPOGRAPHIC AND TREE REGULATIONS

LAST AMENDED

9/11/1975

107-31 - Topographic Regulations

LAST AMENDED

9/11/1975

Except for any existing topographic feature which is unsafe and the removal of which is required by the Department of Buildings to eliminate hazardous conditions, no topographic modifications may take place except as provided in this Section or as authorized by Section 107-65.

107-311 - Areas within designated open space

LAST AMENDED

9/11/1975

Within #designated open space# on a #zoning lot#, any #site alteration# shall be permitted only by authorization of the City Planning Commission pursuant to Section 107-65 (Modifications of Existing Topography).

107-312 - Areas not within designated open space

LAST AMENDED

2/2/2011

On any portion of a #zoning lot# not within #designated open space#, alteration of topography shall be permitted only in accordance with the provisions of this Section.

The ground elevation of land existing on September 11, 1975, may be modified by up to two feet of cut or fill, provided that such modification shall not result in the destruction of trees of six-inch caliper or more, unless authorized pursuant to other provisions of this Chapter. Modification of topography to a greater extent is permitted:

- (a) in an area designated for #building# foundations, driveways or utilities for a proposed #building or other structure# whose location is approved by the Department of Buildings in accordance with the provisions of this Chapter; and
- (b) in order to meet the legal mapped grades of a #street#, the existing topography of that portion of the #zoning lot# abutting such #street# may be modified to create a slope on the #zoning lot# of not less than one foot vertical to each two feet horizontal provided the slope is landscaped to prevent erosion.

Topographic modifications not permitted by the provisions of this Section may be permitted only by authorization of the City Planning Commission, pursuant to the provisions of Section 107-65.

107-32 - Tree Regulations

LAST AMENDED

4/5/1979

The following regulations in Sections 107-321 through 107-323, inclusive, shall not apply to existing trees which are unsafe and the removal of which is required by the Department of Buildings.

107-321 - Tree preservation

LAST AMENDED

2/2/2011

No trees of six-inch caliper or more shall be removed, or land operations affecting their survival undertaken, in connection with any #site alteration# or #development#, except in compliance with the provisions of this Section.

Prior to any such removal or land operations, plans shall be filed with the Department of Buildings showing the locations of all trees of six-inch caliper or more on the #zoning lot# and in the public sidewalk area of the #street# or #streets# adjacent thereto, and identifying those which are proposed to be removed. Removal of live trees of six-inch caliper or more will be permitted only under the following circumstances:

- (a) where such trees are located in areas to be occupied by #buildings#, driveways, areas for required #accessory# parking, or within a distance of eight feet of the exterior walls of such #building#, provided that it is not possible to avoid such removal by adjustments in the arrangement of such #buildings#, driveways or required parking areas;
- (b) where the continued presence of such trees would create special hazards or dangers to persons or property, which it

would not be possible or practical to eliminate by pruning;

- (c) where continued presence of the trees would interfere with another tree of six-inch caliper or more designated for preservation and belonging to a species listed in Appendix B (Tree Selection Tables); or
- (d) where authorizations granted by the City Planning Commission under the provisions of this Chapter require or clearly contemplate the removal of such trees.

If an existing tree of six-inch caliper or more identified for preservation is removed without prior approval by the Department of Buildings or the City Planning Commission, any permit issued by the Department of Buildings for a #site alteration#, #development# or any #use# on the #zoning lot# shall be revoked.

In order to remove such violations, the owner of the #zoning lot# shall request the Commission to specify the tree restoration requirements and to certify such requirements to the Department of Buildings.

No building permit, reinstatement of such permit or issuance of a certificate of occupancy shall occur until the owner of the #zoning lot# either posts with the Comptroller of the City of New York a landscaping performance bond in an amount determined by the Commission or completes the replanting in accordance with the requirements set forth by the Commission in order to correct the planting violations.

Replacement trees to be planted shall be of a caliper no less than three inches and be of a species listed in Appendix B and the sum of whose calipers shall be at least equivalent to that of the trees removed.

In addition, the Commission may require a restrictive declaration specifying the terms of implementing the restoration plan.

Where on-site planting of such replacement trees would result in over crowding or would adversely affect the ecology of the site, the Commission may authorize planting of one or more replacement trees on adjoining public sidewalks or in a nearby public area or substituting other planting material pursuant to Section 107-323.

107-322 - Tree requirements

LAST AMENDED
2/2/2011

New trees shall be provided in accordance with the table set forth in Appendix B. For any existing tree of at least six-inch caliper which is preserved, credit for one tree shall be given for the first six inches of caliper and, for each additional four inches of caliper, credit for an additional tree shall be given.

- (a) On site

In connection with any #development#, #site alteration# or #enlargement# involving the addition of at least 1,000 square feet of #floor area#, trees of at least three-inch caliper, pre-existing or newly planted, shall be provided on the #zoning lot# at the rate of one tree for each 1,000 square feet of #lot area# or portion thereof.

- (b) Planting for open parking areas

Any #development# with open off-street parking areas with 10 spaces or more shall be subject to the tree planting and screening requirements of Section 107-483.

107-323 - Substitution of other plant materials

LAST AMENDED
9/9/1999

For any #development#, #site alteration# or #enlargement# which is required to provide trees in accordance with the provisions of paragraph (a) of Section 107-322, the City Planning Commission may allow the substitution of other plant material for such required trees, provided a detailed landscaping plan is filed with the Commission for approval and certification. A copy of such approved landscaping plan shall be filed with the Department of Buildings by the Commission.

107-33 - Preservation of Natural Features

LAST AMENDED
8/12/2004

For any #development# or #enlargement#, the Chairperson of the City Planning Commission may modify the applicable regulations governing the location of required parking spaces, driveways and curb cuts where the Chairperson certifies to the Commissioner of Buildings that such modifications are necessary so as to avoid the destruction of existing topography and trees of six-inch caliper or more.

- (3) such modification results in the maximum preservation of trees;
- (4) there is an agreement which provides access for maintenance of the #building# wall located on the #lot line#; and
- (5) a condition to the grant of any certification shall be that the requirements of Section 107-92 (Recordation) have been satisfied.

LAST AMENDED

(a) Tree planting requirements

One tree, of three inch caliper or more, pre-existing or newly planted, shall be provided for each four parking spaces. Such trees may be located in the perimeter landscaped area of the parking area or in planting islands within the parking area.

However, where 30 or more parking spaces are provided, at least 50 percent of the required trees shall be located within planting islands within the parking area. Such planting islands shall have a minimum area of 150 square feet of pervious surface and comply with the requirements of paragraphs (a), (b) and (c) of Section 37-922 (Interior landscaping).

(b) Screening requirements

The parking area shall be screened from all adjoining #zoning lots# by a landscaped area at least four feet in width, densely planted with shrubs maintained at a maximum height of three feet. Such parking area shall also be screened from all adjoining #streets# by a perimeter landscaped area at least seven feet in width. Such perimeter landscaped area may be interrupted only by vehicular entrances and exits. Sidewalks that provide a direct connection between the public sidewalk and a pedestrian circulation route within the parking area may also interrupt a perimeter landscaped area.

In addition, such screening shall be maintained in good condition at all times and may be interrupted by normal entrances and exits.

(c) Planting Waiver

Tree planting and screening requirements may be waived if the Commissioner of Buildings certifies that planting is unfeasible due to:

- (1) unique geological conditions, such as excessive subsurface rock conditions or high water table;
- (2) underground municipal infrastructure; or
- (3) a City, State or Federal mandated brownfield remediation that requires the site to be capped.

Such waiver shall be based on a report prepared by a licensed engineer that such conditions exist.

For #developments# in #Residential Districts#, trees provided in accordance with the provisions of this Section may be counted for the purposes of meeting the requirements of Section 107-322, paragraph (a). Furthermore, for #developments# in #Commercial# or #Manufacturing Districts# which provide trees in accordance with the provisions of this Section, the requirements of Section 107-322, paragraph (a), shall not apply.

- (f) where plant material is substituted for required trees as set forth in Section 107-323 (Substitution of other plant materials);
- (g) when #development# takes place within areas D, F, or K, as set forth in Section 107-02 (General Provisions); or

107-60 - AUTHORIZATIONS

LAST AMENDED
9/11/1975

107-61 - General Provisions

LAST AMENDED
11/15/2006

On application, the City Planning Commission may grant authorizations for modifications of specified regulations of this Chapter or of the underlying districts in accordance with the provisions of Sections 107-62 to 107-69, inclusive, relating to authorizations.

The Commission may prescribe appropriate conditions and safeguards in connection with the grant of such authorizations.

107-62 - Yard, Court and Parking Regulations

LAST AMENDED
2/2/2011

For any #zoning lots#, the City Planning Commission may authorize variations in the #yard# or #court# regulations as set forth in Section 107-46 or in the location of parking, driveway or curb cut regulations as set forth in Sections 23-44 (Permitted Obstructions in Required Yards or Rear Yard Equivalents), 25-621 (Location of parking spaces in certain districts), 25-622 (Location of parking spaces in lower density growth management areas) and 25-631 (Location and width of curb cuts in certain districts) for the purpose of allowing proper arrangements of #buildings#, driveways or required parking areas so as to avoid the destruction of existing topography and individual trees of six-inch caliper or more. #Rear yard#, #side yard# or #side yard# equivalent variations shall not be authorized on the periphery of a #development# unless acceptable agreements are jointly submitted for #development# of two or more adjacent #zoning lots# by the owners thereof, incorporating the proposed #yard# or #side yard# equivalent variations along their common #lot lines#.

As a condition for granting such authorizations, the Commission shall find that the proposed placement of #buildings# and arrangement of #open spaces# will not have adverse effects upon light, air and privacy on adjacent #zoning lots#.

107-63 - Minimum Distance Between Buildings

LAST AMENDED
2/2/2011

For any #development# containing #residences#, the City Planning Commission may authorize the location of #buildings#, on a

single #zoning lot# without regard for spacing between #buildings# regulations, provided that the resultant spacing will not be reduced beyond an amount considered appropriate by the Commission and in no case by more than 15 percent of that required by Section 23-71 (Minimum Distance Between Buildings on a Single Zoning Lot).

107-64 - Removal of Trees

LAST AMENDED
9/11/1975

For any #development#, the City Planning Commission may authorize the removal of trees of six-inch caliper or more whose removal would otherwise be prohibited under the provisions of Section 107-32 (Tree Regulations), provided that the Commission makes one or more of the following findings:

- (a) that the tree's retention would cause serious disadvantage in the arrangement of open areas on the lot, impairing the usefulness of such areas;
 - (b) that such tree is located in an area where more than two feet of cut or fill is required and measures for saving the tree would be extremely difficult and impractical; or
 - (c) that provision of a segment of the #waterfront esplanade# is not feasible without such tree's removal.
-

107-65 - Modifications of Existing Topography

LAST AMENDED
2/2/2011

For any #development# or #site alteration#, the City Planning Commission may authorize modifications of the natural topography existing on September 11, 1975, beyond the amount specified in Section 107-31 (Topographic Regulations), provided that the Commission finds that:

- (a) #development# on the #zoning lot# is not feasible without such modifications;
- (b) such modification of topography is necessary to accommodate public amenities, such as public pedestrian ways, the #waterfront esplanade# or active recreational facilities within a #designated open space# as required under the provisions of this Chapter;
- (c) such modification will not cause unnecessary disturbance of the drainage pattern in the area; and
- (d) such modified topography will have minimal impact on the existing natural topography of the surrounding area and will blend harmoniously with it.

Where a permit for land contour work or topographic modification is required from the Department of Transportation or the Department of Buildings, the City Planning Commission and other such agencies shall jointly determine the conditions under which such topographic modification may be permitted so as best to serve the purposes of the Special District, in accordance with the provisions of Section 107-91 (Inter-agency Coordination).

For #developments# containing #residences# on #zoning lots# partly within #designated open space#, the City Planning Commission, on application, may modify the requirements of Section 107-45 (Required Open Space for Residences) to permit more than 50 percent of the required #open space#, not within the #designated open space#, to be occupied by driveways, private streets, open #accessory# off-street parking spaces or open #accessory# off-street loading berths, if the Commission finds that such facilities are so arranged and landscaped as to afford an acceptable standard of amenity for the #development# and its surroundings.

LAST AMENDED
2/2/2011

On application, the City Planning Commission may grant an authorization modifying the #building# setback requirements of Section 107-251 (Special provisions for arterials), provided that the Commission finds that:

- (a) the area of that portion of the #zoning lot# which is designated as #designated open space# on the District Plan in Appendix A of this Chapter, is at least equal to the area of the required #building# setback #front yard# or #yards#, or portion thereof, which is waived;
- (b) along any #front lot line# abutting an #arterial#, a front setback shall be provided having a depth to be determined by the Commission and which shall be improved in accordance with a landscape plan approved by the Commission; and
- (c) #building# placement leaves adequate spaces for the provision of #street# trees.

107-67 - Uses and Bulk Permitted in Certain Areas

LAST AMENDED
11/15/2006

107-671 - In Areas F and K

LAST AMENDED
2/2/2011

In Areas F and K, as shown in the District Plan (Map 4 in Appendix A), the City Planning Commission may authorize one or more #uses# in the Use Groups specified in this Section not permitted by the underlying district regulations.

As a condition for such authorization, the Commission shall find that:

- (a) such #uses# are so located as not to impair the essential character of the surrounding area for its future development;
- (b) the minimum #lot area# of a #zoning lot# on which such #uses# are located is at least 20 acres;
- (c) vehicular access and egress for such proposed #uses# are located and arranged so as to draw a minimum of vehicular traffic to and through local #streets# in nearby residential areas; and

- (d) where vehicular access and egress are located on an #arterial#, such location affords the best means for controlling the flow of traffic generated by such proposed #uses# to and from such #arterial#.

In each case the Commission may prescribe additional conditions and safeguards, including requirements for adequate screening, planting or landscaping.

107-672 - In Area SH

LAST AMENDED
2/2/2011

The City Planning Commission may authorize #developments# that will result in more than 250 #dwelling units# of #affordable independent residences for seniors# in Area SH, as shown on the District Plan (Map 4 in Appendix A), provided such #developments# comply with the #use# and #bulk# regulations of R3-2 Districts, except that the maximum #floor area ratio#, maximum #lot coverage# and minimum required #open space# shall be as set forth for R3-2 Districts in Section 23-142 (Open space and floor area regulations in R1 and R2 Districts with a letter suffix and R3 through R5 Districts), as modified by this Chapter. The provisions of Section 23-144 (Affordable independent residences for seniors) shall not apply.

In order to grant such authorization, the Commission shall find that:

- (a) such #developments# are part of a superior site plan;
- (b) such #residences# are compatible with the character of the surrounding area; and
- (c) the #streets# providing access to such #residences# are adequate to handle the traffic generated thereby or provision has been made to handle such traffic.

107-68 - Modification of Group Parking Facility and Access Regulations

LAST AMENDED
2/2/2011

For a permitted #commercial#, #community facility# or #manufacturing use#, the City Planning Commission may authorize more than 30 #accessory# off-street parking spaces, and for any #use#, may modify access restrictions with regard to curb cuts as set forth in paragraph (a) of Section 107-251 (Special provisions for arterials) or paragraph (a) of Section 107-252 (Special provisions for park streets). In order to grant such authorization, the Commission, upon a review of the site plan, shall find that:

- (a) vehicular access and egress are located and arranged so as to draw a minimum of vehicular traffic to and through local #streets# in nearby residential areas;
- (b) where vehicular access and egress are located on an #arterial# or #park street#, such location affords the best means for controlling the flow of traffic generated by such #use# to and from such #arterial# or #park street#, and does not unduly

interfere with pedestrian traffic; and

- (c) the location of such vehicular access and egress permits better site planning.

The Commission may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area and may, in appropriate cases, condition its authorization upon compliance with an approved site and landscaping plan. The Commission may also permit modifications to parking lot landscaping and maneuverability requirements only if such modifications preserve vegetation and natural topography.

107-69 - Residential Uses in Area M

LAST AMENDED

8/17/1995

- (a) The City Planning Commission may authorize #developments#, or #enlargements# of #residential uses# in excess of 500 square feet, or in any case where there would be a disturbance of the soil, for the following:
- (1) #zoning lots# with #residential# or #community facility uses# existing on August 17, 1995; or
 - (2) #zoning lots# that have been vacant or #land with minor improvements# for at least two years immediately prior to the date of application for the authorization.
- (b) No #building# shall be constructed for occupancy by both #residential# and #manufacturing uses#. All #residential uses# shall comply with the R3X District regulations and all #commercial# #uses# shall comply with the M1-1 District regulations. All #developments# or #enlargements# shall comply with the applicable Special District regulations:
- (c) In authorizing new #residential uses# and #residential# #enlargements#, the Commission shall find that:
- (1) the #residential use# will not be exposed to excessive noise, smoke, dust, noxious odor, toxic metals, safety hazards, or other adverse impacts from #commercial# or #manufacturing uses#;
 - (2) there are no open #uses# listed in Use Group 18 within 400 feet of the #zoning lot#;
 - (3) the #residential use# shall not adversely affect #commercial# or #manufacturing uses# in the Special District; and
 - (4) the authorization shall not alter the essential character of the neighborhood or district in which the #use# is located, nor impair the future #use# or #development# of #commercial# and #manufacturing uses# on nearby #zoning lots#.

In granting such authorization, the Commission may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area.

107-70 - SPECIAL PERMITS

LAST AMENDED

9/11/1975

107-71 - General Provisions

LAST AMENDED

9/11/1975

On application, the City Planning Commission, may grant special permits for modifications of specified regulations of this Chapter or of the underlying districts in accordance with the provisions of Sections 107-72 to 107-78, inclusive, relating to Special Permits.

107-72 - Qualification of Designated Open Space as Lot Area

LAST AMENDED
2/2/2011

For any #development# containing #designated open space#, the City Planning Commission may allow the amount of #designated open space# to be counted as #lot area# for #bulk# computations to exceed the amount permitted under Section 107-224.

As a condition for granting a permit for such modifications, the Commission shall find that:

- (a) that for the occupants of the site itself, the ill effects of concentration of #buildings# or #accessory# off-street parking are avoided or overcome by the manner in which the #buildings# are sited and #yards# and other open areas arranged; and
- (b) that the concentration of #buildings# or activities will not adversely affect any other #zoning lot# outside the development by restricting access of light and air, impairing privacy or creating traffic congestion.

107-73 - Exceptions to Height Regulations

LAST AMENDED
6/29/1989

For any #development#, the City Planning Commission may grant a special permit to modify the height regulations as set forth in Section 23-631, paragraphs (b), (c) and (d) and Section 107-43, provided that the Commission finds that:

- (a) such #development# is so located as not to impair the essential character of the surrounding area;
- (b) by concentrating permitted #floor area# in a #building# or #buildings# of greater height covering less land, the preservation of existing topography, #designated open space# or the protection of an outstanding view from a public space, will be assured, and that such preservation would not be possible by careful siting of lower #buildings# containing the same permitted #floor area# and covering more land; and
- (c) that the #development's# design proposals take full advantage of all special characteristics of the site.

107-74 - Modification of Permitted Use Regulations

LAST AMENDED
2/2/2011

For any #development#, the City Planning Commission may grant special permits to allow #semi-detached# or #attached# #single-family residences# in R2 Districts and #attached# #single-# or #two-family residences# in R3-1 Districts. As a condition for granting such special permits, the Commission shall find that:

- (a) only by modifying the #residential building# type, the preservation of trees over six-inch caliper and of existing topography can be assured;
- (b) by inclusion of the proposed #residential building# types, better standards of privacy and usable #open space# can be achieved; and

- (c) if the #zoning lot# is located in the #designated open space#, the prohibition of #development# on the #designated open space# requires the permitted #development# to be concentrated in the remaining portion of the tract.

107-75 - Modification of Underlying R1-1 District Regulations

LAST AMENDED

2/2/2011

For any #development#, the City Planning Commission may grant special permits for the modifications of underlying R1-1 District regulations on #yards# or #courts# where such modifications are appropriate in order to:

- (a) permit siting of a #building# or driveway so as to avoid destruction of a valuable tree of six-inch caliper or more; or
- (b) allow a #building# to be arranged on a #zoning lot# that includes #designated open space# without encroaching on such #designated open space#.

As a condition for granting such modifications, the Commission shall find that:

- (1) the siting of the #building# will not adversely affect adjacent properties by impairing privacy or access of light and air;
- (2) the benefits to the surrounding area from the proposed arrangement of #buildings# and #open spaces# outweigh any disadvantages which may be incurred thereby in the area; and
- (3) such modification is the least modification required to achieve the purpose for which it is granted.

The Commission may impose appropriate conditions or safeguards, such as special landscaping requirements, to minimize any adverse effects on the character of the surrounding area.

107-76 - Boundary Adjustments in Designated Open Space

LAST AMENDED

9/11/1975

The City Planning Commission may grant special permits to allow adjustments in the boundaries of the #designated open space# on a #zoning lot# provided that such adjustment will not place the new boundary closer than 60 feet to a watercourse. As a condition for such adjustment in the boundaries, the Commission shall find that such adjustment will:

- (a) result in a substantial improvement in the quality and usefulness of the #designated open space#; or
- (b) permit #development# which better satisfies the purposes of this Chapter and that the new features which will be added to the #designated open space# will be at least equal in quality to those which are displaced from it; and
- (c) provide an equivalent area replacement for the area removed from the #designated open space#.

107-77 - Community Facility Buildings or Treatment Plants Permitted in Designated Open Space

LAST AMENDED

2/2/2011

The City Planning Commission may grant special permits for the construction of sewage disposal plants or pumping stations or #community facility uses# listed in Section 78-352 (Bonus for community facility space) in #designated open space# where such

#uses# are permitted by the underlying district regulations provided the Commission finds that:

- (a) an amount of open area outside the boundary of the #designated open space#, at least equal to the coverage of any #building or other structure# permitted under this Section, shall be added to the #designated open space#, and action shall be taken to change the boundary of the #designated open space# pursuant to Section 107-76 (Boundary Adjustments in Designated Open Space);
- (b) such added open area forms a continuous part of the #open space network#, and does not interrupt or foreclose the continuity of a public pedestrian way;
- (c) such added open area shall contain natural (aquatic, botanic, geologic or topographic) features that are equal or better in quality to those displaced by the #development#; and
- (d) such sewage disposal plants and sewage pumping stations meet the requirements of Section 74-73, inclusive.

The City Planning Commission may prescribe appropriate conditions and safeguards to enhance the character of the #designated open space#.

107-78 - Other Buildings Permitted in Designated Open Space

LAST AMENDED
9/11/1975

On any #zoning lot# located partially within the #designated open space#, the City Planning Commission may grant a special permit to allow a #building# to encroach on the #designated open space# where #development# is not feasible without encroachment on the #designated open space#. As a condition for permitting such construction, the Commission shall find that the #development#, as authorized, will result in the minimum interference with the #designated open space# that must be permitted in order to allow reasonable #development# and #bulk# distribution under the regulations of the underlying district or as such regulations are modified by the provisions of this Chapter.

The Commission may prescribe appropriate conditions and safeguards to enhance the character of the #designated open space#.

Chapter 9 - Special Hillside Preservation District (HS)

119-00 - GENERAL PURPOSES

LAST AMENDED
6/30/1987

The "Special Hillside Preservation District" (hereinafter also referred to as the "Special District") established in this Resolution is designed to promote and protect public health, safety and general welfare. These general goals include, among others, the following special purposes:

- (a) to reduce hillside erosion, landslides and excessive storm water runoff associated with development by conserving vegetation and protecting natural terrain;
- (b) to preserve hillsides having unique aesthetic value to the public;
- (c) to guide development in areas of outstanding natural beauty in order to protect, maintain and enhance the natural features of such areas; and
- (d) to promote the most desirable use of land and to guide future development in accordance with a comprehensive development plan, and to protect the neighborhood character of the district.

119-01 - Definitions

LAST AMENDED
2/2/2011

Definitions specially applicable to this Chapter are set forth in this Section. The definitions of other defined terms are set forth in Section 12-10 (DEFINITIONS).

Area of no disturbance

An "area of no disturbance" is an area designated on the site plan that is protected from all types of intrusion, including: #site alteration#, operation of construction equipment, storage of construction materials, excavation or regrading, tunneling for utilities, removal of trees, #topsoil# or any living vegetation, or construction of driveways, #private roads#, parking areas, patios, decks, swimming pools, walkways or other impervious surfaces. #Areas of no disturbance# shall include #steep slopes#, #steep slope buffers# and the #critical root zone# of each tree proposed for preservation.

Average percent of slope

The "average percent of slope" of a #zoning lot# is the average slope of all portions of a #zoning lot# excluding #steep slopes# and shall be determined according to the following equation:

$$S = \frac{IL}{A} \times 100$$

Where:

S - average percent of slope

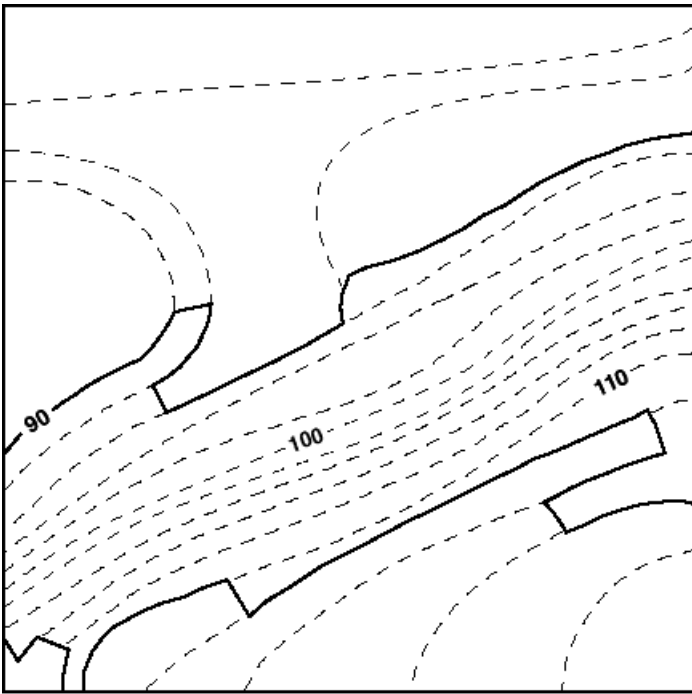

I - contour interval in feet

L - combined length of contour lines in feet, excluding those portions bordering or lying within areas having a slope of 25 percent or greater and meeting the definition of #steep slope#

A - gross area in square feet of the #zoning lot#, excluding those portions of the #zoning lot# having a slope of 25 percent or greater and meeting the definition of #steep slope#. For a proposed #site alteration# on a tract of land not within a #zoning lot#, the portion of such tract of land owned by the applicant shall be considered to be part of the #zoning lot#.

100 - factor which yields slope as a percentage

CALCULATING AREAS HAVING A SLOPE EQUAL TO OR GREATER THAN 25 PERCENT (illustrative example)

Example:

$$X = \frac{\text{contour interval in feet}}{0.25} = \frac{2}{0.25} = 8.0 \text{ feet}$$

Where:

X - distance between contour lines which indicates a slope of 25 percent

In order to calculate the area having a slope equal to or greater than 25 percent, one can use a map with two-foot contour intervals and a scale of one inch equals 20 feet, such as the map pictured above. A 25 percent slope, on a map with two-foot

contour intervals, is indicated by contour lines which are 8.0 feet apart, rounded to the nearest tenth (0.1) of a foot. On a map whose scale is one inch to 20 feet, 8.0 feet is represented by 0.4 of an inch, rounded to the nearest tenth (0.1) of an inch.

Identify where the contour lines are 0.4 of an inch or less apart. Connect these contour lines (as indicated by the heavy lines on the map) and calculate the area.

Buildable area

A "buildable area" is a portion of a #zoning lot# excluding #steep slopes#.

Caliper (of a tree)

"Caliper" of a tree is the diameter of a tree trunk measured 4 feet, 6 inches from the ground. If a tree splits into multiple trunks below 4 feet, 6 inches from the ground, the trunk is measured at its most narrow point beneath the split.

Critical root zone

The "critical root zone" of a tree is the area containing the roots of a tree that must be maintained and protected to ensure the tree's survival. The area of the #critical root zone# is measured as one radial foot for every #caliper# inch of the tree, with a required minimum of four radial feet and maximum of 22 radial feet, measured from the surface of the tree trunk at grade.

Hillside

A "hillside" is defined as ground where the ratio of change in elevation to horizontal distance results in a 10 percent or greater slope or #average percent of slope#.

Site alteration

For the purposes of this Chapter, a "site alteration" is an alteration on any vacant tract of land, #land with minor improvements# or any tract of land containing #buildings or other structures#. #Site alterations# shall include the following:

- (a) removal of #topsoil#;
- (b) excavating, filling, land contour work and other topographic modifications where the ground elevation of the land existing on June 30, 1987, is modified by two feet or more;
- (c) dumping, changes in existing drainage systems and changes in grade, alignment or width of public rights-of-way; or
- (d) removal of vegetation beyond 15 feet of the foundation of an existing #building#, except when the plant materials' continued presence would create hazards or dangers (such as an area affected by storm or plant disease) to persons, property or other plant material which it would not be possible or practical to eliminate by pruning or routine maintenance.

Staging area

A "staging area" is any area on a #zoning lot# or other tract of land used during the construction of a #development#, #enlargement# or #site alteration# for the purposes of stockpiling soil or construction materials; storing, cleaning or servicing construction equipment, vehicles or tools; or storing leachable construction products, gases or other materials used to clean or service vehicles, equipment or tools.

Steep slope

A "steep slope" is a portion of a #zoning lot# or other tract of land with an incline of 25 percent or greater. However, a portion of a #zoning lot# or other tract of land with an incline of 25 percent or greater shall not be considered a #steep slope# if it occupies an area of less than 200 square feet or has a dimension of less than 10 feet, measured along the horizontal plane, unless such portions in the aggregate equal 10 percent or more of the area of the #zoning lot#.

Steep slope buffer

A "steep slope buffer" is a 15-foot wide area having a slope of less than 25 percent that adjoins the entire length of the crest of a #steep slope#.

Tier I site

A "Tier I site" is a #zoning lot# or other tract of land having an #average percent of slope# of less than 10 percent.

Tier II site

A "Tier II site" is a #zoning lot# or other tract of land having an #average percent of slope# equal to or greater than 10 percent.

Topsoil

"Topsoil" is soil containing undisturbed humus and organic matter capable of sustaining vigorous plant growth and is generally the top six inches of soil.

Tree credit

A "tree credit" is a credit for preserving an existing tree of six-inch #caliper# or more which is counted toward a tree preservation requirement, or a credit for a newly planted tree of three-inch #caliper# or more which is counted toward a tree planting requirement.

Tree protection plan

A "tree protection plan" is a plan that modifies the #area of no disturbance# around a tree proposed for preservation while

protecting and preserving the tree during construction. A #tree protection plan# is prepared by an arborist certified by the International Society of Arboriculturists (ISA) or equivalent professional organization that includes:

- (a) a survey of the current condition and health of such trees of six-inch #caliper# or more;
- (b) methods for tree protection and preservation based on best management practices, including the prevention of damage due to compaction, grade and drainage pattern changes and tunneling for utilities;
- (c) a schedule for site monitoring during construction;
- (d) a procedure to communicate protection measures to contractor and workers; and
- (e) post-construction treatment.

119-02 - General Provisions

LAST AMENDED

5/12/2021

In harmony with the general purpose and intent of this Resolution and the general purposes of the #Special Hillside Preservation District#, the regulations of the districts upon which this Special District is superimposed are supplemented or modified in accordance with the provisions of this Chapter. Except as modified by the express provisions of this Chapter, the regulations of the underlying districts remain in effect.

Any #development#, #enlargement# or #site alteration# on the #buildable area# of a #zoning lot# where the #average percent of slope# is less than 10 percent shall be regulated by the provisions set forth in Section 119-10 (PROVISIONS REGULATING TIER I SITES). Any #development#, #enlargement# or #site alteration# on the #buildable area# of a #zoning lot# having an #average percent of slope# equal to or greater than 10 percent shall be governed by the provisions set forth in Section 119-20 (PROVISIONS REGULATING TIER II SITES).

No #development#, #enlargement# or #site alteration# is permitted within any #area of no disturbance# on a #zoning lot# or other tract of land. #Areas of no disturbance# shall remain in their natural state, except:

- (a) for #steep slopes# or #steep slope buffers#, an authorization may be granted by the City Planning Commission, pursuant to Section 119-30 (SPECIAL REVIEW PROVISIONS);
- (b) vegetation and #topsoil# may be removed from a #steep slope buffer# during construction on a #Tier I site#, provided that the #development#, #enlargement# or #site alteration# complies with the requirements of Sections 119-215 (Landscaping controls to preserve trees, shrubs and ground cover), 119-217 (Tier II controls during construction) and 119-22 (Tier II Submission Requirements); or
- (c) in accordance with a #tree protection plan#.

Those portions of a #zoning lot# having #areas of no disturbance#, however, may count as #lot area# for the purposes of the applicable regulations on #yards#, #floor area ratio#, #open space ratio# or maximum number of #dwelling units# or #rooming units#.

The following #uses#, including #enlargements# to such #uses#, shall not be permitted within the #Special Hillside Preservation District# unless an authorization is granted by the Commission pursuant to Section 119-30: #community facility uses#, #group parking facilities# of 30 cars or more, whether or not they are necessary to satisfy parking requirements.

When the #Special Hillside Preservation District# is designated on a #public park#, or portion thereof, #site alterations#, the

construction of new park-related facilities such as, but not limited to, roadways, parking lots, comfort stations, storage facilities, swimming pools, eating establishments, tennis courts, amphitheaters and stadiums, and improvements to existing park-related facilities, shall not be subject to the provisions of Sections 119-10 or 119-20 but shall require an authorization from the Commission, pursuant to Section 119-31 (Authorizations).

In #flood zones#, in the event of a conflict between the provisions of this Chapter and the provisions of Article VI, Chapter 4 (Special Regulations Applying in Flood Zones), the provisions of Article VI, Chapter 4 shall control.

119-03 - Applicability of Large-scale Residential Development Regulations

LAST AMENDED
6/30/1987

Any #development# on a #zoning lot# having an #average percent of slope# of 10 percent or greater, which is used predominantly for #residential use#, may be treated as a #large-scale residential development# and special authorizations or special permits for such #developments# may be granted in accordance with the provisions of Article VII, Chapter 8, as modified herein, regardless of whether such #development# will have the area, number of #buildings# or number of #dwelling units# specified in the definition of #large-scale residential developments# as set forth in Section 12-10 (DEFINITIONS). However, bonuses that may be granted for #large-scale residential developments# under the provisions of Sections 78-32 (Bonus for Good Site Plan), 78-33 (Bonus for Common Open Space) or 78-35 (Special Bonus Provisions) may not be granted for #developments# that have less than the minimum area, number of #buildings# or number of #dwelling units# required by the definition of a #large-scale residential development#.

Notwithstanding the provisions of Section 78-06 (Ownership), a #zoning lot# having an #average percent of slope# of 10 percent or greater that is the subject of an application under this Section may include adjacent properties in more than one ownership, provided that the application is filed jointly by the owners of all the properties included. Any subdivision of the tract before, during or after #development# shall be subject to the provisions of Section 78-51 (General Provisions).

119-04 - Future Subdivision

LAST AMENDED
2/2/2011

Within the #Special Hillside Preservation District#, no #zoning lot# existing on June 30, 1987, may be subdivided without certification by the City Planning Commission that the proposed subdivision complies with the regulations of the #Special Hillside Preservation District# and that all #hillside# are preserved to the greatest extent possible under future #development# options.

A plan for such subdivision shall be filed with the Commission and shall include a survey map indicating existing topography at two-foot contour intervals and all individual trees of six-inch #caliper# or more.

When a #zoning lot# existing on June 30, 1987, is intended to be subdivided and is more than five acres, a site plan of the entire subdivision shall be filed with the Commission. The site plan shall include the proposed vehicular circulation system within the area, #block# and #zoning lot# layouts and any other information required by the Commission.

In the event that any #zoning lot# proposed for subdivision contains a #development#, #enlargement# or #site alteration# that has been undertaken contrary to the provisions of this Chapter, the Commission shall not approve the subdivision until violations are removed from the #zoning lot#, in accordance with the Commission's requirements under Section 119-40 (COMPLIANCE).

119-05 - Applicability of Parking Location Regulations

LAST AMENDED
2/2/2011

The parking regulations applicable to #lower density growth management areas# are modified to allow required #accessory# parking spaces to be located in a #front yard#.

119-10 - PROVISIONS REGULATING TIER I SITES

LAST AMENDED
2/2/2011

#Tier I sites# shall be regulated by the provisions set forth in this Section, inclusive.

119-11 - Tier I Requirements

LAST AMENDED
2/2/2011

119-111 - Tier I tree preservation requirements

LAST AMENDED
12/7/1999

To the maximum extent possible, existing trees shall be retained. Trees of six-inch #caliper# or more may only be removed or destroyed as a result of a #development#, #enlargement# or #site alteration#, provided that:

- (a) such trees are located in areas to be occupied by #buildings#, #private roads#, driveways, areas for required #accessory# parking, or within a distance of 15 feet of the exterior walls of such #building#, provided that it is not possible to avoid such removal by adjustments in the arrangement of such #buildings#, driveways or required parking areas;
- (b) the continued presence of such tree would create special hazards or dangers to persons or property, which would not be possible or practical to eliminate by pruning;
- (c) the continued presence of such tree would interfere with the growth or health of another tree of six-inch #caliper# or more designated for preservation and belonging to a species listed in Appendix B (Selection List for On-site Trees); or
- (d) an authorization pursuant to Section 119-313 (Modification of landscaping, tree preservation and tree planting requirements) has been granted by the City Planning Commission approving the removal of such trees.

Any tree of six-inch #caliper# or more that cannot be preserved as a result of a proposed #development#, #enlargement# or #site alteration# shall be replaced pursuant to the provisions of Section 119-112 (Tier I tree planting requirements).

119-112 - Tier I tree planting requirements

LAST AMENDED
2/2/2011

All #developments#, #enlargements# and #site alterations# on #Tier I sites# shall comply with the tree planting requirements set forth in this Section, whether or not existing trees are removed as a result of such #development#, #enlargement# or #site

alteration#. However, the requirements set forth herein shall not apply to any #enlargement# of an existing #building#, provided that such #enlargement# does not increase the #lot coverage# of said #building#.

On-site trees, pre-existing or newly planted, shall be provided on the #zoning lot# at the rate of one tree for each 1,000 square feet of #lot area#, or portion thereof, or shall equal a total of 51 percent of all #tree credits# for trees originally on site, whichever is greater.

For any existing tree of at least six-inch #caliper# that is preserved, credit for one tree shall be given for the first six inches of #caliper# and, for each additional four inches of #caliper#, credit for an additional tree shall be given.

Single-trunk trees, newly planted to meet this requirement, shall be of at least three-inch #caliper# at the time of planting. Multiple-trunk trees and low-branching coniferous evergreens shall be at least 10 feet in height at the time of planting. On-site trees shall be of a species selected from Appendix B (Selection List for On-site Trees).

119-113 - Tier I controls during construction

LAST AMENDED

12/7/1999

The following requirements must be met during construction:

- (a) Construction fences shall be erected around all #areas of no disturbance#.

A #tree protection plan# is required to modify the #area of no disturbance# around trees proposed for preservation.

- (b) The #staging area# shall be located in an area that would most minimize destruction of the natural features of the landscape. Such area shall be as close to the construction area on the #zoning lot# as practical, and shall be either on the flattest portion of the #zoning lot# or behind a containment wall where it will not erode any #area of no disturbance# or endanger any tree designated for preservation.

- (c) #Topsoil# shall be used in the area to be revegetated as soon as construction is complete.

- (d) Any exposed earth area shall have straw, jute matting or geotextiles placed on it within two days of exposure and be seeded with annual rye grass during construction.

119-12 - Tier I Submission Requirements

LAST AMENDED

2/2/2011

For all #developments#, #enlargements# or #site alterations# on #Tier I sites#, the following materials shall be submitted to the Department of Buildings. However, the submission requirements set forth herein shall not apply to an #enlargement# of an existing #residential building#, provided that such #enlargement# does not increase the #lot coverage# of said #building#. No building permit shall be issued until the Department of Buildings determines that the requirements of the #Special Hillside Preservation District# have been met.

- (a) A survey map prepared by a licensed surveyor showing topography at two-foot contour intervals and indicating the existing slope of the land, as it occurs, in categories of 10–14 percent, 15–19 percent, 20–24 percent, 25 percent and greater; the location of existing #buildings or other structures#, patios, decks, swimming pools, walkways, driveways and #private roads#, including sidewalks and other impervious surfaces; and the location, #caliper# and species of all trees of six-inch #caliper# or more on the #zoning lot# and in the sidewalk area of the adjacent #streets#.

- (b) A site plan prepared by a registered architect or professional engineer indicating the location of all existing #buildings or other structures#; the location of all proposed #buildings or other structures#; the location of existing and proposed patios, decks, swimming pools, walkways, driveways and #private roads#, including sidewalks and other impervious surfaces; the location of any #steep slopes#, #steep slope buffer# areas and the #staging area#; and the location, #caliper# and species of all trees of six-inch #caliper# or more on the #zoning lot# and in the sidewalk area of the adjacent #streets#. The site plan shall identify those trees proposed to be removed and those trees proposed to be preserved, indicating, for the latter, the #critical root zone#.
- (c) A tree-planting plan, prepared by a registered landscape architect, indicating the location and species of all new plantings, and indicating the location of and the #critical root zone# around all trees proposed for preservation.

119-13 - Administration of Tier I Requirements

LAST AMENDED
6/30/1987

No permanent certificate of occupancy shall be issued by the Department of Buildings unless an inspection report, verifying that the requirements of Section 119-10 (PROVISIONS REGULATING TIER I SITES) have been met, is filed with the Department of Buildings by a registered landscape architect, licensed surveyor, registered architect or professional engineer.

119-20 - PROVISIONS REGULATING TIER II SITES

LAST AMENDED

All #developments#, #enlargements# and #site alterations# on #Tier II sites# shall comply with the following tree planting requirements, whether or not existing vegetation is removed as a result of such #development#, #enlargement# or #site alteration#. However, the requirements set forth herein shall not apply to an #enlargement# of an existing #building#, provided that such #enlargement# does not increase the #lot coverage# of said #building#.

On-site trees, pre-existing or newly-planted, shall be provided on the #zoning lot# at the rate of one tree for each 1,000 square feet of #lot area#, or portion thereof, or shall equal a total of 51 percent of all #tree credits# for trees originally on site, whichever is greater.

This provision may be waived by the Commissioner of Buildings should it be determined that the particular conditions of the site make a 15 foot limit infeasible or impractical.
- (b) Construction fences shall be erected around all vegetation proposed for preservation and all #areas of no disturbance#, and those portions of the fence that are downhill from the construction site shall have hay bales placed adjacent to them.
- (c) Excavating for fill shall be prohibited unless the material is obtained from a cut permitted under an approved grading plan obtained for some purpose other than to produce fill material, or imported from outside the #Special Hillside Preservation District#.

Such area shall be as close to the construction area on the #zoning lot# as practical, and shall be either on the flattest portion of the #zoning lot# or behind a containment wall where it will not erode any #area of no disturbance# or endanger any tree designated for preservation.
- (e) #Topsoil# shall be used in the area to be revegetated as soon as construction is complete.

- (f) Any exposed earth area shall have straw, jute matting or geotextiles placed on it within two days of exposure and be seeded with annual rye grass during construction.

LAST AMENDED

2/2/2011

The City Planning Commission may authorize #developments#, #enlargements# and #site alterations# on a #steep slope# or #steep slope buffer#.

In order to grant such authorizations, the Commission shall find that:

- (a) the #development#, #enlargement# or #site alteration# is not feasible without such modification, or that the requested modification will permit a #development#, #enlargement# or #site alteration# that satisfies the purposes of this Chapter;
- (b) such modification is the least modification required to achieve the purpose for which it is granted;
- (c) the modification requested has minimal impact on the existing natural topography and vegetation and blends harmoniously with it;
- (d) the requested modification will not disturb the drainage patterns and soil conditions of the area; and
- (e) the #development#, #enlargement# or #site alteration# takes advantage of the natural characteristics of the site.

Any #development#, #enlargement# or #site alteration# requiring an authorization pursuant to this Section shall be subject to all the requirements of Section 119-20 (PROVISIONS REGULATING TIER II SITES) for which an authorization or special permit has not been obtained.

- (e) vehicular access and egress for such #development#, #enlargement# or #site alteration# is located and arranged so as to draw a minimum of vehicular traffic to and through local #streets# in nearby residential areas; and
- (f) where vehicular access and egress is located on an arterial, such location affords the best means for controlling the flow of traffic generated by such development to and from such arterial.

The Commission may permit modifications to parking lot landscaping and maneuverability requirements for applications for such authorizations of #group parking facilities# for over 30 cars or for #enlargements# to #group parking facilities#, if such modifications preserve vegetation and natural topography.

- (b) such modification is the least modification required to achieve the purpose for which it is granted; and
- (c) the ecology and soil conditions of the site are such that the substitution of other plant material would be as appropriate as the tree preservation or planting requirements being modified.

Where on-site restoration of vegetation would result in overcrowding or would adversely affect the ecology of the site, the Commission may authorize planting of one or more trees on adjoining public sidewalks or in a nearby public area within the #Special Hillside Preservation District#. The Commission may also allow the substitution of other plant material, provided a detailed landscaping plan is filed with the Commission for approval and certification.

Upon application, the City Planning Commission may authorize #site alterations#, the construction of new park-related

facilities such as, but not limited to, roadways, parking lots, comfort stations, storage facilities, swimming pools, eating establishments, tennis courts, amphitheatres and stadiums, and improvements to existing park-related facilities.

In order to grant such authorizations, the Commission shall find that the proposed action:

- (a) will have a minimal impact on the existing natural topography of the surrounding area and will blend harmoniously with it;
- (b) will have minimal impact on the drainage pattern and soil conditions in the area;
- (c) will preserve to the greatest extent possible the trees and vegetation within the park; and
- (d) is compatible with the neighborhood character of the area.

An application to the Commission for an authorization pursuant to this Section shall include the following:

- (1) a survey map prepared by a licensed surveyor showing existing topography at the two-foot contour intervals;
- (2) a site plan prepared by a registered architect, registered landscape architect or professional engineer indicating the location of all existing #buildings or other structures#, the location of all proposed #buildings or other structures#, the location of all understory including shrubs and ground cover, and the #caliper# and species of all individual trees of six-inch #caliper# or more; and
- (3) any other information necessary to evaluate the request.

In issuing authorizations under this Section, the Commission may impose conditions or safeguards, such as special landscape requirements, to minimize adverse effects on the character of the #Special Hillside Preservation District#.

119-32 - Special Permits

LAST AMENDED
12/7/1999

The City Planning Commission may grant special permits for modification of the underlying district regulations in accordance with the provisions of Section 119-321 (Modification of use regulations).

119-321 - Modification of use regulations

LAST AMENDED
2/2/2011

For any #Tier II site#, the City Planning Commission may grant special permits to allow #single-family# #semi-detached residences# in R1 and R2 Districts, #single-family# #attached residences# in R1, R2 and R3-1 Districts or #two-family# #attached residences# in R3-1 Districts.

As a condition for granting such special permits, the minimum required #lot area# of the underlying district shall not be reduced, and the #aggregate width of street walls# of a #building#, or a number of #buildings# separated by party walls, shall not exceed 100 feet.

In order to grant such special permits, the Commission shall find that:

- (a) #development# is not feasible without such modifications, or that the requested modification will permit a #development#, #enlargement# or #site alteration# that better satisfies the purposes of this Chapter;

- (b) the change of housing type requested constitutes the most effective method of preserving the existing topography and vegetation;
- (c) the preservation of existing topography and vegetation requires the permitted development to be concentrated, to the extent feasible, in the remaining portion of the tract;
- (d) for such concentration of development, better standards of privacy and usable #open space# can be and are achieved under the development plan by inclusion of the proposed #building# type;
- (e) such modification is the least modification required to achieve the purpose for which it is granted;
- (f) the proposed #street# or #private road# system for the development is so located as to draw a minimum of vehicular traffic to and through #streets# in the adjacent area;
- (g) the siting of the #building# or #buildings# will not adversely affect adjacent properties by impairing privacy or access of light and air; and
- (h) the existing topography and vegetation and the proposed planting effectively screen all #attached# one-family #residences# from the #lot lines# along the development perimeter.

The Commission may impose appropriate conditions or safeguards, such as special landscaping requirements, to minimize any adverse effects on the character of the surrounding area.

All #developments#, #enlargements# or #site alterations# that require a special permit pursuant to this Section shall also be subject to the provisions of Sections 119-33 (Special Erosion and Sedimentation Prevention Requirements for Certain Authorizations and Special Permits) and 119-34 (Special Submission Requirements for Certain Authorizations and Special Permits).

119-33 - Special Erosion and Sedimentation Prevention Requirements for Certain Authorizations and Special Permits

LAST AMENDED
2/2/2011

Any #development#, #enlargement# or #site alteration# that requires an authorization or special permit and that is subject to the provisions of Section 119-20 (PROVISIONS REGULATING TIER II SITES), shall be subject to the provisions of this Section. The requirements of this Section shall supplement any other requirements that also must be met.

Prior to construction, at least one of the erosion and sedimentation control measures described in paragraphs (a) through (e) of the Section shall be selected. A plan describing how the selected erosion and sedimentation control measure will be implemented and justifying its selection on the basis of the particular conditions of the site shall be prepared by a professional engineer and submitted to the City Planning Commission.

- (a) Benches and berms

These are level terraces or ledges constructed across sloping land to provide a relatively flat construction site or to reduce the length and grade of the slope. Benches and berms reduce runoff and erosion hazards by slowing down the velocity of water and providing greater intake opportunity.

- (b) Diversion channels

These are earth channels with a supporting ridge on the lower side constructed across the slope lengths to break up

concentration of runoff and move water to stable outlets at a non-erosive velocity.

(c) Debris or sediment basins

These consist of a dam or embankment, a pipe outlet and an emergency spillway situated at the low corner of the site to provide a temporary means of trapping and storing sediment while releasing the water. They protect property below the installation from damage by excessive sedimentation and debris.

(d) Retention ponds

These are impoundment-type ponds that temporarily store runoff water and release it at rates that minimize erosion and prevent flooding. They may be located above the site to trap water before it enters the area or within the site to protect properties below the site.

(e) Grassed waterways or outlets

These are natural or excavated channels to dispose of excess runoff water from diversions, berms, benches and other areas at non-erosive velocities. Waterways or outlets are shaped or graded and established in suitable vegetation as needed, depending on the supplemental measure used to slow the velocity of runoff.

119-34 - Special Submission Requirements for Certain Authorizations and Special Permits

LAST AMENDED

2/2/2011

When a #development#, #enlargement# or #site alteration# is subject to the provisions of Section 119-20 (PROVISIONS REGULATING TIER II SITES), an application to the City Planning Commission for an authorization or special permit shall include the following submission requirements. These requirements shall be in addition to the requirements set forth in Section 119-22 (Tier II Submission Requirements).

- (a) A drainage plan and soil report prepared by a professional engineer to protect natural features. The drainage plan shall describe the temporary (during construction) and permanent measures to collect, direct and discharge stormwater drainage from the site, indicating the direction of drainage flow and providing detailed plans and locations of all surface and subsurface drainage devices, walls, dams, sediment basins, stormwater storage (detention and retention) facilities, and other drainage facilities and protective devices. Such report shall include an estimate of runoff from the site after completion of proposed #developments#, #enlargements# or #site alterations# and provide a description with supporting information of the manner in which the proposed #development#, #enlargement# or #site alteration# complies with the requirements of Local Law 103 of 1989.
- (b) An erosion and sedimentation plan as described in Section 119-33 (Special Erosion and Sedimentation Prevention Requirements for Certain Authorizations and Special Permits).
- (c) For any #development# or #site alteration# on a tract of land 40,000 square feet or greater, a landscape plan prepared by a registered landscape architect that shows the location and species of all new plantings of trees, shrubs and ground covers and the proposed method of preserving existing trees, shrubs and ground covers.
- (d) Any other information the Commission may deem necessary to evaluate the request.

The applicant's submission shall also include a statement admitting authorized Department of City Planning personnel to the site for the purposes of recording or verifying survey data.

119-35 - Administration of Special Review Provisions

LAST AMENDED
2/2/2011

Where a permit other than a building permit is required for a #development#, #enlargement# or #site alteration# within the #Special Hillside Preservation District# from any City agency, an application for such permit shall be filed simultaneously with such agency and the City Planning Commission.

No permanent certificate of occupancy shall be granted unless an inspection report, verifying that the requirements of Sections 119-20 (PROVISIONS REGULATING TIER II SITES) and 119-30 (SPECIAL REVIEW PROVISIONS) have been met, is filed with the Department of Buildings by a registered landscape architect, licensed surveyor or professional engineer.

119-40 - COMPLIANCE

LAST AMENDED
6/30/1987

In the event that a #development#, #enlargement# or #site alteration# is undertaken, or has been undertaken, contrary to the provisions of this Chapter, any permit issued by the Department of Buildings for any #use#, #development#, #enlargement# or #site alteration# on the affected #zoning lot# shall be revoked.

No building permit or permanent certificate of occupancy shall be issued by the Department of Buildings for any #use#, #development#, #enlargement# or #site alteration# on such #zoning lot# until the violations are removed from the #zoning lot#, pursuant to a restoration plan certified by the City Planning Commission.

If such violations have not ceased within 90 days of receipt of the Commission's requirements, the Department of Buildings shall institute such action as may be necessary to prosecute the violations. For compliance with restoration requirements to remove violations, the Department of Buildings may allow an additional 90 days.

Where on-site restoration of vegetation would result in overcrowding or would adversely affect the ecology of the site, the Commission may authorize planting of one or more trees on adjoining public sidewalks or in a nearby public area within the #Special Hillside Preservation District#. The Commission may also allow the substitution of other plant material, provided a detailed landscaping plan is filed with the Commission for approval and certification.

In Subdistrict A-1, the underlying height and setback regulations set forth in Sections 43-43 (Maximum Height of Front Wall and Required Front Setbacks) and 43-44 (Alternate Front Setbacks) shall not apply. In lieu thereof, the following provisions shall apply:

(a) #Street wall# location

The #street wall# of any #building# shall be located on the #street line# and extend along the entire #street# frontage of the #zoning lot# up to at least the maximum base height specified in paragraph (b) of this Section. On the ground floor, recesses shall be permitted where required to provide access to the #building#, provided such recesses do not exceed three feet in depth as measured from the #street line#. However, where the height of an existing adjacent #street wall# fronting on the same #street line# rises to a height exceeding 155 feet before setback, the maximum base height may be increased to the height of such existing adjacent #street wall# but shall not exceed a base height of 205 feet. In addition, where existing adjacent #street walls# on both sides of the #building# rise to a height exceeding 155 feet before setback, the maximum base height of such #building# may be increased to the higher of the two existing adjacent #street walls#, except in no instance shall the base height of such #building# exceed 205 feet.

(2) Along #narrow streets#

On #narrow streets#, beyond 50 feet of their intersection with a #wide street#, the #street wall# of a #building# shall rise without setback to a minimum base height of 85 feet and may rise to a maximum base height of 135 feet.

As an alternative, the minimum and maximum base heights applicable to a #wide street# may be applied along a #narrow street# beyond 50 feet of a #wide street#, up to a maximum of 100 feet from such #wide street#.

Above such required setback, any portion of a #building# on the #zoning lot# shall be considered a "tower."

(2) Along #narrow streets#

For #buildings#, or portions thereof, located on #narrow streets# beyond 100 feet of a #wide street#, the portion of such #building# above the applicable maximum base height set forth in paragraph (b)(2) of this Section shall be set back from the #street wall# of the #building# at least 15 feet along a #narrow street#, except such dimensions may include the depth of any permitted recesses in the #street wall#. Above such required setback, any portion of a #building# on the #zoning lot# shall be considered a “tower.”

(d) Tower Regulations

Each #story# of a tower above the required setback shall not exceed a maximum #lot coverage# of 40 percent of the #lot area# of a #zoning lot# or, for #zoning lots# of less than 20,000 square feet, the percent set forth in Section 43-451 (Towers on small lots).

(e) Maximum #building# height

No height limit shall apply to towers.

LAST AMENDED
10/7/2021

The basic maximum #floor area ratio# of a #zoning lot# containing non-#residential buildings# shall be 10.0 and may be increased to a maximum #floor area ratio# of 12.0 pursuant to Section 93-31 (District Improvement Fund Bonus). Such #zoning lot# may also contain #residences# within #buildings# existing on January 19, 2005, provided that such #buildings# are not #enlarged# after such date. For #zoning lots# containing #residences# within a #building# that is #developed# or #enlarged# on or after January 19, 2005, the basic maximum #floor area ratio# shall be 6.5. 124-22 - Height and Setback Regulations

LAST AMENDED
2/2/2011

The height and setback regulations of this Section shall apply throughout the #Special Willets Point District#, except that #developments# or #enlargements# that result in less than 100,000 square feet of #floor area# on #zoning lots# of less than 200,000 square feet shall be limited to the height and setback regulations of an R6B District. The height of all #buildings or other structures# shall be measured from the level of the adjoining sidewalk or other publicly accessible open space. For the purposes of this Section, the present or former 34th Avenue and Willets Point Boulevard shall be considered to be #connector streets#, 127th Street shall be considered to be a #residential street#, and public access areas provided pursuant to paragraph (d) of Section 124-42 (Types and Standards of Publicly Accessible Open Space) shall be considered a #connector street#.

(a) Street wall location and base heights

- (1) Except along 126th Street, Northern Boulevard and #residential streets#, at least 70 percent of the #aggregate width of street walls# shall be located within eight feet of the #street line# or public access area and shall extend without setback to a minimum base height of 60 feet or the height of the #building#, whichever is less. The maximum height of a #building or other structure# before setback shall be 85 feet. However, the minimum base height of a convention center shall be 40 feet or the height of the #building#, whichever is less.
- (2) Along 126th Street, at least 80 percent of the #aggregate width of street walls# shall be located within 60 feet of the #street line# of 126th Street and shall extend to a minimum base height of 60 feet or the height of the #building#, whichever is less. The maximum height of a #building or other structure# before setback shall be 85 feet. However, for #buildings# directly opposite Citi Field Stadium, a setback lower than 60 feet shall be permitted, provided that:
 - (i) for #buildings# greater than 85 feet in height, an additional setback is provided between a height of 60 and 85 feet; and
 - (ii) eating and drinking establishments with outdoor seating on terraces overlooking 126th Street are provided on the second #story#. Such terraces shall be located on the roof level above the ground floor level of the #building#, at a height not lower than 20 feet or higher than 30 feet above the level of the sidewalk fronting the 126th Street #street wall# of the #building#, and shall have a minimum depth of 15 feet.
- (3) Along #residential streets#, at least 70 percent of the #aggregate width of street walls# shall be located within eight feet of the #street line# or public access area and shall extend without setback to a minimum base height of 40 feet or the height of the #building#, whichever is less. The maximum height of a #building or other structure# before setback shall be 85 feet. Where #street walls# facing #residential streets# contain ground floor #dwelling units#, such #street walls# shall be set back at least four feet from the #street line#. The #building# may project into the required setback area, provided that:
 - (i) any such projection does not exceed 20 feet in width;
 - (ii) any such projection does not exceed 25 feet in height;
 - (iii) the aggregate width of all such projections at the level of any #story# shall not exceed 50 percent of the width of the #street wall# of the #building#; and
 - (iv) all such projections are at least 10 feet apart.
- (4) Along Northern Boulevard, no portion of a #street wall# shall be located closer to Northern Boulevard than eight feet. At least 70 percent of the #aggregate width of street walls# shall be located between eight and 15 feet of the Northern Boulevard #street line# and shall extend without setback to a minimum base height of 60 feet or the height of the #building#, whichever is less. The maximum height of a #building or other structure# before setback shall be 85 feet.

(5) Wherever an open area is provided between the #street wall# of a #building# and the #street line#, such area shall be planted, except at entrances to and exits from the #building#, and except where non-#residential uses# are provided at the ground floor level of the #building#.

(b) Required setbacks and maximum #building# height

Except as provided in paragraph (c)(6) of this Section, setbacks are required for all portions of #buildings or other structures# that exceed a height of 85 feet. Such setbacks shall be provided at a height not lower than 60 feet. The depth of the required setback shall be at least 10 feet measured from any required #street wall# fronting on a #wide street#, and at least 15 feet from any required #street wall# fronting on a #narrow street#. Where portions of #buildings or other structures# that exceed a height of 85 feet are not located above a required #street wall#, such portions shall be set back at least 10 feet from a #wide# #street line# and at least 15 feet from a #narrow# #street line#. However, dormers may penetrate a height of 85 feet in accordance with the provisions of paragraph (c) of Section 23-621 (Permitted obstructions in certain districts). Within the area limited to 232 feet above mean sea level, as shown on Map 3 in the Appendix to this Chapter, no portion of a #building or other structure# shall exceed a height of 120 feet except in accordance with the tower provisions of paragraph (c) of this Section.

(c) Towers

Within the area limited to 232 feet above mean sea level, as shown on Map 3, any #story# of a #building# located above a height of 120 feet shall comply with the provisions of this paragraph (c). Such portions of a #building# are hereinafter referred to as “towers.”

(1) Maximum tower size

Each #residential# #story# of a tower located entirely above a height of 120 feet shall not exceed a gross area of 11,000 square feet.

(2) Maximum tower length

The maximum length of any #residential# #story# located entirely above a height of 120 feet shall not exceed 170 feet. Such length shall be measured by inscribing within a rectangle the outermost walls of the tower at the level of each #story# entirely above a height of 120 feet. No side of such rectangle shall exceed a length of 170 feet.

(3) Orientation

The length of any #residential# #story# located entirely above a height of 120 feet shall be at least 1.5 times its width and oriented so that the long side of such tower faces within 25 degrees of geographical south. Such length shall be measured by inscribing within a rectangle the outermost walls of the tower at the level of each #story# entirely above a height of 120 feet. The orientation provisions of this paragraph,(c)(3) need not apply if at least 75 percent of all towers in the #Special Willets Point District# for which building permits have been issued comply with such provisions.

(4) Tower top articulation

For towers containing #residences#, the highest three #stories#, or as many #stories# as are located entirely above a height of 120 feet, whichever is less, shall have a #lot coverage# of at least 50 percent of the #story# immediately below such #stories#, and a maximum #lot coverage# of 80 percent of the #story# immediately below such #stories#. Such reduced #lot coverage# shall be achieved by one or more setbacks on each face of the

tower, where at least one setback on each tower face has a depth of at least four feet, and a width that, individually or in the aggregate, is equal to at least 10 percent of the width of such respective tower face. For the purposes of this paragraph (c)(4), each tower shall have four tower faces, with each face being the side of a rectangle within which the outermost walls of the highest #story# not subject to the reduced #lot coverage# provisions have been inscribed. The required setbacks shall be measured from the outermost walls of the #building# facing each tower face. Required setback areas may overlap.

(5) Distance between towers

The minimum distance between all towers shall be 60 feet.

(6) Tower walls without setbacks

To permit a #building# to rise from grade to a tower portion without setback, the setback provisions of paragraph (b) of this Section shall not apply to any portion of a #building# located within the tower wall location areas shown on Map 4 in the Appendix to this Chapter, provided that this exception from paragraph (b) of this Section shall not apply to more than one tower for each #block#.

(d) Maximum total height

Notwithstanding any other provisions of this Chapter, no #building or other structure# shall exceed the height limits depicted on Map 3. The height limits established in Map 3 include reference points for two airport approach surface areas that are continuous planes, and one area with a maximum height limitation of 232 feet above mean sea level (AMSL). The coordinates of the points are:

Point 1	73°50'42.9"W	40°45'38.1"N
Point 2	73°50'36.8"W	40°45'45.6"N
Point 3	73°50'26.6"W	40°45'39.3"N
Point 4	73°50'33.6"W	40°45'30.7"N

The height limits hereby established supersede the height limits described in Article VI, Chapter 1 (SPECIAL REGULATIONS APPLYING AROUND MAJOR AIRPORTS). Application may be made to the Board of Standards and Appeals pursuant to Section 73-66 (Height Regulations Around Airports) for a permit to construct a #building or other structure# in excess of what is permitted pursuant to this paragraph (d), provided that such application is also referred to the Port Authority of New York and New Jersey.

- (b) the minimum width of the screening buffer pursuant to paragraph (c)(2)(ii) of Section 62-62 (Design Requirements for Shore Public Walkways and Supplemental Public Access Areas) shall be four feet. No screening buffer shall be required where there is a pathway connecting a required circulation path towards a publicly accessible sidewalk or entry to a commercial or community facility use; and
- (c) the grade level of required planting areas pursuant to paragraph (d)(2) of Section 62-61 (General Provisions Applying to Waterfront Public Access Areas) shall be increased to no more than three feet higher or lower than the adjoining level of the pedestrian circulation path.

127-532 - Upland connections

LAST AMENDED 12/10/2020

For #developments# within Parcels 1, 2, 3, 4, 5 and 7, #upland connections# shall be provided as specified on Map 6 (Waterfront Access Plan: Public Access Areas) in the Appendix to this Chapter. The applicable provisions of Section 62-56 (Requirements for Upland Connections) and Section 62-60 (DESIGN REQUIREMENTS FOR WATERFRONT PUBLIC ACCESS AREAS), inclusive, shall apply except as modified in this Section.

(a) Flexible location zone

For #developments# on Parcels 1, 2 and 3, a single #upland connection# shall be provided pursuant to the following provisions:

- (1) If Parcel 1 #develops# before Parcels 2 or 3, a Type 1 #upland connection# shall be provided with a minimum width of 20 feet. The requirements of paragraph (a)(2) of Section 62-561 (Types of upland connections) shall not apply and the minimum planting area requirements shall be reduced to 25 percent. Where such #upland connection# is provided without a 20-foot-wide open area, an average maintained level of illumination of not less than one and a half horizontal foot candles (lumens per foot) shall be provided throughout all walkable areas;
- (2) If Parcels 1 and 2 are #developed# jointly before Parcel 3, an #upland connection# shall be provided on Parcels 1 and 2, along their southerly boundary, pursuant to the requirements of Sections 62-561 and 62-64 (Design Requirements for Upland Connections). The 20-foot-wide open area required pursuant to paragraph (a)(2) of Section 62-561 shall be provided on Parcel 3, along its northerly boundary, at the time Parcel 3 #develops#. In any event, the required open area shall abut such required upland connection;

(3) If Parcel 3 #develops# before Parcels 1 or 2:

- (i) where a #development# is comprised predominantly of Use Groups 1 through 15 inclusive, an #upland connection# shall be provided on Parcel 3 pursuant to the requirements of Section 62-561 and Section 62-64. If such #upland connection# is provided along the northerly boundary of such Parcel, the required 20-foot-wide open area pursuant to paragraph (a)(2) of Section 62-561 shall be satisfied on Parcels 1 and 2, along the southerly boundary, at the time these parcels #develop#. However, in any event, the required open area shall abut such required upland connection;
- (ii) where a #development# is comprised predominantly of #uses# in either Use Groups 16, 17 or 18, a Type 1 #upland connection# shall be provided with a minimum width of 20 feet. The requirements of paragraph (a)(2) of Section 62-561 shall not apply and the minimum planting area requirements shall be reduced to 25 percent; or

(4) If Parcels 2 and 3 are #developed# jointly before Parcel 1, an #upland connection# shall be provided pursuant to the requirements of Sections 62-561 and 62-64.

For any other sequencing or combination of #developments#, a single #upland connection# shall be provided pursuant to the provisions of Sections 62-561 and 62-64 within the flexible location zone on Map 6.

(b) Minimum standards for interim condition

Where an #upland connection# is designated on two or more parcels and only a portion of such #upland connection# can be constructed pursuant to a specific certification, such portion of the #upland connection# may be provided independently to satisfy the requirements of Section 62-56. Where the New York City Fire Department determines that such requirements conflict with the provision of unobstructed width for fire apparatus access roads pursuant to the New York City Fire Code, the design requirements of Section 62-60 shall be modified to the minimum extent necessary to accommodate such fire apparatus access roads requirements. However, all interim conditions shall meet the following requirements:

- (1) provide public access from the first upland #street# to the #shore public walkway#; and
- (2) for every tree pit required pursuant to the provisions of paragraph (c)(1) of Section 62-64 (Planting) that is not provided, a moveable planter shall be provided.

Such interim condition shall be certified pursuant to paragraph (a)(1) of Section 127-542 (Supplemental provisions) and Section 127-61 (Certification for Interim Grading Conditions).

127-533 - Phased development of waterfront public access areas

LAST AMENDED 12/10/2020

When a parcel is undergoing partial #development# or the #zoning lot# corresponding to a parcel is subdivided or reconfigured pursuant to Section 62-812 (Zoning lot subdivision), the City Planning Commission may authorize a phasing plan to implement #waterfront public access area# improvements pursuant to paragraph (c) of Section 62-822 (Modification of waterfront public access area and visual corridor requirements).

However, in Subdistrict B, when partial #development# occurs on the upland portion of Parcels 4, 5 and 7 that is bounded by #publicly accessible private streets# or #streets#, a phasing plan to implement #waterfront public access areas# may be certified pursuant to Section 127-54 (Special Review Provisions), provided that the following requirements are met:

- (a) the #waterfront public access area# shall be provided according to the phasing specified in Map 7 (Waterfront Access

Plan: Phase I Waterfront Public Access Area Improvements) and Map 8 (Waterfront Access Plan: Phase II Waterfront Public Access Area Improvements). The requirements of Phase I shall apply when #development# occurs on the upland portion of the parcel bounded by #publicly accessible private streets# and other #streets# as shown on Map 6 (Waterfront Access Plan: Public Access Areas). The requirements of Phase II shall apply when #development# occurs on the seaward portion of the parcel bounded by both the #shoreline# and #publicly accessible private streets#; and

- (b) any #upland connection# provided pursuant to Phase I shall meet the design requirements of paragraph (b) of Section 127-532 (Upland connections). For portions of the #shore public walkway# that are provided in Phase I, the requirements of Sections 62-53 (Requirements for Shore Public Walkways) and 62-60 (DESIGN REQUIREMENTS FOR WATERFRONT PUBLIC ACCESS AREAS) may be modified to the minimum extent necessary to accommodate a temporary waterfront viewing area.

Such phasing plan shall also be certified pursuant to Section 127-61 (Certification for Interim Grading Conditions).

127-54 - Special Review Provisions

LAST AMENDED 12/10/2020

The applicable provisions of Section 62-80 (SPECIAL REVIEW PROVISIONS), inclusive, shall apply, except as specifically modified or supplemented by the provisions of this Section, inclusive.

127-541 - Applicability

LAST AMENDED 12/10/2020

The provisions of Section 62-81, inclusive, shall apply to #zoning lots# containing predominantly #uses# in Use Groups 16, 17, or 18, subject to the modified #waterfront public access area# provisions of Section 127-50 (FLUSHING WATERFRONT ACCESS PLAN), inclusive.

127-542 - Supplemental provisions

LAST AMENDED 12/10/2020

In conjunction with a certification pursuant to Section 62-811 (Waterfront public access and visual corridors), the Chairperson of the City Planning Commission shall further certify that:

- (a) where an #upland connection# is designated on two or more parcels and the portion of such #upland connection# located outside of the applicant's parcel will not be constructed concurrently with the applicant's #development#:
- (1) if no prior certification pursuant to this Section was issued for a portion of an #upland connection# on another parcel, the Chairperson shall certify that:
 - (i) a #conceptual plan# has been submitted for the #publicly accessible private street#. In addition, notification that the applicant is seeking to commence construction of such #publicly accessible private street# shall be given to any other owner whose property contains any remaining portion of the #publicly accessible private street#, along with a copy of such #conceptual plan#;
 - (ii) a site plan has been submitted, specifying the location, dimensions and grading of the portion of the #upland connection# to be constructed on the applicant's #zoning lot#. Such site plan shall demonstrate

compliance with the requirements of paragraph (b) of Section 127-532 (Upland connections); and

- (iii) the grading proposed in the #conceptual plan# has been certified pursuant to Section 127-61.

Property owners of the parcel containing a remaining portion of the #upland connection# shall have up to 30 days from the applicant's certified mailing of the notification required in paragraph (a)(1)(i) of this Section to respond to the applicant and to confirm for the Chairperson that the construction of the entire #upland connection# is not feasible concurrently with the applicant's #development#. In the event such notified property owners do not respond to the applicant and the Chairperson within the 30-day period, the applicant may proceed with completing this certification. Where a notified property owner responds that it is feasible to complete the portion of the #upland connection# on their parcels concurrently with the applicant's #development#, such property owner shall commence certification pursuant to the applicable provisions of this Section within 45 days from the date of submitting such response. In the event such notified property owners do not commence such certification within the 45-day period, the applicant may proceed with completing this certification.

In addition, where construction of the #upland connection# will not occur concurrently, property owners of parcels containing a remaining portion of the #upland connection# shall have up to 45 days from the date of submitting their response to comment on any anticipated practical difficulties associated with the proposed location, dimensions and grading specified in the #conceptual plan# that would preclude the reasonable #development# of such owner's parcel. Any submission of comments to the applicant and Chairperson shall include documentation from a licensed architect, landscape architect, or engineer, as applicable, that demonstrates the reason for such anticipated practical difficulties.

Copies of the approved #conceptual plan#, as well as the certified #interim site plan# and #final site plan# shall be forwarded to any property owner of a parcel containing the remaining portion of the #upland connection#.

Any portion of the #upland connection# constructed in compliance with a certified #interim site plan# shall be converted to the final design in compliance with the certified #final site plan# for such portion upon receiving notice from an adjoining property owner as set forth in paragraph (a)(2) of this Section that the remaining portion of the #upland connection# has been substantially completed and is accessible to the public.

- (2) If a prior certification pursuant to paragraph (a)(1) of this Section was issued for a portion of the #upland connection# on another parcel, the Chairperson shall certify that:
 - (i) a #final site plan# for the applicant's parcel has been submitted that is consistent with the #conceptual plan# from the prior certification; and
 - (ii) the proposed amenities and design elements within the #final site plan# for the applicant's portion of the #upland connection# shall match or complement those that were previously constructed.

Notice shall be provided to any property owner of a parcel containing a portion of the #upland connection# that has been constructed pursuant to a certified #interim site plan# upon the applicant substantially completing its portion of the #upland connection# and making such portion accessible to the public. Such notice shall be provided to enable such other owner sufficient time, as shall be specified in the restrictive declaration required pursuant to this paragraph (a), to convert any constructed interim condition and complete the #upland connection# in compliance with the previously approved #final site plan#.

A restrictive declaration shall be executed and recorded against the corresponding #zoning lot# of the applicant's parcel, in accordance with the provisions of Section 62-74 (Requirements for Recordation). Required site plans, the #conceptual plan# and a maintenance and capital repair plan for the #upland connection# shall be included as exhibits

to the restrictive declaration.

No temporary or final certificate of occupancy shall be issued until the Chairperson of the City Planning Commission notifies the Department of Buildings that the proposed #upland connection#, or portion thereof, has been substantially completed in compliance with the certified #interim site plan# or #final site plan#, and is open to the public. In addition, where a property owner sought certification pursuant to paragraph (a)(2) of this Section, no temporary or final certificate of occupancy shall be issued until interim portions of the #upland connection# are completed in compliance with the previously approved the #final site plan# for such portions.

- (b) For phased implementation of #waterfront public access areas# pursuant to Section 127-533 (Phased development of waterfront public access areas), a plan has been submitted that complies with the required amount of #waterfront public access area# at each development phase pursuant to Section 127-533.

To ensure the provision of #waterfront public access areas# for phased #developments# occurring in Phase I, as specified on Map 7 (Waterfront Access Plan: Phase I Waterfront Public Access Improvements) in the Appendix to this Chapter, no temporary certificate of occupancy shall be issued for any #development# on the upland portion of each parcel that is bounded by #publicly accessible private streets# or #streets# until all required sections of #waterfront public access areas# designated on Map 7 have been substantially completed pursuant to the design requirements of Section 127-533.

For Phase II subsequent #development# occurring on the seaward portion of Parcels 4, 5 or 7, bounded by both the #shoreline# and #publicly accessible private streets#, all remaining #waterfront public access areas#, as specified on Map 8 (Waterfront Access Plan: Phase II Waterfront Public Access Improvements), shall be substantially completed pursuant to the design requirements of Section 127-533, prior to the issuance of a temporary or final certificate of occupancy. However, 50 percent of the #floor area# of any subsequent #development# on Parcels 4 and 5 may receive a temporary certificate of occupancy upon the completion of the required #shore public walkway# as designated on such parcel. A temporary or final certificate of occupancy for the remaining 50 percent of the #floor area# on Parcels 4 and 5 shall not be issued until all required #waterfront public access areas# pursuant to Map 8 are substantially complete.

An alternate location for the required section of an #upland connection# on Parcel 4 may be provided in Phase I, as specified in Map 7, in the event that Parcel 5 has substantially completed all of the required #waterfront public access areas# prior to partial #development# on the upland portion of Parcel 4. Where such alternate location is provided in Phase I, any subsequent #development# on Parcel 4 may only receive a temporary or final certificate of occupancy upon substantial completion of all required #waterfront public access areas# designated on Map 8.

A certification will be granted on condition that an acceptable restrictive declaration is executed and filed pursuant to Section 62-74 (Requirements for Recordation).

LAST AMENDED 12/10/2020

127-61 - Certification for Interim Grading Conditions

LAST AMENDED 12/10/2020

For any #development# or #enlargement# seeking:

- (a) modification to the level of #waterfront yard# provisions of Section 127-22 (Special Yard Regulations);

(b) a certification pursuant to paragraph (b)(1) of Section 127-422 (Certification for a publicly accessible private street); or

(c) a certification pursuant to Section 127-542 (Supplemental provisions),

the Chairperson of the City Planning Commission shall certify that a site survey has been conducted and sufficient documentation has been submitted, demonstrating that the proposed grades of a #waterfront yard#, interim plan for a #publicly accessible private street# or #upland connection# would not preclude #developments# or #enlargements# on adjacent parcels from complying with the provisions of this Chapter as part of an integrated public realm.

- (f) to enhance neighborhood economic diversity by broadening the range of housing choices for residents at varied incomes; and

128-35 - Towers

LAST AMENDED

2/2/2011

The tower provisions of this Section shall apply, as an option, to any #zoning lot# with a #lot area# of at least 10,000 square feet. Any portion of a #building# #developed# or #enlarged# on such #zoning lots# that exceeds the applicable maximum base height shall be constructed as either a point tower or a broad tower, as follows:

(a) Point tower

(1) Tower #lot coverage# and maximum length

Each #story# located entirely above a height of 75 feet shall not exceed a gross area of 6,800 square feet. The outermost walls of each #story# shall be inscribed within a rectangle, and the maximum length of any side of such rectangle shall be 85 feet.

(2) Tower top articulation

The highest three #stories#, or as many #stories# as are located entirely above a height of 75 feet, whichever is less, shall have a #lot coverage# of at least 50 percent of the #story# immediately below such #stories#, and a maximum #lot coverage# of 80 percent of the #story# immediately below such #stories#. Such reduced #lot coverage# shall be achieved by one or more setbacks on each face of the tower, where at least one setback on each tower face has a depth of at least four feet, and a width that, individually or in the aggregate, is equal to at least 10 percent of the width of such respective tower face. For the purposes of this paragraph (a)(2), each tower shall

have four tower faces, with each face being the side of a rectangle within which the outermost walls of the highest #story# not subject to the reduced #lot coverage# provisions have been inscribed. The required setbacks shall be measured from the outermost walls of the #building# facing each tower face. Required setback areas may overlap.

(b) Broad tower

Each #story# located entirely above a height of 75 feet shall not exceed a gross area of 8,800 square feet. The outermost walls of each such #story# shall be inscribed within a rectangle, and the maximum length of any side of such rectangle shall be 135 feet. The upper #stories# shall provide setbacks with a minimum depth of 15 feet measured from the east facing wall of the #story# immediately below. Such setbacks shall be provided at the level of three different #stories#, or as many #stories# as are located entirely above a height of 75 feet, whichever is less. For towers with at least six #stories# located entirely above a height of 75 feet, the lowest level at which such setbacks may be provided is 100 feet, and the highest #story# shall be located entirely within the western half of the tower.

(c) Orientation of all towers

The maximum length of the outermost walls of any side of each #story# of a #building# facing the #shoreline# that is entirely above a height of 75 feet shall not exceed 80 feet. For the purposes of this Section, the #street line# of St. Marks Place shall be considered to be a line parallel to the #shoreline#, and any side of such rectangle facing St. Marks Place from which lines perpendicular to the #street line# of St. Marks Place may be drawn, regardless of intervening structures, properties or #streets#, shall not exceed 80 feet.

(d) Location of all towers

Any portion of a #building# that exceeds a height of 70 feet shall be no closer to a #side lot line# than eight feet, and any #story# of a #building# that is entirely above a height of 70 feet shall be located within 25 feet of a #street line# or sidewalk widening line, where applicable.

(e) Maximum tower height

The maximum height of any #building# utilizing the tower provisions of this Section shall be 200 feet. The height of the tower portion of the #building# shall be measured from the #base plane#.

(f) Tower and base integration

All portions of a #building# that exceed the applicable maximum base height set forth in Section 128-33 shall be set back at least 10 feet from the #street wall# of a #building# facing a #wide street# and at least 15 feet from the #street wall# of a #building# facing a #narrow street#. However, up to 50 percent of the #street wall# of the portion of the #building# located above a height of 75 feet need not be set back from the #street wall# of the #building#, and may rise without setback from grade, provided such portion of the #building# is set back at least 10 feet from a #wide# #street line# or sidewalk widening line, where applicable, and at least 15 feet from a #narrow# #street line# or sidewalk widening line, where applicable.

(g) Tower exclusion areas

No #building or other structure# may exceed a height of 75 feet within the areas designated on Map 4 (Tower Restriction Areas) in the Appendix to this Chapter.

- (e) through approval of the Proposed Plans:
 - (1) establish appropriate requirements for the height and setback of #buildings or other structures#, permitted obstructions in #yards#, off-street parking and loading; and
 - (2) permit #floor area# to be distributed within the North Waterfront Subdistrict without regard for #zoning# #lot lines#, provided that if distribution is made to a #zoning lot#, subject to a special permit granted under this Section, from a #zoning lot# not subject to such special permit, Notices of Restriction in a form acceptable to the Department of City Planning shall be filed against such #zoning lots# setting forth the increase and decrease in the #floor area# on such #zoning lots#, respectively.
- (f) The Commission shall find that the Proposed Plans:
 - (1) include #uses# that are appropriate, considering the unique location of the site in relation to the Staten Island Ferry Terminal, the Staten Island Rail Road, and the land #uses# in and around the #Special St. George District# ;
 - (2) provide a distribution of #floor area#, locations and heights of #buildings or other structures#, primary business entrances and open areas, that will result in a superior site plan, providing a well-designed relationship between #buildings and other structures# and open areas on the #zoning lot#; and shall also provide a well-designed relationship between the site and adjacent #streets#, surrounding #buildings#, adjacent off-site open areas and #shorelines# and will thus benefit the users of the site, the neighborhood and the City as a whole;
 - (3) provide a distribution of #floor area# and locations and heights of #buildings or other structures# that will not unduly increase the #bulk# of #buildings or other structures# in the North Waterfront Subdistrict or unduly obstruct access of light and air to the detriment of the users of the site or nearby #blocks# or of people using the public #streets#, and that will provide waterfront vistas from nearby #streets# and properties on nearby #blocks# ;
 - (4) provide useful and attractive publicly accessible open space, with sufficient public amenities, including but not limited to seating, landscaping and lighting, that results in a superior relationship with surrounding neighborhood destinations, #streets#, #buildings#, open areas, public facilities and the waterfront;
 - (5) improve public access to the waterfront;

- (6) improve, as applicable, the publicly accessible waterfront open space sufficiently to ensure that emergency vehicles will have adequate access to the waterfront and adjacent #developments# ;

- (9) provide adequate parking for commuters at locations convenient and accessible to the Staten Island Ferry Terminal at all times and during all phases of construction;
- (10) provide signage and lighting that are compatible with the scenic and historic character of the harbor and that will not adversely affect the character of the surrounding neighborhood;
- (11) for a #public parking garage# with more than 150 parking spaces, will ensure that:
 - (i) entrances are proposed in locations and with design features that minimize traffic congestion and conflicts with pedestrians;
 - (ii) adequate reservoir space has been provided at the vehicular entrances; and
 - (iii) the #streets# providing access to such #use# will be adequate to handle the traffic generated thereby; and
- (12) for a #development# located partially or entirely within a railroad or transit right-of-way or yard and/or in #railroad or transit air space#, that:
 - (i) the distribution of #floor area# does not adversely affect the character of the surrounding area by being unduly concentrated in any portion of such #development#, including any portion of the #development# located beyond the boundaries of such railroad or transit right-of-way or yard; and
 - (ii) if such railroad or transit right-of-way or yard is deemed appropriate for future transportation #use#, the site plan and structural design of the #development# do not preclude future use of, or improvements to, the right-of-way for such transportation #use#.

The Commission may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area. In addition, for a #development# located partially or entirely within a railroad or transit right-of-way or yard, or in #railroad or transit air space#, the Commission may require that the structural design of such #development# makes due allowance for changes within the layout of tracks or other structures within any #railroad or transit air space# or railroad or transit right-of-way or yard which may be deemed necessary in connection with future development or improvement of the transportation system.

Prior to granting a special permit, the Commission shall request the Metropolitan Transportation Authority to indicate whether said agency has any plan to use that portion of any #railroad or transit air space# or railroad or transit right-of-way or yard where the railroad or transit #use# has been discontinued.

The execution and recordation of a restrictive declaration acceptable to the Commission, binding the owners, successors and assigns to maintain such #developments#, #enlargements#, alterations, changes of #use#, and any temporary parking facilities, in accordance with the approved Proposed Plans, and in a manner consistent with any additional conditions and safeguards prescribed by the Commission, shall be a condition to exercise of the special permit. Such restrictive declaration shall be recorded in the Office of the County Clerk. A copy of such declaration shall be provided to the Department of Buildings upon application for any building permit related to a #development#, #enlargement# or change of #use#.

131-60 - SPECIAL PERMIT FOR AUDITORIUMS

LAST AMENDED
12/19/2013

The special permit set forth in this Section is established to allow outdoor entertainment #uses# on a limited-term basis in a unique beachfront location within the #Special Coney Island District#. The development of such #uses# on a temporary basis pursuant to this special permit provides for the opportunity for a valuable public amenity to exist within an area that, while approved for future #residential development# pursuant to the #Special Coney Island District# plan, is currently underutilized and does not exhibit the characteristics of a well-developed #residential# neighborhood. Any special permit granted under this Section shall be subject to a term of years, in order to ensure that such #uses# are consistent with, and do not impede, the goal of long-term revitalization of the surrounding area, pursuant to the #Special Coney Island District# plan.

In the Coney West Subdistrict, for Parcels B and G, the City Planning Commission may approve, by special permit, open-air auditoriums with greater than 2,000 seats, for a term no greater than 10 years from the date a certificate of occupancy, including a temporary certificate of occupancy, has been issued, provided that the proposed auditorium meets the conditions of paragraph (a) and the findings of paragraph (b) of this Section, in addition to the #sign# provisions of paragraph (c) and parking provisions of paragraph (d) of this Section.

For any application for such special permit, the applicant shall provide plans to the Commission including, but not limited to, a site plan, signage plan, parking and loading plan, lighting plan and an operations plan (the "Proposed Plans").

- (a) The Commission may permit open-air auditoriums with a maximum of 5,100 seats, provided the Proposed Plans demonstrate that:

- (1) at all times when Riegelmann Boardwalk is open to the public, all publicly accessible space, as shown on the Proposed Plans, will remain accessible to the public, except that access may be restricted as necessary during scheduled events, for the setup and takedown for such events, and in connection with maintenance activities. Any barriers erected for the purpose of restricting access or visibility during such events shall be completely removed at all other times;
 - (2) the height of all structures, temporary or fixed, does not exceed 70 feet in height, as measured from the level of Riegelmann Boardwalk;
 - (3) any roof or structural canopy above the open-air auditorium seating area will be removed prior to the month of November and shall remain removed during the entire off-season period between November through April, as well as in advance of severe weather events;
 - (4) the signage plan and parking and loading plan comply with the provisions of paragraphs (c) and (d) of this Section, respectively; and
 - (5) the City and applicant will enter into an agreement under which Parcel G will be returned to the City as of the expiration of the term of the special permit in a condition set forth in such agreement appropriate for #use# as a #public park#.
- (b) In granting such permit, the Commission shall find that:
- (1) such open-air auditorium will not unduly impair the essential character or the future #use# or #development# of the surrounding area, pursuant to the goals and objectives of the #Special Coney Island District# plan;
 - (2) the outdoor lighting for such open-air auditorium is located and arranged so as to minimize any negative effects on nearby #residences# and #community facilities#, and that the Proposed Plans include noise attenuation features and measures which serve to reduce the effect of noise from the open-air auditorium on the surrounding area, including nearby #residences# and #community facilities# ;
 - (3) the construction of a stage as part of any #building# on Parcel B, for the purpose of accommodating an open-air auditorium #use#, will:
 - (i) enable the stage area to be closed to the outdoor portion of the open-air auditorium during the off-season when the open-air auditorium is not in use, so as to be operated for indoor entertainment #uses# with an eating and drinking establishment or other #use# permitted on Parcel B; and
 - (ii) allow for such #building# to be operated, subsequent to the expiration of the special permit, for #uses# permitted on Parcel B, such as eating or drinking establishments with entertainment;
 - (4) appropriate visual and pedestrian connections are maintained in the general area of the former street bed from the termination of West 22st Street to Riegelmann Boardwalk;
 - (5) the portions of the site not dedicated to the stage area or event seating are so designed to serve as a full time park-like resource for the public, and the portions of the site designed for open-air auditorium #use# serve as a high-quality open space resource when not in auditorium use;
 - (6) any roof or structural canopy above the open-air auditorium seating area will be visually unobtrusive, and maximize openness and visibility between the site and Riegelmann Boardwalk;
 - (7) the operations plan, which shall include a protocol for queuing for concertgoers, demonstrates that there would be no interference with the public use and enjoyment of adjacent public facilities; and
 - (8) the site plan, signage plan and lighting plan incorporate good design, effectively integrate the site with surrounding streets and Riegelmann Boardwalk, and are consistent with the purposes of the #Special Coney Island District#.
- (c) The Commission may, through approval of the Proposed Plans, permit #signs# notwithstanding the applicable #sign# regulations, except that #flashing signs# shall not be permitted and only #advertising signs# that are oriented toward the interior of the open-air auditorium and not visible from Riegelmann Boardwalk or other public area shall be permitted.

In order to permit such #signs#, the Commission shall find that proposed signage is appropriate in connection with the permitted open-air auditorium #use#, is not unduly concentrated within one portion of the site, and will not negatively affect the surrounding area.

- (d) The Commission may, through approval of the Proposed Plans, reduce or waive required parking or loading requirements, provided the Commission finds that the open-air auditorium will be adequately served by a combination of surrounding public parking facilities and mass transit. In addition, the Commission shall find that the proposed loading facilities on the site are located so as not to adversely affect the movement of pedestrians or vehicles on the #streets# surrounding the auditorium.

The Commission may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area. Such conditions and safeguards may include, but are not limited to, restrictions on signage or requirements for soundproofing of auditoriums, shielding of floodlights or screening of open #uses#.

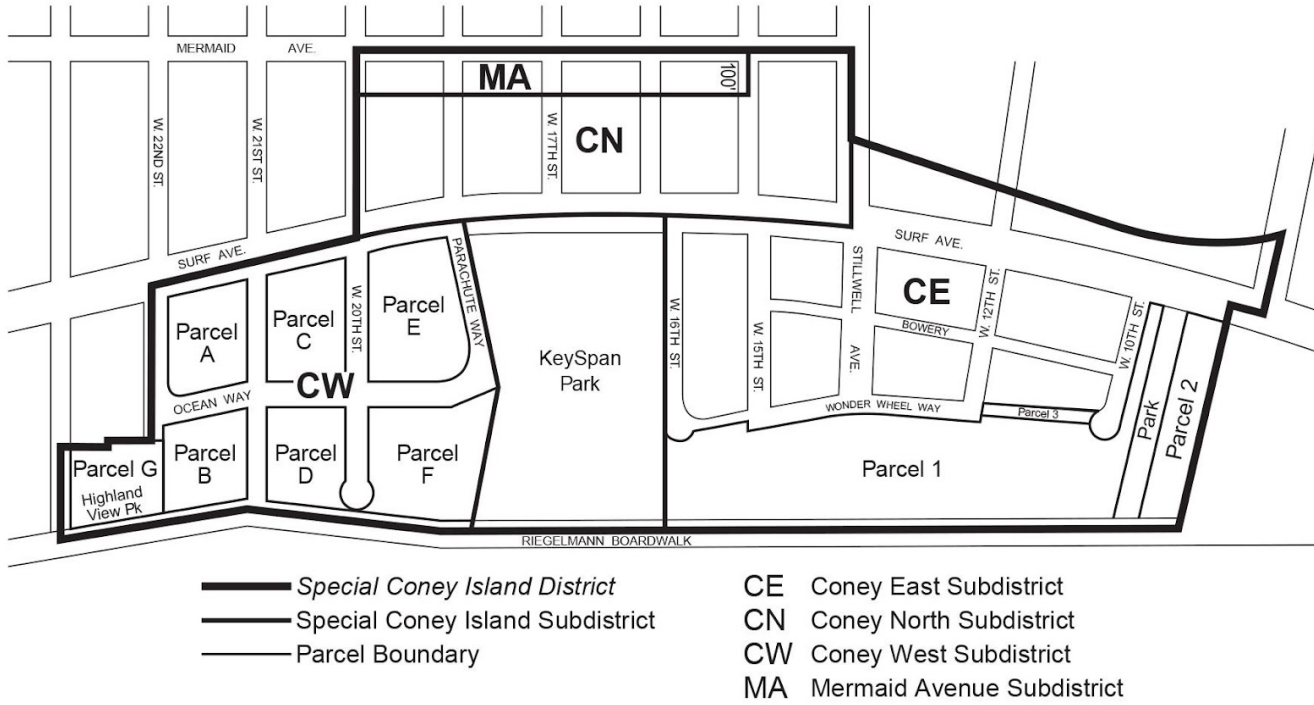

Upon the first issuance of this permit for an open-air auditorium, the effective period of the permit shall be 10 years from the date a certificate of occupancy, including a temporary certificate of occupancy, has been issued. To establish the term of years for subsequent applications for this special permit, the Commission shall, in determining whether the finding of paragraph (b)(1) of this Section is met, take into account the existing character of the surrounding area, as well as

#residential# and #community facility development# proposed or under construction on surrounding #blocks#, and shall also consider whether continuation of such auditorium #use# within a proposed term of years would be compatible with or may hinder achievement of the goals and objectives of the #Special Coney Island District# plan. Subsequent applications for this special permit shall be filed no later than one year prior to expiration of the term of the permit then in effect.

- (b) the applicant has submitted an affidavit attesting to and including information that:
- (1) at the time of application for #extension#, the #use# has existed within such #building# for a period of one year; and
 - (2) such existing establishment cannot #extend# without increasing the #street wall# width for such establishment because of:
 - (i) physical restrictions created by the #building# design, including, but not limited to, the location of existing structural walls and vertical circulation cores;

In #Special Enhanced Commercial Districts# 2 and 3, the City Planning Commission may authorize a modification of the maximum #street wall# width of non-#residential# establishments, as set forth in paragraphs (a) and (b) of Section 132-24, provided the Commission finds that:

- (a) such additional frontage space is required for the operation of such proposed #use#, and such #use# cannot be reasonably configured within the permitted #street wall# width; or
- (b) a high ground floor vacancy rate exists within a reasonable distance of the proposed #use#, and such high vacancy rate is a consequence of adverse market conditions.

The land use application for an authorization pursuant to this Section shall be sent to the applicable Community Board. The Chairperson will not act on such application until the Community Board's comments have been received, or the 30 day comment period has expired, whichever is earlier.

LAST AMENDED

9/7/2017

The requirements of this Section shall apply to #zoning lots# containing #developments# or #enlargements# within the current or former Downtown Far Rockaway Urban Renewal Area.

No building permit shall be issued for any #development# or #enlargement# until the Chairperson of the City Planning Commission certifies to the Department of Buildings that such #development# or #enlargement# complies with the provisions of this Section.

The Chairperson shall certify that:

- (a) all publicly accessible open spaces adjacent to the proposed #development# or #enlargement# comply with the provisions of Section 136-324 (Publicly accessible open space requirements);
- (b) the location of private streets adjacent to the proposed #development# or #enlargement# complies with the provisions of Section 136-323 (Private streets); and
- (c) for any portion of Subdistrict A outside the area of the proposed #development# or #enlargement# for which a certification pursuant to this Section has not been obtained, the applicant has submitted sufficient documentation showing that the #development# or #enlargement# that is the subject of this certification, and any associated private streets and publicly accessible open spaces required to be constructed in conjunction with such #development# or #enlargement#, shall not preclude such undeveloped portions of Subdistrict A from complying with the provisions of Sections 136-323 and 136-324 under future certifications pursuant to this Section.

All required private streets and publicly accessible open spaces, once certified in accordance with the provisions of this Section, shall be duly recorded in the form of a signed declaration of restrictions, including provisions for the maintenance and operation of such private streets and publicly accessible open spaces, indexed against the property, binding the owners, successors and assigns to provide and maintain such private streets and publicly accessible open spaces in accordance with the plans certified by the Chairperson. Such declaration, or any maintenance and operation agreement with the City or its designee executed in connection with such declaration, shall require that adequate security be provided to ensure that the private streets and public access areas are maintained in accordance with the declaration and any related maintenance and operation agreement and are closed only at authorized times. The filing of such declaration in the Borough Office of the Register of the City of New York

shall be a precondition for the issuance of a building permit.

In addition, the private streets and publicly accessible open spaces integral to the #development# or #enlargement# of a #building#, as indicated in the plans certified by the Chairperson, shall be recorded on the certificate of occupancy for such #building# by the Department of Buildings. The recording information of the declaration of restrictions shall be included on the certificate of occupancy for any #building#, or portion thereof, issued after the recording date.

The property owner shall be responsible for the construction and maintenance of all required private streets and publicly accessible open spaces on the #zoning lot#. No temporary or final certificate of occupancy shall be issued for any #building# adjacent to such private street or publicly accessible open space until all required improvements are completed, except as set forth in a phasing plan that has been incorporated in a signed and duly recorded declaration of restrictions, and that has provided for interim improvements and access where these do not present conflicts with construction, staging or public safety.

A sidewalk widening is a continuous, paved open area along the #street line# of a #zoning lot#, located within the #zoning lot#. A sidewalk widening shall be provided along #streets# as shown on Map 8, to the extent necessary, so that a minimum sidewalk width of 13 feet or 18 feet, as applicable, is achieved, including portions within and beyond the #zoning lot#. Such depth shall be measured perpendicular to the #street line#. Sidewalk widenings shall be improved as sidewalks to Department of Transportation standards, at the same level as the adjoining public sidewalk and shall be directly accessible to the public at all times. No #enlargement# shall be permitted to decrease the depth of such sidewalk widening to less than such minimum required depth.

Lighting shall be provided with a minimum level of illumination of not less than two horizontal foot candles throughout the entire mandatory sidewalk widening. Lighting fixtures installed by the Department of Transportation within the #street# adjacent to such sidewalk widening shall be included in the calculation of the required level of illumination.

Where a continuous sidewalk widening is provided on the #zoning lot#, along the entire #block# frontage of a #street#, the boundary of the sidewalk widening within the #zoning lot# shall be considered to be the #street line# for the purposes of Sections 136-22 (Height and Setback Regulations) and 136-31 (Special Height and Setback Regulations Within Subdistrict A).

136-51 - Authorization to Modify Provisions for Publicly Accessible Open Spaces and Private Streets

LAST AMENDED
9/7/2017

The City Planning Commission may authorize modification of the provisions of Sections 136-323 (Private streets) and 136-324 (Publicly accessible open space requirements), provided that the Commission shall find that:

- (a) the usefulness and attractiveness of the publicly accessible open space will be improved by the proposed design and layout;
- (b) such modification to private street provisions will result in a private street network that will ensure pedestrian and vehicular mobility and safety and will be well integrated with the surrounding #streets#; and
- (c) such modification will result in a superior urban design relationship with surrounding #buildings# and open areas, including #streets# and private streets.

The Commission may prescribe appropriate conditions and controls to enhance the relationship of such publicly accessible open spaces and private streets to surrounding #buildings# and open areas.

136-52 - Authorization to Modify Bulk Regulations for Income-Restricted Housing Units

The Commission shall find that such modifications:

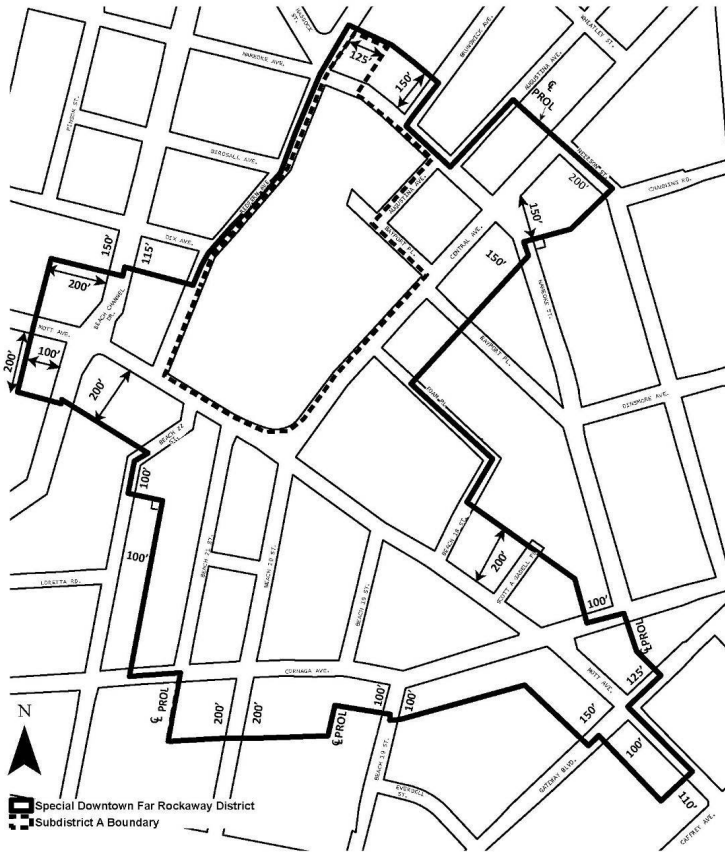

- (1) will aid in achieving the general purposes and intent of this Chapter as set forth in Section 136-00 (GENERAL PURPOSES);
- (2) will provide a better distribution of #bulk# on the #zoning lot#, resulting in a superior site plan, in which the #buildings# subject to this authorization and any associated open areas will relate harmoniously with one another and with adjacent #buildings# and open areas; and
- (3) will not unduly increase the #bulk# of any #building# or unduly obstruct access of adequate light and air to the detriment of the occupants or users of #buildings# on the #block# or nearby #blocks#, or of people using the public #streets# and other public spaces.

The City Planning Commission may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area.

Chapter 7 - Special Coastal Risk District (CR)

137-00 - GENERAL PURPOSES

LAST AMENDED

9/7/2017

The “Special Coastal Risk District” established in this Resolution is designed to promote and protect public health, safety and general welfare in coastal areas that are currently at exceptional risk from flooding and may face greater risk in the future. These general goals include, among others, the following specific purposes:

- (a) to limit the population in areas that are vulnerable to frequent flooding, including those areas exceptionally at risk from projected future tidal flooding;
 - (b) to reduce the potential for property damage and disruption from regular flood events and support the City’s capacity to provide infrastructure and services;
 - (c) to promote consistency with planned improvements, neighborhood plans, and other measures to promote drainage, coastal protection, open space and other public purposes;
 - (d) provide sound planning in areas that have historically been occupied by wetlands and, where plans exist, for such areas to be maintained as open space; and
 - (e) to promote the most desirable use of land and thus conserve the value of land and buildings, and thereby protect the City’s tax revenue.

- (c) will not adversely affect pedestrian movement;
- (d) will not interfere with the efficient functioning of bus lanes, specially designated streets or public transit facilities; and
- (e) will not be inconsistent with the character of the existing streetscape.

For the purposes of applying the special #ground floor level# streetscape provisions set forth in Section 37-30 to this Chapter, the portion of a #ground floor level street# frontage considered a #primary street frontage# shall be as shown on Map 3 (Ground Floor Use Requirements) in Appendix A of this Chapter. A #ground floor level# #street# frontage along any other #street# shall be considered a #secondary street frontage#.

The provisions of this Section shall apply to #developments# or #ground floor level# #enlargements#.

- (a) Along #primary street frontages#
 - (1) Type 1 #primary street frontages#

For #buildings#, or portions thereof, with Type 1 #primary street frontage#, #uses# on the #ground floor level#, to the minimum depth set forth in Section 37-32 (Ground Floor Depth Requirements for Certain Uses), shall be limited to #Gowanus retail and entertainment uses#, except for Type 1 lobbies and entrances and exits to #accessory# parking spaces provided in accordance with the applicable provisions of Section 37-33 (Maximum Width of Certain Uses). Group parking facilities located on the #ground floor level# shall be wrapped by #floor area# in accordance with the provisions of paragraph (a) of Section 37-35 (Parking Wrap and Screening Requirements). #Ground floor level# #street walls# shall be glazed in accordance with the provisions set forth in Section 37-34 (Minimum Transparency Requirements).

In addition, for #zoning lots# with over 100 feet of street frontage, wherever two required #street# tree pits will be separated by less than 25 feet, such tree pits shall be combined and designed as a single continuous tree pit.

139-43 - Sidewalk Widening Requirements

LAST AMENDED

For #developments# along the portions of #streets# designated on Map 4 (Sidewalk Widening Lines) in Appendix A of this Chapter, a sidewalk widening shall be required, providing a total sidewalk width of:

- (a) 17 feet along Third Avenue;
- (b) 15 feet along Nevins Street; and
- (c) 13 feet along Fifth Street.

The total sidewalk width shall be measured perpendicular from the #street line#. Such sidewalk shall be improved to Department of Transportation standards and shall be provided at the same level as the adjoining public sidewalk and be accessible to the public at all times.

Awnings and canopies shall be considered permitted obstructions within a sidewalk widening provided that no structural posts or supports may be located within any portion of the sidewalk or such widening.

139-44 - Bridge Connection Requirements

LAST AMENDED
11/23/2021

For all #zoning lots# abutting bridge structures supporting #streets# which cross the Gowanus Canal at Union Street, Carroll Street, and Third Street, and are subject to #waterfront public access area# requirements, such #waterfront public access area# shall be designed to provide pedestrian connection to the #street# adjacent to the terminus of the bridge structure.

The requirements of this Section may be waived where the Commissioner of the Department of Buildings determines, in consultation with the Department of Transportation, that such a pedestrian connection to the #street# would result in a hazard to pedestrian or traffic safety.

139-45 - Waterfront Public Access Area Requirements

LAST AMENDED
11/23/2021

For all #waterfront zoning lots#, the exemptions from #waterfront public access area# requirements listed in paragraph (a) of Section 62-52 shall not apply.

(a) Reduced requirement for certain manufacturing uses

For #zoning lots# with #developments#, #enlargements#, or #conversions# comprised of #predominantly# Use Group 18 #uses#, as listed in Section 42-15, the reduced design requirements of Section 62-58 (Requirements for Water-Dependent Uses and Other Developments) shall apply to #waterfront public access areas#.

(b) Authorization for incompatible uses

For #zoning lots# comprised #predominantly# of Use Group 16, 17, or 18 #uses#, the City Planning Commission may authorize the waiver of #waterfront public access area# requirements, provided the Commission finds that:

- (1) such #uses# produce objectionable effects on its surroundings such that the #uses# are incompatible with a waterfront public access requirement; or
- (2) such #uses# have demonstrable operational requirements which would be incompatible with waterfront public access requirements; and
- (3) such waiver is the least necessary to accommodate the proposed #uses#.

Such waivers shall be in effect for as long as the proposed #use# remains on the #zoning lot#. Upon #development# of the #zoning lot# following cessation of the #use# for a period of more than two years, full compliance with #waterfront public access area# requirements, as may be modified by future approvals, is required.

139-46 - Certification for Transit Improvements

LAST AMENDED
11/23/2021

(a) In #Commercial Districts# with a residential equivalent of an R9 District, for #developments# on #zoning lots# that are located within 500 feet of the Union Street subway station, the Chairperson of the City Planning Commission may, by certification to the Commissioner of Buildings, allow a #development# to:

- (1) receive a #floor area# bonus not to exceed 20 percent of the maximum #floor area ratio# permitted by Section 139-211 (Basic floor area regulations); and
- (2) further modify additional height permitted pursuant to paragraph (c) of Section 66-234 (Special height and setback modifications) provided the total combined modification does not exceed 30 feet;

where a major improvement to the Union Street subway station consisting of one new off-street station entrance with an accessible route for persons with physical disabilities between two levels servicing the southbound platform is provided.

(b) Prior to issuing such a certification, the following requirements shall be met.

- (1) To the extent required by the #transit agency#, the applicant shall execute an agreement, setting forth the obligations of the owner, its successors and assigns, to establish a process for design development and a preliminary construction schedule for the proposed improvement; construct the proposed improvement; establish a program for maintenance and capital maintenance; and establish that such improvements shall be accessible to the public during the hours of operation of the station or as otherwise approved by the #transit agency#. Where the #transit agency# deems necessary, such executed agreement shall set forth obligations of the applicant to provide a performance bond or other security for completion of the improvement in a form acceptable to the #transit agency#.
- (2) Prior to obtaining a foundation permit or building permit from the Department of Buildings, a written declaration of restrictions, in a form acceptable to the Chairperson of the City Planning Commission, containing complete drawings of the improvement and setting forth the obligations of the owner as agreed upon with the #transit agency# pursuant to the requirements of paragraph (b)(1) of this Section, shall be recorded against such property in the Borough Office of the City Register of the City of New York. Proof of recording of the declaration of restrictions shall be submitted in a form acceptable to the Department of City Planning.
- (3) No temporary certificate of occupancy shall be granted by the Department of Buildings for the portion of the #building# utilizing bonus #floor area# authorized pursuant to the provisions of this Section until the required improvements have been substantially completed, as determined by the Chairperson, acting in consultation with the #transit agency#, where applicable, and such improvements are usable by the public. Such portion of the #building# utilizing bonus #floor area# shall be designated by the Commission in drawings included in the declaration of restrictions filed pursuant to this paragraph.

No permanent certificate of occupancy shall be granted by the Department of Buildings for the portion of the #building# utilizing bonus #floor area# until all improvements have been completed in accordance with the approved plans, as determined by the Chairperson, acting in consultation with the #transit agency#, where applicable.

139-47 - Authorization for sites containing schools

LAST AMENDED
11/23/2021

For #zoning lots# containing #schools# regulated by the provisions of Section 139-214 (Special floor area provisions for zoning lots containing schools), the City Planning Commission may authorize the modification of any #bulk# regulation, including the amount of floor space exempted from the definition of #floor area# by Section 139-214, in order to better accommodate a #school# upon such #zoning lot#.

(a) Conditions

- (1) No modification to the maximum #building# height shall exceed 30 feet; and
- (2) No modification to the amount of floor space exempted from the definition of #floor area# shall exceed an additional 60,000 square feet of floor space.

(b) Findings

In determining such modifications, the Commission shall find:

- (1) such modification is the least modification required to achieve the purpose for which it is granted;
- (2) the proposed modification does not impair the essential character of the surrounding area; and
- (3) the proposed modification will not have adverse effects upon light, air, and privacy of adjacent properties and of any existing #buildings# on the #zoning lot#.

Applications for authorizations shall be referred to the affected Community Board for a period of at least 30 days for comment. The Commission shall grant in whole or in part or deny the application within 60 days of the completion of the Community Board review period.

139-48 - Authorization for Large Mixed-use Sites

LAST AMENDED
11/23/2021

In Subdistrict B, for #developments# on #zoning lots# located in a #Mixed-Use District#, on a #zoning lot# greater than 40,000 square feet in #lot area#, the City Planning Commission may authorize the modifications set forth in paragraph (a) of this Section, provided that the conditions in paragraph (b) and findings in paragraph (c) are met.

(a) Modifications

The Commission may modify the following regulations:

- (1) the #use# regulations of this Chapter, limited to ground floor #use# regulations and supplemental #use# regulations;
- (2) the #bulk# regulations of this Chapter, except #floor area ratio# regulations, provided that any modifications to height and setback regulations do not exceed the heights permitted in an M1-4 District as set forth in Section 43-43; and
- (3) the parking regulations related to the number of required #accessory# off-street parking spaces and the location and spacing of curb cuts.

(b) Conditions

As conditions for the granting of an authorization pursuant to this Section:

- (1) the #development# shall result in a mix of #uses# on the #zoning lot# where the predominant amount of #floor area# is associated with non-#residential# #uses#; or
- (2) the #development# shall:
 - (i) result in a mix of #uses# on the #zoning lot# where at least 20 percent of the #floor area# is associated with #Gowanus mix uses#;
 - (ii) not exceed 300 feet in height; and
 - (iii) be located on a #zoning lot# where existing #buildings# will occupy at least 20 percent of the #lot coverage#.

(c) Findings

In order to grant such authorization, the Commission shall find that:

- (1) where modifying #bulk# regulations, such modifications shall result in a superior configuration of non-#residential# #uses# on the #zoning lot# than would be feasible by applying the #Special Gowanus Mixed Use District# regulations;
- (2) where modifying ground floor #use# regulations, the advantages of an off-street loading and access outweigh the disadvantages incurred by the interruption of retail continuity; and
- (3) where modifying supplemental #use# and parking regulations, that such modifications would present a limited interruption and would not create serious vehicular traffic congestion that would adversely affect the surrounding area.

Upon completion of the #development#, the #zoning lot# shall remain in compliance with the conditions set forth in paragraph (b) of this Section. Such requirements shall be reflected in a notice of restrictions recorded against all tax lots comprising such #zoning lot#, and a copy of such notice shall be provided to the Department of Buildings.

The Commission may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area.

- (a) All #waterfront public access areas#
 - (1) Balconies

Balconies complying with the provisions of Section 23-132 (Balconies in R6 through R10 Districts) shall be permitted obstructions in #waterfront public access areas#, provided the depth of obstruction is limited to four feet, and provided they are located at or above the floor level of the third #story# above grade of the #building#.
 - (2) Sun control devices

Awnings and other sun control devices shall be permitted obstructions in #waterfront public access areas#. However, when located at a level higher than the first #story#, excluding a #basement#, all such devices:

 - (i) shall be limited to a maximum projection from a #building# wall of 2 feet, 6 inches; and
 - (ii) shall have solid surfaces that, in aggregate, cover an area no more than 30 percent of the area of the #building# wall (as viewed in elevation) from which they project.
 - (3) Kiosks

Where a #supplemental public access area# exceeds 15,000 square feet, a kiosk shall be a permitted obstruction in such #supplemental public access area# with an area up to 400 square feet, including roofed areas.
- (b) #Shore public walkways#
 - (1) Width of circulation paths

#Shore public walkways# shall provide a required circulation path with a minimum clear width of 10 feet. Secondary paths, where provided, shall have a minimum clear width of at least 4 feet, 6 inches.

At least 80 percent of a required circulation path shall be located at a level no less than six feet above the #shoreline#. However, up to 40 percent of such required circulation path may be provided below such level when providing access to a "get-down" located no more than two feet above the level of the #shoreline#.
 - (3) Access to circulation paths

The provisions of paragraph (a)(1) of Section 62-62 (Design Requirements for Shore Public Walkways and Supplemental Public Access Areas) shall apply, except that where a #shore public walkway# is on a #zoning lot# that is adjacent to a #zoning lot# which has not been improved with a #shore public walkway#, the portion of the circulation path that terminates at the common #zoning# #lot line# may be located within 40 feet of the shoreline.

 - (2) Lawns

The provisions of paragraph (c)(1) of Section 62-62 shall be modified so that a lawn shall only be required where a #supplemental public access area# is greater than 15,000 square feet. Where required, a lawn may be substituted for an athletic field of equivalent size, which may be unplanted, and shall be suitable for active recreational use.
 - (3) Comfort stations

Where a publicly accessible comfort station is provided as part of a #development#, the amount of #supplemental public access area# may be reduced by an amount equal to the size of the

In addition to the waiver allowances of paragraph (c)(2)(iii) of Section 62-62, no screening buffer shall be required along the upland boundary, or portion thereof, which is adjacent to an unenclosed seating area #accessory# to a #Gowanus retail and entertainment use#. Where a screening buffer is so waived, design features shall be utilized to demarcate the #shore public walkway# or #supplemental public access area# from the non-publicly accessible area, which may include, but shall not be limited to, railings, fences, planting boxes, and distinct paving materials.

(e) #Street# treatment

For #streets#, or portions thereof, located within the Gowanus Canal Waterfront Access Plan, the portion of the #street# that is adjacent to a #shore public walkway# shall be improved as upland access, for a depth equivalent to the adjacent #shore public walkway#. Where the provisions of this paragraph (f) are utilized, the location of the bulkhead shall be considered the #shoreline# for the purposes of providing the required #waterfront public access areas#.

(g) Issuance of foundation permits

Notwithstanding the provisions of Section 62-811 (Waterfront public access and visual corridors), within 18 months of November 23, 2021, a foundation permit may be issued for any #development# within the Waterfront Access Plan, upon certification by the Chairperson of the City Planning Commission to the Department of Buildings or Department of Business Services, as applicable, that:

- (1) a remedial action plan has been submitted to the Office of Environmental Remediation or the New York State Department of Environmental Conservation, which includes the #zoning lot# containing the #development#; and
- (2) a site plan has been submitted to the Department of City Planning, depicting that the proposed foundation will not conflict with the basic dimensional requirements of any required #waterfront public access area# or #visual corridor#, and, in addition, that the proposed foundation shall not conflict with any of the site-specific provisions below, based on the applicable Parcel number and Type:

(i) Type 1

For #developments# on Parcels 1, 2, 3, and 9, the site plan shall additionally designate all other potential locations where a #supplemental public access area# could be located, including:

- (a) adjoining each #street# abutting the #shore public walkway#; and
- (b) adjoining the #shore public walkway#.

In addition, for all #developments# on #zoning lots# which are not coterminous with the Parcel boundary, the #waterfront public access area# requirement for the depicted #zoning lot# shall be based on the combined #lot area# of the entire Parcel.

- (d) to create a livable community combining housing, retail and other uses throughout the district;
- (e) to create a walkable, urban streetscape environment through a mix of ground floor uses;
- (f) to create a lively and attractive built environment that will provide daily amenities and services for the use and enjoyment of area residents, workers and visitors;
- (g) to provide flexibility of architectural design within limits established to assure adequate access of light and air to the street, and thus to encourage more attractive and economic building forms on zoning lots with irregular shapes and on zoning lots fronting on the elevated rail structure along Jerome and River Avenues; and
- (h) to promote the most desirable use of land in accordance with a well-considered plan and thus conserve the value of land and buildings, and thereby protect the City’s tax revenues.

The portion of the #street wall# allocated to a wall treatment shall satisfy the planting requirement directly in front of such #street wall#.

Where planting is provided, the minimum depth of open space between the #street line# and the #street wall# shall not be less than three feet.

APPENDIX C, Table 1 — City Environmental Quality Review (CEQR) Environmental Requirements: (E) Designations

CITY ENVIRONMENTAL QUALITY REVIEW (CEQR) ENVIRONMENTAL REQUIREMENTS

Table 1 – (E) Designations

#Tax lot# changes that may have occurred since the establishment of a particular (E) Designation may not be reflected in this table. If the property in question is located on the same #tax block# as an (E) designation, review of the related CEQR documentation is recommended. For convenience, for (E) designations applied to a condominium, the condominium billing tax lot number is displayed instead of the individual condominium unit tax lot numbers.

#Application No.# – refers to a ULURP or non-ULURP application (containing six numbers followed by a three- or four-letter suffix) for a zoning text map or text amendment, special permit, authorization, or certification or to a Board of Standards and Appeals application (containing the letters “BZ”) for a special permit or variance.

#Lot Remediation Date# – refers to the date of the duly issued notice from the NYC Office of Environmental Remediation indicating that no investigative/remedial work is required for any current or future development of the lot.

* Underground gasoline storage tanks included in category of hazardous materials contamination as of 6/16/94.

** Indicates that a tax lot with multiple development sites is partially remediated.

APPENDIX C, Table 2 — City Environmental Quality Review (CEQR) Environmental Requirements: Environmental Restrictive Declarations

CITY ENVIRONMENTAL QUALITY REVIEW (CEQR) Environmental Requirements

Table 2 – Environmental Restrictive Declarations

The Environmental Restrictive Declarations (ERD) listed below were recorded in connection with a zoning action against the noted Tax Blocks and Tax Lots, or portion thereof, and are available in the property records on file at the Office of the City Register for Bronx, Kings, New York and Queens counties or at the Richmond County Clerk’s office. They contain environmental requirements with respect to hazardous materials, air quality and/or noise in accordance with Section [11-15](#) of this Resolution.

Tax Lot changes that may have occurred since the recordation of an ERD may not be reflected in this table. If the property in question is located on the same **Tax Block** as an ERD, review of the related CEQR documentation is recommended. For an ERD recorded against a condominium, the condominium billing tax lot number is displayed instead of the individual condominium unit tax lot numbers.

Reference No. – refers to the Environmental Restrictive Declaration identification number used for Table 2 reference purposes only.

Application No. – refers to a ULURP or non-ULURP application (containing six numbers followed by a three- or four-letter suffix) for a zoning map or text amendment, special permit, authorization or certification or to a Board of Standards and Appeals application (containing the letters “BZ”) for a special permit or variance.

Recording Reference No. – refers to one of the following: Reel No./Page No., City Register File No., or Land Doc No. For ERDs for properties in boroughs other than Staten Island, use the City Register File No. to locate the ERD online in the Automated City Register Information System (ACRIS) on the NYC Department of Finance’s website. For older ERDs for properties in boroughs other than Staten Island, use the year in **Date Recorded** along with the Reel No./Page No. to locate the ERD in ACRIS. For ERDs for properties in Staten Island, use the Land Doc. No. to locate the ERD via the website of the Office of the Richmond County Clerk.

Lot Remediation Date – refers to the date of the duly issued notice from the NYC Office of Environmental Remediation indicating that no investigative/remedial work is required for any current or future development of the lot.

The following text has been relocated from Article II, Chapter 7, and Section 37-04 (Requirements for Urban Plazas). APPENDIX E is intended for reference purposes only and contains design requirements for #plazas#, #residential plazas# and #urban plazas# developed prior to October 17, 2007.

The provisions of Section 37-60 (PUBLICLY ACCESSIBLE OPEN AREAS EXISTING PRIOR TO OCTOBER 17, 2007) set forth instances where the provisions of this APPENDIX E are superseded.

RESIDENTIAL PLAZA STANDARDS

(4/21/77)

E 27 - 00

GENERAL PURPOSES

The purpose of this Chapter is to promote the development of an improved quality of residential plaza for the public.

(8/27/98)

E 27 - 01

Applicability of this Chapter

The provisions of this Chapter shall apply to all #developments# constructed after April 21, 1977 containing a #residential plaza# or #arcade# that qualifies for a #floor area# bonus under the following provisions:

Section 24-14 (Floor Area Bonus for a Residential Plaza)

Section 24-15 (Floor Area Bonus for an Arcade)

Section 34-223 (Floor area bonus for a residential plaza)

Section 35-35 (Floor Area Bonus for a Residential Plaza, Urban Plaza or Arcade in Connection with Mixed Buildings)

A #development# that contains a #residential plaza# and that has been granted a special permit by the City Planning Commission prior to February 9, 1994, may be started or continued pursuant to that special permit. However, this Chapter shall not apply within a Special Purpose District except where permitted within such Special Purpose District, nor shall it apply to any #development# pursuant to the Quality Housing Program, except as otherwise set forth therein.

After June 12, 1996, no foundation permit shall be issued by the Department of Buildings for any #development# that includes a #residential plaza# without certification by the Chairperson of the City Planning Commission that a site plan has been submitted indicating compliance with the provisions of this Section. An application for such certification shall be filed with the Chairperson showing the plan of the #zoning lot#, a site plan indicating the area and dimensions of the proposed #residential plaza# and the location of the proposed #development# or #enlargement# and all existing #buildings# temporarily or permanently occupying the #zoning lot#, computations of proposed #floor area#, including bonus #floor area#, and a detailed plan or plans demonstrating compliance with the provisions of this Section.

All plans for #residential plazas#, once certified, shall be filed and duly recorded in the Borough Office of the City Register of the City of New York, indexed against the property in the form of a legal instrument providing notice of the certification of the #residential plaza# pursuant to this Section. Such filing and recording of the instrument shall be a precondition for the filing for or issuance of any building permit for any #development# or #enlargement# on the #zoning lot#. The recording information shall be included on the certificate of occupancy for any #building#, or portion thereof, on the #zoning lot# issued after the recording date.

E 27 - 02

Definitions

Words in italics are defined in Section 12-10 (DEFINITIONS) or, if applicable exclusively to this Section, in this Section.

Northern plaza

A "northern plaza" is a primary space that has only northern exposure.

Primary space

A "primary space" is the major portion of a #residential plaza# that abuts a #street#, and is accessible to the public for recreational use.

Residual space

A "residual space" is the remaining portion of a #residential plaza# that is not a #primary space#. Such space may be used either for public recreation or as a landscaped visual amenity.

4/21/77

E 27 - 10

PRIMARY SPACE

A #primary space# shall consist of at least 60 percent of the total area of a #residential plaza# and shall be directly accessible to the public from the public sidewalk.

#Zoning lots# having a maximum #lot area# of 20,000 square feet shall aggregate such #primary space# in one location.

For #zoning lots# having a #lot area# in excess of 20,000 square feet, such #primary space# may be located in more than one location on the #zoning lot# provided that the area of at least one #primary space# is not less than 4,000 square feet.

4/21/77

E 27 - 11

Mandatory Requirements

4/21/77

E 27 - 111

Size and proportions

For #zoning lots# having a #lot area# of 20,000 square feet or more, the minimum dimension of any #primary space# shall be 40 feet measured perpendicular to the perimeter of the #primary space#, except that where a #primary space# has only one #street# frontage, the minimum dimension shall be 50 feet.

For #zoning lots# having a #lot area# less than 20,000 square feet but not less than 12,500 square feet, the minimum dimension of any #primary space# shall be 30 feet, except that where a #primary space# has only one #street# frontage or where the #primary space# links two #streets# which are parallel or within 45 degrees of being parallel to each other, the minimum dimensions shall be 40 feet.

For #zoning lots# having a #lot area# less than 12,500 square feet, the minimum dimension of any #primary space# shall be 30 feet, except that there shall be no minimum dimensional requirements for #primary space# on #corner lots# having a #lot area# less than 12,500 square feet.

For the purpose of dimensional calculations only, a driveway or a vehicular accessway may be counted towards the minimum dimensional requirements of a #primary space#. However, in no case may such driveway or a vehicular accessway be bonused as part of a #residential plaza#. Such driveway or vehicular accessway may be located only alongside a #side lot line# or adjacent to the wall of the #building# of the #development#, and shall not interrupt the continuous area of the #primary space#.

For #zoning lots# having a #lot area# of 12,500 square feet or more, the depth of any #primary space# having only one #street# frontage shall not be greater than twice the width of the #primary space street# frontage. For #zoning lots# having a #lot area# less than 12,500 square feet, the depth of any #primary space# having only one #street# frontage shall not be greater than two and a half times the width of the #primary space street# frontage.

A #primary space# having only one #narrow street# frontage, and a #primary space# that links two #streets# which are parallel or within 45 degrees of being parallel to each other, shall be permitted only when one of the adjacent #buildings# on the #zoning lot# of the #development# or on a #zoning lot# sharing a common #side lot line# with the #zoning lot# of the #development# abutting the #primary space# is not more than 65 feet in height or five floors, whichever is less, before a 10 foot setback is provided. Such restrictions shall be waived for a #primary space# of more than 80 feet in width measured with or without adjoining #residual space#.

4/21/77

E 27 - 112

Orientation

All #developments# shall provide southern exposure where possible to provide maximum sunlight in #primary space#. Other exposures are permitted only when southern exposure is not possible.

Following are the types of orientation of different #primary spaces# based upon the size and location of the #zoning lot#:

- (a) Southern exposure: A #street line# of the #zoning lot# which has exposure to sunlight in any direction from south to west;
- (b) Eastern exposure: A #street line#, 125 feet or more in length, of the #zoning lot# which has exposure to sunlight in any direction from east to south;
- (c) Western exposure: A #street line#, 125 feet or more in length, of the #zoning lot# which has exposure to sunlight in any direction from west to north;
- (d) Northern exposure: A #street line# of the #zoning lot# which has exposure to sunlight in any direction from north to east or a #street line# less than 125 feet in length, of the #zoning lot# which has exposure to sunlight in any direction from east to south or west to north.

In a #development# to which this Chapter applies:

The #primary space# of any #zoning lot# having a #street line# with southern exposure, as defined in this Section, shall abut that #street line#. The #primary space# of any #zoning lot# having a #street line# with eastern, and no southern, exposure, as defined, shall abut that #street line#.

The #primary space# of any #zoning lot# having a #street line# with western, and no southern or eastern, exposure, as defined in this Section, shall abut that #street line#.

The #primary space# of any #zoning lot# having a #street line# with northern, and no southern, eastern or western exposure, as defined in this Section, shall be #developed# as a #northern plaza# pursuant to Section E27-30 (NORTHERN PLAZA).

The orientation requirements may be waived or modified by the City Planning Commission provided the Commission certifies to the Commissioner of Buildings that due to the surrounding area and the site configuration, including the disposition of surrounding #buildings# which may cast a permanent shadow on the #plaza#, a modification will enhance the usability and design of the #primary space# and of the #building#.

4/21/77

E 27 - 113

Access

All #primary spaces# shall be accessible directly from an adjoining public sidewalk along at least 50 percent of the total #street# frontage. Driveways or vehicular accessways included as part of the minimum dimension calculated, may not be counted as providing access.

All #primary spaces# shall be accessible to the public at all times, except that for a #primary space# having only one #narrow street# frontage, or a #primary space# which links two #streets# that are parallel or are within 45 degrees of being parallel, access may be restricted between the hours of 8:00 p.m. or dark whichever is later and 8:00 a.m. Such access may be restricted by the use of horizontal railings and/or vertical bars of a maximum one and 1/2 inch thickness and lockable gates. The railings when placed along the perimeter of the #primary space# shall occupy not more than 50 percent of the #street# frontage of the #primary space#, and shall not be higher than 8 feet, 0 inches. Gates, when placed along the perimeter of the #primary space#, when open during hours of accessibility, shall allow access along at least 50 percent of the #street# frontage of the #primary space# or 40 feet, whichever is less, and shall not be higher than eight feet. Such gates shall remain unlocked between the hours of 8:00 a.m. and 8:00 p.m. or dark whichever is later. In order to allow maximum visibility from the public sidewalk, the bars of any horizontal railing and/or vertical bars and gate shall be at least five inches apart. Spikes, pointed railings or other sharp objects shall not be placed anywhere within the #primary space#, except that such railings as permitted above may be pointed. Enclosures designed without horizontal railings and/or vertical bars may be permitted provided the City Planning Commission certifies to the Commissioner of Buildings that such design will enhance the quality and visual access of the #primary space#.

4/21/77

E 27 - 114

Access for the physically disabled

The following standards shall apply to assure access for disabled persons into and within all #primary spaces#.

There shall be at least one path of travel to major portions of #primary space# which in area total at least 60 percent of the unobstructed #primary space# area, and a path to any building lobby accessible from the #primary space#. All paths shall have a minimum width of five feet, except where specific provisions require a greater width, free and clear of all obstructions.

Ramps shall be provided alongside any stairs or steps which provide access to or within #primary spaces#. Ramps shall have a minimum width of 3 feet, 0 inches, a slope of not greater than 1:12, a non-skid surface, and, for open-edged ramps, a two-inch high safety curb. At each end of a ramp there shall be a level area, which may be public sidewalk, at least five feet long.

All stairs or ramps within such paths shall provide handrails. Handrails shall be 2 feet, 8 inches high, have a midrail not lower than 16 inches and not higher than 22 inches, and shall extend at least 18 inches beyond the stair or ramp ends.

Where stairs are used to affect changes of grade for such paths they shall have closed risers, no projecting nosings, a maximum riser height of seven and 1/2 inches, and a minimum tread width of 11 inches.

4/21/77

E 27 - 115

Elevation

All #primary spaces# shall be located at an elevation not more than three feet above or below the #curb level# of the nearest adjoining sidewalk.

A #primary space# fronting on one #street#, or a #primary space# which links two #streets# which are parallel or within 45 degrees of being parallel to each other, shall be at the same elevation as the adjoining public sidewalk along the #street# frontage providing access, pursuant to Section E27-113 (Access), for a minimum depth of 10 feet measured perpendicular to the #street line#.

When the size of a #primary space# is 8,000 square feet or more, a maximum of 25 percent of its area may be located at an elevation more than three feet above or below the nearest adjoining sidewalk, which area however may not be located within a depth of 10 feet from the sidewalk, measured perpendicular to the #street line#.

When there is a grade change of at least three feet in 100 along the portion of #street# upon which a #primary space# of 4,000 square feet or more fronts, for a distance of at least 100 feet, the level of such #primary space# may be located at an elevation greater than three feet above or below the #curb level#, provided the City Planning Commission certifies to the Commissioner of Buildings that such elevation will enhance the usability and design while maintaining safety and visibility of the #primary space#.

Where an existing subway station entry is located on the sidewalk area abutting a #primary space#, the #primary space# shall be developed at the same elevation as the adjoining sidewalk for a distance of at least 15 feet in all directions from the entry. No obstruction shall be permitted within such portion of the #primary space#.

(a) Area dimensions

An #urban plaza# shall contain an area of not less than 1,600 square feet. In no case may spaces between existing #buildings# remaining on the #zoning lot# qualify as #urban plazas#. (b) Locational restrictions

In other than C5-5 or C6-9 Districts, no #urban plaza#, or portion thereof, is permitted to occupy more than 33 percent of the frontage of the #zoning lot#, or portion thereof, within 175 feet of an existing #plaza#, #urban plaza#, #public park# or urban park that occupies more than 33 percent of its #block# frontage on the same or opposite side of the same #street# and has a depth of at least 12 feet. The distance of 175 feet shall be measured along the #street# on which the existing amenity fronts.

(c) Restrictions on orientation

In other than C5-5 or C6-9 Districts, the following restrictions shall apply to all #urban plazas#:

For purposes of the orientation requirements, a "north-facing," "south-facing," "east-facing" or "west-facing" #street line# means a #street line# facing within 27 degrees of the direction indicated. "To front on a #street#" means to be contiguous to the #street line# or to a sidewalk widening along the #street line#.

- (1) Where the major portion of an #urban plaza# fronts on only one #street line#, such major portion is not permitted to front on a north-facing #street line# of a #zoning lot#.
- (2) No major portion of an #urban plaza# shall only front on a west-facing #street line# or an east-facing #street line# if the #zoning lot# also has frontage that is 40 feet or more in length on a south-facing #street line#.
- (3) An #urban plaza# that is located on an intersection of two #streets# must have its major portion, as defined in paragraph (d)(2) of this Section, front on the south-facing #street line#. In the case of a #zoning lot# having frontage on a south-facing #street line# of less than 40 feet, or having its frontage at the intersection of a north-facing #street line# with either an east- or west-facing #street line#, the major portion must front on the east- or west-facing #street line#.

(d) Requirements for major portions of #urban plazas#

- (1) All contiguous #urban plaza# areas on a #zoning lot# shall be considered as one #urban plaza#.
- (2) The shape and dimensions of an #urban plaza# shall be such that for a major portion of the #urban plaza#, comprising at least the percentage of total area specified herein, all points within such major portion shall be visible from all other points therein. For the purposes of this regulation, points that when viewed in plan may be joined by a straight line shall be considered visible.

one from the other; visibility between points shall not be affected by permitted obstructions or by changes of grade.

The major portion of an #urban plaza# shall be at least 70 percent of the #urban plaza's# total area, except that in the case of a through #block urban plaza# as defined in paragraph (e) of this Section, the major portion shall be at least 50 percent of such #urban plaza's# total area. The major portion of the #urban plaza# shall be subject to the proportional requirements set forth in paragraphs (d)(4) and (d)(5) of this Section.

- (3) The major portion of an #urban plaza# shall have a minimum dimension of 40 feet. The remaining portion of such #urban plaza# shall have a minimum dimension of 20 feet. Dimensions shall be measured parallel and perpendicular to the #street line# on which the #urban plaza# fronts.
- (4) For major portions of #urban plazas# with frontage on two or more intersecting #streets#, the length of the frontage along any one #street# shall not be greater than three times the average depth of the #urban plaza# measured perpendicular to the #street line# of said #street# from the building wall that faces it.
- (5) For major portions of #urban plazas# with frontage on only one #street#, at no point shall the depth from the building wall or rear #lot line# that faces the #street# to the #street line# be less than one-third nor more than three times the length of the frontage of the major portion along such #street line#.

(e) Regulations for through #block urban plazas#

Where an #urban plaza# or portion of an #urban plaza# extends through the #block# connecting two #streets# that are parallel or within 45 degrees of being parallel to each other, and any building wall or walls adjoin such through #block urban plaza# or through #block# portion of an #urban plaza#, no more than 120 feet aggregate length of such walls within 50 feet of the opposite side of the through #block urban plaza# shall exceed 90 feet in height from the surface of the #urban plaza#. In addition to the 20 feet minimum width requirement described in paragraph (d)(3) of this Section, such a through #block urban plaza# shall maintain a straight path at least 15 feet in width, free of any obstructions from #street line# to #street line#.

(f) Circulation and access

- (1) To facilitate access to an #urban plaza#, within 10 feet of a #street line# or sidewalk widening, along at least 50 percent of each #street# frontage of the major portion and the entire #street# frontage of the remaining portion of an #urban plaza#, the surface of the #urban plaza# shall be at the same elevation as the adjoining public sidewalk. Along at least 50 percent of each #street# frontage of the major portion and at least 50 percent of each #street# frontage of the remaining portion of an #urban plaza#, for a depth of at least 20 feet from the #street line#, there shall be no obstruction to public access to the #urban plaza# from a sidewalk or sidewalk widening. For the remaining 50 percent of the frontage and within 20 feet of the #street line#, no walls or other obstructions shall be higher than three feet above the #curb level# of the #street line# in front of the #urban plaza#. However, the City Planning Commission may permit, by authorization, certain obstructions such as light stanchions, flag poles, trash receptacles, public space signage or other features to be located in the #urban plaza# within 20 feet of the #street line#, provided that the Commission finds that:
 - (i) such obstructions are desirable or necessary features for the public enjoyment of the #urban plaza#; and
 - (ii) sufficient public access additional to the minimum required under the provisions of this paragraph (Circulation and access) is provided to offset any adverse impact on public circulation or access caused by the obstructions or features permitted by such authorization.

The Commission shall furnish a copy of the application for such authorization to the affected Community Board and the local Council Member at the earliest possible stage and will give due consideration to their opinions as to the appropriateness of such obstructions. If the Community Board or local Council Member elects to comment on such application, it must be done within 45 days of such application.

- (2) The level of an #urban plaza# shall not at any point be more than three feet above or below the #curb level# of the nearest adjoining #street# in front of the major portion of the #urban plaza#; however, an #urban plaza# with an area of 10,000 square feet or more may additionally have a maximum of 15 percent of its area at an elevation more than three feet above or below, but not more than five feet above or below #curb level# of the nearest adjoining #street# in front of the major portion of the #urban plaza#.
- (3) Where there is a grade change of at least 2.25 feet in 100 feet along a portion of a #street# fronted upon, for a distance of at least 75 feet, by an #urban plaza# with an area of 10,000 square feet or more, the level of such #urban plaza# may be at any elevation that is not more than five feet above or below the #curb level# of the nearest adjoining #street# in front of the #urban plaza#. Along the length of frontage not required for access, no wall higher than three feet above the level of the adjoining sidewalk may be constructed.
- (4) For areas of #urban plazas# not obstructed by permitted obstructions as set forth in paragraph (f)(1) of this Section, a circulation path shall be provided of at least five feet clear width. A major public path at least eight feet in width shall extend to at least 75 percent of the depth of the major portion of the #urban plaza#, measured from the #street line#.
- (5) Where an entry to a subway station exists in the sidewalk area of a #street# on which an #urban plaza# fronts and such entry is not replaced within the #urban plaza# itself, the #urban plaza# shall be #developed# at the same elevation as the adjacent sidewalk for a distance of at least 15 feet in all directions from the entry superstructure. Such #urban plaza# area around a subway entry shall be free of all obstructions.
- (6) Where an entry to a subway station is provided within the #urban plaza# itself, stairs shall have a minimum width of 10 feet.
- (7) All #urban plazas# shall be accessible to the public at all times, except where the City Planning Commission has authorized a nighttime closing in accordance with Section 37-06 or, within C6-4X Districts, for a #development# or #enlargement# with more than 25 percent of its total #floor area# occupied by #residential use#, where the Chairperson of the City Planning Commission certifies to the Commissioner of Buildings that:
 - (i) the enclosure or barrier that limits public access shall not obstruct access to the #urban plaza# or impede pedestrian circulation into, through or along the frontage of the #urban plaza# during hours of public access, and shall allow visibility of the #urban plaza# when the enclosure or barrier is in closed position;
 - (ii) public access to the #urban plaza# will be provided, at a minimum, between the hours of 7:00 a.m. and 8:30 p.m. from May 1 to September 30 and from 7:00 a.m. to 7:00 p.m. from October 1 to April 30, and that the hours of public access to the #urban plaza# shall be prominently displayed on a plaque affixed to the enclosure or barrier at each #street# frontage of the #urban plaza#; and
 - (iii) the #urban plaza# shall be illuminated at night in accordance with paragraph (n) of this Section.

All applications for such certification shall include detailed plans demonstrating compliance with the provisions of this paragraph, (f)(7), inclusive. The plans shall include, but not necessarily be limited to, a site plan and elevation showing location and dimensions of the proposed gates, fences or other enclosure devices, and signage indicating hours of public access to the #urban plaza#. All such plans, once certified, shall be filed and duly recorded in the Borough Office of the City Register of the City of New York, indexed against the property in the form of a legal instrument providing notice of certification pursuant to this Section. Such filing and recording of the instrument shall be a precondition for the restricted hours of public access of an #urban plaza#. The recording information shall be included on the certificate of occupancy for any #building#, or portion thereof, on the #zoning lot#, issued after the recording date.

(g) Permitted obstructions

- (1) #Urban plazas# shall be unobstructed from their lowest level to the sky except for the following features, equipment and appurtenances normally found in #public parks# and playgrounds: fountains and reflecting pools; waterfalls; sculptures and other works of art; benches; seats; trees planted at grade or in planting beds; bushes and flowers in planters or in planting beds; arbors or trellises over public seating areas; litter receptacles; bicycle racks; outdoor furniture; lights and lighting stanchions; flag poles; public telephones; public toilets; temporary exhibitions; awnings or canopies over the entrances to retail stores fronting on the #urban plaza#; bollards; subway station entrances, which may include escalators; and drinking fountains. If drinking fountains are provided, at least one fountain shall be accessible to wheelchair users by being 30 inches high, hand-and-foot operated, and display the International Symbol of Access. In addition to the obstructions listed in this paragraph, #urban plazas# having an area of 10,000 square feet or more may include an open air amphitheater or an outdoor ice skating rink. However, an area occupied in aggregate by such permitted obstruction shall not exceed the maximum percentage cited in paragraph (g)(2) of this Section.
- (2) Permitted obstructions may occupy a maximum percentage of the area of a #urban plaza#, as follows:

For #urban plazas# less than 5,000 square feet in area: 38 percent

For #urban plazas# at least 5,000 square feet in area and less than 10,000 square feet in area: 40 percent

For #urban plazas# 10,000 square feet or more in area: 50 percent

The area of permitted obstructions shall be measured by outside dimensions. Obstructions that are non-permanent or movable, such as movable chairs, open air cafes, or temporary exhibitions shall be confined within gross areas designated on the site plan, and not measured as individual pieces of furniture.

Trees do not count as obstructions for the purpose of calculating total area occupied by permitted obstructions. Planting beds and their retaining walls for trees count as obstructions.

- (3) Kiosks and open air cafes may be placed within an #urban plaza# upon certification, pursuant to paragraphs (g)(5) and (g)(6) of this Section. Such features shall be treated as permitted obstructions for the purposes of paragraph (g).

Where a kiosk is provided, it shall be a one-story structure, predominantly of light-colored materials, such as metal, glass, plastic or fabric as approved by the Department of Buildings in conformance with the Building Code, that, including roofed areas, does not occupy an area in excess of 150 square feet, except that where the #urban plaza# has an area of less than 5,000 square feet, the aggregate area of the kiosks shall not exceed 100 square feet measured by exterior dimensions. The aggregate area occupied by kiosks in an #urban plaza# larger than 5,000 square feet shall not exceed 150 square feet or 1.5 percent of the total area of the #urban plaza#, whichever is greater, provided no one kiosk occupies an area of more than 150 square feet. A kiosk may be freestanding or may be attached on only one side to a wall of the #building# of the #development# or a #building# on the adjacent #zoning lot#. Any area occupied by a kiosk shall be excluded from the definition of #floor area#, and may be occupied by #uses# such as news or magazine stands, candy stands, flower stands or information booths.

Where an open air café is provided, it shall occupy an aggregate area not more than 20 percent of the total area of the #urban plaza#. It shall be a permanently unenclosed restaurant or eating or drinking place, permitted by applicable district regulations, which may have waiter or table service, and shall be open to the sky except that it may have a temporary fabric roof in conformance with the Building Code. An open air café must be accessible from all sides where there is a boundary with the remainder of the #urban plaza#. No kitchen equipment shall be installed within an open air café; however, kitchen equipment may be contained in a kiosk adjoining an open air café. An open air café qualifying as a permitted obstruction shall be excluded from the definition of #floor area#.

Notwithstanding the provisions of Section 32-41 (Enclosure Within Buildings), outdoor eating services or #uses# occupying kiosks may serve customers in an #urban plaza# through open windows. In all cases, only #uses# permitted by the applicable district regulations may occupy #urban plazas# or front on #urban plazas#.

- (4) Open air amphitheatres and open air ice skating rinks that charge admission may be placed within an #urban plaza# upon certification pursuant to paragraphs (g)(5) and (g)(6) of this Section. Such features shall be treated as permitted obstructions for the purposes of this paragraph (Permitted obstructions).
- (5) Kiosks and open air cafes that comply with the provisions of paragraph (g)(3) of this Section, and open air amphitheatres or open air ice skating rinks that charge admission may be placed within the area of an #urban plaza# upon certification by the Chairperson of the City Planning Commission to the Commissioner of Buildings, that:
- (i) such #use# promotes public use and enjoyment of the #urban plaza#;
 - (ii) such #use# complements and stabilizes desirable #uses# in the surrounding area;
 - (iii) such #use# is provided in accordance with the requirements set forth in this Section; and
 - (iv) the owners of such #use# will maintain such #use# in accordance with the provisions of paragraph (q) (Maintenance) of this Section.

All applications for the placement of kiosks, open air cafes, open air amphitheatres or open air ice skating rinks that charge admission within an #urban plaza# filed with the Commission shall include a detailed site plan or plans indicating compliance with the provisions of this Section. All such plans for kiosks, open air cafes, open air amphitheatres or open air ice skating rinks that charge admission, once certified, shall be filed and duly recorded in the Borough Office of the City Register of the City of New York, indexed against the property in the form of a legal instrument providing notice of the certification for the kiosk, open air café, open air amphitheater or open air ice skating rink that charges admission, pursuant to this Section. Such filing and recording of the instrument shall be a precondition for the placement of the kiosk, open air café, open air amphitheater or open air ice skating rink that charges admission within the #urban plaza#. The recording information shall be included on the certificate of occupancy for any #building#, or portion thereof, on the #zoning lot# issued after the recording date.

- (6) An application for certification shall be filed with the Chairperson of the City Planning Commission, and the Chairperson shall furnish a copy of the application for such certification to the affected Community Board at the earliest possible stage. The Chairperson will give due consideration to the Community Board's opinion as to the appropriateness of such a facility in the area and shall respond to such application for certification within 60 days of the application's receipt.

The Chairperson shall file any such certification with the City Council. The Council, within 20 days of such filing, may resolve by majority vote to review such certification. If the Council so resolves, within 50 days of the filing of the Chairperson's certification, the Council shall hold a public hearing and may approve or disapprove such certification. If, within the time periods provided for in this Section, the Council fails to act on the Chairperson's certification, the Council shall be deemed to have approved such certification.

Such certification shall be effective for a period of three years but, upon application, may be renewed for a similar period by the Chairperson of the City Planning Commission.

- (h) Prohibition of driveways, parking spaces, loading berths, exhaust vents and building trash storage facilities

No driveways, parking spaces, passenger drop offs or loading berths shall be permitted within an #urban plaza#. No building trash storage facilities are permitted within an #urban plaza#, nor shall any building trash storage facility be accessed or serviced through the #urban plaza#. If parking spaces, passenger drop-offs, driveways, loading berths or building trash storage facilities are located near or adjoin an #urban plaza#, they shall be separated from it by a building wall or planted area sufficient to visually conceal these facilities and any vehicles therein from any point in the #urban plaza#.

No exhaust vents are permitted on any #urban plaza# or on the building wall of the #development# fronting upon the #urban plaza#, except where such vents on the building wall are more than 8 feet, 6 inches above the level of the #urban plaza#.

- (i) Seating

There shall be a minimum of one linear foot of seating for each 30 square feet of #urban plaza# area, except that for #urban plazas# fronting upon a #street# having a grade change of at least 2.25 feet in 100 feet or for through #block urban plazas#, there shall be a minimum of one linear foot of seating for each 40 square feet of #urban plaza# area.

Not more than 50 percent of the linear seating capacity may be in movable seats that may be stored between the hours of sunset and sunrise.

The following standards shall be met for all required seating:

- (1) Seating shall have a minimum depth of 16 inches; however, seating with backs shall have a minimum depth of 14 inches and a maximum depth of 22 inches and backs shall be at least 12 inches high. Seating 30 inches or more in depth shall count double, provided there is access to both sides.
- (2) At least 75 percent of the required seating shall have a height not less than 16 inches nor greater than 20 inches above the level of the adjacent walking surface and at least 50 percent of this seating shall have backs at least 12 inches high. Seating higher than 36 inches or lower than 12 inches above the level of the adjacent walking surface shall not count towards meeting the seating requirements.
- (3) The flat tops of walls including but not limited to those that bound planting beds, fountains and pools may be counted as seating when they conform to the dimensional standards in paragraphs (f)(1) and (f)(2) of this Section, provided that they are made of stone, concrete or similar composite material, wood or plastic with a smooth surface and rounded upper edges with a radius of at least one inch to ensure seating comfort.
- (4) Movable seating or chairs, excluding seating for open air cafes, may be credited as 18 inches of linear seating per chair.
- (5) Steps, seats in outdoor amphitheatres and seating of open air cafes do not count towards meeting the seating requirement.
- (6) Seating for any #use# within an #urban plaza# is subject to applicable articles and amendments of the New York City Building Code.
- (7) For the benefit of persons with disabilities, a minimum of five percent of the required seating shall have backs.

- (j) Planting and trees

For an #urban plaza# not exceeding 2,000 square feet in area, four trees are required.

For an #urban plaza# greater than 2,000 square feet in area but not exceeding 6,000 square feet in area, one tree is required for every 600 square feet, or part thereof, of #urban plaza# area.

For an #urban plaza# greater than 6,000 square feet in area, one tree is required for every 600 square feet, or part thereof, of #urban plaza# area for the first 6,000 square feet of area and one additional tree is required for every 1,000 square feet, or part thereof, of the remaining #urban plaza# area.

For all #urban plazas#, at least 50 percent of the required plaza trees shall be planted with gratings flush to grade.

Where trees are planted within an #urban plaza#, they shall measure at least four inches in caliper at the time of planting. Each tree shall be planted in at least 200 cubic feet of soil with a depth of soil of at least 3 feet, 6 inches. Any planting bed containing required plaza trees shall have a continuous area of at least 75 square feet for each tree exclusive of bounding walls and shall have bounding walls not higher than 20 inches above the adjacent walking surface. Trees shall be planted at a maximum spacing of 25 feet within a single planting bed.

When planting beds are provided, they shall have a soil depth of at least two feet for grass or other ground cover, three feet for shrubs and 3 feet, 6 inches for trees.

#Street# trees are required to be planted in the public sidewalk area adjacent to a #zoning lot# that contains bonus #floor area# for #urban plazas#. At least one tree of four-inch caliper or more shall be planted for each 25 feet of the entire #street# frontage of the #zoning lot#, excluding the frontage occupied by driveways. The length of frontage of the #zoning lot# for the purpose of computing required #street# trees may also be reduced by 50 feet for each #street# intersection fronted by the #zoning lot#. The required trees shall be planted with gratings flush to grade in at least 200 cubic feet of soil per tree, with a depth of soil of at least 3 feet, 6 inches. Species shall be selected, located and maintained in accordance with the specifications established by the Department of Parks and the Department of Highways. If the Commissioner of Buildings determines that the tree planting requirements of this paragraph cannot be met in part or in whole because of subsurface conditions such as the presence of a subway tunnel, the number of required #street# trees that cannot be planted as required in this paragraph shall be planted in the public sidewalk areas of #streets# on the same #block# as the #zoning lot# to which it has frontage or within the #urban plaza#.

(k) Mandatory allocation of frontages for permitted #uses#

At least 50 percent of the total frontage of building walls of the #development# fronting on an #urban plaza#, or fronting on an #arcade# adjoining an #urban plaza#, exclusive of such frontage occupied by vertical circulation elements, building lobbies and frontage used for subway access, shall be allocated for occupancy by retail or service establishments permitted by the applicable district regulations. In addition, libraries, museums and art galleries shall be permitted. All such #uses# shall be directly accessible from the major portion of the #urban plaza# or adjoining arcade.

The remaining frontage may be occupied by other #uses#, lobby entrances or vertical circulation elements, in accordance with the district regulations.

Frontage on the #urban plaza# that is occupied by a building lobby shall not exceed 75 feet or 40 percent of the total frontage of the #development's# building walls on the major portion of the #urban plaza#, whichever is less.

The building frontage on the major portion of the #urban plaza# shall be treated with clear, untinted transparent material for 50 percent of its surface area below 14 feet above the #urban plaza# level, or the ceiling level of the ground floor of the #building#, whichever is lower.

(l) Paving

The paving of the #urban plaza# shall be of non-skid durable materials that are decorative and compatible in color and pattern. The paving of the #street# sidewalk area adjacent to the #development# may be treated with design patterns and materials sympathetic to that of the paving of the #urban plaza#. Any change of paving materials within the public right-of-way shall require review by the Department of Highways and the Art Commission.

(m) Standards of accessibility for persons with disabilities to #urban plazas#

(1) There shall be at least one path of travel conforming to the standards set forth in paragraph (m)(2) of this Section, providing access to each of the following:

- (i) the major portion of an #urban plaza#;
- (ii) any building lobby accessible to the #urban plaza#; and
- (iii) any #use# that may be present on or adjacent to the #urban plaza#.

(2) The following standards shall apply to assure access for persons with disabilities:

- (i) Such paths shall have a minimum width of five feet, except where specific provisions require a greater width, free and clear of all obstructions.
- (ii) Ramps shall be provided alongside any stairs or steps for such paths. Ramps shall have a minimum width of three feet, a slope of not greater than 1:12, a non-skid surface and, for open-edged ramps, a two-inch high safety curb. At each end of a ramp there shall be a level area, which may be a public sidewalk, at least five feet long.
- (iii) All stairs or ramps within such paths shall provide handrails. Handrails shall be 34 inches high, have a midrail 22 inches high and shall extend at least 18 inches beyond the stair or ramp ends.
- (iv) Where stairs are used to effect changes of grade for such paths, they shall have closed risers, no projecting nosings, a maximum riser height of seven and one-half inches and a minimum tread width of eleven inches.

(n) Lighting and electrical power

#Urban plazas# shall be illuminated with a minimum level of illumination of not less than two horizontal foot candles (lumens per foot) throughout all walkable and sitting areas and a minimum level of illumination of not less than 0.5 horizontal foot candles (lumens per foot) throughout all other areas. Such level of illumination shall be maintained from sunset to sunrise. A lighting schedule, including fixtures, wattage and their locations and designs together with a diagram of light level distribution shall be part of the required detailed design plans as set forth in this Section. Electrical power shall be supplied by one or more outlets furnishing a total of at least 1,200 watts of power for every 4,000 square feet, or fraction thereof, of the area of an #urban plaza#.

(o) Public space signage systems

The following public space signage systems shall be required for all #urban plazas#:

(1) Entry plaque

The entry plaque shall be located at each #street# frontage or point of pedestrian entry to the #urban plaza#. A maximum of two entry plaques may be provided. The entry plaque shall contain:

- (i) a public space symbol which is at least 14 inches square in dimension; has a white background; has a grid of four (4) straight lines no greater than one-eighth inch wide and green in color; and has a tree-shaped symbol as shown;

- (ii) lettering at least two inches in height stating "OPEN TO PUBLIC." This lettering shall be located within nine inches of the public space symbol; and
- (iii) an International Symbol of Access for persons with disabilities that is at least three inches square.

The entry plaque shall be mounted on a wall or a permanent free-standing post with its center five feet above the elevation of the nearest walkable pavement. It shall be in a position that clearly identifies the entry into the #urban plaza#, and placed so that the entire entry plaque is obvious and directly visible, without any obstruction, along every line of sight from all paths of pedestrian access to the #urban plaza#.

(2) Information plaque

An information plaque, with a surface area of not less than two feet square, constructed from the same permanent materials as the entry plaque and located within the most frequently used area of the #urban plaza#, with clear lettering consisting of:

- (i) the type and quantity of trees, movable seating and permanent artwork;
- (ii) the name of the current owner of the building and the name, address and phone number of the person designated to maintain the #urban plaza# between the hours of 9:00 a.m. and 5:00 p.m.;
- (iii) the statement, "Complaints regarding this urban plaza may be addressed to the Department of City Planning or the Department of Buildings of the City of New York"; and
- (iv) the statement, "This urban plaza is accessible to persons with disabilities."

(p) #Signs#

An #urban plaza# shall be treated as a #street# for the purposes of the applicable #sign# regulations. #Signs#, except for the plaque required by paragraph (o) of this Section, are permitted only as #accessory# to #uses# permitted within the #urban plaza# and #uses# adjoining the #urban plaza#, and are otherwise regulated by the applicable district regulations set forth in Section 32-60 (SIGN REGULATIONS).

(q) Maintenance

- (1) The building owner shall be responsible for the maintenance of the #urban plaza# including, but not limited to, the confinement of permitted obstructions, litter control, and the care and replacement of vegetation within the #zoning lot# and in the #street# sidewalk area adjacent to the #zoning lot#.
- (2) Litter receptacles shall be provided with a minimum capacity of one cubic foot for each 2,000 square feet of #urban plaza# area excluding the area of any sidewalk widening. An additional capacity of one cubic foot of litter receptacle shall be provided for each 2,000 square feet of #urban plaza# area in connection with outdoor eating services or other #uses# permitted within #urban plazas# that generate litter.
- (3) Kiosks, open air cafes, open air amphitheatres and open air ice skating rinks permitted in accordance with the provisions of this Section shall be confined within areas designated on building plans as available for occupancy by such #uses#. Encroachment by an #urban plaza use# outside an area so designated shall be a valid ground for complaint and removal.
- (4) Performance bond

Prior to obtaining any certificate of occupancy from the Department of Buildings, the building owner shall post with the Comptroller of the City of New York, a performance bond, City securities or fixed income securities, at the Comptroller's discretion, to ensure the mandatory tree planting, movable seating exclusive of any seating for open air cafes, and the litter-free maintenance of the #urban plaza# including the replacement of such trees and movable furniture during the life of the #development#.

In the event of a failure in the required performance, the Chairperson of the City Planning Commission shall notify the building owner in writing of such failure and shall stipulate the period of time in which the building owner has to correct the failure. If the failure is not corrected in the stipulated time, the Chairperson may declare the building owner in default in the required performance and the City may enforce the obligation by whatever means may be appropriate to the situation, including letting contracts for doing any required planting, installation or maintenance and paying all labor, material and other costs connected with such work from the bond or City securities that the building owner is required to provide.

In the event that the City enforces the aforementioned obligation as provided for in this paragraph (Performance bond), the building owner shall, within 90 days of such enforcement, provide the City with an additional bond or City securities in an amount not less than that which was expended to cure the default.

The value of the bond or City securities if tendered prior to January 1, 1998, shall be at a rate of \$750 per required tree, \$100 per movable chair and \$200 per 1,000 square feet of #urban plaza# for litter removal as set forth in this Section.

Effective January 1, 1989, and at five-year intervals thereafter, the City Planning Commission shall establish new rates for the mandatory tree planting, movable seating and litter-free maintenance of the #urban plaza#.

(r) Penalties for violations

Failure to comply with the conditions or restrictions of the bonused #urban plaza# shall constitute a violation of this Resolution and shall constitute the basis for denial or revocation of a building permit or certificate of occupancy and for all other applicable remedies.

No foundation permit shall be issued by the Department of Buildings for any #development# that includes an #urban plaza# without certification by the Chairperson of the City Planning Commission that a site plan has been submitted indicating compliance with the provisions of this Section. An application for such certification shall be filed with the Chairperson showing the plan of the #zoning lot#, a site plan indicating the area and dimensions of the proposed #urban plaza# and the location of the proposed #development# or #enlargement# and all existing #buildings# temporarily or permanently occupying the #zoning lot#, computations of proposed #floor area#, including bonus #floor area#; and a detailed plan or plans demonstrating compliance with the provisions of this Section.

All plans for #urban plazas#, once certified, shall be filed and duly recorded in the Borough Office of the City Register of the City of New York, indexed against the property in the form of a legal instrument providing notice of the certification of the #urban plaza# pursuant to this Section. Such filing and recording of the instrument shall be a precondition for the filing for or issuance of any building permit for any #development# or #enlargement# on the #zoning lot#. The recording information shall be included on the certificate of occupancy for any #building#, or portion thereof, on the #zoning lot# issued after the recording date.
